COMPENSATION DISCUSSION AND ANALYSIS

Overview of Compensation Program

The Compensation Committee (for purposes of this analysis, the Committee) of the Board has responsibility for establishing, implementing and continually monitoring adherence with the Company's compensation philosophy. The Committee ensures that the total compensation paid to the named executive officers is fair, reasonable and competitive. Generally, the types of compensation and benefits provided to the named executive officers, including the

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form DEF 14A

actively-employed named executive officers, are similar to those provided to other executive officers in publicly traded financial institutions.

On February 6, 2009, we became a participant in the U.S. Treasury's Troubled Asset Relief Program (TARP) by participating in the Capital Purchase Program element of TARP. As a result of our participation in TARP, The First Bancshares, Inc. and certain of our employees will be subject to compensation related limitations and restrictions for the period that we continue to participate in TARP. The TARP compensation limitations and restrictions include the following:

- o Except in limited circumstances, our most highly compensated employee (as determined) will be prohibited from receiving cash bonus payments during the TARP period. Mr. J. subject to this limitation during 2009.
- o Except in limited circumstances, our Named Executive Officers (NEOs) and our next highest compensated employees (each as determined on an annual basis) will be prohibited from any severance payments upon a termination of employment or any payments triggered by the occurrence of a change in control.
- o Our NEOs and next 20 most highly compensated employees will be subject to a "clawback" compensation if that compensation is based on materially inaccurate financial statement performance metrics. Further, no one in this group of employees may receive any tax-qualified payment during the TARP period.
- o We will be limited to an annual tax deduction of \$500,000 with respect to the compensation of our NEOs.

The TARP rules further required us to adopt an Excessive or Luxury Expenditure Policy. Our board of directors has complied with this requirement and the policy is located on our website, www.thefirstbank.com. It is the intent of our board of directors that the policy remain in full force and effect for the duration of the TARP period. The policy covers, in particular, entertainment or events, office and facility renovations, aviation or other transportation services and other similar items, activities or events for which we may reasonably anticipate such expenditures that are not reasonable expenditures for staff development, reasonable performance incentives, or other similar reasonable measures conducted in the normal course of our business operations. All of our employees are required to comply with the policy. Our Chief Executive Officer and Chief Financial Officer are primarily accountable for adherence to the policy and for certifying that prior approval for any expenditure requiring such prior approval was properly obtained.

In addition to the foregoing limitations and restrictions, the TARP rules and regulations will require the Compensation Committee to undertake a semi-annual risk assessment with respect to certain of the compensation plans, programs and arrangements maintained by the Company, regardless of whether the individual employee(s) covered by the plan, program or arrangement is a NEO. The risk assessments are intended to reduce the chance that any employee will be incentivized to take unacceptable risks in order to maximize his or her compensation under such plans, programs and arrangements.

10

As the TARP final rules were implemented in 2009, the Compensation Committee regularly discussed its compliance obligations with respect to our executive compensation programs at each committee meeting. It has depended upon guidance from our legal counsel to fully interpret the extent of the application of each of these requirements in our executive compensation programs.

Similar to the required TARP semi-annual risk assessment, in late 2009, the Board of Governors of the Federal Reserve System issued proposed guidance that set forth a framework for assessing the soundness of incentive compensation plans, programs and arrangements maintained by financial institutions. Although the guidance is designated as proposed, the Federal Reserve has indicated that it expects current compliance with the guidance. The Federal Reserve's framework focuses on balanced risk-taking incentives, compatibility with effective controls and risk management, and

strong corporate governance.

The Compensation Committee believes that an awareness and assessment of the impact of risk has always been, and will continue to be, a component of its analysis of executive compensation. As such, the committee recognizes the role of risk assessment in the overall processes and procedures for establishing such executive compensation. In this regard, the committee believes that the TARP semi-annual risk assessment and the Federal Reserve's proposed rules will serve as a framework for reconfirming the appropriateness of the process and procedure the committee has previously followed in reaching its decisions with respect to compensation related matters.

Throughout this proxy statement, the individuals who served as the Company's Chief Executive Officer and Chief Financial Officer during fiscal 2009 as well as the other individuals included in the Summary Compensation Table on page 17, are referred to as the named executive officers.

Compensation Philosophy and Objectives

The Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals by the Company, and which aligns the interests of the executive officers with the Company's overall business strategy, values and management initiatives. These policies are intended to reward executives for strategic management and the enhancement of shareholder value and support a performance-oriented environment that rewards achievement of internal goals. The Committee evaluates both performance and compensation to ensure that the Company maintains its ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of our peer companies. To that end, the Committee believes executive compensation packages provided by the Company to its executives, including the named executive officers, should be designed to include both cash and stock-based compensation that reward performance as measured against established goals.

Role of Executive Officers in Compensation Decisions

The Committee makes all compensation decisions for the named executive officers and approves recommendations regarding equity awards to all named executive officers of the Company. Decisions regarding the non-equity compensation of other executive officers are made by the Committee and the Chief Executive Officer.

The Committee and the Chief Executive Officer annually reviews the performance of each member of the named executive officers (other than the Chief Executive Officer whose performance is reviewed by the Committee). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Committee. The Committee can exercise its discretion in modifying any recommended adjustments or awards to executives.

Setting Executive Compensation

Based on the foregoing objectives, the Committee has structured the Company's annual and long-term incentive-based cash and non-cash executive compensation to motivate executives to achieve the business goals set by the Company and reward the executives for achieving such goals. To that end, the Committee has retained Blanchard Chase to provide research for benchmarking purposes related to executive compensation. Additionally, the Company subscribes to and participates in the Mississippi Bankers Association survey, which provides the Committee with comparative compensation data from the Company's market areas and its peer groups. This information is used by the committee to ensure that it is providing compensation opportunities

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form DEF 14A

comparable to its peer group, thereby allowing the Company to retain talented executive officers who contribute to the Company's overall and long-term success.

It is anticipated that the services provided by the third-party consultant will be used as the basis of comparison of compensation between the Company and the companies in the Compensation Peer Group.

Compensation Policies and Practices as They Relate to Risk Management

As participants in the TARP Capital Purchase Program (the CPP) administered by the United States Department of the Treasury, the Company is subject to the executive compensation requirements of the Emergency Economic Stabilization Act of 2008 (EESA) and as amended by the American Recovery and Reinvestment Act of 2009 (ARRA). In compliance therewith the Compensation Committee of the Board of Directors of the Company meets at least semi-annually to discuss and evaluate employee compensation plans in light of its assessment of risk posed to the Company from such plans and to ensure compliance with executive compensation rules and regulations implemented under EESA and ARRA. The Compensation Committee met twice in 2009 to review the Company's compensation plans and determined that the Company had no compensation plans that would encourage manipulation of reported earnings to enhance compensation or encourage unnecessary or excessive risk-taking. The Compensation Committee has determined that there are no compensation policies or procedures that are likely to have a material adverse effect on the Company.

Capital Purchase Program Effect on Executive Compensation

In February, 2009 the Company entered into a transaction with the Department of the Treasury under the TARP Capital Purchase Program (CPP). In order to participate in the CPP, the Company will also be required to adopt the Treasury standards for executive compensation and corporate governance for the period during which the Treasury holds equity in the Company issued under the CPP. The Company must meet certain standards, including: (1) ensuring that incentive compensation for certain senior executives does not encourage unnecessary and excessive risks that threaten the value of the Company; (2) requiring a return to the Company of any bonus or incentive compensation paid to certain senior executives based on financial statements or other performance metric criteria that are later proven to be materially inaccurate; (3) prohibiting the Company from making certain excess payments to certain senior executives made on account of involuntary separations from service or in connection with a bankruptcy, insolvency or receivership of the Company; and (4) agreeing not to deduct for tax purposes executive compensation in excess of \$500,000 for each applicable senior executive. These standards could change based on subsequent guidance issued by the Treasury or the Internal Revenue Service. Both prior to its participation in the CPP, and for so long as the Treasury continues to hold equity interests in the Company issued under the CPP, the Company will monitor its compensation arrangements and modify such compensation arrangements, agree to limit and limit its compensation deductions, and take such other actions as may be necessary to comply with the standards discussed above, as they may be modified from time to time. The Company does not anticipate that any material changes to its existing executive compensation structure will be required to comply with the executive compensation standards included in the CPP.

Effect of American Recovery and Reinvestment Act of 2009

On February 17, 2009, President Obama signed into law the American Recovery and Reinvestment Act of 2009 (ARRA). ARRA contains expansive new restrictions on executive compensation for financial institutions and other companies participating in the CPP. These restrictions apply to us.

ARRA prohibits bonus and similar payments to top employees. ARRA prohibits the payment of any bonus, retention award, or incentive compensation to the Chief Executive Officer and the four

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form DEF 14A

other highest paid executive officers of the Company and the next 20 most highly compensated employees for as long as any CPP-related obligations are outstanding. The prohibition does not apply to bonuses payable pursuant to employment agreements in effect prior to February 11, 2009. Long-term restricted stock is excluded from ARRA's bonus prohibition, but only to the extent the value of the stock does not exceed one-third of the total amount of annual compensation of the employee receiving the stock, the stock does not fully vest until after all CPP-related obligations have been satisfied, and any other conditions which the Treasury may specify have been met.

ARRA prohibits any payment to the Chief Executive Officer and the four other highest paid executive officers of the Company and any of the next five most highly compensated employees upon termination of employment for any reason for as long as any CPP-related obligations remain outstanding.

Under ARRA CPP-participating companies are required to recover any bonus or other incentive payment paid to the Chief Executive Officer and the four other highest paid executive officers of the Company or to the next 20 most highly compensated employees on the basis of materially inaccurate financial or other performance criteria.

ARRA prohibits CPP participants from implementing any compensation plan that would encourage manipulation of the reported earnings of the Company in order to enhance the compensation of any of its employees. The Treasury guidelines do not contain a similar requirement.

ARRA requires the Chief Executive Officer and the Chief Financial Officer of any publicly-traded CPP-participating company to provide a written certification of compliance with the executive compensation restrictions in ARRA in the company's annual filings with the SEC beginning in 2010.

ARRA requires each CPP-participating company to implement a company-wide policy regarding excessive or luxury expenditures, including excessive expenditures on entertainment or events, office and facility renovations, aviation or other transportation services.

ARRA directs the Treasury to review bonuses, retention awards, and other compensation paid to the Chief Executive Officer and the four other highest paid executive officers of the Company and the next 20 most highly compensated employees of each company receiving CPP assistance before ARRA was enacted, and to seek to negotiate with the CPP recipient and affected employees for reimbursement if it finds any such payments were inconsistent with CPP or otherwise in conflict with the public interest.

The Compensation Committee will consider these new limits on executive compensation and determine how they impact the Company's executive compensation program.

2009 Executive Compensation Components

Historically, and for the fiscal year ended December 31, 2009, the principal components of compensation for named executive officers were:

- o base salary;
- o performance-based incentive bonus compensation;
- o equity incentive compensation;
- o retirement and other benefits; and
- o Perquisites and other personal benefits.

Base Salary

The Company provides named executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. Base salary ranges for named executive officers are determined for each executive based on his or her position and responsibility.

During its review of base salaries for executives, the Committee primarily considers: 1) performance of the Company; 2) market data provided by our outside consultants; 3) internal review of the executive's compensation, both individually and relative to other officers; and 4) individual performance of the executive. Salary levels are typically considered annually as part of the Company's performance review process as well as upon a promotion or other change in job responsibility. Merit based increases to salaries of the named executive officers are based on the Committee's assessment of the individual's performance.

Performance-Based Incentive Compensation

The Company has established an incentive bonus compensation plan that is based upon individual performance as well as team and corporate performance. Named executive officers in the Company have unique performance goals in up to nine (9) categories. The individual measures relate primarily to sales, service quality, regulatory compliance, timeliness, and financial goals. The particular measures on an individual's performance depend on the actions that are determined to be most important for that individual to achieve for the current year. The estimated bonus payouts are accrued throughout the year. Cash bonuses may be granted to executives at each year end depending on the achievement of a corporate performance target such as earnings per share, which was used in 2008. The Company's Chief Executive Officer has measures that are company-wide in nature. The measures for 2008 were for net income, earnings per share and return on equity. Each measure was weighted equally for 2009.

For the year ended December 31, 2009, the following cash bonuses were awarded:

David E. Johnson	\$ 0.00
M. Ray (Hoppy) Cole, Jr.	0.00
Dee Dee Lowery	2,000.00
David O. Thoms, Jr	0.00
Carol M. Daniel(1)	2,000.00

*Equity Incentive Compensation*1999 Stock Option Plan

On May 27, 1999, the Company's shareholders approved the 1999 Stock Incentive Plan (1999 Plan). The Plan provides for the granting of options to purchase up to 213,376 shares of the Company's common stock to the Company's and its subsidiary's directors, key employees, and management. Under the 1999 Plan, the Company may grant either incentive stock options or nonqualified stock options. Options granted to directors vest in equal amounts over three years. Stock options granted to management vest based on annual goals or after nine years and eleven months, if still employed. At December 31, 2009 all options were exercised or forfeited. All options expired and were void unless exercised on or before April 15, 2010. In 2009, 15,000 options were exercisable at not less than the market value of the Company's stock at the grant. In 2009, 15,000 options were exercised and 88,158 shares were forfeited in 2009.

2007 Stock Option Plan

In 2007, the Company adopted the 2007 Stock Incentive Plan. The 2007 Plan provides for up to 315,000 shares of Company Common Stock, \$1.00 par value per share. Shares issued under the Plan consist in whole or in part of authorized but unissued shares or treasury shares.

Awards of Company Common Stock under the 2007 Plan may take the form of a stock option, incentive stock option (a stock option which meets the applicable requirements of the Internal Revenue Code), stock appreciation rights (an award entitling a holder to receive an amount in cash, Company Common Stock or a combination of both determined by reference to the excess of the fair market value of a specified number of shares of Company Common Stock over a specified price which shall not be less than the fair market value of such shares as of the date of the grant), restricted stock awards (a transfer of shares subject to certain restrictions on transfer or other incidents of ownership or subject to specified performance standards), restricted stock units (an award entitling a holder to receive an amount in cash, Company Common Stock or a combination of both determined by reference to the cash dividends paid on a specified number of shares of Company Common Stock from the date of grant), performance unit awards, restricted stock units or other stock-based awards (including without limitation, awards entitling recipients to receive shares of Company Common Stock to be delivered in the future) (collectively referred to as "Awards"). As of December 31, 2009, no awards have been granted.

Retirement and Other Benefits

All employees of the Company, including named executive officers, are eligible to participate in the First Bancshares, Inc. 401K Plan and Trust.

The Company sponsors an Employee Stock Ownership Plan (ESOP), which was established in 1987 for employees who have completed one year of service for the Company and attained age 21. Employees become fully vested after five years of service. Contributions to the plan are at the discretion of the Board of Directors. As of December 31, 2009, the ESOP held 6,620 shares of Company common stock and had no debt obligation.

Perquisites and Other Personal Benefits

The Company provides named executive officers with perquisites and other personal benefits and the Committee believe are reasonable and consistent with its overall compensation program to attract and retain superior employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to named executive officers.

The named executive officers participate in the Company's broad-based employee benefit plan which includes medical, dental, supplemental disability and term life insurance programs. Some of the named executive officers are provided use of company automobiles. The vehicle is provided primarily for their business travel and use is taxed through the Company's payroll process. Each named executive officer and certain other members of senior management are entitled to receive a cash payment upon such executive's death through the death benefit funded by bank owned life insurance.

Attributed costs of the personal benefits described above for the named executive officers for the year ended December 31, 2009, are included in the "Summary Compensation Table" on page 17.

The Company has entered into Change of Control Agreements with certain key employees. The Change of Control Agreements are designed to promote stability and continuity of senior management. Information regarding applicable payments under such agreements for the named executive officers is provided under the "Potential Payments Upon Termination or Change in Control" on pages 22 and 23.

Deductibility of Executive Compensation

As part of its role, the Committee reviews and considers the deductibility of executive compensation under Section 162(m)(5) of the Internal Revenue Code, which provides that the Company may not deduct compensation more than \$500,000 that is paid to certain individuals. The Company believes that compensation paid to

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form DEF 14A

incentive plans are generally fully deductible for federal income tax purposes.

COMPENSATION COMMITTEE REPORT

The Compensation Committee certifies that it has reviewed with senior risk officers the compensation arrangements and has made reasonable efforts to ensure that such arrangements do not to take unnecessary and excessive risks that threaten the value of the financial institution.

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in the Proxy Statement.

CORPORATE GOVERNANCE

Corporate Governance Guidelines. The Board of Directors Nominating Committee has enacted guidelines to determine director independence and qualifications for directors. The Nominating Committee Charter is published at the Corporation's website under the Corporate Governance at www.thefirstbank.com. The Board regularly reviews corporate governance developments and considers modifications to its governance charter to clarify and augment the Board's processes, including those relating to risk oversight.

The Board's Role in Risk Oversight. We believe that each member of our Board of Directors in his or her fiduciary capacity has a responsibility to monitor and manage risks faced by the Company. At a minimum, this requires the members of our Board of Directors to be actively engaged in board discussions, review materials provided to them, and know when it is appropriate to request further information from management and/or engage the assistance of outside advisors. Furthermore, because the banking industry is highly regulated, certain risks to the Company are monitored by the Board of Directors and the Audit Committee through its review of the Company's compliance with regulations set forth by its regulatory authorities and recommendations contained in regulatory examinations.

Because we believe risk oversight is a responsibility for each member of the Board of Directors, we do not concentrate the Board's responsibility for risk oversight in a single committee. Instead, each of our committees concentrates on specific risks for which they have an expertise, and each committee is required to regularly report to the Board of Directors on its findings. For example, the audit committee regularly monitors the Company's exposure to certain reputational risks by establishing and evaluating the effectiveness of company programs to report and monitor fraud and by monitoring the Company's internal controls over financial reporting. Our compensation committee's role in monitoring the risks related to our compensation structure is discussed in further detail below.

Director Independence. The First Bancshares, Inc. currently has nine independent directors out of twelve. The Board has satisfied, and expects to continue to satisfy, its objective that at least a majority of the Board should consist of independent directors. For a director to be considered independent, the Board must determine that the director does not have any direct or indirect material relationship with the Company. The Board has established guidelines to assist it in determining director independence which conform to the independence requirements of the NASDAQ Stock Exchange listing standards. In addition to applying these guidelines, the Board will consider all relevant facts and circumstances in making an independence determination.

In the course of the Board's determination regarding independence, it considers any transactions, relationships and arrangements as required by the Company's independence guidelines.

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form DEF 14A

All members of the Audit Committee, Compensation Committee, and Nominating Committee must be independent directors as defined by NASDAQ. Members of the Audit Committee also must satisfy a separate Securities and Exchange Commission (SEC) independence requirement, which provides that they may not accept directly or indirectly any consulting, advisory or other compensatory fee from the Company or its subsidiaries other than their directors compensation.

Director Candidates, Qualifications and Diversity. In considering whether to recommend any candidate for inclusion in the Board s slate of recommended director nominees, including candidates recommended by stockholders, the Nominating Committee will consider a number of criteria, including, without limitation, financial, regulatory and business experience; familiarity with and participation in the local community; integrity, honest and reputation; dedication to the Company and its stockholders; independence and any other factors the Nominating Committee deems relevant, including age, diversity, size of the Board of Directors and regulatory disclosure obligations. Although the Nominating Committee has no official policy regarding diversity, the committee seeks well-qualified nominees, and believes its Board represents a wide variety of backgrounds.

26

Board Leadership Structure. The Board of Directors of the Company is made up of twelve individuals, two of whom are insiders as executives of the Company. The ten outside directors have a wide variety of business experience and bring that experience to bear in fulfilling their duties as directors of the Company. The Chairman and Chief Executive Officer positions are held separately. The Board has not named a lead independent director. All independent directors have an equal voice in the business of the Company.

The Board of Directors has the primary responsibility of overseeing the Company s risk management processes, including reviewing policies and procedures to identify any significant risks or exposures and determining the steps to take to monitor and minimize those risks. The Audit Committee is responsible for oversight of financial reporting risks, while the Compensation Committee is responsible for oversight of compensation-related risks.

Standards of Conduct. All directors, officers and employees of The First Bancshares, Inc. must act ethically at all times and in accordance with the policies comprising the Code of Ethics for Financial Officers, a copy of which can be found at the Company s internet website, www.thefirstbank.com.

Communicating Concerns to Directors. The Audit Committee and the non-management directors have established procedures to enable any employee who has a concern about The First Bancshares conduct, policies, accounting, internal accounting controls or auditing matters, to communicate that concern directly to the Board through an email or written notification directed to the Chairman of the Audit Committee c/o Chandra Kidd, Corporate Secretary. Such communications may be confidential or anonymous. The Company s Whistleblower Policy is available on the Company s website, www.thefirstbank.com.
