ITEM 7.01 REGULATION FD DISCLOSURE

Attached as Exhibit 99.1 is a copy of a press release, dated April 18, 2005, announcing Pacific Energy Partners, L.P. received the approvals necessary in order to begin repair work on its Line 63 pipeline.

In a press release dated March 23, 2005, we announced that there was an oil release caused by a landslide on our Line 63 pipeline. The pipeline has been shut down since that time, awaiting the approvals necessary to commence the repairs to restart the line.

We are currently assessing the total costs we will incur in connection with the clean-up, restoration and repair efforts. In addition, we are reviewing the potential cost recovery through our insurance coverage, which has a \$2.0 million deductible, as well as from the Oil Spill Liability Trust Fund. We are also reviewing the potential to implement a temporary surcharge on our Line 63 tariff rates to recover damages and repair costs. We will announce our first quarter 2005 earnings and hold a conference call on April 27, 2005 and April 28, 2005. At that time we will provide updated guidance for the second quarter and full year 2005. An update of Line 63 and the related costs and recoveries will also be provided at that time. The costs to be incurred, net of insurance and other recoveries, may have a material adverse impact on our net income.

The information in Item 7.01 of this report is being furnished, not filed, pursuant to Regulation FD. Accordingly, the information in Item 7.01 of this report will not be incorporated by reference into any registration statement filed by the Partnership under the Securities Act of 1933, as amended, unless specifically identified therein as being incorporated therein by reference.
