Filed Pursuant to Rule 424(B)(5)
Registration Statement No. 333-117655

The information in this preliminary prospectus and accompanying prospectus is not complete and may be changed. A registration statement relating to these securities has been declared effective by the Securities and Exchange Commission. This preliminary prospectus supplement and accompanying prospectus are not an offer to sell these securities and we are not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

PRELIMINARY PROSPECTUS SUPPLEMENT

Subject to Completion

November 14, 2005

(To Prospectus Dated August 27, 2004)

4,500,000 Shares

Common Stock

We are offering for sale 4,500,000 shares of our common stock to be sold in this offering. We will receive all of the net proceeds from the sale of such common stock.

Our common stock is listed on the New York Stock Exchange, or NYSE, under the symbol "OHI." On November 11, 2005, the last reported sale price of our common stock on the NYSE was \$12.30 per share.

Investing in our common stock involves a high degree of risk. Before buying any shares, you should read the discussion of material risks of investing in our common stock in "Risk factors" beginning on page S-11 of this prospectus supplement.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus are truthful or complete. Any representation to the contrary is a criminal offense.

	Per Share	Total
Public offering price	\$	\$
Underwriting discounts and commissions	\$	\$
Proceeds, before expenses	\$	\$

The underwriters may also purchase up to an additional 675,000 shares of common stock from us at the public offering price, less underwriting discounts and commissions payable by us, to cover over-allotments, if any, within 30 days from the date of this prospectus supplement. If the underwriters exercise the option in full, the total underwriting discounts and commissions will be \$, and the total proceeds, before

expenses, to us will be \$.

The underwriters are offering the shares of our common stock as set forth under "Underwriting." Delivery of the shares of common stock will be made on or about November , 2005.

Prospectus supplement summary

This summary highlights information contained elsewhere in this prospectus supplement and the accompanying prospectus. This summary does not contain all the information that you should consider before making an investment decision. You should read carefully this entire prospectus supplement and accompanying prospectus, including the "Risk factors," the financial data and related notes, and the reports incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision.

OUR COMPANY

We are a self-administered real estate investment trust, or REIT, investing in income-producing healthcare facilities, principally long-term care facilities located in the United States. We provide lease or mortgage financing to qualified operators of skilled nursing facilities, or SNFs, and, to a lesser extent, assisted living and acute care facilities. We have historically financed investments through borrowings under our revolving credit facilities, private placements or public offerings of debt and equity securities, the assumption of secured indebtedness, or a combination of these methods.

Our portfolio of investments at September 30, 2005 consisted of 216 healthcare facilities, located in 28 states and operated by 38 third-party operators. This portfolio was made up of:

- > 179 long-term healthcare facilities and two rehabilitation hospitals owned and leased to third parties;
- > fixed rate mortgages on 28 long-term healthcare facilities; and
- > seven additional facilities held for sale.

As of September 30, 2005, our gross investments in healthcare facilities, net of impairments and before reserve for uncollectible loans, totaled \$937 million. In addition, we also held miscellaneous investments of approximately \$25 million, consisting primarily of secured loans to third-party operators of our facilities.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

For the nine months ended September 30, 2005, we generated operating revenue of \$79 million, net income of \$17 million, and funds from operations, or FFO, of \$28 million. FFO is not a financial measure recognized under the generally accepted accounting principles in the United States of America, or GAAP, and, therefore, should not be considered a measure of liquidity, an alternative to net income or an indicator of any other performance measure determined in accordance with GAAP. For more information with respect to FFO and a reconciliation of FFO to GAAP net income, see footnote 1 in the section entitled "Summary Historical Financial Information."

OUR PROPERTY INVESTMENTS

We own a diversified portfolio of assets. The following table summarizes our property investments as of September 30, 2005:

(1) Represents data as of June 30, 2005.

(2) Certain of our lease agreements contain purchase options that permit the lessees to purchase the underlying properties from us. Some of these purchase options could result in us receiving less than fair market value for such facility. As of September 30, 2005, leases applicable to approximately 11.21% of our total gross investments contain purchase options, with the purchase options relating to 1.81% currently exercisable, the purchase options relating to 1.06% exercisable at specified times during the next four years, and the purchase options relating to 8.34% exercisable in nine years.

(3) In general, many of our mortgages contain prepayment provisions that permit prepayment of the outstanding principal amounts thereunder.

S-2

COMPETITIVE STRENGTHS

Geographically diverse property portfolio. Our portfolio of properties is broadly diversified by geographic location. We have healthcare facilities located in 28 states. Only one state comprised more than 10% of our rental and mortgage income in 2004 and two states for the nine months ended September 30, 2005. In addition, approximately 84% of our 2004 and 78% of our nine months ended September 30, 2005 rental and mortgage income was derived from facilities in states that require state approval for development and expansion of healthcare facilities. We believe that such state approvals may limit competition for our operators and enhance the value of our properties.

Large number of tenants. Our facilities are operated by 38 different public and private healthcare providers. Except for Sun Healthcare Group, Inc., or Sun, and Advocat, Inc., or Advocat, which together represent approximately 27% of our portfolio (by investment), no single tenant represents greater than 9% of our portfolio (by investment) as of September 30, 2005.

Significant number of long-term leases and mortgage loans. A large portion of our portfolio consists of long-term lease and mortgage agreements. Approximately 94% of our leases and mortgages have primary terms that expire in 2010 or later. Our leased real estate properties are leased under provisions of single facility leases or master leases with initial terms typically ranging from 5 to 15 years, plus renewal options. Substantially all of the master leases provide for minimum annual rentals that are subject to annual increases based upon increases in the Consumer Price Index, or CPI, or increases in revenues of the underlying properties, with certain limits.

Experienced management team. The top four members of our executive team average over 17 years of experience in the long-term healthcare industry. We believe that the long, accomplished tenure of our management team helps to distinguish us from our competitors in the long-term healthcare industry.

OUR STRATEGY

In making investments in properties, we generally have focused on established, creditworthy, middle-market healthcare operators that meet our standards for quality and experience of management. We have sought to diversify our investments in terms of geographic locations and operators. In evaluating potential investments, we consider such factors as:

- > the quality and experience of management and the creditworthiness of the operator of the facility;
- > the facility's historical and forecasted cash flow and its ability to meet operational needs, capital expenditure requirements and lease or debt service obligations, providing a competitive return on investment to us;
- > the construction quality, condition and design of the facility;
- > the geographic area of the facility;
- > the tax, growth, regulatory and reimbursement environment of the jurisdiction in which the facility is located;
- > the occupancy and demand for similar healthcare facilities in the same or nearby communities; and
- > the payor mix of private, Medicare and Medicaid patients.

We prefer to invest in equity ownership of properties. Due to regulatory, tax or other considerations, we sometimes pursue alternative investment structures, including convertible participating and participating mortgages, that can achieve returns comparable to equity investments.

S-3

OUR INDUSTRY

We are a REIT that invests in income-producing healthcare facilities, principally long-term care facilities located in the United States. Within this long-term care industry, we focus specifically on the approximately \$110 billion United States nursing home market by providing lease or mortgage financing to operators of SNFs and, to a lesser extent, assisted living and acute care facilities. According to CMS, as of May 2003, there were approximately 16,500 nursing homes with approximately 1.8 million total beds certified to provide Medicare and/or Medicaid services in the United States. The nursing home industry is highly fragmented. As of May 2003, the ten largest for-profit chains combined control approximately 16% of the industry's beds, with the largest company operating just under 3% of the industry's beds.

The aging population and increased life expectancies are the primary growth drivers for long-term care facilities. According to the United States Census Bureau, in 2000, there were approximately 35 million Americans aged 65 or older, comprising approximately 12% of the total United States population. The number of Americans aged 65 or older is expected to climb to approximately 40.2 million by 2010 and to approximately 54.6 million by 2020. In addition to positive demographic trends, the demand for the services provided by operators of long-term care facilities is expected to increase substantially during the next decade due primarily to the impact of cost containment measures by government and private-pay sources resulting in higher acuity patients being transferred more quickly from hospitals to less expensive care settings such as SNFs. According to CMS, national nursing home expenditures are expected to grow from \$110 billion in 2003 to \$194.6 billion in 2014, representing a 5.5% compounded annual growth rate. We believe that these trends will support a growing demand for the services provided by nursing and assisted living facility operators, which in turn will support a growing demand for our properties.

In recent years, Congress has enacted three significant laws that have dramatically altered payments to operators of SNFs under Medicare. Beginning with the enactment of the Balanced Budget Act of 1997, or Balanced Budget Act, payments for Medicare services were reduced and extensive changes in the Medicare and Medicaid programs were made. Congress twice enacted legislation intended to mitigate temporarily the reduction in Medicare reimbursement rates for SNFs caused by the Balanced Budget Act. These bills were the Medicare, Medicaid, and SCHIP Balanced Budget Refinement Act of 1999, or Balanced Budget Refinement Act, and the Medicare, Medicaid and SCHIP Benefits Improvement and Protection Act of 2000, or Benefits Improvement and Protection Act. These acts implemented several temporary payment increases for services provided under Medicare in SNFs.

The final rule published on August 4, 2005, establishes refinements to Medicare's prospective payment system for SNFs for fiscal year 2006, thereby triggering the elimination of the remaining temporary payment increases arising from the Balanced Budget Refinement Act and the Benefits Improvement and Protection Act. CMS estimates that the increases in Medicare reimbursements to SNFs arising from refinements to

the prospective payment system under the final rule will offset the reductions stemming from the elimination of the temporary increases during fiscal year 2006 (October 1, 2005 through September 30, 2006), resulting in an overall increase in Medicare payments to SNFs of \$20 million in fiscal year 2006 compared to 2005. We cannot accurately predict what effect, if any, these changes will have on individual operators, and as a result, our business in 2006 and beyond. CMS also reports that a 128% temporary increase in the per diem amount paid to SNFs for residents who have AIDS, which took effect on October 1, 2004, will remain in effect during fiscal year 2006.

Furthermore, Medicaid programs, which are administered at the state level and are a significant source of revenues for our operators, are impacted by fluctuations in state budgets. The recent economic climate has had a detrimental effect on state revenues in most regions of the United States. Given that Medicaid outlays are a significant component of state budgets, we expect continuing cost containment pressures on Medicaid outlays for skilled nursing services in the states in which we maintain facilities.

S-4

In large part as a result of the 1997 changes in Medicare reimbursement of services provided by SNFs and reimbursement cuts imposed under state Medicaid programs, a number of operators of our properties have encountered significant financial difficulties in recent years. Some of these operators, including Sun and Integrated Health Services, or IHS, who is no longer one of our operators, filed for bankruptcy protection. Other operators were required to undertake significant restructuring efforts. We have restructured our arrangements with many of our operators by renegotiating lease and mortgage terms, re-leasing properties to new operators and closing and/or disposing of properties.

RECENT DEVELOPMENTS

New investments

Haven Eldercare, LLC

- > On November 9, 2005, we closed on a first mortgage loan in the amount of \$61.75 million on six SNFs and one assisted living facility, or ALF, totaling 878 beds. Four of the facilities are located in Rhode Island, two in New Hampshire and one in Massachusetts. The mortgagor of the facilities is an affiliate of Haven Eldercare, LLC, one of our existing operators. The term of the mortgage is seven years. The interest rate is 10%, with annual escalators. At the end of the mortgage term, we have the option to purchase the facilities for \$61.75 million less the outstanding mortgage principal balance.

Nexion Health, Inc.

- > Effective November 1, 2005, we purchased three SNFs in two separate transactions for a total investment of approximately \$12.75 million. All three facilities, totaling 400 beds, are located in Texas. The facilities were consolidated into a master lease with a subsidiary of an existing operator, Nexion Health, Inc. The term of the existing master lease was extended to ten years and runs through October 31, 2015, followed by four renewal options of five years each.

CommuniCare Health Services, Inc.

- > On June 28, 2005, we purchased five SNFs located in Ohio (3) and Pennsylvania (2), totaling 911 beds. The investment, excluding working capital, totaled approximately \$50 million. The SNFs were purchased from an unrelated third party and are now operated by subsidiaries of CommuniCare Health Services, Inc., or CommuniCare, one of our existing operators, with the five facilities being consolidated into an existing master lease. The term of the master lease was extended to ten years ending June 30, 2015, with two nine year renewal options.

Senior Management Services, Inc.

- > Effective June 1, 2005, we purchased two SNFs for a total investment of approximately \$9.5 million. Both facilities, totaling 440 beds, are located in Texas. The facilities were consolidated into a master lease with an existing operator, Senior Management Services, Inc. The term of the existing master lease was extended to ten years and runs through May 31, 2015, followed by two renewal options of ten years each.

Essex Healthcare Corporation

- > On January 13, 2005, we closed on approximately \$58 million of new investments as a result of the exercise by American Health Care Centers, or American, of a put agreement with us for the purchase of 13 SNFs. The gross purchase price of approximately \$79 million was satisfied in part by a purchase option of approximately \$7 million and approximately \$14 million in mortgage loans we had outstanding with American and its affiliates.
-

S-5

- > The 13 properties, all located in Ohio, continue to be leased by Essex Healthcare Corporation, or Essex. The master lease and related agreements have remaining terms of approximately six years.

Other

- > In addition, as of the date of this prospectus supplement, we are performing due diligence on approximately \$125 million worth of new investments under non-binding letters of intent and seek to negotiate definitive agreements. We can give no assurances that we will be able to successfully negotiate definitive agreements or complete any or all of these potential new investments.

Re-leasing activity

Claremont Health Care Holdings, Inc.

- > Effective January 1, 2005, we re-leased one SNF formerly leased to Claremont Health Care Holdings, Inc., located in New Hampshire and representing 68 beds to Haven Healthcare, an existing operator. This facility was added to an existing master lease, which expires on December 31, 2013, followed by two 10-year renewal options.

Other

- > During the three months ended September 30, 2005, a \$5.5 million provision for impairment charge was recorded to reduce the carrying value on three facilities to their estimated fair value.
- > During the three months ended March 31, 2005, a \$3.7 million provision for impairment charge was recorded to reduce the carrying value on two facilities, which were subsequently closed, to their estimated fair value.

Assets held for sale

- > On July 29, 2005, we received notice from AHC Properties, Inc., or Alterra, of their intent to exercise their option to purchase six ALFs, for approximately \$20.4 million. The ALFs are currently leased to Alterra in a master lease with annual revenue of approximately \$1.7 million. The closing of this transaction is scheduled for the fourth quarter of 2005, subject to closing conditions typical in real estate transactions. At September 30, 2005, the net book value of these facilities was approximately \$15.4 million.

Assets sold

- > On June 23, 2005, a \$1.0 million deposit related to an agreement to sell a SNF in Florida was received into escrow on our behalf. On July 26, 2005, an additional \$0.5 million deposit was received into escrow. On November 3, 2005, we sold the SNF for net cash proceeds of approximately \$14.1 million. The sale resulted in an accounting gain of approximately \$5.9 million. At September 30, 2005, this facility was classified within "assets held for sale" with a net book value of approximately \$8.2 million.

>

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

On August 1, 2005, we sold 50.4 acres of undeveloped land, located in Ohio, for net cash proceeds of approximately \$1 million. The sale resulted in an accounting gain of approximately \$0.7 million.

>

On June 30, 2005, we sold four SNFs to subsidiaries of Alden Management Services, Inc., who previously leased the facilities from us. All four facilities are located in Illinois. The sale price totaled approximately \$17 million. We received net cash proceeds of approximately \$12 million plus a secured promissory note of approximately \$5.4 million. The sale resulted in a non-cash accounting loss of approximately \$4.2 million.

>

During the three months ended March 31, 2005, we sold three facilities, located in Florida and California, for their approximate net book value realizing cash proceeds of approximately \$6 million, net of closing costs and other expenses.

S-6

Senior revolving credit facility

>

As of November 11, 2005, we had \$138 million in borrowings and approximately \$4 million in letters of credit outstanding under our senior revolving credit facility, and approximately \$58 million available for borrowing.

CORPORATE INFORMATION

We were incorporated in the State of Maryland on March 31, 1992. Our principal executive offices are located at 9690 Deereco Road, Suite 100, Timonium, Maryland 21093, and our telephone number is (410) 427-1700. Additional information regarding our company is set forth in documents on file with the Securities and Exchange Commission, or SEC, and incorporated by reference in this prospectus supplement. See "Incorporation of certain information by reference" and "Where you can find more information."

S-7

The offering

Common stock we are offering	4,500,000 shares.
Common stock to be outstanding immediately after the offering	55,791,693 shares.
New York Stock Exchange symbol	OHI
Use of proceeds	We intend to use all of the net proceeds of this offering to repay indebtedness outstanding under our senior revolving credit facility. If and to the extent there are net proceeds remaining after we have repaid all indebtedness under our senior revolving credit facility, we will use these proceeds for working capital and general corporate purposes. See "Use of Proceeds."
Risk factors	This investment involves a high degree of risk. See the section entitled "Risk Factors" beginning on page S-11 of this prospectus supplement for a discussion of certain factors you should consider before deciding to invest in our common stock.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

The number of shares of our common stock outstanding after this offering is based on approximately 51,291,693 shares outstanding as of September 30, 2005 and excludes:

- > 261,065 shares of our common stock issuable upon exercise of options outstanding as of September 30, 2005 at a weighted average exercise price of \$5.168 per share;
- > 231,594 shares of our common stock available for issuance (an additional 1,225,000 shares have been registered with the SEC and are available for issuance upon approval of our board of directors) under our dividend reinvestment and common stock purchase plan as of September 30, 2005;
- > 2,906,995 shares of our common stock available for future grant under our 2000 Stock Incentive Plan and our 2004 Stock Incentive Plan;
- > 218,666 unvested shares of our restricted common stock; and
- > 675,000 shares of our common stock that may be purchased by underwriters to cover over-allotments, if any.

Unless otherwise stated, all information in this prospectus supplement assumes that the underwriters do not exercise their over-allotment option.

S-8

Summary historical financial information

The following table sets forth summary consolidated financial data as of the dates and for the periods presented. The operating data and other financial data as of, and for each of the years during the three-year period ended, December 31, 2004 have been derived from, and should be read in conjunction with, our audited consolidated financial statements and the related notes incorporated by reference in this prospectus supplement. The operating data and other financial data as of and for each of the years ended December 31, 2000 and 2001 are derived from our audited consolidated financial statements. The operating data, other financial data and balance sheet data as of, and for the nine months ended, September 30, 2005 have been derived from, and should be read in conjunction with, our unaudited consolidated financial statements for the fiscal quarter ended September 30, 2005 and the related notes incorporated by reference in this prospectus supplement and, in the opinion of management, include all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the results for the unaudited interim periods.

We consider funds from operations, or FFO, to be a key measure of a REIT's performance which should be considered along with, but not as an alternative to, net income and cash flow as a measure of operating performance and liquidity. We calculate and report FFO in accordance with the definition and interpretive guidelines issued by the National Association of Real Estate Investment Trusts, or NAREIT, and, consequently, FFO is defined as net income available to common stockholders, adjusted for the effects of asset dispositions and certain non-cash items, primarily depreciation and amortization. We believe that FFO is an important supplemental measure of our operating performance. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), such accounting

S-9

presentation implies that the value of real estate assets diminishes predictably over time, while real estate values instead have historically risen or fallen with market conditions. The term FFO was designed by the real estate industry to address this issue. FFO herein is not necessarily comparable to FFO of other REITs that do not use the same definition of implementation guidelines or interpret the standards differently from us.

We use FFO as one of several criteria to measure operating performance of our business. We further believe that by excluding the effect of depreciation, amortization and gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and between other REITs. We offer this measure to assist the users of our financial performance under GAAP and FFO should not be considered a measure of liquidity, an alternative to net income or an indicator of any other performance measure determined in accordance with GAAP. Investor and potential investors in our securities should not rely on this measure as a substitute for any GAAP measure, including net income.

In February 2004, NAREIT informed its member companies that it was adopting the position of the SEC with respect to asset impairment charges and would no longer recommend that impairment write-downs be excluded from FFO. In the table included below, we have applied this interpretation and have not excluded asset impairment charges in calculating our FFO. As a result, our FFO may not be comparable to similar measures reported in previous disclosures. According to NAREIT, there is inconsistency among NAREIT member companies as to the adoption of this interpretation of FFO. Therefore, a comparison of our FFO results to another company's FFO results may not be meaningful.

The following table is a reconciliation of net income (loss) available to common shareholders to FFO:

	Year ended December 31,					Nine months ended September 30,	
	2000	2001	2002	2003	2004	2004	2005
(in thousands)

FFO	\$ (53,209)	\$ (12,591)	\$ (16,985)	\$ 24,490	\$ (21,882)	\$ (32,528)	\$ 28,324

(a)

The add back of loss/deduction of gain from real estate dispositions includes the facilities classified as discontinued operations in our audited consolidated financial statements included in our Annual Reports on Form 10-K for the three year period ended December 31, 2004. The nine months ended September 30, 2004 and 2005 net loss add backs include \$0.5 million and \$3.5 million loss, respectively, related to facilities classified as discontinued operations.

(b)

The add back of depreciation and amortization includes the facilities classified as discontinued operations in our audited consolidated financial statements included in our Annual Reports on Form 10-K for the three year period ended December 31, 2004. The 2000, 2001, 2002, 2003 and 2004 and nine months ended September 30, 2004 and 2005 includes depreciation of \$0.9 million, \$0.8 million, \$1.1 million, \$0.6 million, \$0.0 million, \$1.6 million, and \$1.0 million, respectively, related to facilities classified as discontinued operations.

(2)

On a pro forma basis giving effect to the sale of a SNF in November 2005 and the completion of \$75 million of new investments and borrowings under our senior revolving credit facility since September 30, 2005.

(3)

On a pro forma as adjusted basis giving effect to our sale of the common stock in this offering at an assumed offering price of \$12.30 per share and the receipt of the estimated net proceeds of \$52.1 million, the assumed application of the approximately \$52.1 million of net proceeds to repay a portion of our outstanding borrowings under our senior revolving credit facility, the sale of a SNF in November 2005, and the completion of \$75 million of new investments and borrowings under our senior revolving credit facility since September 30, 2005.

(4)

Total debt includes long-term debt and current maturities of long-term debt.

S-10

Risk factors

You should carefully consider the following risk factors, in addition to the other information contained in this prospectus supplement and the accompanying prospectus, before purchasing shares of our common stock. Investing in our common stock involves a high degree of risk. If any of the events described in the following risk factors occur, our business, operating results and financial condition could be seriously harmed. In addition, the trading price of our common stock could decline due to the occurrence of any of such events, and you may lose all or part of your

investment.

RISKS RELATED TO THE OPERATORS OF OUR FACILITIES

Our financial position could be weakened if any of our major operators were unable to meet their obligations to us or failed to renew or extend their relationship with us as their lease terms expire, or if we were unable to lease or re-lease our facilities or make mortgage loans on economically favorable terms. These adverse developments could arise due to a number of factors, including those listed below.

Our efforts over the last several years to restructure and stabilize our portfolio may not prove to be successful.

In large part as a result of the 1997 changes in Medicare reimbursement of services provided by skilled nursing facilities and reimbursement cuts imposed under state Medicaid programs, a number of operators of our properties have encountered significant financial difficulties during the last several years. In 1999, our investment portfolio consisted of 216 properties and our largest public operators (by investment) were Sun, IHS, Advocat and Mariner Health Care, Inc., or Mariner. Some of these operators, including Sun, IHS and Mariner, subsequently filed for bankruptcy protection. Other of our operators were required to undertake significant restructuring efforts. We have restructured our arrangements with many of our operators whereby we have renegotiated lease and mortgage terms, re-leased properties to new operators and have closed and/or disposed of properties. At September 30, 2005, our investment portfolio consisted of 216 properties and our largest public operators (by investment) were Sun (16%) and Advocat (11%). Our largest private company operators (by investment) were Guardian LTC Management, Inc. (9%), Essex (8%), CommuniCare (8%), Seacrest Healthcare (6%) and Haven Healthcare (6%). We cannot assure you that our recent efforts to restructure and stabilize our property portfolio will be successful.

The bankruptcy, insolvency or financial deterioration of our operators could delay our ability to collect unpaid rents or require us to find new operators for rejected facilities.

We are exposed to the risk that our operators may not be able to meet their obligations, which may result in their bankruptcy or insolvency. Although our leases and loans provide us the right to terminate an investment, evict an operator, demand immediate repayment and other remedies, title 11 of the United States Code, 11 U.S.C. §§ 101-1330, as amended and supplemented, or the Bankruptcy Code, affords certain protections to a party that has filed for bankruptcy that would probably render certain of these remedies unenforceable, or, at the very least, delay our ability to pursue such remedies. In addition, an operator in bankruptcy may be able to restrict our ability to collect unpaid rent or mortgage payments during the bankruptcy case.

If one or more of our lessees files bankruptcy relief, the Bankruptcy Code provides that a debtor has the option to assume or reject the unexpired lease within a certain period of time. However, our lease arrangements with operators that operate more than one of our facilities are generally made pursuant

S-11

to a single master lease covering all of that operator's facilities leased from us, and consequently, it is possible that in bankruptcy the debtor-lessee may be required to assume or reject the master lease as a whole, rather than making the decision on a facility by facility basis, thereby preventing the debtor-lessee from assuming only the better performing facilities and terminating the leasing arrangement with respect to the poorer performing facilities. The Bankruptcy Code generally requires that a debtor must assume or reject a contract in its entirety. Thus, a debtor cannot choose to keep the beneficial provisions of a contract while rejecting the burdensome ones; the contract must be assumed or rejected as a whole. However, where under applicable law a contract (even though it is contained in a single document) is determined to be divisible or severable into different agreements, or similarly where a collection of documents are determined to constitute separate agreements instead of a single, integrated contract, then in those circumstances a debtor/trustee may be allowed to assume some of the divisible or separate agreements while rejecting the others. Whether a master lease agreement would be determined to be a single contract or a divisible agreement, and hence whether a bankruptcy court would require a master lease agreement to be assumed or rejected as a whole, would depend on a number of factors some of which may include, but may not necessarily be limited to, the following:

- > applicable state law;
- > the parties' intent;
- >

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

whether the master lease agreement and related documents were executed contemporaneously;

- > the nature and purpose of the relevant documents;
- > whether the obligations in various documents are independent;
- > whether the leases are coterminous;
- > whether a single check is paid for all properties;
- > whether rent is apportioned among the leases;
- > whether termination of one lease constitutes termination of all;
- > whether the leases may be separately assigned or sublet;
- > whether separate consideration exists for each lease; and
- > whether there are cross-default provisions.

The Bankruptcy Code provides that a debtor has the power and the option to assume, assume and assign to a third party, or reject the unexpired lease. In the event that the unexpired lease is assumed on behalf of the debtor-lessee, obligations under the lease generally would be entitled to administrative priority over other unsecured pre-bankruptcy claims. If the debtor chooses to assume the lease (or assume and assign the lease), then the debtor is required to cure all monetary defaults, or provide adequate assurance that it will promptly cure such defaults. However, the debtor-lessee may not have to cure historical non-monetary defaults under the lease to the extent that they have not resulted in an actual pecuniary loss, but the debtor-lessee must cure non-monetary defaults under the lease from the time of assumption going forward. A debtor must generally pay all rent payments coming due under the lease after the bankruptcy filing but before the assumption or rejection of the lease. The Bankruptcy Code provides that the debtor-lessee must make the decision regarding assumption, assignment or rejection within a certain period of time. For cases filed on or after October 17, 2005, the time period to make the decision is 120 days, subject to one extension "for cause". A bankruptcy court may only further extend this period for 90 days unless the lessor consents in writing.

S-12

Another risk is that the tenant rejects the lease. The rejection of a lease is deemed to be a pre-petition breach of the lease and the lessor's claim arising therefrom may be limited to any unpaid rent already due plus an amount equal to the rent reserved under the lease, without acceleration, for the greater of one year, and 15%, not to exceed three years, of the remaining term of such lease, following the earlier of the petition date and repossession or surrender of the leased property. If the debtor rejects the lease, the facility would be returned to us. In that event, if we were unable to re-lease the facility to a new operator on favorable terms or only after a significant delay, we could lose some or all of the associated revenue from that facility for an extended period of time.

Generally, with respect to our mortgage loans, the imposition of an automatic stay under the Bankruptcy Code precludes us from exercising foreclosure or other remedies against the debtor without first obtaining stay relief from the bankruptcy court. Pre-petition creditors generally do not have rights to the cash flows from the properties underlying the mortgages unless their security interest in the property includes such cash flows. Mortgagees may, however, receive periodic payments from the debtor/mortgagors. Such payments are referred to as adequate protection payments. The timing of adequate protection payments and whether the mortgagees are entitled to such payments depends on negotiating an acceptable settlement with the mortgagor (subject to approval of the bankruptcy court) or on the order of the bankruptcy court in the event a negotiated settlement cannot be achieved.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

A mortgagee also is treated differently from a landlord in three key respects. First, the mortgage loan is not subject to assumption, assumption and assignment, or rejection. Second, the mortgagee's loan may be divided into a secured claim for the portion of the mortgage debt that does not exceed the value of the property securing the debt and a general unsecured claim for the portion of the mortgage debt that exceeds the value of the property. A secured creditor such as our company is entitled to the recovery of interest and reasonable fees, costs and charges provided for under the agreement under which such claim arose only if, and to the extent that, the value of the collateral exceeds the amount owed. If the value of the collateral exceeds the amount of the debt, interest as well as reasonable fees, costs, and charges may not be paid during the bankruptcy case, but will accrue until confirmation of a plan of reorganization/liquidation or such other time as the court orders unless the debtor voluntarily makes a payment. If the value of the collateral held by a secured creditor is less than the secured debt (including such creditor's secured debt and the secured debt of any creditor with a more senior security interest in the collateral), interest on the loan for the time period between the filing of the case and confirmation may be disallowed. Finally, while a lease generally would either be assumed, assumed and assigned, or rejected with all of its benefits and burdens intact, the terms of a mortgage, including the rate of interest and the timing of principal payments, may be modified under certain circumstances if the debtor is able to effect a "cram down" under the Bankruptcy Code. Before such a "cram down" is allowed, the Bankruptcy Court must conclude that the treatment of the secured creditor's claim is "fair and equitable."

The receipt of liquidation proceeds or the replacement of an operator that has defaulted on its lease or loan could be delayed by the approval process of any federal, state or local agency necessary for the transfer of the property or the replacement of the operator licensed to manage the facility. In addition, some significant expenditures associated with real estate investment, such as real estate taxes and maintenance costs, are generally not reduced when circumstances cause a reduction in income from the investment. In order to protect our investments, we may take possession of a property or even become licensed as an operator, which might expose us to successor liability under government programs (or otherwise) or require us to indemnify subsequent operators to whom we might transfer the operating rights and licenses. Third-party payors may also suspend payments to us following foreclosure until we receive the required licenses to operate the facilities. Should such events occur, our income and cash flow from operations would be adversely affected.

S-13

Another risk regarding our leases is that in an operator's bankruptcy the leases could be recharacterized as a financing agreement. In making such a determination, a bankruptcy court may consider certain factors, which may include, but are not necessarily limited to, the following:

- > whether rent is calculated to provide a return on investment rather than to compensate the lessor for loss, use and possession of the property;
- > whether the property is purchased specifically for the lessee's use or whether the lessee selected, inspected, contracted for, and received the property;
- > whether the transaction is structured solely to obtain tax advantages;
- > whether the lessee is entitled to obtain ownership of the property at the expiration of the lease, and whether any option purchase price is unrelated to the value of the land; and
- > whether the lessee assumed many of the obligations associated with outright ownership of the property, including responsibility for property taxes and insurance.

If an operator defaults under one of our mortgage loans, we may have to foreclose on the mortgage or protect our interest by acquiring title to the property and thereafter making substantial improvements or repairs in order to maximize the facility's investment potential. Operators may contest enforcement of foreclosure or other remedies, seek bankruptcy protection against our exercise of enforcement or other remedies and/or bring claims for lender liability in response to actions to enforce mortgage obligations. If an operator seeks bankruptcy protection, the automatic stay provisions of the Bankruptcy Code would preclude us from enforcing foreclosure or other remedies against the operator unless relief is first obtained from the court having jurisdiction over the bankruptcy case. High "loan to value" ratios or declines in the value of the facility may prevent us from realizing an amount equal to our mortgage loan upon foreclosure.

Operators that fail to comply with the requirements of governmental reimbursement programs such as Medicare or Medicaid, licensing and certification requirements, fraud and abuse regulations or new legislative developments may be unable to meet their obligations to us.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

Our operators are subject to numerous federal, state and local laws and regulations that are subject to frequent and substantial changes (sometimes applied retroactively) resulting from legislation, adoption of rules and regulations, and administrative and judicial interpretations of existing law. The ultimate timing or effect of these changes cannot be predicted. These changes may have a dramatic effect on our operators' costs of doing business and the amount of reimbursement by both government and other third-party payors. The failure of any of our operators to comply with these laws, requirements and regulations could adversely affect their ability to meet their obligations to us. In particular:

>

Medicare and Medicaid. A significant portion of our SNF operators' revenue is derived from governmentally-funded reimbursement programs, primarily Medicare and Medicaid, and failure to maintain certification and accreditation in these programs would result in a loss of funding from such programs. Loss of certification or accreditation could cause the revenues of our operators to decline, potentially jeopardizing their ability to meet their obligations to us. In that event, our revenues from those facilities could be reduced, which could in turn cause the value of our affected properties to decline. State licensing and Medicare and Medicaid laws also require operators of nursing homes and assisted living facilities to comply with extensive standards governing operations. Federal and state agencies administering those laws regularly inspect such facilities and investigate complaints. Our operators and their managers receive notices of potential sanctions and remedies from time to time, and such sanctions have been imposed from time to time on facilities operated

S-14

by them. If they are unable to cure deficiencies which have been identified or which are identified in the future, such sanctions may be imposed and if imposed may adversely affect our operators' revenues, potentially jeopardizing their ability to meet their obligations to us.

>

Licensing and Certification. Our operators and facilities are subject to regulatory and licensing requirements of federal, state and local authorities and are periodically audited by them to confirm compliance. Failure to obtain licensure or loss or suspension of licensure would prevent a facility from operating or result in a suspension of reimbursement payments until all licensure issues have been resolved and the necessary licenses obtained or reinstated. Our SNFs require governmental approval, in the form of a certificate of need that generally varies by state and is subject to change, prior to the addition or construction of new beds, the addition of services or certain capital expenditures. Some of our facilities may be unable to satisfy current and future certificate of need requirements and may for this reason be unable to continue operating in the future. In such event, our revenues from those facilities could be reduced or eliminated for an extended period of time or permanently.

>

Fraud and Abuse Laws and Regulations. There are various extremely complex and largely uninterpreted federal and state laws governing a wide array of referrals, relationships and arrangements and prohibiting fraud by healthcare providers, including criminal provisions that prohibit filing false claims or making false statements to receive payment or certification under Medicare and Medicaid, or failing to refund overpayments or improper payments. Governments are devoting increasing attention and resources to anti-fraud initiatives against healthcare providers. The Health Insurance Portability and Accountability Act of 1996 and the Balanced Budget Act expanded the penalties for healthcare fraud, including broader provisions for the exclusion of providers from the Medicare and Medicaid programs. Furthermore, the Office of Inspector General of the U.S. Department of Health and Human Services, or OIG, in cooperation with other federal and state agencies, continues to focus on the activities of SNFs in certain states in which we have properties. In addition, the federal False Claims Act allows a private individual with knowledge of fraud to bring a claim on behalf of the federal government and earn a percentage of the federal government's recovery. Because of these incentives, these so-called "whistleblower" suits have become more frequent. The violation of any of these laws or regulations by an operator may result in the imposition of fines or other penalties that could jeopardize that operator's ability to make lease or mortgage payments to us or to continue operating its facility.

>

Legislative and Regulatory Developments. Each year, legislative proposals are introduced or proposed in Congress and in some state legislatures that would affect major changes in the healthcare system, either nationally or at the state level. The Medicare Prescription Drug, Improvement and Modernization Act of 2003, or Medicare Modernization Act, which is one example of such legislation, was enacted in late 2003. The Medicare reimbursement changes for the long term care industry under this Act are limited to a temporary increase in the per diem amount paid to SNFs for residents who have AIDS. The significant expansion of other benefits for Medicare beneficiaries under this Act, such as the expanded prescription drug benefit, could result in financial pressures on the Medicare program that might result in future legislative and regulatory changes with impacts for our operators. Other proposals under consideration include efforts by individual states to control costs by decreasing state Medicaid reimbursements, a federal "Patient Protection Act" to protect consumers in managed care plans, efforts to improve quality of care and reduce medical errors throughout the health care industry and hospital cost-containment initiatives by public and private payors. We cannot accurately predict whether any proposals will be adopted or, if adopted, what effect, if any, these proposals would have on operators and, thus, our business.

Regulatory proposals and rules are released on an ongoing basis that may have a major impact on the healthcare system generally and the skilled nursing and long-term care industries in particular.

Our operators depend on reimbursement from governmental and other third-party payors and reimbursement rates from such payors may be reduced.

Changes in the reimbursement rate or methods of payment from third-party payors, including the Medicare and Medicaid programs, or the implementation of other measures to reduce reimbursements for services provided by our operators has in the past, and could in the future, result in a substantial reduction in our operators' revenues and operating margins. Additionally, net revenue realizable under third-party payor agreements can change after examination and retroactive adjustment by payors during the claims settlement processes or as a result of post-payment audits. Payors may disallow requests for reimbursement based on determinations that certain costs are not reimbursable or reasonable or because additional documentation is necessary or because certain services were not covered or were not medically necessary. There also continue to be new legislative and regulatory proposals that could impose further limitations on government and private payments to healthcare providers. In some cases, states have enacted or are considering enacting measures designed to reduce their Medicaid expenditures and to make changes to private healthcare insurance. We cannot assure you that adequate reimbursement levels will continue to be available for the services provided by our operators, which are currently being reimbursed by Medicare, Medicaid or private third-party payors. Further limits on the scope of services reimbursed and on reimbursement rates could have a material adverse effect on our operators' liquidity, financial condition and results of operations, which could cause the revenues of our operators to decline and potentially jeopardize their ability to meet their obligations to us.

Our operators may be subject to significant legal actions that could subject them to increased operating costs and substantial uninsured liabilities, which may affect their ability to pay their lease and mortgage payments to us.

As is typical in the healthcare industry, our operators are often subject to claims that their services have resulted in resident injury or other adverse effects. Many of these operators have experienced an increasing trend in the frequency and severity of professional liability and general liability insurance claims and litigation asserted against them. The insurance coverage maintained by our operators may not cover all claims made against them nor continue to be available at a reasonable cost, if at all. In some states, insurance coverage for the risk of punitive damages arising from professional liability and general liability claims and/or litigation may not, in certain cases, be available to operators due to state law prohibitions or limitations of availability. As a result, our operators operating in these states may be liable for punitive damage awards that are either not covered or are in excess of their insurance policy limits. We also believe that there has been, and will continue to be, an increase in governmental investigations of long-term care providers, particularly in the area of Medicare/Medicaid false claims, as well as an increase in enforcement actions resulting from these investigations. Insurance is not available to cover such losses. Any adverse determination in a legal proceeding or governmental investigation, whether currently asserted or arising in the future, could have a material adverse effect on an operator's financial condition. If an operator is unable to obtain or maintain insurance coverage, if judgments are obtained in excess of the insurance coverage, if an operator is required to pay uninsured punitive damages, or if an operator is subject to an uninsurable government enforcement action, the operator could be exposed to substantial additional liabilities.

S-16

Increased competition as well as increased operating costs have resulted in lower revenues for some of our operators and may affect the ability of our tenants to meet their payment obligations to us.

The healthcare industry is highly competitive, and we expect that it may become more competitive in the future. Our operators are competing with numerous other companies providing similar healthcare services or alternatives such as home health agencies, life care at home, community-based service programs, retirement communities and convalescent centers. We cannot be certain the operators of all of our facilities will be able to achieve occupancy and rate levels that will enable them to meet all of their obligations to us. Our operators may encounter increased competition in the future that could limit their ability to attract residents or expand their businesses and therefore affect their ability to pay their lease or mortgage payments.

The market for qualified nurses, healthcare professionals and other key personnel is highly competitive and our operators may experience difficulties in attracting and retaining qualified personnel. Increases in labor costs due to higher wages and greater benefits required to attract and retain qualified healthcare personnel incurred by our operators could affect their ability to pay their lease or mortgage payments. This situation could be particularly acute in certain states that have enacted legislation establishing minimum staffing requirements.

RISKS RELATED TO US AND OUR OPERATIONS

In addition to the operator related risks discussed above, there are a number of risks directly associated with us and our operations.

We rely on external sources of capital to fund future capital needs, and if we encounter difficulty in obtaining such capital, we may not be able to make future investments necessary to grow our business or meet maturing commitments.

In order to qualify as a REIT under the Internal Revenue Code of 1986, as amended, or the Code, we are required, among other things, to distribute each year to our stockholders at least 90% of our REIT taxable income. Because of this distribution requirement, we may not be able to fund, from cash retained from operations, all future capital needs, including capital needs to make investments and to satisfy or refinance maturing commitments. As a result, we rely on external sources of capital. If we are unable to obtain needed capital at all or only on unfavorable terms from these sources, we might not be able to make the investments needed to grow our business, or to meet our obligations and commitments as they mature, which could negatively affect the results of our operations, the ratings of our debt and even, in extreme circumstances, affect our ability to continue operations. Our access to capital depends upon a number of factors over which we have little or no control, including general market conditions and the market's perception of our growth potential and our current and potential future earnings and cash distributions and the market price of the shares of our capital stock. Generally speaking, difficult capital market conditions in our industry during the past several years and our need to stabilize our portfolio have limited our access to capital. Our potential capital sources include, but are not limited to:

Equity Financing. As with other publicly-traded companies, the availability of equity capital will depend, in part, on the market price of our common stock which, in turn, will depend upon various market conditions and other factors that may change from time to time and may be out of our control including:

- > the extent of investor interest;
-
- > the general reputation of REITs and the attractiveness of their equity securities in comparison to other equity securities, including securities issued by other real estate-based companies;
 - > our financial performance and that of our operators;
 - > the contents of analyst reports about us and the REIT industry;
 - > general stock and bond market conditions, including changes in interest rates on fixed income securities, which may lead prospective purchasers of our common stock to demand a higher annual yield from future distributions;
 - > our failure to maintain or increase our dividend, which is dependent, to a large part, on growth of funds from operations which in turn depends upon increased revenues from additional investments and rental increases; and
 - > other factors such as governmental regulatory action and changes in REIT tax laws.

The market value of the equity securities of a REIT is generally based upon the market's perception of the REIT's growth potential and its current and potential future earnings and cash distributions. Our failure to meet the market's expectation with regard to future earnings and cash distributions would likely adversely affect the market price of our common stock.

Debt Financing/Leverage. Financing for future investments and our maturing commitments may be provided by borrowings under our senior revolving credit facility, private or public offerings of debt, the assumption of secured indebtedness, mortgage financing on a portion of our owned portfolio or through joint ventures. We are subject to risks normally associated with debt financing, including the risks that our cash flow will be insufficient to make timely payments of interest, that we will be unable to refinance existing indebtedness and that the terms of refinancing will not be as favorable as the terms of existing indebtedness. If we are unable to refinance or extend principal payments due at maturity or pay them with proceeds from other capital transactions, our cash flow may not be sufficient in all years to pay distributions to our

stockholders and to repay all maturing debt. Furthermore, if prevailing interest rates, changes in our debt ratings or other factors at the time of refinancing result in higher interest rates upon refinancing, the interest expense relating to that refinanced indebtedness would increase, which could reduce our profitability and the amount of dividends we are able to pay. Moreover, additional debt financing increases the amount of our leverage. Our degree of leverage could have important consequences to stockholders, including affecting our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions, development or other general corporate purposes and making us more vulnerable to a downturn in business or the economy generally.

Certain of our operators account for a significant percentage of our revenues.

Based on existing contractual rent and lease payments regarding the restructuring of certain existing investments, as of September 30, 2005, Advocat and Sun each account for over 10% of our current contractual monthly revenues, with Sun accounting for approximately 20% of our current contractual monthly revenues. Additionally, as of September 30, 2005, our top seven operators account for approximately 61% of our current contractual monthly revenues. The failure or inability of any of these operators to pay their obligations to us could materially reduce our revenues and net income, which could in turn reduce the amount of dividends we pay and cause our stock price to decline.

S-18

Unforeseen costs associated with the acquisition of new properties could reduce our profitability.

Our business strategy contemplates future acquisitions that may not prove to be successful. For example, we might encounter unanticipated difficulties and expenditures relating to any acquired properties, including contingent liabilities, or newly acquired properties might require significant management attention that would otherwise be devoted to our ongoing business. If we agree to provide funding to enable healthcare operators to build, expand or renovate facilities on our properties and the project is not completed, we could be forced to become involved in the development to ensure completion or we could lose the property. These costs may negatively affect our results of operations.

Our assets may be subject to impairment charges.

We periodically, but not less than annually, evaluate our real estate investments and other assets for impairment indicators. The judgment regarding the existence of impairment indicators is based on factors such as market conditions, operator performance and legal structure. If we determine that a significant impairment has occurred, we would be required to make an adjustment to the net carrying value of the asset, which could have a material adverse effect on our results of operations and funds from operations in the period in which the write-off occurs. During the three months ended September 30, 2005, a \$5.5 million provision for impairment charge was recorded to reduce the carrying value on three facilities to their estimated fair value and during the three months ended March 31, 2005, a \$3.7 million provision for impairment charge was recorded to reduce the carrying value on two facilities, which were subsequently closed, to their estimated fair value.

We may not be able to sell certain closed facilities for their book value.

From time to time, we close facilities and actively market such facilities for sale. To the extent we are unable to sell these properties for our book value, we may be required to take a non-cash impairment charge or loss on the sale, either of which would reduce our net income.

Our substantial level of indebtedness could adversely affect our financial condition.

We have substantial indebtedness and we may increase our indebtedness in the future. On September 30, 2005, we had total debt of approximately \$443.5 million, of which \$80.7 million consisted of borrowings under our senior revolving credit facility, \$260 million consisted of our 7% Senior Notes due 2014, and \$100 million consisted of the aggregate principal amount of our 6.95% Senior Notes due 2007. As of November 11, 2005, we had \$138 million outstanding under our senior revolving credit facility. Our senior revolving credit facility currently allows us to borrow up to \$200 million, and provides flexibility for us to increase this amount up to \$300 million. Our substantial indebtedness could have important consequences to you. For example, it could:

- > limit our ability to satisfy our obligations with respect to holders of our capital stock;
- > increase our vulnerability to general adverse economic and industry conditions;
- > limit our ability to obtain additional financing to fund future working capital, capital expenditures and other general corporate requirements, or to carry out other aspects of our business plan;

- > require us to dedicate a substantial portion of our cash flow from operations to payments on indebtedness, thereby reducing the availability of such cash flow to fund working capital, capital expenditures and other general corporate requirements, or to carry out other aspects of our business plan;
 - > require us to pledge as collateral substantially all of our assets;
-

S-19

- > require us to maintain certain debt coverage and financial ratios at specified levels, thereby reducing our financial flexibility;
- > limit our ability to make material acquisitions or take advantage of business opportunities that may arise;
- > expose us to fluctuations in interest rates, to the extent our borrowings bear variable rates of interests;
- > limit our flexibility in planning for, or reacting to, changes in our business and industry; and
- > place us at a competitive disadvantage compared to our competitors that have less debt.

In addition, the indenture governing the 7% Senior Notes due 2014 and our senior revolving credit facility contain financial and other restrictive covenants limiting our ability to engage in activities that may be in our long-term best interests. Our failure to comply with those covenants could result in an event of default, which, if not cured or waived, could result in the acceleration of all of our debts.

Our real estate investments are relatively illiquid.

Real estate investments are relatively illiquid and, therefore, tend to limit our ability to vary our portfolio promptly in response to changes in economic or other conditions. All of our properties are "special purpose" properties that could not be readily converted to general residential, retail or office use. Healthcare facilities that participate in Medicare or Medicaid must meet extensive program requirements, including physical plant and operational requirements, which are revised from time to time. Such requirements may include a duty to admit Medicare and Medicaid patients, limiting the ability of the facility to increase its private pay census beyond certain limits. Medicare and Medicaid facilities are regularly inspected to determine compliance, and may be excluded from the programs in some cases without a prior hearing for failure to meet program requirements. Transfers of operations of nursing homes and other healthcare-related facilities are subject to regulatory approvals not required for transfers of other types of commercial operations and other types of real estate. Thus, if the operation of any of our properties becomes unprofitable due to competition, age of improvements or other factors such that our lessee or mortgagor becomes unable to meet its obligations on the lease or mortgage loan, the liquidation value of the property may be substantially less, particularly relative to the amount owing on any related mortgage loan, than would be the case if the property were readily adaptable to other uses. The receipt of liquidation proceeds or the replacement of an operator that has defaulted on its lease or loan could be delayed by the approval process of any federal, state or local agency necessary for the transfer of the property or the replacement of the operator with a new operator licensed to manage the facility. In addition, certain significant expenditures associated with real estate investment, such as real estate taxes and maintenance costs, are generally not reduced when circumstances cause a reduction in income from the investment. Should such events occur, our income and cash flows from operations would be adversely affected.

As an owner or lender with respect to real property, we may be exposed to possible environmental liabilities.

Under various federal, state and local environmental laws, ordinances and regulations, a current or previous owner of real property or a secured lender, such as us, may be liable in certain circumstances for the costs of investigation, removal or remediation of, or related releases of, certain hazardous or toxic substances at, under or disposed of in connection with such property, as well as certain other potential costs relating to hazardous or toxic substances, including government fines and damages for injuries to persons and adjacent property. Such laws often impose liability without regard to whether the owner knew of, or was responsible for, the presence or disposal of such substances and liability

S-20

may be imposed on the owner in connection with the activities of an operator of the property. The cost of any required investigation, remediation, removal, fines or personal or property damages and the owner's liability therefore could exceed the value of the property and/or the assets of the owner. In addition, the presence of such substances, or the failure to properly dispose of or remediate such substances, may adversely affect our operators' ability to attract additional residents, the owner's ability to sell or rent such property or to borrow using such property as collateral which, in turn, would reduce the owner's revenues.

Although our leases and mortgage loans require the lessee and the mortgagor to indemnify us for certain environmental liabilities, the scope of such obligations may be limited. For instance, most of our leases do not require the lessee to indemnify us for environmental liabilities arising before the lessee took possession of the premises. Further, we cannot assure you that any such mortgagor or lessee would be able to fulfill its indemnification obligations.

The industry in which we operate is highly competitive. This competition may prevent us from raising prices at the same pace as our costs increase.

We compete for additional healthcare facility investments with other healthcare investors, including other REITs. The operators of the facilities compete with other regional or local nursing care facilities for the support of the medical community, including physicians and acute care hospitals, as well as the general public. Some significant competitive factors for the placing of patients in skilled and intermediate care nursing facilities include quality of care, reputation, physical appearance of the facilities, services offered, family preferences, physician services and price. If our cost of capital should increase relative to the cost of capital of our competitors, the spread that we realize on our investments may decline if competitive pressures limit or prevent us from charging higher lease or mortgage rates.

We are named as defendants in litigation arising out of professional liability and general liability claims relating to our previously owned and operated facilities which, if decided against us, could adversely affect our financial condition.

We and several of our wholly-owned subsidiaries have been named as defendants in professional liability and general liability claims related to our owned and operated facilities. Other third-party managers responsible for the day-to-day operations of these facilities have also been named as defendants in these claims. In these suits, patients of certain previously owned and operated facilities have alleged significant damages, including punitive damages, against the defendants. The lawsuits are in various stages of discovery and we are unable to predict the likely outcome at this time. We continue to vigorously defend these claims and pursue all rights we may have against the managers of the facilities, under the terms of the management agreements. We have insured these matters, subject to self-insured retentions of various amounts. There can be no assurance that we will be successful in our defense of these matters or in asserting our claims against various managers of the subject facilities or that the amount of any settlement or judgment will be substantially covered by insurance or that any punitive damages will be covered by insurance.

We are subject to significant anti-takeover provisions.

Our articles of incorporation and bylaws contain various procedural and other requirements which could make it difficult for stockholders to effect certain corporate actions. In order to protect us against the risk of losing our REIT status for federal income tax purposes, our charter prohibits the ownership by any single person of more than 9.9% of the issued and outstanding shares of our voting stock. Our board of directors is divided into three classes and our board members are elected for terms that are staggered. Our board of directors also has the authority to issue additional shares of preferred

S-21

stock and to fix the preferences, rights and limitations of the preferred stock without stockholder approval. We have also adopted a stockholders rights plan which provides for share purchase rights to become exercisable at a discount if a person or group acquires more than 9.9% of our common stock or announces a tender or exchange offer for more than 9.9% of our common stock. These provisions could discourage unsolicited acquisition proposals or make it more difficult for a third party to gain control of us, which could adversely affect the market price of our securities.

We may change our investment strategies and policies and capital structure.

Our board of directors, without the approval of our stockholders, may alter our investment strategies and policies if it determines in the future that a change is in our and our stockholders' best interests. The methods of implementing our investment strategies and policies may vary as new investments and financing techniques are developed.

If we fail to maintain our REIT status, we will be subject to federal income tax on our taxable income at regular corporate rates.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

We were organized to qualify for taxation as a REIT under Sections 856 through 860 of the Code. We believe we have conducted, and we intend to continue to conduct, our operations so as to qualify as a REIT. Qualification as a REIT involves the satisfaction of numerous requirements, some on an annual and some on a quarterly basis, established under highly technical and complex provisions of the Code for which there are only limited judicial and administrative interpretations and involve the determination of various factual matters and circumstances not entirely within our control. For example, in order to qualify as a REIT, each year we must distribute to our stockholders at least 90% of our REIT taxable income. We cannot assure you that we will at all times satisfy these rules and tests.

If we were to fail to qualify as a REIT in any taxable year, as a result of a determination that we failed to meet the annual distribution requirement or otherwise, we would be subject to federal income tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates with respect to each such taxable year for which the statute of limitations remains open and distributions to our stockholders would not be deductible by us in computing our taxable income. Moreover, unless entitled to relief under certain statutory provisions, we also would be disqualified from treatment as a REIT for the four taxable years following the year during which qualification is lost. This treatment would significantly reduce our net earnings and cash flow because of our additional tax liability for the years involved. In addition, distributions to stockholders would no longer be required to be made.

Even if we remain qualified as a REIT, we may face other tax liabilities that reduce our cash flow.

Even if we remain qualified for taxation as a REIT, we may be subject to certain federal, state and local taxes on our income and assets, including taxes on any undistributed income, tax on income from some activities conducted as a result of a foreclosure, and state or local income, property and transfer taxes. Any of these taxes would decrease cash available for distribution to our stockholders. In addition, we may derive income through Taxable REIT Subsidiaries ("TRSs"), which will then be subject to corporate level income tax at regular rates.

S-22

Complying with REIT requirements may affect our profitability.

To qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the nature and diversification of our assets, the sources of our income and the amounts we distribute to our stockholders. Thus we may be required to liquidate otherwise attractive investments from our portfolio in order to satisfy the asset and income tests or to qualify under certain statutory relief provisions. We may also be required to make distributions to stockholders at disadvantageous times or when we do not have funds readily available for distribution (e.g. if we have assets which generate mismatches between taxable income and available cash). Then, having to comply with the distribution requirement could cause us to: (i) sell assets in adverse market conditions, (ii) borrow on unfavorable terms or (iii) distribute amounts that would otherwise be invested in future acquisitions, capital expenditures or repayment of debt. As a result, satisfying the REIT requirements could have an adverse effect on our business results and profitability.

We depend upon our key employees and may be unable to attract or retain sufficient numbers of qualified personnel.

Our future performance depends to a significant degree upon the continued contributions of our executive management team and other key employees. Accordingly, our future success depends on our ability to attract, hire, train and retain highly skilled management and other qualified personnel. Competition for qualified employees is intense, and we compete for qualified employees with companies that may have greater financial resources than we have. Our employment agreements with our executive officers provide that their employment may be terminated by either party at any time. Consequently, we may not be successful in attracting, hiring, training and retaining the people we need, which would seriously impede our ability to implement our business strategy.

In the event we are unable to satisfy regulatory requirements relating to internal controls, or if these internal controls over financial reporting are not effective, our business and our stock price could suffer.

Section 404 of the Sarbanes-Oxley Act of 2002 requires companies to do a comprehensive evaluation of their internal controls. As a result, we continue to evaluate our internal controls over financial reporting so that our management can certify as to the effectiveness of our internal controls and our auditor can publicly attest to this certification. Our efforts to comply with Section 404 and related regulations regarding our management's required assessment of internal control over financial reporting and our independent auditors' attestation of that assessment has required, and continues to require, the commitment of significant financial and managerial resources. If for any period our management is unable to certify the effectiveness of our internal controls or if our auditors cannot attest to management's certification, we could be subject to regulatory scrutiny and a loss of public confidence, which could have an adverse effect on our business and our stock price.

RISKS RELATED TO OUR COMMON STOCK

The market value of our common stock could be substantially affected by various factors.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

The share price of our common stock will depend on many factors, which may change from time to time, including:

- > the market for similar securities issued by REITs;
 - > changes in estimates by analysts;
 - > our ability to meet analysts' estimates;
-

S-23

- > general economic and financial market conditions; and
- > our financial condition, performance and prospects.

Our issuance of additional capital stock, warrants or debt securities, whether or not convertible, may reduce the market price for our shares.

We cannot predict the effect, if any, that future sales of our capital stock, warrants or debt securities, or the availability of our securities for future sale, will have on the market price of our shares, including our common stock. Sales of substantial amounts of our common stock or preferred shares, warrants or debt securities convertible into or exercisable or exchangeable for common stock in the public market or the perception that such sales might occur could reduce the market price of our common stock and the terms upon which we may obtain additional equity financing in the future.

In addition, we may issue additional capital stock in the future to raise capital or as a result of the following:

- > The issuance and exercise of options to purchase our common stock. As September 30, 2005, we had outstanding options to acquire approximately 0.3 million shares of our common stock. In addition, we may in the future issue additional options or other securities convertible into or exercisable for our common stock under our 2004 Stock Incentive Plan, our 2000 Stock Incentive Plan or other remuneration plans. We may also issue options or convertible securities to our employees in lieu of cash bonuses or to our directors in lieu of director's fees.
- > The issuance of shares pursuant to our dividend reinvestment and direct stock purchase plan.
- > The issuance of debt securities exchangeable for our common stock.
- > The exercise of warrants we may issue in the future.
- > Lenders sometimes ask for warrants or other rights to acquire shares in connection with providing financing. We cannot assure you that our lenders will not request such rights.

There are no assurances of our ability to pay dividends in the future.

In 2001, our board of directors suspended dividends on our common stock and all series of preferred stock in an effort to generate cash to address then impending debt maturities. In 2003, we paid all accrued but unpaid dividends on all series of preferred stock and reinstated dividends on our common stock and all series of preferred stock. However, our ability to pay dividends may be adversely affected if any of the risks described in this prospectus supplement were to occur. Our payment of dividends is subject to compliance with restrictions contained in our senior revolving credit facility, the indenture relating to our outstanding 7% Senior Notes due 2014 and our preferred stock. All dividends will be paid at the discretion of our board of directors and will depend upon our earnings, our financial condition, maintenance of our REIT status and such other factors as our board of directors may deem relevant from time to time. There are no assurances of our ability to pay dividends in

the future. In addition, our dividends in the past have included, and may in the future include, a return of capital.

Holders of our outstanding preferred stock have liquidation, dividend and other rights that are senior to the rights of the holders of our common stock.

Our board of directors has the authority to designate and issue preferred stock with liquidation, dividend and other rights that are senior to those of our common stock. As of September 30, 2005, 4,739,500 shares of our 8.375% Series D cumulative redeemable preferred stock were issued and outstanding, or Series D Preferred Stock. As of September 30, 2005, the aggregate liquidation preference with respect to this outstanding preferred stock was approximately \$118.5 million, and

S-24

annual dividends on our outstanding preferred stock are approximately \$9.9 million. Holders of our preferred stock are generally entitled to cumulative dividends before any dividends may be declared or set aside on our common stock. Upon our voluntary or involuntary liquidation, dissolution or winding up, before any payment is made to holders of our common stock, holders of our preferred stock are entitled to receive a liquidation preference of \$25 per share with respect to the Series D Preferred Stock, plus any accrued and unpaid distributions. This will reduce the remaining amount of our assets, if any, available to distribute to holders of our common stock. In addition, holders of our preferred stock have the right to elect two additional directors to our board of directors if six quarterly preferred dividends are in arrears.

Legislative or regulatory action could adversely affect purchasers of our common stock.

In recent years, numerous legislative, judicial and administrative changes have been made in the provisions of the federal income tax laws applicable to investments similar to an investment in our common stock. Changes are likely to continue to occur in the future, and we cannot assure you that any of these changes will not adversely affect your taxation as a holder of our common stock. Any of these changes could have an adverse effect on an investment in our common stock or on market value or resale potential. You are urged to consult with your own tax advisor with respect to the impact that recent legislation may have on your investment and the status of legislative regulatory or administrative developments and proposals and their potential effect.

Recent changes in taxation of corporate dividends may adversely affect the value of our common stock.

Dividends received by an individual from a regular C corporation are subject to a maximum marginal rate of federal income tax equal to 15% for taxable years prior to 2009. This reduced tax rate, however, does not apply to dividends paid to individuals by a REIT on its shares, except for certain limited amounts. While the earnings of a REIT that are distributed to its stockholders still generally will be subject to less combined federal income taxation than earnings of a non-REIT C corporation that are distributed to its stockholders net of corporate-level tax, individual investors could view the stock of regular C corporations as more attractive relative to the shares of a REIT so long as the 15% rate remains in effect. Individual investors could hold this view because the dividends from regular C corporations will generally be taxed at a lower rate while dividends from REITs will generally be taxed at the same rate as the individual's other ordinary income.

S-25

Cautionary language regarding forward-looking statements

Certain statements in this prospectus supplement or in documents incorporated herein by reference may constitute "forward-looking" statements as defined in Section 27A of the Securities Act of 1933, or the Securities Act, Section 21E of the Securities Exchange Act of 1934, or the Exchange Act, the Private Securities Litigation Reform Act of 1995, or the PSLRA, or in releases issued by the SEC all as may be amended from time to time. Any such forward-looking statements reflect our beliefs and assumptions and are based on information currently available to us. Forward-looking statements are only predictions and involve known and unknown risks, uncertainties and other factors that are, in some cases, beyond our control and that may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These cautionary statements are being made pursuant to the Securities Act, the Exchange Act and the PSLRA with the intention of obtaining the benefits of the "safe harbor" provisions of such laws. We caution investors that any forward-looking statements we make are not guarantees or indicative of future performance. For additional information regarding factors that may cause our results of operations to differ materially from those presented herein, please see the section entitled "Risk factors" contained in this prospectus supplement.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

You can identify forward-looking statements as those that are not historical in nature, particularly those that use terminology such as "may," "will," "should," "expect," "anticipate," "contemplate," "estimate," "believe," "plan," "project," "predict," "potential" or "continue," or the negative of these, or similar terms. These forward-looking statements may include, but are not limited to:

- > statements contained in the section entitled "Risk factors";
- > statements contained in the section entitled "Management's discussion and analysis of financial condition and results of operations" and the notes to our consolidated financial statements incorporated by reference into this prospectus supplement, such as our ability to meet our liquidity needs, scheduled debt and interest payments and expected future capital expenditure requirements; the expected changes in and effects of government regulation on our operators and our business; the expected costs and certain expenses in fiscal 2004 and 2005 and the foreseeable future; and estimates in our critical accounting policies; and
- > statements contained in "Business" incorporated by reference into this prospectus supplement, such as those concerning our business strategy, competitive strengths, environmental matters and legal proceedings.

In evaluating these forward-looking statements, you should consider the following factors, as well as others contained in our public filings from time to time, which may cause our actual results to differ materially from any forward-looking statement:

- > those items discussed in the section entitled "Risk factors";
- > uncertainties relating to the business operations of the operators of our assets, including those relating to reimbursement by third-party payors, regulatory matters and occupancy levels;
- > the ability of any operators in bankruptcy to reject unexpired lease obligations, modify the terms of our mortgages and impede our ability to collect unpaid rent or interest during the process of a bankruptcy proceeding and retain security deposits for the debtors' obligations;
- > our ability to sell closed assets on a timely basis and on terms that allow us to realize the carrying value of these assets;
- > our ability to negotiate appropriate modifications to the terms of our senior revolving credit facility;

S-26

- > our ability to manage, re-lease or sell any owned and operated facilities;
- > our ability to successfully engage in strategic acquisitions and investments;
- > the availability and cost of capital;
- > competition in the financing of healthcare facilities;
- > regulatory and other changes in the healthcare sector;
- > the effect of economic and market conditions generally and in the healthcare industry particularly;
- >

changes in interest rates;

- > the amount and yield of any additional investments;
- > changes in tax laws and regulations affecting real estate investment trusts; and
- > changes in the ratings of our debt and preferred securities.

Any subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth or referred to above, as well as the risk factors contained in this prospectus supplement. Except as required by law, we disclaim any obligation to update such statements or to publicly announce the result of any revisions to any of the forward-looking statements contained in this prospectus supplement to reflect future events or developments.

S-27

Use of proceeds

Our net proceeds from the sale of the shares of common stock, after deducting underwriting discounts and commissions and other expenses of this offering payable by us, are estimated to be approximately \$52.1 million (\$60.0 million if the underwriters' over-allotment option is exercised in full), assuming a public offering price of \$12.30 per share. We intend to use all of the net proceeds of this offering to repay indebtedness outstanding under our senior revolving credit facility, which currently bears an interest rate of 6.61% and matures on March 22, 2008. We entered into our senior revolving credit facility on March 22, 2004 and have used the funds for general corporate purposes, including the acquisition of healthcare-related properties and the funding of mortgage loans secured by healthcare-related properties. Bank of America N.A., an affiliate of Banc of America Securities LLC, is the administrative agent and a lender under our senior revolving credit facility; UBS Loan Finance LLC, an affiliate of UBS Securities LLC, and Deutsche Bank AG, an affiliate of Deutsche Bank Securities Inc., are lenders under our senior revolving credit facility. UBS Securities LLC, Banc of America Securities LLC and Deutsche Bank Securities Inc. are underwriters of this offering of our common stock. If and to the extent there are net proceeds remaining after we have repaid all indebtedness under our senior revolving credit facility, we will use these proceeds for working capital and general corporate purposes.

S-28

Price range of common stock and dividend policy

Our common stock is traded on the NYSE under the symbol OHI. The following table sets forth, for the periods shown, the high and low prices for our common stock as reported by the NYSE for the periods indicated, and cash dividends per share:

	High	Low	Dividends per share
Year ended December 31, 2003			
First Quarter	\$ 3.92	\$ 2.26	\$ 0.00
Second Quarter	5.60	2.21	0.00
Third Quarter	8.35	5.07	0.00
Fourth Quarter	9.42	7.40	0.15
Year ended December 31, 2004			
First Quarter	\$ 11.45	\$ 9.15	\$ 0.17
Second Quarter	11.25	8.35	0.18
Third Quarter	10.80	9.47	0.18
Fourth Quarter	12.95	10.67	0.19

	High	Low	Dividends per share
Year ended December 31, 2005			
First Quarter	\$ 11.95	\$ 10.31	\$ 0.20
Second Quarter	13.65	10.58	0.21
Third Quarter	14.28	12.39	0.22
Fourth Quarter (through November 11, 2005)	13.98	11.75	0.22

On November 11, 2005, the closing price for our common stock was \$12.30 per share, and, as of October 31, 2005, there were approximately 2,037 registered holders of our common stock.

In 2004, we paid all regular quarterly dividend payments on our outstanding series of preferred stock and common stock. In 2005, we have paid all regular quarterly dividend payments on our outstanding series of preferred stock and common stock.

S-29

Capitalization

The following table sets forth our capitalization as of September 30, 2005:

- > On an actual basis;
- > On a pro forma basis giving effect to the sale of a SNF in November 2005, and the completion of \$75 million of new investments and borrowings under our senior revolving credit facility since September 30, 2005; and
- > On a pro forma as adjusted basis giving further effect to our sale of the common stock in this offering at an assumed offering price of \$12.30 per share and the receipt of the estimated net proceeds of \$52.1 million, the assumed application of the approximately \$52.1 million of net proceeds to repay a portion of our outstanding borrowings under our senior revolving credit facility, the sale of a SNF in November 2005, and the completion of \$75 million of new investments and borrowings under our senior revolving credit facility since September 30, 2005.

This table should be read in conjunction with "Management's discussion and analysis of financial condition and results of operations" and our consolidated financial statements and the related notes included in or incorporated by reference to this prospectus supplement.

	As of September 30, 2005		
	Actual	Pro forma	Pro forma, as adjusted
(in thousands)			
Cash	\$ 768	\$ 768	\$ 768
Debt:			
Senior revolving credit facility	80,700	141,102	89,019
6.95% notes due 2007	100,000	100,000	100,000
7.00% senior notes due 2014	260,000	260,000	260,000
Premium on new 7.00% senior notes due 2014	1,219	1,219	1,219
Other long-term borrowings	2,800	2,800	2,800
Total Debt	444,719	505,121	453,038
Stockholders' Equity:			

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

As of September 30, 2005

Preferred Stock, \$1.00 par value; authorized 20,000,000 shares:			
Issued and Outstanding 4,739,500 shares Series D with an aggregate liquidation preference of \$118,487,500 as of September 30, 2005	118,488	118,488	118,488
Common Stock, \$0.10 par value:			
Authorized 100,000,000 shares			
Issued and Outstanding 51,291,693 as of September 30, 2005; pro forma as adjusted 55,791,693 shares	5,129	5,129	5,579
Additional paid in capital	596,207	596,207	647,840
Cumulative net earnings	207,694	213,563	213,563
Cumulative dividends paid	(522,206)	(522,206)	(522,206)
Cumulative dividends redemption	(43,067)	(43,067)	(43,067)
Unamortized restricted stock award	(1,452)	(1,452)	(1,452)
Accumulated other comprehensive gain	730	730	730
Total Stockholders' Equity	361,523	367,392	419,475
Total Capitalization	\$ 806,242	\$ 872,513	\$ 872,513

S-30

The table above excludes:

- > 261,065 shares of our common stock issuable upon exercise of options outstanding as of September 30, 2005 at a weighted average exercise price of \$5.168 per share;
- > 231,594 shares of our common stock available for issuance (an additional 1,225,000 shares have been registered with the SEC and are available for issuance upon approval by our board of directors) under our dividend reinvestment and common stock purchase plan as of September 30, 2005;
- > 2,906,995 million shares of our common stock available for future grant under our 2000 Stock Incentive Plan and our 2004 Stock Incentive Plan;
- > 218,666 unvested shares of our restricted common stock; and
- > 675,000 shares of our common stock that may be purchased by underwriters to cover over-allotments, if any.

S-31

Selected consolidated financial data

The following table sets forth consolidated financial data as of the dates and for the periods presented. The statement of operations data, balance sheet data and other data as of, and for each of the years during the three-year period ended, December 31, 2004 have been derived from, and should be read in conjunction with, our audited consolidated financial statements and the related notes incorporated by reference in this prospectus supplement. The statement of operations data, balance sheet data and other data as of and for each of the years ended December 31,

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

2001 and 2000 are derived from our audited consolidated financial statements. The selected historical statement of operations data, balance sheet data and other data as of, and for the nine months ended, September 30, 2005 and September 30, 2004 have been derived from, and should be read in conjunction with, our unaudited consolidated financial statements for the fiscal quarter ended September 30, 2005 and the related notes incorporated by reference in this prospectus supplement and, in the opinion of management, include all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the results for the unaudited interim periods.

- (1) *Dividends per share are those declared and paid during such period.*
- (2) *Dividends per share are those declared during such period, based on the number of shares of common stock issuable upon conversion of the outstanding Series C Preferred Stock.*
- (3) *We consider funds from operations, or FFO, to be a key measure of a REIT's performance which should be considered along with, but not as an alternative to, net income and cash flow as a measure of operating performance and liquidity. We calculate and report FFO in accordance with the definition and interpretive guidelines issued by the National Association of Real Estate Investment Trusts, or NAREIT, and, consequently, FFO is defined as net income available to common stockholders, adjusted for the effects of asset dispositions and certain non-cash items, primarily depreciation and amortization. We believe that FFO is an important supplemental measure of our operating performance. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), such accounting presentation implies that the value of real estate assets diminishes predictably over time, while real estate values instead have historically risen or fallen with market conditions. The term FFO was designed by the real estate industry to address this issue. FFO herein is not necessarily comparable to FFO of other REITs that do not use the same definition of implementation guidelines or interpret the standards differently from us.*

We use FFO as one of several criteria to measure operating performance of our business. We further believe that by excluding the effect of depreciation, amortization and gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and between other REITs. We offer this measure to assist the users of our financial performance under GAAP and should not be considered a measure of liquidity, an alternative to net income or an indicator of any other performance measure determined in accordance with GAAP. Investor and potential investors in our securities should not rely on this measure as a substitute for any GAAP measure, including net income.

In February 2004, NAREIT informed its member companies that it was adopting the position of the SEC with respect to asset impairment charges and would no longer recommend that impairment write-downs be excluded from FFO. In the table included below, we have applied this interpretation and have not excluded asset impairment charges in calculating our FFO. As a result, our FFO may not be comparable to similar measures reported in previous disclosures. According to NAREIT, there is inconsistency among NAREIT member companies as to the adoption of this interpretation of FFO. Therefore, a comparison of our FFO results to another company's FFO results may not be meaningful.

S-33

The following table is a reconciliation of net income (loss) available to common to FFO:

	Year ended December 31,					Nine months ended September 30,	
	2000	2001	2002	2003	2004	2004	2005

(1) Member of Compensation Committee

(2) Member of Audit Committee

(3) Member of Investment Committee

(4) Member of Nominating and Corporate Governance Committee

Set forth below are descriptions and backgrounds of each of our current executive officers and directors.

DIRECTORS

Bernard J. Korman is Chairman of the Board and has served in this capacity since March 8, 2004. He has served as a director since October 19, 1993. Mr. Korman's term expires in 2006. Mr. Korman has been Chairman of the Board of Trustees of Philadelphia Health Care Trust, a private healthcare foundation, since December 1995. Mr. Korman previously served as a director of The Pep Boys, Inc. (NYSE: PBY) and served as its Chairman of the Board from May 28, 2003 until his retirement from such board in September 2004. He was formerly President, Chief Executive Officer and Director of MEDIQ Incorporated (OTC: MDDQP) (health care services) from 1977 to 1995. Mr. Korman is also a director of The New America High Income Fund, Inc. (NYSE: HYB) (financial services), Kramont Realty Trust (NYSE:KRT) (real estate investment trust), Medical Nutrition USA, Inc., (OTC: MDNU.OB) and NutraMax Products, Inc. (OTC: NUTP) (consumer health care products). Mr. Korman was previously a director of Omega Worldwide, Inc.

Thomas F. Franke is a Director and has served in this capacity since March 31, 1992. Mr. Franke's term expires in 2006. Mr. Franke is Chairman and a principal owner of Cambridge Partners, Inc., an owner, developer and manager of multifamily housing in Grand Rapids and Ann Arbor, Michigan. He is also a principal owner of Laurel Healthcare (a private healthcare firm operating in the United States) and is a principal owner of Abacus Hotels LTD. (a private hotel firm in the United Kingdom). Mr. Franke was a founder and previously a director of Principal Healthcare Finance Limited and Omega Worldwide, Inc.

Harold J. Kloosterman is a Director and has served in this capacity since September 1, 1992. Mr. Kloosterman's term expires in 2008. Mr. Kloosterman has served as President since 1985 of

S-35

Cambridge Partners, Inc., a company he formed in 1985. He has been involved in the development and management of commercial, apartment and condominium projects in Grand Rapids and Ann Arbor, Michigan and in the Chicago area. Mr. Kloosterman was formerly a Managing Director of Omega Capital from 1986 to 1992. Mr. Kloosterman has been involved in the acquisition, development and management of commercial and multifamily properties since 1978. He has also been a senior officer of LaSalle Partners, Inc.

Edward Lowenthal is a Director and has served in this capacity since October 17, 1995. Mr. Lowenthal's term expires in 2007. From January 1997 to March 2002, Mr. Lowenthal served as President and Chief Executive Officer of Wellsford Real Properties, Inc. (AMEX: WRP), a real estate merchant bank and was President of the predecessor of Wellsford Real Properties, Inc. since 1986. Mr. Lowenthal also serves as a director of WRP, REIS, Inc. (a private provider of real estate market information and valuation technology), Ark Restaurants (Nasdaq: ARKR) (a publicly traded owner and operator of restaurants), American Campus Communities (NYSE: ACC) (a public developer, owner and operator of student housing at the university level), Desarrolladora Homex (NYSE:HXM) (a Mexican homebuilder), and a trustee of the Manhattan School of Music.

Stephen D. Plavin is a Director and has served in this capacity since July 17, 2000. Mr. Plavin's term expires in 2007. Mr. Plavin has been Chief Operating Officer of Capital Trust, Inc., (NYSE: CT) a New York City-based mortgage REIT and investment management company and has served in this capacity since 1998. In this role, Mr. Plavin is responsible for all of the lending, investing and portfolio management activities of Capital Trust, Inc.

Pursuant to our articles of incorporation, our directors are divided into three classes. Currently, our board of directors has two directors in each group. At each annual meeting, one class of directors is elected by the holders of our common stock to hold office for a term of three years or, in each case, until the director's respective successor has been duly elected and qualified.

EXECUTIVE OFFICERS

C. Taylor Pickett is the Chief Executive Officer of our company and has served in this capacity since June, 2001. Mr. Pickett is also a Director and has served in this capacity since May 30, 2002. Mr. Pickett's term as a Director expires in 2008. Prior to joining our company, Mr. Pickett served as the Executive Vice President and Chief Financial Officer from January 1998 to June 2001 of Integrated Health Services, Inc., a public company specializing in post-acute healthcare services. He also served as Executive Vice President of Mergers and Acquisitions from May 1997 to December 1997 of Integrated Health Services. Prior to his roles as Chief Financial Officer and Executive Vice President of Mergers and Acquisitions, Mr. Pickett served as the President of Symphony Health Services, Inc. from January 1996 to May 1997.

Daniel J. Booth is the Chief Operating Officer of our company and has served in this capacity since October, 2001. Prior to joining our company, Mr. Booth served as a member of Integrated Health Services, Inc.'s management team since 1993, most recently serving as Senior Vice President, Finance. Prior to joining Integrated Health Services, Mr. Booth was Vice President in the Healthcare Lending Division of Maryland National Bank (now Bank of America).

R. Lee Crabill, Jr. is the Senior Vice President of Operations of our company and has served in this capacity since July, 2001. Mr. Crabill served as a Senior Vice President of Operations at Mariner Post-Acute Network from 1997 through 2000. Prior to that, he served as an Executive Vice President of Operations at Beverly Enterprises.

S-36

Robert O. Stephenson is the Chief Financial Officer of our company and has served in this capacity since August, 2001. Prior to joining our company, Mr. Stephenson served from 1996 to July 2001 as the Senior Vice President and Treasurer of Integrated Health Services, Inc., a public company specializing in post-acute healthcare services. Prior to Integrated Health Services, Mr. Stephenson served in management roles at CSX Intermodal, Martin Marietta Corporation and Electronic Data Systems.

Mariner Post-Acute Network, Inc. and Integrated Health Services, along with several other long-term healthcare operators, each filed voluntary petitions under Chapter 11 of the United States Bankruptcy Code in January and February 2000, respectively.

S-37

Description of capital stock

As of the date of this prospectus supplement, our authorized capital stock consisted of 100,000,000 shares of our common stock, par value \$0.10 per share, and 20,000,000 shares of preferred stock, par value \$1.00 per share, of which 4,739,500 are designated as Series D cumulative redeemable preferred stock, or Series D Preferred Stock. Following the redemption of our Series A, Series B and Series C preferred stock, our board of directors, pursuant to authority granted in our articles of incorporation, re-classified the remaining 5,260,500 authorized shares of Series A, Series B and Series C preferred stock as preferred stock without designation as to series. As of September 30, 2005, we had 51,291,693 shares of our common stock and 4,739,500 shares of our 8.375% Series D Preferred Stock issued and outstanding. Our common stock and Series D Preferred Stock are listed on the NYSE.

All shares of our common stock participate equally in dividends payable to stockholders of our common stock when and as declared by our board of directors and in net assets available for distribution to stockholders of our common stock on liquidation or dissolution, have one vote per share on all matters submitted to a vote of the stockholders and do not have cumulative voting rights in the election of directors. Holders of our common stock do not have preference, conversion, exchange or preemptive rights. Our common stock is listed on the New York Stock Exchange under the symbol "OHI."

The following description of the terms of the preferred stock sets forth certain general terms and provisions of the preferred stock. The description of certain provisions of the preferred stock set forth below does not purport to be complete and is subject to and qualified in its entirety by reference to the company's articles of incorporation, as amended, and the board of directors' resolution or articles supplementary relating to each series of the preferred stock.

Under the articles of incorporation, our board of directors is authorized without further stockholder action to provide for the issuance of up to an additional 15,260,500 shares of preferred stock, in one or more series, with such designations, preferences, powers and relative participating, optional or other special rights and qualifications, limitations or restrictions thereon, including, but not limited to, dividend rights, dividend rate or rates, conversion rights, voting rights, rights and terms of redemption (including sinking fund provisions), the redemption price or prices, and the liquidation preferences as shall be stated in the resolution providing for the issue of a series of such stock, adopted, at any time or from time to time, by our board of directors. The board of directors' resolution or articles supplementary relating to future series of the preferred stock offered will establish specific terms for each series.

Our outstanding preferred stock is, and any future series of preferred stock will, when issued, be, fully paid and nonassessable. Our outstanding preferred stock does not have, and any future series of preferred stock will not have, any preemptive rights. Unless otherwise stated in the board of directors' resolution or articles supplementary relating to a particular series of the preferred stock, each series of the preferred stock will rank on a parity as to dividends and distributions of assets with each other series of the preferred stock. The rights of the holders of each series of the preferred stock will be subordinate to those of the company's general creditors.

Our outstanding Series D Preferred Stock has no stated maturity or voting rights and is not subject to any sinking fund or mandatory redemption. The Series D Preferred Stock is, with respect to dividend rights and rights upon liquidation, dissolution or winding up of our company, ranked senior to all classes or series of our common stock. Holders of shares of the Series D Preferred Stock are entitled to receive the payment of

dividends, preferential cumulative cash dividends at a rate of 8.375% per

S-38

annum of the liquidation preference per share. Dividends on the Series D Preferred Stock are cumulative from the date of original issue and are payable quarterly.

Computershare, N.A. is the transfer agent and registrar of the common stock and our outstanding preferred stock.

REDEMPTION AND BUSINESS COMBINATION PROVISIONS

If our board of directors is, at any time and in good faith, of the opinion that actual or constructive ownership of at least 9.9% or more of the vote or value of our outstanding capital stock has or may become concentrated in the hands of one owner, our board of directors will have the power:

- > by means deemed equitable by it, to call for the purchase from any of our stockholders a number of voting or non-voting shares sufficient, in the opinion of our board of directors, to maintain or bring the actual or constructive ownership of such owner to a level of no more than 9.9% of the vote or value of our outstanding capital stock, as the case may be; and
- > to refuse to transfer or issue the voting or non-voting shares of our capital stock to any person whose acquisition of such shares would, in the opinion of our board of directors, result in the actual or constructive ownership by that person of more than 9.9% of the vote or value of our outstanding capital stock, as the case may be.

Further, any transfer of shares, options, warrants, or other securities convertible into voting shares that would create a beneficial owner of more than 9.9% of the vote or value of our outstanding capital stock will be deemed void ab initio and the intended transferee will be deemed never to have had an interest in such stock. Subject to the rights of the preferred stock described below, the purchase price for any shares of our capital stock so redeemed will be equal to the fair market value of the shares reflected in the closing sales prices for the shares, if then listed on a national securities exchange, or the average of the closing sales prices for the shares if then listed on more than one national securities exchange, or if the shares are not then listed on a national securities exchange, the latest bid quotation for the shares if then traded over-the-counter, on the last business day immediately preceding the day on which we send notices of such acquisitions, or, if no such closing sales prices or quotations are available, then the purchase price will be equal to the net asset value of such stock as determined by our board of directors in accordance with the provisions of applicable law. The purchase price for shares of Series D Preferred Stock will be equal to the fair market value of the shares reflected in the closing sales price for the shares, if then listed on a national securities exchange, or if the shares are not then listed on a national securities exchange, the purchase price will, in the case of the Series D Preferred Stock, be equal to the liquidation preference of such shares of Series D Preferred Stock. From and after the date fixed for purchase by our board of directors, the holder of any shares so called for purchase will cease to be entitled to distributions, voting rights and other benefits with respect to such shares, except the right to payment of the purchase price for the shares.

Our articles of incorporation require that, except in certain circumstances, business combinations between us and a beneficial holder of 10% or more of our outstanding voting stock, a related person, be approved by the affirmative vote of at least 80% of our outstanding voting shares.

A "business combination" is defined in the articles of incorporation as:

- > any merger or consolidation of our company with or into a related person;
- > any sale, lease, exchange, transfer or other disposition, including, without limitation, a mortgage or any other security device, of all or any "substantial part," as defined below, of our assets including, without limitation, any voting securities of a subsidiary to a related person;

S-39

>

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

any merger or consolidation of a related person with or into our company;

- > any sale, lease, exchange, transfer or other disposition of all or any substantial part of the assets of a related person to our company;
- > the issuance of any securities (other than by way of pro rata distribution to all stockholders) of our company to a related person; and
- > any agreement, contract or other arrangement providing for any of the transactions described in the definition of business combination.

The term "substantial part" is defined as more than 10% of the book value of our total assets as of the end of our most recent fiscal year ending prior to the time the determination is being made.

The 80% voting requirement described above will not be applicable if (i) our board of directors has unanimously approved in advance the acquisition of our stock that caused a related person to become a related person, or (ii) the business combination is solely between us and a wholly owned subsidiary.

Under the terms of our articles of incorporation, as amended, our board of directors is classified into three classes. Each class of directors serves for a term of three years, with one class being elected each year.

The foregoing provisions of the articles of incorporation and certain other matters may not be amended without the affirmative vote of at least 80% of our outstanding voting shares. The foregoing provisions may have the effect of discouraging unilateral tender offers or other takeover proposals which certain stockholders might deem in their interests or in which they might receive a substantial premium. Our board of directors' authority to issue and establish the terms of currently authorized preferred stock, without stockholder approval, may also have the effect of discouraging takeover attempts. The provisions could also have the effect of insulating current management against the possibility of removal and could, by possibly reducing temporary fluctuations in market price caused by accumulation of shares, deprive stockholders of opportunities to sell at a temporarily higher market price. However, our board of directors believes that inclusion of the business combination provisions in the articles of incorporation may help assure fair treatment of stockholders and preserve our assets.

The foregoing summary of certain provisions of the articles of incorporation does not purport to be complete or to give effect to provisions of statutory or common law. The foregoing summary is subject to, and qualified in its entirety by reference to, the provisions of applicable law and the articles of incorporation.

STOCKHOLDER RIGHTS PLAN

On May 12, 1999, our board of directors authorized the adoption of a stockholder rights plan. The plan is designed to require a person or group seeking to gain control of our company to offer a fair price to all of our stockholders. The rights plan will not interfere with any merger, acquisition or business combination that our board of directors finds is in our best interest and the best interests of our stockholders.

In connection with the adoption of the stockholder rights plan, our board of directors declared a dividend distribution of one right for each common share outstanding on May 24, 1999. The stockholder protection rights will not become exercisable unless a person acquires 10% or more of our common stock, or begins a tender offer that would result in the person owning 10% or more of our common stock. At that time, each stockholder protection right would entitle each stockholder other than the person who triggered the rights plan to purchase either our common stock or stock of an acquiring entity at a discount to the then market price. The plan was not adopted in response to any specific attempt to acquire control of our company.

S-40

Certain federal income tax considerations

For a general summary of material U.S. federal income tax considerations applicable to us, and to the purchasers of our common stock and our election to be taxed as a REIT, see "Certain federal income tax considerations" in the Base Prospectus. The discussion therein as modified herein is based on consultations with Powell Goldstein LLP, our special counsel. In the opinion of Powell Goldstein LLP, such discussion, to the extent it constitutes matters of law or legal conclusions (provided that the facts, representations, and assumptions upon which the discussion is based are accurate), accurately represents the material U.S. federal income tax considerations relevant to purchasers of our stock. Powell Goldstein LLP has provided us with an opinion to that effect.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

On October 22, 2004, President George W. Bush signed into law the American Jobs Creation Act of 2004, or the AJCA, which provides for amendments to the Internal Revenue Code, including amendments relating to the federal income tax treatment of a REIT and its stockholders. Following is a summary of the changes to the tax consequences discussed in the Base Prospectus on account of the AJCA, effective for tax years beginning after the date of its enactment, unless stated otherwise:

- > " Taxation of Omega Income tests". Rents for customary services performed by a TRS or that are received from a TRS and are described in Code Section 512(b)(3) no longer meet the 100% excise tax safe harbor. Instead, such payments avoid the excise tax if we pay the TRS at least 150% of its direct cost of furnishing such services;
- > " Taxation of Omega Hedging transactions". Income from hedging transactions will not be included in gross income (i.e. not included in either the numerator or the denominator of the calculation) for purposes of the 95% gross income test;
- > " Taxation of Omega Failure to satisfy income tests". We may avoid disqualification as a REIT in the event of certain failures of the income tests, provided that (i) we file a schedule with a description of each item of gross income that caused the failure, (ii) the failure was due to reasonable cause and not willful neglect, (iii) we pay a tax on the failure;
- > " Taxation of Omega Asset tests". Starting with the 2001 tax year, for purposes of determining whether we own more than 10% of the value of any one issuer's outstanding securities for purpose of the asset tests, the term "securities" does not include: (i) any loan to an individual or an estate; (ii) any Code Section 467 rental agreement; (iii) any obligation to pay rents from real property; (iv) certain government issued securities; (v) any security issued by another REIT; and (vi) debt securities in any partnership, not otherwise excepted under (i) through (v) above, (A) to the extent of our interest as a partner in the partnership or (B) if 75% of the partnership's gross income is derived from sources described in the 75% gross income test;
- > " Taxation of Omega Asset tests". Subject to certain *de minimis* exceptions, we may avoid disqualification as a REIT in the event of certain failures under the asset tests, provided that (i) we file a schedule with a description of each asset that caused the failure, (ii) the failure was due to reasonable cause and not willful neglect, (iii) we dispose of the assets within 6 months after the last day of the quarter in which the identification of the failure occurred (or the requirements of the rules are otherwise met within such period), and (iv) we pay a tax on the failure equal to the greater of (A) \$50,000 per failure, and (B) the product of the net income generated by the assets that caused the failure for the period beginning on the date of the failure and ending on the date we dispose of the asset (or otherwise satisfy the requirements), multiplied by the highest applicable corporate tax rate;

S-41

- > " Taxation of foreign stockholders". A capital gain distribution to a Non-U.S. Stockholder that would be otherwise subject to FIRPTA will not be treated as effectively connected income and instead will be treated as ordinary dividend income subject to withholding at a 30% rate (or a lower treaty rate) provided that (i) the distribution is received by such Non-U.S. Stockholder with respect to a class of our stock that is regularly traded on an established securities market located in the U.S., as are the shares offered in this Prospectus Supplement and (ii) such Non-U.S. Stockholder does not own more than 5% of the class of stock at any time during the taxable year within which it receives the distribution;
- > " Other Tax Consequences New legislation". A REIT may avoid disqualification in the event of the failure to meet certain requirements for REIT qualification, other than the 95% and 75% gross income tests and other than the new rules provided for failures of the asset tests, if the failures are due to reasonable cause and not willful neglect, and if the REIT pays a penalty of \$50,000 for each such failure.

S-42

Underwriting

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

We are offering the shares of our common stock described in this prospectus supplement through the underwriters named below. UBS Securities LLC, Deutsche Bank Securities Inc., Banc of America Securities LLC and Legg Mason Wood Walker, Incorporated are the underwriters. We have entered into an underwriting agreement with the underwriters. Subject to the terms and conditions of the underwriting agreement, each of the underwriters has severally agreed to purchase the number of shares listed next to its name in the following table:

Underwriters	Number of shares
UBS Securities LLC	
Deutsche Bank Securities Inc.	
Banc of America Securities LLC	
Legg Mason Wood Walker, Incorporated	
Total	

The underwriting agreement provides that the underwriters must buy all of the shares if they buy any of them. However, the underwriters are not required to take or pay for the shares covered by the underwriters' over-allotment option described below.

Our common stock is offered subject to a number of conditions, including:

- > receipt and acceptance of our common stock by the underwriters, and
- > the underwriters' right to reject orders in whole or in part.

In connection with this offering, certain of the underwriters or securities dealers may distribute prospectuses electronically.

Sales of shares made outside the United States may be made by affiliates of the underwriters.

OVER-ALLOTMENT OPTION

We have granted the underwriters an option to buy up to 675,000 additional shares of our common stock. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, made in connection with this offering. The underwriters have 30 days from the date of this prospectus supplement to exercise this option. If the underwriters exercise this option, they will each purchase additional shares approximately in proportion to the amounts specified in the table above.

COMMISSIONS AND DISCOUNTS

Shares sold by the underwriters to the public will initially be offered at the offering price set forth on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ _____ per share from the public offering price. Any of these securities dealers may resell any shares purchased from the underwriters to other brokers or dealers at a discount of up to \$ _____ per share from the public offering price. If all the shares are not sold at the public offering price, the representatives may change the offering price and the other selling terms. Upon execution of the underwriting agreement, the underwriters will be obligated to purchase the shares at the prices and upon the terms stated therein, and, as a result, will thereafter bear any risk associated with changing the offering price to the public or other selling terms.

S-43

The following table shows the per share and total underwriting discounts and commissions we will pay to the underwriters assuming both no exercise and full exercise of the underwriters' over-allotment option to purchase up to an additional 675,000 shares.

	No exercise	Full exercise
Per share		
Total		

We estimate that the total expenses of this offering payable by us, not including underwriting discounts and commissions, will be approximately \$ _____.

NO SALES OF SIMILAR SECURITIES

We, our directors and our executive officers have entered into lock-up agreements with the underwriters. Under these agreements, we and each of these persons may not, without the prior written approval of UBS Securities LLC, subject to certain permitted exceptions, offer, sell, contract to sell or otherwise dispose of or hedge shares of our common stock or securities convertible into or exercisable or exchangeable for shares of our common stock. The permitted exceptions include issuances of shares under our stock incentive plans, provided such shares are subject to restrictions on transfer for the remainder of the lock-up period, and the use of previously owned shares to pay withholding obligations related to the vesting of restricted stock. In addition, permitted exceptions include that certain executives may sell up to an aggregate of 220,000 shares before December 31, 2005, for tax planning purposes. These restrictions will be in effect for a period of 60 days after the date of this prospectus supplement. At any time and without public notice, UBS Securities LLC may release all or some of the securities from these lock-up agreements.

If (1) during the period that begins on the date that is 15 calendar days plus 3 business days before the last day of the 60-day restricted period described above and ends on the last day of the 60-day restricted period, the Company issues an earnings release or material news or a material event relating to the Company occurs; or (2) prior to the expiration of the 60-day restricted period, the Company announces that it will release earnings results during the 16-day period beginning on the last day of the 60-day restricted period, the restrictions described above shall continue to apply until the expiration of the date that is 15 calendar days plus 3 business days after the date on which the issuance of the earnings release or the material news or material event occurs; provided, however, the restrictions described above will not apply if, within 3 days of the termination of the 60-day restricted period, the Company delivers to UBS Securities LLC a certificate, signed by the Chief Financial Officer or Chief Executive Officer of the Company, certifying on behalf of the Company that the Company's shares of common stock are, as of the date of delivery of such certificate, "actively traded securities," as defined in Regulation M under the Securities and Exchange Act of 1934, as amended.

INDEMNIFICATION AND CONTRIBUTION

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act. If we are unable to provide this indemnification, we will contribute to payments the underwriters may be required to make with respect to those liabilities.

NEW YORK STOCK EXCHANGE LISTING

Our common stock is listed on the New York Stock Exchange under the symbol "OHL."

S-44

PRICE STABILIZATION AND SHORT POSITIONS

In connection with this offering, the underwriters may engage in activities that stabilize, maintain or otherwise affect the price of our shares of common stock including:

- > stabilizing transactions;
- > short sales;
- > purchases to cover positions created by short sales;
- > imposition of penalty bids; and
- > syndicate covering transactions.

Stabilizing transactions consist of bids or purchases made for the purpose of preventing or retarding a decline in the market price of our shares of common stock while this offering is in progress. These transactions may also include making short sales of our shares of common stock, which involves the sale by the underwriters of a greater number of shares of common stock than they are required to purchase in this offering, and purchasing shares of common stock on the open market to cover positions created by short sales. Short sales may be "covered" shorts, which are

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

short positions in an amount not greater than the underwriters' over-allotment option referred to above, or may be "naked" shorts, which are short positions in excess of that amount.

The underwriters may close out any covered short position by either exercising their over-allotment option, in whole or in part, or by purchasing shares of common stock in the open market. In making this determination, the underwriters will consider, among other things, the price of the shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option.

Naked short sales are sales in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned there may be downward pressure on the price of shares in the open market after pricing that could adversely affect investors who purchase in this offering.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of that underwriter in stabilizing or short covering transactions.

As a result of these activities, the price of our shares may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. The underwriters may carry out these transactions on the New York Stock Exchange, in the over-the-counter market or otherwise.

AFFILIATIONS

Certain of the underwriters and their affiliates have in the past provided and may from time to time provide certain commercial banking, financial advisory, investment banking and other services for us for which they were and will be entitled to receive separate fees.

The underwriters and their affiliates may from time to time in the future engage in transactions with us and perform services for us in the ordinary course of their business. Bank of America, N.A., an affiliate of Banc of America Securities LLC, is the administrative agent and a lender under our senior revolving credit facility and UBS Loan Finance LLC, an affiliate of UBS Securities LLC and Deutsche

S-45

Bank AG, an affiliate of Deutsche Bank Securities Inc., are lenders under our senior revolving credit facility. Each of UBS Securities LLC, Deutsche Bank Securities Inc. and Banc of America Securities LLC acted as initial purchasers in connection with our previously issued \$260 million aggregate principal amount of 7% Senior Notes due 2014, for which they received customary discounts and commissions. UBS Securities LLC, Deutsche Bank Securities Inc. and Banc of America Securities LLC acted as underwriters in connection with a March 2004 public offering of our common stock, for which they received customary discounts and commissions. UBS Securities LLC, Deutsche Bank Securities Inc., Banc of America Securities LLC and Legg Mason Wood Walker, Incorporated acted as underwriters in connection with a December 2004 offering of our common stock, for which they received customary discounts and commissions.

S-46

Legal matters

The validity of the common stock being offered by this prospectus supplement and the accompanying prospectus have been passed upon for us by Powell Goldstein LLP, Atlanta, Georgia. Skadden, Arps, Slate, Meagher & Flom, LLP, New York, New York, is counsel to the underwriters in connection with this offering.

Experts

Ernst & Young LLP, independent registered public accounting firm, has audited our consolidated financial statements and schedules included in our Annual Report on Form 10-K for the year ended December 31, 2004, and management's assessment of the effectiveness of our internal control over financial reporting as of December 31, 2004, as set forth in their reports, which are incorporated by reference in this prospectus supplement and elsewhere in the registration statement. Our consolidated financial statements and schedules and management's assessment are

incorporated by reference in reliance upon Ernst & Young's reports, given on their authority as experts in accounting and auditing.

Incorporation of certain information by reference

The SEC allows us to "incorporate by reference" information into this prospectus supplement, which means that we can disclose important information to you by referring you to another document we have filed separately with the SEC. The information incorporated by reference is deemed to be part of this prospectus supplement, except for any information superseded by information contained directly in this prospectus supplement. This prospectus supplement incorporates by reference the documents set forth below that we have previously filed with the SEC (File No. 001-11316) as well as any filings we will make with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this prospectus supplement and prior to the termination of this offering, other than information or reports furnished to the SEC under Items 2.02 and 7.01 of Current Reports on Form 8-K:

- > Annual Report on Form 10-K for the fiscal year ended December 31, 2004;
- > Quarterly Reports on Form 10-Q for the quarterly periods ended September 30, 2005, June 30, 2005, as amended, and March 31, 2005;
- > Current Reports on Form 8-K filed on October 27, 2005*, July 29, 2005*, June 16, 2005, April 28, 2005*, March 15, 2005, as amended March 16, 2005, January 27, 2005*, January 19, 2005; and
- > The description of our common stock contained in our initial registration statement on Form 8-A, filed under Section 12 of the Exchange Act, and declared effective by the SEC on August 7, 1992, together with any amendment or report filed subsequent to the date hereof for the purpose of updating such description (File No. 001-11316).

*

These reports contain information furnished to the SEC under Item 2.02 and/or Item 7.01 (or their predecessor Items prior to August 23, 2004) of Form 8-K which, pursuant to General Instructions B(2) and (6) of Form 8-K, is not deemed to be "filed" for purposes of Section 18 of the Exchange Act and we are not subject to the liabilities imposed by that section. We are not incorporating and will not incorporate by reference into this prospectus supplement past or future information or reports furnished or that will be furnished under Item 2.02 and/or Item 7.01 of Form 8-K.

These documents contain important information about our financial condition. You may obtain copies of any documents incorporated by reference in this prospectus supplement from us, from the SEC or from the SEC's website as described below. Documents incorporated by reference are available from us

S-47

without charge, excluding exhibits thereto, unless we have specifically incorporated by reference such exhibits in this prospectus supplement. Any person, including any beneficial owner, to whom this prospectus supplement is delivered may obtain documents incorporated by reference in, but not delivered with, this prospectus supplement by requesting them from us in writing or by telephone at Omega Healthcare Investors, Inc., Attention: Chief Financial Officer, 9690 Deereco Road, Suite 100, Timonium, Maryland 21093, telephone number (410) 427-1700. You may also access our SEC filings free of charge on our website at www.omegahealthcare.com, under the tab entitled "SEC Filings."

Where you can find more information

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document we file with the SEC at its public reference room at 100 F Street, N.E., Washington, D.C. 20549. You may also obtain copies of this information by mail from the public reference section of the SEC, located at 100 F Street, N.E., Washington, D.C. 20549, at prescribed rates. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference room. Our SEC filings are also available to the public

free of charge at the web site maintained by the SEC at www.sec.gov, as well as on our website at www.omegahealthcare.com. You may inspect information that we file with the NYSE at the offices of the NYSE at 20 Broad Street, New York, New York 10005. Information on our website is not incorporated by reference herein and our web address is included as an inactive textual reference only.

We have filed with the SEC a registration statement on Form S-3, as amended by amendment no. 1, collectively referred to in this prospectus supplement as the registration statement, to register the shares of common stock offered by this prospectus supplement. This prospectus supplement is a part of the registration statement. This prospectus supplement does not include all of the information contained in the registration statement. For further information about us and the securities offered in this prospectus supplement, you should review the registration statement. You can inspect or obtain a copy of the registration statement as described in the preceding paragraph.

S-48

\$500,000,000

Debt Securities
Preferred Stock
Common Stock
Warrants

We may from time to time offer and sell in one or more series:

- > debt securities;
- > warrants to purchase debt securities;
- > shares of our preferred stock;
- > warrants to purchase shares of our preferred stock;
- > shares of our common stock; and
- > warrants to purchase shares of our common stock.

The debt securities warrants, the preferred stock warrants and the common stock warrants are collectively referred to herein as the securities warrants. The debt securities, the preferred stock, the common stock and the securities warrants are collectively referred to herein as the securities. The securities offered by this prospectus will have an aggregate public offering price of \$500,000,000. We will provide the specific terms of these securities in supplements to this prospectus prepared in connection with each offering. The debt securities may be convertible into preferred stock, common stock or debt securities of another series. The preferred stock may be convertible into common stock or preferred stock of another series. No securities may be sold under this prospectus without delivery of the applicable prospectus supplement. You should read this prospectus and the prospectus supplements carefully before you invest in the securities.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

Securities may be sold directly, through agents from time to time or through underwriters or dealers. If any of our agents or any underwriter is involved in the sale of the securities, the name of the agent or underwriter and any applicable commission or discount will be set forth in the accompanying prospectus supplement. See "Plan of Distribution." The net proceeds to us from the sale also will be set forth in the applicable prospectus supplement.

Our common stock is traded on the New York Stock Exchange under the symbol "OHI". On August 24, 2004, the closing price of our common stock was \$10.18 per share.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is August 27, 2004

We have not authorized any dealer, salesman or other person to give any information or to make any representation other than those contained or incorporated by reference in this prospectus. You must not rely upon any information or representation not contained or incorporated by reference in this prospectus or the applicable prospectus supplement. This prospectus does not constitute an offer to sell or the solicitation of an offer to buy any securities other than the registered securities to which they relate, nor do this prospectus nor any applicable prospectus supplement constitute an offer to sell or the solicitation of an offer to buy securities in any jurisdiction to any person to whom it is unlawful to make such offer or solicitation in such jurisdiction.

About this prospectus

This prospectus is part of a registration statement that we filed with the SEC utilizing a "shelf" registration process. Under this shelf registration process, we may sell any combination of the securities described in this prospectus in one or more offerings up to a total dollar amount of \$500,000,000. This prospectus provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with additional information described under the heading "Where You Can Find More Information."

As allowed by SEC rules, this prospectus omits various information you can find in the registration statement or the exhibits to the registration statement. For further information, we refer you to the registration statement, including its exhibits and schedules. Statements contained in this prospectus about the provisions or contents of any contract, agreement or any other document referred to are not necessarily complete. For each of these contracts, agreements or documents filed as an exhibit to the registration statement, we refer you to the actual exhibit for a more complete description of the matters involved. You should not assume that the information in this prospectus or any applicable prospectus supplement is accurate as of any date other than the date on the front of those documents. For further information about us or the securities

offered under this prospectus, you should refer to that registration statement, which you can obtain from the SEC as described below under the heading "Where You Can Find More Information."

Unless the context requires otherwise, the words "we," "company," "us" and "our" refer to Omega Healthcare Investors, Inc. and its majority-owned subsidiaries.

Where you can find more information

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document we file with the SEC at its public reference room at 450 Fifth Street, N.W., Washington, D.C. 20549. You may also obtain copies of this information by mail from the public reference section of the SEC, 450 Fifth Street, N.W., Room 1024, Washington, D.C. 20549, at prescribed rates. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference room. Our SEC filings are also available to the public at the web site maintained by the SEC at <http://www.sec.gov>, as well as on our website at <http://www.omegahealthcare.com>. You may inspect information that we file with The New York Stock Exchange at the offices of The New York Stock Exchange at 20 Broad Street, New York, New York 10005. Information on our website is not incorporated by reference herein and our web address is included as an inactive textual reference only.

The SEC allows us to "incorporate by reference" the information we file with the SEC, which means that we can disclose important information to you by referring to the other information we have filed with the SEC. The information that we incorporate by reference is considered a part of this prospectus and information that we file later with the SEC will automatically update and supersede the information contained in this prospectus. We incorporate by reference the following documents (File No. 1-11316) we filed with the SEC pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended, other than information in these documents that is not deemed to be filed with the SEC:

- > our Annual Report on Form 10-K for the year ended December 31, 2003, filed on February 20, 2004;
- > our Current Report on Form 8-K filed on January 27, 2004;
- > our Current Report on Form 8-K filed on January 29, 2004*;
- > our Current Report on Form 8-K filed on February 5, 2004;
- > our Current Report on Form 8-K filed on February 5, 2004;
- > our Current Report on Form 8-K filed on February 10, 2004;
- > our Current Report on Form 8-K filed on February 23, 2004;
- > our Current Report on Form 8-K filed on March 4, 2004;
- > our Current Report on Form 8-K filed on March 8, 2004;
- > our Current Report on Form 8-K filed on March 11, 2004;

*

This report contains information furnished to the SEC under Item 12 of Form 8-K which, pursuant to General Instruction B(6) of Form 8-K, is not deemed to be "filed" for purposes of Section 18 of the Exchange Act and we are not subject to the liabilities imposed by that section. We are not incorporating and will not incorporate by reference into this prospectus past or future information or reports furnished or that will be furnished under Items 9 and/or 12 of Form 8-K.

All documents we file later with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended, subsequent to the date of this prospectus and prior to the termination of the offering of the securities will be deemed to be incorporated by reference into this prospectus, other than information in the documents that is not deemed to be filed with the SEC. A statement contained in this prospectus or in a document incorporated or deemed to be incorporated by reference into this prospectus will be deemed to be modified or superseded to the extent that a statement contained in any subsequently filed document which is incorporated by reference into this prospectus, modifies or supersedes that statement. Any statements so modified or superseded will not be deemed, except as so modified or superseded, to constitute a part of this prospectus.

We will provide without charge to each person to whom this prospectus is delivered, on the request of any person, a copy of any or all the documents incorporated herein by reference, other than exhibits to the documents, unless the exhibits are specifically incorporated by reference into the documents that this prospectus incorporates. Requests for copies in writing or by telephone should be directed to:

Cautionary language regarding forward-looking statements

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

This prospectus includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical facts included in this prospectus may constitute forward-looking statements. We have based these forward-looking statements on our current expectations and projections about future events. Although we believe that our assumptions made in connection with the forward-looking statements are reasonable, we cannot assure you that our assumptions and expectations will prove to have been correct. Important factors that could cause our actual results to differ materially from our expectations are disclosed in this prospectus. These forward-looking statements are subject to various risks, uncertainties and assumptions including, among other things:

- > uncertainties relating to the business operations of the operators of our assets, including those relating to reimbursement by third party payors, regulatory matters and occupancy levels;
- > the ability of any operators in bankruptcy to reject unexpired lease obligations, modify the terms of our mortgages, and impede our ability to collect unpaid rent or interest during the process of a bankruptcy proceeding and retain security deposits for the debtors' obligations;
- > our ability to sell closed assets on a timely basis and at terms that allow us to realize the carrying value of these assets;
- > our ability to negotiate appropriate modifications to the terms of our credit facility;
- > our ability to manage, re-lease, or sell any owned and operated facility;
- > the availability and cost of capital;
- > competition in the financing of healthcare facilities;
- > regulatory and other changes in the healthcare sector;
- > the effect of economic and market conditions generally and, particularly, in the healthcare industry;
- > changes in interest rates;
- > the amount and yield of any additional investments;
- > changes in tax laws and regulations affecting real estate investment trusts;
- > changes in the ratings of our debt and preferred securities; and

Any subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth or referred to above, as well as the risk factors contained in this prospectus. Except as required by law, we disclaim any obligation to update such statements or to publicly announce the result of any revisions to any of the forward-looking statements contained in this prospectus to reflect future events or developments.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

We were incorporated in the State of Maryland on March 31, 1992. We are a self-administered real estate investment trust, or REIT, investing in income-producing healthcare facilities, principally long-term care facilities located in the United States. We provide lease or mortgage financing to qualified operators of skilled nursing facilities and, to a lesser extent, assisted living and acute care facilities. We have historically financed investments through borrowings under our revolving credit facilities, private placements or public offerings of debt or equity securities, the assumption of secured indebtedness, or a combination of these methods.

As of June 30, 2004, our portfolio of domestic investments consisted of 208 healthcare facilities, located in 29 states and operated by 39 third-party operators. Our gross investments in these facilities, net of impairments and before reserve for uncollectible loans, totaled \$842.2 million. This portfolio is made up of:

- > 157 long-term healthcare facilities and 2 rehabilitation hospitals owned and leased to third parties;
- > fixed rate, participating and convertible participating mortgages on 46 long-term healthcare facilities; and
- > three long-term healthcare facilities that were recovered from customers and are currently closed.

In addition, we also held miscellaneous investments of approximately \$36.4 million at June 30, 2004.

5

Recent developments

CREDIT FACILITY INCREASED TO \$175 MILLION

On April 30, 2004, we exercised our right to increase the revolving commitments under our new \$125 million credit facility by an additional \$50 million, to \$175 million. All other terms of the credit facility, which closed on March 22, 2004, remain the same. Bank of America, N.A. serves as Administrative Agent for the credit facility.

9.25% SERIES A PREFERRED REDEMPTION.

On April 30, 2004, we fully redeemed our 9.25% Series A Cumulative Preferred Stock (NYSE:OHI PrA) ("Series A"). We redeemed the 2.3 million shares of Series A at a price of \$25.57813, comprising the \$25 liquidation value and accrued dividend. Under FASB-EITF Issue D-42, "The Effect on the Calculation of Earnings per Share for the Redemption or Induced Conversion of Preferred Stock," the repurchase of the Series A preferred stock resulted in a non-cash charge to net income available to common shareholders of approximately \$2.3 million reflecting the write-off of unamortized costs of issuance of the Series A preferred stock and was recorded in the second quarter. This non-cash charge did not have any effect on our net worth.

NEW INVESTMENTS

On April 1, 2004, we purchased three skilled nursing facilities, representing 399 beds for a total investment of \$26.0 million. Two of the facilities are located in Vermont, with the third located in Connecticut. The facilities were combined into an existing master lease with Haven Healthcare. Rent under the master lease was increased by approximately \$2.7 million for the first lease year commencing April 1, 2004, with annual increases thereafter. The term of the master lease had been increased to ten years on January 1, 2004 and runs through December 31, 2013, followed by two ten-year renewal options. We received a security deposit equivalent to three months of the incremental rent.

On April 30, 2004, we closed on the purchase of two skilled nursing facilities, representing 477 beds for a total investment of \$9.4 million. The purchase price includes funds for capital expenditures, additional bed licenses and transaction costs. Both facilities are located in Texas and were combined into an existing master lease with Senior Management Services. Rent under the master lease was increased by approximately \$1.0 million for the first lease year commencing May 1, 2004, with annual increases thereafter. The term of the master lease has been increased to 10 years, and is followed by two 10-year renewal options. During the first lease year, the operator will fund a security deposit equivalent to approximately four months of the incremental rent.

MORTGAGE REPAYMENTS

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

On April 6, 2004, we received approximately \$4.6 million in proceeds on a mortgage loan payoff. We held mortgages on five facilities located in Missouri, representing 319 beds, which produced approximately \$0.5 million of annual interest revenue in 2003.

Our principal executive offices are located at 9690 Deereco Road, Suite 100, Timonium, Maryland 21093, and our telephone number is (410) 427-1700. Additional information regarding our company is set forth in our Annual Report on Form 10-K for the fiscal year ended December 31, 2003, and other documents on file with the Securities and Exchange Commission (which are incorporated by reference in this prospectus). See "Where You Can Find More Information."

Risk factors

Certain of the securities to be offered hereby may involve a high degree of risk. Such risks will be set forth in the prospectus supplement relating to such offered securities.

7

Ratio of earnings to fixed charges and ratio of earnings to combined fixed charges and preferred stock dividends

The ratios of earnings to fixed charges, and the ratio of earnings to combined fixed charges and preferred stock dividends are set forth below. We have calculated the ratio of earnings to fixed charges by adding net income (loss) from continuing operations to fixed charges and dividing that sum by such fixed charges. Fixed charges consist of interest expense and amortization of deferred financing costs. The ratio of earnings to combined fixed charges and preferred stock dividends was calculated in the same manner as the ratio of earnings to fixed charges except that accrued preferred stock dividends were included for each of the periods shown irrespective of whether or not such dividends were actually paid.

	Year ended December 31,					For the six months ended June 30,
	1999	2000	2001	2002	2003	2004

Ratio of earnings to combined fixed charges and preferred stock dividends	1.2x	*	*	*	1.1x	*

*

Our earnings were insufficient to cover combined fixed charges and preferred stock dividends by \$60,178, \$35,582, \$23,859 and \$53,612 in 2000, 2001, 2002 and the six months ended June 30, 2004, respectively.

We issued 2,300,000 shares of Series A preferred stock in April 1997 which, while outstanding, were entitled to receive dividends at the rate of 9.25% per year, or \$2.3125 per share. We redeemed these shares on April 30, 2004. We issued 2,000,000 shares of Series B preferred stock in April 1998 which are entitled to receive dividends at the rate of 8.625% per year, or \$2.156 per share. We issued 1,000,000 and 48,420 shares of Series C preferred stock in July 2000 and April 2001, respectively. We repurchased 700,000 shares of Series C preferred stock in February 2004 and, in connection with this repurchase, the remaining shares of Series C preferred stock were converted into common stock. While they were outstanding, the shares of Series C preferred stock were entitled to receive dividends at the greater of 10% per year or the dividend payable on the shares of common stock issuable upon conversion of the Series C preferred stock. For purposes of the information set forth above, the dividend rate of 10% per year, or \$10.00 per share, was used with respect to the shares of Series C preferred stock. In February 2004, we issued 4,739,500 shares of Series D preferred stock which are entitled to receive dividends at the rate of 8.375% per year, or \$2.09375 per share.

9

Use of proceeds

Unless otherwise specified in the applicable prospectus supplement, the net proceeds from the sale of the securities offered hereby will be used for the repayment of outstanding debt, to fund additional investments and for general corporate purposes.

Description of securities

We may refer in this prospectus to one or more of the following categories of our securities:

- > shares of our common stock, par value \$0.10 per share ("common stock");
- > shares of our preferred stock, par value \$1.00 per share, in one or more series (the "preferred stock");
- > debt securities, in one or more series ("debt securities");
- > common stock warrants (the "common stock warrants");
- > preferred stock warrants (the "preferred stock warrants");
- > debt securities warrants (the "debt securities warrants"); and
- > any combination of the foregoing, either individually or as units.

The terms of any specific offering of securities, including the terms of any units offered, will be set forth in a prospectus supplement relating to such offering.

10

Capital stock

As of June 30, 2004, our authorized capital stock consisted of 100,000,000 shares of common stock, par value \$0.10 per share, and 10,000,000 shares of preferred stock, par value \$1.00 per share, of which 2,300,000 were designated as Series A preferred stock, 2,000,000 were designated as Series B preferred stock, 2,000,000 were designated as Series C preferred stock, 4,739,500 were designated as Series D preferred stock, and 100,000 were designated as Series A Junior Participating Preferred Stock. As of June 30, 2004, we had 46,421,559 shares of our common stock, 2,000,000 shares of our Series B preferred stock, and 4,739,500 shares of our Series D preferred stock issued and outstanding. On July 9, 2004, we amended our articles of incorporation to declassify our Series A and Series D preferred stock and to increase the number of authorized shares of preferred stock from 10,000,000 to 20,000,000.

Our common stock, Series B preferred stock and Series D preferred stock are listed on the New York Stock Exchange. We intend to apply to list for trading on the New York Stock Exchange any additional shares of our common stock that are issued and sold hereunder. We may also apply to list on the New York Stock Exchange any debt securities, any additional series of preferred stock, and any securities warrants that are offered and sold hereunder, as described in the prospectus supplement relating to any such securities.

Unless otherwise indicated in a prospectus supplement relating thereto, EquiServe Trust Company, N.A. is the transfer agent and registrar of the common stock and preferred stock.

COMMON STOCK

All shares of our common stock participate equally in dividends payable to stockholders of our common stock when and as declared by our board of directors and in net assets available for distribution to stockholders of our common stock on liquidation or dissolution, have one vote per share on all matters submitted to a vote of the stockholders and do not have cumulative voting rights in the election of directors. All issued and outstanding shares of our common stock are, and our common stock offered hereby will be upon issuance, validly issued, fully paid and nonassessable. Holders of our common stock do not have preference, conversion, exchange or preemptive rights. Our common stock is listed on the New York Stock Exchange under the symbol "OHI."

PREFERRED STOCK

The terms of any series of the preferred stock offered by any prospectus supplement will be as described in such prospectus supplement. The following description of the terms of the preferred stock, except as modified in a prospectus supplement, sets forth certain general terms and

provisions of the preferred stock. The description of certain provisions of the preferred stock set forth below and in any prospectus supplement does not purport to be complete and is subject to and qualified in its entirety by reference to the company's articles of incorporation, as amended, and the board of directors' resolution or articles supplementary relating to each series of the preferred stock which will be filed with the Securities and Exchange Commission and incorporated by reference as an exhibit to the registration statement of which this prospectus is a part at or prior to the time of the issuance of such series of the preferred stock.

General

Under the articles of incorporation, the board of directors of the company is authorized without further stockholder action to provide for the issuance of shares of preferred stock of the company, up

11

to the amount of shares of preferred stock authorized under the articles of incorporation but not issued or reserved for issuance thereunder, in one or more series, with such designations, preferences, powers and relative participating, optional or other special rights and qualifications, limitations or restrictions thereon, including, but not limited to, dividend rights, dividend rate or rates, conversion rights, voting rights, rights and terms of redemption (including sinking fund provisions), redemption price or prices, and liquidation preferences as shall be stated in the resolution providing for the issue of a series of such stock, adopted, at any time or from time to time, by the board of directors of the company.

The preferred stock shall have the dividend, liquidation, redemption and voting rights set forth below unless otherwise provided in a prospectus supplement relating to a particular series of the preferred stock. Reference is made to the prospectus supplement relating to the particular series of the preferred stock offered thereby for specific terms, including:

- > the designation and stated value per share of such preferred stock and the number of shares offered;
- > the amount of liquidation preference per share;
- > the initial public offering price at which such preferred stock will be issued;
- > the dividend rate (or method of calculation), the dates on which dividends shall be payable and the dates from which dividends shall commence to cumulate, if any;
- > any redemption or sinking fund provisions;
- > any conversion rights; and
- > any additional voting, dividend, liquidation, redemption, sinking fund and other rights, preferences, privileges, limitations and restrictions.

The preferred stock will, when issued, be fully paid and nonassessable and will have no preemptive rights. Unless otherwise stated in a prospectus supplement relating to a particular series of the preferred stock, each series of the preferred stock will rank on a parity as to dividends and distributions of assets with each other series of the preferred stock. The rights of the holders of each series of the preferred stock will be subordinate to those of the company's general creditors.

Dividend rights

Holders of the preferred stock of each series will be entitled to receive, when, as and if declared by the board of directors of the company, out of funds of the company legally available therefor, cash dividends on such dates and at such rates as will be set forth in, or as are determined by, the method described in the prospectus supplement relating to such series of the preferred stock. Such rate may be fixed or variable or both. Each such dividend will be payable to the holders of record as they appear on the stock books of the company on such record dates, fixed by the board of directors of the company, as specified in the prospectus supplement relating to such series of preferred stock.

Dividends on any series of preferred stock may be cumulative or noncumulative, as provided in the applicable prospectus supplement. If the board of directors of the company fails to declare a dividend payable on a dividend payment date on any series of preferred stock for which dividends are noncumulative, then the holders of such series of preferred stock will have no right to receive a dividend in respect of the dividend period ending on such dividend payment date, and the company shall have no obligation to pay the dividend accrued for such period, whether or not dividends on such series are declared payable on any future dividend payment dates. Dividends on the shares of each series of preferred stock for which dividends are cumulative will accrue from the date on which the company initially issues shares of such series.

12

So long as the shares of any series of the preferred stock shall be outstanding, unless

- > full dividends (including if such preferred stock is cumulative, dividends for prior dividend periods) shall have been paid or declared and set apart for payment on all outstanding shares of the preferred stock of such series and all other classes and series of preferred stock of the company (other than "junior stock" as defined below), and
- > the company is not in default or in arrears with respect to the mandatory or optional redemption or mandatory repurchase or other mandatory retirement of, or with respect to any sinking or other analogous fund for, any shares of preferred stock of such series or any shares of any other preferred stock of the company of any class or series (other than junior stock),

the company may not declare any dividends on any shares of common stock of the company or any other stock of the company ranking as to dividends or distributions of assets junior to such series of preferred stock (the common stock and any such other stock being herein referred to as "junior stock"), or make any payment on account of, or set apart money for, the purchase, redemption or other retirement of, or for a sinking or other analogous fund for, any shares of junior stock or make any distribution in respect thereof, whether in cash or property or in obligations or stock of the company, other than junior stock which is neither convertible into, nor exchangeable or exercisable for, any securities of the company other than junior stock.

Liquidation preference

In the event of any liquidation, dissolution or winding up of the company, voluntary or involuntary, the holders of each series of the preferred stock will be entitled to receive out of the assets of the company available for distribution to stockholders, before any distribution of assets is made to the holders of common stock or any other shares of stock of the company ranking junior as to such distribution to such series of preferred stock, the amount set forth in the prospectus supplement relating to such series of the preferred stock. If, upon any voluntary or involuntary liquidation, dissolution or winding up of the company, the amounts payable with respect to the preferred stock of any series and any other shares of preferred stock of the company (including any other series of the preferred stock) ranking as to any such distribution on a parity with such series of the preferred stock are not paid in full, the holders of the preferred stock of such series and of such other shares of preferred stock of the company will share ratably in any such distribution of assets of the company in proportion to the full respective preferential amounts to which they are entitled. After payment to the holders of the preferred stock of each series of the full preferential amounts of the liquidating distribution to which they are entitled, the holders of each such series of the preferred stock will be entitled to no further participation in any distribution of assets by the company.

If liquidating distributions shall have been made in full to all holders of shares of preferred stock, the remaining assets of the company shall be distributed among the holders of junior stock, according to their respective rights and preferences and in each case according to their respective number of shares. For such purposes, the consolidation or merger of the company with or into any other corporation, or the sale, lease or conveyance of all or substantially all of the property or business of the company, shall not be deemed to constitute a liquidation, dissolution or winding up of the company.

Redemption

A series of the preferred stock may be redeemable, in whole or from time to time in part, at the option of the company, and may be subject to mandatory redemption pursuant to a sinking fund or otherwise, in each case upon terms, at the time and at the redemption prices set forth in the prospectus supplement relating to such series. Shares of the preferred stock redeemed by the company will be restored to the status of authorized but unissued shares of preferred stock of the company.

In the event that fewer than all of the outstanding shares of a series of the preferred stock are to be redeemed, whether by mandatory or optional redemption, the number of shares to be redeemed will be determined by lot or pro rata (subject to rounding to avoid fractional shares) as may be determined by the company or by any other method as may be determined by the company in its sole discretion to be equitable. From and after the redemption date (unless default shall be made by the company in providing for the payment of the redemption price plus accumulated and unpaid dividends, if any), dividends shall cease to accumulate on the shares of the preferred stock called for redemption and all rights of the holders thereof (except the right to receive the redemption price plus accumulated and unpaid dividends, if any) shall cease.

So long as any dividends on shares of any series of the preferred stock or any other series of preferred stock of the company ranking on a parity as to dividends and distribution of assets with such series of the preferred stock are in arrears, no shares of any such series of the preferred stock or such other series of preferred stock of the company will be redeemed (whether by mandatory or optional redemption) unless all such shares are simultaneously redeemed, and the company will not purchase or otherwise acquire any such shares; provided, however, that the foregoing will not prevent the purchase or acquisition of such shares pursuant to a purchase or exchange offer made on the same terms to holders of all such shares outstanding.

Conversion rights

The terms and conditions, if any, upon which shares of any series of preferred stock are convertible into common stock will be set forth in the applicable prospectus supplement relating thereto. Such terms will include the number of shares of common stock into which the preferred stock is convertible, the conversion price (or manner of calculation thereof), the conversion period, provisions as to whether conversion will be at the option of the holders of preferred stock or the company, the events requiring an adjustment of the conversion price and provisions affecting conversion.

Voting rights

Except as indicated below or in a prospectus supplement relating to a particular series of the preferred stock, or except as required by applicable law, the holders of the preferred stock will not be entitled to vote for any purpose.

So long as any shares of the preferred stock of a series remain outstanding, the consent or the affirmative vote of the holders of at least 80% of the votes entitled to be cast with respect to the then outstanding shares of such series of the preferred stock together with any "parity preferred" (as defined below), voting as one class, either expressed in writing or at a meeting called for that purpose, will be necessary (i) to permit, effect or validate the authorization, or any increase in the authorized amount, of any class or series of shares of the company ranking prior to the preferred stock of such series as to dividends, and (ii) to repeal, amend or otherwise change any of the provisions applicable to the preferred stock of such series in any manner which adversely affects the powers, preferences, voting power or other rights or privileges of such series of the preferred stock. In case any series of the preferred stock would be so affected by any such action referred to in clause (ii) above in a different manner than one or more series of the parity preferred then outstanding, the holders of shares of the preferred stock of such series, together with any series of the parity preferred which will be similarly affected, will be entitled to vote as a class, and the company will not take such action without the consent or affirmative vote, as above provided, of at least 80% of the total number of votes entitled to be cast with respect to each such series of the preferred stock and the parity preferred, then outstanding, in lieu of the consent or affirmative vote hereinabove otherwise required.

14

With respect to any matter as to which the preferred stock of any series is entitled to vote, holders of the preferred stock of such series and any other series of preferred stock of the company ranking on a parity with such series of the preferred stock as to dividends and distributions of assets and which by its terms provides for similar voting rights (the "parity preferred") will be entitled to cast the number of votes set forth in the prospectus supplement with respect to that series of preferred stock. As a result of the provisions described in the preceding paragraph requiring the holders of shares of a series of the preferred stock to vote together as a class with the holders of shares of one or more series of parity preferred, it is possible that the holders of such shares of parity preferred could approve action that would adversely affect such series of preferred stock, including the creation of a class of capital stock ranking prior to such series of preferred stock as to dividends, voting or distributions of assets.

The foregoing voting provisions will not apply if, at or prior to the time when the act with respect to which such vote would otherwise be required shall be effected, all outstanding shares of the preferred stock shall have been redeemed or called for redemption and sufficient funds shall have been deposited in trust to effect such redemption.

REDEMPTION AND BUSINESS COMBINATION PROVISIONS

If our board of directors is, at any time and in good faith, of the opinion that actual or constructive ownership of at least 9.9% or more of the value of our outstanding capital stock has or may become concentrated in the hands of one owner, our board of directors will have the power:

- > by means deemed equitable by it, to call for the purchase from any of our stockholders a number of voting shares sufficient, in the opinion of our board of directors, to maintain or bring the actual or constructive ownership of such owner to a level of no more than 9.9% of the value of our outstanding capital stock; and
- > to refuse to transfer or issue voting shares of our capital stock to any person whose acquisition of such voting shares would, in the opinion of our board of directors, result in the actual or constructive ownership by that person of more than 9.9% of the value of our outstanding capital stock.

Further, any transfer of shares, options, warrants, or other securities convertible into voting shares that would create a beneficial owner of more than 9.9% of the value of our outstanding capital stock will be deemed void ab initio and the intended transferee will be deemed never to have had an interest therein. Subject to the rights of the preferred stock described below, the purchase price for any voting shares of our capital stock so redeemed will be equal to the fair market value of the shares reflected in the closing sales prices for the shares, if then listed on a national securities exchange, or the average of the closing sales prices for the shares if then listed on more than one national securities exchange, or if the shares are not then listed on a national securities exchange, the latest bid quotation for the shares if then traded over-the-counter, on the last business day immediately preceding the day on which we send notices of such acquisitions, or, if no such closing sales prices or quotations are available, then the purchase price shall be equal to the net asset value of such stock as determined by our board of directors in accordance with the provisions of applicable law. The purchase price for shares of Series A preferred stock, Series B preferred stock, Series C preferred stock and Series D preferred stock will be equal to the fair market value of the shares reflected in the closing sales price for the shares, if then listed on a national securities exchange, or if the shares are not then listed on a national securities exchange, the purchase price will, in the case of the Series A preferred stock and Series B preferred stock, be equal to the redemption price of such shares of Series A preferred stock and Series B preferred stock, respectively, and, in the case of the Series C preferred stock and Series D preferred stock, the purchase price will be equal to the liquidation preference of such shares of Series C

15

preferred stock and Series D preferred stock, respectively. From and after the date fixed for purchase by our board of directors, the holder of any shares so called for purchase will cease to be entitled to distributions, voting rights and other benefits with respect to such shares, except the right to payment of the purchase price for the shares.

Our articles of incorporation require that, except in certain circumstances, business combinations between us and a beneficial holder of 10% or more of our outstanding voting stock, a related person, be approved by the affirmative vote of at least 80% of our outstanding voting shares.

A "business combination" is defined in the articles of incorporation as:

- > any merger or consolidation of our company with or into a related person;
- > any sale, lease, exchange, transfer or other disposition, including without limitation a mortgage or any other security device, of all or any "substantial part," as defined below, of our assets including, without limitation, any voting securities of a subsidiary to a related person;
- > any merger or consolidation of a related person with or into our company;
- > any sale, lease, exchange, transfer or other disposition of all or any substantial part of the assets of a related person to our company;
- > the issuance of any securities (other than by way of pro rata distribution to all stockholders) of our company to a related person; and

> any agreement, contract or other arrangement providing for any of the transactions described in the definition of business combination.

The term "substantial part" is defined as more than 10% of the book value of our total assets as of the end of our most recent fiscal year ending prior to the time the determination is being made.

The 80% voting requirement described above will not be applicable if (i) our board of directors has unanimously approved in advance the acquisition of our stock that caused a related person to become a related person, or (ii) the business combination is solely between us and a wholly owned subsidiary. Our board of directors unanimously approved in advance the acquisition by Explorer Holdings, Inc. of our Series C preferred stock, which made Explorer a related person to us. Therefore, the 80% voting requirement is inapplicable to Explorer.

Under the terms of our articles of incorporation, as amended, our board of directors is classified into three classes. Each class of directors serves for a term of three years, with one class being elected each year.

The foregoing provisions of the articles of incorporation and certain other matters may not be amended without the affirmative vote of at least 80% of our outstanding voting shares.

The foregoing provisions may have the effect of discouraging unilateral tender offers or other takeover proposals which certain stockholders might deem in their interests or in which they might receive a substantial premium. Our board of directors' authority to issue and establish the terms of currently authorized preferred stock, without stockholder approval, may also have the effect of discouraging takeover attempts. The provisions could also have the effect of insulating current management against the possibility of removal and could, by possibly reducing temporary fluctuations in market price caused by accumulation of shares, deprive stockholders of opportunities to sell at a temporarily higher market price. However, our board of directors believes that inclusion of the business combination provisions in the articles of incorporation may help assure fair treatment of stockholders and preserve our assets.

16

The foregoing summary of certain provisions of the articles of incorporation does not purport to be complete or to give effect to provisions of statutory or common law. The foregoing summary is subject to, and qualified in its entirety by reference to, the provisions of applicable law and the articles of incorporation, a copy of which is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part.

STOCKHOLDER RIGHTS PLAN

On May 12, 1999, our board of directors authorized the adoption of a stockholder rights plan. The plan is designed to require a person or group seeking to gain control of our company to offer a fair price to all of our stockholders. The rights plan will not interfere with any merger, acquisition or business combination that our board of directors finds is in our best interest and the best interests of our stockholders.

In connection with the adoption of the stockholder rights plan, our board of directors declared a dividend distribution of one right for each common share outstanding on May 24, 1999. The stockholder protection rights will not become exercisable unless a person acquires 10% or more of our common stock, or begins a tender offer that would result in the person owning 10% or more of our common stock. At that time, each stockholder protection right would entitle each stockholder other than the person who triggered the rights plan to purchase either our common stock or stock of an acquiring entity at a discount to the then market price. The plan was not adopted in response to any specific attempt to acquire control of our company. In October 2001, we amended the stockholder rights plan to exempt Explorer Holdings, Inc. and any of its transferees that become a party to the stockholders' agreement we have with Explorer from being deemed an acquiring person for purposes of the plan.

DEBT SECURITIES

The terms of any debt securities offered by any prospectus supplement will be as described in such prospectus supplement, and as provided herein to the extent not modified in the prospectus supplement. Debt securities may be issued from time to time in series under an Indenture (the "Indenture") to be entered into between the company and a trustee to be identified in the applicable prospectus supplement (the "Trustee"). As used under this caption, unless the context otherwise requires, offered debt securities shall mean the debt securities offered by this prospectus and the accompanying prospectus supplement. The statements under this caption are brief summaries of certain provisions contained in the Indenture, do not purport to be complete and are qualified in their entirety by reference to the Indenture, including the definition therein of certain terms, a copy of which is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part. The following sets forth certain general terms and provisions of the debt securities. Further terms of the offered debt securities will be set forth in the prospectus supplement.

General

The Indenture provides for the issuance of debt securities in series, and does not limit the principal amount of debt securities which may be issued thereunder.

Reference is made to the prospectus supplement for the following terms of the offered debt securities:

- > the specific title of the offered debt securities;
 - > the aggregate principal amount of the offered debt securities;
-
- > the percentage of the principal amount at which the offered debt securities will be issued;
 - > the date on which the offered debt securities will mature;
 - > the rate or rates per annum or the method for determining such rate or rates, if any, at which the offered debt securities will bear interest;
 - > the times at which any such interest will be payable;
 - > any provisions relating to optional or mandatory redemption of the offered debt securities at the option of the company or pursuant to sinking fund or analogous provisions;
 - > the denominations in which the offered debt securities are authorized to be issued if other than \$100,000;
 - > any provisions relating to the conversion or exchange of the offered debt securities into common stock or into debt securities of another series;
 - > the portion of the principal amount, if less than the principal amount, payable on acceleration;
 - > the place or places at which the company will make payments of principal (and premiums, if any) and interest, if any, and the method of payment;
 - > whether the offered debt securities will be issued in whole or in part in global form;
 - > any additional covenants and events of default and the remedies with respect thereto not currently set forth in the Indenture;
 - > the identity of the Trustee for the debt securities, and if not the Trustee, the identity of each paying agent and the debt securities Registrar;
 - > the currency or currencies other than United States Dollars in which any series of debt securities will be issued; and
 - >

any other specific terms of the offered debt securities.

One or more series of the debt securities may be issued as discounted debt securities (bearing no interest or bearing interest at a rate which at the time of issuance is below market rates) to be sold at a substantial discount below their stated principal amount. Tax and other special considerations applicable to any such discounted debt securities will be described in the prospectus supplement relating thereto.

Status of debt securities

The status and ranking of the debt securities will be as set forth in the prospectus supplement. Except as otherwise set forth in the prospectus supplement, the debt securities will be unsecured obligations of the company ranking on a parity with all other unsecured and unsubordinated indebtedness.

Conversion rights

The terms, if any, on which debt securities of a series may be exchanged for or converted into shares of common stock, preferred stock or debt securities of another series will be set forth in the prospectus supplement relating thereto. To protect the company's status as a REIT, a beneficial holder may not convert any debt security, and such debt security shall not be convertible by any holder, if as a result of such conversion any person would then be deemed to beneficially own, directly or indirectly, 9.9% or more of the company's shares of common stock.

18

Absence of restrictive covenants

Except as noted below under "Dividends, Distributions and Acquisitions of Capital Stock," the company is not restricted by the Indenture from paying dividends or from incurring, assuming or becoming liable for any type of debt or other obligations or from creating liens on its property for any purpose. The Indenture does not require the maintenance of any financial ratios or specified levels of net worth or liquidity. Except as may be set forth in the prospectus supplement, there are no provisions of the Indenture which afford holders of the debt securities protection in the event of a highly leveraged transaction involving the company.

Optional redemption

The debt securities will be subject to redemption, in whole or from time to time in part, at any time for certain reasons intended to protect the company's status as a REIT, at the option of the company in the manner specified in the Indenture at a redemption price equal to 100% of the principal amount, premium, if any, plus interest accrued to the date of redemption. The Indenture does not contain any provision requiring the company to repurchase the debt securities at the option of the holders thereof in the event of a leveraged buyout, recapitalization or similar restructuring of the company.

Dividends, distributions and acquisitions of capital stock

The Indenture provides that the company will not (i) declare or pay any dividend or make any distribution on its capital stock or to holders of its capital stock (other than dividends or distributions payable in its capital stock or other than as the company determines is necessary to maintain its status as a REIT), or (ii) purchase, redeem or otherwise acquire or retire for value any of its capital stock, or any warrants, rights or options or other securities to purchase or acquire any shares of its capital stock (other than the debt securities) or permit any subsidiary to do so, if at the time of such action an event of default (as defined in the Indenture) has occurred and is continuing or would exist immediately after giving effect to such action.

Events of default

An event of default with respect to debt securities of any series is defined in the Indenture as being:

- > failure to pay principal of or any premium on any debt security of that series when due;
- > failure to pay any interest on any debt security of that series when due, continued for 30 days;
- >

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

failure to deposit any sinking fund payment when due, in respect of any debt security of that series;

- > failure to perform any other covenant of the company in the Indenture (other than a covenant included in the Indenture solely for the benefit of one or more series of debt securities other than that series), continued for 60 days after written notice as provided in the Indenture;
- > certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization; and
- > any other event of default provided with respect to the debt securities of that series.

If an event of default with respect to the outstanding debt securities of any series occurs and is continuing, either the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount (or, if the debt securities of that series are original issue discount debt securities, such portion of the principal amount as may be specified in the terms of that series) of all the outstanding debt securities of that series to be due and payable immediately. At any time after the declaration of acceleration with respect to the debt securities of any series has been made, but before a judgment or decree based on acceleration has been

19

obtained, the holders of a majority in aggregate principal amount of the outstanding debt securities of that series may, under certain circumstances, rescind and annul such acceleration.

The Indenture provides that, subject to the duty of the Trustee during default to act with the required standard of care, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request or direction of any of the holders, unless such holders shall have offered to the Trustee reasonable indemnity. Subject to such provisions for the indemnification of the Trustee and subject to certain limitations, the holders of a majority in aggregate principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee, with respect to the debt securities of that series.

The company is required to furnish to the Trustee annually a statement as to the performance by the company of certain of its obligations under the Indenture and as to any default in such performance.

Modifications and waiver

Modifications and amendments of the Indenture may be made by the company and the Trustee without the consent of any holders to, among other things,

- > evidence the succession of another corporation to the company;
- > add to the covenants of the company or surrender any right or power conferred upon the company;
- > establish the form or terms of debt securities, including any subordination provisions;
- > cure any ambiguity, correct or supplement any provision which may be defective or inconsistent or make any other provisions with respect to matters or questions arising under the Indenture, provided that such action does not adversely affect the interests of the holders of debt securities of any series in any material respect;
- > to add to, delete, or revise conditions, limitations and restrictions on the authorized amounts, terms or purpose of debt securities, as set forth in the Indenture; or
- >

57

evidence and provide for a successor Trustee.

Modifications and amendments of the Indenture may be made by the company and the Trustee with the consent of the holders of a majority in aggregate principal amount of the outstanding debt securities of each series affected by such modification or amendment; provided, however, that no such modification or amendment may, without the consent of the holder of each outstanding debt security affected thereby:

- > change the stated maturity date of the principal of, or any installment of principal of or interest, if any, on any debt security;
 - > reduce the principal amount of, or premium or interest if any, on any debt security;
 - > reduce the amount of principal of an original issue discount debt security payable upon acceleration of the maturity thereof;
 - > change the currency of payment of the principal of, or premium or interest, if any, on any debt security;
 - > impair the right to institute suit for the enforcement of any payment on or with respect to any debt security;
-

20

- > modify the conversion provisions, if any, of any debt security in a manner adverse to the holder of that debt security; or
- > reduce the percentage in principal amount of the outstanding debt security of any series, the consent of whose holders is required for modification or amendment of that Indenture or for waiver of compliance with certain provisions of that Indenture or for waiver of certain defaults.

The holders of a majority in aggregate principal amount of the outstanding debt security of each series may, on behalf of all holders of the debt securities of that series, waive, insofar as that series is concerned, compliance by the company with certain restrictive provisions of the Indenture. The holders of a majority in aggregate principal amount of the outstanding debt securities of each series may, on behalf of all holders of the debt securities of that series, waive any past default under the Indenture with respect to the debt securities of that series, except a default in the payment of principal or premium or interest, if any, or a default in respect of a covenant or provision which under the terms of the Indenture cannot be modified or amended without the consent of the holder of each outstanding debt security of the series affected.

Consolidation, merger and sale of assets

The Indenture provides that the company, without the consent of the holders of any of the debt securities, may consolidate or merge with or into or transfer its assets substantially as an entirety to, any entity organized under the laws of the United States or any state, provided that the successor entity assumes the company's obligations under the Indenture, that after giving effect to the transaction no event of default, and no event which, after notice or lapse of time, would become an event of default, shall have occurred and be continuing, and that certain other conditions are met.

Global securities

The debt securities of a series may be issued in whole or in part in global form (the "Global Securities"). Except as set forth in a prospectus supplement, the terms and provisions with respect to any Global Securities will be as set forth in this section captioned "Global Securities." The Global Securities will be deposited with a depository (the "Depository"), or with a nominee for a Depository, identified in the prospectus supplement. In such case, one or more Global Securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal amount of outstanding debt securities of the series to be represented by such Global Security or Securities. Unless and until it is exchanged in whole or in part for debt securities in definitive form, a Global Security may not be transferred except as a whole by the Depository for such Global Security to a nominee of such Depository or by a nominee of such Depository to such Depository or another nominee of such Depository or by such Depository or any such nominee to a successor of such Depository or a nominee of such successor.

The specific material terms of the depositary arrangement with respect to any portion of a series of debt securities to be represented by a Global Security will be described in the prospectus supplement. The company anticipates that the following provisions will apply to all depositary arrangements.

Upon the issuance of a Global Security, the Depositary for such Global Security will credit, on its book-entry registration and transfer system, the respective principal amounts of the debt securities represented by such Global Security to the accounts of persons that have accounts with such Depositary ("participants"). The accounts to be credited shall be designated by any underwriters or agents participating in the distribution of such debt securities. Ownership of beneficial interests in a Global Security will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in such Global Security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the Depositary for such Global

21

Security (with respect to interests of participants) or by participants or persons that hold through participants (with respect to interests of persons other than participants). So long as the Depositary for a Global Security, or its nominee, is the registered owner of such Global Security, such Depositary or such nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by such Global Security for all purposes under the Indenture; provided, however, that for the purposes of obtaining any consents or directions required to be given by the holders of the debt securities, the company, the Trustee and its agents will treat a person as the holder of such principal amount of debt securities as specified in a written statement of the Depositary. Except as set forth herein or otherwise provided in the prospectus supplement, owners of beneficial interests in a Global Security will not be entitled to have the debt securities represented by such Global Security registered in their names, will not receive physical delivery of such debt securities in definitive form and will not be considered the registered owners or holders thereof under the Indenture, but the beneficial owners and holders only.

Principal, premium, if any, and interest payments on debt securities represented by a Global Security registered in the name of a Depositary or its nominee will be made to such Depositary or its nominee, as the case may be, as the registered owner of such Global Security. None of the company, the Trustee or any Paying Agent for such debt securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in such Global Security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The company expects that the Depositary for any debt securities represented by a Global Security, upon receipt of any payment of principal, premium, if any, or interest will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such Global Security as shown on the records of such Depositary. The company also expects that payments by participants will be governed by standing instructions and customary practices, as is now the case with the securities held for the accounts of customers registered in "street names" and will be the responsibility of such participants.

If the Depositary for any debt securities represented by a Global Security is at any time unwilling or unable to continue as Depositary and a successor Depositary is not appointed by the company within 90 days, the company will issue such debt securities in definitive form in exchange for such Global Security. In addition, the company may at any time and in its sole discretion determine not to have any of the debt securities of a series represented by one or more Global Securities and, in such event, will issue debt securities of such series in definitive form in exchange for all of the Global Security or securities representing such debt securities.

The laws of some states require that certain purchasers of securities take physical delivery of such securities in definitive form. Such laws may impair the ability to transfer beneficial interests in debt securities represented by Global Securities.

SECURITIES WARRANTS

The terms of any securities warrants offered by any prospectus supplement will be as described in such prospectus supplement, and as provided herein to the extent not modified in the prospectus supplement. The company may issue securities warrants for the purchase of common stock, preferred stock or debt securities. securities warrants may be issued independently or together with common stock, preferred stock or debt securities offered by any prospectus supplement and may be attached to or separate from such common stock, preferred stock, or debt securities. Each series of securities warrants will be issued under a separate warrant agreement (a "Securities Warrant Agreement") to be

22

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

entered into between the company and a bank or trust company, as securities warrant agent, all as set forth in the prospectus supplement relating to the particular issue of offered securities warrants. The securities warrant agent will act solely as an agent of the company in connection with the securities warrants of such series and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of securities warrants. The following summaries of certain provisions of the Securities Warrant Agreement and securities warrants do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all the provisions of the Securities Warrant Agreement and the securities warrants relating to each series of securities warrants which will be filed with the Securities and Exchange Commission and incorporated by reference as an exhibit to the registration statement of which this prospectus is a part at or prior to the time of the issuance of such series of securities warrants.

In the case of securities warrants for the purchase of common stock or preferred stock, the applicable prospectus supplement will describe the terms of such securities warrants, including the following where applicable:

- > the offering price;
- > the aggregate number of shares purchasable upon exercise of such securities warrants, the exercise price, and in the case of securities warrants for preferred stock the designation, aggregate number and terms of the series of preferred stock purchasable upon exercise of such securities warrants;
- > the designation and terms of any series of preferred stock with which such securities warrants are being offered and the number of such securities warrants being offered with such preferred stock;
- > the date, if any, on and after which such securities warrants and the related series of preferred stock or common stock will be transferable separately;
- > the date on which the right to exercise such securities warrants shall commence and the Expiration Date;
- > any special United States Federal income tax consequences; and
- > any other terms of such securities warrants.

If securities warrants for the purchase of debt securities are offered, the applicable prospectus supplement will describe the terms of such securities warrants, including the following where applicable:

- > the offering price;
- > the denominations and terms of the series of debt securities purchasable upon exercise of such securities warrants;
- > the designation and terms of any series of debt securities, with which such securities warrants are being offered with each such debt securities;
- > the date, if any, on and after which such securities warrants and the related series of debt securities will be transferable separately;
- > the principal amount of the series of debt securities purchasable upon exercise of each such securities warrant and the price at which such principal amount of debt securities of such series may be purchased upon such exercise;
- > the date on which the right shall expire (the "Expiration Date");
- >

whether the securities warrants will be issued in registered or bearer form;

23

- > any special United States Federal income tax consequences;
- > the terms, if any, on which the company may accelerate the date by which the securities warrants must be exercised; and
- > any other terms of such securities warrants.

Securities warrant certificates may be exchanged for new securities warrant certificates of different denominations, may (if in registered form) be presented for registration of transfer, and may be exercised at the corporate trust office of the securities warrant agent or any other office indicated in the applicable prospectus supplement. Prior to the exercise of any securities warrant to purchase debt securities, holders of such securities warrants will not have any of the rights of holders of the debt securities purchasable upon such exercise, including the right to receive payments of principal or premium, if any, or interest, if any, on such debt securities or to enforce covenants in the applicable indenture. Prior to the exercise of any securities warrants to purchase common stock or preferred stock, holders of such securities warrants will not have any rights of holders of such common stock or preferred stock, including the right to receive payments of dividends, if any, on such common stock or preferred stock, or to exercise any applicable right to vote.

Exercise of securities warrants

Each securities warrant will entitle the holder thereof to purchase a number of shares of common stock, preferred stock or such principal amount of debt securities, as the case may be, at such exercise price as shall in each case be set forth in, or calculable from, the prospectus supplement relating to the offered securities warrants. After the close of business on the Expiration Date (or such later date to which such Expiration Date may be extended by the company), unexercised securities warrants will become void.

Securities warrants may be exercised by delivering to the securities warrant agent payment as provided in the applicable prospectus supplement of the amount required to purchase the common stock, preferred stock or debt securities, as the case may be, purchasable upon such exercise together with certain information set forth on the reverse side of the securities warrant certificate. securities warrants will be deemed to have been exercised upon receipt of payment of the exercise price, subject to the receipt within five (5) business days, of the securities warrant certificate evidencing such securities warrants. Upon receipt of such payment and the securities warrant certificate properly completed and duly executed at the corporate trust office of the securities warrant agent or any other office indicated in the applicable prospectus supplement, the company will, as soon as practicable, issue and deliver the common stock, preferred stock or debt securities, as the case may be, purchasable upon such exercise. If fewer than all of the securities warrants represented by such securities warrant certificate are exercised, a new securities warrant certificate will be issued for the remaining amount of securities warrants.

Amendments and supplements to securities warrant agreement

The Securities Warrant Agreements may be amended or supplemented without the consent of the holders of the securities warrants issued thereunder to effect changes that are not inconsistent with the provisions of the securities warrants and that do not adversely affect the interests of the holders of the securities warrants.

24

Common stock warrant adjustments

Unless otherwise indicated in the applicable prospectus supplement, the exercise price of, and the number of shares of common stock covered by a common stock warrant are subject to adjustment in certain events, including:

- > payment of a dividend on the common stock payable in capital stock and stock splits, combinations or reclassifications of the common stock;
- >

61

issuance to all holders of common stock of rights or warrants to subscribe for or purchase shares of common stock at less than their current market price (as defined in the Securities Warrant Agreement for such series of common stock warrants); and

>

certain distributions of evidences of indebtedness or assets (including cash dividends or distributions paid out of consolidated earnings or retained earnings or dividends payable in common stock) or of subscription rights and warrants (excluding those referred to above).

No adjustment in the exercise price of, and the number of shares of common stock covered by a common stock warrant will be made for regular quarterly or other periods of recurring cash dividends or distributions or for cash dividends or distributions to the extent paid from consolidated earnings or retained earnings. No adjustment will be required unless such adjustment would require a change of at least 1% in the exercise price then in effect. Except as stated above, the exercise price of, and the number of shares of common stock covered by, a common stock warrant will not be adjusted for the issuance of common stock or any securities convertible into or exchangeable for common stock, or carrying the right or option to purchase or otherwise acquire the foregoing in exchange for cash, other property or services.

In the event of any (i) consolidation or merger of the company with or into any entity (other than a consolidation or a merger that does not result in any reclassification, conversion, exchange or cancellation of outstanding shares of common stock), (ii) sale, transfer, lease or conveyance of all or substantially all of the assets of the company, or (iii) reclassification, capital reorganization or change of the common stock (other than solely a change in par value or from par value to no par value), then any holder of a common stock warrant will be entitled, on or after the occurrence of any such event, to receive on exercise of such common stock warrant the kind and amount of shares of stock or other securities, cash or other property (or any combination thereof) that the holder would have received had such holder exercised such holder's common stock warrant immediately prior to the occurrence of such event. If the consideration to be received upon exercise of the common stock warrant following any such event consists of common stock of the surviving entity, then from and after the occurrence of such event, the exercise price of such common stock warrant will be subject to the same anti-dilution and other adjustments described in the second preceding paragraph, applied as if such common stock of the surviving entity were common stock.

25

Certain federal income tax considerations

CONSEQUENCES OF AN INVESTMENT IN OUR SECURITIES

The following is a general summary of material U.S. federal income tax considerations applicable to us, and to the purchasers of our securities and our election to be taxed as a REIT. It is not tax advice. The summary is not intended to represent a detailed description of the U.S. federal income tax consequences applicable to a particular stockholder in view of any person's particular circumstances, nor is it intended to represent a detailed description of the U.S. federal income tax consequences applicable to stockholders subject to special treatment under the federal income tax laws such as insurance companies, tax-exempt organizations, financial institutions, securities broker-dealers, investors in pass-through entities, expatriates and taxpayers subject to alternative minimum taxation.

The following discussion relating to an investment in our securities was based on consultations with Powell, Goldstein, Frazer & Murphy LLP, our special counsel. In the opinion of Powell, Goldstein, Frazer & Murphy LLP, the following discussion, to the extent it constitutes matters of law or legal conclusions (assuming the facts, representations, and assumptions upon which the discussion is based are accurate), accurately represents the material U.S. federal income tax considerations relevant to purchasers of our securities. Powell, Goldstein, Frazer & Murphy LLP has not rendered any opinion regarding any effect of such issuance on purchasers of our securities. The sections of the Code relating to the qualification and operation as a REIT are highly technical and complex. The following discussion sets forth the material aspects of the Code sections that govern the federal income tax treatment of a REIT and its stockholders. The information in this section is based on the Code; current, temporary, and proposed Treasury regulations promulgated under the Code; the legislative history of the Code; current administrative interpretations and practices of the Internal Revenue Service, or IRS; and court decisions, in each case, as of the date of this prospectus. In addition, the administrative interpretations and practices of the IRS include its practices and policies as expressed in private letter rulings which are not binding on the IRS, except with respect to the particular taxpayers who requested and received these rulings.

TAXATION OF OMEGA

General. We have elected to be taxed as a real estate investment trust, or a REIT, under Sections 856 through 860 of the Code beginning with our taxable year ended December 31, 1992. We believe that we have been organized and operated in such a manner as to qualify for taxation as a REIT under the Code and we intend to continue to operate in such a manner, but no assurance can be given that we have operated or will be able to continue to operate in a manner so as to qualify or remain qualified as a REIT.

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

The sections of the Code that govern the federal income tax treatment of a REIT are highly technical and complex. The following sets forth the material aspects of those sections. This summary is qualified in its entirety by the applicable Code provisions, rules and regulations promulgated thereunder, and administrative and judicial interpretations thereof.

In the opinion of Powell, Goldstein, Frazer & Murphy LLP, which opinion has been filed as an exhibit to the registration statement of which this prospectus is a part, we are organized in conformity with the requirements for qualification as a REIT, and our current and proposed method of operation will enable us to continue to meet the requirements for continued qualification and taxation as a REIT under the Code. This opinion is based on various assumptions and is conditioned upon certain representations made by us as to factual matters concerning our business and properties. Moreover, such qualification and taxation as a REIT depends upon our ability to meet, through actual annual

26

operating results, distribution levels and diversity of stock ownership, the various qualification tests imposed under the Code discussed below, the results of which will not be reviewed by Powell, Goldstein, Frazer & Murphy LLP on an ongoing basis. Accordingly, no assurance can be given that the various results of our operation for any particular taxable year will satisfy such requirements. Further, such requirements may be changed, perhaps retroactively, by legislative or administrative actions at any time. We have neither sought nor obtained any formal ruling from the IRS regarding our qualification as a REIT and presently have no plan to apply for any such ruling. See " Failure to Qualify."

If we qualify for taxation as a REIT, we generally will not be subject to federal corporate income taxes on our net income that is currently distributed to stockholders. This treatment substantially eliminates the "double taxation" (i.e., taxation at both the corporate and the stockholder level) that generally results from investment in a corporation. However, we will be subject to federal income tax as follows: First, we will be taxed at regular corporate rates on any undistributed REIT taxable income, including undistributed net capital gains; provided, however, that if we have a net capital gain, we will be taxed at regular corporate rates on our undistributed REIT taxable income, computed without regard to net capital gain and the deduction for capital gains dividends, plus a 35% tax on undistributed net capital gain, if our tax as thus computed is less than the tax computed in the regular manner. Second, under certain circumstances, we may be subject to the "alternative minimum tax" on our items of tax preference that we do not distribute or allocate to our stockholders. Third, if we have (i) net income from the sale or other disposition of "foreclosure property" which is held primarily for sale to customers in the ordinary course of business, or (ii) other nonqualifying income from foreclosure property, we will be subject to tax at the highest regular corporate rate on such income. Fourth, if we have net income from prohibited transactions (which are, in general, certain sales or other dispositions of property (other than foreclosure property) held primarily for sale to customers in the ordinary course of business by us, (i.e., when we are acting as a dealer)), such income will be subject to a 100% tax. Fifth, if we should fail to satisfy the 75% gross income test or the 95% gross income test (as discussed below), but have nonetheless maintained our qualification as a REIT because certain other requirements have been met, we will be subject to a 100% tax on an amount equal to (a) the gross income attributable to the greater of the amount by which we fail the 75% or 95% test, multiplied by (b) a fraction intended to reflect our profitability. Sixth, if we should fail to distribute by the end of each year at least the sum of (i) 85% of our REIT ordinary income for such year, (ii) 95% of our REIT capital gain net income for such year, and (iii) any undistributed taxable income from prior periods, we will be subject to a 4% excise tax on the excess of such required distribution over the amounts actually distributed. Seventh, we will be subject to a 100% excise on transactions with a taxable REIT subsidiary, or TRS, that are not conducted on an arm's-length basis. Eighth, if we acquire any asset, which is defined as a "built-in gain asset" from a C corporation that is not a REIT (i.e., generally a corporation subject to full corporate-level tax) in a transaction in which the basis of the built-in gain asset in our hands is determined by reference to the basis of the asset (or any other property) in the hands of the C corporation, and we recognize gain on the disposition of such asset during the 10-year period, which is defined as the "recognition period," beginning on the date on which such asset was acquired by us, then, to the extent of the built-in gain (i.e., the excess of (a) the fair market value of such asset on the date such asset was acquired by us over (b) our adjusted basis in such asset on such date), our recognized gain will be subject to tax at the highest regular corporate rate. The results described above with respect to the recognition of built-in gain assume that we will not make an election pursuant to Treasury Regulations. Section 1.337(d)-7(c)(5).

Requirements for qualification. The Code defines a REIT as a corporation, trust or association: (1) which is managed by one or more trustees or directors; (2) the beneficial ownership of which is evidenced by transferable shares, or by transferable certificates of beneficial interest; (3) which would

27

be taxable as a domestic corporation, but for Sections 856 through 859 of the Code; (4) which is neither a financial institution nor an insurance company subject to the provisions of the Code; (5) the beneficial ownership of which is held by 100 or more persons; (6) during the last half year of each taxable year not more than 50% in value of the outstanding stock of which is owned, actually or constructively, by five or fewer individuals (as defined in the Code to include certain entities); and (7) which meets certain other tests, described below, regarding the nature of its income and assets and the amount of its annual distributions to stockholders. The Code provides that conditions (1) to (4), inclusive, must be

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

met during the entire taxable year and that condition (5) must be met during at least 335 days of a taxable year of twelve months, or during a proportionate part of a taxable year of less than twelve months. For purposes of conditions (5) and (6), pension funds and certain other tax-exempt entities are treated as individuals, subject to a "look-through" exception in the case of condition (6).

Income tests. In order to maintain our qualification as a REIT, we annually must satisfy two gross income requirements. First, at least 75% of our gross income (excluding gross income from prohibited transactions) for each taxable year must be derived directly or indirectly from investments relating to real property or mortgages on real property (including generally "rents from real property," interest on mortgages on real property and gains on sale of real property and real property mortgages, other than property described in Section 1221 of the Code) and income derived from certain types of temporary investments. Second, at least 95% of our gross income (excluding gross income from prohibited transactions) for each taxable year must be derived from such real property investments, dividends, interest and gain from the sale or disposition of stock or securities other than property held for sale to customers in the ordinary course of business.

Rents received by us will qualify as "rents from real property" in satisfying the gross income requirements for a REIT described above only if several conditions are met. First, the amount of the rent must not be based in whole or in part on the income or profits of any person. However, any amount received or accrued generally will not be excluded from the term "rents from real property" solely by reason of being based on a fixed percentage or percentages of receipts or sales. Second, the Code provides that rents received from a tenant will not qualify as "rents from real property" in satisfying the gross income tests if we, or an owner (actually or constructively) of 10% or more of the value of our stock, actually or constructively owns 10% or more of such tenant, which is defined as a related party tenant. Third, if rent attributable to personal property, leased in connection with a lease of real property, is greater than 15% of the total rent received under the lease, then the portion of rent attributable to such personal property will not qualify as "rents from real property." Finally, for rents received to qualify as "rents from real property," we generally must not operate or manage the property or furnish or render services to the tenants of such property, other than through an independent contractor from which we derive no revenue. We, however, directly perform certain services that are "usually or customarily rendered" in connection with the rental of space for occupancy only and are not otherwise considered "rendered to the occupant" of the property. In addition, we may provide a minimal amount of "non-customary" services to the tenants of a property, other than through an independent contractor, as long as our income from the services does not exceed 1% of our income from the related property. Furthermore, we may own up to 100% of the stock of a TRS, which may provide customary and noncustomary services to our tenants without tainting our rental income from the related properties.

The term "interest" generally does not include any amount received or accrued (directly or indirectly) if the determination of such amount depends in whole or in part on the income or profits of any person. However, an amount received or accrued generally will not be excluded from the term "interest" solely by reason of being based on a fixed percentage or percentages of gross receipts or

28

sales. In addition, an amount that is based on the income or profits of a debtor will be qualifying interest income as long as the debtor derives substantially all of its income from the real property securing the debt from leasing substantially all of its interest in the property, but only to the extent that the amounts received by the debtor would be qualifying "rents from real property" if received directly by a REIT.

If a loan contains a provision that entitles us to a percentage of the borrower's gain upon the sale of the real property securing the loan or a percentage of the appreciation in the property's value as of a specific date, income attributable to that loan provision will be treated as gain from the sale of the property securing the loan, which generally is qualifying income for purposes of both gross income tests.

Interest on debt secured by mortgages on real property or on interests in real property generally is qualifying income for purposes of the 75% gross income test. However, if the highest principal amount of a loan outstanding during a taxable year exceeds the fair market value of the real property securing the loan as of the date we agreed to originate or acquire the loan, a portion of the interest income from such loan will not be qualifying income for purposes of the 75% gross income test, but will be qualifying income for purposes of the 95% gross income test. The portion of the interest income that will not be qualifying income for purposes of the 75% gross income test will be equal to the portion of the principal amount of the loan that is not secured by real property.

Prohibited transactions. We will incur a 100% tax on the net income derived from any sale or other disposition of property, other than foreclosure property, that we hold primarily for sale to customers in the ordinary course of a trade or business. We believe that none of our assets is held for sale to customers and that a sale of any of our assets would not be in the ordinary course of our business. Whether a REIT holds an asset primarily for sale to customers in the ordinary course of a trade or business depends, however, on the facts and circumstances in effect from time to time, including those related to a particular asset. Nevertheless, we will attempt to comply with the terms of safe-harbor provisions in the federal income tax laws prescribing when an asset sale will not be characterized as a prohibited transaction. We cannot assure you, however, that we can comply with the safe-harbor provisions or that we will avoid owning property that may be characterized as property that we hold primarily for sale to customers in the ordinary course of a trade or business.

Foreclosure property. We will be subject to tax at the maximum corporate rate on any income from foreclosure property, other than income that otherwise would be qualifying income for purposes of the 75% gross income test, less expenses directly connected with the production of that income. However, gross income from foreclosure property will qualify for purposes of the 75% and 95% gross income tests. Foreclosure property is any real property, including interests in real property, and any personal property incident to such real property:

- > that is acquired by a REIT as the result of the REIT having bid in such property at foreclosure, or having otherwise reduced such property to ownership or possession by agreement or process of law, after there was a default or default was imminent on a lease of such property or on indebtedness that such property secured;
- > for which the related loan or lease was acquired by the REIT at a time when the default was not imminent or anticipated; and
- > for which the REIT markets a proper election to treat the property as foreclosure property.

Property generally ceases to be foreclosure property at the end of the third taxable year following the taxable year in which the REIT acquired the property, or longer if an extension is granted by the

29

Secretary of the Treasury. This grace period terminates and foreclosure property ceases to be foreclosure property on the first day:

- > on which a lease is entered into for the property that, by its terms, will give rise to income that does not qualify for purposes of the 75% gross income test, or any amount is received or accrued, directly or indirectly, pursuant to a lease entered into on or after such day that will give rise to income that does not qualify for purposes of the 75% gross income test;
- > on which any construction takes place on the property, other than completion of a building or any other improvement, where more than 10% of the construction was completed before default became imminent; or
- > which is more than 90 days after the day on which the REIT acquired the property and the property is used in a trade or business which is conducted by the REIT, other than through an independent contractor from whom the REIT itself does not derive or receive any income.

Beginning on January 1, 2001, foreclosure property also includes any "qualified health care property," as defined in Code Section 856(e)(6) acquired by us as the result of the termination or expiration of a lease of such property. We may operate a qualified healthcare facility, acquired in this manner for two years or longer if an extension is granted. We own one property with respect to which we have made foreclosure property elections. Properties that are taken back in a foreclosure or bankruptcy and operated for our own account are treated as foreclosure properties for income tax purposes, pursuant to Internal Revenue Code Section 856(e). Gross income from foreclosure properties is "good income" for purposes of the annual REIT income tests. Once this election is made on the tax return, it is "good" for a period of three years, or until the properties are no longer operated for our own account. An election to extend the foreclosure status period for an additional three years can be made. In all cases of the foreclosure property, we utilize an independent contractor to conduct day-to-day operations in order to maintain REIT status. In certain cases we operate facilities through a taxable REIT subsidiary. For those properties operated through the taxable REIT subsidiary, we utilize an eligible independent contractor to conduct day-to-day operations to maintain REIT status. As a result of the foregoing, we do not believe that our participation in the operation of nursing homes will increase the risk that we will fail to qualify as a REIT. Through our 2002 taxable year, we have not paid any tax on our foreclosure property because those properties have been producing losses. However, in the future, our income from foreclosure property could be significant and we could be required to pay a significant amount of tax on that income.

Hedging transactions. From time to time, we enter into hedging transactions with respect to one or more of our assets or liabilities. Our hedging activities may include entering into interest rate swaps, caps, and floors, options to purchase these items, and futures and forward contracts. To the extent that we enter into an interest rate swap or cap contract, option, futures contract, forward rate agreement, or any similar financial instrument to hedge our indebtedness incurred to acquire or carry "real estate assets," any periodic income or gain from the disposition of that contract should be qualifying income for purposes of the 95% gross income test, but not the 75% gross income test. Accordingly, our income and gain from our interest rate swap agreements generally is qualifying income for purpose, or the 95% gross income test, but not the 75% gross income test. To the extent that we hedge with other types of financial instruments, or in other situations, it is not entirely clear how

the income from those transactions will be treated for purposes of the gross income tests. We have structured and intend to continue to structure any hedging transactions in a manner that does not jeopardize our status as a REIT.

TRS income. A TRS may earn income that would not be qualifying income if earned directly by the parent REIT. Both the subsidiary and the REIT must jointly elect to treat the subsidiary as a TRS. A

30

corporation of which a TRS directly or indirectly owns more than 35% of the voting power or value of the stock will automatically be treated as a TRS. Overall, no more than 20% of the value of a REIT's assets may consist of securities of one or more TRSs. However, a TRS does not include a corporation which directly or indirectly (i) operates or manages a health care (or lodging) facility, or (ii) provides to any other person (under a franchise, license, or otherwise) rights to any brand name under which a health care (or lodging) facility is operated. A TRS will pay income tax at regular corporate rates on any income that it earns. In addition, the new rules limit the deductibility of interest paid or accrued by a TRS to its parent REIT to assure that the TRS is subject to an appropriate level of corporate taxation. The rules also impose a 100% excise tax on transactions between a TRS and its parent REIT or the REIT's tenants that are not conducted on an arm's-length basis. We have made TRS elections with respect to Bayside Street II, Inc. and one of our wholly-owned subsidiaries that owned all of the preferred stock of Omega Worldwide. Those entities will pay corporate income tax on their taxable income and their after-tax net income will be available for distribution to us.

Failure to satisfy income tests. If we fail to satisfy one or both of the 75% or 95% gross income tests for any taxable year, we may nevertheless qualify as a REIT for such year if we are entitled to relief under certain provisions of the Code. These relief provisions will be generally available if our failure to meet such tests was due to reasonable cause and not due to willful neglect, we attach a schedule of the sources of our income to our tax return, and any incorrect information on the schedule was not due to fraud with intent to evade tax. It is not possible, however, to state whether in all circumstances we would be entitled to the benefit of these relief provisions. Even if these relief provisions apply, we would incur a 100% tax on the gross income attributable to the greater of the amounts by which we fail the 75% and 95% gross income tests, multiplied by a fraction intended to reflect our profitability.

Asset tests. At the close of each quarter of our taxable year, we must also satisfy the following tests relating to the nature of our assets. First, at least 75% of the value of our total assets must be represented by real estate assets (including (i) our allocable share of real estate assets held by partnerships in which we own an interest and (ii) stock or debt instruments held for not more than one year purchased with the proceeds of a stock offering or long-term (at least five years) debt offering of our company), cash, cash items and government securities. Second, of our investments not included in the 75% asset class, the value of our interest in any one issuer's securities may not exceed 5% of the value of our total assets. Third, we may not own more than 10% of the voting power or value of any one issuer's outstanding securities. Fourth, no more than 20% of the value of our total assets may consist of the securities of one or more TRSs. Fifth, no more than 25% of the value of our total assets may consist of the securities of TRSs and other non-TRS taxable subsidiaries and other assets that are not qualifying assets for purposes of the 75% asset test.

For purposes of the second and third asset tests, the term "securities" does not include our stock in another REIT, our equity or debt securities of a qualified REIT subsidiary or TRS, or our equity interest in any partnership. The term "securities," however, generally includes our debt securities issued by another REIT or a partnership, except that debt securities of a partnership are not treated as securities for purposes of the 10% value test if we own at least a 20% profits interest in the partnership.

We may own up to 100% of the stock of one or more TRSs. However, overall, no more than 20% of the value of our assets may consist of securities of one or more TRSs, and no more than 25% of the value of our assets may consist of the securities of TRSs and other non-TRS taxable subsidiaries (including stock in non-REIT C Corporations) and other assets that are not qualifying assets for purposes of the 75% asset test.

31

If the outstanding principal balance of a mortgage loan exceeds the fair market value of the real property securing the loan, a portion of such loan likely will not be a qualifying real estate asset under the federal income tax laws. The non-qualifying portion of that mortgage loan will be equal to the portion of the loan amount that exceeds the value of the associated real property.

After initially meeting the asset tests at the close of any quarter, we will not lose our status as a REIT for failure to satisfy any of the asset tests at the end of a later quarter solely by reason of changes in asset values. If the failure to satisfy the asset tests results from an acquisition of

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

securities or other property during a quarter, the failure can be cured by disposition of sufficient nonqualifying assets within 30 days after the close of that quarter. We have maintained and intend to continue to maintain adequate records of the value of our assets to ensure compliance with the asset tests, and to take such other action within 30 days after the close of any quarter as may be required to cure any noncompliance.

Annual distribution requirements. In order to qualify as a REIT, we are required to distribute dividends (other than capital gain dividends) to our stockholders in an amount at least equal to (A) the sum of (i) 90% of our "REIT taxable income" (computed without regard to the dividends paid deduction and our net capital gain) and (ii) 90% of the net income (after tax), if any, from foreclosure property, minus (B) the sum of certain items of noncash income. Such distributions must be paid in the taxable year to which they relate, or in the following taxable year if declared before we timely file our tax return for such year and paid on or before the first regular dividend payment after such declaration. In addition, such distributions are required to be made pro rata, with no preference to any share of stock as compared with other shares of the same class, and with no preference to one class of stock as compared with another class except to the extent that such class is entitled to such a preference. To the extent that we do not distribute all of our net capital gain or do distribute at least 90%, but less than 100% of our "REIT taxable income," as adjusted, we will be subject to tax thereon at regular ordinary and capital gain corporate tax rates.

Furthermore, if we fail to distribute during a calendar year, or by the end of January following the calendar year in the case of distributions with declaration and record dates falling in the last three months of the calendar year, at least the sum of:

- > 85% of our REIT ordinary income for such year;
- > 95% of our REIT capital gain income for such year; and
- > any undistributed taxable income from prior periods,

we will incur a 4% nondeductible excise tax on the excess of such required distribution over the amounts we actually distribute. We may elect to retain and pay income tax on the net long-term capital gain we receive in a taxable year. If we so elect, we will be treated as having distributed any such retained amount for purposes of the 4% excise tax described above. We have made, and we intend to continue to make, timely distributions sufficient to satisfy the annual distribution requirements. We may also be entitled to pay and deduct deficiency dividends in later years as a relief measure to correct errors in determining our taxable income. Although we may be able to avoid income tax on amounts distributed as deficiency dividends, we will be required to pay interest to the IRS based upon the amount of any deduction we take for deficiency dividends.

The availability to us of, among other things, depreciation deductions with respect to our owned facilities depends upon the treatment by us as the owner of such facilities for federal income tax purposes, and the classification of the leases with respect to such facilities as "true leases" rather than financing arrangements for federal income tax purposes. The questions of whether we are the owner of such facilities and whether the leases are true leases for federal tax purposes are essentially factual

32

matters. We believe that we will be treated as the owner of each of the facilities that we lease, and such leases will be treated as true leases for federal income tax purposes. However, no assurances can be given that the IRS will not successfully challenge our status as the owner of our facilities subject to leases, and the status of such leases as true leases, asserting that the purchase of the facilities by us and the leasing of such facilities merely constitute steps in secured financing transactions in which the lessees are owners of the facilities and we are merely a secured creditor. In such event, we would not be entitled to claim depreciation deductions with respect to any of the affected facilities. As a result, we might fail to meet the 90% distribution requirement or, if such requirement is met, we might be subject to corporate income tax or the 4% excise tax.

FAILURE TO QUALIFY

If we fail to qualify as a REIT in any taxable year, and the relief provisions do not apply, we will be subject to tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates. Distributions to stockholders in any year in which we fail to qualify will not be deductible and our failure to qualify as a REIT would reduce the cash available for distribution by us to our stockholders. In addition, if we fail to qualify as a REIT, all distributions to stockholders will be taxable as ordinary income, to the extent of current and accumulated earnings and profits, and, subject to certain limitations of the Code, corporate distributees may be eligible for the dividends received deduction. Unless entitled to relief under specific statutory provisions, we would also be disqualified from taxation as a REIT for the four taxable years following the year during which qualification was lost. It is not possible to state whether in all circumstances we would be entitled to such

statutory relief. Failure to qualify could result in our incurring indebtedness or liquidating investments in order to pay the resulting taxes.

OTHER TAX MATTERS

We own and operate a number of properties through qualified REIT subsidiaries, "QRSs". The QRSs are treated as qualified REIT subsidiaries under the Code. Code Section 856(i) provides that a corporation which is a qualified REIT subsidiary shall not be treated as a separate corporation, and all assets, liabilities, and items of income, deduction, and credit of a qualified REIT subsidiary shall be treated as assets, liabilities and such items (as the case may be) of the REIT. Thus, in applying the tests for REIT qualification described in this prospectus under the heading "Taxation of Omega," the QRSs will be ignored, and all assets, liabilities and items of income, deduction, and credit of such QRSs will be treated as our assets, liabilities and items of income, deduction, and credit.

In the case of a REIT that is a partner in a partnership, the REIT is treated as owning its proportionate share of the assets of the partnership and as earning its allocable share of the gross income of the partnership for purposes of the applicable REIT qualification tests. Thus, our proportionate share of the assets, liabilities, and items of income of any partnership, joint venture, or limited liability company that is treated as a partnership for federal income tax purposes in which we own an interest, directly or indirectly, will be treated as our assets and gross income for purposes of applying the various REIT qualification requirements.

TAXATION OF STOCKHOLDERS

Taxation of domestic stockholders. As long as we qualify as a REIT, if you are a taxable U.S. stockholder, distributions made to you out of current or accumulated earnings and profits (and not designated as capital gain dividends) will be taken into account by you as ordinary income and will

33

not be eligible for the dividends received deduction for corporations. Distributions that are designated as capital gain dividends will be taxed as long-term capital gains (to the extent they do not exceed our actual net capital gain for the taxable year) without regard to the period for which you have held our stock. However, if you are a corporation, you may be required to treat up to 20% of certain capital gain dividends as ordinary income. Distributions in excess of current and accumulated earnings and profits will not be taxable to you to the extent that they do not exceed the adjusted basis of your shares, but rather will reduce the adjusted basis of the shares. To the extent that distributions in excess of current and accumulated earnings and profits exceed the adjusted basis of your shares, you will include the distributions in income as long-term capital gain (or short-term capital gain if you have held the shares for one year or less) assuming the shares are a capital asset in your hands. In addition, any distribution declared by us in October, November or December of any year payable to you as a stockholder of record on a specified date in any of these months shall be treated as both paid by us and received by you on December 31 of that year, provided that the distribution is actually paid by us during January of the following calendar year. You may not include in your individual income tax returns any of our net operating losses or capital losses.

In general, any loss upon a sale or exchange of shares by you, if you have held the shares for six months or less (after applying certain holding period rules), will be treated as a long-term capital loss to the extent of distributions from us required to be treated by you as long-term capital gain.

BACKUP WITHHOLDING

Assuming that you are a U.S. stockholder, we will report to you and the IRS the amount of distributions paid during each calendar year, and the amount of tax withheld, if any. Under the backup withholding rules, you may be subject to backup withholding with respect to distributions paid unless you:

- > are a corporation or come within certain other exempt categories and when required, demonstrate this fact; or
- > provide a taxpayer identification number, certify as to no loss of exemption from backup withholding, and otherwise comply with applicable requirements of the backup withholding rules.

If you do not provide us with your correct taxpayer identification number, you may also be subject to penalties imposed by the IRS. Any amount paid as backup withholding will be creditable against your income tax liability. In addition, we may be required to withhold a portion of capital gain distributions to you, if you fail to certify your nonforeign status to us. See " Taxation of Stockholders Taxation of Foreign Stockholders."

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

Treatment of tax-exempt stockholders. If you are a tax-exempt employee pension trust or other domestic tax-exempt stockholder, our distributions to you generally will not constitute "unrelated business taxable income," or UBTI, unless you have borrowed to acquire or carry our common stock. However, qualified trusts that hold more than 10% (by value) of certain REITs may be required to treat a certain percentage of that REIT's distributions as UBTI. This requirement will apply only if:

- > the REIT would not qualify for federal income tax purposes but for the application of a "look-through" exception to the "five or fewer" requirement applicable to shares held by qualified trusts; and
 - > the REIT is "predominantly held" by qualified trusts.
-

34

A REIT is predominantly held if either:

- > a single qualified trust holds more than 25% by value of the REIT interests; or
- > one or more qualified trusts, each owning more than 10% by value of the REIT interests, hold in the aggregate more than 50% by value of the REIT interests.

The percentage of any REIT dividend treated as UBTI is equal to the ratio of the UBTI earned by the REIT (treating the REIT as if it were a qualified trust and therefore subject to tax on UBTI) to the total gross income (less certain associated expenses) of the REIT.

A de minimis exception applies where the ratio set forth in the preceding sentence is less than 5% for any year. For those purposes, a qualified trust is any trust described in section 401(a) of the Internal Revenue Code and exempt from tax under section 501(a) of the Internal Revenue Code. The provisions requiring qualified trusts to treat a portion of REIT distributions as UBTI will not apply if the REIT is able to satisfy the "five or fewer" requirement without relying upon the "look-through" exception. The restrictions on ownership of our common stock in our Amended and Restated Articles of Incorporation, as amended, will prevent application of the provisions treating a portion of REIT distributions as UBTI to tax-exempt entities purchasing our common stock, absent approval by our board of directors.

Taxation of foreign stockholders. The rules governing U.S. federal income taxation of nonresident alien individuals, foreign corporations, foreign partnerships and other foreign stockholders (collectively, Non-U.S. Stockholders) are complex and no attempt will be made herein to provide more than a summary of these rules. Prospective Non-U.S. Stockholders should consult with their own tax advisors to determine the impact of federal, state and local income tax laws with regard to an investment in shares, including any reporting requirements.

If you are a Non-U.S. Stockholder, the following discussion will apply to you. Distributions that are not attributable to gain from our sales or exchanges of U.S. real property interests and not designated by us as capital gains dividends will be treated as dividends of ordinary income to the extent that they are made out of our current or accumulated earnings and profits. Such distributions will ordinarily be subject to a withholding tax equal to 30% of the gross amount of the distribution unless an applicable tax treaty reduces or eliminates that tax.

However, if income from the investment in the shares is treated as effectively connected with your conduct of a U.S. trade or business, you generally will be subject to a tax at graduated rates, in the same manner as U.S. stockholders are taxed with respect to the distributions (and may also be subject to the 30% branch profits tax if you are a foreign corporation). We expect to withhold U.S. income tax at the rate of 30% on the gross amount of any distributions made to you unless:

- > a lower treaty rate applies, you file an IRS Form W-8BEN with us and other conditions are met; or
- > you file an IRS Form W-8ECI with us claiming that the distribution is effectively connected income, and other conditions are met.

Distributions in excess of our current and accumulated earnings and profits will not be taxable to you to the extent that the distributions do not exceed the adjusted basis of your shares, but rather will reduce the adjusted basis of the shares. To the extent that distributions in excess of current accumulated earnings and profits exceed the adjusted basis of your shares, these distributions will give rise to tax liability if you would otherwise be subject to tax on any gain from the sale or disposition of your shares in us, as described below. If it cannot be determined at the

time a distribution is made whether or not the distribution will be in excess of current and accumulated earnings and profits, the distributions will be subject to withholding at the same rate as dividends. However, amounts thus

35

withheld are refundable if it is subsequently determined that a distribution was, in fact, in excess of our current and accumulated earnings and profits.

For any year in which we qualify as a REIT, distributions that are attributable to gain from our sales or exchanges of U.S. real property interests will be taxed to you under the provisions of the Foreign Investment in Real Property Tax Act of 1980, or FIRPTA. Under FIRPTA, distributions attributable to gain from sales of U.S. real property interests are taxed to you as if the gain were effectively connected with a U.S. business. You would thus be taxed at the normal capital gain rates applicable to U.S. stockholders (subject to applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals). Also, distributions subject to FIRPTA may be subject to a 30% branch profits tax in the hands of a foreign corporate stockholder not entitled to a treaty exemption. We are required by applicable Treasury Regulations to withhold 35% of any distribution that could be designated by us as a capital gains dividend. This amount is creditable against your FIRPTA tax liability.

Gain recognized by you upon a sale of shares generally will not be taxed under FIRPTA if we are a "domestically controlled REIT," defined generally as a REIT in which at all times during a specified testing period less than 50% in value of the stock was held directly or indirectly by foreign persons. It is currently anticipated that we will be a "domestically controlled REIT," although there can be no assurance that we will retain that status. If we are not "domestically controlled," gain recognized by you will continue to be exempt under FIRPTA if you at no time owned more than five percent of our common stock. However, gain not subject to FIRPTA will be taxable to you if:

- > investment in the shares is effectively connected with your U.S. trade or business, in which case you will be subject to the same treatment as U.S. stockholders with respect to the gain; or
- > you are a nonresident alien individual who was present in the United States for more than 182 days during the taxable year and other applicable requirements are met, in which case you will be subject to a 30% tax on your capital gains.

If the gain on the sale of shares were to be subject to taxation under FIRPTA, you will be subject to the same treatment as U.S. stockholders with respect to the gain (subject to applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals).

If the proceeds of a sale of shares by you are paid by or through a U.S. office of a broker, the payment is subject to information reporting and to backup withholding unless you certify as to your name, address and non-U.S. status or otherwise establish an exemption. Generally, U.S. information reporting and backup withholding will not apply to a payment of disposition proceeds if the payment is made outside the U.S. through a non-U.S. office of a non-U.S. broker. U.S. information reporting requirements (but not backup withholding) will apply, however, to a payment of disposition proceeds outside the U.S. if:

- > the payment is made through an office outside the U.S. of a broker that is: (a) a U.S. person; (b) a foreign person that derives 50% or more of its gross income for certain periods from the conduct of a trade or business in the U.S.; or (c) a "controlled foreign corporation" for U.S. federal income tax purposes; and
 - > the broker fails to initiate documentary evidence that you are a Non-U.S. Stockholder and that certain conditions are met or that you otherwise are entitled to an exemption.
-

36

OTHER TAX CONSEQUENCES

New legislation

70

Edgar Filing: OMEGA HEALTHCARE INVESTORS INC - Form 424B5

On May 28, 2003, President George W. Bush signed into law the Jobs and Growth Tax Relief Reconciliation Act of 2003. This new tax law will reduce the maximum individual tax rate for long-term capital gains generally from 20% to 15% (for sales occurring after May 5, 2003 through December 31, 2008) and for dividends generally from 38.6% to 15% (for tax years from 2003 through 2008). Without future congressional action, the maximum tax rate on long-term capital gains will return to 20% in 2009, and the maximum rate on dividends will move to 35% in 2009 and 39.6% in 2011. Because we are not generally subject to federal income tax on the portion of our REIT taxable income or capital gains distributed to our stockholders, our dividends will generally not be eligible for the new 15% tax rate on dividends. As a result, our ordinary REIT dividends will continue to be taxed at the higher tax rates applicable to ordinary income. However, the 15% tax rate for long-term capital gains and dividends will generally apply to:

- > your long-term capital gains, if any, recognized on the disposition of our shares;
- > our distributions designated as long-term capital gain dividends (except to the extent attributable to "unrecaptured Section 1250 gain," in which case such distributions would continue to be subject to a 25% tax rate);
- > our dividends attributable to dividends received by us from non-REIT corporations, such as taxable REIT subsidiaries; and
- > our dividends to the extent attributable to income upon which we have paid corporate income tax (e.g., to the extent that we distribute less than 100% of our taxable income).

Although this legislation does not adversely affect the taxation of REITs or dividends paid by REITs, the more favorable treatment of regular corporate dividends could cause investors who are individuals to consider stocks of other corporations that pay dividends as more attractive relative to stocks of REITs. It is not possible to predict whether this change in perceived relative value will occur, or what the effect will be on the market price of our stock.

POSSIBLE LEGISLATIVE OR OTHER ACTIONS AFFECTING TAX CONSEQUENCES

Prospective holders of our securities should recognize that the present federal income tax treatment of investment in our company may be modified by legislative, judicial or administrative action at any time and that any of these actions may affect investments and commitments previously made. The rules dealing with federal income taxation are constantly under review by persons involved in the legislative process and by the IRS and the Treasury Department, resulting in revisions of regulations and revised interpretations of established concepts as well as statutory changes. Revisions in federal tax laws and interpretations thereof could adversely affect the tax consequences of investment in our company.

STATE AND LOCAL TAXES

We may be and you may be subject to state or local taxes in other jurisdictions such as those in which we may be deemed to be engaged in activities or own property or other interests. The state and local tax treatment of us may not conform to the federal income tax consequences discussed above.

37

Plan of distribution

We may sell the securities to one or more underwriters for public offering and sale by them and may also sell the securities to investors directly or through agents. We will name any underwriter or agent involved in the offer and sale of securities in the applicable prospectus supplement. We have reserved the right to sell or exchange securities directly to investors on our own behalf in those jurisdictions where we are authorized to do so.

We may distribute the securities from time to time in one or more transactions:

- > at a fixed price or prices, which may be changed;

71

- > at market prices prevailing at the time of sale;
- > at prices related to such prevailing market prices; or
- > at negotiated prices.

We may also, from time to time, authorize dealers, acting as our agents, to offer and sell securities upon the terms and conditions set forth in the applicable prospectus supplement. In connection with the sale of securities, we, or the purchasers of securities for whom the underwriters may act as agents, may compensate underwriters in the form of underwriting discounts or commissions. Underwriters may sell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agent. Unless otherwise indicated in a prospectus supplement, an agent will be acting on a best efforts basis and a dealer will purchase securities as a principal, and may then resell the securities at varying prices to be determined by the dealer.

When securities are to be sold to underwriters, unless otherwise set forth in the applicable prospectus supplement, the underwriters' obligations to purchase those securities will be subject to certain conditions precedent. If the underwriters purchase any of the securities, they will be obligated to purchase all of the securities.

We will describe in the applicable prospectus supplement any compensation we pay to underwriters or agents in connection with the offering of securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers. Dealers and agents participating in the distribution of securities may be deemed to be underwriters, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions. We may enter into agreements to indemnify underwriters, dealers and agents against certain civil liabilities, including liabilities under the Securities Act of 1933, as amended, and to reimburse these persons for certain expenses.

To facilitate the offering of securities, certain persons participating in the offering may engage in transactions that stabilize, maintain, or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than we sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

Certain of the underwriters, dealers or agents and their associates may engage in transactions with and perform services for us in the ordinary course of our business.

38

Legal matters

Certain legal matters with respect to the securities offered hereby will be passed upon for us by Powell, Goldstein, Frazer & Murphy LLP.

Experts

The consolidated financial statements and schedules of Omega Healthcare Investors, Inc. appearing in Omega Healthcare Investors, Inc.
