

EMC METALS CORP.  
Form 10-Q  
August 14, 2012

---

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION**  
Washington, D.C. 20549

**FORM 10-Q**

**QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended **June 30, 2012**

**TRANSITION REPORT UNDER SECTION 13 OR 15 (d) OF THE EXCHANGE ACT**

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

**000-54416**

(Commission File Number)

**EMC METALS CORP.**

(Exact name of registrant as specified in its charter)

**British Columbia, Canada**  
(State or other jurisdiction  
of incorporation or organization)

**98-1009717**  
(IRS Employer  
Identification No.)

**1430 Greg Street, Suite 501, Sparks, Nevada 89431**  
(Address of principal executive offices) (Zip Code)

**(775) 355-9500**

(Registrant's telephone number, including area code)

**N/A**

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) filed all reports required to be filed by sections 13 or 15(d) of the Securities and Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes  No

Edgar Filing: EMC METALS CORP. - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company.

Large accelerated filer [ ] Accelerated filer [ ] Non-accelerated filer [ ] Smaller reporting company [X]

Indicate by check mark whether the registrant is a shell company, as defined in Rule 12b-2 of the Exchange Act.

Yes [ ] No [X]

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date:

**As of August 14, 2012, the registrant's outstanding common stock consisted of 162,358,337 shares.**

**EMC Metals Corp.**

(An Exploration Stage Company)

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2012

(Expressed in Canadian Dollars) (Unaudited)

**1. NATURE AND CONTINUANCE OF OPERATIONS**

EMC Metals Corp. (the Company) is incorporated under the laws of the Province of British Columbia. The Company is focused on specialty metals exploration and production and has recently acquired various metallurgical technologies and licenses that it is utilizing to gain access to a number of specialty metals opportunities.

The Company's principal properties are located in the state of Nevada, Australia, and Norway. The Company's principal asset, the Springer Tungsten mine and mill, is currently not operating, and the Company is now working to restart mine operations because of a sustained tightening of supply and accompanying price increases in tungsten markets. To June 30, 2012, the Company has not commenced production and has generated no revenue. The Company's remaining properties are in the exploration or pre-exploration stage. As such, the Company is in the exploration stage and anticipates incurring significant expenditures prior to commencement of contract milling operations.

These condensed consolidated financial statements have been prepared on a going concern basis that contemplates the realization of assets and discharge of liabilities at their carrying values in the normal course of business for the foreseeable future. These financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

The Company currently earns no operating revenues and will require additional capital in order to restart its Springer tungsten mill and advance the Nyngan property. The Company's ability to continue as a going concern is uncertain and is dependent upon the generation of profits from mineral properties, obtaining additional financing or maintaining continued support from its shareholders and creditors. These material uncertainties may cast significant doubt about the Company's ability to continue as a going concern. The Company is currently working on securing additional financing to meet its needs; however there is no guarantee that these efforts will be successful. In the event that additional financial support is not received or operating profits are not generated, the carrying values of the Company's assets may be adversely affected. The inability to raise additional financing may affect the future assessment of the Company as a going concern.

**2. BASIS OF PRESENTATION**

**Basis of presentation**

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (SEC). The interim condensed consolidated financial statements include the consolidated accounts of EMC Metals Corp. (the Company) and its wholly-owned subsidiaries with all significant intercompany transactions eliminated. In the opinion of management, all adjustments necessary for a fair statement of the consolidated financial position, results of operations and cash flows for the interim periods have been made. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such SEC rules and regulations. These interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2011, in our Annual Report on Form 10-K

filed with the SEC on February 14, 2012. Operating results for the three- month and six-month periods ended June 30, 2012, are not necessarily indicative of the results for the year ending December 31, 2012.

**Use of estimates**

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Fair value of financial assets and liabilities**

The Company measures the fair value of financial assets and liabilities based on US GAAP guidance which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

The Company classifies financial assets and liabilities as held-for-trading, available-for-sale, held-to-maturity, loans and receivables or other financial liabilities depending on their nature. Financial assets and financial liabilities are recognized at fair value on their initial recognition, except for those arising from certain related party transactions which are accounted for at the transferor's carrying amount or exchange amount.

Financial assets and liabilities classified as held-for-trading are measured at fair value, with gains and losses recognized in net income. Financial assets classified as held-to-maturity, loans and receivables, and financial liabilities other than those classified as held-for-trading are measured at amortized cost, using the effective interest method of amortization. Financial assets classified as available-for-sale are measured at fair value, with unrealized gains and losses being recognized as other comprehensive income until realized, or if an unrealized loss is considered other than temporary, the unrealized loss is recorded in income.

Financial instruments, including receivables, accounts payable and accrued liabilities, convertible debentures and promissory notes payable are carried at cost, which management believes approximates fair value due to the short term nature of these instruments. Investments in trading securities are classified as held for trading, with unrealized gains and losses being recognized in income.

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2012

(Expressed in Canadian Dollars) (Unaudited)

**2. BASIS OF PRESENTATION (cont d )**

The following table presents information about the assets that are measured at fair value on a recurring basis as of June 30, 2012, and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair value. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets. Fair values determined by Level 2 inputs utilize data points that are observable such as quoted prices, interest rates and yield curves. Fair values determined by Level 3 inputs are unobservable data points for the asset or liability, and included situations where there is little, if any, market activity for the asset:

**Fair value of financial assets and liabilities**

<b>Total</b>	<b>\$ 1,165,312</b>	<b>\$ 1,165,312</b>	<b>\$</b>	<b>\$</b>

The fair values of cash, restricted cash and investments in trading securities are determined through market, observable and corroborated sources.

**Recently Adopted and Recently Issued Accounting Standards**

The Company reviewed significant newly issued accounting pronouncements and concluded that they are either not applicable to the Company's business or that no material effect is expected on the consolidated financial statements as a result of future adoption.

**3. INVESTMENTS IN TRADING SECURITIES**

At June 30, 2012, the Company held investments classified as trading securities, which consisted of various equity securities. All trading securities are carried at fair value. As of June 30, 2012, the fair value of trading securities was \$2,250 (December 31, 2011 \$2,250).

**4. RESTRICTED CASH**

The Company has a Bank of Montreal line of credit of up to \$159,400 as a deposit on the Company's Vancouver office lease and is secured by a short-term investment of \$159,400 bearing interest at prime less 2.05% maturing on May 8, 2014, contemporaneous with the date the office lease expires.

**5. PROPERTY, PLANT AND EQUIPMENT**

Title to mineral property interests involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral property interests. The Company has investigated title to all of its mineral property interests and, to the best of its knowledge, title to all of its properties is in good standing.

**TUNGSTEN PROPERTY***Springer Property*

On November 21, 2006, the Company acquired all outstanding and issued shares of Springer Mining Company ( Springer ). Included in the assets of Springer and allocated to property, plant and equipment (Note 5) are the Springer Mine and Mill located in Pershing County, Nevada.

*Fostung Property*

The Company held a 100% interest certain mineral claims known as the Fostung Property, Ontario. During the year ended December 31, 2011, the Company sold these claims for \$500,000 and recorded a gain on the sale of \$491,897.

**SCANDIUM PROPERTIES***Nyngan, New South Wales Property*

On February 5, 2010, the Company entered in to an earn-in agreement with Jervois Mining Limited ( Jervois ), whereby it would acquire a 50% interest in the Nyngan Scandium property located in New South Wales, Australia. In order for the Company to earn its 50% interest, which is subject to a 2% Net Smelter Royalty (NSR), the Company

paid an initial cash sum of \$300,000 to Jervois, and was additionally required to meet two additional work steps:

- a) Incur exploration and metallurgical work expenditures of A\$500,000 (CAD\$466,000) within 180 business days of the conditions precedent being satisfied, or pay cash in lieu thereof. The Company received a six month extension to complete its exploration spending commitment, which it met in advance of the extended deadline in Q2, 2011.
- b) Deliver a feasibility study on the Nyngan Scandium Project to Jervois, and pay Jervois an additional cash payment of A\$1,300,000 plus GST, by a deadline of February 28, 2012,

**6. MINERAL INTERESTS** (cont d..)

- c) On February 24, 2012, the Company delivered to Jervois the A\$1.43 million cash payment and an independent NI 43-101 report entitled "***Technical Report on the Feasibility of the Nyngan Scandium Project***" dated February 23, 2012 (the "Report"), which was compiled by SNC-Lavalin.

**EMC Metals Corp.**

(An Exploration Stage Company)

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2012

(Expressed in Canadian Dollars) (Unaudited)

On February 27, 2012 EMC, received written notice from Jervois rejecting the Report for the stated reason that the Report does not fall within the definition of "Feasibility Study" provided in the Agreement. Jervois also returned the cash payment. The Company believes that it has fully met the conditions under the Agreement to earn its 50% joint venture interest in the Project and will take all lawful steps to secure its proprietary rights to the 50% joint venture interest.

On March 23, 2012, the Company announced that, following discussions with Jervois, the parties agreed to engage in further without prejudice communications in an attempt to resolve the dispute. Those discussions have now ceased and on June 22, 2012, the Company received notification that Jervois had filed a lawsuit against it in the Supreme Court of Victoria, Australia. The lawsuit contends that JV Agreement was automatically terminated because the Report delivered by EMC failed to meet the standards set out in the agreement, The formal Dispute Notice has no force and effect as the JV Agreement was effectively terminated by Jervois and that EMC must remove legal claims placed on the Nyngan property by EMC that prevent Jervois from transferring property interests. EMC is taking all lawful steps to secure its proprietary rights to a 50% joint venture interest.

*Tordal and Evje-Iveland properties, Norway*

The Company has entered into an earn-in agreement with REE Mining AS ( REE ), whereby the Company has an option to earn up to a 100% interest in the Tordal and Evje-Iveland properties. To earn its interest, the Company must pay REE US\$630,000, including an initial cash payment of US\$130,000 (paid) and issue 1,000,000 common shares.

The Company is also required to incur US\$250,000 of exploration work to be completed over 18 months from the date of closing in order to acquire its interest. The Company shall also issue 250,000 common shares upon releasing the second of two full feasibility studies on the two properties.

*Fairfield property, Utah*

The Company has entered into an earn-in agreement with Mineral Exploration Services LLC, whereby the Company has an option to earn a 100% interest in a patented mining claim and former scandium property known as The Little Green Monster near Fairfield, Utah.

The Company is required to pay US\$380,000 over a 3 year period from the date of closing in order to acquire its interest. Mineral Exploration Services LLC maintains a production right of US\$5 per ton of resource mined up to US\$500,000.

*Hogtuva property, Norway*

The Company has entered into an earn-in agreement with REE Mining AS ( REE ), whereby the Company has an option to earn a 100% interest in three scandium and beryllium exploration sites in Norway. To earn 100% of the exploration rights, the Company must pay REE US\$150,000 over 18 months, including an initial cash payment of US\$50,000 (paid) and issue up to 200,000 common shares. In consideration for paying the Company US\$200,000, REE may elect to accelerate the Company's option to earn a 100% interest in the properties.

**7. RELATED PARTY TRANSACTIONS**

A promissory note due to a director of the Company (principal balance of US\$500,000) matured and was paid during June 2012. The promissory note was issued as part of the purchase of a subsidiary company during November 2009.

**EMC Metals Corp.**

(An Exploration Stage Company)

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2012

(Expressed in Canadian Dollars) (Unaudited)

During the year ended December 31, 2011, the warrants expired and the derivative liability was valued at \$Nil resulting in a change in fair value of \$228,741 realized through the statement of operations.

**9. PROMISSORY NOTES PAYABLE**

	June 30, 2012	December 31, 2011
Promissory note with a principal balance of US\$500,000, bearing interest at prime per annum, maturing June 30, 2012 due to a director of the Company secured by the stock of a subsidiary company.	\$ Nil	\$ 529,752
Promissory note with a principal balance of US\$ 3,750,000, bearing interest at 6% per annum, maturing July 3, 2013 and secured by land and water rights.		
During fiscal 2008 the Company entered into a promissory note for US\$6,750,000 as consideration for the acquisition of land and water rights. The Company subsequently made principal payments of US\$3,000,000 consisting of a cash payment of US\$1,000,000 and 4,728,000 units of the Company equity valued at US\$2,000,000. Each unit consisted of one common share and one-half share purchase warrant exercisable at CDN\$0.75 each and exercisable for a period of two years.	3,821,625	3,813,750
During the period ended June 30, 2012 the Company completed a USD\$3,000,000 loan financing (note 10) which included a USD \$1,000,000 note payable bearing interest at 7% per annum maturing August 15, 2013. Presented is this principal balance less financing and costs which are amortized over the term of the debt using the effective interest method. This resulted in a carrying amount of \$892,033 upon deducting a debt discount of \$127,067 from the principal balance of \$1,019,100 (USD \$1,000,000).	892,033	
	4,713,658	4,343,502
Less: current portion	Nil	(529,752)
	\$ 4,713,658	\$ 3,813,750

**10. CONVERTIBLE DEBENTURE**

On February 17, 2012, the Company completed a USD \$3,000,000 loan financing consisting of a term loan of USD \$1,000,000 (Note 9), a convertible debenture of USD \$2,000,000 and warrants to acquire 3,000,000 common shares. The convertible debenture has a maturity date of August 15, 2013 and bears interest at 7% per

annum. The lender may convert a maximum of USD \$2,000,000 of the principal amount of the loan into 10,000,000 common shares of the Company. There was no beneficial conversion feature associated with the conversion option. The warrants are exercisable at \$0.20 per share expiring February 15, 2014. A relative fair value of \$217,267 was assigned to the warrants and recorded in additional paid in capital. The Company paid financing cost of \$249,827 and also issued 750,000 purchase warrants exercisable at \$0.20 per share expiring February 15, 2014. These warrants were valued at \$58,716 and recorded in additional paid in capital. The financing costs were allocated between debt and the equity components. This resulted in a convertible debenture carrying amount of \$1,784,066 upon deducting a debt discount of \$254,134 from the principal balance of \$2,038,200 (USD \$2,000,000).

#### **11. CAPITAL STOCK AND ADDITIONAL PAID IN CAPITAL**

On December 3, 2010, the Company issued 18,929,740 common shares at a value of \$0.19 per common share for total proceeds of \$3,596,651. A total of \$210,249 was received during fiscal 2011.

On November 25, 2010, the Company issued 6,100,000 units at a value of \$0.10 per unit for total proceeds of \$610,000. Each unit consisted of one common share and one-half of one share purchase warrant exercisable at \$0.18 expiring on November 25, 2011. The warrants have a calculated total fair value of \$142,358 using the Black-Scholes pricing model with a volatility of 142.52%, risk-free rate of 1.73%, expected life of 1 year, and a dividend rate of 0%.

On June 30, 2010, the Company issued 2,947,702 units at a value of \$0.10 per unit for total proceeds of \$294,770. Each unit consisted of one common share and one-half of one share purchase warrant exercisable at \$0.18 until June 30, 2011. The warrants have a calculated total fair value of \$35,638 using the Black-Scholes pricing model with a volatility of 123.84%, risk-free rate of 1.39%, expected life of 1 year, and a dividend rate of 0%.

(An Exploration Stage Company)

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012

(Expressed in Canadian Dollars) (Unaudited)

On February 17, 2010, the Company issued 2,275,000 units at a value of \$0.20 per unit for total proceeds of \$455,000. Each unit consisted of one common share and one-half of one share purchase warrant exercisable at \$0.25 until February 17, 2011. The warrants have a calculated total fair value of \$78,113 using the Black-Scholes pricing model with a volatility of 131.19%, risk-free rate of 1.34%, expected life of 1 year, and a dividend rate of 0%. All of the warrants were exercised during fiscal 2011.

On November 17, 2009, the Company issued 13,000,000 units at a value of \$0.08 per unit for total proceeds of \$1,040,000. Each unit consisted of one common share and one-half of one share purchase warrant. Each full warrant entitled the holder to purchase an additional share at \$0.15 per share until November 17, 2010.

On October 13, 2009, the Company issued 500,000 common shares at a value of \$45,000 for the Fostung Tungsten project.

On August 27, 2009, the Company issued 1,500,000 units at a value of \$0.10 per unit, pursuant to a non-brokered private placement for proceeds of \$150,000. Each unit consisted of one common share and one-half of one share purchase warrant. Each full warrant entitled the holder to purchase an additional share at \$0.15 per share until August 27, 2010.

On May 13, 2009, the Company issued 89,254 common shares at a value of \$0.12 per share to a consultant for settlement of consulting fees for Fury Explorations Ltd. ( Fury ), a subsidiary of GPD, under the plan of Arrangement of spin-out. On April 21, 2009, the Company issued 51,859 common shares at a value of \$0.10 per share for the Platte River property.

On January 21, 2009, the Company issued 66,784 common shares at a value of \$0.20 per share for the Guijoso property for Fury.

On January 6, 2009, the Company issued 2,147,000 common shares at a value of US\$250,000 for the Adelaide and Tuscarora projects for Golden Predator Mines US Inc., a wholly owned subsidiary of the Company prior to the spin-out.

On November 17, 2008, the Company issued 76,274 common shares in connection with the acquisition of the subsidiary, Great American Minerals Inc.

On October 18, 2008, the Company issued 4,728,000 units to Cosgrave for repayment of a promissory note at a value of US\$2,000,000. Each unit consisted of one common share of the Company and one-half of one common share purchase warrant with a two year life and exercisable at \$0.75.

In July 2008, the Company completed a private placement consisting of 2,500,000 common shares at \$2.00 per share for proceeds of \$5,000,000. In connection with this private placement the Company paid a finder's fee of \$250,000.

In January 2008, the Company completed a private placement consisting of 2,822,500 units at \$2.00 per unit for gross proceeds of \$5,645,000. Included in the proceeds was \$3,620,000 received in advance as of December 31, 2007. Each unit consisted of one common share and one half of one share purchase warrant. Each whole warrant entitled the holder to acquire one additional common share at \$3.00 for a period of 12 months.

In November 2007, the Company completed private placements consisting of 17,577,500 units at \$2.00 per unit for proceeds of \$35,155,000. Each unit consisted of one common share and one half of one common share purchase warrant. Each whole warrant entitled the holder to acquire one additional common share at \$3.00 for a period of 12 months following the closing of the placement.

In December 2007, the Company issued 5,390,000 common shares pursuant to the conversion of special warrants. The Company paid \$1,016,074 and issued 100,000 common share valued at \$100,000 as issuance costs and finder's fees. The Company also granted warrants to acquire 300,000 common shares exercisable at \$1.50 expiring September 22, 2008. The warrants were valued at \$99,000 with the Black-Scholes option pricing model using an expected volatility of 115%, life of one year, a risk free interest rate of 4% and a dividend yield of 0%.

In December 2006, the Company issued 5,000,000 common shares at \$0.70 per common share for gross proceeds of \$3,500,000.

### **Stock Options and Warrants**

The Company established a stock option plan (the Plan) under which it is authorized to grant options to executive officers and directors, employees and consultants and the number of options granted under the Plan shall not exceed 15% of the shares outstanding. Under the Plan, the exercise period of the options may not exceed five years from the date of grant and vesting is determined by the Board of Directors.

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2012

(Expressed in Canadian Dollars) (Unaudited)

As at June 30, 2012, warrants were outstanding as follows;

<b>Warrants</b>	<b>Number of Warrants</b>	<b>Exercise Price</b>	<b>Expiry Date</b>
	3,750,000	\$ 0.200	February 15, 2014

**Stock-based compensation**

During the six months ended June 30, 2012, the Company recognized stock-based compensation of \$199,719 (June 30, 2011 - \$127,195) in the statement of operations as a result of incentive stock options granted and vested in the current period. There were 2,335,000 stock options issued during the six months ended June 30, 2012 (June 30, 2011 870,000).

The weighted average fair value of the options granted in the period was \$0.07 (2011 - \$0.31) .

The fair value of all compensatory options and warrants granted is estimated on grant date using the Black-Scholes option pricing model. The weighted average assumptions used in calculating the fair values are as follows:

	2012	2011
Risk-free interest rate	0.51%	2.44%
Expected life	5 years	4.36 years
Volatility	136.82%	127.51%
Forfeiture rate	0.00%	0.00%
Dividend rate	0.00%	0.00%

Cash paid during the six months ended June 30 for interest	\$ 139,761	\$ 129,422
Cash paid during the year for income taxes	\$ -	\$ -

Significant non-cash transactions for the six month period ended June 30, 2012 include the Company granting 750,000 share purchase warrants at a value of \$58,510 as finder's fees pursuant to the promissory note and convertible debenture financings. (Note 10)

There were no significant non cash transactions for the six month period ended June 30, 2011.

**15. SUBSEQUENT EVENT**

Subsequent to June 30, 2012, the Company closed a private placement consisting of 11,679,624 common shares of the Company at a price of \$0.06 per share for gross proceeds of \$700,777.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of the operating results, corporate activities and financial condition of EMC Metals Corp. (hereinafter referred to as we, us, EMC, or the Company) and its subsidiaries provides an analysis of the operating financial results between March 31, 2012 and June 30, 2012 and a comparison of the material changes in our results of operations and financial condition between the three-month period ended June 30, 2011 and the three-month period ended June 30, 2012. This discussion should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2011.

The interim statements have been prepared in accordance with US Generally Accepted Accounting Principles (US GAAP) in accordance with the requirements of U.S. federal securities laws as applicable to the Company, and as permitted under applicable Canadian securities laws. The Company is a reporting company under applicable securities laws in Canada, and in July of 2011 also became a reporting issuer under U.S. federal laws. As a result of the Company's U.S. reporting status, the financial statements for the annual period ended December 2010 were restated in accordance with US GAAP and were filed with the SEC and Canadian securities regulators as part of our annual filing on Form 10K for the year ended December 31, 2011. The reporting currency used in our financial statements is the Canadian Dollar.

The information contained within this report is current as of August 14, 2012 unless otherwise noted. Additional information relevant to the Company's activities can be found on SEDAR at [www.sedar.com](http://www.sedar.com).

Technical information in this MD&A has been reviewed by Willem Duyvesteyn, a Qualified Person as defined by Canadian National Instrument 43-101 (NI 43-101). Mr. Duyvesteyn is a director and consultant of EMC Metals.

### Overview

EMC is a specialty metals and alloys company focusing on scandium, tungsten, molybdenum, vanadium, and other specialty metals. The Company intends to utilize its patented technologies and know-how to maximize opportunities in these and other specialty metals.

The Company was formed in 2006, under the name Golden Predator Mines Inc. As part of a reorganization and spin-out of the Company's precious metals portfolio in March 2009, the Company changed its name to EMC Metals Corp. The Company currently trades on the Toronto Stock Exchange under the symbol EMC.

The Company's most advanced asset is the Springer Tungsten Mine, a fully constructed mine and mill asset in Nevada, USA. The Springer mine is currently not operating, and the Company is now working to restart mine operations following sustained tightening of supply and accompanying price increases in tungsten markets.

The Company is also claiming it has earned a 50% interest in the Nyngan scandium project in New South Wales, Australia although this interest is under dispute with our partner, Jervois Mining Limited. We also own the Carlin vanadium property in Nevada, USA and four other specialty metals properties: the Fairfield scandium property (Utah, USA), and Hogtva beryllium property (central Norway) and two scandium plus specialty metals properties in southern Norway (Tordal and Evje-Iveland).

The Company acquired rights to metallurgical processing know-how as part of the acquisition of The Technology Store (TTS) during the prior year, which it is utilizing to gain access to a number of specialty metals opportunities.

The Company's focus during the quarter regarding Springer Mine included maintaining that asset on standby mode, and organizing, planning and pursuing mine and mill restart. A formal sale process on the Springer asset, initiated in September 2010, was terminated in March 2012, consistent with the restart strategy..

The Company advanced the Nyngan scandium project during the first quarter of 2012 through metallurgical work, process definition, and optimization work. During February, 2012, the Company completed and presented to our joint venture partner a NI 43-101 report entitled "Technical Report on the Feasibility of the Nyngan Scandium Project". On February 27, 2012, we received written notice from our joint venture partner, Jervois Mining Ltd. ("Jervois"), that we had failed to meet certain Agreement earn-in milestones. In June 22, 2012 we received notification that Jervois had filed a lawsuit against us in the Supreme Court of Victoria, Australia. The Company believes that the lawsuit is without merit and that we have fully met the conditions under the Agreement to earn our 50% joint venture interest in the Project. We will take all lawful steps to secure our proprietary rights to the 50% joint venture interest. Please see additional discussion in the following Principal Properties section.

---

## Principal Properties Review

**Springer Tungsten:** The Springer Tungsten Mine ( Springer ), located in Pershing County in northwestern Nevada, was constructed by Utah International Inc. for the General Electric Company ( GE ), and was completed and commissioned in late 1981. The facility consists of a 1,000 ton per day ( tpd ) electro-pneumatic underground rail mine and a mill facility with crushing, grinding, flotation circuits and an APT (ammonium paratungstate) plant. Springer operated for less than a full year in 1982 before being put on care and maintenance by GE, due to low tungsten prices. Since acquiring Springer in 2006, EMC has spent approximately \$38 million on the facility, specifically on rehabilitation, process improvements, resource exploration, process automation and a mill throughput expansion. The necessary federal, state and local permits are predominantly in place, along with an adequate industrial water resource, to restart the facility.

The latest NI 43-101 resource technical report on the Springer property, independently prepared by Dr. Bart Stryhas of SRK Consulting Engineers and Scientists of Lakewood, Colorado, titled, "NI 43-101 Technical Report on Resources Springer Facility- Sutton Beds, Nevada, USA," is dated May 15, 2009 and was filed on SEDAR on May 26, 2009. That resource estimate can be summarized as follows:

Springer Tungsten Project NI 43-101 Resource Estimation Stryhas (2010) of SRK Consulting				
Resource Category	Cut-off % WO <sub>3</sub>	Total (tonnes)	Average Grade % WO <sub>3</sub>	Contained STU s WO <sub>3</sub>
Indicated	0.30	274,000	0.619	169,606
Inferred	0.30	1,097,000	0.562	616,514

*Dr. Stryhas is a Principal Resource Geologist with SRK Consulting's Denver Mining Group and a Qualified Person as defined by NI 43-101. He is independent of EMC by all tests of NI 43-101.*

**Nyngan Scandium:** In February of 2010, the Company entered into a joint venture agreement (the JV Agreement ) with Jervois Mining Limited ( Jervois ) of Melbourne, Australia (ASX: JRV) to develop the Nyngan scandium property in New South Wales, Australia. The terms specified in the JV Agreement required EMC to earn a 50% position in the property and the JV through a two stage work program as follows:

- Stage I required EMC to spend a minimum of AUD\$500,000 on project exploration and metallurgical test work by mid December 2010, and
- Stage II required the delivery of a feasibility study in the first quarter of 2012, along with a cash payment of AUD\$1,300,000 (plus applicable GST)

The JV partners agreed to extend the stage I work timeframe into 2011 and those first stage requirements were met during the second quarter of 2011. On February 24, 2012, the Company delivered to Jervois a AUD\$1,430,000 cash payment and an independent NI 43-101 report entitled "Technical Report on the Feasibility of the Nyngan Scandium Project" dated February 23, 2012 (the "Report"), which was compiled by SNC-Lavalin of Brisbane, Australia. On February 27, 2012 EMC received written notice from Jervois rejecting the Report as inadequate, claiming that the Report did not fall within the definition of "Feasibility Study" provided for in the JV Agreement. Jervois also subsequently returned the cash payment to EMC.

On March 23, 2012, the Company announced that, following discussions with Jervois, the parties agreed to engage in further without prejudice communications in an attempt to resolve the dispute. Those discussions have now ceased and on June 22, 2012, we received notification that Jervois had filed a lawsuit against us in the Supreme Court of Victoria, Australia. The lawsuit brought by Jervois contends that:

- The JV Agreement (including EMC's earn-in right) was automatically terminated because the Report failed to meet the standards set out in that agreement,
-

- EMC's formal Dispute Notice (dated March 13, 2012) has no force and effect as the JV Agreement was effectively terminated by Jervois prior to that date,
