*Income allocated to noncontrolling interest in Hersha Hospitality Limited Partnership (the “Operating Partnership” or “HHLP”) has been excluded from the numerator and the Class A common shares issuable upon any redemption of the Operating Partnership’s common units of limited partnership interest (“Common Units”) and the Operating Partnership’s vested LTIP units (“Vested LTIP Units”) have been omitted from the denominator for the purpose of computing diluted earnings per share because the effect of including these shares and units in the numerator and denominator would have no impact. In addition, potentially dilutive common shares, if any, have been excluded from the denominator if they are anti-dilutive to income applicable to common shareholders.

Edgar Filing: HERSHA HOSPITALITY TRUST - Form 10-Q

The following table summarizes potentially dilutive securities that have been excluded from the denominator for the purpose of computing diluted earnings per share:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2017 AND 2016 [UNAUDITED]

[IN THOUSANDS, EXCEPT SHARE/UNIT AND PER SHARE AMOUNTS]

NOTE 1 – BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Hersha Hospitality Trust (“we,” “us,” “our” or the “Company”) have been prepared in accordance with U.S. generally accepted accounting principles (“US GAAP”) for interim financial information and with the general instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and notes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals), considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017 or any future period. Accordingly, readers of these consolidated interim financial statements should refer to the Company’s audited financial statements prepared in accordance with US GAAP, and the related notes thereto, for the year ended December 31, 2016, which are included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2016, as certain footnote disclosures normally included in financial statements prepared in accordance with US GAAP have been condensed or omitted from this report pursuant to the rules of the Securities and Exchange Commission.

We are a self-administered Maryland real estate investment trust that was organized in May 1998 and completed our initial public offering in January 1999. Our common shares are traded on the New York Stock Exchange (the “NYSE”) under the symbol “HT.” We own our hotels and our investments in joint ventures through our operating partnership, Hersha Hospitality Limited Partnership (“HHLP” or “the Partnership”), for which we serve as the sole general partner. As of June 30, 2017, we owned an approximate 93.3% partnership interest in HHLP, including a 1.0% general partnership interest.

Principles of Consolidation and Presentation

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles and include all of our accounts as well as accounts of the Partnership, subsidiary partnerships and our wholly owned TRS Lessee. All significant inter-company amounts have been eliminated.

Consolidated properties are either wholly owned or owned less than 100% by the Partnership and are controlled by the Company as general partner of the Partnership. Properties owned in joint ventures are also consolidated if the determination is made that we are the primary beneficiary in a variable interest entity (“VIE”) or we maintain control of the asset through our voting interest in the entity. Control can be demonstrated when the general partner has the power to impact the economic performance of the partnership, which includes the ability of the general partner to manage day-to-day operations, refinance debt and sell the assets of the partnerships without the consent of the limited partners and the inability of the limited partners to replace the general partner. Control can be demonstrated by the limited partners if the limited partners have the right to dissolve or liquidate the partnership or otherwise remove the general partner without cause or have rights to participate in the significant decisions made in the ordinary course of the partnership’s business.

Variable Interest Entities

We evaluate each of our investments and contractual relationships to determine whether they meet the guidelines for consolidation. Entities are consolidated if the determination is made that we are the primary beneficiary in a VIE or we maintain control of the asset through our voting interest or other rights in the operation of the entity. To determine if we are the primary beneficiary of a VIE, we evaluate whether we have a controlling financial interest in that VIE. An enterprise is deemed to have a controlling financial interest if it has i) the power to direct the activities of a variable interest entity that most significantly impact the entity’s economic performance, and ii) the obligation to absorb losses of the VIE that could be significant to the VIE or the rights to receive benefits from the VIE that could be significant to the VIE. Control can also be demonstrated by the ability of a member to manage day-to-day operations, refinance debt and sell the assets of the partnerships without the consent of the other member and the inability of the members to replace the managing member. Based on our examination, the following entities were determined to be VIEs: HHLP, Cindat Hersha Owner JV, LLC; Cindat Hersha Lessee JV, LLC; South Bay Boston, LLC; Hersha Statutory Trust I; and Hersha Statutory Trust II. HHLP meets the criteria as a VIE. The Company’s most significant asset is its investment in HHLP, and consequently, substantially all of the Company’s assets and liabilities represent those assets and liabilities of HHLP. Cindat Hersha Owner JV, LLC and Cindat Hersha Lessee JV, LLC are both VIE entities, however because we are not the primary beneficiary in either entity, they are not consolidated by the Company. Our maximum exposure to losses from our investment in Cindat Hersha Owner JV, LLC is limited to our basis in the joint venture which is \$0 as of June 30, 2017. Also, South Bay Boston, LLC leases hotel property and is a VIE. This entity is consolidated by the lessor, the primary beneficiary of the entity. Hersha Statutory Trust I and Hersha Statutory Trust II (collectively “Hersha Statutory Trusts”) are VIEs but HHLP is not

the primary beneficiary in these entities. Accordingly, the accounts of Hersha Statutory Trust I and Hersha Statutory Trust II are not consolidated.

Noncontrolling Interest

We classify the noncontrolling interests of our consolidated variable interest entity, common units of limited partnership interest in HHLP (“Common Units”), and Long Term Incentive Plan Units (“LTIP Units”) as equity. LTIP Units are a separate class of limited partnership interest in the Operating Partnership that are convertible into Common Units under certain circumstances. The noncontrolling interest of Common Units and LTIP Units totaled \$51,815 as of June 30, 2017 and \$44,321 as of December 31, 2016. As of June 30, 2017, there were 3,010,348 Common Units outstanding with a fair market value of \$55,722, based on the price per share of our common shares on the NYSE on such date. In accordance with the partnership agreement of HHLP, holders of these Common Units may redeem them for cash unless we, in our sole and absolute discretion, elect to issue common shares on a one-for-one basis in lieu of paying cash.

Net income or loss attributed to Common Units and LTIP Units is included in net income or loss but excluded from net income or loss applicable to common shareholders in the consolidated statements of operations.

Shareholders’ Equity

Terms of the Series C, Series D, and Series E Preferred Shares outstanding at June 30, 2017 and December 31, 2016 are summarized as follows:

					Dividend Per Share Six Months Ended June 30,	
Series	Shares Outstanding		Aggregate Liquidation Preference	Distribution Rate	2017	2016
	June 30, 2017	December 31, 2016

Series E	4,000,000	4,000,000	\$ 100,000	6.500%	\$ 0.8126	-
Total	14,700,000	14,700,000				

In October 2016, our Board of Trustees authorized a new share repurchase program for up to \$100,000 of common shares which commenced upon the completion of the existing repurchase program. The new repurchase program will expire on December 31, 2017, unless extended by our Board of Trustees.

On April 26, 2017, we entered into Equity Distribution Agreements with four investment banks whereby we agreed to sell up to 8,000,000 Class A common shares, up to 1,000,000 Series D Cumulative Redeemable Preferred Shares, and up to 1,000,000 Series E Cumulative Redeemable Preferred Shares from time to time in an “at the market” offering. In conjunction with this transaction, the Company increased the number of authorized Class A common shares from 90,000,000 to 104,000,000.

New Accounting Pronouncements

In February 2017, the FASB issued ASU No. 2017-05, Other Income – Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20). The update defines the term “in substance nonfinancial asset” as it is presented in Subtopic 610-20 as a “financial asset promised to a counterparty in a contract if substantially all of the fair value of the assets that are promised to the counterparty in the contract is concentrated in nonfinancial assets.” As it relates to the Company, real estate, such as land and building, would be considered an example of a nonfinancial asset. Additionally, the update provides guidance over partial sale transactions, particularly, when an entity should derecognize a distinct nonfinancial asset or in substance nonfinancial asset in a partial sale transaction, and the extent of gain that should be recognized as a result of the partial sale transaction. This standard is effective in conjunction with ASU No. 2014-09 (presented below), which is effective for periods beginning after December 15, 2017, however early adoption is permitted. The provisions of this update must be applied at the same time as the adoption of ASU No. 2014-09. The Company is currently evaluating how the provisions of this update affect our adoption of ASU No. 2014-09. See below for our discussion of ASU No. 2014-09 and the effect it will have on our consolidated financial statements and related disclosures.

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, which clarifies the definition of a business as it relates to acquisitions and business combinations. The update adds further guidance that assists preparers in evaluating whether a transaction will be accounted for as an acquisition of an asset or a business. We expect most of our hotel property acquisitions to qualify as asset acquisitions under the standard which permits the capitalization of acquisition costs to the underlying assets. For the six months ended June 30, 2017, the Company incurred \$1,824 in acquisition costs that would have been subject to capitalization under this ASU. This standard is effective for periods beginning after December 31, 2017, however early adoption is permitted. The Company is evaluating the ultimate effect that ASU No. 2017-01 will have on our consolidated financial statements and related disclosures.

We adopted ASU No. 2016-09, Improvements to Employee Share-Based Award Payment Accounting, which simplifies various aspects of how share-based payments are accounted for and presented in the financial statements. This standard requires companies to record all of the tax effects related to share-based payments through the income statement, allows companies to elect an accounting policy to either estimate the share based award forfeitures (and expense) or account for forfeitures (and expense) as they occur, and allows companies to withhold a percentage of the shares issuable upon settlement of an award up to the maximum individual statutory tax rate without causing the award to be classified as a liability. The Company has elected to expense forfeitures of share-based award as they occur as our accounting policy. The adoption of ASU No. 2016-09 had no material impact on our consolidated financial statements and related disclosures.

In November 2016 the FASB issued ASU No. 2016-18, Statement of Cash Flows (Topic 230), which provides guidance on the presentation of restricted cash or restricted cash equivalents within the statement of cash flows. Accordingly, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. This standard is effective for the Company for periods beginning after December 15, 2017. The adoption of ASU No. 2016-18 will change the presentation of the statement of cash flows for the Company and we will utilize a retrospective transition method for each period presented within financial statements for periods subsequent to the date of adoption.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which provides the principles for the recognition, measurement, presentation and disclosure of leases. The accounting for lessors will remain largely unchanged from current GAAP; however, the standard requires that certain initial direct costs be expensed rather than capitalized. Under the standard, lessees apply a dual approach, classifying leases as either finance or operating leases. A lessee is required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months, regardless of their lease classification. Based on the review of our leases, we are a lessee on ground leases in certain markets, hotel equipment leases, and office space leases. We are also a lessor in certain office space and retail lease agreements related to our hotels. While we do not anticipate any material change to the accounting for leases under which we are a lessor, we are still evaluating the impact, if any, this ASU will have on the accounting for our leasing arrangements as well as our disclosures within the notes to our financial statements. This standard will be effective for the first annual reporting period beginning after December 15, 2018. The Company is evaluating the effect that ASU No. 2016-02 will have on its consolidated financial statements and related disclosures.

NOTE 1 – BASIS OF PRESENTATION (CONTINUED)

On May 28, 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. We are evaluating each of our revenue streams and related accounting policy under the standard. The new standard is effective for the Company on January 1, 2018. Early adoption is permitted, but not prior to the original effective date of January 1, 2017. The standard permits the use of either the retrospective or cumulative effect transition method. Based on our analysis to date, we do not expect the new revenue recognition model to have a material impact on our hotel operating revenue, including room revenue, food and beverage, and other revenue, however, our final evaluation has not been concluded. Our evaluation under the standard also includes sales to third parties, primarily a result of dispositions of real estate. Our evaluation over sales of real estate is continuing and will be impacted by the FASB definition of a business and in substance nonfinancial assets, which have recently been addressed through the issuance of ASU No. 2017-01 and ASU No. 2017-05, respectively. The Company continues to evaluate the ultimate effect that ASU No. 2014-09 will have on its consolidated financial statements and related disclosures.

(1) The Mystic Marriott Hotel & Spa was acquired as partial consideration within the transaction to redeem and transfer our joint venture interest in Mystic Partners, LLC. See Note 3 for further description of the transaction.

* Consists entirely of \$899 of advanced bookings.

** Includes an intangible asset for a lease-in-place of \$229, and a below market lease liability of \$520.

The Company is currently finalizing our analysis of the fair value of assets acquired and liabilities incurred in connection with the purchase of the Ritz-Carlton, Coconut Grove and the Westin, Philadelphia. As such, the amounts reported in the table above are preliminary. We expect the amounts will be finalized within the one year remeasurement period as defined within ASC 805.

Acquisition-related costs, such as due diligence, legal and accounting fees, are not capitalized or applied in determining the fair value of the above acquired assets. During the three and six months ended June 30, 2017, we incurred \$1,124 and \$1,824 in costs related to acquired assets and terminated transactions.

Hotel Dispositions

In July 2016, we entered into purchase and sale agreements to sell the Residence Inn, Greenbelt, MD, Courtyard, Alexandria, VA, Hyatt House, Scottsdale, AZ, Hyatt House, Pleasant Hill, CA, and Hyatt House, Pleasanton, CA to an unaffiliated buyer for a sales price of \$185,000. The purchase and sale agreements were amended subsequently to increase the total sales price by \$7,500 in exchange for providing the buyer with an extension to close on three of the assets.

On January 5, 2017, the Company closed on the sales of the Residence Inn, Greenbelt, MD, and the Courtyard, Alexandria, VA to an unaffiliated buyer for a combined total sales price of \$62,000 resulting in a gain on sale of approximately \$18,731. The Residence Inn, Greenbelt, MD was acquired by the Company in July 2004 and the Courtyard, Alexandria, VA was acquired by the Company in September 2006. The operating results for these hotels are included in operating income as shown in the consolidated statements of operations for the period owned during the six months ended June 30, 2017 and 2016 as disposition of these hotels does not represent a strategic shift in our business.

On June 8, 2017, the Company closed on the sale of the Hyatt House, Scottsdale, AZ, Hyatt House, Pleasant Hill, CA, and Hyatt House, Pleasanton, CA to an unaffiliated buyer for a sales price of \$130,500 resulting in a gain on sale of approximately \$70,852. All three of the properties were acquired by the Company in December 2006. The operating results for these hotels are included in operating income as shown in the consolidated statements of operations for the period owned during the three and six months ended June 30, 2017 and 2016 as disposition of these hotels does not represent a strategic shift in our business.

NOTE 3 – INVESTMENT IN UNCONSOLIDATED JOINT VENTURES

As of June 30, 2017 and December 31, 2016, our investment in unconsolidated joint ventures consisted of the following:

Joint Venture	Hotel Properties	Percent Owned	Preferred Return	June 30, 2017	December 31, 2016
SB Partners, LLC	Holiday Inn Express, South Boston, MA	50.0%	N/A	\$ 1,148	\$ 913
Hiren Boston, LLC	Courtyard by Marriott, South Boston, MA	50.0%	N/A	2,419	2,112
Mystic Partners, LLC	Hilton and Marriott branded hotels in CT	8.8%-66.7%	8.5% non-cumulative	-	4,699
Cindat Hersha Owner JV, LLC	Hilton and IHG branded hotels in NYC	30.0%	*	-	3,717
				\$ 3,567	\$ 11,441

*See explanation below of the Cindat Hersha Owner JV, LLC (“Owner JV”) for more information on the preferred return provisions of this joint venture.

On January 3, 2017, we redeemed our joint venture interest in Mystic Partners, LLC by acquiring a 100% ownership interest in the Mystic Marriott Hotel & Spa and transferring our minority ownership interests in the Hartford Marriott

and Hartford Hilton to our joint venture partner. We received \$11,623 in cash and assumed a mortgage on the Mystic Marriott Hotel & Spa of \$41,333 as consideration for this redemption and transfer of our minority interest. Subsequent to the assumption of the mortgage, the Company fully paid off the outstanding balance of the debt and added the property to the borrowing base of our Credit Facility. As a result of the remeasurement of the consideration received to fair value, the Company recognized a gain of \$16,239 in conjunction with this transaction.

Income/Loss Allocation

For the Cindat Hersha Owner JV, LLC cash available for distribution will be distributed (1) to us until we receive a 9% annual rate of return on our contributed \$43,194 preferred equity interest, (2) then to Cindat until they receive a return on their contributed \$142,000 senior common equity interest, currently at 9.5%, and (3) then to us until we receive an 8% return on our contributed \$60,857 junior common equity interest. Any cash available for distribution remaining will be split 30% to us and 70% to Cindat. Cindat's senior common equity return is reduced by 0.5% annually for 4 years following the closing until it is set at a rate of 8% for the remainder of the life of the joint venture. Beginning June 30, 2016, a lender to Owner JV determined that certain debt coverage ratio covenants contained in its loan agreement were not met. Pursuant to these agreements, the lender elected to escrow the operating cash flow for Owner JV, which continues as of June 30, 2017. The failure to meet these covenants, however, does not constitute an event of default. As of June 30, 2017, based on the income allocation methodology described above, the Company has absorbed cumulative losses equal to our accounting basis in the joint venture resulting in a \$0 investment balance in the table above, however, we currently maintain a positive equity balance within the venture. This difference is due to difference in our basis inside the venture versus our basis outside of the venture, which is explained later in this note.

For SB Partners, LLC and Hiren Boston, LLC, income or loss is allocated to us and our joint venture partners consistent with the allocation of cash distributions in accordance with the joint venture agreements. This results in an income allocation consistent with our percentage of ownership interests.

Any difference between the carrying amount of any of our investments noted above and the underlying equity in net assets is amortized over the expected useful lives of the properties and other intangible assets.

The following table is a reconciliation of our share in the unconsolidated joint ventures' equity to our investment in the unconsolidated joint ventures as presented on our balance sheets as of June 30, 2017 and December 31, 2016.

	June 30, 2017	December 31, 2016
Our share of equity recorded on the joint ventures' financial statements	\$ 92,812	\$ 119,892
Adjustment to reconcile our share of equity recorded on the joint ventures' financial statements to our investment in unconsolidated joint ventures(1)	(89,245)	(108,451)

Investment in Unconsolidated Joint Ventures	\$ 3,567	\$ 11,441
---	----------	-----------

(1) Adjustment to reconcile our share of equity recorded on the joint ventures' financial statements to our investment in unconsolidated joint ventures consists of the following:

- the difference between our basis in the investment in joint ventures and the equity recorded on the joint ventures' financial statements;
- accumulated amortization of our equity in joint ventures that reflects the difference in our portion of the fair value of joint ventures' assets on the date of our investment when compared to the carrying value of the assets recorded on the joint ventures' financial statements (this excess or deficit investment is amortized over the life of the properties, and the amortization is included in Income (Loss) from Unconsolidated Joint Venture Investments on our consolidated statement of operations); and
- cumulative impairment of our investment in joint ventures not reflected on the joint ventures' financial statements, if any.

Other Assets

Other Assets consisted of the following at June 30, 2017 and December 31, 2016:

	June 30, 2017	December 31, 2016
Derivative Asset	\$ 1,856	\$ 1,835
Deferred Financing Costs	1,112	1,383
Prepaid Expenses	10,636	9,217
Investment in Statutory Trusts	1,548	1,548
Investment in Non-Hotel Property and Inventories	2,703	2,641
Deposits with Unaffiliated Third Parties	4,412	3,332
Deferred Tax Asset, Net of Valuation Allowance of \$804	13,292	16,197
Other	2,665	3,217
	\$ 38,224	\$ 39,370

Derivative Asset – This category represents the Company’s gross asset fair value of interest rate swaps and interest rate caps. Any swaps and caps resulting in a liability to the Company are accounted for separately within Other Liabilities on the Balance Sheet.

Deferred Financing Costs – This category represents financing costs paid by the Company to establish our Line of Credit. These costs have been capitalized and will amortize to expense over the life of the Line of Credit.

Prepaid Expenses – Prepaid expenses include amounts paid for property tax, insurance and other expenditures that will be expensed in the next twelve months.

Investment in Statutory Trusts – We have an investment in the common stock of Hersha Statutory Trust I and Hersha Statutory Trust II. Our investment is accounted for under the equity method.

Deposits with Unaffiliated Third Parties – These deposits represent deposits made by the Company with unaffiliated third parties for items such as lease security deposits, utility deposits, and deposits with unaffiliated third party management companies.

Deferred Tax Asset – We have approximately \$13,292 of net deferred tax assets as of June 30, 2017. We have considered various factors, including future reversals of existing taxable temporary differences, future projected taxable income and tax planning strategies in determining a valuation allowance for our deferred tax assets, and we believe that it is more likely than not that we will be able to realize the \$13,292 of net deferred tax assets in the future.

NOTE 5 – DEBT

Mortgages

Mortgages payable at June 30, 2017 and December 31, 2016 consisted of the following:

	June 30, 2017	December 31, 2016
Mortgage Indebtedness	\$ 312,588	\$ 338,529
Net Unamortized Premium	2,056	2,313
Net Unamortized Deferred Financing Costs	(2,794)	(3,021)
Mortgages Payable	\$ 311,850	\$ 337,821
Liabilities Related to Hotel Assets Held for Sale	\$ -	\$ 51,428

Net Unamortized Deferred Financing Costs associated with entering into mortgage indebtedness are deferred and amortized over the life of the mortgages. Net Unamortized Premiums are also amortized over the remaining life of the loans.

Mortgage indebtedness balances are subject to fixed and variable interest rates, which ranged from 3.42% to 6.30% as of June 30, 2017. Aggregate interest expense incurred under the mortgage loans payable totaled \$3,060 and \$5,720, and \$6,030 and \$11,990 during the three and six months ended June 30, 2017 and 2016, respectively.

Our mortgage indebtedness contains various financial and non-financial covenants customarily found in secured, non-recourse financing arrangements. Our mortgage loans payable typically require that specified debt service coverage ratios be maintained with respect to the financed properties before we can exercise certain rights under the loan agreements relating to such properties. If the specified criteria are not satisfied, the lender may be able to escrow cash flow generated by the property securing the applicable mortgage loan. We have determined that all debt covenants contained in the loan agreements securing our consolidated hotel properties were met as of June 30, 2017.

As of June 30, 2017, the maturity dates for the outstanding mortgage loans ranged from September 2017 to September 2025.

Subordinated Notes Payable

We have two junior subordinated notes payable in the aggregate amount of \$51,548 to the Hersha Statutory Trusts pursuant to indenture agreements which will mature on July 30, 2035, but may be redeemed at our option, in whole or in part, prior to maturity in accordance with the provisions of the indenture agreements. The \$25,774 of notes issued to each of Hersha Statutory Trust I and Hersha Statutory Trust II bear interest at a variable rate of LIBOR plus 3% per annum. This rate resets two business days prior to each quarterly payment. The face value of the notes payable is offset by \$944 and \$970 as of June 30, 2017 and December 31, 2016, respectively, in net deferred financing costs incurred as a result of entering into these indentures. The deferred financing costs are amortized over the life of the notes payable. The weighted average interest rate on our two junior subordinated notes payable was 4.20% and 3.71%, and 4.08% and 3.63% during the three and six months ended June 30, 2017 and 2016, respectively. Interest expense in the amount of \$541 and \$478, and \$1,053 and \$937 was recorded for the three and six months ended June 30, 2017 and 2016, respectively.

Credit Facilities

We maintain three unsecured credit agreements which aggregate \$960,520 with Citigroup Global Markets Inc., Wells Fargo Bank, Inc. and various other lenders. The first credit agreement provides for a \$460,520 senior unsecured credit facility ("Credit Facility") consisting of a \$250,000 senior unsecured revolving line of credit ("Line of Credit"), and a \$210,520 senior unsecured term loan ("First Term Loan"). The Credit Facility expires on February 28, 2018, and, provided no event of default has occurred, we may request that the lenders renew the credit facility for an additional one-year period. The Credit Facility is also expandable to \$850,000 at our request, subject to the satisfaction of certain conditions.

Our second credit agreement provides for a \$300,000 senior unsecured term loan agreement (“Second Term Loan”) and expires on August 10, 2020.

Our third credit agreement provides for a \$200,000 senior unsecured term loan agreement (“Third Term Loan”) and expires on August 2, 2021.

The amount that we can borrow at any given time under our Line of Credit, and the First, Second and Third Term Loan (each a “Term Loan” and together the “Term Loans”) is governed by certain operating metrics of designated unencumbered hotel properties known as borrowing base assets. As of June 30, 2017, the following hotel properties were borrowing base assets:

- | | |

- Hyatt House Gaithersburg, MD
- Mystic Marriott Hotel & Spa, Groton, CT
- The Rittenhouse Hotel, Philadelphia, PA
- Sheraton, Wilmington South, DE

The interest rate for borrowings under the Line of Credit and Term Loans are based on a pricing grid with a range of one month U.S. LIBOR plus a spread. The following table summarizes the balances outstanding and interest rate spread for each borrowing:

Borrowing	Spread	Outstanding Balance	
		June 30, 2017	December 31, 2016
Line of Credit	1.70% to 2.45%	\$ -	\$ -
First Term Loan	1.60% to 2.35%	210,520	210,520
Second Term Loan	1.50% to 2.25%	300,000	300,000
Third Term Loan	1.45% to 2.20%	200,000	156,100

We maintain an interest rate swap, with a \$150,000 notional amount, which effectively fixes the interest rate on \$150,000 of the \$200,000 Third Term Loan at a blended rate of 3.211%. This swap agreement matures on October 3, 2019. See “Note 7 – Fair Value Measurements and Derivative Instruments” for more information regarding interest rate hedging strategies we employ.

On March 14, 2017, we entered into an interest rate swap associated with \$50,000 of our \$200,000 Third Term Loan, which became effective on April 3, 2017. This swap effectively fixes the interest rate on \$50,000 of the Third Term Loan at 3.894%. This swap matures on October 3, 2019.

NOTE 5 – DEBT (CONTINUED)

On March 23, 2017, we entered into an interest rate swap associated with our \$300,000 Second Term Loan, which becomes effective beginning on August 10, 2017. This swap effectively fixes the interest rate of the Second Term Loan at 3.6930% from the effective date through August 9, 2018. For the period from August 10, 2018 to August 11, 2019, the interest rate will be fixed at 4.1155%. For the period from August 12, 2019 through maturity, the interest rate will be fixed at 4.3925%. This swap matures on August 10, 2020.

The balance of the Term Loans is offset by \$2,780 and \$3,120 in net deferred financing costs as of June 30, 2017 and December 31, 2016, respectively. These costs were incurred as a result of originating the term loan borrowings and are amortized over the life of these loans.

The Credit Facility and the Term Loans include certain financial covenants and require that we maintain: (1) a minimum tangible net worth (calculated as total assets, plus accumulated depreciation, less total liabilities, intangibles and other defined adjustments) of \$900,000, plus an amount equal to 75% of the net cash proceeds of all issuances and primary sales of equity interests of the parent guarantor or any of its subsidiaries consummated following the closing date; (2) annual distributions not to exceed 95% of adjusted funds from operations; and (3) certain financial ratios, including the following:

- a fixed charge coverage ratio of not less than 1.50 to 1.00;
- a maximum leverage ratio of not more than 60%; and
- a maximum secured debt leverage ratio of 45%.

The Company is in compliance with each of the covenants listed above as of June 30, 2017.

Edgar Filing: HERSHA HOSPITALITY TRUST - Form 10-Q

The Company recorded interest expense of \$5,914 and \$4,083, and \$11,222 and \$8,563 related to borrowings drawn on the Credit Facility and Term Loans for the three and six months ended June 30, 2017 and 2016, respectively. The weighted average interest rate on the Credit Facility and Term Loans was 3.35% and 2.78%, and 3.22% and 2.79% for the three and six months ended June 30, 2017 and 2016, respectively.

Capitalized Interest

We utilize cash, mortgage debt and our Line of Credit to finance on-going capital improvement projects at our hotels. Interest incurred on mortgages and the Line of Credit that relates to our capital improvement projects is capitalized through the date when the assets are placed in service. For the three and six months ended June 30, 2017 and 2016, we capitalized \$0 of interest expense to ongoing capital improvement projects.

Deferred Financing Costs

As noted above, costs associated with entering into mortgages, notes payable and our credit facilities are deferred and amortized over the life of the debt instruments. The deferred costs related to mortgages and term loans and unsecured notes payable are presented as reductions in the respective debt balances. Amortization of deferred costs for the three and six months ended June 30, 2017 and 2016 was \$614 and \$640, and \$1,262 and \$1,300, respectively.

New Debt/Refinance

On February 24, 2017, we refinanced the outstanding mortgage debt with an original principal balance of \$45,000 secured by the Hilton Garden Inn, 52nd Street, NY. The loan was due to mature in May 2017, but will now mature on February 24, 2020. We incurred approximately \$94 in expense in third party fees.

On February 1, 2017, we issued a note payable in the amount of \$3,150 with the acquisition of the Ritz Carlton Coconut Grove.

On January 31, 2017, we repaid in full outstanding mortgage debt with an original principal balance of \$9,500 secured by the Duane Street Hotel, NY, which was scheduled to mature on February 1, 2017 and we incurred approximately \$12 in expense related to unamortized deferred financing costs and fees.

On January 6, 2017, we repaid in full outstanding mortgage debt secured by the Hyatt House Scottsdale, AZ, the Hyatt House Pleasant Hill, CA, and the Hyatt House Pleasanton, which all matured on that date. These properties had a combined original principal balance of \$51,428 and we incurred approximately \$47 in expense related to unamortized deferred financing costs and fees.

On January 3, 2017, we repaid in full outstanding mortgage debt with an original principal balance of \$21,000 secured by the

Hilton Garden Inn, JFK Airport, New York, NY. The loan was due to mature on March 7, 2017, and we incurred approximately \$37 in expense related to unamortized deferred financing costs and fees.

On January 3, 2017, we repaid in full outstanding mortgage debt with an original principal balance of \$43,000 secured by the Mystic Marriott Hotel & Spa, Groton, CT. The loan was due to mature in August of 2018, and we incurred approximately \$84 in expense related to unamortized deferred financing costs and fees.

We repaid in full the two mortgages related to the Hampton Inn Herald Square, NY and Hampton Inn Chelsea, NY, two properties contributed to the joint venture with Cindat. The mortgage debt secured by Hampton Inn Herald Square had an original balance of \$26,500 and was due to mature on May 1, 2016. The mortgage debt secured by Hampton Inn Chelsea had an original balance of \$36,000 and was due to mature on October 1, 2016. In addition, due to our contribution of certain of the borrowing base properties to the Cindat joint venture we were required to pay down \$39,480 of the First Term Loan. We incurred a total of \$1,049 in expense related to the payment of fees to extinguish debt and related to unamortized deferred financing costs associated with the mortgage debt and term loan repayments.

On February 29, 2016, we repaid in full outstanding mortgage debt with an original principal balance of \$8,500 secured by the Hawthorn Suites, Franklin, MA. The loan was due to mature on May 1, 2016, and we incurred approximately \$42 in expense in unamortized deferred financing costs and fees.

NOTE 6 – COMMITMENTS AND CONTINGENCIES AND RELATED PARTY TRANSACTIONS

Management Agreements

Our wholly-owned TRS, 44 New England Management Company, and certain of our joint venture entities engage eligible independent contractors in accordance with the requirements for qualification as a REIT under the Internal Revenue Code of 1986, as amended, including Hersha Hospitality Management Limited Partnership (“HHMLP”), as the property managers for hotels it leases from us pursuant to management agreements. HHMLP is owned, in part, by certain executives and trustees of the Company. Our management agreements with HHMLP provide for five-year terms and are subject to early termination upon the occurrence of defaults and certain other events described therein. As required under the REIT qualification rules, HHMLP must qualify as an “eligible independent contractor” during the term of the management agreements. Under the management agreements, HHMLP generally pays the operating expenses of our hotels. All operating expenses or other expenses incurred by HHMLP in performing its authorized duties are reimbursed or borne by our TRS to the extent the operating expenses or other expenses are incurred within the limits of the applicable approved hotel operating budget. HHMLP is not obligated to advance any of its own funds for operating expenses of a hotel or to incur any liability in connection with operating a hotel. Management agreements with other unaffiliated hotel management companies have similar terms.

For its services, HHMLP receives a base management fee and, if a hotel exceeds certain thresholds, an incentive management fee. The base management fee for a hotel is due monthly and is equal to 3% of gross revenues associated with each hotel managed for the related month. The incentive management fee, if any, for a hotel is due annually in arrears on the ninetieth day following the end of each fiscal year and is based upon the financial performance of the hotels. For the three and six months ended June 30, 2017 and 2016, base management fees incurred totaled \$3,689, and \$3,584, and \$6,558 and \$6,609, respectively, and are recorded as Hotel Operating Expenses. For the three and six months ended June 30, 2017 and 2016, we did not incur incentive management fees.

Franchise Agreements

Our branded hotel properties are operated under franchise agreements assumed by the hotel property lessee. The franchise agreements have 10 to 20 year terms, but may be terminated by either the franchisee or franchisor on certain anniversary dates specified in the agreements. The franchise agreements require annual payments for franchise royalties, reservation, and advertising services, and such payments are based upon percentages of gross room revenue. These payments are paid by the hotels and charged to expense as incurred. Franchise fee expenses for the three and six months ended June 30, 2017 and 2016 were \$6,443 and \$6,753, and \$11,552 and \$12,647, respectively, and are recorded in Hotel Operating Expenses. The initial fees incurred to enter into the franchise agreements are amortized over the life of the franchise agreements.

Accounting and Information Technology Fees

Each of the wholly-owned hotels and consolidated joint venture hotel properties managed by HHMLP incurs a monthly accounting and information technology fee. Monthly fees for accounting services are between \$2 and \$3 per property and monthly information technology fees range from \$1 to \$2 per property. For the three and six months ended June 30, 2017 and 2016, the Company incurred accounting fees of \$335 and \$392, and \$671 and \$748, respectively. For the three and six months ended June 30, 2017 and 2016, the Company incurred information technology fees of \$110 and \$141, and \$223 and \$231 respectively. Accounting fees and information technology fees are included in Hotel Operating Expenses.

Capital Expenditure Fees

HHMLP charges a 5% fee on all capital expenditures and pending renovation projects at the properties as compensation for procurement services related to capital expenditures and for project management of renovation projects. For the three and six months ended June 30, 2017 and 2016, we incurred fees of \$321 and \$282, and \$641 and \$729 respectively, which were capitalized with the cost of fixed asset additions.

Acquisitions from Affiliates

We have entered into an option agreement with certain of our officers and trustees such that we obtain a right of first refusal to purchase any hotel owned or developed in the future by these individuals or entities controlled by them at fair market value. This right of first refusal would apply to each party until one year after such party ceases to be an officer or trustee of the Company. Our Acquisition Committee of the Board of Trustees is comprised solely of independent trustees, and the purchase prices and all material terms of the purchase of hotels from related parties are approved by the Acquisition Committee.

Hotel Supplies

For the three and six months ended June 30, 2017 and 2016, we incurred charges for hotel supplies of \$23 and \$39, and \$81 and \$60, respectively. For the three and six months ended June 30, 2017 and 2016, we incurred charges for capital expenditure purchases of \$501 and \$432, and \$862 and \$1,314, respectively. These purchases were made from Hersha Purchasing and Design, a hotel supply company owned, in part, by certain executives and trustees of the Company. Hotel supplies are expensed and included in Hotel Operating Expenses on our consolidated statements of operations, and capital expenditure purchases are included in investment in hotel properties on our consolidated balance sheets. Approximately \$2 and \$1 is included in accounts payable at June 30, 2017 and December 31, 2016, respectively.

Due From Related Parties

Edgar Filing: HERSHA HOSPITALITY TRUST - Form 10-Q

The due from related parties balance as of June 30, 2017 and December 31, 2016 was approximately \$6,330 and \$18,332, respectively. The balances primarily consisted of working capital deposits made to HHMLP and other entities owned, in part, by certain executives and trustees of the Company.

Due to Related Parties

The balance due to related parties as of June 30, 2017 and December 31, 2016 was \$0.

Hotel Ground Rent

For the three and six months ended June 30, 2017 and 2016, we incurred \$894 and \$892, and \$1,701 and \$1,785, respectively, of rent expense payable pursuant to ground leases related to certain hotel properties.

NOTE 7 – FAIR VALUE MEASUREMENTS AND DERIVATIVE INSTRUMENTS

Fair Value Measurements

Our determination of fair value measurements are based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, we utilize a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liabilities, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

As of June 30, 2017, the Company's derivative instruments represented the only financial instruments measured at fair value. Currently, the Company uses derivative instruments, such as interest rate swaps and caps, to manage its interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs.

We incorporate credit valuation adjustments to appropriately reflect both our own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, we have considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts and guarantees.

Although we have determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by us and the counterparties. However, as of June 30, 2017 we have assessed the significance of the effect of the credit valuation adjustments on the overall valuation of our derivative positions and have determined that the credit valuation adjustments are not significant to the overall valuation of our derivatives. As a result, we have determined that our derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

NOTE 7 – FAIR VALUE MEASUREMENTS AND DERIVATIVE INSTRUMENTS (CONTINUED)

Derivative Instruments

The Company's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps and interest rate caps as part of its cash flow hedging strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. Interest rate caps designated as cash flow hedges limit the Company's exposure to increased cash payments due to increases in variable interest rates. The following table presents our derivative instruments as of June 30, 2017 and December 31, 2016.

* On February 24, 2017, we refinanced the debt associated with the Hilton Garden Inn 52nd Street, New York, NY. As a result, we entered into an interest rate swap with a strike rate of 1.60%. The interest rate swap designated as a hedge against the refinanced mortgage note matured on February 21, 2017.

** On March 23, 2017, we entered into an interest rate swap associated with our \$300,000 Second Term Loan, which becomes effective beginning on August 10, 2017. This swap effectively fixes the interest rate of the Second Term Loan at 3.6930% from the effective date through August 9, 2018. For the period from August 10, 2018 to August 11, 2019, the interest rate will be fixed at 4.1155%. For the period from August 12, 2019 through maturity, the interest rate will be fixed at 4.3925%. This swap matures on August 10, 2020.

*** On March 14, 2017, we entered into an interest rate swap associated with our \$50,000 of our \$200,000 Third Term Loan, which became effective on April 3, 2017. This swap effectively fixes the interest rate of the Third Term Loan at 3.894%. This swap matures on October 3, 2019.

The fair value of certain swaps and our interest rate caps with a positive balance is included in other assets at June 30, 2017 and December 31, 2016. The fair value of certain of our interest rate swaps with a negative balance is included in accounts payable, accrued expenses and other liabilities at June 30, 2017 and December 31, 2016.

NOTE 7 – FAIR VALUE MEASUREMENTS AND DERIVATIVE INSTRUMENTS (CONTINUED)

The net change in fair value of derivative instruments designated as cash flow hedges was a loss of \$1,309 and a gain of \$16 for the three months ended June 30, 2017 and 2016, respectively, and a loss of \$1,239 and a loss of \$221 for the six months ended June 30, 2017 and 2016, respectively.

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate derivative. The change in net unrealized gains/losses on cash flow hedges reflects a reclassification of \$130 and \$140, and \$280 and \$319 of net unrealized gains/losses from accumulated other comprehensive income as an increase/decrease to interest expense for the three and six months ended June 30, 2017 and 2016, respectively. For the next twelve months ending June 30, 2018, we estimate that an additional \$40 will be reclassified as an increase to interest expense.

Fair Value of Debt

We estimate the fair value of our fixed rate debt and the credit spreads over variable market rates on our variable rate debt by discounting the future cash flows of each instrument at estimated market rates or credit spreads consistent with the maturity of the debt obligation with similar credit policies. Credit spreads take into consideration general market conditions and maturity. The inputs utilized in estimating the fair value of debt are classified in Level 2 of the fair value hierarchy. As of June 30, 2017, the carrying value and estimated fair value of our debt were \$1,070,194 and \$1,060,331, respectively. As of December 31, 2016, the carrying value and estimated fair value of our debt were \$1,103,327 and \$1,098,248, respectively.

NOTE 8 – SHARE BASED PAYMENTS

We measure the cost of employee service received in exchange for an award of equity instruments based on the grant-date fair value of the award. The compensation cost is amortized on a straight line basis over the period during which an employee is required to provide service in exchange for the award. The compensation cost related to performance awards that are contingent upon market-based criteria being met is recorded at the fair value of the award on the date of the grant and amortized over the performance period. As discussed in Note 1 forfeitures of share-based awards are expensed as they occur.

The Company established and our shareholders approved the Hersha Hospitality Trust 2012 Equity Incentive Plan, as amended, (the “2012 Plan”) for the purpose of attracting and retaining executive officers, employees, trustees and other persons and entities that provide services to the Company.

Executives & Employees

Annual Long Term Equity Incentive Programs

To further align the interests of the Company’s executives with those of shareholders, the Compensation Committee grants annual long term equity incentive awards that are both “performance based” and “time based.”

On March 10, 2017, the Compensation Committee approved the 2017 Annual Long Term Equity Incentive Program (“2017 Annual EIP”) for the executive officers, pursuant to which the executive officers are eligible to earn equity awards in the form of stock awards, LTIP Units, or performance share awards issuable pursuant to the 2012 Plan. These awards are earned under the 2017 Annual EIP based on achieving a threshold, target or maximum level of performance in the performance of RevPAR growth in certain defined areas. In addition, the Compensation

Committee provided the option to the executive officers to elect shares in lieu of cash payment under the 2017 annual cash incentive program ("2017 ACIP"). The Company accounts for these grants as performance awards for which the Company assesses the probability of achievement of the performance conditions at the end of each period. As of June 30, 2017, no shares or LTIP Units have been issued in accordance with the 2012 Plan to the executive officers in settlement of 2017 Annual EIP awards.

- (1) 25% of the issued shares or LTIP Units vested immediately upon issuance. In general, the remaining shares or LTIP Units vest 25% on the first through third anniversaries of the end of the performance period, which is a calendar year-end (subject to continuous employment through the applicable vesting date).
- (2) On April 18, 2012, the Company entered into amended and restated employment agreements with the Company's executive officers. To induce the executives to agree to the substantial reduction in benefits upon certain terminations following a change of control as described in the agreements, the Company awarded an aggregate of 258,899 restricted common shares to the executives pursuant to the 2012 Plan, which were subsequently forfeited

and replaced with LTIP Units on December 23, 2014. One-third of each award of LTIP Units vested or will vest on each of the third, fourth and fifth anniversaries of the original date of issuance. Vesting will accelerate upon a change of control or if the relevant executive's employment with the Company were to terminate for any reason other than for cause (as defined in the employment agreements).

Stock based compensation expense related to the Annual Long Term Equity Incentive Programs and 2017 ACIP of \$1,537 and \$952 and, \$2,105 and \$2,362 was incurred during the three and six months ended June 30, 2017 and 2016, respectively. Unearned compensation related to the Annual Long Term Equity Incentive Programs as of June 30, 2017 and December 31, 2016 was \$1,528 and \$1,550, respectively.

Unearned compensation related to the grants and amortization of LTIP Units is included in Noncontrolling Interests on the Company's Consolidated Balance Sheets and Consolidated Statements of Equity.

Multi-Year Long Term Equity Incentive Programs

On March 10, 2017, the Compensation Committee approved the 2017 Multi-Year Long Term Equity Incentive Program ("2017 Multi-Year EIP"). This program has a three-year performance period which commenced on January 1, 2017 and ends December 31, 2019. As of June 30, 2017, no shares or LTIP Units have been issued to the executive officers in settlement of 2017 Multi-Year EIP awards.

	61,057			30,524	-	\$ 2,306	\$ 1,568

The shares or LTIP Units issuable under the Multi-Year Long Term Incentive Programs, including the 2017 Multi-Year EIP, are based on the Company's achievement of a certain level of (1) absolute total shareholder return (37.50% of the award), (2) relative total shareholder return as compared to the Company's peer group (37.50% of the award), and (3) relative growth in revenue per available room (RevPar) compared to the Company's peer group (25% of the award).

Edgar Filing: HERSHA HOSPITALITY TRUST - Form 10-Q

The Company accounts for the total shareholder return components of these grants as market based awards where the Company estimates unearned compensation at the grant date fair value which is then amortized into compensation cost over the vesting period of each individual plan. The Company accounts for the RevPAR component of the grants as performance-based awards for which the Company assesses the probable achievement of the performance conditions at the end of the reporting period.

Stock based compensation expense of \$309 and \$343 and, \$980 and \$1,184 was recorded for the three and six months ended June 30, 2017 and 2016, respectively, for the Multi-Year Long Term Equity Incentive Programs. Unearned compensation related to the multi-year program as of June 30, 2017 and December 31, 2016, respectively, was 2,306, and \$1,568.

Restricted Share Awards

In addition to share based compensation expense related to awards to executives under the Multi-Year and Annual Long Term Equity Incentive Programs, share based compensation expense related to restricted common shares issued to employees of the Company of \$154 and \$135 and, \$286 and \$256 was incurred during the three and six months ended June 30, 2017 and 2016, respectively. Unearned compensation related to the restricted share awards as of June 30, 2017 and December 31, 2016 was \$416 and \$505, respectively. The following table is a summary of all unvested share awards issued to employees under the 2012 Plan and prior equity incentive plans:

Trustees

Annual Retainer

The Compensation Committee approved a program that allows the Company's trustees to make a voluntary election to receive any portion of the annual cash retainer in the form of common equity valued at a 25% premium to the cash that would have been received. On December 30, 2016, we issued 4,395 shares which do not fully vest until December 31, 2017. Compensation expense incurred for the three and six months ended June 30, 2017 and 2016 was \$23 and \$37 and, \$47 and \$37, respectively. The following table is a summary of all unvested share awards issued to trustees in lieu of an annual cash retainer:

change occurs, our business, financial condition, liquidity and results of operations may vary materially from those expressed in our forward-looking statements. Readers should not place undue reliance on forward-looking statements. The following factors could cause actual results to vary from our forward-looking statements:

- general volatility of the capital markets and the market price of our common shares;
- changes in our business or investment strategy;
- availability, terms and deployment of capital;
- availability of qualified personnel;
- changes in our industry and the market in which we operate, interest rates, or the general economy;
- decreased international travel because of geopolitical events, including terrorism and current U.S. government policies;
- the degree and nature of our competition;
- financing risks, including the risk of leverage and the corresponding risk of default on our mortgage loans and other debt and potential inability to refinance or extend the maturity of existing indebtedness;
- levels of spending in the business, travel and leisure industries, as well as consumer confidence;
- declines in occupancy, average daily rate and RevPAR and other hotel operating metrics;
- hostilities, including future terrorist attacks, or fear of hostilities that affect travel;
- financial condition of, and our relationships with, our joint venture partners, third-party property managers, franchisors and hospitality joint venture partners;
- increased interest rates and operating costs;
- ability to complete development and redevelopment projects;
- risks associated with potential acquisitions, including the ability to ramp up and stabilize newly acquired hotels with limited or no operating history, and dispositions of hotel properties;
- availability of and our ability to retain qualified personnel;
- decreases in tourism due to geopolitical instability or changes in foreign exchange rates;
- our failure to maintain our qualification as a real estate investment trust, or REIT, under the Internal Revenue Code of 1986, as amended;
- environmental uncertainties and risks related to natural disasters;
- changes in real estate and zoning laws and increases in real property tax rates; and

the factors discussed in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2016 under the heading “Risk Factors” and in other reports we file with the SEC from time to time.

These factors are not necessarily all of the important factors that could cause our actual results, performance or achievements to differ materially from those expressed in or implied by any of our forward-looking statements. Other unknown or unpredictable factors, many of which are beyond our control, also could harm our results, performance or achievements.

All forward-looking statements contained in this report are expressly qualified in their entirety by the cautionary statements set forth above. Forward-looking statements speak only as of the date they are made, and we do not undertake or assume any obligation to update publicly any of these statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

BACKGROUND

As of June 30, 2017, we owned interests in 51 hotels in major urban gateway markets including New York, Washington DC, Boston, Philadelphia, San Diego, Los Angeles, Seattle, and Miami, including 42 wholly-owned hotels and interests in 9 hotels owned through unconsolidated joint ventures. We have elected to be taxed as a REIT for federal income tax purposes, beginning with the taxable year ended December 31, 1999. For purposes of the REIT qualification rules, we cannot directly operate any of our hotels. Instead, we must lease our hotels to a third party lessee or to a TRS, provided that the TRS engages an eligible independent contractor to manage the hotels. As of June 30, 2017, we have leased all of our hotels to a wholly-owned TRS, a joint venture owned TRS, or an entity owned by our wholly-owned TRS. Each of these TRS entities will pay qualifying rent, and the TRS entities have entered into management contracts with qualified independent managers, including HHMLP, with respect to our hotels. We intend to lease all newly acquired hotels to a TRS. The TRS structure enables us to participate more directly in the operating performance of our hotels. The TRS directly receives all revenue from, and funds all expenses relating to, hotel operations. The TRS is also subject to income tax on its earnings.

OVERVIEW

We believe the changes in our equity and debt capitalization and repositioning of our portfolio better enables us to capitalize on further improvement in lodging fundamentals. During 2017 thus far, we continued to see improvements in Occupancy, ADR and RevPAR across most of our markets. We continue to seek acquisition opportunities of both branded and independent hotels in urban centers and central business districts, as well as in select destination markets. In addition, we will continue to look for attractive opportunities to divest certain of our properties at favorable prices, potentially redeploying that capital in our focus markets or opportunistically repurchasing our common shares.

We expect continued stability and improvement in consumer and commercial spending and lodging demand in many of our markets during 2017. However some markets, such as New York City and South Florida, are encountering less favorable supply and demand dynamics, which could affect individual hotel performance. Industry wide occupancy has surpassed peak occupancy from the previous cycle which should allow hotel operators to increase ADR across the United States (“U.S.”). International visitation to the U.S. is expected to grow at a compound annual growth rate of 3.3% through 2021, according to the National Travel and Tourism Office. However, the manner in which the economy will continue to grow, if at all, is not predictable. In addition, the availability of hotel-level financing for the acquisition of new hotels is not within our control. As a result, there can be no assurances that we will be able to grow hotel revenues, occupancy, ADR or RevPAR at our properties as we hope. Factors that might contribute to less-than-anticipated performance include those described under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016 and other documents that we may file with the SEC in the future. We will continue to cautiously monitor lodging demand and rates, our third-party hotel managers, and our performance generally.

SUMMARY OF OPERATING RESULTS

The table below outlines operating results for the Company's portfolio of wholly owned hotels consolidated in our financial statements for the three and six months ended June 30, 2017 and 2016.

We define a comparable consolidated hotel as one that is currently consolidated, that we have owned in whole or in part for the entirety of the periods being presented, and is deemed fully operational. Based on this definition, for the three and six months ended June 30, 2017 and 2016, there are 41 comparable consolidated hotels. The comparable key hotel operating statistics presented in the table below have been computed using pro forma methodology to compute the operating results for the portion of time prior to our ownership of hotels purchased during the comparable period for the three and six months ended June 30, 2017 compared to the three and six months ended June 30, 2016 for our comparable hotels.

For the comparison of June 30, 2017 to June 30, 2016, comparable hotel operating results contain results from our consolidated hotels owned as of June 30, 2017, excluding: (1) The Westin Philadelphia due to the fact that we owned the hotel for two days over the comparable periods and determined its inclusion not meaningful to the analysis; and (2) the results of all hotels sold since December 31, 2015. The comparison of the six months ended June 30, 2017 to June 30, 2016 includes results as reported by the prior owners for the following hotels acquired since December 31, 2015:

- Sanctuary Resort – Monterey, CA (acquired 1/28/2016)
- Hilton Garden Inn M Street – Washington, DC (acquired 3/9/2016)
- The Envoy – Boston, MA (acquired 7/21/2016)
- Courtyard – Sunnyvale, CA (acquired 10/20/2016)
- The Ambrose – Santa Monica, CA (acquired 12/1/2016)
- Mystic Marriott Hotel & Spa – Groton, CT (acquired 1/3/2017)
- The Ritz-Carlton – Coconut Grove, FL (acquired 2/1/2017)
- The Pan Pacific Hotel – Seattle, WA (acquired 2/21/2017)

The comparison of the three months ended June 30, 2017 to June 30, 2016 includes results as reported by the prior owners for the following hotels acquired since March 31, 2016:

- The Envoy – Boston, MA (acquired 7/21/2016)
- Courtyard – Sunnyvale, CA (acquired 10/20/2016)

- The Ambrose – Santa Monica, CA (acquired 12/1/2016)
- Mystic Marriott Hotel & Spa – Groton, CT (acquired 1/3/2017)
- The Ritz-Carlton – Coconut Grove, FL (acquired 2/1/2017)
- The Pan Pacific Hotel – Seattle, WA (acquired 2/21/2017)

RevPAR for the three and six months ended June 30, 2017 increased 1.0% and 1.5%, respectively for our comparable consolidated hotels when compared to the same periods in 2016. The comparable RevPAR increases in 2017 are less than historical comparable hotel growth experienced in 2016, and can be mostly attributed to the lagging performance of our South Florida market, which experienced comparable RevPAR decreases of 5.6% and 8.3%, respectively, for the three and six months ended June 30, 2017. Excluding the South Florida market, our comparable RevPAR growth would have been 1.9% and 3.4% for the three and six months ended June 30, 2017, respectively, which falls more in line with historic growth rates. Through six months of 2017, our strongest RevPAR growth from comparable consolidated hotels occurred in our Philadelphia, Boston, and Washington D.C. markets which experienced 6.2%, 7.3%, and 5.4% growth, respectively, when compared to 2016.

Table of Contents

The table below outlines operating results for the Company's portfolio of hotels we own through interests in unconsolidated joint ventures for the three and six months ended June 30, 2017 and 2016.

We define a comparable unconsolidated joint venture hotel as one that is currently owned by our unconsolidated joint ventures in whole or in part for the entirety of the periods being presented, and is deemed fully operational. Based on this definition, for the three and six months ended June 30, 2017 and 2016, there are 9 comparable unconsolidated joint venture hotels. The comparable key hotel operating statistics presented in the table below have been computed using pro forma methodology to compute the operating results for the portion of time prior to the joint venture's ownership of hotels purchased during the comparable period for the three and six months ended June 30, 2017 compared to the three and six months ended June 30, 2016 for our comparable hotels.

Driving occupancy results, the Cindat properties experienced occupancy growth of 448 basis points and 148 basis points for the three and six months ended June 30, 2017. The properties within our unconsolidated joint ventures, on a comparable basis, generated 3.1% and 2.6% growth in RevPAR for the three and six months ended June 30, 2017, respectively. The increases in RevPAR are driven by the hotel properties located in New York City within the Cindat joint venture, which increased RevPAR growth of 3.6% and 4.0% for the three and six months ended June 30, 2017 over 2016.

(dollars in thousands, except ADR, RevPAR, and per share data)

Revenue

Our total revenues for the three months ended June 30, 2017 consisted of hotel operating revenues and other revenue. Hotel operating revenues were approximately 99% of total revenues for the three months ended June 30, 2017 and 2016. Hotel operating revenues are recorded for wholly-owned hotels that are leased to our wholly owned TRS and hotels owned through joint venture or other interests that are consolidated in our financial statements. Hotel operating revenues increased \$9,387 or 7.4%, to \$137,016 for the three months ended June 30, 2017 compared to \$127,629 for the same period in 2016. This increase in hotel operating revenues can be explained by the following table (Please note that the results of The Westin Philadelphia were excluded from this analysis as we only owned the hotel for two days during the period presented):

Expenses

Total hotel operating expenses increased 16.1% to approximately \$76,522 for the three months ended June 30, 2017 from \$65,900 for the three months ended June 30, 2016. This increase in operating expenses is primarily attributable to hotel properties acquired in our existing portfolio, offset by a decrease in hotel operating expenses which were not recognized in the three months ended June 30, 2016 due to hotel dispositions and the contribution of seven hotel properties to the joint venture with Cindat. This increase in hotel operating expenses can be explained by the following table (Please note that the results of The Westin Philadelphia were excluded from this analysis as we only owned the hotel for two days during the period presented):

Hotel Operating Expenses for the three months ended June 30, 2016	\$ 65,900

Depreciation and amortization increased by 8.8%, or \$1,619, to \$20,114 for the three months ended June 30, 2017 from \$18,495 for the three months ended June 30, 2016. The increase in depreciation and amortization was primarily attributable to the depreciation and amortization recorded on the hotels recently acquired offset by the contribution of the seven hotel properties contributed to the joint venture with Cindat and other properties sold. Real estate and personal property tax and property insurance increased \$119, or 1.5%, for the three months ended June 30, 2017 when compared to the same period in 2016. This was primarily attributable to increases from properties acquired since April 1, 2016 which added \$936 in expense offset by \$1,192 in real estate and property insurance recognized for the seven hotel properties contributed to the joint venture with Cindat and other sold properties for the three months ended June 30, 2016 which was not an expense of the Company during the three months ended June 30, 2017. We otherwise typically experience increases in tax assessments and tax rates as the economy improves which are offset by reductions resulting from our management of this expense.

General and administrative expense increased by 2.2%, or approximately \$143, from \$6,455 in the three months ended June 30, 2016 to \$6,598 for the same period in 2017. General and administrative expense includes expense related to non-cash share based payments issued as incentive compensation to the Company's trustees, executives, and employees. Expenses related to share based compensation increased \$654 when comparing the three months ended June 30, 2017 to the same period in 2016. Please refer to "Note 8 – Share Based Payments" of the notes to the consolidated financial statements for more information about our share based compensation.

Amounts recorded on our consolidated statement of operations for acquisition and terminated transaction costs will fluctuate from period to period based on our acquisition activities. Acquisition and terminated transaction costs typically consist of transfer taxes, legal fees and other costs associated with acquiring a hotel property and transactions that were terminated during the year. Acquisition and terminated transaction costs increased \$1,069 from \$55 for the three months ended June 30, 2016 to \$1,124 for the same period in 2017.

Table of Contents

Operating Income

Operating income for the three months ended June 30, 2017 was \$24,684 compared to operating income of \$27,977 during the same period in 2016. Operating income was negatively impacted by increased costs in areas such as hotel operating expenses, acquisition expenses, and depreciation and amortization.

Interest Expense

Interest expense decreased \$691 from \$11,281 for the three months ended June 30, 2016 to \$10,590 for the three months ended June 30, 2017. The balance of our borrowings have increased by \$14,412 in total between June 30, 2016 and June 30, 2017, as we have entered into the Third Term Loan in the amount of \$200,000 and assumed the \$40,600 mortgage on the Courtyard, Sunnyvale, CA which were partially offset by debt paydowns of \$226,188 since June 30, 2016. While the balance of outstanding borrowings has risen since June 30, 2016, the corresponding interest expense has decreased due to a reduction in interest rate on outstanding debt. The debt that was paid off since June 30, 2016 had a weighted average interest rate of 5.94% at June 30, 2016, while the \$200,000 borrowing under the Third Term Loan as a fixed weighted average rate of 3.38% resulting in the majority of the decrease in interest expense for the three months ended June 30, 2017 when compared to 2016.

Gain on Disposition of Hotel Properties

During the three months ended June 30, 2017, the Company recorded a gain of \$70,852 related to the sales of the Hyatt House, Scottsdale, AZ, the Hyatt House, Pleasanton, CA, and the Hyatt House, Pleasant Hill, CA. This is compared to a gain on sale recognized during the three months ended June 30, 2016 of \$95,276 related to the contribution of seven properties to the Cindat joint venture and the sale of the Hyatt Place, King of Prussia, PA.

Unconsolidated Joint Venture Investments

The income from unconsolidated joint ventures consists of our interest in the operating results of the properties we own in joint ventures. Income from our unconsolidated joint ventures decreased by \$810 from \$1,521 for the three months ended June 30, 2016 compared to \$711 during the same period in 2017.

Income Tax Expense

During the three months ended June 30, 2017, the Company recorded an income tax expense of \$662 compared to an income tax benefit of \$3,070 for the three months ended June 30, 2016. The amount of income tax expense or benefit that the Company records depends mostly on the amount of taxable income or loss that is generated by our consolidated taxable REIT subsidiaries (“TRS”). The 2017 taxable income forecasted from our consolidated TRS’s resulted in the Company recording an income tax expense for the three months ended June 30, 2017 compared to 2016 forecasted taxable losses that generated the income tax benefit recorded for the three months June 30, 2016. Despite anticipating taxable income for the year ended 2017 at our consolidated TRS’s the Company anticipates that any federal tax liability will be fully absorbed by the application of net operating loss carryforwards.

Net Income Applicable to Common Shareholders

Net income applicable to common shareholders for the three months ended June 30, 2017 was \$73,988 compared to \$102,190 during the same period in 2016. This decrease was primarily related to the difference in the gain recognized on the sale of hotel properties during the respective periods and the increase in income tax expense for the three months ended June 30, 2017 compared to the same period in 2016. Also affecting net income applicable to common shareholders is an increase in dividends declared on preferred shares, which increased approximately \$2,000 during the three months ended June 30, 2017 when compared to the same period in 2016 due to the issuance of the Series D Preferred Shares and Series E Preferred Shares during 2016 offset by the redemption of Series B Preferred Shares during 2016.

Comprehensive Income Attributable to Common Shareholders

Comprehensive income attributable to common shareholders for the three months ended June 30, 2017 was \$76,320 compared to \$102,206 for the same period in 2016. For the three months ended June 30, 2017, we recorded comprehensive income of \$83,479 compared to \$114,975 for the three months ended June 30, 2016.

Hotel Operating Expenses for the six months
ended June 30, 2017

\$ 143,789

Depreciation and amortization increased by 2.6%, or \$1,021, to \$39,576 for the six months ended June 30, 2017 from \$38,555 for the six months ended June 30, 2016. The increase in depreciation and amortization was primarily attributable to the depreciation and amortization recorded on the hotels recently acquired offset by the contribution of the seven hotel properties contributed to the joint venture with Cindat and other properties sold. Real estate and personal property tax and property insurance decreased \$1,411, or 8.2%, for the six months ended June 30, 2017 when compared to the same period in 2016. This was primarily attributable to increases from properties acquired since April 1, 2016 which added \$2,201 in expense offset by \$3,946 in real estate and property insurance recognized for the seven hotel properties contributed to the joint venture with Cindat and other sold properties for the six months ended June 30, 2016 which was not an expense of the Company during the six months ended June 30, 2017. We otherwise typically experience increases in tax assessments and tax rates as the economy improves which are offset by reductions resulting from our management of this expense.

General and administrative expense decreased by 5.3%, or approximately \$632, from \$11,855 in the six months ended June 30, 2016 to \$11,223 for the same period in 2017. General and administrative expense includes expense related to non-cash share based payments issued as incentive compensation to the Company's trustees, executives, and employees. Expenses related to share based compensation decreased \$323 when comparing the six months ended June 30, 2017 to the same period in 2016. Please refer to "Note 8 – Share Based Payments" of the notes to the consolidated financial statements for more information about our share based compensation.

Amounts recorded on our consolidated statement of operations for acquisition and terminated transaction costs will fluctuate from period to period based on our acquisition activities. Acquisition and terminated transaction costs typically consist of transfer taxes, legal fees and other costs associated with acquiring a hotel property and transactions that were terminated during the year. Acquisition and terminated transaction costs increased \$261 from \$1,563 for the six months ended June 30, 2016 to \$1,824 for the same period in 2017.

Table of Contents

Operating Income

Operating income for the six months ended June 30, 2017 was \$32,195 compared to operating income of \$32,095 during the same period in 2016. The slight increase in operating income can be attributed to decreased costs in areas such as real estate taxes and insurance, and general and administrative expenses which were offset by decreased operating margins and increased depreciation and amortization expense.

Interest Expense

Interest expense decreased \$3,063 from \$23,502 for the six months ended June 30, 2016 to \$20,439 for the six months ended June 30, 2017. The balance of our borrowings have increased by \$14,412 in total between June 30, 2016 and June 30, 2017, as we have entered into the Third Term Loan in the amount of \$200,000 and assumed the \$40,600 mortgage on the Courtyard, Sunnyvale, CA which were partially offset by debt paydowns of \$226,188 since June 30, 2016. While the balance of outstanding borrowings has risen since June 30, 2016, the corresponding interest expense has decreased due to a reduction in interest rate on outstanding debt. The debt that was paid off since June 30, 2016 had a weighted average interest rate of 5.94% at June 30, 2016, while the \$200,000 borrowing under the Third Term Loan as a fixed weighted average rate of 3.38% resulting in the majority of the decrease in interest expense for the six months ended June 30, 2017 when compared to 2016.

Gain on Disposition of Hotel Properties

During the six months ended June 30, 2017, the Company recorded a gain of \$89,583 related to the sales of the Residence Inn, Greenbelt, MD, Courtyard, Alexandria, VA, Hyatt House, Scottsdale, AZ, the Hyatt House, Pleasanton, CA, and the Hyatt House, Pleasant Hill, CA. This is compared to a gain on sale recognized during the six months ended June 30, 2016 of \$95,276 related to the contribution of seven properties to the Cindat joint venture transaction and the sale of the Hyatt Place, King of Prussia, PA.

Unconsolidated Joint Venture Investments

The income from unconsolidated joint ventures consists of our interest in the operating results of the properties we own in joint ventures. Income from our unconsolidated joint ventures decreased by \$4,482 from income of \$1,307 for the six months ended June 30, 2016 compared to a loss of \$3,175 during the same period in 2017. We recognized a \$16,239 gain on the remeasurement of investment in unconsolidated joint ventures related to our transfer and

redemption of our joint venture interest in Mystic Partners, LLC. In exchange for our interest in the partnership, we received 100% ownership of the Mystic Marriott Hotel & Spa and \$11,623 in cash proceeds.

Income Tax Expense

During the six months ended June 30, 2017, the Company recorded an income tax expense of \$2,905 compared to an income tax benefit of \$3,070 for the six months ended June 30, 2016. The amount of income tax expense or benefit that the Company records depends mostly on the amount of taxable income or loss that is generated by our consolidated taxable REIT subsidiaries ("TRS"). The 2017 taxable income forecasted from our consolidated TRS's resulted in the Company recording an income tax expense for the six months ended June 30, 2017 compared to 2016 forecasted taxable losses that generated the income tax benefit recorded for the six months June 30, 2016. Despite anticipating taxable income for the year ended 2017 at our consolidated TRS's the Company anticipates that any federal tax liability will be fully absorbed by the application of net operating loss carryforwards.

Net Income Applicable to Common Shareholders

Net income applicable to common shareholders for the six months ended June 30, 2017 was \$92,720 compared to \$90,869 during the same period in 2016. This increase was primarily related to an increase in income from unconsolidated joint venture investments, offset partially by an increase in income tax expense and a greater allocation of net income to noncontrolling interests and preferred shareholders. An increase in dividends declared on preferred shares, which increased approximately \$4,500 during the three months ended June 30, 2017 when compared to the same period in 2016, is due to the issuance of the Series D Preferred Shares and Series E Preferred Shares during 2016 offset by the redemption of Series B Preferred Shares during 2016.

Comprehensive Income Attributable to Common Shareholders

Comprehensive income attributable to common shareholders for the six months ended June 30, 2017 was \$91,555 compared to \$90,648 for the same period in 2016. For the six months ended June 30, 2017, we recorded comprehensive income of \$109,504 compared to \$106,319 for the six months ended June 30, 2016.

LIQUIDITY, CAPITAL RESOURCES, AND EQUITY OFFERINGS

(dollars in thousands, except per share data)

Potential Sources of Capital

Our organizational documents do not limit the amount of indebtedness that we may incur. Our ability to incur additional debt is dependent upon a number of factors, including the current state of the overall credit markets, our degree of leverage and borrowing restrictions imposed by existing lenders. Our ability to raise funds through the issuance of debt and equity securities is dependent upon, among other things, capital market volatility, risk tolerance of investors, general market conditions for REITs and market perceptions related to the Company's ability to generate cash flow and positive returns on its investments.

In addition, our mortgage indebtedness contains various financial and non-financial covenants customarily found in secured, nonrecourse financing arrangements. If the specified criteria are not satisfied, the lender may be able to escrow cash flow generated by the property securing the applicable mortgage loan. We have determined that all covenants contained in the loan agreements securing our hotel properties were met as of June 30, 2017.

We have unsecured debt facilities in the aggregate of \$960,520 which is comprised of a \$460,520 senior unsecured credit facility and two unsecured term loans totaling \$500,000. The unsecured credit facility ("Credit Facility") contains a \$210,520 unsecured term loan ("First Term Loan") and a \$250,000 unsecured revolving line of credit ("Line of Credit"). This Credit Facility expires on February 28, 2018 and, provided no event of default has occurred, we may request that the lenders renew the credit facility for an additional one-year period. The Credit Facility is also expandable by \$350,000 at our request, subject to the satisfaction of certain conditions. Our two additional unsecured term loans are \$300,000 ("Second Term Loan") and \$200,000 ("Third Term Loan"), which mature on August 10, 2020 and August 2, 2021, respectively.

As of June 30, 2017, the outstanding balance under the First Term Loan was \$210,520, under the Second Term Loan was \$300,000, under the Third Term Loan was \$200,000 and we had no outstanding borrowings under the Line of Credit. As of June 30, 2017, our remaining borrowing capacity under the Credit Facility, Second Term Loan and Third Term Loan was \$140,485 which is based on certain operating metrics of unencumbered hotel properties designated as borrowing base assets.

We will continue to monitor our debt maturities to manage our liquidity needs. However, no assurances can be given that we will be successful in refinancing all or a portion of our future debt obligations due to factors beyond our

control or that, if refinanced, the terms of such debt will not vary from the existing terms. As of June 30, 2017, we have \$36,080 of indebtedness maturing on or before December 31, 2017. We currently expect that cash requirements for all debt that is not refinanced by our existing lenders for which the maturity date is not extended will be met through a combination of cash on hand, refinancing the existing debt with new lenders, draws on the Line of Credit and the issuance of our securities.

In addition to the incurrence of debt and the offering of equity securities, dispositions of property or investment from a joint venture partner may serve as additional capital resources and sources of liquidity. We may recycle capital from stabilized assets, as evidenced by our transaction involving the Cindat JV properties, or from sales of non-core hotels in secondary and tertiary markets. Capital from these types of transactions is intended to be redeployed into high growth acquisitions, share buybacks, or to pay down existing debt.

Common Share Repurchase Plan

In October 2016, our Board of Trustees authorized a new share repurchase program for up to \$100,000 of common shares which commenced upon the completion of the existing repurchase program. The new program will expire on December 31, 2017, unless extended by our Board of Trustees. For the six months ended June 30, 2017, the Company repurchased no common shares.

Acquisitions

During the six months ended June 30, 2017, we acquired the following wholly-owned hotel properties:

Hotel	Acquisition Date	Land	Buildings and Improvements	Furniture, Fixtures and Equipment	Other Intangibles	Total Purchase Price	Assumption of Debt
Mystic Marriott Hotel & Spa, Groton, CT (1)	1/3/2017	\$ 1,420	\$ 40,440	\$ 7,240	\$ 899	* \$ 49,999	\$ 41,333

The Westin, Philadelphia, PA	6/29/2017	33,048	91,462	10,490	-	135,000	-
TOTAL		\$ 52,732	\$ 221,900	\$ 25,459	\$ 608	\$ 300,699	\$ 44,483

(1) The Mystic Marriott Hotel & Spa was acquired as partial consideration within the transaction to redeem and transfer our joint venture interest in Mystic Partners, LLC.

* Consists entirely of \$899 of advanced bookings.

** Includes an intangible asset for a lease-in-place of \$229, and a below market lease liability of \$520.

We intend to invest in additional hotels only as suitable opportunities arise and adequate sources of financing are available. We expect that future investments in hotels will depend upon and will be financed by, in whole or in part, our existing cash, the proceeds from additional issuances of common or preferred shares, proceeds from the sale of assets, issuances of Common Units, issuances of preferred units or other securities or borrowings secured by hotel assets and under our Line of Credit.

Operating Liquidity and Capital Expenditures

We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and, if necessary, short-term borrowings under the Line of Credit. We believe that the net cash provided by operations in the coming year and borrowings drawn on the Line of Credit will be adequate to fund the Company's operating requirements, monthly recurring debt service and the payment of dividends in accordance with REIT requirements of the Internal Revenue Code of 1986, as amended.

To qualify as a REIT, we must distribute annually at least 90% of our taxable income. This distribution requirement limits our ability to retain earnings and requires us to raise additional capital in order to grow our business and acquire additional hotel properties. However, there is no assurance that we will be able to borrow funds or raise additional equity capital on terms acceptable to us, if at all. In addition, we cannot guarantee that we will continue to make distributions to our shareholders at the current rate of \$0.28 per common share per quarter or at all. Due to the seasonality of our business, cash provided by operating activities fluctuates significantly from quarter to quarter. However, we believe that, based on our current estimates, which include the addition of cash from operations provided by hotels acquired during 2017, our cash provided by operating activities will be sufficient over the next 12 months to fund the payment of our dividend at its current level. However, our Board of Trustees continues to evaluate the dividend policy in the context of our overall liquidity and market conditions and may elect to reduce or suspend these distributions. Net cash provided by operating activities for the six months ended June 30, 2017 was \$67,538 and cash used for the payment of distributions and dividends for the six months ended June 30, 2017 was \$45,830, which included a special dividend of \$8,343 that was funded by a portion of our proceeds from 2016 dispositions.

We also project that our operating cash flow and available borrowings under the Line of Credit will be sufficient to satisfy our liquidity and other capital needs over the next twelve to eighteen months.

Our long-term liquidity requirements consist primarily of the costs of acquiring additional hotel properties, renovation and other non-recurring capital expenditures that need to be made periodically with respect to hotel properties and scheduled debt repayments. We will seek to satisfy these long-term liquidity requirements through various sources of capital, including borrowings under the Line of Credit and through secured, non-recourse mortgage financings with respect to our unencumbered hotel properties. In addition, we may seek to raise capital through public or private offerings of our securities. Certain factors may have a material adverse effect on our ability to access these capital sources, including our degree of leverage, the value of our unencumbered hotel properties and borrowing restrictions imposed by lenders or franchisors. We will continue to analyze

Table of Contents

which source of capital is most advantageous to us at any particular point in time, but financing may not be consistently available to us on terms that are attractive, or at all.

Spending on capital improvements during the six months ended June 30, 2017 increased when compared to spending on capital improvements during the six months ended June 30, 2016. During the six months ended June 30, 2017, we spent \$22,015 on capital expenditures to renovate, improve or replace assets at our hotels. This compares to \$18,276 during the same period in 2016. These capital expenditures were undertaken to comply with brand mandated improvements and to initiate projects that we believe will generate a return on investment.

We may spend additional amounts, if necessary, to comply with the requirements of any franchise license under which any of our hotels operate and otherwise to the extent we deem such expenditures to be prudent. We are also obligated to fund the cost of certain capital improvements to our hotels. In addition to capital reserves required under certain loan agreements and capital expenditures to renovate, improve or replace assets at our hotels, we have opportunistically engaged in hotel development projects. During the six months ended June 30, 2017, we spent \$1,005 on hotel development projects compared to \$0 during the same period of 2016. We expect to use operating cash flow, borrowings under the Line of Credit, and proceeds from issuances of our securities to pay for the cost of capital improvements and any furniture, fixture and equipment requirements in excess of the set aside referenced above.

CASH FLOW ANALYSIS

(dollars in thousands, except per share data)

Comparison of the Six Months Ended June 30, 2017 and 2016

Net cash provided by operating activities increased \$24,841 from \$42,697 for the six months ended June 30, 2016 to \$67,538 for the comparable period in 2017. Net income, adjusted for non-cash items reflected in the statement of cash flows for the six months ended June 30, 2017 and 2016, increased by \$2,666 for the six months ended June 30, 2017 when compared to 2016, partially driven by reduced costs in areas such as real estate taxes, and stock compensation expenses. Further, a net decrease in working capital assets provided additional cash from operating activities.

Net cash used in investing activities for the six months ended June 30, 2017 was \$69,078 compared to net cash provided by investing activities of \$301,486 for the six months ended June 30, 2016. During the six months ended June 30, 2017, we received \$188,651 in proceeds from the disposition of five hotel properties. Additionally, we

received \$11,623 in proceeds from the sale of our joint venture interest in Mystic Partners. This is compared to \$12,446 in proceeds from the disposition of one hotel and \$428,811 in proceeds received from the contribution of seven hotels to the Cindat joint venture during the six months ended June 30, 2016. Offsetting these sources of funds were \$249,291 for the purchase of three hotel properties during the six months ended June 30, 2017 compared to \$126,245 for the purchase of two hotel properties during the six months ended June 30, 2016.

Net cash used in financing activities for the six months ended June 30, 2017 was \$124,504 compared to net cash used in financing activities for the six months ended June 30, 2016 of \$136,036. This is primarily due to \$121,852 in repayments of mortgages payable offset partially by \$43,900 in borrowings under the unsecured term loan facility during the six months ended June 30, 2017. During the six months ended June 30, 2016, we repaid amounts on the line of credit, unsecured term loan, and mortgages payable of \$131,190. Also during the six months ended June 30, 2016 we redeemed our Series B Preferred Shares in June 2016 for \$115,000 and repurchased \$39,127 of our Class A Common Shares, which were offset by \$186,010 in proceeds from our Series D Preferred Shares. In addition, dividends and distributions paid during the six months ended June 30, 2017 increased \$10,356 when compared to the same period in 2016, due to the increased number of preferred shares outstanding over the comparable period, and the special dividend declared on common shares during the fourth quarter of 2016 that was paid during the first three months of 2017.

OFF BALANCE SHEET ARRANGEMENTS

The Company does not have off balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

FUNDS FROM OPERATIONS

(in thousands, except share data)

The National Association of Real Estate Investment Trusts (“NAREIT”) developed Funds from Operations (“FFO”) as a non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. We calculate FFO applicable to common shares and Common Units in accordance with the April 2002 National Policy Bulletin of NAREIT, which we refer to as the White Paper. The White Paper defines FFO as net income (loss) (computed in accordance with GAAP) excluding extraordinary items as defined under GAAP and gains or losses from sales of previously depreciated assets, plus certain non-cash items, such as loss from impairment of assets and depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Our interpretation of the NAREIT definition is that noncontrolling interest in net income (loss) should be added back to (deducted from) net income (loss) as part of reconciling net income (loss) to FFO. Our FFO computation may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than we do.

The GAAP measure that we believe to be most directly comparable to FFO, net income (loss) applicable to common shareholders, includes loss from the impairment of certain depreciable assets, our investment in unconsolidated joint ventures and land, depreciation and amortization expenses, gains or losses on property sales, noncontrolling interest and preferred dividends. In computing FFO, we eliminate these items because, in our view, they are not indicative of the results from our property operations. We determined that the loss from the impairment of certain depreciable assets including investments in unconsolidated joint ventures and land, was driven by a measurable decrease in the fair value of certain hotel properties and other assets as determined by our analysis of those assets in accordance with applicable GAAP. As such, these impairments have been eliminated from net loss to determine FFO.

FFO does not represent cash flows from operating activities in accordance with GAAP and should not be considered an alternative to net income as an indication of the Company’s performance or to cash flow as a measure of liquidity or ability to make distributions. We consider FFO to be a meaningful, additional measure of operating performance because it excludes the effects of the assumption that the value of real estate assets diminishes predictably over time, and because it is widely used by industry analysts as a performance measure. We show both FFO from consolidated hotel operations and FFO from unconsolidated joint ventures because we believe it is meaningful for the investor to understand the relative contributions from our consolidated and unconsolidated hotels. The display of both FFO from consolidated hotels and FFO from unconsolidated joint ventures allows for a detailed analysis of the operating performance of our hotel portfolio by management and investors. We present FFO applicable to common shares and Common Units because our Common Units are redeemable for common shares. We believe it is meaningful for the investor to understand FFO applicable to all common shares and Common Units.

Table of Contents

The following table reconciles FFO for the periods presented to the most directly comparable GAAP measure, net income, for the same periods (dollars in thousands):

Diluted	44,923,792	46,047,585	44,874,865	46,505,229

(1) Adjustment made to add depreciation of purchase price in excess of historical cost of the assets in the unconsolidated joint venture at the time of our investment.

(2) Adjustment made to add our interest in real estate related depreciation and amortization of our unconsolidated joint ventures. Allocation of depreciation and amortization is consistent with allocation of income and loss.

Based on guidance provided by NAREIT, we have eliminated loss from the impairment of certain depreciable assets, including investments in unconsolidated joint ventures and land, from net loss to arrive at FFO in each year presented.

INFLATION

Operators of hotel properties, in general, possess the ability to adjust room rates daily to reflect the effects of inflation. However, competitive pressures may limit the ability of our management companies to raise room rates.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The estimates and assumptions made by management in applying critical accounting policies have not changed materially during 2017 and 2016 and none of the estimates or assumptions have proven to be materially incorrect or resulted in our recording any significant adjustments relating to prior periods. See Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2016 for a summary of the accounting policies that management believes are critical to the preparation of the consolidated financial statements.

Revenue Recognition

Approximately 100% of our revenues are derived from hotel room revenues and revenue from other hotel operating departments. We directly recognize revenue and expense for all consolidated hotels as hotel operating revenue and hotel operating expense when earned and incurred. These revenues are recorded net of any sales or occupancy taxes collected from our guests. All revenues are recorded on an accrual basis, as earned. We participate in frequent guest programs sponsored by the brand owners of our hotels and we expense the charges associated with those programs, as incurred.

Table of Contents

Other revenues consist primarily of fees earned for asset management services provided to hotels we own through unconsolidated joint ventures. Fees are earned as a percentage of hotel revenue and are recorded in the period earned.

Investment in Hotel Properties

Investments in hotel properties are recorded at cost. Improvements and replacements are capitalized when they extend the useful life of the asset. Costs of repairs and maintenance are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful life of up to 40 years for buildings and improvements, two to seven years for furniture, fixtures and equipment. We are required to make subjective assessments as to the useful lives of our properties for purposes of determining the amount of depreciation to record on an annual basis with respect to our investments in hotel properties. These assessments have a direct impact on our net income because if we were to shorten the expected useful lives of our investments in hotel properties we would depreciate these investments over fewer years, resulting in more depreciation expense and lower net income on an annual basis.

Identifiable assets, liabilities, and noncontrolling interests related to hotel properties acquired in a business combination are recorded at full fair value. Estimating techniques and assumptions used in determining fair values involve significant estimates and judgments. These estimates and judgments have a direct impact on the carrying value of our assets and liabilities which can directly impact the amount of depreciation expense recorded on an annual basis and could have an impact on our assessment of potential impairment of our investment in hotel properties.

Properties intended to be sold are designated as “held for sale” on the balance sheet. In accordance with ASU Update No. 2014-08 concerning the classification and reporting of discontinued operations, we evaluate each disposition to determine whether we need to classify the disposition as discontinued operations. This amendment defines discontinued operations as a component of an entity that represents a strategic shift that has (or will have) a major effect on an entity’s operations and financial results. We anticipate that most of our hotel dispositions will not be classified as discontinued operations as most will not fit this definition.

Based on the occurrence of certain events or changes in circumstances, we review the recoverability of the property’s carrying value. Such events or changes in circumstances include the following:

- a significant decrease in the market price of a long-lived asset;
- a significant adverse change in the extent or manner in which a long-lived asset is being used or in its physical condition;
- a significant adverse change in legal factors or in the business climate that could affect the value of a long-lived asset, including an adverse action or assessment by a regulator;

- an accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of a long-lived asset;
- a current-period operating or cash flow loss combined with a history of operating or cash flow losses or a projection or forecast that demonstrates continuing losses associated with the use of a long-lived asset; and
- a current expectation that, it is more likely than not that, a long-lived asset will be sold or otherwise disposed of significantly before the end of its previously estimated useful life.

We review our portfolio on an on-going basis to evaluate the existence of any of the aforementioned events or changes in circumstances that would require us to test for recoverability. In general, our review of recoverability is based on an estimate of the future undiscounted cash flows, excluding interest charges, expected to result from the property's use and eventual disposition. These estimates consider factors such as expected future operating income, market and other applicable trends and residual value expected, as well as the effects of hotel demand, competition and other factors. If impairment exists due to the inability to recover the carrying value of a property, an impairment loss is recorded to the extent that the carrying value exceeds the estimated fair value of the property. We are required to make subjective assessments as to whether there are impairments in the values of our investments in hotel properties.

As of June 30, 2017, based on our analysis, we have determined that the estimated future cash flow of each of the properties in our portfolio is sufficient to recover its carrying value.

Investment in Joint Ventures

Properties owned in joint ventures are consolidated if the determination is made that we are the primary beneficiary in a variable interest entity (VIE) or we maintain control of the asset through our voting interest or other rights in the operation of the entity. To determine if we are the primary beneficiary of a VIE, we evaluate whether we have a controlling financial interest in that VIE. An enterprise is deemed to have a controlling financial interest if it has i) the power to direct the activities of a VIE

Table of Contents

that most significantly impact the entity's economic performance, and ii) the obligation to absorb losses of the VIE that could be significant to the VIE or the rights to receive benefits from the VIE that could be significant to the VIE. Control can also be demonstrated by the ability of a member to manage day-to-day operations, refinance debt and sell the assets of the partnerships without the consent of the other member and the inability of the members to replace the managing member. This evaluation requires significant judgment.

If it is determined that we do not have a controlling interest in a joint venture, either through our financial interest in a VIE or our voting interest in a voting interest entity, the equity method of accounting is used. Under this method, the investment, originally recorded at cost, is adjusted to recognize our share of net earnings or losses of the affiliates as they occur rather than as dividends or other distributions are received, limited to the extent of our investment in, advances to and commitments for the investee. Pursuant to our joint venture agreements, allocations of profits and losses of some of our investments in unconsolidated joint ventures may be allocated disproportionately as compared to nominal ownership percentages due to specified preferred return rate thresholds.

The Company periodically reviews the carrying value of its investment in unconsolidated joint ventures to determine if circumstances exist indicating impairment to the carrying value of the investment that is other than temporary. When an impairment indicator is present, we will estimate the fair value of the investment. Our estimate of fair value takes into consideration factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. This determination requires significant estimates by management, including the expected cash flows to be generated by the assets owned and operated by the joint venture. Subsequent changes in estimates could impact the determination of whether impairment exists. To the extent impairment has occurred, the loss will be measured as the excess of the carrying amount over the fair value of our investment in the unconsolidated joint venture.

Accounting for Derivative Financial Investments and Hedging Activities

We use derivatives to hedge, fix and cap interest rate risk and we account for our derivative and hedging activities by recording all derivative instruments at fair value on the balance sheet. Derivative instruments designated in a hedge relationship to mitigate exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. We formally document all relationships between hedging instruments and hedged items, as well as our risk-management objective and strategy for undertaking each hedge transaction. Cash flow hedges that are considered highly effective are accounted for by recording the fair value of the derivative instrument on the balance sheet as either an asset or liability, with a corresponding amount recorded in other comprehensive income within shareholders' equity. Amounts are reclassified from other comprehensive income to the income statements in the period or periods the hedged forecasted transaction affects earnings.

Under cash flow hedges, derivative gains and losses not considered highly effective in hedging the change in expected cash flows of the hedged item are recognized immediately in the income statement. For hedge transactions that do not qualify for the short-cut method, at the hedge's inception and on a regular basis thereafter, a formal assessment is performed to determine whether changes in the cash flows of the derivative instruments have been highly effective in offsetting changes in cash flows of the hedged items and whether they are expected to be highly effective in the future.

New Accounting Pronouncements

In February 2017, the FASB issued ASU No. 2017-05, Other Income – Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20). The update defines the term “in substance nonfinancial asset” as it is presented in Subtopic 610-20 as a “financial asset promised to a counterparty in a contract if substantially all of the fair value of the assets that are promised to the counterparty in the contract is concentrated in nonfinancial assets.” As it relates to the Company, real estate, such as land and building, would be considered an example of a nonfinancial asset. Additionally, the update provides guidance over partial sale transactions, particularly, when an entity should derecognize a distinct nonfinancial asset or in substance nonfinancial asset in a partial sale transaction, and the extent of gain that should be recognized as a result of the partial sale transaction. This standard is effective in conjunction with ASU No. 2014-09 (presented below), which is effective for periods beginning after December 15, 2017, however early adoption is permitted. The provisions of this update must be applied at the same time as the adoption of ASU No. 2014-09. The Company is currently evaluating how the provisions of this update affect our adoption of ASU No. 2014-09. See below for our discussion of ASU No. 2014-09 and the effect it will have on our consolidated financial statements and related disclosures.

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, which clarifies the definition of a business as it relates to acquisitions and business combinations. The update adds further guidance that assists preparers in evaluating whether a transaction will be accounted for as an acquisition of an asset or a business. We expect most of our hotel property acquisitions to qualify as asset acquisitions under the standard which permits the capitalization of acquisition costs to the underlying assets. For the six months ended June 30, 2017, the Company incurred

Table of Contents

\$1,824 in acquisition costs that would have been subject to capitalization under this ASU. This standard is effective for periods beginning after December 31, 2017, however early adoption is permitted. The Company is evaluating the ultimate effect that ASU No. 2017-01 will have on our consolidated financial statements and related disclosures.

We adopted ASU No. 2016-09, Improvements to Employee Share-Based Award Payment Accounting, which simplifies various aspects of how share-based payments are accounted for and presented in the financial statements. This standard requires companies to record all of the tax effects related to share-based payments through the income statement, allows companies to elect an accounting policy to either estimate the share based award forfeitures (and expense) or account for forfeitures (and expense) as they occur, and allows companies to withhold a percentage of the shares issuable upon settlement of an award up to the maximum individual statutory tax rate without causing the award to be classified as a liability. The Company has elected to expense forfeitures of share-based award as they occur as our accounting policy. The adoption of ASU No. 2016-09 had no material impact on our consolidated financial statements and related disclosures.

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows (Topic 230), which provides guidance on the presentation of restricted cash or restricted cash equivalents within the statement of cash flows. Accordingly, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. This standard is effective for the Company for periods beginning after December 15, 2017. The adoption of ASU No. 2016-18 will change the presentation of the statement of cash flows for the Company and we will utilize a retrospective transition method for each period presented within financial statements for periods subsequent to the date of adoption

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which provides the principles for the recognition, measurement, presentation and disclosure of leases. The accounting for lessors will remain largely unchanged from current GAAP; however, the standard requires that certain initial direct costs be expensed rather than capitalized. Under the standard, lessees apply a dual approach, classifying leases as either finance or operating leases. A lessee is required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months, regardless of their lease classification. Based on the review of our leases, we are a lessee on ground leases in certain markets, hotel equipment leases, and office space leases. We are also a lessor in certain office space and retail lease agreements related to our hotels. While we do not anticipate any material change to the accounting for leases under which we are a lessor, we are still evaluating the impact, if any, this ASU will have on the accounting for our leasing arrangements as well as our disclosures within the notes to our financial statements. This standard will be effective for the first annual reporting period beginning after December 15, 2018. The Company is evaluating the effect that ASU No. 2016-02 will have on its consolidated financial statements and related disclosures.

On May 28, 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it

becomes effective. We are evaluating each of our revenue streams and related accounting policy under the standard. The new standard is effective for the Company on January 1, 2018. Early adoption is permitted, but not prior to the original effective date of January 1, 2017. The standard permits the use of either the retrospective or cumulative effect transition method. Based on our analysis to date, we do not expect the new revenue recognition model to have a material impact on our hotel operating revenue, including room revenue, food and beverage, and other revenue, however, our final evaluation has not been concluded. Our evaluation under the standard also includes sales to third parties, primarily a result of dispositions of real estate. Our evaluation over sales of real estate is continuing and will be impacted by the FASB definition of a business and in substance nonfinancial assets, which have recently been addressed through the issuance of ASU No. 2017-01 and ASU No. 2017-05, respectively. The Company continues to evaluate the ultimate effect that ASU No. 2014-09 will have on its consolidated financial statements and related disclosures.

Item 3. Quantitative and Qualitative Disclosures About Market Risk (in thousands, except per share data)

Our primary market risk exposure is to changes in interest rates on our variable rate debt. As of June 30, 2017, we are exposed to interest rate risk with respect to variable rate borrowings under our Credit Facility, Second and Third Term Loans and certain variable rate mortgages and notes payable. As of June 30, 2017, we had total variable rate debt outstanding of \$723,789 with a weighted average interest rate of 3.43%. The effect of a 100 basis point increase or decrease in the interest rate on our variable rate debt outstanding as of June 30, 2017 would be an increase or decrease in our interest expense for the three and six months ended June 30, 2017 of \$1,810 and \$3,615.

Our interest rate risk objectives are to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, we manage our exposure to fluctuations in market interest rates for a portion of our borrowings through the use of fixed rate debt instruments to the extent that reasonably favorable rates are obtainable with such arrangements. We have also entered into derivative financial instruments such as interest rate swaps or caps, and in the future may enter into treasury options or locks, to mitigate our interest rate risk on a related financial instrument or to effectively lock the interest rate on a portion of our variable rate debt. As of June 30, 2017, we have an interest rate cap related to debt on the Hyatt Union Square, New York, NY and Courtyard, LA Westside, Culver City, CA, and we have four interest rate swaps related to debt on the Hilton Garden Inn, 52nd Street, New York, NY, and our Second and Third Term Loans. We do not intend to enter into derivative or interest rate transactions for speculative purposes.

As of June 30, 2017, approximately 41% of our outstanding consolidated long-term indebtedness is subject to fixed rates or effectively capped, while 59% of our outstanding long term indebtedness is subject to floating rates, including borrowings under our Credit Facility, and First Term Loan.

Changes in market interest rates on our fixed-rate debt impact the fair value of the debt, but such changes have no impact on interest expense incurred. If interest rates rise 100 basis points and our fixed rate debt balance remains constant, we expect the fair value of our debt to decrease. The sensitivity analysis related to our fixed-rate debt assumes an immediate 100 basis point move in interest rates from their June 30, 2017 levels, with all other variables held constant. A 100 basis point increase in market interest rates would cause the fair value of our fixed-rate debt outstanding at June 30, 2017 to be approximately \$1,044,918 and a 100 basis point decrease in market interest rates would cause the fair value of our fixed-rate debt outstanding at June 30, 2017 to be approximately \$1,076,584.

We regularly review interest rate exposure on our outstanding borrowings in an effort to minimize the risk of interest rate fluctuations. For debt obligations outstanding as of June 30, 2017, the following table presents expected principal repayments and related weighted average interest rates by expected maturity dates:
