For Release: 25 February 2004

ANZ confirms 2004 earnings outlook

ANZ today issued a shareholder update confirming it is on track to achieve earnings growth for full year 2004 in line with market expectations of around 9% cash earnings per share growth.* This excludes expenditure on the integration of The National Bank of New Zealand, which is expected to be concentrated in 2005 rather than this year.

ANZ Chief Executive Officer Mr John McFarlane said: ANZ is performing well despite interchange reform, rising interest rates and the strengthening Australian dollar. Our progress demonstrates the quality of our underlying businesses, a strong performance culture and the strength of the Australian and New Zealand economies.

We are very pleased with our acquisition of The National Bank of New Zealand which is transformational and accretive for the Group. Customer attrition has been negligible and there have been no material financial or risk surprises.

The acquisition creates the leading banking franchise in all segments in New Zealand, which is an attractive low risk market, and improves the sustainability of the Group's business mix. It enriches our capabilities in retail banking, rural banking and small to medium business, which have not been areas of traditional strength in the Group. Integration planning is well advanced. As we anticipated, the regulatory and technology aspects are complex. We continue to expect cost synergies from integration however our main focus continues to be customer retention, franchise development and growth. Our ANZ branded business in New Zealand continues to improve.

Credit cards have performed above expectations despite the impact of Reserve Bank of Australia reforms. We are seeing progress in Personal Banking in Australia where recent Roy Morgan research showed ANZ ahead of the other major banks in customer satisfaction but still below some of the regional banks and our own expectations. The ING joint venture has continued to show improved performance. Strong demand in Mortgages however has been offset by the impact of rising interest rates on mortgage margins. Corporate and Small Business are performing well while in Institutional Financial Services overall performance has been flat, driven primarily by the continued reduction of non-core lending which has reduced higher risk revenue streams.

We have moved to increase costs as we invest in the customer franchise while maintaining our cost-income ratio at or below 45%.

In 1998 we began a journey to improve the quality of earnings by reducing risk, particularly by withdrawing from high-risk international markets, and reducing credit concentrations and market risk. As a result, the expected credit loss rate has been reduced and ANZ now has above average trading earnings, yet with the lowest traded value at risk of the major banks, Mr McFarlane said.

^{*} Excludes goodwill, net gains arising from significant transactions relating to hybrid capital and adjusting for the bonus element of the rights issue

Business Segment Update

Consumer Finance. Our credit card business is performing well. Changes to our loyalty programs made in early November following the reforms introduced by the Reserve Bank were well managed and customer reaction has been more positive than we expected. As planned, the changes have moderated transaction use on loyalty cards and this, assisted by ANZ s partnership with Diners Club Australia, is significantly lowering overall loyalty expenses.

Corporate and Small-Medium Business. The Corporate and SME banking businesses are performing strongly. The middle market and SME sector in Australia remains relatively buoyant and ANZ s lending volumes at the end of January 2004 were up by more than 20% on January 2003. We are continuing to grow market share in the SME segment as we invest in growth initiatives such as an increased geographic footprint, broker channels and new services such specialist franchisee banking.

Institutional Financial Services. The performance of this business has been relatively flat. In the half to date this has been driven primarily by the continued de-risking of the non-core lending portfolio, leading to a reduction in higher risk revenue streams, and the impact of the stronger Australian dollar. Transaction Services is expected to improve from a subdued second half in 2003. While Institutional Banking is starting to see improved lending opportunities, the benefits are more likely to be seen in the second half.

Personal Banking Australia. The business is performing well assisted by the rising interest rate environment, good deposit growth, strong mortgage sales and some increase in customer numbers. Deposit products are continuing to perform well with volumes at the end of January 2004 up 10% on January 2003.

Mortgages. As expected in a rising interest rate environment profit will be down as very strong volume growth has been more than offset by margin pressure. Volumes have remained strong with January 2004 FUM up 20% on January 2003. More recently there has been a modest slowing in approvals, although this is partly seasonal.

New Zealand. Our New Zealand businesses are performing in line with expectations - earnings are up materially following the acquisition of The National Bank of New Zealand. We have been encouraged by the initial staff and customer reaction to the acquisition. NBNZ has not experienced any adverse trend in customer attrition to date while ANZ New Zealand is performing strongly following a successful brand advertising campaign. Integration planning is well advanced. ANZ will provide an update to the market on its New Zealand businesses on 11 March 2004.

Asset Finance. As expected, the performance of Asset Finance is relatively flat. Car sales are beginning to slow

although the business is continuing to benefit from its new business model and market leadership position.

Wealth Management. ING Australia, ANZ s wealth management joint venture, continues to improve its performance and the momentum in this business is encouraging. Retail FUM grew by 15.8% during the year to December 2003 compared with an industry average growth rate of 13.5% based on Assirt data.

Credit Quality. Credit quality continues to improve and we are anticipating expected loss rates and specific provision levels to be lower. Domestic credit quality continues to be sound, reflecting the strength of the Australian and New Zealand economies. Arrears levels in our consumer businesses remain at very low levels. Specific provisions from the offshore investment banking portfolio have been low in the half to date. As foreshadowed at our 2003 full-year results, the de-risking in the offshore portfolio and stabilisation of credit conditions may lead to a reduction in the additional economic loss provision charge which has been recognised for the past two years in response to the unexpected level of offshore defaults.

ANZ will report its Interim Results for the period ended 31 March 2004 in Sydney on 27 April 2004.

NEWS RELEASE
Sydney, Australia Monday 1 March 2004
ING Australia posts 50% increase in net profit
Australia s fourth largest retail fund manager and life insurer, owned 51% by ING Group and 49% by ANZ, has posted a 50% increase* in net profit after tax to \$215.4 million for the year ended December 2003.
ING Australia reduced its total expenses by 12.5 per cent to \$394.5 million, well ahead of the target outlined at the time of its formation as a joint venture on 1 May 2002.
Highlights were a strong profit result across the life risk portfolio and a rebound in investment earnings.
Paul Bedbrook, who took over as CEO in July 2003 said:
It s a good result in what has been a challenging operating environment. Given that investment markets and investor sentiment are recovering are now well positioned for future growth. Our improved financial management means that any business growth should directly improve the bottom line.
Since the joint venture was formed we have held market share, substantially reduced our cost base and integrated the respective ING and ANZ operations. This has been achieved through a period of volatile investment markets, low investor confidence and substantial regulatory change.
We are now developing a strong channel distribution focus to better leverage our distribution strengths. With a very strong brand, full service capability, and ability to distribute through the bank network, our own dealer groups, other dealer groups and the so-called boutique planner groups, we are well placed for the future.

Our challenge now is to continue to drive efficiencies throughout the company and work closely with our major distribution partners to grow the business.

Other 2003 business highlights included:

Launched ANZ OneAnswer investment, superannuation and retirement income product suite in June 2003

Very strong inflows of ANZ loan-linked insurance

Transition of ANZ multi-manager funds to ING s multi-manager Optimix, which now has \$4 billion in funds under management and has been included on all major ING and ANZ product platforms

Reorganised sales and distribution structure to leverage major distribution channels

Developed new business model and reorganised ING-owned dealer groups

Strengthened risk management and prepared for licensing under the new Financial Services Regime

Established common employment terms and conditions for staff from both ING and ANZ under a new Certified Agreement

Press enquiries: ING Australia

Stephen Sinclair, Corporate Communications Manager, Ph. 02 9234 8468

stephen.sinclair@ing.com.au

Note to the editor: * All financial results comparisons to the previous year 2002 are based on annualised results for the eight months following the joint venture s formation on 1 May 2002.

About ING

ING Australia Limited (ING Australia) is one of Australia s leading fund managers and life insurers with over \$38 billion in assets under management and 2,000 staff. ING Australia is a joint venture between the global ING Group, which owns 51%, and one of Australia s major banks, ANZ, which owns 49%.

ING Australia provides a broad range of financial products and services through an extensive network of professional financial advisers and financial institutions, including its own financial advice groups.

ING Group is one of the world s largest wealth managers with more than 60 million customers, \$800 billion in assets under management and 115,000 staff. ING Group s global head office is in Amsterdam, The Netherlands, with operational headquarters around the world including Sydney, Australia.

New Zealand operations update highlights

ANZ today held a New Zealand Operations Briefing in Auckland to update the market on its recent acquisition of The National Bank of New Zealand (NBNZ) and the performance of its New Zealand businesses.

Managing Director of ANZ New Zealand and Chief Executive of The National Bank of New Zealand, Sir John Anderson said: We are already seeing how well the dual brand and integration strategy is working with momentum in lending, new customers and high levels of staff satisfaction.

Key points of the briefing hosted by ANZ Chief Financial Officer, Mr Peter Marriott, and Sir John Anderson were:

ANZ reconfirmed its strong earnings momentum with Group earnings for 2004 expected to be in line with expectations of around 9% cash earnings per share growth. Credit quality is continuing to improve assisted by lower specific provisions in the Group s offshore portfolio.

Protecting and building the Group s franchise in New Zealand is central to integration planning following the acquisition of NBNZ with a very strong focus on customers and customer satisfaction. Integration is targeted for completion by the end of 2005.

Momentum in New Zealand lending in 2003(1) has continued in early 2004 following the removal of uncertainty regarding the acquisition and management actions to rebuild and grow market share. Total lending by NBNZ grew at 10.5%, above industry growth of 10% for the year ended December 2003. After two years of relatively flat lending growth, total lending by ANZ New Zealand grew at 6% as ANZ s program of management actions began to take effect.

NBNZ has continued to experience growth in net customer numbers in January and February 2004. This reflects a positive staff and customer reaction to the dual-branding strategy following an initial post-acquisition slow-down in growth in November and December 2004. ANZ customer acquisition has continued to show some weakness however management actions have been put in place to reinvest in the brand over the longer term including staff training programs and a new ANZ brand advertising campaign launched late in 2003.

Staff satisfaction(2) at ANZ New Zealand has improved from 78% in February 2003 to 86% in February 2004 while NBNZ s high level of staff satisfaction has been maintained at 85%. This reflects the removal of uncertainty following the acquisition, enthusiasm about the dual brand structure and the retention of an experienced management team across both franchises.

Despite acquisition uncertainties during 2003, NBNZ recorded a strong underlying performance in the year ended December 2003 with net profit after tax up 12.3% excluding pro-forma and acquisition adjustments. NBNZ s earnings for the period were released today in NBNZ s General Disclosure Statement, which were impacted, by acquisition adjustments and accounting policy changes to conform to ANZ Group standards.

⁽¹⁾ December 2003 General Disclosure Statements

⁽²⁾ ANZ Snapshot Survey and NBNZ Viewpoint Survey.

Mr Marriott said the acquisition of The National Bank of New Zealand had been transforming for ANZ creating the leading bank in New Zealand at a good price.

In the three months since completion overall customer attrition has been negligible, there have been no material financial or risk surprises and we have continued to be impressed by the quality of the business, he said.

Sir John Anderson said customer and staff reaction to the acquisition, including the dual-branding strategy, had been very positive after some natural initial apprehension.

We are now over initial concerns about the acquisition and we are focussing on developing our franchise while carefully integrating the two businesses. It is very pleasing to see the evidence of this now showing through in lending growth, customer acquisition and staff satisfaction.

We are working though our integration planning and our next step is to commence detailed discussions on technology with the Reserve Bank of New Zealand, Sir John said.

Details of the presentations made at today s briefing can be found at www.anz.com. A financial update on integration will be provided at ANZ s Interim Results in Sydney on 27 April 2004.

N Z I		
New Zealand Operational Briefing		
New Zealand Economic Review		
John McDermott		
Chief Economist, NBNZ		
	3	

The NZ economy: a quiet success over the last decade			
But this economic strength is not just a new phenomenon. Apart from 97/98 drought and the fallout from the economic cycle has been close to that of Australia s over the past decade.	Asian	crisis, New Zealand s	
Source: Stats NZ, Gross Domestic Product, RBA, Gross Domestic Product			
4			

NZ has been one of the leading economies over the past 10 years	
When compared other advanced countries over the past decade, New Zealand has been in the top half, in terms of economic growth.	
Source: OECD	
5	•

The rural sector is a key driver of the New Zealand economy
The direct contribution of New Zealand s rural sector to the rest of the economy is approximately 13%. However, the indirect and induced contribution is about this much again, illustrating the significance of the rural sector to New Zealand s economic performance.
Source: Statistics NZ, Gross Domestic Product
6

The size of the primary sectors in Australia and New Zealand are similar in contribution to total output. But the mix of commodities with two are very different.	n the
the de very different.	
Source: Reserve Bank of Australia	
7	

Therefore, commodity prices are a prime driver of the economy
From late-1999 the value of New Zealand s commodity basket rose strongly in world price terms. Higher commodity prices benefited rural incomes, which in turn initiated a strong economic expansion. A low exchange rate over 1999 to 2003 accentuated this boom.
Source: ANZ, NZ Commodity Price Index
8

Employment growth has been supported by the commodity boon	1
With rising incomes and a low currency (making labour relatively ch communities fed through into the remainder of New Zealand. This communities fed through into the remainder of New Zealand.	eap when compared to imported capital), the prospering rural and business ontributed to rising employment levels.
Source: Statistics NZ, Household Labour Force Statistics	
	9

Strong job prospects made NZ an attractive destination as well as a good place to stay			
Strong economic growth has made finding new employees increasingly difficult for employers, despite a surge in the number migrants adding to			
the size of the labour force.			
Source: Stats NZ, External Migration, NZIER, Survey of Business Opinion			
10			

which has fuelled strong housing demand			
The surge in the number of net migrants to historical highs has pushesteeply.	ed up the demand for housing.	Consequently, the price of houses has risen	
Source: QVNZ			
	11		

and thus contributed to an expansion in credit growth		
Higher demand for housing and upgrading requires furnishing	s. Thus, householders	credit has also grown strongly over the past 18 months.
Source: RBNZ, Private sector credit ex repos		
	12	

The outlook is that eventually the strength of the NZ dollar relative to the US dollar will slow the economy	
The exchange rate acts as a buffer on the economy. As economic growth has risen above trend, so the exchange has risen above it s estimated (fair value). This appreciation will act as a anchour for growth, pulling economic growth back towards average levels.	ite o
Source: NBNZ. Fair value is based on a model of economic fundamentals, such as commodity prices, terms of trade, current account balan and interest rate differentials.	ісе
13	

and a more normal, but still robust, growth rate will return
The reversion to trend is also anticipated in specific, but high profile, indicators. Dairy Company payouts gain significant local media attentias the rural sector is such a large component of the New Zealand economy. Although dairy payouts are expected to fall in 2005, the payment are back at more normal levels, following surges in 2001 and 2002.

Summary

The NZ economy has been one of the world s leading economies over the last decade

NZ is a low risk economy

Strong commodity prices have been a prime driver of economic growth

A strong employment market has fuelled increased housing demand driving recent credit growth

Government spending on infrastructure is expected to support economic activity

The NZ economy is coming off a cyclical boom and reverting back to normal but still robust growth levels

11 March 2004	
New Zealand	
Operational Briefing	
Introduction	
Peter Marriott	
Chief Financial Officer	
19	

ANZ	s strong	earnings	momentum

FY04 earnings is in line with expectations of around 9% cash EPS growth*

Strong performance across our portfolio of specialist businesses

Credit quality continues to improve assisted by low specific provisions in our offshore portfolio

Cost to income ratio at or below 45% - increasing investment in our customer franchise

^{*} Excludes goodwill, net gains arising from significant transactions relating to hybrid capital and adjusting for the bonus element of the rights issue.

ANZ - Specialist capabilities; Leading market positions

ANZ has a strong platform for the future:

This platform is building a leading franchise:

Unique specialisation strategy

The leading bank in New Zealand

Sustainable business portfolio The leading bank in the South Pacific

World leading efficiency The leading Australasian bank in Asia

First mover cultural transformation Leading positions in Australia:

Stable, well-regarded management Institutional

Reduced risk exposure Corporate

NBNZ acquisition is a key step towards domestic leadership Cards

Esanda

National Bank of New Zealand: A very different acquisition

Transforming for ANZ at a modest price
New Zealand - a high return, low risk market
Creates the leading bank in New Zealand
Approx. 28% of ANZ NPAT now derived from NZ
Business model developed to leverage the best of both banks
Dual brand strategy and integration designed to minimise customer attrition
Working closely with RBNZ to meet its requirements for the banking industry
Initial customer and staff reaction more positive than expected
Financial update on integration on 27 th April

Core Banking

Excelling in Customer Service

Relationship Banking

Consistent Brand Values

Leveraging NZ scale to drive efficient infrastructure

^{*}Source - ACNielsen Consumer Finance Monitor

NBNZ has undergone a significant transformation consistent with our focus

NBNZ market share has grown from 9% in 1990 to 21% in 2003

driven by a combination of acquisition and market share growth

We have a proven track record of successful integrations

We have successfully integrated both Rural Bank and Countrywide

Since 1998, following the integration of Countrywide we have grown Market Share

We have driven substantial income growth (CAGR 8.3% 1998-2003) whilst significantly reducing Cost to Income

	NBNZ/CW Pro-forma* 1998	NBNZ Actual** 2003
Income	966	1,441
Costs	610	584
Provisions	33	34

30			

and we are seeing a positive trend in terms of net customer acquisition

Our people are engaged, and satisfaction levels are strong

Satisfaction levels measured in February 2004 remain strong after a period of uncertainty

Our people are enthusiastic about the dual branding structure

Appointment of Sir John Anderson has been well received

We have devoted substantial resources to engaging staff in both banks:

significant investment in change management training for staff and managers

implemented intensive two-way communication processes to keep staff fully informed

staff satisfaction survey completed, and ongoing pulse surveys

E	Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K
Sased on ANZ Si	Snapshot Survey and NBNZ Viewpoint Survey

Summary

We have a clear strategic focus

NBNZ has a strong financial track record

We have a history of successful integrations

Customer and growth trends are encouraging

Our people are engaged

A history of success, and well placed to deliver into the future

11 March 2004	
New Zealand	
Operational Briefing	
Retail Banking	
Henry Ford	
General Manager, Branch Network NBNZ	
	34

ANZ and NBNZ are well po	ositioned in th	he retail ban	king market
--------------------------	-----------------	---------------	-------------

ANZ and NBNZ Retail Banking

Provides services to all customers of the Bank

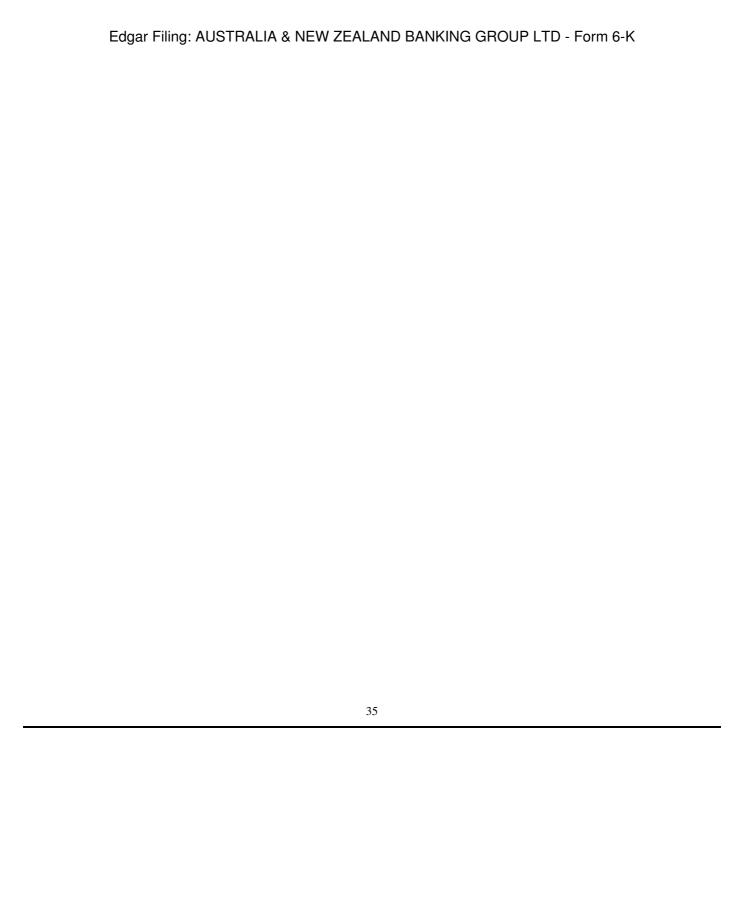

Delivers full suite of retail banking products including Credit Cards and Insurance

Combined group has 1.9m retail customers

Includes 303 branches and 3 contact centres

including 8 specialist face to face outlets that deliver sales in Mall hours

We employ 5300 staff

NBNZ branches a distinctive proposition

NBNZ Retail Banking has experienced strong growth
We have consistently grown Home Loan FUM
Growth in last 12 months slightly below market
Slowdown in deposit growth in line with market
Retail deposits up 5.6% in year to January 04, against market growth of 5.2%

Edgar Filing:	AUSTRALIA &	NEW ZEALAND	BANKING	GROUP LTD) - Form 6-K

We have a track record in growing market share

# - 5 month period			
	20		
	38		

Strong staff satisfaction has significantly influenced customer satisfaction
Staff satisfaction in the retail bank continues to reach record levels
All components of the business delivering increased satisfaction levels
NBNZ continues to hold a market leading position in customer satisfaction
ANZ making strong increases in customer satisfaction

*Source ACNielsen Consumer Finance Monitor, based on calendar year

A simple but effective strategy

A combined focus on staff, customer and processes ensures a successful strategy

STAFF	CUSTOMERS PROCESS	
Recruit the right staff to deliver NBNZ service proposition complaints resolution	Detailed understanding of customer behaviour	Strong focus on customer service programs, including
Identify and nurture effective leaders patterns	Strategy tailored to exploit behavioural	Significant investment in capacity planning, to ensure staff never over burdened
Investment in staff skills development	Seamless customer service between channels	
Remuneration tied to skills level, team <i>and</i> individual performance	Customer ownership at point of contactno historic ownership	Do not try and deliver too much ensuring superior service
Focus is upon sincerity of service	Understand and meet customer requirements	Understand and control our environment
	40	

Well positioned to overcome our integration challenges

Our focus is to minimise disruption to maximise retention

Risks	Key Focus	Opportunities
Customers	Two brand strategy will ensure minimal disruption to customer service	Two brands ongoing shared learning
	Current strategy not impacted by integration	Shared access to infrastructure i.e. ATM s

		Provide genuine choice to customers
Staff	Minimal impact of staff.	Leverage off training programs and remuneration and incentive structures
	Frontline staff unchanged.	
	Strategic focus on right people and nurturing leaders unchanged	Career development opportunities within ANZ group
Processes	Detailed planning and testing to ensure that systems and process changes have minimal business impact	Common banking operations and support functions generating cost savings
	41	

Summary

A distinctive and market leading franchise

A simple, well executed strategy delivering results

A track record in growing market share

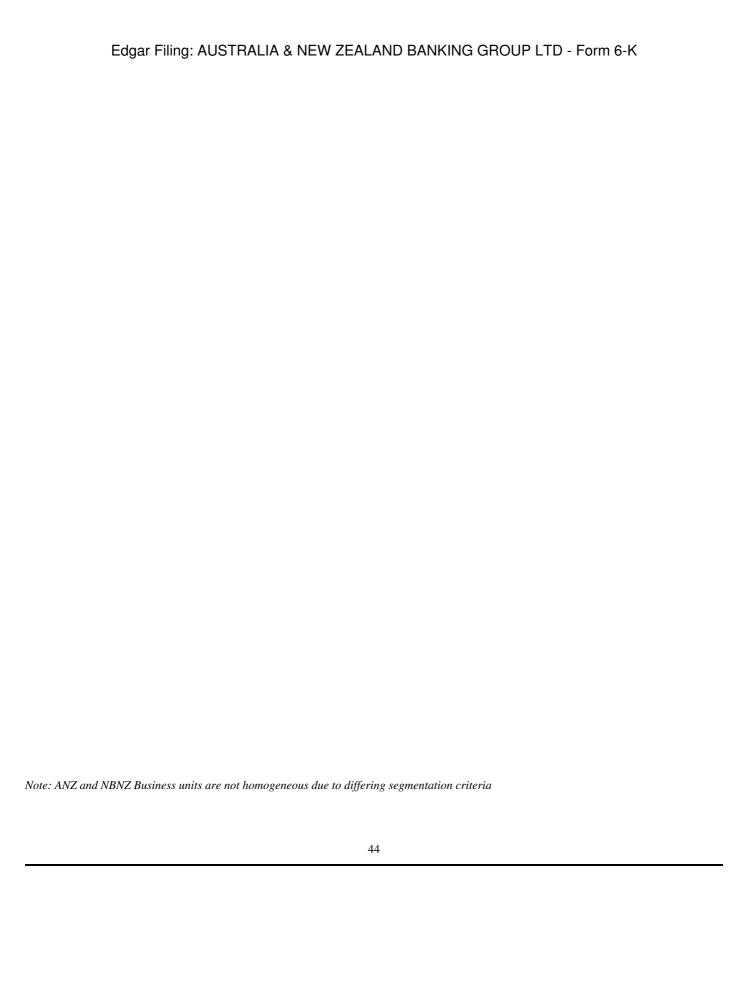

A distinctive retail franchise, well placed to continue growing

We focus on our people, who in turn deliver the highest level of customer satisfaction

The integration plan and business model going forward will maximise revenue opportunities

Helping business succeed

Franchise Investment

Constant re-engineering of systems and processes

Significant investment in marketing and promotional material

We are well positioned to deal with integration challenges and take advantage of the opportunities that arise

Risks	Key focus	Opportunities
Customers	Retain two brand strategy	Bringing NBNZ s customer focus to a wider ANZ customer base
	Separate integration from business as Minimise change at frontline and	Extending our market reach through a two brands strategy at customer touch points
	retain relationships where possible Ensure key messages are communicated	Enhanced product choice
Staff	One Leadership structure and common core values across both brands Keep staff informed Provide clear direction, personal development and career opportunities Sharing of expertise across brands	Staff development through skills transfer Further investment in staff - increase headcount and level of expertise
Processes	Identify and implement best practise from both businesses Work collaboratively with all service providers	Leveraging best systems and processes enhancing customer service Knowledge sharing with Australian business to ensure industry best practice
	48	

Summary

The Business/SME market is a growing, highly attractive market

NBNZ has a leading position in this market, ANZ has seen improvement from a low base

Our success driven by a superior customer service proposition and ensuring staff are highly skilled and satisfied

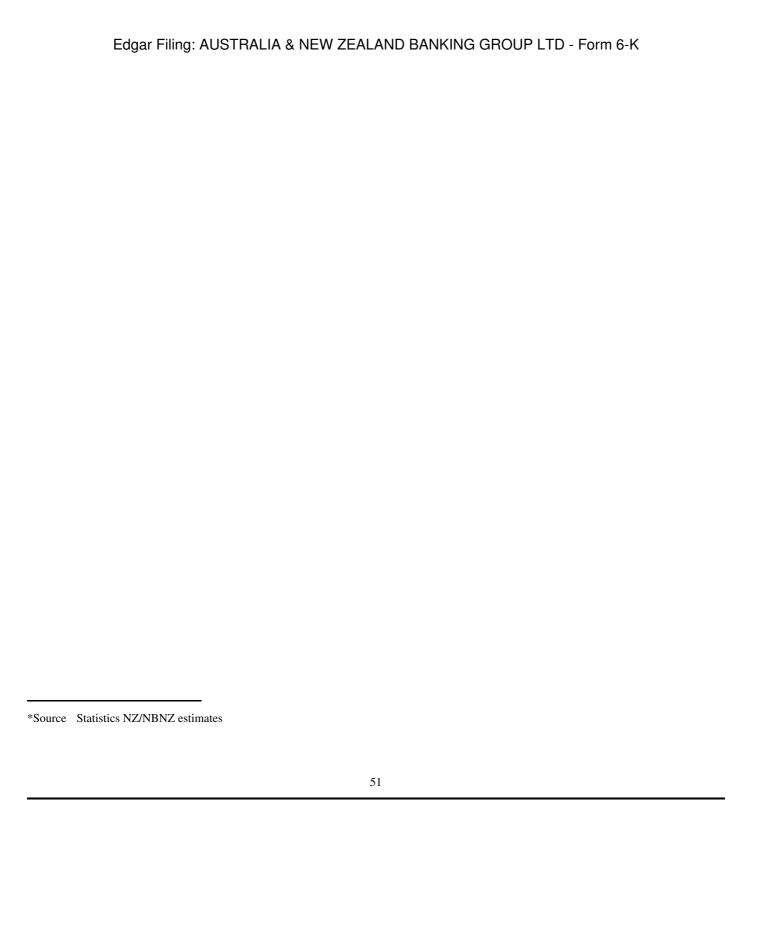

We are aware of the challenges posed by the integration, and have clear plans to deal with them

The integration presents some exciting opportunities for the business

The outlook for the sector is positive and we are well placed to benefit

11 March 2004	
New Zealand	
Operational Briefing	
Rural Banking	
Charlie Graham	
General Manager, Rural Banking	
	50

The rural sector is a large component of the NZ economy
ANZ & NBNZ Representation
Combined, ANZ & NBNZ consists
19,500 customers in all major geographic segments
28 points of representation
357 fulltime employees
344 front line staff
ANZ & NBNZ Sector Concentration
ANZ and NBNZ have strong representation in the Dairy, Sheep and Beef industries
Sector concentrations reflect the national agricultural debt profile

NBNZ has strong financial momentum; ANZ performing well from low base
*ANZ Rural business was combined with retail in 2001, rural specific metrics were not available
52

NBNZ	s strong market presence justifies a single brand model
	NDNZ is a clear mortest leader with strong sector momentum
	NBNZ is a clear market leader with strong sector momentum
	ANZ market share lags
	Single brand franchise most feasible option

Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K
Both NBNZ and ANZ seeing increased customer satisfaction
Level of excellent service increasing for both franchises
*Source ACNielsen Rural Banking Monitor
53

ANZ customers will benefit from NBNZ s proven successful strategy

STAFF	CUSTOMERS	PROCESS
Recruit people with empathy for the rural sector	Strong, personalised customer relationships,	A strong credit culture and robust processes resulting in minimal provisions
Highly trained sales and support staff	Delivering high customer satisfaction	Innovative products and services
Specialisation of staff roles where required	Ensuring minimal customer attrition	Targeted marketing
		Market information leads to sales competitiveness
Staff who understand the sector	Knowing the customer	Benefits of scale
	54	

We are well positioned to deal with integration challenges and take advantage of the opportunities that arise

Risks	Key focus	Opportunities
Customers	Clearly defined single brand model (NBNZ) ensures rapid integration, minimising customer impact	ANZ customers will benefit from NBNZ s service proposition and sector experience
	Relationship staff continue to look after their customers	Single brand generates synergy benefits and greater efficiency
	Consistent approach to credit policy	
Staff	One leadership structure	Staff to benefit from increased scale and presence
	Clear sense of purpose and direction	Increased potential for training and knowledge sharing
	Comprehensive training for all staff to be implemented as part of the integration process	
Processes	Utilisation of NBNZ operating model and processes	More volume going through established infrastructure
	55	

Sumn	ıarv
Juilli	ıaı y

The rural sector is a large component of the NZ economy

NBNZ is the market leader in this segment with 38% market share; combined market share will be 45%*

NBNZ success driven by strong customer relationships and developing highly skilled staff

Through the rapid adoption of the NBNZ model we are well positioned to overcome any integration challenges

Continued business momentum

* Source: RBNZ M3

11 March 2004	
New Zealand Operational Briefing	
Integration	
Grahame Miller	
Head of Integration	
	57

Integration i	s focused on	creating the	leading	bank in N	ew Zealand

We have found the right partner at an attractive price

Post merger management is our key focus

A 1% change in revenue is equivalent to ~20% of cost synergies* protecting and building the franchise is critical

Our integration objectives reflect this, with a very strong focus on the customer

Source: A. T. Kearney Global PMI Survey (1998)

^{*} Based on prospectus cost synergies

The customer is at the heart of our integration objectives

Integration Objectives

Customers

Retain the combined customer base and market share, by leveraging the strengths of both organisations Achieve market leading customer satisfaction ratings across all brands

Key Principles

In decision trade-offs regard for the customer will be the overriding principle

Staff

Create the best possible place to work

Employees will be treated in an open and honest fashion and will be kept informed of the progress of the integration

Shareholders

base

Integrate the businesses <u>carefully</u> and as quickly as possible, targeting integration by end 2005

Deliver the maximum revenue and cost synergies possible, without disruption to the customer

Deliver a cost effective platform

Pursue practical solutions that achieve rapid results whilst maintaining quality objectives

A business as usual focus

A	number	of	key	milestones	have	been	achieved
---	--------	----	-----	------------	------	------	----------

- 1. **Program Management** process and infrastructure established
- 2. Organisational Structure key management for the merged entity has been designated
- 3. **Business Model** agreement and buy-in from new management on new business model
- **Technology** choice of systems agreed and communicated; integration planning underway
- **5. Integration Planning** high level planning complete. Direction agreed on business model, structures, key people, technology set, products, customer segmentation, etc. Detailed planning well advanced (due for completion in April). Implementation can proceed upon receipt of RBNZ approval to amalgamate.

60

Full integration on track for second half 2005

Targeted Timeline

Acquisition announced	Acquisition completed	Workstream planning completed	Legal amalgamation (subject to Reserve Bank approval)	Non technology integration completed	Systems conversion complete
Workstreams mobilised	Transitional management structure announced		Management Integrated	Complete systems detail design	All business integration complete
	Integration principles agreed with regulator		NZ Board(s) approves integration and strategic plan	Complete non-customer systems integration	
	Integrated with group financial accounting processes		Group Board meeting in NZ- review integration plan		
			61		

Dialogue with the RBNZ continues

RBNZ powers

The RBNZ gained new regulatory powers in late 2003

These powers apply to the banking industry broadly, not just ANZ/NBNZ. For ANZ, the primary issue is the RBNZ concern about hollowing out

Amalgamation the next step

The next step to progressing integration is to obtain RBNZ approval for Amalgamation . Legal amalgamation is an important step, with the RBNZ restricting any substantial merging activities prior to amalgamation

We are about to commence detailed discussions with the RBNZ on technology and are confident our approach will meet their needs

We will be ready to amalgamate as soon as RBNZ approval is obtained

RBNZ requirements

RBNZ has stated that prior to approving amalgamation they want a significant level of comfort in four areas:

Outsourcing/ Off-shore provision of functions and systems

Director & Senior Appointments

Governance

Capital Requirements

These are industry issues, and would need to be dealt with in any case by ANZ and NBNZ irrespective of the merger

Edgar Filing: AUSTRALIA & NEW ZEALAND BANK	KING GROUP LTD - Form 6-K

Technology represents the core component of integration costs				
* Indicative, and subject to finalisation of integration plans				
63				

Decisions on technology reflect trade-offs between potential cost synergies and capabilities needed to build franchise

Systems to be ANZ core suite eg Hogan

New Zealand version of ANZ core suite will accommodate product and customer features of NBNZ systems to minimise customer disruption

We will retain a number of NBNZ front end systems to minimise staff and customer impact eg internet banking, DirectLink, SDA branch system

Where appropriate, we will roll these systems out to the ANZ network, to maximise inter-operability

Decisions involve trade- offs between maximising cost synergies and maximising revenue synergies

Success of the integration is far more heavily leveraged to revenue maximisation, and decisions reflect this

1% revenue growth equivalent to ~20% cost synergies

Summary

Integration is focused on the customer, and we have been successful to date

Focus is growing revenue

We are well advanced in planning

This integration is different

Next milestone is legal amalgamation

We have a team that has demonstrated success in managing integrations, while growing revenue

Including Acquisition Adjustments

NPAT	NZ\$296m	large
	67	

Adjustments to results to reflect underlying	performance
--	-------------

NBNZ s December 2003 GDS results are impacted by the following:

1. Completion Accounts

A number of adjustments were agreed as part of the Share Sale Agreement. These adjustments impact NBNZ s profit and loss in the period to 31 December 2003

2. Fair Value Adjustments

As a result of the sale, the fair value of all assets and liabilities of NBNZ was reviewed by ANZ. This resulted in a number of fair value adjustments that have been posted in the NBNZ accounts

The fair value adjustments impacted NBNZ s December 2003 reported financial performance. However, on consolidation into ANZ (NZ) these fair value changes are reversed out of the profit and loss statement, and shown as balance sheet adjustments to goodwill

3. One off transactions during the year

Significant one off transactions have been adjusted so underlying performance is clear. These are as per the prospectus plus one off items in the fourth quarter

4. Accounting Policy Changes

NBNZ s accounting policies have been brought into line with ANZ group policies

Strong underlying performance impacted by fair value adjustments

NBNZ accounting adjustments

*booked to NBNZ s profit and loss prior to completion	

NBNZ accounting policy changes
NBNZ have made the following significant accounting policy changes to align with ANZ policies:
Economic Loss Provisioning
The adoption of ELP methodology for recognition of loan losses. The ELP charge for NBNZ for December 2003 is 25 basis points.
Mortgage Broker Commissions
Commissions paid to third party mortgage originators will be capitalised and amortised over the average life of the mortgage loan, currently 4 years. NBNZ has been expensing these commissions up front.
Forecast benefit in FY04 is estimated at NZ\$11 million before tax.
Note - all changes are consistent with New Zealand and ANZ group accounting standards.

Conclusion

NBNZ acquisition is transforming for ANZ creating New Zealand s leading bank		
A different type of acquisition focus is on customers		
Customer attrition has been negligible		
Staff satisfaction at both banks is high		
Key foundation for a successful acquisition: the right partner at a fair price		
Detailed integration planning is well-progressed with a number of key milestones achieved		
We are confident our approach will meet the RBNZ s requirements		
We will be ready to amalgamate as soon as RBNZ approval is received
