INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

Note 1 - Basis of Presentation

The accounting and reporting policies of International Bancshares Corporation (Corporation) and Subsidiaries (the Corporation and Subsidiaries collectively referred to herein as the Company) conform to accounting principles generally accepted in the United States of America and to general practices within the banking industry. The consolidated financial statements include the accounts of the Corporation and its wholly-owned subsidiaries, International Bank of Commerce, Laredo (IBC), Commerce Bank, International Bank of Commerce, Zapata, International Bank of Commerce, Brownsville and the Corporation's wholly-owned non-bank subsidiaries, IBC Subsidiary Corporation, IBC Life Insurance Company, IBC Trading Company, and IBC Capital Corporation, as well as the GulfStar Group in which the Company owns a controlling interest. All significant inter-company balances and transactions have been eliminated in consolidation. The consolidated financial statements are unaudited, but include all adjustments, which, in the opinion of management, are necessary for a fair presentation of the results of the periods presented. All such adjustments were of a normal and recurring nature. It is suggested that these financial statements be read in conjunction with the financial statements and the notes thereto in the Company's latest Annual Report on Form 10K. The consolidated statement of condition at December 31, 2005 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. Certain reclassifications have been made to make prior periods comparable.

The Company operates as one segment. The operating information used by the Company's chief executive officer for purposes of assessing performance and making operating decisions about the Company is the consolidated statements presented in this report. The Company has four active operating subsidiaries, namely, the bank subsidiaries, otherwise known as International Bank of Commerce, Laredo, Commerce Bank, International Bank of Commerce, Zapata and International Bank of Commerce, Brownsville. The Company applies the provisions of SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, in determining its reportable segments and related disclosures. None of the Company's other subsidiaries meets the 10% threshold for disclosure under SFAS No. 131.

All per share data presented has been restated to reflect the stock splits effected through stock dividends, Note 8.

Note 2 Loans

Loans, net of unearned discount	\$	4,647,153	\$	4,625,692

Note 3 Stock Options

On April 1, 2005, the Board of Directors adopted the 2005 International Bancshares Corporation Stock Option Plan (the 2005 Plan). The 2005 Plan replaced the 1996 International Bancshares Corporation Key Contributor Stock Option Plan (the 1996 Plan). Under the 2005 Plan both qualified incentive stock options (ISOs) and non-qualified stock options (NQSOs) may be granted. Options granted may be exercisable for a period of up to 10 years from the date of grant, excluding ISOs granted to 10% shareholders, which may be exercisable for a period of up to only five years. Through March 31, 2006, 110,950 shares were available for future grants under the 2005 Plan.

Through March 31, 2006, the Company has granted non-qualified stock options exercisable for a total of 167,847 shares, adjusted for stock dividends, of Common Stock to certain employees of the GulfStar Group. The grants were not made under either the 1996 Plan or the 2005 Plan. The options are exercisable for a period of seven years and vest in equal increments over a period of five years. All options granted to the GulfStar Group employees had an option price of not less than the fair market value of the Common Stock on the date of grant.

On January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards No. 123R, (SFAS No. 123R), Share-Based Payment, (Revised 2004). SFAS No. 123R sets accounting requirements for share-based compensation to employees and non-employee directors, including employee stock purchase plans, and requires companies to recognize in the statement of operations the grant-date fair value of stock options and other equity-based compensation.

The Company chose the modified-prospective transition alternative in adopting SFAS 123R. Under the modified-prospective transition method, compensation cost is recognized in financial statements issued subsequent to the date of adoption for all stock-based payments granted, modified or settled after the date of adoption, as well as for any unvested awards that were granted prior to the date of adoption.

The fair value of each option award is estimated on the date of grant using a Black-Scholes-Merton option valuation model that uses the assumptions noted in the following table. Expected volatility is based on the historical volatility of the price of the Company's stock. The Company uses historical data to estimate the expected dividend yield and employee termination rates within the valuation model. The expected term of options is derived from the simplified method as prescribed by SEC Staff Accounting Bulletin No. 107. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The fair value of the options granted in 2005 were estimated using the Black-Scholes-Merton option-pricing model based on the assumptions in the following table. Through March 31, 2006, no new options were granted.

	Three Months Ended March 31,	
	2006	2005
Expected term (in years)		5.5
Expected stock price volatility		25%
Expected dividend yield		2.5%
Forfeiture rate		10%
Risk free interest rate		3.72%

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

A summary of option activity under the stock option plans for the three months ended March 31, 2006 is as follows:

	Number of options	Weighted average exercise price	Weighted average remaining contractual term (years)	Aggregate intrinsic value (\$)
Options outstanding at December 31, 2005	1,626,155	\$ 16.55		
Plus: Options granted				
Less:				
Options exercised	65,598	10.81		
Options expired				
Options forfeited	10,860	28.63		
Options outstanding at March 31, 2006	1,549,697	\$ 16.71	3.42	\$ 18,967,000
Options fully vested and exercisable at March 31, 2006	1,017,706	\$ 11.84	1.76	\$ 17,239,000

Stock-based compensation expense included in the consolidated statements of income for the three months ended March 31, 2006 was approximately \$234,000. As of March 31, 2006 there was approximately \$2,284,000 of total unrecognized stock-based compensation cost related to non-vested options granted under our plans that will be recognized over a weighted average period of 2.6 years.

A summary of the status of the Company's non-vested options as of March 31, 2006, and changes during the three months ended March 31, 2006, is presented below:

Non-vested Options	Options	Weighted average grant-date fair value (\$)
Non-vested options at December 31, 2005	546,942	\$ 7.52
Granted		
Vested	4,091	8.84
Forfeited	10,860	7.40
Non-vested options at March 31, 2006	531,991	\$ 7.52

Other information pertaining to option activity during the three month period ending March 31, 2006 and March 31, 2005 is as follows:

	Three Months Ended March 31,	
	2006	2005
Weighted average grant date fair value of stock options granted		\$ 8.76
Total fair value of stock options vested	\$ 36,174	\$ 28,280
Total intrinsic value of stock options exercised	\$ 1,202,000	\$ 2,317,000

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

Awards granted prior to the Company's adoption of SFAS No. 123R were accounted for under the recognition and measurement principles of APB Opinion 25, Accounting for Stock Issued to Employees, and related interpretations. Accordingly, no stock-based employee compensation cost is reflected in net income in the accompanying unaudited consolidated statements of income for the three months ended March 31, 2005 because all options granted under the Company's plans had exercise prices equal to the market value of the underlying common stock on the date of grant.

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

Pro forma net income and net income per share, as if the Company had applied the fair value recognition provisions of SFAS 123 to stock-based compensation for the period presented prior to the Company's adoption of SFAS 123R is as follows:

Three Months Ended 2005 (Dollars in Thousands, except per share data)		
Net income, as reported	\$	37,660
Deduct: Total stock-based compensation expense determined under the fair value based method for all awards, net of tax related tax effects		(70)
Pro forma net income	\$	37,590
Earnings per share:		
Basic earnings		
As reported	\$.59
Pro forma		.59
Diluted earnings		
As reported	\$.58
Pro forma		.58

Note 4 - Investment Securities

The Company classifies debt and equity securities into one of three categories: held-to maturity, available-for-sale, or trading. Such classifications are reassessed for appropriate classification at each reporting date. Securities classified as held-to-maturity are carried at amortized cost for financial statement reporting, while securities classified as available-for-sale and trading are carried at their fair value. Unrealized holding gains and losses are included in net income for those securities classified as trading, while unrealized holding gains and losses related to those securities classified as available-for-sale are excluded from net income and reported net of tax as other comprehensive income (loss) and accumulated other comprehensive income (loss) until realized.

A summary of the investment securities held for investment and securities available-for-sale as reflected on the books of the Company is as follows:

	March 31, 2006	December 31, 2005
	(Dollars in Thousands)	
U.S. Treasury securities		
Available-for-sale	\$ 1,298	\$ 1,298
Mortgage-backed securities		
Available-for-sale	4,323,948	4,148,844
States and political subdivisions		
Available-for-sale	97,766	99,557
Other		
Held-to-maturity	2,375	2,375

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

Available-for-sale	17,381	17,253
Total investment securities	\$ 4,442,768	\$ 4,269,327

Note 5 - Allowance for Possible Loan Losses

A summary of the transactions in the allowance for possible loan losses is as follows:

	March 31, 2006	March 31, 2005
	(Dollars in Thousands)	
Balance at December 31,	\$ 77,796	\$ 84,905
Losses charged to allowance	(5,631)	(1,231)
Recoveries credited to allowance	333	565
Net losses charged to allowance	(5,298)	(666)
Provisions charged to operations	597	2,610
Balance at March 31,	\$ 73,095	\$ 86,849

Impaired loans are those loans where it is probable that all amounts due according to contractual terms of the loan agreement will not be collected. The Company has identified these loans through its normal loan review procedures. Impaired loans are measured based on (1) the present value of expected future cash flows discounted at the loan's effective interest rate; (2) the loan's observable market price; or (3) the fair value of the collateral if the loan is collateral dependent. Substantially all of the Company's impaired loans are measured at the fair value of the collateral. In limited cases the Company may use other methods to determine the level of impairment of a loan if such loan is not collateral dependent.

The following table details key information regarding the Company's impaired loans:

	March 31, 2006	December 31, 2005
	(Dollars in Thousands)	
Balance of impaired loans where there is a related allowance for loan loss	\$ 32,084	\$ 34,796
Balance of impaired loans where there is no related allowance for loan loss		
Total impaired loans	\$ 32,084	\$ 34,796
Allowance allocated to impaired loans	\$ 16,615	\$ 20,014

The impaired loans included in the table above were primarily comprised of collateral dependent commercial loans, which have not been fully charged off. The average recorded investment in impaired loans was \$29,477,000 and \$29,909,000 for March 31, 2006 and December 31, 2005, respectively. The interest recognized on impaired loans was not significant. The increases in losses charged to allowance can be attributed to a charge of \$5,000,000 related to a loan acquired from the purchase of Local Financial Corporation (LFIN).

Management of the Company recognizes the risks associated with these impaired loans. However, management's decision to place loans in this category does not necessarily mean that losses will occur.

The bank subsidiaries charge off that portion of any loan which management considers to represent a loss as well as that portion of any other loan which is classified as a loss by bank examiners. Commercial and industrial or real estate loans are generally considered by management to represent a loss, in whole or part, when an exposure beyond any collateral coverage is apparent and when no further collection of the loss portion is anticipated based on the borrower's financial condition and general economic conditions in the borrower's industry. Generally, unsecured consumer loans are charged-off when 90 days past due.

While management of the Company considers that it is generally able to identify borrowers with financial problems reasonably early and to monitor credit extended to such borrowers carefully, there is no precise method of predicting loan losses. The determination that a loan is likely to be un-collectible and that it should be wholly or partially charged-off as a loss is an exercise of judgment. Similarly, the determination of the adequacy of the allowance for possible loan losses can be made only on a subjective basis. It is the judgment of the Company's management that the allowance for possible loan losses at March 31, 2006 was adequate to absorb probable losses from loans in the portfolio at that date.

Note 6 Other Borrowed Funds

Other borrowed funds include Federal Home Loan Bank borrowings, which are short or long term, variable or fixed borrowings issued by the Federal Home Loan Bank of Dallas at the market price offered at the time of funding. These borrowings are secured by mortgage-backed investment securities and a portion of the Company's loan portfolio. At March 31, 2006, other borrowed funds totaled \$1,815,074,000, a decrease of 2.9% from \$1,870,075,000 at December 31, 2005.

Note 7 Junior Subordinated Deferrable Interest Debentures

The Company has formed eight statutory business trusts under the laws of the State of Delaware, for the purpose of issuing trust preferred securities. As part of the LFIN acquisition, the Company acquired three additional statutory business trusts previously formed by LFIN for the purpose of issuing trust preferred securities. The eight statutory business trusts formed by the Company and the three business trusts acquired in the LFIN transaction (the "Trusts") have each issued Capital and Common Securities and invested the proceeds thereof in an equivalent amount of junior subordinated debentures (the "Debentures") issued by the Company or LFIN, as appropriate. The Company has succeeded to the obligations of LFIN under the LFIN Debentures, which have an outstanding principal balance of \$62,115,000. The Debentures will mature on various dates; however the Debentures may be redeemed at specified prepayment prices, in whole or in part after the optional redemption dates specified in the respective indentures or in whole upon the occurrence of any one of certain legal, regulatory or tax events specified in respective indentures. As of March 31, 2006, the principal amount of debentures outstanding totaled \$236,538,000.

In March 2005, the Federal Reserve Board issued a final rule that would continue to allow the inclusion of trust preferred securities in Tier 1 capital, but with stricter quantitative limits. Under the final rule, after a transition period ending March 31, 2009, the aggregate amount of trust preferred securities and certain other capital elements would be limited to 25% of Tier 1 capital elements, net of goodwill, less any associated deferred tax liability. The amount of trust preferred securities and certain other elements in excess of the limit could be included in Tier 2 capital, subject to restrictions. Bank holding companies with significant international operations will be expected to limit trust preferred securities to 15% of Tier 1 capital elements, net of goodwill; however, they may include qualifying mandatory convertible preferred securities up to the 25% limit. The Company believes that substantially all of the \$236,538,000 will be included in Tier 1 capital after the five-year transition period ending March 31, 2009.

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

The following table illustrates key information about each of the Capital and Common Securities and their interest rate at March 31, 2006:

	Junior Subordinated Deferrable Interest Debentures (in thousands)	Repricing Frequency	Interest Rate	Interest Rate Index	Maturity Date	Optional Redemption Date
Trust I	\$ 10,226	Fixed	10.18%	Fixed	June 2031	June 2011
Trust II	\$ 25,774	Semi-Annually	7.67%	LIBOR + 3.75	July 2031	July 2006
Trust III	\$ 34,021	Semi-Annually	8.42%	LIBOR + 3.75	December 2031	December 2006
Trust IV	\$ 22,602	Semi-Annually	8.15%	LIBOR + 3.70	April 2032	April 2007
Trust V	\$ 20,469	Quarterly	7.80%	LIBOR + 3.65	July 2032	July 2007
Trust VI	\$ 25,549	Quarterly	7.79%	LIBOR + 3.45	November 2032	November 2007
Trust VII	\$ 10,310	Quarterly	7.50%	LIBOR + 3.25	April 2033	April 2008
Trust VIII	\$ 25,472	Quarterly	7.20%	LIBOR + 3.05	October 2033	October 2008
LFIN Trust I	\$ 41,495	Fixed	9.00%	Fixed	September 2031	September 2006
LFIN Trust II	\$ 10,310	Semi-Annually	7.55%	LIBOR + 3.625	July 2032	July 2007
LFIN Trust III	\$ 10,310	Quarterly	7.79%	LIBOR + 3.45	November 2032	November 2007
	\$ 236,538					

Note 8 Common Stock and Cash Dividends

All per share data presented has been restated to reflect the stock splits effected through stock dividends, which became effective May 2, 2005 and were paid on May 28, 2005. Cash dividends of \$.35 per share were paid on May 1, 2006 to all holders of record on April 17, 2006.

The Company expanded its formal stock repurchase program on March 9, 2006. Under the expanded stock repurchase program, the Company is authorized to repurchase up to \$200,000,000 of its common stock through December 2006. Stock repurchases may be made from time to time, on the open market or through private transactions. Shares repurchased in this program will be held in treasury for reissue for various corporate purposes, including employee stock option plans. As of May 1, 2006, a total of 4,644,272 shares had been repurchased under this program at a cost of \$173,029,000. Stock repurchases are reviewed quarterly at the Company's Board of Directors meetings and the Board of Directors has stated that the aggregate investment in treasury stock should not exceed \$220,973,000. In the past, the Board of Directors has increased previous caps on treasury stock once they were met, but there are no assurances that an increase of the \$220,973,000 cap will occur in the future. As of May 1, 2006, the Company has approximately \$194,002,000 invested in treasury shares, which amount has been accumulated since the inception of the Company.

Note 9 - Commitments, Contingent Liabilities and Other Tax Matters

The Company is involved in various legal proceedings that are in various stages of litigation. Some of these actions allege lender liability claims on a variety of theories and claim actual and punitive damages. The Company has determined, based on discussions with its counsel that any material loss in such actions, individually or in the aggregate, is remote or the damages sought, even if fully recovered, would not be considered material to the consolidated financial position or results of operations of the Company. However, many of these matters are in various stages of proceedings and further developments could cause management to revise its assessment of these matters.

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

The Company's lead bank subsidiary has invested in partnerships, which have entered into several lease-financing transactions. The lease-financing transactions in two of the partnerships have been examined by the Internal Revenue Service (IRS). In both partnerships, the lead bank subsidiary was the owner of a ninety-nine percent (99%) limited partnership interest. The IRS has issued separate Notice of Final Partnership Administrative Adjustments (FPAA) to the partnerships and on September 25, 2001, and January 10, 2003, the Company filed lawsuits contesting the adjustments asserted in the FPAA's.

Prior to filing the lawsuits the Company was required to deposit the estimated tax due of approximately \$4,083,000 with respect to the first FPAA, and \$7,710,606 with respect to the second FPAA, with the IRS pursuant to the Internal Revenue Code. If it is determined that the amount of tax due, if any, related to the lease-financing transactions is less than the amount of the deposits, the remaining amount of the deposits would be returned to the Company.

In order to curtail the accrual of additional interest related to the disputed tax benefits and because interest rates were unfavorable, on March 7, 2003, the Company submitted to the IRS a total of approximately \$13.7 million which constitutes the interest that would have accrued based on the adjustments proposed in the FPAA's related to both of the lease-financing transactions. If it is determined that the amount of interest due, if any, related to the lease-financing transactions is less than the approximate \$13.7 million, the remaining amount of the prepaid interest would be refunded to the Company, plus interest thereon.

Beginning August 29, 2005, IBC proceeded to litigate one of the partnership tax cases in the Federal District Court in San Antonio, Texas. On March 31, 2006, the trial court rendered a judgment against the Company on the first FPAA.

The Company, through December 31, 2005, had previously expensed approximately \$12,000,000 in connection with the lawsuits. Because of the above-referenced trial court judgment against the Company on the first FPAA, the uncertainty of the outcome at the appellate level, and the similarity between the two FPAA's, the Company, as of March 31, 2006, has expensed an additional \$13,700,000, approximately. The resultant approximately \$25,700,000 expensed is the total of the tax adjustments due and the interest due on such adjustments for both FPAA's. Management intends to appeal the judgment in the first case and will continue to evaluate the merits of each lawsuit and make any appropriate revisions to the amounts, as deemed necessary.

As part of the LFIN acquisition, the Company acquired two tax matters. The first relates to deductions taken on amended returns filed by LFIN during 2003 for the tax years ended June 30, 1999 through December 31, 2001. The refunds requested on the amended returns amounted to approximately \$7,000,000. At December 31, 2003, LFIN had received approximately \$2,000,000 of the total refund requested. Because all the refunds are under review by the IRS, LFIN had established a reserve equal to the \$2,000,000 received and did not recognize any benefit for the remaining \$5,000,000. The second tax contingency, which is also approximately \$7,000,000, relates to permanent differences applicable to prior periods taken as deductions in 2002 and received by LFIN during 2003. LFIN had recorded a reserve equal to the amounts received pending final resolution with the IRS. Both reserves are included in the current income taxes payable of the Company. The Company will continue to monitor the IRS reviews.

Note 10 Capital Ratios

The Company had a leverage ratio of 7.28% and 7.26%, risk-weighted Tier 1 capital ratio of 13.01% and 12.97% and risk-weighted total capital ratio of 14.24% and 14.22% at March 31, 2006 and December 31, 2005, respectively. The identified intangibles and goodwill of \$327,269,000 as of March 31, 2006, recorded in connection with the acquisitions made by the Company, are deducted from the sum of core capital elements when determining the capital ratios of the Company. The Company actively monitors the regulatory capital ratios to ensure that the Company's bank subsidiaries are well capitalized under the regulatory framework.

In March 2005, the Federal Reserve Board issued a final rule that would continue to allow the inclusion of trust preferred securities in Tier 1 capital, but with stricter quantitative limits. Under the final rule, after a transition period ending March 31, 2009, the aggregate amount of trust preferred securities and certain other capital elements would be limited to 25% of Tier 1 capital elements, net of goodwill, less any associated

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

deferred tax liability. The amount of trust preferred securities and certain other elements in excess of the limit could be included in Tier 2 capital, subject to restrictions. Bank holding companies with significant international operations will be expected to limit trust preferred securities to 15% of Tier 1 capital elements, net of goodwill; however, they may include qualifying mandatory convertible preferred securities up to the 25% limit.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

Special Cautionary Notice Regarding Forward Looking Information

Certain matters discussed in this report, excluding historical information, include forward-looking statements, within the meaning of Section 27A of the Securities Exchange Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to the safe harbor created by these sections. Although the Company believes such forward-looking statements are based on reasonable assumptions, no assurance can be given that every objective will be reached. The words estimate, expect, intend, believe and project, as well as other words or expressions of a similar meaning are intended to identify forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this report. Such statements are based on current expectations, are inherently uncertain, are subject to risks and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors.

Factors that could cause actual results to differ materially from any results that are projected, forecasted, estimated or budgeted by the Company in forward-looking statements include, among others, the following possibilities:

Changes in interest rates and market prices, which could reduce the Company's net interest margins, asset valuations and expense expectations.

Changes in the capital markets utilized by the Company and its subsidiaries, including changes in the interest rate environment that may reduce margins.

Changes in state and/or federal laws and regulations to which the Company and its subsidiaries, as well as their customers, competitors and potential competitors, are subject, including, without limitation, changes in the accounting, tax and regulatory treatment of trust preferred securities, as well as changes in banking, tax, securities, insurance and employment laws and regulations.

Changes in U.S. - Mexico trade, including, without limitation, reductions in border crossings and commerce resulting from the Homeland Security Programs called US-VISIT, which is derived from Section 110 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.

The loss of senior management or operating personnel.

Increased competition from both within and outside the banking industry.

Changes in local, national and international economic business conditions that adversely affect the Company's customers and their ability to transact profitable business with the Company, including the ability of its borrowers to repay their loans according to their terms or a change in the value of the related collateral.

The timing, impact and other uncertainties of the Company's potential future acquisitions including the Company's ability to identify suitable potential future acquisition candidates, the success or failure in the integration of their operations and the Company's ability to maintain its current branch network and to enter new markets successfully and capitalize on growth opportunities.

Changes in the Company's ability to pay dividends on its Common Stock.

The effects of the litigation and proceedings pending with the Internal Revenue Service regarding the Company's lease financing transactions.

Additions to the Company's loan loss allowance as a result of changes in local, national or international conditions which adversely affect the Company's customers.

Political instability.

Technological changes.

Acts of war or terrorism.

The effect of changes in accounting policies and practices as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standards setters.

It is not possible to foresee or identify all such factors. The Company makes no commitment to update any forward-looking statement, or to disclose any facts, events or circumstances after the date hereof that may affect the accuracy of any forward-looking statement, unless required

by law.

Overview

The Company, which is headquartered in Laredo, Texas, with more than 200 facilities and more than 330 ATMs, provides banking services for commercial, consumer and international customers of South, Central and Southeast Texas and the State of Oklahoma. The Company is the one of the largest independent commercial bank holding companies headquartered in Texas. The Company, through its bank subsidiaries, is in the business of gathering funds from various sources and investing those funds in order to earn a return. The Company either directly or through a bank subsidiary owns two insurance agencies, a broker/dealer and a majority interest in an investment banking unit that owns a broker/dealer. The Company's primary earnings come from the spread between the interest earned on interest-bearing assets and the interest paid on interest-bearing liabilities. In addition, the Company generates income from fees on products offered to commercial, consumer and international customers.

The Company is very active in facilitating trade along the United States border with Mexico. The Company does a large amount of business with customers domiciled in Mexico. Deposits from persons and entities domiciled in Mexico comprise a large and stable portion of the deposit base of the Company's bank subsidiaries. The Company also serves the growing Hispanic population through the Company's facilities located throughout South, Central and Southeast Texas and the State of Oklahoma.

Expense control is an essential element in the Company's long-term profitability. As a result, one of the key ratios the Company monitors is the efficiency ratio, which is a measure of non-interest expense to net-interest income plus non-interest income. Except for the current quarter, the Company's efficiency ratio has been under 55% for each of the last five years, which the Company's review indicates is better than average compared to its national peer group. The Company's efficiency ratio has increased over the last few years because of the Company's aggressive branch expansion which have added 34 branches in 2005 and 2006. The efficiency ratio for the first quarter of 2006 was negatively affected by the \$8.9 million, net of tax, expense recognized as part of the tax litigation. During rapid expansion periods, the Company's efficiency ratio will suffer but the long term benefits of the expansion should be realized in future periods and the benefits should positively impact the efficiency ratio in future periods.

Results of Operations

Summary

Consolidated Statements of Condition Information

	March 31, 2006	December 31, 2005	Percent Increase (Decrease)
	(Dollars in Thousands)		
Assets	\$ 10,482,202	\$ 10,391,853	.9%
Net loans	4,574,058	4,547,896	.6
Deposits	6,778,354	6,656,426	1.8
Other borrowed funds	1,815,074	1,870,075	(2.9)
Junior subordinated deferrable interest debentures	236,538	236,391	.1
Shareholders' equity	802,232	792,867	1.2

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

	Quarter Ended March 31, 2006		Quarter Ended March 31, 2005	Percent Increase (Decrease)
	(in Thousands)			
Interest income	\$ 142,317	\$	118,319	20.3%
Interest expense	68,004		41,206	65.0

Net income	23,975		37,660	(36.3)
Per common share:				
Basic	\$.38	\$.59	(35.6)%
Diluted	.37		.58	(36.2)

Net Income

Net income for the first quarter of 2006 declined by 36.3% as compared to the first quarter of 2005. Net income for the first quarter 2006 was negatively impacted by a \$8,866,000, net of tax, charge to operations as a result of the loss of a IRS tax lawsuit that was litigated during the third quarter of 2005 in the Federal District Court in San Antonio, Texas and that relates to certain leasing transactions previously discussed in Footnote 17 of the Notes to Consolidated Financial Statements set forth in the Company's 2005 Annual Report. Because of the trial court judgment, uncertainty of the outcome at the appellate level and the similarity between the litigated lawsuit and one that is pending, the Company took the \$8,866,000 million charge, net of tax. Net income for the first quarter 2005 was positively impacted by a \$4,786,000 million distribution, net of tax, from the January, 2005 merger of the PULSE EFT Association with Discover Financial Services, a business unit of Morgan Stanley. The Company, as a member of the PULSE EFT Association, received the distribution based in part upon its volume of transactions through the PULSE network.

Net Interest Income

	Quarter Ended March 31, 2006	Quarter Ended March 31, 2005	Percent Increase (Decrease)
	(in Thousands)		
Interest income:			
Loans, including fees	\$ 90,402	\$ 79,825	13.3%
Federal funds sold	1,376	567	142.7
Investment securities:			
Taxable	49,256	36,513	34.9
Tax-exempt	1,172	1,217	(3.7)
Other interest income	111	197	(43.7)
Total interest income	142,317	118,319	20.3
Interest expense:			
Savings deposits	8,904	5,474	62.7
Time deposits	26,199	14,480	80.9

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

Securities sold under repurchase agreements	7,872	5,448	44.5
Other borrowings	20,005	11,604	72.4
Junior subordinated interest deferrable debentures	5,024	4,200	19.6
Total interest expense	68,004	41,206	65.0
Net interest income	\$ 74,313	\$ 77,113	(3.6)

Net interest income is the spread between income on interest earning assets, such as loans and securities, and the interest expense on liabilities used to fund those assets, such as deposits, repurchase agreements and funds borrowed. Net interest income is the Company's largest source of revenue. Net interest income is affected by both changes in the level of interest rates and changes in the amount and composition of interest earning assets and interest bearing liabilities.

As part of its strategy to manage interest rate risk, the Company strives to manage both assets and liabilities so that interest sensitivities match. One method of calculating interest rate sensitivity is through gap analysis. A gap is the difference between the amount of interest rate sensitive assets and interest rate sensitive liabilities that re-price or mature in a given time period. Positive gaps occur when interest rate sensitive assets exceed interest rate sensitive liabilities, and negative gaps occur when interest rate sensitive liabilities exceed interest rate sensitive assets. A positive gap position in a period of rising interest rates should have a positive effect on net interest income as assets will re-price faster than liabilities. Conversely, net interest income should contract somewhat in a period of falling interest rates. Management can quickly change the Company's interest rate position at any given point in time as market conditions dictate. Additionally, interest rate changes do not affect all categories of assets and liabilities equally or at the same time. Analytical techniques employed by the Company to supplement gap analysis include simulation analysis to quantify interest rate risk exposure. The gap analysis prepared by management is reviewed by the Investment Committee of the Company twice a year (see table on page 24 for the March 31, 2006 gap analysis). Management currently believes that the Company is properly positioned for interest rate changes; however if management determines at any time that the Company is not properly positioned, it will strive to adjust the interest rate sensitive assets and liabilities in order to manage the effect of interest rate changes.

Non-Interest Income

	Quarter Ended March 31, 2006	Quarter Ended March 31, 2005	Percent Increase (Decrease)
	(in Thousands)		
Service charges on deposit accounts	\$ 20,998	\$ 20,045	4.8%
Other service charges, commissions and fees			
Banking	6,928	6,045	14.6
Non-banking	3,989	1,632	144.4
Investment securities transactions, net		(26)	(100.0)
Other investments, net	4,573	4,417	3.5
Other income	4,130	10,310	(59.9)
Total non-interest income	\$ 40,618	\$ 42,423	(4.3)

The increase in non-banking service charges, commissions and fees in the first quarter 2006 can be attributed to additional income recognized by the Company's investment services unit. Other income for the first quarter of 2005 reflects a gain of \$7,363,000 from a distribution resulting from the January 2005 merger of the PULSE EFT Association with Discover Financial Services, a business unit of Morgan Stanley. Members of the PULSE EFT Association received these distributions based in part upon their volume of transactions through the PULSE network.

Non-Interest Expense

	Quarter Ended March 31, 2006 (in Thousands)	Quarter Ended March 31, 2005	Percent Increase (Decrease)
Employee compensation and benefits	\$ 29,472	\$ 27,475	7.3%
Occupancy	6,242	5,448	14.6
Depreciation of bank premises and equipment	6,744	5,710	18.1
Professional fees	2,931	3,208	(8.6)
Stationery and supplies	1,558	1,367	14.0
Amortization of identified intangible assets	1,217	1,298	(6.2)
Advertising	2,956	2,786	6.1
Other	27,737	12,732	117.9
Total non-interest expense	\$ 78,857	\$ 60,024	31.4

The increase in other expense for the first quarter of 2006 can be attributed to \$13,640,000 paid to the IRS in connection with the tax lawsuits (See Note 9 to the consolidated financial statements). Non-interest expense was also negatively affected by the aggressive de novo branching activity that has added 34 new branches in 2005 and 2006 and because of a flattened yield curve.

Financial Condition**Allowance for Possible Loan Losses**

The allowance for possible loan losses decreased 6.0% to \$73,096,000 at March 31, 2006 from \$77,796,000 at December 31, 2005. The provision for possible loan losses charged to expense decreased 77.1% to \$597,000 for the quarter ended March 31, 2006 from \$2,610,000 for the same quarter in 2005. The decrease in the provision for possible loan losses charged to expense can be attributed to the lack of substantial growth in the loan portfolio. The allowance for possible loan losses was 1.6% of total loans, net of unearned income, at March 31, 2006 and 1.7% at December 31, 2005.

Investment Securities

Investment securities increased 4.1% to \$4,442,768,000 at March 31, 2006, from \$4,269,327,000 at December 31, 2005.

Loans

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

Loans, net of unearned discounts increased .5% to \$4,647,153 at March 31, 2006, from \$4,625,692 at December 31, 2005. The increase occurred despite the decline of loans as a result of the Company's strategy to reduce the exposure to certain loan categories that Local Financial Corporation (LFIN) employed prior to the acquisition by the Company. LFIN had a national real estate group that loaned funds throughout the United States and after extensive review by the Company, the Company concluded the national real estate group goals were not consistent with the Company's loan origination goals that emphasize risk, pricing and the desire to lend primarily in the markets that the company occupies.

Deposits

Deposits increased 1.8% to \$6,778,354 at March 31, 2006, from \$6,656,426 at December 31, 2005. The increase in deposits is primarily the result of the Company's internal sales programs to organically grow deposits. As a result of the LFIN acquisition, the Company strategically reduced certain deposit categories of LFIN such as brokered deposits and certain public fund deposits because of the high expense associated with those types of funding. The Company has not traditionally sought brokered deposits as a funding source and the Company has not aggressively pursued public fund deposits because of the lack of relationships those deposits carry.

Foreign Operations

On March 31, 2006, the Company had \$10,482,202,000 of consolidated assets, of which approximately \$292,739,000, or 2.8%, was related to loans outstanding to borrowers domiciled in foreign countries, compared to \$281,947,000, or 2.7%, at December 31, 2005. Of the \$292,739,000, 80.0% is directly or indirectly secured by U.S. assets, certificates of deposits and real estate; 17.0% is secured by Mexican real estate; .3% is secured by Mexican real estate related to maquiladora plants and guaranteed under lease obligations primarily by U.S. companies, many of which are on the Fortune 500 list of companies; 2.5% is unsecured; and .2% represents accrued interest receivable on the portfolio.

Critical Accounting Policies

The Company has established various accounting policies which govern the application of accounting principles in the preparation of the Company's consolidated financial statements. The significant accounting policies are described in the footnotes to the consolidated financial statements. Certain accounting policies involve significant subjective judgments and assumptions by management which have a material impact on the carrying value of certain assets and liabilities; management considers such accounting policies to be critical accounting policies.

The Company considers its Allowance for Possible Loan Losses as a policy critical to the sound operations of the bank subsidiaries. The allowance for possible loan losses consists of the aggregate loan loss allowances of the bank subsidiaries. The allowances are established through charges to operations in the form of provisions for possible loan losses. Loan losses or recoveries are charged or credited directly to the allowances. The allowance for possible loan losses of each bank subsidiary is maintained at a level considered appropriate by management, based on estimated probable losses in the loan portfolio. The allowance is derived from the following elements: (i) allowances established on specific loans and (ii) allowances based on historical loss experience on the Company's remaining loan portfolio, which includes general economic conditions and other qualitative risk factors both internal and external to the Company. See also discussion regarding the allowance for possible loan losses and provision for possible loan losses included in the results of operations and Provision and Allowance for Possible Loan Losses included in Notes 1 and 5 of the notes to Consolidated Financial Statements in the Company's latest Annual Report on Form 10K for further information regarding the Company's provision and allowance for possible loan losses policy.

Through December 31, 2005, the Company accounted for stock-based employee compensation plans based on the intrinsic value method provided in Accounting Principles Board Opinion No. 25 Accounting for Stock Issued to Employees, (APB No. 25), and related interpretations. Because the exercise price of the Company's employee stock options equals the market price of the underlying stock on the measurement date, which is generally the date of grant, no compensation expense is recognized on options granted. Compensation expense for stock awards is based on the market price of the stock on the measurement date, which is generally the date of grant, and is recognized ratably over the service period of the award.

Statement of Financial Accounting Standards No. 123 (SFAS No. 123), Accounting for Stock-Based Compensation, as amended by Statement of Financial Accounting Standards No. 148 (SFAS No. 148), Accounting for Stock-Based Compensation Transition and Disclosure, an amendment of FASB Statement No. 123, requires pro forma disclosures of net income and earnings per share for companies not adopting its fair value accounting method for stock-based employee compensation. The pro forma disclosures presented in Note 1 in the accompanying Notes to Consolidated Financial Statements included elsewhere in this report use the fair value method of SFAS No. 123 to measure compensation expense for stock-based employee compensation plans. The fair value of stock options granted was estimated as the measurement date, which is generally the date of grant, using the Black-Sholes-Merton option-pricing model. This model was developed for use in estimating the fair value of publicly traded options that have no vesting restrictions and are fully transferable. Additionally, the model requires the input of highly subjective assumptions. Because the Company's employee stock options have characteristics significantly different from those of publicly traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the Black-Sholes-Merton option-pricing model does not necessarily provide a reliable single measure of the fair value of the Company's stock

options.

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123R (SFAS No. 123R), Share-Based Payment (Revised 2004). Among other things, SFAS No. 123R eliminates the ability to account for stock-based compensation using APB No. 25 and requires that such transactions be recognized as compensation cost in the income statement based on their fair values on the date of the grant. SFAS No. 123R was adopted by the Company on January 1, 2006.

Liquidity and Capital Resources

The maintenance of adequate liquidity provides the Company's bank subsidiaries with the ability to meet potential depositor withdrawals, provide for customer credit needs, maintain adequate statutory reserve levels and take full advantage of high-yield investment opportunities as they arise. Liquidity is afforded by access to financial markets and by holding appropriate amounts of liquid assets. The Company's bank subsidiaries derive their liquidity largely from deposits of individuals and business entities. Deposits from persons and entities domiciled in Mexico comprise a stable portion of the deposit base of the Company's bank subsidiaries. Other important funding sources for the Company's bank subsidiaries during 2006 and 2005 have been borrowings from FHLB, securities sold under repurchase agreements and large certificates of deposit, requiring management to closely monitor its asset/liability mix in terms of both rate sensitivity and maturity distribution. Primary liquidity of the Company and its subsidiaries has been maintained by means of increased investment in shorter-term securities, certificates of deposit and repurchase agreements. As in the past, the Company will continue to monitor the volatility and cost of funds in an attempt to match maturities of rate-sensitive assets and liabilities and respond accordingly to anticipated fluctuations in interest rates over reasonable periods of time.

The Company maintains an adequate level of capital as a margin of safety for its depositors and shareholders. At March 31, 2006, shareholders equity was \$802,232,000 compared to \$792,867,000 at December 31, 2005, an increase of \$9,365,000, or 1.2%. The change in shareholders equity can be attributed to the retention of earnings offset by an increase in the amount of treasury stock recorded throughout the quarter.

The Company had a leverage ratio of 7.28% and 7.26%, risk-weighted Tier 1 capital ratio of 13.01% and 12.97% and risk-weighted total capital ratio of 14.24% and 14.22% at March 31, 2006 and December 31, 2005, respectively. The identified intangibles and goodwill of \$327,269,000 as of March 31, 2006, recorded in connection with the Company's acquisitions, are deducted from the sum of core capital elements when determining the capital ratios of the Company.

As in the past, the Company will continue to monitor the volatility and cost of funds in an attempt to match maturities of rate-sensitive assets and liabilities, and respond accordingly to anticipate fluctuations in interest rates by adjusting the balance between sources and uses of funds as deemed appropriate. The net-interest rate sensitivity as of March 31, 2006 is illustrated in the table on the following page. This information reflects the balances of assets and liabilities for which rates are subject to change. A mix of assets and liabilities that are roughly equal in volume and re-pricing characteristics represents a matched interest rate sensitivity position. Any excess of assets or liabilities results in an interest rate sensitivity gap.

The Company undertakes an interest rate sensitivity analysis to monitor the potential risk on future earnings resulting from the impact of possible future changes in interest rates on currently existing net asset or net liability positions. However, this type of analysis is as of a point-in-time position, when in fact that position can quickly change as market conditions, customer needs, and management strategies change. Thus, interest rate changes do not affect all categories of asset and liabilities equally or at the same time. As indicated in the table, the Company is liability sensitive during the early time periods and asset sensitive in the longer periods. The Company's Asset and Liability Committee semi-annually reviews the consolidated position along with simulation and duration models, and makes adjustments as needed to control the Company's interest rate risk position. The Company uses modeling of future events as a primary tool for monitoring interest rate risk.

Interest Rate Sensitivity

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

(Dollars in Thousands)

March 31, 2006	3 Months or Less	Over 3 Months to 1 Year	Rate/Maturity Over 1 Year to 5 Years	Over 5 Years	Total

Ratio of interest-sensitive assets to liabilities	.58	1.05	5.34	5.11	1.12
Ratio of cumulative, interest-sensitive assets to liabilities	.58	.69	.94	1.12	

Item 3. Quantitative and Qualitative Disclosures about Market Risk

During the first quarter of 2006, there were no material changes in market risk exposures that affected the quantitative and qualitative disclosures regarding market risk presented under the caption Liquidity and Capital Resources located on pages 17 through 20 of the Company's 2005 Annual Report as filed as an exhibit to the Company's Form 10-K for the year ended December 31, 2005.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within specified time periods. As of the end of the period covered by this Quarterly Report on Form 10-Q, the Company's chief Executive Officer and Chief Financial Officer evaluated, with the participation of the Company's management, the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act rules 13a-15(e) and 15d-15(e)). Based on the evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

Internal Control Over Financial Reporting

There were no significant changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various legal proceedings that are in various stages of litigation. Some of these actions allege lender liability claims on a variety of theories and claim actual and punitive damages. The Company has determined, based on discussions with its counsel that any material loss in such actions, individually or in the aggregate, is remote or the damages sought, even if fully recovered, would not be considered material to the consolidated financial position or results of operations of the Company. However, many of these matters are in various stages of proceedings and further developments could cause management to revise its assessment of these matters.

The Company's lead bank subsidiary has invested in partnerships, which have entered into several lease-financing transactions. The lease-financing transactions in two of the partnerships have been examined by the Internal Revenue Service (IRS). In both partnerships, the lead bank subsidiary was the owner of a ninety-nine percent (99%) limited partnership interest. The IRS has issued separate Notice of Final Partnership Administrative Adjustments (FPAA) to the partnerships and on September 25, 2001, and January 10, 2003, the Company filed lawsuits contesting the adjustments asserted in the FPAAs.

Prior to filing the lawsuits the Company was required to deposit the estimated tax due of approximately \$4,083,000 with respect to the first FPAA, and \$7,710,606 with respect to the second FPAA, with the IRS pursuant to the Internal Revenue Code. If it is determined that the amount of tax due, if any, related to the lease-financing transactions is less than the amount of the deposits, the remaining amount of the deposits would be returned to the Company.

In order to curtail the accrual of additional interest related to the disputed tax benefits and because interest rates were unfavorable, on March 7, 2003, the Company submitted to the IRS a total of approximately \$13.7 million, which constitutes the interest that would have accrued based on the adjustments proposed in the FPAAs related to both of the lease-financing transactions. If it is determined that the amount of interest due, if any, related to the lease-financing transactions is less than the approximate \$13.7 million, the remaining amount of the prepaid interest would be refunded to the Company, plus interest thereon.

Beginning August 29, 2005, IBC proceeded to litigate one of the partnership tax cases in the Federal District Court in San Antonio, Texas. On March 31, 2006, the trial court rendered a judgment against the Company on the first FPAA.

The Company, through December 31, 2005, had previously expensed approximately \$12,000,000 in connection with the lawsuits. Because of the above-referenced trial court judgment against the Company on the first FPAA, the uncertainty of the outcome at the appellate level, and the similarity between the two FPAAs, the Company, as of March 31, 2006, has expensed an additional \$13,700,000, approximately. The resultant approximately \$25,700,000 expensed is the total of the tax adjustments due and the interest due on such adjustments for both FPAAs. Management intends to appeal the judgment in the first case and will continue to evaluate the merits of each lawsuit and make any appropriate revisions to the amounts, as deemed necessary.

As part of the LFIN acquisition, the Company acquired two tax matters. The first relates to deductions taken on amended returns filed by LFIN during 2003 for the tax years ended June 30, 1999 through December 31, 2001. The refunds requested on the amended returns amounted to

Edgar Filing: INTERNATIONAL BANCSHARES CORP - Form 10-Q

approximately \$7,000,000. At December 31, 2003, LFIN had received approximately \$2,000,000 of the total refund requested. Because all the refunds are under review by the IRS, LFIN had established a reserve equal to the \$2,000,000 received and did not recognize any benefit for the remaining \$5,000,000. The second tax contingency, which is also approximately \$7,000,000, relates to permanent differences applicable to prior periods taken as deductions in 2002 and received by LFIN during 2003. LFIN had recorded a reserve equal to the amounts received pending final resolution with the IRS. Both reserves are included in the current income taxes payable of the Company. The Company will continue to monitor the IRS reviews.

1A. Risk Factors

There were no material changes in the risk factors as previously disclosed in Item 1A to Part I of the Company's 2005 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company expanded its formal stock repurchase program on March 9, 2006. Under the expanded stock repurchase program, the Company is authorized to repurchase up to \$200,000,000 of its common stock through December 2006. Stock repurchases may be made from time to time, on the open market or through private transactions. Shares repurchased in this program will be held in treasury for reissue for various corporate purposes, including employee stock option plans. As of May 1, 2006, a total of 4,644,272 shares had been repurchased under this program at a cost of \$173,029,000. Stock repurchases are reviewed quarterly at the Company's Board of Directors meetings and the Board of Directors has stated that the aggregate investment in treasury stock should not exceed \$220,973,000. In the past, the Board of Directors has increased previous caps on treasury stock once they were met, but there are no assurances that an increase of the \$220,973,000 cap will occur in the future. As of May 1, 2006, the Company has approximately \$194,002,000 invested in treasury shares, which amount has been accumulated since the inception of the Company.

Share repurchases are only conducted under publicly announced repurchase programs approved by the Board of Directors. The following table includes information about share repurchases for the quarter ended March 31, 2006.

		Total Number of Shares Purchased	Average Price Paid Per Share	Shares Purchased as Part of a Publicly- Announced Program	Approximate Dollar Value of Shares Available for Repurchase (1)
January 1	January 31, 2006	12,790	29.39	7,200	\$ 20,338,000
February 1	February 28, 2006	400,000	27.77	400,000	9,229,000
March 1	March 31, 2006	108,808	28.53	107,260	31,124,000
		521,598	\$ 27.97	514,460	

(1) The formal stock repurchase program was initiated in 1999 and has been expanded periodically with the most recent expansion occurring on March 9, 2006. The current program allows for the repurchase of up to \$200,000,000 of treasury stock through December 2006 of which \$31,124,000 remains.

Item 6. Exhibits

The following exhibits are filed as a part of this Report:

31(a) Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

31(b) Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

32(a) Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

32(b) Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
