ING Prime Rate Trust

PORTFOLIO MANAGERS' REPORT

Dear Shareholders:

ING Prime Rate Trust (the "Trust") is a diversified, closed-end management investment company that seeks to provide investors with as high a level of current income as is consistent with the preservation of capital. The Trust seeks to achieve this objective by investing, under normal circumstances, at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in U.S. dollar denominated floating rate secured senior loans.

PORTFOLIO CHARACTERISTICS
AS OF NOVEMBER 30, 2007

Net Assets	\$ 1,014,310,526
Total Assets	\$ 1,937,437,355
Assets Invested in Senior Loans	\$ 1,877,025,208
Senior Loans Represented	624
Average Amount Outstanding per Loan	\$ 3,008,053
Industries Represented	38
Average Loan Amount per Industry	\$ 49,395,400
Portfolio Turnover Rate (YTD)	51%
Weighted Average Days to Interest Rate Reset	41
Average Loan Final Maturity	67 months
Total Leverage as a Percentage of Total Assets (including Preferred Shares)	46.56%

PERFORMANCE SUMMARY

The Trust declared \$0.14 of dividends during the third fiscal quarter and \$0.42 during the nine months ended November 30, 2007. Based on the average month-end net asset value ("NAV") per share of \$7.16 for the quarter and \$7.39 for the nine month period, this resulted in an annualized distribution rate of 7.96%⁽¹⁾ for the quarter and 7.70%⁽¹⁾ for the nine month period. The Trust's total net return for the third fiscal quarter, based on NAV, was 0.97% versus a total gross return on the S&P/LSTA Leveraged Loan Index ("LLI")⁽²⁾ of 1.49% for the same quarter. For the nine months, the Trust's total return, based on NAV, was (3.05)%, versus 0.11% gross return for the LLI. For the year, the Trust's total net return, based on NAV was 0.15% versus 2.40% gross return for the LLI. The total market value return (based on full reinvestment of dividends) for the Trust's common shares during the third fiscal quarter was (1.16)% and (5.80)% for the nine months ended November 30, 2007.

MARKET ANALYSIS/UPDATE

After recouping a good portion of the market value losses incurred in the late summer 2007 technical correction, bank loan prices retreated again in the latter part of this fiscal quarter. We believe the recent move down was due to several factors, including continuing volatility in global equity and credit markets, a smaller but still formidable supply of unsold loans (currently held by the large corporate banks) looking to come to market, and the gathering consensus that the U.S. economy is headed for slower growth, if not outright recession. Against that backdrop, senior bank loan investors continued to demand wider credit spreads, both for new issues and secondary purchases. As a result,

⁽¹⁾ The distribution rate is calculated by annualizing dividends declared during the period and dividing the resulting annualized dividend by the Trust's average net asset value (in the case of NAV) or the average month-end NYSE Composite closing price (in the case of Market). The distribution rate is based solely on the actual dividends and distributions, which are made at the discretion of management. The distribution rate may or may not include all investment income and ordinarily will not include capital gains or losses, if any.

⁽²⁾ The LLI is an unmanaged total return index that captures accrued interest, repayments, and market value changes. It represents a broad cross section of leveraged loans syndicated in the United States, including dollar-denominated loans to overseas issuers. Standard & Poor's and the Loan Syndications and Trading Association ("LSTA") conceived the LLI to establish a performance benchmark for the syndicated leveraged loan industry. An investor cannot invest directly in an index.

ING Prime Rate Trust

PORTFOLIO MANAGERS' REPORT (continued)

buying activity in the senior bank loan market again slowed substantially near the end of the quarter, thereby pushing the average bid for loans to a new low and the average implied yield to maturity to a cyclical high.

The recent pull back in prices, although disappointing, is not entirely unexpected. As we've stated previously, until sufficient clarity emerges in regard to the well-publicized global credit market issues, technical volatility is likely to stay on the high side. The loan market remains subject to the same prevailing headwinds and issues existing, to some degree, across all major capital markets, namely, investor sentiment, shifting liquidity conditions and the prospect of a weakening US economy driven by reduced consumer spending. Importantly, at this point, the fundamental credit profile of the typical loan issuer remains reasonably sound, as illustrated by S&P's trailing 12-month default rate of 0.26% as of November 30, 2007 (a record low). Looking forward, earnings growth will undoubtedly slow, but, in our view, should remain sufficient to generally preserve cash flow and collateral coverage for better-positioned leveraged loan issuers. Default rates will certainly rise from the current lows, but we believe at a measured pace, with problems clustered in the higher risk component of the loan market (e.g., second lien loans), a subset in which the Trust is not meaningfully invested. It's also important to recall that traditional senior loans, like the ones the Trust holds, are secured by the issuer's assets. First-priority secured lending has historically translated into attractive relative recovery rates in the event of a default.

For all the market volatility, there are positive developments that will likely factor into near-term loan market performance. These would include a return to traditional underwriting standards on the part of virtually all originating institutions, and the ongoing, albeit gradual, reduction in the new issue pipeline. Although still excessive given current demand levels, we believe the unsold pipeline of loan transactions still held by the banks will continue to contract, ultimately to levels that appear more manageable relative to future expected demand. As in any other market, equilibrium of supply and demand in the loan market is conducive to positive price momentum and stability.

In light of all of these developments, we are even more convinced that our strategy, which emphasizes investing in the traditional senior bank loan asset class, is well positioned to provide

attractive investor returns. Our portfolios seek to invest in the largest, most liquid names in the market that exhibit the best relative value. We also seek to maintain a high level of diversification. Our team remains focused on the basics: disciplined underwriting and rigorous monitoring. We continue to believe that the current relative value equation for loans remains attractive for both existing and new investors in our strategy, even in an overall investment environment marked with greater volatility.

USE OF LEVERAGE

The Trust utilizes financial leverage to seek to increase the yield to the holders of common shares. As of November 30, 2007, the Trust had \$450 million of "Aaa/AAA⁽³⁾" rated cumulative auction rate preferred shares outstanding, and \$452 million of borrowings outstanding under \$625 million in available credit facilities. Total leverage, as a percentage of total assets (including preferred shares), was 46.56% at period end. The use of leverage for investment purposes increases both investment opportunity and investment risk.

ING Prime Rate Trust
January 25, 2008

⁽³⁾ Obligations rated Aaa by Moody's Investors Service are judged to be of the highest quality, with minimal credit risk. An obligator rated 'AAA' has extremely strong capacity to meet its financial commitments. 'AAA' is the highest Issuer credit rating assigned by Standard & Poor's. Credit quality refers to the Trust's underlying investments, not to the stability or safety of this Trust.

PORTFOLIO MANAGERS' REPORT (continued)

	Average Annual Total Returns for the Years Ended November 30, 2007			
	1 Year	3 Years	5 Years	10 Years
Based on Net Asset Value (NAV)	0.15%	5.47%	7.92%	4.93%
Based on Market Value	(1.16)%	3.12%	9.23%	3.37%
S&P/LSTA Leveraged Loan Index	2.40%	4.63%	5.95%	4.92%
Credit-Suisse Leveraged Loan Index	2.36%	5.00%	6.53%	5.02%

The table above illustrates the total return of the Trust against the indices indicated. An index has no cash in its portfolio, imposes no sales charges and incurs no operating expenses. An investor cannot invest directly in an index.

Total returns based on NAV reflect that ING Investments, LLC (the Trust's "Investment Adviser") may have waived or recouped fees and expenses otherwise payable by the Trust.

Performance data represents past performance and is no guarantee of future results. Investment return and principal value of an investment in the Trust will fluctuate. Shares, when sold, may be worth more or less than their original cost. The Trust's future performance may be lower or higher than the performance data shown. Please log on to www.ingfunds.com or call (800) 992-0180 to get performance through the most recent month end.

Calculation of total return assumes a hypothetical initial investment at the net asset value (in the case of NAV) or the New York Stock Exchange ("NYSE") Composite closing price (in the case of Market Value) on the last business day before the first day of the stated period, with all dividends and distributions reinvested at the actual reinvestment price.

Senior loans are subject to credit risks and the potential for non-payment of scheduled principal or interest payments, which may result in a reduction of the Trust's NAV.

This report contains statements that may be "forward-looking" statements. Actual results could differ materially from those projected in the "forward-looking" statements.

The views expressed in this report reflect those of the portfolio managers only through the end of the period of the report as stated on the cover. The portfolio managers' views are subject to change at any time based on market and other conditions.

INDEX DESCRIPTIONS

The **LLI** is an unmanaged total return index that captures accrued interest, repayments, and market value changes. It represents a broad cross section of leveraged loans syndicated in the United States, including dollar-denominated loans to overseas issuers. Standard & Poor's and the Loan Syndications & Trading Association ("LSTA") conceived the LLI to establish a performance benchmark for the syndicated leveraged loan industry. An investor cannot invest directly in an index.

The **Credit-Suisse Leveraged Loan Index** is an unmanaged index of below investment grade loans designed to mirror the investable universe of the U.S. dollar-denominated leveraged loan market. An investor cannot invest directly in an index.

PORTFOLIO MANAGERS' REPORT (continued)

YIELDS AND DISTRIBUTIONS RATES

Quarter Ended	Prime Rate	NAV 30-day SEC Yield ^(A)	Mkt. 30-Day SEC Yield ^(A)	Annualized Dist. Rate @ NAV ^(B)	Annualized Dist. Rate @ Mkt. ^(B)
November 30, 2007	7.50%	10.46%	11.15%	7.97%	8.67%
August 31, 2007	8.25%	10.92%	10.18%	7.53%	8.44%
May 31, 2007	8.25%	9.89%	9.81%	7.38%	7.52%
February 28, 2007	8.25%	9.69%	10.02%	7.50%	7.68%

^(A) Yield is calculated by dividing the Trust's net investment income per share for the most recent thirty days by the net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of market) at quarter-end. Yield calculations do not include any commissions or sales charges, and are compounded for six months and annualized for a twelve-month period to derive the Trust's yield consistent with the U.S. Securities and Exchange Commission ("SEC") standardized yield formula.

^(B) The distribution rate is calculated by annualizing each monthly dividend, then averaging the annualized dividends declared for each month during the quarter and dividing the resulting average annualized dividend amount by the Trust's average net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of Market) at the end of the period.

Risk is inherent in all investing. The following are the principal risks associated with investing in the Trust. This is not, and is not intended to be, a description of all risks of investing in the Trust. A more detailed description of the risks of investing in the Trust is contained in the Trust's current prospectus.

Credit Risk: The Trust invests a substantial portion of its assets in below investment grade senior loans and other below investment grade assets. Below investment grade loans involve a greater risk that borrowers may not make timely payment of the interest and principal due on their loans. They also involve a greater risk that the value of such loans could decline significantly. If borrowers do not make timely payments of the interest due on their loans, the yield on the Trust's common shares will decrease. If borrowers do not make timely payment of the principal due on their loans, or if the value of such loans decreases, the value of the Trust's NAV will decrease.

Interest Rate Risk: Changes in short-term market interest rates will directly affect the yield on the Trust's common shares. If short-term market interest rates fall, the yield on the Trust's common shares will also fall. To the extent that the interest rate spreads on loans in the Trust experience a general decline, the yield on the Trust will fall and the value of the Trust's assets may decrease, which will cause the Trust's value to decrease. Conversely, when short-term market interest rates rise, because of the lag between changes in such short-term rates and the resetting of the floating rates on assets in the Trust's portfolio, the impact of rising rates will be delayed to the extent of such lag.

Leverage Risk: The Trust borrows money for investment purposes. Borrowing increases both investment opportunity and investment risk. In the event of a general market decline in the value of assets such as those in which the Trust invests, the effect of that decline will be magnified in the Trust because of the additional assets purchased with the proceeds of the borrowings.

(1) Total investment return calculations are attributable to common shares.

(2) Total investment return measures the change in the market value of your investment assuming reinvestment of dividends and capital gain distributions, if any, in accordance with the provisions of the Trust's dividend reinvestment plan.

(3) Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of each period and a sale at net asset value at the end of each period and assumes reinvestment of dividends and capital gain distributions in accordance with the provisions of the dividend reinvestment plan.

This calculation differs from total investment return because it excludes the effects of changes in the market values of the Trust's shares.

(4) Asset coverage represents the total assets available for settlement of Preferred Stockholder's interest and notes payables in relation to the Preferred Shareholder interest and notes payable balance outstanding. The Preferred Shares were first offered November 2, 2000.

(5) Ratios do not reflect the effect of dividend payments to Preferred Shareholders; income ratios reflect income earned on assets attributable to the Preferred Shares; ratios do not reflect any add-back for the borrowings.

(6) Annualized for periods less than one year.

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of November 30, 2007 (Unaudited)

NOTE 1 ORGANIZATION

ING Prime Rate Trust (the "Trust"), a Massachusetts business trust, is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a diversified, closed-end, management investment company. The Trust invests primarily in senior loans, which generally are not registered under the Securities Act of 1933, as amended (the "1933 Act"), and which contain certain restrictions on resale and cannot be sold publicly. These loans bear interest (unless otherwise noted) at rates that float periodically at a margin above the London Inter-Bank Offered Rate ("LIBOR") and other short-term rates.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with U.S. generally accepted accounting principles for investment companies.

A. *Senior Loan and Other Security Valuation.* Senior loans held by the Trust are normally valued at the average of the means of one or more bid and ask quotations obtained from an independent pricing service or other sources determined by the Trust's Board of Trustees ("Board") to be independent and believed to be reliable. Loans for which reliable market value quotations are not readily available may be valued with reference to another loan or a group of loans for which reliable quotations are readily available and whose characteristics are comparable to the loan being valued. Under this approach, the comparable loan or loans serve as a proxy for changes in value of the loan being valued.

The Trust has engaged an independent pricing service to provide market value quotations from dealers in loans and, when such quotations are not readily available, to calculate values under the proxy procedure described above. As of November 30, 2007, 99.77% of total loans were valued based on these procedures. It is expected that most of the loans held by the Trust will continue to be valued with reference to quotations from the independent pricing service or with reference to the proxy procedure described above.

Prices from a pricing source may not be available for all loans and ING Investments, LLC (the "Investment Adviser") or ING Investment Management Co. ("ING IM" or the "Sub-Adviser"), may believe that the price for a loan derived from market quotations or the proxy procedure described above is not reliable or accurate. Among other reasons, this may be the result of information about a particular loan or borrower known to the Investment Adviser or the Sub-Adviser that the Investment Adviser or the Sub-Adviser believes may not be known to the pricing service or reflected in a price quote. In this event, the loan is valued at fair value as determined in good faith under procedures established by the Board and in accordance with the provisions of the 1940 Act. Under these procedures, fair value is determined by the Investment Adviser or Sub-Adviser and monitored by the Board through its Valuation, Brokerage and Proxy Committee.

In fair valuing a loan, consideration is given to several factors, which may include, among others, the following: (i) the characteristics of and fundamental analytical data relating to the loan, including the cost, size, current interest rate, period until the next interest rate reset, maturity and base lending rate of the loan, the terms and conditions of the loan and any related agreements, and the position of the loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral, including the Trust's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the borrower and the cash flow coverage of outstanding principal and interest, based on an evaluation of its financial condition, financial statements and information about the borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the loan,

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of November 30, 2007 (Unaudited) (continued)

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

including price quotations for, and trading in, the loan and interests in similar loans; (v) the reputation and financial condition of the agent for the loan and any intermediate participants in the loan; (vi) the borrower's management; and (vii) the general economic and market conditions affecting the fair value of the loan. Securities for which the primary market is a national securities exchange are valued at the last reported sale price. Securities reported by NASDAQ will be valued at the NASDAQ Official Closing Price. Securities traded in the over-the-counter market and listed securities for which no sale was reported on a valuation date are valued at the mean between the last reported bid and ask price on such exchange. Securities, other than senior loans, for which reliable market value quotations are not readily available, and all other assets, will be valued at their respective fair values as determined in good faith by, and under procedures established by, the Board. Investments in securities maturing in 60 days or less from the date of valuation are valued at amortized cost, which, when combined with accrued interest approximates market value.

B. *Federal Income Taxes.* It is the Trust's policy to comply with subchapter M of the Internal Revenue Code and related excise tax provisions applicable to regulated investment companies and to distribute substantially all of its net investment income and net realized capital gains to its shareholders. Therefore, no federal income tax provision is required. No capital gain distributions will be made by the Trust until any capital loss carryforwards have been fully utilized or expire.

C. *Security Transactions and Revenue Recognition.* Revolver and delayed draw loans are booked on a settlement date basis. Security transactions and senior loans are accounted for on trade date (date the order to buy or sell is executed). Realized gains or losses are reported on the basis of identified cost of securities sold. Dividend income is recognized on the ex-dividend date. Interest income is recorded on an accrual basis at the then-current interest rate of the loan. The accrual of interest on loans is partially or fully discontinued when, in the opinion of management, there is an indication that the borrower may be unable to meet payments as they become due. If determined to be uncollectable, accrued interest is also written off. Cash collections on non-accrual senior loans are generally applied as a reduction to the recorded investment of the loan. Senior loans are generally returned to accrual status only after all past due amounts have been received and the borrower has demonstrated sustained performance. For all loans, except revolving credit facilities, fees received are treated as discounts and are accreted whereas premiums are amortized. Fees associated with revolving credit facilities are deferred and recognized over the shorter of four years or the actual term of the loan.

D. *Foreign Currency Translation.* The books and records of the Trust are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Market value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the day.
- (2) Purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the market values are presented at the foreign exchange rates at the end of the day, the Trust does not isolate the portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses from investments. For securities, which are subject to foreign withholding tax upon disposition, liabilities are recorded on the Statement of Assets and Liabilities for the estimated tax withholding based on the securities current market value. Upon disposition, realized gains or losses on such securities are recorded net of foreign withholding tax.

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of November 30, 2007 (Unaudited) (continued)

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Trust's books, and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in securities at fiscal year end, resulting from changes in the exchange rate. Foreign security and currency transactions may involve certain considerations and risks not typically associated with investing in U.S. companies and the U.S. government. These risks include, but are not limited to, revaluation of currencies and future adverse political and economic developments which could cause securities and their markets to be less liquid and prices more volatile than those of comparable U.S. companies and U.S. government securities.

E. *Forward Foreign Currency Contracts.* The Trust may enter into forward foreign currency contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S. dollar denominated investment securities. When entering into a currency forward contract, the Trust agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. These contracts are valued daily and the Trust's net equity therein, representing unrealized gain or loss on the contracts as measured by the difference between the forward foreign exchange rates at the dates of entry into the contracts and the forward rates at the reporting date, is included in the Statement of Assets and Liabilities. Realized and unrealized gains and losses are included in the Statement of Operations. These instruments involve market and/or credit risk in excess of the amount recognized in the Statement of Assets and Liabilities. Risks arise from the possible inability of counterparties to meet the terms of their contracts and from movement in currency and securities values and interest rates. Open forward foreign currency contracts are presented following the respective Portfolio of Investments.

F. *Distributions to Common Shareholders.* The Trust declares and pays dividends monthly from net investment income. Distributions from capital gains, if any, are declared and paid annually. The Trust may make additional distributions to comply with the distribution requirements of the Internal Revenue Code. The character and amounts of income and gains to be distributed are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles for investment companies. The Trust records distributions to its shareholders on the ex-dividend date.

G. *Dividend Reinvestments.* Pursuant to the Trust's Shareholder Investment Program (the "Program"), DST Systems, Inc. ("DST"), the Program administrator, purchases, from time to time, shares of beneficial interest of the Trust on the open market to satisfy dividend reinvestments. Such shares are purchased on the open market only when the closing sale or bid price plus commission is less than the NAV per share of the Trust's common shares on the valuation date. If the market price plus commissions is equal to or exceeds NAV, new shares are issued by the Trust at the greater of (i) NAV or (ii) the market price of the shares during the pricing period, minus a discount of 5%.

H. *Use of Estimates.* The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of November 30, 2007 (Unaudited) (continued)

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

I. *Share Offerings*. The Trust issues shares under various shelf registration statements, whereby the net proceeds received by the Trust from share sales may not be less than the greater of (i) the NAV per share or (ii) 94% of the average daily market price over the relevant pricing period.

NOTE 3 INVESTMENTS

For the nine months ended November 30, 2007, the cost of purchases and the proceeds from principal repayment and sales of investments, excluding short-term notes, totaled \$1,086,812,259 and \$974,214,861, respectively. At November 30, 2007, the Trust held senior loans valued at \$1,877,025,208 representing 99.7% of its total investments. The market value of these assets is established as set forth in Note 2.

The senior loans acquired by the Trust typically take the form of a direct lending relationship with the borrower, and are typically acquired through an assignment of another lender's interest in a loan. The lead lender in a typical corporate loan syndicate administers the loan and monitors the collateral securing the loan.

Common and preferred shares, and stock purchase warrants held in the portfolio were acquired in conjunction with loans held by the Trust. Certain of these stocks and warrants are restricted and may not be publicly sold without registration under the 1933 Act, or without an exemption under the 1933 Act. In some cases, these restrictions expire after a designated period of time after issuance of the shares or warrants.

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of November 30, 2007 (Unaudited) (continued)

NOTE 4 MANAGEMENT AND ADMINISTRATION AGREEMENTS

The Trust has entered into an investment management agreement ("Investment Advisory Agreement") with the Investment Adviser, an Arizona limited liability company, to provide advisory and management services. The Investment Advisory Agreement compensates the Investment Adviser with a fee, computed daily and payable monthly, at an annual rate of 0.80% of the Trust's Managed Assets. For purposes of the Investment Advisory Agreement, "Managed Assets" shall mean the Trust's average daily gross asset value, minus the sum of the Trust's accrued and unpaid dividends on any outstanding preferred shares and accrued liabilities (other than liabilities for the principal amount of any borrowings incurred, commercial paper or notes issued by the Trust and the liquidation preference of any outstanding preferred shares).

The Investment Adviser entered into a Sub-Advisory agreement with ING IM, a Connecticut corporation. Subject to such policies as the Board or the Investment Adviser may determine, ING IM manages the Trust's assets in accordance with the Trust's investment objectives, policies, and limitations.

The Trust has also entered into an administration agreement with ING Funds Services, LLC (the "Administrator") to provide administrative services and also to furnish facilities. The Administrator is compensated with a fee, computed daily and payable monthly, at an annual rate of 0.25% plus the proceeds of any outstanding borrowings of the Trust's Managed Assets.

The Investment Adviser, ING IM and the Administrator are indirect, wholly-owned subsidiaries of ING Groep N.V. ("ING Groep"). ING Groep is one of the largest financial services organizations in the world, and offers an array of banking, insurance and asset management services to both individual and institutional investors.

NOTE 5 TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES

At November 30, 2007, the Trust had the following amounts recorded in payables to affiliates on the accompanying Statement of Assets and Liabilities:

Accrued Investment Management Fees	Accrued Administrative Fees	Total
\$ 1,276,729	\$ 398,978	\$ 1,675,707

The Trust has adopted a Retirement Policy ("Policy") covering all independent trustees of the Trust who will have served as an independent trustee for at least five years at the time of retirement. Benefits under this Policy are based on an annual rate as defined in the Policy agreement.

NOTE 6 COMMITMENTS

The Trust has entered into both a \$90 million 364-day revolving credit agreement which matures August 20, 2008 and a \$535 million 364-day revolving securitization facility which matures June 12, 2008, collateralized by assets of the Trust. Borrowing rates under these agreements are based on a fixed spread over LIBOR, the federal funds rate, or a commercial paper-based rate. Prepaid arrangement fees for these facilities are amortized over the term of the agreements. The amount of borrowings outstanding at November 30, 2007, was \$452 million. Weighted average interest rate on outstanding borrowings was 5.67%, excluding fees related to the unused portion of the facilities, and other fees. The amount of borrowings represented 23.3% of total assets at November 30, 2007. Average borrowings for the nine months ended November 30, 2007 were \$398,181,818 and the average annualized interest rate was 5.93% excluding other fees related to the unused portion of the facilities, and other fees.

	\$	39,341,017

NOTE 7 RIGHTS AND OTHER OFFERINGS

As of November 30, 2007, outstanding share offerings pursuant to shelf registrations were as follows:

Registration Date	Shares Registered	Shares Remaining
9/15/98	25,000,000	12,374,909
3/04/99	5,000,000	3,241,645

On November 2, 2000, the Trust issued 3,600 shares each of Series M, Series W and Series F Auction Rate Cumulative Preferred Shares, \$0.01 Par Value, \$25,000 liquidation preference, for a total issuance of \$270 million. Also, on November 16, 2000, the Trust issued 3,600 shares of Series T and Series Th Auction Rate Cumulative Preferred Shares, \$0.01 Par Value, \$25,000, liquidation preference, for a total issuance of \$180 million. The Trust used the net proceeds of the offering to partially pay down the then existing indebtedness and to purchase additional senior loans. Preferred Shares pay dividends based on a rate set at auctions, normally held every 7 days. In most instances dividends are also payable every 7 days, on the first business day following the end of the rate period. Preferred shares have no stated conversion, redemption or liquidation date, but may be redeemed at the election of the Trust. Such shares may only be redeemed by the Preferred Shareholders if the Trust fails to meet certain credit quality thresholds within its portfolio.

NOTE 8 CUSTODIAL AGREEMENT

State Street Bank and Trust Company ("SSB") serves as the Trust's custodian and recordkeeper. Custody fees paid to SSB are reduced by earnings credits based on the cash balances held by SSB for the Trust. There were no earnings credits for the nine month period ended November 30, 2007.

NOTE 9 SUBORDINATED LOANS AND UNSECURED LOANS

The Trust may invest in subordinated loans and in unsecured loans. The primary risk arising from investing in subordinated loans or in unsecured loans is the potential loss in the event of default by the issuer of the loans. The Trust may acquire a subordinated loan only if, at the time of acquisition, it acquires

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of November 30, 2007 (Unaudited) (continued)

NOTE 9 SUBORDINATED LOANS AND UNSECURED LOANS (continued)

or holds a senior loan from the same borrower. The Trust will acquire unsecured loans only where the Investment Adviser believes, at the time of acquisition, that the Trust would have the right to payment upon default that is not subordinate to any other creditor. Subject to the aggregate 20% limit on other investments, the Trust may invest up to 20% of its total assets in unsecured floating rate loans, notes and other debt instruments and 5% of its total assets in floating rate subordinated loans. As of November 30, 2007, the Trust held 0.3% of its total assets in subordinated loans and unsecured loans.

NOTE 10 CAPITAL SHARES

Transactions in capital shares and dollars were as follows:

	Prime Rate Trust	
	Nine Months Ended November 30, 2007	Year Ended February 28, 2007
Number of Shares		
Dividends reinvested	61,258	
Net increase in shares outstanding	61,258	
Dollar Amount (\$)		
Dividends reinvested	\$ 467,924	\$
Net increase	\$ 467,924	\$

NOTE 11 FEDERAL INCOME TAXES

The amount of distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles for investment companies. These book/tax differences may be either temporary or permanent. Permanent differences are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences are not reclassified. Key differences include the treatment of short-term capital gains, foreign currency transactions, and wash sale deferrals. Distributions in excess of net investment income and/or net realized capital gains for tax purposes are reported as distributions of paid-in capital.

Dividends paid by the Trust from net investment income and distributions of net realized short-term capital gains are, for federal income tax purposes, taxable as ordinary income to shareholders.

The tax composition of dividends and distributions to shareholders was as follows:

Nine months ended November 30, 2007	Year ended February 28, 2007
Ordinary Income	Ordinary Income
\$ 79,420,708	\$ 102,371,727

The tax-basis components of distributable earnings and the expiration dates of the capital loss carryforwards which may be used to offset future realized capital gains for federal income tax purposes as of February 28, 2007 were:

Undistributed Ordinary Income	Unrealized Appreciation	Post-October Currency Losses Deferred	Capital Loss Carryforwards	Expiration Dates
\$ 5,656,916	\$ 33,968,276	\$ (1,770,705)	\$ (33,536,215)	2008

Edgar Filing: ING PRIME RATE TRUST - Form N-30B-2

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of November 30, 2007 (Unaudited) (continued)

NOTE 12 OTHER ACCOUNTING PRONOUNCEMENTS

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes." This standard defines the threshold for recognizing the benefits of tax-return positions in the financial statements as "more-likely-than-not" to be sustained upon challenge by the taxing authority and requires measurement of a tax position meeting the more-likely-than-not criterion, based on the largest benefit that is more than 50 percent likely to be realized. FIN 48 was effective for fiscal years beginning after December 15, 2006, with early application permitted if no interim financial statements have been issued. However, acknowledging the unique issues that FIN 48 presents for investment companies that calculate NAVs, the SEC has indicated that they would not object if a fund implements FIN 48 in its NAV calculation as late as its last NAV calculation in the first required financial statement reporting period for its fiscal year beginning after December 15, 2006. For February year-end funds, the current NAV and this quarterly report are required to reflect the effects of FIN 48. At adoption, companies must adjust their financial statements to reflect only those tax positions that are more likely-than-not to be sustained as of the adoption date. Management of the Funds has analyzed the tax positions of the Funds. Upon adoption of FIN 48, we identified no uncertain tax positions that have not met the more likely-than-not standard.

On September 15, 2006, the FASB issued Statement of Financial Accounting Standards No. 157 ("SFAS No. 157"), "Fair Value Measurements." The new accounting statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles ("GAAP"), and expands disclosures about fair value measurements. SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). SFAS No. 157 also stipulates that, as a market-based measurement, fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability, and establishes a fair value hierarchy that distinguishes between (a) market participant assumptions developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (b) the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. As of November 30, 2007, management of the Funds is currently assessing the impact, if any, that will result from adopting SFAS No. 157.

NOTE 13 INFORMATION REGARDING TRADING OF ING'S US MUTUAL FUNDS

As discussed in earlier supplements, ING Investments, LLC ("Investments"), the adviser to the ING Funds, has reported to the Boards of Directors/Trustees (the "Boards") of the ING Funds that, like many U.S. financial services companies, Investments and certain of its U.S. affiliates have received informal and formal requests for information since September 2003 from various governmental and self-regulatory agencies in connection with investigations related to mutual funds and variable insurance products. Investments has advised the Boards that it and its affiliates have cooperated fully with each request.

In addition to responding to regulatory and governmental requests, Investments reported that management of U.S. affiliates of ING Groep N.V., including Investments (collectively, "ING"), on their own initiative, have conducted, through independent special counsel and a national accounting firm, an extensive internal review of trading in ING insurance, retirement, and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel. ING's internal review related to mutual fund trading is now substantially completed. ING has reported that, of the millions of customer relationships that ING maintains, the internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of November 30, 2007 (Unaudited) (continued)

NOTE 13 INFORMATION REGARDING TRADING OF ING'S US MUTUAL FUNDS (continued)

within ING's variable insurance and mutual fund products, and identified other circumstances where frequent trading occurred, despite measures taken by ING intended to combat market timing. ING further reported that each of these arrangements has been terminated and fully disclosed to regulators. The results of the internal review were also reported to the independent members of the Boards.

Investments has advised the Boards that most of the identified arrangements were initiated prior to ING's acquisition of the businesses in question in the U.S. Investments further reported that the companies in question did not receive special benefits in return for any of these arrangements, which have all been terminated.

Based on the internal review, Investments has advised the Boards that the identified arrangements do not represent a systemic problem in any of the companies that were involved.

Despite the extensive internal review conducted through independent special counsel and a national accounting firm, there can be no assurance that the instances of inappropriate trading reported to the Boards are the only instances of such trading respecting the ING Funds.

Investments reported to the Boards that ING is committed to conducting its business with the highest standards of ethical conduct with zero tolerance for noncompliance. Accordingly, Investments advised the Boards that ING management was disappointed that its voluntary internal review identified these situations. Viewed in the context of the breadth and magnitude of its U.S. business as a whole, ING management does not believe that ING's acquired companies had systemic ethical or compliance issues in these areas. Nonetheless, Investments reported that given ING's refusal to tolerate any lapses, it has taken the steps noted below, and will continue to seek opportunities to further strengthen the internal controls of its affiliates.

ING has agreed with the ING Funds to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING's internal investigation, any investigations conducted by any governmental or self-regulatory agencies, litigation or other formal proceedings, including any proceedings by the SEC. Investments reported to the Boards that ING management believes that the total amount of any indemnification obligations will not be material to ING or its U.S. business.

ING updated its Code of Conduct for employees reinforcing its employees' obligation to conduct personal trading activity consistent with the law, disclosed limits, and other requirements.

Other Regulatory Matters.

The New York Attorney General (the "NYAG") and other federal and state regulators are also conducting broad inquiries and investigations involving the insurance industry. These initiatives currently focus on, among other things, compensation and other sales incentives; potential conflicts of interest; potential anti-competitive activity; reinsurance; marketing practices (including suitability); specific product types (including group annuities and indexed annuities); fund selection for investment products and brokerage sales; and disclosure. It is likely that the scope of these industry investigations will further broaden before they conclude. ING has received formal and informal requests in connection with such investigations, and is cooperating fully with each request. In connection with one such investigation, affiliates of Investments were named in a petition for relief and cease and desist order filed by the New Hampshire Bureau of Securities Regulation (the "NH Bureau") concerning their administration of the New Hampshire state employees deferred compensation plan.

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of November 30, 2007 (Unaudited) (continued)

NOTE 13 INFORMATION REGARDING TRADING OF ING'S US MUTUAL FUNDS (continued)

Other federal and state regulators could initiate similar actions in this or other areas of ING's businesses. These regulatory initiatives may result in new legislation and regulation that could significantly affect the financial services industry, including businesses in which ING is engaged. In light of these and other developments, ING continuously reviews whether modifications to its business practices are appropriate. At this time, in light of the current regulatory factors, ING U.S. is actively engaged in reviewing whether any modifications in our practices are appropriate for the future.

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased fund redemptions, reduced sale of fund shares, or other adverse consequences to ING Funds.

NOTE 14 SUBSEQUENT EVENTS

Subsequent to November 30, 2007, the Trust paid to Common Shareholders the following dividends from net investment income:

ING Prime Rate Trust

ADDITIONAL INFORMATION

SHAREHOLDER INVESTMENT PROGRAM

The Trust offers a Shareholder Investment Program (the "Program") which allows holders of the Trust's common shares a simple way to reinvest dividends and capital gains distributions, if any, in additional common shares of the Trust. The Program also offers holders of the Trust's common shares the ability to make optional cash investments in any amount from \$100 to \$100,000 on a monthly basis.

For dividend and capital gains distribution reinvestment purposes, DST will purchase shares of the Trust on the open market when the market price plus estimated fees is less than the NAV on the valuation date. The Trust will issue new shares for dividend and capital gains distribution reinvestment purchases when the market price plus estimated fees is equal to or exceeds the net asset value on the valuation date. New shares may be issued at the greater of (i) NAV or (ii) the market price of the shares during the pricing period, minus a discount of 5%.

For optional cash investments, shares will be purchased on the open market by the DST when the market price plus estimated fees is less than the NAV on the valuation date. New shares will be issued by the Trust for optional cash investments when the market price plus estimated fees is equal to or exceeds the net asset value on the valuation date. Such shares will be issued at a discount to market, determined by the Trust, between 0% and 5%.

There is no charge to participate in the Program. Participants may elect to discontinue participation in the Program at any time. Participants will share, on a *pro rata* basis, in the fees or expenses of any shares acquired in the open market.

Participation in the Program is not automatic. If you would like to receive more information about the Program or if you desire to participate, please contact your broker or the Trust's Shareholder Services Department at 1-(800) 992-0180.

ING Prime Rate Trust

ADDITIONAL INFORMATION (continued)

STOCK DATA

The Trust's common shares are traded on the New York Stock Exchange (Symbol: PPR). Effective March 1, 2002, the Trust's name changed to ING Prime Rate Trust and its CUSIP number changed to 44977W106. The Trust's NAV and market price are published daily under the "Closed-End Funds" feature in Barron's, The New York Times, The Wall Street Journal and many other regional and national publications.

REPURCHASE OF SECURITIES BY CLOSED-END COMPANIES

In accordance with Section 23(c) of the 1940 Act, and Rule 23c-1 under the 1940 Act the Trust may from time to time purchase shares of beneficial interest of the Trust in the open market, in privately negotiated transactions and/or purchase shares to correct erroneous transactions.

NUMBER OF SHAREHOLDERS

The approximate number of record holders of Common Stock as of November 30, 2007 was 5,046 which does not include approximately 61,659 beneficial owners of shares held in the name of brokers of other nominees.

PROXY VOTING INFORMATION

A description of the policies and procedures that the Trust uses to determine how to vote proxies related to portfolio securities is available: (1) without charge, upon request, by calling Shareholder Services toll-free at 800-992-0180; (2) on the Trust's website at www.ingfunds.com and (3) on the SEC's website at www.sec.gov. Information regarding how the Trust voted proxies related to portfolio securities during the most recent 12-month period ended June 30 is available without charge on the Trust's website at www.ingfunds.com and on the SEC's website at www.sec.gov.

QUARTERLY PORTFOLIO HOLDINGS

The Trust files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Trust's Forms N-Q are available on the SEC's website at www.sec.gov. The Trust's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC, and information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330; and is available upon request from the Trust by calling Shareholder Services toll-free at 800-992-0180.

CERTIFICATIONS

In accordance with Section 303A.12 (a) of the New York Stock Exchange Listed Company Manual, the Trust submitted the Annual CEO Certification on June 19, 2006 certifying that he was not aware, as of that date, of any violation by the Trust of the NYSE's Corporate governance listing standards. In addition, as required by Section 203 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Trust's principal executive and financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Trust's disclosure controls and procedures and internal controls over financial reporting.

ING Prime Rate Trust

ADVISORY CONTRACT APPROVAL DISCUSSION (Unaudited)

BOARD CONSIDERATION AND RE-APPROVAL OF INVESTMENT ADVISORY AND SUB-ADVISORY CONTRACTS

Section 15(c) of the Investment Company Act of 1940 (the "1940 Act") provides that, after an initial period, the existing investment advisory and sub-advisory contracts of ING Prime Rate Trust (the "Trust") will remain in effect only if the Board of Trustees (the "Board") of the Trust, including a majority of Board members who have no direct or indirect interest in the advisory and sub-advisory contracts, and who are not "interested persons" of the Trust, as such term is defined under the 1940 Act (the "Independent Trustees"), annually review and approve them. Thus, at a meeting held on November 30, 2007, the Board, including a majority of the Independent Trustees, considered whether to renew the investment advisory contract (the "Advisory Contract") between ING Investments, LLC (the "Adviser") and the Trust and the sub-advisory contract (the "Sub-Advisory Contract") with ING Investment Management Co. ("ING IM" or the "Sub-Adviser"), the sub-adviser to the Trust.

The Independent Trustees also held separate meetings on October 10 and November 28, 2007 to consider the renewal of the Advisory Contract and Sub-Advisory Contract. As a result, subsequent references herein to factors considered and determinations made by the Independent Trustees include, as applicable, factors considered and determinations made on those earlier dates by the Independent Trustees.

At its November 30, 2007 meeting, the Board voted to renew the Trust's Advisory and Sub-Advisory Contracts. In reaching this decision, the Board took into account information furnished to it throughout the year at regular meetings of the Board and the Board's committees, as well as information prepared specifically in connection with the annual renewal process. Determinations by the Independent Trustees also took into account various factors that they believed, in light of the legal advice furnished to them by Kirkpatrick & Lockhart Preston Gates Ellis LLP ("K&L Gates"), their independent legal counsel, and their own business judgment, to be relevant. Further, while the Advisory Contract and Sub-Advisory Contract were considered at the same Board meeting, the Trustees considered the Trust's advisory and sub-advisory relationships separately.

Provided below is an overview of the Board's contract approval process in general, as well as a discussion of certain specific factors that the Board considered at its renewal meeting. While the Board gave its attention to the information furnished, at its request, that was most relevant to its considerations, discussed below are a number of the primary factors relevant to the Board's consideration as to whether to renew the Advisory and Sub-Advisory Contracts for the one-year period ending November 30, 2008. Each Board member may have accorded different weight to the various factors in reaching his or her conclusions with respect to the Trust's advisory and sub-advisory arrangements.

Overview of the Contract Renewal and Approval Process

Several years ago, the Independent Trustees instituted a revised process by which they seek and consider relevant information when they decide whether to approve new or existing advisory and sub-advisory arrangements for the investment companies in the ING Funds complex under their jurisdiction, including the Trust's existing Advisory and Sub-Advisory Contracts. Among other actions, the Independent Trustees: retained the services of independent consultants with experience in the mutual fund industry to assist the Independent Trustees in working with the personnel employed by the Adviser or its affiliates who administer the Trust ("Management") to identify the types of information presented to the Board to inform its deliberations with respect to advisory and sub-advisory relationships and to help evaluate that information; established a specific format in which certain requested information is provided to the Board; and determined the process for reviewing such information in connection with advisory and sub-advisory contract

ING Prime Rate Trust

ADVISORY CONTRACT APPROVAL DISCUSSION (Unaudited) (continued)

renewals and approvals. The end result was an enhanced process which is currently employed by the Independent Trustees to review and analyze information in connection with their annual renewal of the advisory and sub-advisory contracts of the Funds in the ING Funds complex (including the Trust), as well as their review and approval of new advisory relationships.

Since the current renewal and approval process was first implemented, the Board's membership has changed substantially through periodic retirements of some Trustees and the appointment and election of new Trustees. In addition, throughout this period the Independent Trustees have reviewed and refined the renewal and approval process at least annually. The Board also established a Contracts Committee and two Investment Review Committees, including the International/Balanced/Fixed Income Funds Investment Review Committee (the "I/B/F IRC"). Among other matters, the Contracts Committee provides oversight with respect to the contracts renewal process, and the Trust is assigned to the I/B/F IRC, which provides oversight regarding, among other matters, investment performance.

The type and format of the information provided to the Board or to legal counsel for the Independent Trustees in connection with the contract approval and renewal process has been codified in the ING Funds' *15(c) Methodology Guide*. This *Guide* was developed under the direction of the Independent Trustees and sets out a blueprint pursuant to which the Independent Trustees request certain information that they deem important to facilitate an informed review in connection with initial and annual approvals of the advisory and sub-advisory contracts for the Funds in the ING Funds complex.

Management provides certain of the information requested by the *15(c) Methodology Guide* in Fund Analysis and Comparison Tables ("FACT sheets") prior to the Independent Trustees' review of the Trust's Advisory and Sub-Advisory Contracts. The Independent Trustees previously retained an independent firm to verify and test the accuracy of certain FACT sheet data for a representative sample of Funds in the ING Funds complex. In 2007, the Contracts Committee employed the services of an independent consultant to assist in its review and analysis of, among other matters, the *15(c) Methodology Guide*, the content and format of the FACT sheets, and proposed selected peer groups of investment companies ("SPGs") to be used by each Fund in the ING Funds complex (including the Trust) for certain comparison purposes during the renewal process.

As part of an ongoing process, the Contracts Committee recommends or considers recommendations from Management for refinements to the *15(c) Methodology Guide* and other aspects of the review process, and the Board's Investment Review Committees review benchmarks used to assess the performance of each Fund in the ING Funds complex. The Investment Review Committees may apply a heightened level of scrutiny in cases where performance has lagged an ING Fund's relevant benchmark and/or SPG.

The Board employed its process for reviewing contracts when considering the renewals of the Trust's Advisory and Sub-Advisory Contracts through November 30, 2008. Set forth below is a discussion of many of the Board's primary considerations and conclusions resulting from this process are discussed below.

Nature, Extent and Quality of Service

In determining whether to approve the Advisory Contract and Sub-Advisory Contract for the Trust for the year ending November 30, 2008, the Independent Trustees received and evaluated such information as they deemed necessary regarding the nature, extent and quality of services provided to the Trust by the Adviser and ING IM. This included information regarding the Adviser and Sub-Adviser provided throughout the year at regular meetings of the Board and its committees, as well as information furnished in connection with the contract renewal meetings.

ING Prime Rate Trust

ADVISORY CONTRACT APPROVAL DISCUSSION (Unaudited) (continued)

The materials requested by and provided to the Board and/or to K&L Gates prior to the November 30, 2007 Board meeting included, among other information, the following items: (1) FACT sheets for the Trust that provided information regarding the performance and expenses of the Trust and other similarly managed funds in an SPG, as well as information regarding the Trust's investment portfolio, objectives and strategies; (2) the *15(c) Methodology Guide*, which describes how the FACT sheets were prepared, including the manner in which benchmarks and SPGs were selected and how profitability was determined; (3) responses from the Adviser and ING IM to a series of questions posed by K&L Gates on behalf of the Trustees; (4) copies of the forms of Advisory Contract and Sub-Advisory Contract; (5) copies of the Forms ADV for the Adviser and ING IM; (6) financial statements for the Adviser and the Sub-Adviser; (7) a draft narrative summary addressing key factors the Board customarily considers in evaluating the renewals of the Advisory and Sub-Advisory Contracts, including a written analysis for the Trust of how performance, fees and expenses compare to its SPG and/or designated benchmarks; (8) independent analyses of the Trust's performance by the Trust's Chief Investment Risk Officer; (9) information regarding net asset flows into and out of the Trust; and (10) other information relevant to the Board's evaluations.

The Trust's common shares were used for purposes of certain comparisons to the funds in its SPG. While the Trust has a preferred class of shares, common shares were selected for comparison purposes because they are publicly traded and are the largest class. The mutual funds included in the Trust's SPG were selected based upon criteria designed to mirror the common shares being compared to the SPG.

In arriving at its conclusions with respect to the Advisory Contract, the Board was mindful of the "manager-of-managers" platform of the ING Funds that has been developed by Management. The Board also considered the techniques that the Adviser has developed, at the Board's direction, to screen and perform due diligence on sub-advisers that are recommended to the Board to manage the portfolios of the Funds in the ING Funds complex. The Board noted the resources that the Adviser has committed to the Board and to the I/B/F IRC to assist the Board and the I/B/F IRC with their assessment of the investment performance of the Trust on an ongoing basis throughout the year. This includes the appointment of a Chief Investment Risk Officer and his staff, who report directly to the Board and who have developed attribution analyses and other metrics used by the Board's Investment Review Committees to analyze the key factors underlying investment performance for the Funds in the ING Funds complex.

The Board also noted the techniques used by the Adviser to monitor the performance of ING IM. In considering the Trust's Advisory Contract, the Board also considered the extent of benefits provided to the Trust's shareholders, beyond advisory services, from being part of the ING family of Funds. The Board also took into account the Adviser's efforts in recent years to reduce the expenses of the ING Funds through renegotiated arrangements with the ING Funds' service providers.

Further, the Board received periodic reports showing that the investment policies and restrictions for the Trust were consistently complied with and other periodic reports covering matters such as compliance by Adviser and Sub-Adviser personnel with codes of ethics. The Board considered reports from the Trust's Chief Compliance Officer ("CCO") evaluating whether the regulatory compliance systems and procedures of the Adviser and ING IM are reasonably designed to assure compliance with the federal securities laws, including those related to, among others, late trading and market timing, best execution, fair value pricing, proxy voting and trade allocation practices. The Board also took into account the CCO's annual and periodic reports and recommendations with respect to service provider compliance programs. In this regard, the Board also considered the policies and procedures developed by the CCO in consultation with the Board's Compliance Committee that guide the CCO's compliance oversight function.

ING Prime Rate Trust

ADVISORY CONTRACT APPROVAL DISCUSSION (Unaudited) (continued)

The Board reviewed the level of staffing, quality and experience of the Trust's portfolio management team. The Board took into account the respective resources and reputations of the Adviser and ING IM, and evaluated the ability of the Adviser and ING IM to attract and retain qualified investment advisory personnel. The Board also considered the adequacy of the resources committed to the Trust (and other relevant Funds in the ING Funds complex) by the Adviser and ING IM, and whether those resources are commensurate with the needs of the Trust and are sufficient to sustain appropriate levels of performance and compliance needs.

Based on their deliberations and the materials presented to them, the Board concluded that the advisory and related services provided by the Adviser and Sub-Adviser are appropriate in light of the Trust's operations, the competitive landscape of the investment company business, and investor needs, and that the nature and quality of the overall services provided by the Adviser and ING IM were appropriate.

Performance

In assessing advisory and sub-advisory relationships, the Board placed emphasis on the net investment returns of the Trust. While the Board considered the performance reports and discussions with portfolio managers at Board and committee meetings during the year, particular attention in assessing performance was given to the FACT sheets furnished in connection with the renewal process. The FACT sheet prepared for the Trust included its investment performance compared to the Trust's Morningstar category median, Lipper category median, SPG and primary benchmark. The Board's findings specific to the Trust's performance are discussed under "Specific Factors Considered," below.

Economies of Scale

When evaluating the reasonableness of advisory fee rates, the Board also considered whether economies of scale will be realized by the Adviser as a Trust grows larger and the extent to which any such economies are reflected in contractual fee rates. In this regard, the Board considered the fairness of the compensation under an Advisory Contract with level fees that does not include breakpoints, taking into account that the Trust is a closed-end Fund. In evaluating economies of scale, the Independent Trustees also considered prior periodic management reports and industry information on this topic, and the Independent Trustees who were Board members at that time also considered a November 2006 evaluation and analysis presented to them by an independent consultant regarding fee breakpoint arrangements and economies of scale.

Information Regarding Services to Other Clients

The Board requested and, if received, considered information regarding the nature of services and fee rates offered by the Adviser and the Sub-Adviser to other clients, including other registered investment companies and institutional accounts. The Board also noted that the fee rates charged to the Trust and similar institutional clients may differ materially due to the different services and additional regulatory overlay associated with registered investment companies, such as the Trust.

Fee Rates and Profitability

The Board reviewed and considered the contractual investment advisory fee rate, combined with the administrative fee rate, payable by Trust to the Adviser. The Board also considered the contractual sub-advisory fee rates payable by the Adviser to ING IM for sub-advisory services.

The Board considered the fee structure of the Trust as it relates to the services provided under the contracts and the potential fall-out benefits to the Adviser and Sub-Adviser and their respective affiliates from their association with the Trust. The Board determined that the fees payable to the

ING Prime Rate Trust

ADVISORY CONTRACT APPROVAL DISCUSSION (Unaudited) (continued)

Adviser and ING IM are reasonable for the services that each performs, which were considered in light of the nature and quality of the services that each has performed and is expected to perform.

The Board considered information on revenues, costs and profits realized by the Adviser, which was prepared by Management in accordance with the allocation methodology (including related assumptions) specified in the *15(c) Methodology Guide*. In analyzing the profitability of the Adviser in connection with its services to the Trust, the Board took into account the sub-advisory fee rate payable by the Adviser to ING IM. The Board also considered information that it requested and was provided by Management with respect to the profitability of service providers affiliated with the Adviser, as well as information provided by ING IM with respect to its profitability.

The Board determined that it had requested and received sufficient information to gain a reasonable understanding regarding the Adviser's and ING IM's profitability. The Board also recognized that profitability analysis is not an exact science and there is no uniform methodology for determining profitability for this purpose. In this context, the Board realized that Management's calculations regarding its costs incurred in establishing the infrastructure necessary for the Trust's operations may not be fully reflected in the expenses allocated to the Trust determining profitability, and that the information presented may not portray all of the costs borne by Management or capture Management's entrepreneurial risk associated with offering and managing a mutual fund complex in the current regulatory and market environment.

Based on the information on revenues, costs, and profitability considered by the Board, and after considering the factors described in this section, as well as any remedial actions requested by the Independent Trustees and agreed to by the Adviser, the Board concluded that the profits, if any, realized by the Adviser and ING IM were not excessive. In making its determinations, the Board based its conclusions on the reasonableness of the sub-advisory fees of the Sub-Adviser primarily on the factors described for the Trust below.

Specific Factors Considered

The following paragraphs outline certain of the specific factors that the Board considered, and the conclusions reached, at its November 30, 2007 meeting in relation to renewing the Trust's current Advisory Contract and Sub-Advisory Contract for the year ending November 30, 2008. These specific factors are in addition to those considerations discussed above. In each case, the Trust's performance was compared to its Morningstar category median and its primary benchmark, a broad-based securities market index that appears in the Trust's prospectus. With respect to Morningstar quintile rankings, the first quintile represents the highest (best) performance and the fifth quintile represents the lowest performance. The Trust's management fee and expense ratio were compared to the fees and expense ratios of the funds in its SPG.

In considering whether to approve the renewal of the Advisory and Sub-Advisory Contracts for ING Prime Rate Trust, the Board considered that, based on performance data for the periods ended June 30, 2007: (1) the Trust outperformed its Morningstar category median for all periods presented; (2) the Trust outperformed its primary benchmark for all periods presented with the exception of the most recent calendar quarter, during which it underperformed; and (3) the Trust is ranked in the first (highest) quintile of its Morningstar category for the one-year and three-year periods, the second quintile for the most recent calendar quarter and year-to-date periods, and the third quintile for the five-year period.

In considering the fees payable under the Advisory and Sub-Advisory Contracts for the Trust, the Board took into account the factors described above and also considered: (1) the fairness of the compensation under an Advisory Contract with level fees that does not include breakpoints; (2) the pricing structure (including the expense ratio to be borne by shareholders) of the Trust, as compared to its Selected Peer Group, including that: (a) the management fee (inclusive of the advisory fee and

ING Prime Rate Trust

ADVISORY CONTRACT APPROVAL DISCUSSION (Unaudited) (continued)

a 0.25% administration fee) for the Trust is above the median and above the average management fees of the funds in its Selected Peer Group; and (b) the expense ratio for the Trust is above the median and above the average expense ratios of the funds in its Selected Peer Group.

After its deliberation, the Board reached the following conclusions: (1) the Trust's management fee rate is reasonable in the context of all factors considered by the Board; (2) the Trust's expense ratio is reasonable in the context of all factors considered by the Board; (3) the Trust's performance is reasonable in the context of all factors considered by the Board; and (4) the sub-advisory fee rate payable by the Adviser to the Sub-Adviser is reasonable in the context of all factors considered by the Board. Based on these conclusions and other factors, the Board voted to renew the Advisory and Sub-Advisory Contracts for the Trust for the year ending November 30, 2008. During this renewal process, different Board members may have given different weight to different individual factors and related conclusions.
