If your shares are held in a brokerage account, or by a bank or other holder of record, you are considered the beneficial owner of shares held in street name. These materials have been forwarded to you by your broker, bank, or other holder of record. What happens if I do not indicate my voting preferences?

Can I change my vote after I submit my proxy?

If you are a stockholder of record, you may revoke your proxy at any time before it is voted at the Annual Meeting by doing any one of the following:

- delivering to our corporate Secretary a written notice of revocation prior to or at the Annual Meeting;
- signing and returning to our corporate Secretary a proxy bearing a later date;
- authorizing another proxy by telephone or on the internet (your most recent telephone or internet authorization is used); or
- voting in person at the Annual Meeting.

If your shares are held in the name of a broker, bank, trust or other nominee, you may change your voting instructions by following the instructions provided by your broker, bank or other record holder.

Your attendance at the Annual Meeting will not by itself be sufficient to revoke a proxy unless you vote in person or give written notice of revocation to our corporate Secretary before the polls are closed. Any written notice revoking a proxy should be sent to Michael R. Pfeiffer, our corporate Secretary, at our corporate offices at 600 La Terraza Boulevard, Escondido, California 92025-3873.

How does our Board of Directors recommend you vote on the proposals?

What are the voting requirements on our four proposals mentioned in this Proxy Statement?

The presence of the holders of a majority of outstanding shares of common stock entitled to vote at the Annual Meeting, present in person or represented by proxy, is necessary to constitute a quorum. Abstentions and broker non-votes are counted as present for purposes of determining a quorum. A broker non-vote occurs when a bank, broker or other holder of record holding shares for a beneficial owner properly executes and returns a proxy card, but does not vote because that holder does not have discretionary voting power and has not received voting instructions from the beneficial owner.

The affirmative vote of a plurality of votes cast at the Annual Meeting at which a quorum is present is necessary for the election of a director. Thus, the seven nominees receiving the highest number of votes will be elected. Brokers do not have discretionary authority to vote your shares on the election of directors. For the purpose of the election of directors, abstentions and broker non-votes will not be counted as votes cast and will have no effect on the result of the vote.

The affirmative vote of a majority of all the votes cast at the Annual Meeting at which a quorum is present is necessary for the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for the year ended December 31, 2011. Accordingly, abstentions will have no effect on the outcome of the vote with respect to ratification of the independent registered public accounting firm for the year ended December 31, 2011. If you are a beneficial owner, your bank, broker or other holder of record is permitted to vote your shares on the ratification of accountants, if the broker does not receive voting instructions from you.

The affirmative vote of a majority of all the votes cast at the Annual Meeting at which a quorum is present is necessary for the approval of the say on pay vote. Brokers do not have discretionary authority to vote your shares on the say on pay vote. Accordingly, abstentions and broker non-votes will not be counted as votes cast and will have no effect on the outcome of the vote.

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

Our Board of Directors recommends a vote FOR the election of the seven director nominees listed in this proxy to serve until the 2012 annual meeting and until their respective successors are duly elected and qualify.

The affirmative vote of a majority of all the votes cast at the Annual Meeting at which a quorum is present is necessary for the approval of the frequency vote. If none of the alternatives in this proposal (one year, two years or three years) receives a majority vote, we will consider the alternative with the highest number of votes cast to

be the frequency that has been approved pursuant to the advisory vote of the stockholders. However, because this vote is advisory and not binding on us or our Board of Directors in any way, our Board of Directors may decide that it is in our and our stockholders' best interests to hold a frequency vote more or less frequently than the option approved by our stockholders. Brokers do not have discretionary authority to vote your shares on the frequency vote. Accordingly, abstentions and broker non-votes will not be counted as votes cast and will have no effect on the outcome of the vote.

Will any other business be conducted at the Annual Meeting?

Our Board of Directors does not know of any matters to be presented at the meeting other than those mentioned in this Proxy Statement. If any other matters are properly brought before the meeting, it is intended that the proxies will be voted in accordance with the discretion of the person or persons voting the proxies. Under the New York Stock Exchange rules, if you are a beneficial owner, your bank, broker or other holder of record may not vote your shares on any contested stockholder proposal without instructions from you.

If the Annual Meeting is postponed or adjourned for any reason, at any subsequent convening or resumption of the Annual Meeting, all proxies will be voted in the same manner as such proxies would have been voted at the Annual Meeting as originally convened (except for any proxies that have effectively been revoked or withdrawn).

Who will count the vote?

Representatives of our transfer agent, Wells Fargo Shareowner Services, will tabulate the votes and act as inspector of election.

for the solicitation, but may be reimbursed for out-of-pocket expenses incurred in connection with the solicitation. Brokerage firms, fiduciaries and other custodians who forward soliciting material to the beneficial owners of shares of our common stock held of record by them will be reimbursed for their reasonable expenses incurred in forwarding such material. We retain the discretion to engage a proxy solicitor to assist with solicitation of votes at our sole expense.

Stockholders who authorize their proxies through the internet should be aware that they may incur costs to access the internet, such as usage charges from telephone companies or internet service providers and these costs must be borne by the stockholder.

These materials are available on our web site and can be accessed at www.realtyincome.com/investing/2011-annual-docs.html.

Who bears the cost of soliciting proxies?

We will bear the cost of soliciting proxies from our stockholders. In addition to solicitation by mail, our directors, officers, employees and agents may solicit proxies by telephone, telegram, internet or otherwise. These directors, officers and employees will not be additionally compensated

PROPOSAL 1

ELECTION OF DIRECTORS

Director Nominees

Our Board of Directors currently consists of seven directors. Based upon the recommendation of our Nominating/Corporate Governance Committee, our Board of Directors has nominated all seven of the following directors for re-election at the Annual Meeting to serve for a one-year term expiring at the annual meeting in 2012 and until their respective successors have been duly elected and qualify:

1. Kathleen R. Allen, Ph.D.
2. Donald R. Cameron
3. Priya Cherian Huskins
4. Thomas A. Lewis
5. Michael D. McKee

6. Gregory T. McLaughlin
7. Ronald L. Merriman

For more information regarding our nominees, please see Board of Directors below.

PROPOSAL 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board of Directors has appointed KPMG LLP as the independent registered public accounting firm to audit our financial statements for the year ended December 31, 2011. Representatives of KPMG LLP are expected to be present at the Annual Meeting and will be provided an opportunity to make a statement if the representatives desire to do so. The representatives are also expected to be available to respond to appropriate questions.

Although ratification by our stockholders is not a prerequisite to the power of the Audit Committee to appoint KPMG LLP as our independent registered public accounting firm, we believe such ratification to be desirable. Accordingly, stockholders are being requested to ratify, confirm and approve the appointment of KPMG LLP as our independent registered public accounting firm to conduct the annual audit of our consolidated financial statements for fiscal year 2011. If the stockholders do not ratify the appointment of KPMG LLP, the appointment of an independent registered public accounting firm will be reconsidered by the Audit Committee; provided, however, the Audit Committee may appoint KPMG LLP notwithstanding the failure of the stockholders to ratify its appointment. The Audit Committee believes ratification is advisable and in the best interests of the stockholders. If the appointment of KPMG LLP is ratified, the Audit Committee will continue to conduct an ongoing review of KPMG LLP's scope of engagement, pricing and work quality, among other factors, and will retain the right to replace KPMG LLP at any time.

PROPOSAL 3

ADVISORY VOTE ON EXECUTIVE COMPENSATION

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, we are asking our stockholders to cast an advisory, non-binding vote on the compensation of our named executive officers (which consist of our Chief Executive Officer, Chief Financial Officer and our next three highest paid executives), as such compensation is described in the Compensation Discussion and Analysis section beginning on page 20, the tabular disclosure regarding such compensation beginning on page 30 and the accompanying narrative disclosure set forth in this proxy statement.

Our compensation programs are designed to:

1. Attract and retain qualified individuals of high integrity;
2. Motivate these individuals to achieve the goals set forth in our business plan;
3. Link executive and stockholder interests through incentive-based compensation; and
4. Enhance our performance, measured by both short-term and long-term achievements.

We believe that our compensation policies and procedures are competitive, are focused on pay-for-performance principles and are strongly aligned with the long-term interests of our stockholders. We also believe that both the Company and stockholders benefit from responsive corporate governance policies and constructive, consistent dialogue. The following is a summary of the key highlights of our executive compensation program:

- **We emphasize pay for performance.** Our compensation program is designed to align company-wide financial and operational achievements with the annual cash bonuses and equity awards granted to our named executive officers. Our annual cash bonuses are paid based upon the Compensation Committee's assessment of our performance under the key performance metrics of (i) Stockholder Returns (weighted 30%); (ii) the strength of our Balance Sheet (weighted 25%); (iii) Funds from Operations (weighted 20%); (iv) Portfolio Management (weighted 15%), and (v) Acquisitions (weighted 10%). Our equity awards consist of annual grants of restricted stock based on each executive officer's and our performance for the prior fiscal year. In 2010, approximately 77%, on average, of our named executive officers' total compensation was at-risk pay dependent on our performance in the form of annual cash bonuses and long-term equity incentive awards.
- **Alignment of executive compensation with the creation of value for our stockholders.** Our combination of annual cash bonuses and restricted stock grants, which generally vest over a period of several years depending on the age of the officer, creates a balanced focus on the achievement of short-term and long-term financial and operational goals.

• **A flexible approach to annual cash incentive compensation.** For 2010, we implemented a more structured bonus program for our named executive and other senior officers, which involved the Compensation Committee's establishment of target amounts for cash bonus payments and consideration of various determinants of our financial performance. While the program provides more structure to the Compensation Committee's determinations, it also preserves the Compensation Committee's flexibility to exercise its discretion in assessing company performance (including a comparison to our peer group's performance), market conditions and any other relevant data. This ultimately helps to ensure that our incentive bonus program is both responsive to market conditions and linked to the actual performance of the company.

Our Board of Directors believes that the information provided above and within the Executive Compensation section of this proxy statement demonstrates that our executive compensation program was designed appropriately and is working to ensure that management's interests are aligned with our stockholders' interests to support long-term value creation.

The following resolution will be submitted for a stockholder vote at the annual meeting:

RESOLVED, that the stockholders of Realty Income Corporation (Realty Income) approve, on an advisory basis, the compensation of Realty Income's named executive officers, as disclosed in the Compensation Discussion and Analysis section and the related tabular and narrative disclosure set forth in the proxy statement.

Table of Contents

The say on pay vote is advisory, and therefore not binding on us, the Compensation Committee or our Board of Directors.

Our Board of Directors recommends that stockholders vote for adoption of the resolution approving the compensation of our named executive officers, as described in the Compensation Discussion and Analysis section and the related tabular and narrative disclosure set forth in this proxy statement.

PROPOSAL 4

ADVISORY VOTE ON WHETHER THE FREQUENCY OF FUTURE ADVISORY VOTES ON THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS SHOULD OCCUR EVERY YEAR, EVERY TWO YEARS OR EVERY THREE YEARS

The Dodd-Frank Act requires us, not less frequently than once every six years, to submit a proposal allowing our stockholders to vote, in an advisory, non-binding vote, on whether the frequency of future advisory votes on executive compensation should occur every year, every two years or every three years.

For the following reasons, the Compensation Committee and our Board of Directors believe that it is in the best interest of the company and our stockholders if we seek an advisory vote on the compensation of our named executive officers every three years:

- A triennial approach provides regular input by stockholders, while allowing stockholders to better judge our compensation programs in relation to our long-term performance.
- Our executive compensation program is designed to operate over the long-term, is designed to support long-term value creation and has been stable and non-volatile over the long-term. Equity awards, in the form of restricted stock, have historically represented a significant portion of our executives' compensation, which places a significant portion of our executives' compensation at risk if our long-term objectives are not achieved.
- A triennial vote will provide our Compensation Committee and our Board of Directors sufficient time to thoughtfully evaluate the results of the most recent advisory vote on executive compensation, discuss the implications of the vote with our stockholders and develop and implement any changes to our executive compensation program that may be appropriate in light of the vote. A triennial vote will also allow for these changes to our executive compensation program to be in place long enough for stockholders to see and evaluate the effectiveness of these changes.

- The composition and level of compensation paid to executives in the market evolves over multiple years. A triennial approach will allow us to review evolving practices in the market to ensure our compensation programs reflect best practices.

This vote is advisory and will not be binding upon the Company, our Board of Directors or the Compensation Committee. However, we value the opinions of our stockholders and will take into account the outcome of the vote when considering the frequency of submitting to stockholders a resolution to afford stockholders the opportunity to vote on executive compensation.

Our Board of Directors recommends that stockholders vote for holding future advisory votes on the compensation of the company's named executive officers, as described in the Compensation Discussion and Analysis section and the related tabular and narrative disclosure set forth in the proxy statement every THREE years.

Audit Committee

The Audit Committee of our Board of Directors was established in accordance with Section 10A-3 of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and is comprised of Dr. Allen and Messrs. McKee, McLaughlin and Merriman (Chairman). Our Board of Directors has determined that Mr. Merriman, Mr. McKee and Mr. McLaughlin qualify as audit committee financial experts, as defined in Item 407(d) of Regulation S-K and that all members of the Audit Committee are financially literate under the current listing standards of the NYSE. All of the members of the Audit Committee are independent within the meaning of our director independence standards, which reflect the NYSE director independence standards, as discussed above, and the audit committee requirements of the SEC. Additionally, our Board of Directors has considered Mr. Merriman's concurrent service on the audit committees of more than three public companies and has determined that such simultaneous service does not impair his ability to effectively serve as Chairman of our Audit Committee.

The Audit Committee's principal responsibilities include:

- Compliance with legal and regulatory requirements;
- The integrity of our financial statements; and
- The appointment, approval and engagement of our independent registered public accounting firm, approval of any special assignments given to the independent registered public accounting firm and review of:
 - o The scope and results of the audit engagement with the independent registered public accounting firm, including the independent registered public accounting firm's letters to the Audit Committee;

The Compensation Committee's principal responsibilities include:

- Establishing remuneration levels for our officers;
- Reviewing management organization and development;

Table of Contents

- Establishing and administering executive compensation programs, including bonus plans, stock option and other equity-based programs, deferred compensation plans and any other cash or stock incentive programs.

The Compensation Committee regularly reviews and approves our executive compensation strategies and principles to ensure that they (i) are aligned with our business strategies and objectives, (ii) encourage high performance, (iii) promote accountability and (iv) assure that employee interests are aligned with the interests of our stockholders. In addition, the Compensation Committee:

- Conducts an annual review of our compensation philosophy, including a review of our company-wide incentive programs to assess whether the incentive programs encourage desirable behavior as it relates to our long-term growth and reflect our risk management philosophies, policies and processes;
- Conducts an annual review of and approves the goals and objectives relating to the compensation of the chief executive officer, evaluates the performance of the chief executive officer in light of our business strategies and objectives and determines and approves the compensation of the chief executive officer based on such evaluation;
- Conducts an annual review of and approves all compensation for all other officers (as such term is defined in Rule 16a-1 promulgated under the Exchange Act), all of our other employees and the employees of our subsidiaries with a base salary greater than or equal to \$200,000;
- Reviews and approves all officers' employment agreements and severance arrangements;
- Manages and annually reviews executive annual bonus and long-term incentive compensation;
- Manages and annually reviews employee pension and welfare benefit plans (including 401(k) and other plans); and

The Compensation Committee's charter reflects these various responsibilities, and the Compensation Committee periodically reviews and revises its charter. To assist in carrying out its responsibilities, the Compensation Committee regularly receives reports and recommendations from the chief executive officer and management, from an outside compensation consultant it selects and retains and, as appropriate, in consultation with its own legal or other advisors, all in accordance with the authority granted to the Compensation Committee in its charter.

To assist in its efforts to meet the objectives outlined above, the Compensation Committee has retained FPL Associates, LP, a nationally-known executive compensation and benefits consulting firm specializing in real estate companies, to advise it on a regular basis on the amount and form of our executive compensation and benefit programs. The Compensation Committee engaged the consultant to provide general executive compensation consulting services and to respond to any Compensation Committee member's questions and to management's need for advice and counsel as further described in the Compensation Discussion and Analysis section. The consultant does not perform any other services for the Company.

The Compensation Committee has the authority to determine and approve the individual elements of total compensation paid to the chief executive officer and other executives holding the title of vice president or higher. The Compensation Committee reviews the performance and compensation of the chief executive officer, and all of the Named Executive Officers. The chief executive officer, as well as the president, chief operating officer, annually assist in the review of the compensation of our other executive officers and members of senior management. The chief executive officer makes recommendations with respect to salary adjustments, annual bonuses and restricted stock awards to the Compensation Committee based on his review of each executive's performance in relation to the guidelines established at the commencement of the year, compensation for similar positions at peer companies and the company's performance for that year.

Strategic Planning Committee

The Strategic Planning Committee of our Board of Directors is comprised of Dr. Allen (Chairwoman),

Ms. Huskins and Messrs. McLaughlin and Merriman. All of the members of the Strategic Planning Committee are independent within the meaning of our director independence standards, which reflect the NYSE director independence standards as previously discussed. Nominating/Corporate Governance Committee

The Nominating/Corporate Governance Committee of our Board of Directors is comprised of Ms. Huskins (Chairwoman) and Messrs. McKee and Merriman. All of the members of the Nominating/Corporate Governance Committee are independent within the meaning of our director independence standards, which reflect the NYSE director independence standards, as previously discussed. - Development and review of the qualifications and competencies required for membership on our Board of Directors;
- Reviewing and interviewing qualified candidates to serve on our Board of Directors;

The Nominating/Corporate Governance Committee also provides recommendations to the Board of Directors in the areas of committee selection and rotation practices, evaluation of the overall effectiveness of the Board of Directors and management, review of Board of Director compensation, and review and consideration of developments in corporate governance practices. The Nominating/Corporate Governance Committee retains the sole authority to retain and terminate any search firm to be used to identify director candidates, including sole authority to approve the search firm's fees and other retention terms. On an annual basis, the Nominating/Corporate Governance Committee solicits input from the full Board of Directors and conducts a review of the effectiveness of the operation of the Board of Directors and all committees thereof, including reviewing governance and operating practices and the Corporate Governance Guidelines for Operation of the Board of Directors.

Director Qualifications

The director qualifications developed to date focus on what the Nominating/Corporate Governance Committee believes to be the essential competencies required to effectively serve on the Board of Directors. Identifying and Evaluating Nominees for Directors

The Nominating/Corporate Governance Committee identifies nominees for directors by first evaluating the current members of our Board of Directors willing to continue in service. Current members with qualifications and skills that are consistent with the Nominating/Corporate Governance Committee's criteria for Board of Directors service are re-nominated. As to new candidates, the Nominating/Corporate Governance Committee will generally poll members of our Board of Directors and members of management for their recommendations. The Nominating/Corporate Governance Committee may also hire a search firm if deemed appropriate. An initial slate of candidates will be presented to the chairwoman of the Nominating/Corporate Governance Committee, who will then make an initial determination as to the qualification and fit of each candidate. Final candidates will be interviewed by the chief executive officer and one or more members of the Nominating/Corporate Governance Committee. The Nominating/Corporate Governance Committee will then approve final director candidates and, after review and deliberation of all feedback and data, will make its recommendation to our Board of Directors. Recommendations received by stockholders will be considered and processed and are subject to the same criteria as are candidates nominated by the Nominating/Corporate Governance Committee.

Stockholder Nominations

The Nominating/Corporate Governance Committee's policy is to consider candidates recommended by stockholders. The stockholder must submit a detailed resume of the candidate and an explanation of the reasons why the stockholder believes the candidate is qualified for service on our Board of Directors and how the candidate satisfies our Board of Directors' criteria. The stockholder must also provide such other information about the candidate as would be required by the SEC rules to be included in a proxy statement and as is required by our Bylaws. In addition, the stockholder must include the consent of the candidate and describe any arrangements or undertakings between the stockholder and the candidate regarding the nomination. The stockholder must submit proof of Realty Income stockholdings and must also comply with the advance notice provisions of our Bylaws. All communications are to be directed to the chairwoman of the Nominating/Corporate Governance Committee, c/o Corporate Secretary, Realty Income Corporation, 600 La Terraza Boulevard, Escondido, CA 92025-3873. Recommendations received before October 30, 2011 or after November 29, 2011 (more than 150 days or less than 120 days prior to the first anniversary of the date of the Proxy Statement for the previous year's annual meeting of stockholders) will not be considered timely for consideration at next year's annual meeting of stockholders. See "Stockholder Proposals for 2012 Annual Meeting" in this Proxy Statement. Properly submitted stockholder recommendations will be evaluated by the Nominating/Corporate Governance Committee using the same criteria used to evaluate other director candidates.

Board Leadership

The Nominating/Corporate Governance Committee also evaluates Board of Directors leadership structure. Currently, the positions of our chairman of the Board of Directors and chief executive officer have been separated. Mr. Cameron serves as the non-executive Chairman of the Board of Directors and Mr. Lewis serves as our Chief Executive Officer and as a member of our Board of Directors. The Board of Directors believes this is the most appropriate structure at this time because it makes the best use of both Mr. Cameron's and Mr. Lewis's leadership skills.

Board Risk Oversight

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

Our Board of Directors has overall responsibility for risk oversight with a focus on the more significant risks facing us. During the year, management and the Board of Directors jointly discuss major risks that they feel face our business. Throughout the year, the Board of Directors, and the committees to which it has delegated responsibility, dedicate a portion of their meetings to review and discuss specific risk topics in greater detail. Strategic and operational risks are presented and discussed in the context of the chief executive officer's report on operations to the Board of Directors at regularly scheduled Board of Directors meetings and at presentations to the Board of Directors and its committees by senior management. The Board of Directors has delegated responsibility for the oversight of specific risks to Board of Directors committees as follows:

- The Audit Committee oversees our risk policies and processes relating to the financial statements and financial reporting processes, as well as key credit risks, liquidity risks, market risks and compliance, and the guidelines, policies and processes for monitoring and mitigating those risks;

Table of Contents

- The Strategic Planning Committee monitors the risks associated with meeting long-term goals, including evaluating the impact that future initiatives may have on risk decisions;
- The Nominating/Corporate Governance Committee oversees the risk related to our governance structure and processes and risks arising from related party transactions; and
- The Compensation Committee monitors the risks associated with management resources and structure, including evaluating the effect the compensation structure may have on risk decisions.

The Compensation Committee reviews our company-wide incentive programs to assess whether the incentive programs encourage desirable behavior as it relates to our long-term growth and reflect our risk management philosophies, policies and processes. The total compensation of our executive officers is established after consideration of performance metrics and is compared to peer groups by the Compensation Committee. Our incentive program metrics include absolute and relative performance, single year and multi-year performance and a diversification and balance of metrics across financial, portfolio and value creation goals.

In addition to the compensation awarded to management, which is authorized by the Compensation Committee, management monitors incentive awards made to our staff and reviews those awards in light of the risks to which we may be subject. Our investor relations team receives bonuses based on their communications with financial advisors, and their time is monitored and approved by the vice president, corporate communications. Our portfolio management team receives bonuses based on the releasing and sales of properties in our portfolio. All of these transactions are approved by the executive vice president, portfolio management.

We do not believe that our compensation programs give rise to any risks that are reasonably likely to have a material adverse effect on us. Employees are compensated on a fixed salary basis and have not been awarded any bonuses or other compensation that might encourage the taking of unnecessary or excessive risks that threaten our long-term value. The Compensation Committee has sought to align the interests of our employees with that of our stockholders through grants of restricted stock awards, thereby giving employees additional incentives to protect our long-term value.

Meetings and Attendance

Our Board of Directors met 13 times during 2010. In 2010, the Audit Committee met seven times, the Compensation Committee met five times, the Nominating/Corporate Governance Committee met three times and the Strategic Planning Committee met two times. All directors attended at least 75% of the aggregate of (i) the total number of meetings of our Board of Directors while they were on our Board of Directors and (ii) the total number of meetings of the committees of our Board of Directors on which such directors served. Although we have no policy with regard to Board of Director members' attendance at our annual meeting of stockholders, it is customary for, and we expect, all Board of Director members to attend. All of our directors attended the 2010 annual meeting of stockholders.

To ensure free and open discussion among the independent directors of our Board of Directors, only independent directors attend executive sessions of our Board of Directors. As the non-executive chairman of our Board of Directors, Mr. Cameron presided at each executive session. The Board of Directors met in executive session four times during 2010.

Communications with the Board

Stockholders and other interested parties may communicate with the chairman of our Board of Directors or with the non-employee directors, as a group, by sending an email to mpfeiffer@realtyincome.com or by regular mail addressed to the Chairman of the Board of Directors, c/o the Corporate Secretary, Realty Income Corporation, 600 La Terraza Boulevard, Escondido, CA 92025-3873. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis discusses the compensation policies and programs for our executive officers, including our Named Executive Officers, as such term is defined in the Summary Compensation Table in this Proxy Statement. The Compensation Committee administers the compensation policies and programs for our executive officers and certain other officers. The Compensation Committee regularly reviews and approves our executive compensation principles and programs to ensure that they are aligned with our business strategies and objectives, encourage high performance, promote accountability, minimize risk, and assure that management's interests are aligned with the interests of our stockholders.

Executive Summary

2010 proved to be a strong performance year for us, with the company achieving a number of its financial and operational objectives. Highlights included:

- Improving stockholder returns, with a 0.9% increase in dividends compared to 2009 and a 32.0% increase in our common stock price from December 31, 2009 to December 31, 2010, resulting in a total return to stockholders of 38.6%, based on the year-over-year increase in stock price of \$8.29 and dividends of \$1.721625 per share, or a total return to stockholders that was 10% ahead of the NAREIT Equity Index;
- Increasing revenue by 6.1% compared to 2009;

Table of Contents

- Raising \$678.7 million in capital to permanently fund 2010 real estate acquisitions, despite continued challenges in overall economic conditions; and
- A 1.7% increase in funds from operations available to common stockholders (FFO) compared to 2009.

During 2010, our compensation decisions continued to be driven by our financial performance as a company, thus strengthening the relationship between our most senior executives' pay and our financial success. In particular, we:

- Increased base salaries of certain of our officers in order to bring their total compensation levels closer to our peer group and appropriately reflect our financial performance relative to our peer group;
- Paid annual cash bonuses for 2010 at levels slightly above the targeted base salary multiple for the year, in recognition of the Compensation Committee's determination that we performed at excellent and outstanding levels for each of the company-wide performance measures that were assessed;
- Increased the value of long-term equity incentive awards paid to our named executive officers, also in recognition of the strong financial performance discussed above; and
- Achieved our target of having the total compensation for our named executive officers approximate 90% to 110% of our peer group median.

Overview of Compensation Philosophy and Programs

In 2010, as in the prior year, the Compensation Committee reviewed the design and competitiveness of our compensation programs with the assistance of an outside compensation consultant. In connection with this review, the Compensation Committee re-affirmed its belief that executive compensation should reflect the value created for our stockholders, while supporting our business strategies, long-range plans, the markets we serve, and that such compensation should assist us in attracting and retaining key executives critical to our long-term success. To this end, our compensation programs:

- stress financial and operational achievements;
- strengthen the relationship between pay and performance by providing annual cash bonuses and equity awards that are determined after consideration of the level of our success, particularly in certain identified areas of performance;
- are designed to reward executive officers for long-term strategic management of our performance and the enhancement of stockholder value by providing equity awards that align the financial interests of the executive officers with those of our stockholders; and
- are competitive with companies in the real estate investment trust (REIT) industry with which we compete for executive talent and are designed to retain key members of management.

Edgar Filing: REALTY INCOME CORP - Form DEF 14A

To achieve our goals, the Compensation Committee offers executive officers a compensation package that is mainly comprised of the elements described in the table below. We believe that each of these elements and their combination are necessary to support our overall compensation objectives.

Element	Objective Served
<i>Base Salary</i>	Provides a degree of financial certainty and security, rewards performance of core job duties, and recognizes individual achievements, contributions and tenure.
<i>Annual Cash Incentive Bonus</i>	Recognizes and rewards financial, operational, market and strategic short term achievements. Determined by Compensation Committee in its discretion, after year end, based on its review of a number of performance areas.
<i>Equity Based Long Term Incentive Awards Restricted Stock</i>	Supports our long term performance and strengthens the mutuality of interests between our executive officers and our stockholders.
<i>Severance and Change in Control Payments and Benefits</i>	Promotes executive recruitment and retention. Ensures best efforts for the benefit of our stockholders in the event of an actual or threatened change of control.

Compensation Decision Process

Compensation Consultant

To assist in its efforts to meet the objectives outlined above, the Compensation Committee has retained FPL Associates, LP (FPL), a nationally-known executive compensation and benefits consulting firm specializing in real estate companies, to provide general executive compensation consulting services and to respond to any Compensation Committee member's questions. In addition, the consultant performs special executive compensation projects and consulting services from time to time, as directed by the Compensation Committee. In 2010, as in the prior year, the Compensation Committee continued to review its program designs and guidelines, and conducted its annual review of the competitiveness of its compensation program and the market practices of our peer groups. The consulting services provided by FPL in connection with these reviews included:

- Reviewing the current compensation program in place for the Named Executive Officers and structuring a compensation program that meets the objectives outlined by the Compensation Committee;
- Benchmarking the compensation for the Named Executive Officers against appropriate peer groups;
- Identifying the appropriate mix between compensation components, including base salary, annual incentives, long-term incentive compensation and total remuneration;
- Discussing market-based incentive programs, including performance metrics and targets, within the peer group companies, and providing guidance and recommendations for design modifications to program elements; and
- Reviewing an overview of industry trends as it relates to human capital across the entire real estate industry.

FPL reports to the chairman of the Compensation Committee and the other committee members and works with management as directed by the Compensation Committee. The Compensation Committee retains the right to terminate or replace the consultant at any time. Pursuant to the Compensation Committee's charter, the Compensation Committee has the power to engage such consultants and other advisors as it deems necessary.

Peer Group Data

The Compensation Committee uses comparison data from various companies in certain peer groups as a guide in its review and determination of base salaries, annual cash bonuses and restricted stock awards. From November 2010 through January 2011, the Compensation Committee reviewed peer group data to assist in its determination regarding bonuses and equity awards to be earned for 2010 performance, as well as any salary increases for 2011. A similar process was conducted at the end of 2009 for the salaries established for 2010 and for the equity awards granted on January 5, 2010. The Compensation Committee evaluates our performance and determines whether the compensation elements and levels that we provide to our executive officers are generally appropriate relative to the compensation elements and levels provided to their counterparts at our peer companies, in light of our performance relative to our peers and in light of each executive officer's contribution to our performance. This approach enables us

to respond to dynamics in the labor market and provides us with flexibility in maintaining and enhancing our executive officers engagement, focus, motivation and enthusiasm for the future.

The Compensation Committee, with the help of the compensation consultant, periodically reviews the composition of our peer groups and the criteria and data used in compiling our peer group lists, and considers modifications to this group. During November and December 2010, the Compensation Committee reviewed data provided by FPL regarding the appropriate companies to include in the peer group and the effect any change in the peer group would have on our standing within the peer groups. The peer groups recommended by our consultant and used by the Compensation Committee, which are consistent with the peer groups utilized in 2009, are all public real estate companies and are divided into two groups based on size and geography, consistent with prior years, as listed below:

Table of Contents

- **Size-Based Peer Group.** This peer group consists of 17 public real estate companies that focus on a variety of asset classes and are similar in size to us in terms of total capitalization (common and preferred stock, convertible partnership units and balance sheet long term debt). Companies were selected so that our total capitalization approximates the median.
- **Geographic-Based Peer Group.** This peer group consists of 11 public real estate companies, each with corporate headquarters located within the state of California. This peer group focuses on a variety of asset classes and has total capitalization ranging from approximately \$1.1 billion to \$16.7 billion (as of November 15, 2010).

Management Involvement

In setting compensation for our executive officers, the Compensation Committee solicits appropriate input from our chief executive officer and our president, chief operating officer, concerning each of our other executive officers. In addition, from time to time, the Compensation Committee will direct management to work with its consultant in providing proposals, program design, and compensation recommendations. Each year our chief executive officer provides the Compensation Committee with a report regarding our performance for the past fiscal year under various performance metrics and discusses his assessment of individual performance, as requested. In addition, at the request of the Compensation Committee, our chief executive officer makes recommendations regarding salary, bonus and equity awards for each executive officer other than himself. The Compensation Committee considers these recommendations and other factors as discussed below in making the final determinations.

Components of Executive Compensation

Overview

As part of its review of our compensation programs and levels that occurred in late 2009 and early 2010, the Compensation Committee determined that our compensation program should achieve the following objectives:

- For compensation payable for the fiscal year 2010, and thereafter, target having the aggregate of the total remuneration for our top five executive officers as a group approximate 90% to 110% of our peer group median;
- Employ companywide metrics for consideration by the Compensation Committee in granting cash bonuses and long term incentive awards;
- Have the aggregate of cash bonuses and long-term incentive awards for our Named Executive Officers as a group range between the twenty-fifth percentile to the seventy-fifth percentile of our peer group, depending upon our performance;
- Base the individual salaries for the top five executives on their position, responsibilities, tenure, long-term success in their position and peer compensation; and
- The Compensation Committee retains discretion in all compensation matters.

Table of Contents

The Compensation Committee revisited and reaffirmed these objectives in the fall of 2010, which influenced the decisions to increase 2011 base salaries, grant restricted stock awards in January 2011 for 2010 performance, grant bonuses in 2011 for 2010 performance, and establish parameters for awarding bonuses and equity to be implemented for 2011, as discussed below.

In November 2010, FPL provided the Compensation Committee with information on total remuneration for our peer group, which covers the 2009 performance year. The total remuneration for the Named Executive Officers as a group for our 2009 performance was approximately 106% of the peer group median. Based on guidance provided by FPL relating to the REIT marketplace and the peer group companies, the Compensation Committee then incorporated a 15% upward adjustment to the 2009 peer group data to extrapolate estimated peer group data relating to expected compensation for the 2010 performance year. The aggregate remuneration for the Named Executive Officers as a group for our 2010 performance was approximately 107% of the peer group median, based on the extrapolated 2010 peer group data, which was in line with the objectives set by the Compensation Committee, especially considering the excellent performance for the year.

Base Salaries

Base salaries provide our executive officers with a degree of financial certainty and stability, reward them for performing their core job duties and responsibilities, recognize their tenure and are used to attract and retain highly qualified individuals. The Compensation Committee annually reviews and determines the base salaries of our executive officers at the commencement of each year. Base salaries are also evaluated at the time of a promotion or other significant change in responsibilities. Increases in base salaries are based on the Compensation Committee's evaluation of such factors as an executive officer's level of responsibility and development potential, the results previously achieved by the executive officer, and the level of pay of the executive officer relative to other similarly situated executive officers at our peer companies.

Commencing January 1, 2010, the Compensation Committee determined to increase the base salaries paid to Messrs. Lewis, Malino, Meurer and Pfeiffer. These salary increases were implemented after consideration of the comparison salary information provided by FPL. The Compensation Committee felt that increases were warranted for Messrs. Lewis, Malino, Meurer and Pfeiffer based on a review of our financial performance in 2009 and anticipated performance in 2010, the comparison salaries for similarly situated positions and largely because Mr. Lewis's salary had remained constant since 2001 and Messrs. Malino's, Meurer's and Pfeiffer's salaries had remained constant since 2006. Mr. Case began his employment on April 26, 2010 at a base salary of \$300,000.

In connection with its review of fiscal 2010 performance and setting of compensation in January 2011, the Compensation Committee determined to increase the base salaries paid to Messrs. Pfeiffer and Case commencing on January 1, 2011. The Compensation Committee felt that increases were warranted for Messrs. Pfeiffer and Case based on a review of the comparison salary information provided by FPL for similarly situated positions and because of individual performance metrics. In addition, the 2011 salary increases resulted in greater parity among our named executive officers. The market data reviewed for Messrs. Lewis, Malino and Meurer showed that their compensations did not warrant an increase at this time.

Table of Contents*Performance Metrics*

At the end of each year, our chief executive officer provides the Compensation Committee with a report regarding our performance for the year and an evaluation based on a scale of poor, average, good, excellent and outstanding. The Compensation Committee evaluates our actual performance under these metrics and considers this evaluation in determining the executive officer's annual cash bonuses and equity awards.

In early 2010, the Compensation Committee established certain general performance metrics and weightings to provide a more formal structure to guide management in its performance and to guide the Compensation Committee in its determinations. The Compensation Committee did not establish any specified targets, goals or objectives within these metrics and based its determinations on its year-end assessment of our absolute and relative performance under these metrics, and the challenges faced by us. The guideline performance metrics, their weightings and the Compensation Committee's ultimate assessment based on the scale described above are as follows:

Performance Metric	Weighting	Assessment
SHAREHOLDER RETURNS <ul style="list-style-type: none"> • Dividend increases • Dividend growth • Stock Price Performance • Total Return (Most Recent Year) • Total Return Relative to its Peers (1, 3 & 5-Year) 	30.0%	Outstanding

ACQUISITIONS	10.0%	Outstanding
<ul style="list-style-type: none"> Acquisitions Levels and Yields 		

The primary factors considered by the Compensation Committee in assessing 2010 company performance were as follows:

- Common Stockholder Returns** We paid twelve regular monthly dividends during 2010 in the aggregate amount of \$1.721625 per share. The dividend was increased four times, which equated to a 0.9% increase over 2009. Based on an opening stock price for the year of \$25.91 and dividends of \$1.721625 per share, our stockholders received a yield of 6.6% during 2010. The price of our shares increased in 2010 from \$25.91 at December 31, 2009 to \$34.20 at December 31, 2010, an increase of \$8.29 per share or 32.0%. The 2010 total return to stockholders was 38.6% based on a share price increase of \$8.29 and dividends of \$1.721625 per share. As of December 31, 2010, compared to our peer groups, our total one-year, three-year and five-year return to stockholders was at the 95th, above the 100th, and 85th percentile, respectively, compared to the geography peer group and at the 75th, 94th and 92nd percentile compared to the size peer group. Overall, the Compensation Committee concurred that this was an outstanding total return for stockholders and an outstanding increasing dividend income to our stockholders, comparing very favorably to the market and our peer groups.

- Funds From Operations** FFO increased by \$3.3 million, or 1.7%, to \$193.7 million in 2010 from \$190.4 million in 2009. The dollar percentage increase in 2010 FFO was due to increases in revenue, primarily due to our \$304.1 million acquisition and lease-back of winery and vineyard properties from Diageo Chateau & Estates Winery Company and our \$247.6 million acquisition of 135 SuperAmerica convenience stores and one support facility, partially offset by increases in interest expense, from our issuance of \$250 million of 5.75% senior unsecured notes in June 2010, and increases in general and administrative expenses, primarily because of increases in employee costs,

Table of Contents

particularly in the acquisitions and research departments. On a per share basis, FFO decreased 0.5% to \$1.83, primarily due to the increase in the total shares outstanding as a result of common stock offerings in September 2010 and December 2010. As of December 31, 2010, compared to our peer groups, our one-year, three-year and five-year FFO per share growth was at the 79th, 64th and 64th percentile, respectively, compared to the geography peer group and at the 64th, 59th and 73rd percentile compared to the size peer group. Overall, the Compensation Committee concurred that the 1.7% increase in FFO and the \$1.83 in FFO per share in 2010 was excellent considering the market conditions and was excellent in comparison to the FFO growth of our peer groups on a one-year, three-year and five-year basis.

- Acquisitions** The level of our acquisitions for 2010 was \$713.5 million versus \$57.9 million in 2009. The cap rates or yields in 2010 averaged 7.9% as compared to 9.7% in 2009. The Compensation Committee concurred that the increased level of acquisitions, partially offset by the decline in cap rates which was a function of market conditions and improved credit quality, represented outstanding performance.
- Portfolio Management** Occupancy at year end was 96.6% or 84 properties available for lease at December 31, 2010 versus 96.8% or 75 properties available for lease at December 31, 2009. For 2010, we sold 20 vacant properties and leased 31 vacant properties to new tenants. During these difficult economic times, we averaged about one property sold or leased to a new tenant per week. In addition, during 2010, we renewed 66 leases to existing tenants, experienced 27 lease expirations that were not renewed and had 33 lease defaults. Considering the increase in the number of properties experiencing lease expiration and the properties returned to us being among our toughest properties to release, the Compensation Committee concurred that our occupancy level was excellent performance given the market conditions. During 2010, same store rents on 2,131 properties under lease increased by \$1.8 million, or 0.6%, as compared to 2009, which was also considered excellent performance given the general economy.
- Balance Sheet** At December 31, 2010, our total outstanding borrowings were \$1.6 billion of senior unsecured notes, or approximately 26.7% of our total market capitalization of \$6.0 billion. Likewise, for 2010, our debt to earnings before interest, taxes, depreciation and amortization (EBITDA) ratio was 5.1 times, our interest coverage ratio was 3.3 times and our fixed charge coverage ratio was 2.7 times. We currently have a strong balance sheet in the REIT industry and the Compensation Committee concurred that performance in this area was excellent.

Annual Cash Bonuses

Annual cash bonuses are designed to supplement the pay of our executive officers (and other key management personnel) so that their total compensation is competitive and properly rewards the executive officers for their efforts in achieving our objectives. For 2010, the Compensation Committee established targeted cash bonus payments, expressed as a percentage of base salary, to guide it in its determinations regarding the amount of bonus to be paid to each executive officer. The Compensation Committee may, at its discretion, deviate from these targeted bonus amounts based on company performance, the status of our industry, market conditions, individual performance, peer group practices and such other factors as it deems relevant.

The guideline percentages for 2010, which are the same percentages to be utilized in 2011, and the actual percentages paid for 2010, are as follows:

Named Executive Officer	Title	Targeted Base Salary Multiple	2010 Bonus(1)	Actual Base Salary Multiple
Thomas A. Lewis	Vice Chairman of the Board of Directors and Chief Executive Officer	2.00x	\$1,200,000	2.18x

John P. Case	Executive Vice President, Chief Investment Officer	1.00x	375,000	1.25x

(1) The bonuses shown for 2010 were paid in January 2011 to each of the Named Executive Officers based on 2010 performance.

Table of Contents

Based on our performance, our chief executive officer made recommendations to the Compensation Committee regarding the amount of cash bonus to be paid to the executive officers (other than himself). The Compensation Committee reviewed our performance, the targeted base salary multiple above, the recommendations of our chief executive officer, past bonus payments and the market data in determining the final bonus payment for each executive officer.

The Compensation Committee approved cash bonuses in January 2011 for the 2010 year, consistent with the amounts recommended by our chief executive officer. Bonuses awarded for the 2010 year exceeded targeted amounts in order to appropriately reward our named executive officers for our strong financial performance under each of our performance metrics. In addition, the additional amounts provided greater parity among the named executive officers. The amount of Mr. Lewis's bonus was also based upon the Compensation Committee's observation that our performance for 2010 was strong relative to our peer groups, as outlined above.

Equity Based Long-Term Incentive Awards

The Compensation Committee grants restricted stock awards on an annual basis in recognition of individual executive and company performance for the prior fiscal year. The restricted stock awards are designed to increase executive officers' common stock ownership, motivate our executive officers to improve long-term common stock dividend performance, encourage long-term dedication and operate as a retention mechanism for key members of our management. Consistent with the prior year methodology, restricted stock awards to our executive officers are approved by the Compensation Committee at their meeting in January of each year based on their review of the prior year performance.

The determination of the amount of restricted stock awards granted each January is based on how we performed under our performance metrics as previously discussed and on market data that year. While the restricted stock is not awarded until January of the succeeding year, the Compensation Committee considers these awards as earned based on our performance for the prior year. Thus, the restricted stock awards shown in the Grants of Plan Based Award table for 2010 were granted in January 2010 based on 2009 performance.

As part of its process of implementing its objectives to target total remuneration at or around the median of our peer groups, and to increase the percentage of compensation that is variable, at risk and tied to the interests of our stockholders, for 2010 the Compensation Committee determined a targeted base salary multiple for the restricted stock awards to be granted to each executive officer based on the executive officer's base salary. Actual awards depend on our performance in accordance with the performance metrics reviewed by the Compensation Committee at the close of each year and such other factors as the Compensation Committee determines are relevant. The targeted base salary multiples for the grants made for our 2010 performance to our named executive officers are set forth in the table below, along with the actual base salary multiple granted to such officers in early 2011. In light of our relatively strong performance for 2010, the Compensation Committee determined to increase the number of shares of restricted stock awarded to our executive officers. The increased shares also provide greater parity among the named executive officers. The Compensation Committee may, in its discretion, choose to grant shares either below or above this multiple, which remains the same for 2011 performance.

Table of Contents

Named Executive Officer	Title	Targeted Base Salary Multiple (2010 and 2011)	2011 Award for 2010 Performance(1)	Actual Base Salary Multiple(2)
Thomas A. Lewis	Vice Chairman of the Board of Directors and Chief Executive Officer	3.00x	58,400	3.59x
Gary M. Malino	President, Chief Operating Officer	2.00x	29,240	2.47x
Paul M. Meurer	Executive Vice President, Chief Financial Officer and Treasurer	1.75x	20,468	2.13x
Michael R. Pfeiffer	Executive Vice President, General Counsel and Secretary	1.75x	20,468	2.31x
John P. Case	Executive Vice President, Chief Investment Officer	1.75x	20,468	2.31x

(1) The grants of restricted stock on January 7, 2011 represent the awards to each of the Named Executive Officers based on 2010 performance.

(2) The actual base salary multiple represents the value of the January 7, 2011 award of restricted stock, calculated by multiplying the number of shares awarded times the closing price of our common stock on such date, as a percentage of the base salary paid to the respective executive officer in 2010.

Mr. Case was awarded a grant of 75,000 shares of restricted stock on April 26, 2010, the date he commenced employment with us, in order to incentivize him to join our Company and to ensure that he continued to receive a competitive compensation package commensurate with his prior employment.

Perquisites and Other Benefits

We provide medical and other benefits to our Named Executive Officers that are similar to those benefits offered to our full-time employees, including employer matching contributions to their 401(k) savings accounts and coverage under a health and disability insurance program.

When the Compensation Committee believes that it is necessary to successfully compete for executive talent, we will occasionally supply perquisites to a Named Executive Officer. During 2010, we paid Mr. Case \$125,000 to assist with his relocation from New York City, New York, to our corporate headquarters in Escondido, California, and \$90,500 for tax gross-ups on these relocation expenses. The Compensation Committee reviews such perquisites and other benefits provided to our executive officers as part of its overall review of executive compensation. The Compensation Committee has determined the type and amount paid in perquisites to be within the appropriate range of competitive compensation practices.

Severance and Change in Control Arrangements

We have entered into employment agreements with each of our Named Executive Officers, and other executive officers, which provide for severance payments and other benefits to the officers if their employment is terminated by us without cause or following a change of control of us. In general, the employment agreements provide that in the event of a change in control and a qualifying termination within 12 months after the change in control, we will provide severance equal to 18 months of base salary plus the average bonus paid over the past three years, and we will provide continued medical insurance for 18 months following termination. In the event a qualifying termination occurs prior to or later than 12 months following a change of control, the benefits equal 12 months of base salary plus the average bonus paid over the past three years, and we will provide continued medical insurance for 12 months following termination. In addition, upon a change of control the vesting of all unvested shares of restricted stock accelerates. The Compensation Committee believes these benefit levels are reasonable. The payments and benefit levels under the employment agreements did not influence and were not influenced by other elements of compensation. The agreements were designed to help attract and retain key employees, preserve employee morale and productivity and promote continuity of management in the event of an actual or threatened change in the control of us. These change in control benefits allow executives to assess takeover bids objectively without regard to the potential impact on his/her own job security. We do not provide any tax-gross up payments.

Tax Considerations

Section 162(m) of the Code limits the deductibility of compensation paid to our chief executive officer and our three other most highly compensated executive officers, other than the chief financial officer. To qualify for deductibility under Section 162(m), compensation (including base salary, annual bonus, stock option exercises, compensation attributable to vesting of stock grants and nonqualified benefits) in excess of \$1,000,000 per year paid to each of these executive officers generally must be performance based compensation as determined under Section 162(m). While the Compensation Committee considers whether to structure compensation so that it satisfies the performance based compensation requirements under Section 162(m), the Compensation Committee balances the costs and burdens involved in doing so against the value to us and our stockholders of the tax benefits to be obtained by us. Accordingly, the Compensation Committee reserves the right to design programs that recognize a full range of performance criteria important to our success, even where the compensation paid under such programs may not be fully deductible as a result of Section 162(m).

Despite the fact that our incentive bonuses and stock-related awards for 2010 were determined by taking into consideration certain financial and strategic goals, the Compensation Committee did not apply these factors on a strict formulaic basis. As a result, our incentive bonuses and stock-related awards granted or earned in 2010 did not satisfy the performance based compensation requirements of Section 162(m). As a result, compensation of \$2.9 million, in aggregate, was not deductible from a tax perspective for 2010.

Termination by Executive Officer. The executive officer may also terminate the agreement at any time upon two weeks notice to us, which will not result in any severance payments other than the payment of any accrued but unpaid wages and accrued but unused vacation pay to which the employee may be entitled prorated through the date of termination.

The employment agreements provide that the executive officer must devote his or her full time, attention and energy to our business and may not engage in any other business activity which would interfere with the performance of his or her duties or be competitive with us, unless specifically permitted by our Board of Directors. This restriction does not prevent the executive officer from making passive investments, so long as the investment does not require the executive officer's services in a manner that would impair the performance of his or her duties under the employment agreement.

Definitions. A termination for cause shall mean a discharge resulting from (a) theft, dishonesty or falsification of any employment or company records; (b) malicious or reckless disclosure of the company's confidential or proprietary information; (c) the commission of any immoral or illegal act or any gross or willful misconduct, where the company reasonably determines that such act or misconduct has (1) seriously undermined the ability of the company's management to entrust the executive officer with important matters or otherwise work effectively with the executive officer, (2) contributed to the company's loss of significant revenues or business opportunities, or (3) significantly and detrimentally effected the business or reputation of the company or any of its subsidiaries; and/or (d) the failure or refusal to work diligently to perform tasks or achieve goals reasonably requested by the Board of Directors, provided such breach, failure or refusal continues after the receipt of reasonable notice in writing of such failure or refusal and an opportunity to correct the problem.

The employment agreements define "change in control" to mean (i) an acquisition in one transaction or a series of related transactions of the company's voting securities by any individual or entity, immediately after which such person has beneficial ownership of fifty percent (50%) or more of the combined voting power of the company's then outstanding voting securities; (ii) a contested election of directors resulting in a change in composition of at least a majority of the members of the Board of Directors; or (iii) with limited exceptions, the consummation of a merger, consolidation or reorganization involving the company.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors of Realty Income Corporation, a Maryland corporation, or Realty Income, is comprised of independent directors as required by the listing standards of the New York Stock Exchange, or NYSE. The Audit Committee operates pursuant to a written charter, as required by the NYSE and the rules and regulations of the Securities and Exchange Commission, or the SEC, which was adopted by Realty Income's Board of Directors. In 2010, the Audit Committee met seven times.

The role of the Audit Committee is to select and engage KPMG LLP, our independent registered public accounting firm, and to oversee Realty Income's financial reporting process on behalf of the Board of Directors. Management of Realty Income has the primary responsibility for the preparation of Realty Income's consolidated financial statements as well as executing Realty Income's financial reporting process, principles and internal controls. The independent registered public accounting firm is responsible for performing an audit of Realty Income's consolidated financial statements and Realty Income's internal controls over financial reporting and expressing an opinion as to the conformity of such consolidated financial statements with U.S. generally accepted accounting principles and expressing an opinion on management's assessment of and the effectiveness of Realty Income's internal controls over financial reporting.

In this context, the Audit Committee has reviewed and discussed with management and KPMG LLP the audit of the consolidated financial statements and the audit of internal controls over financial reporting of Realty Income, as of and for the year ended December 31, 2010. The Audit Committee has discussed with KPMG LLP the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1 A.U. section 380), as adopted by the Public Company Oversight Board (PCAOB) in Rule 3200T. In addition, the Audit Committee has received the written disclosures and the letter from KPMG LLP required by applicable requirements of the PCAOB regarding KPMG LLP's communications with the Audit Committee concerning independence, and it has discussed with the auditors their independence from Realty Income and its management. The Audit Committee has also considered whether KPMG LLP's preparation of tax returns, tax consulting services and other non-audit services to Realty Income is compatible with maintaining KPMG LLP's independence.

Based on the reports and discussions described above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in Realty Income's Annual Report on Form 10-K for the year ended December 31, 2010, for filing with the SEC.

Submitted on March 14, 2011 by the members of the Audit Committee of Realty Income's Board of Directors.

Pre-Approval Policies and Procedures

The Audit Committee's charter provides that the Audit Committee has the sole authority and responsibility to pre-approve all audit and permitted non-audit services to be provided to us. Pursuant to its charter, the Audit Committee has established pre-approval policies and procedures for permitted non-audit services. The Audit Committee considers each engagement on a case-by-case basis according to certain required criteria, including the skill set necessary for the engagement and that the engagement should not involve work that would result in our registered public accounting firm eventually auditing their own work. The Audit Committee is regularly updated on the status of all outstanding engagements. If we anticipate that the fees for specific engagements may exceed the amount initially approved by the Audit Committee, the Audit Committee will consider proposals to increase the fees for such engagements on a case-by-case basis. The Audit Committee has delegated authority to its chairman to approve certain

non-audit engagement fees, provided that the decisions made pursuant to this delegated authority must be presented to the full Audit Committee at its next scheduled meeting. All of the services performed by KPMG LLP in 2010 were approved in advance by the Audit Committee pursuant to the foregoing pre-approval policy and procedures.
