Avenue Income Credit Strategies Fund

NOTES TO SCHEDULE OF INVESTMENTS

July 31, 2011 (Unaudited)

1. Organization

Avenue Income Credit Strategies Fund (the Fund) is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a non-diversified, closed-end management investment company. The Fund s primary investment objective is to seek a high level of current income, with a secondary objective of capital appreciation. The Fund commenced operations on January 27, 2011. Prior to that, the Fund had no operations other than matters relating to its organization and the sale and issuance of 5,240 common shares of beneficial interest (Common Shares) in the Fund to Avenue Capital Management II, L.P. (the Investment Adviser) at a price of \$19.10 per share.

2. Significant Accounting Policies

SECURITY VALUATION Debt obligations (including convertible bonds) are valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institutional-size trading in similar groups of securities, developments related to specific securities, dividend rate, yield, quality, type of issue, coupon rate, maturity, individual trading characteristics and other market data. Short-term debt securities purchased with a remaining maturity of sixty days or less are generally valued at amortized cost, which approximates market value.

Senior secured floating rate loans and senior secured floating rate debt securities are valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may reflect appropriate factors such as ratings, tranche type, industry, company performance, spread, individual trading characteristics, institutional size trading in similar groups of securities and other market data.

Where reliable market quotes are not readily available, loans and debt obligations are valued, where possible, using independent market indicators provided by independent pricing sources approved by the Board of Trustees. Any investment and other assets for which current market quotations are not readily available are valued at fair value as determined in good faith in accordance with procedures established by the Board of Trustees.

Forward foreign currency contracts are valued using quoted foreign exchange rates. Foreign securities and currencies are valued in U.S. dollars, based on foreign currency exchange rate quotations supplied by a third party pricing service. If events materially affecting the price of foreign portfolio securities occur between the time when their price was last determined on such foreign securities exchange or market and the time when the Fund s net asset value was last calculated, such securities may be valued at their fair value as determined in good faith in accordance with procedures established by the Board of Trustees.

SECURITY TRANSACTIONS AND INVESTMENT INCOME Investment transactions for financial statement purposes are accounted for on a trade date basis. Realized gains and losses on investments sold are determined on the basis of identified cost. Interest income is recorded on the basis of interest accrued, adjusted for amortization of premium or accretion of discount. Fees associated with loan amendments are recognized as incurred.

SENIOR LOANS The Fund purchases assignments of, and participations in, Senior Loans originated, negotiated and structured by a U.S. or foreign commercial bank, insurance company, finance company or other financial institution (the Agent) for a lending syndicate of financial institutions (the Lender). When purchasing an assignment, the Fund typically succeeds to all the rights and obligations under the loan of the assigning Lender and becomes a lender under the credit agreement with respect to the debt obligation purchased. Assignments may, however, be arranged through private negotiations between potential assignees and potential assignors, and the rights and obligations acquired by the purchaser of an assignment may differ from, and be more restricted than, those held by the assigning Lender. A participation typically results in a contractual relationship only with the institution participating out the interest, not with the borrower. In purchasing participations, the Fund generally will have no right to enforce compliance by the borrower with the terms of the loan agreement or any rights of setoff against the borrower, and the Fund may not directly benefit from the collateral supporting the debt obligation in which it has purchased the participation. As a result, the Fund will be exposed to the credit risk of both the borrower and the institution selling the participation.

Avenue Income Credit Strategies Fund

NOTES TO SCHEDULE OF INVESTMENTS (continued)

July 31, 2011 (Unaudited)

FOREIGN CURRENCY TRANSLATION Investment valuations, other assets, and liabilities initially expressed in foreign currencies are translated each business day into U.S. dollars based upon current exchange rates. Purchases and sales of foreign investment securities and income and expenses denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates in effect on the respective dates of such transactions. Recognized gains or losses on investment transactions attributable to changes in foreign currency exchange rates are recorded for financial statement purposes as net realized gains and losses on investments. That portion of unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

FORWARD FOREIGN CURRENCY CONTRACTS The Fund may enter into forward foreign currency contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. The Fund may enter into such forward contracts for hedging purposes. The forward foreign currency contracts are adjusted by the daily exchange rate of the underlying currency and any gains or losses are recorded as unrealized until such time as the contracts have been closed. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. In addition, these contracts may involve market risk in excess of the unrealized gain (loss) reflected in the Fund s Schedule of Investments.

REPURCHASE AGREEMENTS The Fund may engage in repurchase agreements with broker-dealers, banks and other financial institutions to earn incremental income on temporarily available cash which would otherwise be uninvested. A repurchase agreement is a short-term investment in which the purchaser (i.e., the Fund) acquires ownership of a security and the seller agrees to repurchase the obligation at a future time and set price, thereby determining the yield during the holding period. Such agreements are carried at the contract amount in the financial statements, which is considered to represent fair-value. Collateral pledged (the securities received), which consists primarily of U.S. government securities and those of its agencies or instrumentalities, at a value not less than the repurchase price is held by the custodian bank for the benefit of the Fund until maturity of the repurchase agreement. Repurchase agreements involve certain risks, including in the event of default by the other party.

3. Derivative Instruments and Hedging Activities

The Fund is subject to foreign exchange risk in the normal course of pursuing its investment objectives. Because the Fund holds foreign currency denominated investments, the value of these investments and related receivables and payables may change due to future changes in foreign currency exchange rates. To hedge against this risk, the Fund may enter into forward foreign currency contracts.

At July 31, 2011, the fair value of derivative instruments in an asset position and in a liability position and whose primary underlying risk exposure is foreign exchange risk was \$1,114,853 and \$(115,849), respectively.

4. Unrealized Appreciation/(Depreciation)

The cost and unrealized appreciation (depreciation) of investments of the Fund at July 31, 2011, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 178,364,255
Gross unrealized appreciation	\$ 1,239,040
Gross unrealized depreciation	(4,380,211)
Net unrealized depreciation	\$ (3,141,171)

Avenue Income Credit Strategies Fund						
NOTES TO SCHEDULE OF INVESTMENTS (continued)						
July 31, 2011 (Unaudited)						
5. Fair Value Measurements						
GAAP defines fair value as the price that would be received to sell an market participants at the measurement date, under current market convaluation methods giving the highest priority to readily available unad the lowest priority to significant unobservable inputs (Level 3) generate valuation inputs, the securities or other investments are tiered into in or out of an investment sassigned level:	ditions. GAAP establish justed quoted prices in a lly when market prices an	es a hierarchy that prioritizes the inputs to n active market for identical assets (Level 1) and re not readily available or are unreliable. Based on				
• Level 1 Prices are determined using quoted prices in an active	market for identical asset	s.				
• Level 2 Prices are determined using other significant observable use in pricing a security. These may include quoted prices for similar severities, default rates, discount rates, volatilities and others.						
• Level 3 Prices are determined using significant unobservable in (for example, when there is little or no market activity for an investme Unobservable inputs reflect the Fund s own assumptions about the factorities or instruments and would be based on the best available info	ent at the end of the period ctors market participants	d), unobservable inputs may be used.				
The following is a summary of the tiered valuation input levels, as of July 31, 2011. The Schedule of Investments includes disclosure of each security type by category and/or industry. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the Schedule of Investments may materially differ from the value received upon actual sale of those investments.						
During the period ended July 31, 2011, there were no significant transfers between investment levels.						
Quoted Prices in Active Markets for Identical	Other Significant Observable	Significant Unobservable				

	Assets (Level 1)	Inputs (Level 2)	Inputs (Level 3)	Total

NOTES TO SCHEDULE OF INVESTMENTS (concluded)

July 31, 2011 (Unaudited)

For information related to geographical and industry categorization of investments and types of derivative contracts held, please refer to the Schedule of Investments.

Item 2. Controls and Procedures.

(a) The registrant s principal executive officer and principal financial officer have concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act)) are effective as of a date within 90 days of the filing date of this report, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act and Rule 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended.

(b) There was no change in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant s last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.

Item 3. Exhibits.

Certifications of the principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act are attached hereto as Exhibit 99CERT.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
