Item 8.01 Other Events.

The following is an update to the disclosures on Maui Electric Company, Limited's (MECO's) 2012 test year rate case in Management's Discussion and Analysis of Financial Condition and Results of Operations under Most recent rate proceedings, which are incorporated herein by reference to pages 52-53 and 56 of HEI's and HECO's Quarterly Report on Form 10-Q for the quarter ended March 31, 2012.

On May 21, 2012, the Public Utilities Commission of the State of Hawaii (PUC) issued an interim Decision and Order (D&O) granting MECO an increase of \$13.1 million in annual revenues or 3.2%, over revenues at present rates. The PUC's interim D&O also authorized MECO to reset its target heat rates by fuel type to 2012 test year levels for the purpose of calculating the energy cost adjustment clause (ECAC) adjustment factor, which will help to ensure MECO's continuing recovery of its fuel costs. The tariff changes implementing these increases become effective June 1, 2012. If the interim rate increase exceeds the amount of the increase ultimately approved in the final D&O, then the excess would be refunded to MECO's customers, with interest.

The interim increase is based on MECO's updated settlement agreement filed on May 14, 2012, which reflected the settlement agreement executed with the Consumer Advocate and filed with the PUC on April 20, 2012, and updated to reflect the final D&O issued by the PUC on May 2, 2012 in MECO's 2010 test year rate case.

A comparison of MECO's requested increase in its application for a general rate increase filed on July 22, 2011, the settlement agreement filed April 20, 2012, the updated settlement filed on May 14, 2012, and the interim decision is as follows:

	Application (July 22, 2011)	Settlement Agreement (April 20, 2012)	Updated Settlement Agreement (May 14, 2012)	Interim D&O Effective (June 1, 2012)
Request amount	\$27.5 million (6.7% increase)	\$14.9 million (3.6% increase)	\$13.1 million (3.2% increase)	\$13.1 million (3.2% increase)
Return on average common equity (ROACE) (%)	11.0%	10.0%	10.0%	10.0%
Common equity capitalization (%)	56.85%	56.86%	56.86%	56.86%
Return on average rate base (%)	8.72%	7.91%	7.91%	7.91%
Average rate base amount	\$393 million	\$393 million	\$393 million	\$393 million

The total annual interim increase in revenues under the updated settlement agreement filed on May 14, 2012, decreased by \$1.8 million compared to the settlement agreement filed on April 20, 2012 to reflect the final D&O issued on May 2, 2012 in MECO's 2010 test year rate case.

The 10% ROACE reflects decoupling which was approved for implementation at MECO effective May 4, 2012, in the final D&O issued in MECO's 2010 test year rate case.

The requested increase in revenues is primarily to pay for the cost of improvements to integrate additional renewable energy and improve the reliability of service for MECO's Maui, Lanai and Molokai customers.

Management cannot predict or provide any assurances concerning the timing or ultimate outcome of MECO's 2012 test year rate case proceeding.

HEI and HECO intend to continue to use HEI's website, www.hei.com, as a means of disclosing additional information. Such disclosures will be included on HEI's website in the Investor Relations section. Accordingly, investors should routinely monitor such portions of HEI's website, in addition to following HEI's, HECO's and American Savings Bank, F.S.B.'s (ASB's) press releases, SEC filings and public conference calls and webcasts. Investors may also wish to refer to the Public Utilities Commission of the State of Hawaii (PUC) website at dms.puc.hawaii.gov/dms in order to review documents filed with and issued by the PUC.
