NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements of Dillard s, Inc. (the Company) have been prepared in accordance with the rules of the Securities and Exchange Commission (SEC). Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement have been included. Operating results for the three months ended April 28, 2012 are not necessarily indicative of the results that may be expected for the fiscal year ending February 2, 2013 due to the seasonal nature of the business.

These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended January 28, 2012 filed with the SEC on March 22, 2012.

Note 2. Business Segments

The Company operates in two reportable segments: the operation of retail department stores (retail operations) and a general contracting construction company (construction).

For the Company s retail operations, the Company determined its operating segments on a store by store basis. Each store s operating performance has been aggregated into one reportable segment. The Company s operating segments are aggregated for financial reporting purposes because they are similar in each of the following areas: economic characteristics, class of consumer, nature of products and distribution methods. Revenues from external customers are derived from merchandise sales, and the Company does not rely on any major customers as a source of revenue. Across all stores, the Company operates one store format under the Dillard s name where each store offers the same general mix of merchandise with similar categories and similar customers. The Company believes that disaggregating its operating segments would not provide meaningful additional information.

The following tables summarize certain segment information, including the reconciliation of those items to the Company s consolidated operations:

The Company has an unfunded, nonqualified defined benefit plan (Pension Plan) for its officers. The Pension Plan is noncontributory and provides benefits based on years of service and compensation during employment. Pension expense is determined using various actuarial cost methods to estimate the total benefits ultimately payable to officers and allocates this cost to service periods. The actuarial assumptions used to calculate pension costs are reviewed annually. The Company made contributions to the Pension Plan of \$1.1 million during the quarter ended April 28, 2012. The Company expects to make contributions to the Pension Plan of approximately \$3.9 million for the remainder of fiscal 2012.

Note 12. Fair Value Disclosures

The estimated fair values of financial instruments which are presented herein have been determined by the Company using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting market data to develop estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of amounts the Company could realize in a current market exchange.

The fair value of the Company's long-term debt and subordinated debentures is based on market prices or dealer quotes (for publicly traded unsecured notes) and on discounted future cash flows using current interest rates for financial instruments with similar characteristics and maturities (for bank notes and mortgage notes).

Edgar Filing: DILLARDS INC - Form 10-Q

The fair value of the Company's cash and cash equivalents and trade accounts receivable approximates their carrying values at April 28, 2012 due to the short-term maturities of these instruments. The fair value of the Company's long-term debt at April 28, 2012 was approximately \$702 million. The carrying value of the Company's long-term debt at April 28, 2012 was approximately \$691 million. The fair value of the subordinated debentures at April 28, 2012 was approximately \$204 million. The carrying value of the subordinated debentures at April 28, 2012 was \$200 million.

Table of Contents*Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis*

The FASB's accounting guidance utilizes a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value into three broad levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly; these include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions

(in thousands)	Fair Value of Assets	Basis of Fair Value Measurements		
		Quoted Prices In Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Long-lived assets held for sale				
As of April 28, 2012	\$ 12,689	\$	\$	\$ 12,689
As of January 28, 2012	17,348			17,348
As of April 30, 2011	\$ 26,348	\$	\$	\$ 26,348
As of January 29, 2011	27,548			27,548

During the quarter ended April 28, 2012, the Company sold two former retail store locations with carrying values totaling \$4.6 million.

During the quarter ended April 30, 2011, long-lived assets held for sale with a carrying value of \$27.5 million were written down to their fair value of \$26.3 million, resulting in an impairment charge of \$1.2 million, which was included in earnings for the period. The inputs used to calculate the fair value of these long-lived assets in both periods included selling prices from commercial real estate transactions for similar assets in similar markets that we estimated would be used by a market participant in valuing these assets.

Note 13. Recently Issued Accounting Standards*Fair Value Measurements and Disclosure*

Edgar Filing: DILLARDS INC - Form 10-Q

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The amendments in this update change the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements to ensure consistency between U.S. GAAP and IFRS. This update was effective for interim and annual periods beginning after December 15, 2011 and was to be applied prospectively. The adoption of this standard did not have a significant impact on the Company's financial statements.

Presentation of Comprehensive Income

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220) Presentation of Comprehensive Income*, to make the presentation of items within other comprehensive income (OCI) more prominent. The new standard requires companies to present items of net income, items of OCI and total comprehensive income in one continuous statement or two separate consecutive statements, and companies will no longer be allowed to present items of OCI in the statement of stockholders' equity. This new update was effective for interim and annual periods beginning after December 15, 2011 and was applied retrospectively. The adoption of this standard changed the order and placement where certain financial statement items are presented but did not have any other impact on the Company's financial statements.

In December 2011, the FASB issued ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-5* which deferred the requirement from the June 2011 guidance that related to the presentation of reclassification adjustments. The amendment will allow the FASB time to redeliberate whether to present on the face of the financial statements the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income for all periods presented.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the condensed consolidated financial statements and the footnotes thereto included elsewhere in this report, as well as the financial and other information included in our Annual Report on Form 10-K for the year ended January 28, 2012.

EXECUTIVE OVERVIEW

Building on the momentum from fiscal 2011, our first quarter of fiscal 2012 produced record operating results. Comparable store sales were up for the seventh consecutive quarter while retail operations gross profit, down 10 basis points of sales, was held nearly flat and our operating spending rate was down. Net income increased to \$95.0 million, or \$1.89 per share our highest historical first fiscal quarter earnings and earnings per share performances compared to \$76.7 million, or \$1.31 per share, for the first quarter of last year.

Included in net income for the prior year first quarter ended April 30, 2011 were:

- a \$4.2 million pretax gain (\$2.7 million after tax or \$0.05 per diluted share) related to a distribution from a mall joint venture and
- a \$1.2 million pretax charge (\$0.8 million after tax or \$0.01 per diluted share) for asset impairment and store closing charges related to the write-down of one property currently held for sale.

Highlights of the quarter ended April 28, 2012 included:

- Record first quarter net income of \$95.0 million, or \$1.89 per share, compared to \$76.7 million, or \$1.31 per share, for the quarter ended April 30, 2011,

- Operating expense improvement of 110 basis points of sales and

Cash flows from operating activities were \$98.5 million for the first quarter of fiscal 2012. We operated 304 Dillard's locations, including 17 clearance centers, and an internet store as of April 28, 2012, a decrease of 4 stores from the same period last year.

Table of Contents**Seasonality and Inflation**

Our business, like many other retailers, is subject to seasonal influences, with a significant portion of sales and income typically realized during the last quarter of our fiscal year due to the holiday season. Because of the seasonality of our business, results from any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year.

We do not believe that inflation has had a material effect on our results during the periods presented; however, our business could be affected by such in the future.

Total net sales	\$ 1,549,319	\$ 1,469,198	\$ 80,121

The percent change by category in the Company's retail operations segment sales for the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011, as well as the percentage by segment and category to total net sales, is as follows:

	% Change 2012-2011	% of Net Sales

Ladies apparel	3.8	24

Total		100%

Net sales from the retail operations segment increased \$66.5 million during the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011, increasing 5% in both total and comparable stores. Significant increases were noted in sales of ladies accessories and lingerie, shoes, men's apparel and accessories, and cosmetics over the prior year first quarter while sales in the home and furniture category were essentially flat.

We believe that we may continue to see some sales growth in the retail operations segment during fiscal 2012; however, there is no guarantee of improved sales performance.

The number of sales transactions decreased 2% for the quarter ended April 28, 2012 over the prior year period while the average dollars per sales transaction were up significantly. We recorded an allowance for sales returns of \$8.9 million and \$10.4 million for the quarters ended April 28, 2012 and April 30, 2011, respectively.

During the quarter ended April 28, 2012, net sales from the construction segment increased \$13.7 million, nearly doubling sales from the prior year first quarter because of an increase in new construction projects. We believe that we will continue to see some sales growth in the construction segment during fiscal 2012; however, there is no guarantee of improved sales performance. The backlog of awarded construction

contracts at April 28, 2012 totaled \$166.3 million.

Total service charges and other income	\$ 33,909	\$ 29,558	\$ 4,351	14.7%

Service charges and other income is composed primarily of income from the Alliance with GE. Income from the Alliance increased during the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011, primarily due to decreased credit losses and increases in finance charge and late charge fee income.

Construction segment	4.9	4.6	0.3

Gross profit declined 40 basis points of sales during the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011. Gross profit from retail operations declined 10 basis points of sales during the same comparable periods. Inventory in comparable stores increased 1% as of April 28, 2012 compared to April 30, 2011. A 1% change in the dollar amount of markdowns would have impacted net income by approximately \$2 million for the quarter ended April 28, 2012.

During the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011, gross margin declined moderately in men's apparel and accessories and home and furniture while gross margin declined only slightly in juniors' and children's apparel. All other merchandise categories were flat with the exception of ladies' apparel and ladies' accessories and lingerie, both of which improved slightly.

Edgar Filing: DILLARDS INC - Form 10-Q

We believe that gross margin from retail operations will improve slightly during fiscal 2012; however, there is no guarantee of improved gross margin performance.

Gross profit from the construction segment improved 30 basis points of sales during the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011 due to increased revenue and improved fee percentages on new contracts.

SG&A improved 110 basis points of sales during the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011 while total SG&A dollars increased \$4.0 million. The dollar increase was most noted in insurance (\$3.3 million), payroll and related taxes (\$3.2 million), primarily of selling payroll, and services purchased (\$3.1 million) partially offset by decreased net advertising expenditures (\$5.9 million) and utilities (\$2.1 million).

We believe that SG&A will improve slightly as a percentage of sales during fiscal 2012; however, there is no guarantee of improved SG&A performance.

Construction segment	13	13

The decrease in rental expense for the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011 is primarily due to a reduction in the amount of equipment leased by the Company.

We believe that rental expense will continue to decline significantly during fiscal 2012, with a current projected reduction of \$14 million from fiscal 2011, primarily as a result of the expiration of certain equipment leases.

The decrease in net interest and debt expense for the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011 is primarily attributable to lower average debt levels. Total weighted average debt decreased approximately \$54.8 million during the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011.

During the quarter ended April 30, 2011, the Company recorded a pretax charge of \$1.2 million for asset impairment and store closing costs. The charge was for the write-down of one property held for sale.

Income Taxes

The Company's estimated federal and state income tax rate, inclusive of income on and equity in losses of joint ventures, was approximately 35.8% for both quarters ended April 28, 2012 and April 30, 2011. During the quarter ended April 28, 2012, income tax expense differed from what would be computed using the statutory federal tax rate primarily due to the effect of state and local income taxes, which included net decreases in unrecognized tax benefits primarily related to statute lapses. During the quarter ended April 30, 2011, income tax expense differed from what would be computed using the statutory federal tax rate primarily due to the effect of state and local income taxes, which was partially offset by benefits recognized for federal tax credits which were not extended into fiscal 2012. Changes in the Company's assumptions and judgments can materially affect amounts recognized in the condensed consolidated balance sheets and statements of income.

Edgar Filing: DILLARDS INC - Form 10-Q

The Company's effective tax rate for fiscal 2012 is expected to approximate 36%. This rate may change if results of operations for fiscal 2012 differ from management's current expectations.

Income on Joint Venture

During the quarter ended April 30, 2011, the Company's retail operations segment received a distribution of excess cash from a mall joint venture of \$6.7 million and recorded a related gain of \$4.2 million in income on and equity in losses of joint ventures.

Table of Contents**FINANCIAL CONDITION**

A summary of net cash flows for the quarters ended April 28, 2012 and April 30, 2011 follows:

(in thousands of dollars)	Three Months Ended		
	April 28, 2012	April 30, 2011	\$ Change
Operating Activities	\$ 98,462	\$ 59,186	\$ 39,276
Investing Activities	(39,666)	(14,465)	(25,201)
Financing Activities	(32,383)	(240,746)	208,363
Total Cash Provided (Used)	\$ 26,413	\$ (196,025)	\$ 222,438

Net cash flows from operating activities increased \$39.3 million during the quarter ended April 28, 2012 compared to the quarter ended April 30, 2011. This improvement was primarily attributable to an increase of \$22.0 million related to changes in working capital items, primarily of changes in payables and inventories as the Company responded to improved sales trends. Net income, as adjusted for non-cash items, also raised operating cash flows by \$17.3 million for the quarter ended April 28, 2012 as compared to the quarter ended April 30, 2011.

GE owns and manages Dillard's branded proprietary credit card business under the Alliance that expires in fiscal 2014. The Alliance provides for certain payments to be made by GE to the Company, including a revenue sharing and marketing reimbursement. The Company received income of approximately \$25.2 million and \$21.1 million from GE during the quarters ended April 28, 2012 and April 30, 2011, respectively. While future cash flows under this Alliance are difficult to predict, the Company expects income from the Alliance to improve moderately during fiscal 2012 compared to fiscal 2011. The amount the Company receives is dependent on the level of sales on GE accounts, the level of balances carried on the GE accounts by GE customers, payment rates on GE accounts, finance charge rates and other fees on GE accounts, the level of credit losses for the GE accounts as well as GE's funding costs.

During the quarter ended April 28, 2012, the Company received proceeds of \$7.8 million from the sales of two former retail stores located in Cincinnati, Ohio and Antioch, Tennessee that were held for sale and one building that was formerly a portion of a currently operating retail location, resulting in a net gain of \$0.9 million.

Capital expenditures were \$47.5 million and \$17.0 million for the quarters ended April 28, 2012 and April 30, 2011, respectively. The current year expenditures were primarily for the remodeling of existing stores, purchase of equipment, including the buyout of certain leased equipment, and completion of the Company's new internet fulfillment center located in Maumelle, Arkansas, which began processing merchandise during the quarter. This new 850,000 square foot internet fulfillment center is replacing the Company's Nashville, Tennessee internet fulfillment center (285,000 square feet), which is expected to close mid-year fiscal 2012. We have also announced the upcoming closure of our Hutchinson Mall store location in Hutchinson, Kansas (70,000 square feet), which is expected to close during the second quarter of fiscal 2012. Both closures are expected to incur minimal closing costs. We remain committed to closing under-performing stores where appropriate and may incur future closing costs related to these stores when they close.

Capital expenditures for fiscal 2012 are expected to be approximately \$175 million compared to actual expenditures of \$116 million during fiscal 2011. There are no planned store openings for fiscal 2012.

Edgar Filing: DILLARDS INC - Form 10-Q

During the quarter ended April 30, 2011, the Company received a distribution of excess cash from a mall joint venture of \$6.7 million and recorded a related gain of \$4.2 million in income on and equity in losses of joint ventures.

The Company had cash on hand of approximately \$250.7 million as of April 28, 2012. As part of our overall liquidity management strategy and for peak working capital requirements, the Company maintains a \$1.0 billion credit facility. During the quarter ended April 28, 2012, the Company amended and extended this credit facility, which now has higher availability for the same amount of pledged inventory as the previous agreement and expires April 11, 2017.

Limited to 90% of the inventory of certain Company subsidiaries, availability for borrowings and letter of credit obligations under the credit agreement was \$1.0 billion at April 28, 2012. No borrowings were outstanding at April

Table of Contents

28, 2012. Letters of credit totaling \$85.1 million were issued under this credit agreement leaving unutilized availability under the facility of approximately \$915 million at April 28, 2012.

During the quarter ended April 28, 2012, the Company repurchased 439 thousand shares of stock for \$27.5 million at an average price of \$62.71 per share under its May 2011 Stock Plan. During the quarter ended April 30, 2011, the Company repurchased 6.4 million shares of stock for \$268.7 million (including the accrual of \$21.6 million of share repurchase that had not settled as of April 30, 2011) at an average price of \$41.95 per share under its 2010 and February 2011 Stock Plans. At April 28, 2012, no authorization remained under the May 2011, February 2011 or 2010 Stock Plans, and \$250.0 million of authorization remained under the Company's 2012 Stock Plan. The ultimate disposition of the repurchased stock has not been determined.

During fiscal 2012, the Company expects to finance its capital expenditures and its working capital requirements, including required debt repayments and stock repurchases, from cash on hand, cash flows generated from operations and utilization of the credit facility. During fiscal 2012, the Company expects peak borrowings to not exceed \$200 million. Depending on conditions in the capital markets and other factors, the Company will from time to time consider other possible financing transactions, the proceeds of which could be used to refinance current indebtedness or for other corporate purposes.

There have been no material changes in the information set forth under caption "Contractual Obligations and Commercial Commitments" in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in the Company's Annual Report on Form 10-K for the fiscal year ended January 28, 2012.

OFF-BALANCE-SHEET ARRANGEMENTS

The Company has not created, and is not party to, any special-purpose entities or off-balance-sheet arrangements for the purpose of raising capital, incurring debt or operating the Company's business. The Company does not have any off-balance-sheet arrangements or relationships that are reasonably likely to materially affect the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or the availability of capital resources.

NEW ACCOUNTING STANDARDS

Fair Value Measurements and Disclosure

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The amendments in this update change the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements to ensure consistency between U.S. GAAP and IFRS. This update was effective for interim and annual periods beginning after December 15, 2011 and was to be applied prospectively. The adoption of this standard did not have a significant impact on the Company's financial statements.

Presentation of Comprehensive Income

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220) Presentation of Comprehensive Income*, to make the presentation of items within other comprehensive income (OCI) more prominent. The new standard requires companies to present items of net income, items of OCI and total comprehensive income in one continuous statement or two separate consecutive statements, and companies will no longer be allowed to present items of OCI in the statement of stockholders' equity. This new update was effective for interim and annual periods beginning after December 15, 2011 and was applied retrospectively. The adoption of this standard changed the order and placement where certain financial statement items were presented but did not have any other impact on the Company's financial statements.

In December 2011, the FASB issued ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-5* which deferred the requirement from the June 2011 guidance that related to the presentation of reclassification adjustments. The amendment will allow the FASB time to redeliberate whether to present on the face of the financial statements

the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income for all periods presented.
