Harte-Hanks, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

Note A - Basis of Presentation

Consolidation

The accompanying unaudited Condensed Consolidated Financial Statements include the accounts of Harte-Hanks, Inc. and its subsidiaries (the Company). All intercompany accounts and transactions have been eliminated in consolidation.

As used in this report, the terms Harte-Hanks, we, us or our may refer to Harte-Hanks, one or more of its consolidated subsidiaries, or all of them taken as a whole.

Interim Financial Information

The financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013. The information included in this Form 10-Q should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and notes thereto included in our annual report on Form 10-K for the year ended December 31, 2012.

Discontinued Operations

As discussed in Note M, *Discontinued Operations*, we sold the assets of our Florida Shoppers operations on December 31, 2012. The operating results of our Florida Shoppers are being reported as discontinued operations in the Consolidated Financial Statements. Unless otherwise stated, amounts related to the Florida Shoppers operations are excluded from the Notes to Consolidated Financial Statements for all periods presented.

Sale of Belgium Facility

Edgar Filing: HARTE HANKS INC - Form 10-Q

In the first quarter of 2013, we sold the facility where our Hasselt, Belgium direct marketing business was located for net proceeds of \$4.6 million. At the time of the sale, the book value of this facility was \$3.7 million, and the transaction resulted in a \$0.9 million gain. This gain is included in Other, net in the Consolidated Statements of Comprehensive Income. This direct marketing business now operates in leased space in Hasselt, Belgium.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results and outcomes could differ from those estimates and assumptions. On an ongoing basis management reviews its estimates based on currently available information. Changes in facts and circumstances could result in revised estimates and assumptions.

Operating Expense Presentation in Consolidated Statements of Comprehensive Income

Labor in the Consolidated Statements of Comprehensive Income includes all employee payroll and benefits, including stock-based compensation, along with temporary labor costs. Production and distribution and Advertising, selling, general and administrative do not include labor, depreciation or amortization.

Table of Contents

Note B - Recent Accounting Pronouncements

In the first quarter of 2013, we adopted Accounting Standards Update (ASU) 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*. ASU 2013-02 addresses the presentation of reclassification adjustments, which was deferred in the initial issuance of ASU 2011-05, *Presentation of Comprehensive Income*. ASU 2013-02 requires entities to disclose:

- For items reclassified out of accumulated other comprehensive income and into net income in their entirety, the effect of the reclassification on each affected net income line item, and
- For accumulated other comprehensive income reclassification items that are not reclassified in their entirety into net income, a cross reference to other required U.S. GAAP disclosures.

In connection with this adoption we have added the required disclosures in Note J, *Comprehensive Income*. The adoption of ASU 2013-02 did not affect our operating results, cash flows or financial position.

Note C - Fair Value of Financial Instruments

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs used in valuation methodologies into three levels:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Edgar Filing: HARTE HANKS INC - Form 10-Q

Because of their maturities and/or variable interest rates, certain financial instruments have fair values approximating their carrying values. These instruments include cash and cash equivalents, accounts receivable and trade payables. The fair value of our outstanding debt is disclosed in Note E, *Long-Term Debt*.

Note D - Goodwill

As of March 31, 2013 and December 31, 2012, we had goodwill of \$408.7 million. Under the provisions of FASB ASC 350, *Intangibles-Goodwill and Other*, goodwill is tested for impairment at least annually, or more frequently if events or circumstances indicate that it is more likely than not that goodwill might be impaired. Such events could include a significant change in business conditions, a significant negative regulatory outcome or other events that could negatively affect our business and financial performance. We perform our annual goodwill impairment assessment as of November 30th of each year.

Table of Contents**Note E - Long-Term Debt**

Our long-term debt obligations were as follows:

In thousands	March 31, 2013	December 31, 2012
2010 Revolving Credit Facility, various interest rates based on LIBOR, due August 12, 2013 (\$60.5 million capacity at March 31, 2013)	0	0
2011 Term Loan Facility, various interest rates based on LIBOR (effective rate of 2.20% at March 31, 2013), due August 16, 2016	107,188	110,250
Total debt	107,188	110,250
Less current maturities	12,250	12,250
Total long-term debt	\$ 94,938	\$ 98,000

The carrying values and estimated fair values of our outstanding debt were as follows:

In thousands	March 31, 2013		December 31, 2012	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Total debt	\$ 107,188	\$ 107,188	\$ 110,250	\$ 110,250

The estimated fair values were calculated using current rates provided to us by our bankers for debt of the same remaining maturity and characteristics. These current rates are considered Level 2 inputs under the fair value hierarchy established by FASB ASC 820, *Fair Value Measurements and Disclosures*, (ASC 820).

Note F - Stock-Based Compensation

We recognized \$1.3 million and \$1.0 million of stock-based compensation during the three months ended March 31, 2013 and 2012, respectively.

Our annual grant of stock-based awards occurred in the first quarter of 2013, consistent with the timing of previous annual grants. All stock-based awards granted in the first quarter of 2013 were granted under the 2005 Omnibus Incentive Plan (2005 Plan). These grants consisted of:

Number	Weighted- Average Grant-Date
--------	------------------------------------

Edgar Filing: HARTE HANKS INC - Form 10-Q

	of Shares		Fair Value
Stock options	668,600	\$	2.09
Non-vested shares	461,210	\$	7.73
Performance stock units	183,000	\$	7.10

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model. These options become exercisable in 25% increments on the first, second, third and fourth anniversaries of their date of grant, and expire on the tenth anniversary of their date of grant. All stock options granted in the first quarter of 2013 have exercise prices equal to the market value of the common stock on the date of grant. Market value is defined by the 2005 Plan as the closing price on the previous trading day. The weighted-average exercise price of options granted in the first quarter of 2013 was \$7.72.

Table of Contents

The fair value of each non-vested share is estimated on the date of grant as the closing market price of our common stock on the date of grant. All non-vested shares granted in the first quarter of 2013 vest in three equal increments on the first, second and third anniversaries of their date of grant.

The fair value of each performance stock unit is estimated on the date of grant as the closing market price of our common stock on the date of grant, minus the present value of anticipated dividend payments. Performance stock units are a form of share-based awards similar to non-vested shares, except that the number of shares ultimately issued is based on our performance against specific performance goals over a three-year period. At the end of the performance period, the number of shares of stock issued will be determined by adjusting upward or downward from the maximum in a range between 0% and 100%.

Note G - Components of Net Periodic Pension Benefit Cost

Prior to January 1, 1999, we maintained a defined benefit pension plan for which most of our employees were eligible. We elected to freeze benefits under this defined benefit pension plan as of December 31, 1998.

In 1994, we adopted a non-qualified, unfunded, supplemental pension plan covering certain employees, which provides for incremental pension payments so that total pension payments equal those amounts that would have been payable from our principal pension plan if it were not for limitations imposed by income tax regulations. The benefits under this supplemental pension plan continue to accrue as if the principal pension plan had not been frozen.

Net pension cost for both plans included the following components:

In thousands	Three Months Ended March 31,			
	2013		2012	
Service cost	\$	86	\$	117
Interest cost		1,809		1,960
Expected return on plan assets		(1,846)		(1,683)
Amortization of prior service cost		0		1
Recognized actuarial loss		1,672		1,500
Net periodic benefit cost	\$	1,721	\$	1,895

We made contributions to our funded, frozen pension plan of \$1.0 million in the first quarter of 2013. We plan to make additional contributions of \$3.6 million to this pension plan during the remainder of 2013. These contributions to our funded, frozen pension plan are being made in order to obtain the Pension Protection Act of 2006 full funding limit exemption.

We are not required to make and do not intend to make any contributions to our unfunded, supplemental pension plan in 2013 other than to the extent needed to cover benefit payments. We expect benefit payments under this supplemental pension plan to total \$1.4 million in 2013.

Note H - Income Taxes

Our first quarter 2013 income tax expense of \$4.0 million resulted in an effective income tax rate of 37.2%. Our first quarter 2012 income tax provision of \$4.9 million resulted in an effective income tax rate of 39.7%. Our effective income tax rate is derived by estimating pretax income and income tax expense for the year ending December 31, 2013. The effective income tax rate calculated for the first quarter of 2013 is higher than the federal statutory rate of 35.0%, primarily due to the addition of state income taxes.

Table of Contents

Harte-Hanks, or one of our subsidiaries, files income tax returns in the U.S. federal, U.S. state and foreign jurisdictions. For U.S. state and foreign returns, we are no longer subject to tax examinations for tax years prior to 2008. For U.S. federal returns, we are no longer subject to tax examinations for tax years prior to 2009.

We have elected to classify any interest expense and penalties related to income taxes within income tax expense in our Consolidated Statements of Comprehensive Income. We did not have a significant amount of interest or penalties accrued at March 31, 2013 or December 31, 2012.

Note I - Earnings Per Share

Basic earnings per share is computed on the basis of the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share is computed on the basis of the weighted average number of shares of common stock plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares include outstanding stock options and non-vested shares.

Reconciliations of basic and diluted earnings per share (EPS) are as follows:

In thousands, except per share amounts	Three Months Ended March 31,	
	2013	2012
Net Income		
Income from continuing operations	\$ 6,667	\$ 7,435
Loss from discontinued operations	0	(642)
Net income	\$ 6,667	\$ 6,793
Basic EPS		
Weighted-average common shares outstanding used in earnings per share computations	62,471	62,910
Basic earnings (loss) per share		
Continuing operations	\$ 0.11	\$ 0.12
Discontinued operations	0.00	(0.01)
Net income	\$ 0.11	\$ 0.11
Diluted EPS		
Shares used in diluted earnings per share computations	62,669	63,273
Diluted earnings per common share		
Continuing operations	\$ 0.11	\$ 0.12
Discontinued operations	0.00	(0.01)
Net income	\$ 0.11	\$ 0.11
Computation of Shares Used in Earnings Per Share Computations		
Weighted-average common shares outstanding	62,471	62,910
Weighted-average common equivalent shares - dilutive effect of stock options and awards	198	363

Edgar Filing: HARTE HANKS INC - Form 10-Q

Shares used in diluted earnings per share computations	62,669	63,273
--	--------	--------

4.4 million and 5.1 million anti-dilutive market price options have been excluded from the calculation of shares used in the diluted EPS calculation for the three months ended March 31, 2013 and 2012, respectively. 0.4 million and 0.2 million anti-dilutive non-vested shares have been excluded from the calculation of shares used in

[Table of Contents](#)

the diluted EPS calculation for the three months ended March 31, 2013 and 2012, respectively.

Note J Comprehensive Income

Comprehensive income for a period encompasses net income and all other changes in equity other than from transactions with our stockholders. Our comprehensive income was as follows:

In thousands	Three Months Ended March 31,			
	2013		2012	
Net income	\$	6,667	\$	6,793
Other comprehensive income:				
Adjustment to pension liability		1,672		1,501
Tax expense		(669)		(600)
Adjustment to pension liability, net of tax		1,003		901
Foreign currency translation adjustment		(1,130)		886
Total other comprehensive income (loss), net of tax		(127)		1,787
Total comprehensive income	\$	6,540	\$	8,580

Changes in accumulated other comprehensive income by component are as follows:

In thousands	Defined Benefit Pension Items	Foreign Currency Items	Total
Balance at December 31, 2012	\$ (54,431)	\$ 4,697	\$ (49,734)
Other comprehensive loss, net of tax, before reclassifications	0	(1,130)	(1,130)
Amounts reclassified from accumulated other comprehensive income, net of tax	1,003	0	1,003
Net current period other comprehensive income (loss), net of tax	1,003	(1,130)	(127)
Balance at March 31, 2013	\$ (53,428)	\$ 3,567	\$ (49,861)

In thousands	Defined Benefit Pension Items	Foreign Currency Items	Total
Balance at December 31, 2011	\$ (48,705)	\$ 3,382	\$ (45,323)
Other comprehensive income, net of tax before reclassifications	0	886	886
Amounts reclassified from accumulated other comprehensive income, net of tax	901	0	901
Net current period other comprehensive income, net of tax	901	886	1,787
Balance at March 31, 2012	\$ (47,804)	\$ 4,268	\$ (43,536)

Reclassification amounts related to the defined pension plans are included in the computation of net period pension benefit cost (see Note G, *Components of Net Periodic Pension Benefit Cost*).

Table of Contents**Note K Litigation Contingencies**

In the normal course of our business, we are obligated under some agreements to indemnify our clients as a result of claims that we infringe on the proprietary rights of third parties. The terms and duration of these commitments vary and, in some cases, may be indefinite, and certain of these commitments do not limit the maximum amount of future payments we could become obligated to make there under; accordingly, our actual aggregate maximum exposure related to these types of commitments cannot be reasonably estimated. Historically, we have not been obligated to make significant payments for obligations of this nature, and no liabilities have been recorded for these obligations in our financial statements.

We are also currently subject to various other legal proceedings in the course of conducting our businesses and, from time to time, we may become involved in additional claims and lawsuits incidental to our businesses. In the opinion of management, after consultation with counsel, none of these matters is currently considered to be reasonably possible of resulting in a material adverse effect on our consolidated financial position or results of operations. Nevertheless, we cannot predict the impact of future developments affecting our pending or future claims and lawsuits and any resolution of a claim or lawsuit within a particular fiscal quarter may adversely impact our results of operations for that quarter. We expense legal costs as incurred, and all recorded legal liabilities are adjusted as required as better information becomes available to us. The factors we consider when recording an accrual for contingencies include, among others: (i) the opinions and views of our legal counsel; (ii) our previous experience; and (iii) the decision of our management as to how we intend to respond to the complaints.

Note L Business Segments

Harte-Hanks is a worldwide, direct and targeted marketing company with operations in two segments Direct Marketing and Shoppers.

Information about the operations of our two business segments follows:

In thousands	Three Months Ended March 31,	
	2013	2012
Operating revenues		
Direct Marketing	\$ 132,352	\$ 139,456
Shoppers	45,980	46,586

Table of Contents**Note M Discontinued Operations**

We sold the assets of our Florida Shoppers operations to Coda Media Corp. on December 31, 2012. Because the Florida Shoppers represent a distinct business unit with operations and cash flows that can clearly be distinguished, both operationally and for financial purposes, from the rest of Harte-Hanks, Inc., the results of the Florida Shoppers operations are reported as discontinued operations for all periods presented. Results of the remaining Harte-Hanks, Inc. business segments are reported as continuing operations.

Summarized operating results for the Florida Shoppers discontinued operations are as follows:

In thousands	Three Months Ended March 31,			
	2013		2012	
Revenues	\$	0	\$	9,130
Loss from discontinued operations before income taxes		0		(1,045)
Income tax benefit		0		403
Loss from discontinued operations	\$	0	\$	(642)

The major components of cash flows for the Florida Shoppers discontinued operations are as follows;

In thousands	Three Months Ended March 31,			
	2013		2012	
Loss from discontinued operations	\$	0	\$	(642)
Depreciation and software amortization		0		192
Intangible asset amortization		0		143
Other, net		0		478
Net cash provided by discontinued operations	\$	0	\$	171

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**Cautionary Note Regarding Forward-Looking Statements**

This report, including this Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A), contains forward-looking statements within the meaning of the federal securities laws. All such statements are qualified by this cautionary note, which is provided pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements may also be included in our other public filings, press releases, our website and oral and written presentations by management. Statements other than historical facts are forward-looking and may be identified by words such as may, will, expects, believes, anticipates, plans, estimates, seeks, could, intends, or words of similar meaning. Examples include statements regarding (1) our strategic initiatives, (2) adjustments to our cost structure and other actions designed to respond to market conditions and improve our performance, and the anticipated effectiveness and expenses associated with these actions, (3) our financial outlook for revenues, earnings per share, operating

Edgar Filing: HARTE HANKS INC - Form 10-Q

income, expense related to equity-based compensation, capital resources and other financial items, (4) expectations for our businesses and for the industries in which we operate, including with regard to the negative performance trends in our Shoppers business and the adverse impact of continuing economic uncertainty in the United States and other economies on the marketing expenditures and activities of our Direct Marketing clients and prospects, (5) competitive factors, (6) acquisition, disposition of assets and development plans, (7) our stock repurchase program, (8) expectations

Edgar Filing: HARTE HANKS INC - Form 10-Q

Table of Contents

regarding legal proceedings and other contingent liabilities, and (9) other statements regarding future events, conditions or outcomes.

These forward-looking statements are based on current information, expectations and estimates and involve risks, uncertainties, assumptions and other factors that are difficult to predict and that could cause actual results to vary materially from what is expressed in or indicated by the forward-looking statements. In that event, our business, financial condition, results of operations or liquidity could be materially adversely affected and investors in our securities could lose part or all of their investments. Some of these risks, uncertainties, assumptions and other factors can be found in our filings with the Securities and Exchange Commission, including the factors discussed under Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2012 (2012 Form 10-K) and in the Cautionary Note Regarding Forward-Looking Statements in our first quarter 2013 earnings release issued on April 25, 2013. The forward-looking statements included in this report and those included in our other public filings, press releases, our website and oral and written presentations by management are made only as of the respective dates thereof, and we undertake no obligation to update publicly any forward-looking statement in this report or in other documents, our website or oral statements for any reason, even if new information becomes available or other events occur in the future.

Overview

The following MD&A section is intended to help the reader understand the results of operations and financial condition of Harte-Hanks, Inc. (Harte-Hanks). This section is provided as a supplement to, and should be read in conjunction with, our financial statements and the accompanying notes to the financial statements contained elsewhere in this report and our MD&A section, financial statements and accompanying notes to financial statements in our 2012 Form 10-K. Our 2012 Form 10-K contains a discussion of other matters not included herein, such as disclosures regarding critical accounting policies and estimates, and contractual obligations.

Harte-Hanks is a worldwide direct and targeted marketing company that provides multichannel direct and digital marketing services and shopper advertising opportunities to a wide range of local, regional, national and international consumer and business-to-business marketers. We manage our operations through two operating segments: Direct Marketing, which operates both nationally and internationally, and Shoppers, which operates in certain California markets.

Our Direct Marketing services offer a wide variety of integrated, multichannel, data-driven solutions for top brands around the globe. We help our clients gain insight into their customers' behaviors from their data and use that insight to create innovative multichannel marketing programs to deliver a return on marketing investment. We believe our clients' success is determined not only by how good their tools are, but how well we help them use the tools to gain insight and analyze their consumers. This results in a strong and enduring relationship between our clients and their customers. We offer a full complement of capabilities and resources to provide a broad range of marketing services and data management software, in media from direct mail to email, including:

- agency and digital services;
- database marketing solutions;
- data quality software and services with Trillium Software;
- business-to-business lead generation;

Edgar Filing: HARTE HANKS INC - Form 10-Q

- direct mail and fulfillment; and
- contact centers.

Revenues from the Direct Marketing segment represented approximately 74% of our total revenues for the three months ended March 31, 2013.

Edgar Filing: HARTE HANKS INC - Form 10-Q

Table of Contents

Harte-Hanks Shoppers is North America's largest owner, operator and distributor of shopper publications, based on weekly circulation and revenues. Shoppers are weekly advertising publications, 7 by 10 inches in size, distributed free by Standard Mail to households and businesses in a particular geographic area. Through print and digital offerings, Shoppers is a trusted local source for saving customers money and helping businesses grow. Shoppers offer advertisers a geographically targeted, cost-effective local advertising system, with virtually 100% penetration in their area of distribution. Shoppers are particularly effective in large markets with high media fragmentation in which major metropolitan newspapers generally have low penetration. Our Shoppers segment also provides online advertising and other services through our website, *PennySaverUSA.com*®, as well as business websites and search engine marketing. Our websites are online advertising portals, bringing buyers and sellers together through our online offerings, such as local classifieds, business listings, coupons, special offers and PowerSites. PowerSites are templated websites for our customers, optimized to help small and medium-sized business owners establish a web presence and improve their lead generation. At March 31, 2013, we were publishing approximately 5,600 PowerSites weekly.

On December 31, 2012 we sold the assets of our Florida Shoppers operations, The Flyer®. Because the Florida Shoppers represent a distinct business unit with operations and cash flows that can clearly be distinguished, both operationally and for financial purposes, from the rest of Harte-Hanks, Inc., the results of the Florida Shoppers operations are reported as discontinued operations for all periods presented. Results of the remaining Harte-Hanks, Inc. business segments are reported as continuing operations.

After this sale, Harte-Hanks Shoppers no longer has any operations or circulation in the state of Florida. All of our Shopper operations are now located in California, and our California publications now account for all of Shoppers weekly circulation.

At March 31, 2013 our Shoppers publications were zoned into approximately 780 separate editions with total circulation of approximately 9.1 million shopper packages in California each week. Our distribution products can be zoned even tighter, into approximately 2,400 subzones. Shoppers are delivered in six major markets each week, covering Southern, Central and Northern California.

Revenues from the Shoppers segment represented approximately 26% of our total revenues for the three months ended March 31, 2013.

We derive revenues from the sale of direct marketing services and shopper advertising services.

As a worldwide business, Direct Marketing is affected by general national and international economic and business conditions. Marketing budgets are often more discretionary in nature, and are easier to reduce in the short-term than other expenses in response to weak economic conditions. Direct Marketing revenues are also affected by the economic fundamentals of each industry that we serve, various market factors, including the demand for services by our clients, and the financial condition of and budgets available to specific clients, among other factors. We remain committed to making the investments necessary to execute our multichannel strategy while also continuing to adjust our cost structure to reduce costs in the parts of the business that are not growing as fast. We believe these actions will improve our profitability in future periods.

Our Shoppers business operates in regional markets in California and is greatly affected by the strength of the state and local economies. Revenues from our Shoppers business are largely dependent on local advertising expenditures in the areas of California in which we operate. During the first quarter of 2013, the poor economic conditions that we have experienced since the second half of 2007 in California continued. These conditions were initially created by weakness in the real estate and associated financing markets and have spread and persist across

Edgar Filing: HARTE HANKS INC - Form 10-Q

virtually all categories. We see some improvement in the California economy, but we expect to have further challenges before our performance improves. In response, during 2012, we continued our efforts to reduce expenses in the Shoppers business, primarily through organizational restructuring, and the discontinuance of a

Table of Contents

number of unprofitable digital initiatives, including SaverTime and mobile apps. We are in the process of consolidating our production facilities from four plants to three plants and we expect to close our production facility in Northern California in mid 2013. We continue to invest in online offerings, particularly our PowerSites, which provide value for our readers and advertisers, and in other profitable digital initiatives. We believe the steps we are taking to improve overall efficiency, combined with our continued investments in digital initiatives, will improve our Shoppers performance in the long term.

Our principal operating expense items are labor, postage and transportation.

Results of Continuing Operations

As discussed in Note M, *Discontinued Operations*, we sold the assets of our Florida Shoppers operations on December 31, 2012. Therefore, the operating results of our Florida Shoppers, are being reported as discontinued operations in the Consolidated Financial Statements, and are excluded from management's discussion and analysis of financial condition and results of operations below.

Operating results from our continuing operations, direct marketing and California shoppers, were as follows:

Revenues	\$	178,332	\$	186,042	-4.1%
Operating expenses		168,158		172,066	-2.3%
Operating income	\$	10,174	\$	13,976	-27.2%
Income from continuing operations	\$	6,667	\$	7,435	-10.3%
Diluted earnings per share from continuing operations	\$	0.11	\$	0.12	-8.3%

1st Quarter 2013 vs. 1st Quarter 2012*Revenues*

Consolidated revenues decreased 4.1%, to \$178.3 million, in the first quarter of 2013 compared to the first quarter of 2012 due to decreased revenues of \$7.1 million, or 5.1%, from our Direct Marketing segment and decreased revenues of \$0.6 million, or 1.3%, from our Shoppers segment. Direct Marketing results reflect the impact of a 32% decline in revenues from the pharmaceutical vertical, including the effect of volume reductions from a long standing customer beginning in the second quarter of 2012, and the loss of another long standing customer in the third quarter of 2012. Direct Marketing experienced decreased revenues from our pharmaceutical, automotive and consumer brands, select and high-tech verticals, and increased revenues from our financial and retail verticals compared to the prior year quarter. Shoppers revenue performance reflects decreased in-book advertising, partially offset by increased revenues from distribution products. From an industry perspective, Shoppers revenues decreased from the services, automotive, real estate and communications sectors, and increased from the

consumer spending sector.

Operating Expenses

Overall operating expenses decreased 2.3%, to \$168.2 million, in the first quarter of 2013 compared to the first quarter of 2012. This \$3.9 million decrease was driven by decreased operating expenses in Direct Marketing of \$4.3 million, or 3.5%, and decreased operating expenses of \$0.1 million, or 0.3%, in Shoppers, partially offset by an increase in general corporate expense of \$0.5 million, or 17.0%. The decrease at Direct Marketing was primarily due to reductions in temporary labor, as a result of revenue performance, decreased mail supply chain costs resulting from decreased volumes, and decreased bad debt expense. The overall decrease at Direct Marketing was partially offset by increased outsourced costs resulting from increased outsourced volumes, and increased promotion expense. The decrease at Shoppers was due to lower payroll costs from lower ad sales and headcount reductions, decreases in newsprint and job paper expenses due to declines in volumes, and lower

Table of Contents

service fees related to our web products. The overall decrease at Shoppers was partially offset by an increase in offload printing costs due to an increase in heatset volumes, an increase in outsourced costs due to increased outsourced volumes, and an increase in postage costs resulting from the January 2013 postage rate increase.

Income/Earnings Per Share from Continuing Operations

Income from continuing operations decreased 10.3%, to \$6.7 million, and diluted earnings per share from continuing operations decreased 8.3%, to \$0.11 per share, in the first quarter of 2013 when compared to the first quarter of 2012. The decrease in income from continuing operations was a result of decreased operating income from both Direct Marketing and Shoppers, and increased general corporate expense. This decrease was partially offset by a gain on the sale of our facility in Belgium, changes in net foreign currency transaction gains and losses and a lower effective tax rate.

Direct Marketing

Direct Marketing operating results were as follows:

In thousands, except per share amounts	Three months ended				
	March 31, 2013		March 31, 2012		Change
Revenues	\$	132,352	\$	139,456	
Operating expenses		119,530		123,803	-3.5%
Operating income	\$	12,822	\$	15,653	-18.1%

1st Quarter 2013 vs. 1st Quarter 2012

Revenues

Direct Marketing revenues decreased \$7.1 million, or 5.1%, in the first quarter of 2013 compared to the first quarter of 2012. Revenues from our pharmaceutical vertical decreased 32% compared to 2012, reflecting the effect of volume reductions from a long standing customer beginning in the second quarter of 2012, and the loss of another long standing customer in the third quarter of 2012. Our automotive and consumer brands vertical experienced a 12% revenue decline, our select vertical declined 11% and our high-tech vertical declined 7%. Our financial vertical increased 19% and our retail vertical increased 1%. Revenues from our vertical markets are impacted by, among other things, the economic fundamentals of each industry, various market factors, including the demand for services by our clients, and the financial condition of and budgets available to specific clients.

Edgar Filing: HARTE HANKS INC - Form 10-Q

Future revenue performance will depend on, among other factors, the overall strength of the national and international economies and how successful we are at maintaining and growing business with existing clients, acquiring new clients and meeting client demands. We believe that, in the long-term, an increasing portion of overall marketing and advertising expenditures will be moved from other advertising media to the targeted media space, and that our business will benefit as a result. Targeted media advertising results can be more effectively tracked, enabling measurement of the return on marketing investment.

Operating Expenses

Operating expenses decreased \$4.3 million, or 3.5%, in the first quarter of 2013 compared to the first quarter of 2012. Labor costs decreased \$2.4 million, or 3.6%, primarily due to a reduction in temporary labor as a result of revenue performance. Production and distribution costs decreased \$1.6 million, or 4.0%, due to decreased mail supply chain costs resulting from decreased volumes, partially offset by increased outsourced costs resulting from increased outsourced volumes. General and administrative expense decreased \$0.2 million, or 1.8%, due primarily to decreased bad debt expense, partially offset by an increase in promotion expense. Depreciation and software amortization expense and intangible asset amortization each decreased slightly compared to the prior year quarter.

Table of Contents

Direct Marketing's largest cost components are labor, outsourced costs and mail supply chain costs. Each of these costs is somewhat variable and tends to fluctuate with revenues and the demand for our direct marketing services. Mail supply chain rates have increased over the last few years due to demand and supply issues within the transportation industry. Future changes in mail supply chain rates will continue to impact Direct Marketing's total production costs and total operating expenses, and may have an impact on future demand for our supply chain management.

Postage costs of mailings in our Direct Marketing business are borne by our clients and are not directly reflected in our revenues or expenses.

Shoppers

In thousands, except per share amounts	Three months ended		Change
	March 31, 2013	March 31, 2012	
Revenues	\$ 45,980	\$ 46,586	-1.3%
Operating expenses	45,210	45,341	-0.3%
Operating income	\$ 770	\$ 1,245	-38.2%

1st Quarter 2013 vs. 1st Quarter 2012

Revenues

Shoppers revenues decreased \$0.6 million, or 1.3%, in the first quarter of 2013 compared to the first quarter of 2012. These results reflect the continued impact that the difficult economic environment in California is having on our Shoppers business. The decline in revenues was the result of decreased sales of in-book advertising, and was partially offset by increased revenues from distribution products. From an industry perspective, Shoppers revenues decreased from the services, automotive, real estate and communications sectors, and increased from the consumer spending sector.

At March 31, 2013, our Shoppers circulation reached approximately 9.1 million addresses in California each week. While we have not made any significant changes to our circulation in the last several years, we continue to evaluate all of our circulation performance and may make circulation reductions in the future as part of our efforts to address the difficult economic conditions in California.

Future revenue performance will depend on, among other factors, the overall strength of the California economy, as well as how successful we are at maintaining and growing business with existing clients, and acquiring new clients.

Operating Expenses

Shoppers operating expenses decreased \$0.1 million, or 0.3%, in the first quarter of 2013 compared to the first quarter of 2012. Total labor costs decreased \$1.2 million, or 8.3%, due to lower payroll costs from lower ad sales and headcount reductions. Total production costs increased \$1.5 million, or 5.7%, due to an increase in offload printing costs due to an increase in heatset volumes, an increase in outsourced costs due to increased outsourced volumes, and an increase in postage costs resulting from the January 2013 postage rate increase. The increase in production costs was partially offset by decreases in newsprint and job paper expenses due to declines in volumes and lower paper rates. Total general and administrative costs decreased \$0.3 million, or 9.1%, due to decreased service fees related to our web products, partially offset by increased insurance costs as a result of a credit received in the first quarter of 2012. Depreciation and software amortization expense decreased \$0.2 million, or 20.1%, due to a low level of capital expenditures in 2012.

Shoppers' largest cost components are postage, labor, and paper. Shoppers' labor costs are partially variable and tend to fluctuate with the number of zones, circulation, volumes and revenues. Standard postage rates have increased in recent years, most recently in January 2012 and January 2013. Shoppers' postage rates increased by

Table of Contents

approximately 2.1% as a result of the January 2012 rate increase, and 2.8% as a result of the January 2013 rate increase, affecting Shoppers distribution costs. The U. S. Postal Service has also proposed various changes in its services to address its financial performance, such as delivery frequency and facility access. At this point we do not believe the announced and proposed changes will have a material impact on our Shoppers business. Newsprint prices were relatively stable throughout 2012 and decreased slightly during the first quarter of 2013. Newsprint prices are expected to continue to remain at the current rates throughout 2013. Any future changes in newsprint prices will affect Shoppers production costs. We are in the process of consolidating our production facilities from four plants to three plants and we expect to close our production facility in Northern California in mid 2013. This consolidation and facility closure will reduce Shoppers overall operating costs in 2013.

General Corporate Expense

1st Quarter 2013 vs. 1st Quarter 2012

General corporate expense increased \$0.5 million, or 17.0%, in the first quarter of 2013 compared to the first quarter of 2012. This increase was attributable to professional fees related to the search for new members of our Board of Directors and increased legal expenses. This increase was partially offset by decreased pension expense resulting primarily from an increase in the market value of the plan assets of our funded pension plan in 2012. The effect of the increase in the market value of the plan assets on pension expense was partially offset by an increase in the projected pension benefit obligation due to a lower discount rate.

Interest Expense

1st Quarter 2013 vs. 1st Quarter 2012

Interest expense decreased \$0.2 million, or 21.2%, in the first quarter of 2013 compared to the first quarter of 2012 due to a lower average debt balance in the first quarter of 2013. The lower average debt balance in the first quarter of 2013 is a result of the \$60.0 million principal payment made in March of 2012 in relation to the maturity of the 2008 Term Loan Facility, and scheduled quarterly principal payments on the 2011 Term Loan Facility. See discussion of our credit facilities in the *Liquidity and Capital Resources* section below.

Interest Income

1st Quarter 2013 vs. 1st Quarter 2012

Interest income increased slightly in the first quarter of 2013 compared to the first quarter of 2012.

Other Income and Expense

1st Quarter 2013 vs. 1st Quarter 2012

Other income, net, was \$1.2 million in the first quarter of 2013 compared to other expense, net of \$0.7 million in the first quarter of 2012. This \$1.9 million variance from the prior year quarter is due to a \$1.0 million change in net foreign currency transaction gains and losses and a \$0.9 million gain on the sale of our facility in Belgium in the first quarter of 2013.

Income Taxes

1st Quarter 2013 vs. 1st Quarter 2012

Income tax expense decreased \$0.9 million in the first quarter of 2013 compared to the first quarter of 2012. Our effective tax rate was 37.2% for the first quarter of 2013, decreasing from 39.7% for the first quarter of 2012. The decrease in the effective tax rate is primarily due to a reduction in tax accruals related to certain foreign subsidiaries, and to additional tax credits made available by the American Taxpayer Relief Act of 2012 enacted in January of 2013.

Table of Contents

Economic Climate and Impact on our Financial Statements

The economic climate in California had a negative impact on our Shoppers' operations and cash flows for the three months ended March 31, 2013, and our financial position at March 31, 2013. This impact is reflected in our financial results. We cannot predict the duration of the current difficult economic environment in California, or the timing or magnitude of any subsequent improvement. If the economic climate and markets we serve fail to improve (or deteriorate), we may record additional charges, including charges related to restructuring costs and the impairment of goodwill, other intangibles and long-lived assets, and our operations, cash flows and financial position may be materially and adversely affected.

Liquidity and Capital Resources

Sources and Uses of Cash

As of March 31, 2013, cash and cash equivalents were \$61.0 million, increasing \$11.4 million from cash and cash equivalents of \$49.6 million at December 31, 2012. This net increase was a result of net cash provided by operating activities of \$14.9 million, net cash provided by investing activities of \$0.2 million, net cash used in financing activities of \$3.4 million and the effect of exchange rate changes of \$0.3 million.

Operating Activities

Net cash provided by operating activities for the three months ended March 31, 2013 was \$14.9 million, compared to \$13.0 million for the three months ended March 31, 2012. The \$2.0 million year-over-year increase was primarily attributable to changes within working capital assets and liabilities, partially offset by a decrease in net income.

For the three months ended March 31, 2013, our principal working capital changes, which directly affected net cash provided by operating activities, were as follows:

- A decrease in accounts receivable attributable to collection of the December 31, 2012 receivables as well as higher revenues in the fourth quarter of 2012 compared to the first quarter of 2013. Days sales outstanding were approximately 66 days at March 31, 2013, which increased from 64 days at December 31, 2012 and 65 days at March 31, 2012;
- A decrease in inventory due to lower newsprint prices;
- An increase in prepaid expenses and other current assets due to timing of payments;

Edgar Filing: HARTE HANKS INC - Form 10-Q

- A decrease in the current portion of the deferred income tax asset due to the timing of the deductibility of the incentive compensation accrued at December 31, 2012 and paid in the first quarter of 2013;
- A decrease in prepaid income taxes due to a federal tax refund received in the first quarter of 2013;
- A decrease in accounts payable due to higher overall operating expenses, particularly those related to production and distribution, in the fourth quarter of 2012 than in the first quarter of 2013;
- A decrease in accrued payroll and related expenses due to the timing of the first payroll in January of 2013 and payment of 2012 incentive compensation;
- A decrease in deferred revenue and customer advances due to timing of receipts; and
- A decrease in customer postage deposits due to timing of receipts and lower mail volumes.

Investing Activities

Net cash provided by investing activities was \$0.2 million for the three months ended March 31, 2013, compared to net cash used in investing activities of \$3.0 million for the three months ended March 31, 2012. The \$3.2 million variance is the result of the sale of our Belgium facility in the first quarter of 2013 for net proceeds of \$4.6 million, partially offset by increased capital spending in the first three months of 2013 compared to the first three months of 2012.

Table of Contents

Financing Activities

Net cash used in financing activities was \$3.4 million for the three months ended March 31, 2013 compared to \$66.5 million for the three months ended March 31, 2012. The \$63.1 million decrease is primarily due to a \$58.5 million decrease in net debt repayments in the first three months of 2013 compared to the first three months of 2012, as a result of retiring the 2008 Term Loan Facility in March 2012. The \$5.4 million in dividends paid in the first quarter of 2012 also contributed to this increase. We accelerated the payment of our regular first quarter 2013 dividend into December of 2012.

Credit Facilities

On March 7, 2008, we entered into a four-year \$100 million term loan facility (2008 Term Loan Facility) with Wells Fargo Bank, N.A., as Administrative Agent. The 2008 Term Loan Facility matured on March 7, 2012, at which time we paid the remaining outstanding principal of \$60.0 million using cash on hand.

On August 12, 2010, we entered into a new three-year \$70 million revolving credit facility, which includes a \$25 million accordion feature, a \$25 million letter of credit sub-facility and a \$5 million swing line loan sub-facility (2010 Revolving Credit Facility), with Bank of America, N.A., as Administrative Agent. The 2010 Revolving Credit Facility permits us to request up to a \$25 million increase in the total amount of the facility. The 2010 Revolving Credit Facility matures on August 12, 2013. For each borrowing under the 2010 Revolving Credit Facility, we can generally choose to have the interest rate for that borrowing calculated on either (i) the LIBOR rate (as defined in the 2010 Revolving Credit Facility) for the applicable interest period, plus a spread which is determined based on our total net debt-to-EBITDA ratio (as defined in the 2010 Revolving Credit Facility) then in effect, which ranges from 2.25% to 3.00% per annum; or (ii) the highest of (a) the Federal Funds Rate plus 0.50%, (b) the Agent's prime rate, and (c) the LIBOR rate plus 1.00%, plus a spread which is determined based on our total net debt-to-EBITDA ratio then in effect, which ranges from 1.25% to 2.00% per annum. There is a facility fee that we are also required to pay under the 2010 Revolving Credit Facility. The facility fee rate ranges from 0.40% to 0.45% per annum, depending on our total net debt-to-EBITDA ratio then in effect. In addition, there is a letter of credit fee with respect to outstanding letters of credit. That fee is calculated by applying a rate equal to the spread applicable to LIBOR based loans plus a fronting fee of 0.125% per annum to the average daily undrawn amount of the outstanding letters of credit. We may elect to prepay any amounts drawn on the 2010 Revolving Credit Facility at any time. At March 31, 2013, we did not have any outstanding amounts drawn against our 2010 Revolving Credit Facility. At March 31, 2013, we had letters of credit totaling \$9.5 million issued under the 2010 Revolving Credit Facility, decreasing the amount available for borrowing to \$60.5 million.

On August 16, 2011, we entered into a five-year \$122.5 million term loan facility (2011 Term Loan Facility) with Bank of America, N.A., as Administrative Agent. The 2011 Term Loan Facility matures on August 16, 2016. For each borrowing under the 2011 Term Loan Facility, we can generally choose to have the interest rate for that borrowing calculated based on either (i) the LIBOR rate (as defined in the 2011 Term Loan Facility) for the applicable interest period, plus a spread (ranging from 2.00% to 2.75% per annum) based on our total net funded debt-to-EBITDA ratio (as defined in the 2011 Term Loan Facility) then in effect; or (ii) the highest of (a) the Agent's prime rate, (b) the BBA daily floating rate LIBOR, as determined by Agent for such date, plus 1.00%, and (c) the Federal Funds Rate plus 0.50%, plus a spread (ranging from 1.00% to 1.75% per annum) based on our total net funded debt-to-EBITDA ratio then in effect. We may elect to prepay the 2011 Term Loan Facility at any time without incurring any prepayment penalties. At March 31, 2013, we had \$107.2 million outstanding under the 2011 Term Loan Facility.

Under all of our credit facilities we are required to maintain an interest coverage ratio of not less than 2.75 to 1 and a total debt-to-EBITDA ratio of not more than 3.0 to 1. The credit facilities also contain customary covenants restricting our and our subsidiaries' ability to:

- authorize distributions, dividends, stock redemptions and repurchases if a payment event of default has occurred and is continuing;

Table of Contents

- enter into certain merger or liquidation transactions;
- grant liens;
- enter into certain sale and leaseback transactions;
- have foreign subsidiaries account for more than 20% of the consolidated revenue, assets or EBITDA of Harte-Hanks and its subsidiaries, in the aggregate;
- enter into certain transactions with affiliates; and
- allow the total indebtedness of Harte-Hanks subsidiaries to exceed \$20.0 million.

The credit facilities each also include customary covenants regarding reporting obligations, delivery of notices regarding certain events, maintaining our corporate existence, payment of obligations, maintenance of our properties and insurance thereon at customary levels with financially sound and reputable insurance companies, maintaining books and records and compliance with applicable laws. The credit facilities each also provide for customary events of default including nonpayment of principal or interest, breach of representations and warranties, violations of covenants, failure to pay certain other indebtedness, bankruptcy and material judgments and liabilities, certain violations of environmental laws or ERISA or the occurrence of a change of control. Our material domestic subsidiaries have guaranteed the performance of Harte-Hanks under our credit facilities. As of March 31, 2013, we were in compliance with all of the covenants of our credit facilities.

Outlook

We consider such factors as total cash and cash equivalents, current assets, current liabilities, total debt, revenues, operating income, cash flows from operations, investing activities and financing activities when assessing our liquidity. Our primary sources of liquidity have been cash and cash equivalents on hand and cash generated from operating activities. Our management of cash is designed to optimize returns on cash balances and to ensure that it is readily available to meet our operating, investing and financing requirements as they arise.

Capital resources are also available from and provided through our 2010 Revolving Credit Facility, subject to the terms and conditions of that facility. The amount of cash on hand and borrowings available under our 2010 Revolving Credit Facility are influenced by a number of factors, including fluctuations in our operating results, revenue growth, accounts receivable collections, working capital changes, capital expenditures, tax payments, share repurchases, pension plan contributions, acquisitions and dividends.

As of March 31, 2013, we had \$60.5 million of unused borrowing capacity under our 2010 Revolving Credit Facility (which matures on August 12, 2013) and a cash balance of \$61.0 million. Based on our current operational plans, we believe that our cash on hand, cash provided by operating activities, and availability under the 2010 Revolving Credit Facility will be sufficient to fund operations, anticipated capital expenditures, payments of principal and interest on our borrowings, dividends on our common stock and pension contributions for the next 12 months. Nevertheless, we cannot predict the impact on our business performance of the economic climate in the U.S. and other economies in which we operate. A lasting economic recession in the United States and other economies could have a material adverse effect on our business, financial position or operating results.

Edgar Filing: HARTE HANKS INC - Form 10-Q

Our 2010 Revolving Credit Facility matures in August 2013. We believe that we will be able to obtain a replacement revolver facility in a similar amount and with similar terms. However, if there are disruptions in the credit markets, we may be unable to obtain a replacement facility on acceptable terms or at all. In that event, depending on our ability to generate sufficient cash flow from operations, our overall liquidity and ability to make payments on our indebtedness under our 2011 Term Loan Facility (which matures in August 2016) may be adversely impacted, and we may be required to seek one or more alternatives, such as refinancing or restructuring our indebtedness, selling material assets or operations, or seeking to raise debt or equity capital. We cannot assure you that any of these actions could be affected on a timely basis or on satisfactory terms, if at all. In addition, our existing debt agreements contain restrictive covenants that may prohibit us from adopting one or more of these alternatives.

Table of Contents

Critical Accounting Policies

Our financial statements and accompanying notes are prepared in accordance with U.S generally accepted accounting principles. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by management's application of accounting policies. We consider the following to be our critical accounting policies, as described in detail in our 2012 Form 10-K:

- Revenue recognition;
- Allowance for doubtful accounts;
- Reserve for healthcare, workers' compensation, automobile and general liability insurance;
- Goodwill; and
- Stock-based compensation.

There have been no material changes to the critical accounting policies described in our 2012 Form 10-K.

As discussed in Note B, *Recent Accounting Pronouncements*, of the Notes to Unaudited Condensed Consolidated Financial Statements, certain new financial accounting pronouncements have been issued which either have already been reflected in the accompanying consolidated financial statements, or will become effective for our financial statements at various dates in the future. The adoptions of these new accounting pronouncements have not and are not expected to have a material effect on our consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk includes the risk of loss arising from adverse changes in market rates and prices. We face market risks related to interest rate variations and to foreign exchange rate variations. From time to time, we may utilize derivative financial instruments to manage our exposure to such risks.

We are exposed to market risk for changes in interest rates related to our credit facilities. Our earnings are affected by changes in short-term interest rates as a result of our credit facilities, which bear interest at variable rates based on LIBOR rates (effective 30 day LIBOR rate of 0.20% at March 31, 2013). The five-year 2011 Term Loan Facility has a maturity date of August 16, 2016. At March 31, 2013, our debt balance related to the 2011 Term Loan Facility was \$107.2 million. The three-year \$70 million 2010 Revolving Credit Facility has a maturity date of August 12, 2013. At March 31, 2013, we did not have any debt outstanding under the 2010 Revolving Credit Facility.

Edgar Filing: HARTE HANKS INC - Form 10-Q

Assuming the actual level of borrowings throughout the first quarter of 2013, and assuming a one percentage point change in the average interest rates, we estimate that our net income for the first quarter of 2013 would have changed by approximately \$0.2 million. Due to our overall debt level and cash balance at March 31, 2013, anticipated cash flows from operations, and the various financial alternatives available to us should there be an adverse change in interest rates, we do not believe that we currently have significant exposure to market risks associated with changing interest rates. At this time we are not entered into any interest rate swap or other derivative instruments to hedge the effects of adverse fluctuations in interest rates.

Our earnings are also affected by fluctuations in foreign currency exchange rates as a result of our operations in foreign countries. Our primary exchange rate exposure is to the Euro, British pound sterling, Australian dollar, Philippine peso and Brazilian real. We monitor these risks throughout the normal course of business. The majority of the transactions of our U.S. and foreign operations are denominated in the respective local currencies. Changes in exchange rates related to these types of transactions are reflected in the applicable line items making

Table of Contents

up operating income in our Consolidated Statements of Comprehensive Income (Loss). Due to the current level of operations conducted in foreign currencies, we do not believe that the impact of fluctuations in foreign currency exchange rates on these types of transactions is significant to our overall annual earnings. A smaller portion of our transactions are denominated in currencies other than the respective local currencies. For example, inter-company transactions that are expected to be settled in the near-term are denominated in U.S. dollars. Since the accounting records of our foreign operations are kept in the respective local currency, any transactions denominated in other currencies are accounted for in the respective local currency at the time of the transaction. Any foreign currency gain or loss from these transactions, whether realized or unrealized, results in an adjustment to income, which is recorded in Other, net in our Consolidated Statements of Comprehensive Income. Transactions such as these amounted to \$0.7 million in pre-tax currency transaction gains in the first quarter of 2013. At this time we are not entered into any foreign currency forward exchange contracts or other derivative instruments to hedge the effects of adverse fluctuations in foreign currency exchange rates.

We do not enter into derivative instruments for any purpose other than cash flow hedging. We do not speculate using derivative instruments.

Item 4. Controls and Procedures

As of the end of the period covered by this report, an evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, or the Exchange Act). It should be noted that, because of inherent limitations, our disclosure controls and procedures, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the disclosure controls and procedures are met. Based upon that evaluation, the Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer concluded that the design and operation of these disclosure controls and procedures were effective, at the reasonable assurance level, to ensure information required to be disclosed by us in the reports that we file or submit under the Exchange Act is properly recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms.

As of the end of the period covered by this report, an evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer, of our internal control over financial reporting to determine whether any changes occurred during the first quarter of 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on that evaluation, there were no changes in our internal control over financial reporting or in other factors that have materially affected or are reasonably likely to materially affect our internal control over financial reporting. We may make changes in our internal control processes from time to time in the future. It should also be noted that, because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements, and controls may become inadequate because of changes in conditions or in the degree of compliance with the policies or procedures.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Edgar Filing: HARTE HANKS INC - Form 10-Q

Information regarding legal proceedings is set forth in Note K to the Notes to Unaudited Condensed Consolidated Financial Statements, *Litigation Contingencies*, in Item 1 of Part I of this Quarterly Report on Form 10-Q, which information is incorporated herein by reference.

Table of Contents**Item 1A. Risk Factors**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our 2012 Form 10-K, which could materially affect our business, financial condition or future results. The risks described in our 2012 Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and operating results. In our judgment, there were no material changes in the risk factors as previously disclosed in Part I, Item 1A. Risk Factors of our 2012 Form 10-K. Refer to Part I, Item 2 of this Quarterly Report on Form 10-Q, for a discussion of the ongoing economic downturn in the United States and other economies and its adverse impact on our business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table contains information about our purchases of equity securities during the first quarter of 2013:

Period	Total Number of Shares Purchased(2)	Average Price Paid per Share	Total Number of Shares Purchased as Part of a Publicly Announced Plan(1)	Maximum Dollar Amount that May Yet Be Spent Under the Plan
January 1 31, 2013	0	\$ 0	0	\$ 5,597,033
February 1 28, 2013	109,454	\$ 7.57	58,219	\$ 5,164,216
March 1 31, 2013	400	\$ 7.33	400	\$ 5,161,285
Total	109,854	\$ 7.57	58,619	

(1) During the first quarter of 2013, we purchased 58,619 shares of our common stock through our stock repurchase program that was publicly announced in August 2012. Under this program, from which shares can be purchased in the open market, our Board of Directors has authorized us to spend up to \$10.0 million to repurchase shares of our outstanding common stock. As of March 31, 2013, we have repurchased 736,735 shares and spent \$4.8 million under this authorization. Through March 31, 2013, we had repurchased a total of 65,661,244 shares at an average price of \$18.54 per share under this program and previously announced programs.

(2) Total number of shares purchased includes shares, if any, purchased as part of our publicly announced stock repurchase program, plus shares withheld to pay applicable withholding taxes and the exercise price related to stock options, and shares withheld to pay applicable withholding taxes related to the vesting of nonvested shares, pursuant to the Harte-Hanks, Inc. 2005 Omnibus Incentive Plan.
