PRESS RELEASE

Additional provision for the Energy segment

(Rio de Janeiro, May 8, 2003) PETRÓLEO BRASILEIRO S.A. PETROBRAS, [BOVESPA: PETR3/PETR4, NYSE: PBR/PBRA, LATIBEX: XPBR/XPBRA], Brazil's biggest oil & gas, petrochemicals and energy company announces that the Executive Board has authorized an increase in fiscal year 2003 provisions for the energy sector to US\$ 416 million from US\$ 205 million, equivalent to 94% of the Company's revised maximum monetary exposure for the period.

The additional provisioning of US\$ 211 million will be booked in the financial statements for the first quarter 2003 to be announced in the report to the financial market.

The reasons for the increased provisions were the failure to realize forecasted sales of available energy through the PPA's in 2003 and the level at which the thermal plant is operating.

With a view to reducing its exposure to the energy business, Petrobras continues to make every effort to sell all available electric energy as well as adjusting its investments to the new reality of the Electric Sector as a whole.

The Board believes any provisioning for subsequent years is still premature. Finally, we would point out that the Net Present Value of the maximum financial exposure to the energy sector as at March 31, 2003, assuming a discount rate of 12% p.a., is US\$1.74 billion.

Rio de Janeiro, May 8, 2003.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
