## Section 7 - Regulation FD

### Item 7.01 - Regulation FD Disclosure

On September 17, 2015, we closed the equity financing we announced on September 14, 2015, through which we received \$8,578,349 through the sale of 2,607,401 common shares. In addition, certain of our subsidiaries sold 175,000 BioTime common shares for their own accounts in separate at the market transactions and received approximately \$570,490 of net proceeds from the sale of those BioTime shares. We intend to invest in our subsidiary OncoCyte Corporation most of the proceeds that we received from our sale of shares. OncoCyte and the other BioTime subsidiaries that sold BioTime shares for their own accounts intend to use the net proceeds from the share sales to finance clinical trials or to finance their research and development programs, to prepare for commercialization of new products, or for general working capital purposes.

The common shares sold by BioTime were offered and sold pursuant to a prospectus supplement dated as of September 14, 2015, which has been filed with the Securities and Exchange Commission in connection with a takedown from our shelf registration statement on Form S-3 (File No. 333-201824), which became effective on February 12, 2015, and the base prospectus dated February 12, 2015. Copies of the prospectus supplement, together with the accompanying prospectus, can be obtained at the SEC’s website at <http://www.sec.gov>.
