The Company is currently in the process of (i) closing a placement of its equity securities; (ii) effecting a merger previously approved by shareholders for the purpose of reincorporating in the state of Delaware; and (iii) amending its credit agreement with its principal lender in order to reflect, among other things, these developments. The ongoing effort to complete and the need to coordinate these interrelated transactions has caused delays in finalizing the Company's financial results and related reporting. Accordingly, the Company cannot file the subject report within the prescribed time period without unreasonable effort or incurring added expense.

The Company anticipates reporting a net loss for the quarter ending December 31, 2006 of approximately \$1.9 million, compared to a net loss of \$142,000 for the quarter ending December 31, 2005. The increase in the net loss is attributable to a number of factors, including: (i) a decrease in revenue as a result of lower fuel prices, termination of operations in certain locations, and a decrease in emergency services volume compared to the severe 2005 hurricane season; (ii) a decrease in gross profit; and (iii) an increase in selling, general and administrative expenses due to (a) an increase in the costs of the development and implementation of its integrated accounting, operations, internal control and management information systems, including additional management and other personnel, and (b) public company reporting and compliance expenses, including legal and auditing fees. A detailed explanation will be included in the Form 10-Q for the quarter ending December 31, 2006.
