Form 10-Q  
February 14, 2011

U.S. SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549  
FORM 10-Q

---

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended December 31, 2010

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period ended to

Commission File Number: 333-45241

ELITE PHARMACEUTICALS, INC.  
(Exact name of registrant as specified in its charter)

Delaware 22-3542636  
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

165 Ludlow Avenue, Northvale, New Jersey 07647  
(Address of principal executive offices) (Zip Code)

(201) 750-2646  
(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes ☒ No ☐ The registrant is not yet subject to this requirement.

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated filer ☐ Accelerated Filer ☐ Non-Accelerated Filer ☐ Smaller Reporting Company ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. As of February 11, 2011 the issuer had outstanding 106,129,258 shares of common stock, \$0.001 par value (exclusive of 100,000 shares held in treasury).

ELITE PHARMACEUTICALS, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
THREE AND NINE MONTHS ENDED DECEMBER 31, 2010 AND 2009  
(UNAUDITED)

NOTE 1 - BASIS OF PRESENTATION AND LIQUIDITY

The information in this quarterly report on Form 10-Q includes the results of operations of Elite Pharmaceuticals, Inc. and its consolidated subsidiaries (collectively the "Company") for the three and nine months ended December 31, 2010 and 2009. The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to rules and regulations of the Securities and Exchange Commission in accordance with accounting principles generally accepted for interim financial statement presentation. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the condensed consolidated financial position, results of operations and cash flows of the Company for the periods presented have been included.

The financial results for the interim periods are not necessarily indicative of the results to be expected for the full year or future interim periods.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended March 31, 2010. There have been no changes in significant accounting policies since March 31, 2010.

The Company does not anticipate being profitable for the fiscal year ending March 31, 2011; therefore a current provision for income tax was not established for the three and nine months ended December 31, 2010. Only the minimum liability required for state corporation taxes was considered.

The accompanying unaudited condensed consolidated financial statements were prepared on the assumption that the Company will continue as a going concern. As of December 31, 2010, the Company had a working capital deficit of \$2.6 million, losses from operations totaling \$0.2 million for the nine months ended December 31, 2010, other incomes totaling \$3.2 million for the nine months ended December 31, 2010 and net income of \$3.0 million for the nine months ended December 31, 2010.

In addition, the Company has received Notice of Default from the Trustee of the NJED Bonds as a result of the utilization of the debt service reserve being used to pay interest payments due on September 1, 2009, March 1, 2010 and September 1, 2010 totaling \$121k, \$113k and \$113k, respectively, and principal payments due on September 1, 2009 totaling \$210k. The debt service reserve was utilized to make such payments as a result of the Company's not having sufficient funds available to make such payments when due.

The Company did not have sufficient funds available to make the principal payments due on September 1, 2010, totaling \$200k and requested that the Trustee withdraw such funds from the debt service reserve. The Company's request was denied and accordingly the principal payment due on September 1, 2010, totaling \$200k was not made.

The Company has requested a postponement of principal payments due on September 1, 2010, 2011 and 2012, with an aggregate of all such postponed principal payments being added to the principal payments due on September 1, 2013. Resolution of the Company's default on the NJEDA Bonds and our request for postponement of principal payments will have a significant effect on our ability to operate in the future.

F-6

---

Please refer to Note 5 to our financial statements for a more detailed discussion of the NJEDA Bonds and Notice of Default. Please also note that the working capital deficit of \$2.6 million as of December 31, 2010, includes the entire principal amount due in relation to the NJEDA Bonds. This amount, totaling \$3.4 million was first classified as a current liability as of March 31, 2010, due to the Notice of Default received from the Trustee in relation to the NJEDA Bonds.

As of December 31, 2010, we had cash reserves of \$415,194. The completion of all transactions contemplated by the Epic Strategic Alliance Agreement, including the consummation of the third closing thereof, is expected to provide additional funds to permit us to continue development of our product pipeline for more than two years. Beyond two years, we anticipate that, with growth of Lodrane and the launch of the generic Hydromorphone 8mg and Naltrexone 50mg recently acquired pursuant to asset purchase agreements with Mikah Pharma LLC, Elite could be profitable. In addition, the commercialization of the products developed at the Facility under the Epic Strategic Alliance Agreement is expected to add a new revenue source for Elite. However, there can be no assurances as to the growth, success of development or commercialization of these products.

Despite the successful completion of the initial and second closings of the Epic Strategic Alliance Agreement, there can be no assurances that we will be able to consummate the third closing pursuant to the terms and conditions of the Epic Strategic Alliance Agreement. If such transactions are consummated, we will receive additional cash proceeds of \$1.6875 million (which will include quarterly payments of \$62,500 for a period of 11 quarters). Even if we were able to successfully complete the third closing of the Epic Strategic Alliance Agreement, we still may be required to seek additional capital in the future and there can be no assurances that we will be able to obtain such additional capital on favorable terms, if at all. For additional information regarding the Epic Strategic Alliance Agreement, please see our disclosures under "Epic Strategic Alliance Agreement" in Item 7 of Part II of our Annual Report on Form 10-K, and in our Current Reports on Form 8-K, filed with the SEC on March 23, 2009, May 6, 2009, June 5, 2009 and July 1, 2010, which disclosures are incorporated herein by reference.

NOTE 2 - CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Cash and cash equivalents consist of cash on deposit with banks and money market instruments. The Company places its cash and cash equivalents with high-quality, U.S. financial institutions and, to date, has not experienced losses on any of its balances.

NOTE 3 - INVENTORIES

Inventories are stated at the lower of cost (first-in, first-out basis) or market (net realizable value).

## NOTE 4 -

## INTANGIBLE ASSETS

Costs to acquire intangible assets, such as asset purchases of Abbreviated New Drug Applications (“ANDA’s”) which are approved by the FDA or costs incurred in the application of patents are capitalized and amortized on the straight-line method, based on their estimated useful lives ranging from five to fifteen years, commencing upon approval of the patent or site transfers required for commercialization of an acquired ANDA. Such costs are charged to expense if the patent application or ANDA site transfer is unsuccessful.

As of December 31, 2010, the following costs were recorded as intangible assets on the Company’s balance sheet:

Intangible assets at March 31, 2010 (audited)		
Patent application costs		96,407
ANDA acquisitions		—
Intangible asset costs capitalized during the nine months ended December 31, 2010		
Patent application costs		41,274
ANDA acquisition costs		425,000
Amortization of intangible assets during the nine months ended December 31, 2010		
Patent application costs		—
ANDA acquisition costs		—
Intangible assets at December 31, 2010 (unaudited)		
Patent application costs		137,681
ANDA acquisition costs		425,000
Total	\$	562,681

The costs incurred in patent applications totaling \$7,850 and \$41,274 for the three and nine months ended December 31, 2010, respectively, were all related to our abuse resistant and extended release opioid product lines. The Company is continuing its efforts to achieve approval of such patents. Additional costs incurred in relation to such patent applications will be capitalized as intangible assets, with amortization of such costs to commence upon approval of the patents.

The ANDA acquisition costs of \$425,000 incurred during the nine months ended December 31, 2010, are related to our acquisition of the ANDA’s for Hydromorphone 8mg and Naltrexone 50mg. Please refer to the current reports on Form 8-K filed with the SEC on May 24, 2010 for the Hydromorphone ANDA acquisition and September 1, 2010 for the Naltrexone ANDA acquisition, such filings being herein incorporated by this reference for further details on this acquisition. In addition, please refer to exhibits 10.4 and 10.5 of the quarterly report on Form 10-Q filed with the SEC on November 15, 2010 for the purchase agreements for Hydromorphone and Naltrexone, respectively, such filings being herein incorporated by this reference. The Company is in the process of complying with all FDA and DEA requirements which are a prerequisite to achieving our manufacture and commercialization of the Hydromorphone 8mg ANDA. Amortization of the costs incurred to acquire the ANDA is to commence upon the Company’s commercialization of such.

NOTE 5 -

NJEDA BONDS

On August 31, 2005, the Company successfully completed a refinancing of a prior 1999 bond issue through the issuance of new tax-exempt bonds (the "Bonds"). The refinancing involved borrowing \$4,155,000, evidenced by a 6.5% Series A Note in the principal amount of \$3,660,000 maturing on September 1, 2030 and a 9% Series B Note in the principal amount of \$495,000 maturing on September 1, 2012. The net proceeds, after payment of issuance costs, were used (i) to redeem the outstanding tax-exempt Bonds originally issued by the Authority on September 2, 1999, (ii) refinance other equipment financing and (iii) for the purchase of certain equipment to be used in the manufacture of pharmaceutical products.

Interest is payable semiannually on March 1 and September 1 of each year. The Bonds are collateralized by a first lien on the Company's facility and equipment acquired with the proceeds of the original and refinanced Bonds. The related Indenture requires the maintenance of a \$415,500 Debt Service Reserve Fund consisting of \$366,000 from the Series A Notes proceeds and \$49,500 from the Series B Notes proceeds. The Debt Service Reserve is maintained in restricted cash accounts that are classified in Other Assets. \$1,274,311 of the proceeds had been deposited in a short-term restricted cash account to fund the purchase of manufacturing equipment and development of the Company's facility. As of September 30, 2010, all of these proceeds were utilized to upgrade the Company's manufacturing facilities and for the purchase of manufacturing and laboratory equipment.

Bond issue costs of \$354,000 were paid from the bond proceeds and are being amortized over the life of the bonds. Amortization of bond issuance costs amounted to \$3,533 and \$10,598 for the three and nine months ended December 31, 2010, respectively.

The NJEDA Bonds require the Company to make an annual principal payment on September 1st of varying amounts as specified in the loan documents and semi-annual interest payments on March 1st and September 1st, equal to interest due on the outstanding principal at the applicable rate for the semi-annual period just ended.

The interest payments due on September 1, 2009, March 31, 2010 and September 1, 2010, totaling \$120,775, \$113,075 and \$113,075, respectively were paid from the debt service reserve held in the restricted cash account, due to the Company not having sufficient funds to make such payments when due.

The principal payment due on September 1, 2009, totaling \$210,000 was paid from the debt service reserve held in the restricted cash account, due to the Company not having sufficient funds to make the payment when due.

The Company did not have sufficient funds available to make the principal payments due on September 1, 2010 totaling \$200,000, and requested the Trustee to withdraw the funds from debt service reserve held in the restricted cash account and to utilize such funds to make the principal payment due. The Company's request was denied by the Trustee. Accordingly, the principal payment due on September 1, 2010, totaling \$200,000 was not made.

Pursuant to the terms of the NJEDA Bonds, the Company is required to replenish any amounts withdrawn from the debt service reserve and used to make principal or interest payments in six monthly installments, each being equal to one-sixth of the amount withdrawn and with the first installment due on the 15th of the month in which the withdrawal from debt service reserve occurred and the remaining five monthly payments being due on the 15th of the five immediately subsequent months. The Company has, to date, made all payments required in relation to the withdrawals made from the debt service reserve on September 1, 2009, March 1, 2010 and September 1, 2010. The Company is required to one additional monthly payment of \$19,330 during the period November 15, 2010 through February 15, 2011, in order to fully replenish the September 1, 2010 withdrawal from the debt service reserve.

F-9

---

The Company does not expect to have sufficient available funds to make the interest payment of \$113,075 due on March 1, 2011 as well as the principal payment of \$200,000 which was due, but not paid, on September 1, 2010

The Company has received Notice of Default from the Trustee of the NJEDA Bonds in relation to the withdrawals from the debt service reserve, and has requested a postponement of principal payments due on September 1st of 2010, 2011 and 2012, with an aggregate of all such postponed principal payments being added to the principal payments due on September 1, 2013. Resolution of the Company's default under the NJED Bonds and our request for postponement of principal payments will have a significant effect on our ability to operate in the future.

Due to issuance of a Notice of Default being received from the Trustee of the NJEDA Bonds, and until the event of default is waived or rescinded, the Company has classified the entire principal due, an amount aggregating \$3.385 million, as a current liability.

F-10

---

## NOTE 6 -

## DERIVATIVE LIABILITIES

Accounting Standard Codification “ASC” 815 – Derivatives and Hedging, which provides guidance on determining what types of instruments or embedded features in an instrument issued by a reporting entity can be considered indexed to its own stock for the purpose of evaluating the first criteria of the scope exception in the pronouncement on accounting for derivatives. These requirements can affect the accounting for warrants and convertible preferred instruments issued by the Company. As the conversion features within, and the detachable warrants issued with the Company’s Series B, Series C, Series D and Series E Preferred Stock, do not have fixed settlement provisions because their conversion and exercise prices may be lowered if the Company issues securities at lower prices in the future, we have concluded that the instruments are not indexed to the Company’s stock and are to be treated as derivative liabilities.

## Preferred Stock Derivative Liabilities

	Series B	Series C	Series D	Series E	Total
Preferred shares Outstanding	896	5,418	9,008	2,062.5	17,384.5
Underlying common shares into which Preferred may convert	574,076	3,365,217	128,692,014	78,351,302	210,982,610
Closing price on valuation date	\$ 0.04	\$ 0.04	\$ 0.04	\$ 0.04	\$ 0.04
Preferred stock derivative liability at December 31, 2010	\$ 22,963	\$ 134,609	\$ 5,147,680	\$ 3,134,052	\$ 8,439,304
Preferred stock derivative liability at September 30, 2010	\$ 34,445	\$ 201,913	\$ 7,721,521	\$ 4,637,523	\$ 12,595,401
Preferred stock derivative liability at March 31, 2010	\$ 48,796	\$ 286,043	\$ 3,828,163	\$ 3,761,761	\$ 7,924,763
Change in preferred stock derivative liability for the three months ended December 31, 2010					\$ (4,156,097)
Change in preferred stock derivative liability for the nine months ended December 31, 2010					\$ 412,908

## Warrant Derivative Liabilities

The portion of derivative liabilities related to outstanding warrants was valued using the Black-Scholes option valuation model and the following assumptions on the following dates:

	March 31 2010	September 30 2010	December 31 2010
Risk-Free interest rate	2.4% - 3.3%	0.3% - 1.6%	0.3% - 2.4%
Expected volatility	126% - 214%	135% - 194%	141% - 202%
Expected life (in years)	0.5 - 6.6	0.0 - 6.1	0.0 - 5.8
Expected dividend yield	—	—	—
Number of warrants	125,299,740	125,116,392	119,566,601

Fair value – Warrant Derivative Liability	\$ 8,499,423	\$ 5,775,676	\$ 3,710,930
---	--------------	--------------	--------------

Change in warrant derivative liability for the three months ended	\$ (2,064,745)
---	----------------

Change in warrant derivative liability for the nine months ended	\$ (4,788,493)
--	----------------

The risk free interest rate was based on rates established by the US Treasury Department. The expected volatility was based on the historical volatility of the Company's share price for periods equal to the expected life of the outstanding warrants at each valuation date. The expected dividend rate was based on the fact that the Company has not historically paid dividends on common stock and does not expect to pay dividends on common stock in the future.

## NOTEPREFERRED SHARE DERIVATIVE INTEREST PAYABLE

7 -

Preferred share derivative interest payable as of December 31, 2010 consisted of \$385,559 in derivative interest accrued and owing as of December 31, 2010. The full amount of derivative interest payable as of December 31, 2010 was paid via the issuance of 8,608,445 shares of common stock in January 2011.

## NOTE 8 -

## OPERATING LEASES

The Company entered into a lease for a portion of a one-story warehouse, located at 135 Ludlow Avenue, Northvale, New Jersey, consisting of approximately 15,000 square feet of floor space. The lease term began on July 1, 2010 and is classified as an operating lease. The lease includes an initial term of 5 years and 6 months and we have the option to renew the lease for two additional terms, each of 5 years. The property related to this lease will be used for the storage of pharmaceutical finished goods, raw materials, equipment and documents as well as engaging in manufacturing, packaging and distribution activities.

This property requires significant leasehold improvements and qualification as a prerequisite to achieving suitability for such intended future use. It is expected that approximately 3,500 square feet of this property will be constructed and qualified as suitable for use for storage of pharmaceutical finished goods, raw materials, equipment and documents on or before the expiration of the lease for the current warehouse at 80 Oak Street.

Leasehold improvements and qualification as suitable for manufacturing, packaging and distribution operations are expected to be achieved within two years from the beginning of the lease term. These are estimates based on current project plans, which are subject to change. There can be no assurance that the construction and qualification will be accomplished during the estimated time frames, or that the property located at 135 Ludlow Avenue, Northvale, New Jersey will ever achieve qualification for intended future utilization.

Minimum 5 year payments\* for the leasing of 15,000 square feet at 135 Ludlow are as follows:

Fiscal year ended March 31, 2011	\$ 19,689
Fiscal year ended March 31, 2012	79,248
Fiscal year ended March 31, 2013	81,228
Fiscal year ended March 31, 2014	83,259
Fiscal year ended March 31, 2015	85,344
Total Minimum 5 year lease payments	\$ 348,768

\* Minimum lease payments are exclusive of additional expenses related to certain expenses incurred in the operation and maintenance of the premises, including, without limitation, real estate taxes and common area charges which may be due under the terms and conditions of the lease, but which are not quantifiable at the time of filing of this quarterly report on Form 10-Q.

Rent expense relating to the operating lease is recorded using the straight line method, and is summarized as follows:

	Three Months Ended Dec 31, 2010	Nine Months Ended Dec 31, 2010
Rent Expense	\$ 22,584	\$ 45,169
Change in deferred rent liability	22,584	45,169
Balance of deferred rent liability (long-term liability)	45,169	45,169

#### NOTE 9 -

#### DEFERRED REVENUES

Deferred revenue in the amount of \$234,956 represents the unamortized amount of a \$200,000 advance payment received for a licensing agreement with a fifteen year term beginning in September 2010 and ending in August 2025 plus a sales deposit of \$39,400. The advance payment was recorded as deferred revenue when received and is earned, on a straight line basis over the fifteen year life of the license. The sales deposit will be offset against future sales of a product specified in the Manufacturing and Sales Agreement between Precision Dose Inc. and the Company, dated September 10, 2010 (the "Precision Dose Manufacturing and Sales Agreement"). Please refer to exhibit 10.9 of the quarterly report on form 10-Q filed on November 15, 2010 for further details on the Precision Dose Manufacturing Agreement, with such exhibit being herein incorporated by this reference.

#### NOTE 10 -

#### STOCKHOLDERS' EQUITY

#### Common Stock

During the three months ended December 31, 2010, the Company issued 3,926,568 shares of common stock in lieu of cash in payment of interest expense, totaling \$227,320 due and owing as of September 30, 2010 to holders of the Company's Series B, Series C and Series D Preferred Share derivative instruments plus 937,500 shares of common stock, in accordance with the terms and conditions of the Asset Purchase Agreement between Mikah Pharma and the

Company, dated May 18, 2010 (the “Hydromorphone Agreement”). Please refer to Exhibit 10.4 of the Quarterly Report on Form 10-Q filed with the SEC on November 15, 2010 for further details on the Hydromorphone Agreement, with such Exhibit being herein incorporated by this reference.

F-13

---

During the nine months ended December 31, 2010, the Company issued 12,633,145 shares of common stock in lieu of cash in payment of derivative interest expense, totaling \$897,680, to holders of the Company's Series B, Series C and Series D Preferred Share derivative instruments plus 937,500 shares of common stock pursuant to terms of the Hydromorphone Agreement.

### Options

At December 31, 2010, the Company had 1,697,938 options fully vested and outstanding with exercise prices ranging from \$0.06 to \$3.00 per share; each option representing the right to purchase one share of common stock. In addition, there are 1,359,062 options issued pursuant to the Company's 2004 Stock Option Plan which are outstanding and not vested, with exercise prices ranging from \$0.06 to \$2.50 per share. These options are scheduled to vest in equal annual increments on January 18, 2011, 2012 and 2013 or upon the occurrence of certain defined events and require that employees awarded such options be employed by the Company on the vesting date.

### NOTE 11 -

### PER SHARE INFORMATION

Basic earnings per share of common stock ("Basic EPS") is computed by dividing the net (loss) income by the weighted-average number of shares of common stock outstanding. Diluted earnings per share of common stock ("Diluted EPS") is computed by dividing the net (loss) income by the weighted-average number of shares of common stock, and dilutive common stock equivalents and convertible securities then outstanding. GAAP requires the presentation of both Basic and Diluted EPS, if such Diluted EPS is not anti-dilutive, on the face of Company's Condensed Statements of Operations.

	For the Three Months Ended Dec 31, 2010	For the Nine Months Ended Dec 31, 2010
<b>Numerator</b>		
Net Income attributable to common shareholders	\$ 5,928,211	\$ 3,023,042
<b>Denominator</b>		
Weighted-average shares of common stock outstanding - basic	96,873,523	92,196,433
Dilutive effect of stock options, warrants and convertible securities	210,956,902	171,913,797
Weighted-average shares of common stock outstanding - diluted	307,839,425	264,110,230
<b>Net income per share</b>		
Basic	\$ 0.06	\$ 0.03
Diluted	\$ 0.02	\$ 0.01

### NOTE 12 -

### SUBSEQUENT EVENTS

The Company has evaluated subsequent events from the balance sheet date through February 14, 2010, the date the accompanying financial statements were issued. The following are material subsequent events:

Common shares issued in lieu of cash in payment of derivative interest expense

Derivative interest expense related to the Preferred Share derivatives due and payable as of December 31, 2010 were paid during January 2011 through the issuance of 8,608,445 shares of common stock.

Sale of New Jersey Net Operating Losses

In January 2011, the Company received final approval from the NJEDA for the sale of New Jersey net-operating losses with net tax benefits equal to \$338,951, under the Technology Business Tax Certificate Transfer Program. The Company sold the net operating loss approved for sale at a transfer price equal to ninety two cents of each net benefit dollar. The proceeds of such sale, totaling \$311,835 were received by the Company during January 2011.

Development agreement with Hi-Tech Pharmacal Co., Inc.

On January 10, 2011, Elite and Hi-Tech Pharmacal Co., Inc. ("Hi-Tech") announced that they have entered into an agreement for Elite to develop for Hi-Tech an intermediate product for a generic version of a prescription product for which the branded product had sales in 2010 of over \$100 million.

Under the terms of the agreement, Elite will undertake a developmental program for an intermediate product that Hi-Tech shall then incorporate into a final product. Hi-Tech, or its designees, shall be responsible for the filing of the Abbreviated New Drug Application ("ANDA") for the finished product and the ANDA will be filed under the Hi-Tech name. Upon approval of the ANDA, Elite will manufacture the intermediate product. Hi-Tech will manufacture the final product and will be responsible for the marketing and sales of the final product. Hi-Tech will pay Elite milestone payments for the development work. Upon commercialization, Elite will receive payment for the manufacturing of the intermediate product and a percentage of the profits generated from the sale of the product.

For further details, please refer to the Current Report on Form 8-K filed with the SEC on January 10, 2011, such filing being herein incorporated by this reference.

Delay in third closing of the Strategic Alliance Agreement

Pursuant to that certain Strategic Alliance Agreement, dated as of March 18, 2009, by and among Elite Pharmaceuticals, Inc., a Delaware corporation (the "Registrant"), on the one hand, and Epic Pharma, LLC, a Delaware limited liability company (the "Parent"), and Epic Investments, LLC, a Delaware limited liability company (the "Subsidiary", and together with the Parent, "Epic"), on the other hand, as amended by that certain Amendment, dated as of April 30, 2009, by and among, the Registrant, the Parent and the Subsidiary, as further amended by that certain Second Amendment, dated as of June 1, 2009, by and among the Registrant, and the Parent, the Subsidiary, Ashok G. Nigalaye and Jeenarine Narine, as further amended by that certain Amendment Agreement, dated as of June 25, 2010, by and among the Registrant, the Parent and the Subsidiary (as amended, the "Strategic Alliance Agreement"), the Registrant agreed to issue to the Subsidiary, and the Subsidiary agreed to purchase from the Registrant, 1,000 additional shares of the Company's Series E Convertible Voting Preferred Stock, par value \$0.01 per share (the "Series E Preferred Stock"), and a warrant (the "Warrant") to purchase 40,000,000 shares of its Common Stock, par value \$0.01 per share, at an exercise price of \$0.025 per share, on or before December 31, 2010 (the "Closing Date"), for aggregate cash consideration of \$1,000,000 (such payment, the "Consideration").

The Subsidiary did not pay the Consideration to the Registrant on or before the Closing Date. On January 4, 2011, the Registrant sent a written request to Epic for payment of the Consideration in accordance with its obligations under the Strategic Alliance Agreement.

On January 6, 2011, Epic responded to such request stating that, as a result of the complaint filed against the Registrant by The PharmaNetwork, LLC (“TPN”) on or about September 3, 2010 in the Superior Court of New Jersey Chancery Division: Bergen County (Docket No. C-272-10), with an amendment of such complaint being filed on or about September 24, 2010 (the “TPN Complaint”), one or more of the conditions to the Subsidiary’s performance under the Strategic Alliance Agreement may not have been satisfied. As a result of the filing of the TPN Complaint and the pending litigation related thereto (the “TPN Litigation”), Epic stated that it does not have the requisite information regarding the status of the TPN Litigation to evaluate the impact that the TPN Litigation may have on the closing of the payment of the Consideration by the Subsidiary to the Registrant. Epic requested the Registrant to provide it with further details regarding the TPN Litigation and any other pending litigations or proceedings before it will pay the Consideration to the Registrant under the Strategic Alliance Agreement.

On January 11, 2011, the Registrant informed Epic in writing that it does not believe pendency of the TPN Litigation results in the condition set forth in Section 2.11(b)(ix) of the Strategic Alliance Agreement failing to be satisfied. The Registrant intends to continue discussions with the Parent and the Subsidiary and provide such information as may be necessary to establish that all conditions to the Subsidiary’s purchase of the additional 1,000 shares of Series E Preferred Stock and the Warrant under the Strategic Alliance Agreement have been satisfied.

In addition, pursuant to the Strategic Alliance Agreement, within 10 business days following the last day of each calendar quarter, the Subsidiary agreed to purchase from the Registrant 62.5 shares of Series E Preferred Stock (such shares, the “Additional Shares”, and closings of such purchase, “Additional Closing”) for \$62,500 (such amount, the “Additional Consideration”). As of the date hereof, Additional Closings have not been conducted for, and the Subsidiary has not paid Additional Consideration for Additional Shares in connection with, the calendar quarters ending September 30, 2010 or December 31, 2010.

The Registrant disputes the claims set forth in the TPN Complaint and it believes the lawsuit is without merit and intends to vigorously defend against them. On or about October 14, 2010, the Registrant filed its response to the TPN Complaint and two counterclaims. The first counterclaim asserts TPN’s breach of contract and seeks monetary damages in the sum of an amount no less than \$1.125 million, plus interest. The second counterclaim asserts TPN’s breach of its obligation of good faith and fair dealing to the Registrant and seeks monetary damages in the sum of an amount no less than \$1.125 million, plus interest. The case is presently in the discovery stage.

Please also refer to the Current Report on Form 8-K filed with the SEC on January 13, 2011, with such filing being herein incorporated by reference.

#### Approval of Phentermine Tablets 37.5mg

On February 4, 2011, the Company announced the approval of an Abbreviated New Drug Application (ANDA) for phentermine HCl 37.5 mg tablets by the U.S. Food and Drug Administration (FDA). The phentermine HCl tablets are the generic equivalent of the Adipex-P® 37.5 mg tablets. The product and its equivalents had annual sales of approximately \$40 million in 2010 and there are currently six other approved generic manufacturers plus the innovator. On September 16, 2010, Elite had previously announced the acquisition of the ANDA for this generic product from Epic Pharma LLC (“Epic”). The ANDA approval was granted under Epic Pharma’s name and transfer of the ANDA into Elite’s name will begin immediately.

Also previously disclosed on September 16, 2010, this product was part of a license agreement and a manufacturing and supply agreement (together the “Agreements”) with Precision Dose, Inc. (Precision Dose) which has a wholly owned subsidiary, TAGI Pharma, Inc. (“TAGI Pharma”) which will distribute the product. Pursuant to the previously disclosed Agreements, TAGI Pharma will market and sell this product and Elite will manufacture the product. Elite will receive a milestone payment upon shipment of the first product to Precision Dose and Elite will receive a percentage of the gross profit, as defined in the License Agreement, and earned by TAGI Pharma as a result of sales of

the products. The license fee is payable monthly for the term of the License Agreement.

Please also refer to the Current Reports on Form 8-K filed with the SEC on February 4, 2011 and September 16, 2011, with such filings being herein incorporated by this reference.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

THREE AND NINE MONTH PERIODS ENDED DECEMBER 31, 2010  
COMPARED TO THE  
THREE AND NINE MONTH PERIOD ENDED DECEMBER 31, 2009  
(UNAUDITED)

The following discussion and analysis should be read with the financial statements and accompanying notes included elsewhere in this Form 10-Q and in the Annual Report. It is intended to assist the reader in understanding and evaluating our financial position.

This Quarterly Report on Form 10-Q and the documents incorporated herein contain "forward-looking statements". Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. When used in this Form 10-Q, statements that are not statements of current or historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "plan", "intend", "may," "will," "expect", "believe", "could," "anticipate," "estimate," or "continue" or similar expressions or other variations or comparable terminology are intended to identify such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Except as required by law, the Company undertakes no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Any reference to "Elite", the "Company", "we", "us", "our" or the "Registrant" refers to Elite Pharmaceuticals Inc. and its subsidiaries.

#### Overview

We are a specialty pharmaceutical company principally engaged in the development and manufacture of oral, controlled-release products, using proprietary technology and generic pharmaceuticals. Our strategy includes improving off-patent drug products for life cycle management and developing generic versions of controlled-release drug products with high barriers to entry. Our technology is applicable to the development of delayed-, sustained- or targeted-release pellets, capsules, tablets, granules and powders.

We have two products, Lodrane 24® and Lodrane 24D®, currently being sold commercially. We also have an approved generic methadone product developed with our partner, The PharmaNetwork. We are pursuing a sales and distribution agreement for this product. A sales and distribution agreement is a prerequisite for the launch of this product and must be mutually agreed upon by Elite and our development partner. Elite has purchased three approved generic products: a generic hydromorphone product, a generic naltrexone product and a generic phentermine product. The manufacturing process for all three recently acquired products from the previous ANDA holders to our facilities in Northvale, New Jersey, is currently on-going. Elite also executed a License Agreement with Precision Dose, Inc. ("Precision Dose") to market and sell the Elite products in the United States, Puerto Rico, and Canada through its wholly-owned subsidiary, TAGI Pharma Inc. ("TAGI"). TAGI will market the two approved and on approval-pending product recently purchased by the Company as well as additional products and dosage strengths that have or will be filed for approval with the FDA. The Company also has a pipeline of additional generic drug candidates under active development. Additionally, the Company is developing ELI-216, an abuse resistant oxycodone product, and ELI-154, a once-daily oxycodone product. Elite's facility in Northvale, New Jersey operates under Current Good Manufacturing Practice ("cGMP") and is a United States Drug Enforcement Agency ("DEA") registered facility for research, development and manufacturing.

### Strategy

Elite is focusing its efforts on the following areas: (i) development of Elite's pain management products, (ii) manufacturing of Lodrane 24® and Lodrane 24D® products; (iii) set up and launch of approved generic products; (iv) the development of the other products in our pipeline including the eight products pursuant to the Epic Strategic Alliance Agreement; (v) commercial exploitation of our products either by license and the collection of royalties, or through the manufacture of our formulations, and (vi) development of new products and the expansion of our licensing agreements with other pharmaceutical companies, including co-development projects, joint ventures and other collaborations.

Elite is focusing on the development of various types of drug products, including branded drug products which require new drug applications ("NDAs") under Section 505(b)(1) or 505(b)(2) of the Drug Price Competition and Patent Term Restoration Act of 1984 (the "Drug Price Competition Act") as well as generic drug products which require abbreviated new drug applications ("ANDAs").

Elite believes that its business strategy enables it to reduce risk by having a diverse product portfolio that includes both branded and generic products in various therapeutic categories and to build collaborations and establish licensing agreements with companies with greater resources thereby allowing us to share costs of development and improve cash-flow.

### Commercial Products

Elite manufactures two once-daily allergy products, Lodrane 24® and Lodrane 24D®, that were co-developed with our partner, ECR Pharmaceuticals ("ECR"). Elite entered into development agreements for these two products with ECR in June 2001 whereby Elite agreed to commercially develop two products in exchange for development fees, certain payments, royalties and manufacturing rights. The products are being marketed by ECR which also has the responsibility for regulatory matters. In addition to receiving revenues for the manufacture of these products, Elite receives a royalty on in-market sales.

Lodrane 24®, was first commercially offered in November 2004 and Lodrane 24D® was first commercially offered in December 2006. Elite's revenues for manufacturing these products and a royalty on sales for the quarters ended December, 2010 and 2009 aggregated \$1,104,986 and, \$917,383, respectively. Elite's revenues for manufacturing these products and a royalty on sales for the nine month periods ended December, 2010 and 2009 aggregated \$2,790,332 and, \$2,507,474, respectively.

Since January, 2010, the Company has performed laboratory stability studies of Lodrane and Lodrane 24D, for ECR, on a contract basis. Elite's revenues from such contract laboratory services for the nine months ended December 31, 2010 were \$234,123.

### Approved Products

On November 25, 2009, the Company and ThePharmaNetwork, LLC ("TPN") were notified of the approval of an Abbreviated New Drug Application for methadone hydrochloride 10mg tablets by the U.S. Food and Drug Administration ("FDA"). Elite and TPN co-developed the product and the ANDA was filed under the TPN name. A current report on form 8-K was filed on December 2, 2009 in relation to this announcement, such filing being incorporated herein by this reference.

On May 18, 2010, Elite executed an asset purchase agreement with Mikah Pharma LLC (the "Hydromorphone Agreement"). Pursuant to the Hydromorphone Agreement, the Company acquired from Mikah an Abbreviated New Drug Application for Hydromorphone Hydrochloride Tablets USP, 8 mg, for aggregate consideration of \$225,000, comprised of an initial payment of \$150,000, which was made on May 18, 2010. A second payment of \$75,000 was due to be paid to Mikah on June 15, 2010, with the Company having the option to make this payment in cash or by

issuing to Mikah 937,500 shares of the Company's common stock. The Company elected and did issue 937,500 shares of Common Stock during the quarter ended December 31, 2010, in full payment of the \$75,000 due to Mikah pursuant to the asset purchase agreement dated May 18, 2010. Elite is transferring the process to the Facility in Northvale, NJ where it intends to manufacture the product. A current report on form 8-K was filed on May 24, 2010 in relation to this announcement, such filing being incorporated herein by this reference. For further details on the Hydromorphone Agreement, please refer to Exhibit 10.4 to the Quarterly Report on Form 10-Q, filed with the SEC on November 15, 2010, and incorporated herein by reference.

On August 27, 2010, Elite executed the Naltrexone Asset Purchase Agreement with Mikah Pharma LLC (“Mikah”) pursuant to which Elite acquired from Mikah the Abbreviated New Drug Application number 75-274 (Naltrexone Hydrochloride Tablets USP, 50 mg), and all amendments thereto (the “ANDA”), that have to date been filed with the FDA seeking authorization and approval to manufacture, package, ship and sell the products described in the ANDA within the United States and its territories (including Puerto Rico) for aggregate consideration of \$200,000. In lieu of cash, Mikah agreed to accept from Elite product development services to be performed by Elite, as described below under Product Development Agreement heading. A current report on form 8-K was filed on August 27, 2010 in relation to this announcement, such filing being incorporated herein by this reference. Please also refer to exhibit 10.5 of the Quarterly Report on Form 10-Q filed with SEC on November 15, 2010, such filing being incorporated herein by this reference.

On September 10, 2010, Elite, together with its subsidiary, Elite Laboratories, Inc., executed a Purchase Agreement (the “Phentermine Purchase Agreement”) with Epic Pharma LLC (the “Seller”) for the purpose of acquiring from the seller an Abbreviated New Drug Application for a generic phentermine product (the “Phentermine ANDA”), with such being filed with, but not yet approved by the FDA. On February 4, 2011, the Company announced the approval by the FDA of the Phentermine ANDA. As per the terms and conditions of the Phentermine Purchase Agreement, the acquisition of the Phentermine ANDA will close on the later of 60 days from the date of the Purchase Agreement or upon receipt of FDA approval of the Phentermine ANDA. Upon the closing, Elite will pay a portion of the purchase price. The remainder of the purchase price will be paid in quarterly installments over a period of three years, beginning at the end of the first full quarter following the closing. Current reports on form 8-K were filed on September 10, 2010 and February 4, 2011 in relation to the Phentermine Purchase Agreement and the Phentermine ANDA, with such filings being incorporated herein by this reference. Please also refer to exhibit 10.7 of the Quarterly Report on Form 10-Q filed with SEC on November 15, 2010, such filing being incorporated herein by this reference.

#### Licensing Agreement

On September 10, 2010, Elite Pharmaceuticals Inc. (“Elite”) executed a License Agreement with Precision Dose, Inc. (“Precision Dose”) to market and sell four Elite generic products, consisting of Hydromorphone, Naltrexone, and two generic products for which ANDA’s have been filed but not yet approved by the FDA., through its wholly-owned subsidiary, TAGI Pharma, Inc. in the United States, Puerto Rico and Canada. Precision Dose will have the exclusive right to market the products in the United States and Puerto Rico and a non-exclusive right to market the products in Canada. Pursuant to the License Agreement, Elite will receive a license fee and milestone payments. The license fee will be computed as a percentage of the gross profit, as defined in the License Agreement, earned by Precision Dose as a result of sales of the products. The license fee is payable monthly for the term of the License Agreement. The milestone payments will be paid in 6 installments. The first installment was paid upon execution of the License Agreement. The remaining installments are to be paid upon FDA approval and initial shipment of the products to Precision Dose. The term of the License Agreement is 15 years and may be extended for 3 successive terms, each of 5 years. A current report on form 8-K was filed on September 10, 2010 in relation to this announcement, such filing being incorporated herein by this reference. Please also refer to exhibits 10.8 and 10.9 of the Quarterly Report on Form 10-Q filed with SEC on November 15, 2010, such filings being incorporated herein by this reference.

#### Products Under Development

It is our general policy not to disclose products in our development pipeline or the status of such products until a product reaches a stage that we determine, for competitive reasons, in our discretion, to be appropriate for disclosure and because the disclosure of such information might suggest the occurrence of future matters or events that may not occur.

#### ELI-154 and ELI-216

For ELI-154, Elite has developed a once-daily oxycodone formulation using its proprietary technology. An investigational new drug application, or IND, has been filed and Elite has completed two pharmacokinetic studies in healthy subjects that compared blood levels of oxycodone from dosing ELI-154 and the twice-a-day product that is on

the market currently, OxyContin® marketed in the U.S. by Purdue Pharma LP. These studies confirmed that ELI-154, when compared to twice-daily delivery, demonstrated an equivalent onset, more constant blood levels of the drug over the 24 hour period and equivalent blood levels to the twice-a-day product at the end of 24 hours. Elite has successfully manufactured multiple batches on commercial scale equipment and we have discussions ongoing in Europe for this product. We are looking for a partner who can complete the clinical studies required for Europe and who can sell and distribute the product in key European territories.

ELI-216 utilizes our patent-pending abuse-deterrent technology that is based on a pharmacological approach. ELI-216 is a combination of a narcotic agonist, oxycodone hydrochloride, in a sustained-release formulation intended for use in patients with moderate to severe chronic pain, and an antagonist, naltrexone hydrochloride, formulated to deter abuse of the drug. Both of these compounds, oxycodone hydrochloride and naltrexone hydrochloride, have been on the market for a number of years and sold separately in various dose strengths. Elite has filed an IND for the product and has tested the product in a series of pharmacokinetic studies. In single-dose studies for ELI-216, it was demonstrated that no quantifiable blood levels of naltrexone hydrochloride were released at a limit of quantification (“LOQ”) of 7.5 pg/ml. As described below, when crushed, naltrexone hydrochloride was released at levels that would be expected to eliminate the euphoria from the crushed oxycodone hydrochloride. This data is consistent with the premise of Elite’s abuse resistant technology, or ART, that essentially no naltrexone is released and absorbed when administered as intended. Products utilizing the pharmacological approach to deter abuse such as Suboxone®, a product marketed in the United States by Reckitt Benckiser Pharmaceuticals, Inc., and Embeda®, a product marketed in the United States by King Pharmaceuticals, have been approved by the FDA and are being marketed in the United States.

ELI-216 demonstrates a euphoria-blocking effect when the product is crushed. A study completed in 2007 was designed to determine the optimal ratio of oxycodone hydrochloride and the opioid antagonist, naltrexone hydrochloride, to significantly block the euphoric effect of the opioid if the product is abused by physically altering it (i.e., crushing). The study also helped determine the appropriate levels of naltrexone hydrochloride required to reduce or eliminate the euphoria experienced by subjects who might take crushed product to achieve a “high”.

Elite met with the FDA for a Type C clinical guidance meeting regarding the NDA development program for ELI-216. Elite has incorporated the FDA’s guidance into its developmental plan. Elite has obtained a special protocol assessment, or SPA, with the FDA for the ELI-216 Phase III protocol. Elite will conduct additional Phase I studies including, but not limited to, food effect, ascending dose and multi-dose studies.

Elite has developed ELI-154 and ELI-216 and retains the rights to these products. Elite has currently chosen to develop these products itself but expects to license these products at a later date to a third party who could provide funding for the remaining clinical studies, including a Phase III study, and who could provide sales and distribution for the product. The drug delivery technology underlying ELI-154 was originally developed under a joint venture with Elan which terminated in 2002.

According to the Elan Termination Agreement, Elite acquired all proprietary, development and commercial rights for the worldwide markets for the products developed by the joint venture, including ELI-154. Upon licensing or commercialization of ELI-154, Elite will pay a royalty to Elan pursuant to the Termination Agreement. If Elite were to sell the product itself, Elite will pay a 1% royalty to Elan based on the product’s net sales, and if Elite enters into an agreement with another party to sell the product, Elite will pay a 9% royalty to Elan based on Elite’s net revenues from this product. (Elite’s net product revenues would include license fees, royalties, manufacturing profits and milestones) Elite is allowed to recoup all development costs including research, process development, analytical development, clinical development and regulatory costs before payment of any royalties to Elan.

#### Epic Strategic Alliance Agreement

On March 18, 2009, Elite and Epic Pharma, LLC and Epic Investments, LLC, a subsidiary of Epic Pharma LLC (collectively, “Epic”) entered into the Epic Strategic Alliance Agreement (amended on April 30, 2009, June 1, 2009 and July 28, 2009). Epic is a pharmaceutical company that operates a business synergistic to that of Elite in the research and development, manufacturing and sales and marketing of oral immediate release and controlled-release drug products.

Under the Epic Strategic Alliance Agreement (i) at least eight additional generic drug products will be developed by Epic at the Facility with the intent of filing abbreviated new drug applications for obtaining FDA approval of such generic drugs, (ii) Elite will be entitled to 15% of the profits generated from the sales of such additional generic drug

products upon approval by the FDA, and (iii) Epic and Elite will share certain resources, technology and know-how in the development of drug products, which Elite believes will benefit the continued development of its current drug products.

For additional information regarding the Epic Strategic Alliance Agreement, please see our disclosures under “Epic Strategic Alliance Agreement” in Item 7 of Part II of this Annual Report on Form 10-K, and in our Current Reports on Form 8-K, filed with the SEC on March 23, 2009, May 6, 2009 and June 5, 2009, which are incorporated herein by reference.

#### Product Development Agreement

On August 27, 2010, Elite Pharmaceuticals Inc. (“Elite”) executed an agreement with Mikah Pharma, LLC (“Mikah”) to undertake and perform development work to facilitate the preparation of a regulatory filing for a product under development (the “Product Development Agreement”). The product will be formulated with a previously approved drug substance and will be designed to be delivered in a unique delivery profile. Among other responsibilities, Elite will provide formulation, analytical development, clinical batch manufacture and validation work for the product. The parties agreed that, in lieu of cash, the transfer to Elite of the Naltrexone product in accordance with the terms of the Naltrexone Asset Purchase Agreement (see discussion at Item 2.01 below), which they valued at \$200,000, constituted the consideration for the development services being performed by Elite under the Product Development Agreement. Mikah will also pay to Elite, on a quarterly basis, a royalty in the amount of 5% of net sales of the product. The royalty will be due and payable for the duration of the period beginning on the date that the product is approved by the United States Food and Drug Administration (the “FDA”) and ending on the date of the introduction into the market of an equivalent generic product. Upon approval of the new drug application by the FDA, Elite will manufacture the product and the parties will negotiate in good faith a manufacturing and supply agreement for the product. The Product Development Agreement has a term of 10 years. There is no guarantee that the product will receive approval from the FDA. A current report on form 8-K was filed on September 1, 2010 in relation to this announcement, such filing being incorporated herein by this reference. Please also refer to exhibit 10.6 of the Quarterly Report on Form 10-Q filed with the SEC on November 15, 2010, such filing being herein incorporated by this reference.

#### Novel Labs Investment

At the end of 2006, Elite entered into an agreement with VGS Pharma, LLC (“VGS”) and created Novel Laboratories, Inc. (“Novel”), a privately-held company specializing in pharmaceutical research, development, manufacturing, licensing, acquisition and marketing of specialty generic pharmaceuticals. Novel's business strategy is to focus on its core strength in identifying and timely executing niche business opportunities in the generic pharmaceutical area. Elite owns approximately 10% of the outstanding shares of Class A Voting Common Stock of Novel. To date, Elite has received no distributions or dividends from this investment.

#### Critical Accounting Policies and Estimates

Management's discussion addresses our Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its estimates and judgment, including those related to bad debts, intangible assets, income taxes, workers compensation, and contingencies and litigation. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Management believes the following critical accounting policies, among others, affect its more significant judgments and estimates used in the preparation of its Consolidated Financial Statements. Our most critical accounting policies include the recognition of revenue upon completion of certain phases of projects under research and development contracts. We also assess a need for an allowance to reduce our deferred tax assets to the amount that we believe is more likely than not to be realized. We assess the recoverability of long-lived assets and intangible assets whenever

events or changes in circumstances indicate that the carrying value of the asset may not be recoverable. We assess our exposure to current commitments and contingencies. It should be noted that actual results may differ from these estimates under different assumptions or conditions.

## Results of Consolidated Operations

### Three Months Ended December 31, 2010 Compared to Three Months Ended December 31, 2009

Our revenues for the three months ended December 31, 2010 were \$1,226,297 an increase of \$308,914 or approximately 34% over revenues for the comparable period of the prior year, and consisted of \$901,653 in manufacturing fees, \$92,902 in lab fees and \$231,742 in royalties. Revenues for the three months ended December 31, 2009, consisted of \$744,948 in manufacturing fees and \$172,435 in royalties. Manufacturing fees increased by approximately 21% due to timing of orders and shipments and growing demand for the Lodrane products. Royalty revenues for the quarter ended December 31, 2010 increased by \$59,307, when compared to royalty revenues for the same quarter of the prior year. This increase is due to the timing of end-user sales in the market and a growing demand for the Lodrane products.

Research and development costs for the three months ended December 31, 2010 were \$179,525, a decrease of \$68,248 or approximately 28% from \$247,773 of such costs for the comparable period of the prior year. Decreases were attributed to decreases in employee costs and consulting fees associated with the development of products and lower active pharmaceutical ingredient costs for product development.

General and administrative expenses for the three months ended December 31, 2010, were \$315,537, a decrease of \$183,347, or approximately 37% from \$498,884 of general and administrative expenses for the comparable period of the prior year. The decrease was primarily due to the December 2010 quarter not having the unusually high legal fees incurred during the December 2009 quarter in relation to litigation existing during that period that has since been settled, plus continued cost reduction initiatives throughout all aspects of our operations, offset by increased rent expense related to the operating lease entered into as of July 1, 2010.

Depreciation and amortization for the three months ended December 31, 2010 was \$9,200, a decrease of \$30,515, or approximately 77%, from \$39,715 for the comparable period of the prior year. The decrease was due to the implementation of improved manufacturing cost accounting systems which more accurately allocate depreciation expense among manufacturing and other operations, increased manufacturing volumes reducing excess capacity, as well as non-essential machinery and equipment not being replaced upon reaching retirement, full depreciation.

Non-cash compensation through the issuance of stock options and warrants for the three months ended December 31, 2010 was \$7,580, a decrease of \$20,908, or approximately 73% from \$28,488 for the comparable period of the prior year. The decrease was due to the timing of the amortization schedule established at the time of issuance of the related stock options and warrants.

Other income/(expenses) for the three months ended December 31, 2010 were \$5,856,343, an increase in other income of \$14,939,935 from the net other income/(expense) of \$(9,083,592) for the comparable period of the prior year. The increase in other income/(expenses) was due to derivative income relating to changes in the fair value of our preferred shares and outstanding warrants during the quarter ended December 31, 2010 totaling \$6.2 million, as compared to a derivative expense of \$8.4 million for the comparable period of the prior year.

As a result of the foregoing, our net income for the three months ended December 31, 2010 was \$5,928,212 compared to a net loss of \$(9,590,485) for the three months ended December 31, 2009.

### Nine Months Ended December 31, 2010 Compared to Nine Months Ended December 31, 2009

Our revenues for the nine months ended December 31, 2010 were \$3,052,864 an increase of \$545,390 or approximately 22% over revenues for the comparable period of the prior year, and consisted of \$2,236,064 in manufacturing fees, \$234,123 in lab fees and \$582,677 in royalties. Revenues for the nine months ended December 31, 2009, consisted of \$1,948,952 in manufacturing fees and \$558,522 in royalty fees. Manufacturing fees increased by approximately 15% due to growing demand for the Lodrane products. Royalty revenues for the nine months ended

December 31, 2010 increased by \$24,155, when compared to royalty revenues for the same period of the prior year.

This increase is due to the timing of end-user sales in the market and a growing demand for the Lodrane products.

Research and development costs for the nine months ended December 31, 2010 were \$494,968, a decrease of \$263,222 or approximately 35% from \$758,190 of such costs for the comparable period of the prior year. Decreases were attributed to decreases in employee costs and consulting fees associated with the development of products and lower active pharmaceutical ingredient costs for product development.

General and administrative expenses for the nine months ended December 31, 2010, were \$947,761, a decrease of \$340,804, or approximately 26% from \$1,288,565 of general and administrative expenses for the comparable period of the prior year. The decrease was primarily due to not having the unusually high legal fees incurred in the prior year in relation to litigation existing during that period that has since been settled, plus continued cost reduction initiatives throughout all aspects of our operations, offset by increased rent expense related to the operating lease entered into as of July 1, 2010.

Depreciation and amortization for the nine months ended December 31, 2010 was \$113,490, a decrease of \$100,997, or approximately 47%, from \$214,487 for the comparable period of the prior year. The decrease was due to the implementation of improved manufacturing cost accounting systems which more accurately allocate depreciation expense among manufacturing and other operations, increased manufacturing volumes which reduced excess capacity, as well as non-essential machinery and equipment not being replaced upon reaching retirement, full depreciation.

Non-cash compensation through the issuance of stock options and warrants for the nine months ended December 31, 2010 was \$33,268, a decrease of \$79,773, or approximately 71% from \$113,041 for the comparable period of the prior year. The decrease was due to the timing of the amortization schedule established at the time of issuance of the related stock options and warrants.

Other income/(expenses) for the nine months ended December 31, 2010 were \$3,185,787, an increase in other income of \$13,505,840 from the net other income/(expense) of \$(10,320,053) for the comparable period of the prior year. The increase in other income/(expenses) was due to derivative expense related to changes in the fair value of our preferred shares and outstanding warrants during the nine months ended December 31, 2010 totaling \$4.4 million, as compared to \$(8.6) million for the comparable period of the prior year.

As a result of the foregoing, our net income for the nine months ended December 31, 2010 was \$3,023,043 compared to a net loss of \$(12,111,307) for the nine months ended December 31, 2009.

#### Material Changes in Financial Condition

Our working capital (total current assets less total current liabilities), decreased to a deficit of \$2.7 million as of December 31, 2010 from a working capital deficit of \$2.3 million as of March 31, 2010, primarily due to our net loss from operations, exclusive of non-cash charges. In addition, it should be noted that current liabilities includes the entire principal amount due on the Company's NJEDA Bonds Payable. This amount, totaling \$3.4 million has been classified as a current liability as a result of the Company receiving a notice of default from the Trustee of the NJ-EDA Bonds. Please refer to Note 5 to our financial statements and Item 3 of this current report on Form 10-Q for further details.

We achieved a positive cash flow from operations of \$318,457 for the nine months ended December 31, 2010, primarily due to deferred revenues relating to milestone payments, totaling \$234,956, received from marketing contracts signed during the period and our net income from continuing operations of \$3,005,004, decreased by non cash charges totaling \$3,019,933, which included depreciation and amortization of \$362,381, change in fair value of warrant derivative liabilities of \$(4,788,493), change in fair value of preferred share derivative liabilities of \$412,908, derivative interest payments satisfied through the issuance of common shares in lieu of cash of \$897,680 and non cash compensation satisfied by the issuance of common stock and options of \$33,268.

## LIQUIDITY AND CAPITAL RESOURCES

### Going concern considerations

As of December 31, 2010, the Company had a working capital deficit of \$2.7 million, losses from operations totaling \$0.2 million for the nine months ended December 31, 2010, other income totaling \$3.2 million for the nine months ended and a net income of \$3.0 million for the nine months ended December 31, 2010. Please note that the Company's other income/(expenses) are significantly influenced by the fluctuations in the fair value of outstanding preferred share and warrant derivatives, and that such fair values strongly correlate to and vary inversely with the market share price of the Company's Common Stock.

In addition, the Company has received Notice of Default from the Trustee of the NJEDA Bonds as a result of the utilization of the debt service reserve being used to pay interest payments due on September 1, 2009, March 1, 2010 and September 1, 2010 totaling \$121k, \$113k and \$113k, respectively, and principal payments due on September 1, 2009 totaling \$210k. The debt service reserve was utilized to make such payments as a result of the Company's not having sufficient funds available to make such payments when due.

The Company did not have sufficient funds available to make the principal payments due on September 1, 2010, totaling \$200k and requested that the Trustee withdraw such funds from the debt service reserve. The Company's request was denied and accordingly the principal payment due on September 1, 2010, totaling \$200k was not made.

The Company has requested a postponement of principal payments due on September 1, 2010, 2011 and 2012, with an aggregate of all such postponed principal payments being added to the principal payments due on September 1, 2013. Resolution of the Company's default on the NJEDA Bonds and our request for postponement of principal payments will have a significant effect on our ability to operate in the future.

Please refer to Note 5 to our financial statements and Item 3 of this current report on Form 10-Q for a more detailed discussion of the NJEDA Bonds and Notice of Default.

As of December 31, 2010, we had cash reserves of \$415,194. The completion of all transactions contemplated by the Epic Strategic Alliance Agreement, including the consummation of the third closing thereof, is expected to provide additional funds to permit us to continue development of our product pipeline for more than two years. Beyond two years, we anticipate that, with growth of Lodrane and the launch of the generic Hydromorphone 8mg and Naltrexone 50mg recently acquired pursuant to asset purchase agreements with Mikah Pharma LLC, Elite could be profitable. In addition, the commercialization of the products developed at the Facility under the Epic Strategic Alliance Agreement is expected to add a new revenue source for Elite. However, there can be no assurances as to the growth, success of development or commercialization of these products.

Despite the successful completion of the initial and second closings of the Epic Strategic Alliance Agreement, there can be no assurances that we will be able to consummate the third closing pursuant to the terms and conditions of the Epic Strategic Alliance Agreement. If such transactions are consummated, we will receive additional cash proceeds of \$1.6875 million (which will include quarterly payments of \$62,500 for a period of 11 quarters). Even if we were able to successfully complete the third closing of the Epic Strategic Alliance Agreement, we still may be required to seek additional capital in the future and there can be no assurances that we will be able to obtain such additional capital on favorable terms, if at all. For additional information regarding the Epic Strategic Alliance Agreement, please see our disclosures under "Epic Strategic Alliance Agreement" in Item 7 of Part II of our Annual Report on Form 10-K, and in our Current Reports on Form 8-K, filed with the SEC on March 23, 2009, May 6, 2009, June 5, 2009, July 1, 2010 and January 13, 2011, which disclosures are incorporated herein by reference.

Based upon our current cash position, management has undertaken a review of our operations and implemented cost-cutting measures in an effort to eliminate any expenses which are not deemed critical to our current strategic objectives. We will continue this process without impeding our ability to proceed with our critical strategic goals, which, as noted above, include developing our pain management and other products and manufacturing our current products.

For the nine months ended December 31, 2010, we realized approximately \$0.3 million positive cash flow from operating activities. Our working capital deficit at December 31, 2010 was approximately \$2.7 million compared with working capital surplus of approximately \$0.5 million at December 31, 2009. Please note that the working capital deficit of \$2.6 million as of December 31, 2010, includes the entire principal amount due in relation to the NJEDA Bonds. This amount, totaling \$3.4 million was first classified as a current liability as of March 31, 2010, due to the Notice of Default received from the Trustee in relation to the NJEDA Bonds. The working capital surplus of \$0.5

million as of December 31, 2009, does not include classification of such entire principal amount due on the NJEDA Bonds as a current liability. Please refer to Note 5 to our financial statements and Item 3 of this current report on Form 10-Q for a more detailed discussion of the NJEDA Bonds and Notice of Default.

Cash and cash equivalents at December 31, 2010, were approximately \$0.4 million, a decrease of approximately \$0.5 million from the approximately \$0.9 million at December 31, 2009.

As of December 31, 2010, our principal source of liquidity was approximately \$0.4 of cash and cash equivalents. Additionally, we may have access to funds through the exercise of outstanding stock options and warrants. There can be no assurance that the exercise of outstanding warrants or options will generate or provide sufficient cash.

#### Off-Balance Sheet Arrangements

We have not entered into any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that would be considered material to investors.

#### Effects of Inflation

We are subject to price risks arising from price fluctuations in the market prices of the products that we sell. Management does not believe that inflation risk is material to our business or our consolidated financial position, results of operations, or cash flows.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable

### ITEM 4 CONTROLS AND PROCEDURES

#### Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive and Chief Financial Officers, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, our Chief Executive and Chief Financial Officers concluded that our disclosure controls and procedures as of the end of the period covered by this report were not effective so that that the information required to be disclosed by us in reports filed under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management in order to allow for timely decisions regarding disclosure. A controls system cannot provide absolute assurance, however, that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Management has determined that, as of December 31, 2010, there were material weaknesses in both the design and effectiveness of our internal control over financial reporting. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis.

The deficiencies in our internal controls over financial reporting and disclosure controls and procedures are related to the lack of segregation of duties due to the size of our accounting department, which replaced an outside accounting firm and non-employee Chief Financial Officer on July 1, 2009, and limited enterprise resource planning systems. When our financial position improves, we intend to hire additional personnel and implement enterprise resource planning systems required to remedy such deficiencies.

## Changes in Internal Controls

There have been no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15 (f) under the Exchange Act) during the quarter ended December 31, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

In the ordinary course of business we may be subject to litigation from time to time. Except as follows, there is no past, pending or, to our knowledge, threatened litigation or administrative action to which we are a party or of which our property is the subject (including litigation or actions involving our officers, directors, affiliates, or other key personnel, or holders of record or beneficially of more than 5% of any class of our voting securities, or any associate of any such party) which in our opinion has, or is expected to have, a material adverse effect upon our business, prospects, financial condition or operations.

The PharmaNetwork, LLC v. Elite Pharmaceuticals, Inc. – On or about September 3, 2010, The PharmaNetwork, LLC (“Plaintiffs”) filed a complaint against the Company in the Superior Court of New Jersey Chancery Division: Bergen County (Docket No. C-272-10), with an amendment of this complaint being filed on or about September 24, 2010 (the “TPN Complaint”). The TPN Complaint consists of two counts. The first count is for breach of contract and specific performance & injunctive relief and seeks judgment against the Company for (a) specific performance of the Product Collaboration Agreement made on or about November 26, 2006 (the “Agreement”) ; (b) injunctive relief enjoining the Company from using its assets for any purpose other than its obligations under the Agreement and the payment of the Company’s existing and continuing costs and expenses incurred in the ordinary course of business ; and (c) such other relief as the Court deems equitable and just. The second count is for breach of the implied covenant of good faith and fair dealing and seeks judgment against the Company for (a) specific performance of the Product Collaboration Agreement made on or about November 26, 2006 (the “Agreement”) ; (b) injunctive relief enjoining the Company from using its assets for any purpose other than its obligations under the Agreement and the payment of the Company’s existing and continuing costs and expenses incurred in the ordinary course of business ; and (c) such other relief as the Court deems equitable and just.

Plaintiffs requests for injunctive relief have been denied pursuant to order of the court.

The Company disputes the claims, believes the lawsuit is without merit and intends to vigorously defend against them.

On or about October 14, 2010, the Company filed its response to the TPN complaint and two counterclaims. The first counterclaim asserts TPN’s breach of contract and seeks monetary damages in the sum of an amount no less than \$1.125 million, plus interest. The second counterclaim asserts TPN’s breach of its obligation of good faith and fair dealing to the Company and seeks monetary damages in the sum of an amount no less than \$1.125 million, plus interest.

The case is presently in discovery stage.

### ITEM 1A. RISK FACTORS

There have been no material changes from the Risk Factors described in our Annual Report on Form 10-K for the fiscal year ended March 31, 2010.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

During the quarter ended December 31, 2010, we issued 3,926,568 shares of our common stock to the holders of our Series B, C and D Preferred Stock. The shares were issued in satisfaction of our obligation to pay \$227,320 in dividends earned and/or owing during the quarter ended September 30, 2010. We did not receive any proceeds in exchange for the issuance of these securities. We relied on the exemption provided by Section 4(2) of the Securities Act of 1933 to issue the common stock. The securities were offered and sold without any form of general solicitation or general advertising and the offerees made representations that they were accredited investors.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Please see the discussion in Note 5 to our financial statements titled "NJEDA Bonds" which is incorporated herein by this reference.

ITEM 4. REMOVED AND RESERVED

ITEM 5. OTHER INFORMATION

None.
