FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2011

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 0-25844

TAITRON COMPONENTS INCORPORATED
(Exact name of registrant as specified in its charter)

California
(State or other jurisdiction of incorporation or organization)

95-4249240
(I.R.S. Employer Identification No.)

28040 West Harrison Parkway, Valencia,
California
(Address of principal executive offices)

91355-4162
(Zip Code)

(661) 257-6060
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company.

Edgar Filing: TAITRON COMPONENTS INC - Form 10-Q

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

Class	Outstanding on November 1, 2011
Class A common stock, \$0.001 par value	4,777,144
Class B common stock, \$0.001 par value	762,612

Table of Contents

TAITRON COMPONENTS INCORPORATED

Notes to Condensed Consolidated Financial Statements (unaudited)

1 – ORGANIZATION

In 1989, we were formed and incorporated in California. We maintain a majority-owned subsidiary in Mexico (since 1998) and two subsidiaries in each of Taiwan (since 1998) and China (since 2005). Our Mexico location is for regional distribution, sales and marketing purposes and our Taiwan and China locations are for supporting inventory sourcing, purchases and coordinating the manufacture of our products. Our China location also serves as the engineering center responsible for making component datasheets and test specifications, arranging pre-production and mass production at our outsourced manufacturers, preparing samples, monitoring quality of shipments, performing failure analysis reports, and designing circuits with partners for our projects.

2 – BASIS OF PRESENTATION

The unaudited condensed consolidated interim financial statements include the accounts of the Company and all wholly owned subsidiaries, including its 60% majority-owned subsidiary, Taitron Components Mexico, S.A. de C.V. All significant intercompany accounts and transactions have been eliminated in consolidation.

These unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments of a normal recurring nature and considered necessary for a fair presentation of its financial condition and results of operations for the interim periods presented in this Quarterly Report on Form 10-Q have been included. Operating results for the interim periods are not necessarily indicative of financial results for the full year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2010. In preparing these financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Significant estimates and assumptions included in the Company’s condensed consolidated financial statements relate to the allowance for sales returns, doubtful accounts, inventory reserves, accrued liabilities and deferred income taxes. Certain amounts in the prior year condensed consolidated financial statements have been reclassified to conform to the current year presentation.

3 – RECENT ADOPTED AND ISSUED ACCOUNTING PRONOUNCEMENTS

In January 2010, the FASB issued revised authoritative guidance that requires more robust disclosures about the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, the activity in Level 3 fair value measurements, and the transfers between Levels 1, 2 and 3. This guidance is effective for interim and annual reporting periods beginning after December 15, 2010 (which is January 1, 2011 for the Company) except for the disclosures about purchases, sales, issuances, and settlements in the roll forward activity in Level 3 fair value measurements.

In May 2011, the FASB issued a new accounting standard on fair value measurements that clarifies the application of existing guidance and disclosure requirements, changes certain fair value measurement principles and requires

additional disclosures about fair value measurements. The standard is effective for interim and annual periods beginning after December 15, 2011. Early adoption is not permitted. The Company does not expect the adoption of this accounting guidance to have a material impact on its condensed consolidated financial statements and related disclosures.

In June 2011, the FASB issued new guidance on the presentation of comprehensive income. The new guidance allows an entity to present components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate, but consecutive statements. The new guidance eliminates the current option to report other comprehensive income and its components in the statement of changes in stockholders' equity. While the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income from that of current accounting guidance. This new guidance is effective for fiscal years and interim periods beginning after December 15, 2011. Upon adoption, the Company will present its condensed consolidated financial statements under this new guidance. The Company does not expect the adoption of this accounting guidance to have a material impact on its condensed consolidated financial statements and related disclosures.

Table of Contents

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the United States Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company's present or future financial statements.

4 – RESTRICTED CASH

At September 30, 2011 and December 31, 2010, we had \$200,000 of restricted cash on deposit as collateral for our \$200,000 irrevocable letter of credit in favor of a trade vendor for inventory purchasing.

5 – OTHER ASSETS

	September 30, 2011 (Unaudited)	December 31, 2010
Investment in securities - Zowie Technology	\$ 68,000	\$ 68,000
Investment in joint venture - Taiteam Technology	147,000	147,000
Investment in joint venture - Grand Shine Mgmt	539,000	-
Other	23,000	48,000
Other Assets	\$ 777,000	\$ 263,000

Our \$68,000 investment in securities as of September 30, 2011 relates to our ownership of 154,808 common shares of Zowie Technology Corporation (Taipei Hsien, Taiwan), a manufacturer of discrete semiconductors and also a supplier of our electronic component products. Our investment relates to less than 5% of Zowie's outstanding shares and we do not have significant influence or control. This investment is accounted for under the cost method basis of accounting.

Our \$147,000 investment in joint venture as of September 30, 2011, relates to our 49% ownership of Taiteam (Yangzhou) Technology Corporation Limited (Yangzhou, China), a joint venture with its 51% owner, Full Harvest Development Limited. This joint venture is not considered to be a "Variable Interest Entity", and as such, is accounted for under the equity method basis of accounting. This joint venture is not operational and as such, there has been no material activity in this joint venture during the recent quarter ending September 30, 2011.

Our \$539,000 investment in joint venture as of September 30, 2011, relates to our initial cumulative investment as part of our planned acquisition of 49% ownership of Grand Shine Management Limited (Dong Guan, China), a joint venture with its 51% owner, Teamforce Company Limited. Our total investment in 2011 is expected to aggregate \$686,000, of which \$245,000 is for the 49% ownership interest and \$441,000 is for our 49% proportional share of operating capital requirements. This joint venture is not considered to be a "Variable Interest Entity", and as such, is accounted for under the equity method basis of accounting.

Table of Contents

6 – NOTES PAYABLE

	September 30, 2011 (Unaudited)	December 31, 2010
Secured credit facility - related party	1,500,000	1,500,000
Less current portion	-	(1,500,000)
Long-term debt, less current portion	\$ 1,500,000	\$ -

Secured credit facility - On April 21, 2008 we entered into a \$3,000,000 credit facility, collateralized by real property, from K.S. Best International Co. Ltd., a company controlled by the brother of our Chief Executive Officer. On March 7, 2011 we renewed and extended maturities to June 30, 2013. Credit is available in \$500,000 advances, each advance payable in monthly interest only installments, at the rate of Prime + 0.25% per annum. As of September 30, 2011 and December 31, 2010, the aggregate outstanding balance on this credit facility was \$1,500,000. The advance history of the credit line is such that on June 3, 2008, we borrowed \$500,000, on April 3, 2009, we borrowed \$500,000 and on April 1, 2010, we borrowed \$500,000. All advances are due June 30, 2013.

7 – RELATED PARTY TRANSACTIONS

We made payments of approximately \$6,000 for both of the three-month periods ended September 30, 2011 and 2010 and \$18,000 for both of the nine-month periods ended September 30, 2011 and 2010 to K.S. Best International Co. Ltd., a company controlled by the brother of our Chief Executive Officer. These payments were for professional fees related to the operational management of our Taiwan office. In addition, we also made payments of \$13,200 for both of the three-month periods ended September 30, 2011 and 2010 and \$39,400 and \$33,600 for the nine-month periods ended September 30, 2011 and 2010, respectively, for interest expense on our outstanding line of credit balance from K.S. Best International Co. Ltd. See Note 6.

We have a \$3,000,000 credit facility, collateralized by real property, from K.S. Best International Co. Ltd., a company controlled by the brother of our Chief Executive Officer. See Note 6 for additional details.

8 – SHARE BASED COMPENSATION

Accounting for stock options issued to employees measures the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. That cost is recognized over the period during which an employee is required to provide service in exchange for the award. Outstanding options to purchase Class A common stock (“the Options”) vest in three equal annual installments beginning one year from the date of grant and are subject to termination provisions as defined in our 2005 Stock Incentive Plan. We use the Black-Scholes option pricing model to measure the fair value of the Options granted to employees. The option activity during the nine months ended September 30, 2011 is as follows:

Number of Shares	Weighted Average Exercise Price	Weighted Average Years Remaining Contractual Term	Aggregate Intrinsic Value
366,500	\$ 1.62	3.4	\$ 69,000

Edgar Filing: TAITRON COMPONENTS INC - Form 10-Q

Outstanding at December 31, 2010					
Additions	129,000				
Terminations	(68,000)				
Outstanding at September 30, 2011	427,500	\$	1.49	4.6	2,000
Exercisable at September 30, 2011	289,166	\$	1.62	3.1	1,400

At September 30, 2011, the range of individual outstanding weighted average exercise prices was \$1.03 to \$1.73.

Table of Contents

9 – COMMITMENTS AND CONTINGENCIES

Inventory Purchasing

Outstanding commitments to purchase inventory from suppliers aggregated \$1,500,000 as of September 30, 2011.

Investment in joint venture

Outstanding commitments to invest in Grand Shine Management aggregated \$147,000 as of September 30, 2011 (see Note 5).

10 - SUBSEQUENT EVENTS

On November 7, 2011, Taitron Components Incorporated (“the Company”) received a notification letter from The Nasdaq Stock Market, LLC (“Nasdaq”) stating that, based upon the closing bid price of the Company’s common stock, \$0.001 par value, for the last 30 consecutive business days, the Company no longer meets the requirement that listed securities maintain a minimum bid price of \$1.00 per share in accordance with Nasdaq Marketplace Rule 5550(a)(2). The notification has no immediate effect on the listing of the Company’s common stock, which will continue to trade on the Nasdaq Capital Market. The notification letter states that the Nasdaq listing rules provide the Company a compliance period of 180 calendar days, or until May 7, 2012, in which to regain compliance. If at any time during this 180 day period the closing bid price of the Company’s security is at least \$1.00 per share for a minimum of 10 consecutive business days, the Company will have regained compliance. The notification letter also states that, in the event the Company does not regain compliance, the Company may be eligible for additional time. To qualify, the Company will be required to meet the continued listing requirement for market value of publicly held shares and all other Nasdaq initial listing standards, with the exception of the minimum bid price requirement, and will need to provide written notice of its intention to cure the deficiency during the second compliance period. If the Company meets these requirements, Nasdaq will inform the Company that it has been granted an additional 180 calendar days. However, if it appears to Nasdaq staff that the Company will not be able to cure the deficiency, or if the Company is otherwise not eligible, Nasdaq will provide the Company with notice that its securities will be subject to delisting. The Company intends to actively monitor the bid price for its common stock between now and May 7, 2012, and will consider available options to regain compliance with the minimum bid price requirement.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the condensed consolidated financial statements, including the related notes, appearing in Item 1 of Part I of this Quarterly Report on Form 10-Q, as well as our most recent Annual Report on Form 10-K for the year ended December 31, 2010.

This document contains forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995 which are subject to risks and uncertainties. Forward-looking statements usually are denoted by words or phrases such as "believes," "expects," "projects," "estimates," "anticipates," "will likely result" or similar expressions. Such risks and other factors include, among others, the semiconductor industry and market, the success of our joint venture investments, our ability to reduce our inventory, our ability to project future product demand, our ability to create and maintain our brand. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. We wish to caution readers that all forward-looking statements are necessarily speculative and not to place undue reliance on forward-looking statements, which speak only as of the date made, and to advise readers that actual results could vary due to a variety of risks and uncertainties. We do not undertake any duty to update forward-looking statements after the date they are made or to conform them to actual results or to changes in circumstances or expectations.

References to "Taitron," the "Company," "we," "our" and "us" refer to Taitron Components Incorporated and its wholly owned and majority-owned subsidiaries, unless the context otherwise specifically defines.

Critical Accounting Policies and Estimates

Use of Estimates - Management has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare our condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States. These estimates have a significant impact on our valuation and reserve accounts relating to the allowance for sales returns, doubtful accounts, inventory reserves and deferred income taxes. Actual results could differ from these estimates.

Revenue Recognition - Revenue is recognized upon shipment of the merchandise, which is when legal transfer of title occurs. Reserves for sales allowances and customer returns are established based upon historical experience and our estimates of future returns. Sales returns for the three months ended September 30, 2011 and 2010 were \$3,000 and \$11,000, respectively and for the nine months ended September 30, 2011 and 2010 were \$16,000 and \$14,000, respectively. The allowance for sales returns and doubtful accounts at September 30, 2011 aggregated \$93,000

Inventory - Inventory, consisting principally of products held for resale, is recorded at the lower of cost (determined using the first in-first out method) or estimated market value. We had inventory balances in the amount of \$12,697,000 at September 30, 2011, which is presented net of valuation allowances of \$4,162,000. We evaluate inventories to identify excess, high-cost, slow-moving or other factors rendering inventories as unmarketable at normal profit margins. Due to the large number of transactions and the complexity of managing and maintaining a large inventory of product offerings, estimates are made regarding adjustments to the cost of inventories. Based on our assumptions about future demand and market conditions, inventories are carried at the lower of cost or estimated market value. If our assumptions about future demand change, or market conditions are less favorable than those projected, additional write-downs of inventories may be required. In any case, actual amounts could be different from those estimated.

Overview

We distribute both brand name electronic components and private labeled original designed and manufactured electronic components (“ODM Components”) and provide integrated services and solutions to support original equipment manufacturers (“OEMs”) and original design manufacturers (“ODMs”). Our product offerings range from discrete semiconductors (transistors, diodes, etc.), optoelectronic devices and passive components to small electronic devices.

Table of Contents

Due to ongoing economic recession and related decreased product demand, we are placing emphasis on increasing our sales to existing customers through further expansion of the number of different types of discrete components and other integrated circuits in our inventory and by attracting additional contract electronic manufacturers (“CEMs”), OEMs and electronics distributor customers. In addition, over the last four years we have developed our ODM service capabilities and added products developed through partnership agreements with offshore solution providers (OEMs and CEMs).

Our core strategy of electronic components fulfillment, however, consists of carrying a substantial quantity and variety of products in inventory to meet the rapid delivery requirements of our customers. This strategy allows us to fill customer orders immediately from stock on hand. Although we believe better market conditions may return, we are focused on lowering our inventory balances and increasing our cash holdings. Our long-term strategy is to rely not only on our core strategy of component fulfillment service, but also the value-added engineering and turn-key services.

In accordance with Generally Accepted Accounting Principles, we have classified inventory as a current asset in our September 30, 2011, condensed consolidated financial statements representing approximately 79% of current assets and 59% of total assets. However, if all or a substantial portion of the inventory was required to be immediately liquidated, the inventory would not be as readily marketable or liquid as other items included or classified as a current asset, such as cash. We cannot assure you that demand in the discrete semiconductor market will increase and that market conditions will improve. Therefore, it is possible that further declines in our carrying values of inventory may result.

Our gross profit margins are subject to a number of factors, including product demand, strength of the U.S. dollar, our ability to purchase inventory at favorable prices and our sales product mix.

Results of Operations

Third quarter of 2011 versus 2010.

Net sales in the third quarter of 2011 totaled \$1,682,000 versus \$2,035,000 in the comparable period for 2010, a decrease of \$353,000 or 17.4% over the same period last year. Our decrease was primarily attributed to lower demand for our products.

Gross profit for the third quarter of 2011 was \$476,000 versus \$623,000 in the comparable period for 2010, and gross margin percentage of net sales was 28.3% in the third quarter of 2011 versus 30.6% in the comparable period for 2010. The overall decrease in gross margin percentage came from selling at lower product prices to remain competitive resulting in lower margins as compared to the same period last year.

Selling, general and administrative expenses in the third quarter of 2011 totaled \$649,000 versus \$688,000 in the comparable period for 2010. The decrease of \$39,000 or 5.7% was primarily attributed to decreases in salaries and benefits in our overseas divisions due to personnel reductions during the second quarter which was a result of cost cutting efforts due to lower demand in sales.

Interest expense, net of interest income, was \$13,000 for the third quarter of 2011 and \$12,000 in the comparable period for 2010.

Other income, net of other expense, in the third quarter of 2011 was \$26,000 versus \$27,000 in the comparable period for 2010. Other income was primarily derived from the rental income of available excess office space within our headquarters' facility in Valencia, CA.

Income tax provision was \$0 for the third quarter of 2011 and \$2,000 in the comparable period for 2010, as we do not expect significant taxable income for fiscal year 2011.

Net loss was \$160,000 for the third quarter of 2011 versus \$52,000 in the comparable period for 2010, an increase of \$108,000 resulting from the reasons discussed above.

Nine Months Ended September 30, 2011 versus Nine Months Ended September 30, 2010.

Net sales in the nine months ended September 30, 2011 was \$5,199,000 versus \$5,461,000 in the comparable period for 2010, a decrease of \$262,000 or 4.8% over the same period last year. Our decreasing sales results primarily resulted from lower demand for products.

Table of Contents

Gross profit for the nine months ended September 30, 2011 was \$1,657,000 versus \$1,641,000 in the comparable period for 2010, and gross margin percentage of net sales was approximately 31.9% for the nine months ended September 30, 2011 and 30.1% for 2010, respectively. The overall increase came from selling at higher product prices to our customers resulting in higher margins as compared to the same period last year.

Selling, general and administrative (“SG&A”) expenses in the nine months ended September 30, 2011 totaled \$2,154,000 versus \$1,936,000 in the comparable period for 2010. The increase of \$218,000 or 11.3% was primarily attributed to increases to salaries and benefits as we had increased staff levels during the second quarter of 2010 and reduced those staff during the same quarter of 2011.

Interest expense, net of interest income, was \$51,000 for the nine months ended September 30, 2011 versus \$32,000 in the comparable period for 2010. The increase was primarily due to recognizing \$14,000 of additional financing costs related to our investment in securities with Zowie Technology during the first quarter of 2011.

Other income, net of other losses, in the nine months ended September 30, 2011 was \$70,000 versus \$106,000 in the comparable period for 2010.

Income tax provision was \$2,000 for the nine months ended September 30, 2011 versus \$5,000 in the comparable period for 2010.

Net loss was \$480,000 for the nine months ended September 30, 2011 versus \$226,000 in the comparable period for 2010, an increase of \$254,000 resulting from the reasons discussed above.

Liquidity and Capital Resources

We have financed our operations generally with borrowings under our revolving credit facility.

Cash flows used in operating activities were \$613,000 as opposed to cash flows provided by of \$130,000 for the nine months ending September 30, 2011 and 2010, respectively. The decrease of \$743,000 in cash flows from operations compared with the prior period resulted from changes in operating assets and liabilities, primarily from increases to prepaid expenses and other current assets, smaller reductions of inventory and reductions of accounts payables.

Cash flows used in investing activities were \$543,000 and \$93,000 for the nine months ending September 30, 2011 and 2010, respectively, primarily attributed to our investment in joint ventures (see Note 5).

Cash flows provided by financing activities were \$0 and \$500,000 for the nine months ending September 30, 2011 and 2010, respectively.

Inventory is included in current assets; however, it will take over one year for the inventory to turn. Hence, inventory would not be as readily marketable or liquid as other items included in current assets, such as cash.

We believe that funds generated from, or used in operations, in addition to existing cash balances are likely to be sufficient to finance our working capital and capital expenditure requirements for the foreseeable future. If these funds are not sufficient, we may secure new sources of short-term commercial loans, asset-based lending on accounts receivables or issue debt or equity securities.

Off-Balance Sheet Arrangements

As of September 30, 2011, we had no off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk - Not applicable.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our principal executive and principal financial officers, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (the “Exchange Act”). Based on that evaluation, our principal executive and principal financial officers concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
