PROXY STATEMENT

GENERAL INFORMATION

This Proxy Statement is furnished in connection with the solicitation by the board of directors of NetLogic Microsystems, Inc., a Delaware corporation (the "Company"), of proxies, in the accompanying form, to be used at the 2005 Annual Meeting of Stockholders (the "Annual Meeting") to be held at the offices of Bingham McCutchen LLP, 1900 University Avenue, East Palo Alto, California 94303, on May 18, 2005, at 8:00 a.m., local time, and any adjournments of the Annual Meeting. Unless the context otherwise requires, the "Company," "we," "us," and similar terms refer to NetLogic Microsystems, Inc.

This Proxy Statement and the accompanying proxy card are being mailed on or about April 12, 2005 to all stockholders entitled to notice of and to vote at the Annual Meeting.

SOLICITATION AND VOTING PROCEDURES

Shares represented by valid proxies in the form enclosed, received in time for use at the Annual Meeting and not revoked at or prior to the Annual Meeting, will be voted at the Annual Meeting, as discussed below. The presence, in person or by proxy, of the holders of a majority of the outstanding shares of our common stock is necessary to constitute a quorum at the Annual Meeting. Holders of our common stock are entitled to one vote per share on all matters. To vote in person, a stockholder must attend the Annual Meeting, and then complete and submit the ballot provided at the meeting. To vote by proxy, a stockholder must either mark, sign, and date the enclosed proxy card and mail it to the Company's transfer agent or submit a proxy electronically by using the Internet and logging on to www.eproxy.com/netl/ by following the instructions provided on the proxy card. An automated system administered by the Company's transfer agent tabulates stockholder votes submitted by proxy, and an officer of the Company will tabulate votes cast in person at the Annual Meeting.

Brokers holding shares in street name for customers have the discretionary authority to vote on certain matters when they have not received instructions from the beneficial owners of shares. Under applicable rules, brokers have the discretion to vote on routine matters such as the uncontested election of directors and the ratification of the appointment of an accounting firm. Brokers that do not receive instructions from the beneficial owners are entitled to vote on Proposal No. 1 (the election of directors) and Proposal No. 3 (the ratification of appointment by the Audit Committee of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the 2005 audit). However, brokers will not have discretion to vote on Proposal No. 2 (amendment to the 2004 Equity Incentive Plan) if they do not receive instructions from the beneficial owners. Broker non-votes, if any, will be considered for purposes of determining a quorum, but they will not be considered as entitled to vote and will not have any effect on any of the votes contemplated by this Proxy Statement.

The voting requirements for the proposals that we will consider at the Annual Meeting are as follows:

Election of Directors. Directors are elected by a plurality of the votes of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting, and the two directors who receive the most votes will be elected to our board of directors. Abstentions and votes that are withheld will not affect the election of directors.

Approval of Amendment to 2004 Equity Incentive Plan. An affirmative vote of the holders of a majority of the votes of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting is necessary for approval of Proposal No. 2 to approve the proposed amendment to the Company's 2004 Equity Incentive Plan. Abstentions will have the effect of votes against this proposal.

Ratification of Appointment of PricewaterhouseCoopers LLP as Registered Independent Public Accounting Firm. An affirmative vote of the holders of a majority of the votes of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting is necessary for approval of Proposal No. 3 to ratify the Audit Committee's appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the audit of our fiscal 2005 financial statements. Abstentions will have the effect of votes against this proposal.

All proxies will be voted as specified on the proxy cards submitted by stockholders, if the proxy is properly executed or electronically submitted and is received by the Company prior to the close of voting at the Annual Meeting or any adjournment or postponement of the Annual Meeting. If no choice has been specified, a properly completed and timely returned or electronically submitted proxy card will be voted for our board of directors' nominees and for Proposals Nos. 2 and 3, which are described in detail elsewhere in this Proxy Statement. In addition, all properly completed and timely returned or electronically submitted proxy cards will be voted by the proxies in their discretion for any other matters properly and timely submitted for a vote at the Annual Meeting.

The close of business on March 30, 2005 has been fixed as the record date for determining the stockholders entitled to notice of and to vote at the Annual Meeting. Only holders of our common stock at the close of business on March 30, 2005 will be entitled to notice of and to vote at the Annual Meeting. As of that date, we had 17,720,982 shares of common stock outstanding and entitled to vote. Each share of our common stock is entitled to one vote per share.

The cost of soliciting proxies, including expenses in connection with preparing and mailing of this Proxy Statement, will be borne by the Company. Copies of solicitation material will be furnished to brokerage houses, fiduciaries and custodians holding shares in their names that are beneficially owned by others so that they may forward this solicitation material to such beneficial owners. The Company will reimburse brokerage firms and other persons representing beneficial owners of common stock for their expenses in forwarding proxy material to such beneficial owners. Solicitation of proxies by mail may be supplemented by telephone, telegram, electronic facsimile transmission and other electronic means, and personal solicitation by the directors, officers or employees of the Company. No additional compensation will be paid to directors, officers or employees for such solicitation. The Company has retained Wells Fargo Shareowner Services to assist in the distribution of proxies for a fee estimated to be approximately \$4,000.00 plus reasonable out-of-pocket expenses.

Copies of the Company's 2004 Annual Report on Form 10-K are being mailed to stockholders with this Proxy Statement. Additional copies of the Company's 2004 Annual Report on Form 10-K, excluding exhibits, may be obtained by any stockholder without charge by making a request through the Company's website Investor Information pages at www.netlogicmicro.com or by written request addressed to: Investor Relations, NetLogic Microsystems, Inc., 1875 Charleston Road, Mountain View, California 94043.

REVOCABILITY OF PROXIES

You can revoke your proxy at any time before the voting at the Annual Meeting by sending a properly signed written notice of your revocation to the Secretary of the Company, by submitting another proxy that is properly signed and bearing a later date, by following the specified procedures for submitting a proxy electronically and changing your vote, or by voting in person at the Annual Meeting. Attendance at the Annual Meeting will not itself revoke an earlier submitted proxy. You should direct any written notices of revocation and related correspondence to NetLogic Microsystems, Inc., 1875 Charleston Road, Mountain View, California 94043, Attention: Secretary.

Douglas Broyles has served as a member of our board since December 1999. Mr. Broyles has been a General Partner with Huntington Ventures since September 2000. For the past 25 years, Mr. Broyles has been associated, as an investor and board member, with several Silicon Valley technology companies. Mr. Broyles also currently serves on the board of Peak International Ltd.

Steve Domenik has served as a member of our board since January 2001. Since 1995, Mr. Domenik has been with Sevin Rosen Funds, a venture capital firm, where he is now a General Partner. During his tenure at Sevin Rosen Funds he has led numerous investments in private companies. Mr. Domenik also sits on the boards of directors of various private companies.

Norman Godinho is one of our founders and has served as a member of our board since inception. From December 1997 to April 2000, Mr. Godinho served as our Chief Executive Officer. In August 1980, Mr. Godinho co-founded Integrated Device Technology, Inc. Mr. Godinho was also a director and Vice President of Paradigm Technology Limited, a semiconductor company, which he co-founded in 1987.

Ronald Jankov has served as our President, Chief Executive Officer and as a member of our board of directors since April 2000. From September 1995 to September 1999, Mr. Jankov was Vice President of Sales and then Vice President and General Manager for the Multimedia Division of NeoMagic Corporation, a provider of semiconductors for handheld systems. Since March 1992, Mr. Allan has been President of Allan Advisors, Inc., a corporate governance and legal consulting firm.

Composition of the Board and Committees

Our board of directors is divided into three classes, as follows:

Class I consists of Norman Godinho, Ronald Jankov and Varadarajan Srinivasan, whose terms will expire at the Annual Meeting;

Class II consists of Douglas Broyles and Steve Domenik whose terms will expire at our annual meeting of stockholders to be held in 2006; and

Class III consists currently of Leonard Perham whose term will expire at our annual meeting of stockholders to be held in 2007.

Upon expiration of the term of a class of directors, directors for that class will be elected for three-year terms at the annual meeting of stockholders in the year in which such term expires. Each director's term is subject to the election and qualification of his successor, or his earlier death, resignation or removal. The authorized number of directors may be changed by resolution of our board of directors or a majority vote of the stockholders. Any increase or decrease in the number of directors will be distributed among the three classes so that, as nearly as possible, each class will consist of one-third of the directors. The number of directors is currently set at eight; however, in January 2005, our board of directors approved a reduction in the number of directors to six, effective as of the date of the Annual Meeting. Because no more than two directors may be elected at each annual meeting, this classification of our board of directors may have the effect of delaying or preventing changes in control or management. There currently is one vacancy in Class III which may be filled at any time by a new director approved by a majority of our board of directors.

Our Class I directors' terms will expire at the Annual Meeting. While Messrs. Godinho and Jankov will stand for re-election, Mr. Srinivasan will not stand for re-election to our board of directors. There are no family relationships among any of our directors or executive officers.

Majority of Independent Directors

Our board of directors has determined that Messrs. Perham, Broyles and Domenik are independent, as defined under the rules of the National Association of Securities Dealers, Inc. (NASD). Our board of directors has standing Audit, Compensation and Governance and Nominating Committees, each of which is comprised solely of independent directors in accordance with the rules of the NASD. Under the rules of the NASD, although our audit committee, which is currently comprised of two independent directors, must be comprised of at least three independent directors, we have 12 months from our initial public offering to comply with this requirement. Before July 8, 2005, we will designate at least one additional individual to serve as an independent director of our audit committee.

Audit Committee

Edgar Filing: NETLOGIC MICROSYSTEMS INC - Form DEF 14A

Messrs. Perham and Domenik are the current members of our audit committee. Mr. Perham serves as the chairman of the committee. The board of directors has determined that Mr. Perham is the audit committee financial expert, as defined by applicable rules of the Securities and Exchange Commission (the SEC), but that status does not impose on him duties, liabilities or obligations that are greater than the duties, liabilities or obligations otherwise imposed on him as a member of our audit committee and our board of directors. Our audit committee oversees, reviews and evaluates our financial statements, accounting and financial reporting processes, internal control functions and the audits of our financial statements, including the appointment,

compensation, retention and oversight of our independent auditor. Our audit committee also is charged with reviewing reports or complaints with respect to the accounting, auditing and/or internal controls of the Company, including possible violations under our whistleblower policy. The responsibilities of our audit committee are described in the Audit Committee Charter adopted by our board of directors, which is attached as Appendix A to this Proxy Statement.

Compensation Committee

Messrs. Perham and Domenik are the current members of our compensation committee. Mr. Domenik serves as the chairman of the committee. Our compensation committee reviews and makes recommendations to our board of directors concerning the compensation and benefits of our executive officers (including our chief executive officer) and directors, administers our stock option and employee benefits plans, and reviews general policy relating to compensation and benefits.

Governance and Nominating Committee

Mr. Broyles is the sole member of our governance and nominating committee. Prior to April 1, 2005, Lionel Allan also was a member and the chairman of this committee. Our governance and nominating committee identifies prospective board candidates, recommends nominees for election to our board of directors, develops and recommends board member selection criteria, considers committee member qualification, recommends corporate governance principles to the board of directors, and provides oversight in the evaluation of our board of directors and each committee. The responsibilities of our governance and nominating committee are described in the Governance and Nominating Committee Charter approved by our board of directors, a current copy of which is available on the Company's website at www.netlogicmicro.com.

When there is a need to identify and/or evaluate a prospective nominee, our governance and nominating committee undertakes a careful review process which may involve, among other things, candidate interviews, inquiries of the person or persons recommending the candidate, engagement of an outside firm to gather additional information and/or discussions with management and incumbent directors. In evaluating candidates, including current directors eligible for re-election, our governance and nominating committee considers various factors that it considers necessary or appropriate, including the size and composition of our board of directors and our committees, the needs of our board of directors and our committees, the candidate's expertise and experience, the candidate's independence and potential conflicts of interest, the candidate's character and integrity, and the candidate's existing commitments. Upon completion of its review and evaluation, our governance and nominating committee makes its recommendations to our board of directors regarding the candidate(s). After considering our governance and nominating committee's recommendations, our board of directors determines and approves which candidate(s) shall be nominated for election to our board of directors, subject to stockholder approval.

Our governance and nominating committee will consider candidates for nomination as director who are recommended by the Company's stockholders and will not evaluate any candidate for nomination as director differently solely because the candidate was recommended by a stockholder. To recommend a prospective candidate for consideration by our governance and nominating committee, stockholders of the Company should submit the candidate's name and qualifications to the committee in writing at the following address: NetLogic Microsystems, Inc., 1875 Charleston Road, Mountain View, California 94043, Attention: Secretary. The Secretary will then forward this information to our governance and nominating committee. To date, the Company has not rejected any candidate timely recommended by any stockholder or group of stockholders owning more than five percent (5%) of our common stock.

Stockholder Communications with the Board

Edgar Filing: NETLOGIC MICROSYSTEMS INC - Form DEF 14A

Stockholders who desire to communicate with the board, or to a specific director, may do so by delivering the communication addressed to either the board of directors or any director, c/o NetLogic Microsystems, Inc.,

1875 Charleston Road, Mountain View, California 94043. These communications will be delivered to the board, or any individual director, as specified. We have a policy that each director should make every reasonable effort to attend each annual meeting of stockholders.

Meetings of the Board and Committees.

During the fiscal year ended December 31, 2004, including telephonic meetings, there were seven meetings of our board of directors, ten meetings of our audit committee, no meetings of our governance and nominating committee and no meetings of our compensation committee. Every director attended at least 75% of such meetings of our board of directors and each committee held during the period for which he was a director or committee member during the fiscal year ended December 31, 2004. In addition, the members of our board of directors and our committees acted at times by unanimous written consent pursuant to Delaware law.

Compensation of Directors

Independent, non-employee directors receive a fully-vested annual option grant of 10,000 shares. The chairmen of our audit committee and governance and nominating committee additionally received a one-time option grant of 10,000 shares that vests 25% upon grant and ratably over the following three years of service. We reimburse directors for all reasonable out-of-pocket expenses incurred in attending meetings of our board of directors and committees of our board.

As proposed to be amended by Proposal No. 2 of this Proxy Statement, the NetLogic Microsystems, Inc. 2004 Equity Incentive Plan authorizes our compensation committee or our full board of directors to exercise its discretion to grant additional stock options and awards to newly elected or appointed and existing non-employee directors and such number of shares as a disinterested majority of the directors may determine in its discretion in recognition of additional duties to be performed as a committee chairman or other extraordinary service to the board. In no event may the total number of shares under stock options or awards granted on a discretionary basis exceed 50,000 shares per non-employee director for one year of board service. While our compensation committee and our board of directors will have this discretionary authority (assuming that the proposed amendment is approved by our stockholders), our compensation committee currently anticipates exercising such authority only with respect to newly appointed or elected directors or directors who serve as committee chairs or provide other extraordinary service to our board of directors. With respect to sitting directors, our compensation committee currently intends to maintain the Company's existing practice of providing only the automatic annual grant of stock options to purchase 10,000 shares to each such director.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics for Employees, Executive Officers and Directors that applies to our principal executive officer, principal financial officer, principal accounting officer or controller and persons performing similar functions. We have posted this Code of Business Conduct and Ethics on the Company's website at www.netlogicmicro.com.

Option Grants in Last Fiscal Year

The following table provides information concerning grants of stock options made during 2004 to each of our named executive officers. The percentage of total options granted to our employees in 2004 is based on total options granted of 1,450,299 shares. We have never granted any stock appreciation rights.

The options in the table were granted under our 2000 Stock Plan and our 2004 Equity Incentive Plan. Each option has a maximum term of ten years, subject to earlier termination if the optionee's services are terminated. All of the options granted in January 2004 were under our 2000 Stock Plan and are immediately exercisable. If unvested options are exercised, they remain subject to a right of repurchase by us at the lower of the exercise price or market price until the shares acquired upon exercise vest. The exercise prices of such options represent our board of directors' determination of the fair market value of our common stock on the grant date. In establishing these prices for grants made in January 2004, our board considered many factors, including our financial condition and operating results, transactions involving the issuances of shares of our preferred stock, the senior rights and preferences accorded shares of preferred stock, and the market for comparable stocks. For grants made in June 2004, the exercise price was the anticipated initial public offering price of our common

stock. For grants made in July 2004, the exercise price was the actual initial public offering price of our common stock. For grants made in October 2004, the exercise price was the closing price for our common stock as reported on the Nasdaq National Market on October 27, 2004. All options granted in July 2004 and October 2004 were under our 2004 Equity Incentive Plan. These option grants are not immediately exercisable, and vest and become exercisable, cumulatively as to one-fourth of the shares at the first anniversary of the vesting commencement date of the option grant and as to one thirty-sixth of the remaining shares subject to the option grant at the end of each successive month thereafter, subject to the officer's continuous employment with the Company.

The following table sets forth information regarding grants of stock options we granted during the fiscal year ended December 31, 2004 to the named executive officers. We granted options to purchase a total of 1,450,299 shares of our common stock during 2004. Potential realizable values are net of exercise price before taxes, and are based on the assumption that our common stock appreciates at the annual rate shown, compounded annually, from the date of grant until expiration of the ten-year term. These numbers are calculated based on SEC requirements and do not reflect our projection or estimate of future stock price growth.

Employment Contracts, Termination of Employment and Change-in-Control Agreements

We have entered into employment offer letters with each of our named executive officers. Each letter sets forth specifies the named executive officer's initial base salary amount, bonus arrangement, if any, and initial stock option grant. None of the letters indicate a specific term of employment, and each officer's employment may be terminated by either party at any time.

In our employment offer letter with Ibrahim Korgav, our Senior Vice President of Manufacturing and Business Development, if we terminate Mr. Korgav (other than for misconduct, as defined in his letter) prior to a change of control of our company, we are obligated to pay Mr. Korgav six months' salary and to provide him with an additional six months of applicable employee benefits, and the vesting of his options to purchase shares of our common stock shall accelerate with respect to an additional 12 months. If Mr. Korgav's employment is involuntarily terminated (as defined in the letter) after a change of control of our company, we are obligated to pay Mr. Korgav six months' salary and to provide him with an additional six months of applicable employee benefits.

In our employment offer letter with Varadarajan Srinivasan, our Vice President of Product Development and Chief Technology Officer, if we terminate Mr. Srinivasan for any reason, we are obligated to pay him three months' salary.

Pursuant to our employment offer letter with Roland Cortes, our Senior Director of Legal Affairs and IP Management and Secretary, Mr. Cortes is employed on an at will basis. The offer letter also provides for the compensation, bonus and stock option grant terms effective at the start of his employment with us.

For all options to purchase shares of our common stock issued to our named executive officers and other senior management of the Company since July 2002, if there is a change of control of our company, defined as the sale of all or substantially all of our assets or the merger or consolidation of our company with or into another corporation (except where existing holders of more than 50% of the voting securities retain their voting power), and the options are not assumed by the successor corporation, the vesting of the options will accelerate with respect to an additional 24 months, measured from the date of the change of control. If the options are assumed by the successor corporation but a named executive officer is involuntarily terminated, as defined, within 24 months after the effective date of the change of control, the vesting of the named executive officer's options will accelerate with respect to the additional months that the officer would have received if he or she had remained employed for the 24-month period.

For all options, and shares of our common stock subject to our repurchase right, issued prior to July 2002, including the options and shares held by our named executive officers, if there is a change of control of our company and the options are not assumed by the successor corporation, the vesting of the options shall accelerate, and our repurchase right shall lapse, in full upon completion of the change of control. If the options are assumed by the successor corporation but a named executive officer is involuntarily terminated, as defined, within 24 months after the effective date of the change of control, the vesting of the named executive officer's options will accelerate with respect to such additional months as if the employee had remained employed during the 24-month period.

In March 2005, our compensation committee approved a change-in-control agreement for Ms. Zander. Pursuant to this agreement, the named executive officer will be entitled to receive a severance payment equal to 50% of the executive officer's annual salary at that time, in addition to any other amounts and benefits to which the executive officer may be entitled, if the executive officer's employment is terminated for any of the following reasons within two years following a change in control of our company: assignment to the officer of duties incompatible with the officer's position, failure to maintain the officer in this position and its reporting relationship or a substantial diminution in the nature of the officer's authority or responsibilities; reduction in the officer's then current base salary or in the bonus or incentive compensation opportunities or benefits coverage, except pursuant to an across-the-board reduction similarly affecting all senior executives; termination of the officer's employment, for any reason other than voluntary termination or the officer's misconduct; relocation of the officer's principal place of business to a location more than 30 miles from the location of such office on the date of the change-in-control agreement; failure to pay the officer any material amounts otherwise vested and due the officer under the change-in-control agreement or under any plan, program or policy; or the officer's death or disability. Under this agreement, a change in control results when there is an acquisition of 45% or more of our outstanding voting securities by one individual or entity or a group of stockholders or an acquisition of the company which results in a change in the majority of the directors on the board of directors, a new stockholder or group receiving at least 45% of the outstanding voting securities, or our former stockholders retaining less than 50% of our outstanding voting securities.

In March 2005, the compensation committee of our board of directors approved an increase in the annual salary we pay to Donald Witmer, our chief financial officer, from \$200,000 to \$225,000, effective as of March 24, 2005. In December 2004, our compensation committee had approved an increase in Mr. Witmer's salary from \$180,000 to \$200,000. Mr. Witmer does not have a written employment agreement with us and is employed at will.

of common stock and other equity securities of ours. Based solely on our review of Forms 3 and 4 received during 2004 and Forms 5 (or any written representations) received with respect to fiscal year 2004, we believe that all directors, executive officers and 10% stockholders complied with all applicable Section 16(a) filing requirements during 2004.

**REPORT ON EXECUTIVE COMPENSATION BY THE
COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS**

Overview

This report is provided by the Compensation Committee to assist stockholders in understanding the objectives and procedures in establishing the compensation of the Company's Chief Executive Officer and other executive officers during fiscal year 2004.

The Compensation Committee has the responsibility to review the compensation program for the Company's executive officers including the approval of salaries, cash bonuses and other compensation. The Committee also administers the Company's 2000 Stock Plan (the 2000 Plan) and 2004 Equity Incentive Plan (the 2004 Plan), including review and approval of stock option grants under the 2000 Plan and 2004 Plan to the executive officers. The Compensation Committee is composed of two independent, non-employee directors.

Compensation Philosophy

The Compensation Committee believes that compensation of the Company's executive officers should encourage creation of stockholder value and achievement of strategic corporate objectives. It is the Compensation Committee's philosophy to align the interests of the Company's stockholders and management by integrating compensation with the Company's annual and long-term corporate and financial objectives. The Compensation Committee believes that the compensation of the Company's executive officers should be competitive in the marketplace, based upon the Company's performance as well as the individual executive officer's performance, and sufficient to attract, retain and motivate well-qualified executives who will contribute to the long-term success of the Company. The Company offers a total compensation package competitive with companies in the semiconductor design industry, taking into account relative company size, performance and geographic location as well as individual responsibilities and performance. The components of executive officer compensation consist of base salary, bonus and stock options, which are discussed separately below.

Compensation Program

The Company's executive compensation program consists of cash and equity-based components. Grants of stock options under the Company's 2000 Plan and 2004 Plan currently comprise the equity-based component. The Vice President of Sales is also eligible to receive sales commissions and a sales-based bonus, which is paid quarterly.

Cash Components. In fiscal year 2004, the Compensation Committee reviewed salaries recommended by the Chief Executive Officer for executive officers other than the Chief Executive Officer. The Compensation Committee sets the salary level of each executive officer on a case-by-case basis, taking into account the individual's level of responsibilities and performance but gives substantial weight to the recommendation of the Chief Executive Officer with regard to the compensation payable to the other executive officers. The Compensation Committee also considers market information and the base salaries and other incentives paid to executive officers of other similarly sized companies within its industry. Executive salaries are reviewed annually. There are no profit-sharing or deferred compensation programs.

Edgar Filing: NETLOGIC MICROSYSTEMS INC - Form DEF 14A

The Company's bonus policy is to pay an annual cash bonus to certain executive officers and other key employees based on an evaluation of the Company's operating performance for the year and the employee's individual performance. The amount of each bonus (other than for the Chief Executive Officer) is determined by the Chief Executive Officer, subject to the approval of the Compensation Committee.

Equity-Based Component. Stock options provide additional incentives to officers and employees to work to maximize stockholder value. The options become exercisable over a defined period of employment with the

Company to encourage employee retention. The Compensation Committee believes that equity-based compensation in the form of stock options links the interests of management and stockholders by focusing employees and management on increasing stockholder value. Stock options typically have been granted to executive officers when the executive first joins the Company, and annually thereafter in connection with significant changes in responsibilities, and, occasionally, to achieve equity within a peer group. The number of shares subject to each stock option granted takes into account or is based on anticipated future contribution and ability to impact corporate and/or business unit results, past performance or consistency within the executive's peer group, prior option grants to the executive officer and the level of vested and unvested options. Except as otherwise provided by the Compensation Committee, these options generally vest as to 25% of the total shares within one year after the date of grant and then monthly over the next three years.

2004 Compensation of the Chief Executive Officer

Ronald Jankov has been the Company's President and Chief Executive Officer since April 2000. In determining the compensation of Mr. Jankov for services rendered in fiscal year 2004, the Compensation Committee reviewed the Company's fiscal 2004 financial results and compared them with the Company's financial results in fiscal 2003, the Company's increase in revenues for fiscal 2004, and other factors. Furthermore, in 2004, the Compensation Committee commissioned and considered a compensation survey to compare the compensation paid to the Company's executive officers with the compensation paid to executive officers of other high technology companies of similar size, with similar annual revenue and in similar industries.

Based on the foregoing factors, the Compensation Committee increased Mr. Jankov's salary in 2004 from \$187,200 at the beginning of 2004 to \$237,200 in December 2004. During fiscal 2004, Mr. Jankov was granted stock options to purchase 125,000 shares of our common stock.

Compliance with Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to publicly-held companies for compensation paid to certain executive officers, to the extent that compensation paid to the officer exceeds \$1 million during the Company's taxable year. The compensation paid to the Company's executive officers for the year ended December 31, 2004 did not exceed the \$1 million limit per officer. In addition, the Company's employee stock option plans and option grants to executives have been structured so that any compensation deemed paid to an executive officer in connection with the exercise of his or her outstanding options with an exercise price per share equal to the fair market value per share of the common stock on the grant date will qualify as performance-based compensation that will not be subject to the \$1 million limitation. Our compensation committee does not expect to take any action at this time to modify cash compensation payable to the executive officers that would result in the application of Section 162(m).

PROPOSAL NO. 1:

ELECTION OF DIRECTORS

At the Annual Meeting, two Class I directors are to be elected to serve until the 2008 annual meeting of stockholders and until a successor for such director is elected and qualified, or until the death, resignation or removal of such director. There are two nominees, both of whom are currently directors of the Company. Each of these nominees has been recommended by our governance and nominating committee for re-election to our board of directors and has been approved by our board of directors for nomination.

NOMINEES

Set forth below is information regarding the nominees for election to our board of directors:

Name	Position(s) with the Company	Year First Elected Director
Ronald Jankov	Director, Chief Executive Officer and President	2000
Norman Godinho	Director	1997

Each person nominated has agreed to serve if elected, and our board of directors has no reason to believe that any nominee will be unavailable or will decline to serve. In the event, however, that any nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who is designated by the current board of directors to fill the vacancy.

Our board of directors unanimously recommends that the stockholders vote FOR the election of both of the above nominees.

PROPOSAL NO. 2:

APPROVAL OF AMENDMENT TO 2004 EQUITY INCENTIVE PLAN

General

Our board of directors is asking our stockholders to approve a proposed amendment to our 2004 Equity Incentive Plan (the "Plan") pursuant to which our board of directors would have discretion to grant stock options to non-employee directors of the Company. Currently, stock option grants under the Plan to non-employee directors are automatic and non-discretionary in accordance with the provisions of the Plan. On an annual basis, our non-employee directors are granted options to purchase 10,000 shares of our common stock, under specified conditions. Each of these option grants vests on a monthly basis over a one-year period. Section 7.1(h)(i) of the Plan specifically provides that no person shall have any discretion to select which non-employee directors of the Company shall be granted stock options under the Plan.

If the proposed amendment to the Plan described below is approved by our stockholders, our board of directors will have certain discretion to grant stock options to non-employee directors of the Company. Following the Annual Meeting, if each of the proposed nominees described in Proposal No. 1 is elected to our board of directors, there will be four non-employee directors that will be eligible to receive stock options under the Plan.

Proposed Amendment

The Plan currently provides that stock options will be granted to non-employee directors pursuant to an automatic, non-discretionary grant mechanism. Each non-employee director is granted automatically a stock option to purchase 10,000 shares of our common stock each year at an exercise price equal to the fair market value of our common stock on the date of grant. These stock options vest in equal, monthly installments over the 12 months following grant. The Plan specifically provides that no person shall have any discretion to select which non-employee directors of the Company shall be granted stock options under the Plan.

The proposed amendment to the Plan, for which we are seeking stockholder approval, would authorize our compensation committee or our full board of directors to grant additional stock options and other awards of up to 50,000 shares of our common stock per year to each non-employee director. The proposed amendment would further authorize a disinterested majority of the directors may determine in its discretion to grant stock options or other awards of such number of additional shares in recognition of additional duties to be performed as a committee chair or for other extraordinary service to our board of directors. The text of the proposed amendment to Section 7.1(h) of the Plan is attached to this Proxy Statement as Appendix B. Due to the nature of the proposed amendment, our non-employee directors have an interest in this proposal as they may benefit therefrom in the future.

2004 Equity Incentive Plan

The Plan was adopted by our board of directors in April 2004 and was approved by our stockholders in May 2004. The Plan took effect upon the effective date of our initial public offering and is administered by our compensation committee, which committee has the authority to, among other things, determine eligibility to receive awards, the types and number of shares of stock subject to the awards, the price and timing of awards and the acceleration or waiver of any vesting, and performance of forfeiture restriction. As used in this prospectus, the term "administrator

means our compensation committee.

Participants. Any of our employees, our non-employee directors, consultants and advisors to us, as determined by our compensation committee, may be selected to participate in the Plan.

Awards. We may award participants with one or more of the following:

stock options;

stock appreciation rights;

restricted stock and stock unit awards;

performance shares;

stock grants; and

performance-based awards.

Stock options. Stock options may be granted under the Plan, including incentive stock options, as defined under Section 422 of the Internal Revenue Code, or the Code, and nonqualified stock options. Any incentive stock option or any option intended to qualify as performance-based compensation under Code Section 162(m) will not be granted at a price that is less than 100% of the fair market value of our common stock on the date of grant or, in the case of grants to holders of at least 10% of the voting power of all classes of our stock, 110% of the fair market value. The term of options granted shall generally be ten years, except that incentive stock options granted to 10% stockholders shall have a term of five years. The option exercise price of all nonqualified stock options will be determined by the administrator and is not limited by the foregoing restrictions on price.

Upon the exercise of a stock option, the purchase price must be paid in full in either cash or its equivalent. The administrator may also allow payment by tendering previously acquired shares of our common stock with a fair market value at the time of exercise equal to the exercise price, provided such shares have been held for at least six months prior to tender and broker-assisted cashless exercises and may authorize loans for the purpose of exercise as permitted under applicable law.

In addition, the Plan provides for the automatic grant, on an annual basis, to our non-employee directors of options to purchase 10,000 shares of our common stock, under specified conditions. Each of these option grants to non-employee directors vest on a monthly basis over a one-year period. If the proposed amendment to the Plan described below is approved by our stockholders, our board of directors will have discretion to grant stock options to non-employee directors of the Company.

Stock appreciation rights (SAR). A SAR entitles a participant to receive a payment equal in value to the difference between the fair market value of a share of stock on the date of exercise of the SAR over the grant price of the SAR. The administrator may pay that amount cash, in shares of our common stock, or a combination. The terms, methods of exercise, methods of settlement, form of consideration payable in settlement, and any other terms and conditions of any SAR will be determined by the administrator at the time of the grant of award and will be reflected in the award agreement.

Restricted stock and stock units. A restricted stock award or restricted stock unit award is the grant of shares of our common stock either currently (in the case of restricted stock) or at a future date (in the case of restricted stock units), at a price determined by the administrator (including zero), that is nontransferable and is subject to substantial risk of forfeiture until specific conditions or goals are met. Conditions may be based on continuing employment or achieving performance goals. During the period of restriction, participants holding shares of restricted stock may, if permitted by the administrator, have full voting and dividend rights with respect to such shares. The restrictions will lapse in accordance with a schedule or other conditions determined by the administrator.

Edgar Filing: NETLOGIC MICROSYSTEMS INC - Form DEF 14A

Performance shares. A performance share award is a contingent right to receive pre-determined shares of our common stock if certain performance goals are met. The value of performance units will depend on the degree to which the specified performance goals are achieved but are generally based on the value of our common stock. The administrator may, in its discretion, pay earned performance shares in cash, or stock, or a combination of both.

Stock grants. A stock grant is an award of shares of common stock within restriction. Stock grants may only be made in limited circumstances, such as in lieu of other earned compensation.

Performance-based awards. Grants of performance-based awards enable us to treat other awards granted under the Plan as performance-based compensation under Section 162(m) of the Code and preserve the deductibility of these awards for federal income tax purposes. Because Section 162(m) of the Code only applies to those employees who are covered employees as defined in Section 162(m) of the Code, only covered employees and those likely to become covered employees are eligible to receive performance-based awards.

Shares reserved for issuance. Subject to certain adjustments, 3,323,191 shares of our common stock, including shares of our common stock that may be issued upon the exercise of options, are authorized and reserved for issuance under the Plan. In addition, on January 1 of each year (including January 1, 2005), there will be an automatic increase of 150,000 shares in the number of shares reserved for issuance under the Plan. Of the 3,473,191 shares reserved under the Plan as of January 1, 2005, options to purchase 868,175 shares of our common stock have been issued pursuant to the Plan as of April 1, 2005.

Acceleration of vesting. The vesting of any awards granted under the Plan may be accelerated in full in the event of a merger or sale of the company if the acquiring entity does not assume or replace the awards with comparable awards.

Amendment and termination. The administrator, with the approval of our board of directors, may terminate, amend or modify the Plan at any time; however, stockholder approval will be obtained for any amendment to the extent necessary and desirable to comply with any applicable law, regulation or stock exchange rule. We may not make any grants under the Plan after the tenth anniversary of the effective date of the Plan.

Tax Consequences. If the proposed amendment is approved, all stock options that may be granted pursuant to the amended provisions of the Plan would be nonstatutory options. An optionee will not recognize any taxable income at the time he or she is granted a nonstatutory option. However upon its exercise, the optionee will recognize ordinary income for tax purposes measured by the excess of the then fair market value of the shares over the option price. In certain circumstances, where the shares are subject to a substantial risk of forfeiture when acquired or where the optionee is an officer, director or 10% stockholder of the Company, the date of taxation may be deferred unless the optionee files an election with the Internal Revenue Service under Section 83(b) of the Internal Revenue Code. Upon resale of such shares by the optionee, any difference between the sales price and the exercise price, to the extent not recognized as ordinary income as provided above, will be treated as capital gain or loss. The Company will be entitled to a tax deduction in the amount and at the time that the optionee recognizes ordinary income with respect to shares acquired upon exercise of a nonstatutory option.

The American Jobs Creation Act of 2004 (H.R. 4520) (the Act), which added Section 409A (Section 409A) to the Internal Revenue Code, imposes significant new restrictions on a range of deferred compensation plans, along with a harsh penalty on the individual employee or director for noncompliance. The initial Internal Revenue Service guidance, Notice 2005-1, on the deferred compensation provisions of new Section 409A was issued on December 20, 2004 and revised on January 5, 2005. The guidance provides transition rules for 2005 for nonqualified deferred compensation plans (i.e., plans and agreements providing for the deferral of compensation) that are subject to Section 409A with respect to deferral and payment elections, amendments, termination of participation, cancellation of deferrals, and plan termination.

The Act's definition of a nonqualified deferred compensation plan is broad and includes any plan or arrangement (including an agreement covering only one person) that provides for the deferral of compensation, with certain specific exceptions. The following are examples of the types of plans that are subject to the Act:

Elective deferral of director's fees;

Stock options issued at less than market value; and

Edgar Filing: NETLOGIC MICROSYSTEMS INC - Form DEF 14A

Stock options granted in connection with a merger to replace options of the acquired company granted at fair market value will not be treated as discount stock options if the replacement complies with requirements for replacing incentive stock options in mergers.

Beginning January 1, 2005, amounts deferred under a nonqualified deferred compensation plan that do not comply with the Act will be includible in a participant's gross income and taxable immediately to the extent that such amounts are not subject to a substantial risk of forfeiture (e.g., the participant is vested in the deferred amounts). Amounts deferred under a nonqualified deferred compensation plan before January 1, 2005 are generally not subject to the requirements of the Act. However, amounts deferred under a nonqualified deferred compensation plan that is materially modified after October 3, 2004 and amounts deferred but not vested prior to January 1, 2005 are subject to the Act.

If the requirements of the Act are not met in a particular taxable year, participants with respect to whom the requirements are not met will encounter the following tax consequences:

All compensation (plus earnings) deferred under the plan in that and all preceding years will be taxable to the extent not then subject to a substantial risk of forfeiture (i.e., vested);

An additional tax of 20% of all compensation (plus earnings) that is includible in income will be levied; and

An interest penalty will be assessed on tax underpayments in prior years computed as if the deferred compensation had been included in income when first vested.

The Act and its legislative history contain several exclusions from the broad definition of deferred compensation. Examples of the types of plans that do not have to comply with the Act are as follows:

Options where the exercise price is at least equal to fair market value on the date of grant; and

Transfers of property subject to Section 83 of the Code (other than option grants) (e.g., where income is taxed at time of vesting or where the participant makes a Section 83(b) election).

New Plan Benefits Under the 2004 Equity Incentive Plan

If the proposed amendment to the Plan is approved by our stockholders, in the future, our compensation committee or our full board of directors will have certain discretion to grant stock options to non-employee directors. However, neither the benefits or amounts that will be received by or allocated to each of our non-employee directors under the Plan, as proposed to be amended, nor the benefits or amounts which would have been received by or allocated to each of our non-employee directors for the last completed fiscal year if the Plan, as proposed to be amended, had been in effect are determinable. No executive officers (including directors who are executive officers) or other employees of the Company will benefit from the proposed amendment to the Plan.

Our board of directors unanimously recommends that the stockholders vote FOR the proposal to amend the NetLogic Microsystems, Inc. 2004 Equity Incentive Plan.

PROPOSAL NO. 3:**RATIFICATION OF REGISTERED INDEPENDENT****PUBLIC ACCOUNTING FIRM FOR 2005**

In the event the stockholders fail to ratify and approve our audit committee's appointment, our audit committee will reconsider its selection. Even if the appointment is ratified and approved, our audit committee, in its discretion, may direct the appointment of a different registered independent public accounting firm at any time during the year if our audit committee determines that such a change would be in the Company's and the stockholders' best interests.

Representatives of PwC are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

Our board of directors unanimously recommends that the stockholders vote FOR the proposal to ratify our audit committee's appointment of PricewaterhouseCoopers LLP to serve as our registered independent public accounting firm for the year ending December 31, 2005.

STOCKHOLDER PROPOSALS FOR 2006 ANNUAL MEETING

To be considered for inclusion in the Company's proxy statement relating to the 2006 Annual Meeting of Stockholders, stockholder proposals pursuant to Rule 14a-8 of Regulation 14A under the Securities Exchange Act of 1934 must be received a reasonable time before the date the Company begins to print and mail its proxy materials for the 2006 Annual Meeting of Stockholders, but in no event later than December 13, 2005.

For any other business to be properly submitted by a stockholder for the 2006 Annual Meeting of Stockholders, the stockholder must give timely notice in writing to the Company. To be considered timely for the 2006 Annual Meeting of Stockholders, the stockholder's notice must be received no later than February 24, 2006, unless otherwise permitted by applicable rules. All stockholder proposals should be addressed to the attention of the Secretary at the principal office of the Company and contain the information required by the Company's bylaws.

OTHER MATTERS

Our board of directors knows of no other matters to be presented for stockholder action at the Annual Meeting. However, if other matters do properly come before the Annual Meeting or any adjournments or postponements thereof, our board of directors intends that the persons named in the proxies will vote upon such matters in accordance with the best judgment of the proxy holders.

OF NETLOGIC MICROSYSTEMS, INC. 2004 EQUITY INCENTIVE PLAN

(h) ~~Automatic Director Option Grants~~. The provisions set forth in this Section 7.1(h)(~~i~~) shall not be amended more than once every six months other than to comport with changes in the Code, the Employee Retirement Income Security Act of 1974, as amended, or the rules promulgated thereunder. All grants of Options to non-employee directors under this Plan shall be automatic and nondiscretionary, *except as provided below*, and shall be made strictly in accordance with the following provisions:

(i) No person shall have any discretion to select which non-employee directors shall be granted Options; *provided that (A) the Board or the Committee may establish by resolution that number of shares and other terms subject to Options or other Awards that may be granted to (x) each newly appointed or elected non-employee director or (y) each sitting non-employee director for each year in which he or she serves on the Board and (B) a disinterested majority of the Board may authorize additional Options or other Awards to any director serving as a committee chairman or providing other extraordinary service to the Board; and provided further that if, in the case of each of clauses (A) and (B), all such Options or other Awards granted to each non-employee director under this Section 7.1(h)(i) with respect to one year of Board service do not represent the right to acquire more than fifty thousand (50,000) shares of Stock (or the equivalent number of shares of Stock potentially represented by other Awards).*

(ii) Each non-employee director shall be automatically granted an option (an *Automatic Director Option*) to purchase 10,000 shares of Stock at the first meeting of the Board following the Annual Meeting of Stockholders in each year, commencing with the 2005 Annual Meeting of Stockholders, provided that he or she is not an employee and if, as of such date, he or she shall have served on the Board for at least the preceding six months.

(iii) The terms of an Automatic Director Option granted hereunder shall be as follows:

(B) the exercise price per share shall be 100 percent of the Market Value per share on the date of grant of the Automatic Director Option. In the event that the date of grant of the Automatic Director Option is not a trading day, the exercise price per share shall be 100 percent of the Market Value on the next trading day immediately following the date of grant of the Automatic Director Option;

(C) subject to Section 9 hereof, the Automatic Director Option shall become exercisable as to 1/12th of the shares subject to the Automatic Director Option at the end of each calendar month after its date of grant, provided that the Optionee was in Continuous Employment on such dates;

(D) upon the occurrence of a Change of Control, any and all Automatic Director Options not already exercisable in full shall Accelerate with respect to 100 percent of the shares for which such Automatic Director Options are not then exercisable; and

(E) except as the terms of this Section 7.1(~~hi~~) otherwise provide, the terms and conditions of this Plan shall apply to Automatic Director Options.

(iv) In the event that any ~~Automatic Director~~ Option *or other Award* granted under ~~the Plan~~ *this Section 7.1(h)* would cause the number of shares subject to outstanding Options plus the number of shares previously purchased under Options to exceed the total number of authorized shares then available under the Plan, the remaining shares available for Option grant shall be granted under Options to the non-employee directors on a pro rata basis. No further grants shall be made until such time, if any, as additional shares become available for grant under the Plan through action of the Board or the stockholders to increase the number of shares which may be issued under the Plan or through cancellation or expiration of Awards previously granted hereunder.
