Business Report

(April 1, 2005 – March 31, 2006)

I. Outline of Business**(1) Developments and Results of the Komatsu Group's Business Operation**

Consolidated business results of the Komatsu Group (Komatsu Ltd. and consolidated subsidiaries) for the fiscal year under review continued to renew the record-high figures in net sales, operating profit, income before income taxes and net income for the year, especially against the backdrop of expanded demand for construction and mining equipment around the world.

Moreover, the Komatsu Group accomplished the fourth consecutive year of improvements in sales and profits, partly reflecting the successful results of the Reform of Business Structure project undertaken since 2001.

Consolidated Results for the Year

	137th Business Year		Changes
	(April 2005)	March 2006)	(2006/2005)
Net sales	JPY 1,701.9 billion		+18.6%
Operating profit*	JPY 176.4 billion		+73.1%
Income before income taxes	JPY 169.0 billion		+71.3%
Net income	JPY 114.2 billion		+93.7%

Note*: In accordance with generally accepted Japanese accounting practice, operating profit, as stated in this text, refers to net sales less cost of sales and SG&A (selling, general and administrative) expenses.

Consolidated net sales reached JPY1,701.9 billion. In the construction and mining equipment segment, the Komatsu Group continued to accelerate sales for the year, as it effectively capitalized on demand expansion resulting from burgeoning development of natural resources and progress in infrastructure developments worldwide. In the industrial machinery, vehicles and others segment, sales of industrial machinery and forklift trucks continued to register strong gains during the year. In the electronics segment, the silicon wafer business sustained growth, increasing sales over the previous year.

Edgar Filing: KOMATSU LTD - Form 6-K

Operating profit climbed to JPY 176.4 billion. Operating profit ratio improved to 10.4%, up 3.3 percentage points, achieving the goal of 10% a year ahead of schedule. This further improvement of profitability reflects, in addition to expanded sales, the results of efforts in increasing sales prices and reducing production costs.

Both income before income taxes, minority interests and equity in earnings of affiliated companies, and net income for the year topped the JPY 100 billion mark, recording JPY 169.0 billion and JPY 114.2 billion, respectively. Coupled with the substantial increase in operating profit, this notable growth of profits reflects income from the sale of Advanced Silicon Materials LLC, a U.S. subsidiary engaging in production and sales of polycrystalline silicon.

Sales by Operation

	137th Business Year	Changes (2006/2005)
Construction and Mining Equipment	JPY 1,291.2 billion	+21.7%
Industrial Machinery, Vehicles and Others	JPY 300.1 billion	+12.6%
Electronics	JPY 110.5 billion	+3.2%
Total	JPY 1,701.9 billion	+18.6%

Table of Contents

1) Construction and Mining Equipment

Consolidated sales of construction and mining equipment excelled over the previous year, driven by a sizable increase in overseas sales.

During the year under review, Komatsu proactively expanded the production capacity of major components, such as diesel engines and hydraulic equipment. The Company also began construction of a new manufacturing plant for large construction equipment adjacent to the Port of Hitachinaka in Ibaraki Prefecture (Ibaraki Plant), and decided to build a new plant in India where demand is expected to accelerate in the near future.

The Komatsu Group concerted its efforts in the development of construction equipment by incorporating the leading-edge ecot3 engine technology which meets the latest emission regulations of Japan, the U.S. and Europe. During the year, in Japan, North America and Europe, the Group launched sales of its stronghold medium-sized PC200 hydraulic excavator which features significant reduction in fuel consumption and noise as well as enhanced safety.

<Japan>

While Japanese construction investments remained at about the same level from the previous year, demand for new equipment increased over the previous year, supported by the robust export of used construction equipment from Japan which further promoted market stock adjustment in Japan and ongoing reconstruction projects in earthquake and typhoon-devastated areas. In this environment, the Komatsu Group worked to strengthen the used equipment business and improve management efficiency of the rental equipment business, while expanding sales of new equipment and increasing sales prices. As a result, while the Group accommodated some factors, which pressed sales down resulting from a selective focus of business, Japanese sales remained at about the same level from the previous year.

<The Americas>

Demand in the Americas continued to expand, driven by buoyant housing investments from the previous year in the world's largest market of the United States and burgeoning developments of natural resources centering on Latin America. Reconstruction projects in Hurricane Katrina-destroyed areas also increased demand. In North America, Komatsu boosted sales as it carried out aggressive marketing by increasing sales prices, strengthening distributorships and improving parts delivery capability, while promoting production efficiency. Sales in Latin America were also strong, especially sales of mining equipment in Brazil and Chile.

<Europe & CIS>

In Europe, Komatsu strengthened its distributor networks in eastern Europe and worked to improve production efficiency mainly by transferring the production of certain models among its plants within Europe, while demand continuously increased in tandem with growth of the European Union. Komatsu also expanded sales of forestry equipment. As a result, sales in Europe advanced over the previous year.

Edgar Filing: KOMATSU LTD - Form 6-K

In the Commonwealth of Independent States (CIS: former Soviet republics), sales increased, supported by expanded demand for hydraulic excavators in Moscow and other metropolitan cities in addition to burgeoned demand in the mining and energy-related sectors.

Table of Contents

<China>

Demand picked up momentum in China as the fiscal year began. In particular, demand for small hydraulic excavators and mini excavators accelerated. Demand for medium-sized and large equipment also expanded against the backdrop of growth in the number of resource development projects. Under these market conditions, Komatsu expanded the local production of mini excavators and embarked on the production of dump trucks.

Komatsu also introduced a new IT-based management system to standardize the workflow of distributors and strengthen their corporate muscle. As a result, sales increased solidly over the previous year.

<Asia & Oceania >

Indonesian demand turned downward in the civil engineering and construction sectors, as affected by the skyrocketed prices of fossil fuels. Thanks to strong demand for mining equipment in both regions, total sales continued to increase, supported especially by expanded sales of off-highway dump trucks.

<The Middle East and Africa>

In the Middle East, demand accelerated against the backdrop of increased investment in infrastructure developments mainly in oil producing countries, resulting from a high level of crude prices. Demand also increased for mining equipment, in particular, in Africa. Under good market conditions of both regions, Komatsu worked to reinforce product support capabilities and boosted sales over the previous year.

2) Industrial Machinery, Vehicles and Others

Consolidated sales of industrial machinery, vehicles and others increased over the previous year, reflecting a good performance sustained by the industrial machinery and forklift truck businesses from the previous year.

Komatsu Forklift Co., Ltd. stepped up sales for the year by effectively capitalizing on expanded demand in emerging markets, such as China, CIS and the Middle East in addition to strong private-sector capital investments in Japan. The company engaged in aggressive business activities, such as increasing sales prices, the market launching of renewed engine-driven forklift models and embarking on local production in China.

In the industrial machinery sector, the Company's Industrial Machinery Division accelerated sales of large presses, centering on new innovative presses which incorporate AC Servo technologies, against the backdrop of thriving capital investments by automakers. By anticipating future growth in demand for large presses, the Company is going to build a new plant adjacent to the Port of Kanazawa in Ishikawa Prefecture to

Edgar Filing: KOMATSU LTD - Form 6-K

expand its production capacity. Komatsu Industries Corporation also expanded sales, centering on medium-sized presses. In particular, the company continued to make excellent sales of the Hybrid AC Servo Press series, recording the accumulative sales of 1,000 units since their market launch in 2002. Komatsu Machinery Corporation increased sales of machine tools such as crankshaft millers as well as LCD (liquid crystal display) manufacturing-related equipment.

3) Electronics

While the sale of the polycrystalline silicon business reduced sales of the electronics segment, the silicon wafer business improved significantly, increasing consolidated sales for the year over the previous year.

Demand in the semiconductor market was buoyant throughout the year under review, and in tandem with the semiconductor market, the silicon wafer market was robust. Komatsu Electronic Metals Co., Ltd. (KEM) focused its efforts to strengthen its business and expand profits centering on 300mm and discrete wafers in addition to its stronghold 200mm wafers. As for 300mm wafers, KEM fully utilized its monthly production capacity of 75,000 pieces in Japan and worked to expand their sales. In Taiwan, KEM set out to start up a new integrated production with a monthly production capacity of 50,000 pieces.

Table of Contents**[Operations and Results of Komatsu Ltd.]**

Komatsu Ltd., on a non-consolidated basis, expanded exports of construction and mining equipment and sales of large presses, recording the third consecutive year of increased sales and profits.

	137th Business Year	Changes (2006/2005)
Net sales	JPY 627.3 billion	+19.8%
Ordinary profit	JPY 60.6 billion	+81.5%
Net income	JPY 32.6 billion	+91.5%

Sales by Operation

Division	137th Business Year	Changes (2006/2005)
Construction and Mining Equipment	JPY 553.4 billion	+20.9%
Industrial Machinery, Vehicles and Others	JPY 73.8 billion	+12.5%
Total	JPY 627.3 billion	+19.8%

(2) Capital Investment of the Komatsu Group

Total capital investment during the year under review, on a consolidated basis, amounted to JPY136.6 billion, an increase of JPY47.6 billion compared with the previous business year. A breakdown by division is given below.

Division	137th Business Year
Construction and Mining Equipment	JPY 99.6 billion
Industrial Machinery, Vehicles and Others	JPY 14.6 billion
Electronics	JPY 22.3 billion
Total	JPY 136.6 billion

Capital investment made during the year under review focused on raising Komatsu Group's production capacity for principal components of construction and mining equipment such as engines and hydraulic systems, and on the development and manufacture of new models. Investment was also made in the acquisition of land for the construction of new plants for the production of large construction machinery and presses. In order to optimize its operating assets, Komatsu Group also replaced its construction machines for rental.

In the electronics segment, investment was focused on increasing Komatsu Group's production capacity of 300mm wafers.

The total capital investment on a non-consolidated basis came to JPY37.8 billion, up JPY20.1 billion over the previous year.

(3) Fund Procurement of the Komatsu Group

In addition to the investments in the purchase of land for new plants and in additional production equipment, Komatsu also used operating cash flow to finance the redemption of straight bonds in the amount of JPY35 billion, and continued to repay its debt. As a result, the net DER* at the end of the year further improved to 0.49, compared with 0.70 at the previous year-end.

* Net DER (debt-equity ratio) = interest-bearing debt minus cash and deposits, divided by shareholders' equity

(4) Tasks Facing the Komatsu Group

Projecting that demand for construction and mining equipment will continue to expand worldwide, the Komatsu Group will work for further growth and work to improve profits by launching new products and increasing sales prices. In particular, the Komatsu Group will focus its efforts to expand sales of DANTOTSU (Unique and Unrivaled) products equipped with unrivaled features in performance. In response to expanding demand for mining equipment, the Komatsu Group will steadily advance the construction of new plants in Japan and overseas to expand its production capacity. In emerging markets, such as Greater Asia, the Komatsu Group will further reinforce its marketing and product support capabilities to attain a stronger market position.

In the industrial machinery business, the Komatsu Group will also steadily advance the construction of a new plant to increase its production capacity in response to excellent orders of large presses received. In the silicon wafer business, the Komatsu Group will strive to improve the quality and cost of 300mm wafers, while ensuring the successful start-up of an integrated production line for 300mm wafers in Taiwan.

We at the Komatsu Group believe our corporate value is the total sum of trust given to us by all our stakeholders and society. To increase this corporate value, we have set the following two management goals.

To maintain industry's top-level profitability and financial position, and to enhance our position in the global marketplace, especially in the Greater Asia region: and

To continue management while keeping market value in mind, which reflects the amount of trust given to us by society and shareholders.

To accomplish these two goals, the Komatsu Group has recently embarked on the second-stage Reform of Business Structure project. The Komatsu Group is going to form cross-functional teams for different themes with the following measures at the core, and promote new reforms globally. Depending on the themes, the Komatsu Group is going to ask partners such as distributors and suppliers to join the teams. The Komatsu Group will emphasize human resource development through such reform activities, because it is human resources that support sustainable corporate growth.

(i) Startup of Second-Stage Reform of Business Structure Project

1) To start the reform of Komatsu Group's value chain by focusing on IT

The Komatsu Group is going to promote reforms by deploying IT in order to further improve the chain of value brought about by activities of distributors, suppliers and customers in addition to the Komatsu Group. Thanks to the rapid development of IT, it has become possible to understand changes in the market directly and promptly from the operating conditions of customers' machines and other information. The Komatsu Group is going to incorporate such changes in sales, production and inventory plans, while promoting information sharing among distributors, plants and suppliers. The Komatsu Group will also further advance IT applications to construction and mining equipment, as showcased by KOMTRAX (Komatsu Machine Tracking System) and the autonomous haulage system, in order to develop new business models designed to reform customers' productivity.

Table of Contents

- 2) To further reinforce jobsite capabilities which mean attitudes and power for constant improvements

Komatsu Group's strength lies in jobsite capabilities centering on manufacturing operations. The Komatsu Group is going to reinforce this strength in Japan and overseas. To pass down this strength to future generations of employees, the Komatsu Group is going to put it in the statutory form as the KOMATSU Way. It is TQM (total quality management) that sustains improvement activities at jobsites. In the course of implementing the second stage Reform of Business Structure project, the Komatsu Group will use TQM group-wide as a means for solutions to problems and to generate good results. This initiative is not limited to manufacturing jobsites but extends to administrative jobsites in order to strengthen their capabilities and improve operational efficiency.

- (ii) Reinforcement of Corporate Governance on a Group-wide Basis.

The Komatsu Group will reinforce its corporate governance to ensure sound and transparent management. In addition to having reduced the number of directors of the Board and invited external directors and auditors, Komatsu Ltd. is focusing its efforts to reform the operational aspects of Board meetings in order to improve the effectiveness of the Board by ensuring thorough discussions and quick decision-making. To enhance the reliability of management, the Company is going to further strengthen the internal control system. To strengthen corporate governance jointly as the Komatsu Group, the Company continuously delegates directors and auditors to other Group companies.

Centered on the Spirit of Manufactures, Komatsu's direction remains crystal clear: We provide the products, (hardware and software), that customers are happy to own, and we will make profits and grow. In addition to top management officers, of course, all employees of Komatsu in Japan and abroad fulfill this commitment with self-confidence and a sense of mission by converging their talents and knowledge.

134th Business Year (April 1, 2002- March 31, 2003)

While China and other East Asian countries registered growth in GDP, economic conditions remained difficult in Japan, the United States, and Europe. The management of Komatsu placed prioritized measures to effect an earnings recovery and a turnaround in sales, while continuing with the management restructuring program centered on establishing new growth fields for construction and mining equipment, reducing fixed expenses, and making substantial cuts in manufacturing costs. As a result, both sales and net income increased over the previous year.

135th Business Year (April 1, 2003- March 31, 2004)

Markets enjoyed a positive turnaround on a global scale. Komatsu inaugurated "Move The World. KOMATSU 5-800" mid-range management plan, under which Komatsu laid out the goals of rapid decision-making and the establishment of a high-earnings business structure. At the same time, Komatsu continued to reduce fixed expenses and bring down production costs. As a result, Komatsu registered its highest-ever sales, while net income also posted a sharp increase over the previous year.

136th Business Year (April 1, 2004- March 31, 2005)

Edgar Filing: KOMATSU LTD - Form 6-K

Despite a decline in demand for construction and mining machinery in China during the year, demand continued to grow on a global scale. Thanks to this favorable business environment, all the Komatsu Group's divisions recorded increased sales. Additionally, thanks to efforts to pull down manufacturing costs and to raise selling prices, both sales and net income rose strongly over the previous year's levels to reach all-time highs. All targets set under the Move the World. KOMATSU 5-800 medium-term management plan were attained one year ahead of schedule.

Notes to Consolidated Financial Statements

Basis of Preparation of Consolidated Financial Statements

1. Significant Accounting Policies

(1) Basis of Preparation of Consolidated Financial Statements

The consolidated financial statements of the Company are prepared in accordance with the stipulations of Article 179, Clause 1 of the Enforcement Regulations to the Commercial Code, and the method of preparation conforms to the standards of accounting generally accepted in the United States in terms of terminology and format (U.S. GAAP). However, some description and notes under the mandatory requirements of the U.S. GAAP are omitted within the scope of stipulations in the said clause.

(2) Method and basis of valuation of inventories

Inventory assets are valued at the lower of cost or market. The cost of products and work in progress are valued by the specific identification method (except for consumable supplies within the category of products, which are stated using the last-in, first-out method). Raw materials and supplies are valued using the weighted-average method.

(3) Method and basis of valuation of investment securities

The Company has applied Statement of Financial Accounting Standards (SFAS) No. 115 Accounting for Certain Investments in Debt and Equity Securities for the valuation of investment securities.

Available-for-sale securities:

Stated at fair market value based on market prices at the balance sheet date (Unrealized gains and losses are charged, net of applicable income taxes, to shareholders equity, and the cost of securities sold is determined using the moving-average method.)

(4) Depreciation and amortization of fixed assets

Depreciation of tangible fixed assets:

Computed principally using the declining-balance method

Amortization of intangible assets:

Computed using the straight-line method

The Company has applied SFAS No.142 Goodwill and Other Intangible Assets. However, goodwill and intangible assets whose useful lives cannot be determined are reviewed for impairment at least annually.

(5) Allowances

Allowance for doubtful receivables:

To cover possible credit losses on accounts receivables or loans, an allowance for doubtful receivables is provided in the amount deemed uncollectible, which is calculated on the basis of historical default rates for normal claims, or on the basis of individual assessments for specific claims on obligors threatened with bankruptcy.

Liability for pension and retirement benefit:

In accordance with SFAS No. 87, Employers Accounting for Pensions, provision is made in the amount deemed necessary as of the balance sheet date based on retirement benefit obligations and fair value of the plan assets.

Additional provision is made in the amount of the shortfall of liability for pension and retirement benefit to accumulated benefit obligations deducted by fair value of plan assets.

Unrecognized prior service obligations are charged to income on a straight-line basis over the average remaining service period of employees. Regarding unrecognized net actuarial loss, an excessive amount of the corridor (10% of expected benefit obligations, or fair value of plan assets, whichever is the larger) to income on a straight-line basis over the average remaining service period of employees.

(6) Accounting for consumption taxes

Consumption taxes are separately accounted for by excluding it from each transaction amounts.

Table of Contents**2. Notes to Consolidated Balance Sheet**

- (1) Accumulated depreciation for tangible fixed assets: JPY587,610 million
- (2) Accumulated other comprehensive income (loss) consists of changes in foreign currency translation adjustments, net unrealized holding gains (losses) on securities available for sale, pension liability adjustments and net unrealized holding gains (losses) on certain derivative.
- (3) Assets pledged as collateral:

Cash and cash equivalents	JPY727 million
Trade notes and accounts receivable	JPY30 million
Tangible fixed assets	JPY2,853 million
Total	JPY3,610 million

- (4) Guarantee obligations

Guaranteed obligations for borrowings made by the Company's employees and affiliates: JPY37,054 million

- (5) Reclassification

Effective from the reporting term, installment credits with maturity of one year or longer and lease receivables (after deduction of prepaid interest) are included in long-term trade receivables. Previously, these receivables were included in trade notes and accounts receivable.

Notes to Non-Consolidated Financial Statements

1. Significant Accounting Policies

(1) Method and basis of valuation of securities

Held-to-maturity debt securities: Carried at amortized cost (on a straight-line basis).

Investments in subsidiaries and affiliated companies: Stated at cost determined by the moving-average method.

Available-for-sale securities:

Securities whose market value is readily determinable:

Stated at the market value, based on market quotation. Unrealized gains and losses are reported, with net of applicable taxes, in a separate component of shareholders' equity. The cost of securities sold is determined based on the moving-average method.

Securities whose market value is not readily determinable:

Stated at cost determined by the moving-average method.

(2) Method and basis of valuation of inventories

Finished products (excluding spare parts and real estate held for sale) and work in process: Stated at lower of cost (specific identification method) or market.

Spare parts: Stated at lower of cost (last-in, first-out method) or market.

Land and buildings held for sale: Stated at cost (specific identification method)

Edgar Filing: KOMATSU LTD - Form 6-K

Materials and supplies: Stated at lower of cost (periodic average method)

- (3) Depreciation of tangible fixed assets and amortization of intangible assets is computed according to the declining-balance method and the straight-line method respectively.
- (4) Liability for employee retirement benefits:

In order to provide for the employee retirement benefits, the Company accrues liabilities for severance payments and pension at the amount calculated based on the projected benefit obligations and plan assets at the balance sheet date.

Prior service obligations are charged to income when incurred. Actuarial loss is charged to income in an amount proportionally appropriated on a straight-line basis over a 10-year period, which is shorter than the averaged remaining service period of employees, beginning with the following term when the loss is recognized.

- (5) Allowance for loss on valuation of investments in unlisted companies is accounted for by taking into consideration the financial position of the issuer and fluctuation of the foreign exchange of the country of the issuer in order to prepare for losses from investing in domestic and overseas unlisted companies.
- (6) Accounting method of lease transactions

Finance leases that do not transfer ownership of leased property to the lessee are accounted in the same manner as operating leases.

- (7) Accounting for consumption taxes

Consumption taxes are separately accounted for by excluding it from each transaction amounts.

- (8) The Company has, in part, adopted terminology and forms in line with Regulations Regarding Terminology, Format and Preparation of Financial Statements, etc. Regarding affiliates, special provisions under the Commercial Code Enforcement Regulation are applied to descriptions including notes.
- (9) Changes in accounting policies

Effective from the reporting year, the Company has adopted the revised accounting standards for retirement benefits (Revisions to the Accounting Standards for Retirement Benefits issued by the Business Accounting Deliberation Council; Business Accounting Standards No. 3 dated March 16, 2005) and related guidelines (Guidance on Revisions to Accounting Standards for Retirement Benefits, issued by the Accounting Standard Board on the same date; ASB Guidance No.7). As a result, ordinary profit and income before income taxes have increased by JPY442 million.

We have audited the consolidated statutory report, that is the consolidated balance sheet and the consolidated statement of income, of Komatsu Ltd. for the 137th business year from April 1, 2005 to March 31, 2006 in accordance with Article 19-2(3) of the Law for Special Exceptions to the Commercial Code Concerning Audit, etc. of Kabushiki Kaisha. The consolidated statutory report is the responsibility of the Company's management. Our responsibility is to express an opinion on the consolidated statutory report based on our audit as independent auditors.

We conducted our audit in accordance with auditing standards generally accepted in Japan. Those auditing standards require us to obtain reasonable assurance about whether the consolidated statutory report is free of material misstatement. An audit is performed on a test basis, and includes assessing the accounting principles used, the method of their application and estimates made by management, as well as evaluating the overall presentation of the consolidated statutory report. We believe that our audit provides a reasonable basis for our opinion. Our audit procedures also include those considered necessary for the Company's majority-owned subsidiaries and a non-majority owned consolidated subsidiary.

As a result of the audit, in our opinion, the consolidated statutory report referred to above presents fairly the consolidated financial position of Komatsu Ltd. and consolidated subsidiaries, and the consolidated results of their operations in conformity with related laws and regulations and the Articles of Incorporation of the Company.

Board of Corporate Auditors Report

Having been reported by each Corporate Auditor on the methods and results of the audit in regard to the performance of duties by the Directors of Komatsu Ltd. (the Company) for the 137th fiscal year (from April 1, 2005 to March 31, 2006), the Board of Corporate Auditors of the Company prepares this audit report on deliberation and reports as follows:

1. Outline of the auditing methods used by the Corporate Auditors

Each Corporate Auditor, according to the audit policy set up by the Board of Corporate Auditors and the duties assigned to each Corporate Auditor by the Board of Corporate Auditors, has attended meetings of the Board of Directors and other meetings as deemed important, as well as having received from Members of the Board of Directors, etc. reports on the execution of their duties, perused the documents whereby the important decisions were made, and examined business and financial conditions at the head office and principal operating offices, and asked the subsidiaries of the Company for reports on their business conditions. In addition, we received reports and explanations from Accounting Auditors on their audit and examined the statutory report and the supplementary schedules.

With respect the competitive transactions of the Members of the Board of Directors, conflict-of-interest transactions between the Company and the Members of the Board of Directors, benefits without compensation furnished by the Company, irregular transactions with subsidiaries or shareholders and acquisition and disposal, etc., of treasury stocks, we have examined these matters by means of methods such as conducting a full investigation of related records, in addition to the auditing methods mentioned above.

2. Results of the audit

- (1) We confirm that the auditing methods and results made by KPMG AZSA & Co., the Accounting Auditor, are appropriate.
- (2) We confirm that the business report accurately describes the situation of the Company in accordance with all relevant laws and regulations and the Articles of Incorporation.
- (3) With respect to the proposed appropriation of unappropriated retained earnings, we confirm that there is no matter to be disclosed in light of the state of the Company's assets or other circumstances.
- (4) The supplementary schedules present fairly the information required, and we confirm that there is no other matter to be disclosed.
- (5) With respect to the performance of the Members of the Board of Directors' duties, including those associated with the Company's subsidiaries, we confirm that there has been no improper act committed, nor important violation of applicable laws and regulations or

the Articles of Incorporation.

In addition, with respect to the competitive transactions of the Members of the Board of Directors, conflict-of-interest transactions between the Company and the Members of the Board of Directors, benefits without compensation furnished by the Company, irregular transactions with subsidiaries or shareholders and acquisition and disposal, etc., of treasury stocks, we confirm that there has been no breach of the Members of the Board of Directors' responsibilities.

Reference Materials for the General Meeting of Shareholders

Proposed Resolution and Reference Information:

Item 1: Approval of the Proposed Appropriation of Unappropriated Retained Earnings for the 137th Business Year (April 1, 2005 March 31, 2006)

The proposal for appropriation of unappropriated earnings is as described in Exhibit 6, page 36.

The Company is building a sound financial position and flexible and agile corporate strength to increase its corporate value. Concerning cash dividends to shareholders, the Company maintains the policy of redistributing profits by first striving to continue stable dividends and then considering consolidated business results, while working for the goal of a consolidated payout ratio of 20% or higher.

For the reporting year, the Company proposes to pay JPY10 per share for a year-end dividend, an increase of JPY4 over the previous year-end.

Accordingly, combined with the interim dividend of JPY8 per share, annual dividend will be JPY18 per share for this fiscal year, an increment of JPY7 per share over the previous year.

With regard to the payment of bonuses to directors for the reporting year, in consideration of the Company's business performance for the reporting year, the Company has decided to increase the total bonus payment made at year-end to its 10 directors by JPY76 million compared with the previous business year-end, for a total payment of JPY346 million.

Item 2: Partial Amendments to the Articles of Incorporation

1. Reasons for Amendments:

- (1) As Corporation Act (Law No.86, 2005) and the Law Concerning the Arrangement of Related Laws in Connection with the Effectuation of the Corporation Act (Law No.87, 2005, Arrangement Law) was promulgated on July 26, 2005 and came into effect on May 1, 2006, the Company proposes an agenda to amend partially the Articles of Incorporation of the Company, as set forth below:

- 1) Items additionally provided for to the current Articles of Incorporations

- i) The Company proposes to newly establish Articles 4 and 7 as set forth in the Proposed Amendment below, because pursuant to the Arrangement Law, those items set forth therein are deemed to be provided for in the Articles of Incorporation, upon the

Edgar Filing: KOMATSU LTD - Form 6-K

enforcement of the Corporation Act.

- ii) The Company proposes to newly establish Article 10 as set forth in the Proposed Amendment in order to provide for the rights to shares constituting less than one unit (tangen) of shares, in accordance with the provisions set forth in Paragraph 2, Article 189 of the Corporation Act.
- iii) The Company proposes to amend current Article 16 in order to clarify the number of proxy for the exercise of voting rights, in accordance with the provisions set forth in Paragraph 5 of Article 310 of Corporation Act.
- iv) The Company proposes to newly establish Article 17 as set forth in the Proposed Amendment below in order to adopt an Internet disclosure system of reference documents for General Meetings of Shareholders, etc., in accordance with the provisions set forth in Paragraph 1 of Article 94 and Paragraph 3 of Article 133 of the Execution Rules for the Corporation Act (Ministerial Order of Justice No. 12, 2006), and Paragraph 4 of Article 161 and Paragraph 4 of Article 162 of the Rules for Corporate Calculation of the Corporation Act (Ministerial Order of Justice No. 13, 2006).
- v) Pursuant to the provisions set forth in Article 370 of the Corporation Act, with respect to the matters to be resolved by the Board of Directors, the Company may deem them to be approved by the Board of Directors if all of the Directors give consents in writing or electronic record, and no Corporate Auditor raise objection against it. Accordingly, the Company proposes to newly establish Article 26 as set forth in the Proposed Amendment below in order to facilitate the prompt adoptions of the resolutions of the Board of Directors.

Table of Contents

- 2) Items to be deleted from the current Articles of Incorporation
 - i) The Company proposes to delete Articles 19, 26, 27, 36, and 37 of the current Articles of Incorporation, because the contents specified therein are provided for in the Corporation Act and/or the Execution Rules for the Corporation Act, and consequently it is not necessary to set forth such contents in the Articles of Incorporation repeatedly.
 - ii) The Company proposes to delete Articles 12 and 13, because contents specified therein are provided for in the Share Handling Regulations of the Company.
- 3) Revisions to terminology
 - i) The Company proposes to amend current Articles 4, 5, 7, 8, 9, 10, 11, 18, 21, 22, 23, 29, 31, 32, 33, 38, 39, 40, 41, and 42 so that the terms etc., used in the Articles of Incorporation conform with the Corporation Act.
- (2) In addition to the above, the Company proposes to newly establish or delete provisions, and re-number the articles, to the extent necessary for a corporation organized and existing under the Corporation Act.

Item 5: Establishment of the Amount of Remuneration for Directors in the Form of Stock Options and the Details of Issue of Stock Options

1. Reasons for Resolution

The Company wishes to grant stock acquisition rights (stock options) as compensation to Directors, separate from the amount of remuneration that the shareholders have already approved, for the purposes of raising the motivation and morale of the Directors of the Company, which shall contribute to the improvement of the consolidated performance of the Company. The maximum limit of such remuneration would be a yearly amount of JPY360 million.

Before the effective date of the Corporation Act, stock options were considered to be stock acquisition rights issued on preferential terms and conditions to persons other than shareholders; accordingly, their issuance required the adoption of a special resolution at a General Meeting of Shareholders. Since the Corporation Act came into effect, such stock acquisition rights issued as stock options are to be regarded as a part of Directors' remuneration, and as such, they constitute a change in Directors' remuneration.

2. Details of Agenda

- (1) At the 135th Ordinary General Meeting of Shareholders, held on June 25, 2004, the shareholders approved a monthly remuneration amount for Directors of not more than JPY60 million (provided however, that the salaries for Directors who also serve as Company employees are not included in this monthly amount.). This limit remains in force today. Taking stock options granted thus far as well as other factors into consideration, the Company now requests that shareholders approve a yearly remuneration amount of up to JPY360 million in the form of the stock acquisition rights, which is separate from the above monthly remuneration amount for Directors.

In addition to the above change in the remuneration amount, the Company requests that the shareholders approve the grant of stock options as described in (2) below.

The Company currently has 10 Directors, and assuming that the proposal on the appointment of Directors is approved as the original proposal, the number of Directors will be the same ten (10).

In addition, as in the past, for Directors who are also Company employees, the amount of remuneration for Directors does not include their salary as employees.

Table of Contents

(2) The stock acquisition rights to be issued as stock options to Directors are as follows:

- 1) Type and number of ordinary shares to be issued upon the exercise of the stock acquisition rights

The maximum number of stock acquisition rights to be issued within a year from the next date after the approval of the resolution (the Resolution Date) shall be 331.

The maximum number of ordinary shares that Directors may receive through the exercise of the Stock Acquisition Rights to be issued within a year from the next date after the Resolution Date shall be 331,000.

The number of shares subject to one Stock Acquisition Right shall be 1,000 shares; provided, however, that after the Resolution Date, if the Company effects a stock split of its ordinary shares (including allotment of ordinary shares to shareholders without consideration; the same applies hereinafter) or effects a stock consolidation, the Number of Shares subject to one Stock Acquisition Right in connection with the stock acquisition rights shall be adjusted proportionately, in accordance with the ratio of the stock split or the stock consolidation in question.

Fractions of less than one (1) share shall be rounded down resulting from the foregoing adjustments.

- 2) Amount of assets to be paid upon exercise of the Stock Acquisition Rights

The amount of assets to be paid upon exercise of the Stock Acquisition Rights shall be the amount calculated by multiplying the paid-in amount per share to be transferred upon exercise of the Stock Acquisition Rights (the Exercise Price) by the Number of Shares subject to one Stock Acquisition Right.

The Exercise Price shall be the amount calculated by multiplying 1.05 by the average of the closing price of the Company's ordinary shares of each day in regular trading during the month (excluding days when there were no transactions of the Company's ordinary shares) (the Closing Price) at the Tokyo Stock Exchange, immediately preceding the month in which the date of allotment of the Stock Acquisition Rights falls (the Allotment Date), with fractions of less than one (1) yen rounded up to a whole yen. However, if the Exercise Price is lower than the Closing Price on the Allotment Date (if there is no Closing Price on that date, the Closing Price on the immediately preceding date shall be applied), the Closing Price on the Allotment Date shall be applied.

The Exercise Price shall be adjusted as follows.

- i. If the Company effects a stock split or stock consolidation after the Allotment Date of the Stock Acquisition Rights, the Exercise Price shall be adjusted in accordance with the following formula, with fractions of less than one (1) yen resulting from the adjustment being rounded up to a whole yen.

$$\text{Exercise price} = \text{Exercise price} \times 1$$

Edgar Filing: KOMATSU LTD - Form 6-K

- ii. After the Allotment Date of the Stock Acquisition Rights, if the Company issues new ordinary shares or disposes of the Company's shares in treasury at a price below the market price, the Exercise Price shall be adjusted in accordance with the following formula, with fractions of less than one (1) yen being rounded up to a whole yen. However, this shall not apply to the cases where issue or disposition of ordinary shares are made upon the exchange of securities exchangeable for Company's ordinary shares, or upon exercise of Stock Acquisition Rights that can be exchanged for the Company's ordinary shares (including corporate bonds with Stock Acquisition Rights).

In addition, the Number of currently issued shares in the formula above shall exclude the number of the Company's shares in treasury, and when disposing of the Company's shares in treasury, the term Number of newly issued shares shall be read as Number of the Company's shares in treasury for disposal.

- iii. After the Allotment Date of the Stock Acquisition Rights, if the Company allots shares of the Company of a class other than the ordinary shares without consideration to holders of the ordinary shares of the Company, or pays dividends in the form of shares of another company to the holders of ordinary shares of the Company, and if, in consideration of all factors in the situation, there is a need to adjust the Exercise Price, the Company shall adjust the Exercise Price to the extent reasonable.

3) Exercise period for the Stock Acquisition Rights

From August 1, 2007 to July 31, 2014

4) Restrictions on the transfer and acquisition of Stock Acquisition Rights

Transfer and acquisition of Stock Acquisition Rights shall be required the approval by resolution of the Board of Directors of the Company.

5) Conditions for exercising the Stock Acquisition Rights

Other conditions for the exercise of the Stock Acquisition Rights, etc. shall be decided by the Board of Directors which determines the details for the issue of the Stock Acquisition Rights.

Item 6: Stock Acquisition Rights as Stock Options to Employees and Others

In accordance with the provisions of Articles 236, 238, and 239 of the Corporation Act, the management of the Company asks the shareholders approval to give the Company's Board of Directors the authority to issue Stock Acquisition Rights as stock options to employees and others.

1. Reasons for necessity of issuing the Stock Acquisition Rights on preferential terms and conditions

The Company would like to grant Stock Acquisition Rights to employees of the Company and to the representative Directors (company presidents) of major affiliates, for the purpose of raising their morale and their motivation to contribute to the improvement of the consolidated performance of the Company.

2. Details of the Stock Acquisition Rights and the maximum number of such rights that the Board of Directors can decide to issue within the scope of authority granted by a resolution at this General Meeting of Shareholders

- (1) The maximum number of the Stock Acquisition Rights for which the terms and conditions of the issue can be determined based on the authority granted by this General Meeting of Shareholders:

The maximum number of Stock Acquisition Rights to be issued under the conditions described in (3) below shall be 502.

The maximum number of ordinary shares to be issued upon the exercise of the Stock Acquisition Rights shall be 502,000 shares, and if the number of shares subject to Stock Acquisition Rights has been adjusted as provided for in (3) below, the maximum number of ordinary shares to be issued shall be the number arrived at by multiplying the above mentioned maximum number of the Stock Acquisition Rights by the adjusted number of shares in connection with the Stock Acquisition Rights.

- (2) The Company may issue Stock Acquisition Rights in question without consideration.

(3) Details of the Stock Acquisition Rights to be issued on the basis of the authority granted by this General Meeting of Shareholders.

- 1) Type and number of shares to be issued upon the exercise of Stock Acquisition Rights

The shares to be issued for the Stock Acquisition Rights shall be ordinary shares, and the number of shares subject to one Stock Acquisition Right (Number of Shares Granted) shall be 1,000 shares.

However, after the resolution date of this agenda (the Resolution Date), if the Company effects a stock split of its ordinary shares (including allotment of ordinary shares to shareholders without consideration; the same applies hereinafter) or effects a stock consolidation, the Number of Shares subject to one Stock Acquisition Right shall be adjusted proportionately, in accordance with the ratio of the stock split or the stock consolidation in question.

Fractions of less than one (1) share resulting from the foregoing adjustment shall be rounded down.

2) Amount of assets paid upon exercise of the Stock Acquisition Rights

The amount of assets paid upon exercise of the Stock Acquisition Rights shall be the amount calculated by multiplying the paid-in amount per share to be transferred upon exercise of the Stock Acquisition Rights (the Exercise Price) by the Number of Shares subject to one Stock Acquisition Right.

The Exercise Price shall be the amount calculated by multiplying 1.05 by the average of the closing price of the Company's ordinary shares of each day in regular trading during the month (excluding days when there was no transaction of the Company's ordinary shares) (the Closing Price) at the Tokyo Stock Exchange, immediately preceding the month in which the date of allotment of the Stock Acquisition Rights falls (the Allotment Date), with fractions of less than one (1) yen rounded up to a whole yen. However, if the Exercise Price is lower than the Closing Price on the Allotment Date (if there is no Closing Price on that date, the Closing Price on the immediately preceding date shall be applied), the Closing Price on the Allotment Date shall be applied.

In addition, the Exercise Price shall be adjusted as follows.

- i. If the Company effects a stock split or stock consolidation after the Allotment Date of the Stock Acquisition Rights, the Exercise Price shall be adjusted in accordance with the following formula, with fractions of less than one (1) yen resulting from the adjustment being rounded up to a whole yen.

$$\begin{array}{l} \text{Exercise price} \\ \text{after adjustment} \end{array} = \begin{array}{l} \text{Exercise price} \\ \text{before adjustment} \end{array} \times \frac{1}{\text{Ratio of stock split (or stock consolidation)}}$$

- ii. After the Allotment Date of the Stock Acquisition Rights, if the Company issues new ordinary shares or disposes of the Company's shares in treasury at a price below the market price, the Exercise Price shall be adjusted in accordance with the following formula, with fractions of less than one (1) yen being rounded up to a whole yen. However, this shall not apply to the cases where issue or disposition of ordinary shares are made upon exchange of securities exchangeable for Company's ordinary shares, or upon exercise of Stock Acquisition Rights (including corporate bonds with Stock Acquisition Rights).

$$\begin{array}{l} \text{Exercise price} \\ \text{after adjustment} \end{array} = \begin{array}{l} \text{Exercise price} \\ \text{before adjustment} \end{array} \times \frac{\begin{array}{l} \text{Number of} \\ \text{currently issued} \\ \text{shares} \end{array} + \frac{\begin{array}{l} \text{Number of newly} \\ \text{issued shares} \end{array} \times \begin{array}{l} \text{Paid-in amount} \\ \text{per share} \end{array}}{\text{Market price}}}{\begin{array}{l} \text{Number of currently issued shares} + \text{Number of newly issued shares} \end{array}}$$

In addition, the Number of currently issued shares in the formula above shall exclude the number of the Company's shares in treasury, and when disposing of the Company's shares in treasury, the term Number of newly issued shares shall be read as Number of the Company's shares in treasury for disposal.

- iii. After the Allotment Date of the Stock Acquisition Rights, if the Company allots shares of the Company of a class other than the ordinary shares without consideration to the holders of the ordinary shares of the Company, or pays dividends in the form of shares of another company to the holders of the ordinary shares, and if, in consideration of all factors in the situation, there is a need to adjust the Exercise Price, the Company shall adjust the Exercise Price to the extent reasonable.
