Transaction Valuation*	Calculation of Filing Fee	Amount of Filing Fee **
\$1,000,000		\$107.00

* Calculated solely for purposes of determining the filing fee, pursuant to Rule 0-11(a)(4). Since the aggregate value of the ordinary shares of Swedish Match AB (publ) that may be involved in the subject transaction fluctuates on a daily basis, the amount set forth above is an estimated amount. The U.S. dollar equivalent of the estimated aggregate cash consideration in Swedish Kronor to be paid by third-party purchasers to U.S. holders for the maximum number of ordinary shares of Swedish Match AB (publ) that may be involved in the subject transaction, or 11,079 ordinary shares, calculated using the closing price on the Stockholm Stock Exchange on July 31, 2006 of Swedish Kronor 119.00 per ordinary share and the noon buying exchange rate published by the Federal Reserve Bank of New York on July 31, 2006 (the July 31, 2006 Noon Buying Rate) of Swedish Kronor 7.2147 to US \$1.00, is US\$182,738.

** The amount of the filing fee was calculated based on a rate of \$107.00 per \$1,000,000 of the aggregate value of the transaction. The fee was paid upon the initial filing of this Schedule 13E-3 on July 7, 2006.

Check the box if any part of the fee is offset as provided by Rule 0-11(a)(2) and identify the filing with which the offsetting fee was previously paid. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

SCHEDULE 13E-3

Item 1. Summary Term Sheet.

This Rule 13e-3 Transaction Statement (the "13E-3 Transaction Statement") filed by Swedish Match AB (publ) (referred to herein as "Swedish Match," the "Company" or the "filing person") with the United States Securities and Exchange Commission (the "SEC") relates to the proposed commission-free odd-lot sales program (the "Program") to be conducted by Swedish Match in relation to its ordinary shares, ratio value SEK1.2959 per share (the "Shares"). The following is a summary of the material terms of the Program:

The Program is an offer by Swedish Match to holders of less than 200 Shares, or odd-lot holders, to sell all (not part) of their Shares on the open market, with Swedish Match paying the brokers' commissions for such sales. The Program will be available world-wide to all holders of less than 200 Shares who wish to sell all (not part) of their Shares.

The Program is scheduled to commence on August 28, 2006.

The principal purpose of the Program is to reduce the financial and administrative burden on Swedish Match of having a large odd-lot shareholder base, by reducing the worldwide number of its shareholders with holdings of less than a round lot. If, as a result of the Program, Swedish Match will have fewer than 300 shareholders in the United States, Swedish Match intends to terminate its reporting obligations under the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act").

As of July 31, 2006, based on information in Swedish Match's shareholder register, 404 shareholders with addresses in the United States held 83,424,291 Shares (or 27.8% of total outstanding Shares), in the aggregate. As of such date, 168 shareholders of record with U.S. addresses held less than 200 Shares each. These shareholders together held 11,079 Shares (or 0.0037% of total outstanding Shares).

Swedish Match has appointed Handelsbanken Capital Markets, a division of Svenska Handelsbanken AB ("Handelsbanken"), as an independent broker to administer the Program, and any Shares sold as part of the Program will be sold by Handelsbanken on the open market through Handelsbanken's ordinary brokerage business and through the electronic trading system of the Stockholm Stock Exchange (the "Exchange"). Swedish Match will pay all of the commissions and fees associated with these sales.

Handelsbanken, in its capacity as broker, will sell the Shares during and at the end of the period during which the Program is open, and will distribute proceeds within 10 business days of completion of the Program to each shareholder who sells pursuant to the Program, based on the weighted average price of all Shares sold pursuant to the Program, irrespective of when during or after the completion of the Program such Shares have been sold. The weighted average price would consist of the total consideration paid for all Shares sold pursuant to the Program divided by the total number of such Shares. Consequently, shareholders will not know the exact share price they will receive at the time they tender Shares to the Program. Moreover, the weighted average price of Shares sold pursuant to the Program may be lower than the price a shareholder may receive by selling Shares on the open market at the same time (excluding the fact that shareholders who sell Shares outside the Program likely would be required to pay customary brokers' commissions).

Handelsbanken has been instructed by Swedish Match to sell the Shares in a manner designed to have a minimal negative impact on the price of the Shares. Handelsbanken will generally sell Shares on the Exchange on a daily basis, rather than selling them more sporadically, so that the sales will be spread over a number of trading days. Handelsbanken has informed Swedish Match that it is confident that any sales pursuant to the Program will have minimal, if any, effect on the general market trading price of the Shares on the Exchange, given that (i) the number of Shares eligible to be sold pursuant to the Program represents only approximately 1.1% of outstanding Shares and (ii) Swedish Match does not expect the number of Shares tendered into the Program on any given day to be significant, relative to the average daily trading volume of the Shares on the Exchange. In 2005 and in the first half of 2006, the average daily trading volume of the Shares on the Exchange was 2,195,281 Shares and 2,467,652 Shares, respectively, while the total number of Shares eligible for sale pursuant to the Program is 3,302,066 (based on information in Swedish Match's shareholder register as of July 31, 2006). Accordingly, as a hypothetical example, assuming all eligible shareholders participate in the Program and that an equal number of Shares are tendered on each day the Program is open (30 business days), approximately 111,000 Shares would be sold pursuant to the Program each day, which amount would represent approximately 4.5% of the average daily trading volume of the Shares on the Exchange (i.e. 2,467,652 Shares) for the first half of 2006. This hypothetical example does not necessarily signify that the Shares will be sold on the Exchange in such manner, but is intended to provide the basis for Swedish Match's belief that the sale of Shares pursuant to the Program will not adversely affect the trading market for the Shares.

A shareholder will be able to tender Shares into the Program by submitting to Handelsbanken a completed acceptance form (the form of which is attached to this 13E-3 Transaction Statement as an exhibit), prior to the date stated in such acceptance form. The acceptance forms will be available in the English and Swedish languages. Since all Shares are held by shareholders in book-entry, rather than certificated, form, shareholders will not need to tender any share certificates. The acceptance by a shareholder pursuant to a completed acceptance form is irrevocable.

Swedish Match will conduct the Program in reliance on Rule 13e-4(h)(5) under the Exchange Act, which provides an exemption from the provisions of Rule 13e-4 under the Exchange Act (Rule 13e-4) for tender offers for less than 100 shares. Accordingly, Swedish Match has sought and been granted an exemption by the Staff of the SEC from Rule 13e-4 to permit the Program to be conducted as described herein. In addition, the Staff of the SEC's Division of Corporation Finance has confirmed that it will not recommend enforcement action to the SEC under Section 5 of the Securities Act of 1933, as amended (the Securities Act), with respect to sales of Shares pursuant to the Program.

Swedish Match's shareholders approved the Program at the Annual General Meeting held on April 20, 2006. In their approval, the shareholders gave the Board of Directors of Swedish Match (the Board of Directors or the Board) the discretion to determine the terms and conditions and timing of the Program. The Board of Directors voted unanimously on February 15, 2006 to propose the Program to the shareholders at such Annual General Meeting.

Consistent with Swedish Market practice, Swedish Match is preparing an information brochure describing the Program, and an acceptance form by which eligible shareholders may indicate their participation in, and acceptance of the terms of, the Program. The information brochure will be distributed to shareholders of record who hold less than 200 Shares each, together with the acceptance form. This 13E-3 Transaction Statement will be distributed to all shareholders of record with U.S. addresses. Swedish Match will keep the Program open for six weeks (satisfying the requirements of Rule 14e-1(a) under the Exchange Act).

Item 2. Subject Company Information.

(a) Name and Address.

The name of the subject company is Swedish Match AB (publ). The Company's principal executive office is located at Rosenlundsgatan 36, S-118 85 Stockholm, Sweden. The Company's telephone number is (46) (8) 658 0200.

(d) Tender Offer

Not applicable.

Item 4. Terms of the Transaction.

(a) Material Terms.

This 13E-3 Transaction Statement filed by Swedish Match with the SEC relates to the Program, which is to be conducted by Swedish Match in relation to its Shares and offered to holders of less than 200 Shares, or odd-lot holders. The determination of how many shares constitutes a round lot is made by the Exchange. For Swedish Match, a round lot is currently 200 Shares. In this 13E-3 Transaction Statement, an odd lot refers to a lot of Shares consisting of less than 200 Shares.

The SEC has adopted a position generally that a commission-free sales program such as the Program constitutes an issuer tender offer, subject to Section 14(e) of the Exchange Act, Rule 13e-4 and Regulation 14E under the Exchange Act. Swedish Match will conduct the Program in reliance on Rule 13e-4(h)(5), which provides an exemption from the provisions of Rule 13e-4 for tender offers for less than 100 shares. Accordingly, Swedish Match has sought and been granted an exemption by the SEC Staff from Rule 13e-4 to permit the Program to be conducted as described herein. In addition, the Staff of the SEC's Division of Corporation Finance has confirmed that it will not recommend enforcement action to the SEC under Section 5 of the Securities Act with respect to sales of Shares pursuant to the Program.

The Program is scheduled to commence on August 28, 2006. The Program will be available world-wide to all holders of less than 200 Shares who wish to sell all (not part) of their Shares. The principal purpose of the Program is to reduce the financial and administrative burden on Swedish Match of having a large odd-lot shareholder base, by reducing the worldwide number of its shareholders with holdings of less than a round lot.

As of July 31, 2006, Swedish Match had 300,596,181 Shares outstanding, of which 17,606,400 Shares were held as treasury stock by Swedish Match (treasury stock is deemed outstanding under Swedish law). For additional information, please see Item 2(b) above. Based on information in Swedish Match's shareholder register, as of July 31, 2006, Swedish Match had a total of 84,167 shareholders of which 54,558 shareholders held less than 200 Shares each. The total shareholding of this group (i.e. of shareholders holding less than 200 Shares) was 3,302,066 Shares (or approximately 1.1% of total outstanding Shares). As of such date, 404 shareholders with addresses in the United States held 83,424,291 Shares (or 27.8% of total outstanding Shares), in the aggregate. As of such date, 168 shareholders of record with U.S. addresses held less than 200 Shares each. These shareholders together held 11,079 Shares (or 0.0037% of total outstanding Shares).

Swedish Match has appointed Handelsbanken as an independent broker to administer the Program, and any Shares sold as part of the Program will subsequently be sold by Handelsbanken on the open market through Handelsbanken's ordinary brokerage business and through the Exchange's electronic trading system. Swedish Match will pay all of the commissions and fees associated with these sales, which otherwise would consume a large percentage of the proceeds from sales of small numbers of Shares. The broker will sell the Shares during and at the end of the period during which the Program is open, and will distribute proceeds within 10 business days of completion of the Program to each shareholder who sells pursuant to the Program, based on the weighted average price of all Shares sold pursuant to the Program, irrespective of when during or after the completion of the Program such Shares have been sold. Consequently, shareholders will not know the exact share price they will receive at the time they tender Shares to the Program. Moreover, the weighted average price of Shares sold pursuant to the Program may be lower than the price a shareholder may receive by selling Shares on the open market at the same time (excluding the fact that shareholders who sell Shares outside the Program likely would be required to pay customary brokers commissions).

Handelsbanken has been instructed by Swedish Match to sell the Shares in a manner designed to have a minimal negative impact on the price of the Shares. Handelsbanken will generally sell Shares on the Exchange on a daily basis, rather than selling them more sporadically, so that the sales will be spread over a number of trading days. Handelsbanken has informed Swedish Match that it is confident that any sales pursuant to the Program will have minimal, if any, effect on the general market trading price of the Shares on the Exchange, given that (i) the number of Shares eligible to be sold pursuant to the Program represents only approximately 1.1% of outstanding Shares and (ii) Swedish Match does not expect the number of Shares tendered into the Program on any given day to be significant, relative to the average daily trading volume of the Shares on the Exchange. In 2005 and in the first half of 2006, the average daily trading volume of the Shares on the Exchange was 2,195,281 Shares and 2,467,652 Shares, respectively, while the total number of Shares eligible for sale pursuant to the Program is 3,302,066 (based on information in Swedish Match's shareholder register as of July 31, 2006). Accordingly, assuming all eligible shareholders participate in the Program and that an equal number of Shares are tendered on each day the Program is open (30 business days), approximately 111,000 Shares would be sold pursuant to the Program each day, which amount would represent approximately 4.5% of the average daily trading volume of the Shares on the Exchange (i.e. 2,467,652 Shares) for the first half of 2006. This hypothetical example does not necessarily signify that the Shares will be sold on the Exchange in such manner, but is intended to provide the basis for Swedish Match's belief that the sale of Shares pursuant to the Program will not adversely affect the trading market for the Shares.

A shareholder will be able to tender Shares into the Program by submitting to Handelsbanken a completed acceptance form (the form of which is attached to this 13E-3 Transaction Statement as an exhibit), prior to the date stated in such acceptance form. The acceptance forms will be available in the English and Swedish languages. Since all Shares are held by shareholders in book-entry, rather than certificated, form, shareholders will not need to tender any share certificates. The acceptance by a shareholder pursuant to a completed acceptance form is irrevocable.

The Program will not affect the listing status of Swedish Match. The Shares will continue to be listed on the A-list of the Exchange, under the ticker symbol SWMA and Swedish Match will continue to be subject to Swedish public reporting obligations.

Since 1996 when Swedish Match became a publicly traded company through a spin-off from AB Volvo, American Depositary Shares (ADSs), evidenced by American Depositary Receipts (ADRs), representing Shares were quoted on the Nasdaq National Market. In 2004, however, the Board of Directors determined that the costs and administrative and regulatory burdens associated with such listing was no longer justified in view of the limited trading volume in the ADRs on the Nasdaq National Market. Accordingly, Swedish Match delisted such ADSs and terminated the deposit agreement under which they were issued. Notwithstanding the delisting, Swedish Match continues to be subject to the periodic reporting requirements under Section 13 of the Exchange Act, pursuant to Section 12(g) thereof as it continues to have in excess of 300 shareholders with addresses in the United States.

At such time as Swedish Match will have fewer than 300 shareholders in the United States, Swedish Match intends to terminate its reporting obligations under the Exchange Act.

Swedish Match's shareholders approved the Program at the Annual General Meeting held on April 20, 2006. The Board of Directors voted unanimously on February 15, 2006 to propose the Program to the shareholders at such Annual General Meeting.

Consistent with Swedish Market practice, Swedish Match is preparing an information brochure describing the Program, and an acceptance form by which eligible shareholders may indicate their participation in, and acceptance of the terms of, the Program. The information brochure will be distributed to shareholders of record who hold less than 200 Shares each, together with the acceptance form. This 13E-3 Transaction Statement will be distributed to all shareholders of record with U.S. addresses.

Swedish Match will keep the Program open for six weeks (satisfying the requirements of Rule 14e-1(a) under the Exchange Act).

(c) Different Terms.

Pursuant to the Program, holders of less than 200 Shares are treated equally in every respect.

(d) Appraisal Rights.

No appraisal rights or other remedies are available to dissenting shareholders who object to the Program.

(e) Provisions for Unaffiliated Security Holders.

The Company has not made any special provisions to make corporate records available or to grant unaffiliated security holders counsel or appraisal services at the expense of the filing person.

(f) Eligibility for Listing or Trading.

Not applicable.

Item 5. Past Contacts, Transactions, and Negotiations and Agreements.

For purposes of the Program, Swedish Match can confirm that:

Edgar Filing: SWEDISH MATCH CORP - Form SC 13E3/A

(a) Transactions.

It has not engaged in the past two years in any transaction with any of its affiliates that are not natural persons where the aggregate value of the transaction was more than one percent of Swedish Match's consolidated revenues for the fiscal year in which such transaction occurred or the past portion of the current fiscal year where such transaction occurred in the current year.

It has not engaged in any transactions or series of similar transactions with any of its executive officers, directors or affiliates that is a natural person where the aggregate value of such transaction or series of transactions with such person exceeded \$60,000.

(b) Significant Corporate Events.

There have been no negotiations or transactions during the past two years between Swedish Match and any of its affiliates, executive officers or directors concerning any merger, acquisition, tender offer, election of directors or sale or other transfer of a material amount of assets of Swedish Match.

(c) Negotiations or Contracts.

There have been no negotiations or material contracts concerning the matters referred to in section (b) above during the past two years between (i) any affiliates of Swedish Match or (ii) Swedish Match or any of its affiliates and any person not affiliated with Swedish Match who would have a direct interest in such matters.

(d) Agreements Involving Swedish Match's Securities.

Other than the arrangements with Handelsbanken relating to Handelsbanken's role as independent broker for the Program, there are no agreements, arrangements, or understandings between Swedish Match or any of its affiliates, executive officers and directors, and any other person with respect to any securities of Swedish Match. A copy of the agreement entered into with Handelsbanken in relation to its role as independent broker for the Program is filed herewith as an Exhibit.

Item 6. Purposes of the Transaction and Plans or Proposals.

(a) Use of Securities Acquired.

The Shares sold by odd-lot holders through the Program will be sold directly to third-party purchasers, and not to Swedish Match.

(b) Plans.

Other than the Program, Swedish Match has no plans, proposals or negotiations that relate to or would result in: (i) any extraordinary transaction, such as a merger, reorganization or liquidation, involving Swedish Match or any of its subsidiaries, (ii) any purchase, sale or transfer of a material amount of assets of Swedish Match or any of its subsidiaries, (iii) any material change in the present dividend rate or policy, or indebtedness or capitalization of Swedish Match, (iv) any change with respect to the present board of directors or management of Swedish Match, (v) any other material change in Swedish Match's corporate structure or business, (vi) any class of equity securities of Swedish Match to be delisted from a national securities exchange or cease to be authorized to be quoted in an automated quotations system operated by a national securities association, or (vii) suspend any obligation of Swedish Match to file reports under Section 15(d) of the Exchange Act (currently, Swedish Match has no such obligation).

Depending on the outcome of the Program, it is possible that a reduction of Swedish Match's shareholder base would bring the number of Swedish Match's shareholders in the United States to below 300, which would allow Swedish Match to terminate registration of the Shares under Section 12(g)(4) of the Exchange Act. The Board of Directors has determined that it is in the best interests of Swedish Match's shareholders for the Company to terminate SEC reporting if it is possible to do so, and that Swedish Match will terminate the Section 12(g) registration of the Shares if and when the number of Swedish Match shareholders in the United States falls below 300. To this end, it is the intention of Swedish Match, upon the completion of the Program, to retain an information agent to assist in conducting a review of the number of Swedish Match's beneficial shareholders in the United States, and to request a current extract of the share register from the Swedish Settlement and Clearing Centre, VPC, to determine the number of record holders with addresses in the United States. If such review supports a conclusion that Swedish Match has less than 300 shareholders in the United States, Swedish Match will promptly seek to terminate the Section 12(g) registration of the Shares.

If, on the other hand, such review shows that Swedish Match has more than 300 shareholders in the United States, Swedish Match will continue to monitor its U.S. shareholder base with the intent to terminate the Section 12(g) registration at the earliest opportunity. In so doing, Swedish Match will also monitor the potential adoption of the proposed amendments (contained in SEC Release No. 34-52029, August 22, 2005) to Rule 12d2-2, Rule 19d-1 and Form 25 under the Exchange Act and Rule 101 of Regulation S-T, to streamline the procedures for delisting a security traded on a national securities exchange and/or deregistering the security under Section 12(b) of the Exchange Act.

Item 7. Purposes, Alternatives, Reasons and Effects.

(a) Purposes.

See Items 4(a) and 6(a) above.

(b) Alternatives.

None considered.

(c) Reasons.

Swedish Match believes that the elimination of odd-lot holdings of the Shares will be beneficial to odd-lot holders, to Swedish Match and to Swedish Match's remaining shareholders.

Odd-lot shareholders would benefit from being able to dispose of their holdings of Shares through the Program without incurring transaction costs which are significant in relation to the price of the Shares sold. By reducing the number of small shareholders worldwide, Swedish Match should benefit from a reduction in the costs and the administrative burden related to its shareholder base, which predominantly consists of holders of small numbers of Shares. As of July 31, 2006, of Swedish Match's 84,167 total shareholders of record, 54,558 (i.e. 64.8%) held less than 200 Shares each. For each shareholder who ceases to hold any Shares, the Company estimates that the reduction in annual cost to the Company would be approximately SEK200-300 (equal to US\$27.72 to 41.58, based on the July 31, 2006 Noon Buying Rate), based on Swedish Match's cost in 2006. Furthermore, as discussed below under Effects, if the reduction in the number of its U.S. shareholders allows Swedish Match to cease compliance with its U.S. reporting obligations under the Exchange Act, Swedish Match would benefit from additional savings in cost and administrative burden. Swedish Match's remaining shareholders, who are not eligible to participate or do not participate in the Program, would benefit from this reduction in costs and administrative burdens. Such remaining shareholders may also benefit from a possible increase in liquidity in the trading of the Shares, as the odd-lots seem to change hands less often than round lots.

Effects.

Swedish Match does not believe that the Program will have any detrimental effects on Swedish Match, its affiliates or any of its unaffiliated shareholders, regardless of whether or not such unaffiliated shareholders are eligible to participate in the Program and whether or not they will remain holders of Shares after the Program is complete. If the Program is successful and the odd-lot holders sell their Shares through the Program, the effects on Swedish Match are expected to be as follows:

1. The reduction of SEK200-300 in annual costs to Swedish Match for each shareholder who ceases to hold any Shares.
2. If as a result of the Program Swedish Match would have less than 300 shareholders with addresses in the United States, this would satisfy one of the requirements for Swedish Match to cease being subject to U.S. public reporting obligations under the Exchange Act and otherwise complying with the applicable requirements of the Exchange Act and the Sarbanes-Oxley Act of 2002, and the rules and regulations thereunder.
3. If Swedish Match were to cease being subject to such reporting obligations, it would no longer bear the significant financial and administrative burden associated with preparing and filing reports under the Exchange Act, and otherwise complying with the requirements under the Exchange Act and the Sarbanes-Oxley Act of 2002. Swedish Match believes that the annual reduction in cost if Swedish Match were to terminate its U.S. reporting obligations would be in excess of SEK30 million (equal to US\$4.16 million, based on the July 31, 2006 Noon Buying Rate) based on the cost level in 2006, in addition to the cost reductions mentioned above relating to a reduction in the number of shareholders.
4. In addition to these quantifiable costs, the compliance obligations associated with reporting in two markets, Sweden and the United States, requires significant management attention. As a result, upon elimination of its U.S. reporting obligations, Swedish Match and its shareholders would benefit from Swedish Match's significantly reduced compliance costs and the decrease in the amount of time spent by management on matters resulting from U.S. public reporting.

For unaffiliated shareholders of Swedish Match who are eligible to participate in the Program, the effect of the Program would be to allow such shareholders the opportunity to sell Shares in a manner more economically favorable to them than they otherwise could. Participation in the Program would be economically favorable to participants because they would not need to pay any brokers' commissions, which in Sweden would typically amount to 0.50% to 0.65% of the consideration paid for Shares (but a minimum of SEK200 per transaction). If, for example, a shareholder were to sell 199 Shares at a price per Share of SEK119.00 (the closing price per Share on the Exchange on July 31, 2006), the total consideration paid for those Shares would amount to SEK23,681; 0.50% and 0.65% of such consideration would amount to SEK118 and SEK154, respectively. The seller, however, would be required to pay a broker's commission of SEK200, the minimum amount. If participants had to pay such brokers' commissions on the sales of their odd lots, such commissions would represent a disproportionate percentage of the consideration paid for their Shares. In many cases, holders of odd lots hold significantly less than 199 Shares. A broker's commission on the sale of an odd lot of Shares may make it impracticable for an odd lot holder to sell his/her Shares.

Edgar Filing: SWEDISH MATCH CORP - Form SC 13E3/A

For affiliates of Swedish Match, as well as for unaffiliated shareholders who are not eligible to participate in the Program, there would be no detrimental effects of the Program, and any beneficial effects of the Program would stem from whatever effects the Program has on Swedish Match. No affiliates of Swedish Match are eligible to sell Shares pursuant to the Program, and so would not be affected as participants in the Program *per se*.

Tax Consequences: The following is a summary of certain U.S. federal income tax consequences of the Program to shareholders of Swedish Match all of whose Shares (whether held directly, indirectly or constructively) are purchased pursuant to the Program. This summary does not purport to consider all aspects of U.S. federal income taxation that might be relevant to shareholders of Swedish Match. This information is based on current provisions of the Internal Revenue Code of 1986, as amended (the Code), existing, proposed and temporary regulations thereunder and administrative and judicial interpretations thereof, all of which are subject to change, possibly with a retroactive effect. This information applies only to shareholders of Swedish Match in whose hands Shares are capital assets within the meaning of Section 1221 of the Code. This summary does not apply to Shares received pursuant to the exercise of employee share options or otherwise as compensation, or to certain types of shareholders (such as insurance companies, tax-exempt organizations, financial institutions or broker-dealers) who may be subject to special rules. This summary does not discuss the U.S. federal income tax consequences to any shareholder of Swedish Match who, for U.S. federal income tax purposes, is a non-resident alien individual, a foreign corporation, a foreign partnership or a foreign estate or trust, nor does it consider the effect of any foreign, state or local tax laws. Because individual circumstances may differ, each shareholder should consult its, his or her own tax advisor to determine the applicability of the rules discussed below and the particular tax effects of the Program on a beneficial holder of Shares.

The sale of Shares through the Program will be a taxable transaction for U.S. federal income tax purposes and possibly for state, local and foreign income tax purposes as well. In general, a shareholder who sells Shares will recognize gain or loss for U.S. federal income tax purposes in an amount equal to the difference, if any, between the amount of cash received on the sale and the shareholder's adjusted tax basis in the Shares sold. Since a shareholder's tax basis in a Share generally will equal the cost of such Share to the shareholder, if a shareholder sells Shares that were acquired at different times at different costs, gain or loss will be determined separately for each block of Shares that were acquired by the shareholders at the same cost in a single transaction. Such gain or loss will be long-term capital gain or loss provided that a shareholder's holding period for such Shares is more than one year at the time of the sale. Capital gain recognized by an individual upon a disposition of a Share that has been held for more than one year generally will be subject to a maximum U.S. federal income tax rate of 15%. Certain limitations apply to the use of a shareholder's capital losses. A shareholder who sells Shares may be subject to backup withholding unless certain information is provided or an exemption applies.

Item 8. Fairness of the Transaction.

(a) Fairness.

Swedish Match believes that the Program, as intended to be conducted, is both substantively and procedurally fair to its unaffiliated shareholders.

For unaffiliated shareholders of Swedish Match who will be eligible to participate in the Program, the Program is substantively fair. As discussed under Item 7(c) above, the Program will not have any detrimental effects on any shareholders of Swedish Match, including unaffiliated shareholders. Furthermore, as discussed under Item 7(c) above, the Program will be beneficial to such unaffiliated shareholders since it will allow such holders the opportunity to sell Shares in a manner more economically favorable to them than they otherwise could. Participation in the Program would be economically favorable to participants because they would not need to pay any brokers' commissions, which in Sweden would typically amount to 0.50% to 0.65% of the consideration paid for Shares (but a minimum of SEK200 per transaction). If, for example, a shareholder were to sell 199 Shares at a price per Share of SEK119.00 (the closing price per Share on the Exchange on July 31, 2006), the total consideration paid for those Shares would amount to SEK23,681; 0.50% and 0.65% of such consideration would amount to SEK118 and SEK154, respectively. The seller, however, would be required to pay a broker's commission of SEK200, the minimum amount. If participants had to pay such brokers' commissions on the sales of their odd lots, such commissions would represent a disproportionate percentage of the consideration paid for their Shares. In many cases, holders of odd lots hold significantly less than 199 Shares.

From a substantive perspective, for unaffiliated shareholders of Swedish Match who are not eligible to participate in the Program (because they own more than an odd lot of Shares), the Program is also fair. As discussed under Item 7(c) above, the Program will not have any detrimental effects on any shareholders of Swedish Match, including such unaffiliated shareholders. Moreover, also as discussed under Item 7(c) above, if the Program is successful and the number of shareholders of Swedish Match is reduced, such unaffiliated shareholders will benefit indirectly to the extent that Swedish Match benefits from such reduction. Such benefits will be especially large if the number of U.S. shareholders falls below 300, which would allow Swedish Match to cease U.S. reporting under the Exchange Act.

From a procedural perspective, the Program has been approved by the shareholders of Swedish Match and Swedish Match believes that the Program will be conducted in a manner fair to all unaffiliated shareholders of Swedish Match, whether such shareholders are eligible to participate in the Program or not. Swedish Match will conduct the Program in compliance with customary Swedish rules and market practice, as well as Section 14(e) of the Exchange Act and Regulation 14E thereunder, including the prompt payment requirement under Rule 14e-1(c) of Regulation 14E. Swedish Match has sought and been granted an exemption by the Staff of the SEC from Rule 13e-4 to permit the Program to be conducted as described herein. In addition, the Staff of the SEC's Division of Corporation Finance has confirmed that it will not recommend enforcement action to the SEC under Section 5 of the Securities Act with respect to sales of Shares pursuant to the Program. The Program was approved at the Annual General Meeting of shareholders, and was also unanimously proposed to shareholders by the Board of Directors (including all directors who are not employees of Swedish Match). Swedish Match believes that no member of the Board had a material financial interest in this decision that was different from the interests of Swedish Match's shareholders. In addition, Swedish Match believes that no member of the Board of Directors had a conflict of interest with respect to the Board's approval of the Program that would make it inappropriate for any such Board member to act with respect to this decision.

While the Program was approved by the shareholders of Swedish Match at its last Annual General Meeting, the transaction was not structured so that approval of at least a majority of unaffiliated shareholders was required. In evaluating the fairness of the Program, the Board noted, among other facts, that (i) the number of Shares owned by affiliates of Swedish Match, as set forth under Item 11(a) below, represented approximately 0.32% of total outstanding Shares as of July 31, 2006 (based on 95,358 Shares out of a total of 300,596,181 Shares outstanding), (ii) unaffiliated shareholders who are eligible to participate in the Program and who represent well over a majority of all Swedish Match's shareholders (64.8% as of July 31, 2006) stand to gain the most direct benefits from the Program, i.e. the ability to sell their Shares in a manner more economically favorable to them than they otherwise could, and (iii) as discussed above under Item 7(c) and this Item 8(a), Swedish Match and the Board believe that the Program will have no detrimental effects on unaffiliated shareholders of Swedish Match. In view of the foregoing, Swedish Match has not retained an unaffiliated representative to act solely on behalf of unaffiliated shareholders for purposes of negotiating the terms of the Program and/or preparing a report concerning the fairness of the transaction.

(b) Factors Considered in Determining Fairness.

In reaching its conclusions about procedural and substantive fairness, the Board of Directors of Swedish Match considered, among others, the following factors:

- (i) Price to be Received for Shares. Odd-lot holders who sell Shares through the Program will receive a price per Share equal to the weighted average price of all Shares sold pursuant to the Program, without any deductions for costs or brokers' commissions. The Company believes that this price will represent the fair market value of any participating holder's Shares. The Exchange is a highly liquid market, and the Board of Directors is confident that the price of the Shares as quoted over the Exchange reflects, at any given time, the true and fair market value of the Shares. Swedish Match notes that the Exchange is defined as a designated offshore securities market under Rule 902(b) of Regulation S under the Securities Act, which indicates that the SEC has determined the Exchange satisfies certain standards for total market liquidity, oversight by external regulatory authorities and internal controls. Also, Swedish Match has a large total market capitalization that satisfies the eligibility requirements of Form F-3 under the Securities Act. Both the status of the Exchange as a designated offshore securities market and Swedish Match's sizeable market capitalization indicate that the market price of Shares on the Exchange is representative of fair market value of the Shares at any given time.

In structuring the Program, the Board did not take into consideration such factors as historical market prices for the Shares or the net book value, going concern value or liquidation value of Swedish Match. Given that Swedish Match will not purchase any Shares pursuant to the Program, Swedish Match is not in a position to determine the exact price that will be paid for Shares pursuant to the Program. Instead, as described under Items 1 and 4(a), Shares will be sold pursuant to the Program on the open market through the Exchange. Therefore, the prices which will actually be paid for Shares sold pursuant to the Program will be determined by the deep and liquid market for the Shares on the Exchange.

Although the weighted average price of all Shares sold pursuant to the Program will not be identical to the price of the Shares quoted on each day on which Shares will be sold by Handelsbanken pursuant to the Program, Swedish Match believes that paying participants in the Program the weighted average price for all Shares sold pursuant to the Program will not be detrimental to such participants. First, paying participants the weighted

average price for all Shares sold pursuant to the Program reduces the impact of daily market volatility on any particular participant, and thus fairer to participants than if they were to depend on the market price of the Shares on any given day. The weighted average price is more reflective of the market value of the Shares over the term of the Program. Second, as a group, such participants will receive the exact same consideration per Share irrespective of whether they tender early or late in the acceptance period and irrespective of any daily fluctuations during the acceptance period. Third, paying the weighted average price to all participants ensures that all participants will be treated equally in terms of consideration they receive per Share sold pursuant to Program; no participants will receive more or less than the weighted average price.

Moreover, participants in the Program will sell their Shares without incurring customary brokers' commissions, which would be disproportionately high compared to the consideration they would receive if they were to sell their Shares on the open market themselves.

Even though participants in the Program will not know the weighted average price they will ultimately receive for their Shares, Swedish Match and the Board believe such price will be a fair price to participants, and likely will result in participants receiving consideration that is higher than if they were to receive the trading price minus customary brokers' commissions, since participants will not pay brokers' commissions.

Swedish Match and the Board believe payment of such price is procedurally and substantively fair to participants because they are receiving full disclosure that they will receive the weighted average price of Shares sold pursuant to the Program and that such price may be lower than the market price on a given day. Even though participants will not know the exact price they will ultimately receive for their Shares, they will understand how the consideration they receive will be calculated; furthermore, as discussed above under this Item 8(b), although the weighted average price may be less than the price per Share participants may be able to obtain on the open market, the weighted average price will be less subject to daily market volatility than the open market price on any given day, and participants in the Program will sell their Shares without incurring customary brokers' commissions, which they would incur if selling Shares themselves on the open market.

- (ii) **Equal Treatment of Shareholders.** Pursuant to the Program, holders of less than 200 Shares are treated equally in every respect, including the manner in which the price they receive for their Shares is determined. Because each odd-lot holder who sells Shares through the Program will receive, for each Share sold, the weighted average price per Share for all Shares sold in the Program, all participating holders will be treated equally in this respect.
- (iii) **No Requirement to Participate.** There is no requirement that any odd-lot shareholder participate in the Program. Any Swedish Match shareholder can sell its Shares through the Exchange or, in its sole discretion, can decide not to sell its Shares. There is no adverse consequence, whether in terms of minority rights or in terms of value of the remaining shareholding, to an eligible shareholder who decides not to participate in the Program.
- (iv) **Effect on Market Price.** Any negative impact on the market price of Swedish Match's Shares resulting from the Program will equally affect security holders of Swedish Match. However, Handelsbanken will be instructed to sell the Shares sold pursuant to the Program in such a way as not to adversely affect the market price of the Shares, as discussed under Item 4(a) above.
- (v) **Availability of Public Information.** Currently, Swedish Match is subject to the public reporting requirements under both U.S. and Swedish securities laws. Because Swedish Match will continue to comply with public reporting requirements under Swedish securities laws, Swedish Match's security holders will still have access to public information regarding Swedish Match, all of which material information will continue to be provided in English. The level of disclosure is not expected to be reduced substantively due to Swedish Match potentially reporting only under Swedish laws.
- (vi) **No Open Market Purchases.** As described under Item 2(c) above, the Board of Directors has been authorized to conduct open market purchases of Shares. The Board will not, however, conduct any such open market purchases immediately prior to, during or immediately after the period during which the Program is open.

(vii) Availability of Trading Market in Sweden. Shareholders of Swedish Match will continue to be able to trade Shares on the Exchange.

(c) Approval of Security Holders.

As stated under Item 4 and 8(b) above, the Program was approved by the shareholders of Swedish Match at the Annual General Meeting held on April 20, 2006.

(d) Unaffiliated Representative.

No unaffiliated representative has been retained to act solely on behalf of unaffiliated security holders for purposes of negotiating the terms of the Program and/or preparing a report concerning the fairness of the Program.

(e) Approval of Directors.

The Program has been approved by the unanimous Board of Directors of Swedish Match.

(f) Other Offers.

Swedish Match has not received any firm offer made by an unaffiliated person during the past two years for (i) the merger or consolidation of Swedish Match with or into another company, or vice versa, (ii) the sale or other transfer of all or any substantial part of the assets of Swedish Match, or (iii) a purchase of Swedish Match's Shares that would enable the holder to exercise control over Swedish Match.

Item 9. Reports, Opinions, Appraisals and Negotiations.

(a) Report, Opinion or Appraisal.

Swedish Match has not received any report, opinion, or appraisal from an outside party that is materially related to the fairness of the Program.

(b) Preparer and Summary of Report, Opinion or Appraisal.

Not applicable.

(c) Availability of Documents.

Not applicable.

Item 10. Source and Amounts of Funds or Other Consideration.

(a) Source of Funds.

Other than the expenses listed under (c) below, Swedish Match will not use any funds with respect to the Program.

(b) Conditions.

Not applicable.

(c) Expenses.

The expenses incurred or estimated to be incurred in connection with the Program are set forth below. Swedish Match has paid or will be responsible for paying all of these expenses.

Mailing and Printing	\$48,500 ¹
Legal and Accounting	250,000
Fees and Expenses of Handelsbanken as broker	261,000 ²
 Total	 \$559,500

(b) Securities Transactions. None.

Item 12. Solicitation or Recommendation.

(d) Intent to Tender Vote in Going Private Transaction.

Based on information as of July 31, 2006, no executive officer, director or affiliate of Swedish Match would be able to participate in the Program. See Item 11 above.

(e) Recommendations of Others.

Swedish Match believes that the Program is favorable to holders of less than 200 Shares, and recommends participation in the Program.

Item 13. Financial Statements.

(a) Financial Information.

The Company's audited financial statements for the years ended December 31, 2004 and December 31, 2005 were previously filed as part of the Company's Annual Report on Form 20-F for the period ended December 31, 2005 filed with the SEC on June 26, 2006. Such financial statements are incorporated herein by reference. In addition, the Company's unaudited financial information for the three months ended March 31, 2006 previously submitted to the SEC on Form 6-K, dated April 28, 2006, are incorporated herein by reference.

Item 14. Persons/Assets, Retained, Employed, Compensated or Used.

(a) Solicitations of Recommendations.

There are no persons that are directly or indirectly employed, retained, or to be compensated to make solicitations or recommendations in connection with the Program. In connection with the Program, Swedish Match has instructed Handelsbanken not to comment on the relative merits of the Program, even if asked by a holder of Shares.

(b) Employees and Corporate Assets.

Lars Dahlgren and Fredrik Peyron are the only officers of Swedish Match that have actively participated and will actively participate in connection with the structuring and preparation of documentation for the Program (including the engagement of Handelsbanken). No material corporate assets have been utilized for the Program, except for the cash funds required to pay the independent broker and other expenses of the Program. The foregoing officers and funds will also be used to publish and/or mail the information brochure, the acceptance form and this 13E-3 Transaction Statement to Swedish Match's shareholders and otherwise to perform administrative duties in connection with the Program.
