### **<Results of Operations>**

During the three months under review, net sales increased ¥29.1 billion (13.2 %), to ¥248.6 billion from the corresponding period in the prior year, due to substantially growing overseas sales in Internal Combustion Engine and Machinery, while the domestic sales slightly decreased.

Total domestic sales decreased ¥4.4 billion (3.7 %), to ¥115.2 billion from the corresponding period in the prior year. Sales in Internal Combustion Engine and Machinery were almost same level from the corresponding period in the prior year due to sales downturn of tractor and other farm machinery. Sales in Pipes, Valves, and Industrial Castings decreased due to the decrease of shipment in Industrial Castings Division from the corresponding period in the prior year, while ductile iron pipes and plastic pipes recorded steady sales. Sales in Environmental Engineering rose due to an increase of delivered orders during the three months under review in Waste Engineering Division. Sales in Other segment decreased mainly due to sales decrease of a subsidiary in construction business.

Overseas sales increased ¥33.4 billion (33.5 %), to ¥133.4 billion from the corresponding period in the prior year. In sales of Internal Combustion Engine and Machinery, sales of tractors, other farm machinery, engines and construction machinery increased all together. As for tractors, the Company recorded steady sales in the U.S. market. In addition, sales of tractor in Asia, especially in Thailand, increased substantially. Sales of other farm machinery increased due to expanded sales of combine harvester in China. Sales of engines increased due to favorable order from major client in the U.S. and Europe. With regard to construction machinery, the Company recorded increased sales not only in European market but also in the U.S. market. In addition, sales in Pipes, Valves, and Industrial Castings, (mainly in ductile iron pipes) and in Environmental Engineering (mainly in submerged membrane system) also increased from the corresponding period in the prior year.

Operating income increased ¥7.7 billion (26.3 %), to ¥36.8 billion from the corresponding period in the prior year. Operating income in Internal Combustion Engine and Machinery increased due to increased sales in the U.S. and Asia, and favorable exchange rate between Yen and U.S. dollar comparing with the corresponding period in the prior year. Operating income in Pipes, Valves and Industrial Castings increased largely due to promoted cost reduction and increase of overseas sales in ductile iron pipes and industrial castings, while operating income in Environmental Engineering decreased due to sales decrease in Water & Sewage Engineering Division and profit deterioration resulting from price decline of sales orders.

Income before income taxes, minority interests in earnings of subsidiaries, and equity in net income of affiliated companies increased ¥8.1 billion (25.2 %), to ¥40.2 billion from the corresponding period in the prior year, due to an increase in operating income. Income taxes were ¥16.0 billion (39.8% of effective tax rate), and net amount of minority interests in earnings of subsidiaries and equity in net income of affiliated companies to deduct was ¥1.8 billion. As a result, net income increased ¥3.4 billion (17.7 %), to ¥22.4 billion from the corresponding period in the prior year.

### **<Financial Position>**

(Comparison with the end of corresponding period in the prior year)

Total assets at the end of the period under review amounted to ¥1,402.3 billion, an increase of ¥209.3 billion (17.5%) from the end of corresponding period in the prior year. As for assets, inventories and short- and long-term finance receivable increased resulted from overseas business expansion in Internal Combustion Engine and Machinery. Investments also increased largely due to an increase in unrealized gains on

securities accompanied by a rise in Japanese stock price. As for liabilities, interest-bearing debt increased in connection with increases of short- and long-term finance receivables. Deferred tax liabilities in other long-term liabilities also increased related to the increase of unrealized gains on securities, while accrued retirement and pension costs in long-term liabilities decreased. Shareholders' equity largely increased due to recorded amount of net income and increases of unrealized gains on securities in other comprehensive income.

-3-

**Table of Contents**

(Comparison with the end of the prior year)

Total assets were almost same level (a decrease of ¥3.1 billion, 0.2%) comparing with the balance sheet at the end of the prior year. As for assets, notes and accounts receivable decreased largely due to collection of substantial notes and accounts receivable from public sector related to shipments at the year-end. Investments decreased due to price decline of market securities comparing with prices at the end of the prior year. On the other hand, inventories increased. As for liabilities, accounts payable related to public sector's order decreased, however the interest-bearing debt increased. Total shareholders' equity increased due to recorded net income, which exceeded decreased amount of unrealized gains on securities in other comprehensive income. The ratio of shareholders' equity to total assets improved 0.4 percentage points, to 43.6 %.

**<Prospect for the Fiscal Year>**

The forecasts of the anticipated results of operations for the year ending March 31, 2007, and for the six months ending September 30, 2006, which were announced on May 12, 2006, are unchanged.

The Company achieved substantial increase in profit for the three months under review than the corresponding period in the prior year and also achieved good progress toward anticipated results of operations for the half and full fiscal year. However, the Company does not revise its forecasts at this time because of uncertainty about business conditions, which are attributed to anticipation of appreciation of Yen and rise of raw material prices. The forecasts anticipate an exchange rate of ¥113=US\$1.

**< Cautionary Statements with Respect to Forward-Looking Statements >**

This document may contain forward-looking statements that are based on management's expectations, estimates, projections and assumptions. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results may differ materially from what is forecast in forward-looking statements due to a variety of factors, including, without limitation: general economic conditions in the Company's markets, particularly government agricultural policies, levels of capital expenditures, both in public and private sectors, foreign currency exchange rates, continued competitive pricing pressures in the marketplace, as well as the Company's ability to continue to gain acceptance of its products.
