UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

**Quarterly Report Pursuant to Section 13 or 15(d) of the
Securities Exchange Act of 1934**

For the Quarterly Period Ended September 30, 2006

Commission File Number 001-01011

CVS CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State of Incorporation)

05-0494040
(I.R.S. Employer Identification Number)

One CVS Drive, Woonsocket, Rhode Island 02895

(Address of principal executive offices)

Telephone: (401) 765-1500

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check One):

Edgar Filing: CVS CORP - Form 10-Q

Large accelerated Filer Accelerated Filer Non-accelerated Filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Common Stock, \$0.01 par value, issued and outstanding at October 30, 2006:

823,568,000 shares

Item 1

CVS Corporation

Notes to Consolidated Condensed Financial Statements

(Unaudited See accompanying review report of KPMG LLP)

Note 1

The accompanying consolidated condensed financial statements of CVS Corporation and its wholly-owned subsidiaries (CVS or the Company) have been prepared without audit, in accordance with the rules and regulations of the Securities and Exchange Commission. In accordance with such rules and regulations, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted, although the Company believes that the disclosures included herein are adequate to make the information presented not misleading. These consolidated condensed financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in Exhibit 13 to the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2005.

In the opinion of management, the accompanying consolidated condensed financial statements include all adjustments (consisting only of normal recurring adjustments), which are necessary to present a fair statement of the Company s results for the interim periods presented. Because of the influence of various factors on the Company s operations, including certain acquisitions, holidays and other seasonal influences, net earnings for any interim period may not be comparable to the same interim period in previous years or necessarily indicative of earnings for the full fiscal year.

Note 2

On January 1, 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment, using the modified prospective transition method. Under this method, compensation expense is recognized for options granted on or after January 1, 2006 as well as any unvested options on the date of adoption. Compensation expense for unvested stock options outstanding at January 1, 2006 is recognized over the requisite service period based on the grant-date fair value of those options and awards as previously calculated under the SFAS No. 123 pro forma disclosure requirements. As allowed under the modified prospective transition method, prior period financial statements have not been restated. Prior to January 1, 2006, the Company accounted for its stock-based compensation plans under the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. As such, no stock based employee compensation costs were reflected in net earnings for options granted under those plans since they had an exercise price equal to the fair market value of the underlying common stock on the date of grant.

Compensation expense related to stock options, which includes the 1999 Employee Stock Purchase Plan (ESPP) for the thirteen and thirty-nine weeks ended September 30, 2006 totaled \$16.3 million and \$43.8 million, respectively. The recognized tax benefit for the thirteen and thirty-nine weeks ended September 30, 2006 was \$4.9 million and \$12.9 million, respectively. Compensation expense related to restricted stock awards for the thirteen and thirty-nine weeks ended September 30, 2006, totaled \$2.5 million and \$6.8 million, respectively, compared to \$1.1 million and \$3.7 million for the thirteen and thirty-nine weeks ended October 1, 2005. Compensation costs associated with the Company s share-based payments are included in selling, general and administrative expenses.

Table of Contents**Part I****Item 1****CVS Corporation****Notes to Consolidated Condensed Financial Statements****(Unaudited See accompanying review report of KPMG LLP)**

The following table includes the effect on net earnings and earnings per share if stock compensation costs had been determined consistent with the fair value recognition provisions of SFAS No. 123 for the respective periods:

<i>In millions, except per share amounts</i>	<i>13 Weeks Ended</i>	<i>39 Weeks Ended</i>
	October 1, 2005	October 1, 2005
Net earnings, as reported	\$ 252.7	\$ 818.3
Add: Stock-based employee compensation expense included in reported net earnings, net of related tax effects ⁽¹⁾	0.7	2.3
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	11.4	34.2
Pro forma net earnings	\$ 242.0	\$ 786.4
Basic EPS: As reported	\$ 0.31	\$ 1.00
Pro forma	0.29	0.96
Diluted EPS: As reported	\$ 0.30	\$ 0.97
Pro forma	0.29	0.93

(1) Amounts represent the after-tax compensation costs related to restricted stock awards.

The Company's 1997 Incentive Compensation Plan (the "ICP") provides for the granting of up to 85.8 million shares of common stock in the form of stock options and other awards to selected officers, employees and directors of the Company. All grants under the ICP are awarded at fair market value on the date of grant. The fair value of stock options is estimated using the Black-Scholes Option Pricing Model and compensation expense is recognized on a straight-line basis over the requisite service period. Options granted prior to 2004 generally become exercisable over a four-year period from the grant date and expire ten years after the date of grant. Options granted during and subsequent to fiscal 2004 generally become exercisable over a three-year period from the grant date and expire seven years after the date of grant. As of September 30, 2006, there were 17.8 million shares available for future grants under the ICP.

SFAS No. 123(R) requires that the benefit of tax deductions in excess of recognized compensation cost be reported as a financing cash flow, rather than as an operating cash flow as required under prior guidance. Excess tax benefits of \$31.5 million were included in financing activities in the Company's consolidated condensed statement of cash flow for the thirty-nine weeks ended September 30, 2006. Cash received from stock options exercised, which includes the ESPP, totaled \$72.5 million and \$155.7 million and the related tax benefits realized were \$13.6 million and \$31.5 million during the thirteen and thirty-nine weeks ended September 30, 2006, respectively. Cash received from stock options exercised totaled \$41.8 million and \$172.4 million and the related tax benefits realized were \$7.3 million and \$41.2 million during the thirteen and thirty-nine weeks ended October 1, 2005, respectively.

Following is a summary of the Company's stock option activity for the thirty-nine weeks ended September 30, 2006:

<i>Shares in thousands</i>	Shares	Weighted Average	Weighted Average	Aggregate Intrinsic Value
----------------------------	---------------	-------------------------	-------------------------	--------------------------------------

Edgar Filing: CVS CORP - Form 10-Q

		Exercise Price	Remaining	Contractual Term
Outstanding at December 31, 2005	43,617	\$ 18.82		
Granted	7,420	31.00		
Exercised	(6,230)	17.24		
Forfeited	(480)	20.53		
Expired	(391)	22.17		
Outstanding at September 30, 2006	43,936	\$ 21.05	5.01	\$ 497,730,727
Exercisable at September 30, 2006	28,880	\$ 19.25	4.29	\$ 376,412,076

Table of Contents**Part I****Item 1****CVS Corporation****Notes to Consolidated Condensed Financial Statements****(Unaudited See accompanying review report of KPMG LLP)**

The total intrinsic value of options exercised during the thirteen and thirty-nine weeks ended September 30, 2006 was \$37.4 million and \$86.4 million, respectively, compared to \$20.7 million and \$113.3 million in the comparable periods in 2005. The fair value of options exercised during the thirteen and thirty-nine weeks ended September 30, 2006 was \$87.3 million and \$193.7 million, respectively, compared to \$45.6 million and \$254.0 million for the comparable periods in 2005.

The fair value of each stock option is estimated using the Black-Scholes Option Pricing Model based on the following assumptions at the time of grant:

	<i>13 weeks ended</i>		<i>39 weeks ended</i>	
	<i>September 30,</i>	<i>October 1,</i>	<i>September 30,</i>	<i>October 1,</i>
	2006	2005	2006	2005
Dividend yield ⁽¹⁾	0.44%	0.50%	0.50%	0.56%
Expected volatility ⁽²⁾	24.00%	34.00%	25.00%	34.00%
Risk-free interest rate ⁽³⁾	4.82%	4.08%	4.75%	4.32%
Expected life (<i>in years</i>) ⁽⁴⁾	4.19	5.70	4.22	5.72
Weighted-average grant date fair value	\$ 9.32	\$ 11.67	\$ 8.46	\$ 8.46

- (1) Dividend yield is based on annual dividends paid and the fair market value of the Company's stock at the period end date.
- (2) Expected volatility is estimated utilizing the Company's historical volatility over a period equal to the expected life of each option grant after adjustments for infrequent events such as stock splits.
- (3) The risk-free interest rate was selected based on yields from U.S. Treasury zero-coupon issues with a remaining term equal to the expected term of the options being valued.
- (4) Expected life represents the number of years that the options are expected to be outstanding from grant date based on historical data of option holder exercise and termination behavior.

As of September 30, 2006, unrecognized compensation expense related to unvested options totaled \$80.7 million, which the Company expects to be recognized over a weighted-average period of 1.7 years.

The ICP allows for up to 7.2 million restricted shares to be issued. The Company's restricted awards are considered nonvested share awards as defined under SFAS 123(R). The restricted awards require no payment from the employee and compensation cost is recorded based on the market price on the grant date, for which compensation expense is recognized on a straight-line basis over the requisite service period. The weighted average per share grant date fair value of restricted shares granted during the thirteen and thirty-nine weeks ended September 30, 2006 was \$28.71, compared to \$24.80 for the thirteen and thirty-nine weeks ended October 1, 2005. The weighted average per share grant date fair value of restricted stock units granted during the thirteen and thirty-nine weeks ended September 30, 2006 was \$29.40, compared to \$22.45 for the thirteen and thirty-nine weeks ended October 1, 2005. As of September 30, 2006, unrecognized compensation costs related to nonvested shares and stock units totaled \$1.4 million and \$24.5 million, respectively, and is expected to be recognized over a weighted-average period of 2.42 and 6.7 years, respectively. The total fair value of shares vested during the thirteen and thirty-nine weeks ended September 30, 2006 was approximately \$0.5 million and \$6.2 million respectively, compared to \$12.5 million for the thirty-nine weeks ended October 1, 2005. No shares vested during the thirteen weeks ended October 1, 2005.

Table of Contents**Part I****Item 1****CVS Corporation****Notes to Consolidated Condensed Financial Statements****(Unaudited See accompanying review report of KPMG LLP)**

Following is a summary of the restricted share award activity for the thirty-nine weeks ended September 30, 2006:

<i>Shares in thousands</i>	Shares	Weighted Average Grant	
		Date	Fair Value
Nonvested at December 31, 2005	501	\$	20.80
Granted	5		28.71
Vested	(197)		18.94
Forfeited	(3)		24.71
Nonvested at September 30, 2006	306	\$	22.08

Following is a summary of the restricted unit award activity for the thirty-nine weeks ended September 30, 2006:

<i>Units in thousands</i>	Units	Weighted Average Grant	
		Date	Fair Value
Nonvested at December 31, 2005	1,377	\$	23.10
Granted	673		29.40
Vested	(16)		33.80
Forfeited	(25)		25.22
Nonvested at September 30, 2006	2,009	\$	25.22

The ESPP provides for the purchase of up to 14.8 million shares of common stock. Under the ESPP, eligible employees may purchase common stock at the end of each six-month offering period, at a purchase price equal to 85% of the lower of the fair market value on the first day or the last day of the offering period. During the first nine months of 2006, 2.1 million shares of common stock were purchased at an average price of \$22.54 per share. As of September 30, 2006, 12.1 million shares of common stock have been issued since the inception of the ESPP.

The fair value of stock compensation expense associated with the Company's ESPP is estimated on the date of grant (i.e., the beginning of the offering period) using the Black-Scholes Option Pricing Model and is recorded as a liability, which is adjusted to reflect the fair value of the award at each reporting period until settlement date.

Following is a summary of the assumptions utilized in valuing the ESPP awards for the thirteen and thirty nine weeks ended for each of the respective periods:

	September 30,	October 1,
	2006	2005
Dividend yield ⁽¹⁾	0.24%	0.50%

Edgar Filing: CVS CORP - Form 10-Q

Expected volatility ⁽²⁾	22.40%	16.40%
Risk-free interest rate ⁽³⁾	5.11%	3.35%
Expected life (<i>in years</i>) ⁽⁴⁾	0.5	0.5

-
- (1) Dividend yield is calculated based on semi-annual dividends paid and the fair market value of the Company's stock at the period end date.
 - (2) Expected volatility is based on the historical volatility of the Company's daily stock market prices over the previous six month period.
 - (3) Based on the Treasury constant maturity interest rate whose term is consistent with the expected term of ESPP options (6 months).
 - (4) Based on semi-annual purchase period.

Part I

Item 1

CVS Corporation

Notes to Consolidated Condensed Financial Statements

(Unaudited See accompanying review report of KPMG LLP)

Note 3

On June 2, 2006, CVS acquired certain assets and assumed certain liabilities from Albertson's, Inc. (Albertson's) for \$4.0 billion. The assets acquired and the liabilities assumed included approximately 700 standalone drugstores and a distribution center (collectively the Standalone Drug Business). CVS financed the acquisition of the Standalone Drug Business by issuing commercial paper and borrowing \$1.0 billion from a bridge loan facility. During the third quarter of 2006, CVS repaid a portion of the commercial paper used to finance the acquisition with the proceeds received from the issuance of \$800 million of 5.75% unsecured senior notes due August 15, 2011 and \$700 million of 6.125% unsecured senior notes due August 15, 2016. During the fourth quarter of 2006, CVS expects to sell a substantial portion of the acquired real estate through a sale-leaseback transaction, the proceeds of which will be used in retiring the bridge loan facility. The results of the operations of the Standalone Drug Business from June 2, 2006 through September 30, 2006, have been included in CVS's consolidated statements of operations for the thirteen and thirty-nine week periods ended September 30, 2006.

THE FOLLOWING ALLOCATION OF THE PURCHASE PRICE AND ESTIMATED TRANSACTION COSTS, AS OF JUNE 2, 2006, IS PRELIMINARY AND IS BASED ON INFORMATION THAT WAS AVAILABLE TO MANAGEMENT AT THE TIME THE CONSOLIDATED CONDENSED FINANCIAL STATEMENTS WERE PREPARED. ACCORDINGLY, THE ALLOCATION WILL CHANGE AND THE IMPACT OF SUCH CHANGES COULD BE MATERIAL.

Estimated Assets Acquired and Liabilities Assumed as of June 2, 2006

<i>In millions</i>	
Cash and cash equivalents	\$ 3.8
Inventories	778.1
Other current assets	12.1
Total current assets	794.0
Property and equipment	1,582.9
Goodwill	1,330.9
Intangible assets	620.0
Other assets	21.1
Total assets acquired	4,348.9
Accrued expenses ⁽¹⁾⁽²⁾	89.8
Short-term portion of capital leases	8.6
Total current liabilities	98.4
Other long-term liabilities ⁽²⁾	57.6
Long-term capital leases	189.8
Total liabilities	345.8
Net assets acquired	4,003.1

(1) Accrued expenses include \$6.2 million for the estimated severance, benefits and outplacement costs for approximately 970 employees of the Standalone Drug Business that will be terminated. As of September 30, 2006, \$0.9 million of the liability has been settled with cash

Edgar Filing: CVS CORP - Form 10-Q

payments.

- (2) Accrued expenses include \$6.6 million and Other long-term liabilities include \$57.6 million for the estimated costs associated with the non-cancelable lease obligations of 75 acquired stores the Company intends to close. As of September 30, 2006, 70 of these locations have been closed and \$1.5 million of this liability has been settled with cash payments. The \$62.9 million remaining liability, which includes \$0.3 million of interest accretion, will require future cash payments through 2033.

Diluted earnings per share	0.29	1.11	0.97

- (1) The pro forma combined results of operations assume that the acquisition of the Standalone Drug Business occurred at the beginning of each period presented. Such results have been prepared by adjusting the historical results of the Company to include the historical results of the Standalone Drug Business, the incremental interest expense and the impact of the preliminary purchase price allocation discussed above.
- (2) The pro forma combined results of operations do not include any cost savings that may result from the combination of the Company and the Standalone Drug Business or any costs that will be incurred by the Company to integrate the Standalone Drug Business.
- On July 31, 2004, the Company acquired certain assets and assumed certain liabilities from J.C. Penney Company, Inc. and certain of its subsidiaries, including Eckerd Corporation (Eckerd). The acquisition included more than 1,200 Eckerd retail drugstores and Eckerd Health Services, which includes Eckerd's mail order and pharmacy benefit management businesses (collectively, the Acquired Businesses). The final purchase price, including transaction costs, was \$2.1 billion.

In conjunction with the acquisition, during fiscal 2004, the Company recorded a liability totaling \$54.7 million for the estimated costs associated with terminating various Eckerd contracts that were in place at the time of acquisition. As of September 30, 2006, \$44.6 million of this liability has been settled with cash payments. The \$8.8 million remaining liability will require future cash payments through 2009. The Company also recorded a \$10.5 million liability for the estimated severance, benefits and outplacement costs for 1,090 Eckerd employees that have or will be terminated. As of September 30, 2006, \$8.1 million of this liability has been settled with cash payments. The \$1.6 million remaining liability will require future cash payments through 2007. In addition, the Company recorded a \$349.8 million liability for the estimated costs associated with the non-cancelable lease obligations of 299 Eckerd locations that the Company does not intend to operate. As of September 30, 2006, 290 of these locations have been closed and \$133.5 million of this liability has been settled with cash payments. The \$223.0 million remaining liability, which includes \$15.6 million of interest accretion, will require future cash payments through 2030. The Company believes that the remaining liabilities discussed above are adequate to cover the remaining costs associated with the related activities.

Table of Contents**Part I****Item 1****CVS Corporation****Notes to Consolidated Condensed Financial Statements****(Unaudited See accompanying review report of KPMG LLP)****Note 4**

As of September 30, 2006 the Company operated 6,157 retail and specialty drug stores in 43 states and the District of Columbia. The Company currently operates two business segments, Retail Pharmacy and Pharmacy Benefit Management (PBM). The Company's business segments are operating units that offer different products and services and require distinct technology and marketing strategies.

As of September 30, 2006 the Retail Pharmacy segment included 6,106 retail drugstores, the Company's online retail website, CVS.com® and its retail healthcare clinics. The clinics utilize nationally recognized medical protocols to diagnose and treat health minor conditions and are staffed by board-certified nurse practitioners and physician assistants. The retail healthcare clinics operate under the MinuteClinic® name and include 99 clinics located in 14 states, of which 82 are located within CVS® retail drugstores. The retail drugstores are located in 40 states and the District of Columbia and operate under the CVS® or CVS/pharmacy® names.

The PBM segment provides a full range of pharmacy benefit management services to managed care providers and other organizations. These services include mail order pharmacy services, specialty pharmacy services, plan design and administration, formulary management and claims processing, as well as providing reinsurance services in conjunction with prescription drug benefit policies. The specialty pharmacy business, which includes retail pharmacy products, primarily focuses on supporting individuals that require complex and expensive drug therapies. The PBM segment operates under the PharmaCare Management Services and PharmaCare Pharmacy® names and as of September 30, 2006, includes 51 specialty pharmacies, located in 21 states and the District of Columbia.

The Company evaluates segment performance based on operating profit before the effect of non-recurring charges and gains and certain intersegment activities and charges, including pharmacy revenues reported by the retail segment that are directly related to premium revenues that are reported by the PBM segment.

Following is a reconciliation of the Company's business segments to the consolidated condensed financial statements as of and for the respective periods:

	Retail Pharmacy	PBM	Intersegment	Consolidated
	Segment	Segment	Eliminations	Totals
<i>In millions</i>				
<i>13 weeks ended:</i>				
September 30, 2006:

Table of Contents**Part I****Item 1****CVS Corporation****Notes to Consolidated Condensed Financial Statements****(Unaudited See accompanying review report of KPMG LLP)****Note 5**

The Company accounts for goodwill and intangibles under SFAS No. 142, Goodwill and Other Intangible Assets. As such, goodwill and other indefinite-lived intangible assets are not amortized, but are subject to annual impairment reviews, or more frequent reviews if events or circumstances indicate there may be an impairment. During the third quarter of 2006, the Company performed its required annual goodwill impairment test, which concluded there was no impairment of goodwill.

The carrying amount of goodwill was \$3,265.2 million as of September 30, 2006, compared to \$1,789.9 million at December 31, 2005. The increase in goodwill during the thirty nine weeks ended September 30, 2006 was primarily due to the acquisition of the Standalone Drug Business. There has been no impairment of goodwill during the thirty-nine weeks ended September 30, 2006.

Intangible assets other than goodwill are required to be separated into two categories: finite-lived and indefinite-lived. Intangible assets with finite useful lives are amortized over their estimated useful life, while intangible assets with indefinite useful lives are not amortized. The Company currently has no intangible assets with indefinite lives.

Following is a summary of the Company's amortizable intangible assets as of the respective balance sheet dates:

<i>In millions</i>	<i>As of September 30, 2006</i>		<i>As of December 31, 2005</i>	
	Gross	Accumulated	Gross	Accumulated
	Carrying Amount	Amortization	Carrying Amount	Amortization
Customer lists and Covenants not to compete	\$ 1,440.5	\$ (530.5)	\$ 1,152.4	\$ (435.9)
Favorable leases and Other	558.2	(121.3)	185.5	(99.8)
	\$ 1,998.7	\$ (651.8)	\$ 1,337.9	\$ (535.7)

The increase in the gross carrying amount of the Company's amortizable intangible assets during the thirty-nine weeks ended September 30, 2006 was primarily due to the acquisition of the Standalone Drug Business. The amortization expense for these intangible assets for the thirteen and thirty-nine week periods ended September 30, 2006 was \$49.5 million and \$118.0 million, respectively. The anticipated annual amortization expense for these intangible assets is \$166.0 million, \$186.3 million, \$177.1 million, \$167.5 million, \$158.0 million and \$149.6 million in 2006, 2007, 2008, 2009, 2010 and 2011, respectively.

Note 6

Accumulated other comprehensive loss consists of a minimum pension liability and unrealized losses on derivatives. The minimum pension liability totaled \$117.0 million pre-tax (\$73.4 million after-tax) as of September 30, 2006 and December 31, 2005. The unrealized loss on derivatives totaled \$28.5 million pre-tax (\$18.0 million after-tax) and \$26.7 million pre-tax (\$16.9 million after-tax) as of September 30, 2006 and December 31, 2005, respectively.

Table of Contents**Part I****Item 1****CVS Corporation****Notes to Consolidated Condensed Financial Statements****(Unaudited See accompanying review report of KPMG LLP)**

Following are the changes in comprehensive income:

<i>In millions</i>	<i>13 weeks ended</i>		<i>39 weeks ended</i>	
	<i>September 30,</i>	<i>October 1,</i>	<i>September 30,</i>	<i>October 1,</i>
	<i>2006</i>	<i>2005</i>	<i>2006</i>	<i>2005</i>
Net earnings, as reported	\$ 284.2	\$ 252.7	\$ 951.7	\$ 818.3
Other comprehensive loss:				
Unrealized loss on derivatives	(7.6)		(3.3)	
Recognition of unrealized loss on derivatives	0.8	0.7	2.2	2.1
Total comprehensive income, net of taxes	\$ 277.4	\$ 253.4	\$ 950.6	\$ 820.4

During the third quarter of 2006, the Company refinanced a portion of the short-term borrowings used to finance the acquisition of the Standalone Drug Business with longer-term financing. To manage a portion of the risk associated with changes in market interest rates, the Company entered into forward starting pay fixed rate swaps (the Swaps), with a notional amount of \$750 million. The Company settled these Swaps during the third quarter of 2006 in conjunction with the placement of the longer-term financing at a loss of \$5.2 million. The Company accounts for derivatives of this type, in accordance with Statement of Financial Accounting Standards (SFAS) No. 133 Accounting for Derivative Instruments and Hedging Activities as modified by SFAS No. 138 Accounting for Derivative Instruments and Certain Hedging Activities, which requires the resulting loss to be recorded in shareholders' equity as a component of accumulated other comprehensive income. This unrealized loss will be amortized as a component of net interest expense over the life of the related long-term financing. As of September 30, 2006, the Company had no freestanding derivatives in place.

Note 7

Following are the components of net interest expense:

<i>In millions</i>	<i>13 weeks ended</i>		<i>39 weeks ended</i>	
	<i>September 30,</i>	<i>October 1,</i>	<i>September 30,</i>	<i>October 1,</i>
	<i>2006</i>	<i>2005</i>	<i>2006</i>	<i>2005</i>
Interest expense	\$ 79.5	\$ 28.9	\$ 146.7	\$ 88.3
Interest income	(4.3)	(1.6)	(12.0)	(4.7)
Interest expense, net	\$ 75.2	\$ 27.3	\$ 134.7	\$ 83.6

Note 8

The Company previously disclosed in its consolidated financial statements for the fiscal year ended December 31, 2005 that it expected to make contributions of \$16.4 million to the defined benefit pension plan during the next fiscal year. As of September 30, 2006, the Company has made cash contributions of \$16.4 to the pension plan and presently does not believe it will make any additional cash contributions during the fourth quarter of fiscal 2006.

Settlement gain	(0.1)	(0.1)	(0.3)	(0.3)
Net periodic pension cost	\$ 0.0	\$ 0.1	\$ 0.2	\$ 0.3

Note 9

Basic earnings per common share is computed by dividing: (i) net earnings, after deducting the after-tax Employee Stock Ownership Plan (ESOP) preference dividends, by (ii) the weighted average number of common shares outstanding during the period (the Basic Shares).

When computing diluted earnings per common share, the Company assumes that the ESOP preference stock is converted into common stock and all dilutive stock awards are exercised. After the assumed ESOP preference stock conversion, the ESOP Trust would hold common stock rather than ESOP preference stock and would receive common stock dividends (\$0.155 and \$0.145 annually per share in 2006 and 2005, respectively) rather than ESOP preference stock dividends (currently \$3.90 annually per share). Since the ESOP Trust uses the dividends it receives to service its debt, the Company would have to increase its contribution to the ESOP Trust to compensate it for the lower dividends. This additional contribution would reduce the Company's net earnings, which in turn, would reduce the amounts that would have to be accrued under the Company's incentive compensation plans.

Diluted earnings per common share is computed by dividing: (i) net earnings, after accounting for the difference between the dividends on the ESOP preference stock and common stock and after making adjustments for the incentive compensation plans, by (ii) Basic Shares plus the additional shares that would be issued assuming that all dilutive stock awards are exercised and the ESOP preference stock is converted into common stock. Options to purchase 3.9 million and 6.3 million shares of common stock were outstanding but were not included in the calculation of diluted earnings per share for the thirteen and thirty-nine weeks ended September 30, 2006, respectively, because the options exercise prices were greater than the average market price of the common shares and, therefore, the effect would be antidilutive. Similarly, options to purchase 6.8 million shares of common stock were outstanding but were not included in the calculation of diluted earnings per share for both the thirteen and thirty-nine weeks ended October 1, 2005.

Note 10

On November 1, 2006, the Company entered into a definitive agreement and plan of merger with Caremark Rx, Inc., (Caremark). The agreement is structured as a merger of equals under which Caremark shareholders will receive 1.670 shares of common stock, par value \$0.01 per share, of CVS for each share of common stock of Caremark, par value \$0.001 per share, issued and outstanding immediately prior to the effective time of the merger. The closing of the transaction, which is expected to occur in six to twelve months, is subject to approval by the shareholders of both CVS and Caremark, as well as customary regulatory approvals, including review under the Hart-Scott-Rodino Act.

Part I

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

CVS Corporation:

We have reviewed the consolidated condensed balance sheet of CVS Corporation and subsidiaries as of September 30, 2006, and the related consolidated condensed statements of operations and cash flows for the thirteen and thirty-nine week periods ended September 30, 2006 and October 1, 2005. These consolidated condensed financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated condensed financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of CVS Corporation and subsidiaries as of December 31, 2005 and the related consolidated statements of operations, shareholders' equity, and cash flows for the fifty-two week period then ended (not presented herein); and in our report dated March 14, 2006 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated condensed balance sheet as of December 31, 2005, is fairly presented, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations****Introduction**

Our company is the largest retail pharmacy in the United States based on store count. We sell prescription drugs and a wide assortment of general merchandise, including over-the-counter drugs, beauty products and cosmetics, film and photo finishing services, seasonal merchandise, greeting cards and convenience foods through our CVS/pharmacy® retail stores and online through CVS.com®. We also provide healthcare services through our 99 MinuteClinic healthcare clinics, located in 14 states, of which 82 are located within CVS retail drugstores. In addition, we provide pharmacy benefit management, mail order services and specialty pharmacy services through PharmaCare Management Services (PharmaCare) and PharmaCare Pharmacy® stores. As of September 30, 2006, we operated 6,157 retail and specialty pharmacy stores in 43 states and the District of Columbia.

The retail drugstore and pharmacy benefit management businesses are highly competitive. We believe that we compete principally on the basis of: (i) store location and convenience, (ii) customer/client service and satisfaction, (iii) product selection and variety and (iv) price. In each of the markets we serve, we compete with independent and other retail drugstore chains, supermarkets, convenience stores, pharmacy benefit managers and other mail order prescription providers, discount merchandisers, membership clubs and Internet pharmacies.

The following discussion explains the material changes in our results of operations for the thirteen and thirty-nine weeks ended September 30, 2006 and October 1, 2005 and the significant developments affecting our financial condition since December 31, 2005. The performance of the Standalone Drug Business, as defined below, from June 2, 2006 through September 30, 2006 is reflected in our results of operations for the thirteen and thirty-nine weeks ended September 30, 2006. We strongly recommend that you read our audited consolidated financial statements and footnotes and Management's Discussion and Analysis of Financial Condition and Results of Operations included as Exhibit 13 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2005 along with this report.

Recent Development

On November 1, 2006, we entered into a definitive agreement and plan of merger with Caremark Rx, Inc., (Caremark). The agreement is structured as a merger of equals under which Caremark shareholders will receive 1.670 shares of common stock, par value \$0.01 per share, of CVS for each share of common stock of Caremark, par value \$0.001 per share, issued and outstanding immediately prior to the effective time of the merger. The closing of the transaction, which is expected to occur in six to twelve months, is subject to approval by the shareholders of both CVS and Caremark, as well as customary regulatory approvals, including review under the Hart-Scott-Rodino Act.

Acquisition

On June 2, 2006, we acquired certain assets and assumed certain liabilities from Albertson's, Inc. (Albertson's) for \$4.0 billion. The assets acquired and the liabilities assumed included approximately 700 standalone drugstores and a distribution center located in La Habra, California (collectively the Standalone Drug Business). Approximately one-half of the drugstores are located in southern California. The remaining drugstores are primarily located in our existing markets in the Midwest and Southwest. We believe that the acquisition of the Standalone Drug Business is consistent with our long-term strategy of expanding our retail drugstore business in high-growth markets. CVS financed the acquisition of the Standalone Drug Business by issuing commercial paper and borrowing \$1.0 billion from a bridge loan facility. During the third quarter of 2006, we repaid a portion of the commercial paper used to finance the acquisition with the proceeds received from the issuance of \$800 million of 5.75% unsecured senior notes due August 15, 2011 and \$700 million of 6.125% unsecured senior notes due August 15, 2016. During the fourth quarter of 2006, we expect to sell a substantial portion of the acquired real estate through a sale-leaseback transaction, the proceeds of which will be used in retiring the bridge loan facility.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations****Results of Operations****Thirteen and Thirty-Nine Weeks Ended September 30, 2006 versus October 1, 2005**

Net revenues ~ The following table summarizes our revenue performance for the respective periods:

	<i>13 weeks ended</i>		<i>39 weeks ended</i>	
	<i>September 30,</i>	<i>October 1,</i>	<i>September 30,</i>	<i>October 1,</i>
	2006	2005	2006	2005
Net revenues (<i>in billions</i>)	\$ 11.2	\$ 9.0	\$ 31.7	\$ 27.3
Net revenue increase:				
Total	24.9%	13.4%	16.4%	25.9%
Pharmacy	24.7%	13.7%	16.4%	27.5%
Front Store	25.6%	12.7%	16.3%	21.9%
Same store sales increase ⁽¹⁾ :				
Total	9.1%	5.7%	8.0%	6.5%
Pharmacy	10.2%	5.8%	8.7%	7.3%
Front Store	6.4%	5.4%	6.4%	4.6%
Pharmacy percentage of total revenue	70.3%	70.6%	70.1%	70.8%
Third party percentage of pharmacy revenue	94.5%	93.9%	94.5%	94.1%

(1) Same store sales do not include the sales results of the Standalone Drug Business. The Standalone Drug Business will be included in same store sales following the one-year anniversary of the acquisition, beginning in fiscal July 2007.

As you review our performance in this area, we believe you should consider the following important information:

During 2005, total net revenues were significantly affected by the July 31, 2004 acquisition of certain assets and certain assumed liabilities from J.C. Penney Company, Inc. and certain of its subsidiaries, including Eckerd Corporation (Eckerd). The acquisition included more than 1,200 Eckerd retail drugstores and Eckerd Health Services, which included Eckerd's mail order and pharmacy benefit management businesses (collectively, the Acquired Businesses). Excluding the sales from the Acquired Businesses, total net revenues increased approximately 7.5% and 8.6% during the third quarter and first nine months of 2005, respectively. Beginning in August 2005, same store sales include the acquired stores, which increased total same store sales by approximately 85 basis points and 130 basis points in the third quarter and first nine months of 2006, respectively.

As of September 30, 2006, we operated 6,157 stores compared to 5,461 stores on October 1, 2005. During 2006, total net revenues benefited from the sales of the Standalone Drug Business and new store openings. Sales from the Standalone Drug Business (\$1.2 billion for the third quarter and \$1.7 billion first nine months of 2006, respectively) had a positive impact on total net revenue growth of approximately 1,300 basis points and 570 basis points for the third quarter and first nine months of 2006, respectively. In addition, new store openings accounted for approximately 115 basis points and 130 basis points of our total net revenues increase for the third quarter and first nine months of 2006, respectively.

Total net revenues continued to benefit from our active relocation program, which moves existing in-line shopping center stores to larger, more convenient, freestanding locations. Historically, we have achieved significant improvements in customer count and net revenue when we do this. As such, our relocation strategy remains an important component of our overall growth strategy. As of September 30, 2006, approximately 60% of our existing stores were freestanding, compared to approximately 58% at October 1, 2005.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations**

Beginning in late 2005, PharmaCare entered into certain risk-based or reinsurance arrangements in connection with providing pharmacy plan management services to prescription drug plans qualifying under Medicare Part D and a prescription benefit plan for the State of Connecticut employees. Net premium revenue related to these contracts totaled \$89.9 million and \$289.1 million for the thirteen and thirty-nine weeks ended September 30, 2006, respectively.

Our pharmacy revenue growth continued to benefit from new market expansions, increased penetration in existing markets, our ability to attract and retain managed care customers and favorable industry trends. These trends include an aging American population; many baby boomers are now in their fifties and sixties and are consuming a greater number of prescription drugs. The increased use of pharmaceuticals as the first line of defense for healthcare also contributed to the growing demand for pharmacy services. We believe these favorable industry trends will continue.

Pharmacy revenue dollars continue to be negatively impacted by the conversion of brand name drugs to equivalent generic drugs, which typically have a lower selling price. In addition, our pharmacy growth has continued to be adversely affected by the growth of the mail order channel, a decline in the number of significant new drug introductions, higher consumer co-payments and co-insurance arrangements and an increase in the number of over-the-counter remedies that had historically only been available by prescription. To address the growth in mail order, we may choose not to participate in certain prescription benefit programs that mandate filling maintenance prescriptions through a mail order service facility. In the event we elect to, for any reason, withdraw from current programs and/or decide not to participate in future programs, we may not be able to sustain our current rate of revenue growth.

Gross profit, which includes net revenues less the cost of merchandise sold during the reporting period and the related purchasing costs, warehousing costs, delivery costs and actual and estimated inventory losses, as a percentage of revenues was 27.5% for the third quarter of 2006, compared to 26.8% of net revenues for the third quarter of 2005. Gross profit for the first nine months of 2006 was 27.0% of net revenues, compared to 26.4% of net revenues in the first nine months of 2005.

As you review our performance in this area, we believe you should consider the following important information:

Front store revenues increased as a percentage of total revenues during the third quarter and first nine months of 2006. On average our gross profit on front store revenues is higher than our gross profit on pharmacy revenues. Pharmacy revenues as a percentage of total revenues for the third quarter and first nine months of 2006 were 70.3% and 70.1%, respectively, compared to 70.6% and 70.8% in the third quarter and first nine months of 2005, respectively.

Our pharmacy gross profit rate continues to benefit from the increase in generic drug sales (discussed above), which normally yield a higher gross profit rate than equivalent brand name drug sales.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations**

Sales to customers covered by third party insurance programs have continued to increase and, thus, have become a larger part of our total pharmacy business. On average, our gross profit on third party pharmacy sales is lower than our gross profit on cash pharmacy sales. Third party pharmacy revenues for the third quarter and first nine months of 2006 were 94.5% of pharmacy revenues, versus 93.9% and 94.1% during the third quarter and first nine months of 2005, respectively. We expect this trend to continue.

The introduction of the new Medicare Part D benefit is resulting in increased utilization and decreased pharmacy gross profit rates as higher profit business (such as cash and state Medicaid customers) continues to migrate to Part D coverage during 2006. Further, on February 8, 2006, the President signed into law the Deficit Reduction Act of 2005 (the Act). The Act seeks to reduce federal spending by \$3.6 billion over a five-year period by altering the Medicaid reimbursement formula for multi-source (i.e., generic) drugs. According to the Congressional Budget Office, retail pharmacies are expected to negotiate with individual states for higher dispensing fees to mitigate the adverse effect of these changes. These changes are currently scheduled to take during the first quarter of 2007 and are expected to result in reduced Medicaid reimbursement rates for retail pharmacies. The extent of these reductions cannot be determined at this time.

Our pharmacy gross profit rates have been adversely affected by the efforts of managed care organizations, pharmacy benefit managers, governmental and other third party payors to reduce their prescription costs. In the event this trend continues, we may not be able to sustain our current rate of sales growth and gross margin dollars could be adversely impacted.

Total operating expenses, which include store and administrative payroll, employee benefits, store and administrative occupancy costs, selling expenses, advertising expenses, administrative expenses and depreciation and amortization expense increased to 22.7% of net revenues for the third quarter of 2006 compared to 21.9% of net revenues during the third quarter of 2005. Total operating expenses for the first nine months of 2006 were 21.7% of net revenues, compared to 21.2% of net revenues in the first nine months of 2005. Total operating expenses increased during the third quarter and first nine months of 2006 as a result of the adoption of the Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment. In addition, the Company incurred increased costs related to the integration of the Standalone Drug Business during the second and third quarters of 2006.

Interest expense, net consisted of the following:

<i>In millions</i>	<i>13 weeks ended</i>		<i>39 weeks ended</i>	
	September 30, 2006	October 1, 2005	September 30, 2006	October 1, 2005
Interest expense	\$ 79.5	\$ 28.9	\$ 146.7	\$ 88.3
Interest income	(4.3)	(1.6)	(12.0)	(4.7)
Interest expense, net	\$ 75.2	\$ 27.3	\$ 134.7	\$ 83.6

The increase in interest expense for the thirteen and thirty-nine weeks ended September 30, 2006 was due to a combination of higher interest rates and higher average debt balances resulting from the acquisition of the Standalone Drug Business.

Income tax provision ~ Our effective income tax rate was 38.4% and 38.9% for the third quarter and first nine months of 2006, respectively, compared to 38.6% for the comparable 2005 periods. The decrease in the effective tax rate during the third quarter of 2006 was primarily due to the resolution of issues which resulted in a reduction of previously recorded income tax reserves through the income tax provision. The increase in the effective income tax rate during the first nine months of 2006 was primarily due to the implementation of SFAS No. 123(R), as the compensation expense associated with our employee stock purchase plan is not deductible for income tax purposes.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations**

Net earnings for the third quarter of 2006 increased \$31.5 million (or 12.5%) to \$284.2 million, or \$0.33 per diluted share, compared to \$252.7 million, or \$0.30 per diluted share, in the third quarter of 2005. Net earnings for the first nine months of 2006 increased \$133.4 million (or 16.3%) to \$951.7 million, or \$1.11 per diluted share, compared to \$818.3 million, or \$0.97 per diluted share, in the first nine months of 2005.

Liquidity and Capital Resources

We anticipate that cash flows from operations, supplemented by commercial paper and long-term borrowings, will continue to fund the growth of our business.

Net cash provided by operating activities increased to \$993.2 million during the first nine months of 2006, compared to \$851.5 million during the first nine months of 2005. The increase in net cash provided by operations during the first nine months of 2006 primarily resulted from an increase in cash receipts from revenues.

Net cash used in investing activities increased to \$5.3 billion during the first nine months of 2006. This compares to \$908.6 million used during the first nine months of 2005. The increase in net cash used in investing activities was primarily due to the acquisition of the Standalone Drug Business.

During the first nine months of 2006, we acquired 701 stores, opened 93 new stores, relocated 95 stores and closed 108 stores. For the remainder of 2006, we plan to open approximately 75 new or relocated stores. As of September 30, 2006, we operated 6,157 retail and specialty pharmacy stores in 43 states and the District of Columbia.

Net cash provided by financing activities increased to \$4.2 billion during the first nine months of 2006, compared to \$33.0 million during the first nine months of 2005. The increase in net cash provided by financing activities was primarily due to the financing of the acquisition of the Standalone Drug Business, including issuance of the Notes (defined below), during the third quarter of 2006. This increase was offset partially by the repayment of the \$300 million, 5.625% unsecured senior notes, which matured during the first quarter of 2006.

We believe that our cash on hand and cash provided by operations, together with our ability to obtain additional short-term and long-term financing, will be sufficient to cover our working capital needs, capital expenditures, debt service requirements and dividend requirements for at least the next twelve months and the foreseeable future.

As of September 30, 2006, we had \$2.2 billion of commercial paper outstanding at a weighted average interest rate of 5.26% and \$1 billion in outstanding borrowings against the bridge loan facility at a weighted average interest rate of 5.69%. In connection with our commercial paper program, we maintain a \$675 million, five-year unsecured back-up credit facility, which expires on June 11, 2009, and a \$675 million five-year unsecured backup credit facility, which expires on June 2, 2010. In preparation for the consummation of the acquisition of the Standalone Drug Business, we entered into a \$1.4 billion, five-year unsecured back-up credit facility, which expires on May 12, 2011. We also entered into a bridge facility with an aggregate loan value of up to \$1.0 billion, which will terminate on December 31, 2006. The credit facilities allow for borrowings at various rates depending on our public debt rating.

On August 15, 2006, we issued \$800 million of 5.75% unsecured senior notes due August 15, 2011 and \$700 million of 6.125% unsecured senior notes due August 15, 2016 (collectively the Notes). The Notes pay interest semi-annually and may be redeemed at any time, in whole or in part at a defined redemption price plus accrued interest. Net proceeds from the Notes were used to repay a portion of the outstanding commercial paper issued to finance the Standalone Drug Business. To manage a portion of the risk associated with potential changes in market interest rates, during the second quarter of 2006 we entered into forward starting pay fixed rate swaps (the Swaps), with a notional amount of \$750 million. The Swaps settled in conjunction with the placement of the long-term financing. As of September 30, 2006, we had no freestanding derivatives in place.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations**

Our credit facilities and unsecured senior notes contain customary restrictive financial and operating covenants. These covenants do not include a requirement for the acceleration of our debt maturities in the event of a downgrade in our credit rating. We do not believe that the restrictions contained in these covenants materially affect our financial or operating flexibility.

Our liquidity is based, in part, on maintaining investment-grade debt ratings. As of September 30, 2006, our long-term debt was rated Baa2 by Moody's and BBB+ by Standard & Poor's, and our commercial paper program was rated P-2 by Moody's and A-2 by Standard & Poor's. On November 2, 2006, Moody's and Standard & Poor's affirmed our commercial paper program ratings and placed our long-term ratings on review for possible upgrade. In assessing our credit strength, we believe that both Moody's and Standard & Poor's considered, among other things, our capital structure and financial policies as well as our consolidated balance sheet, our acquisition of the Standalone Drug Business, the entry into a definitive agreement with Caremark and other financial information. Although we currently believe our long-term debt ratings will remain investment grade, we cannot guarantee the future actions of Moody's and Standard & Poor's. Our debt ratings have a direct impact on our future borrowing costs, access to capital markets and new store operating lease costs.

Off-Balance Sheet Arrangements

In connection with executing operating leases, we provide a guarantee of the lease payments. We finance a portion of our new store development through sale-leaseback transactions, which involve selling stores to unrelated parties and then leasing the stores back under leases that qualify and are accounted for as operating leases. We do not have any retained or contingent interests in the stores, nor do we provide any guarantees, other than a guarantee of the lease payments, in connection with these transactions. In accordance with generally accepted accounting principles, our operating leases are not reflected in our consolidated condensed balance sheet.

In connection with certain business dispositions completed between 1991 and 1997, we continue to guarantee the lease obligations of approximately 360 former stores. The respective purchasers are required to indemnify CVS for these obligations. If any of the purchasers were to become insolvent and failed to make the required payments under a store lease, we could be required to satisfy these obligations. However, management believes that it is unlikely that any such liability would have a material effect on our financial position, results of operations or future cash flows. We refer you to the Notes to Consolidated Financial Statements on page 40 of our Annual Report to Stockholders included as Exhibit 13 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2005 for a detailed discussion of these guarantees.

Critical Accounting Policies

We prepare our consolidated financial statements in conformity with generally accepted accounting principles, which require management to make certain estimates and apply judgment. We base our estimates and judgments on historical experience, current trends and other factors that management believes to be important at the time the consolidated financial statements are prepared. On a regular basis, we review our accounting policies and how they are applied and disclosed in our consolidated financial statements. While we believe that the historical experience, current trends and other factors considered support the preparation of our consolidated financial statements in conformity with generally accepted accounting principles, actual results could differ from our estimates and such differences could be material. We refer you to the Notes to Consolidated Financial Statements on pages 30 through 32 of our Annual Report to Stockholders included as Exhibit 13 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2005 for a discussion of our significant accounting policies. We believe the following accounting policies include a higher degree of judgment and/or complexity and, thus, are considered to be critical accounting policies. The critical accounting policies discussed below are applicable to both of our business segments. We have discussed the development and selection of our critical accounting policies with the Audit Committee of our Board of Directors and the Audit Committee has reviewed our disclosures relating to them.

Table of Contents**Part I****Item 2**

Management's Discussion and Analysis of Financial Condition and Results of Operations**Impairment of Long-Lived Assets**

We account for the impairment of long-lived assets in accordance with SFAS No. 144, *Accounting for Impairment or Disposal of Long-Lived Assets*. As such, we evaluate the recoverability of long-lived assets, including intangible assets with finite lives, but excluding goodwill, which is tested for impairment using a separate test, whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. We group and evaluate long-lived assets for impairment at the individual store level, which is the lowest level at which individual cash flows can be identified. When evaluating long-lived assets for potential impairment, we first compare the carrying amount of the asset group to the individual store's estimated future cash flows (undiscounted and without interest charges). If the estimated future cash flows are less than the carrying amount of the asset group, an impairment loss calculation is prepared. The impairment loss calculation compares the carrying amount of the asset group to the individual store's estimated future cash flows (discounted and with interest charges). If required, an impairment loss is recorded for the portion of the asset group's carrying value that exceeds the individual store's estimated future cash flows (discounted and with interest charges).

Our impairment loss calculation contains uncertainty since we must use judgment to estimate each store's future sales, profitability and cash flows. When preparing these estimates, we consider each store's historical results and current operating trends and our consolidated sales, profitability and cash flow results and forecasts.

These estimates can be affected by a number of factors including, but not limited to, general economic conditions, the cost of real estate, the continued efforts of third party organizations to reduce their prescription drug costs, the continued efforts of competitors to gain market share and consumer spending patterns.

The net book value of our long-lived assets, including intangible assets with finite lives, covered by this critical accounting policy was approximately \$7.5 billion as of September 30, 2006. During 2005, 2004 and 2003, we recorded pre-tax impairment losses totaling \$27 million, \$20 million and \$22 million, respectively. Although we believe we have sufficient current and historical information available to us to record reasonable estimates for impairment losses, it is possible that actual results could differ. In order to help you assess the risk, if any, associated with the uncertainties discussed above, we believe the \$7 million pre-tax difference between the high and low end of the three-year impairment loss range would be a reasonably likely annual increase or decrease in the impairment of long-lived assets.

We have not made any material changes to our impairment loss assessment methodology or impairment loss estimates during the past three years.

Closed Store Lease Liability

We account for closed store lease termination costs in accordance with SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. As such, when a leased store is closed, we record a liability for the estimated present value of the remaining obligation under the non-cancelable lease, which includes future real estate taxes, common area maintenance and other charges, if applicable. The liability is reduced by estimated future sublease income.

The initial calculation and subsequent evaluations of our closed store lease liability contains uncertainty since we must use judgment to estimate the timing and duration of future vacancy periods, the amount and timing of future lump sum settlement payments and the amount and timing of potential future sublease income. When estimating these potential termination costs and their related timing, we consider a number of factors, which include, but are not limited to, historical settlement experience, the owner of the property, the location and condition of the property, the terms of the underlying lease, the specific marketplace demand and general economic conditions.

Table of Contents

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

Our total closed store lease liability covered by this critical accounting policy was \$503.9 million as of September 30, 2006. This amount is net of \$286.6 million of estimated sublease income that is subject to the uncertainties discussed above. Although we believe we have sufficient current and historical information available to us to record reasonable estimates for sublease income, it is possible that actual results could differ. In order to help you assess the risk, if any, associated with the uncertainties discussed above, a ten percent (10%) pre-tax change in our estimated sublease income, which we believe is a reasonably likely change, would increase or decrease our total closed store lease liability by about \$29 million as of September 30, 2006.

We have not made any material changes in our closed store lease reserve methodology or closed store lease liability estimates during the past three years.

Self-Insurance Liabilities

We are self-insured for certain losses related to general liability, worker's compensation and auto liability although we maintain stop loss coverage with third party insurers to limit our total liability exposure. We are also self-insured for certain losses related to health and medical liabilities.

The estimate of our self-insurance liability contains uncertainty since we must use judgment to estimate the ultimate cost that will be incurred to settle reported claims and unreported claims for incidents incurred but not reported as of the balance sheet date. When estimating our self-insurance liability, we consider a number of factors, which include, but are not limited to, historical claim experience, demographic factors, severity factors and valuations provided by independent third-party actuaries. On a quarterly basis, we review our assumptions with our independent third party actuaries to determine that our self-insurance liability is adequate.

Our total self-insurance liability covered by this critical accounting policy was \$304.6 million as of September 30, 2006. Although we believe we have sufficient current and historical information available to us to record reasonable estimates for our self-insurance liability, it is possible that actual results could differ. In order to help you assess the risk, if any, associated with the uncertainties discussed above, a ten percent (10%) pre-tax change in our estimate for our self-insurance liability, which we believe is a reasonably likely change, would increase or decrease our self-insurance liability by about \$30 million as of September 30, 2006.

We have not made any material changes in our self-insurance liability methodology or self-insurance liability estimates during the past three years.

Inventory

Our inventory is stated at the lower of cost or market on a first-in, first-out basis using the retail method of accounting to determine cost of sales and inventory in our stores, and the cost method of accounting to determine inventory in our distribution centers. Under the retail method, inventory is stated at cost, which is determined by applying a cost-to-retail ratio to the ending retail value of our inventory. Since the retail value of our inventory is adjusted on a regular basis to reflect current market conditions, our carrying value should approximate the lower of cost or market. In addition, we reduce the value of our ending inventory for estimated inventory losses that have occurred during the interim period between physical inventory counts. Physical inventory counts are taken on a regular basis in each location (other than two recently constructed distributions center, which perform a continuous cycle count process to validate the inventory balance on hand) to ensure that the amounts reflected in the consolidated financial statements are properly stated.

The accounting for inventory contains uncertainty since we must use judgment to estimate the inventory losses that have occurred during the interim period between physical inventory counts. When estimating these losses, we consider a number of factors, which include but are not limited to, historical physical inventory results on a location-by-location basis and current inventory loss trends.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations**

Our total reserve for estimated inventory losses covered by this critical accounting policy was \$101.3 million as of September 30, 2006. Although we believe we have sufficient current and historical information available to us to record reasonable estimates for estimated inventory losses, it is possible that actual results could differ. In order to help you assess the aggregate risk, if any, associated with the uncertainties discussed above, a ten percent (10%) pre-tax change in our estimated inventory losses, which we believe is a reasonably likely change, would increase or decrease our total reserve for estimated inventory losses by about \$10.1 million as of September 30, 2006.

We have not made any material changes in our inventory loss reserve methodology or inventory loss estimates during the past three years.

Although we believe that the estimates discussed above are reasonable and the related calculations conform to generally accepted accounting principles, actual results could differ from our estimates, and such differences could be material.

Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 158, Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires an employer to recognize in its statement of financial position an asset for a plan's overfunded status or a liability for a plan's underfunded status, measure a plan's assets and its obligations that determine its funded status as of the end of the employer's fiscal year, and recognize changes in the funded status of a defined benefit postretirement plan in the year in which the changes occur. Those changes will be reported in comprehensive income and in a separate component of stockholder's equity. Additional footnote disclosures will also be required. SFAS No. 158 is effective for fiscal years ending after December 15, 2006. We are currently evaluating the impact that SFAS No. 158 may have on our consolidated results of operations and financial position.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurement. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures regarding fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. We are currently evaluating the impact that SFAS No. 157 may have on our consolidated results of operations and financial position.

In September 2006, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin (SAB) No. 108, Considering the Effects of Prior Year Misstatements when Qualifying Misstatements in Current Year Financial Statements. SAB No. 108 requires misstatements to be quantified based on their impact on each of the financial statements and related disclosures. SAB No. 108 is effective for fiscal years ending after November 15, 2006. We are currently evaluating the impact that SAB No. 108 may have on our consolidated results of operations and financial position.

Cautionary Statement Concerning Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 (the Reform Act) provides a safe harbor for forward-looking statements made by or on behalf of CVS Corporation. The Company and its representatives may, from time to time, make written or verbal forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and in its reports to stockholders. Generally, the inclusion of the words believe, expect, intend, estimate, project, anticipate, will, should and similar expressions identify statements that constitute forward-looking statements.

All statements addressing operating performance of CVS Corporation or any subsidiary, events or developments that the Company expects or anticipates will occur in the future, including statements relating to sales growth, earnings or earnings per common share growth, free cash flow, debt ratings, inventory levels, inventory turn and loss rates, store development, relocations and new market entries, as well as statements expressing optimism or pessimism about future operating results or events, are forward-looking statements within the meaning of the Reform Act.

Table of Contents

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

The forward-looking statements are and will be based upon management's then-current views and assumptions regarding future events and operating performance, and are applicable only as of the dates of such statements. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

By their nature, all forward-looking statements involve risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements for a number of reasons, including but not limited to:

The continued efforts of health maintenance organizations, managed care organizations, pharmacy benefit management companies and other third party payers to reduce prescription drug costs and pharmacy reimbursement rates;

The effect on pharmacy revenue and gross profit rates attributable to the introduction in 2006 of a new Medicare prescription drug benefit and the continued efforts by various government entities to reduce state Medicaid pharmacy reimbursement rates;

The growth of mail order pharmacies and changes to pharmacy benefit plans requiring maintenance and other medications to be filled exclusively through mail order pharmacies;

The effect on PharmaCare of increased competition in the pharmacy benefit management industry, a declining margin environment attributable to increased client demands for lower prices, enhanced service offerings and/or higher service levels and the possible termination of, or unfavorable modification to, contractual arrangements with key clients or providers;

The potential effect on PharmaCare's business results of entering into risk based or reinsurance arrangements in connection with providing pharmacy benefit plan management services. Risks associated with these arrangements include relying on actuarial assumptions that underestimate prescription utilization rates and/or costs for covered members;

Our ability to continue to improve the operating results of the businesses acquired during 2004;

Our ability to successfully integrate the Standalone Drug Business acquired from Albertsons in June 2006;

Our ability to successfully integrate and significantly expand MinuteClinic;

Our ability to consummate the recently announced merger agreement between CVS and Caremark and successfully integrate the businesses;

Increased competition from other drugstore chains, supermarkets, discount retailers, membership clubs and Internet companies, as well as changes in consumer preferences or loyalties;

Edgar Filing: CVS CORP - Form 10-Q

The frequency and rate of introduction of successful new prescription drugs;

Our ability to generate sufficient cash flows to support capital expansion and general operating activities;

Interest rate fluctuations and changes in capital market conditions or other events affecting our ability to obtain necessary financing on favorable terms;

Our ability to identify, implement and successfully manage and finance strategic expansion opportunities including entering new markets, acquisitions and joint ventures;

Our ability to establish effective advertising, marketing and promotional programs (including pricing strategies and price reduction programs implemented in response to competitive pressures and/or to drive demand);

Our ability to continue to secure suitable new store locations under acceptable lease terms;

Our ability to attract, hire and retain suitable pharmacists and management personnel;

Our ability to achieve cost efficiencies and other benefits from various operational initiatives and technological enhancements;

Litigation risks as well as changes in laws and regulations, including changes in accounting standards and taxation requirements (including tax rate changes, new tax laws and revised tax law interpretations);

The creditworthiness of the purchasers of businesses formerly owned by CVS and whose leases are guaranteed by CVS;

Table of Contents

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

Fluctuations in inventory cost, availability and loss levels and our ability to maintain relationships with suppliers on favorable terms;

Our ability to implement successfully and to manage new computer systems and technologies;

The strength of the economy in general or in the markets served by CVS, including changes in consumer purchasing power and/or spending patterns; and

Other risks and uncertainties detailed from time to time in our filings with the Securities and Exchange Commission.

The foregoing list is not exhaustive. There can be no assurance that the Company has correctly identified and appropriately assessed all factors affecting its business. Additional risks and uncertainties not presently known to the Company or that it currently believes to be immaterial also may adversely impact the Company. Should any risks and uncertainties develop into actual events, these developments could have material adverse effects on the Company's business, financial condition, and results of operations. For these reasons, you are cautioned not to place undue reliance on the Company's forward-looking statements.

Table of Contents

Part I

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of September 30, 2006, the Company had no derivative financial instruments or derivative commodity instruments in place and believes its exposure to market risk associated with changes in interest rates in its debt portfolio is not material.

During the third quarter of 2006, the Company refinanced a portion of the short-term borrowings issued to finance the acquisition of the Standalone Drug Business, with \$800 million of 5.75% unsecured senior notes due August 15, 2011 and \$700 million of 6.125% unsecured senior notes due August 15, 2016. To manage a portion of the risk associated with changes in market interest rates, during the second quarter of 2006, the Company entered into forward starting pay fixed rate swaps (the Swaps), with a notional amount of \$750 million. The Swaps settled during the third quarter of 2006 in conjunction with the placement of the longer-term financing. As of September 30, 2006, the Company had no freestanding derivatives in place.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures: The Company's Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15 (f) and 15d-15(f)) as of September 30, 2006, have concluded that as of such date the Company's disclosure controls and procedures were adequate and effective and designed to ensure that material information relating to the Company and its subsidiaries would be made known to such officers on a timely basis.

Changes in internal control over financial reporting: There have been no changes in our internal controls over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 that occurred during the third quarter ended September 30, 2006 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II

Item 1. Legal Proceedings

As previously disclosed, the Rhode Island Attorney General's Office, the Rhode Island Ethics Commission and the United States Attorney's Office for the District of Rhode Island have been investigating the business relationships between certain former members of the Rhode Island General Assembly and various Rhode Island companies, including Roger Williams Medical Center (the "Medical Center"), Blue Cross & Blue Shield of Rhode Island and CVS. In connection with the investigation of these business relationships, a former Rhode Island state senator was criminally charged by state and federal authorities and pled guilty to the federal charges. Subsequently, the Medical Center entered into a deferred criminal prosecution agreement with the United States relating to federal corruption charges stemming from a business relationship with the former state senator. In addition, two former Medical Center executives were tried on and convicted of similar federal corruption charges and an executive of an assisted living facility affiliated with the Medical Center was acquitted of all charges. CVS continues to cooperate in this investigation, the timing and outcome of which cannot be predicted with certainty at this time.

Item 6. Exhibits

Exhibits:

- 2.1 Agreement and Plan of Merger dated as of November 1, 2006 among, the Registrant, Caremark Rx. Inc. and Twain MergerSub Corp. [incorporated by reference to Exhibit 2.1 to the Registrant's Current Report on Form 8-K dated November 1, 2006].
- 3.1 Amended and Restated Certificate of Incorporation of the Registrant (incorporated by reference to Exhibit 3.1 to CVS Corporation's Annual Report on Form 10-K for the fiscal year ended December 31, 1996).
- 3.1A Certificate of Amendment to the Amended and Restated Certificate of Incorporation, effective May 13, 1998 (incorporated by reference to Exhibit 4.1A to Registrant's Registration Statement No. 333-52055 on Form S-3/A dated May 18, 1998).
- 3.2 By-laws of the Registrant, as amended and restated (incorporated by reference to Exhibit 3.2 to CVS Corporation's Current Report on Form 8-K dated June 1, 2005).
- 15.1 Letter re: Unaudited Interim Financial Information.
- 31.1 Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Chief Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
