**EXPLANATORY NOTE**

This Amendment No. 1 on Form 10-K/A, or the Amendment, amends Alphatec Holdings, Inc.'s Annual Report on Form 10-K for the fiscal year ended December 31, 2006, originally filed on April 2, 2007, or the Original Filing. The purpose of this Amendment is to include certain information required by Part III the Annual Report on Form 10-K that was omitted from Part III of the Original Filing because it was to be incorporated by reference to the Company's definitive Proxy Statement for the 2007 Annual Meeting of Stockholders. Because the Company's definitive Proxy Statement will not be filed within 120 days after the end of the fiscal year ended December 31, 2006, the information required by Part III of the Annual Report on Form 10-K cannot be incorporated by reference and therefore must be included in the Annual Report. This Amendment contains the information that was previously omitted from Part III of the Annual Report. In addition, in connection with the filing of this Amendment and pursuant to the rules of the Securities and Exchange Commission, the Chief Executive Officer and the Chief Financial Officer of the Company have reissued their certifications. Accordingly, Item 15 of Part IV has also been amended to reflect the filing of such certifications.

Except as described above, no other changes have been made to the Original Filing. The Original Filing continues to speak as of the dates described in the Original Filing, and we have not updated the disclosures contained therein to reflect any events that occurred subsequent to such dates. Accordingly, this Amendment should be read in conjunction with the Company's filings made with the Securities and Exchange Commission subsequent to the filing of the Original Filing, as information in such filings may update or supersede certain information contained in this Amendment. In this Amendment, unless the context indicates otherwise, the terms "Company," "we," "us," and "our" refer to Alphatec Holdings, Inc. and our subsidiaries.

### **COMPENSATION COMMITTEE REPORT**

The compensation committee of the Board has reviewed and discussed the Compensation Discussion and Analysis, or CD&A, required by Item 402(b) of Regulation S-K, which appears elsewhere in this Annual Report, with our management. Based on this review and discussion, the compensation committee has recommended to the Board that the Compensation Discussion and Analysis be included in our Annual Report.

#### **MEMBERS OF THE COMPENSATION COMMITTEE:**

**R. Ian Molson**

**Stephen O Neil**

#### **COMPENSATION DISCUSSION AND ANALYSIS**

We have prepared the following CD&A to provide you with information that we believe is necessary to understand our executive compensation policies and decisions as they relate to the compensation of our named executive officers.

#### **Compensation Discussion and Analysis**

The primary objectives of the Compensation Committee of our Board with respect to executive compensation are to attract and retain the best possible executive talent, to motivate them to achieve corporate objectives, and reward them for superior performance. The focus is to tie short and long-term cash and equity incentives to the achievement of measurable corporate and individual performance objectives, and to align executives' incentives with stockholder value creation. To achieve these objectives, the Compensation Committee has maintained a compensation plan that ties a substantial portion of executives' overall compensation to our operational performance. Because we believe the performance of every employee is important to our success, we are mindful of the effect our executive compensation and incentive programs have on all of our employees. Executive compensation decisions for the 2006 fiscal year were determined by using the policies and processes in place prior to our initial public offering and are detailed below.

In the 2006 fiscal year, management developed our compensation plans by utilizing publicly available compensation data for national and regional companies in the orthopedic device industry. For benchmarking executive compensation, we typically review the compensation data we have collected from the surveys, as well as various subsets of this data, to compare elements of compensation based on certain characteristics of the

## **Table of Contents**

company, such as number of employees and number of shares of stock outstanding. Examples of companies we have used in evaluating our compensation components are Nuvasive, Inc., Orthofix International, N.V. and DJ Orthopedics, Inc.

Based on management's analyses and recommendations, the Compensation Committee has approved a pay-for-performance compensation philosophy, which is intended to bring base salaries and total executive compensation in line with companies with a similar number of employees represented in the compensation data we review.

We have worked within the framework of this pay-for-performance philosophy to determine each component of an executive's initial compensation package based on numerous factors, including:

the individual's particular background and circumstances, including training and prior relevant work experience;

the individual's role with us and the compensation paid to similar persons in the companies represented in the compensation data that we review;

the demand for people with the individual's specific expertise and experience at the time of hire;

performance goals and other expectations for the position;

comparison to other executives within our company having similar levels of expertise and experience; and

uniqueness of industry skills.

This collaborative annual review process begins in the second fiscal quarter of each year with respect to the prior fiscal year with each employee completing a written self-evaluation which is reviewed by the appropriate vice president. The vice president reviews and meets with human resources to finalize department recommendations which are then reviewed by an internal group comprised of our Chief Operating Officer, Chief Financial Officer, and Vice President, Human Resources. That group reviews the submissions by each department and prepares a final set of recommendations for submission to our President and CEO. The Compensation Committee may accept or adjust the recommendations. After the Compensation Committee approves the recommendations, managers then meet with employees to deliver their performance review and any compensation adjustments. Compensation adjustments are implemented following the completion of the review process. The annual reviews of our executive officers are conducted by our President and Chief Executive Officer.

In evaluating compensation for the 2006 fiscal year, we considered, among others, the following factors and events that occurred during 2006:

the successful completion of our initial public offering and the ability to meet the necessary financial and legal requirements of a public company;

the close monitoring of our financial position to allow timely completion of our corporate priorities within the approved budget; and

the continued increase of our revenues.

We do not currently have a merit-based salary increase program for our Named Executive Officers. All Salary increases granted to Named Executive Officers, to the extent granted, were tied to either a promotion of such Named Executive Officer, or an increase in the responsibilities of a Named Executive Officer. In 2006 we provided cash bonus awards to certain of our employees, including all of the Named Executive

## Edgar Filing: Alphatec Holdings, Inc. - Form 10-K/A

Officers, through our 2006 Bonus Plan. The 2006 Bonus Plan was a cash incentive program designed to reward employees upon our achievement of certain revenue goals. Under our 2006 Bonus Plan, each of the Named Executive Officers listed below, based on the recommendation of the President and Chief Executive Officer and approval by the Board, was eligible for cash bonuses. The target cash bonuses were determined according to a formula expressed

as percentages of the respective Named Executive Officer's base salary based on the achievement of revenue goals determined by the Board.

Our Compensation Committee, with contributions from the other members of our Board and management, evaluates our President and Chief Executive Officer's performance.

### ***Compensation Components***

The components of our compensation package are as follows:

#### ***Base Salary***

Base salaries for our executives are established based on the scope of their responsibilities and their prior relevant background, training, and experience, taking into account competitive market compensation paid by the companies represented in the compensation data we review for similar positions and the overall market demand for such executives at the time of hire. Most of our Named Executive Officers began their employment with us in 2006. All employment agreements with our Named Executive Officers were the result of arms-length negotiations. As with total executive compensation, we believe that executive base salaries should generally be comparable with salaries for executives in similar positions and with similar responsibilities in the companies of similar size to us represented in the compensation data we review. An executive's base salary is also evaluated together with other components of the executive's other compensation to ensure that the executive's total compensation is in line with our overall compensation philosophy.

#### ***Annual Cash Bonus***

Our practice has been to provide employees in executive positions with the opportunity to earn an annual cash bonus up to a certain percentage of their annual base salary. The target percentages for these bonuses range from 10% for senior managers below the vice president level, 25% to 50% for vice presidents, and 50% for the President and Chief Executive Officer. These target percentages are generally set forth in the employee's employment agreement or offer letter and are subject to adjustment in the discretion of the Compensation Committee. This practice is designed to enable us to attract quality employees and add an additional compensation opportunity in the form of variable pay. As part of the annual review process, performance of each eligible employee is evaluated against the objectives that were mutually established by the employees and their managers. The Compensation Committee determines the percent of the bonus to be awarded based on overall corporate performance together with a subjective assessment by their manager of each employee's achievement of the previously established performance goals which relate to the employee's area of responsibility. Bonus awards are generally prorated for individuals who joined us during the applicable year.

#### ***Long-Term Incentives***

We believe that long-term performance is achieved through an ownership culture that encourages long-term participation by our executive officers in equity-based awards. Our Amended and Restated 2005 Employee, Director and Consultant Stock Plan, or our 2005 Stock Plan, allows the grant to executive officers of stock options, restricted stock, and other equity-based awards. Prior to our initial public offering we granted certain employees restricted stock awards. Since our initial public offering we have only granted incentive stock options to employees, however we may consider the possibility of granting other types of equity awards as our business strategy evolves. We typically make an initial stock option award to new employees as well as option grants to reflect promotions, as necessary. Currently we do not make annual stock option awards as part of our overall performance management program, however we may institute such a program in fiscal 2007.

#### ***Initial Stock Option Awards***

Since our initial public offering, executives who join us are awarded initial stock option grants. These grants have an exercise price equal to the closing price of our common stock on the day prior to the date of grant, which

## **Table of Contents**

is generally the second Wednesday of each month after the beginning of the executive's employment, and a five-year vesting schedule with 20% of the shares vesting on the annual anniversary of the date of issuance. The amount of the initial stock option award is determined based on the executive's position with us and analysis of the competitive practices of the companies similar in size to us represented in the compensation data that we review with the goal of creating a total compensation package for new employees that is competitive with other orthopedic device companies and that will enable us to attract high quality people. Our President and Chief Executive Officer is currently authorized by the Compensation Committee to make initial stock option grants within certain parameters to non-executive officers, beyond which Compensation Committee approval is required.

To determine the proposed option recommendations for new hires in 2006, we relied upon the data we had previously collected with respect to the compensation being paid by orthopedic device manufacturers of a similar size to us.

### *Promotion Grants*

If an employee receives a promotion during the year, we generally recommend that the Compensation Committee, or its designee, approve stock option grants to reflect the promotion. Generally, these promotion grants begin to vest on the date of the stock option grant, which is generally the second Wednesday of each month after approval of the grant related to the promotion. The method for determining each promotion grant is based on the numbers used for determining an initial stock option grant for the position with a reduction from such amount based on the number of options previously granted to such employee.

### *Other Compensation*

We maintain broad-based benefits and perquisites that are provided to all employees, including health insurance, life and disability insurance, dental insurance, and a 401(k) plan. In particular circumstances, we also utilize cash signing bonuses when certain executives and senior non-executives join us. Such cash signing bonuses are typically repayable in full to us if the recipient voluntarily terminates employment with us prior to the first anniversary of the date of hire. Whether a signing bonus is paid and the amount thereof is determined on a case-by-case basis under the specific hiring circumstances. For example, we have paid and will consider paying cash bonuses to compensate for amounts forfeited by an executive upon terminating prior employment. In addition, we may assist with certain expenses associated with an executive joining and maintaining their employment with us. For example, in 2006 we reimbursed our Chief Technology Officer, former Vice President, RA/QA, former President and CEO and former Chief Administrative Officer for certain housing costs and/or expenses for relocation. We have also provided reimbursement compensation for the taxes associated with these benefits. We believe these forms of compensation create additional incentives for an executive to join us in a position where there is high market demand. These forms of compensation are typically structured to not exceed certain monetary amounts and/or time periods. These forms of compensation are generally subject to repayment on a pro-rata basis if the executive terminates his or her employment within one or two years of their date of hire.

## **Conclusion**

Our compensation policies are designed and are continually being developed to retain and motivate our senior executive officers and to ultimately reward them for outstanding individual and corporate performance. In 2007, we plan to begin working on a revised compensation structure that is more reflective of our needs as a public company. Management plans to engage a compensation consultant to assist us in this process and we anticipate completing this work and implementing this new structure in 2008.

### **Severance and Change of Control Agreements Approved in Fiscal Year 2007**

#### ***Termination of Employment and Change of Control Arrangements***

The employment agreements with certain of our Named Executive Officers provide certain benefits upon the termination of employment without cause. In the event that any of Messrs. Yasbek, Reinecke or Yoshimi is terminated without cause, he is entitled to receive as severance compensation his annual base salary for a period of 12 months and a payment for any accrued but unused vacation days.

In the event that Mr. Lubischer is terminated without cause, he is entitled to receive as severance compensation his annual base salary for a period of at least three, but not more than 12 months, with such period being determined by us, and a payment for any accrued but unused vacation days. During this time period, Mr. Lubischer shall be bound by certain obligations to not compete with us.

In addition to the salary and vacation day payments set forth above, upon any termination without cause, during the time period in which any of these executive officers is receiving severance payments, he will be entitled to continue to participate in all medical and similar benefit programs that we establish and make available to our management employees. Our Compensation Committee, or our Board in the case of Mr. Yoshimi, agreed to this severance package as part of the negotiations with each of these executive officers to secure his services. Our Compensation Committee, or our Board in the case of Mr. Yoshimi, approved the severance package based on their experience serving on boards of directors and compensation committees of companies of a similar size and stage of development to us and their familiarity with severance packages offered to executive officers of such companies. Based on this knowledge, experience and information, we believe that the respective severance periods and provision of medical and similar benefit programs during such severance periods are both reasonable and generally in line with severance packages negotiated with executive officers of similarly situated companies.

We do not have an employment agreement with Mr. Foster.

Pursuant to our restricted stock agreements and stock option agreements with our executive officers, in the event of a change in control, as defined in our 2005 Stock Plan, the vesting of outstanding restricted stock grants and stock option awards held by these executive officers will accelerate in connection with a change in control, without regard to whether the Named Executive Officer terminates employment in connection with or following the change in control.

Our subsidiary, Alphatec Spine, has entered into a stock purchase agreement with Mr. Yoshimi pursuant to which we have an obligation to repurchase his Alphatec Pacific shares upon certain changes of control of us, Alphatec Spine or Alphatec Pacific.

A change in control shall occur on the date that: (i) any one person, entity or group acquires ownership of capital stock of us, together with our capital stock already held by such person, entity or group, constitutes more than 50% of the total fair market value or total voting power of our capital stock; provided, however, if any one person, entity or group is considered to own more than 50% of the total fair market value or total voting power of our capital stock of the Company, the acquisition of additional capital stock by the same person, entity or group shall not be deemed to be a change of control; (ii) a majority of members of the Board is replaced during any

12-month period by directors whose appointment or election is not endorsed by a majority of the members of the Board prior to the date of the appointment or election; or (iii) any one person, entity or group acquires (or has acquired during the 12-month period ending on the date of the most recent acquisition by such person, entity or group) assets from us that have a total gross fair market value at least equal to 80% of the total gross fair market value of all of the assets of us immediately prior to such acquisition or acquisitions.

### ***Potential Post-Employment Payments Table***

Steven Reinecke	283,063	35,700
Shunshiro Roy Yoshimi	215,762	

- (1) The intrinsic value of the unvested stock option and restricted stock awards as of December 31, 2006 that would have been accelerated had a change in control occurred on that date, calculated by multiplying the number of underlying unvested shares by the closing price of our stock on December 31, 2006 (\$3.73 per share) and, in the case of stock options, by then subtracting the applicable option exercise price.

The advisory services performed by HealthpointCapital, LLC included: (i) retaining and coordinating with the underwriters throughout the initial public offering process; (ii) assisting our management in preparing for the initial public offering and the road show; (iii) assisting our management with the preparation of the prospectus; (iv) assisting us in negotiating the pre-money valuation, size of initial public offering and the terms of our New Redeemable preferred stock; (v) interacting with our existing stockholders on a continuous basis throughout the initial public offering process; and (vi) retaining other advisors, as needed. Our director R. Ian Molson has a less than 1% direct capital interest in HealthpointCapital Partners, LP and a 2.2% direct interest in HealthpointCapital, LLC. Our director Stephen E. Our Board has agreed to reimburse Foster Management Company, which is owned by Mr. Foster, \$4,000 per flight hour for the use of its aircraft when Mr. Foster travels for our business purposes. Based upon a competitive analysis of comparable leased aircraft, our Board determined that this hourly reimbursement rate is at or below market rates for the charter of similar aircrafts. We reimbursed Foster Management Company approximately \$352,000 for such travel in 2006.

On February 2, 2006, we filed a joint complaint with our former President and Chief Executive Officer, Ronald Hiscock, in California State Superior Court against Benchmark Medical. This action arose out of Benchmark's alleged default under its contractual obligation to make certain payments to Mr. Hiscock pursuant to a severance agreement entered into between Mr. Hiscock and Benchmark. In the complaint, Mr. Hiscock sought damages based on the severance payments that have not been paid to him, and we sought a declaratory judgment that we are not bound by the restrictive covenants of Mr. Hiscock's severance agreement (which provided that Mr. Hiscock will not compete with Benchmark or solicit or employ Benchmark employees), provided that Mr. Hiscock is not involved in the solicitation of Benchmark employees. In March 2006, Benchmark filed a complaint in the Chester County, Pennsylvania Court of Common Pleas against each of Mr. Hiscock and our former Chief Administrative Officer, Vice President and Secretary, Vicky Romanoski, in which it alleged that both of them breached the terms of their respective severance agreements with Benchmark. In the complaint, Benchmark sought to recoup aggregate severance payments paid to both Mr. Hiscock and Ms. Romanoski. In addition, the complaint sought to have all matters related to such alleged breaches litigated in Pennsylvania rather than California. We agreed to indemnify and hold harmless each of Mr. Hiscock and Ms. Romanoski, against any expense, loss or liability arising from any alleged breach of their respective severance agreements, including legal expenses related to the suit against Benchmark and Benchmark's complaint, and unpaid severance payments due to Mr. Hiscock and Ms. Romanoski from Benchmark. This matter was settled by all parties involved in June, 2006, however, pursuant to our agreement to indemnify Mr. Hiscock we paid \$219,358 to Mr. Hiscock for lost severance payments in 2006. In addition, we paid all legal fees for our joint litigation with Mr. Hiscock and Ms. Romanoski, which was \$56,188 in 2006.

In connection with the repurchase of certain distribution rights in Japan, our subsidiary, Alphatec Pacific, borrowed ¥350.0 million, or approximately \$3.0 million, from Mr. Roy Yoshimi, the President, Chief Executive Officer and Chairman of Alphatec Pacific. In return for this loan, Mr. Yoshimi received an unsecured note and 20% of the stock of Alphatec Pacific. In June 2006, we paid Mr. Yoshimi \$3.0 million to repay this note in full.

Our subsidiary, Alphatec Spine, has entered into a stock purchase agreement with Mr. Yoshimi pursuant to which we have an obligation to repurchase his Alphatec Pacific shares upon certain changes of control of the Company, Alphatec Spine or Alphatec Pacific or upon termination of Mr. Yoshimi's employment. In addition, 12 months after the completion of our initial public offering, Mr. Yoshimi will have the right to require us to repurchase his shares of Alphatec Pacific stock upon written notice. The price we pay to reacquire shares of Alphatec Pacific from Mr. Yoshimi will be based on the revenues of Alphatec Pacific during three full calendar months prior to our obligation to purchase the shares, except in the event of a change of control of Alphatec Pacific, where it will be equal to a proportionate share of the price paid for Alphatec Pacific.

In October 2006, we, and our subsidiary, Alphatec Spine, entered into a Consulting Agreement with one of our directors, Stephen H. Hochschuler, M.D. Pursuant to the terms of the agreement, we agreed to appoint Dr. Hochschuler to the Alphatec Holdings and Alphatec Spine Board of Directors until the next annual meeting of each of its stockholders or his successor is duly appointed and qualified. Pursuant to the agreement, Dr. Hochschuler is required to provide advisory services to us related to the spinal implant industry and our research and development strategies. The agreement has a three-year term. In return for such advisory services, we are obligated to pay Dr. Hochschuler cash and equity compensation.

**Policy on Audit Committee Pre-Approval of Audit and Permissible Non-audit Services of Independent Auditors**

Consistent with Securities and Exchange Commission's policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent auditor. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent auditor.

Prior to engagement of the independent auditor for the next year's audit, management will submit an aggregate of services expected to be rendered during that year for each of four categories of services to the Audit Committee for approval.

1. **Audit** services include audit work performed in the preparation of financial statements, as well as work that generally only the independent auditor can reasonably be expected to provide, including comfort letters, statutory audits, and attest services and consultation regarding financial accounting and/or reporting standards.

2. **Audit-Related** services are for assurance and related services that are traditionally performed by the independent auditor, including due diligence related to mergers and acquisitions, employee benefit plan audits, and special procedures required to meet certain regulatory requirements.

3. **Tax** services include all services performed by the independent auditor's tax personnel except those services specifically related to the audit of the financial statements, and includes fees in the areas of tax compliance, tax planning, and tax advice.

**Table of Contents**

4. ***Other Fees*** are those associated with services not captured in the other categories. The Company generally does not request such services from the independent auditor.

Prior to engagement, the Audit Committee pre-approves these services by category of service. The fees are budgeted and the Audit Committee requires the independent auditor and management to report actual fees versus the budget periodically throughout the year by category of service. During the year, circumstances may arise when it may become necessary to engage the independent auditor for additional services not contemplated in the original pre-approval. In those instances, the Audit Committee requires specific pre-approval before engaging the independent auditor.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

**REPORT OF AUDIT COMMITTEE FOR THE YEAR ENDED DECEMBER 31, 2006**

The Audit Committee of the Board, which consists entirely of directors who meet the independence and experience requirements of the rules promulgated by the Securities and Exchange Commission and the Nasdaq Stock Market has furnished the following report:

The Audit Committee assists the Board in overseeing and monitoring the integrity of our financial reporting process, compliance with legal and regulatory requirements and the quality of internal and external audit processes. This committee's role and responsibilities are set forth in its charter adopted by the Board, which is available on our website at [www.alphatecspine.com](http://www.alphatecspine.com). This committee reviews and reassesses its charter annually and recommends any changes to the Board for approval. The Audit Committee is responsible for overseeing our overall financial reporting process, and for the appointment, compensation, retention, and oversight of the work of Ernst & Young, LLP. In fulfilling its responsibilities for the financial statements for fiscal year ended December 31, 2006, the Audit Committee took the following actions:

Reviewed and discussed the audited financial statements for the fiscal year ended December 31, 2006 with management and Ernst & Young, LLP, our independent auditors;

Discussed with Ernst & Young, LLP the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board in Rule 3200T, relating to the conduct of the audit; and

Received written disclosures and the letter from Ernst & Young, LLP regarding its independence as required by Independence Standards Board Standard No. 1, as adopted by the Public Company Accounting Oversight Board in Rule 3600T. The Audit Committee further discussed with Ernst & Young, LLP their independence. The Audit Committee also considered the status of pending litigation, taxation matters and other areas of oversight relating to the financial reporting and audit process that the committee determined appropriate.

Based on the Audit Committee's review of the audited financial statements and discussions with management and Ernst & Young, LLP, the Audit Committee recommended to the Board that the audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2006 for filing with the Securities and Exchange Commission.
