Your Fund's Performance

Fund Objective

The primary investment objective of **The High Yield Income Fund, Inc.** is to maximize current income to shareholders. As a secondary investment objective, the Fund will seek capital appreciation, but only when consistent with its primary objective. The Fund will seek to achieve its objectives by investing primarily in corporate bonds rated below investment grade by independent rating agencies. Bonds rated below investment grade are commonly known as "junk" bonds and are subject to greater risk of default and higher volatility than investment-grade bonds. Furthermore, these bonds tend to be less liquid than higher-quality bonds. The Fund is diversified, and we carefully research companies to find those with attractive yields and improving credit quality. There can be no assurance that the Fund will achieve its investment objectives.

Past performance does not guarantee future results and current performance may be lower or higher than the past performance data quoted. The investment return and principal value will fluctuate, and shares, when sold, may be worth more or less than the original cost. For the most recent month-end performance, call (800) 451-6788. There are no sales charges.

¹Source: Prudential Investments LLC. Total return of the Fund represents the change in net asset value from the beginning of the period (9/1/06) through the end (2/28/07) and assumes the reinvestment of dividends and distributions. Shares of the Fund are traded on the New York Stock Exchange, Inc. using the symbol HYI. Past performance is not indicative of future results.

²Source: Lipper Inc. The Lehman Brothers U.S. Corporate High Yield 2% Issuer Capped Index is an unmanaged index of fixed-rate, noninvestment-grade debt securities with at least one year remaining to maturity. However, the representation of any single bond issuer is restricted to a maximum of 2% of the total index. Investors cannot invest directly in an index.

Notes to Financial Statements

(Unaudited)

The High Yield Income Fund, Inc. (the Fund) was organized in Maryland on August 21, 1987 as a diversified, closed-end management investment company. The Fund's primary investment objective is to maximize current income to shareholders through investment in a diversified portfolio of high-yield, fixed-income securities rated in the medium to lower categories by recognized rating services, or non-rated securities of comparable quality. As a secondary investment objective, the Fund will seek capital appreciation, but only when consistent with its primary objective. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic or political developments in a specific industry or region.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Securities Valuation: Securities for which market quotations are readily available including securities listed on national securities exchanges and those traded over-the-counter are valued at the last quoted sales price on the valuation date on which the security is traded. If such securities were not traded on the valuation date, but market quotations are readily available, they are valued at the most recently quoted bid price provided by an independent pricing service or by a principal market maker. Securities for which market quotations are not readily available or for which the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgment of the adviser, does not represent fair value, are valued by a Valuation Committee appointed by the Board of Directors, in consultation with the adviser. When determining the fair valuation of securities some of the factors influencing the valuation include, the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the investment adviser regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other mutual funds to calculate their net asset values. As of February 28, 2007, there was one security whose value was adjusted in accordance with procedures approved by the Board of Directors.

Short-term securities, which mature in sixty days or less, are valued at amortized cost, which approximates market value. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of the difference between the principal amount due at maturity and cost. Short-term securities, which mature in more than sixty days, are valued at current market quotations.

In connection with transactions in repurchase agreements with U.S. financial institutions, it is the Fund's policy that its custodian or designated subcustodians, as the case may be under tri-party repurchase agreements, take possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction including accrued interest. If the seller defaults and the value of the collateral declines, or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited. The Fund's custodian will maintain, in a segregated account of the Fund, cash, U.S. Government securities, equity securities or other liquid, unencumbered assets marked to market daily, having a value equal to or greater than the Fund's purchase commitments with respect to certain investments.

Restricted Securities: The Fund may invest up to 20% of its total assets in securities, which are not readily marketable, including those which are restricted as to disposition under securities law (restricted securities).

Cash Flow Information: The Fund invests in securities and distributes dividends from net investment income, which are paid in cash or are reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows.

Accounting practices that do not affect reporting activities on a cash basis include carrying investments at value, accruing income on PIK (payment-in-kind) securities and accreting discounts and amortizing premiums on debt obligations.

Foreign Currency Translation: The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities at the current rates of exchange.

- (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Notes to Financial Statements

(Unaudited) Cont d

Although the net assets of the Fund are presented at the foreign exchange rates and market values at the close of the period, the Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at the end of the period. Similarly, the Fund does not isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of long-term debt securities sold during the period. Accordingly, such realized foreign currency gains or losses are included in the reported net realized gains or losses on investment transactions.

Net realized gains or losses on foreign currency transactions represent net foreign exchange gains or losses from sales and maturities of short-term securities and forward currency contracts, disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of interest, discount and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net currency gains or losses resulting from the valuing of foreign currency denominated assets (excluding investments) and liabilities at year-end exchange rates are reflected as a component of net unrealized appreciation or depreciation on investments and foreign currencies.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. companies as a result of, among other factors, the possibility of political or economic instability and the level of governmental supervision and regulation of foreign securities markets.

Security Transactions and Investment Income: Security transactions are recorded on the trade date. Realized and unrealized gains or losses from securities transactions are calculated on the identified cost basis. Interest income, which is comprised of stated coupon rate, original issue discount, market discount and premium, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The Fund amortizes premium and accrue discounts on debt securities as adjustments to interest income. Expenses are recorded on the accrual basis.

Taxes: For federal income tax purposes, it is the Fund's policy to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable net income and capital gains, if any, to its shareholders. Therefore, no federal income tax provision is required.

Dividends and Distributions: The Fund expects to pay dividends of net investment income monthly and make distributions of net realized capital and currency gains, if any, annually. Dividends and distributions are recorded on the ex-dividend date. Dividends and distributions to shareholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles. Permanent book/tax differences relating to income and gains are reclassified amongst undistributed net investment income, accumulated net realized gain or loss and paid-in capital in excess of par, as appropriate.

Estimates: The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 2. Agreements

The Fund has a management agreement with Prudential Investments LLC (PI). Pursuant to this agreement, PI has responsibility for all investment advisory services and supervises the subadviser s performance of such services. PI has entered into a subadvisory agreement with Prudential Investment Management, Inc. (PIM). PIM furnishes investment advisory services in connection with the management of the Fund. PI pays for the services of PIM, the compensation of officers and employees of the Fund, occupancy and certain clerical and bookkeeping costs of the Fund. The Fund bears all other costs and expenses.

The management fee paid to PI is computed weekly and payable monthly, at an annual rate of .70 of 1% of the average weekly net assets of the Fund.

PI and PIM are indirect, wholly-owned subsidiaries of The Prudential Financial, Inc. (Prudential).

Note 3. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the six months ended February 28, 2007, aggregated \$21,349,793 and \$21,959,822, respectively.

Note 4. Tax Information

The United States federal income tax basis of the Fund s investments and the net unrealized appreciation as of February 28, 2007, were as follows:

Tax Basis of Investments	Appreciation	Depreciation	Net Unrealized Appreciation
-----------------------------	--------------	--------------	--------------------------------

Edgar Filing: HIGH YIELD INCOME FUND INC - Form N-CSRS

\$86,033,120

\$3,542,221

\$1,215,639

\$2,326,582

The High Yield Income Fund, Inc. 29

Notes to Financial Statements

(Unaudited) Cont d

The difference between book basis and tax basis was attributed to deferred losses on wash sales, differences in the treatment of premium and market discount amortization for book and tax purposes and other book to tax adjustments.

For federal income tax purposes, the Fund had a capital loss carryforward as of August 31, 2006 of approximately \$23,176,300, of which \$510,300 expires in 2007, \$3,336,700 expires in 2008, \$5,010,500 expires in 2009, \$6,960,200 expires in 2010, \$7,076,300 expires in 2011 and \$282,300 expires in 2014. Accordingly, no capital gains distribution is expected to be paid to shareholders until net realized gains have been realized in excess of such amounts. It is uncertain whether the Fund will be able to realize the full benefit prior to the expiration date. In addition, the Fund elected to treat post-October currency and capital losses of approximately \$1,000 and \$356,100, respectively incurred in the ten month period ended August 31, 2006 as having been incurred in the following fiscal year.

Note 5. Borrowings

The Fund has a credit agreement with State Street Bank & Trust Co. The maximum commitment under this agreement is \$35,000,000. Interest on any such borrowings outstanding fluctuates daily at .75 of one percentage point over the Federal Funds rate and is payable monthly. The Fund may utilize these borrowings (leverage) in order to increase the potential for gain on amounts invested. There can be no guarantee that these gains will be realized. There are increased risks associated with the use of leverage. The expiration of the credit agreement was June 5, 2006. Effective June 6, 2006, the Fund renewed the credit agreement with State Street Bank & Trust Co. under the same terms. The expiration of the renewed credit agreement is June 4, 2007. The average daily balance outstanding during the six months ended February 28, 2007, was \$23,000,000 at a weighted average interest rate of 6.03%. The maximum face amount of borrowings outstanding at any month-end during the six months ended February 28, 2007 was \$23,000,000.

The Fund pays commitment fees at an annual rate of .10 of 1% on any unused portion of the credit agreement. The commitment fee is accrued daily and paid quarterly. Commitment fees are included in Loan interest expense as reported on the Statement of Operations.

Note 6. Capital

There are 200 million shares of \$.01 par value common stock authorized. Prudential owned 11,000 shares of common stock as of February 28, 2007.

During the six months ended February 28, 2007 the Fund did not issue shares in connection with the reinvestment of dividends. During the year ended August 31, 2006 the Fund did not issue shares in connection with the reinvestment of dividends.

Note 7. Subsequent Events

On March 1 and April 2, 2007 the Board of Directors of the Fund declared dividends of \$.035 and \$.040 per share, respectively, payable on March 30 and April 30, 2007, respectively, to shareholders of record on March 15 and April 16, 2007, respectively.

Note 8. New Accounting Pronouncements

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax benefits or expenses resulting from tax positions not deemed to meet the more-likely-than-not threshold would be recorded in the year in which they arise. On December 22, 2006 the Securities and Exchange Commission delayed the effective date until June 30, 2007. At this time, management is evaluating the implications of FIN 48 and its impact, if any, in the financial statements has not yet been determined.

On September 20, 2006, the FASB released Statement of Financial Accounting Standards No. 157 Fair Value Measurements (FAS 157). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 157 and its impact, if any, in the financial statements has not yet been determined.
