The accompanying notes, together with the Notes to Consolidated Financial Statements included in Teradyne s Annual Report on Form 10-K for the year ended December 31, 2006 are an integral part of the condensed consolidated financial statements.

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

A. The Company

Teradyne, Inc. is a leading supplier of automatic test equipment.

Teradyne s automatic test equipment products include:

semiconductor test systems (Semiconductor Test Systems);

circuit-board test and inspection systems and military/aerospace (Mil/Aero) test instrumentation and systems (Assembly Test Systems); and

automotive diagnostic and test systems (Diagnostic Solutions).

Statements in this Quarterly Report on Form 10-Q which are not historical facts, so called forward looking statements, are made pursuant to the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended. Investors are cautioned that all forward looking statements involve risks and uncertainties, including those detailed in Teradyne s filings with the Securities and Exchange Commission (the SEC). See also Item 2: Management s Discussion and Analysis of Financial Condition and Results of Operations Certain Factors That May Affect Future Results and Teradyne s Annual Report on Form 10-K for the year ended December 31, 2006.

B. Accounting Policies

Basis of Presentation

The condensed consolidated interim financial statements include the accounts of Teradyne and its subsidiaries. All significant intercompany balances and transactions have been eliminated. These interim financial statements are unaudited and reflect all normal recurring adjustments that are, in the opinion of management, necessary for the fair statement of such interim financial statements. Certain prior years amounts were reclassified to conform to the current year presentation. The December 31, 2006 condensed consolidated balance sheet data were derived from audited financial statements, but do not include all disclosures required by generally accepted accounting principles.

The accompanying financial information should be read in conjunction with the consolidated financial statements and notes thereto contained in Teradyne s Annual Report on Form 10-K, filed with the SEC on March 1, 2007 for the year ended December 31, 2006.

On August 1, 2007, Teradyne closed the sale of Broadband Test Systems division, its voice and broadband access network test division. The results of operations of Broadband Test Systems as well as balance sheet amounts pertaining to this business have been classified as discontinued operations in the consolidated financial statements (see Note E: Discontinued Operations).

Preparation of Financial Statements

The preparation of consolidated financial statements requires management to make estimates and judgments that affect the amounts reported in the financial statements. Actual results may differ significantly from these estimates.

C. Recently Issued Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157). SFAS No. 157 establishes a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. This

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

accounting standard is effective for financial statements issued for fiscal years beginning after November 15, 2007. Teradyne is currently evaluating the impact of adopting this standard.

D. Product Warranty

Teradyne generally provides a one-year warranty on its products commencing upon installation or shipment. A provision is recorded upon revenue recognition to cost of revenues for estimated warranty expense based on historical experience. Related costs are charged to the warranty accrual as incurred. The balance below is included in other accrued liabilities (in thousands).

	For the Six	x Months
	End	led
	July 1,	July 2,
	2007	2006
Balance at beginning of period	\$ 12,897	\$ 10,496
Accruals for warranties issued during the period	6,829	12,085
Accruals related to pre-existing warranties (includes changes in estimates)	(1,870)	561
Settlements made during the period	(7,607)	(8,509)
Balance at end of period	\$ 10,249	\$ 14,633

When Teradyne receives revenue for extended warranties beyond one year, it is deferred and recognized on a straight-line basis over the contract period. Related costs are expensed as incurred. The balance below is included in short-term deferred revenue and long-term other accrued liabilities (in thousands).

	For the Six	x Months
	End	ed
	July 1,	July 2,
	2007	2006
Balance at beginning of period	\$ 8,350	\$ 5,596
Deferral of new extended warranty revenue	1,934	3,641
Recognition of extended warranty deferred revenue	(2,682)	(1,476)
Balance at end of period	\$ 7,602	\$ 7,761

E. Discontinued Operations

On August 1, 2007, Teradyne closed the sale of its Broadband Test Systems division to Tollgrade Communications, Inc. for \$11.3 million in cash. Teradyne sold this business as its growth potential as a stand- alone business within Teradyne was not attractive. The financial information for the Broadband Test Systems division was reclassified to discontinued operations for all periods presented. Broadband Test Systems net revenues and income (loss) from discontinued operations for the three and six months ended July 1, 2007 and July 2, 2006 are as follows (in thousands):

		For the Three Months Ended		ix Months ded
	July 1,	July 2,	July 1,	July 2,
	2007	2006	2007	2006
Net revenues	\$ 5,859	\$ 5,859 \$ 4,816		\$ 11,701
Income (loss) from discontinued operations	\$ 618	\$ (1,825)	\$ 711	\$ (1,715)

meome (1088) from discontinued operations	\$ 4 00	$\phi(1, 702)$	φ 4 00	φ (1,039)

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Included in discontinued operations for the three and six months ended July 1, 2007 are \$0.6 million of fees directly related to the sale transaction between Teradyne and Tollgrade Communications.

F. Stock-Based Compensation

During the six months ended July 1, 2007, Teradyne granted restricted stock units to employees, executives and directors. The total number of shares granted was 2.0 million at the weighted average grant date fair value of \$15.27. Awards granted to employees and executives vest in equal installments over four years. Awards granted to non-employee directors vest after one year. A significant number of awards granted to executive officers are performance-based restricted stock units. The amount of actual performance-based restricted stock units that will be allowed to vest over four years will be determined on or near the first anniversary of the grant.

G. Other Comprehensive Income

Other comprehensive income is calculated as follows for the three months ended (in thousands):

For the Three Months

	Ended		
	July 1, 2007	July 2	2, 2006

Additional minimum pension liability, net of tax of \$0		(212)	

Other comprehensive income \$ 26,499 \$ 125,112

8

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

H. Goodwill and Intangible Assets

Amortizable intangible assets consist of the following and are included in other assets on the balance sheet (in thousands):

	July 1, 2007					
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Weighted Average Useful Life		
Completed technology	\$ 19,193	\$ 14,564	\$ 4,629	7.5 years		
Service and software maintenance contracts and customer relationships	4,779	3,378	1,401	8.0 years		
Trade names and trademarks	3,800	2,692	1,108	8.0 years		
Acquired workforce	700	44	656	4.0 years		
Total intangible assets	\$ 28,472	\$ 20,678	\$ 7,794	7.6 years		

	December 31, 2006					
	Gross			Net	Weighted	
	Carrying Amount		umulated ortization	Carrying Amount	Average Useful Life	
Completed technology	\$ 19,193	\$	13,281	\$ 5,912	7.5 years	
Service and software maintenance contracts and customer relationships	4,779		3,078	1,701	8.0 years	
Trade names and trademarks	3,800		2,454	1,346	8.0 years	
Total intangible assets	\$ 27,772	\$	18,813	\$ 8,959	7.7 years	

Aggregate amortization expense was \$1.0 million for the three months ended July 1, 2007 and \$0.9 million for the three months ended July 2, 2006. Aggregate amortization expense for the six months ended July 1, 2007 was \$1.9 million and for the six months ended July 2, 2006 was \$1.8 million. Estimated amortization expense for each of the five succeeding fiscal years is as follows (in thousands):

Year	Amount
2007 (remainder)	\$ 1,794
2008	3,137
2009	2,644
2010	175
2011	44

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

I. Net Income per Common Share

The following table sets forth the computation of basic and diluted net income per common share (in thousands, except per share amounts):

	For the Three Months Ended			For the Six Months Ended				
		ıly 1, 2007		uly 2, 2006		uly 1, 2007		uly 2, 2006
Income from continuing operations	\$ 2	27,246	\$	84,187	\$	19,532	\$ 1	28,957
Income (loss) from discontinued operations		408		(1,782)		486		(1,639)
Net income for basic net income per share	2	27,654		82,405		20,018	1	27,318
Income impact of assumed conversion of convertible debt				2,629				5,383
Net income for diluted net income per share	\$ 2	27,654	\$	85,034	\$	20,018	\$ 1	32,701
Weighted average common shares basic	18	89,391	1	98,243	1	89,508	1	98,130
Effect of dilutive securities:								
Incremental shares from assumed conversion of convertible debentures				10,962				11,126
Employee and director stock options		1,169		703		1,057		1,003
Restricted stock units		742		340		552		274
Employee stock purchase rights		103		108		67		68
Dilutive potential common shares		2,014		12,113		1,676		12,471
Weighted average common shares diluted	19	91,405	2	10,356	1	91,184	2	10,601
Net income per common share basic	.		•				•	0.55
Continued operations	\$	0.14	\$	0.42	\$	0.10	\$	0.65
Discontinued operations		0.01				0.01		(0.01)
	\$	0.15	\$	0.42	\$	0.11	\$	0.64
Net income per common share diluted								
Continued operations	\$	0.14	\$	0.41	\$	0.10	\$	0.64
Discontinued operations				(0.01)				(0.01)
	\$	0.14	\$	0.40	\$	0.10	\$	0.63

The computation of diluted net income per common share for the three and six months ended July 1, 2007 excludes the effect of the potential exercise of options to purchase approximately 14.4 million and 14.6 million shares, respectively, because the option price was greater than the average market price of the common shares and the effect would have been anti-dilutive.

The computation of diluted net income per common share for the three and six months ended July 2, 2006 excludes the effect of the potential exercise of options to purchase approximately 15.5 million and 16.3 million shares, respectively, because the option price was greater than the average market price of the common shares and the effect would have been anti-dilutive. The effect of Teradyne s outstanding convertible notes on diluted net income per share for the three and six months ended July 2, 2006 was calculated using the if converted method as required by

SFAS No. 128, Earnings per Share . In using the if converted method, \$2.6 million and \$5.4 million of interest expense related to the convertible notes for the three and six months ended July 2, 2006, net of tax and profit sharing expenses, was added back to net income to arrive at diluted net income.

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

J. Restructuring and Other, Net

The tables below represent activity related to restructuring and other, net, in the six months ended July 1, 2007. The accrual for severance and benefits is reflected in accrued employees—compensation and withholdings. The accrual for lease payments on vacated facilities is reflected in other accrued liabilities and other long-term accrued liabilities and is expected to be paid out over the lease terms, the latest of which expires in 2012. Teradyne expects to pay out approximately \$1.8 million against the lease accruals over the next twelve months. Teradyne—s future lease commitments are net of expected sublease income of \$11.1 million as of July 1, 2007.

2007 Activities

	Vacated Facility	Severance and

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

During the six months ended July 1, 2007, Teradyne recorded the following pre-2006 restructuring activities:

\$0.9 million credit for earn-out payments received in the Assembly Test Systems segment from product line divestitures; and

\$0.3 million credit for revised estimates on severance payments.

K. Stock Repurchase Program

In July 2006, Teradyne s Board of Directors authorized a stock repurchase program. Under the program, Teradyne may spend up to an aggregate of \$400 million to repurchase shares of its common stock in open market purchases, in privately negotiated transactions or through other appropriate means over two years. Shares are to be repurchased at Teradyne s discretion, subject to market conditions and other factors. During the three months ended July 1, 2007, Teradyne repurchased 1.4 million shares of common stock for \$24.0 million at an average price of \$16.70. For the six months ended July 1, 2007, Teradyne repurchased 1.7 million shares of common stock for \$27.6 million at an average price of \$16.47 per share. The cumulative repurchases as of July 1, 2007 total 12.3 million shares of common stock for \$165.4 million at an average price of \$13.46. Subsequently, Teradyne has repurchased 5.5 million shares of common stock for \$87.3 million through August 3, 2007.

L. Technology Acquisition

On March 7, 2007, Teradyne purchased in-process enabling test technology and hired certain engineers from MOSAID Technologies Inc. for \$17.6 million, which includes \$0.6 million in fees directly related to the acquisition. Of the purchase price, \$16.7 million has been allocated to in-process research and development and therefore has been immediately charged to the statement of operations. The balance of the purchase price has been allocated to acquired workforce and fixed assets.

This technology was acquired for use in the development of a new semiconductor test product. As of the acquisition date, the technology had not reached technical feasibility, had no alternative future use and its fair value was estimable with reasonable reliability, and therefore has been classified as in-process research and development. The technology is unique to the semiconductor test market and requires significant development. The estimated fair value of the in-process technology was determined based on the use of a discounted cash flow model using an income approach. Estimated cash flows were probability adjusted to take into account the stage of completion and the risks surrounding successful development and commercialization of the in-process technology. Such a valuation requires significant estimates and assumptions including but not limited to determining the timing and estimated costs to complete the in-process project as well as the estimated cash flows to be generated as a result of completing the project development.

M. Retirement Plans

Defined Benefit Pension Plans

Teradyne has defined benefit pension plans covering a portion of domestic employees and employees of certain non-U.S. subsidiaries. Benefits under these plans are based on employees—years of service and compensation. Teradyne—s funding policy is to make contributions to the plans in accordance with local laws and to the extent that such contributions are tax deductible. The assets of the plans consist primarily of equity and fixed income securities. In addition, Teradyne has an unfunded supplemental executive defined benefit plan in the United States to provide retirement benefits in excess of levels allowed by the Employment Retirement Income Security Act and the Internal Revenue Code, as well as unfunded foreign plans.

Table of Contents 21

12

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Components of net periodic pension cost for all plans for the three and six months ended July 1, 2007 and July 2, 2006 are as follows (in thousands):

	For the Thi End		For the Six Montl Ended	
	July 1, 2007	July 2, 2006	July 1, 2007	July 2, 2006
Net Periodic Benefit Cost:				
Service cost	\$ 1,268	\$ 1,741	\$ 2,811	\$ 3,450
Interest cost	4,118	3,860	8,274	7,795
Expected return on plan assets	(4,879)	(4,384)	(9,762)	(8,721)
Amortization of unrecognized:				
Net transition obligation	(17)	19	(33)	38
Prior service cost	213	211	424	422
Net loss	847	1,326	1,822	2,945
Total expense	\$ 1,550	\$ 2,773	\$ 3,536	\$ 5,929

Teradyne contributed \$1.0 million to its United Kingdom Qualified Pension Plan and \$0.6 million to its Japan Qualified Pension Plan, in the six months ended July 1, 2007.

Postretirement Benefit Plans

In addition to receiving pension benefits, Teradyne s U.S. employees who meet specific retirement eligibility requirements as of their termination dates may participate in Teradyne s Welfare Plan, which includes death benefits, and medical and dental benefits up to age 65. Death benefits provide a fixed sum to retirees survivors and are available to all retirees.

Substantially all of Teradyne s current U.S. employees could become eligible for these benefits, and the existing benefit obligation relates primarily to those employees.

Components of net periodic postretirement cost are as follows (in thousands):

		ree Months	For the Six Months Ended		
	July 1, 2007	July 2, 2006	July 1, 2007	July 2, 2006	
Net Periodic Benefit Cost:					
Service cost	\$ 71	\$ 96	\$ 127	\$ 192	
Interest cost	317	411	658	822	
Amortization of unrecognized:					
Prior service cost	(59)	(59)	(118)	(118)	
Net loss	50	242	143	484	
Total expense	\$ 379	\$ 690	\$ 810	\$ 1,380	

N. Income Taxes

Teradyne adopted FIN 48, Accounting for Uncertainties in Income Taxes (FIN 48) effective January 1, 2007. FIN 48 applies to all income tax positions accounted for under FASB Statement No. 109, Accounting for Income Taxes, and addresses the determination of whether tax benefits claimed or expected to be claimed on a

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

tax return should be recorded in the financial statements. FIN 48 also addressed other aspects of reporting and disclosing uncertain tax positions. Upon adoption, the amount of unrecognized tax benefits, if recognized, would have impacted the effective tax rate by \$2.5 million. Upon adoption, it was anticipated that within the next twelve months of adoption \$2.3 million of unrecognized tax benefits would no longer be considered unrecognized tax benefits due to audit settlements. Upon adoption and as of July 1, 2007, Teradyne has open tax years beginning in 2003 for major jurisdictions including U.S., Japan, Singapore and the United Kingdom. Teradyne records all interest and penalties related to income taxes as a component of income tax expense. Accrued interest and penalties related to income tax items upon adoption and recognized during the three and six months ended July 1, 2007 was not material.

Teradyne s unrecognized tax benefits are as follows (in thousands):

	For t	he Six Months Ended
	Jı	uly 1, 2007
Beginning balance, upon adoption as of January 1, 2007	\$	10,584
Additions:		
Tax positions for current year		126
Tax positions for prior years		2,013
Ending balance as of April 1, 2007	\$	12,723
Additions:		
Tax positions for current year		37
Tax positions for prior years		2,407
Reductions:		
Settlements		(2,342)
Ending balance as of July 1, 2007	\$	12,825

Of the \$12.8 million of unrecognized tax benefits as of July 1, 2007, \$6.4 million would impact the consolidated income tax rate if ultimately recognized. The remaining \$6.4 million would impact goodwill if ultimately recognized. As of July 1, 2007, it is anticipated that within the next twelve months, \$2.0 million of unrecognized tax benefits will no longer be considered unrecognized tax benefits due to audit settlements.

Due to the continued uncertainty of realization, Teradyne maintained its valuation allowance at July 1, 2007 and December 31, 2006. Teradyne does not expect to significantly reduce its valuation allowance until sufficient positive evidence exists, including sustained profitability, that realization is more likely than not.

O. Commitments and Contingencies

Legal Claims

On September 5, 2001, after Teradyne s August 2000 acquisition of Herco Technology Corp. and Perception Laminates, Inc., the former owners of those companies filed a complaint against Teradyne and two of its then executive officers in the Federal District Court in San Diego, California, asserting securities fraud and breach of contract related to the acquisition. The District Court dismissed certain of the plaintiffs claims, granted partial summary judgment against them with respect to their breach of contract claim and denied their motion for reconsideration. In July 2007, after an appeal by the plaintiffs, the U.S. Court of Appeals for the Ninth Circuit affirmed in part and reversed in part the District Court rulings. Teradyne has petitioned the Ninth Circuit for rehearing of the ruling it reversed and will continue to defend the claim that was sent back to the District Court.

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In 2001, Teradyne was designated as a Potentially Responsible Party (PRP) at a clean-up site in Los Angeles, California. This claim arose out of its acquisition of Perception Laminates in August 2000. Prior to that date, Perception Laminates had itself acquired certain assets of Alco Industries Inc. under an asset purchase agreement dated October 20, 1992. Neither Teradyne nor Perception Laminates has ever conducted any operations at the Los Angeles site. Teradyne has asked the State of California to drop the PRP designation, but California has not yet agreed to do so.

In July 2007, Teradyne paid an immaterial amount and entered into a settlement agreement with the U.S. Environmental Protection Agency (EPA) and various regulatory agencies for the State of California for claims that Teradyne was a de minimis PRP with respect to the Casmalia Disposal Site in California.

Teradyne believes that it has meritorious defenses against the above unsettled claims and intends to vigorously contest them. While it is not possible to predict or determine the outcomes of the unsettled claims or to provide possible ranges of losses that may arise, Teradyne believes the losses associated with all of these actions will not have a material adverse effect on its consolidated financial position or liquidity, but could possibly be material to its consolidated results of operations of any one period.

In addition, Teradyne is subject to legal proceedings, claims and investigations that arise in the ordinary course of business such as, but not limited to, patent, employment, commercial and environmental matters. Although there can be no assurance, there are no such matters pending that Teradyne expects to be material with respect to its business, financial position or results of operations.

P. Segment Information

Teradyne has three reportable segments. The three reportable segments are the design, manufacturing and marketing of Semiconductor Test Systems, Assembly Test Systems, and Diagnostic Solutions. These reportable segments were determined based upon the information reviewed and used by the chief operating decision maker.

15

TERADYNE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Teradyne evaluates performance based on several factors, of which the primary financial measure is business segment income before taxes. The accounting policies of the business segments are the same as those described in Note B: Accounting Policies in Teradyne s Annual Report on Form 10-K for the year ended December 31, 2006. Due to the sale on August 1, 2007 of the Broadband Test Systems business, its results have been excluded in all periods presented. Previously, Broadband Test Systems and Diagnostic Solutions had been combined to make up the Other Test Systems segment. Segment information for the three and six months ended July 1, 2007 and July 2, 2006 is as follows (in thousands):

	Te	niconductor st Systems	Assembly Test Systems		Test Systems		Test Systems		Test Systems		Test Systems		Test Systems		•		S	Diagnostic Solutions Segment		Solutions an		orporate and minations	Co	nsolidated

Item 2: Management s Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Policies and Estimates

We have identified the policies which are critical to understanding our business and our results of operations. Management believes that there have been no significant changes during the six months ended July 1, 2007 to the items disclosed as our critical accounting policies and estimates in Management s Discussion and Analysis of Financial Condition and Results of Operations in its Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

Provision for income taxes as a percentage of income from continuing operations before income taxes

Results of Operations

On August 1, 2007, we closed the sale of our Broadband Test Systems division to Tollgrade Communications, Inc. for \$11.3 million in cash. We sold this business as its growth potential as a stand-alone business within Teradyne was not attractive.

In accordance with SFAS 144, we are reporting Broadband Test Systems as a discontinued operation in the consolidated financial statements for all periods presented throughout this Form 10-Q. Previously, Broadband Test Systems and Diagnostic Solutions had been combined to make up the Other Test Systems segment. Unless indicated otherwise, the discussion and amounts provided in this Results of Operations section and elsewhere in this Form 10-Q relate to continuing operations only.

Broadband Test Systems net revenues and income (loss) for the three and six months ended July 1, 2007 and July 2, 2006 are as follows (in thousands):

		For the Three Months Ended		ix Months ded
	July 1, 2007	July 2, 2006	July 1, 2007	July 2, 2006
Net revenues	\$ 5,859	\$ 4,816	\$ 10,224	\$ 11,701
Income (loss) before income taxes Income tax provision (benefit)	\$ 618 210	\$ (1,825) (43)	\$ 711 225	\$ (1,715) (76)
Income (loss) from discontinued operations	\$ 408	\$ (1,782)	\$ 486	\$ (1,639)

Included in discontinued operations for the three and six months ended July 1, 2007 are \$0.6 million of fees directly related to the sale transaction between Teradyne and Tollgrade Communications.

Second Quarter 2007 Compared to Second Quarter 2006

Bookings

Net bookings for our three reportable segments were as follows (dollars in millions, except percent change):

		For the Three Months Ended		
	July 1, 2007	July 2, 2006	% Change	
Semiconductor Test Systems	\$ 259.2	\$ 318.5	(18.6)%	
Assembly Test Systems	34.6	47.4	(27.0)	
Diagnostic Solutions	12.8	35.4	(63.8)	
	\$ 306.6	\$ 401.3	(23.6)%	

The Semiconductor Test Systems orders decreased 19% driven by less demand across a wide range of end markets, applications and geographies. The Semiconductor Test Systems business is dependent on the current and anticipated market for test equipment, which historically has been highly cyclical.

The Assembly Test Systems decrease in orders was primarily due to reduced Mil/Aero program-related bookings.

Diagnostic Solutions orders are program related and have significant fluctuations. The decrease in Diagnostic Solutions bookings was primarily due to a large program rollout in 2006 for the Vehicle Measurement Module product line.

Customers may delay delivery of products or cancel orders suddenly and without significant notice, subject to possible cancellation penalties. In the second quarter of 2007 and 2006, there were no significant cancellation penalties received. Due to possible changes in delivery schedules and cancellations of orders, our backlog at any particular date is not necessarily indicative of the actual sales for any succeeding period. Delays in delivery schedules and/or cancellations of backlog during any particular period could have a material adverse effect on our business, financial condition and results of operations.

Net bookings by region as a percentage of total net bookings were as follows:

	For the Thr	For the Three Months	
	End	ed	
	July 1,	July 2,	
	2007	2006	
Taiwan	24%	14%	
South East Asia	17	15	
United States	15	25	
Korea	13	11	
Singapore	13	8	
Europe	10	13	
Japan	7	13	
Rest of World	1	1	
	100%	100%	

Backlog of unfilled orders for our three reportable segments was as follows (dollars in millions):

	For the Tl	For the Three Months	
	Eı	nded	
	July 1,	July 2,	
	2007	2006	
Semiconductor Test Systems	\$ 250.6	\$ 307.8	
Assembly Test Systems	65.1	72.3	
Diagnostic Solutions	28.0	44.8	
	\$ 343.7	\$ 424.9	

Revenue

Net revenues for our three reportable segments were as follows (dollars in millions, except percent changes):

For the Th	ree Months	
En	ded	
July 1,	July 2,	%
2007	2006	Change

Edgar Filing: TERADYNE, INC - Form 10-Q

Semiconductor Test Systems	\$ 230.7	\$ 315.1	(26.8)%
Assembly Test Systems	41.2	41.6	(1.0)
Diagnostic Solutions	16.8	30.1	(44.2)
	\$ 288 7	\$ 386 8	(25.4)%

Semiconductor Test Systems revenue decrease can be attributed primarily to decreased demand across a wide range of end markets, applications and geographies.

The decrease in Diagnostic Solutions revenue was due primarily to the large program rollout in 2006 for the Vehicle Measurement Module product line.

Our sales by region as a percentage of total net sales were as follows:

For the Three Months

	Ended	l
	July 1,	July 2,
	2007	2006
United States	21%	20%
Taiwan	19	12
South East Asia	16	20
Singapore	15	12
Japan	11	11
Europe	10	15
Korea	6	9
Rest of the World	2	1
	100%	100%

Gross Profit

Our gross profit was as follows (dollars in millions):

For the Three Months

	End	Ended	
	July 1,	July 2,	Period
	2007	2006	Change
Gross Profit	\$ 137.2	\$ 190.6	\$ (53.4)
Percent of Total Revenue	47.5%	49.3%	

Gross profit as a percentage of revenue decreased from the second quarter of 2006 to 2007 by 1.8 percentage points. Of the decrease, 3.6 points can be attributed to lower volume in Semiconductor Test Systems offset in part by lower fixed costs and greater manufacturing efficiencies.

We assess the carrying value of our inventory on a quarterly basis by estimating future demand and comparing that demand against on-hand and on-order inventory provisions. Forecasted revenue information is obtained from the sales and marketing groups and incorporates factors such as backlog and future revenue demand. This quarterly process identifies obsolete and excess inventory. Obsolete inventory, which represents items for which there is no demand, is fully reserved. Excess inventory, which represents inventory items that are not expected to be consumed during the next four quarters, is written down to estimated net realizable value.

During the three months ended July 1, 2007 and July 2, 2006, we scrapped \$3.9 million and \$4.4 million of inventory, respectively, and sold \$0.6 million and \$2.0 million of previously written-down or written-off inventory, respectively. As of July 1, 2007, we have inventory related reserves for amounts which had been written-down or written-off totaling \$129.7 million. We have no pre-determined timeline to scrap the remaining inventory.

Engineering and Development

Engineering and development expenses were as follows (dollars in millions):

For the Three Months

	Ende	Ended	
	July 1,	July 2,	Period
	2007	2006	Change
Engineering and Development	\$ 52.4	\$ 51.8	\$ 0.6
Percent of Total Revenue	18.2%	13.4%	

The increase of \$0.6 million in engineering and development expenses is due to an increase in Semiconductor Test Systems spending related to entry into an adjacent market offset in part by a reduction in variable employee compensation expense across all segments.

Selling and Administrative

Selling and administrative expenses were as follows (dollars in millions):

For	the	Three	1/4	antha

	End	Ended		
	July 1,	July 2,	Period	
	2007	2006	Change	
Selling and Administrative	\$ 62.8	\$ 73.9	\$ (11.1)	
Percent of Total Revenue	21.7%	19.1%		

The decrease of \$11.1 million from the second quarter of 2006 to 2007 is primarily the result of:

a decrease of \$6.7 million in variable employee compensation; and

a decrease of \$4.4 million in transition expenses, including the consolidation of facilities in Massachusetts and costs associated with the outsourcing of certain information technology functions.

Restructuring and Other, Net

The tables below represent activity related to restructuring and other, net, in the three months ended July 1, 2007. The accrual for severance and benefits is reflected in accrued employees—compensation and withholdings. The accrual for lease payments on vacated facilities is reflected in other accrued liabilities and other long-term accrued liabilities and is expected to be paid out over the lease terms, the latest of which expires in 2012. We expect to pay out approximately \$1.8 million against the lease accruals over the next twelve months. Our future lease commitments are net of expected sublease income of \$11.1 million as of July 1, 2007.

2007 Activities

		Seve	rance and	
	Vacated			
(in thousands)	Facility Related	В	Benefits	Total
Balance at April 1, 2007	\$	\$	1,956	\$ 1,956
Charges			1,697	1,697
Cash payments			(1,404)	(1,404)
Balance at July 1, 2007	\$	\$	2,249	\$ 2,249

During the three months ended July 1, 2007, we recorded the following 2007 restructuring activities:

\$1.7 million of severance charges related to headcount reductions of 101 people across all functions and segments; The restructuring actions taken during the three months ended July 1, 2007, are expected to generate quarterly cost savings of approximately \$1.3 million.

Edgar Filing: TERADYNE, INC - Form 10-Q

2006 Activities

	Vacated Fa	cility Sev	verance and	
(in thousands)	Related	i	Benefits	Total
Balance at April 1, 2007	\$	480 \$	425	\$ 905
Charges			55	55
Cash payments	(145)	(313)	(458)
		·	· ·	·
Balance at July 1, 2007	\$	335 \$	167	\$ 502

Pre-2006 Activities

	Vacated	Severance	Gain on Sale	
	Facility	and	of	
(in thousands)	Related	Benefits	Product Lines	Total
Balance at April 1, 2007	\$ 8,079	\$ 868	\$	\$ 8,947
Credits	(52)	(226)	(906)	(1,184)
Cash payments	(674)	(242)	906	(10)
• •				
Balance at July 1, 2007	\$ 7,353	\$ 400		\$ 7,753

During the three months ended July 1, 2007, we recorded the following pre-2006 restructuring activities:

\$0.9 million credit for earn-out payments received in the Assembly Test Systems segment from product line divestitures; and

\$0.2 million credit for revised estimates on severance payments.

Interest Income and Expense

Interest income decreased to \$9.3 million for the second quarter of 2007 from \$11.7 million in the second quarter of 2006, due to lower cash balances primarily from the repayment of our 3.75% Convertible Notes (the Notes) in the fourth quarter of 2006 and stock repurchases made beginning in the second half of 2006. Interest expense decreased to \$0.1 million in the second quarter of 2007 from \$3.5 million in the second quarter of 2006, due primarily to the repayment of the Notes.

Income Taxes

The tax expense of \$3.5 million and \$9.4 million for the second quarter of 2007 and 2006, respectively consists primarily of foreign taxes. As a result of incurring significant operating losses from 2001 through 2003, we determined that it is more likely than not that our deferred tax assets may not be realized, and since the fourth quarter of 2002 we have established a full valuation allowance for our net deferred tax assets. If we generate sustained future taxable income against which these tax attributes may be applied, some portion or all of the valuation allowance would be reversed. If the valuation allowance were reversed, a portion would be recorded as an increase to additional paid in capital, and the remainder would be recorded as a reduction to income tax expense.

Six Months of 2007 Compared to Six Months of 2006

Bookings

Net bookings for our three reportable segments were as follows (in millions, except percent change):

	For the Six Months			
	Ended			
	July 1,	July 2,	Percent	
	2007	2006	Change	
Semiconductor Test Systems	\$ 461.9	\$ 627.9	(26.4)%	

Edgar Filing: TERADYNE, INC - Form 10-Q

Assembly Test Systems	66.1 24.5	82.4 50.9	(19.8) (51.9)
Diagnostic Solutions	24.3	30.9	(31.9)
	\$ 552.5	\$ 761.2	(27.4)%

The Semiconductor Test Systems orders decreased 26% driven by less demand across a wide range of end markets, applications and geographies. The Semiconductor Test Systems business is dependent on the current and anticipated market for test equipment, which historically has been highly cyclical.

The Assembly Test Systems decrease in orders was primarily due to reduced Mil/Aero program-related bookings.

Diagnostic Solutions orders are program related and have significant fluctuations. The decrease in Diagnostic Solutions bookings was primarily due to a large program rollout in 2006 for the Vehicle Measurement Module product line.

Customers may delay delivery of products or cancel orders suddenly and without significant notice, subject to possible cancellation penalties. In the first half of 2007 and 2006, there were no significant cancellation penalties received. Due to possible changes in delivery schedules and cancellations of orders, our backlog at any particular date is not necessarily indicative of the actual sales for any succeeding period. Delays in delivery schedules and/or cancellations of backlog during any particular period could have a material adverse effect on our business, financial condition and results of operations.

Net bookings by region as a percentage of total net bookings were as follows:

	For the Six Ende	
	July 1, 2007	July 2, 2006
United States	19%	23%
Taiwan	18	14
Singapore	16	13
South East Asia	15	17
Japan	12	13
Europe	11	12
Korea	8	7
Rest of the World	1	1
	100%	100%

Revenue

Net revenues for our three reportable segments were as follows (in millions, except percent changes):

	For the E		
	July 1, 2007	July 2, 2006	% Change
Semiconductor Test Systems	\$ 424.6	\$ 609.5	(30.3)%
Assembly Test Systems	82.5	80.3	2.7
Diagnostic Solutions	35.3	53.1	(33.5)
	\$ 542.4	\$ 742.9	(27.0)%

Semiconductor Test Systems revenue decrease can be attributed primarily to decreased demand across a wide range of end markets, applications and geographies.

The decrease in Diagnostic Solutions revenue was due primarily to the large program rollout in 2006 for the Vehicle Measurement Module product line.

Our sales by region as a percentage of total net sales were as follows:

	For the Six Ende	
	July 1, 2007	July 2, 2006
United States	24%	21%
Singapore	15	13
South East Asia	14	20
Taiwan	13	15
Europe	12	15
Japan	12	9
Korea	7	6
Rest of the World	3	1
	100%	100%

Gross Profit

Our gross profit was as follows (dollars in millions):

		For the Six Months Ended		
	July 1, 2007	July 2, 2006	Period Change	
Gross Profit	\$ 250.6	\$ 357.7	\$ (107.1)	
Percent of Total Revenue	46 2%	48 2%		

The decrease in gross profit as a percentage of revenue from the first six months of 2006 to 2007 was primarily the result of lower volume in Semiconductor Test Systems, which accounted for 5.6 points of the decrease. This decrease was partially offset by 1.7 points resulting from the charge in non-FLEX inventory writedowns in Semiconductor Test Systems as well as lower fixed manufacturing costs in the first six months of 2007 compared to the first six months of 2006.

We assess the carrying value of our inventory on a quarterly basis by estimating future demand and comparing that demand against on-hand and on-order inventory provisions. Forecasted revenue information is obtained from the sales and marketing groups and incorporates factors such as backlog and future revenue demand. This quarterly process identifies obsolete and excess inventory. Obsolete inventory, which represents items for which there is no demand, is fully reserved. Excess inventory, which represents inventory items that are not expected to be consumed during the next four quarters, is written down to estimated net realizable value.

Included in gross profit for the six months ended July 2, 2006 is an inventory provision of \$8.0 million related to non-FLEX products. During the six months ended July 1, 2007 and July 2, 2006, we scrapped \$9.2 million and \$11.8 million of inventory, respectively, and sold \$0.6 million and \$2.0 million of previously written-down or written-off inventory, respectively. As of July 1, 2007, we have inventory related reserves for amounts which had been written-down or written-off of \$129.7 million. We have no pre-determined timeline to scrap the remaining inventory.

Engineering and Development

Engineering and development expenses were as follows (dollars in millions):

	For the Six Months			
	Ende	Ended		
	July 1,	July 2,	Period	
	2007	2006	Change	
Engineering and Development	\$ 101.7	\$ 102.4	\$ (0.7)	
Percent of Total Revenue	18.7%	13.8%		

The decrease of \$0.7 million in engineering and development expenses is due to a reduction in variable employee compensation expense across all segments offset in part by an increase in Semiconductor Test Systems spending related to entry into an adjacent market.

Selling and Administrative

Selling and administrative expenses were as follows (dollars in millions):

	For the Six Months Ended		
	July 1, 2007	July 2, 2006	Period Change
Selling and Administrative	\$ 125.8	\$ 144.3	\$ (18.5)
Sennig and Administrative	\$ 123.0	\$ 1 44 .5	\$ (10.5)
Percent of Total Revenue	23.2%	19.4%	

The decrease of \$18.5 million from the second quarter of 2006 to 2007 is primarily the result of:

a decrease of \$12.8 million in variable employee compensation; and

a decrease of \$8.0 million in transition expenses, including the consolidation of facilities in Massachusetts and costs associated with the outsourcing of certain information technology functions.

These decreases were offset in part by a \$2.3 million net loss in spare parts due to a fire at a third party site in Taiwan in the second quarter of 2006.

Restructuring and Other, Net

The tables below represent activity related to restructuring and other, net, in the six months ended July 1, 2007. The accrual for severance and benefits is reflected in accrued employees—compensation and withholdings. The accrual for lease payments on vacated facilities is reflected in other accrued liabilities and other long-term accrued liabilities and is expected to be paid out over the lease terms, the latest of which expires in 2012. We expect to pay out approximately \$1.8 million against the lease accruals over the next twelve months. Our future lease commitments are net of expected sublease income of \$11.1 million as of July 1, 2007.

2007 Activities

Cash payments	(53)	(1,914)	(1,967)
Balance at July 1, 2007	\$	\$ 2,249	\$ 2,249

During the six months ended July 1, 2007, we recorded the following 2007 restructuring activities:

\$4.2 million of severance charges related to headcount reductions of 139 people across all functions and segments; and

\$0.1 million of facility charges related to an early exit of an Assembly Test facility in Poway, California.

The restructuring actions taken during the six months ended July 1, 2007, are expected to generate quarterly cost savings of approximately \$2.2 million.

2006 Activities

(in thousands)	Vacated Facility Related	Severance and Benefits	Total
Balance at December 31, 2006	\$ 625	\$ 1,865	\$ 2,490
Credits		(141)	(141)

Balance at July 1, 2007	\$ 7,353	\$ 400	\$	\$ 7,753

Gain on Sale

During the six months ended July 1, 2007, Teradyne recorded the following pre-2006 restructuring activities:

\$0.9 million credit for earn-out payments received in the Assembly Test Systems segment from product line divestitures; and

\$0.3 million credit for revised estimates on severance payments.

In-process Research and Development

On March 7, 2007, we purchased in-process enabling test technology and hired certain engineers from MOSAID Technologies Inc. for \$17.6 million, which includes \$0.6 million in fees directly related to the acquisition. Of the purchase price, \$16.7 million has been allocated to in-process research and development and therefore has been immediately charged to the statement of operations. The balance of the purchase price has been allocated to acquired workforce and fixed assets.

Edgar Filing: TERADYNE, INC - Form 10-Q

This technology was acquired for use in the development of a new semiconductor test product. As of the acquisition date, the technology had not reached technical feasibility, had no alternative future use and its fair value was estimable with reasonable reliability, and therefore has been classified as in-process research and development. The technology is unique to the semiconductor test market and requires significant development. The estimated fair value of the in-process technology was determined based on the use of a discounted cash flow

model using an income approach. Estimated cash flows were probability adjusted to take into account the stage of completion and the risks surrounding successful development and commercialization of the in-process technology. Such a valuation requires significant estimates and assumptions including but not limited to determining the timing and estimated costs to complete the in-process project as well as the estimated cash flows to be generated as a result of completing the project development.

Interest Income and Expense

Interest income decreased to \$19.4 million for the first six months of 2007 from \$21.1 million in the first six months of 2006 due to lower cash balances from the repayment of our 3.75% Senior Convertible Notes (the Notes) in the fourth quarter of 2006 and stock repurchases made beginning in the second half of 2006. Interest expense decreased to \$0.5 million in the first six months of 2007 from \$6.8 million in the first six months of 2006 due primarily to the repayment of the Notes.

Income Taxes

The tax expense of \$4.8 million and \$18.0 million for the first six months of 2007 and 2006, respectively, consists primarily of foreign taxes. As a result of incurring significant operating losses from 2001 through 2003, we determined that it is more likely than not that our deferred tax assets may not be realized, and since the fourth quarter of 2002 we have established a full valuation allowance for our net deferred tax assets. If we generate sustained future taxable income against which these tax attributes may be applied, some portion or all of the valuation allowance would be reversed. If the valuation allowance were reversed, a portion would be recorded as an increase to additional paid in capital, and the remainder would be recorded as a reduction to income tax expense.

Contractual Obligations

As of July 1, 2007, our purchase obligations with vendors totaled \$136.3 million.

Liquidity and Capital Resources

Our cash, cash equivalents and marketable securities balance decreased \$60.6 million in the first six months of 2007, to \$0.9 billion. Cash and cash equivalents activity for the first six months of 2007 and 2006 was as follows (in millions):

	For the Six Months Ended	
	July 1, 2007	July 2, 2006
Cash provided by (used for) operating activities:		
Net income from continuing operations, adjusted for non-cash items	\$ 86.1	\$ 172.2
Changes in operating assets and liabilities, net of product lines and businesses sold	(72.0)	27.7
Cash (used for) provided by discontinued operations	(3.0)	3.3
Total cash provided by operating activities	11.1	203.2
Cash used for investing activities from continuing operations	(172.4)	(201.6)
Cash used for investing activities from discontinued operations	(0.2)	(0.3)
Total cash used for investing activities	(172.6)	(201.9)
Total cash used for financing activities	(13.3)	(5.5)
Decrease in cash and cash equivalents	\$ (174.8)	\$ (4.2)

Changes in operating assets and liabilities used cash of \$72.0 million in the first six months of 2007 due primarily to an increase in accounts receivable of \$55.8 million and a decrease in accrued income taxes of \$26.0 million for taxes paid primarily in foreign jurisdictions. Accounts receivable increased \$55.8 million, primarily in the Semiconductor Test Systems segment, partially due to increased volume since the end of the year and partially due to an increase in days sales outstanding from 55 days as of December 31, 2006 to 67 days as of July 1, 2007 due to increased shipments in the last month of the quarter. Inventory decreased \$24.9 million in the first six months of 2007 primarily in our Semiconductor Test Systems segment and to a lesser extent in the Assembly Test Systems segment. Changes in operating assets and liabilities provided cash of \$27.7 million in the first six months of 2006 due primarily to a \$48.4 million decrease in inventory as a result of shorter final configuration and test cycle time with our Flex products. Accounts receivable balances increased \$49.5 million, primarily in the Semiconductor Test Systems segment, due to an increase in volume. We contributed \$20 million to the U.S. Qualified Pension Plan and \$5.3 million to the U.K. Qualified Pension Plan during the six months ended July 2, 2006.

Investing activities consist of purchases of capital assets, the acquisition of technology for \$17.6 million in the first quarter of 2007, proceeds from sales of buildings or product lines as well as the purchase, sale and maturity of marketable securities. Capital expenditures decreased by \$7.7 million in the first six months of 2007 compared to the first six months of 2006 primarily in the Semiconductor Test Systems segment due to a decrease in spending on internally manufactured test systems.

Financing activities represent the sale of our common stock, repurchases of our common stock and payments on our convertible senior notes and other debt. During the six months ended July 1, 2007, we repurchased 1.7 million shares of our common stock for \$27.6 million at an average price of \$16.47. During the six months ended July 2, 2006, we repurchased \$15 million of our 3.75% Convertible Senior Notes.

We believe our cash, cash equivalents and marketable securities balance of \$0.9 billion will be sufficient to meet working capital and expenditure needs for at least the foreseeable future. Inflation has not had a significant long-term impact on earnings.

Equity Compensation Plans

In addition to our 1996 Employee Stock Purchase Plan discussed in Note O: Stock Based Compensation in our 2006 Form 10-K, we have a 2006 Equity and Cash Compensation Incentive Plan (the 2006 Equity Plan), a cash and equity compensation incentive plan.

The purpose of the 1996 Employee Stock Purchase Plan is to encourage stock ownership by all eligible employees of Teradyne. The purpose of the 2006 Equity Plan is to provide equity ownership and compensation opportunities in Teradyne to our employees, officers, directors, consultants and/or advisors. Both plans were approved by our shareholders.

Recently Issued Accounting Pronouncements

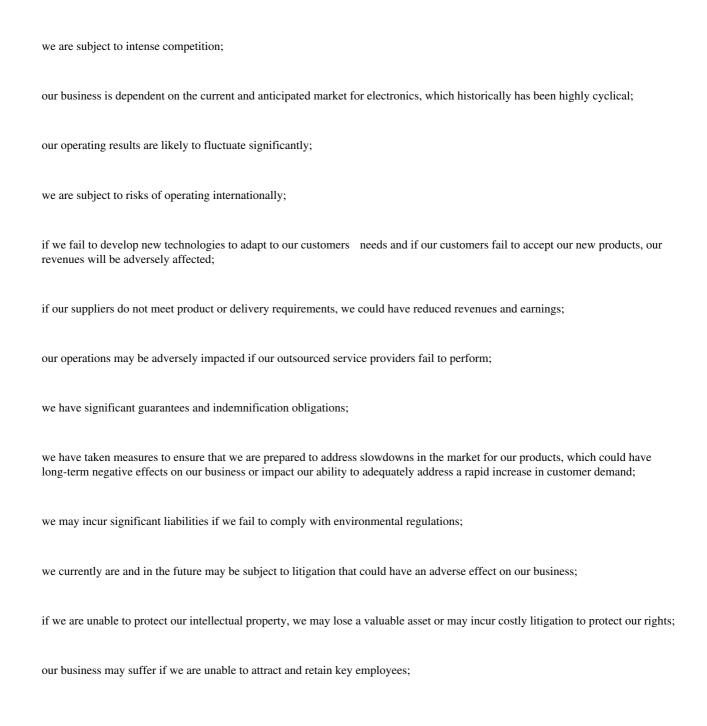

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157). SFAS No. 157 which establishes a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. This accounting standard is effective for financial statements issued for fiscal years beginning after November 15, 2007. We are currently evaluating the impact of adopting this standard.

Certain Factors That May Affect Future Results

From time to time, information we provide, statements made by our employees or information included in our filings with the SEC (including this Form 10-Q) contain statements that are not purely historical, but are

29

forward looking statements, made under Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), which involve risks and uncertainties. In particular, forward looking statements made herein include projections, plans and objectives for our business, financial condition, operating results, future operations, or future economic performance, statements relating to the sufficiency of capital to meet working capital requirements, capital expenditures, including future lease payments and commitments and contributions to our pension plan, expectations as to customer orders and demand for our products and statements relating to backlog, bookings and cancellations, gross margins and pricing considerations. These statements are neither promises nor guarantees but involve risks and uncertainties, both known and unknown, which could cause our actual future results to differ materially from those stated in any forward looking statements. Factors that may cause such differences include, but are not limited to the following:

Edgar Filing: TERADYNE, INC - Form 10-Q

we may incur higher tax rates than we expect;

our business is impacted by worldwide economic cycles, which are difficult to predict;

acts of war, terrorist attacks and the threat of domestic and international terrorist attacks may adversely impact our business;

provisions of our charter and by-laws and Massachusetts law make a takeover of Teradyne more difficult; and

we may acquire new businesses or form strategic alliances in the future, and we may not realize the benefits of such acquisitions. These factors, and others, are discussed from time to time in our filings with the SEC, including our Annual Report on Form 10-K filed with the SEC on March 1, 2007 for the year ended December 31, 2006.

30

Item 3: Quantitative and Qualitative Disclosures about Market Risk

For Quantitative and Qualitative Disclosures about Market Risk affecting Teradyne, see Item 7a. Quantitative and Qualitative Disclosures About Market Risks, in our Annual Report on Form 10-K filed with the SEC on March 1, 2007. There were no material changes in our exposure to market risk from those set forth in our Annual Report for the fiscal year ended December 31, 2006.

Item 4: Controls and Procedures

As of the end of the period covered by this report, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(b) promulgated under the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective in ensuring that material information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms, including ensuring that such material information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

During the period covered by this report, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

31

PART II. OTHER INFORMATION

Item 1: Legal Proceedings

On September 5, 2001, after our August 2000 acquisition of Herco Technology Corp. and Perception Laminates, Inc., the former owners of those companies filed a complaint against Teradyne and two of our then executive officers in the Federal District Court in San Diego, California, asserting securities fraud and breach of contract related to the acquisition. The District Court dismissed certain of the plaintiffs—claims, granted partial summary judgment against them with respect to their breach of contract claim and denied their motion for reconsideration. In July 2007, after an appeal by the plaintiffs, the U.S. Court of Appeals for the Ninth Circuit affirmed in part and reversed in part the District Court rulings. We have petitioned the Ninth Circuit for rehearing of the ruling that it reversed and will continue to defend the claim that was sent back to the District Court.

In 2001, we were designated as a Potentially Responsible Party (PRP) at a clean-up site in Los Angeles, California. This claim arose out of our acquisition of Perception Laminates in August 2000. Prior to that date, Perception Laminates had itself acquired certain assets of Alco Industries Inc. under an asset purchase agreement dated October 20, 1992. Neither Teradyne nor Perception Laminates has ever conducted any operations at the Los Angeles site. We have asked the State of California to drop the PRP designation, but California has not yet agreed to do so.

In July 2007, we paid an immaterial amount and entered into a settlement agreement with the EPA and various regulatory agencies for the State of California for claims that we were a de minimis PRP with respect to the Casmalia Disposal Site in California.

We believe that we have meritorious defenses against the above unsettled claims and intend to vigorously contest them. While it is not possible to predict or determine the outcomes of the unsettled claims or to provide possible ranges of losses that may arise, we believe the losses associated with all of these actions will not have a material adverse effect on our consolidated financial position or liquidity, but could possibly be material to our consolidated results of operations of any one period.

In addition, we are subject to legal proceedings, claims and investigations that arise in the ordinary course of business such as, but not limited to, patent, employment, commercial and environmental matters. Although there can be no assurance, there are no such matters pending that we expect to be material with respect to our business, financial position or results of operations.

Item 1A: Risk Factors

In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed in Part I, Item 1A: Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2006, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

32

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds

(c) The following table includes information with respect to repurchases we made of our common stock during the three-month period ended July 1, 2007 (in thousands except per share price):

				1	Number
				(or App	roximate Dollar
				Valu	e) of Shares

⁽¹⁾ In July 2006, our Board of Directors authorized a stock repurchase program. Under the program, we may spend up to an aggregate of \$400 million to repurchase shares of our common stock in open market repurchases, in privately negotiated transactions or through other appropriate means over the next two years.

^{1.} To approve an amendment to the 1996 Employee Stock Purchase Plan to increase the aggregate number of shares of common stock that may be issued pursuant to the plan by 5,000,000 shares.
