Business Outlook

For the full year 2008, the Company expects to continue the year-on-year net revenue growth at a rate of approximately 35%.

To support the future business expansion, the Company acquired the land use right to a piece of land in Nantong, in January 2008, Nantong is a city in Jiangsu Province and is approximately 110 kilometers north of Shanghai. The Company plans to build its second call center on this piece of land.

The new EIT law became effective on January 1, 2008. The tax rate under the new EIT law is generally 25%, except for certain entities that are subject to preferential tax treatments, such as high and new technology enterprises. However, no guideline has been published on requirements to be satisfied in order to enjoy the preferential tax treatments or on application procedures for such treatments. The Company would apply the general tax rate of 25% before the guidelines on preferential tax treatments are finalized and application for such treatments is approved. The effective tax rate that will eventually apply to the Company for 2008 will depend on many factors, including, but not limited to, whether certain Ctrip's entities can qualify as high and new technology enterprises as such enterprises are defined under the new EIT law.

About Non-GAAP Financial Measures

To supplement Ctrip's unaudited consolidated financial statements presented in accordance with the United States Generally Accepted Accounting Principles (GAAP), Ctrip uses non-GAAP financial information related to product development expenses, sales and marketing expenses, general and administrative expenses, income from operations, operating margin, net income, and diluted earnings per ADS and per share, each of which is adjusted from the most comparable GAAP result to exclude the share-based compensation charges recorded under Statement of Financial Accounting Standard 123R, "Share-Based Payment", for 2007 and 2006. Ctrip's management believes the non-GAAP financial measures facilitate better understanding of operating results from quarter to quarter and provides the management better capability to plan and forecast future periods.

The non-GAAP information is not in accordance with GAAP and may be different from non-GAAP methods of accounting and reporting used by other companies. The presentation of this additional information should not be considered a substitute for the GAAP results. A limitation of using these non-GAAP financial measures is that these non-GAAP measures exclude share-based compensation charges that have been and will continue to be significant recurring expenses in our business for the foreseeable future.

Table of Contents

Reconciliations of Ctrip's non-GAAP financial data to the most comparable GAAP data included in the consolidated statement of operations are included at the end of this press release.
