FORM 10-Q

þ Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended June 30, 2009

OR

¨ Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____

Assurant, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation)

001-31978
(Commission File Number)
One Chase Manhattan Plaza, 41st Floor

39-1126612
(I.R.S. Employer Identification No.)

New York, New York 10005

(212) 859-7000

(Address, including zip code, and telephone number, including

area code, of Registrant's Principal Executive Offices)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES ☒ NO ☐

Edgar Filing: ASSURANT INC - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES ☒ NO ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES ☐ NO ☒

The number of shares of the registrant's Common Stock outstanding at August 3, 2009 was 117,926,517.

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Six Months Ended June 30, 2009 and 2008

(In thousands, except per share and share amounts)

1. Nature of Operations

Assurant, Inc. (the Company) is a holding company whose subsidiaries provide specialized insurance products and related services in North America and selected other international markets.

The Company is traded on the New York Stock Exchange under the symbol AIZ.

Through its operating subsidiaries, the Company provides creditor-placed homeowners insurance, manufactured housing homeowners insurance, debt protection administration, credit-related insurance, warranties and service contracts, individual health and small employer group health insurance, group dental insurance, group disability insurance, group life insurance and pre-funded funeral insurance.

2. Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information. Accordingly, these statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

The interim financial data as of June 30, 2009 and for the three and six months ended June 30, 2009 and June 30, 2008 is unaudited; in the opinion of management, the interim data includes all adjustments, consisting only of normal recurring adjustments, necessary to a fair statement of the results for the interim periods. The unaudited interim consolidated financial statements include the accounts of the Company and all of its wholly owned subsidiaries. All inter-company transactions and balances are eliminated in consolidation. Certain prior period amounts have been reclassified to conform to the 2009 presentation.

Effective January 1, 2009, new preneed life insurance policies in which death benefit adjustments are determined at the discretion of the Company are accounted for as universal life contracts under Statement of Financial Accounting Standards (FAS) No. 97, *Accounting and Reporting by Insurance Enterprises for Certain Long-Duration Contracts and for Realized Gains and Losses from the Sale of Investments* (FAS 97). For contracts sold prior to January 1, 2009, these preneed life insurance policies were accounted for and will continue to be accounted for under FAS No. 60, *Accounting and Reporting by Insurance Enterprises* (FAS 60). The change from reporting certain preneed life insurance policies in accordance with FAS 97 versus FAS 60 is not material to the statement of operations or balance sheet.

In accordance with FAS 97, income earned on new preneed life insurance policies is presented within policy fee income. Under FAS 60, the consideration received on preneed policies is presented separately as net earned premiums, with policyholder benefits expense being separately disclosed as incurred losses. As previously noted, the effects on net income for the three months and six months ended June 30, 2009 was not material.

Operating results for the three and six months ended June 30, 2009 are not necessarily indicative of the results that may be expected for the year ending December 31, 2009. The accompanying unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

Six Months Ended June 30, 2009 and 2008

(In thousands, except per share and share amounts)

3. Recent Accounting Pronouncements

Recent Accounting Pronouncements - Adopted

On January 1, 2009, the Company adopted FAS No. 141R, *Business Combinations* (FAS 141R). FAS 141R replaces FAS No. 141, *Business Combinations* (FAS 141). FAS 141R retains the fundamental requirements of FAS 141 in that the acquisition method of accounting be used for all business combinations, that an acquirer be identified for each business combination and for goodwill to be recognized and measured as a residual. FAS 141R expands the definition of transactions and events that qualify as business combinations to all transactions and other events in which one entity obtains control over one or more other businesses. FAS 141R broadens the fair value measurement and recognition of assets acquired, liabilities assumed and interests transferred as a result of business combinations. FAS 141R also increases the disclosure requirements for business combinations in the consolidated financial statements. The adoption of FAS 141R did not have an impact on the Company's financial position or results of operations. However, should the Company enter into any business combination in 2009 or beyond, our financial position or results of operations could incur a significantly different impact than had it recorded the acquisition under FAS 141. Earnings volatility could result, depending on the terms of the acquisition.

On January 1, 2009, the Company adopted FAS No. 160, *Noncontrolling Interest in Consolidated Financial Statements - an amendment of ARB No. 51* (FAS 160). FAS 160 requires that a noncontrolling interest in a subsidiary be separately reported within equity and the amount of consolidated net income attributable to the noncontrolling interest be presented in the statement of operations. FAS 160 also calls for consistency in reporting changes in the parent's ownership interest in a subsidiary and necessitates fair value measurement of any noncontrolling equity investment retained in a deconsolidation. The adoption of FAS 160 did not have an impact on the Company's financial position or results of operations.

On January 1, 2009, the Company applied FAS No. 157, *Fair Value Measurements* (FAS 157), for all non-financial assets and liabilities measured at fair value on a non-recurring basis in accordance with Financial Accounting Standards Board (FASB) Staff Position (FSP) FAS 157-2, *Effective Date of FAS 157* (FSP FAS 157-2). FSP FAS 157-2 postponed the effective date of FAS 157 for those assets and liabilities to fiscal years beginning after November 15, 2008, which for the Company is January 1, 2009. The application of FSP FAS 157-2 did not have an impact on the Company's financial position or results of operations. The Company's non-financial assets measured at fair value on a non-recurring basis include goodwill and intangible assets. In a business combination, the non-financial assets and liabilities of the acquired company would be measured at fair value in accordance with FAS 157. The requirements of FAS 157 include using an exit price based on an orderly transaction between market participants at the measurement date assuming the highest and best use of the asset by market participants. To perform a market valuation, the Company is required to use a market, income or cost approach valuation technique(s). Since the Company performs its annual impairment analyses of goodwill and indefinite-lived intangible assets in the fourth quarter of each year and since there have been no impairment triggers during the first half of 2009, the application of FAS 157 for all non-financial assets and liabilities measured at fair value on a non-recurring basis did not have an impact on the Company's financial position or results of operations. However, there may be an impact during 2009 on the Company's financial position and results of operations when the Company performs an impairment analysis of goodwill and indefinite-lived intangible assets due to the difference in fair value methodology required under FAS 157.

On January 1, 2009, the Company adopted FSP Emerging Issues Task Force (EITF) Issue 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (FSP EITF 03-6-1). FSP EITF 03-6-1 requires unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents to be treated as participating securities. Therefore, the Company's restricted stock and restricted stock units which have non-forfeitable rights to dividends are included in calculating basic and diluted earnings per share under the two-class method described in FAS No. 128, *Earnings Per Share* (FAS 128). All prior period earnings per share data presented have been adjusted retrospectively. The adoption of FSP EITF 03-6-1 did not have a material impact on the Company's basic and diluted earnings per share calculations for the periods ended June 30, 2009 and 2008. See Note 10 for further information.

Edgar Filing: ASSURANT INC - Form 10-Q

On April 1, 2009, the Company adopted FSP FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP FAS 157-4). FSP FAS 157-4 supersedes FSP FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active*. FSP FAS 157-4 provides additional guidance for estimating fair value in accordance with FAS 157 when the volume and level of activity for an asset or liability have significantly decreased. FSP FAS 157-4 also includes guidance on identifying circumstances indicating that a transaction is not orderly. Under FSP FAS 157-4, significant decreases in the volume and level of activity of an asset or liability,

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited) (Continued)

Six Months Ended June 30, 2009 and 2008

(In thousands, except per share and share amounts)

in relation to normal market activity, requires further evaluation of transactions or quoted prices and exercise of significant judgment in arriving at fair values. FSP FAS 157-4 also requires additional interim and annual disclosures. The adoption of FSP FAS 157-4 did not have an impact on the Company's financial position or results of operations.

On April 1, 2009, the Company adopted FSP FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments* (OTTI) (FSP FAS 115-2 and FAS 124-2). FSP FAS 115-2 and FAS 124-2 amends the OTTI guidance for debt securities and modifies the presentation and disclosure requirements for debt and equity securities. FSP FAS 115-2 and FAS 124-2 amends the requirement for an entity to positively assert the intent and ability to hold a debt security to recovery to determine whether an OTTI exists and replaces this provision with the assertion that an entity does not intend to sell or it is not more likely than not that the entity will be required to sell a security prior to recovery of its amortized cost basis. Additionally, FSP FAS 115-2 and FAS 124-2 modifies the presentation of certain OTTI debt securities to only present the impairment loss within the results of operations that represents the credit loss associated with the OTTI with the remaining impairment loss being presented within other comprehensive (loss) income (OCI). At adoption, the Company recorded a cumulative effect adjustment to reclassify the non-credit component of previously recognized OTTI securities which resulted in an increase of \$43,117 (after-tax) in retained earnings and a decrease of \$43,117 (after-tax) in accumulated OCI (AOCI). See Note 4 for further information.

On April 1, 2009, the Company adopted FSP FAS 107-1 and Accounting Principles Board Opinion (APB) 28-1, *Interim Disclosures about Fair Value of Financial Instruments* (FSP FAS 107-1 and APB 28-1). FSP FAS 107-1 and APB 28-1 requires disclosures about fair value of financial instruments already required in annual financial statements to be included within interim financial statements. FSP FAS 107-1 and APB 28-1 also requires disclosure of the methods and assumptions used to estimate fair value. The adoption of FSP FAS 107-1 and APB 28-1 did not have an impact on the Company's financial position or results of operations. See Note 5 for further information.

On June 30, 2009, the Company adopted FAS 165, *Subsequent Events* (FAS 165), which provides guidance to establish general standards of accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. FAS 165 also requires disclosure of the date through which subsequent events were evaluated as well as the rationale for why that date was selected. The adoption of FAS 165 did not have an impact on the Company's financial position or results of operations. See Note 14.

Recent Accounting Pronouncements - Not Yet Adopted

In December 2008, the FASB issued FSP FAS 132R-1, *Employers' Disclosures About Postretirement Plan Benefit Assets* (FSP FAS 132R-1). FSP FAS 132R-1 will require companies that are subject to the disclosure requirements of FAS 132R, *Employers' Disclosures about Pensions and Other Postretirement Benefits* an amendment of FASB Statements No. 87, 88, and 106, to make additional disclosures about plan assets for defined benefit pension and other postretirement benefit plans. The additional disclosure requirements of FSP FAS 132R-1 include how investment allocation decisions are made, the major categories of plan assets and the inputs and valuation techniques used to measure the fair value of plan assets. FSP FAS 132R-1 will be effective for fiscal years ending after December 15, 2009. Therefore, the Company is required to adopt FSP FAS 132R-1 on December 31, 2009. The adoption of FSP FAS 132R-1 will not have an impact on the Company's financial position or results of operations.

In June 2009, the FASB issued FAS No. 166, *Accounting for Transfers of Financial Assets* an amendment of FASB Statement No. 140 (FAS 166). FAS 166 amends the derecognition guidance in FASB Statement No. 140 and eliminates the exemption from consolidation for qualifying special-purpose entities. The new guidance is effective for transfers of financial assets occurring in fiscal years beginning after November 15, 2009 and in interim periods within those fiscal years. Therefore, the Company is required to adopt FAS 166 on January 1, 2010. The Company is currently evaluating the requirements of FAS 166 and the potential impact, if any, on the Company's financial position and results of operations.

Edgar Filing: ASSURANT INC - Form 10-Q

In June 2009, the FASB issued FAS No. 167, *Amendments to FASB Interpretation No. 46R* (FAS 167). FAS 167 amends the consolidation guidance applicable to variable interest entities (VIE). FAS 167 requires a qualitative assessment in the determination of the primary beneficiary of the VIE. FAS 167 changes the consideration of kick-out rights in determining if an entity is a VIE which may cause certain additional entities to now be considered VIEs. FAS 167 also requires an ongoing reconsideration of

Six Months Ended June 30, 2009 and 2008

(In thousands, except per share and share amounts)

the primary beneficiary and amends the events that trigger a reassessment of whether an entity is a VIE. FAS 167 provides two transition alternatives: (i) retrospective application with a cumulative-effect adjustment to retained earnings as of the beginning of the first year adjusted; or (ii) application as of the date of adoption with a cumulative-effect adjustment to retained earnings recognized on that date. FAS 167 is effective as of the beginning of the Company's first fiscal year beginning after November 15, 2009, and for interim periods within those fiscal years. Therefore, the Company is required to adopt FAS 167 on January 1, 2010. The Company is currently evaluating the requirements of FAS 167 and the potential impact, if any, on the Company's financial position and results of operations.

In June 2009, the FASB issued FAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles - a replacement of FASB Statement No. 162* (FAS 168). FAS 168 establishes a single source of authoritative accounting and reporting guidance recognized by the FASB for nongovernmental entities (the Codification). The Codification does not change current U.S. GAAP, but is intended to simplify user access to all authoritative U.S. GAAP by providing all the authoritative literature related to a particular topic in one place. All existing accounting standard documents will be superseded and all other accounting literature not included in the Codification will be considered nonauthoritative. The Codification is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Codification is effective for the Company in the interim period ending September 30, 2009 and the Company does not expect the adoption to have an impact on the Company's financial position or results of operations. The references to accounting guidance contained in the Company's consolidated financial statements and disclosures will be updated in accordance with FAS 168.

The following table summarizes the proceeds from sales of available-for-sale securities and the gross realized gains and gross realized losses that have been included in earnings as a result of those sales.

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2009	2008	2009	2008
Proceeds from sales	\$ 281,069	\$ 495,453	\$ 475,036	\$ 1,261,037
Gross realized gains	7,242	10,003	12,336	36,218
Gross realized losses	2,618	18,062	39,421	43,618

Throughout 2008 and continuing into 2009, the fixed maturity and equity security markets experienced significant volatility and declines in market values. These declines were primarily due to a depressed housing market, unemployment, credit availability, as well as a general economic slowdown. As a result, certain securities directly exposed to these factors have had significant market value declines.

Other-Than-Temporary Impairments***Adoption of FSP FAS 115-2 and 124-2***

On April 1, 2009, the Company adopted FASB FSP No. FAS 115-2 and FAS 124-2. See Note 3 for further information. FSP FAS 115-2 and FAS 124-2 requires entities to separate an OTTI of a debt security into two components when there are credit related losses associated with the impaired debt security for which the Company asserts that it does not have the intent to sell the security, and it is more likely than not that it will not be required to sell the security before recovery of its cost basis. Prior to April 1, 2009, the Company had to determine whether it had the intent and ability to hold the investment for a sufficient period of time for the value to recover. When the analysis of the above factors resulted in the Company's conclusion that declines in market values were other-than-temporary, the cost of the securities was written down to market value and the reduction in value was reflected as a realized loss in the statement of operations. Under FSP FAS 115-2 and FAS 124-2, the amount of the OTTI related to a credit loss is recognized in earnings, and the amount of the OTTI related to other factors (*e.g.*, interest rates, market conditions, etc.) is recorded as a component of other comprehensive income. In instances where no credit loss exists but it is more likely than not that the Company will have to sell the debt security prior to the anticipated recovery, the decline in market value below amortized cost is recognized as an OTTI in earnings. In periods after the recognition of an OTTI on debt securities, the Company accounts for such securities as if they had been purchased on the measurement date of the OTTI at an amortized cost basis equal to the previous amortized cost basis less the OTTI recognized in earnings. For debt securities for which OTTI were recognized in earnings, the difference between the new amortized cost basis and the cash flows expected to be collected will be accreted or amortized into net investment income.

Edgar Filing: ASSURANT INC - Form 10-Q

FSP FAS 115-2 and FAS 124-2 requires that the Company record, as of April 1, 2009, the date of adoption, a cumulative effect adjustment to reclassify the noncredit component of a previously recognized OTTI from retained earnings to other comprehensive income. For purposes of calculating the cumulative effect adjustment, the Company reviewed OTTI it had recorded through realized losses on securities held at March 31, 2009, which were \$188,614, and estimated the portion related to credit losses (*i.e.*, where the present value of cash flows expected to be collected are lower than the amortized cost basis of the security) and the portion related to all other factors. The Company determined that \$119,022 of the OTTI previously recorded related to specific credit losses and \$69,591 related to all other factors. Under FSP FAS 115-2 and FAS 124-2, the Company increased the amortized cost basis of these debt securities by \$66,242 and recorded a cumulative effect adjustment, net of tax, in its shareholders' equity section. The cumulative effect adjustment had no effect on total shareholders' equity as it increased retained earnings and reduced accumulated other comprehensive loss.

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited) (Continued)**Six Months Ended June 30, 2009 and 2008****(In thousands, except per share and share amounts)**

For the three and six months ended June 30, 2009, the Company recorded \$7,996 and \$33,435, respectively, of OTTI of which \$4,314 and \$29,753, respectively was related to credit losses and recorded as net OTTI losses recognized in earnings, with the remaining \$3,682 for both periods related to all other factors and recorded as an unrealized loss component of accumulated other comprehensive loss.

The following table sets forth the amount of credit loss impairments recognized within the results of operations on fixed maturity securities held by the Company as of the dates indicated, for which a portion of the OTTI loss was recognized in AOCI, and the corresponding changes in such amounts.

Beginning balance at April 1, 2009 related to credit losses remaining in retained earnings related to adoption of FSP FAS 115-2 and FAS 124-2	\$ 119,022
Additions for credit loss impairments recognized in the current period on securities not previously impaired	1,237
Additions for credit loss impairments recognized in the current period on securities previously impaired	2,237
Reductions for credit loss impairments previously recognized on securities which matured, paid down, prepaid or were sold during the period	(16,262)
Balance, June 30, 2009	\$ 106,234

We regularly monitor our investment portfolio to ensure investments that may be other-than-temporarily impaired are identified in a timely fashion, properly valued, and charged against earnings in the proper period. The determination that a security has incurred an other-than-temporary decline in value requires the judgment of management. Assessment factors include, but are not limited to, the length of time and the extent to which the market value has been less than cost, the financial condition and rating of the issuer, whether any collateral is held, the intent and ability of the Company to retain the investment for a period of time sufficient to allow for recovery for equity securities and the intent to sell or whether it is more likely than not that the Company will be required to sell for fixed maturity securities. Inherently, there are risks and uncertainties involved in making these judgments. Changes in circumstances and critical assumptions such as a continued weak economy, a more pronounced economic downturn or unforeseen events which affect one or more companies, industry sectors, or countries could result in additional impairments in future periods for other-than-temporary declines in value. Any equity security whose price decline is deemed other-than-temporary is written down to its then current market value with the amount of the impairment reported as a realized loss in that period. The impairment of a fixed maturity security that the Company has the intent to sell or that it is more likely than not that the Company will be required to sell is deemed other-than-temporary and is written down to its market value at the Balance Sheet date with the amount of the impairment reported as a realized loss in that period. For all other-than-temporarily impaired fixed maturity securities that do not meet either of these two criteria, the Company is required to analyze its ability to recover the amortized cost of the security by calculating the net present value of projected future cash flows. For these other-than-temporarily impaired fixed maturity securities, the net amount recognized in earnings is equal to the difference between the amortized cost of the fixed maturity security and its net present value.

The Company considers different factors to determine the amount of projected future cash flows and discounting methods for corporate debt and residential and commercial mortgage-backed or asset-backed securities. For corporate debt securities, the split between the credit and non-credit losses is driven principally by assumptions regarding the amount and timing of projected future cash flows. The net present value is calculated by discounting the Company's best estimate of projected future cash flows at the effective interest rate implicit in the security at the date of acquisition. For residential and commercial mortgage-backed and asset-backed securities, cash flow estimates including prepayment assumptions, which are based on data from widely accepted third-party data sources or internal estimates. In addition to prepayment assumptions, cash flow estimates vary based on assumptions regarding the underlying collateral including default rates, recoveries and changes

Edgar Filing: ASSURANT INC - Form 10-Q

in value. The net present value is calculated by discounting the Company's best estimate of projected future cash flows at the effective interest rate implicit in the fixed maturity security prior to impairment at the Balance Sheet date. The discounted cash flows become the new amortized cost basis of the fixed maturity security.

In periods subsequent to the recognition of an other-than-temporary impairment, we generally accrete the discount (or amortize the reduced premium) into net investment income, up to the non-discounted amount of projected future cash flows, resulting from the reduction in cost basis, based upon the amount and timing of the expected future cash flows over the estimated period of cash flows.

Realized gains and losses on sales of investments are recognized on the specific identification basis.

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited) (Continued)**Six Months Ended June 30, 2009 and 2008****(In thousands, except per share and share amounts)**

Total gross unrealized losses represent less than 13% and 17% of the aggregate fair value of the related securities at June 30, 2009 and December 31, 2008, respectively. Approximately 19% and 53% of these gross unrealized losses have been in a continuous loss position for less than twelve months at June 30, 2009 and December 31, 2008, respectively. The total gross unrealized losses are comprised of 1,055 and 1,409 individual securities at June 30, 2009 and December 31, 2008, respectively. In accordance with its policy described above, the Company concluded that for these securities an adjustment to its results of operations for other-than-temporary impairments of the gross unrealized losses was not warranted at June 30, 2009 or December 31, 2008. These conclusions are based on a detailed analysis of the underlying credit and expected cash flows of each security. As of June 30, 2009, the gross unrealized losses that have been in a continuous loss position for twelve months or more were concentrated in non-redeemable preferred stocks and in the financial, consumer cyclical and industrial industries of the Company's corporate fixed maturity securities. For these concentrations, gross unrealized losses of twelve month or more were \$323,509, or 73%, of the total. The gross unrealized losses are primarily attributable to widening credit spreads associated with an underlying shift in overall credit risk premium. As of June 30, 2009, the Company did not intend to sell the securities and it was not more likely than not that the Company would be required to sell the securities before the anticipated recovery of their amortized cost basis.

Securities Lending

The Company engages in transactions in which fixed maturity securities, especially bonds issued by the U.S. government, government agencies and authorities, and U.S. corporations, are loaned to selected broker/dealers. Collateral, greater than or equal to 102% of the fair value of the securities lent, plus accrued interest, is received in the form of cash and cash equivalents held by a custodian bank for the benefit of the Company. The use of cash collateral received is unrestricted. The Company reinvests the cash collateral received, generally in investments of high credit quality that are designated as available-for-sale under FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities* (FAS 115). The Company monitors the fair value of securities loaned and the collateral received, with additional collateral obtained, as necessary. The Company is subject to the risk of loss to the extent there is a loss on the re-investment of cash collateral.

As of June 30, 2009 and December 31, 2008, our collateral held under securities lending, the use of which is unrestricted, was \$210,703 and \$234,027, respectively, while our liability to the borrower for collateral received was \$224,774 and \$256,506, respectively. The difference between the collateral held and obligations under securities lending is recorded as an unrealized loss and is included as part of AOCI. The unrealized losses have been in a continuous loss position for twelve months or longer as of June 30, 2009 and December 31, 2008. The Company has actively reduced the size of the securities lending program to mitigate counter-party exposure. The Company includes the available-for-sale investments purchased with the cash collateral in its evaluation of other-than-temporary impairments.

Cash proceeds that the Company receives as collateral for the securities it lends and subsequent repayment of the cash are regarded by the Company as cash flows from financing activities, since the cash received is considered a borrowing. Since the Company reinvests the cash collateral generally in investments that are designated as available-for-sale under FAS 115, the reinvestment is presented as cash flows from investing activities.

5. Fair Value Disclosures*FAS 157 Disclosures*

FAS 157 defines fair value, establishes a framework for measuring fair value, creates a fair value hierarchy based on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. FAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with FAS 157, the Company has categorized its recurring basis financial assets and liabilities into a three-level fair value hierarchy

Edgar Filing: ASSURANT INC - Form 10-Q

based on the priority of the inputs to the valuation technique.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The

(In thousands, except per share and share amounts)

Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The levels of the fair value hierarchy and its application to the Company's financial assets and liabilities are described below:

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Financial assets and liabilities utilizing Level 1 inputs include certain U.S. mutual funds, money market funds, common stock and certain foreign securities.

Level 2 inputs utilize other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly, for substantially the full term of the asset. Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active and inputs other than quoted prices that are observable in the marketplace for the asset. The observable inputs are used in valuation models to calculate the fair value for the asset. Financial assets utilizing Level 2 inputs include corporate, municipal, foreign government and private placement bonds, U.S. Government and agency securities, residential and commercial mortgage-backed securities, asset-backed securities, non-redeemable preferred stocks and certain U.S. and foreign mutual funds.

Level 3 inputs are unobservable but are significant to the fair value measurement for the asset, and include situations where there is little, if any, market activity for the asset. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset. Financial assets utilizing Level 3 inputs include certain non-redeemable preferred stocks, foreign government and corporate bonds, and commercial mortgage-backed and asset-backed securities that were quoted by brokers and could not be corroborated by Level 2 inputs and derivatives.

A review of fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy.

The following tables present the Company's fair value hierarchy for those recurring basis assets and liabilities as of June 30, 2009 and December 31, 2008.
