ITEM 2.02. Results of Operations and Financial Condition

On May 5, 2010, FTI Consulting, Inc. (FTI) issued its press release (the Press Release) reporting its financial results for the three months ended March 31, 2010. The full text of the Press Release (including financial tables) is set forth in Exhibit 99.1 and is incorporated by reference herein.

ITEM 7.01. Regulation FD Disclosure

FTI defines adjusted EBITDA as consolidated operating income before depreciation, amortization of intangible assets and special charges plus non-operating litigation settlements. FTI defines adjusted segment EBITDA as a segment s share of consolidated operating income before depreciation, amortization of intangible assets and special charges plus non-operating litigation settlements. FTI defines adjusted earnings per diluted share (adjusted EPS) as earnings per diluted share less the effect of special charges that were incurred in the applicable year. Although adjusted EBITDA, adjusted segment EBITDA and adjusted EPS are not measures of financial condition or performance determined in accordance with generally accepted accounting principles (GAAP), FTI believes that they can be useful operating performance measures for evaluating its results of operation as compared from period-to-period and as compared to its competitors. Consolidated operating income before depreciation and amortization of intangible assets, EBITDA, or EBITDA as adjusted, from time to time, are common alternative measures of operating performance used by investors, financial analysts and rating agencies to value and compare the financial performance of companies in FTI s industry. FTI uses EBITDA or EBITDA as adjusted, from time to time, to evaluate and compare the operating performance of its segments and EBITDA is one of the primary measures used to determine employee bonuses. FTI also uses EBITDA or EBITDA as adjusted, from time to time, to value businesses it acquires or it anticipates acquiring. Adjusted EBITDA, adjusted segment EBITDA and adjusted EPS exclude certain items to provide better comparability from period-to-period.

A reconciliation of adjusted EBITDA to operating income and adjusted segment EBITDA to income before income tax provision, for the three months ended March 31, 2010 are included in the financial tables, which are part of the Press Release furnished as Exhibit 99.1. A reconciliation of adjusted EPS to earnings per diluted share is also included in the financial tables, which are part of the Press Release furnished as Exhibit 99.1.

EBITDA, adjusted EBITDA and adjusted EPS, and similar terms, will not be defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies unless the definition is the same. These non-GAAP measures should be considered in addition to, but not as a substitute for or superior to, the information contained in FTI s statements of income.

The information included herein, including Exhibit 99.1 furnished herewith, shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section, nor

shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.

ITEM 9.01. Financial Statements and Exhibits

(d) *Exhibits*
