Prospectus

inContact, Inc.

2,167,763 SHARES OF COMMON STOCK

The prospectus relates to the offer and sale, from time to time, of up to 2,167,763 shares of the common stock of inContact, Inc., by the selling security holders listed on page 8 of this prospectus (who are officers and directors of inContact) or their transferees. We will not receive any proceeds from the sale of shares by selling security holders. We are paying the expenses of registering the shares for the selling security holders.

The selling stockholders may, from time to time, offer and sell or otherwise dispose of any or all of the shares of common stock described in this prospectus on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices, and may be to or through underwriters, broker-dealers or agents, who may receive compensation in the form of discounts, concessions or commissions. The selling stockholders will bear all discounts, concessions, commissions and similar expenses, if any, attributable to the sale of shares. We will bear all other costs, expenses, and fees in connection with the registration of the shares. See the **Plan of Distribution** section in this prospectus for more information about how the selling stockholders may sell or dispose of their shares of common stock.

Our common stock is listed on the NASDAQ Stock Market under the symbol **SAAS**. On August 5, 2010, the last reported sale price of our common stock was \$2.26 per share.

Our principal executive offices are located at 7730 South Union Park Avenue, Suite 500, Midvale, UT 84047.

Investing in our securities involves a high degree of risk. See the section entitled Risk Factors beginning on page 6.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is August __, 2010.

SUMMARY

Overview

What We Do

inContact, Inc. (inContact , we , us , our , or the Company) began in 1997 as a reseller of telecommunications services and have evolved to become a leading provider of end-to-end, cloud computing contact center services and network connectivity. We strive to deliver the most proven solutions quickly and with ease, helping our customers reduce the cost and improve the quality of every user interaction.

In 2005 we began offering cloud computing call center solutions to the call-center market. Our dynamic technology platform provides our customers a solution without the costs and complexities of legacy systems. Our proven delivery model provides cost savings and removes the complexities of deploying and maintaining a premised-based solution, while providing flexibility to change with business needs.

We provide software which includes automatic call distribution with skills-based routing, interactive voice response with speech recognition, computer telephony integration capabilities, reporting, work force optimization, e-learning, call center agent hiring and customer feedback measurement tools. Taken together, the inContact cloud-based platform creates an integrated solution for call centers, including those with distributed workforces either at-home or multi-site.

The Evolution of the Contact Center Industry

Most major businesses use contact centers to interact with their customers. Most interactions today are voice, but interactions by e-mail, chat, text and other online media are slowly becoming more common. The total contact center agents is 6.6 million in North America and over 13.5 million worldwide. Contact center technologies have existed for approximately 30 years. During that time, contact centers have purchased call control software and equipment for on-site installation, commonly referred to as premise-based equipment. Typically, contact center operations find they have to deal with multiple vendors and engage expensive systems integration expertise, especially when trying to operate multiple locations.

Over the past ten years, significant focus has been placed on managing, improving and optimizing contact centers and employee (referred to as agent) performance and quality. A number of management solutions known as Workforce Optimization technologies have been developed to address this demand.

Contact centers are constantly under pressure to balance expense with quality or produce a better user interaction experience for a lower price. Businesses look at their cost per user contact and consider policies, processes, or technologies that optimize user interactions. They look for ways to reduce the number of interactions or consider options such as automating interactions or moving their interactions to less expensive overseas agents. Approximately 75% of a contact center's expense goes to employing agents. However, deploying Workforce Optimization technologies can significantly reduce call center agent costs, according to analyst reports.

Table of Contents

A current industry trend is home-shoring, which utilizes at-home agents. This strategy is more expensive than outsourcing offshore, but less expensive than using facility-based agents and many contact centers believe it improves quality. However, many contact centers are delaying at-home initiatives over concerns of up-front expenses involved to purchase and deploy technologies in support of the project, concerns over security, or concerns over the quality and productivity of the at-home agents. The inContact suite empowers businesses to address these concerns.

Emergence of the Cloud Computing or SaaS Model

Another trend is the adoption of cloud computing technologies for the delivery of on-demand software or SaaS that enables subscribers to access a wide variety of application services that are developed specifically for delivery over the Internet on an as-needed basis. Purchasing cloud computing applications offers advantages to businesses over traditional software licensing and delivery models, including the following:

Operational expense rather than a capital expense;

Low up-front expenditure reduces risk and is especially appealing in a tougher economic climate;

The ability to use at-home workers because the software is delivered over the Internet and can be accessed from any location;

Continued access to state-of-the-art technology and avoidance of technology lock-in with no need to install and manage third-party hardware and software in-house; and

Ability to scale as business needs change.

This type of lower cost subscription service is particularly attractive for start-up companies and medium-sized businesses. However, the model also is becoming increasingly appealing to larger organizations as they seek to reduce significant hardware and software expenses, while maintaining or improving call center functionality and capacity.

For companies selling software application services under the cloud computing model, such as inContact, sales generally result in lower initial revenues than traditional software licensing and delivery models. However, because customers generally subscribe to this kind of product for a period of time, future revenues are more predictable than traditional software sales models where license revenue may be recognized in the quarter when signed. As a result of our use of the cloud model, we depend on monthly recurring revenues from our customers, which provides us with a much more predictable and stable revenue stream than if we sold our inContact suite as a premise-based product.

Products and Solutions

inContact Suite of Services

Over the past several years, we have transitioned from a telecommunications long-distance reseller and aggregator into an industry leader for call center platforms. We have made a number of strategic acquisitions that we believe have positioned us at the forefront of the rapidly emerging hosted contact center software market. We built our all-in-one contact center solution around the strategic acquisition of an automated call distribution solution, which is now the backbone of our inContact suite of services. Later, via acquisition, we added two components to our inContact application consisting of a workforce management product and a user satisfaction measurement tool, ECHO®.

Table of Contents

The inContact suite is a complete multi-tenant, call center solution delivered on a complete time division multiplexing and voice over internet protocol telecommunications network. The features of inContact help our customers reduce costs and improve the quality of every user interaction. The network allows the solution to be well suited for any business and is especially adept at handling at-home agents. As a suite of on-demand contact-handling applications, our customers are able to choose a single vendor for delivering comprehensive contact center functions without a significant up front expense, maintenance costs, or sacrificing the features demanded to accomplish their goals.

Our inContact solution is delivered as a suite of specialized contact center functionality working together for our customers:

inContact ACD : The goal of an Automatic Call Distributor, or ACD, is to get callers to the right agent as quickly as possible. inContact provides advanced contact handling and routing functionality along with the management services required for our customers to monitor and manage the process. The inContact ACD includes skills-based routing, universal contact queues, automatic call back, and inbound/outbound call blending. Dynamic connections with the database enhance the call routing even further by leveraging real-time data for routing decisions to improve the caller experience. ACD is also capable of aggregating multiple call center sites into a single entity for improved management and reporting of large, complex contact center operations.

inContact CTI : Computer Telephony Integration, or CTI, leverages the customer database to deliver a caller experience based on data relevant to the caller. inContact CTI integrates with customer data servers to provide agents with pre-populated customer data that reduce contact handling times. The inContact CTI can also link Interactive Voice Response applications with transaction databases, enabling caller self-service and reducing the need for agents where appropriate.

inContact IVR : inContact Interactive Voice Response, or IVR, is a mature IVR that delivers a typical initial caller experience. IVR is the key to good self-service and assists the caller to get to the appropriate live-agent service. inContact IVR is unique because of the robust drag-and-drop utility that is used to create specialized call flows that are unique to each customer. Customers can retain control and develop the call flows for themselves or engage our professional services team to create a tailor made solution to create unique workflows.

inContact Integrations: inContact was designed from the ground up to be open and integrate with various hardware and software solutions already in place at our customer sites. inContact can overlay an existing private branch exchange, while communicating hand-in-hand with the caller relationship management solutions used by our customers.

inContact ECHO® : inContact ECHO gathers the opinion of the user and presents the analysis of the feedback directly to supervisors and agents to identify gaps in service and processes. Most companies try to gather user feedback, but many find it difficult to translate user opinion into meaningful data that promotes better service delivery. inContact ECHO is an essential component of the suite to close the loop between offering service and evaluating the results of the service for continuous improvement.

inContact Hiring : inContact Hiring helps reduce attrition by assessing contact center candidates for skills, personality traits, and cognitive abilities essential to the job. Screening these candidates with inContact Hiring improves the interview-to-offer ratio and decreases terminations and attrition.

inContact Workforce Management : inContact Workforce Management, or WFM, helps our customers forecast demand, workforce scheduling, analyze and optimize staffing and report real-time adherence in their contact centers. inContact WFM includes analysis to predict service levels, abandon rates and queue times as well as a break/lunch optimization wizard to improve staffing efficiency. In addition, agents can review their schedule, set up schedule preferences, request time off, and swap shifts with other agents on their own.

Edgar Filing: inContact, Inc. - Form S-3

inContact eLearning : inContact eLearning provides targeted, prioritized training, communications and testing directly to the agent's desktop during dips in call volumes with RightTime technology. Our customers experience reduced call escalations and minimized cost per call with better trained agents.

Table of Contents

inContact Network Connectivity: inContact runs a national carrier-class telecommunications network providing both time division multiplexing and voice over internet protocol connectivity as well as toll-free and local-number services. All incoming calls are handled on the inContact network that was designed from the ground up to support a broad range of software applications. Outgoing calls are routed through a portfolio of partners specially selected for call-quality as well as low-cost services to benefit our customers.

Professional Services: We offer professional support services from contact center experts who help customers establish, set up and optimize their contact centers for user satisfaction and revenue optimization. Our contact center experts assist customers in customizing detailed call routing and call distribution mapping to ensure calls are routed in the most effective and efficient manner possible using the inContact suite of services to their maximum potential needed by each unique contact center.

The inContact product suite includes features that were available previously only by purchasing and integrating expensive, premise-based equipment that is difficult to manage and maintain and that requires a very substantial installation investment. These systems are also difficult to scale and manage for multi-site contact centers or contact centers with home-based agents. This large investment is difficult to justify for small and less sophisticated contact centers. Our inContact suite provides a solution to the problems faced by contact centers of all sizes and meets the needs of even the most complicated and advanced contact centers.

Long Distance Products and Services

Our telecommunications network is the backbone of the inContact suite of services as our customers' long distance services are managed through our inContact suite and calls are routed across our network. Prior to 2005, we focused on selling traditional telecommunications long distance and related services. Long distance and related services remain the majority of our revenue. If we are successful in our marketing and development strategy, long distance services will diminish in importance; long distance, however, will be a service included in a majority of our inContact suite sales because the long distance facilitates delivery of the inContact software products.

As a domestic and international long distance reseller and aggregator, we contract with a number of third party long distance service providers for the right to resell telecommunication services to our customers. Our primary providers are Qwest, Verizon, and Global Crossing. The variety of traditional telecommunication services we offer enables our customers to: (1) buy most of the telecommunications services they need from one source, (2) combine those services into a customized package including our all-in-one, contact center solution, (3) receive one bill for those services, (4) call us at a single point of contact if service problems or billing issues arise, and (5) depend on our professional team of employees to manage their network and contact center solution, end-to-end, so our customers can focus on their business operations.

The contracts with our third party long distance service providers are standard and customary in the industry and designate inContact as the point of contact for all customer service calls. These agreements stand for one to three years and are generally renewable at the end of each contract term, when rates are often renegotiated on the basis of prevailing rates in the industry.

We also acquire, from our third party long distance service providers, dedicated long distance service, toll-free 800/888/877/866 services, dedicated data transmission service and calling cards. These services and fees are billed to us as stated in our contracts with our providers and are payable on the same terms as switched long distance service.

We maintain a call center in Midvale, Utah for receiving customer service and billing inquiries. Our customer service personnel are available during extended business hours and also provide emergency service 24 hours a day, seven days a week. We place a high priority on customer service since we believe it is a primary factor in acquiring and retaining customers.

Table of Contents

RISK FACTORS

Before deciding to invest in our securities, you should consider carefully the discussion of risks and uncertainties set forth under the caption "Risk Factors" in any of our filings with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 incorporated by reference herein. For more information, see "Where You Can Find More Information." The risks and uncertainties we discuss in the documents incorporated by reference in this prospectus are those that we believe may affect our company at the time such statements are made. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may materially and adversely affect our business, financial condition and results of operations.

NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, information incorporated by reference into this prospectus, and prospectus supplements contain forward-looking statements that involve substantial risks and uncertainties. Forward-looking statements are those that predict or describe future events or trends and that do not relate solely to historical matters. Further, when we use the words "may," "expect," "anticipate," "plan," "believe," "seek," "estimate," "internal," and "an," words, we intend to identify statements and expressions that may be forward-looking statements. We believe it is important to communicate certain of our expectations to our investors. Forward-looking statements are not guarantees of future performance. They involve risks, uncertainties and assumptions that could cause our future results to differ materially from those expressed in any forward-looking statements. Risks, uncertainties and other factors that might cause such differences include the risks identified above under the caption "Risk Factors" and in the reports we file with the Securities and Exchange Commission or in other documents that we publicly disseminate from time to time. Many factors are beyond our ability to control or predict. You are accordingly cautioned not to place undue reliance on such forward-looking statements. We have no obligation or intent to update publicly any forward-looking statements whether in response to new information, future events or otherwise, except as required by applicable law.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of the shares offered by the Selling Security Holders.

DESCRIPTION OF COMMON STOCK AND PREFERRED STOCK

inContact's charter authorizes it to issue up to: (i) 100,000,000 shares of common stock, \$0.0001 par value per share; and (ii) 15,000,000 shares of preferred stock, \$0.0001 par value per share. As of the date of this prospectus, there are approximately 35,061,338 shares of common stock outstanding and no shares of preferred stock outstanding.

Common stock

Holders of the common stock are entitled to one vote per share on all matters submitted to the stockholders for a vote. There are no cumulative voting rights in the election of directors. After satisfaction of the dividend rights of holders of preferred stock, holders of common stock are entitled to any dividend declared by the board of directors out of funds legally available for this purpose. After the payment of liquidation preferences to holders of any outstanding preferred stock, holders of our common stock are entitled to receive, on a pro rata basis, all of our remaining assets available for distribution to the stockholders in the event of our liquidation, dissolution, or winding up. Holders of our common stock do not have any preemptive right to subscribe or purchase additional shares of any class of our capital stock. The rights, preferences and privileges of holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Table of Contents

Preferred stock

The board of directors, without further action by the holders of the common stock, is authorized to classify any shares of our authorized but unissued preferred stock as preferred stock in one or more series. With respect to each series, the board of directors may determine:

The number of shares which shall constitute such series;

The rate of dividend, if any, payable on shares of such series;

Whether the shares of such series shall be cumulative, non-cumulative or partially cumulative as to dividends, and the dates from which any cumulative dividends are to accumulate;

Whether the shares of such series may be redeemed, and, if so, the price or prices at which and the terms and conditions on which shares of such series may be redeemed;

The amount payable upon shares of such series in the event of the voluntary or involuntary dissolution, liquidation or winding up of the affairs of inContact;

The sinking fund provisions, if any, for the redemption of shares of such series;

The voting rights, if any, of the shares of such series;

The terms and conditions, if any, on which shares of such series may be converted into shares of capital stock of inContact of any other class or series;

Whether the shares of such series are to be preferred over shares of capital stock of inContact of any other class or series as to dividends, or upon the voluntary or involuntary dissolution, liquidation, or winding up of the affairs of inContact, or otherwise; and

Any other characteristics, preferences, limitations, rights, privileges, immunities or terms not inconsistent with the provisions of the Charter.

The availability of preferred stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of discouraging takeover proposals, and the issuance of preferred stock could have the effect of delaying or preventing a change in control of inContact not approved by the board of directors.

Procedures that may hinder takeover

Provisions in our bylaws and Delaware law may have the effect of hindering or delaying a takeover that management opposes. We believe these provisions to be beneficial to inContact and its stockholders because they promote stability in management and continuity in the business objectives we seek to achieve. These provisions could, however, discourage attempts to acquire our company without the support of management, even if a proposed acquisition is favored by stockholders, and could result in stockholders losing an opportunity to receive payment of a premium over market price for our common stock they hold.

Edgar Filing: inContact, Inc. - Form S-3

Under our bylaws special meetings of the stockholders may be called only by the chairman of the board, president, or a majority of the board of directors. Consequently, stockholders cannot call a special meeting to consider changes in our board of directors or provisions of our bylaws to facilitate a change in control or acquisition.

Table of Contents

We are subject to the provisions of Section 203 of the Delaware General Corporation Law. Section 203 provides, with certain exceptions, that a Delaware corporation may not engage in any of a broad range of business combinations with a person or an affiliate, or associate of such person, who is an interested stockholder for a period of three years from the date that such person becomes an interested stockholder unless: (i) the transaction resulting in a person becoming an interested stockholder, or the business combination, is approved by the board of directors of the corporation before the person becomes an interested stockholder; (ii) the interested stockholder acquired 85 percent or more of the outstanding voting stock of the corporation in the same transaction that makes such person an interested stockholder (excluding shares owned by persons who are both officers and directors of the corporation, and shares held by certain employee stock ownership plans); or (iii) on or after the date the person becomes an interested stockholder, the business combination is approved at an annual or special meeting by the corporation's board of directors and by the holders of at least 66 2/3 percent of the corporation's outstanding voting stock, excluding shares owned by the interested stockholder. Under Section 203, an interested stockholder is defined as any person who is: (i) the owner of 15 percent or more of the outstanding voting stock of the corporation; or (ii) an affiliate or associate of the corporation and who was the owner of 15 percent or more of the outstanding voting stock of the corporation at any time within the three-year period immediately prior to the date on which it is sought to be determined whether such person is an interested stockholder. Section 203 could delay or prevent a change in control or acquisition.

Transfer agent

The transfer agent for the common stock is Interwest Transfer Co., Inc., Salt Lake City, Utah.

SELLING SECURITY HOLDERS

We are registering the shares of our common stock covered by this prospectus on behalf of the selling security holders named in the table below in accordance with our obligations under the registration rights agreement. Selling security holders, including their permitted transferees, pledgees or donees or their successors (all of whom may be selling stockholders), may from time to time offer and sell pursuant to this prospectus any or all of the shares. When we refer to selling security holders in this prospectus, we mean those persons listed in the table below, as well as their permitted transferees, pledgees or donees or their successors.

The following table sets forth the name of each of the selling security holders as of the date of this prospectus, the number of shares of common stock that each selling security holder owns beneficially that may be offered for sale from time to time by this prospectus, and the percent of our outstanding common stock each selling security holder will continue to hold assuming the sale of all the common stock offered. We may amend or supplement this prospectus from time to time to update the disclosure set forth herein.

Selling Security Holder (1)	Number of Shares Owned (2)	Number of Shares Offered	Number of Shares Owned After (3)	Percentage Owned After (2)
Theodore Stern	1,704,341	1,562,713	141,628	0.4
Steve Barnett	593,254	378,300	214,954	0.6
Paul F. Koeppe	413,204	211,750	201,454	0.6
Blake O. Fisher, Jr.	198,954	15,000	183,954	0.5
Mark J. Emkjer	58,295	-0-	58,295	0.2

- (1) Each of the persons listed is an affiliate of inContact (as defined in rule 405 adopted under the Securities Act) because he now serves as a director. Each director receives annual cash and equity compensation for service as a director and directors who serve as chairpersons of board committees receive additional equity compensation. Mr. Stern serves as Chairman of the Board and is engaged as a consultant by inContact at a monthly fee of \$7,000, plus reimbursement of office expenses at a fixed rate of \$500 per month.
- (2) The number of shares beneficially owned is determined in accordance with Rule 13d-3 of the Securities Exchange Act of 1934, and the information is not necessarily indicative of beneficial ownership for any other purpose. Unless otherwise indicated in the footnotes, each person has sole voting and investment power (or shares such powers with his or her spouse) with respect to the shares shown as beneficially owned. Percentage of beneficial ownership is based on 35,061,338 shares of common stock outstanding as of July 31, 2010.

Table of Contents

- (3) The number of shares owned assuming all offered shares are sold represents common shares issuable under stock options and restricted stock units awarded to the persons listed under inContact's equity incentive plans. The shares issuable under these plan awards have been registered for resale under a registration statement on Form S-8 filed with the Securities and Exchange Commission.

PLAN OF DISTRIBUTION

We are registering the shares of common stock to permit the resale of these shares of common stock by the selling security holders from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale by the selling security holders of the shares of common stock.

The selling security holders and any broker-dealers that act in connection with the sale of shares may be deemed to be underwriters within the meaning of Section 2(a)(11) of the Securities Act, and any commissions received by such broker-dealers and any profit on the resale of shares sold by them while acting as principals may be deemed to be underwriting discounts or commissions under the Securities Act.

The selling security holders may sell all or a portion of the shares of common stock beneficially owned by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents. If the shares of common stock are sold through underwriters or broker-dealers, the selling security holders will be responsible for underwriting discounts or commissions or agent's commissions. The shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions,

on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;

in the over-the-counter market;

in transactions otherwise than on these exchanges or systems or in the over-the-counter market;

through the writing of options, whether such options are listed on an options exchange or otherwise;

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately negotiated transactions;

sales pursuant to Rule 144;

Edgar Filing: inContact, Inc. - Form S-3

short sales;

broker-dealers may agree with the selling security holders to sell a specified number of such shares at a stipulated price per share;

a combination of any such methods of sale; and

any other method permitted pursuant to applicable law.

Table of Contents

If the selling security holders effect such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling security holders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the shares of common stock or otherwise, the selling security holders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares of common stock in the course of hedging in positions they assume. The selling security holders may also sell shares of common stock short and deliver shares of common stock covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling security holders may also loan or pledge shares of common stock to broker-dealers that in turn may sell such shares.

The selling security holders may pledge or grant a security interest in some or all of the shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act, amending, if necessary, the list of selling security holders to include the pledgee, transferee or other successors in interest as selling security holders under this prospectus. The selling security holders also may transfer and donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling security holders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling stockholder will sell any or all of the shares of common stock registered pursuant to the registration statement, of which this prospectus forms a part.

The selling security holders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, including, without limitation, to the extent applicable, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of common stock by the selling security holders and any other participating person. To the extent applicable Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

We will pay all expenses of the registration of the shares of common stock pursuant to the registration rights agreement, including, without limitation, Securities and Exchange Commission filing fees and expenses of compliance with state securities or blue sky laws; provided, however, that a selling stockholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling security holders against certain liabilities, including some liabilities under the Securities Act, in accordance with the registration rights agreement, or the selling security holders will be entitled to contribution. We may be indemnified by the selling security holders against certain civil liabilities, including liabilities under the Securities Act, that may arise from any written information furnished to us by the selling stockholder specifically for use in this prospectus, in accordance with the related registration rights agreement, or we may be entitled to contribution.

Table of Contents

Once sold under the registration statement, of which this prospectus forms a part, the shares of common stock will be freely tradable under the Securities Act in the hands of persons other than our affiliates.

LEGAL MATTERS

Certain legal matters relating to the validity of the securities offered by this prospectus will be passed upon for inContact by Parsons Behle & Latimer, Salt Lake City, Utah.

EXPERTS

The consolidated financial statements, and the related financial statement schedule, incorporated in this Prospectus by reference from inContact's Annual Report on Form 10-K for the year ended December 31, 2009, and the effectiveness of inContact's internal control over financial reporting have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports, which are incorporated herein by reference (which reports (1) express an unqualified opinion on the consolidated financial statements and financial statement schedule and include an explanatory paragraph relating to the adoption of Accounting Standards Codification (ASC) 820-10 *Fair Value Measurements and Disclosures*, and (2) express an unqualified opinion on the effectiveness of internal control over financial reporting). Such consolidated financial statements and financial statement schedule have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

INCORPORATION OF CERTAIN INFORMATION BY REFERENCE

The Securities and Exchange Commission, or the SEC, allows us to incorporate by reference the information we file with it, which means that we can disclose important information to you by referring you to those documents instead of having to repeat the information in this prospectus. The information incorporated by reference is considered to be part of this prospectus, and later information that we file with the SEC will automatically update and supersede this information. We incorporate by reference the documents listed below:

Annual Report on Form 10-K for the fiscal year ended December 31, 2009;

Quarterly Report on Form 10-Q for the period ended March 31, 2010;

Quarterly Report on Form 10-Q for the period ended June 30, 2010;

Current report on Form 8-K filed with the SEC February 26, 2010;

Current report on Form 8-K filed with the SEC March 16, 2010;

Current report on Form 8-K filed with the SEC April 1, 2010;

Current report on Form 8-K filed with the SEC June 21, 2010

Definitive Proxy Statement on Form 14A filed with the SEC April 28, 2010;

Edgar Filing: inContact, Inc. - Form S-3

The description of our common stock contained in Form 8-A filed on October 24, 2007, and any amendments or reports filed for the purpose of updating such description; and

Any future filings made with the SEC under Sections 13(a), 13(c), 14, or 15(d) of the Securities Exchange Act of 1934, as amended, between the date of this prospectus and the termination of the offering and also between the date of the initial registration statement and prior to effectiveness of the registration statement.

Table of Contents

Any statement in a document incorporated or deemed to be incorporated by reference in this prospectus is deemed to be modified or superseded to the extent that a statement contained in this prospectus, or in any other document we subsequently file with the SEC, modifies or supersedes that statement. If any statement is modified or superseded, it does not constitute a part of this prospectus, except as modified or superseded. Information that is furnished to the SEC in any report or filing incorporated herein shall not be deemed filed with the SEC and shall not be deemed incorporated by reference into this prospectus or the registration statement of which this prospectus is a part.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed a registration statement on Form S-3 with respect to the securities offered in this prospectus with the SEC in accordance with the Securities Act, and the rules and regulations enacted under its authority. This prospectus, which constitutes a part of the registration statement, does not contain all of the information included in the registration statement and its exhibits and schedules. We have omitted certain parts of the registration statement, as permitted by the rules and regulations of the SEC. You may inspect and copy the registration statement, including exhibits, at the SEC's public reference room or website. Our statements in this prospectus about the contents of any contract or other document are not necessarily complete. You should refer to the copy of each contract or other document we have filed as an exhibit to the registration statement or the reports incorporated herein by reference for complete information. You may obtain a copy of any of these SEC filings without charge by written or oral request directed to our Corporate Secretary, at inContact, Inc., 7730 So Union Park Avenue, Suite 500, Midvale, UT 84047, telephone (801) 320-3300.

We file information electronically with the SEC. Our SEC filings are available from the SEC's Internet site at <http://www.sec.gov>, which contains reports, proxy and information statements and other information regarding issuers that file electronically. Our filings with the SEC are available without charge on our website (www.incontact.com) as soon as reasonably practicable after filing. For further information regarding us and the securities offered in this prospectus, we refer you to the registration statement and its exhibits and schedules, which may be inspected without charge at the SEC's Public Reference Room at 100 F Street N.E., Washington, D.C. 20549. Please call the SEC at (800) 732-0330 for further information on the Public Reference Room.

Table of Contents**PART II.****INFORMATION NOT REQUIRED IN PROSPECTUS****ITEM 14. OTHER EXPENSES OF ISSUANCE AND DISTRIBUTION.**

The following table sets forth the expenses in connection with this registration statement. We will pay all expenses of the offering. All of such expenses are estimates, other than the filing fees payable to the Securities and Exchange Commission.

Securities and Exchange Commission Filing Fee	\$ 350
Printing Fees and Expenses	5,000
Legal Fees and Expenses	50,000
Accounting Fees and Expenses	50,000
Miscellaneous	5,000
TOTAL	\$ 110,350

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS

inContact's Charter provides that, to the fullest extent that limitations on the liability of directors and officers are permitted by the Delaware General Corporation Law (the "DGCL"), no director or officer of inContact shall have any liability to inContact or its stockholders for monetary damages. The DGCL provides that a corporation's charter may include a provision which restricts or limits the liability of its directors or officers to the corporation or its stockholders for money damages except: (1) to the extent that it is provided that the person actually received an improper benefit or profit in money, property or services, for the amount of the benefit or profit in money, property or services actually received, or (2) to the extent that a judgment or other final adjudication adverse to the person is entered in a proceeding based on a finding in the proceeding that the person's action, or failure to act, was the result of active and deliberate dishonesty and was material to the cause of action adjudicated in the proceeding. inContact's Charter and Bylaws provide that inContact shall indemnify and advance expenses to its currently acting and its former directors to the fullest extent permitted by the DGCL and that inContact shall indemnify and advance expenses to its officers to the same extent as its directors and to such further extent as is consistent with law.

The Charter and Bylaws provide that inContact will indemnify its directors and officers and may indemnify employees or agents of inContact to the fullest extent permitted by law against liabilities and expenses incurred in connection with litigation in which they may be involved because of their offices with inContact. However, nothing in the Charter or Bylaws of inContact protects or indemnifies a director, officer, employee or agent against any liability to which he would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office. To the extent that a director or officer has been successful in defense of any proceeding, our Bylaws provide that he shall be indemnified against reasonable expenses incurred in connection therewith.

inContact maintains an officer's and director's liability insurance policy insuring its officers and directors against certain liabilities and expenses incurred by them in their capacities as such, and insuring the inContact under certain circumstances, in the event that indemnification payments are made to such officers and directors.

inContact has also entered into indemnification agreements (the "Indemnification Agreements") with certain of its directors and officers (individually, the "Indemnitee"). The Indemnification Agreements, among other things, provide for indemnification to the fullest extent permitted by law against any and all expenses, judgments, fines, penalties and amounts paid in settlement of any claim. The Indemnification Agreements provide for the prompt advancement of all expenses to the Indemnitee and for reimbursement to inContact if it is found that such Indemnitee is not entitled to such indemnification under applicable law. The Indemnification Agreements also provide that after a change in control (as defined in the Indemnification Agreements) of inContact, all determinations regarding a right to indemnity and the right to advancement of expenses shall be made by independent legal counsel selected by the Indemnitee.

Table of Contents

The foregoing summaries are necessarily subject to the complete text of the statute, the Company's Certificate of Incorporation, as amended, and Bylaws, and the arrangements referred to above and are qualified in their entirety by reference thereto.

ITEM 16. EXHIBITS

Exhibits

Copies of the following documents are included as exhibits hereto pursuant to Item 601 of Regulation S-K.

Exhibit

No.	Title of Document
5.1	Opinion of Parsons Behle & Latimer
23.1	Consent of Parsons Behle & Latimer (1)
23.2	Consent of Deloitte & Touche LLP, Independent Registered Public Accounting Firm
24.1	Power of Attorney (contained in the signature page hereto, Page V)

(1) The consent is included in Exhibit 5.1.

ITEM 17. UNDERTAKINGS

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Provided, however, that paragraphs (i), (ii) and (iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement;

Table of Contents

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof;

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering;

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which the prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; and

(5) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned Registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of an undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Table of Contents

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
