**Item 1.01. Entry into a Material Definitive Agreement.**

On December 21, 2010, Jacobs Engineering Group Inc., along with certain of its subsidiaries (collectively, the Company), entered into a Share Purchase Agreement (the Agreement) with Aker Solutions ASA and certain of its subsidiaries (collectively, Aker) pursuant to which the Company will acquire certain components of Aker's process and construction business for \$675 million in cash, adjusted for cash and debt acquired (the Acquisition).

The acquired business provides engineering, design, procurement, construction and project management, as well as consulting and maintenance, services in the mining and metals, oil and gas, and energy and environmental end-markets. Additionally, the acquired business owns and develops technologies and fabrication of specialty acid and chemical equipment for the mining, chemicals, water treatment and pulp and paper markets. The activities of the acquired business are carried on principally in the United States, South America, China, Australia and Western Europe.

Under the terms of the Agreement, which has been approved by the boards of directors of both the Company and Aker, the parties have agreed to customary representations and warranties, covenants and indemnification obligations. Aker has also agreed to certain non-competition arrangements. The Acquisition is not subject to approval by the stockholders of either the Company or Aker.

The consummation of the Acquisition is subject to customary closing conditions, including the expiration or termination of any required waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, certain other non-U.S. competition filings, completion of certain corporate reorganization matters on the part of Aker, and the delivery of certain ancillary documents and agreements. The parties currently expect that the Acquisition will close during the Company's second fiscal quarter ending March 31, 2011.

The Agreement may be terminated by the Company if Aker's warranties are untrue or become untrue in any material respect prior to closing, or in the event of a material breach by Aker of the Agreement. The Company may also terminate the Agreement in the event of certain material adverse effects on the acquired business.
