Section 1. Registrant's Business and Operations

Item 1.01. Entry into a Material Definitive Agreement

State Auto Financial Corporation (the **Company**), as borrower, and a syndicate of financial institutions, as lenders, are parties to a credit agreement dated as of July 12, 2007, as amended as of March 27, 2009 (collectively, the **Credit Agreement**), which provides the Company with a \$100.0 million unsecured revolving credit facility maturing on July 12, 2012. To date, no amounts have been drawn by the Company under this revolving credit facility.

The Credit Agreement requires the Company to comply with certain covenants, including a financial covenant requiring the Company to maintain a minimum consolidated net worth, which minimum amount was \$700.2 million at June 30, 2011. At June 30, 2011, the Company did not meet this minimum net worth covenant, and on July 29, 2011, the lenders agreed to waive the Company's non-compliance with this covenant until September 30, 2011.

2. Financial Information

Item 2.02. Results of Operations and Financial Condition.

On August 2, 2011, the Company issued a press release disclosing the results of its operations for the three- and six-month periods ended June 30, 2011 (the **Release**). The full text of the Release is furnished as Exhibit 99.1 to this Current Report on Form 8-K.

The Release included a non-GAAP financial measure, net income (loss) from operations per diluted share. Net income (loss) from operations differs from GAAP net income (loss) only by the exclusion of realized capital gains (losses), net of applicable taxes, on investment activity for the periods being reported. For the three-month periods ended June 30, 2011 and 2010, GAAP net income (loss) was \$(5.01) per diluted share and \$(0.66) per diluted share, respectively, while net income (loss) from operations was \$(5.11) per diluted share and \$(0.66) per diluted share for these same respective periods. For the three-month period ended June 30, 2011, realized capital gains, net of applicable taxes, decreased the GAAP net loss per diluted share by \$0.10, while for the three-month period ended June 30, 2010, realized capital gains (losses) did not affect the GAAP net income (loss) per diluted share.

Management uses net income (loss) from operations because it believes this calculation better indicates the Company's operating performance than GAAP net income (loss) because net income (loss) from operations excludes the sometimes volatile realized capital gains/losses, net of applicable federal income taxes, that can produce inconsistent results. Net income (loss) from operations provides a more consistent measure on which to predict future earnings of the Company.

Section 7. Regulation FD

Item 7.01. Regulation FD Disclosure.

The Company's management conducted a conference call on August 2, 2011, at approximately 10:00 a.m., EDT, to review the Company's financial results for the three- and six-month periods ended June 30, 2011, and to respond to questions from interested investors and financial analysts. A transcript of the conference call is furnished as Exhibit 99.2 to this Current Report on Form 8-K.
