### CHAIRMAN'S STATEMENT

Dear Shareholders,

The Group made positive strides in the first six months of 2011, against the backdrop of China's steady and fast economic growth. At the same time, we faced intensified market competition and impact on the traditional telecommunications industry from the convergence of industries. The Group responded by adhering to its principles of sustainable development, rational competition and innovation, and fully leveraged its core strengths, including the world's largest scale mobile network and customer base, good network quality and premium customer service. Implementing that strategy, the Group continued to expand the share of Daily Life Services for individual customers and the share of Information Services for companies and industries in the reporting period. Overall, the Group achieved sustained healthy growth and maintained its leading position in the industry, underpinned by its continuously improving revenue structure.

## Financial Results

For the six months ended 30 June 2011, the Group's operating revenue maintained favorable growth, reaching RMB250.1 billion, up 8.8% over the same period last year. Revenue from the value-added business contributed 32.2% of operating revenue, reaching RMB80.4 billion and up 18.5% over the same period last year. The Wireless Data business achieved revenue of RMB19.3 billion, an increase of 42.8% over the same period last year. Continuing to lead the industry in terms of profitability, the Group's profit margin reached 24.5%, and profit attributable to shareholders increased 6.3% over the same period last year to RMB61.3 billion. EBITDA rose 6.5% over the same period last year to RMB124.2 billion, with EBITDA margin reaching 49.6%. Basic earnings per share grew 6.3% over the same period last year to RMB3.05. Underpinned by its sound capital structure, solid financial position and strong cash flow generating capability, the Group is favorably positioned to manage risks and achieve sustainable growth.

## Business Development

In the first six months of 2011, the Group maintained relatively good momentum in its business development. The Group has seen notable growth in new customer additions. Its total customer base exceeded 610 million by the end of the reporting period, with a net addition of 32.77 million customers and the mid-to high-end customer base remaining stable. In the meantime, the number of corporate customers continued to climb steadily, reaching 3.1 million. Voice usage volume continued to increase. Total voice usage volume was 1,886.5 billion minutes, up 13.3% over the same period last year. Average minutes of usage per user per month (MOU) reached 528 minutes and average revenue per user per month (ARPU) was RMB70. The 3G customer base grew rapidly. By the end of the reporting period, the Group had 35.03 million 3G customers, continuing to boast the highest number of customers in the 3G market.

The value-added services business grew rapidly, with SMS and MMS maintaining steady growth, and Wireless Music, Mobile Reading, Mobile Gaming and Mobile Video all enjoying increases in customer bases and revenue. Wireless data business grew rapidly and continued to demonstrate high growth momentum. Accounting for 7.7% of total operating revenue, this revenue stream has become an important driver of the Group's growth.

Leveraging the advantages of our large customer base and network size, we continued to expand to new areas and explore new business models in order to effectively push forward our business development in mobile Internet and the Internet of Things. We furthered Mobile Market's viability as a one-stop shop for applications development and downloads and as a comprehensive sales platform, and we accelerated the integration of its value chain as well as the process of its internationalization. These all helped Mobile Market maximize its impact on the mobile Internet field. By the end of June 2011, Mobile Market had 86 million registered customers and 2.4 million registered developers, among whom 890,000 active developers already had their applications put on-line. In the first six months of 2011, 260 million application downloads were recorded. Mobile Market has become the largest shopping mall for Chinese application software in the world. For the Internet of Things, the Group proactively explored various sales and marketing models, promoted the usage of application templates and standardization of products, and improved its product portfolio management. The Group further strengthened cooperation with local governments to vigorously promote the building of Wireless City. The governments of over 130 cities in 25 provinces have signed cooperation agreements with the Group to establish Wireless City which is widely used in hosting government web portals, energy management programs, intelligent traffic control and digital communities. This helps enrich application variety and increase our customer loyalty.

Adhering to our mantra of “Customers are our priority, quality service is our principle”, the Group undertook a series of programs to improve customer satisfaction. New measures were taken to better protect customer rights, such as improving transparency of consumption for customers. In the first six months of 2011, we had the lowest monthly rate of complaints from customers among all our peers in the country.

### **Network Development and Evolution**

The Group is committed to the belief that network quality is the lifeline of a telecommunications company. To cope with the trend of booming mobile data traffic resulting from the popularization of intelligent terminals, we proactively sought to implement a forward-looking and well-coordinated “Four Networks” development strategy, under which we allocated our resources in a scientific way and strengthened network construction according to the different technological features and capacities of 2G, 3G (TD-SCDMA), WLAN and the future TD-LTE networks. And in so doing, we were able to ensure that our overall network quality continued to lead the industry.

The Group further expanded WLAN coverage to include over one million access points by the end of June 2011. At the same time, we continued to enhance our WLAN’s operating quality and its capacity to carry data, which helped divert the wireless data traffic effectively. In the first six months of 2011, the dataflow on our WLAN accounted for almost 50% of our wireless data traffic.

The 3G network built by our parent company with our assistance currently covers all the county-level and above cities in China. Good network quality was achieved through network optimization and enhanced continuous coverage of 3G network in heavily trafficked areas.

We have actively promoted home-grown innovation and have made significant progress on TD-LTE. In the first six months of 2011, our large scale testing of TD-LTE across six cities and the showcase TD-LTE network in Beijing progressed on schedule. This year, together with international mobile operators, we introduced the “Global TD-LTE Initiative” which was subsequently endorsed by 24 mobile operators, forming a common ground for the industry to take forward the global commercialization of TD-LTE.

### **Corporate Management and Governance**

In 2011, we continued to look for ways to further streamline our low-cost, highly efficient operations. A centralized management model has been implemented across multiple operational fronts including financial management, network maintenance, equipment procurement, customer service, brand building and new business operations. The Group’s subsidiary, China Mobile International Limited, has been established and started operations, and our terminal company was restructured, signifying that the Group has made a substantive step towards specialized functional operations as part of its management strategy.

Abiding by corporate governance principles of integrity, transparency, openness and high efficiency, the Company has instituted a sound governance structure and taken practical measures to ensure best corporate governance practices. In the first six months of 2011, we carried out thorough internal financial audit, internal control audit and risk evaluation. The Group also conducted special audits focusing on certain high risk areas in order to improve and optimize management systems. The Group further enhanced its closed-loop management systems to avoid material operational risks. These improvements will help the Group achieve long-term, sustainable and healthy development.

#### **Appointment of Director**

On 26 July 2011, the Board of Directors of the Company was pleased to announce that, as proposed by the Nomination Committee of the Company and after review and approval by the Board, Mr. Xi Guohua was appointed as Executive Director and Vice Chairman of the Company. We firmly believe that Mr. Xi Guohua's expertise and extensive experience in telecommunications business management, operation and technology will be of great value to the Company. I take this opportunity to welcome him as a member of the Board.

#### **Corporate Social Responsibility and Sustainable Development**

The Group attaches great importance to corporate social responsibility. In the first instance, the Group makes a solid contribution to society by providing an extensive and reliable network and narrowing the digital divide. In addition, the Group has done its part to address climate change and has participated in various philanthropic initiatives. During the first half of 2011, in the wake of several natural disasters such as the earthquake in Yunnan province and the heavy rains in southern China, we acted swiftly to provide emergency telecommunications service and ensure the smooth flow of mobile telecommunications, which were essential to the relief work conducted in affected areas. Fully committed to energy saving and emissions reduction, we furthered our Green Action Plan by promoting energy-saving technologies and innovations in various areas of our operations, including adopting precision temperature control in facility rooms, and using solar, wind and other natural energy for power supply in our telecommunications base stations. Our power consumption per unit of telecommunications traffic decreased by 8.7% over the same period last year. Through the China Mobile Charity Foundation and other philanthropic activities, we contributed to education support, childcare and poverty aid, among which, the Warm China 12.1 Fund China Mobile Care Operation, has financed 14,292 children who are either living in extreme poverty condition or are orphans who lost their parents to AIDS.

#### **Awards and Recognition**

In the first half of 2011, our achievements continued to be recognized. The Company was again included in and ranked 16th in the Financial Times FT Global 500, and moved up to 34th from 38th place last year on Forbes Magazine's Global 2000 list. The China Mobile brand was named one of BRANDZ™ Top 100 Most Powerful Brands by Millward Brown and Financial Times for the sixth consecutive year, and the brand value increased by 9% and ranked 9th among all companies considered. In the same period, Standard & Poor's and Moody's kept our corporate credit rating at AA-/Outlook Stable and Aa3/Outlook Positive respectively, in line with China's sovereign credit rating.

### **Dividends**

In view of the Group's good profitability in the first six months of 2011 and taking into consideration its long-term future development, based on the dividend payout guidance for the full year of 2011, the Board declared an interim dividend of HK\$1.580 per share for the six months ended 30 June 2011.

The Board is of the view that the Company's good profitability and strong cash flow generating capability will continue to support the future sustainable development of the Company and provide shareholders with a favorable return.

### **Future Outlook**

Cross-industry competition arising from the convergence of industries, intensified competition among the traditional telecommunications industry players and the slowdown of growth all present the Group with challenges. At the same time, the continuous development of the national economy and increasing domestic consumption will further boost demand for telecommunications and information services. Favorable external factors such as the Chinese government's support for home-grown telecommunications technology will gradually fuel the Group's future development. The vigorous growth of mobile Internet and the popularization of the Internet of Things will also present us with a broad range of opportunities.

Facing both opportunities and challenges, we will fully implement our sustainable development strategy, pushing for constant innovation and the realization for added value through cost-effective operations. We will expand into new areas and lead the development of mobile Internet and Internet of Things to achieve greater scale, which we think will be essential to value creation and growth going forward. We will explore new models to build compatible and integrated platforms to offer win-win opportunities and future competitive advantages. We will strengthen our customer service orientation and our business innovation to solidify our leading position in the market. We will build high quality, efficient, forward looking, integrated and open networks. At the same time, we will continue promoting the operation of 3G networks. Leveraging our international influence, we will accelerate the worldwide development of TD-LTE technology.

We will look for appropriate investment opportunities in an active but cautious manner to broaden our presence in the telecommunications market. As always, we will strive to create value for our shareholders.

**NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT**

*(Expressed in Renminbi unless otherwise indicated)*

**1. BASIS OF PREPARATION**

The interim financial report of China Mobile Limited (the Company) and its subsidiaries (together referred to as the Group) has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the Hong Kong Listing Rules), including compliance with International Accounting Standard (IAS) 34, Interim financial reporting, issued by the International Accounting Standards Board (IASB) and Hong Kong Accounting Standard (HKAS) 34, Interim financial reporting, issued by the Hong Kong Institute of Certified Public Accountants (HKICPA). It was authorized for issuance on 18 August 2011.

The Group's interim financial report has been prepared in accordance with the same accounting policies adopted in the 2010 annual financial statements, except for the accounting policy changes that are set out in note 2.

The preparation of an interim financial report in conformity with IAS/HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year-to-date basis. Actual results may differ from these estimates.

The Group's interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2010 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with International Financial Reporting Standards (IFRSs) or Hong Kong Financial Reporting Standards (HKFRSs).

The Group's interim financial report is unaudited, but has been reviewed by the Company's Audit Committee. The Group's interim financial report has also been reviewed by the Company's auditors, KPMG, in accordance with Hong Kong Standard on Review Engagements 2410, Review of interim financial information performed by the independent auditor of the entity, issued by the HKICPA. KPMG's unmodified independent review report to the board of directors is included in the interim report to be sent to shareholders.

The financial information relating to the financial year ended 31 December 2010 that is included in the interim financial report as being previously reported information does not constitute the Company's statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2010 are available from the Company's registered office. The auditors have expressed an unqualified opinion on those statutory financial statements in their report dated 16 March 2011.

**NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT (CONTINUED)**

*(Expressed in Renminbi unless otherwise indicated)*

**2. SIGNIFICANT ACCOUNTING POLICIES**

The IASB has issued a number of new or revised IFRSs, which term collectively includes IASs and interpretations, that are first effective or available for early adoption for accounting periods beginning on or after 1 January 2011. The equivalent new or revised HKFRSs, which term collectively includes HKASs and Interpretations, consequently issued by HKICPA as a result of these developments have the same effective date as those issued by the IASB and are consistent with the pronouncements issued by the IASB.

Of these, the following developments are relevant to the Group's financial statements:

IAS/HKAS 24 (revised), Related Party Disclosures

Improvements to IFRSs/HKFRSs (2010)

These developments have had no material impact on the Group's financial statements.

The IFRSs and HKFRSs that will be effective or are available for voluntary early adoption in the annual financial statements for the year ending 31 December 2011 may be affected by the issuance of additional interpretations or other changes announced by the IASB and HKICPA subsequent to the date of issuance of the interim financial report. Therefore the policies that will be applied in the Group's financial statements for the year ending 31 December 2011 cannot be determined with certainty at the date of issuance of the Group's interim financial report.

**3. SEGMENT REPORTING**

An operating segment is a component of the Group that engages in business activities from which the Group may earn revenue and incur expenses, and is identified on the basis of the internal financial reports that are provided to and regularly reviewed by the Group's chief operating decision maker in order to allocate resource and assess performance of the segment. For the periods presented, the Group has no operating segments since the Group is only engaged in mobile telecommunication and related business. No Group's geographical information has been disclosed as the majority of the Group's operating activities are carried out in Mainland China. For the purpose of preparing the Group's interim financial report, Mainland China refers to the People's Republic of China ( PRC ) excluding the Hong Kong Special Administrative Region of the PRC ( Hong Kong ), the Macau Special Administrative Region of the PRC and Taiwan. The Group's assets located and operating revenue derived from activities outside Mainland China are less than 5% of the Group's assets and operating revenue, respectively.

**4. TURNOVER**

Turnover represents mainly usage fees, monthly fees, value-added services fees and other operating revenue derived from the Group's mobile telecommunications networks, net of the PRC business tax. Business tax is charged at approximately 3% of the corresponding revenue generated from the services rendered in Mainland China. No business tax is charged on the revenue generated from the Group's mobile telecommunications and related services in Hong Kong.

Value-added services fees are mainly derived from voice value-added services, short message services ( SMS ), Wireless Data business and other data services.

Other operating revenue mainly represents interconnection revenue.

**17. RELATED PARTY TRANSACTIONS (CONTINUED)**

**(c) Transactions with other government-related entities in the PRC**

The Group is a government-related enterprise and operates in an economic regime currently dominated by entities directly or indirectly controlled by the PRC government through government authorities, agencies, affiliations and other organisation (collectively referred to as government-related entities ).

Apart from transactions with CMCC Group (note 17(a)), the Group has collectively, but not individually, significant transactions with other government-related entities which include but not limited to the following:

rendering and receiving telecommunication services, including interconnection revenue/charges

purchase of goods, including use of public utilities

depositing in banks

providing trust loans

These transactions are conducted in the ordinary course of the Group's business on terms comparable to the terms of transactions with other entities that are not government-related. The Group prices its telecommunications services and products in accordance with rules and regulations stipulated by related authorities of the PRC Government, where applicable, or based on commercial negotiations. The Group has also established its procurement policies and approval processes for purchases of products and services, which do not depend on whether the counterparties are government-related entities or not.

**20. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE ANNUAL ACCOUNTING PERIOD ENDING 31 DECEMBER 2011**

Up to the date of issue of the Group's interim financial report, the IASB/HKICPA has issued a number of amendments, new standards and interpretations which are not yet effective for the accounting period ending 31 December 2011 and which have not been adopted in the Group's interim financial report.

Of these developments, the following relate to matters that may be relevant to the Group's operations and financial statements:

	<b>Effective for accounting periods beginning on or after</b>
Amendments to IFRS/HKFRS7, Financial Instruments Disclosures: transfers of financial assets	1 July 2011
Amendments to IAS/HKAS 12, Income taxes-deferred tax: recovery of underlying assets	1 January 2012
Amendments to IAS1, Presentation of Financial Statements	1 July 2012
IFRS/HKFRS10, Consolidated Financial Statements	1 January 2013
IFRS/HKFRS11, Joint Arrangements	1 January 2013
IFRS/HKFRS12, Disclosure of Interests in Other Entities	1 January 2013
IFRS/HKFRS13, Fair Value Measurement	1 January 2013
IAS/HKAS27, Separate Financial Statements	1 January 2013
IAS/HKAS28, Investments in Associates and Joint Ventures	1 January 2013
IFRS/HKFRS9, Financial Instruments	1 January 2015

The Group is in the process of making an assessment of what the impact of these amendments, new standards and new interpretations are expected to be in the period of initial application. So far the Group has concluded that while the adoption of them may result in new or amended disclosures, it is unlikely to have a significant impact on the Group's results of operations and financial position.

**21. COMPARATIVE FIGURES**

Certain comparative figures have been adjusted to conform to current period's presentation.

## DISCUSSION OF SELECTED ITEMS IN THE INTERIM RESULTS

### 1. Capital expenditure

In the first half of 2011, based on the principle of scientific planning, optimized management, living within our means and farsighted investment, the Group focused on strengthening project management and optimized resource allocation to effectively support the growth in our customer base, voice usage volume and data traffic. The Group's capital expenditure for the first half of 2011 was RMB61.8 billion, representing 24.7% of operating revenue, which was mainly used for the construction of infrastructural networks, transmission facilities, business support systems and infrastructure buildings and for the development of new technologies and new businesses. The capital expenditure was primarily financed by cash flow generated from operations. To ensure investment effectiveness, the Group adopted a 2G/3G network integration strategy. During the first half of 2011, over 70% of the capital investment was compatible to 3G. The Group is committed to further strengthening network advantages, maintaining the overall lead in network capacity and quality, furthering the coordinated development of the 2G, 3G and WLAN networks, continuously pursuing rational investment, promoting centralized construction and evaluating the cost-effectiveness of capital investment, with an aim to achieve low-cost, high-efficiency operations and to ensure favorable investment returns.

### 2. Operating expense

In the first half of 2011, while facing various challenges, such as the increasing mobile telecommunications penetration rate and intensified market competition, the Group, while adhering to the cost-effective resource allocation principle of forward planning, effective resource allocation, rational investment and refined management, further increased investments in sales promotion, customer service, channel construction and network optimization in order to support our stable business development. Adhering to our mantra of Customers are our priority, quality service is our principle, the Group carried out rational competition, strengthened its refined cost management, and continued to strengthen its core competitiveness in respect of network, business and services. The Group's operating expenses for the first half of 2011 totaled RMB175.1 billion, representing an increase of 11.9% over the same period last year and accounting for 70.0% of operating revenue. With the continuous growth of the business, the Company's advantages of economies of scale continued to be realized. This was reflected in the decline of average operating expenses per minute of usage by 1.2%, despite the fact that there was an increase of 8.8%, 11.3% and 13.3% in operating revenue, number of customers and voice usage volume, respectively, over the same period last year.

### **3. Strong cash flow and sound capital structure**

The favorable growth in business and revenue, refined cost control measures, highly-efficient capital expenditure management, and the continuous effect of economies of scale continued to generate strong cash flow for the Group. Free cash flow (net cash generated from operating activities after deduction of capital expenditure incurred) of the Group was RMB64.4 billion for the six months ended 30 June 2011. As of 30 June 2011, the Group's total cash and bank balances were RMB330.0 billion, of which 99.1%, 0.2% and 0.7% were denominated in RMB, U.S. dollar and Hong Kong dollar, respectively. While maintaining a sufficient amount of working capital, the Company preserved and increased the value of the cash in hand through the granting of trust loans. In addition, the Company exercised stringent risk management and control over trust loans by limiting the recipients of such loans to major state-owned enterprises in Mainland China. The risks of trust loans were thus minimal.

In June 2011, the Group repaid RMB5 billion in respect of the bonds issued by China Mobile Group Guangdong Company Limited on 18 June 2001. As of 30 June 2011, the Group's debt to capitalization ratio (with capitalization representing the sum of total debt and total shareholders equity value) was approximately 4.7%, and the short-term and long-term borrowings of the Group totaled RMB29.8 billion. The financial position of the Group continued to remain at a sound level. Of the total borrowings, 20.8% was in RMB (consisting principally of RMB bonds), and 79.2% was in U.S. dollar (consisting principally of the balances of the deferred consideration for the acquisitions of the eight and ten provincial telecommunications operators). Approximately 79.6% of the Group's borrowings were made at floating interest rates. The effective average interest rate of borrowings of the Group was 2.17% in the first half of 2011, whereas the interest coverage multiple (ratio of profit before interest and tax to interest expenses) amounted to 230 times.

The Group will continue to pursue prudent financial principles, adhere to efficient financial risk management, strive to maintain a robust cash generating capability and capability to preserve and increase value, adopt wise resource allocation, maintain a sound debt profile and level, as well as reinforce and develop favorable economic benefits, with a view to generating returns for its shareholders continuously.

### **4. Personnel expense**

The Group continued to strengthen its highly-efficient personnel management and incentive mechanism, adhere to the people-oriented principle and continuously enhance its human resource management. The Group has implemented a comprehensive budget management system and performance-based evaluation system, which helped to maintain its competitive advantage in terms of human resources while reasonably controlling personnel expense. To support its sound business development, the Group further expanded its workforce in different areas of activity, resulting in an increased staff number. As at 30 June 2011, the Group had a total of 170,019 employees. Personnel expenses for the first half of 2011 were RMB13.1 billion, representing 5.2% of the operating revenue.

#### **PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES**

During the six months ended 30 June 2011, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

#### **AUDIT COMMITTEE**

The Audit Committee reviewed with management the accounting principles and practices adopted by the Group and discussed auditing, internal control and financial report matters, including the review of the unaudited interim report for the six months ended 30 June 2011.

**CONTINUING CONNECTED TRANSACTIONS WITH  
CHINA MOBILE COMMUNICATIONS CORPORATION  
NETWORK ASSETS LEASING AGREEMENT AND  
INCREASE IN ANNUAL CAPS**

**NETWORK ASSETS LEASING AGREEMENT**

In order to better position the Group in the changing landscape of the telecommunications industry in China and to enable the Group to meet the subscribers' demand for one-stop shop telecommunications services, the Company entered into the Network Assets Leasing Agreement with CMCC on 18 August 2011, pursuant to which the Company and its operating subsidiaries on the one hand and CMCC and its subsidiaries (including TieTong and its subsidiaries) on the other will lease their respective Network Assets to each other in return for the Leasing Fees. The parties to the Network Assets Leasing Agreement have the right to adjust the scope of the Network Assets leased under the Network Assets Leasing Agreement to suit their respective business needs.

By utilising the Network Assets of CMCC and its subsidiaries (including TieTong and its subsidiaries), the Company intends to offer its subscribers a complete telecommunications solution.

The Network Assets Leasing Agreement shall expire on 31 December 2011, and unless the parties agree otherwise, upon expiry of the term, the Network Assets Leasing Agreement shall automatically be renewed for further terms of one year each.

The Leasing Fees shall be determined with reference to the prevailing market rates but in any event shall not be more than the leasing fees charged to any independent third party for the same kinds of Network Assets. The amount of Leasing Fees payable by the Group to CMCC and its subsidiaries under the Network Assets Leasing Agreement for the year ending 31 December 2011 is expected not to exceed RMB1,200 million (equivalent to approximately HK\$1,457 million). Accordingly, this amount is set as the annual cap for the Leasing Fees payable by the Group to CMCC and its subsidiaries under the Network Assets Leasing Agreement for the year ending 31 December 2011. The amount of Leasing Fees receivable by the Group from CMCC and its subsidiaries under the Network Assets Leasing Agreement for the year ending 31 December 2011 is expected to be below 0.1% of each of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules.

**INCREASE IN ANNUAL CAPS OF THE 2011-2013 TELECOMMUNICATIONS SERVICES AGREEMENT FOR THE THREE YEARS ENDING 31 DECEMBER 2011, 2012 AND 2013**

Reference is made to the announcement of the Company dated 21 December 2010 where the Board announced that the Company had entered into the 2011-2013 Telecommunications Services Agreement with CMCC.

In view of the Group's continued business growth and the increase in the scale of the telecommunications network assets leased from CMCC and its subsidiaries, the Group's demand for the Telecommunications Services from CMCC and its subsidiaries is expected to increase. As such, the Directors consider that the annual caps for the charges payable by the Group to CMCC and its subsidiaries under the 2011-2013 Telecommunications Services Agreement for each of the three years ending 31 December 2011, 2012 and 2013 are no longer sufficient. On 18 August 2011, the Directors resolved to increase the annual caps in respect of the 2011-2013 Telecommunications Services Agreement for the three years ending 31 December 2011, 2012 and 2013 by RMB500 million (equivalent to approximately HK\$607 million), RMB800 million (equivalent to approximately HK\$971 million) and RMB1,000 million (equivalent to approximately HK\$1,214 million), respectively. After the increase, the annual caps for the charges payable by the Group to CMCC and its subsidiaries under the 2011-2013 Telecommunications Services Agreement for the three years ending 31 December 2011, 2012 and 2013 shall be RMB2,000 million (equivalent to approximately HK\$2,428 million), RMB2,500 million (equivalent to approximately HK\$3,035 million) and RMB3,000 million (equivalent to approximately HK\$3,641 million), respectively.

**LISTING RULES IMPLICATIONS**

CMCC is the ultimate controlling shareholder of the Company and hence a connected person of the Company. Accordingly, the transactions contemplated under the Network Assets Leasing Agreement and the 2011-2013 Telecommunications Services Agreement constitute continuing connected transactions for the Company under Rule 14A.34 of the Listing Rules.

Since one or more of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules in respect of the annual cap for the amount payable by the Group under the Network Assets Leasing Agreement and the revised annual caps for the charges payable by the Group to CMCC and its subsidiaries under the 2011-2013 Telecommunications Services Agreement are, on an annual basis, above 0.1% but below 5%, the transactions contemplated under the Network Assets Leasing Agreement and the 2011-2013 Telecommunications Services Agreement are classified as continuing connected transactions under Rule 14A.34 of the Listing Rules and are only subject to the reporting, annual review and announcement requirements set out in the Listing Rules but are exempt from the independent shareholders' approval requirement under the Listing Rules.

Details of the Network Assets Leasing Agreement and the 2011-2013 Telecommunications Services Agreement will be included in the annual report and accounts of the Company in accordance with Rules 14A.45 and 14A.46 of the Listing Rules.

## NETWORK ASSETS LEASING AGREEMENT

Date: 18 August 2011

Parties: (i) CMCC

(ii) the Company

The Group is the leading mobile services provider in China, which operates nationwide mobile telecommunications networks in all thirty-one provinces, autonomous regions and directly-administered municipalities in Mainland China and in Hong Kong. TieTong, a wholly-owned subsidiary of CMCC, is a fixed-line telecommunications operator in China.

In order to better position the Group in the changing landscape of the telecommunications industry in China and to enable the Group to meet the subscribers' demand for one-stop shop telecommunications services, the Company entered into the Network Assets Leasing Agreement with CMCC pursuant to which the Company and its operating subsidiaries on the one hand and CMCC and its subsidiaries (including TieTong and its subsidiaries) on the other will lease their respective telecommunications network operation assets (the **Network Assets**) to each other in return for a leasing fee (the **Leasing Fees**). Such Network Assets include, among others, access networks, transmission networks, machinery rooms and equipment. The parties to the Network Assets Leasing Agreement have the right to adjust the scope of the Network Assets leased under the Network Assets Leasing Agreement to suit their respective business needs.

By utilising the Network Assets of CMCC and its subsidiaries (including TieTong and its subsidiaries), the Company intends to offer its subscribers a complete telecommunications solution.

The Network Assets Leasing Agreement shall expire on 31 December 2011, and unless the parties agree otherwise, upon expiry of the term, the Network Assets Leasing Agreement shall automatically be renewed for further terms of one year each.

The Leasing Fees are payable on a monthly basis in cash. The Leasing Fees shall be determined with reference to the prevailing market rates but in any event shall not be more than the leasing fees charged to any independent third party for the same kinds of Network Assets.

For the period from 1 January 2011 to 30 June 2011, the aggregate amount of Leasing Fees payable by the Group to CMCC for leasing the Network Assets was approximately RMB63 million (approximately HK\$76 million). The aggregate amount of Leasing Fees payable by the Group to CMCC for leasing the Network Assets up to the date of this announcement is below 0.1% of each of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules. In response to the competition in full-service business in the telecommunications market in China, the Group intends to increase the scale of the Network Assets leased from CMCC and its subsidiaries in the second half of 2011, which the Company considers is an efficient way for the Group to obtain the necessary Network Assets for the enhancement of its full-service business. Accordingly, the Company expects that the amount of Leasing Fees payable by the Group for leasing the Network Assets from CMCC and its subsidiaries will increase substantially in the second half of 2011. The amount of Leasing Fees payable by the Group for leasing the Network Assets under the Network Assets Leasing Agreement for the year ending 31 December 2011 is expected not to exceed RMB1,200 million (equivalent to approximately HK\$1,457 million). Accordingly, this amount is set as the annual cap for the Leasing Fees payable by the Group to CMCC and its subsidiaries under the Network Assets Leasing Agreement for the year ending 31 December 2011.

The amount of Leasing Fees receivable by the Group from CMCC and its subsidiaries under the Network Assets Leasing Agreement for the year ending 31 December 2011 is expected to be below 0.1% of each of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules.

The Directors (including the independent non-executive Directors) are of the view that the Network Assets Leasing Agreement was entered into after arm's length negotiation between the Company and CMCC, reflects normal commercial terms and is in the interests of the Company and its shareholders as a whole. The Directors (including the independent non-executive Directors) are also of the view that the terms as well as the proposed annual cap for the transactions contemplated thereunder are fair and reasonable.

**INCREASE IN ANNUAL CAPS OF THE 2011-2013 TELECOMMUNICATIONS SERVICES AGREEMENT FOR THE THREE YEARS ENDING 31 DECEMBER 2011, 2012 AND 2013**

Reference is made to the announcement of the Company dated 21 December 2010 where the Board announced that the Company had entered into the 2011-2013 Telecommunications Services Agreement with CMCC.

Pursuant to the 2011-2013 Telecommunications Services Agreement, subsidiaries of the Company provide certain telecommunications services to CMCC and its subsidiaries (the **Telecommunications Services**) and also receive other telecommunications services from CMCC and its subsidiaries. Telecommunications Services provided under the 2011-2013 Telecommunications Services Agreement include (i) telecommunications project planning, design and construction services; (ii) telecommunications line and pipeline constructions services; (iii) telecommunications line maintenance services; and (iv) installation and maintenance services in respect of transmission towers. In addition, subsidiaries of the Company will provide transmission towers and spare parts to subsidiaries of CMCC.

In view of the Group's continued business growth and the increase in the scale of the telecommunications network assets leased from CMCC and its subsidiaries, the Group's demand for the Telecommunications Services from CMCC and its subsidiaries is expected to increase. As such, the Directors consider that the annual caps for the charges payable by the Group to CMCC and its subsidiaries under the 2011-2013 Telecommunications Services Agreement for each of the three years ending 31 December 2011, 2012 and 2013 are no longer sufficient. On 18 August 2011, the Directors resolved to increase the annual caps in respect of the 2011-2013 Telecommunications Services Agreement for the three years ending 31 December 2011, 2012 and 2013 by RMB500 million (equivalent to approximately HK\$607 million), RMB800 million (equivalent to approximately HK\$971 million) and RMB1,000 million (equivalent to approximately HK\$1,214 million), respectively. The increase in annual caps is estimated with reference to the qualification and scope of services that can be offered by CMCC and its subsidiaries. After the increase, the annual caps for the charges payable by the Group to CMCC and its subsidiaries under the 2011-2013 Telecommunications Services Agreement for the three years ending 31 December 2011, 2012 and 2013 shall be RMB2,000 million (equivalent to approximately HK\$2,428 million), RMB2,500 million (equivalent to approximately HK\$3,035 million) and RMB3,000 million (equivalent to approximately HK\$3,641 million), respectively.

The charges payable by the Group for the Telecommunications Services under the 2011-2013 Telecommunications Services Agreement up to the date of this announcement have not exceeded the previous annual cap as disclosed in the announcement published by the Company on 21 December 2010.

Other than the increase in the annual caps for the three years ending 31 December 2011, 2012 and 2013, the terms and conditions of the 2011-2013 Telecommunications Services Agreement remain unchanged.

The Directors are of the view that the proposed revised annual caps for the three years ending 31 December 2011, 2012 and 2013 are fair and reasonable and in the interests of the Company and its shareholders as a whole.

#### **LISTING RULES IMPLICATIONS**

CMCC is the ultimate controlling shareholder of the Company and hence a connected person of the Company. Accordingly, the transaction contemplated under the Network Assets Leasing Agreement and the 2011-2013 Telecommunications Services Agreement constitute continuing connected transactions for the Company under Rule 14A.34 of the Listing Rules.

Since one or more of the applicable percentage ratios set out in Rule 14.07 of the Listing Rules in respect of the annual cap for the amount payable by the Group under the Network Assets Leasing Agreement and the revised annual caps for the charges payable by the Group to CMCC and its subsidiaries under the 2011-2013 Telecommunications Services Agreement are, on an annual basis, above 0.1% but below 5%, the transactions contemplated under the Network Assets Leasing Agreement and the 2011-2013 Telecommunications Services Agreement are classified as continuing connected transactions under Rule 14A.34 of the Listing Rules and are only subject to the reporting, annual review and announcement requirements set out in the Listing Rules but are exempt from the independent shareholders' approval requirement under the Listing Rules.

Details of the Network Assets Leasing Agreement and the 2011-2013 Telecommunications Services Agreement will be included in the annual report and accounts of the Company in accordance with Rules 14A.45 and 14A.46 of the Listing Rules.

The Group had no other prior transactions with CMCC and its associates which required aggregation with the Network Assets Leasing Agreement or the 2011-2013 Telecommunications Services Agreement under Rule 14A.25 of the Listing Rules.

None of the Directors has a material interest in the transactions under the Network Assets Leasing Agreement and the 2011-2013 Telecommunications Services Agreement or, is required to abstain from voting on the board resolutions for considering and approving such transactions.

**GENERAL INFORMATION**

CMCC is a State-owned company established under the laws of the PRC and the ultimate controlling shareholder of the Company holding indirectly approximately 74.20% of the total issued and outstanding share capital of the Company. Through the Group, CMCC is the leading provider of mobile telecommunications services in the PRC.
