**CAUTIONARY STATEMENTS CONCERNING FORWARD-LOOKING STATEMENTS**

Certain written statements we make in this prospectus supplement and the accompanying prospectus, and in our other filings with the SEC that are incorporated herein by reference, that are not historical facts constitute forward-looking statements within the meaning of Section 27A of the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Forward-looking statements are those that predict or describe future events or trends and that do not relate solely to historical matters. All statements contained or incorporated by reference in this prospectus supplement and the accompanying prospectus addressing our future results of operations and operating performance, events, or developments that we expect or anticipate will occur in the future, including, but not limited to, statements relating to investment strategies, changes in net interest income growth, investment performance, earnings or earnings per share growth, the future interest rate environment, future capital raising strategies and activities, economic conditions and outlook, expected impact of hedging transactions, and market share, as well as statements expressing optimism or pessimism about future operating results, are forward-looking statements. You can generally identify forward-looking statements as statements containing the words will, believe, expect, anticipate, intend, estimate, assume, continue, should, may or other similar expressions. Forward-looking statements are based on our current beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. These beliefs, assumptions and expectations are subject to risks and uncertainties and can change as a result of many possible events or factors, not all of which are known to us. If a change occurs, our business, financial condition, liquidity and results of operations may vary materially from those expressed or implied in our forward-looking statements. We caution readers not to place undue reliance on these forward-looking statements, which may be based on assumptions and expectations that do not materialize.

We make forward-looking statements in this prospectus supplement and in the accompanying prospectus, and in our other filings with the SEC that are incorporated herein by reference, regarding:

Our business and investment strategy including our ability to generate acceptable risk-adjusted returns;

Our financing and hedging strategy, including our target leverage ratios;

Our investment portfolio composition and target investments;

Our investment portfolio performance, including the fair value, yields and forecasted prepayment speeds of our investment portfolio; Our liquidity and ability to access financing, and the anticipated availability and cost of financing;

Our use of our tax net operating loss carryforward;

The status of pending litigation, including our intent and ability to settle pending litigation and the proposed terms of such settlement;

The anticipated effect on us of recent accounting pronouncements;

Estimates of future interest expenses related to our derivatives designated as hedging instruments;

Market, industry and economic trends; and

Interest rates.

**Table of Contents**

While it is not possible to identify all factors, some of the factors that may cause actual results to differ from historical results or from any results expressed or implied by forward-looking statements, or that may cause our projections, assumptions, expectations or beliefs to change, include the following:

The risks and uncertainties referenced in this prospectus supplement and the accompanying prospectus, or in our other filings with the SEC that are incorporated herein by reference, particularly those set forth under the heading "Risk Factors" herein and in our annual report on Form 10-K for the year ended December 31, 2010 and our quarterly reports on Form 10-Q for the periods ended June 30, 2011 and September 30, 2011 under Item 1A, "Risk Factors";

Our ability to find suitable reinvestment opportunities;

Changes in economic conditions;

Changes in interest rates and interest rate spreads;

Our investment portfolio performance particularly as it relates to cash flow, prepayment rates and credit performance;

Adverse reactions in financial markets related to the budget deficit or national debt of the United States government; potential or actual default by the United States government on Treasury securities; and potential or actual downgrades to the sovereign credit rating of the United States;

The cost and availability of financing;

The cost and availability of new equity capital;

Changes in our use of leverage;

The quality of performance of third-party servicer providers of our loans and loans underlying our securities;

The level of defaults by borrowers on loans we have securitized;

Our ability to finalize, including obtaining court and class approval, the proposed settlement of litigation filed by Teamsters Local 445 Freight Division Pension Fund;

Changes in our industry;

Increased competition;

Changes in government regulations affecting our business;

Government initiatives to support the United States financial system and United States housing and real estate markets;

Government-sponsored entity reform or other government policies and actions; and

An ownership shift under Section 382 of the Internal Revenue Code of 1986, as amended, that impacts the use of our tax net operating loss carryforward.

**Table of Contents**

These and other risks, uncertainties and factors, including those described in the annual, quarterly and current reports that we file with the SEC, could cause our actual results to differ materially from those projected in any forward-looking statements we make. All forward-looking statements speak only as of the date on which they are made. New risks and uncertainties arise over time and it is not possible to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

We are including this cautionary statement in this prospectus supplement to make applicable and take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 for any forward-looking statements made by us or on our behalf. Any forward-looking statements should be considered in context with the various disclosures made by us about our business in our public filings with the SEC, including without limitation the risk factors described above and those described in **Risk Factors** beginning on page S-9.

**SUMMARY**

*The following information is qualified in its entirety by the more detailed information and financial statements and notes thereto appearing elsewhere in this prospectus supplement and the accompanying prospectus or incorporated by reference into this prospectus supplement and the accompanying prospectus. We encourage you to read this prospectus supplement and the accompanying prospectus, as well as the information which is incorporated by reference into this prospectus supplement and the accompanying prospectus, in their entireties. You should carefully consider the risks identified in our annual report on Form 10-K for the year ended December 31, 2010 and our quarterly reports on Form 10-Q for the periods ended June 30, 2011 and September 30, 2011, which are incorporated by reference into this prospectus supplement and the accompanying prospectus, and in this prospectus supplement before making an investment decision to purchase shares of our common stock. All references to we, our, us or the Company in this prospectus supplement and the accompanying prospectus mean Dynex Capital, Inc.*

**The Company**

We are an internally-managed real estate investment trust, or REIT, which invests in mortgage assets on a leveraged basis. Our objective is to provide attractive risk-adjusted returns to our shareholders over the long term that are reflective of a leveraged, high quality fixed income portfolio with a focus on capital preservation. We seek to provide returns to our shareholders through regularly quarterly dividends and through capital appreciation. Our common stock is listed on the New York Stock Exchange under the symbol **DX**.

We were formed in 1987 and commenced operations in 1988. Beginning with our inception through 2000, our operations largely consisted of originating and securitizing various types of loans, principally single-family and commercial mortgage loans and manufactured housing loans. Since 2000, we have been an investor in Agency and non-Agency mortgage-backed securities ( **MBS** ), and we are no longer originating or securitizing mortgage loans.

Our primary source of income is net interest income, which is the excess of the interest income earned on our investments over the cost of financing these investments. Our investment strategy as approved by our Board of Directors, is a diversified investment strategy that targets higher credit quality, shorter duration investments in Agency MBS and non-Agency MBS. Investments considered to be of higher credit quality have less or limited exposure to loss of principal while investments which have shorter durations have less exposure to changes in interest rates.

Agency MBS consist of residential MBS ( **RMBS** ) and commercial MBS ( **CMBS** ), which come with a guaranty of payment by the U.S. government or a U.S. government-sponsored entity such as Fannie Mae and Freddie Mac. Non-Agency MBS (also consisting of RMBS and CMBS) have no such guaranty of payment. We currently target an overall investment portfolio composition of 50%-70% in Agency MBS with the balance in non-Agency MBS and securitized mortgage loans. Our securitized mortgage loans are loans which were originated and securitized by us during the 1990s.

We finance our investments through a combination of short-term repurchase agreements and non-recourse collateralized financing such as securitization financing and financing provided by the Federal Reserve Bank of New York under its Term Asset-Backed Securities Loan Facility ( **TALF** financing). Repurchase agreement financing generally has maturities of 30-90 days and is uncommitted financing. Securitization financing is generally term financing and is repaid from the cash flow received on the securitized mortgage loans. Our TALF financing, which had an initial maturity of three years, is recourse only to the assets which it is funding.

**Table of Contents**

In executing our investment strategy, we seek to balance the various risks of owning mortgage assets, such as interest rate, credit, prepayment, and liquidity risk, with the earnings opportunity on the investment. We believe our strategy of investing in Agency and non-Agency mortgage assets provides superior diversification of these risks across our investment portfolio and therefore provides plentiful opportunities to generate attractive risk-adjusted returns while preserving our shareholders' capital.

Our address and telephone number are 4991 Lake Brook Drive, Suite 100, Glen Allen, Virginia 23060 and (804) 217-5800.

**Recent Developments**

Based on preliminary estimates, we expect that our results for the quarter ended December 31, 2011 will be as follows:

Net income of between \$14.1 million and \$14.9 million versus \$1.5 million for the quarter ended September 30, 2011, or earnings per diluted common share of between \$0.35 and \$0.37 per common share versus \$0.04 per common share for the quarter ended September 30, 2011;

Book value per common share at December 31, 2011 of between \$9.18 and \$9.22 per common share versus \$9.15 at September 30, 2011; and

Net interest spread of between 2.53% and 2.59% versus a net interest spread of 2.43% for the quarter ended September 30, 2011. The increase in net income and earnings per diluted share primarily relates to growth in our net interest spread during the quarter, as well as certain charges included in the results for the quarter ended September 30, 2011, such as litigation settlement and related defense costs and a charge on redemption of collateralized financings. The increase in book value per common share primarily relates to the excess of earnings for the quarter versus the dividend declared of \$0.28 for the quarter. The increase in net interest spread is a result of the continued rotation of our investment portfolio from Agency RMBS to Agency and non-Agency CMBS.

The above estimates are preliminary as we have not completed all of the procedures that we would normally conduct in connection with the year-end compilation of our financial results. In addition, our auditor, BDO USA LLP, has not substantially begun its normal audit procedures for the quarter and year ended December 31, 2011. There can be no assurance that our final results for this period will not differ from these estimates, including as a result of our quarter-end and year-end closing procedures. These estimates should not be viewed as a substitute for full interim and year end financial statements prepared in accordance with accounting principles generally accepted in the United States of America.

Since September 30, 2011 and through January 25, 2012, we have issued 402,494 shares of common stock through our continuous equity placement program and raised net proceeds of \$3.7 million, and we have issued 2,254 shares under our dividend reinvestment and share purchase plan for net proceeds of approximately \$20 thousand.

**U.S. Federal Income Tax Considerations    Recent Developments**

The below information adds to and updates, and should be read together with, the information in the accompanying prospectus under the caption U.S. Federal Income Tax Considerations.

**Taxation of Our Company**

We have a tax net operating loss carryforward as of December 31, 2010 of \$146 million. We have not prepared our tax return for 2011, and do not have an estimate for the tax net operating loss carryforward as of December 31, 2011. The net operating loss carryforward expires substantially beginning in 2020.

**Federal Income Tax Consequences of Our Status as a REIT    Recent Developments**

*The Health Care and Education Reconciliation Act of 2010.* On March 18, 2010, the Hiring Incentives to Restore Employment Act (the Hire Act ) was signed into law. The Hire Act imposes withholding taxes on certain types of payments made to foreign financial institutions (as specifically defined in the Hire Act) and certain other non-U.S. entities (including financial intermediaries). Recent IRS guidance has delayed the application of the new withholding taxes on dividends paid to certain entities until after December 31, 2013 and on other types of payments (including gross proceeds from the sale or other disposition of our common stock) until after December 31, 2014.

**Table of Contents**

**RISK FACTORS**

*An investment in our common stock involves various risks, including those described below and the risks set forth in our annual report on Form 10-K for the year ended December 31, 2010 and our quarterly reports on Form 10-Q for the periods ended June 30, 2011 and September 30, 2011 under Item 1A, Risk Factors. You should carefully consider these risk factors, together with all of the information contained in or incorporated by reference in this prospectus supplement and the accompanying base prospectus, in determining whether to purchase our common stock. If any of these risks occur, our business, operating results, prospects and financial condition could be harmed. This could cause the market price of our common stock to decline and could cause you to lose all or part of your investment.*

**Risks Related to our Common Stock**

*The market price and trading volume of our common stock may be volatile.*

The market price of our common stock may become highly volatile and subject to wide fluctuations. In addition, trading volume in our common stock may fluctuate and cause significant price variations to occur. Some of the factors that could result in fluctuations in the price or trading volume of our common stock include, among other things: actual or anticipated changes in our current or future financial performance; changes in market interest rates and general market and economic conditions. We cannot assure you that the market price of our common stock will not fluctuate or decline significantly.

*We have not established a minimum dividend payment level for our common stockholders and there are no assurances of our ability to pay dividends to them in the future.*

We have not established a minimum dividend payment level for our common stockholders. Given our tax NOL carryforwards, we are able to maintain our REIT status even if we do not distribute 90% of our REIT taxable income. Our ability to pay dividends may be harmed by the risk factors described or incorporated by reference herein. In addition, we may decide to use our NOL carryforward to offset all or a portion of our REIT dividend requirement. All distributions to our common stockholders will be made at the discretion of our board of directors and will depend on our earnings, our financial condition, maintenance of our REIT status and such other factors as our board of directors may deem relevant from time to time. There are no assurances of our ability to pay dividends in the future.

*Future offerings of debt securities, which would rank senior to our common stock upon our liquidation, and future offerings of equity securities, which would dilute our existing stockholders and may be senior to our common stock for the purposes of dividend and liquidating distributions, may adversely affect the market price of our common stock.*

In the future, we may attempt to increase our capital resources by making offerings of debt or additional offerings of equity securities, including commercial paper, medium-term notes, senior or subordinated notes and classes of preferred stock or common stock. Upon liquidation, holders of our debt securities and lenders with respect to our other borrowings will receive a distribution of our available assets prior to the holders of our common stock. In addition, upon liquidation, holders of shares of our preferred stock will receive a distribution of our available assets prior to the holders of our common stock. Additional equity offerings may dilute the holdings of our existing stockholders or reduce the market price of our common stock, or both. Moreover, any future issuance of preferred stock by us may have a preference on liquidating distributions and on dividend payments that could limit our ability to make a dividend distribution to the holders of our common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, holders of our common stock bear the risk of our future offerings reducing the market price of our common stock and diluting their stock holdings in us.

**Table of Contents**

***Future sales of our common stock could have an adverse effect on our stock price.***

We cannot predict the effect, if any, of future sales of common stock, or the availability of shares for future sales, on the market price of our common stock. Sales of substantial amounts of common stock, or the perception that such sales could occur, could dilute existing holders of our common stock and may adversely affect prevailing market prices for our common stock.

***We may not be able to use the money we raise to acquire investments at favorable prices.***

We intend to seek to raise additional capital from time to time if we determine that it is in our best interests and the best interests of our shareholders, including through public offerings of our stock. The net proceeds of any offering could represent a significant increase in our equity. Depending on the amount of leverage that we use, the full investment of the net proceeds of any offering might result in a substantial increase in our total assets. There can be no assurance that we will be able to invest all of such additional funds in mortgage-related assets at favorable prices. We may not be able to acquire enough mortgage-related assets to become fully invested after an offering, or we may have to pay more for MBS than we have historically. In either case, the return that we earn on stockholders' equity may be reduced.

**Table of Contents**

**USE OF PROCEEDS**

We expect to receive approximately \$ \_\_\_\_\_ in net proceeds from the sale of the shares of our common stock in this offering (approximately \$ \_\_\_\_\_ if the underwriters' option to purchase additional shares is exercised in full), after deducting underwriting discounts and commissions and the estimated expenses of this offering payable by us.

We intend to use the net proceeds from this offering to acquire additional investments, consistent with our investment policy, and for general corporate purposes, which may include, among other things, repayment of maturing obligations, capital expenditures and working capital.

**UNDERWRITING**

Credit Suisse Securities (USA) LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and JMP Securities LLC are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in an underwriting agreement among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the number of shares of common stock set forth opposite its name below.

	<b>Underwriter</b>	<b>Number of Shares</b>
Credit Suisse Securities (USA) LLC Merrill Lynch, Pierce, Fenner & Smith  Incorporated JMP Securities LLC		
Total		

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the shares sold under the underwriting agreement if any of these shares are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

**Commissions and Discounts**

The underwriters are purchasing the shares of common stock from us at \$ \_\_\_\_\_ per share (representing approximately \$ \_\_\_\_\_ aggregate net proceeds to us, before we deduct our out-of-pocket expenses of approximately \$ \_\_\_\_\_, or approximately \$ \_\_\_\_\_ if the underwriters' option to purchase additional shares from us described below is exercised in full). The underwriters may offer the shares of common stock from time to time for sale in one or more transactions on the New York Stock Exchange, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. In connection with the sale of the shares of common stock offered hereby, the underwriters may be deemed to have received compensation in the form of underwriting discounts. The underwriters may effect such transactions by selling shares of common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or purchasers of shares of common stock for whom they may act as agents or to whom they may sell as principal.

**Table of Contents**

**Option to Purchase Additional Shares**

We have granted an option to the underwriter, exercisable for 30 days after the date of this prospectus, subject to the conditions contained in the underwriting agreement, to purchase up to \_\_\_\_\_ additional shares at the price per share set forth on the cover page of this prospectus supplement.

**No Sales of Similar Securities**

We, our executive officers and directors have agreed not to sell or transfer any common stock or securities convertible into, exchangeable for, exercisable for, or repayable with common stock, for 60 days after the date of this prospectus without first obtaining the written consent of Credit Suisse Securities (USA) LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and JMP Securities LLC. Specifically, we and these other persons have agreed, with certain limited exceptions, not to directly or indirectly

offer, pledge, sell or contract to sell any common stock,

sell any option or contract to purchase any common stock,

purchase any option or contract to sell any common stock,

grant any option, right or warrant for the sale of any common stock,

lend or otherwise dispose of or transfer any common stock,

request or demand that we file a registration statement related to the common stock, or

enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any common stock whether any such swap or transaction is to be settled by delivery of shares or other securities, in cash or otherwise.

Notwithstanding the foregoing, we may issue shares under our existing dividend reinvestment and stock purchase program without restriction. Shares issued under such program to any of our executive officers or directors will be subject to this lock-up provision. In addition, at any time after the 45<sup>th</sup> day after the date of this prospectus, we may issue shares of our common stock pursuant to and within the existing limitations of our continuous equity placement program.

This lock-up provision applies to common stock and to securities convertible into or exchangeable or exercisable for or repayable with common stock. It also applies to common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition. In the event that either (x) during the last 17 days of the lock-up period referred to above, we issue an earnings release or material news or a material event relating to the Company occurs or (y) prior to the expiration of the lock-up period, we announce that we will release earnings results or become aware that material news or a material event will occur during the 16-day period beginning on the last day of the lock-up period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

### **New York Stock Exchange Listing**

The shares are listed on the New York Stock Exchange under the symbol DX.

### **Short Positions**

In connection with the offering, the underwriters may purchase and sell our common stock in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. Covered short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares described above. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through their option to purchase additional shares. Naked short sales are sales in excess of that option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of common stock made by the underwriters in the open market prior to the completion of the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on the New York Stock Exchange, in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor any of the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

### **Electronic Distribution**

In connection with the offering, the underwriters may distribute prospectuses by electronic means, such as e-mail.

### **Other Relationships**

The underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

We have entered into master repurchase agreements with Credit Suisse Securities (USA) LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, JMP Securities, LLC and their respective affiliates. In addition, on June 24, 2010, we entered into an equity distribution agreement, which was amended by Amendment No. 1 to Equity Distribution Agreement on December 23, 2011 (the Sales Agreement), with JMP Securities LLC pursuant to which we may offer and sell up to 8 million shares of common stock from time to time through JMP Securities LLC, as our agent under the Sales Agreement. JMP Securities LLC is entitled to compensation of up to two percent (2.0%) of the gross sales price per share for any shares of common stock sold under the Sales Agreement. As of January 25, 2012, 7,597,506 shares of common stock remain available for sale under the Sales Agreement.

## **Table of Contents**

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

### **Notice To Prospective Investors In The European Economic Area**

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State ), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date ), no offer of shares may be made to the public in that Relevant Member State other than:

- A. to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- B. to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the underwriter; or
- C. in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of shares shall require the Company or the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a Relevant Member State (other than a Relevant Member State where there is a Permitted Public Offer) who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed that (A) it is a qualified investor within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive, and (B) in the case of any shares acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, the shares acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than qualified investors as defined in the Prospectus Directive, or in circumstances in which the prior consent of the Subscribers has been given to the offer or resale. In the case of any shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the underwriters has been obtained to each such proposed offer or resale.

The Company, the underwriters and their affiliates will rely upon the truth and accuracy of the foregoing representation, acknowledgement and agreement.

This prospectus has been prepared on the basis that any offer of shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly any person making or intending to make an offer in that Relevant Member State of shares which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for the Company or the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the Company nor the underwriters has authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for the Company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression an offer to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC (including the

Edgar Filing: DYNEX CAPITAL INC - Form 424B5

2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

### **Notice to Prospective Investors in Switzerland**

We have not and will not register with the Swiss Financial Market Supervisory Authority ( FINMA ) as a foreign collective investment scheme pursuant to Article 119 of the Federal Act on Collective Investment Scheme of 23 June 2006, as amended ( CISA ), and accordingly the securities being offered pursuant to this prospectus have not and will not be approved, and may not be licenseable, with FINMA. Therefore, the securities have not been authorized for distribution by FINMA as a foreign collective investment scheme pursuant to Article 119 CISA and the securities offered hereby may not be offered to the public (as this term is defined in Article 3 CISA) in or from Switzerland. The securities may solely be offered to qualified investors, as this term is defined in Article 10 CISA, and in the circumstances set out in Article 3 of the Ordinance on Collective Investment Scheme of 22 November 2006, as amended ( CISO ), such that there is no public offer. Investors, however, do not benefit from protection under CISA or CISO or supervision by FINMA. This prospectus and any other materials relating to the securities are strictly personal and confidential to each offeree and do not constitute an offer to any other person. This prospectus may only be used by those qualified investors to whom it has been handed out in connection with the offer described herein and may neither directly or indirectly be distributed or made available to any person or entity other than its recipients. It may not be used in connection with any other offer and shall in particular not be copied and/or distributed to the public in Switzerland or from Switzerland. This prospectus does not constitute an issue prospectus as that term is understood pursuant to Article 652a and/or 1156 of the Swiss Federal Code of Obligations. We have not applied for a listing of the securities on the SIX Swiss Exchange or any other regulated securities market in Switzerland, and consequently, the information presented in this prospectus does not necessarily comply with the information standards set out in the listing rules of the SIX Swiss Exchange and corresponding prospectus schemes annexed to the listing rules of the SIX Swiss Exchange.

### **Notice to Prospective Investors in the Dubai International Financial Centre**

This prospectus supplement and accompanying prospectus relate to an Exempt Offer in accordance with the Offered Securities Rules of the Dubai Financial Services Authority ( DFSA ). This prospectus supplement and accompanying prospectus are intended for distribution only to persons of a type specified in the Offered Securities Rules of the DFSA. They must not be delivered to, or relied on by, any other person. The DFSA has no responsibility for reviewing or verifying any documents in connection with Exempt Offers. The DFSA has not approved this prospectus supplement and accompanying prospectus nor taken steps to verify the information set forth herein and has no responsibility for the prospectus supplement and accompanying prospectus. The securities to which this prospectus supplement and accompanying prospectus relate may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of the securities offered should conduct their own due diligence on the securities. If you do not understand the contents of this prospectus supplement and accompanying prospectus you should consult an authorized financial advisor.

**LEGAL MATTERS**

The validity of our common stock offered by this prospectus supplement and certain legal matters in connection with the offering of the common stock will be passed on for us by Troutman Sanders LLP, Richmond, Virginia. Certain legal matters will be passed upon for the underwriters by DLA Piper LLP (US), New York, New York.

**EXPERTS**

The financial statements as of December 31, 2010 and 2009 and for each of the three years in the period ended December 31, 2010 and management's assessment of the effectiveness of internal control over financial reporting as of December 31, 2010 incorporated by reference in this prospectus supplement and accompanying base prospectus have been so incorporated in reliance on the reports of BDO USA, LLP, an independent registered public accounting firm, incorporated herein by reference, given on the authority of said firm as experts in auditing and accounting.

**WHERE YOU CAN FIND MORE INFORMATION**

We file annual, quarterly and current reports, proxy statements and other documents with the SEC under the Exchange Act. You may read and copy any materials that we file with the SEC without charge at the public reference room of the Securities and Exchange Commission, 100 F Street, N.W., Room 1580, Washington, DC 20549. Information about the operation of the public reference room may be obtained by calling the Securities and Exchange Commission at 1-800-SEC-0330. Also, the SEC maintains an internet website that contains reports, proxy and information statements, and other information regarding issuers, including Dynex Capital, Inc., that file electronically with the SEC. The public may obtain any documents that we file with the SEC at [www.sec.gov](http://www.sec.gov).

We also make available free of charge on or through our internet website ([www.dynexcapital.com](http://www.dynexcapital.com)) our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and, if applicable, amendments to those reports filed or furnished pursuant to Section 13(a) of the Exchange Act as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC.

This prospectus supplement and the accompanying base prospectus are part of a registration statement on Form S-3 that we filed with the Securities and Exchange Commission. This prospectus supplement and the accompanying base prospectus do not contain all of the information set forth in the registration statement and exhibits and schedules to the registration statement. For further information with respect to our company and our securities, reference is made to the registration statement, including the exhibits and schedules to the registration statement. Statements contained in this prospectus supplement and the accompanying base prospectus as to the contents of any contract or other document referred to in this prospectus supplement or the accompanying base prospectus are not necessarily complete and, where that contract is an exhibit to the registration statement, each statement is qualified in all respects by reference to the exhibit to which the reference relates.

### **ABOUT THIS PROSPECTUS**

This prospectus is part of a registration statement on Form S-3 that we filed with the Securities and Exchange Commission (the SEC). This prospectus does not contain all of the information set forth in the registration statement, portions of which we have omitted as permitted by the rules and regulations of the SEC. Statements contained in this prospectus as to the contents of any contract or other document are not necessarily complete. If the SEC's rules and regulations require that a contract or document be filed as an exhibit to the registration statement, we refer you to the copy of the contract or document filed as an exhibit to the registration statement for a complete description. You should rely only on the information in our prospectus and the documents that are incorporated by reference. We have not authorized anyone else to provide you with different information. We are not offering these securities in any jurisdiction where the offer is prohibited by law. You should not assume that the information in our prospectus or any incorporated document is accurate as of any date other than the date of the document. Our business, financial condition, results of operations and prospects may have changed since that date.

We may sell, from time to time, in one or more offerings, any combinations of the securities described in this prospectus. The total dollar amount of the securities sold under this prospectus will not exceed \$500,000,000. This prospectus only provides you with a general description of the securities we may offer. Each time we sell securities under this prospectus, we will provide a prospectus supplement that contains specific information about the terms of the securities. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with the additional information described under the heading **Where You Can Find More Information**.

When used in this prospectus, the terms **Dynex**, **company**, **issuer**, **we**, **our**, and **us** refer to Dynex Capital, Inc. and its consolidated subsidiaries unless otherwise specified.

### **WHERE YOU CAN FIND MORE INFORMATION**

We file annual, quarterly and current reports, proxy statements and other documents with the SEC under the Securities Exchange Act of 1934, as amended (the Exchange Act). You may read and copy any materials that we file with the SEC without charge at the public reference room of the SEC, 100 F Street, N.W., Room 1580, Washington, D.C. 20549. Information about the operation of the public reference room may be obtained by calling the SEC at 1-800-SEC-0330. Also, the SEC maintains an internet website that contains reports, proxy and information statements, and other information regarding issuers, including Dynex Capital, Inc., that file electronically with the SEC. The public may obtain any documents that we file with the SEC at [www.sec.gov](http://www.sec.gov).

Our common stock is listed on New York Stock Exchange (the NYSE) under the symbol **DX** and all such reports, proxy statements and other information filed by us with the NYSE may be inspected at the NYSE's offices at 20 Broad Street, New York, New York 10005. Finally, we maintain an internet website where you can find additional information. The address of our internet website is <http://www.dynexcapital.com>. All internet addresses provided in this prospectus are for informational purposes only and are not intended to be hyperlinks. In addition, the information on our internet website, or any other internet website described herein, is not a part of, and is not incorporated or deemed to be incorporated by reference in, this prospectus or other offering materials.

### **INCORPORATION OF INFORMATION BY REFERENCE**

The SEC's rules allow us to incorporate by reference information into this prospectus, which means that we can disclose important information to you by referring you to another document filed separately with the SEC. The information incorporated by reference is deemed to be part of this prospectus from the date of filing those documents. Any reports filed by us with the SEC on or after the date of this

prospectus will automatically update and, where applicable, supersede any information contained in this prospectus or incorporated by reference in this prospectus. We have filed the documents listed below with the SEC under the Exchange Act, and these documents are incorporated herein by reference (other than information in such documents that is furnished and not deemed to be filed):

Our Annual Report on Form 10-K for the year ended December 31, 2010, filed on March 16, 2011;

Our Quarterly Reports on Form 10-Q for the periods ended March 31, 2011, June 30, 2011 and September 30, 2011 filed on May 10, 2011, August 5, 2011 and November 9, 2011, respectively;

Our Current Reports on Form 8-K filed on February 17, 2011, March 3, 2011, March 9, 2011, May 17, 2011 and September 9, 2011, as well as our Current Report on Form 8-K/A filed on September 9, 2011; and

The description of our capital stock included in our registration statement on Form 8-A, filed pursuant to Section 12(b) of the Exchange Act on January 17, 1989, including any amendment or report filed for the purpose of updating that description.

All documents we file pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act on or after the date of this prospectus and prior to the termination of the offering of the securities to which this prospectus relates (other than information in such documents that is furnished and not deemed to be filed) shall be deemed to be incorporated by reference into this prospectus and to be part hereof from the date of filing of those documents. All documents we file pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of the initial registration statement that contains this prospectus and prior to the effectiveness of the registration statement shall be deemed to be incorporated by reference into this prospectus and to be part hereof from the date of filing those documents.

We will provide to each person, including any beneficial owner, to whom a copy of this prospectus is delivered, a copy of any or all of the information that has been incorporated by reference in this prospectus but not delivered with this prospectus (other than the exhibits to such documents which are not specifically incorporated by reference therein); we will provide this information at no cost to the requester upon written or oral request to:

**FORWARD-LOOKING STATEMENTS**

Certain written statements we make in this prospectus, and in our other filings with the SEC that are incorporated herein by reference, that are not historical facts constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act ), and Section 21E of the Exchange Act. Forward-looking statements are those that predict or describe future events or trends and that do not relate solely to historical matters. All statements contained or incorporated by reference in this prospectus addressing our future results of operations and operating performance, events, or developments that we expect or anticipate will occur in the future, including, but not limited to, statements relating to investment strategies, changes in net interest income growth, investment performance, earnings or earnings per share growth, the future interest rate environment, future capital raising strategies and activities, economic conditions and outlook, expected impact of hedging transactions, and market share, as well as statements expressing optimism or pessimism about future operating results, are forward-looking statements. You can generally identify forward-looking statements as statements containing the words will, believe, expect, anticipate, intend, estimate, assume, plan, continue, should, may or other similar expressions. Forward-looking statements are based on current beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. These beliefs, assumptions and expectations are subject to risks and uncertainties and can change as a result of many possible events or factors, not all

Edgar Filing: DYNEX CAPITAL INC - Form 424B5

of which are known to us. If a change occurs, our business, financial condition, liquidity and results of operations may vary materially from those

**Table of Contents**

expressed or implied in our forward-looking statements. We caution readers not to place undue reliance on these forward-looking statements, which may be based on assumptions and expectations that do not materialize.

We make forward-looking statements in this prospectus, and in our other filings with the SEC that are incorporated herein by reference, regarding:

Our business and investment strategy including our ability to generate acceptable risk-adjusted returns;

Our financing and hedging strategy, including our target leverage ratios;

Our investment portfolio composition and target investments;

Our investment portfolio performance, including the fair value, yields and forecasted prepayment speeds of our investment portfolio;

Our liquidity and ability to access financing, and the anticipated availability and cost of financing;

Our use of our tax net operating loss carryforward;

The status of pending litigation, including our intent and ability to settle pending litigation and the proposed terms of such settlement;

The anticipated effect on us of recent accounting pronouncements;

Estimates of future interest expenses related to our derivatives designated as hedging instruments;

Market, industry and economic trends; and

Interest rates.

While it is not possible to identify all factors, some of the factors that may cause actual results to differ from historical results or from any results expressed or implied by forward-looking statements, or that may cause our projections, assumptions, expectations or beliefs to change, include the following:

The risks and uncertainties referenced in this prospectus, or in our other filings with the SEC that are incorporated herein by reference, particularly those set forth under the heading "Risk Factors" herein and in our most recent Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q for the periods ended June 30, 2011 and September 30, 2011 under Item 1A, "Risk Factors";

Our ability to find suitable reinvestment opportunities;

Changes in economic conditions;

Changes in interest rates and interest rate spreads;

Our investment portfolio performance particularly as it relates to cash flow, prepayment rates and credit performance;

Adverse reactions in financial markets related to the budget deficit or national debt of the United States government; potential or actual default by the United States government on Treasury securities; and potential or actual downgrades to the sovereign credit rating of the United States;

The cost and availability of financing;

The cost and availability of new equity capital;

Changes in our use of leverage;

The quality of performance of third-party servicer providers of our loans and loans underlying our securities;

The level of defaults by borrowers on loans we have securitized;

Our ability to finalize, including obtaining court and class approval, the proposed settlement of litigation filed by Teamsters Local 445 Freight Division Pension Fund;

Changes in our industry;

Increased competition;

Changes in government regulations affecting our business;

Government initiatives to support the United States financial system and United States housing and real estate markets;

Government-sponsored entity reform or other government policies and actions; and

An ownership shift under Section 382 of the Internal Revenue Code of 1986, as amended (the Code), that impacts the use of our tax net operating loss carryforward.

These and other risks, uncertainties and factors, including those described in the annual, quarterly and current reports that we file with the SEC, could cause our actual results to differ materially from those projected in any forward-looking statements we make. All forward-looking statements speak only as of the date on which they are made. New risks and uncertainties arise over time and it is not possible to predict those

## Edgar Filing: DYNEX CAPITAL INC - Form 424B5

events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

We are including this cautionary statement in this prospectus to make applicable and take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 for any forward-looking statements made by us or on our behalf. Any forward-looking statements should be considered in context with the various disclosures made by us about our business in our public filings with the SEC, including without limitation the risk factors described above and those described in **Risk Factors** beginning on page 4.

**OUR COMPANY**

We are an internally-managed real estate investment trust, or REIT, which invests in mortgage assets on a leveraged basis. Our objective is to provide attractive risk-adjusted returns to our shareholders over the long term that are reflective of a leveraged, high quality fixed income portfolio with a focus on capital preservation. We seek to provide returns to our shareholders through regular quarterly dividends and through capital appreciation. Our common stock is listed on the New York Stock Exchange under the symbol **DX**.

We were formed in 1987 and commenced operations in 1988. Beginning with our inception through 2000, our operations largely consisted of originating and securitizing various types of loans, principally single-family and commercial mortgage loans and manufactured housing loans. Since 2000, we have been an investor in Agency and non-Agency mortgage-backed securities ( **MBS** ), and we are no longer originating or securitizing mortgage loans.

Our primary source of income is net interest income, which is the excess of the interest income earned on our investments over the cost of financing these investments. Our investment strategy as approved by our Board of Directors is a diversified investment strategy that targets higher credit quality, shorter duration investments in Agency MBS and non-Agency MBS. Investments considered to be of higher credit quality have less or limited exposure to loss of principal while investments which have shorter durations have less exposure to changes in interest rates.

Agency MBS consist of residential MBS ( **RMBS** ) and commercial MBS ( **CMBS** ), which come with a guaranty of payment by the U.S. government or a U.S. government-sponsored entity such as Fannie Mae and Freddie Mac. Non-Agency MBS (also consisting of RMBS and CMBS) have no such guaranty of payment. We currently target an overall investment portfolio composition of 50%-70% in Agency MBS with the balance in non-Agency MBS and securitized mortgage loans. Our securitized mortgage loans are loans which were originated and securitized by us during the 1990s.

We finance our investments through a combination of short-term repurchase agreements and non-recourse collateralized financing such as securitization financing and financing provided by the Federal Reserve Bank of New York under its Term Asset-Backed Securities Loan Facility ( **TALF** financing ). Repurchase agreement financing generally has maturities of 30-90 days and is uncommitted financing. Securitization financing is generally term financing and is repaid from the cash flow received on the securitized mortgage loans. Our TALF financing, which had an initial maturity of three years, is recourse only to the assets which it is funding.

In executing our investment strategy, we seek to balance the various risks of owning mortgage assets, such as interest rate, credit, prepayment, and liquidity risk with the earnings opportunity on the investment. We believe our strategy of investing in Agency and non-Agency mortgage assets provides superior diversification of these risks across our investment portfolio and therefore provides plentiful opportunities to generate attractive risk-adjusted returns while preserving our shareholders' capital.

Our address and telephone number are 4991 Lake Brook Drive, Suite 100, Glen Allen, Virginia 23060 and (804) 217-5800.

**RISK FACTORS**

*An investment in our securities involves various risks. You should carefully consider the risk factors described below and under the heading **Risk Factors** in Item 1A of our most recent Annual Report on Form 10-K and the other information contained in this prospectus, as updated by our subsequent filings under the Exchange Act, and the risk factors and other information contained in the applicable prospectus supplement before acquiring any of our securities. Please see **Where You Can Find More Information** above.*

**Risks Related to our Common Stock**

**The market price and trading volume of our common stock may be volatile.**

The market price of our common stock may become highly volatile and subject to wide fluctuations. In addition, trading volume in our common stock may fluctuate and cause significant price

## **Table of Contents**

variations to occur. Some of the factors that could result in fluctuations in the price or trading volume of our common stock include, among other things: actual or anticipated changes in our current or future financial performance; changes in market interest rates and general market and economic conditions. We cannot assure you that the market price of our common stock will not fluctuate or decline significantly.

**We have not established a minimum dividend payment level for our common shareholders and there are no assurances of our ability to pay dividends to them in the future.**

We intend to pay dividends and to make distributions to our common shareholders in amounts such that all or substantially all of our taxable income in each year, subject to certain adjustments including adjustments for tax loss carryforwards, is distributed. This, along with other factors, should enable us to qualify for the tax benefits accorded to a REIT under the Code. We have not established a minimum dividend payment level for our common shareholders. Further, our ability to pay dividends may be harmed by the risk factors described herein and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, and in our Quarterly Reports on Form 10-Q filed for the periods ended June 30, 2011 and September 30, 2011. All distributions to our common shareholders will be made at the discretion of our Board of Directors and will depend on our earnings, our financial condition, maintenance of our REIT status and such other factors as our Board of Directors may deem relevant from time to time. There are no assurances of our ability to pay dividends in the future.

**Future offerings of debt securities, which would rank senior to our common stock upon our liquidation, and future offerings of equity securities, which would dilute our existing shareholders and may be senior to our common stock for the purposes of dividend and liquidating distributions, may adversely affect the market price of our common stock.**

In the future, we may attempt to increase our capital resources by making offerings of debt or additional offerings of equity securities, including commercial paper, medium-term notes, senior or subordinated notes and classes of preferred stock or common stock. Upon liquidation, holders of our debt securities and lenders with respect to our other borrowings will receive a distribution of our available assets prior to the holders of our common stock.

In addition, upon liquidation, holders of shares of our preferred stock will receive a distribution of our available assets prior to the holders of our common stock. Additional equity offerings may dilute the holdings of our existing shareholders or reduce the market price of our common stock, or both. Moreover, any future issuance of preferred stock by us may have a preference on liquidating distributions and on dividend payments that could limit our ability to make a dividend distribution to the holders of our common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, holders of our common stock bear the risk of our future offerings reducing the market price of our common stock and diluting their stock holdings in us.

**Future sales of our common stock could have an adverse effect on our stock price.**

We cannot predict the effect, if any, of future sales of common stock, or the availability of shares for future sales, on the market price of our common stock. Sales of substantial amounts of common stock, or the perception that such sales could occur, may adversely affect prevailing market prices for our common stock.

## **USE OF PROCEEDS**

Unless otherwise indicated in a prospectus supplement, we expect to use the net proceeds from the sale of these securities for general corporate purposes.

**DESCRIPTION OF OUR CAPITAL STOCK**

*The following is a description of the material terms of our capital stock. Because it is only a summary, it does not contain all of the information that may be important to you. For a complete description, please refer to the Virginia Stock Corporation Act and our articles of incorporation and bylaws. See [Where You Can Find More Information](#).*

**General**

Our articles of incorporation currently authorize a total of 150,000,000 shares of capital stock, consisting of 100,000,000 shares of common stock, \$0.01 par value per share, and 50,000,000 shares of preferred stock, \$0.01 par value per share.

As of December 5, 2011, we had issued and outstanding 40,382,435 shares of common stock and zero shares of preferred stock. Under the Virginia Stock Corporation Act, shareholders generally are not liable for the corporation's debts or obligations.

**Restrictions on Ownership and Transfer**

Two of the requirements of qualification for the tax benefits accorded by the REIT provisions of the Code are that (1) during the last half of each taxable year not more than 50% in value of the outstanding shares may be owned directly or indirectly by five or fewer individuals, and (2) there must be at least 100 stockholders on 335 days of each taxable year of 12 months.

To assist us in meeting these requirements and qualifying as a REIT, our articles of incorporation prohibit anyone from owning in the aggregate, directly or indirectly, more than 9.8% of the outstanding shares of our capital stock (the "Ownership Limit"). For this purpose, "ownership" includes constructive ownership in accordance with the constructive ownership provisions of Section 544 of the Code, as modified in Section 856(h) of the Code, as well as shares beneficially owned under the provisions of Rule 13d-3 (or any successor rule) under the Exchange Act.

The constructive ownership provisions of Section 544 of the Code generally attribute ownership of securities owned by a corporation, partnership, estate or trust proportionately to its shareholders, partners or beneficiaries; attribute ownership of securities owned by family members to other members of the same family; and set forth rules for attributing securities constructively owned by one person to another person.

---

**Table of Contents**

To determine whether a person holds or would hold capital stock in excess of the Ownership Limit, a person will be treated as owning not only shares of capital stock actually owned, but also any shares of capital stock attributed to that person under the attribution rules described above. Accordingly, a person who individually owns less than 9.8% of the shares outstanding may nevertheless be in violation of the Ownership Limit.

Any acquisition of shares of capital stock that could or would (i) cause us to be disqualified as a REIT, (ii) result in the imposition of a penalty tax (a Penalty Tax ) on us (including the imposition of an entity-level tax on one or more real estate mortgage investment conduits ( REMICs ) in which we have acquired or plan to acquire an interest) or (iii) endanger the tax status of one or more REMICs in which we have acquired or plan to acquire an interest will be null and void to the fullest extent permitted by law, and the intended transferee (the purported transferee ) will be deemed never to have had an interest in such shares. If the prior sentence is held void or invalid by virtue of any legal decision, statute, rule or regulation, then the purported transferee of those shares shall be deemed, at our option, to have acted as agent on our behalf in acquiring those shares and to hold those shares on behalf of us.

Shares which, but for the provisions of Article VI of our articles of incorporation, would be owned by a person or persons acting as a group and would, at any time, be in excess of the Ownership Limit will be Excess Shares. At the discretion of the Board of Directors, all Excess Shares may be redeemed by us. We will provide written notice of redemption to the holder of the Excess Shares not less than one week prior to the redemption date (the Redemption Date ) determined by the Board of Directors and included in the notice of redemption. The redemption price to be paid for Excess Shares will be equal to (a) the closing price of those shares on the principal national securities exchange on which the shares are listed or admitted to trading on the last business day prior to the Redemption Date, or (b) if the shares are not so listed or admitted to trading, the closing bid price on the last business day prior to the Redemption Date as reported on the NASD System, if quoted thereon, or (c) if the redemption price is not determinable in accordance with either clause (a) or (b) of this sentence, the net asset value of the shares determined in good faith by the Board of Directors and in accordance with the Virginia Stock Corporation Act. From and after the Redemption Date, the holder of any shares of our capital stock called for redemption shall cease to be entitled to any distributions and other benefits with respect to those shares, except the right to payment of the redemption price.

In addition, to avoid a Penalty Tax or the endangerment of the tax status of one or more REMICs in which we have acquired or plan to acquire an interest, we may redeem shares of our capital stock in the manner described in the foregoing paragraph.

Whenever our Board of Directors deems it to be prudent in protecting our tax status, the Board of Directors may require to be filed with us a statement or affidavit from each proposed transferee of shares of our capital stock setting forth the number of such shares already owned by the transferee and any related person(s). Any contract for the sale or other transfer of shares of our capital stock will be subject to this provision. Prior to any transfer or transaction which would cause a shareholder to own, directly or indirectly, shares in excess of the Ownership Limit, and in any event upon demand of our Board of Directors, such shareholder must file with us an affidavit setting forth the number of shares of our capital stock of the Corporation owned by it directly or indirectly, including both constructive and beneficial ownership. The affidavit must set forth all information required to be reported in returns filed by shareholders under Treasury Regulation § 1.857-9 issued under the Code or similar provisions of any successor regulation, and in reports to be filed under Section 13(d), or any successor rule thereto, of the Exchange Act. The affidavit must be filed with us within ten days after demand therefor and at least fifteen days prior to any transfer or transaction which, if consummated, would cause the filing person to hold a number of shares of our capital stock in excess of the Ownership Limit. The Board of Directors has the right, but is not required, to refuse to transfer any shares of our capital stock purportedly transferred other than in compliance with this paragraph.

In addition, whenever our Board of Directors deems it to be prudent in avoiding (i) the imposition of a Penalty Tax on us or (ii) the endangerment of the tax status of one or more REMICs in which we have acquired or plan to acquire an interest, the Board of Directors may require to be filed with us a statement or

## **Table of Contents**

affidavit from any holder or proposed transferee of our capital stock stating whether the holder or proposed transferee is a tax-exempt organization or a pass-through entity. Any contract for the sale or other transfer of shares of our capital stock of the Corporation will be subject to this provision. The Board of Directors has the right, but is not required, to refuse to transfer any shares of our capital stock purportedly transferred, if either (a) a statement or affidavit requested as described in this paragraph has not been received, or (b) the proposed transferee is a tax-exempt organization or pass-through entity.

Our Board of Directors may take any and all other action as it in its sole discretion deems necessary or advisable to protect us and the interests of our shareholders by (i) maintaining our eligibility to be, and preserving our status as, a REIT, (ii) avoiding the imposition of a Penalty Tax and (iii) avoiding the endangerment of the tax status of one or more REMICs in which we have acquired or plan to acquire an interest. Notwithstanding the foregoing, nothing in our articles of incorporation may preclude settlement of any transaction entered into or through the facilities of New York Stock Exchange or any other exchange on which our common shares may be listed from time to time.

The Board of Directors in its discretion may exempt from the Ownership Limit and from the affidavit filing requirements described above ownership or transfers of certain designated shares of our capital stock while owned by or transferred to a person who has provided the Board of Directors with acceptable evidence and assurances that our REIT status would not be jeopardized thereby.

The provisions described above may inhibit market activity, and may delay, defer or prevent a change in control or other transaction and the resulting opportunity for the holders of our capital stock to receive a premium for their shares that might otherwise exist in the absence of such provisions. Such provisions also may make us an unsuitable investment vehicle for any person seeking to obtain ownership of more than 9.8% of the outstanding shares of our capital stock.

## **Transfer Agent and Registrar**

The transfer agent and registrar for our common stock is BNY Mellon Shareowner Services. The transfer agent and registrar for any other class or series of stock that we may issue will be identified in the applicable prospectus supplement.

## **DESCRIPTION OF OUR COMMON STOCK**

The following description of our common stock sets forth certain general terms and provisions of our common stock to which any prospectus supplement may relate, including a prospectus supplement providing that common stock will be issuable upon conversion or exchange of our debt securities or preferred stock or upon the exercise of warrants to purchase our common stock.

All shares of our common stock covered by this prospectus will be duly authorized, fully paid and nonassessable. Subject to the preferential rights of any other class or series of stock and to the provisions of the articles of incorporation regarding the restrictions on transfer of stock, holders of shares of our common stock are entitled to receive dividends on such stock when, as and if authorized by our Board of Directors out of funds legally available therefor and declared by us and to share ratably in the assets of our company legally available for distribution to our shareholders in the event of our liquidation, dissolution or winding up after payment of or adequate provision for all known debts and liabilities of our company, including the preferential rights on dissolution of any class or classes of preferred stock.

Subject to the provisions of our articles of incorporation regarding the restrictions on transfer of stock, each outstanding share of our common stock entitles the holder to one vote on all matters submitted to a vote of shareholders, including the election of directors and, except as provided with respect to any other class or series of stock, the holders of such shares will possess the exclusive voting power. There is no cumulative voting in the election of our Board of Directors, which means that the holders of a plurality of the outstanding shares of our common stock can elect all of the directors then standing for election and the holders of the remaining shares will not be able to elect any directors.

## **Table of Contents**

Holders of shares of our common stock have no preference, conversion, exchange, sinking fund, redemption or appraisal rights and have no preemptive rights to subscribe for any securities of our company. Subject to the provisions of the articles of incorporation regarding the restrictions on transfer of stock, shares of our common stock will have equal dividend, liquidation and other rights.

Under the Virginia Stock Corporation Act, a Virginia corporation generally cannot dissolve, amend its articles of incorporation, merge, sell all or substantially all of its assets, engage in a share exchange or engage in similar transactions outside the ordinary course of business unless approved by the affirmative vote of more than two-thirds of all votes entitled to be cast on the matter, unless a greater or lesser proportion of votes (but not less than a majority of all votes cast) is specified in the articles of incorporation. Our articles of incorporation provide that, except as otherwise required or authorized by the Virginia Stock Corporation Act or our articles of incorporation, the vote required to approve an amendment or restatement of the articles of incorporation will be a majority of all votes entitled to be cast by each voting group entitled to vote on the amendment, other than in the case of an amendment or restatement that amends or affects: (i) the shareholder vote required by the Virginia Stock Corporation Act to approve a merger, share exchange, sale of all or substantially all of our assets or our dissolution, or (ii) the provisions addressing the ownership of excess shares in the articles of incorporation.

### **DESCRIPTION OF OUR PREFERRED STOCK**

The prospectus supplement relating to any series of preferred stock offered by that supplement will describe the specific terms of those securities, including where applicable:

the title and stated value of that preferred stock;

the number of shares of that preferred stock offered, the liquidation preference per share and the offering price of that preferred stock;

the dividend rate(s), period(s) and payment date(s) or method(s) of calculation thereof applicable to that preferred stock;

whether dividends will be cumulative or non-cumulative and, if cumulative, the date from which dividends on that preferred stock will accumulate;

the voting rights applicable to that preferred stock;

the procedures for any auction and remarketing, if any, for that preferred stock;

the provisions for a sinking fund, if any, for that preferred stock;

the provisions for redemption including any restriction thereon, if applicable, of that preferred stock;

any listing of that preferred stock on any securities exchange;

the terms and conditions, if applicable, upon which that preferred stock will be convertible into other securities of ours, including the conversion price (or manner of calculation of the conversion price) and conversion period;

Edgar Filing: DYNEX CAPITAL INC - Form 424B5

a discussion of any material U.S. federal income tax considerations applicable to that preferred stock;

any limitations on issuance of any series of preferred stock ranking senior to or on a parity with that series of preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of our affairs;

## **Table of Contents**

in addition to those limitations described above under Description of Our Capital Stock Restrictions on Ownership and Transfer, any other limitations on actual and constructive ownership and restrictions on transfer, in each case as may be appropriate to preserve our status as a REIT; and

any other specific terms, preferences, rights, limitations or restrictions of that preferred stock.

### **Rank Within Our Capital Structure**

Unless otherwise specified in the applicable prospectus supplement, the preferred stock will, with respect to dividend rights and rights upon liquidation, dissolution or winding up of our affairs rank:

senior to all classes or series of common stock and to all equity securities ranking junior to the preferred stock with respect to dividend rights or rights upon liquidation, dissolution or winding up of our affairs;

on a parity with all equity securities issued by us the terms of which specifically provide that those equity securities rank on a parity with the preferred stock with respect to dividend rights or rights upon liquidation, dissolution or winding up of our affairs; and

junior to all equity securities issued by us the terms of which specifically provide that those equity securities rank senior to the preferred stock with respect to dividend rights or rights upon liquidation, dissolution or winding up of our affairs.

The term equity securities does not include convertible debt securities.

### **Dividends**

Subject to the preferential rights of any other class or series of stock and to the provisions of the articles of incorporation regarding the restrictions on transfer of stock, holders of shares of our preferred stock will be entitled to receive dividends on such stock when, as and if authorized by our Board of Directors out of funds legally available therefor and declared by us, at rates and on dates as will be set forth in the applicable prospectus supplement.

Dividends on any series or class of our preferred stock may be cumulative or noncumulative, as provided in the applicable prospectus supplement. Dividends, if cumulative, will be cumulative from and after the date set forth in the applicable prospectus supplement. If our Board of Directors fails to authorize a dividend payable on a dividend payment date on any series or class of preferred stock for which dividends are noncumulative, then the holders of that series or class of preferred stock will have no right to receive a dividend in respect of the dividend period ending on that dividend payment date, and we will have no obligation to pay the dividend accrued for that period, whether or not dividends on such series or class are declared or paid for any future period.

If any shares of preferred stock of any series or class are outstanding, no dividends may be authorized or paid or set apart for payment on the preferred stock of any other series or class ranking, as to dividends, on a parity with or junior to the preferred stock of that series or class for any period unless:

the series or class of preferred stock has a cumulative dividend, and full cumulative dividends have been or contemporaneously are authorized and paid or authorized and a sum sufficient for the payment of those dividends is set apart for payment on the preferred stock of that series or class for all past dividend periods and the then current dividend period; or

the series or class of preferred stock does not have a cumulative dividend, and full dividends for the then current dividend period have been or contemporaneously are authorized and paid or authorized and a sum sufficient for the payment of those dividends is set apart for the payment on the preferred stock of that series or class.

## **Table of Contents**

When dividends are not paid in full (or a sum sufficient for the full payment is not set apart) upon the shares of preferred stock of any series or class and the shares of any other series or class of preferred stock ranking on a parity as to dividends with the preferred stock of that series or class, then all dividends authorized on shares of preferred stock of that series or class and any other series or class of preferred stock ranking on a parity as to dividends with that preferred stock shall be authorized pro rata so that the amount of dividends authorized per share on the preferred stock of that series or class and other series or class of preferred stock will in all cases bear to each other the same ratio that accrued dividends per share on the shares of preferred stock of that series or class (which will not include any accumulation in respect of unpaid dividends for prior dividend periods if the preferred stock does not have a cumulative dividend) and that other series or class of preferred stock bear to each other. No interest, or sum of money in lieu of interest, will be payable in respect of any dividend payment or payments on preferred stock of that series or class that may be in arrears.

## **Redemption**

We may have the right or may be required to redeem one or more series of preferred stock, in whole or in part, in each case upon the terms, if any, and at the time and at the redemption prices set forth in the applicable prospectus supplement.

If a series of preferred stock is subject to mandatory redemption, we will specify in the applicable prospectus supplement the number of shares we are required to redeem, when those redemptions start, the redemption price, and any other terms and conditions affecting the redemption. The redemption price will include all accrued and unpaid dividends, except in the case of noncumulative preferred stock. The redemption price may be payable in cash or other property, as specified in the applicable prospectus supplement. If the redemption price for preferred stock of any series or class is payable only from the net proceeds of the issuance of our stock, the terms of that preferred stock may provide that, if no such stock shall have been issued or to the extent the net proceeds from any issuance are insufficient to pay in full the aggregate redemption price then due, that preferred stock shall automatically and mandatorily be converted into shares of our applicable stock pursuant to conversion provisions specified in the applicable prospectus supplement.

## **Liquidation Preference**

Upon any voluntary or involuntary liquidation or dissolution of us or winding up of our affairs, then before any distribution or payment will be made to the holders of common stock or any other series or class of stock ranking junior to any series or class of the preferred stock in the distribution of assets upon any liquidation, dissolution or winding up of our affairs, the holders of that series or class of preferred stock will be entitled to receive out of our assets legally available for distribution to shareholders liquidating distributions in the amount of the liquidation preference per share (set forth in the applicable prospectus supplement), plus an amount equal to all dividends accrued and unpaid on the preferred stock (which will not include any accumulation in respect of unpaid dividends for prior dividend periods if the preferred stock does not have a cumulative dividend). After payment of the full amount of the liquidating distributions to which they are entitled, the holders of preferred stock will have no right or claim to any of our remaining assets.

If, upon any voluntary or involuntary liquidation, dissolution or winding up, the legally available assets are insufficient to pay the amount of the liquidating distributions on all outstanding shares of any series or class of preferred stock and the corresponding amounts payable on all shares of other classes or series of our stock of ranking on a parity with that series or class of preferred stock in the distribution of assets upon liquidation, dissolution or winding up, then the holders of that series or class of preferred stock and all other classes or series of capital stock ranking on a parity as to liquidating distributions will share ratably in any distribution of assets in proportion to the full liquidating distributions to which they would otherwise be respectively entitled.

If liquidating distributions have been made in full to all holders of any series or class of preferred stock, our remaining assets will be distributed among the holders of any other classes or series of stock

## **Table of Contents**

ranking junior to that series or class of preferred stock upon liquidation, dissolution or winding up, according to their respective rights and preferences and in each case according to their respective number of shares. For these purposes, the consolidation or merger of us with or into any other entity, or the sale, lease, transfer or conveyance of all or substantially all of our property or business, will not be deemed to constitute a liquidation, dissolution or winding up of our affairs.

### **Voting Rights**

Holders of preferred stock will not have any voting rights, except as indicated in the applicable prospectus supplement.

### **Conversion Rights**

The terms and conditions, if any, upon which shares of any series or class of preferred stock are convertible into shares of common stock or other securities of ours will be set forth in the applicable prospectus supplement. The terms will include, where applicable:

the number or value of shares of common stock or other securities of ours into which the preferred stock is convertible;

the conversion price (or manner of calculation of the conversion price);

the conversion period;

provisions as to whether conversion will be at the option of the holders of the preferred stock or us,

the events requiring an adjustment of the conversion price; and

provisions affecting conversion in the event of the redemption of the preferred stock.

### **Series D Preferred Stock**

In 2004, our Board of Directors classified and designated 5,713,430 shares of Series D Preferred Stock. On October 15, 2010, all outstanding shares of Series D Preferred Stock were converted to an equivalent number of shares of common stock. This redemption was executed pursuant to our articles of incorporation, which provided for the redemption of the Series D Preferred Stock at our option once the closing price of our common stock equaled or exceeded \$10.00 per share for at least 20 out of 30 consecutive trading days. As of the date of this prospectus, there are no shares of Series D Preferred Stock outstanding. Per our articles of incorporation, all redeemed shares of Series D Preferred Stock have been restored to the status of authorized but unissued shares of preferred stock without designation as to series.

## **DESCRIPTION OF OUR DEBT SECURITIES**

The following description, together with the additional information we include in any applicable prospectus supplements, summarizes the material terms and provisions of the debt securities that we may offer under this prospectus. Although the terms we have summarized below will apply generally to any future debt securities we may offer, we will describe the particular terms of any debt securities that we may offer in more detail in the applicable prospectus supplement. If we indicate in a prospectus supplement, the terms of any debt securities we offer under that prospectus supplement may differ from the terms we describe below.

The debt securities will be our direct unsecured general obligations and may include debentures, notes, bonds or other evidences of indebtedness. The debt securities will be either senior debt securities or subordinated debt securities. The debt securities will be issued under one or more separate indentures. Senior debt securities will be issued under a senior indenture, and subordinated debt securities will be

## **Table of Contents**

issued under a subordinated indenture. We use the term "indentures" to refer to both the senior indenture and the subordinated indenture. The indentures will be qualified under the Trust Indenture Act of 1939, as amended. We use the term "trustee" to refer to either the senior trustee or the subordinated trustee, as applicable.

The following summaries of material provisions of the debt securities are subject to, and qualified in their entirety by reference to, all the provisions of the indenture applicable to a particular series of debt securities.

### **General**

The prospectus supplement relating to a particular series of debt securities will describe the terms of those debt securities, including, where applicable:

the title;

any limit on the amount that may be issued;

whether or not we will issue the series of debt securities in global form and who the depository will be;

the maturity date;

the annual interest rate, which may be fixed or variable, or the method for determining the rate and the date interest will begin to accrue, the dates interest will be payable and the regular record dates for interest payment dates or the method for determining such dates;

the terms of the subordination of any series of subordinated debt;

the place where payments will be payable;

our right, if any, to defer payment of interest and the maximum length of any such deferral period;

the date, if any, after which, and the price at which, we may, at our option, redeem the series of debt securities pursuant to any optional redemption provisions;

the date, if any, on which, and the price at which we are obligated, pursuant to any mandatory sinking fund provisions or otherwise, to redeem, or at the holder's option to purchase, the series of debt securities;

whether the indenture will restrict our ability to pay dividends, or will require us to maintain any asset ratios or reserves;

whether we will be restricted from incurring any additional indebtedness;

a discussion of any material U.S. federal income tax considerations applicable to the debt securities;

the denominations in which we will issue the series of debt securities, if other than denominations of \$1,000 and any integral multiple thereof; and

any other specific terms, preferences, rights or limitations of, or restrictions on, the debt securities.

**Conversion or Exchange Rights**

We will set forth in the prospectus supplement the terms on which a series of debt securities may be convertible into or exchangeable for shares of common stock or other securities of ours. We will include

## **Table of Contents**

provisions as to whether conversion or exchange is mandatory, at the option of the holder or at our option. We may include provisions pursuant to which the number of shares of common stock or other securities of ours that the holders of the series of debt securities receive would be subject to adjustment.

### **Consolidation, Merger or Sale**

We will set forth in the prospectus supplement the covenant, if any, that restrict our ability to merge or consolidate, or sell, convey, transfer or otherwise dispose of all or substantially all of our assets.

### **Events of Default Under an Indenture**

We will set forth in the prospectus supplement a description of the events of default under any indenture with respect to a series of debt securities that we may issue.

### **Discharge**

Each indenture will describe the circumstances under which we can elect to be discharged from our obligations with respect to a series of debt securities.

### **Form, Exchange and Transfer**

We will issue the debt securities of each series only in fully registered form without coupons and, unless we otherwise specify in the applicable prospectus supplement, in denominations of \$1,000 and any integral multiple thereof. We may issue debt securities of a series in temporary or permanent global form and as book-entry securities that will be deposited with, or on behalf of, The Depository Trust Company or another depository named by us and identified in a prospectus supplement with respect to that series.

At the option of the holder, subject to the terms of the indentures and the limitations applicable to global securities described in the applicable prospectus supplement, the holder of the debt securities of any series can exchange the debt securities for other debt securities of the same series, in any authorized denomination and of like tenor and aggregate principal amount.

Subject to the terms of the indentures and the limitations applicable to global securities set forth in the applicable prospectus supplement, holders of the debt securities may present the debt securities for exchange or for registration of transfer, duly endorsed or with the form of transfer endorsed thereon duly executed if so required by us or the security registrar, at the office of the security registrar or at the office of any transfer agent designated by us for this purpose. Unless otherwise provided in the debt securities that the holder presents for transfer or exchange, we will make no service charge for any registration of transfer or exchange, but we may require payment of any taxes or other governmental charges.

We will name in the applicable prospectus supplement the security registrar, and any transfer agent in addition to the security registrar, that we initially designate for any debt securities. We may at any time designate additional transfer agents or rescind the designation of any transfer agent or approve a change in the office through which any transfer agent acts, except that we will be required to maintain a transfer agent in each place of payment for the debt securities of each series.

If we elect to redeem the debt securities of any series, we will not be required to:

issue, register the transfer of, or exchange any debt securities of that series during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption of any debt securities that may be selected for redemption and ending at the close of business on the day of the mailing; or

register the transfer of or exchange any debt securities so selected for redemption, in whole or in part, except the unredeemed portion of any debt securities we are redeeming in part.

### **Information Concerning the Trustee**

The trustee, other than during the occurrence and continuance of an event of default under an indenture, will undertake to perform only those duties as are specifically set forth in the applicable indenture. Upon an event of default under an indenture, the trustee will be obligated to use the same degree of care as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to this provision, a trustee will be under no obligation to exercise any of the powers given it by an indenture at the request of any holder of debt securities unless it is offered reasonable security and indemnity against the costs, expenses and liabilities that it might incur.

### **Payment and Paying Agents**

Unless we otherwise indicate in the applicable prospectus supplement, we will make payment of the interest on any debt securities on any interest payment date to the person in whose name the debt securities, or one or more predecessor securities, are registered at the close of business on the regular record date for the interest.

We will pay principal of and any premium and interest on the debt securities of a particular series at the office of the paying agents designated by us, except that unless we otherwise indicate in the applicable prospectus supplement, we will make interest payments by check which we will mail to the holder. Unless we otherwise indicate in a prospectus supplement, we will designate the corporate trust office of the trustee in the City of New York as our sole paying agent for payments with respect to debt securities of each series. We will name in the applicable prospectus supplement any other paying agents that we initially designate for the debt securities of a particular series. We will maintain a paying agent in each place of payment for the debt securities of a particular series.

All money we pay to a paying agent or the trustee for the payment of the principal of or any premium or interest on any debt securities which remains unclaimed at the end of two years after such principal, premium or interest has become due and payable will be repaid to us, and the holder of the security thereafter may look only to us for payment thereof.

## **DESCRIPTION OF OUR WARRANTS**

This section describes the general terms and provisions of our warrants. The applicable prospectus supplement will describe the specific terms of the warrants offered through that prospectus supplement as well as any general terms described in this section that will not apply to those warrants.

We may issue warrants for the purchase of our debt securities, preferred stock, or common stock. We may issue warrants independently or together with other securities, and they may be attached to or separate from the other securities. Each series of warrants will be issued under a separate warrant agreement that we will enter into with a bank or trust company, as warrant agent, as detailed in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation, or agency or trust relationship, with you.

The prospectus supplement relating to a particular issue of warrants will describe the terms of those warrants, including, where applicable:

the aggregate number of the securities covered by the warrant;

the designation, amount and terms of the securities purchasable upon exercise of the warrant;

the exercise price for our debt securities, the amount of debt securities upon exercise you will receive, and a description of that series of debt securities;

the exercise price for shares of our preferred stock, the number of shares of preferred stock to be

**Table of Contents**

received upon exercise, and a description of that series of our preferred stock;

the exercise price for shares of our common stock and the number of shares of common stock to be received upon exercise;

the expiration date for exercising the warrant;

the minimum or maximum amount of warrants that may be exercised at any time;

a discussion of any material U.S. federal income tax consequences applicable to the warrants; and

any other material terms of the warrants.

After the warrants expire they will become void. The prospectus supplement will describe how to exercise warrants. A holder must exercise warrants through payment in U.S. dollars. All warrants will be issued in registered form. The prospectus supplement may provide for the adjustment of the exercise price of the warrants.

Until a holder exercises warrants to purchase our debt securities, preferred stock, or common stock, that holder will not have any rights as a holder of our debt securities, preferred stock, or common stock by virtue of ownership of warrants.

**DESCRIPTION OF OUR SHAREHOLDER RIGHTS**

This section describes the general terms and provisions of the rights to purchase certain of our securities that we may issue to holders of our securities by this prospectus. The applicable prospectus supplement will describe the specific terms of the rights offered through that prospectus supplement. The terms and provisions described in this section will apply only to the extent not superseded by the terms of the applicable prospectus supplement.

We may issue, as a dividend at no cost, to holders of record of our securities or any class or series thereof on the applicable record date, rights to purchase shares of our common stock or preferred stock, to purchase warrants exercisable for shares of our common stock or preferred stock, or to purchase units consisting of two or more of the foregoing. In this prospectus, we refer to such rights as shareholder rights. If shareholder rights are so issued to existing holders of securities, each shareholder right will entitle the holder of record thereof to purchase the securities issuable upon exercise of the rights pursuant to the terms set forth in the applicable prospectus supplement.

The prospectus supplement relating to a particular issuance of shareholder rights will describe the terms of those shareholder rights, including, where applicable:

record date;

subscription price;

subscription agent;

aggregate number of shares of common stock, shares of preferred stock, warrants, or units purchasable upon exercise of such shareholder rights and in the case of shareholder rights for preferred stock or warrants exercisable for preferred stock, the designation, aggregate number, and terms of the class or series of preferred stock purchasable upon exercise of such shareholder

rights or warrants;

**Table of Contents**

the date on which the right to exercise such shareholder rights shall commence and the expiration date on which such right shall expire;

a discussion of any material U.S. federal income tax considerations applicable to the shareholder rights; and

other material terms of such shareholder rights.

In addition to the terms of the shareholder rights and the securities issuable upon exercise thereof, the prospectus supplement may describe, for a holder of such shareholder rights who validly exercises all shareholder rights issued to such holder, how to subscribe for unsubscribed securities, issuable pursuant to unexercised shareholder rights issued to other holders, to the extent such shareholder rights have not been exercised.

Holders of shareholder rights will not be entitled by virtue of being such holders, to vote, to consent, to receive dividends, to receive notice with respect to any meeting of shareholders for the election of our directors or any other matter, or to exercise any rights whatsoever as shareholders of Dynex, except to the extent described in the related prospectus supplement.

**DESCRIPTION OF OUR UNITS**

We may issue units consisting of two or more other constituent securities. These units may be issuable as, and for a specified period of time may only be transferable as, a single security, rather than as the separate constituent securities comprising such units. The statements made in this section relating to the units are summaries only. These summaries are not complete. When we offer units, we will provide the specific terms of the units in a prospectus supplement. To the extent the information contained in the prospectus supplement differs from this summary description, you should rely on the information in the prospectus supplement.

The prospectus supplement relating to a particular offering of units will describe the terms of those units, including, where applicable:

the title of any series of units;

identification and description of the separate constituent securities comprising the units;

the price or prices at which the units will be issued;

the date, if any, on and after which the constituent securities comprising the units will be separately transferable;

information with respect to any book-entry procedures;

a discussion of any material U.S. federal income tax consequences applicable to an investment in the units; and

any other terms of the units and their constituent securities.

**BOOK-ENTRY SECURITIES**

The securities offered by means of this prospectus may be issued in whole or in part in book-entry form, meaning that beneficial owners of the securities will not receive certificates representing their ownership interests in the securities, except in the event the book-entry system for the securities is discontinued. Securities issued in book-entry form will be evidenced by one or more global securities that will be deposited with, or on behalf of, a depository identified in the applicable prospectus supplement relating to the securities. We expect that The Depository Trust Company will serve as depository. Unless and until it is exchanged in whole or in part for the individual securities represented by that security, a global security may not be transferred except as a whole by the depository for the global security to a nominee of that depository or by a nominee of that depository to that depository or another nominee of that depository or by the depository or any nominee of that depository to a successor depository or a nominee of that successor. Global securities may be issued in either registered or bearer form and in either temporary or permanent form. The specific terms of the depository arrangement with respect to a class or series of securities that differ from the terms described here will be described in the applicable prospectus supplement.

Unless otherwise indicated in the applicable prospectus supplement, we anticipate that the provisions described below will apply to depository arrangements.

Upon the issuance of a global security, the depository for the global security or its nominee will credit on its book-entry registration and transfer system the respective principal amounts of the individual securities represented by that global security to the accounts of persons that have accounts with such depository, who are called participants. Those accounts will be designated by the underwriters, dealers or agents with respect to the securities or by us if the securities are offered and sold directly by us. Ownership of beneficial interests in a global security will be limited to the depository's participants or persons that may hold interests through those participants. Ownership of beneficial interests in the global security will be shown on, and the transfer of that ownership will be effected only through records maintained by the applicable depository or its nominee (with respect to beneficial interests of participants) and records of the participants (with respect to beneficial interests of persons who hold through participants). The laws of some states require that certain purchasers of securities take physical delivery of such securities in definitive form. These limits and laws may impair the ability to own, pledge or transfer beneficial interest in a global security.

So long as the depository for a global security or its nominee is the registered owner of such global security, that depository or nominee, as the case may be, will be considered the sole owner or holder of the securities represented by that global security for all purposes under the applicable indenture or other instrument defining the rights of a holder of the securities. Except as provided below or in the applicable prospectus supplement, owners of beneficial interest in a global security will not be entitled to have any of the individual securities of the series represented by that global security registered in their names, will not receive or be entitled to receive physical delivery of any such securities in definitive form and will not be considered the owners or holders of that security under the applicable indenture or other instrument defining the rights of the holders of the securities.

Payments of amounts payable with respect to individual securities represented by a global security registered in the name of a depository or its nominee will be made to the depository or its nominee, as the case may be, as the registered owner of the global security representing those securities. None of us, our officers and directors or any trustee, paying agent or security registrar for an individual series of securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the global security for such securities or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests.

We expect that the depository for a series of securities offered by means of this prospectus or its nominee, upon receipt of any payment of principal, premium, interest, dividend or other amount in respect of a permanent global security representing any of those securities, will immediately credit its participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal

## **Table of Contents**

amount of that global security for those securities as shown on the records of that depository or its nominee. We also expect that payments by participants to owners of beneficial interests in that global security held through those participants will be governed by standing instructions and customary practices, as is the case with securities held for the account of customers in bearer form or registered in street name. Those payments will be the responsibility of these participants.

If a depository for a series of securities is at any time unwilling, unable or ineligible to continue as depository and a successor depository is not appointed by us within 90 days, we will issue individual securities of that series in exchange for the global security representing that series of securities. In addition, we may, at any time and in our sole discretion, subject to any limitations described in the applicable prospectus supplement relating to those securities, determine not to have any securities of that series represented by one or more global securities and, in that event, will issue individual securities of that series in exchange for the global security or securities representing that series of securities.

## **MATERIAL PROVISIONS OF VIRGINIA LAW AND OF OUR ARTICLES OF INCORPORATION AND BYLAWS**

The following is a summary of certain provisions of Virginia law and of our articles of incorporation and bylaws. Copies of our articles of incorporation and bylaws are filed as exhibits to the registration statement of which this prospectus is a part. See [Where You Can Find More Information](#).

### **The Board of Directors**

Our bylaws provide that the number of directors of our company may be increased or decreased from time to time by our Board of Directors but may not be fewer than three nor more than 15. A majority of the directors are required to be Unaffiliated Directors. An Unaffiliated Director means a director of our company who is not affiliated, directly or indirectly, with any person or entity, if any, responsible for directing and performing our day-to-day business affairs.

Any vacancy other than by reason of an increase in the number of directors may be filled, at any regular meeting or at any special meeting called for that purpose, by a majority of the remaining directors, provided, however, that Unaffiliated Directors will nominate replacements for vacancies among the Unaffiliated Directors, which replacements must be elected by a majority of the directors, including a majority of the Unaffiliated Directors. A vacancy occurring by reason of an increase in the number of directors may be filled by action of a majority of the entire Board of Directors including a majority of Unaffiliated Directors. Directors elected by the Board to fill a vacancy shall be elected to hold office until the next annual meeting of shareholders or until a successor is elected and qualified.

Pursuant to our bylaws, all members of our Board of Directors will serve until the next annual meeting of shareholders or until their successors are elected and qualified. Holders of shares of our common stock will have no right to cumulative voting in the election of directors. Consequently, at each annual meeting of shareholders at which our Board of Directors is elected, the holders of a plurality of the outstanding shares of our common stock will be able to elect all of the members of our Board of Directors, other than directors, if any, entitled to be elected by holders of our preferred stock.

### **Amendments to Our Articles of Incorporation**

Our articles of incorporation provide that, except as otherwise required or authorized by the Virginia Stock Corporation Act or our articles of incorporation, the vote required to approve an amendment or restatement of the articles of incorporation will be a majority of all votes entitled to be cast by each voting group entitled to vote on the amendment, other than in the case of an amendment or restatement that amends or affects: (i) the shareholder vote required by the Virginia Stock Corporation Act to approve a merger, share exchange, sale of all or substantially all of our assets or our dissolution, or (ii) the provisions addressing the ownership of excess shares in the articles of incorporation.

## **Table of Contents**

### **Dissolution of Our Company**

The dissolution of our company must be declared advisable by the Board of Directors and approved by the affirmative vote of the holders of more than two-thirds of all of the votes entitled to be cast on the matter.

### **Advance Notice of Director Nominations and New Business**

Our bylaws provide that:

with respect to an annual meeting of shareholders, the only business to be considered and the only proposals to be acted upon will be those properly brought before the annual meeting:

by, or at the direction of, our Board of Directors; or

by a shareholder who is entitled to vote at the meeting and has complied with the advance notice provisions set forth in our bylaws;

with respect to special meetings of shareholders, only the business specified in our notice of the meeting may be brought before the meeting of shareholders unless otherwise provided by law; and

nominations of persons for election to our Board of Directors at any annual or special meeting of shareholders may be made only:

by our Board of Directors or any committee thereof; or

by a shareholder who is entitled to vote at the meeting and has complied with the advance notice provisions set forth in our bylaws.

### **Anti-Takeover Effect of Certain Provisions of Virginia Law and of Our Articles of Incorporation and Bylaws**

*Affiliated Transactions.* The Virginia Stock Corporation Act limits affiliated transactions between a corporation and an interested shareholder for three years after the date on which the interested shareholder became an interested shareholder, except in compliance with the Act. These affiliated transactions include a merger, statutory share exchange, dissolution, or, in circumstances specified in the statute, certain transfers of assets, certain stock issuances and transfers and reclassifications involving interested shareholders. Virginia law defines an interested shareholder as:

any person who beneficially owns more than 10% of any class of our outstanding voting stock; or

an affiliate or associate of the corporation who, at any time within the three-year period prior to the date in question, was the beneficial owner of more than 10% of any class of our then-outstanding voting stock.

The Virginia Stock Corporation Act provides that no corporation may engage in any affiliated transaction with any interested shareholder for a period of three years following the date on which an interested shareholder becomes an interested shareholder unless approved by the affirmative vote of a majority (but not less than two) of the disinterested directors and by the affirmative vote of the holders of two-thirds of the voting shares other than shares beneficially owned by the interested shareholder. After the three-year period, a corporation may engage in an affiliated

Edgar Filing: DYNEX CAPITAL INC - Form 424B5

transaction with an interested shareholder, provided that such transaction is approved by the affirmative vote of the holders of two-thirds of the voting shares other than shares beneficially owned by the interested shareholders.

---

## **Table of Contents**

The statute permits various exemptions from its provisions, including for affiliated transactions entered into after the three-year period that are approved by a majority of disinterested directors and affiliated transactions where the consideration will be paid to the holders of each class or series of voting shares and certain other statutory fair price conditions are met.

*Control Share Acquisitions.* The Virginia Stock Corporation Act provides that shares of a Virginia corporation acquired in a control share acquisition have no voting rights except to the extent approved by resolution or at a special meeting by the affirmative vote of a majority of the votes entitled to be cast on the matter, excluding interested shares of stock in a corporation in respect of which any of the following persons is entitled to exercise or direct the exercise of the voting power: (i) an acquiring person with respect to a control share acquisition; (ii) any officer of such corporation; or (iii) any employee of such corporation who is also a director of the corporation. A control share acquisition means the acquisition of shares by a person that when added to all other shares owned by such person would cause such person to become entitled, immediately upon acquisition of such shares, to vote or direct the vote of, shares having voting power within any of the following ranges of the votes entitled to be cast in an election of directors (i) one-fifth or more but less than one-third of such votes; (ii) one-third or more but less than a majority of such votes; or (iii) a majority or more of such votes.

A person who has made or proposes to make a control share acquisition, upon satisfaction of certain conditions (including an undertaking to pay expenses), may compel our Board of Directors to call a special meeting of shareholders to be held within 50 days of demand to consider the voting rights of the shares. If no request for a meeting is made, the corporation may itself present the question at any shareholders meeting.

If voting rights for control shares are approved at a shareholders meeting and the acquiror becomes entitled to vote a majority of the shares entitled to vote, all other shareholders may exercise appraisal rights. The fair value of the shares as determined for purposes of such appraisal rights may not be less than the highest price per share paid by the acquiror in the control share acquisition.

The control share acquisition statute does not apply to shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction.

*Bylaws.* The advance notice provisions of our bylaws could delay, defer or prevent a transaction or a change of control of our company that might involve a premium price for holders of our common stock or otherwise be in their best interest.

## **Indemnification and Limitation of Directors and Officers Liability**

The Virginia Stock Corporation Act and our articles of incorporation provide for indemnification of our directors and officers in a variety of circumstances, which may include liabilities under the Securities Act. Our articles of incorporation require indemnification of directors and officers with respect to certain liabilities, expenses, and other amounts imposed on them by reason of having been a director or officer, except in the case of willful misconduct or a knowing violation of criminal law. We also carry insurance on behalf of directors, officers, employees or agents which may cover liabilities under the Securities Act.

Under the Virginia Stock Corporation Act, a Virginia corporation may not indemnify for an adverse judgment in a suit by or in the right of the corporation or for a judgment of liability on the basis that personal benefit was improperly received, unless in either case a court orders indemnification and then only for expenses. In addition, the Virginia Stock Corporation Act permits a corporation to advance reasonable expenses to a director or officer upon the corporation's receipt of:

a written affirmation by the director or officer of his good faith belief that he has met the standard of conduct necessary for indemnification by the company; and

---

**Table of Contents**

a written undertaking by the director or on the director's behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the director did not meet the standard of conduct.

Insofar as the foregoing provisions permit indemnification of directors, officers or persons controlling us for liability arising under the Securities Act, we have been informed that in the opinion of the SEC, this indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

**U.S. FEDERAL INCOME TAX CONSIDERATIONS**

The following discussion is a summary of the material U.S. federal income tax considerations that may be relevant to a prospective holder of our common stock. The prospectus supplement relating to a particular offering of securities other than our common stock will include a summary of the material U.S. federal income tax considerations, if any, that may be relevant to a prospective holder of the securities then being offered.

This summary is for general information only, and does not purport to address all aspects of U.S. federal income taxation that may be relevant to particular investors in light of their personal investment or tax circumstances, or to certain types of investors that are subject to special treatment under the federal income tax laws, such as insurance companies, financial institutions or broker-dealers, tax-exempt organizations, foreign corporations and persons who are not citizens or residents of the U.S. (except to the limited extent discussed in "Taxation of Non-U.S. Holders"), investors who hold or will hold securities as part of hedging or conversion transactions or other integrated investment, investors subject to federal alternative minimum tax, investors holding their interest through a partnership or other pass-through entities, investors that have a principal place of business or tax home outside the U.S. and investors whose functional currency is not the U.S. dollar. This summary assumes that shareholders will hold our common stock as capital assets.

This discussion is based on the Internal Revenue Code of 1986, as amended, or the Code, existing temporary, proposed and final Treasury regulations promulgated thereunder, current administrative interpretations, practices and rulings, and judicial decisions, all as currently in effect and all of which are subject to differing interpretations. In addition, no assurance can be given that future legislative, judicial, or administrative actions or decisions, which may be retroactive in effect, will not affect the accuracy of any statements in this prospectus with respect to the transactions entered into or contemplated prior to the effective date of such changes. No assurance can be given that the Internal Revenue Service (the IRS) would not assert, or that a court of competent jurisdiction would not sustain, a position contrary to any tax consequences described below.

**We urge you to consult your own tax advisor regarding the specific tax consequences to you of ownership of our securities and of our election to be taxed as a REIT. Specifically, we urge you to consult your own tax advisor regarding the federal, state, local, foreign, and other tax consequences of such ownership and election and regarding potential changes in applicable tax laws.**

**Taxation of Our Company**

We are currently taxed as a REIT under the U.S. federal income tax laws. We believe that we are organized and operate in such a manner as to qualify for taxation as a REIT under the Code, and we intend to continue to operate in such a manner, but no assurance can be given that we will operate in a manner so as to continue to qualify as a REIT. This section discusses the laws governing the federal income tax treatment of a REIT and its investors. These laws are highly technical and complex.

We have a tax net operating loss carryforward as of December 31, 2010 of approximately \$146.3 million. The net operating loss carryforward expires substantially beginning in 2020. To the extent that

---

**Table of Contents**

We have taxable income that is not distributed by us to our shareholders, we may offset such taxable income with our loss carryforward and would not have to pay income tax and which would not impact our REIT status. As a result, we are not necessarily required to distribute 90% or more of our earnings to maintain our REIT status. See further discussion below.

We have received opinions of Troutman Sanders LLP to the effect that, commencing with our taxable year ended December 31, 2006, we have been organized in conformity with the requirements for qualification and taxation as a REIT under the Code, and our proposed method of operation will enable us to meet the requirements for qualification and taxation as a REIT under the Code. It must be emphasized that the opinion of Troutman Sanders LLP is based on various assumptions relating to our organization and operation, including that all factual representations and statements set forth in all relevant documents, records and instruments are true and correct, including representations regarding the nature of our assets and the future conduct of our business, all actions described in this prospectus are completed in a timely fashion and that we will at all times operate in accordance with the method of operation described in our organizational documents and this prospectus. Further, Troutman Sanders LLP's opinion is not binding upon the IRS or any court. In addition, Troutman Sanders LLP's opinion is based on existing federal income tax law governing qualification as a REIT as of the date of the opinion, which is subject to change either prospectively or retroactively. Moreover, our continued qualification and taxation as a REIT depend upon our ability to meet on a continuing basis, through actual annual operating results, certain qualification tests set forth in the U.S. federal tax laws. Those qualification tests include the percentage of income that we earn from specified sources, the percentage of our assets that falls within specified categories, the diversity of our share ownership, and the percentage of our earnings that we distribute. While Troutman Sanders LLP will review those matters in connection with rendering the foregoing opinion, Troutman Sanders LLP will not review our compliance with those tests on a continuing basis. Accordingly, no assurance can be given that the actual results of our operation for any particular taxable year will satisfy such requirements. For a discussion of the tax consequences of our failure to qualify as a REIT, see Failure to Qualify.

If we qualify as a REIT, we generally will not be subject to U.S. federal income tax on the taxable income that we distribute to our shareholders. The benefit of that tax treatment is that it avoids the double taxation, or taxation at both the corporate and shareholder levels, that generally results from owning stock in a corporation. However, we will be subject to U.S. federal tax in the following circumstances:

We will pay U.S. federal income tax at regular corporate rates on taxable income, including net capital gain, that we do not distribute to our shareholders during, or within a specified time period after, the calendar year in which the income is earned, to the extent we cannot otherwise offset such income with our loss carryforward.

Under certain circumstances, we may be subject to the alternative minimum tax on items of tax preference.

We will pay U.S. federal income tax at the highest corporate rate on (1) net income from the sale or other disposition of property acquired through foreclosure ( foreclosure property ) that we hold primarily for sale to customers in the ordinary course of business and (2) other non-qualifying income from foreclosure property.

We will pay a 100% tax on net income from sales or other dispositions of property, other than foreclosure property, that we hold primarily for sale to customers in the ordinary course of business.

If we fail to satisfy the 75% gross income test or the 95% gross income test, as described below under Income Tests, and nonetheless continue to qualify as a REIT because we meet other requirements, we will pay a 100% tax on (1) the gross income attributable to the greater of the amounts by which we fail the 75% and 95% gross income tests, multiplied by (2) a fraction intended to reflect our profitability.

---

## **Table of Contents**

After consideration of our loss carryforward, if we fail to distribute during a calendar year at least the sum of (1) 85% of our REIT ordinary income for such year, (2) 95% of our REIT capital gain net income for such year, and (3) any undistributed taxable income from prior periods, we will pay a 4% excise tax on the excess of this required distribution over the sum of the amount we actually distributed, plus any retained amounts on which income tax has been paid at the corporate level.

We may elect to retain and pay U.S. federal income tax on our net long-term capital gain. In that case a U.S. holder, as defined below under Taxation of U.S. Holders, would be taxed on its proportionate share of our undistributed long-term capital gain (to the extent that a timely designation of such gain is made by us to the shareholder) and would receive a credit or refund for its proportionate share of the tax we paid.

If we acquire any asset from a C corporation, or a corporation that generally is subject to full corporate-level tax, in a merger or other transaction in which we acquire a basis in the asset that is determined by reference to the C corporation's basis in the asset, we will pay U.S. federal income tax at the highest regular corporate rate applicable if we recognize gain on the sale or disposition of such asset during the 10-year period after we acquire such asset. The amount of gain on which we will pay tax generally is the lesser of: (1) the amount of gain that we recognize at the time of the sale or disposition; or (2) the amount of gain that we would have recognized if we had sold the asset at the time we acquired the asset.

We will incur a 100% excise tax on transactions with a taxable REIT subsidiary ( TRS ) that are not conducted on an arm's-length basis.

If we fail to satisfy certain asset tests, described below under Asset Tests and nonetheless continue to qualify as a REIT because we meet certain other requirements, we will be subject to U.S. federal income tax of the greater of \$50,000 or at the highest corporate rate on the net income generated by the non-qualifying assets.

We may be subject to a \$50,000 tax for each failure if we fail to satisfy certain REIT qualification requirements, other than income tests or asset tests, and the failure is due to reasonable cause and not willful neglect.

If we recognize excess inclusion income and have shareholders who are disqualified organizations, we may have to pay U.S. federal income tax at the highest corporate rate on the portion of the excess inclusion income allocable to the shareholders that are disqualified organizations. See Taxable Mortgage Pools below.

We may be required to pay monetary penalties to the IRS in certain circumstances, including if we fail to meet record-keeping requirements intended to monitor our compliance with votes relating to the composition of our shareholders.

In addition, notwithstanding our qualification as a REIT, we may also have to pay certain state and local income taxes, because not all states and localities treat REITs in the same manner that they are treated for U.S. federal income tax purposes. Moreover, as further described below, any TRS in which we own an interest will be subject to U.S. federal and state corporate income tax on its taxable income.

### **Requirements for Qualification**

A REIT is a corporation, trust, or association that meets the following requirements:

1. it is managed by one or more trustees or directors;

---

**Table of Contents**

2. its beneficial ownership is evidenced by transferable shares or by transferable certificates of beneficial interest;
3. it would be taxable as a domestic corporation but for the REIT provisions of the U.S. federal income tax laws;
4. it is neither a financial institution nor an insurance company subject to special provisions of the U.S. federal income tax laws;
5. at least 100 persons are beneficial owners of its shares or ownership certificates;
6. no more than 50% in value of its outstanding shares or ownership certificates is owned, directly or indirectly, by five or fewer individuals, as defined in the U.S. federal income tax laws to include certain entities, during the last half of each taxable year;
7. it elects to be a REIT, or has made such election for a previous taxable year, and satisfies all relevant filing and other administrative requirements established by the IRS that must be met to elect and maintain REIT status;
8. it uses a calendar year for U.S. federal income tax purposes and complies with the recordkeeping requirements of the U.S. federal income tax laws; and
9. it meets certain other qualification tests, described below, regarding the nature of its income and assets and the amount of its distributions.

We must meet requirements 1 through 4 during our entire taxable year and must meet requirement 5 during at least 335 days of a taxable year of 12 months, or during a proportionate part of a taxable year of less than 12 months. If we comply with all the requirements for ascertaining the ownership of our outstanding shares in a taxable year and have no reason to know that we violated requirement 6, we will be deemed to have satisfied requirement 6 for such taxable year. For purposes of determining share ownership under requirement 6, an individual generally includes a supplemental unemployment compensation benefits plan, a private foundation, or a portion of a trust permanently set aside or used exclusively for charitable purposes. An individual, however, generally does not include a trust that is a qualified employee pension or profit sharing trust under the federal income tax laws, and beneficiaries of such a trust will be treated as holding shares of our stock in proportion to their actuarial interests in the trust for purposes of requirement 6.

We have issued sufficient stock with enough diversity of ownership to satisfy requirements 5 and 6 set forth above. In addition, our articles of incorporation restrict the ownership and transfer of the stock so that we should continue to satisfy requirements 5 and 6. The provisions of our charter restricting the ownership and transfer of the stock are described in [Description of Our Capital Stock](#) [Restrictions on Ownership and Transfer](#).

If we comply with regulatory rules pursuant to which we are required to send annual letters to holders of our stock requesting information regarding the actual ownership of our stock, and we do not know, or exercising reasonable diligence would not have known, whether we failed to meet requirement 6 above, we will be treated as having met the requirement.

In addition, we must satisfy all relevant filing and other administrative requirements established by the IRS that must be met to elect and maintain REIT qualification.

A corporation that is a qualified REIT subsidiary is not treated as a corporation separate from its parent REIT. All assets, liabilities, and items of income, deduction, and credit of a qualified REIT subsidiary are treated as assets, liabilities, and items of income, deduction, and credit of the REIT. A qualified REIT subsidiary is a corporation, other than a TRS, all of the capital stock of which is owned by the REIT. Thus, in applying the requirements described in this section, any qualified REIT subsidiary

## Table of Contents

that we own will be ignored for U.S. federal income tax purposes, and all assets, liabilities, and items of income, deduction, and credit of that subsidiary will be treated as our assets, liabilities, and items of income, deduction, and credit. Similarly, any wholly owned limited liability company or certain wholly owned partnerships that we own will be disregarded, and all assets, liabilities and items of income, deduction and credit of such limited liability company will be treated as ours.

In the case of a REIT that is a partner in a partnership that has other partners, the REIT is treated as owning its proportionate share of the assets of the partnership and as earning its allocable share of the gross income of the partnership for purposes of the applicable REIT qualification tests. For purposes of the 10% value test (as described below under Asset Tests ), our proportionate share is based on our proportionate interest in the equity interests and certain debt securities issued by the partnership. For all of the other asset and income tests, our proportionate share is based on our proportionate interest in the capital interests in the partnership. Our proportionate share of the assets, liabilities, and items of income of any partnership, joint venture, or limited liability company that is treated as a partnership for federal income tax purposes in which we own or will acquire an interest, directly or indirectly, are treated as our assets and gross income for purposes of applying the various REIT qualification requirements.

Subject to restrictions on the value of TRS securities held by the REIT, a REIT is permitted to own up to 100% of the stock of one or more TRS. A TRS is a fully taxable corporation. The TRS and the REIT must jointly elect to treat the subsidiary as a TRS. A corporation of which a TRS directly or indirectly owns more than 35% of the voting power or value of the stock will be automatically treated as a TRS. Overall, no more than 25% of the value of a REIT's assets may consist of TRS securities. See Taxable REIT Subsidiaries.

## **Gross Income Tests**

We must satisfy two gross income tests annually to maintain our qualification as a REIT. First, at least 75% of our gross income for each taxable year must consist of defined types of income that we derive, directly or indirectly, from investments relating to real property or mortgages on real property or qualified temporary investment income, excluding gross income from sales of inventory or dealer property in prohibited transactions. Qualifying income for purposes of that 75% gross income test generally includes:

rents from real property;

interest on debt secured by mortgages on real property or on interests in real property;

dividends and gain from the sale of shares in other REITs;

gain from the sale of real estate assets; and

income derived from the temporary investment of new capital or qualified temporary investment income, that is attributable to the issuance of our stock or a public offering of our debt with a maturity date of at least five years and that we receive during the one year period beginning on the date on which we received such new capital.

Second, in general, at least 95% of our gross income, excluding gross income from prohibited transactions, for each taxable year must consist of income that is qualifying income for purposes of the 75% gross income test above, other types of dividends and interest, gain from the sale or disposition of stock or securities, income from certain hedging transactions, or any combination of these. In addition, income and gain from hedging transactions, as defined in Hedging Transactions, that we enter into to hedge indebtedness incurred or to be incurred to acquire or carry real estate assets and that are clearly and timely identified as such will be excluded from both the numerator and the denominator for purposes of the 95% gross income test (but not the 75% gross income test). The following paragraphs discuss the specific application of the gross income tests to us.

## Table of Contents

*Rents from Real Property.* Rent that we receive from any real property that we might own and lease to tenants will qualify as rents from real property, which is qualifying income for purposes of the 75% and 95% gross income tests, only if the several conditions are met, including the following:

First, the rent must not be based, in whole or in part, on the income or profits of any person but may be based on a fixed percentage or percentages of gross receipts or gross sales.

Second, neither we nor a direct or indirect owner of 10% or more of our shares of stock may own, actually or constructively, 10% or more of a tenant other than a TRS from whom we receive rent.

Third, if the rent attributable to personal property leased in connection with a lease of any real property that we might own exceeds 15% of the total rent received under the lease, then the portion of rent attributable to that personal property will not qualify as rents from real property.

Fourth, we generally must not operate or manage any real property or furnish or render services to tenants, other than through an independent contractor who is adequately compensated, from whom we do not derive revenue, and who does not, directly or through its shareholders, own more than 35% of our shares of stock, taking into consideration the applicable ownership attribution rules. However, we need not provide services through an independent contractor, but instead may provide services directly to any such tenants, if the services are usually or customarily rendered in the geographic area in connection with the rental of space for occupancy only and are not considered to be provided for the tenants' convenience. In addition, we may provide a minimal amount of non-customary services to the tenants of a property, other than through an independent contractor, as long as our income from the services (valued at not less than 150% of our direct cost of performing such services) does not exceed 1% of our income from the related property.

Furthermore, we may own up to 100% of the stock of a TRS which may provide customary and noncustomary services to tenants without tainting our rental income from the related properties. See Taxable REIT Subsidiaries.

*Interest.* The term interest, as defined for purposes of both the 75% and 95% gross income tests, generally does not include any amount received or accrued, directly or indirectly, if the determination of such amount depends in whole or in part on the income or profits of any person. However, an amount received or accrued generally will not be excluded from the term interest solely by reason of being based on a fixed percentage or percentages of receipts or sales. Furthermore, to the extent that interest from a loan that is based on the residual cash proceeds from the sale of the property securing the loan constitutes a shared appreciation provision, income attributable to such participation feature will be treated as gain from the sale of the secured property.

In Revenue Procedure 2003-65, the IRS established a safe harbor under which interest from loans secured by a first priority security interest in ownership interests in a partnership or limited liability company owning real property will be treated as qualifying income for both the 75% and 95% gross income tests, provided several requirements are satisfied. Although the Revenue Procedure provides a safe harbor on which taxpayers may rely, it does not prescribe rules of substantive tax law. Moreover, although we anticipate that most or all of any mezzanine loans that we make or acquire will qualify for the safe harbor in Revenue Procedure 2003-65, it is possible that we may make or acquire some mezzanine loans that do not qualify for the safe harbor.

*Prohibited Transactions.* A REIT will incur a 100% tax on the net income derived from any sale or other disposition of property, other than foreclosure property, that the REIT holds primarily for sale to customers in the ordinary course of a trade or business. Whether a REIT holds an asset primarily for sale to customers in the ordinary course of a trade or business depends on the facts and circumstances in effect from time to time, including those related to a particular asset. We do not own assets that are held primarily for sale to customers. We will attempt to comply with the terms of safe-harbor provisions in the federal

---

**Table of Contents**

income tax laws prescribing when an asset sale will not be characterized as a prohibited transaction. We cannot provide assurance, however, that we can comply with such safe-harbor provisions or that we or our subsidiaries will avoid owning property that may be characterized as property held primarily for sale to customers in the ordinary course of a trade or business.

*Foreclosure Property.* We will be subject to tax at the maximum corporate rate on any income from foreclosure property, other than income that would be qualifying income for purposes of the 75% gross income test, less expenses directly connected with the production of such income. However, gross income from such foreclosure property will qualify for purposes of the 75% and 95% gross income tests. Foreclosure property is any real property, including interests in real property, and any personal property incident to such real property:

that is acquired by a REIT as the result of such REIT having bid on such property at foreclosure, or having otherwise reduced such property to ownership or possession by agreement or process of law, after there was a default or default was imminent on a lease of such property or on an indebtedness that such property secured;

for which the related loan or lease was acquired by the REIT at a time when the REIT had no intent to evict or foreclose or the REIT did not know or have reason to know that default would occur; and

for which such REIT makes a proper election to treat such property as foreclosure property.

However, a REIT will not be considered to have foreclosed on a property where the REIT takes control of the property as a mortgagee-in-possession and cannot receive any profit or sustain any loss except as a creditor of the mortgagor. Property generally ceases to be foreclosure property with respect to a REIT at the end of the third taxable year following the taxable year in which the REIT acquired such property, or longer if an extension is granted by the Secretary of the Treasury. The foregoing grace period is terminated and foreclosure property ceases to be foreclosure property on the first day:

on which a lease is entered into with respect to such property that, by its terms, will give rise to income that does not qualify for purposes of the 75% gross income test or any amount is received or accrued, directly or indirectly, pursuant to a lease entered into on or after such day that will give rise to income that does not qualify for purposes of the 75% gross income test;

on which any construction takes place on such property, other than completion of a building, or any other improvement, where more than 10% of the construction of such building or other improvement was completed before default became imminent; or

which is more than 90 days after the day on which such property was acquired by the REIT and the property is used in a trade or business which is conducted by the REIT, other than through an independent contractor from whom the REIT itself does not derive or receive any income.

As a result of the rules with respect to foreclosure property, if a lessee defaults on its obligations under a percentage lease, we terminate the lessee's leasehold interest, and we are unable to find a replacement lessee for the property within 90 days of such foreclosure, gross income from operations conducted by us from such property could cease to qualify for the 75% and 95% gross income tests unless we are able to hire an independent contractor to manage and operate the property. In such event, we might be unable to satisfy the 75% and 95% gross income tests and, thus, might fail to qualify as a REIT.

*Hedging Transactions.* From time to time, we may enter into hedging transactions with respect to one or more of our assets or liabilities. Our hedging activities may include entering into interest rate swaps, caps, and floors, options to purchase such items, and futures and forward contracts. To the extent that we

---

## **Table of Contents**

enter into hedging transactions on or before July 30, 2008, income arising from clearly identified hedging transactions that are entered into by the REIT in the normal course of business, either directly or through certain subsidiary entities, to manage the risk of interest rate movements, price changes, or currency fluctuations with respect to borrowings or obligations incurred or to be incurred by the REIT to acquire or carry real estate assets is excluded from the 95% gross income test, but not the 75% gross income test. Income from such transactions entered into after July 30, 2008 will not constitute gross income for purposes of the 95% and 75% gross income tests. Income from hedging transactions entered into after July 30, 2008 and made primarily to manage the risk of currency fluctuations with respect to any item of income or gain that would qualify under the 75% or 95% gross income tests (or any property which generates such income or gain) also will not constitute gross income for purposes of the 95% and 75% gross income tests. We must clearly identify any such hedges in our books and records. In general, for a hedging transaction to be clearly identified, (A) the transaction must be identified as a hedging transaction before the end of the day on which it is entered into, and (B) the items or risks being hedged must be identified substantially contemporaneously with the hedging transaction, meaning that the identification of the items or risks being hedged must generally occur within 35 days after the date the transaction is entered into. We intend to structure any hedging transactions in a manner that does not jeopardize our status as a REIT. The REIT income and asset rules may limit our ability to hedge loans or securities acquired as investments.

*Failure to Satisfy Gross Income Tests.* We intend to monitor our sources of income so as to ensure our compliance with the gross income tests. If we fail to satisfy one or both of the gross income tests for any taxable year, we nevertheless may qualify as a REIT for such year if we qualify for relief under certain provisions of the federal income tax laws. Those relief provisions generally will be available if:

our failure to meet such tests is due to reasonable cause and not due to willful neglect; and

following our identification of the failure to meet one or both gross income tests for a taxable year, a description of each item of our gross income included in the 75% or 95% gross income tests is set forth in a schedule for such taxable year filed as specified by Treasury regulations.

We cannot predict, however, whether in all circumstances we would qualify for the relief provisions. In addition, as discussed above in Taxation of Our Company, even if the relief provisions apply, we would incur a 100% tax on the gross income attributable to the greater of the amounts by which we fail the 75% and 95% gross income tests, multiplied by a fraction intended to reflect our profitability.

### **Asset Tests**

To maintain our qualification as a REIT, we also must satisfy the following asset tests at the close of each quarter of each taxable year:

First, at least 75% of the value of our total assets must consist of:

cash or cash items, including certain receivables;

U.S. government securities;

interests in real property, including leaseholds and options to acquire real property and leaseholds;

interests in mortgages on real property;

stock in other REITs; and

**Table of Contents**

investments in stock or debt instruments during the one-year period following our receipt of new capital that we raise through equity offerings or offerings of debt with at least a five-year term.

Second, of our investments not included in the 75% asset class, the value of our interest in any one issuer's securities may not exceed 5% of the value of our total assets.

Third, of our investments not included in the 75% asset class, we may not own more than 10% of the voting power or value of any one issuer's outstanding securities.

Fourth, no more than 25% of the value of our total assets may consist of the securities of one or more TRSs. For taxable years beginning on or before July 30, 2008, not more than 20% of our total assets could be represented by the securities of TRSs. For purposes of the second and third asset tests, the term "securities" does not include stock in another REIT, equity or debt securities of a qualified REIT subsidiary or TRS, or equity interests in a partnership.

For purposes of the 10% value test, the term "securities" does not include:

Straight debt securities, which is defined as a written unconditional promise to pay on demand or on a specified date a sum certain in money if (i) the debt is not convertible, directly or indirectly, into stock, and (ii) the interest rate and interest payment dates are not contingent on profits, the borrower's discretion, or similar factors. Straight debt securities do not include any securities issued by a partnership or a corporation in which we or any controlled TRS (i.e., a TRS in which we own directly or indirectly more than 50% of the voting power or value of the stock) hold non-straight debt securities that have an aggregate value of more than 1% of the issuer's outstanding securities. However, straight debt securities include debt subject to the following contingencies:

a contingency relating to the time of payment of interest or principal, as long as either (i) there is no change to the effective yield of the debt obligation, other than a change to the annual yield that does not exceed the greater of 0.25% or 5% of the annual yield, or (ii) neither the aggregate issue price nor the aggregate face amount of the issuer's debt obligations held by us exceeds \$1 million and no more than 12 months of unaccrued interest on the debt obligations can be required to be prepaid; and

a contingency relating to the time or amount of payment upon a default or prepayment of a debt obligation, as long as the contingency is consistent with customary commercial practice.

Any loan to an individual or an estate.

Any section 467 rental agreement, other than an agreement with a related party tenant.

Any obligation to pay rents from real property.

Certain securities issued by governmental entities.

Any security issued by a REIT.

Any debt instrument of an entity treated as a partnership for federal income tax purposes to the extent of our interest as a partner in the partnership.

---

**Table of Contents**

Any debt instrument of an entity treated as a partnership for federal income tax purposes not described in the preceding bullet points if at least 75% of the partnership's gross income, excluding income from prohibited transactions, is qualifying income for purposes of the 75% gross income test described above in Income Tests.

We will monitor the status of our assets for purposes of the various asset tests and will seek to manage our assets to comply at all times with such tests. There can be no assurances, however, that we will be successful in this effort. In this regard, to determine our compliance with these requirements, we will need to estimate the value of the real estate securing our mortgage loans at various times. In addition, we will have to value our investment in our other assets to ensure compliance with the asset tests. Although we will seek to be prudent in making these estimates, there can be no assurances that the IRS might not disagree with these determinations and assert that a different value is applicable, in which case we might not satisfy the 75% and the other asset tests and would fail to qualify as a REIT. If we fail to satisfy the asset tests at the end of a calendar quarter, we will not lose our REIT qualification if:

we satisfied the asset tests at the end of the preceding calendar quarter; and

the discrepancy between the value of our assets and the asset test requirements arose from changes in the market values of our assets and was not wholly or partly caused by the acquisition of one or more non qualifying assets.

If we did not satisfy the condition described in the second item, above, we still could avoid disqualification by eliminating any discrepancy within 30 days after the close of the calendar quarter in which it arose.

In the event that we violate the second or third asset tests described above at the end of any calendar quarter, we will not lose our REIT qualification if (i) the failure is de minimis (up to the lesser of 1% of our assets or \$10 million) and (ii) we dispose of assets or otherwise comply with the asset tests within six months after the last day of the quarter in which we identified such failure. In the event of a more than de minimis failure of any of the asset tests, as long as the failure was due to reasonable cause and not to willful neglect, we will not lose our REIT qualification if we (i) dispose of assets or otherwise comply with the asset tests within six months after the last day of the quarter in which we identified such failure, (ii) file a schedule with the IRS describing the assets that caused such failure in accordance with regulations promulgated by the Secretary of Treasury and (iii) pay a tax equal to the greater of \$50,000 or 35% of the net income from the nonqualifying assets during the period in which we failed to satisfy the asset tests.

**Taxable REIT Subsidiaries**

We may own stock of a TRS. A TRS is a fully taxable corporation for which a TRS election is properly made. A corporation of which a TRS directly or indirectly owns more than 35% of the voting power or value of the stock will automatically be treated as a TRS. Overall, no more than 25% of the value of our assets may consist of securities of one or more TRSs, and no more than 25% of the value of our assets may consist of the securities of TRSs and other assets that are not qualifying assets for purposes of the 75% asset test.

The TRS rules limit the deductibility of interest paid or accrued by a TRS to us to assure that the TRS is subject to an appropriate level of corporate taxation. Further, the rules impose a 100% excise tax on transactions between a TRS and us or our tenants, if any, that are not conducted on an arm's-length basis.

We have formed and made a timely election with respect to one TRS presently owned. Additionally, we may form or acquire additional TRSs in the future.

## Table of Contents

### **Distribution Requirements**

Each taxable year, in order to qualify as a REIT we must distribute dividends, other than capital gain dividends and deemed distributions of retained capital gain, to our shareholders in an aggregate amount at least equal to:

the sum of (1) 90% of our REIT taxable income, computed without regard to the dividends paid deduction and net capital gains, and (2) 90% of our after-tax net income, if any, from foreclosure property; minus

the sum of certain items of non-cash income and

any net operating loss or capital loss carryforward that we have available and elect to apply.

These distributions must be paid in the taxable year to which they relate or in the following taxable year if such distributions are declared in October, November or December of the taxable year, are payable to shareholders of record on a specified date in any such month and are actually paid before the end of January of the following year. Such distributions are treated as both paid by us and received by each shareholder on December 31 of the year in which they are declared. In addition, at our election, a distribution for a taxable year may be declared before we timely file our tax return for the year and be paid with or before the first regular dividend payment after such declaration, provided that such payment is made during the 12-month period following the close of such taxable year. These distributions are taxable to our shareholders in the year in which paid, even through the distributions relate to our prior taxable year for purposes of the 90% distribution requirement.

In order for distributions to be counted towards our distribution requirement and to give rise to a tax deduction by us, they must not be preferential dividends. A dividend is not a preferential dividend if it is pro rata among all outstanding shares of stock within a particular class and is in accordance with the preferences among different classes of stock as set forth in the organizational documents.

We will pay federal income tax at ordinary corporate tax rates on taxable income, including net capital gain, that we do not distribute to our shareholders. Furthermore, we must distribute during a calendar year, or by the end of January following such calendar year in the case of distributions with declaration and record dates falling in the last three months of the calendar year, at least the sum of:

85% of our REIT ordinary income for such year;

95% of our REIT capital gain income for such year; and

any undistributed taxable income from prior periods.

If we fail to distribute such amounts within the proscribed timeframe, then we will incur a 4% nondeductible excise tax on the excess of such required distribution over the amounts we actually distributed. We may elect to retain and pay income tax on the net long-term capital gain we receive in a taxable year. See Taxation of Taxable U.S. Holders of Stock. If we so elect, we will be treated as having distributed any such retained amount for purposes of the 4% excise tax described above. We intend to make timely distributions sufficient to satisfy the annual distribution requirements.

It is possible that, from time to time, we may experience timing differences between (1) the actual receipt of income and actual payment of deductible expenses, and (2) the inclusion of that income and deduction of such expenses in arriving at our REIT taxable income. In addition, we may not deduct recognized net capital losses from our REIT taxable income. As a result of the foregoing, we may have less cash than is necessary to distribute all of our taxable income and thereby avoid corporate income tax and the excise tax imposed on certain undistributed income. In such a situation, we may need to borrow funds or issue additional common or preferred shares.

---

## **Table of Contents**

Under certain circumstances, we may be able to correct a failure to meet the distribution requirement for a year by paying deficiency dividends to our shareholders in a later year. We may include such deficiency dividends in our deduction for dividends paid for the earlier year. Although we may be able to avoid income tax on amounts distributed as deficiency dividends, we will be required to pay interest to the IRS based upon the amount of any deduction we take for deficiency dividends.

### **Recordkeeping Requirements**

To avoid a monetary penalty, we must request on an annual basis information from our shareholders designed to disclose the actual ownership of our outstanding shares of stock. We intend to comply with such requirements.

### **Failure to Qualify**

If we fail to satisfy one or more requirements for REIT qualification, other than the gross income tests and the asset tests, we could avoid disqualification if our failure is due to reasonable cause and not to willful neglect and we pay a penalty of \$50,000 for each such failure. In addition, there are relief provisions for a failure of the gross income tests and asset tests, as described in [Income Tests](#) and [Asset Tests](#).

If we were to fail to qualify as a REIT in any taxable year, and no relief provision applied, we would be subject to federal income tax on our taxable income at regular corporate rates and any applicable alternative minimum tax. In calculating our taxable income in a year in which we failed to qualify as a REIT, we would not be able to deduct amounts paid out to shareholders. In fact, we would not be required to distribute any amounts to shareholders in such year. In such event, to the extent of our current and accumulated earnings and profits, all distributions to shareholders would be taxable as regular corporate dividends. The excess inclusion income rules (which are described under [Taxable Mortgage Pools](#) below) will not apply to the distributions we make. Subject to certain limitations of the federal income tax laws, corporate shareholders might be eligible for the dividends received deduction and individual and certain non corporate trust and estate shareholders may be eligible for the reduced U.S. federal income tax rate of 15% on such dividends. Unless we qualified for relief under specific statutory provisions, we also would be disqualified from taxation as a REIT for the four taxable years following the year during which we ceased to qualify as a REIT. We cannot predict whether in all circumstances we would qualify for such statutory relief.

### **Taxation of Tax-Exempt U.S. Entities**

Tax-exempt U.S. entities, including qualified employee pension and profit sharing trusts and individual retirement accounts, generally are exempt from U.S. federal income taxation, thus typically dividends received by such entities are not subject to taxation when received. However, these entities or accounts are subject to taxation on any unrelated business taxable income generated. While many investments in real estate generate unrelated business taxable income, the IRS has issued a published ruling that dividend distributions from a REIT to an exempt employee pension trust do not constitute unrelated business taxable income, provided that the exempt employee pension trust does not otherwise use the shares of the REIT in an unrelated trade or business of the pension trust. Based on that ruling, amounts that we distribute to tax-exempt shareholders generally should not constitute unrelated business taxable income.

However, if a tax-exempt shareholder were to finance its acquisition of our stock with debt, a portion of the income that it receives from us would constitute unrelated business taxable income pursuant to the debt-financed property rules. Furthermore, social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts, and qualified group legal services plans that are exempt from taxation under special provisions of the federal income tax laws are subject to different unrelated business taxable income rules, which generally will require them to characterize distributions that they receive from us as unrelated business taxable income. Finally, if we are a pension-held REIT, a qualified employee pension or profit sharing trust that owns more than 10% of our shares of stock is required to treat a percentage of the dividends that it receives from us as unrelated business taxable income. That percentage

---

## **Table of Contents**

is equal to the gross income that we derive from an unrelated trade or business, if any, determined as if we were a pension trust, divided by our total gross income for the year in which we pay the dividends. That rule applies to a pension trust holding more than 10% of our shares of stock only if:

the percentage of our dividends that the tax-exempt trust would be required to treat as unrelated business taxable income is at least 5%;

we qualify as a REIT by reason of the modification of the rule requiring that no more than 50% of our stock be owned by five or fewer individuals that allows the beneficiaries of the pension trust to be treated as holding our stock in proportion to their actuarial interests in the pension trust (see Requirements for Qualification above); and

either (1) one pension trust owns more than 25% of the value of our stock or (2) a group of pension trusts individually holding more than 10% of the value of our stock collectively owns more than 50% of the value of our stock.

The ownership and transfer restrictions in our charter reduce the risk that we may become a pension-held REIT.

A tax-exempt entity may also be required to treat any excess inclusion income as unrelated business taxable income as described in Taxable Mortgage Pools.

### **Taxation of U.S. Holders**

The term U.S. holder means a holder of our securities that for U.S. federal income tax purposes is a U.S. person. A U.S. person means:

a citizen or resident of the U.S.;

a corporation (including an entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the U.S., any of its states, or the District of Columbia;

an estate whose income is subject to U.S. federal income taxation regardless of its source; or

any trust if (1) a U.S. court is able to exercise primary supervision over the administration of such trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) it has a valid election in place to be treated as a U.S. person.

If a partnership, entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our securities, the U.S. federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. If you are a partner in a partnership holding our securities, you should consult your tax advisor regarding the consequences of the purchase, ownership and disposition of our securities by the partnership. The following section addresses the treatment of a U.S. holder that holds our stock; the treatment of a U.S. holder that holds our debt securities is discussed below under Holders of Debt Securities.

### **Taxation of Taxable U.S. Holders of Stock**

As long as we qualify as a REIT, (1) a taxable U.S. holder of our stock must report as ordinary income, distributions or retained long-term capital gain that are made out of our current or accumulated earnings and profits and that we do not designate as capital gain dividends, and (2) a corporate U.S. holder of our stock will not qualify for the dividends received deduction generally available to corporations. In addition, dividends paid to a U.S. holder generally will not qualify for the 15% tax rate (through 2012) for qualified dividend income. Qualified dividend income generally includes dividends from most U.S.

---

**Table of Contents**

corporations but does not generally include REIT dividends. As a result, our ordinary REIT dividends generally will continue to be taxed at the higher tax rate applicable to ordinary income. However, the 15% tax rate for qualified dividend income will apply to our ordinary REIT dividends, if any, that are (1) attributable to dividends received by us from non-REIT corporations, such as our TRSs, and (2) attributable to income upon which we have paid corporate income tax (e.g., to the extent that we distribute less than 100% of our taxable income). In general, to qualify for the reduced tax rate on qualified dividend income, a shareholder must hold our stock for more than 60 days during the 121-day period beginning on the date that is 60 days before the date on which our stock becomes ex-dividend.

A U.S. holder generally will report distributions that we designate as capital gain dividends as long-term capital gain without regard to the period for which the U.S. holder has held our stock. A corporate U.S. holder, however, may be required to treat up to 20% of certain capital gain dividends as ordinary income.

We may elect to retain and pay income tax on the net long-term capital gain that we receive in a taxable year. In that case, a U.S. holder would be taxed on its proportionate share of our undistributed long-term capital gain, to the extent that we designate such amount in a timely notice to such shareholder. The U.S. holder would receive a credit or refund for its proportionate share of the tax we paid. The U.S. holder would increase the basis in its stock by the amount of its proportionate share of our undistributed long-term capital gain, minus its share of the tax we paid.

To the extent that we make a distribution in excess of our current and accumulated earnings and profits, such distribution will not be taxable to a U.S. holder to the extent that it does not exceed the adjusted tax basis of the U.S. holder's stock. Instead, such distribution will reduce the adjusted tax basis of such stock. To the extent that we make a distribution in excess of both our current and accumulated earnings and profits and the U.S. holder's adjusted tax basis in its stock, such shareholder will recognize long-term capital gain, or short-term capital gain if the stock has been held for one year or less, assuming the stock is a capital asset in the hands of the U.S. holder. The IRS has ruled that if total distributions for two or more classes of stock are in excess of current and accumulated earnings and profits, dividends must be treated as having been distributed to those shareholders having a priority under the corporate charter before any distribution to shareholders with lesser priority. If we declare a dividend in October, November, or December of any year that is payable to a U.S. holder of record on a specified date in any such month, such dividend shall be treated as both paid by us and received by the U.S. holder on December 31 of such year, provided that we actually pay the dividend during January of the following calendar year.

Shareholders may not include in their individual income tax returns any of our net operating losses or capital losses. Instead, we would carry over such losses for potential offset against our future income generally. Taxable distributions from us and gain from the disposition of our stock will not be treated as passive activity income, and, therefore, shareholders generally will not be able to apply any passive activity losses, such as losses from certain types of limited partnerships in which the shareholder is a limited partner, against such income. In addition, taxable distributions from us and gain from the disposition of the stock generally will be treated as investment income for purposes of the investment interest limitations.

We will notify shareholders after the close of our taxable year as to the portions of the distributions attributable to that year that constitute ordinary income, return of capital, and capital gain.

*Taxation of U.S. Holders on the Disposition of Stock.* In general, a U.S. holder who is not a dealer in securities must treat any gain or loss realized upon a taxable disposition of our stock as long-term capital gain or loss if the U.S. holder has held the stock for more than one year and otherwise as short-term capital gain or loss. However, a U.S. holder must treat any loss upon a sale or exchange of stock held by such shareholder for six months or less as a long-term capital loss to the extent of any actual or deemed distributions from us that such U.S. holder previously has characterized as long-term capital gain. All or a portion of any loss that a U.S. holder realizes upon a taxable disposition of the stock may be disallowed if the U.S. holder purchases the same type of stock within 30 days before or after the disposition.

**Table of Contents**

*Capital Gains and Losses.* A taxpayer generally must hold a capital asset for more than one year for gain or loss derived from its sale or exchange to be treated as long-term capital gain or loss. The maximum tax rate on long-term capital gain applicable to non-corporate taxpayers is 15% (20% for taxable years after 2012) for sales and exchanges of assets held for more than one year (for ordinary income, the highest marginal individual income tax rate is 35% (39.6% for taxable years after 2012)). The maximum tax rate on long-term capital gain from the sale or exchange of section 1250 property, or depreciable real property, is 25% to the extent that such gain would have been treated as ordinary income if the property were section 1245 property. With respect to distributions that we designate as capital gain dividends and any retained capital gain that we are deemed to distribute, we generally may designate whether such a distribution is taxable to our non-corporate shareholders at a 15% or 25% rate. Thus, the tax rate differential between capital gain and ordinary income for non-corporate taxpayers may be significant. In addition, the characterization of income as capital gain or ordinary income may affect the deductibility of capital losses. A non-corporate taxpayer may deduct capital losses not offset by capital gains against its ordinary income only up to a maximum annual amount of \$3,000. A non-corporate taxpayer may carry forward unused capital losses indefinitely. A corporate taxpayer must pay tax on its net capital gain at ordinary corporate rates. A corporate taxpayer may deduct capital losses only to the extent of capital gains, with unused losses being carried back three years and forward five years.

*Information Reporting Requirements and Backup Withholding.* We will report to our shareholders and to the IRS the amount of distributions we pay during each calendar year and the amount of tax we withhold, if any. Under the backup withholding rules, a shareholder may be subject to backup withholding at the rate of 28% (31% for taxable years after 2012) with respect to distributions unless such holder:

is a corporation or comes within certain other exempt categories and, when required, demonstrates this fact; or

provides a taxpayer identification number, certifies as to no loss of exemption from backup withholding, and otherwise complies with the applicable requirements of the backup withholding rules.

A shareholder who does not provide us with its correct taxpayer identification number also may be subject to penalties imposed by the IRS. Any amount paid as backup withholding will be creditable against the shareholder's income tax liability. In addition, any shareholders who fail to certify their non-foreign status to us may be subject to withholding on a portion of capital gain distributions. See Taxation of Non-U.S. Holders.

**Taxation of Non-U.S. Holders**

The rules governing U.S. federal income taxation of nonresident alien individuals, foreign corporations, foreign partnerships, and other holders of our securities that are not U.S. persons (collectively, non-U.S. holders) are complex. This section is only a summary of such rules as they apply to non-U.S. holders of our stock; a summary of such rules as they apply to non-U.S. holders of our debt securities is discussed below under Holders of Debt Securities. We urge non-U.S. holders to consult their own tax advisors to determine the impact of U.S. federal, state, and local income tax laws on ownership of our stock, including any reporting requirements.

A non-U.S. holder that receives a distribution that is not attributable to gain from our sale or exchange of U.S. real property interests, as defined below, and that we do not designate as a capital gain dividend will recognize ordinary income to the extent that we pay such distribution out of our current or accumulated earnings and profits. A withholding tax equal to 30% of the gross amount of the distribution ordinarily will apply to such distribution unless an applicable tax treaty reduces or eliminates the tax. Under some treaties, however, lower rates generally applicable to dividends do not apply to dividends from REITs. In general, non-U.S. holders are not considered to be engaged in a U.S. trade or business solely as a result of their ownership of our stock. However, if a distribution is treated as effectively connected with the non-U.S. holder's conduct of a U.S. trade or business, the non-U.S. holder generally will be subject to federal income tax on the distribution at graduated rates, in the same manner as U.S. holders are taxed with

---

**Table of Contents**

respect to such distributions. A non-U.S. holder that is a corporation also may be subject to the 30% branch profits tax with respect to the distribution. Generally, a non-U.S. holder will be subject to U.S. income tax withholding at the rate of 30% on the gross amount of any such distribution paid to a non-U.S. holder unless either:

a lower treaty rate applies and the non-U.S. holder files an IRS Form W-8BEN evidencing eligibility for that reduced rate with the payor; or

the non-U.S. holder files an IRS Form W-8ECI with the payor claiming that the distribution is effectively connected income. Generally, a non-U.S. holder will not incur tax on a distribution in excess of our current and accumulated earnings and profits if the excess portion of such distribution does not exceed the adjusted basis of its stock. Instead, the excess portion of such distribution will reduce the adjusted basis of such stock. A non-U.S. holder will be subject to tax on a distribution that exceeds both our current and accumulated earnings and profits and the adjusted basis of its stock, if the non-U.S. holder otherwise would be subject to tax on gain from the sale or disposition of its stock, as described below. Because we generally cannot determine at the time we make a distribution whether or not the distribution will exceed our current and accumulated earnings and profits, the entire amount of any distribution will be subject to withholding as a taxable dividend. However, a non-U.S. holder may obtain a full or partial refund, as appropriate, of amounts that are withheld if we later determine that a distribution in fact exceeded our current and accumulated earnings and profits.

Unless we are a domestically-controlled REIT, as defined below, withholding at a rate of 10% is required on any distribution that exceeds our current and accumulated earnings and profits. Consequently, although withholding at a rate of 30% on the entire amount of any distribution is generally required, withholding at a rate of 10% may be required on any portion of a distribution not subject to withholding at a rate of 30%.

For any year in which we qualify as a REIT, a non-U.S. holder may incur tax on distributions that are attributable to gain from any sale or exchange of United States real property interests under special provisions of the U.S. federal income tax laws referred to as FIRPTA. The term United States real property interests includes certain interests in real property and stock in corporations at least 50% of whose assets consists of interests in real property. Under those rules, a non-U.S. holder is taxed on distributions attributable to gain from sales of United States real property interests as if such gain were effectively connected with a U.S. business of the non-U.S. holder. A non-U.S. holder thus would be taxed on such a distribution at the normal capital gains rates applicable to U.S. holders, subject to applicable alternative minimum tax and a special alternative minimum tax in the case of a nonresident alien individual. A non-U.S. corporate holder not entitled to treaty relief or exemption also may be subject to the 30% branch profits tax on such a distribution. Except as described below with respect to regularly traded stock, withholding is required at a rate of 35% of any distribution that we could designate as a capital gain dividend. A non-U.S. holder may receive a credit against its tax liability for the amount we withhold. Any distribution with respect to any class of stock which is regularly traded on an established securities market located in the U.S., such as our stock, shall not be treated as gain recognized from the sale or exchange of a United States real property interest if the non-U.S. holder did not own more than 5% of such class of stock at any time during the taxable year within which the distribution is received. The distribution will be treated as an ordinary dividend to the non-U.S. holder and taxed as an ordinary dividend that is not a capital gain. A non-U.S. holder is not required to file a U.S. federal income tax return by reason of receiving such a distribution, and the branch profits tax no longer applies to such a distribution. However, the distribution will be subject to U.S. federal income tax withholding as an ordinary dividend as described above.

Under the Tax Increase Prevention and Reconciliation Act of 2005 ( TIPRA ), any distribution that is made by a REIT that would otherwise be subject to FIRPTA because the distribution is attributable to the disposition of a United States real property interest to retain its character as FIRPTA income when distributed to any regulated investment company or other REIT, and to be treated as if it were from the disposition of a United States real property interest by that regulated investment company or other REIT. A

wash sale rule is also included in TIPRA for transactions involving certain dispositions of REIT stock to avoid FIRPTA tax on dispositions of United States real property interests.

A non-U.S. holder generally will not incur tax under FIRPTA with respect to gain realized upon a disposition of our stock as long as we are a domestically-controlled REIT. A domestically controlled REIT is a REIT in which, at all times during a specified testing period, less than 50% in value of its shares are held directly or indirectly by non U.S. holders. We cannot assure you that that test will be met. However, a non-U.S. holder that owned, actually or constructively, 5% or less of our stock at all times during a specified testing period will not incur tax under FIRPTA with respect to any such gain if the stock is regularly traded on an established securities market. To the extent that our stock is regularly traded on an established securities market, a non-U.S. holder will not incur tax under FIRPTA unless it owns more than 5% of our stock. If the gain on the sale of the stock were taxed under FIRPTA, a non-U.S. holder would be taxed in the same manner as U.S. holders with respect to such gain, subject to applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals. Furthermore, a non-U.S. holder generally will incur tax on gain not subject to FIRPTA if (1) the gain is effectively connected with the non-U.S. holder's U.S. trade or business, in which case the non-U.S. holder will be subject to the same treatment as U.S. holders with respect to such gain, or (2) the non-U.S. holder is a nonresident alien individual who was present in the U.S. for 183 days or more during the taxable year and has a tax home in the U.S., in which case the non-U.S. holder will incur a 30% tax on his capital gains.

### **Taxable Mortgage Pools**

A taxable mortgage pool is any entity (or in certain cases, a portion of an entity) other than a REMIC that has the following characteristics:

Substantially all (generally, more than 80%) of the assets of such entity consist of debt obligations and more than 50% of such debt obligations are real estate mortgages;

Such entity issues two or more classes of debt obligations having different maturities; and

The timing and amount of payments or projected payments on the debt obligations issued by the entity are determined in large part by the timing and amount of payments the entity receives on the debt obligations it holds as assets.

If a REIT is a taxable mortgage pool, or if a REIT owns a qualified REIT subsidiary that is a taxable mortgage pool, then a portion of the REIT's income will be treated as excess inclusion income and a portion of the dividends the REIT pays to its shareholders will be considered to be excess inclusion income. You cannot offset excess inclusion income with net operating losses or otherwise allowable deductions. Moreover, if you are a tax-exempt shareholder, such as a domestic pension fund, you must treat excess inclusion income as unrelated business taxable income. If you are not a U.S. holder, your dividend distributions may be subject to withholding tax, without regard to any exemption or reduction in rate that might otherwise apply, with respect to your share of excess inclusion income. The manner in which excess inclusion income would be allocated among shares of different classes of our stock or how such income is to be reported to shareholders is not clear under current law.

Several of our investments are contained in securitization trusts which are considered taxable mortgage pools. To the extent that these taxable mortgage pools have excess inclusion income, we will report these amounts annually.

### **Federal Income Tax Consequences of our Status as a REIT – Recent Developments**

*The Health Care and Education Reconciliation Act of 2010.* On March 30, 2010, the Health Care and Education Reconciliation Act of 2010 was signed into law (the Health Care Act). The Health Care Act will require certain individuals, estates and trusts to pay a 3.8% Medicare surtax on net investment income, which includes, among other things, dividends on and proceeds from the sale of securities like our common stock, subject to certain exceptions. This surtax applies to net investment income earned in taxable

years beginning after December 31, 2012. Prospective shareholders are advised to consult their tax advisors regarding this legislation and the potential implications of this legislation on their particular circumstances.

*The Hiring Incentives to Restore Employment Act.* On March 18, 2010, the Hiring Incentives to Restore Employment Act (the Hire Act) was signed into law. The Hire Act imposes withholding taxes on certain types of payments made to foreign financial institutions (as specifically defined in the Hire Act) and certain other non-U.S. entities (including financial intermediaries) after December 31, 2012. The Hire Act imposes a 30% withholding tax on withholdable payments to a foreign financial institution or to a foreign non-financial entity, unless (i) the foreign financial institution undertakes certain diligence and reporting obligations or (ii) the foreign non-financial entity either certifies it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner. For these purposes, a withholdable payment includes any U.S. source payments of interest (including original issue discount), dividends, rents, compensation and other fixed or determinable annual or periodical gains, profits and income. If the payee is a foreign financial institution, it must enter into an agreement with the U.S. Treasury requiring, among other things, that it undertake to identify accounts held by certain U.S. persons or U.S.-owned foreign entities, annually report certain information about such accounts, and withhold 30% on payments to account holders whose actions prevent it from complying with these reporting and other requirements. Prospective shareholders are advised to consult their tax advisors regarding this legislation and the potential implications of this legislation on their particular circumstances.

*Revenue Procedure 2010-12.* The IRS has recently issued Revenue Procedure 2010-12. Under this Revenue Procedure, a stock dividend paid by a REIT that is declared on or before December 31, 2012 with respect to a taxable year ending on or before December 31, 2011 may be treated as a taxable dividend if each shareholder has an option to elect to receive his or her dividend in cash, even if the aggregate cash amount paid to all shareholders is limited, as long as the cash portion represents at least 10% of the total dividend payment to be made to all shareholders and certain other requirements are satisfied. Accordingly, if we pay a stock dividend with a cash election feature in accordance with this Revenue Procedure, your tax liability with respect to such dividend may be significantly greater than the amount of cash you receive.

### **State and Local Taxes**

We and/or you may be subject to state and local tax in various states and localities, including those states and localities in which we or you transact business, own property, or reside. The state and local tax treatment in such jurisdictions may differ from the U.S. federal income tax treatment described above. Consequently, you should consult your own tax advisor regarding the effect of state and local tax laws upon an investment in our securities.

### **Legislative or Other Actions Affecting REITs**

The rules dealing with U.S. federal income taxation are constantly under review by persons involved in the legislative process and by the IRS and the U.S. Treasury Department. No assurance can be given as to whether, when, or in what form, U.S. federal income tax laws applicable to us and our shareholders may be enacted, possibly with retroactive effect. Changes to the U.S. federal income tax laws and interpretations of U.S. federal income tax laws could adversely affect an investment in our shares of common stock.

## **PLAN OF DISTRIBUTION**

We may sell our securities domestically or abroad, through underwriters, dealers or agents, or directly, or through any combination of those methods. The applicable prospectus supplement will describe the terms of the offering that it applies to, including the names of any underwriters, dealers or agents, the purchase price for our securities, and the proceeds we expect to receive. It will also include any delayed delivery arrangements, any underwriting discounts and other items constituting underwriters' compensation, the initial public offering price, any discounts or concessions allowed or re-allowed or paid to dealers, and a list of any securities exchanges on which the securities offered may be listed.

## **Table of Contents**

If we use underwriters in any sale, our securities will be purchased by the underwriters or dealers for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Our securities may be offered to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. The underwriters with respect to a particular underwritten offering will be named in the applicable prospectus supplement relating to that offering. If an underwriting syndicate is used, the managing underwriter or underwriters will be disclosed on the cover of the applicable prospectus supplement. Generally, the obligations of the underwriters or agents to purchase the securities that we offer will be subject to conditions precedent, and the underwriters will have to purchase all of the offered securities if any are purchased. The initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time. In no event will the maximum commission or discount to be received by any Financial Industry Regulatory Authority member or independent broker-dealer exceed 8% for the sale of the securities registered hereunder.

If we use dealers to sell our securities, we will sell our securities to the dealers as principals. The dealers may then resell our securities to the public at varying prices that they determine at the time of resale. We will disclose the names of the dealers and the terms of the transaction in the applicable prospectus supplement.

We may sell the securities through agents that we designate from time to time at fixed prices that may be changed, or at varying prices determined at the time of sale. We will name any agent involved in the offer or sale of our securities and specify any commissions that we will pay them. Unless otherwise specified in the applicable prospectus supplement, any agent will be acting on a best efforts basis for the period of its appointment.

Underwriters or agents may be paid by us or by purchasers of our securities for whom they act as agents in the form of discounts, concessions or commissions. Underwriters, agents and dealers participating in the distribution of our securities may all be deemed to be underwriters, and any discounts or commissions that they receive, as well as profit they receive on the resale of our securities, may be deemed to be underwriting discounts or commissions under the Securities Act.

A prospectus supplement may indicate that we will authorize agents, underwriters or dealers to solicit from specified types of institutions offers to purchase our securities at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts permitting payment and delivery on a specified future date. The prospectus supplement will describe conditions of any delayed delivery contracts, as well as the commission we will pay for solicitation of these contracts.

Some or all of the securities that we offer through this prospectus may be new issues of securities with no established trading market. Any underwriters to whom we sell our securities for public offering and sale may make a market in those securities, but they will not be obligated to and they may discontinue any market making at any time without notice. Accordingly, we cannot assure you of the liquidity of, or continued trading markets for, any securities that we offer.

In order to facilitate the offering of our securities, any underwriters or agents involved in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of our securities, or other securities that affect payments on our securities. Specifically, the underwriters or agents may overallocate in connection with the offering, creating a short position for their own account. In addition, to cover overallocations or to stabilize the price of our securities, or other securities that affect payments on our securities, the underwriters or agents may bid for and purchase the securities in the open market. In any offering of our securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or dealer for distributing our securities if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilizing transactions or otherwise. Any of these activities may stabilize or maintain the market price of our

**Table of Contents**

securities above independent market levels. The underwriters or agents are not required to engage in these activities, and may end any of these activities at any time.

Agents, dealers and underwriters may be entitled to be indemnified by us against specified civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments that they may be required to make.

Any underwriters, dealers or agents that we use, as well as their affiliates, may engage in transactions with us or perform services for us in the ordinary course of business.

**EXPERTS**

The consolidated financial statements as of December 31, 2010 and 2009 and for each of the three years in the period ended December 31, 2010 and management's assessment of the effectiveness of internal control over financial reporting as of December 31, 2010 incorporated by reference in this prospectus have been so incorporated in reliance on the reports of BDO USA, LLP, an independent registered public accounting firm, incorporated herein by reference, given on the authority of said firm as experts in accounting and auditing.

**LEGAL MATTERS**

The validity of the securities offered hereby and certain U.S. federal income tax matters are being passed upon for us by Troutman Sanders LLP, Richmond, Virginia.
