PART I

This Annual Report on Form 10-K contains, in addition to historical information, forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) that involve risks and uncertainties. See Business Forward Looking Statements.

Item 1. BUSINESS
The Company Overview

Unless the context otherwise requires, the term the Company and Emerson, refers to Emerson Radio Corp. and its subsidiaries.

Emerson Radio Corp. was incorporated in Delaware in 1994. The Company designs, sources, imports and markets a variety of houseware and consumer electronic products, and licenses its trademarks to others on a worldwide basis for a variety of products.

For additional disclosures of the Company's major customers, as well as financial information about geographical areas of our operations, see Item 8 Financial Statements and Supplementary Data and Note 15 Geographic Information .

Controlling Shareholder

The Grande Holdings Limited (Provisional Liquidators Appointed) (Grande), a Bermuda corporation, has, together with S&T International Distribution Limited (S&T), a subsidiary of Grande, and Grande N.A.K.S. Ltd., a subsidiary of Grande (together with Grande, the Reporting Persons), filed, on April 29, 2013, a Schedule 13D/A with the Securities and Exchange Commission (SEC) stating that, as of the filing date, the Reporting Persons had the shared power to vote and direct the disposition of 15,243,283 shares, or approximately 56.2%, of the outstanding common stock of Emerson which, pursuant to an agreement between S&T and Deutsche Bank AG (Deutsche Bank) on March 26, 2013, are no longer subject to the rights granted to Deutsche Bank pursuant to a security agreement entered into between S&T and Deutsche Bank on January 20, 2010.

On April 10, 2013, Deutsche Bank filed a Form 4 with the SEC disclosing the redemption and release, as of April 2, 2013, of 3,380,079 shares of common stock (the Remaining Pledged Shares) of Emerson to S&T, Emerson's largest shareholder. On May 9, 2013, a Schedule 13G was filed with the SEC by Deutsche Bank AG stating that it had no voting or dispositive power over any of the outstanding common stock of Emerson. As a result, Deutsche Bank no longer claims beneficial ownership of any of the Remaining Pledged Shares.

Furthermore, because S&T has regained control of a majority of the outstanding shares of common stock of Emerson, Emerson is once again a Controlled company, as defined in Section 801(a) of the NYSE MKT Rules. The Emerson Board of Directors (the Board) will continue to maintain the composition of its Audit Committee (currently comprised of two independent directors) and Corporate Governance, Nominating and Compensation Committee (currently comprised solely of independent directors) in compliance with the rules regarding reporting companies generally and, in certain instances, smaller reporting companies, each established by NYSE MKT listing standards and the SEC. With respect to the composition of the Board, although Emerson is no longer bound by the Board composition rules that require either a majority of independent directors or, in the case of smaller reporting companies, such as Emerson, a Board comprised of at least 50% independent directors, the Board has no current intention to reduce the percentage of independent directors on the Board. (see Item 1A Risk Factors Business Related Risks Uncertain Impact of Appointment of Provisional Liquidators for Grande, Emerson's Controlling Shareholder).

On May 31, 2011, upon application of a major creditor, the High Court of Hong Kong appointed Fok Hei Yu (who is also known by the anglicized name Vincent Fok), a current director of the Company, and Roderick John Sutton, both of FTI Consulting (Hong Kong) Limited (FTI), as Joint and Several Provisional Liquidators over Grande. Accordingly, as of May 31, 2011, the directors of Grande no longer have the ability to exercise control over Grande or the power to direct the voting and disposition of the 15,243,283 shares beneficially owned by Grande. Instead, Mr. Fok, as a Provisional Liquidator over Grande, has such power (see Item 1A Risk Factors Business Related Risks Uncertain Impact of Appointment of Provisional Liquidators for Grande, Emerson's Controlling Shareholder). In addition, on March 20, 2013, the Provisional Liquidators informed Emerson that they are obligated to liquidate the 15,243,283 shares beneficially owned by Grande. The Company can make no assurances regarding whether or to what extent such shares will be liquidated or retained by Grande, the timing, prices or amounts of any sales of shares or the impact, if any, on the Company, its other shareholders or the trading price of its common stock of any actual or anticipated dispositions of shares by the Provisional Liquidators.

Table of Contents

Supervision and Regulation

The Company files reports and other information with the SEC pursuant to the information requirements of the Securities Exchange Act of 1934. Readers may read and copy any document the Company files at the SEC's public reference room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operations of the public reference room. The Company's filings with the SEC are also available to the public from commercial document retrieval services and at the SEC's website at www.sec.gov.

The Company makes available through its internet website free of charge its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, amendments to such reports and other filings made by the Company with the SEC, as soon as practicable after the Company electronically files such reports and filings with the SEC. The Company's website address is www.emersonradio.com. The information contained in the Company's website is not incorporated by reference in this report.

General

The Company, directly and through several subsidiaries, designs, sources, imports, markets, sells and licenses to certain licensees a variety of houseware and consumer electronic products, both domestically and internationally, under the Emerson® and HH Scott® brand names. These products include:

microwave ovens, compact refrigerators and wine coolers; and

clock radios and portable audio products; and

video and other products primarily televisions.

The Company believes it possesses an advantage over its competitors due to the combination of:

recognition of the Emerson® brand;

the Company's distribution base and established customer relations;

the Company's sourcing expertise and established vendor relations;

an infrastructure with personnel experienced in servicing and providing logistical support to the domestic mass merchant distribution channel; and

the Company's extensive experience in establishing license and distribution agreements on a global basis for a variety of products. The Company intends to continue leveraging its core competencies to offer a variety of current and new houseware and consumer electronic products to customers. In addition, the Company intends to continue entering into licenses for the use of its trade names and trademarks by third parties, which the Company refers to as "outward licenses". The Company continues to enter into distribution agreements that leverage its trademarks and utilize the logistical and sourcing advantages of unrelated third-parties for products that are more efficiently marketed through these agreements. The Company continuously evaluates potential licenses and distribution agreements. See "Licensing and Related Activities."

The Company's core business consists of selling, distributing, and licensing various low and moderately priced houseware and consumer electronic products in various categories. A substantial portion of the Company's marketing and sales efforts are concentrated in the United

Edgar Filing: EMERSON RADIO CORP - Form 10-K

States, although the Company also sells, or licenses for sale, its products in certain other international regions.

Products

The Company's current product and branded categories consist primarily of the following:

Houseware Products

Microwave ovens
Compact refrigerators
Wine coolers

Sales and Distribution

Audio Products

Clock radios
Portable audio systems

Other

Televisions

The Company's Direct Import Program allows its customers to import and receive product directly from its contracted manufacturers located outside the United States. Under the Direct Import Program, title for the Company's product passes to the customer in the country of origin when the product is shipped by the manufacturer. The Company also sells product to customers from its United States warehoused inventory, which is referred to as the Domestic Program. Under the Domestic Program, title for product typically passes at the time of shipment. Under both programs, the Company recognizes revenues at the time title passes to the customer. See Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations.

Table of Contents

The Company has an integrated system to coordinate the purchasing, sales and distribution aspects of its operations. The Company receives orders from its major customers via electronic data interface, facsimile, telephone or mail. The Company does not have long-term contracts with any of its customers, but rather receives orders on an ongoing basis. Products imported by the Company for the Domestic Program, generally from factories in Asia, are shipped by ocean and/or inland freight and then stored in the Company's warehouse facilities for shipment to customers. The Company monitors its inventory levels and goods in transit through the use of an electronic inventory system. When a purchase order under the Domestic Program is received, it is filled from the Company's inventory and the warehoused product is labeled and prepared for outbound shipment to the customer by common, contract or small package carrier.

Income Tax Issues Concerning Overseas Income

On April 15, 2013 and June 5, 2013, Emerson received correspondence from the U.S Internal Revenue Service (the IRS) including, a (i) Form 5701 and Form 886-A regarding Adjusted Sales Income (collectively referred to as NOPA 1) and (ii) Form 5701 and Form 886-A regarding Adjusted Subpart F-Foreign Base Company Sales Income (collectively referred to as NOPA 2).

With respect to NOPA 1, the IRS is (i) challenging the position of the Company with respect to the way the Company's controlled foreign corporation in Macao (the Macao CFC) recorded its product sales during Fiscal 2010 and Fiscal 2011 and (ii) asserting that an upward adjustment to the Company's Fiscal 2010 and Fiscal 2011 taxable income of \$4,981,520 and \$5,680,182, respectively, is required.

With respect to NOPA 2, the IRS is challenging the position of the Company with respect to the fact that the Company considered the service fee paid by the Company to the Macao CFC to be non-taxable in the US. The IRS has taken the position that the service fee paid to the Macao CFC by the Company constitutes foreign base company sales income (FBCSI). The IRS asserts that the service fee earned by the Macao CFC in connection with its sale of products to the Company should be taxable to the Company as FBCSI. As a result, the IRS determined that an upward adjustment to the Company's Fiscal 2010 and Fiscal 2011 taxable income of \$1,553,984 and \$1,143,162, respectively, is required.

The Company has evaluated the determinations made by the IRS as set forth in each of NOPA 1 and NOPA 2 in order to decide (a) how it will proceed and (b) the potential impact on the Company's financial condition and operations. Furthermore, although NOPA 1 and NOPA 2 represent potential adjustments to Fiscal 2010 and Fiscal 2011 only, the Company believes it is likely that the IRS will take the position that the same type of adjustments should be made for each of the Company's subsequent fiscal years. The assessment and payment of such additional taxes, penalties and interest would have a material adverse effect on the Company's financial condition and results of operations.

With respect to NOPA 1, the Company is appealing the proposed adjustment with the IRS. In the event that the Company is not successful in its appeal, the Company estimates that it could be liable for a maximum in taxes, penalties and interest of approximately \$13.3 million pertaining to NOPA 1, in the aggregate, for its Fiscal 2010, Fiscal 2011, Fiscal 2012 and Fiscal 2013 periods. However, because the Company's current assessment is that its appeal of NOPA 1 is more likely than not to be successful, the Company has not recorded any liability to its March 31, 2013 balance sheet related to NOPA 1.

With respect to NOPA 2, the Company agrees in principle with the IRS position that the service fee paid to the Macao CFC by the Company would be treated as FBCSI and taxable to the Company but the Company does not agree with the adjustment to the Company's taxable income as calculated by the IRS. However, the Company has estimated as approximately \$1.1 million the amount of taxes, penalties and interest for which it would be liable for its Fiscal 2010, Fiscal 2011, Fiscal 2012 and Fiscal 2013 periods using the adjustments to taxable income as proposed by the IRS, and recorded such amount as a liability to its March 31, 2013 balance sheet.

Domestic Marketing

In the United States, the Company markets its products primarily through mass merchandisers.

In fiscal 2013 and 2012, Wal-Mart accounted for approximately 45% and 48% of the Company's net revenues, respectively, and Target accounted for approximately 44% and 39% of the Company's net revenues, respectively. No other customer accounted for more than 10% of net revenues in either period. As a percent of the Company's total trade accounts receivable, net of specific reserves, Wal-Mart and Target accounted for 45% and 44% as of March 31, 2013, respectively, and 82% and 6% as of March 31, 2012, respectively. Management believes that a loss, or a significant reduction, of sales to Wal-Mart or Target would have a materially adverse effect on the Company's business and results of operations.

Table of Contents

As reported by the Company in a Form 8-K filed with the SEC on October 19, 2012, the Company was informed by its customer Wal-Mart, that, commencing with the Spring of 2013, it would discontinue purchasing from Emerson two microwave oven products that had been sold by the Company to Wal-Mart. During the year ended March 31, 2012 (Fiscal 2012), these two microwave oven products comprised, in the aggregate, approximately \$48.4 million, or 31%, of the Company's net product sales.

Emerson continued shipping these two products throughout the remainder of Fiscal 2013 (the year ending March 31, 2013), with sales of such products declining through the fourth quarter of Fiscal 2013. During Fiscal 2013, these two microwave oven products comprised, in the aggregate, approximately \$36.1 million, or 29.7%, of the Company's net product sales.

Emerson anticipates that the full impact of Wal-Mart's decision will be realized by the Company in Fiscal 2014, which began on April 1, 2013. As previously disclosed by the Company, the complete loss of, or significant reduction in, business with either of the Company's key customers will have a material adverse effect on the Company's business and results of operations. Accordingly, Wal-Mart's decision will have a material adverse effect on the Company's business and results of operations. There can be no assurance that the Company will be able to increase sales of such products at levels sufficient to offset the adverse impact of Wal-Mart's decision, if at all.

Approximately 47% and 46% of the Company's net revenues in fiscal 2013 and 2012, respectively, were made through third-party sales representative organizations that receive sales commissions and work in conjunction with the Company's own sales personnel. With the Company's permission, third-party sales representative organizations may sell competitive products in addition to the Company's products. In most instances, either party may terminate a sales representative relationship on 30 days prior notice by the Company and 90 days prior notice by the sales representative organization in accordance with customary industry practice. In fiscal 2013, the Company utilized 10 sales representative organizations, including one through which approximately 43% of its net revenues, including revenues from one of the Company's two major customers described above, were made in fiscal 2013. In fiscal 2012, the Company utilized 16 sales representative organizations, including one through which approximately 39% of its net revenues, including revenues from one of the Company's two major customers described above, were made in fiscal 2012. No other sales representative organization accounted for more than 10% of net revenues in either year. The remainder of the Company's sales is to customers that are serviced by its sales personnel. Although sales and operating results could be negatively impacted, management does not believe that the loss of one or more sales representative organizations would have a material adverse effect on its business and results of operations, as the Company believes that new sales representative organizations could be identified if needed, although that could be a time consuming process.

Foreign Marketing

The Company primarily markets and distributes its products in the United States. Accordingly, foreign sales account for less than 10% of total revenues and are not considered material.

Licensing and Related Activities

Throughout various parts of the world, the Company is party to numerous distribution and outward license agreements with third party licensees that allow the licensees to manufacture and/or sell various products bearing the Company's trademarks into defined geographic areas. The Company believes that such activities have had and will continue to have a positive impact on operating results by generating income with minimal, if any, incremental costs and without any working capital requirements, and intends to pursue additional licensing and distribution opportunities. The Company continues to protect its brand through rigid license and product selection and control processes. See Item 1A Risk Factors Business Related Risks The failure by the Company to maintain its relationships with its licensees, licensors and distributors, or the failure to obtain new licensees, licensors and distributions relationships could materially adversely affect the Company's revenues and earnings , Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations and Note 13 License Agreements .

Design and Manufacturing

The Company's products are manufactured by original equipment manufacturers in accordance with the Company's specifications. During fiscal 2013 and 2012, 100% of the Company's purchases consisted of finished goods from foreign manufacturers located in People's Republic of China, substantially all of which were imported into the United States.

The Company's design team is responsible for product development and works closely with suppliers. The Company's engineers determine the detailed cosmetic, electronic and other features for new products, which typically incorporate commercially available electronic parts to be assembled according to the Company's designs. Accordingly, the exterior designs and operating features of the products reflect the Company's judgment of current styles and consumer preferences.

Table of Contents

The following summarizes the Company's purchases from its major suppliers that provided more than 10% of the Company's total purchases in fiscal 2013 and 2012:

Supplier	Fiscal Year	
	2013	2012
Midea	67%	66%
Hisense	10%	*
Hualing	*	15%

* Less than 10%

The Company considers its relationships with its suppliers to be satisfactory and believes that, barring any unusual material or part shortages or economic, fiscal or monetary conditions, the Company could develop alternative suppliers. No assurance can be given that ample supply of product would be available at current prices and on current credit terms if the Company were required to seek alternative sources of supply without adequate notice by a supplier or a reasonable opportunity to seek alternate production facilities and component parts (see Item 1A Risk Factors Business Related Risks Uncertain Impact of Appointment of Provisional Liquidators for Grande, Emerson's Controlling Shareholder and Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations).

Warranties

The Company offers limited warranties for its consumer electronics, comparable to those offered to consumers by the Company's competitors in the United States. Such warranties typically consist of a one year period for microwaves and compact refrigerators and a 90 day period for audio products, under which the Company pays for labor and parts, or offers a new or similar unit in exchange for a non-performing unit.

Returned Products

The Company's customers return product for a variety of reasons, including:

retailer return policies with their customers;

damage to goods in transit and cosmetic imperfections; and

mechanical failures.

Backlog

The Company does not believe that backlog is a significant factor. The ability of management to correctly anticipate and provide for inventory requirements is essential to the successful operation of the Company's business.

Trademarks

The Company owns the following principal trademarks for certain consumer electronic products in the United States, Canada, Mexico and various other countries:

Emerson®

Emerson Research®

H.H. Scott®

iDEA®

IDIVA®

Ölevia®

Scott®

SmartSet®

The Company's trademark registrations must be renewed at various times. The Company intends to renew all trademarks necessary for the conduct of its business. The Company considers the Emerson® trademark to be of material importance to its business and, to a lesser degree, the remaining trademarks. The Company licenses the Emerson® and certain of its other trademarks to third parties, the scope of which is on a limited product and geographic basis and for a period of time. See Licensing and Related Activities.

Table of Contents

Competition

The Company primarily competes in the low-to-medium-priced sector of the housewares and consumer electronics market. Management estimates that the Company has several dozen competitors that are manufacturers and/or distributors, many of which are much larger and have greater financial resources than the Company. The Company competes primarily on the basis of:

brand recognition;

reliability;

quality;

price;

design;

consumer acceptance of the Company's products; and

the quality of service and support provided to retailers and their customers.

The Company also competes at the retail level for shelf space and promotional displays, all of which have an impact on its success in established and proposed distribution channels.

Working Capital

The Company anticipates that its cash on hand and cash flows generated from operations will provide sufficient liquidity to meet the Company's operating requirements in the year ahead (see Item 1A Risk Factors Business Related Risks Uncertain Impact of Appointment of Provisional Liquidators for Grande, Emerson's Controlling Shareholder).

Government Regulation

Pursuant to the Tariff Act of 1930, as amended, the Trade Act of 1974 and regulations promulgated there under, the United States government charges tariff duties, excess charges, assessments and penalties on many imports. These regulations are subject to continuous change and revision by government agencies and by action of the United States Trade Representative and may have the effect of increasing the cost of goods purchased by the Company or limiting quantities of goods available to the Company from our overseas suppliers. A number of states have adopted statutes regulating the manner of determining the amount of payments to independent service centers performing warranty service on products such as those sold by the Company. Additional Federal legislation and regulations regarding the importation of consumer electronics products, including the products marketed by the Company, have been proposed from time to time and, if enacted into law, could adversely affect the Company's financial condition and results of operations.

Product Liability and Insurance

Because of the nature of the products it sells, the Company is periodically subject to product liability claims resulting from personal injuries. The Company may also become involved in various lawsuits incidental to its business.

Edgar Filing: EMERSON RADIO CORP - Form 10-K

Although the Company maintains product liability insurance coverage, there can be no absolute assurance that the Company's coverage limits will be sufficient to cover any successful product liability claims made against it in the future. In management's opinion, any ultimate liability arising out of currently pending product liability claims will not have a material adverse effect on the Company's financial condition or results of operations. However, any claims substantially in excess of the Company's insurance coverage, or any substantial claim not covered by insurance, could have a material adverse effect on the Company's financial condition and results of operations.

Employees

As of July 16, 2013, the Company had approximately 55 employees, comprised of 32 in the United States and 23 in Asia. None of the Company's employees are represented by unions, and the Company believes its labor relations are good.

Item 1A. Risk Factors

The reader should carefully consider these risk factors in addition to those set forth in the Company's financial statements or the notes thereto. Additional risks about which the Company is not yet aware or that the Company currently believes to be immaterial also may adversely affect the Company's business operations. If any of the following occur, the Company's business, financial condition or operating results may be adversely affected. In that case, the price of the Company's common stock may decline.

Table of Contents**Business Related Risks*****Uncertain Impact of Appointment of Provisional Liquidators for Grande, Emerson's Controlling Shareholder.***

The consequences for the Company, if any, of the appointment of Provisional Liquidators over Grande and the subsequent filing by Grande with the United States Bankruptcy Court in Manhattan in June 2011 of a Chapter 15 petition under the United States Bankruptcy Code are uncertain at this time, although it is possible, as noted below and elsewhere in this Annual Report on Form 10-K, that actions taken by the Provisional Liquidators over Grande could affect in an adverse way a number of significant aspects of the Company's business. Subsequent to the appointment, certain major factory suppliers, including Midea, have significantly reduced the maximum amount of open credit lines available to the Company. At the factories' request, the Company made accelerated payments in June and July of 2011 to reduce the balances owing from the Company on its open trade payable accounts with the respective factory suppliers to comply with such new credit terms. The Company relies on its cash on hand and cash generated by ongoing operations to manage its business. The Provisional Liquidators informed Emerson, on June 1, 2011, that they do not have any intention of interrupting the business of Emerson, that Emerson will continue to be operated as usual without interruption, and that they did not have any intent at that point of disposing of the shares of Emerson stock held by Grande. Subsequently, however, on March 20, 2013, the Provisional Liquidators informed Emerson that they are obligated to liquidate the 15,243,283 shares beneficially owned by Grande. The Company can make no assurances regarding whether or to what extent such shares will be liquidated or retained by Grande, the timing, prices or amounts of any sales of shares or the impact, if any, on the Company, its other shareholders or the trading price of its common stock of any actual or anticipated dispositions of shares by the Provisional Liquidators.

The controlling ownership of the Company's common stock by an indirect subsidiary of Grande, which is listed and is based in Hong Kong, substantially reduces the influence of other stockholders, and the interests of Grande may conflict with the interests of the Company's other stockholders.

Grande, through one of its indirect subsidiaries, is the beneficial owner of a significant amount of the Company's outstanding common stock as of June 29, 2013 (see Item 1 Business Controlling Shareholder for disclosures regarding the approximate shareholding position of Grande in the Company). As a result, Grande currently controls significantly the approval process for actions that require stockholder approval, including: the election of the Company's directors and the approval of mergers, sales of assets or other significant corporate transactions or matters submitted for stockholder approval. Because of Grande's ownership position, other stockholders have little or no influence over matters submitted for stockholder approval.

Two of the Company's directors also are directors or senior officers of Grande or its subsidiaries and have loyalties and fiduciary obligations to both Grande and the Company.

Christopher Ho, the Company's Chairman of the Board, is also the sole director of Grande, and Duncan Hon, the Chief Executive Officer and a director of the Company, also is an officer of certain subsidiaries of Grande. As described in Note 3 to the Company's financial statements and in the Company's previous filings with the SEC, there have been certain related party transactions between the Company and certain subsidiaries and affiliates of Grande (see Item 1A Risk Factors Business Related Risks Uncertain Impact of Appointment of Provisional Liquidators for Grande, Emerson's Controlling Shareholder).

The Company has established adequate procedures designed to ensure that related party transactions are fair to the Company.

The loss or significant reduction in business with either of the Company's key customers, Wal-Mart and Target, could materially and adversely affect the Company's revenues and earnings.

The Company is highly dependent upon sales of its products to Wal-Mart and Target. For the fiscal years ended March 31, 2013 and 2012, Wal-Mart accounted for approximately 45% and 48% of the Company's net revenues, respectively, and Target accounted for approximately 44% and 39%, respectively, of the Company's net revenues. No other customer accounted for more than 10% of the Company's net revenues during these periods. All customer purchases are made through purchase orders and the Company does not have any long-term contracts with its customers. The complete loss of, or significant reduction in business from, or a material adverse change in the financial condition of, Wal-Mart or Target would cause a material and adverse change in the Company's revenues and operating results.

As reported by the Company in a Form 8-K filed with the SEC on October 19, 2012, the Company was informed by its customer Wal-Mart, that, commencing with the Spring of 2013, Wal-Mart would discontinue purchasing from Emerson two microwave oven products that had been currently sold by the Company to Wal-Mart. During the year ended March 31, 2012 (Fiscal 2012), these two microwave oven products comprised, in the aggregate, approximately \$48.4 million, or 31%, of the Company's net product sales.

Edgar Filing: EMERSON RADIO CORP - Form 10-K

Emerson continued shipping these two products throughout the remainder of Fiscal 2013 (the year ending March 31, 2013), with sales of such products declining through the fourth quarter of Fiscal 2013. During Fiscal 2013, these two microwave oven products comprised, in the aggregate, approximately \$36.1 million, or 29.7%, of the Company's net product sales.

Table of Contents

Emerson anticipates that the full impact of Wal-Mart's decision will be realized by the Company in Fiscal 2014, which began on April 1, 2013. As previously disclosed by the Company, the complete loss of, or significant reduction in, business with either of the Company's key customers will have a material adverse effect on the Company's business and results of operations. Accordingly, Wal-Mart's decision will have a material adverse effect on the Company's business and results of operations. There can be no assurance that the Company will be able to increase sales of such products at levels sufficient to offset the adverse impact of Wal-Mart's decision, if at all.

The Company may be liable for additional tax payments to the IRS in connection with the extraordinary dividend paid by the Company to recipients on March 24, 2010 which would have a material adverse effect on the Company's financial condition.

On March 2, 2010, the Board declared an extraordinary dividend of \$1.10 per common share which was paid on March 24, 2010. In connection with the Company's determination as to the taxability of the dividend, the Board relied upon information and research provided to it by the Company's tax advisors and, in reliance on the stock-for-debt exception in the Internal Revenue Code Sections 108(e)(8) and (e)(10), concluded that 4.9% of such dividend paid was taxable to the recipients.

In August 2012, the Company received a Form 886-A from the IRS which challenges the Company's conclusions and determines that the Company does not qualify for the above-referenced exception. Accordingly, the IRS has concluded that 100% of the dividend paid was taxable to the recipients. The Company is defending its position and calculations and is contesting the position asserted by the IRS. The Company prepared and, on October 25, 2012, delivered its rebuttal to the IRS contesting the IRS determination. There can be no assurance that the Company will be successful in defending its position.

In the event that the Company is not successful in establishing with the IRS that the Company calculations were correct, then the shareholders who received the dividend likely will be subject to and liable for an assessment of additional taxes due. Moreover, the Company may be contingently liable for taxes due by certain of its shareholders resulting from the dividend paid by the Company.

Initially, the Company withheld from the dividend paid to foreign shareholders an amount equal to the tax liability associated with such dividend. On April 7, 2010, upon a request made to the Company by its foreign controlling shareholder, S&T, the Company entered into an agreement with S&T (the Agreement), whereby the Company returned to S&T on April 7, 2010 that portion of the funds withheld for taxes from the dividend paid on March 24, 2010 to S&T, which the Company believes is not subject to U.S. tax based on the Company's good-faith estimate of its accumulated earnings and profits. The Agreement includes provisions pursuant to which S&T agreed to indemnify the Company for any liability imposed on it as a result of the Company's agreement not to withhold such funds for S&T's possible tax liability and a pledge of stock as collateral. The Company continues to assert that such dividend is largely not subject to U.S. tax based on the Company's good-faith estimate of its accumulated earnings and profits. In addition, the Company also continues to assert that this transaction results in an off-balance sheet arrangement and a possible contingent tax liability of the Company, which, if recognized, would be offset in part by the calling by the Company on S&T of the indemnification provisions of the Agreement.

In February 2011, upon the request of S&T to the Company, the Company and S&T agreed that the collateral pledged as a part of the Agreement would no longer be required and such collateral was returned by the Company to S&T in March 2011 and the Agreement was amended and restated to remove the collateral requirement but retain the indemnification provisions. The Agreement, as amended (the Amended Agreement), remains in effect as of today. In the event that (i) the Company is not successful in establishing with the IRS that the Company's calculations were correct and (ii) S&T is unable or unwilling to pay the additional taxes due or indemnify the Company under the terms of the Amended Agreement, the Company may be liable to pay such additional taxes which would have a material adverse effect on the Company's financial condition and results of operations.

The Company will be liable for additional taxes, penalties and interests payable to the IRS if it is not successful in establishing the tax treatment for its Macao Controlled Foreign Corporation which may have a material adverse effect on the Company's financial condition and results of operations.

On April 15, 2013 and June 5, 2013, Emerson received correspondence from the IRS, including a (i) Form 5701 and Form 886-A regarding Adjusted Sales Income (collectively referred to as NOPA 1) and (ii) Form 5701 and Form 886-A regarding Adjusted Subpart F-Foreign Base Company Sales Income (collectively referred to as NOPA 2).

With respect to NOPA 1, the IRS is (i) challenging the position of the Company with respect to the way the Company's controlled foreign corporation in Macao (the Macao CFC) recorded its product sales during Fiscal 2010 and Fiscal 2011 and (ii) asserting that an upward adjustment to the Company's Fiscal 2010 and Fiscal 2011 taxable income of \$4,981,520 and \$5,680,182, respectively, is required.

Table of Contents

With respect to NOPA 2, the IRS is challenging the position of the Company with respect to the fact that the Company considered the service fee paid by the Company to the Macao CFC to be non-taxable in the U.S. The IRS has taken the position that the service fee paid to the Macao CFC by the Company constitutes foreign base company sales income (FBCSI). The IRS asserts that the service fee earned by the Macao CFC in connection with its sale of products to the Company should be taxable to the Company as FBCSI. As a result, the IRS determined that an upward adjustment to the Company's Fiscal 2010 and Fiscal 2011 taxable income of \$1,553,984 and \$1,143,162, respectively, is required.

The Company has evaluated the determinations made by the IRS as set forth in each of NOPA 1 and NOPA 2 in order to decide (a) how it will proceed and (b) the potential impact on the Company's financial condition and operations. Furthermore, although NOPA 1 and NOPA 2 represent potential adjustments to Fiscal 2010 and Fiscal 2011 only, the Company believes it is likely that the IRS will take the position that the same type of adjustments should be made for each of the Company's subsequent fiscal years. The assessment and payment of such additional taxes, penalties and interest would have a material adverse effect on the Company's financial condition and results of operations.

With respect to NOPA 1, the Company is appealing the proposed adjustment with the IRS. In the event that the Company is not successful in its appeal, the Company estimates that it could be liable for a maximum in taxes, penalties and interest of approximately \$13.3 million pertaining to NOPA 1, in the aggregate, for its Fiscal 2010, Fiscal 2011, Fiscal 2012 and Fiscal 2013 periods. However, because the Company's current assessment is that its appeal of NOPA 1 is more likely than not to be successful, the Company has not recorded any liability to its March 31, 2013 balance sheet related to NOPA 1.

With respect to NOPA 2, the Company agrees in principle with the IRS' position that the service fee paid to the Macao CFC by the Company would be treated as FBCSI and taxable to the Company but the Company does not agree with the adjustment to the Company's taxable income as calculated by the IRS. However, the Company has estimated as approximately \$1.1 million the amount of taxes, penalties and interest for which it would be liable for its Fiscal 2010, Fiscal 2011, Fiscal 2012 and Fiscal 2013 periods using the adjustments to taxable income as proposed by the IRS, and recorded such amount as a liability to its March 31, 2013 balance sheet.

The Company depends on a limited number of suppliers for its products. The inability to secure products could reduce the Company's revenues and adversely affect its relationship with its customer, and the inability to secure products at competitive costs could negatively impact the Company's earnings.

Although there are multiple suppliers for each of the Company's products, the Company relies and is dependent on a limited number of suppliers for its main products, all of which are located outside of the United States. This reliance involves a number of significant potential risks, including:

lack of availability of materials and interruptions in delivery of components and raw materials from suppliers;

manufacturing delays caused by such lack of availability or interruptions in delivery;

fluctuations in the quality and the price of components and raw materials, in particular due to the petroleum price impact on such materials;

fluctuations in the cost of procuring finished goods inventory; and

risk related to foreign operations.

The Company does not have any long-term or exclusive purchase commitments with any of its suppliers. Midea was the Company's largest supplier during fiscal 2013 and accounted for 67% of the Company's purchases of products during fiscal 2013. The Company's failure to maintain existing relationships with its suppliers or to establish new relationships on similar pricing and credit terms in the future could negatively affect the Company's ability to obtain products in a timely manner. If the Company is unable to obtain an ample supply of product from its existing suppliers or alternative sources of supply, it may be unable to satisfy its customers' orders, which could materially and adversely affect the Company's revenues and relationships with its customers. Finding replacement suppliers could be a time consuming process during which the Company's revenues and liquidity could be negatively impacted (see Item 1A Risk Factors Business Related Risks Uncertain Impact of

Appointment of Provisional Liquidators for Grande, Emerson's Controlling Shareholder).

Table of Contents

If the Company's contract manufacturers are unable to deliver products in the required amounts and in a timely fashion, the Company could experience delays or reductions in shipments to its customers, which could materially and adversely affect the Company's revenues and relationships with its customers. Unanticipated disruptions in the Company's operations, slowdowns or shutdowns by its suppliers, manufacturers and shipping companies could adversely affect the Company's ability to deliver its products and services to its customers which could materially and adversely affect the Company's revenues and relationships with its customers.

The Company's ability to provide high quality customer service, process and fulfill orders, and manage inventory depends on the efficient and uninterrupted operation of its distribution centers and the timely and uninterrupted performance of third party manufacturers and suppliers, shipping companies and dock workers. Any material disruption, slowdown or shutdown of the Company's operation of its call center, distribution centers, or management information systems, or comparable disruptions, slowdowns or shutdowns suffered by the Company's principal manufacturers, suppliers and shippers could cause delays in the Company's ability to receive, process and fulfill customer orders and may cause orders to be canceled, lost or delivered late, goods to be returned or receipt of goods to be refused. As a result, the Company's revenues and operating results could be materially and adversely affected.

All of the Company's products are manufactured in accordance with its specifications by factories principally located in China. If the Company is unable to obtain products from these factories in the required quantities and quality and in a timely fashion, the Company could experience delays or reductions in product shipments to its customers, which could negatively affect the Company's ability to meet the requirements of its customers, as well as its relationships with its customers, which in turn could materially and adversely affect the Company's revenues and operating results.

All of the Company's suppliers are located in China. Inadequate development and maintenance of infrastructure in China, including inadequate power and water supplies, transportation and raw materials availability, and the deterioration in the general political, economic and social environments in China may make it difficult, more expensive and possibly prohibitive for these suppliers to continue to operate in China. If the Company cannot find suitable replacements for any manufacturers that have or may in the future close their facilities, the Company's revenues and operating results could be materially and adversely affected.

The failure by the Company to maintain its relationships with its licensees and distributors or the failure to obtain new licensees or distribution relationships could materially and adversely affect the Company's revenues and earnings.

The Company maintains agreements that allow licensees to use the Company's trademarks for the manufacture and sale of specific consumer electronics and other products. In addition, the Company maintains agreements for the distribution of products bearing its brands into defined geographic areas. Although the Company has entered into agreements with certain of its licensees and distributors of its products, most have terms of three years or less, including the Company's agreement with Funai, which accounts for approximately 87% of the Company's total licensing revenue, and which was amended during December 2012 to extend the term of the agreement until March 31, 2015. The Company cannot assure that such agreements will be renewed or that the Company's relationships with its licensees or distributors will be maintained on satisfactory terms or at all. The failure to maintain its relationships with Funai and other licensees and distributors on terms satisfactory to the Company, the failure to obtain new licensees or distribution relationships or the failure by the Company's licensees to protect the integrity and reputation of the Company's trademarks could materially and adversely affect the Company's licensing revenues and earnings.

The Company's business could be materially and adversely affected if it cannot protect its intellectual property rights or if it infringes on the intellectual property rights of others.

The Company's ability to compete effectively depends on its ability to maintain and protect its proprietary rights. The Company owns the Emerson® and other trademarks, which are materially important to its business, as well as other trademarks, patents, licenses and proprietary rights that are used for certain of the products that it markets and sells. The Company's trademarks are registered throughout the world, including the United States and other countries. The Company also has two patents in the United States on its SmartSet® technology, both of which expire in September 2018. The laws of some foreign countries in which the Company operates may not protect the Company's proprietary rights to the same extent as do laws in the United States. The protections afforded by the laws of such countries may not be adequate to protect the Company's intellectual property rights.

Third parties may seek to challenge, invalidate, circumvent or render unenforceable any trademarks, patents or proprietary rights owned by or licensed to the Company. In addition, in the event third party licensees fail to protect the integrity of the Company's trademarks, the value of these marks could be materially and adversely affected. The Company's inability to protect its proprietary rights could materially and adversely affect the license of its trade names, trademarks and patents to third parties as well as its ability to sell its products. Litigation may be necessary to enforce the Company's intellectual property rights, protect the Company's trade secrets; and determine the scope and validity of such intellectual property rights. Any such litigation, whether or not successful, could result in substantial costs and diversion of resources and management's attention from the operation of the Company's business.

Edgar Filing: EMERSON RADIO CORP - Form 10-K

The Company may receive notices of claims of infringement of other parties' proprietary rights. Such actions could result in litigation and the Company could incur significant costs and diversion of resources in defending such claims. The party making such claims could secure a judgment awarding substantial damages, as well as injunctive or other equitable relief. Such relief could effectively block the Company's ability to make, use, sell, distribute or market its products and services in such jurisdiction. The Company may also be required to seek licenses to such intellectual property. The Company cannot predict, however, whether such licenses would be available or, if available, that such licenses could be obtained on terms that are commercially reasonable and acceptable to the Company. The failure to obtain the necessary licenses or other rights could delay or preclude the sale, manufacture or distribution of its products and could result in increased costs to the Company.

Table of Contents

The Company's revenues and earnings could be materially and adversely affected if it cannot anticipate market trends or enhance existing products or achieve market acceptance of new products.

The Company's success is dependent on its ability to anticipate and respond to changing consumer demands and trends in a timely manner, as well as expanding into new markets and developing new products. In addition, to increase the Company's penetration of current markets and gain footholds in new markets for its products, the Company must maintain its existing products and integrate them with new products. The Company may not be successful in developing, marketing and releasing new products that respond to technological developments or changing customer needs and preferences. The Company may also experience difficulties that could delay or prevent the successful development, introduction and sale of these new products. These new products may not adequately meet the requirements of the marketplace and may not achieve any significant degree of market acceptance. If release dates of any future products or enhancements to the Company's products are delayed, or if these products or enhancements fail to achieve market acceptance when released, the Company's sales volume may decline and earnings could be materially and adversely affected. In addition, new products or enhancements by the Company's competitors may cause customers to defer or forgo purchases of the Company's products, which could also materially and adversely affect the Company's revenues and earnings.

The Company relies on its cash on hand and cash generated from operations to fund its business.

The Company relies on its cash on hand and cash generated by on-going operations to manage its business, and has not attempted to seek alternative sources of financing at this time.

Table of Contents

Foreign regulations and changes in the political, social and economic conditions in the foreign countries in which the Company operates its business could affect the Company's revenues and earnings materially and adversely.

The Company derives a significant portion of its revenue from sales of products manufactured by third parties located primarily in China. In addition, third parties located in China and other countries located in the same region produce and supply many of the components and raw materials used in the Company's products. Conducting an international business inherently involves a number of difficulties and risks that could materially and adversely affect the Company's ability to generate revenues and could subject the Company to increased costs. Among the factors that may adversely affect the Company's revenues and increase its costs are:

currency fluctuations which could cause an increase in the price of the components and raw materials used in the Company's products and a decrease in its profits;

Chinese labor laws;

labor shortages in manufacturing facilities located in China;

the elimination or reduction of value-added tax refunds to Chinese factories that manufacture products for export;

the rise of inflation and substantial economic growth in China;

more stringent export restrictions in the countries in which the Company operates which could adversely affect its ability to deliver its products to its customers;

tariffs and other trade barriers which could make it more expensive for the Company to obtain and deliver its products to its customers;

political instability and economic downturns in these countries which could adversely affect the Company's ability to obtain its products from its manufacturers or deliver its products to its customers in a timely fashion;

new restrictions on the sale of electronic products containing certain hazardous substances; and

the laws of China are likely to govern many of the Company's supplier agreements.

Any of the factors described above may materially and adversely affect the Company's revenues and/or increase its operating expenses.

The Company is subject to intense competition in the industry in which it operates, which could cause material changes in the selling price of its products or losses of its market share.

The housewares and consumer electronics industry is highly competitive, especially with respect to pricing and the introduction of new products and features. The Company's products compete in the low to medium-priced sector of the housewares and consumer electronics market and compete primarily on the basis of reliability, brand recognition, quality, price, design, consumer acceptance of the Emerson® trademark and quality service and support to retailers and its customers. The Company and many of its competitors are subject to factory cost increases, and the Company expects these pressures to continue. If these pressures are not mitigated by increases in selling price or cost reductions from the

Edgar Filing: EMERSON RADIO CORP - Form 10-K

Company's suppliers or changes in product mix, or if the consumers of the Company's products change their buying habits as a result of the Company's actions, the Company's revenues and profits could be substantially reduced. As compared to the Company, many of its competitors have significantly greater managerial, financial, marketing, technical and other competitive resources and greater brand recognition. As a result, the Company's competitors may be able to (i) adapt more quickly to new or emerging technologies and changes in customer requirements; (ii) devote greater resources to the promotion and sale of their products and services; and (iii) respond more effectively to pricing pressures.

In addition, competition could increase if new companies enter the market, existing competitors expand their product mix or the Company expands into new markets. An increase in competition could result in material price reductions or loss of the Company's market share.

Changes in consumer spending and economic conditions may cause its quarterly operating results to fluctuate and cause its stock price to decline.

The Company's net revenue and operating results may vary significantly from year to year, which may adversely affect its results of operations and the market price for its common stock. Factors that may cause these fluctuations include:

changes in market and economic conditions;

the discretionary nature of consumers' demands and spending patterns;

variations in the sales of the Company's products to its significant customers;

variations in manufacturing and supplier relationships;

Table of Contents

if the Company is unable to correctly anticipate and provide for inventory requirements, it may not have sufficient inventory to deliver its products to its customers in a timely fashion or the Company may have excess inventory that it is unable to sell;

new product developments or introductions;

product reviews and other media coverage;

competition, including competitive price pressures; and

political instability, war, acts of terrorism or other disasters.

If the Company's third party sales representatives fail to adequately promote, market and sell the Company's products, the Company's revenues could significantly decrease.

A significant portion of the Company's product sales are made through third party sales representative organizations, whose members are not employees of the Company. The Company's level of sales depends on the effectiveness of these organizations, as well as the effectiveness of its own employees. Some of these third party representatives may sell (and do sell), with the Company's permission, competitive products of third parties as well as the Company's products. During the Company's fiscal years ended March 31, 2013 and March 31, 2012, these organizations were responsible for approximately 47% and 46%, respectively, of its net revenues during such periods. In addition, one of these representative organizations was responsible for a significant portion of these revenues. If any of the Company's third party sales representative organizations engaged by the Company, especially the Company's largest, fails to adequately promote, market and sell its products, the Company's revenues could be significantly decreased until a replacement organization or distributor could be retained by the Company. Finding replacement organizations and distributors could be a time consuming process during which the Company's revenues could be negatively impacted.

The Company could be exposed to product liability or other claims for which its product liability or other insurance may be inadequate.

A failure of any of the products marketed by the Company may subject it to the risk of product liability claims and litigation arising from injuries allegedly caused by the improper functioning or design of its products. Although the Company currently maintains product liability insurance in amounts which the Company considers adequate, the Company cannot assure that:

its insurance will provide adequate coverage against potential liabilities;

adequate product liability insurance will continue to be available in the future; or

its insurance can be maintained on acceptable terms.

Although the Company maintains liability insurance in amounts that it considers adequate, the Company cannot assure that such policies will provide adequate coverage against potential liabilities. To the extent product liability or other litigation losses are beyond the limits or scope of the Company's insurance coverage, the Company's expenses could materially increase.

Market Related Risks

Grande's controlling interest in the Company's common stock as well as the Company's organizational documents and Delaware law make it difficult for the Company to be acquired without the consent and cooperation of Grande, the Company's board of directors and management.

Grande's controlling interest in the Company's shares as well as several provisions of the Company's organizational documents and Delaware law may deter or prevent a takeover attempt, including a takeover attempt in which the potential purchaser offers to pay a per share price greater than

Edgar Filing: EMERSON RADIO CORP - Form 10-K

the current market price of its common stock. Under the terms of the Company's certificate of incorporation, its board of directors has the authority, without further action by the stockholders, to issue shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof. The ability to issue shares of preferred stock could tend to discourage takeover or acquisition proposals not supported by its current board of directors (see Item 1A Risk Factors Business Related Risks Uncertain Impact of Appointment of Provisional Liquidators for Grande, Emerson's Controlling Shareholder).

If the Company's common stock is de-listed from the NYSE MKT, shareholders' liquidity in their shares may be adversely affected and shareholders may have difficulty selling their shares or attaining a satisfactory price.

In order for the Company's common stock to be eligible to continue to be listed on the NYSE MKT, the Company must meet the current NYSE MKT continued listing requirements, including satisfying the Audit Committee composition requirements and the timely filing of periodic reports with the Securities and Exchange Commission. If the Company is unable to continue to meet these requirements, its common stock could be de-listed from the NYSE MKT. If the Company's common stock were to be de-listed from the NYSE MKT, its common stock could continue to trade on the National Association of Securities Dealers' over-the-counter bulletin board or on the Pink Sheets, as the case may be. Any such de-listing of the Company's common stock could have an adverse effect on the market price of, and the efficiency of the trading market for its common stock, in terms of the number of shares that can be bought and sold at a given price and through delays in the timing of transactions and less coverage of the Company by securities analysts, if any. It also could have an adverse effect on the Company's ability to raise capital in the public or private equity markets if the Company were to determine that it needs to seek additional equity capital in the future.

Forward-Looking Information

This report contains forward looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 under Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include statements with respect to the Company's beliefs, plans, objectives, goals, expectations, anticipations, assumptions, estimates, intentions, and future performance, and involve known and unknown risks, uncertainties and other factors, which may be beyond the Company's control, and which may cause its actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. All statements other than statements of historical fact are statements that could be forward-looking statements. You can identify these forward-looking statements through the use of words such as may, will, can, anticipate, assume, should, indicate, would, believe, contemplate, expect, seek, estimate, predict, could, intend, target, potential, and other similar words and expressions of the future. These forward-looking statements may not be realized due to a variety of factors, including, without limitation:

the impact, if any, on the Company's business, financial condition and results of operation arising from the appointment of the Provisional Liquidators over Grande see Item 1A Risk Factors Business Related Risks Uncertain Impact of Appointment of Provisional Liquidators for Grande, Emerson's Controlling Shareholder ;

the decline in, and any further deterioration of, consumer spending for retail products, such as the Company's products;

the Company's inability to resist price increases from its suppliers or pass through such increases to its customers;

the loss of any of the Company's key customers or reduction in the purchase of the Company's products by any such customers;

conflicts of interest that exist based on the Company's relationship with Grande;

the Company's inability to improve and maintain effective internal controls or the failure by its personnel to comply with such internal controls;

the Company's inability to maintain its relationships with its licensees and distributors or the failure to obtain new licensees or distribution relationships on favorable terms;

cash generated by operating activities represents the Company's principal source of funding and therefore the Company depends on its ability to successfully manage its operating cash flows to fund its operations;

the Company's inability to anticipate market trends, enhance existing products or achieve market acceptance of new products;

the Company's dependence on a limited number of suppliers for its components and raw materials;

the Company's dependence on third party manufacturers to manufacture and deliver its products;

Edgar Filing: EMERSON RADIO CORP - Form 10-K

changes in consumer spending and economic conditions;

the failure of third party sales representatives to adequately promote, market and sell the Company's products;

the Company's inability to protect its intellectual property;

the effects of competition;

changes in foreign laws and regulations and changes in the political and economic conditions in the foreign countries in which the Company operates;

changes in accounting policies, rules and practices;

limited access to financing or increased cost of financing; and

the effects of the continuing appreciation of the renminbi and increases in costs of production in China; and

the other factors listed under "Risk Factors" in this Annual Report on Form 10-K and other filings with the SEC.

All forward-looking statements are expressly qualified in their entirety by this cautionary notice. The reader is cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date of this annual report or the date of the document incorporated by reference into this annual report. The Company has no obligation, and expressly disclaims any obligation, to update, revise or correct any of the forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Contents

The Company has expressed its expectations, beliefs and projections in good faith and the Company believes they have a reasonable basis. However, the Company cannot assure the reader that its expectations, beliefs or projections will result or be achieved or accomplished.

Item 2. PROPERTIES

The following table sets forth the material properties leased by the Company:

Facility Purpose	Approximate Square Footage	Location	Lease Expires
Corporate headquarters	5,541	Hackensack, NJ	May 2015
Hong Kong office	6,162	Hong Kong, China	July 2016
Macao office	1,285	Macao, China	May 2014
Warehouse	180,650	Mira Loma, CA	September 2013

Periodically, depending on need and circumstances, the Company may also utilize public warehouse space with terms typically of one year or less. Public warehouse expenses vary based upon the volume and value of products shipped from each leased location.

The Company believes that the properties used for its operations are in satisfactory condition and adequate for its present and anticipated future operations. The Company does not currently own any of the properties it occupies.

Item 3. LEGAL PROCEEDINGS

Kayne Litigation. On July 7, 2011, the Company was served with an amended complaint (the Complaint) filed in the United States District Court for the Central District of California alleging, among other things, that the Company, certain of its present and former directors and other entities or individuals now or previously associated with Grande, intentionally interfered with the ability of the plaintiffs to collect on a judgment (now approximately \$47 million) they had against Grande by engaging in transactions (such as the dividend paid to all shareholders in March 2010) which transferred assets out of the United States. The Complaint also asserts claims under the civil RICO statute and for alter ego liability. In the Company's opinion, the claims appear to be devoid of merit. Accordingly, on September 27, 2011, Emerson moved to dismiss the action for failure to state a claim. On or about February 27, 2012, the Court dismissed the intentional interference claim and portions of the Civil RICO claim with leave to re-plead, but denied the motion to dismiss the alter ego claim. On March 19, 2012, the plaintiffs filed a Second Amended Complaint setting forth the same claims as the Complaint. On April 20, 2012, the Company moved to dismiss the re-pleaded intentional interference and RICO claims, and oral arguments on this motion were held on June 18, 2012. On September 6, 2012, the Court dismissed the RICO claim, but granted the plaintiffs leave to re-plead. On September 17, 2012, the plaintiffs filed a Third Amended Complaint setting forth the same claims as the Complaint. The Company's response to the Third Amended Complaint was due and filed on October 4, 2012, which joined in a co-defendants' motion to dismiss the alter ego claim and the RICO claim. The Court heard oral argument on December 17, 2012. On May 9, 2013, the Court granted, in part, the motion to dismiss and dismissed the RICO claim with prejudice. On May 23, 2013, Emerson filed an Answer in which it denied the allegations of the Third Amended Complaint. Discovery, which included the exchange of thousands of documents and numerous depositions of fact and expert witnesses, is now complete. On June 24, 2013, Emerson, and the other parties moved for summary judgment seeking dismissal of the remaining two claims. The oral argument for that motion is currently scheduled for July 25, 2013. In the event the motion for summary judgment is denied, Emerson will continue to defend the action vigorously. This matter is scheduled for trial on October 29, 2013.

Other. Except for the litigation matter described above, the Company is not currently a party to any legal proceedings other than litigation matters, in most cases involving ordinary and routine claims incidental to our business. Management cannot estimate with certainty the Company's ultimate legal and financial liability with respect to such pending litigation matters. However, management believes, based on our examination of such matters, that the Company's ultimate liability will not have a material adverse effect on the Company's financial position, results of operations or cash flows.

Item 4. Mine Safety Disclosures

Table of Contents**PART II****Item 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER REPURCHASES OF EQUITY SECURITIES****(a) Market Information**

The Company's common stock began trading on the American Stock Exchange under the symbol MSN on December 22, 1994, and currently trades on the NYSE MKT under the same symbol, as a result of NYSE Euronext's acquisition of the American Stock Exchange in 2008. The following table sets forth the range of high and low sales prices for the Company's common stock as reported by the NYSE MKT during the last two fiscal years.

	Fiscal 2013		Fiscal 2012	
	High	Low	High	Low
First Quarter	\$ 2.10	\$ 1.90	\$ 2.56	\$ 1.80
Second Quarter	2.12	1.84	2.03	1.48
Third Quarter	2.17	1.55	1.74	1.35
Fourth Quarter	1.79	1.30	2.09	1.61

There is no established trading market for the Company's Series A convertible preferred stock, whose conversion feature expired as of March 31, 2002.

(b) Holders

At June 11, 2013, there were 251 stockholders of the Company's common stock whose shares were registered with the Company's transfer agent. The Company believes that the number of beneficial owners is substantially greater than the number of registered shareholders, because a large portion of the Company's common stock is held of record in broker-street names.

(c) Dividends

Other than the one-time extraordinary dividend of \$1.10 per common share paid by the Company on March 24, 2010, the Company has not paid cash dividends on its common stock.

Item 6. SELECTED CONSOLIDATED FINANCIAL DATA

Not applicable.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of the Company's operations and financial condition should be read in conjunction with the Financial Statements and notes thereto included elsewhere in this Annual Report on Form 10-K.

Special Note: Certain statements set forth below constitute forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. See Item 1A Risk Factors Forward-Looking Information.

Table of Contents

In the following discussions, most percentages and dollar amounts have been rounded to aid presentation. As a result, all figures are approximations.

Results of Operations:

The following table summarizes certain financial information for the fiscal years ended March 31 (in thousands):

	2013	2012
Net product sales	\$ 121,628	\$ 156,975
Licensing revenue	6,768	6,276
Net revenues	128,396	163,251
Cost of sales	108,631	142,270
Other operating costs and expenses	1,355	1,352
Selling, general and administrative	7,759	7,764
Impairment of trademark	1,326	
Operating income	9,325	11,865
Realized gain on sale of marketable securities		828
Gain on sale of building		347
Interest income, net	340	70
Income before income taxes	9,665	13,110
Provision for income taxes	3,666	2,476
Net income	\$ 5,999	\$ 10,634

Results of Operations Fiscal 2013 compared with Fiscal 2012

Net product sales Net product sales for fiscal 2013 were \$121.6 million as compared to \$157.0 million for fiscal 2012, a decrease of \$35.4 million, or 22.5%. The Company's sales during fiscal 2013 and 2012 were highly concentrated among the Company's two largest customers, where gross product sales comprised approximately 94.2% and 90.3%, respectively, of the Company's total gross product sales. Net product sales may be periodically impacted by adjustments made to the Company's sales allowance and marketing support accrual to record unanticipated customer deductions from accounts receivable or to reduce the accrual by any amounts which were accrued in the past but not taken by customers through deductions from accounts receivable within a certain time period. In the aggregate, these adjustments had the effect of increasing net product sales and operating income by \$0.9 million and \$1.0 million for fiscal 2013 and fiscal 2012, respectively.

Net product sales are comprised primarily of the sales of houseware and audio products which bear the Emerson® brand name. The major elements which contributed to the overall decrease in net product sales were as follows:

- i) Houseware product net sales decreased \$28.8 million, or 19.7%, to \$117.6 million in fiscal 2013 as compared to \$146.4 million in fiscal 2012, principally driven by a decrease in sales of all products offered by the Company in the category, which is comprised of microwave ovens, compact refrigerators and wine coolers; and
- ii) Audio product net sales were \$4.1 million in fiscal 2013 compared to \$10.6 million in fiscal 2012, a decrease of \$6.5 million, or 61.5%, resulting from decreased net sales of all products offered by the Company in the category, which is comprised of clock radios and portable audio products.

As reported by the Company in a Form 8-K filed with the SEC on October 19, 2012, the Company was informed by its customer Wal-Mart, that, commencing with the Spring of 2013, Wal-Mart would discontinue purchasing from Emerson two microwave oven products that had been currently sold by the Company to Wal-Mart. During the year ended March 31, 2012 (Fiscal 2012), these two microwave oven products comprised, in the aggregate, approximately \$48.4 million, or 31%, of the Company's net product sales.

Edgar Filing: EMERSON RADIO CORP - Form 10-K

Emerson continued shipping these two products throughout the remainder of Fiscal 2013 (the year ending March 31, 2013), with sales of such products declining through the fourth quarter of Fiscal 2013. During Fiscal 2013, these two microwave oven products comprised, in the aggregate, approximately \$36.1 million, or 29.7%, of the Company's net product sales.

Emerson anticipates that the full impact of Wal-Mart's decision will be realized by the Company in Fiscal 2014, which began on April 1, 2013. As previously disclosed by the Company, the complete loss of, or significant reduction in, business with either of the Company's key customers will have a material adverse effect on the Company's business and results of operations. Accordingly, Wal-Mart's decision will have a material adverse effect on the Company's business and results of operations. There can be no assurance that the Company will be able to increase sales of such products at levels sufficient to offset the adverse impact of Wal-Mart's decision, if at all.

Table of Contents

Licensing revenue Licensing revenue in fiscal 2013 was \$6.8 million as compared to \$6.3 million for fiscal 2012, an increase of \$0.5 million, or 7.8%. The increase in year-over-year licensing revenue for fiscal 2013 was due to approximately \$1.2 million of higher year-over-year licensing revenue earned from the Company's largest licensee, Funai Corporation, Inc. (Funai), on higher year-over-year sales by Funai of products bearing the Emerson® brand name, partially offset by lower aggregate year-over-year licensing revenues earned by the Company from its other licensees.

The Company's largest license agreement is with Funai, which accounted for approximately 87% of the Company's total licensing revenue, and which was amended during December 2012 to extend the term of the agreement until March 31, 2015. The agreement provides that Funai will manufacture, market, sell and distribute specified products bearing the Emerson® trademark to customers in the U.S. and Canadian markets. Under the terms of the agreement, the Company receives non-refundable minimum annual royalty payments of \$3.75 million each calendar year and a license fee on sales of product subject to the agreement in excess of the minimum annual royalties. During fiscal 2013 and 2012, licensing revenues of \$5.9 million and \$4.7 million, respectively, were earned under this agreement.

Net revenues As a result of the foregoing factors, the Company's net revenues were \$128.4 million for fiscal 2013 as compared to \$163.3 million for fiscal 2012, a decrease of \$34.9 million, or 21.4%.

Cost of sales Cost of sales includes those components as described in Note 1 *Cost of Sales* of the Notes to the Consolidated Financial Statements. In absolute terms, cost of sales decreased \$33.7 million, or 23.6%, to \$108.6 million in fiscal 2013 as compared to \$142.3 million in fiscal 2012. Cost of sales, as a percentage of net revenues, was 84.6% in fiscal 2013 as compared to 87.2% in fiscal 2012. Cost of sales as a percentage of net product sales was 89.3% in fiscal 2013 as compared to 90.6% in fiscal 2012. The decrease in absolute terms for fiscal 2013 as compared to fiscal 2012 was primarily related to the reduced net product sales and lower year-over-year cost of sales as a percentage of sales, partially offset by the impact of an inventory valuation reserve reduction that occurred in fiscal 2012 that did not repeat in fiscal 2013.

Other operating costs and expenses Other operating costs and expenses include those components as described in Note 1 *Other Operating Costs and Expenses* of the Notes to the Consolidated Financial Statements. Other operating costs and expenses as a percentage of net revenues was 1.1% in fiscal 2013 as compared to 0.8% in fiscal 2012. In absolute terms, other operating costs and expenses was \$1.4 million for both fiscal 2013 and fiscal 2012.

Selling, general and administrative expenses (S,G&A) S,G&A, as a percentage of net revenues, was 6.1% in fiscal 2013 as compared to 4.8% in fiscal 2012. S,G&A, in absolute terms, was \$7.8 million in both fiscal 2013 and fiscal 2012, but increased as a percentage of net revenues due to decreased net product sales.

Impairment of Trademark During fiscal 2013, upon completion of an analysis which showed the absence of future expected cash flows, the Company determined that the value of one of its non-strategic trademarks was fully impaired. Thus, the Company recorded an impairment charge of \$1.3 million in September 2012 to write off this trademark. The Company does not anticipate any future material adverse financial impacts arising from this impairment.

Realized gain on sale of marketable securities In fiscal 2012, the Company realized a gain of \$0.8 million from the sale of its last remaining auction rate security with a face value of \$5.0 million. See Note 11 *Marketable Securities*.

Gain on sale of building In fiscal 2012, the Company sold its former headquarter office building in New Jersey and realized a gain of \$0.3 million on the sale. The Company currently rents office space to serve as its headquarters.

Interest income, net Interest income, net, was \$340,000 in fiscal 2013 as compared to \$70,000 in fiscal 2012, resulting from a higher interest rate earned by the Company on its investments made during fiscal 2013 in Certificates of Deposit.

Provision for income taxes In fiscal 2013 and fiscal 2012, the Company recorded income tax expense of \$3.7 million and \$2.5 million, respectively. See Item 8 *Financial Statements and Supplementary Data* and Note 7 *Income Taxes*.

Net income As a result of the foregoing factors, the Company's net income was \$6.0 million for fiscal 2013 as compared to net income of \$10.6 million for fiscal 2012.

Table of Contents

Liquidity and Capital Resources

General

As of March 31, 2013, the Company had cash and cash equivalents of approximately \$21.4 million as compared to approximately \$45.0 million at March 31, 2012. Working capital increased to \$72.5 million at March 31, 2013 as compared to \$64.4 million at March 31, 2012. The decrease in cash and cash equivalents of approximately \$23.6 million was due to the below factors.

Net cash provided by operating activities was approximately \$21.7 million for fiscal 2013, primarily resulting from the net income of \$6.0 million, a reduction in inventories of \$7.7 million, a reduction in accounts receivable of \$5.6 million, a reduction of intangible assets of \$1.3 million, a reduction in deferred tax assets of \$1.2 million, an increase in income taxes payable of \$1.2 million and a reduction in prepaid expenses and other current assets of \$1.0 million, partially offset by reductions in accounts payable and other current liabilities of \$1.4 million, and decreases in asset allowances of \$1.4 million.

Net cash used by investing activities was \$45.2 million for fiscal 2013 as compared to \$7.8 million in net cash generated by investing activities for fiscal 2012, primarily due to investment made by the Company during fiscal 2013 in \$45.2 million of certificates of deposit and \$0.1 million in additions to property, plant and equipment, partially offset by a \$0.1 million reduction in restricted cash.

Net cash used by financing activities was \$63,000 for fiscal 2013 as compared to \$2.5 million for fiscal 2012, primarily resulting from payments made on the Company's capital lease and rental obligations.

Table of Contents

Other Events and Circumstances Pertaining to Liquidity

Trade Terms

On May 31, 2011, upon application of a major creditor, the High Court of Hong Kong appointed Provisional Liquidators over Grande, which is the Company's controlling stockholder. Following the appointment of the Provisional Liquidators over Grande, certain major factory suppliers, including Midea, have significantly reduced the maximum amount of open credit lines available to the Company. At the factories' request, the Company made accelerated payments in June and July of 2011 to reduce the balances owing from the Company on its open trade payable accounts with the respective factory suppliers to comply with such new credit terms. The Company relies on its cash on hand and cash generated by ongoing operations to manage its business.

Potential Income Tax Issues Concerning the Extraordinary Dividend Paid by the Company in March 2010

On March 2, 2010, the Board declared an extraordinary dividend of \$1.10 per common share which was paid on March 24, 2010. In connection with the Company's determination as to the taxability of the dividend, the Board relied upon information and research provided to it by the Company's tax advisors and, in reliance on the stock-for-debt exception in the Internal Revenue Code Sections 108(e)(8) and (e)(10), concluded that 4.9% of such dividend paid was taxable to the recipients.

In August 2012, the Company received a Form 886-A from the IRS which challenges the Company's conclusions and determines that the Company does not qualify for the above-referenced exception. Accordingly, the IRS has concluded that 100% of the dividend paid was taxable to the recipients. The Company is defending its position and calculations and is contesting the position asserted by the IRS. The Company prepared and, on October 25, 2012, delivered its rebuttal to the IRS contesting the IRS determination. There can be no assurance that the Company will be successful in defending its position.

Initially, the Company withheld from the dividend paid to foreign shareholders an amount equal to the tax liability associated with such dividend. On April 7, 2010, upon a request made to the Company by its foreign controlling shareholder, S&T, the Company entered into an agreement with S&T (the Agreement), whereby the Company returned to S&T on April 7, 2010 that portion of the funds withheld for taxes from the dividend paid on March 24, 2010 to S&T, which the Company believes is not subject to U.S. tax based on the Company's good-faith estimate of its accumulated earnings and profits. The Agreement includes provisions pursuant to which S&T agreed to indemnify the Company for any liability imposed on it as a result of the Company's agreement not to withhold such funds for S&T's possible tax liability and a pledge of stock as collateral. The Company continues to assert that such dividend is largely not subject to U.S. tax based on the Company's good-faith estimate of its accumulated earnings and profits. In addition, the Company also continues to assert that this transaction results in an off-balance sheet arrangement and a possible contingent tax liability of the Company, which, if recognized, would be offset in part by the calling by the Company on S&T of the indemnification provisions of the Agreement.

In February 2011, upon the request of S&T to the Company, the Company and S&T agreed that the collateral pledged as a part of the Agreement would no longer be required and such collateral was returned by the Company to S&T in March 2011 and the Agreement was amended and restated to remove the collateral requirement but retain the indemnification provisions. The Agreement, as amended (the Amended Agreement), remains in effect as of today. In the event that (i) the Company is not successful in establishing with the IRS that the Company's calculations were correct and (ii) S&T is unable or unwilling to pay the additional taxes due or indemnify the Company under the terms of the Amended Agreement, the Company may be liable to pay such additional taxes which would have a material adverse effect on the Company's financial condition and results of operations.

Income Tax Issues Concerning Overseas Income

On April 15, 2013 and June 5, 2013, Emerson received correspondence from the IRS including a (i) Form 5701 and Form 886-A regarding Adjusted Sales Income (collectively referred to as NOPA 1) and (ii) Form 5701 and Form 886-A regarding Adjusted Subpart F-Foreign Base Company Sales Income (collectively referred to as NOPA 2).

With respect to NOPA 1, the IRS is (i) challenging the position of the Company with respect to the way the Company's controlled foreign corporation in Macao (the Macao CFC) recorded its product sales during Fiscal 2010 and Fiscal 2011 and (ii) asserting that an upward adjustment to the Company's Fiscal 2010 and Fiscal 2011 taxable income of \$4,981,520 and \$5,680,182, respectively, is required.

With respect to NOPA 2, the IRS is challenging the position of the Company with respect to the fact that the Company considered the service fee paid by the Company to the Macao CFC to be non-taxable in the U.S. The IRS has taken the position that the service fee paid to the Macao CFC by the Company constitutes foreign base company sales income (FBCSI). The IRS asserts that the service fee earned by the Macao CFC in

Edgar Filing: EMERSON RADIO CORP - Form 10-K

connection with its sales of products to the Company should be taxable to the Company as FBCSI. As a result, the IRS determined that an upward adjustment to the Company's Fiscal 2010 and Fiscal 2011 taxable income of \$1,553,984 and \$1,143,162, respectively, is required.

Table of Contents

The Company has evaluated the determinations made by the IRS as set forth in each of NOPA 1 and NOPA 2 in order to decide (a) how it will proceed and (b) the potential impact on the Company's financial condition and operations. Furthermore, although NOPA 1 and NOPA 2 represent potential adjustments to Fiscal 2010 and Fiscal 2011 only, the Company believes it is likely that the IRS will take the position that the same type of adjustments should be made for each of the Company's subsequent fiscal years. The assessment and payment of such additional taxes, penalties and interest would have a material adverse effect on the Company's financial condition and results of operations.

With respect to NOPA 1, the Company is appealing the proposed adjustment with the IRS. In the event that the Company is not successful in its appeal, the Company estimates that it could be liable for a maximum in taxes, penalties and interest of approximately \$13.3 million pertaining to NOPA 1, in the aggregate, for its Fiscal 2010, Fiscal 2011, Fiscal 2012 and Fiscal 2013 periods. However, because the Company's current assessment is that its appeal of NOPA 1 is more likely than not to be successful, the Company has not recorded any liability to its March 31, 2013 balance sheet related to NOPA 1.

With respect to NOPA 2, the Company agrees in principle with the IRS' position that the service fee paid to the Macao CFC by the Company would be treated as FBCSI and taxable to the Company but the Company does not agree with the adjustment to the Company's taxable income as calculated by the IRS. However, the Company has estimated as approximately \$1.1 million the amount of taxes, penalties and interest for which it would be liable for its Fiscal 2010, Fiscal 2011, Fiscal 2012 and Fiscal 2013 periods using the adjustments to taxable income as proposed by the IRS, and recorded such amount as a liability to its March 31, 2013 balance sheet.

Credit Arrangements

Letters of Credit The Company utilizes Hang Seng Bank to issue letters of credit on behalf of the Company, as needed, on a 100% cash collateralized basis. At March 31, 2013 the Company had outstanding letters of credit totaling \$0.1 million. A like amount of cash, which was posted by the Company as collateral against these outstanding letters of credit, at March 31, 2013, has been classified by the Company as Restricted Cash on the balance sheet.

Short-term Liquidity

In fiscal 2013, products representing approximately 46% of net sales were imported directly to the Company's customers. The direct importation of product by the Company to its customers significantly benefits the Company's liquidity because this inventory does not need to be financed by the Company.

The Company's principal existing sources of cash are generated from operations. The Company believes that its cash on hand and existing sources of cash will be sufficient to support its existing operations over the next 12 months.

As of March 31, 2013, there were no capital expenditure or other commitments other than the normal purchase orders used to secure product.

Off-Balance Sheet Arrangements

On April 7, 2010, upon a request made to the Company by its foreign controlling stockholder, S&T, the Company entered into an agreement with S&T whereby the Company returned to S&T on April 7, 2010 that portion of the taxes that the Company had withheld from the dividend paid on March 24, 2010 to S&T, as the Company believes the dividend paid is not subject to U.S. tax based on the Company's good-faith estimate of its accumulated earnings and profits, and received collateral (in the form of shares in the Company) which was sufficient to cover any claims for taxes on the dividend paid (the Agreement). The Company believes this transaction resulted in an off-balance sheet arrangement, which is comprised of a possible contingent tax liability of the Company, which, if recognized, would be offset by the calling by the Company on S&T of the indemnification provisions of the Agreement. In February 2011, upon the request of S&T to the Company, the Company and S&T agreed the collateral pledged as a part of the Agreement would no longer be required and this collateral was returned by the Company to S&T in March 2011 (see Note 3 Related Party Transactions).

Critical Accounting Policies

The discussion and analysis of the Company's financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles that are generally accepted within the United States. The preparation of the Company's financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. Management considers certain accounting policies related to inventories, trade accounts receivables, impairment of long-lived assets, valuation of deferred tax assets, sales return reserves and sales allowance accruals to be critical policies due to the estimation processes involved in each.

Table of Contents

Revenue Recognition. Revenues from product distribution are recognized at the time title passes to the customer. Under the Direct Import Program, title passes in the country of origin. Under the Domestic Program, title passes primarily at the time of shipment. Estimates for possible returns are based upon historical return rates and netted against revenues. Except in connection with infrequent sales with specific arrangements to the contrary, returns are not permitted unless the goods are defective.

In addition to the distribution of products, the Company grants licenses for the right to use the Company's trademarks for a stated term for the manufacture and/or sale of consumer electronics and other products under agreements which require payment of either i) a non-refundable minimum guaranteed royalty or, ii) the greater of the actual royalties due (based on a contractual calculation, normally comprised of actual product sales by the licensee multiplied by a stated royalty rate, or Sales Royalties) or a minimum guaranteed royalty amount. In the case of (i), such amounts are recognized as revenue on a straight-line basis over the term of the license agreement. In the case of (ii), Sales Royalties in excess of guaranteed minimums are accounted for as variable fees and are not recognized as revenue until the Company has ascertained that the licensee's sales of products have exceeded the guaranteed minimum. In effect, the Company recognizes the greater of Sales Royalties earned to date or the straight-line amount of minimum guaranteed royalties to date. In the case where a royalty is paid to the Company in advance, the royalty payment is initially recorded as a liability and recognized as revenue as the royalties are deemed to be earned according to the principles outlined above.

Inventories. Inventories are stated at the lower of cost or market. Cost is determined using the first-in, first-out basis. The Company records inventory reserves to reduce the carrying value of inventory for estimated obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory reserves may be required. Conversely, if market conditions improve, such reserves are reduced.

Trade Accounts Receivable. The Company extends credit based upon evaluations of a customer's financial condition and provides for any anticipated credit losses in the Company's financial statements based upon management's estimates and ongoing reviews of recorded allowances. If the financial condition of a customer deteriorates, resulting in an impairment of that customer's ability to make payments, additional reserves may be required. Conversely, reserves are reduced to reflect credit and collection improvements.

Income Taxes. The Company records a valuation allowance to reduce the amount of its deferred tax assets to the amount that management estimates is more likely than not to be realized. While management considers future taxable income and ongoing tax planning strategies in assessing the need for the valuation allowance, in the event that management determines that a deferred tax asset will likely be realized in the future in excess of the net recorded amount, an adjustment to the deferred tax asset would increase income in the period such determination was made. Likewise, if it is determined that all or part of a net deferred tax asset will likely not be realized in the future, an adjustment to the deferred tax asset would be charged to income in the period such determination was made.

Sales Return Reserves. Management must make estimates of potential future product returns related to current period product revenue. Management analyzes historical returns, current economic trends and changes in customer demand for our products when evaluating the adequacy of the reserve for sales returns. Management judgments and estimates must be made and used in connection with establishing the sales return reserves in any accounting period. Additional reserves may be required if actual sales returns increase above the historical return rates. Conversely, the sales return reserve could be decreased if the actual return rates are less than the historical return rates, which were used to establish the reserve.

Sales Allowance and Marketing Support Accruals. Sales allowances, marketing support programs, promotions and other volume-based incentives which are provided to retailers and distributors are accounted for on an accrual basis as a reduction to net revenues in the period in which the related sales are recognized in accordance with ASC topic 605, Revenue Recognition, subtopic 50 Customer Payments and Incentives and Securities and Exchange Commission Staff Accounting Bulletins 101 Revenue Recognition in Financial Statements, and 104 Revenue Recognition, corrected copy (SAB's 101 and 104).

At the time of sale, the Company reduces recognized gross revenue by allowances to cover, in addition to estimated sales returns as required by ASC topic 605, Revenue Recognition, subtopic 15 Products, (i) sales incentives offered to customers that meet the criteria for accrual under ASC topic 605, subtopic 50 and (ii) under SAB's 101 and 104, an estimated amount to recognize additional non-offered deductions it anticipates and can reasonably estimate will be taken by customers which it does not expect to recover. Accruals for the estimated amount of future non-offered deductions are required to be made as contra-revenue items because that percentage of shipped revenue fails to meet the collectability criteria within SAB 104's and 101's four revenue recognition criteria, all of which are required to be met in order to recognize revenue.

If additional marketing support programs, promotions and other volume-based incentives are required to promote the Company's products subsequent to the initial sale, then additional reserves may be required and are accrued for when such support is offered.

Table of Contents

Recently-Issued Financial Accounting Pronouncements

The following Accounting Standards Updates (ASUs) were issued by the Financial Accounting Standards Board during the twelve months ended March 31, 2013 which relate to or could relate to the Company as concerns the Company s normal ongoing operations or the industry in which the Company operates:

Accounting Standards Update 2012-02, Intangibles Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment (Issued July 2012)

The objective of the amendments in this Update is to reduce the cost and complexity of performing an impairment test for indefinite-lived intangible assets by simplifying how an entity tests those assets for impairment and to improve consistency in impairment testing guidance among long-lived asset categories. The amendments permit an entity first to assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test in accordance with Subtopic 350-30, Intangibles Goodwill and Other General Intangibles Other than Goodwill. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent.

Previous guidance in Subtopic 350-30 required an entity to test indefinite-lived intangible assets for impairment, on at least an annual basis, by comparing the fair value of the asset with its carrying amount. If the carrying amount of the intangible asset exceeds its fair value, an entity should recognize an impairment loss in the amount of that excess. In accordance with the amendments in this Update, an entity will have an option not to calculate annually the fair value of an indefinite-lived intangible asset if the entity determines that it is not more likely than not that the asset is impaired. Permitting an entity to assess qualitative factors when testing indefinite-lived intangible assets for impairment results in guidance that is similar to the goodwill impairment testing guidance in Update 2011-08.

The amendments are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. Early adoption is permitted, including for annual and interim impairment tests performed as of a date before July 27, 2012, if a public entity s financial statements for the most recent annual or interim period have not yet been issued or, for nonpublic entities, have not yet been made available for issuance.

Accounting Standards Update 2012-03, Technical Amendments and Corrections to SEC Sections: Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 114, Technical Amendments Pursuant to SEC Release No. 33-9250, and Corrections Related to FASB Accounting Standards Update 2010-22 (SEC Update) (Issued August 2012)

Amends various SEC paragraphs: (a) pursuant to the issuance of Staff Accounting Bulletin No. 114; (b) pursuant to the issuance of the SEC s Final Rule, Technical Amendments to Commission Rules and Forms Related to the FASB s Accounting Standards Codification, Release Nos. 33-9250, 34-65052, and IC-29748 August 8, 2011; and (c) related to ASU 2010-22, Accounting for Various Topics.

Accounting Standards Update 2012-04, Technical Corrections and Improvements (Issued October 2012)

Clarifies the Codification or corrects unintended application of guidance and includes amendments identifying when the use of fair value should be linked to the definition of fair value in Topic 820, Fair Value Measurement. Amendments to the Codification without transition guidance are effective upon issuance for both public and nonpublic entities. For public entities, amendments subject to transition guidance will be effective for fiscal periods beginning after December 15, 2012. For nonpublic entities, amendments subject to transition guidance will be effective for fiscal periods beginning after December 15, 2013.

Accounting Standards Update 2013-02, Comprehensive Income Topic 220: Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income (Issued February 2013)

The amendments do not change the current requirements for reporting net income or other comprehensive income in financial statements. However, the amendments require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts. For public entities, the amendments are effective prospectively for reporting periods beginning after December 15, 2012.

Table of Contents

Accounting Standards Update 2013-04, Liabilities – Topic 405: Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date (Issued February 2013)

The guidance in this Update requires an entity to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date as the sum of the following

The amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors Any additional amount the reporting entity expects to pay on behalf of its co-obligors.

The guidance in this Update also requires an entity to disclose the nature and amount of the obligation as well as other information about those obligations.

The amendments in this Update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The amendments in this Update should be applied retrospectively to all prior periods presented for those obligations resulting from joint and several liability arrangements within the Update’s scope that exist at the beginning of an entity’s fiscal year of adoption. An entity may elect to use hindsight for the comparative periods (if it changed its accounting as a result of adopting the amendments in this Update) and should disclose that fact. Early adoption is permitted.

Accounting Standards Update 2013-07, Presentation of Financial Statements – Topic 205: Liquidation Basis of Accounting (Issued April 2013)

The amendments require an entity to prepare its financial statements using the liquidation basis of accounting when liquidation is imminent. Liquidation is imminent when the likelihood is remote that the entity will return from liquidation and either (a) a plan for liquidation is approved by the person or persons with the authority to make such a plan effective and the likelihood is remote that the execution of the plan will be blocked by other parties or (b) a plan for liquidation is being imposed by other forces (for example, involuntary bankruptcy). If a plan for liquidation was specified in the entity’s governing documents from the entity’s inception (for example, limited-life entities), the entity should apply the liquidation basis of accounting only if the approved plan for liquidation differs from the plan for liquidation that was specified at the entity’s inception. The amendments require financial statements prepared using the liquidation basis of accounting to present relevant information about an entity’s expected resources in liquidation by measuring and presenting assets at the amount of the expected cash proceeds from liquidation. The entity should include in its presentation of assets any items it had not previously recognized under U.S. GAAP but that it expects to either sell in liquidation or use in settling liabilities (for example, trademarks). The amendments are effective for entities that determine liquidation is imminent during annual reporting periods beginning after December 15, 2013, and interim reporting periods therein. Entities should apply the requirements prospectively from the day that liquidation becomes imminent. Early adoption is permitted. Entities that use the liquidation basis of accounting as of the effective date in accordance with other Topics (for example, terminating employee benefit plans) are not required to apply the amendments. Instead, those entities should continue to apply the guidance in those other Topics until they have completed liquidation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders

of Emerson Radio Corp and Subsidiaries

We have audited the accompanying consolidated balance sheets of Emerson Radio Corp. and Subsidiaries (the Company), as of March 31, 2013 and 2012, and the related consolidated statements of operations, changes in shareholders' equity, and cash flows for each of the two years in the period ended March 31, 2013. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Emerson Radio Corp. and Subsidiaries as of March 31, 2013 and 2012, and the results of their operations, and their cash flows for each of the two years in the period ended March 31, 2013, in conformity with accounting principles generally accepted in the United States of America.

EMERSON RADIO CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES:

Background and Basis of Presentation

The consolidated financial statements include the accounts of Emerson Radio Corp. (Emerson , consolidated the Company), and its subsidiaries. The Company designs, sources, imports and markets a variety of houseware and consumer electronic products, and licenses the Emerson trademark for a variety of products domestically and internationally.

Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, the Company is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

Highly liquid investments with original maturities of three months or less at the time of purchase are considered to be cash equivalents.

Fair Values of Financial Instruments

The carrying amounts for cash and cash equivalents, cash securing bank loans, trade accounts receivable, accounts payable and accrued liabilities approximate fair value due to the short-term maturity of these financial instruments. The carrying amounts of bank debt approximate their fair values due to their variable rate interest features.

Investments

The Company determines the appropriate classifications of securities at the time of purchase and evaluates the continuing appropriateness of that classification thereafter. Realized gains and losses are determined on a specific identification basis and are reported separately as a component of income. Decreases and increases in the fair value of securities deemed to be other than temporary are included in earnings.

Concentrations of Credit Risk

Certain financial instruments potentially subject the Company to concentrations of credit risk. Accounts receivable represent amounts due from retailers and distributors from sales to them of consumer electronics throughout the United States and Canada. The Company periodically performs credit evaluations of its customers but generally does not require collateral. The Company provides for any anticipated credit losses in the financial statements based upon management's estimates and ongoing reviews of recorded allowances. The accounts receivable allowance for doubtful accounts was \$245,000 at March 31, 2013 and \$326,000 at March 31, 2012.

Table of Contents

The Company maintains its cash accounts with major U.S. and foreign financial institutions. The total cash balances on deposit in the U.S. which are insured by the Federal Deposit Insurance Corporation (FDIC) are currently and were insured by the FDIC up to \$250,000 per bank as of March 31, 2013 and March 31, 2012 for interest-bearing accounts, and non-interest bearing accounts were insured by the FDIC with no limit, between December 31, 2010 and December 31, 2012. The Company's cash balances in excess of FDIC-insured limits were approximately \$21.2 million and approximately \$38.1 million at March 31, 2013 and March 31, 2012, respectively.

Long-Lived Assets

The Company's long-lived assets include property and equipment and trademarks. At March 31, 2013, the Company had approximately \$258,000 of property and equipment, net of accumulated depreciation, and approximately \$219,000 of trademarks, net of accumulated amortization, accounting for approximately 1% of the Company's total assets. The Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable in accordance with ASC Topics 350 Intangibles and 360 Property, Plant and Equipment. The recoverability of assets held and used is measured by a comparison of the carrying amount of the asset to the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. Future events could cause the Company to conclude that impairment indicators exist and that long-lived assets may be impaired. Any resulting impairment loss could have a material adverse impact on the Company's financial condition and results of operations. During fiscal 2013, upon completion of an analysis which showed the absence of future expected cash flows, the Company determined that the value of one of its non-strategic trademarks was fully impaired. Thus, the Company recorded an impairment charge of \$1.3 million in September 2012 to write off this trademark. The Company does not anticipate any future material adverse financial impacts arising from this impairment.

Property and Equipment

Property and equipment are carried at cost, less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the assets being depreciated. The cost of maintenance and repairs is charged to expense as incurred. Significant renewals and betterments are capitalized and depreciated over the remaining estimated useful lives of the related assets. At time of disposal, the cost and related accumulated depreciation are removed from the Company's records and the difference between net carrying value of the asset and the sale proceeds is recorded as a gain or loss.

Depreciation of property, plant and equipment is provided by the straight-line method as follows:

Machinery, Equipment and Software	Three years to seven years
Furniture & Fixtures	Seven years
Leasehold Improvements	Straight-line basis over the shorter of the useful life of the improvement or the term of the lease

Revenue Recognition***Distribution of products***

Revenues from product distribution are recognized at the time title passes to the customer. Under the Direct Import Program, title passes in the country of origin. Under the Domestic Program, title passes primarily at the time of shipment. Estimates for future expected returns are based upon historical return rates and netted against revenues.

Management must make estimates of potential future product returns related to current period product revenue. Management analyzes historical returns, current economic trends and changes in customer demand for the Company's products when evaluating the adequacy of the reserve for sales returns. Management judgments and estimates must be made and used in connection with establishing the sales return reserves in any accounting period. Additional reserves may be required if actual sales returns increase above the historical return rates. Conversely, the sales return reserve could be decreased if the actual return rates are less than the historical return rates, which were used to establish the reserve.

Sales allowances, marketing support programs, promotions and other volume-based incentives which are provided to retailers and distributors are accounted for on an accrual basis as a reduction to net revenues in the period in which the related sales are recognized in accordance with ASC topic 605, Revenue Recognition, subtopic 50 Customer Payments and Incentives and Securities and Exchange Commission Staff Accounting Bulletins 101 Revenue Recognition in Financial Statements, and 104 Revenue Recognition, corrected copy (SAB's 101 and 104).

Table of Contents

At the time of sale, the Company reduces recognized gross revenue by allowances to cover, in addition to estimated sales returns as required by ASC topic 605, Revenue Recognition, subtopic 15 Products, (i) sales incentives offered to customers that meet the criteria for accrual under ASC topic 605, subtopic 50 and (ii) under SAB's 101 and 104, an estimated amount to recognize additional non-offered deductions it anticipates and can reasonably estimate will be taken by customers which it does not expect to recover. Accruals for the estimated amount of future non-offered deductions are required to be made as contra-revenue items because that percentage of shipped revenue fails to meet the collectability criteria within SAB 104's and 101's four revenue recognition criteria, all of which are required to be met in order to recognize revenue.

If additional marketing support programs, promotions and other volume-based incentives are required to promote the Company's products subsequent to the initial sale, then additional reserves may be required and are accrued for when such support is offered.

Licensing

In addition to the distribution of products, the Company grants licenses for the right to use the Company's trademarks for a stated term for the manufacture and/or sale of consumer electronics and other products under agreements which require payment of either i) a non-refundable minimum guaranteed royalty or, ii) the greater of the actual royalties due (based on a contractual calculation, normally comprised of actual product sales by the licensee multiplied by a stated royalty rate, or Sales Royalties) or a minimum guaranteed royalty amount. In the case of (i), such amounts are recognized as revenue on a straight-line basis over the term of the license agreement. In the case of (ii), Sales Royalties in excess of guaranteed minimums are accounted for as variable fees and are not recognized as revenue until the Company has ascertained that the licensee's sales of products have exceeded the guaranteed minimum. In effect, the Company recognizes the greater of Sales Royalties earned to date or the straight-line amount of minimum guaranteed royalties to date. In the case where a royalty is paid to the Company in advance, the royalty payment is initially recorded as a liability and recognized as revenue as the royalties are deemed to be earned according to the principles outlined above.

Cost of Sales

Cost of sales includes actual product cost, quality control costs, change in inventory reserves, duty, buying costs, the cost of transportation to the Company's warehouses from its manufacturers, warehousing costs, and an allocation of those selling, general and administrative expenses that are directly related to these activities.

Other Operating Costs and Expenses

Other operating costs and expenses include costs associated with returned product received from retailers, warranty costs, warehouse supply expenses, and an allocation of those selling, general and administrative expenses that are directly related to these activities. Because other operating costs and expenses is not included in cost of sales, the reported gross margin may not be comparable to those of other distributors that may include all costs related to the cost of product to their cost of sales and in the calculation of gross margin.

Selling, General and Administrative Expenses

Selling, general and administrative expenses include all operating costs of the Company that are not directly related to the cost of procuring product or costs not included in other operating costs and expenses.

Foreign Currency

The assets and liabilities of foreign subsidiaries have been translated at current exchange rates, and related revenues and expenses have been translated at average rates of exchange in effect during the year. Related translation adjustments are reported as a separate component of shareholders' equity. Losses and gains resulting from foreign currency transactions are included in the results of operations.

The Company generally does not enter into foreign currency exchange contracts to hedge its exposures related to foreign currency fluctuations and there were no foreign exchange forward contracts held by the Company at March 31, 2013 or March 31, 2012.

Advertising Expenses

Advertising expenses are charged against earnings as incurred and are included in selling, general and administrative expenses. The Company incurred no advertising expenses during fiscal 2013 or fiscal 2012.

Table of Contents***Sales Allowance and Marketing Support Expenses***

Sales allowances, marketing support programs, promotions and other volume-based incentives which are provided to retailers and distributors are accounted for on an accrual basis as a reduction to net revenues in the period in which the related sales are recognized in accordance with ASC topic 605, Revenue Recognition, subtopic 50 Customer Payments and Incentives and Securities and Exchange Commission Staff Accounting Bulletins 101 Revenue Recognition in Financial Statements, and 104 Revenue Recognition, corrected copy (SAB's 101 and 104).

At the time of sale, the Company reduces recognized gross revenue by allowances to cover, in addition to estimated sales returns as required by ASC topic 605, Revenue Recognition, subtopic 15 Products, (i) sales incentives offered to customers that meet the criteria for accrual under ASC topic 605, subtopic 50 and (ii) under SAB's 101 and 104, an estimated amount to recognize additional non-offered deductions it anticipates and can reasonably estimate will be taken by customers which it does not expect to recover. Accruals for the estimated amount of future non-offered deductions are required to be made as contra-revenue items because that percentage of shipped revenue fails to meet the collectability criteria within SAB 104's and 101's four revenue recognition criteria, all of which are required to be met in order to recognize revenue.

If additional marketing support programs, promotions and other volume-based incentives are required to promote the Company's products subsequent to the initial sale, then additional reserves may be required and are accrued for when such support is offered.

The sales and marketing support accrual activity for fiscal 2013 and fiscal 2012 was as follows (in thousands):

Balance at March 31, 2011	\$ 3,035
Fiscal 2012 additions	2,385
Fiscal 2012 usages	(2,435)
Fiscal 2012 adjustments	(1,024)
Balance at March 31, 2012	\$ 1,961
Fiscal 2013 additions	2,060
Fiscal 2013 usages	(1,991)
Fiscal 2013 adjustments	(878)
Balance at March 31, 2013	\$ 1,152

Interest income, net

The Company records interest as incurred. The net interest income for fiscal 2013 and 2012 consists of:

	2013	2012
	(In thousands)	
Interest expense	\$ (15)	\$ (23)
Interest income	355	93
Interest income, net	\$ 340	\$ 70

Income Taxes

Deferred income taxes are recorded to account for the tax effects of differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred tax assets have been recorded net of an appropriate valuation allowance, to the extent management believes it is more likely than not that such assets will be realized. (See Note 7 Income Taxes).

Comprehensive Income

Edgar Filing: EMERSON RADIO CORP - Form 10-K

Comprehensive income or loss is net income or loss adjusted for changes in the fair value of hedge instruments, unrealized gains or losses on securities, and foreign currency translation adjustments.

Net Earnings Per Common Share

Net earnings per common share are based upon the weighted average number of common and common equivalent shares outstanding. Outstanding stock options and warrants are treated as common stock equivalents when dilution results from their assumed exercise.

Table of Contents

Stock-Based Compensation

The Company accounts for all share based payments in accordance with ASC Topic 71X, Compensation, subtopic 718 Compensation Stock Compensation. Accordingly, the computed fair value is expensed ratably over the requisite vesting period. The Company recorded no stock-based compensation costs during fiscal 2013 or fiscal 2012.

There were no stock options granted by the Company in fiscal 2013 or fiscal 2012.

Recent Pronouncements

The following Accounting Standards Updates (ASUs) were issued by the Financial Accounting Standards Board during the twelve months ended March 31, 2013 which relate to or could relate to the Company as concerns the Company's normal ongoing operations or the industry in which the Company operates:

Accounting Standards Update 2012-02, Intangibles Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment (Issued July 2012)

The objective of the amendments in this Update is to reduce the cost and complexity of performing an impairment test for indefinite-lived intangible assets by simplifying how an entity tests those assets for impairment and to improve consistency in impairment testing guidance among long-lived asset categories. The amendments permit an entity first to assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test in accordance with Subtopic 350-30, Intangibles Goodwill and Other General Intangibles Other than Goodwill. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent.

Previous guidance in Subtopic 350-30 required an entity to test indefinite-lived intangible assets for impairment, on at least an annual basis, by comparing the fair value of the asset with its carrying amount. If the carrying amount of the intangible asset exceeds its fair value, an entity should recognize an impairment loss in the amount of that excess. In accordance with the amendments in this Update, an entity will have an option not to calculate annually the fair value of an indefinite-lived intangible asset if the entity determines that it is not more likely than not that the asset is impaired. Permitting an entity to assess qualitative factors when testing indefinite-lived intangible assets for impairment results in guidance that is similar to the goodwill impairment testing guidance in Update 2011-08.

The amendments are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. Early adoption is permitted, including for annual and interim impairment tests performed as of a date before July 27, 2012, if a public entity's financial statements for the most recent annual or interim period have not yet been issued or, for nonpublic entities, have not yet been made available for issuance.

Accounting Standards Update 2012-03, Technical Amendments and Corrections to SEC Sections: Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 114, Technical Amendments Pursuant to SEC Release No. 33-9250, and Corrections Related to FASB Accounting Standards Update 2010-22 (SEC Update) (Issued August 2012)

Amends various SEC paragraphs: (a) pursuant to the issuance of Staff Accounting Bulletin No. 114; (b) pursuant to the issuance of the SEC's Final Rule, Technical Amendments to Commission Rules and Forms Related to the FASB's Accounting Standards Codification, Release Nos. 33-9250, 34-65052, and IC-29748 August 8, 2011; and (c) related to ASU 2010-22, Accounting for Various Topics.

Accounting Standards Update 2012-04, Technical Corrections and Improvements (Issued October 2012)

Clarifies the Codification or corrects unintended application of guidance and includes amendments identifying when the use of fair value should be linked to the definition of fair value in Topic 820, Fair Value Measurement. Amendments to the Codification without transition guidance are effective upon issuance for both public and nonpublic entities. For public entities, amendments subject to transition guidance will be effective for fiscal periods beginning after December 15, 2012. For nonpublic entities, amendments subject to transition guidance will be effective for fiscal periods beginning after December 15, 2013.

Table of Contents

Accounting Standards Update 2013-02, Comprehensive Income Topic 220: Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income (Issued February 2013)

The amendments do not change the current requirements for reporting net income or other comprehensive income in financial statements. However, the amendments require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts. For public entities, the amendments are effective prospectively for reporting periods beginning after December 15, 2012.

Accounting Standards Update 2013-04, Liabilities Topic 405: Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date (Issued February 2013)

The guidance in this Update requires an entity to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date as the sum of the following

The amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors Any additional amount the reporting entity expects to pay on behalf of its co-obligors.

The guidance in this Update also requires an entity to disclose the nature and amount of the obligation as well as other information about those obligations.

The amendments in this Update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The amendments in this Update should be applied retrospectively to all prior periods presented for those obligations resulting from joint and several liability arrangements within the Update's scope that exist at the beginning of an entity's fiscal year of adoption. An entity may elect to use hindsight for the comparative periods (if it changed its accounting as a result of adopting the amendments in this Update) and should disclose that fact. Early adoption is permitted.

Accounting Standards Update 2013-07, Presentation of Financial Statements Topic 205: Liquidation Basis of Accounting (Issued April 2013)

The amendments require an entity to prepare its financial statements using the liquidation basis of accounting when liquidation is imminent. Liquidation is imminent when the likelihood is remote that the entity will return from liquidation and either (a) a plan for liquidation is approved by the person or persons with the authority to make such a plan effective and the likelihood is remote that the execution of the plan will be blocked by other parties or (b) a plan for liquidation is being imposed by other forces (for example, involuntary bankruptcy). If a plan for liquidation was specified in the entity's governing documents from the entity's inception (for example, limited-life entities), the entity should apply the liquidation basis of accounting only if the approved plan for liquidation differs from the plan for liquidation that was specified at the entity's inception. The amendments require financial statements prepared using the liquidation basis of accounting to present relevant information about an entity's expected resources in liquidation by measuring and presenting assets at the amount of the expected cash proceeds from liquidation. The entity should include in its presentation of assets any items it had not previously recognized under U.S. GAAP but that it expects to either sell in liquidation or use in settling liabilities (for example, trademarks). The amendments are effective for entities that determine liquidation is imminent during annual reporting periods beginning after December 15, 2013, and interim reporting periods therein. Entities should apply the requirements prospectively from the day that liquidation becomes imminent. Early adoption is permitted. Entities that use the liquidation basis of accounting as of the effective date in accordance with other Topics (for example, terminating employee benefit plans) are not required to apply the amendments. Instead, those entities should continue to apply the guidance in those other Topics until they have completed liquidation.

NOTE 2 INVENTORIES:

Inventories are stated at the lower of cost or market. Cost is determined using the first-in, first-out method. As of March 31, 2013 and March 31, 2012, inventories consisted of the following:

Edgar Filing: EMERSON RADIO CORP - Form 10-K

	March 31, 2013	March 31, 2012
	(In thousands)	
Finished goods	\$ 3,658	\$ 11,347
Less inventory allowances	(204)	(78)
	\$ 3,454	\$ 11,269

Table of Contents**NOTE 3 RELATED PARTY TRANSACTIONS:**

From time to time, Emerson engages in business transactions with its controlling shareholder, The Grande Holdings Limited (Provisional Liquidators Appointed) (Grande), and one or more of Grande s direct and indirect subsidiaries. Set forth below is a summary of such transactions.

Controlling Shareholder

The Grande Holdings Limited (Provisional Liquidators Appointed) (Grande), a Bermuda corporation, has, together with S&T International Distribution Limited (S&T), a subsidiary of Grande, and Grande N.A.K.S. Ltd., a subsidiary of Grande (together with Grande, the Reporting Persons), filed, on April 29, 2013, a Schedule 13D/A with the Securities and Exchange Commission (SEC) stating that, as of the filing date, the Reporting Persons had the shared power to vote and direct the disposition of 15,243,283 shares, or approximately 56.2%, of the outstanding common stock of Emerson which, pursuant to an agreement between S&T and Deutsche Bank AG (Deutsche Bank) on March 26, 2013, are no longer subject to the rights granted to Deutsche Bank pursuant to a security agreement entered into between S&T and Deutsche Bank on January 20, 2010.

On April 10, 2013, Deutsche Bank filed a Form 4 with the SEC disclosing the redemption and release, as of April 2, 2013, of 3,380,079 shares of common stock (the Remaining Pledged Shares) of Emerson to S&T, Emerson s largest shareholder. On May 9, 2013, a Schedule 13G was filed with the SEC by Deutsche Bank AG stating that it had no voting or dispositive power over any of the outstanding common stock of Emerson. As a result, Deutsche Bank no longer claims beneficial ownership of any of the Remaining Pledged Shares. Furthermore, because S&T has regained control of a majority of the outstanding shares of common stock of Emerson, Emerson is once again a Controlled company, as defined in Section 801(a) of the NYSE MKT Rules.

On May 31, 2011, upon application of a major creditor, the High Court of Hong Kong appointed Fok Hei Yu (who is also known by the anglicized name Vincent Fok), a current director of the Company, and Roderick John Sutton, both of FTI Consulting (Hong Kong) Limited (FTI), as Joint and Several Provisional Liquidators over Grande. Accordingly, as of May 31, 2011, the directors of Grande no longer have the ability to exercise control over Grande or the power to direct the voting and disposition of the 15,243,283 shares beneficially owned by Grande. Instead, Mr. Fok, as a Provisional Liquidator over Grande, has such power (see Item 1A Risk Factors Business Related Risks Uncertain Impact of Appointment of Provisional Liquidators for Grande, Emerson s Controlling Shareholder). In addition, on March 20, 2013, the Provisional Liquidators informed Emerson that they are obligated to liquidate the 15,243,283 shares beneficially owned by Grande. The Company can make no assurances regarding whether or to what extent such shares will be liquidated or retained by Grande, the timing, prices or amounts of any sales of shares or the impact, if any, on the Company, its other shareholders or the trading price of its common stock of any actual or anticipated dispositions of shares by the Provisional Liquidators.

Related Party Transactions**Rented Office Space in Hong Kong**

The Company is billed for service charges from Brighton Marketing Limited, a subsidiary of Grande, in connection with the Company s rented office space in Hong Kong. These charges totaled approximately \$5,000 for the twelve month period ended March 31, 2013 and approximately \$31,000 for the twelve month period ended March 31, 2012. Emerson owed Brighton Marketing Limited nil at both March 31, 2013 and March 31, 2012 pertaining to these charges.

During the twelve months ended March 31, 2013 and the twelve months ended March 31, 2012, the Company was also billed for service charges from The Grande Properties Management Limited, a related party to Christopher Ho, in connection with the Company s rented office space in Hong Kong, in the amount of approximately \$41,000 and approximately \$32,000, respectively. During the twelve months ended March 31, 2012, the Company was billed for service charges from Asia Manufacturing Services Limited (formerly known as The Grande Group (Hong Kong) Ltd., a related party to Christopher Ho, in connection with the Company s rented office space in Hong Kong, in the amount of approximately \$19,000. The Company owed nil to The Grande Properties Management Limited related to these charges at both March 31, 2013 and March 31, 2012, and the Company owed approximately \$1,000 to Asia Manufacturing Services Limited related to these charges at March 31, 2012.

Beginning July 3, 2012, the Company entered into a rental agreement with Lafe Strategic Services Limited (Lafe), which is a related party to Christopher Ho, whereby the Company is leasing out excess space within its rented office space in Hong Kong to Lafe. The rental agreement is on a month-by-month basis, cancellable by either the Company or Lafe on one month s written notice. During the twelve months ended March 31, 2013, the Company earned rental income of approximately \$27,000 from this arrangement. At March 31, 2013, Lafe owed Emerson

Edgar Filing: EMERSON RADIO CORP - Form 10-K

nil in rental payable from this arrangement, and Emerson owed Lafe an amount of approximately \$6,000 for a security deposit paid to the Company by Lafe at the inception of the agreement.

Table of Contents

Consulting Services Provided to Emerson by one of its Directors

During the twelve months ended March 31, 2013 and March 31, 2012, Emerson paid consulting fees of approximately \$110,000 and \$60,000, respectively, to Mr. Eduard Will, a director of Emerson, for work performed by Mr. Will related to strategy for the Kayne Litigation as more fully described in Note 9 Legal Proceedings Kayne Litigation and merger and acquisition research. In addition, during the twelve months ended March 31, 2013 and March 31, 2012, Emerson paid expense reimbursements and advances, in the aggregate, of approximately \$23,000 and approximately \$21,000, respectively, to Mr. Will, related to this consulting work and his service as a director of Emerson.

At March 31, 2013 and March 31, 2012, respectively, the Company owed Mr. Will nil and approximately \$10,000, respectively, related to these activities.

Dividend-Related Issues with S&T

On March 2, 2010, the Board declared an extraordinary dividend of \$1.10 per common share, which was paid on March 24, 2010. In connection with the Company's determination as to the taxability of the dividend, the Board relied upon information and research provided to it by the Company's tax advisors and, in reliance on the stock-for-debt exception in the Internal Revenue Code Sections 108(e)(8) and (e)(10), concluded that 4.9% of such dividend paid was taxable to the recipients.

In August 2012, the Company received a Form 886-A from the IRS which challenges the Company's conclusions and determines that the Company does not qualify for the above-referenced exception. Accordingly, the IRS has concluded that 100% of the dividend paid was taxable to the recipients. The Company is defending its position and calculations and is contesting the position asserted by the IRS. The Company prepared and, on October 25, 2012, delivered its rebuttal to the IRS contesting the IRS determination. There can be no assurance that the Company will be successful in defending its position.

In the event that the Company is not successful in establishing with the IRS that the Company calculations were correct, then the shareholders who received the dividend likely will be subject to and liable for an assessment of additional taxes due. Moreover, the Company may be contingently liable for taxes due by certain of its shareholders resulting from the dividend paid by the Company.

Initially, the Company withheld from the dividend paid to foreign shareholders an amount equal to the tax liability associated with such dividend. On April 7, 2010, upon a request made to the Company by its foreign controlling shareholder, S&T, the Company entered into an agreement with S&T (the Agreement), whereby the Company returned to S&T on April 7, 2010 that portion of the funds withheld for taxes from the dividend paid on March 24, 2010 to S&T, which the Company believes is not subject to U.S. tax based on the Company's good-faith estimate of its accumulated earnings and profits. The Agreement includes provisions pursuant to which S&T agreed to indemnify the Company for any liability imposed on it as a result of the Company's agreement not to withhold such funds for S&T's possible tax liability and a pledge of stock as collateral. The Company continues to assert that such dividend is largely not subject to U.S. tax based on the Company's good-faith estimate of its accumulated earnings and profits. In addition, the Company also continues to assert that this transaction results in an off-balance sheet arrangement and a possible contingent tax liability of the Company, which, if recognized, would be offset in part by the calling by the Company on S&T of the indemnification provisions of the Agreement.

Per the terms of the Agreement, Emerson invoiced S&T in June 2010 approximately \$42,000 for reimbursement of legal fees incurred by Emerson with regard to the Agreement and approximately \$33,000 as a transaction fee for having entered into the Agreement. In January 2011, Emerson agreed, upon the request of S&T, to waive approximately \$5,000 of the legal charges that had been invoiced to S&T in June 2010. S&T paid the full amount owed to Emerson of approximately \$70,000 in February 2011.

In February 2011, upon the request of S&T to the Company, the Company and S&T agreed that the collateral pledged as a part of the Agreement would no longer be required and such collateral was returned by the Company to S&T in March 2011 and the Agreement was amended and restated to remove the collateral requirement but retain the indemnification provisions. The Agreement, as amended (the Amended Agreement), remains in effect as of today. In the event that (i) the Company is not successful in establishing with the IRS that the Company's calculations were correct and (ii) S&T is unable or unwilling to pay the additional taxes due or indemnify the Company under the terms of the Amended Agreement, the Company may be liable to pay such additional taxes which would have a material adverse effect on the Company's financial condition and results of operations.

Other

During each of the twelve months ended March 31, 2013 and March 31, 2012, Emerson invoiced Vigers Appraisal & Consulting Ltd. (Vigers), a related party of Christopher Ho, approximately \$4,000 for usage of telephone and data lines maintained by Emerson. Vigers owed Emerson

approximately \$1,000 at both March 31, 2013 and March 31, 2012 related to this activity.

Table of Contents**NOTE 4 PROPERTY, PLANT, AND EQUIPMENT:**

As of March 31, 2013 and 2012, property, plant, and equipment is comprised of the following:

	2013	2012
	(In thousands)	
Computer equipment and software	322	234
Furniture and fixtures	214	267
Machinery and equipment	679	679
Leasehold improvements	8	8
	1,223	1,188
Less accumulated depreciation and amortization	(965)	(928)
	\$ 258	\$ 260

Depreciation of property, plant, and equipment amounted to approximately \$106,000 and \$276,000 for the twelve months ended March 31, 2013 and 2012, respectively. During fiscal 2013, the Company disposed of property, plant and equipment with gross book values totaling approximately \$20,000. The Company recognized a total net loss of approximately \$2,000 on these disposals in fiscal 2013. During fiscal 2012, the Company disposed of property, plant and equipment with gross book values totaling approximately \$2.7 million which were comprised mainly of the Company's headquarters office building and land in New Jersey and recognized a total net gain of approximately \$299,000 on these disposals in fiscal 2012.

NOTE 5 BORROWINGS:*Long-term Borrowings*

As of March 31, 2013 and 2012, long-term borrowings consisted of the following:

	2013	2012
	(In thousands)	
Capitalized lease obligations and other	\$ 73	\$ 136
Less current maturities of capitalized lease obligations	43	64
Long-term borrowings	\$ 30	\$ 72

Maturities of long-term borrowings as of March 31, 2013, by fiscal year and in the aggregate are as follows (in thousands):

2014	\$ 43
2015	30
Thereafter	
Total	73
Less current portion	43
Total long term portion	\$ 30

NOTE 6 INCOME TAXES:

Income Tax Issues Concerning Overseas Income

On April 15, 2013 and June 5, 2013, Emerson received correspondence from the IRS including a (i) Form 5701 and Form 886-A regarding Adjusted Sales Income (collectively referred to as NOPA 1) and (ii) Form 5701 and Form 886-A regarding Adjusted Subpart F-Foreign Base Company Sales Income (collectively referred to as NOPA 2).

With respect to NOPA 1, the IRS is (i) challenging the position of the Company with respect to the way the Company s controlled foreign corporation in Macao (the Macao CFC) recorded its product sales during Fiscal 2010 and Fiscal 2011 and (ii) asserting that an upward adjustment to the Company s Fiscal 2010 and Fiscal 2011 taxable income of \$4,981,520 and \$5,680,182, respectively, is required.

Table of Contents

With respect to NOPA 2, the IRS is challenging the position of the Company with respect to the fact that the Company considered the service fee paid by the Company to the Macao CFC to be non-taxable in the U.S. The IRS has taken the position that the service fee paid to the Macao CFC by the Company constitutes foreign base company sales income (FBCSI). The IRS asserts that the service fee earned by the Macao CFC in connection with its sales of products to the Company should be taxable to the Company as FBCSI. As a result, the IRS determined that an upward adjustment to the Company's Fiscal 2010 and Fiscal 2011 taxable income of \$1,553,984 and \$1,143,162, respectively, is required.

The Company has evaluated the determinations made by the IRS as set forth in each of NOPA 1 and NOPA 2 in order to decide (a) how it will proceed and (b) the potential impact on the Company's financial condition and operations. Furthermore, although NOPA 1 and NOPA 2 represent potential adjustments to Fiscal 2010 and Fiscal 2011 only, the Company believes it is likely that the IRS will take the position that the same type of adjustments should be made for each of the Company's subsequent fiscal years. The assessment and payment of such additional taxes, penalties and interest would have a material adverse effect on the Company's financial condition and results of operations.

With respect to NOPA 1, the Company is appealing the proposed adjustment with the IRS. In the event that the Company is not successful in its appeal, the Company estimates that it could be liable for a maximum in taxes, penalties and interest of approximately \$13.3 million pertaining to NOPA 1, in the aggregate, for its Fiscal 2010, Fiscal 2011, Fiscal 2012 and Fiscal 2013 periods. However, because the Company's current assessment is that its appeal of NOPA 1 is more likely than not to be successful, the Company has not recorded any liability to its March 31, 2013 balance sheet related to NOPA 1.

With respect to NOPA 2, the Company agrees in principle with the IRS' position that the service fee paid to the Macao CFC by the Company would be treated as FBCSI and taxable to the Company but the Company does not agree with the adjustment to the Company's taxable income as calculated by the IRS. However, the Company has estimated as approximately \$1.1 million the amount of taxes, penalties and interest for which it would be liable for its Fiscal 2010, Fiscal 2011, Fiscal 2012 and Fiscal 2013 periods using the adjustments to taxable income as proposed by the IRS, and recorded such amount as a liability to its March 31, 2013 balance sheet.

The Company's provision for income taxes for Fiscal 2013 and Fiscal 2012 were as follows:

	2013	2012
	(In thousands)	
Current:		
Federal	\$ 1,353	\$ 266
Foreign, state and other	215	579
Prior year federal and state with penalty & interest	881	234
Deferred:		
Federal	947	1089
Foreign, state and other	270	308
Provision for income taxes	\$ 3,666	\$ 2,476

The Company files a consolidated federal return and certain state and local income tax returns.

The difference between the effective rate reflected in the provision for income taxes and the amounts determined by applying the statutory federal rate of 34% to earnings before income taxes for Fiscal March 2013 and Fiscal 2012 is analyzed below:

	2013	2012
	(In thousands)	
Statutory provision	\$ 3,283	\$ 4,458
Foreign subsidiary	(2,626)	(1,677)
State taxes	366	736
Permanent differences	716	6
Prior year taxes	897	34
True up AMT Credit	898	
True up to prior year taxes	56	

Edgar Filing: EMERSON RADIO CORP - Form 10-K

Valuation allowance		(1,081)
Other, net	76	
Total income tax	\$ 3,666	\$ 2,476

Table of Contents

As of March 31, 2013 and March 31, 2012, the significant components of the Company's deferred tax assets and liabilities were as follows:

	2013	2012
	(In thousands)	
Deferred tax assets:		
Current:		
Accounts receivable reserves	\$ 881	\$ 1,445
Inventory reserves	401	368
Accruals	237	214
Stock warrants	166	166
Non-current:		
Property, plant, and equipment	1,169	699
Net operating loss and credit carryforwards	107	1,235
Stock compensation	79	79
Gross deferred tax assets	3,040	4,206
Valuation allowances	(234)	(234)
Total deferred tax assets	2,806	3,972
Deferred tax liabilities:		
Non-current:		
Capital lease expense	194	177
Total Deferred Tax Liabilities	194	177
Net deferred tax assets	\$ 2,612	\$ 3,795

The Company has no U.S. federal net operating loss carryforwards (NOLs) as of March 31, 2013.

The amounts of state NOLs available by year as of March 31, 2013 are as follows (in millions \$):

Loss Year (Fiscal)	Included in DTA	Expiration Year (Fiscal)
2008	1.3	2018

The tax benefits related to these state net operating loss carryforwards and future deductible temporary differences are recorded to the extent management believes it is more likely than not that such benefits will be realized.

Income of foreign subsidiaries before taxes was \$7,787,000 and \$4,908,000 for the years ended March 31, 2013 and 2012, respectively.

No provision was made for U.S. or additional foreign taxes on undistributed earnings of foreign subsidiaries. Such earnings have been and will be reinvested but could become subject to additional tax if they were remitted as dividends, or were loaned to the Company or a domestic affiliate, or if the Company should sell its stock in the foreign subsidiaries. It is not practicable to determine the amount of additional tax, if any, that might be payable on undistributed foreign earnings.

A reconciliation of the Company's changes in uncertain tax positions from April 1, 2012 to March 31, 2013 is as follows:

Total amount of unrecognized tax benefits as of April 1, 2012	In 000 s \$ 121
---	--------------------

Edgar Filing: EMERSON RADIO CORP - Form 10-K

Gross increases in unrecognized tax benefits as a result of tax positions taken during a prior period	
Gross decreases in unrecognized tax benefits as a result of tax positions taken during a prior period	
Gross increases in unrecognized tax benefits as a result of tax positions taken during the current period	
Gross decreases in unrecognized tax benefits as a result of tax positions taken during the current period	
Decreases in unrecognized tax benefits relating to settlements with taxing authorities	
Reductions to unrecognized tax benefits as a result of lapse of statute of limitations	
Total amount of unrecognized tax benefits as of March 31, 2013	\$ 121

The effective tax rate on the Company's income before income taxes for fiscal 2013 differs from the federal statutory rate primarily as a result of difference in tax rate between U.S. and foreign jurisdictions, state income taxes, and change in net operating loss carryforwards. The effective tax rate on the Company's income before income taxes for fiscal 2012 differs from the federal statutory rate primarily as a result of difference in tax rate between U.S. and foreign jurisdictions, state income taxes and change in net operating loss carryforwards.

Table of Contents

The Company is subject to examination and assessment by tax authorities in numerous jurisdictions. A summary of the Company's open tax years is as follows as of March 31, 2013:

Jurisdiction	Open Tax Years
U.S. Federal	2009-2012
U.S. States	2008-2012
Foreign	2006-2012

Based on the outcome of tax examinations or due to the expiration of statutes of limitations, it is reasonably possible that the unrecognized tax benefits related to uncertain tax positions taken in previously filed returns may be different from the liabilities that have been recorded for these unrecognized tax benefits. As a result, the Company may be subject to additional tax expense.

NOTE 7 COMMITMENTS AND CONTINGENCIES:**Leases:**

The Company leases warehouse and office space with annual commitments as follows (in thousands):

Fiscal Years	Amount	Rental Commitments	
		Affiliate	Non-Affiliate
2014	672		672
2015	231		231
2016	111		111
2017	25		25
Thereafter			
Total	\$ 1,039	\$	\$ 1,039

Rent expense resulting from leases with non-affiliated companies aggregated \$1,151,000 and \$1,369,000, respectively, for fiscal 2013 and 2012.

Letters of Credit:

The Company utilizes the services of one of its banks to issue secured letters of credit on behalf of the Company, as needed, on a 100% cash collateralized basis. At March 31, 2013 and March 31, 2012, the Company had approximately \$0.1 million and \$0.2 million of letters of credit outstanding.

Capital Expenditure and Other Commitments:

As of March 31, 2013, there were no capital expenditure or other commitments other than the normal purchase orders used to secure product.

Employee Benefit Plan:

The Company currently sponsors a defined contribution 401(k) retirement plan which is subject to the provisions of the Employee Retirement Income Security Act. The Company matches a percentage of the participants' contributions up to a specified amount. These contributions to the plan for fiscal 2013 and 2012 were \$65,000 and \$64,000, respectively, and were charged against earnings for the periods presented.

Table of Contents**NOTE 8 STOCK BASED COMPENSATION:**

In 2004, the Company adopted the 2004 Employee Stock Options Plan. The provisions for exercise price, term and vesting schedule are, for the most part, the same as the previous Incentive Stock Option Plan. The maximum aggregate number of shares of common stock available pursuant to the Program is 2,500,000 shares.

There were no transactions during fiscal 2013 or fiscal 2012, and as of March 31, 2013, there were no options outstanding. At March 31, 2013, 2012 and 2011, the weighted average exercise price of exercisable options under the Program was nil.

In 2004, the Company's Board of Directors, and the stockholders subsequently approved the 2004 Non-Employee Director Stock Option Plan, the provisions for exercise price, term and vesting schedule being, for the most part, the same as the 1994 Non-Employee Director Stock Option Plan. The maximum number of shares of Common Stock available under such plan was 250,000 shares. In December 2006, an additional listing application was approved by the American Stock Exchange permitting the issuance of up to 500,000 shares pursuant to the 2004 plan.

A summary of transactions under the plan for the two years ended March 31, 2013 is as follows:

		Number of Options	Weighted Average Exercise Price
Outstanding	April 1, 2011	50,000	\$ 3.13
Outstanding	March 31, 2012	50,000	\$ 3.13
Outstanding	March 31, 2013	50,000	\$ 3.13
Exercisable at March 31, 2013		50,000	\$ 3.13

The following table provides additional information as to the options outstanding under the Non-Employee Director Stock Option Plan as of March 31, 2013:

Range of Exercise Prices	Options Outstanding			Options Exercisable	
	Amount Outstanding	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Amount Exercisable	Weighted Average Exercise Price
\$3.07	25,000	2.8	\$ 3.07	25,000	\$ 3.07
\$3.19	25,000	3.6	3.19	25,000	3.19
	50,000	3.2	\$ 3.13	50,000	\$ 3.13

There were no options granted during the fiscal years ending March 31, 2013 or 2012. As of March 31, 2013, there were a total of 50,000 options outstanding with exercise prices ranging from \$3.07 per share to \$3.19 per share, all of which were fully vested. The weighted average exercise price of exercisable options under the Non-Employee Director Stock Option Plan was \$3.13 for both March 31, 2013 and 2012.

NOTE 9 SHAREHOLDERS EQUITY:**Common Shares:**

Authorized common shares total 75,000,000 shares of common shares, par value \$0.01 per share, of which, 27,129,832 were issued and outstanding as of March 31, 2013 and 2012. Shares held in treasury at March 31, 2013 and 2012 were 25,835,965.

Common Stock Repurchase Program:

Edgar Filing: EMERSON RADIO CORP - Form 10-K

In September 2003, the Company's Board authorized a share repurchase program for 2,000,000 shares. No shares were repurchased in fiscal 2013 or fiscal 2012. As of March 31, 2013, 732,377 shares remain available for repurchase under this program.

Series A Preferred Stock:

The Company has issued and outstanding 3,677 shares of Series A Preferred Stock, (Preferred Stock) \$.01 par value, with a face value of \$3,677,000, which had no determinable market value as of March 31, 2013. Effective March 31, 2002, the previously existing conversion feature of the Preferred Stock expired. The Series A convertible preferred stock is non-voting, has no dividend preferences and has not been convertible since March 31, 2002; however, it retains a liquidation preference.

Table of Contents**NOTE 10 SHORT TERM INVESTMENTS:**

At March 31, 2013 and March 31, 2012, the Company held short-term investments totaling \$45.2 million and nil, respectively. At March 31, 2013, these investments were comprised of bank certificates of deposit with maturities in June and August 2013.

NOTE 11 NET EARNINGS PER SHARE:

The following table sets forth the computation of basic and diluted earnings per share for the years ended March 31, 2013 and March 31, 2012:

	2013	2012
	(In thousands, except per share data)	
Numerator:		
Net income for basic and diluted earnings per share	\$ 5,999	\$ 10,634
Denominator:		
Denominator for basic earnings per share weighted average shares	27,130	27,130
Effect of dilutive securities on denominator:		
Options		
Denominator for diluted earnings per share weighted average shares and assumed conversions	27,130	27,130
Net income per share:		
Basic and diluted loss per share	\$.22	\$.39

For the year ended March 31, 2013, 50,000 shares attributable to outstanding stock options were excluded from the calculation of diluted earnings per share because the exercise price of the options and warrants exceeded the average price of the common shares, and therefore their inclusion would have been anti-dilutive.

Table of Contents**NOTE 12 LICENSE AGREEMENTS:**

The Company is party to numerous license agreements that allow licensees to use its trademarks for the manufacture and/or the sale of consumer electronics and other products and are referred to as outward licenses. These license agreements (i) allow the licensee to use the Company's trademarks for a specific product category, or for sale within specific geographic areas, or for sales to a specific customer base, or any combination of the above, or any other category that might be defined in the license agreement and (ii) may be subject to renewal at the initial expiration of the agreements and are governed by the laws of the United States.

NOTE 13 LEGAL PROCEEDINGS:

Kayne Litigation. On July 7, 2011, the Company was served with an amended complaint (the Complaint) filed in the United States District Court for the Central District of California alleging, among other things, that the Company, certain of its present and former directors and other entities or individuals now or previously associated with Grande, intentionally interfered with the ability of the plaintiffs to collect on a judgment (now approximately \$47 million) they had against Grande by engaging in transactions (such as the dividend paid to all shareholders in March 2010) which transferred assets out of the United States. The Complaint also asserts claims under the civil RICO statute and for alter ego liability. In the Company's opinion, the claims appear to be devoid of merit. Accordingly, on September 27, 2011, Emerson moved to dismiss the action for failure to state a claim. On or about February 27, 2012, the Court dismissed the intentional interference claim and portions of the Civil RICO claim with leave to re-plead, but denied the motion to dismiss the alter ego claim. On March 19, 2012, the plaintiffs filed a Second Amended Complaint setting forth the same claims as the Complaint. On April 20, 2012, the Company moved to dismiss the re-pleaded intentional interference and RICO claims, and oral arguments on this motion were held on June 18, 2012. On September 6, 2012, the Court dismissed the RICO claim, but granted the plaintiffs leave to re-plead. On September 17, 2012, the plaintiffs filed a Third Amended Complaint setting forth the same claims as the Complaint. The Company's response to the Third Amended Complaint was due and filed on October 4, 2012, which joined in a co-defendants' motion to dismiss the alter ego claim and the RICO claim. The Court heard oral argument on December 17, 2012. On May 9, 2013, the Court granted, in part, the motion to dismiss and dismissed the RICO claim with prejudice. On May 23, 2013, Emerson filed an Answer in which it denied the allegations of the Third Amended Complaint. Discovery, which included the exchange of thousands of documents and numerous depositions of fact and expert witnesses, is now complete. On June 24, 2013, Emerson, and the other parties moved for summary judgment seeking dismissal of the remaining two claims. The oral argument for that motion is currently scheduled for July 25, 2013. In the event the motion for summary judgment is denied, Emerson will continue to defend the action vigorously. This matter is scheduled for trial on October 29, 2013.

Other. Except for the litigation matter described above, the Company is not currently a party to any legal proceedings other than litigation matters, in most cases involving ordinary and routine claims incidental to our business. Management cannot estimate with certainty the Company's ultimate legal and financial liability with respect to such pending litigation matters. However, management believes, based on our examination of such matters, that the Company's ultimate liability will not have a material adverse effect on the Company's financial position, results of operations or cash flows.

NOTE 14 GEOGRAPHIC INFORMATION:

Net revenues and identifiable assets of the Company for the fiscal years ended March 31, 2013 and March 31, 2012 are summarized below by geographic area (in thousands). Net revenues are attributed to geographic area based on location of customer.

	Year Ended March 31, 2013		
	U.S.	Foreign	Consolidated
Net third party revenue	\$ 128,396	\$	\$ 128,396
Long-lived assets	\$ 23,458	\$ 12,731	\$ 36,189
	Year Ended March 31, 2012		
	U.S.	Foreign	Consolidated
Net third party revenue	\$ 163,251	\$	\$ 163,251
Long-lived assets	\$ 67,127	\$ 7,614	\$ 74,741

NOTE 15 TRADEMARKS

During fiscal 2013, upon completion of an analysis which showed the absence of future expected cash flows, the Company determined that the value of one of its non-strategic trademarks was fully impaired. Thus, the Company recorded an impairment charge of \$1.3 million in September 2012 to write off this trademark. The Company does not anticipate any future material adverse financial impacts arising from this impairment.

Table of Contents

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) that are designed to ensure that information required to be disclosed in its Exchange Act reports are recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including the Company's principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. Due to the inherent limitations of control systems, not all misstatements may be detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons; by collusion of two or more people, or by management override of the control. The Company's controls and procedures can only provide reasonable, not absolute, assurance that the above objectives have been met.

As a result of its internal assessment, the Company's management concluded that disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of the end of the period covered by this Annual Report on Form 10-K, are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, to ensure that such information is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to management, including the Company's principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Under the supervision and with the participation of management, including the Company's principal executive officer and principal financial officer, management conducted an evaluation of the effectiveness of the Company's internal control over financial reporting based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on its evaluation under this framework, management concluded that the Company's internal control over financial reporting was effective.

This Annual Report on Form 10-K does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this Annual Report on Form 10-K.

Changes in Internal Control over Financial Reporting

During the fiscal quarter ended March 31, 2013, there were no changes in the Company's internal control that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
