Investments,

Selovo Investments Limited, incorporated in the British Virgin Islands, or Selovo
Investments,

China Property Holdings Limited, incorporated in Cayman Islands,

China Property Holdings (BVI) Limited, incorporated in the British Virgin Islands,

Hong Kong Property Network Limited, incorporated in Hong Kong,

Sou You Tian Xia Holdings Limited, incorporated in Cayman Islands,

Sou You Tian Xia Holdings (BVI) Limited, incorporated in the British Virgin Islands,

Sou You Tian Xia Holdings (HK) Limited, incorporated in Hong Kong,

Best Scholar Holdings Limited, incorporated in the British Virgin Islands,

Best Scholar Holdings (Delaware) Limited, incorporated in Delaware,

Best Work Holdings (New York) LLC, incorporated in New York, and

Wall Street Index Research Center LLC, incorporated in New York; and (iii) in the context of describing our operations and consolidated financial statements, our 16 consolidated controlled entities in China (also referred to as the PRC Domestic Entities and the PRC Domestic Entities subsidiaries in our consolidated financial statements and related notes included elsewhere in this annual report) as follows:

Beijing China Index Information Co., Ltd., or Beijing China Index,

Beijing Century Jia TianXia Technology Development Co., Ltd., or Beijing JTX Technology,

Beijing Jia TianXia Advertising Co., Ltd., or Beijing Advertising,

Beijing Li Tian Rong Ze Technology Development Co., Ltd., or Beijing Li Tian Rong Ze,

Beijing SouFun Internet Information Service Co., Ltd., or Beijing Internet,

Beijing SouFun Science and Technology Development Co., Ltd., or Beijing Technology,

Shanghai China Index Consultancy Co., Ltd., or Shanghai China Index,

Shanghai Jia Biao Tang Real Estate Broking Co., Ltd., or Shanghai JBT,

Shanghai SouFun Advertising Co., Ltd., or Shanghai Advertising,

Tianjin Jia Tian Xia Advertising Co., Ltd., or Tianjin JTX Advertising,

Beijing Yi Ran Ju Ke Technology Development Co., Ltd., or Beijing Yi Ran Ju Ke,

Beijing Li Tian Rong Ze Wan Jia Technology Development Co., Ltd., or Beijing Li Tian Rong Ze Wan Jia,

Shanghai BaoAn Property Management Co., Ltd., or Shanghai BaoAn Property,

Wuhan SouFun Yi Ran Ju Ke Real Estate Broking Co., Ltd., or Wuhan SouFun Yi Ran Ju Ke,

Edgar Filing: SouFun Holdings Ltd - Form 20-F

Hangzhou Ji Ju Real Estate Broking Co., Ltd., or Hangzhou Ji Ju Real Estate Broking, and

Beijing Tian Xia Dai Information Service Co., Ltd., or Beijing Tian Xia Dai Information Service;

ADSs refers to our American depositary shares, with five ADSs representing one Class A ordinary share, and ADRs refers to American depositary receipts, which, if issued, evidence our ADSs;

China or PRC or Chinese refers to the People's Republic of China, excluding, for the purpose of this annual report only, the Hong Kong Special Administrative Region, the Macau Special Administrative Region and Taiwan;

Hong Kong dollars or HK\$ refers to the legal currency of the Hong Kong Special Administrative Region;

MIIT refers to the Ministry of Industry and Information Technology and its competent local branches;

MOFCOM refers to the Ministry of Commerce and its competent local branches;

Notes or notes refers to our \$400 million aggregate principal amount of convertible senior notes due 2018;

RMB or Renminbi refers to the legal currency of China;

SAFE refers to the State Administration of Foreign Exchange and its competent local branches;

SAIC refers to the State Administration for Industry and Commerce and its competent local branches;

SAT refers to the State Administration of Taxation and its competent local branches;

shares or ordinary shares refers to our ordinary shares, including both Class A ordinary shares and Class B ordinary shares;

sq.m. refers to square meter(s); and

U.S. dollars, US\$ or \$ refers to the legal currency of the United States of America.

This annual report on Form 20-F includes our audited consolidated statements of comprehensive income for 2011, 2012 and 2013, our audited consolidated balance sheets as of December 31, 2012 and 2013, and our audited consolidated statements of cash flows for 2011, 2012 and 2013. On April 7, 2014, our ADSs ratio changed from one ADS for one Class A ordinary share to five ADSs for each Class A ordinary share. The data throughout this Form 20-F has been revised to reflect the ratio change as if it had occurred prior to the historical periods presented herein.

FORWARD LOOKING STATEMENTS

This Annual Report on Form 20-F (this Form 20-F) contains forward-looking statements that involve risks and uncertainties. All statements other than statements of historical facts are forward-looking statements. These forward-looking statements are made under the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from those expressed or implied by the forward-looking statements.

You can identify these forward-looking statements by words or phrases such as may, will, expect, is expected to, anticipate, aim, estimate, intend, plan, believe, are likely to or other similar expressions. We have based the forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements include, but are not limited to:

our anticipated growth strategies;

our future business development, results of operations and financial condition;

expected changes in our revenues and certain cost or expense items;

our ability to attract clients and further enhance our brand recognition;

trends and competition in the real estate, home furnishings and improvement sites and online advertising industries; and

PRC laws, regulations and policies relating to the real estate, home furnishings and improvement sites and online advertising industries and use the Internet to conduct these activities.

You should read this Form 20-F and the documents that we refer to in this Form 20-F thoroughly and with the understanding that our actual future results may be materially different from and worse than what we expect. We qualify all of our forward-looking statements by these cautionary statements. Other sections of this Form 20-F, including the section titled Risk factors beginning on page 10, include additional factors which could adversely impact our business and financial performance. Moreover, we operate in an evolving environment. New risk factors and uncertainties emerge from time to time and it is not possible for our management to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

You should not rely upon forward-looking statements as predictions of future events. Except as required by law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

MARKET AND INDUSTRY DATA

Edgar Filing: SouFun Holdings Ltd - Form 20-F

Market data and certain industry forecasts used in this Form 20-F were obtained from internal surveys, market research, publicly available information and industry publications. Industry publications generally state that the information contained therein has been obtained from sources believed to be reliable, but that the accuracy and completeness of such information is not guaranteed. Similarly, internal surveys, industry forecasts and market research, while believed to be reliable, have not been independently verified, and we make no representation as to the accuracy of such information.

-5-

WHERE YOU CAN FIND MORE INFORMATION

We are subject to periodic reporting and other informational requirements of the Securities Exchange Act of 1934, as amended (the Exchange Act), as applicable to foreign private issuers. Accordingly, we are required to file reports, including annual reports on Form 20-F, and other information with the U.S. Securities and Exchange Commission (the SEC). As a foreign private issuer, we are exempt from the rules of the Exchange Act prescribing the furnishing and content of proxy statements to shareholders, and Section 16 short swing profit reporting for our officers and directors and for holders of more than 10% of our common shares. All information filed with the SEC can be obtained over the Internet at the SEC's website at www.sec.gov or inspected and copied at the public reference facilities maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20549. You can request copies of these documents, upon payment of a duplicating fee, by writing to the SEC. Please call the SEC at 1-800-SEC-0330 or visit the SEC website for further information on the operation of the public reference rooms.

We furnish JPMorgan Chase Bank, N.A., the depositary, with our annual reports, which include a review of operations and annual audited consolidated financial statements prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP or GAAP), and all notices of shareholders' meeting and other reports and communications that are made generally available to our shareholders. The depositary makes such notices, reports and communications available to holders of ADSs and, upon our request, mails to all record holders of ADSs the information contained in any notice of a shareholders' meeting received by the depositary from us.

PART I

ITEM 1. IDENTITY OF DIRECTORS, SENIOR MANAGEMENT AND ADVISERS

Not applicable.

ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE

Not applicable.

ITEM 3. KEY INFORMATION

A. Selected Financial Data

We have derived our selected consolidated statement of comprehensive income data (except for ADS information) for 2011, 2012 and 2013 and our selected consolidated balance sheet data as of December 31, 2012 and 2013, from our audited consolidated financial statements included in this annual report. Our selected statement of comprehensive income data (except for ADS information) for 2009 and 2010 and our selected consolidated balance sheet data as of December 31, 2009, 2010 and 2011, have been derived from our audited consolidated financial statements not included in this Form 20-F. Our financial statements have been prepared in accordance with U.S. GAAP and have been audited by Ernst & Young Hua Ming LLP, an independent registered public accounting firm.

Since January 1, 2012, we have reclassified the revenues from SouFun membership services from other value-added services to e-commerce services in our consolidated statements of comprehensive income. The reclassification provides better operating information and is in line with the current development of our business. The change in presentation has been applied retrospectively to all periods presented.

You should read the following information in conjunction with our audited consolidated financial statements and related notes and Item 5. Operating and Financial Review and Prospects in this Form 20-F. Our historical operating results presented below are not necessarily indicative of the results to be expected for any future fiscal period.

	Year Ended December 31,				
	2009	2010	2011	2012	2013

Total SouFun shareholder's equity	91,908	186,879	443,467

Exchange Rate Information

Our business is conducted in China and substantially all of our revenues and expenses are denominated in Renminbi. This annual report contains translations of Renminbi amounts into U.S. dollars at specified rates solely for the convenience of the readers. The exchange rates of Renminbi into U.S. dollars are based on the exchange rate as set forth in the H.10 statistical release of the Federal Reserve Board. We make no representation that the Renminbi or U.S. dollar amounts referred to in this annual report could have been or could be converted into U.S. dollars or Renminbi, as the case may be, at any particular rate or at all. As of April 25, 2014, the noon buying rate was RMB6.2534 to US\$1.00.

The following table sets forth information concerning exchange rates between the Renminbi and the U.S. dollars for the periods indicated. These rates are provided solely for your convenience and are not necessarily the exchange rates that we used in this annual report or will use in the preparation of our periodic reports or any other information to be provided to you.

	Period	Noon Buying Rate		
		End	Average⁽¹⁾	Low
		(RMB per US\$1.00)		
2009	6.8259	6.8295	6.8470	6.8176
2010	6.6000	6.7696	6.8330	6.6000
2011	6.2939	6.4475	6.6364	6.2939
2012	6.2301	6.2990	6.3879	6.2221
2013	6.0537	6.1478	6.2438	6.0537
October	6.0943	6.1032	6.1209	6.0815

(1)

Annual averages are calculated by using the average of the exchange rates on the last day of each month during the relevant year. Monthly averages are calculated by using the average of the daily rates during the relevant month.

B. Capitalization and Indebtedness

Not applicable.

C. Reasons for the Offer and Use of Proceeds

Not applicable.

D. Risk Factors

An investment in our ADSs or notes involves risks. You should carefully consider the risks described below, as well as the other information included or incorporated by reference in this Form 20-F, before making an investment decision. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The market or trading price of our ADSs or notes could decline due to any of these risks, and you may lose all or part of your investment. In addition, the risks discussed below also include forward-looking statements and our actual results may differ substantially from those discussed in these forward-looking statements. You should also review the section of this Form 20-F captioned Forward-Looking Statements. Please note that additional risks not presently known to us, that we currently deem immaterial or that we have not anticipated may also impair our business and operations.

Risks related to our business

Our business depends substantially on revenues from our marketing services, and participants in the real estate and home-related sectors may choose other advertising media over online advertising or other online advertisers, which could lead to a decline in our revenues.

All of our marketing service revenues are generated through our websites, and we expect to continue to derive a significant portion of our revenues from marketing services. Marketing services represent our largest source of revenues, accounting for 71.7%, 58.1% and 43.7% of our revenues in 2011, 2012 and 2013, respectively. In particular, our new home business accounted for 85.4%, 89.2% and 92.9% of our marketing service revenues in 2011, 2012 and 2013, respectively. Our new home business primarily consists of sales of marketing services to residential property developers and their sales agents who are in the process of promoting newly developed properties for sale.

Although the online marketing industry in China has been growing, advertisers in the real estate sector in China have typically relied on traditional forms of advertising media, such as newspapers, magazines and outdoor advertising. If we are unable to retain and develop our base of advertising customers, including real estate developers, our business may not grow as quickly as we expect. Moreover, advertisers may not continue to do business with us if they do not perceive our marketing services to be effective or our user demographics to be desirable.

Our ability to continue to generate and maintain marketing service revenues depends on a number of factors, many of which are beyond our control, including:

the amount of user traffic on our websites, our ability to achieve user demographic characteristics that are attractive to advertisers, and our ability to demonstrate such user traffic and demographic characteristics through our website traffic tracking tools and reporting systems;

potential downward pressure on online marketing pricing due to increased competition from other online advertisers and traditional advertising media; and

widespread adoption of technologies that permit Internet users to selectively block unwanted web views, including advertisements on web pages.

If we are unable to remain competitive and provide value to our advertisers, they may stop placing advertisements with us, which would have a material adverse effect on our business, financial condition and results of operations.

Our future growth depends on our ability to continue to expand our e-commerce services business.

Revenues from e-commerce services constituted 7.0%, 23.8% and 29.5% of our total revenues for 2011, 2012 and 2013, respectively. We began to offer our paid membership services to the registered members of our SouFun cards in 2011 and our services primarily include offers to purchase properties with discounts from our partner developers and dedicated information and related services to facilitate property purchases. The business of providing SouFun membership services is still relatively new and evolving, and its growth depends on our ability to manage it effectively. Although we generally have been able to maintain contractual arrangements with third-party property developers which provide discounts to registered members of our SouFun cards on acceptable terms, there can be no assurance that we will continue to be able to do so in the future. In addition, we cannot control the accuracy of information provided by the property developers or how they treat our registered members in their transactions with them. Customer complaints or negative publicity about our SouFun membership services could diminish consumer confidence in and use of our services. If we are unable to maintain or increase the number of partner developers or property developments for which discounts on purchase price is offered, grow our member base and increase transaction volume, our business and revenue growth prospects could be materially and adversely impacted.

If we are unable to continue to obtain listings from our key customer groups, including real estate developers, agents, brokers and property owners and managers, our business, financial condition and results of operations could be materially and adversely affected.

We derive a significant portion of our revenues from our listing services. In 2011, 2012 and 2013, listing service revenues represented approximately 19.6%, 16.9% and 25.3%, respectively, of our total revenues. The success of the listing service business depends on our ability to persuade real estate developers, real estate agents, brokers and property owners and managers to list their properties on our websites. We believe having large numbers of high-quality listings from such real estate professionals attracts users to our websites, thereby enhancing our attractiveness to advertisers and other real estate market participants. However, substantially all of our listing agreements are nonexclusive. Our listing customers may stop using our listing services and may choose to use the services of one or more of our competitors or alternative means of listing, such as real estate magazines or newspapers. If owners of large numbers of property listings, such as major developers or large brokers or property owners in key real estate markets, choose not to renew their existing agreements with us, our websites could become less attractive to users. If we experience reduced user traffic on our websites, advertisers from whom we derive the largest proportion of our revenues, and other real estate market participants, may discontinue the use of or be unwilling to pay for our services. In such an event, our competitive position could be significantly weakened and our business, financial condition and results of operations could be materially and adversely affected.

Our business could be materially and adversely affected by fluctuations in, and government measures influencing, China's real estate industry.

We conduct our real estate services business primarily in China, and our business depends substantially on conditions of the PRC real estate market. In particular, our new home business, which accounted for 68.5%, 76.5% and 70.6% of our total revenues in 2011, 2012 and 2013, respectively, depends upon growth in the real estate-related industry nationwide and in specific regions in China. Demand for private residential property in China has grown rapidly in recent years, but such growth is often coupled with volatility in market conditions and fluctuation in property prices. Fluctuations of supply and demand in China's real estate market are caused by economic, social, political and other factors. To the extent fluctuations in the real estate market adversely affect the demand for real estate and home-related products and services and for real estate- and home-related advertising, demand for our products and services, as well as the level of our growth and profitability, may be materially reduced.

The real estate market in China is typically affected by changes in government policies affecting the real estate and financial markets and related areas. In the past, the PRC government has adopted various administrative measures to curb what it perceived as unsustainable growth in the real estate market, particularly when the real estate market in China experienced rapid and significant increases in home sales as well as prices. In February 2013, for example, the State Council announced certain plans to address the rapid increase in property prices in certain cities since late 2012, including raising minimum down-payments and loan rates for second home buyers in cities where prices experienced a rapid increase and enforcing a 20% capital gains tax on the sale of existing homes.

In addition to government policies aimed specifically at controlling growth in real estate markets in China, our business, financial condition and results of operations may also be negatively affected by other macroeconomic and regulatory measures. Any future policies in the following areas could cause a decline in home sales and prices, which in turn could affect the demand for our services and negatively impact our business, financial condition and results of operation:

restrictive monetary policies adopted by the PRC government, including any significant increase in interest rates;

adverse developments in the credit markets and/or mortgage financing markets resulting from PRC government policies;

policies regarding land supply;

significant increases in transaction costs as a result of changes in PRC government policies regarding real estate transaction taxes, such as the sales tax on residential property sales by individuals within five years of purchase;

adverse changes in PRC government policies regarding the acquisition and/or ownership of real estate;

adverse changes in PRC national or local government policies or practices regarding brokerage, referral or franchise business or related fees and commissions; or

other PRC government policies or regulations that burden real estate transactions or ownership.

We derive a substantial portion of our revenues from several major urban centers in China, in particular, Beijing, Shanghai, Chengdu, Chongqing, Tianjin and Shenzhen and we face market risk due to our concentration in these major urban areas.

We derive a substantial portion of our revenues from several major urban centers in China, including Beijing, Shanghai, Chengdu, Chongqing, Tianjin and Shenzhen. In 2012 and 2013, we generated revenues US\$256.3 million and US\$367.5 million from these six urban centers, respectively, representing 59.6% and 57.7%, respectively, of our total revenues. We expect these six urban centers to continue to be important regional sources of revenues in all of our revenue categories. If any of these major urban centers experience events which negatively impact the real estate industry or online advertising, such as a serious economic downturn or contraction, a natural disaster, or slower

growth due to adverse governmental policies or otherwise, demand for our services could decline significantly and our business and revenue growth prospects could be materially and adversely impacted.

We may fail to compete successfully against current or future competitors, which could significantly reduce our market share and materially and adversely affect our business, financial condition and results of operations.

We face competition from other companies in each of our primary business activities. In particular, the online real estate Internet service market in China is becoming increasingly competitive. The barriers of entry for establishing Internet-based businesses are low, thereby allowing new entrants to emerge rapidly. As the online real estate Internet service industry in China is relatively new and constantly evolving, our current or future competitors may be able to better position themselves to compete as the industry matures. We also face competition from companies in other media that offer online advertising, online listing and similar services. Any of these competitors may offer products and services that provide significant advantages over those offered by us in terms of performance, price, scope, creativity or other advantages. These products and services may achieve greater market acceptance than our service offerings, and thus weaken our brand. Increased competition in the online real estate Internet service industry in China could make it difficult for us to retain existing customers and attract new customers, and could lead to a reduction in our fees. Furthermore, our current competitors include major Internet portals in China that provide real estate Internet services, such as Sina.com and Sohu.com, which may have more established brand names, larger visitor numbers and more extensive Internet distribution channels than we do.

In addition, we have faced and may continue to face strong competition from regionally focused websites providing regional real estate listings together with localized services. Any of our current or future competitors may also receive investments from or enter into other commercial or strategic relationships with larger, well-established and well-financed companies and obtain significantly greater financial, marketing and content licensing and development resources than us. Furthermore, some of our competitors receive support from local governments, which may place us at a disadvantage when competing with them in their local markets. We cannot assure you that we will be able to compete successfully against our current or future competitors. Any failure to compete effectively in the real estate Internet services market in China would have a material adverse effect on our business, financial condition and results of operations.

Failure to maintain and enhance brand awareness for our websites could lead to loss of existing customers and qualified personnel.

We believe maintaining and enhancing our brand name as a leading real estate Internet company in China is a critical part of our strategy. In addition to promoting the SouFun brand through our direct sales force, we also intend to continue to pursue other means to enhance brand awareness, including publication of real estate research reports, event sponsorships, portal collaboration arrangements, and advertising and marketing activities. We cannot assure you that our efforts will be successful in maintaining or enhancing our brand awareness. If our brand enhancement strategy is unsuccessful, or if other brands surpass our brand in market recognition in one or more cities in which we operate, we may fail to attract new or retain existing users, customers or qualified personnel, which could materially decrease our revenues and profitability.

Unauthorized use of our intellectual property by third parties, and the expenses incurred in protecting our intellectual property rights, may materially and adversely affect our business, financial condition, results of operations, reputation and competitive advantage.

Our copyrights, trademarks, trade secrets, domain names and other intellectual property are important to our business. Unauthorized use of such intellectual property, whether owned by us or licensed to us, may materially and adversely affect our business, financial condition, results of operations, reputation and competitive advantages. We rely on intellectual property laws and contractual arrangements with our key employees and certain of our customers, collaborators and others to protect our intellectual property rights. The measures we take to protect our intellectual property rights may not be adequate and policing the unauthorized use of our intellectual property is difficult and expensive.

In addition, the validity, enforceability and scope of protection of intellectual property in Internet-related industries in China is uncertain and still evolving, and could involve substantial risks. The laws and enforcement procedures in China are not yet well developed, and do not protect intellectual property rights to the same extent as laws and enforcement procedures in the United States and other jurisdictions. Furthermore, litigation may be necessary in the future to enforce our intellectual property rights, which could result in substantial costs and diversion of our resources and have a material adverse effect on our business, financial condition and results of operations. If we are unable to adequately protect the intellectual property rights that we own or use, we may lose these rights and our business, growth prospects and profitability may suffer.

Regulation of the Internet industry in China, including censorship of information distributed over the Internet, may materially and adversely affect our business.

China has enacted laws, rules and regulations governing Internet access and the distribution of news, information or other content, as well as products and services, through the Internet. In the past, the PRC government has prohibited the distribution of information through the Internet that it deems to be in violation of applicable PRC laws, rules and regulations. In particular, under regulations promulgated by the State Council, the Ministry of Industry and Information Technology (MIIT), the General Administration of Press and Publication (formerly the State Press and Publications Administration) and the Ministry of Culture, Internet content providers and Internet publishers are prohibited from posting or displaying content over the Internet that, among other things: (i) opposes the fundamental principles of the PRC constitution; (ii) compromises state security, divulges state secrets, subverts state power or damages national unity; (iii) disseminates rumors, disturbs social order or disrupts social stability; (iv) propagates obscenity, pornography, gambling, violence, murder or fear or incites the commission of crimes; or (v) insults or slanders a third party or infringes upon the lawful right of a third party.

If any Internet content we offer through our consolidated controlled entities were deemed by the PRC government to violate any of such content restrictions, we would not be able to continue such offerings and could be subject to penalties, including confiscation of illegal revenues, fines, suspension of business and revocation of required licenses, which could have a material adverse affect on our business, financial condition and results of operations. We may also be subject to potential liability for any unlawful actions of our customers or affiliates or for content we distribute that is deemed inappropriate. It may be difficult to determine the type of content that may result in liability to us, and if we are found to be liable, we may be forced to cease operation of our websites in China.

If any of our consolidated controlled entities fails to maintain the applicable licenses and approvals held by it under the complex regulatory environment for Internet-based businesses and online advertising businesses in China, or any of our PRC subsidiaries or consolidated controlled entities fail to pass its annual government inspection or obtain renewal of its business license, our business, financial condition and results of operations would be materially and adversely affected.

The Internet and online advertising industries in China are still at a relatively early stage of development and are highly regulated by the PRC government. Various regulatory authorities of the PRC government, such as the State Council, MIIT, the State Administration for Industry & Commerce (SAIC), the General Administration of Press, Publication, Radio, Film and Television, and the Ministry of Public Security, are empowered to issue and implement regulations governing various aspects of the Internet and advertising industries. Moreover, new laws, rules and regulations may be adopted, or new interpretations of existing laws, rules and regulations may be released, to address issues that arise from time to time. As a result, substantial uncertainties exist regarding the interpretation and implementation of any current and future PRC laws, rules and regulations applicable to the Internet and online advertising industries.

Our consolidated controlled entities are required to obtain applicable licenses or approvals from various regulatory authorities in order to provide advertising and other value-added services and products. These licenses or approvals are essential to the operation of our business and are generally subject to annual review by the relevant PRC governmental authorities. For example, each of Beijing Internet, Beijing Technology, Beijing JTX Technology, Beijing China Index and Beijing Advertising currently holds an Internet content provider (ICP) license, as required under the applicable PRC laws, rules and regulations; and each of Beijing Technology, Beijing Internet, Beijing JTX Technology, Beijing China Index and Beijing Advertising currently holds an approval for operating electronic bulletin board services as required under the applicable PRC laws, rules and regulations. Beijing Advertising, Beijing Internet, Shanghai Advertising and certain other consolidated controlled entities are allowed to provide marketing services in accordance with the business scope indicated in each of their respective business licenses.

Some of our consolidated controlled entities, however, may be required to obtain additional licenses. For example, since our websites include online residential communities that allow visitors to post information, including graphics or weblinks to videos, other websites or data in microblogs or online discussion forums, on our websites for discussion with other users, the release of such information on our websites may be deemed as providing Internet publication services and therefore require Internet publication licenses. Similarly, if we or third parties post information that may be viewed as news information, the release of such information on our websites may be deemed as Internet news information services and therefore require Internet news information licenses. We, like many other similarly situated business operators, have been operating our businesses without such licenses. Certain of our relevant consolidated controlled entities have applied to the relevant government authorities for Internet publication licenses again in accordance with applicable PRC laws, rules and regulations, and pursuant to the request by the relevant governmental authorities, we are now preparing the relevant supplementary materials for such application. In addition, we are still in discussion with the relevant government authorities on our application for, and the authorities' issuance of, Internet news information service licenses.

Under the applicable PRC laws, rules and regulations, the failure to obtain and/or maintain business license, an Internet publication license and/or Internet news information service license may subject the entity to various penalties, including confiscation of revenues, imposition of fines and/or restrictions on their business operations, or the discontinuation of their operations. Although our relevant consolidated controlled entities have not received any revenues directly from Internet publication services or Internet news information services, we cannot assure you that the PRC regulatory authorities will not impose any such penalties. Any such disruption in the business operations of our consolidated controlled entities could materially and adversely affect our business, financial condition and results of operations.

Unexpected network interruptions or security breaches, including hacking or computer virus attacks, may cause delays or interruptions of service, resulting in reduced use and performance of our websites and damage our reputation and brands.

Our business depends heavily on the performance and reliability of China's Internet infrastructure, the continued accessibility of bandwidth and servers on our service providers' networks and the continuing performance, reliability and availability of our technology platform. Any failure to maintain the satisfactory performance, reliability, security and availability of our computer and hardware systems may cause significant harm to our reputation and our ability to attract and maintain customers and visitor traffic. Major risks related to our network infrastructure include:

any breakdown or system failure resulting in a sustained shutdown of our servers, including failures which may be attributable to sustained power shutdowns, or efforts to gain unauthorized access to our systems causing loss or corruption of data or malfunctions of software or hardware;

any disruption or failure in the national backbone network, which would prevent our customers and users from accessing our websites;

any damage from fire, flood, earthquake and other natural disasters; and

computer viruses, hackings and similar events.

Computer viruses and hackings may cause delays or other service interruptions and could result in significant damage to our hardware, software systems and databases, disruptions to our business activities, such as to our e-mail and other communication systems, breaches of security and inadvertent disclosure of confidential or sensitive information, inadvertent transmissions of computer viruses and interruptions of access to our websites through the use of denial-of-service or similar attacks. In addition, the inadvertent transmission of computer viruses could expose us to a material risk of loss or litigation and possible liability. All of our servers and routers, including back-up servers, are currently hosted by third-party service providers in Beijing and Shanghai and all information on our websites is backed up weekly. Any hacking, security breach or other system disruption or failure which occurs in between our weekly backup procedures could disrupt our business or cause us to lose, and be unable to recover, data such as real estate listings, contact information and other important customer information.

We also do not maintain insurance policies covering losses relating to our systems and do not have business interruption insurance. Moreover, the low coverage limits of our property insurance policies may not be adequate to compensate us for all losses, particularly with respect to any loss of business and reputation that may occur. To improve our performance and to prevent disruption of our services, we may have to make substantial investments to deploy additional servers or create one or more copies of our websites to mirror our online resources, either of which could increase our expenses and reduce our net income.

Breaches of security in connection with our websites could expose us to potential liability and harm our reputation.

Ensuring secured transmission of confidential information through public networks is essential to maintaining the confidence of our customers and users. Our existing security measures may not be adequate to protect such confidential information. In addition, computer and network systems are susceptible to breaches by computer hackers. Security breaches could expose us to litigation and potential liability for failing to secure confidential customer information, and could harm our reputation and reduce our ability to attract customers and users. Any future security

breaches, if any, may result in a material adverse effect on our business, financial condition and results of operations.

The successful operation of our business depends upon the performance and reliability of the Internet infrastructure and telecommunications networks in China.

Our business depends on the performance and reliability of the Internet infrastructure in China. Substantially all access to the Internet is maintained through state-controlled telecommunication operators under the administrative control and regulatory supervision of MIIT. In addition, the national networks in China are connected to the Internet through international gateways controlled by the PRC government. These international gateways are generally the only channels through which a domestic user can connect to the Internet. We cannot assure you that a more sophisticated Internet infrastructure will be developed in China. We may not have access to alternative networks in the event of disruptions, failures or other problems with China's Internet infrastructure. In addition, the Internet infrastructure in China may not support the demands associated with continued growth in Internet usage.

We also rely on China Telecommunications Corporation (China Telecom), and China United Netcom (Hong Kong) Ltd (China Unicom) to provide us with data communications capacity primarily through local telecommunications lines and Internet data centers to host our servers. We do not have access to alternative services in the event of disruptions, failures or other problems with the fixed telecommunications networks of China Telecom and China Unicom, or if China Telecom or China Unicom otherwise fails to provide such services. Any unscheduled service interruption could disrupt our operations, damage our reputation and result in a decrease in our revenues. Furthermore, we have no control over the costs of the services provided by China Telecom and China Unicom. If the prices that we pay for telecommunications and Internet services rise significantly, our gross margins could be significantly reduced. In addition, if Internet access fees or other charges to Internet users increase, our user traffic may decrease, which in turn may cause our revenues to decline.

You should not rely on our quarterly operating results as an indication of our future performance because our quarterly financial results are subject to fluctuations.

The real estate sector in China is characterized by seasonal fluctuations, which may cause our revenues to fluctuate significantly from quarter to quarter. The first quarter of each year generally contributes the smallest portion of our annual revenues due to reduced advertising and marketing activity of our customers in the PRC real estate industry during and around the Chinese Lunar New Year holiday, which generally occurs in January or February of each year. Furthermore, as we are substantially dependent on sales of marketing, e-commerce and listing services, our quarterly revenues and results of operations are likely to be affected by:

seasonality of the real estate market and real estate consumers' purchasing patterns;

our ability to retain existing customers and attract new customers for our marketing, e-commerce and listing services;

our ability to successfully introduce new service offerings on our platform;

the amount and timing of our operating expenses and capital expenditures;

the adoption of new, or changes to existing, governmental regulations;

a shortfall in our revenues relative to our forecasts and a decline in our operating results; and

economic conditions in general and specific to the real estate industry and to China.

These factors are difficult to discern in our historical results since our revenues have grown rapidly in recent years. As a result, you should not rely on our quarter-to-quarter comparisons of our results of operations as indicators of likely future performance.

Failure to continue to develop and expand our content, service offerings and features, and to develop or incorporate the technologies that support them, could jeopardize our competitive position.

As an Internet portal company, we participate in an industry characterized by rapidly changing technology and new products and services. To remain competitive, we must continue to develop and expand our content and service offerings. We must also continue to enhance and improve the user interface, functionality and features of our websites. These efforts may require us to develop internally, or to license, increasingly complex technologies. In addition, many of our competitors are continually introducing new Internet-related products, services and technologies, which will require us to update or modify our own technology to keep pace. Developing and integrating new products, services and technologies into our existing businesses could be expensive and time-consuming. Furthermore, such new features, functions and services may not achieve market acceptance or serve to enhance our brand loyalty. We may not succeed in incorporating new Internet technologies, or, in order to do so, we may incur substantial expenses. If we fail to develop and introduce or acquire new features, functions, services or technologies effectively and on a timely basis, we may not continue to attract new users and may be unable to retain our existing users, which could affect our marketability as a popular advertising and listing media. If we are not successful in incorporating new Internet technologies, our future profitability and revenue growth could be materially and adversely affected.

Our revenues and profitability could suffer if we are unable to successfully implement our growth strategies or manage our growth effectively.

We intend to grow our business by rolling out our full suite of services, including marketing, listing and e-commerce services, particularly SouFun membership services, to more cities across China. We also plan to expand into new sectors. However, some of our growth strategies relate to new services and technologies for which there are no established markets in China or relate to services, technologies, new geographic markets or new businesses in which we have limited or no experience. We do not have experience providing these services and may not select the right third parties to partner with. Moreover, due to the breadth and diversity of the PRC real estate market, our business model may not be successful in new and untested markets as demand and preferences may vary significantly by region. As a result, we may not be able to leverage our experience to expand into other parts of China or to enter into businesses with respect to new products or services. We cannot assure you that we will be able to successfully grow our business in our existing cities. There can be no assurance that we will be able to enter new geographic markets or deliver new services and technologies on a commercially viable basis or in a timely manner, or at all. If we are unable to successfully implement our growth strategies, our revenues and profitability may not grow as we expect, and our competitiveness may be materially and adversely affected.

Increases in the volume of our website traffic as a result of our expansion into new geographic regions could also strain the capacity of our existing computer systems, which could lead to slower response times or system failures. This would cause the number of real estate search inquiries, advertising impressions, other revenue producing offerings and our informational offerings to decline, any of which could significantly reduce our revenue growth and our brand loyalty. We may need to incur additional costs to upgrade our computer systems in order to accommodate increased demand if our systems cannot handle current or higher volumes of traffic. Mismanagement of any of our services in new or existing markets or the deterioration of the quality of our services could significantly damage our brand names and reputation and adversely impact our ability to attract and retain customers and visitor traffic.

Our growth plans place a significant demand on our management, systems and other resources. In addition to training and managing a growing workforce, we will need to continue to develop and improve our financial and management controls and our reporting systems and procedures. We cannot assure you that we will be able to efficiently or effectively manage the growth of our operations, and any failure to do so may limit our future growth and have a material adverse effect on our business, financial condition and results of operations.

The members of our senior management team, in particular, Mr. Vincent Tianquan Mo (Mr. Mo), our founding shareholder, director and executive chairman, have played an important role in the growth and development of our business, and if we are unable to continue to retain their services, our business, financial condition and results of operations could be materially and adversely affected.

Our future success is significantly dependent upon the continued services of our senior management. In particular, Mr. Mo has played an important role in the growth and development of our business. To date, we have relied heavily on the expertise and experience of Mr. Mo and other senior management personnel in our business operations, including their extensive knowledge of the PRC real estate market, their strong reputation in the PRC real estate industry, and their relationships with our employees, relevant regulatory authorities and many of our customers. If Mr. Mo or other senior management personnel are unable or unwilling to continue in their present positions, we may not be able to locate suitable or qualified replacements and may incur additional expenses to identify their successors. In addition, if Mr. Mo or other senior management personnel joins a competitor or forms a competing company, we may lose our customers, and our collaboration arrangements may be disrupted, which would have a material adverse effect on our business, financial condition and results of operations. We do not maintain key-man insurance for Mr. Mo or other senior management personnel.

Failure to attract and retain qualified personnel could jeopardize our competitive position.

As our industry is characterized by high demand and intense competition for talent, we may need to offer higher compensation and other benefits in order to attract and retain quality sales, technical and other operational personnel in the future. We have from time to time in the past experienced, and we expect in the future to continue to experience, difficulty in hiring and retaining highly skilled employees with appropriate qualifications. We cannot assure you we will be able to attract or retain the quality personnel that we need to achieve our business objectives. If we fail to successfully attract new personnel or retain and motivate our current personnel, we may lose competitiveness and our business, financial condition and results of operations could be materially and adversely affected.

We may be subject to intellectual property infringement or misappropriation claims by third parties, which may force us to incur substantial legal expenses and, if determined adversely against us, could materially disrupt our business.

We cannot be certain that our services and information provided on our websites do not or will not infringe patents, copyrights or other intellectual property rights held by third parties. From time to time, we may be subject to legal proceedings and claims alleging infringement of patents, trademarks or copyrights, or misappropriation of creative ideas or formats, or other infringement of proprietary intellectual property rights.

We have applied to register in China the Chinese and English dual-language SouFun trademark as well as SouFun in English and (SouFun in Chinese) individually. We have successfully registered such trademarks in some industry categories, but our applications for certain other industry categories conflicts with existing registrations or applications for similar trademarks by another PRC company in such industry categories. In April 2014, the Higher People's Court of Beijing Municipality reversed a lower court's judgment in favor of us and ordered the PRC Trademark Review and Adjudication Board of SAIC to reconsider the other PRC company's trademark application for SOFANG that it had previously rejected. We are currently evaluating our legal options, including appealing to the Supreme People's Court of the PRC against the judgment of the Higher People's Court of Beijing Municipality, which could take months or even longer to resolve. We do not currently expect our business would be materially and adversely affected even if we eventually do lose the right to use the trademark in these limited industry categories. However, due to the limited time we have had, our assessment of the impact of this judgment and the potential loss of our right to use the trademark is subject to change and the actual impact may be more significant than we currently expect.

Moreover, we have previously been involved in disputes arising from alleged infringement of third parties' copyrights on our websites, such as the use of photos or articles to which we did not have the rights, which led to judgments against us. We could be subject to similar claims, suits or judgments in the future if we post information to which we do not have the rights. Any such claims, regardless of merits, may involve us in time-consuming and costly litigation or investigation and divert significant management and staff resources. If we are found to have violated the intellectual property rights of others, we may be enjoined from using such intellectual property and may also be ordered to pay fines or monetary damages. As a result, we would be required to enter into expensive royalty or licensing arrangements or to develop alternative technologies, business methods, content or other intellectual property. We expect that the likelihood of such claims may increase as the number of competitors in our markets grows and as related patents and trademarks are registered and copyrights are obtained by such competitors. In addition, as we have expanded, and may continue to expand, our business into new geographical markets, we may be exposed to such claims in jurisdictions other than China and the scope of intellectual property protection in these overseas jurisdictions may be different from or greater than that in China. The intellectual property laws in overseas jurisdictions may also impose more stringent compliance requirements and cause more potential damages or penalties than those in China. Such claims in overseas jurisdictions, if successful, could require us to pay significant compensatory and punitive damage awards as well as expose us to costly and time-consuming litigation or investigations, all of which could materially disrupt our business and have a material adverse effect on our growth and profitability.

We are exposed to potential liability for information on our websites and for products and services sold over the Internet and we may incur significant costs and damage to our reputation as a result of defending against such potential liability.

We provide third-party content on our websites such as real estate listings, links to third-party websites, advertisements and content provided by customers and users of our community-oriented services. We could be exposed to liability with respect to such third-party information. Among other things, we may face assertions that, by directly or indirectly providing such third-party content or links to other websites, we should be liable for defamation, negligence, copyright or trademark infringement, or other actions by parties providing such content or operating those websites. We may also face assertions that content on our websites, including statistics or other data we compile internally, or information contained in websites linked to our websites contains false information, errors or omissions, and users and our customers could seek damages for losses incurred as a result of their reliance upon or otherwise relating to incorrect information. We may also be subject to fines and other sanctions by the government for such incorrect information. Moreover, our relevant consolidated controlled entities, as Internet advertising service providers, are obligated under PRC laws and regulations to monitor the advertising content shown on our websites for compliance with applicable law. Violation of applicable law may result in penalties, including fines, confiscation of advertising fees, orders to cease dissemination of the offending advertisements and orders to publish advertisements correcting the misleading information. In case of serious violations, the PRC authorities may revoke the offending entities' advertising licenses and/or business licenses. In addition, our websites could be used as a platform for

fraudulent transactions. The measures we take to guard against liability for third-party content or information may not be adequate to exonerate us from relevant civil and other liabilities.

Any such claims, with or without merit, could be time-consuming to defend and result in litigation and significant diversion of management's attention and resources. Even if these claims do not result in liability to us, we could incur significant costs in investigating and defending against these claims and suffer damage to our reputation.

Potential acquisitions and limited office and training facility purchases, which form part of our strategy, may disrupt our ability to manage our business effectively, including our ability to successfully integrate acquired businesses into our existing operations.

Potential acquisitions form part of our strategy to further expand and operate our business. Acquisitions and the subsequent integration of new companies or businesses will require significant attention from our management, in particular to ensure that the acquisition does not disrupt any existing collaborations, or affect our users' opinion and perception of our services and customer support. In addition, our management will need to ensure that the acquired business is effectively integrated into our existing operations.

The diversion of our management's attention and any difficulties encountered in integration could have a material adverse effect on our ability to manage our business. In addition, acquisitions could expose us to potential risks, including:

risks associated with the assimilation of new operations, services, technologies and personnel;

unforeseen or hidden liabilities;

the diversion of resources from our existing businesses and technologies;

the inability to generate sufficient revenues to offset the costs and expenses of acquisitions; and

potential loss of, or harm to, relationships with employees, customers and users as a result of the integration of new businesses.

In addition, in connection with our business expansion, we have acquired office space and facilities for our training and may continue to do so in the future if suitable opportunities arise. For more details on our recent office and training facility acquisitions, please see Item 5.D. Operating and Financial Review and Prospects A. Operating Results and Item 4. Information on the Company Facilities in this Form 20-F. Acquisition of property has inherent risks, including the fluctuation of property value, which could potentially lead to potential asset write-off if the value of such properties were to substantially decrease.

If we fail to maintain an effective system of internal control over financial reporting, we may be unable to accurately report our financial results or prevent fraud, which could result in harm to our business, loss of investor confidence in our financial reporting and a lower trading price of our ADSs or notes.

Effective internal controls are necessary for us to provide accurate and timely financial reports and effectively prevent fraud. We discovered in the past, and may in the future discover, areas of our internal controls involving deficiencies, significant deficiencies or material weaknesses that have required or will require improvements in our procedures on the preparation, review, approval and disclosure of financial reports.

Our management has concluded that our internal control over financial reporting was effective as of December 31, 2013. See Item 15. Control and Procedures of this Form 20-F. Our independent registered public accounting firm has issued an attestation report on our management's assessment of our internal control over financial reporting and has concluded that our internal control over financial reporting was effective as of December 31, 2013. A number of our internal control measures were implemented or strengthened recently to improve and address deficiencies in our controls. However, there is no assurance that we will be able to continue to implement effectively these or other new or improved controls or that our management or our independent registered public accounting firm will determine that our disclosure controls and procedures or our internal control over financial reporting will be effective in the future.

A lack of effective internal control over financial reporting in the future could result in the loss of investor confidence in the reliability of our financial statements and negatively impact the trading price of our ADSs. In addition, if we fail to maintain the adequacy of our internal controls, as such standards are modified, supplemented or amended from time to time or as necessary to correct deficiencies or weaknesses in our controls, we may not be able to provide accurate financial statements, which could cause us to fail to meet our reporting obligations or provide accurate financial statements, and cause investors to lose confidence in our reported financial information and have a negative effect on the trading price of our ADSs.

Certain of our leased property interests may be defective and we may be forced to relocate operations affected by such defects, which could cause significant disruption to our business.

As of December 31, 2013, we had leased properties in approximately 100 cities in China in addition to our principal executive offices in Beijing, China. A number of these leased properties, all of which were used as offices, contained defects in the leasehold interests. Such defects included the lack of proper title or right to lease and the landlords failure to duly register the leases with the relevant PRC government authority. A number of lease agreements were not renewed timely.

Under PRC laws, rules and regulations, in situations where a tenant lacks evidence of the landlord's title or right to lease, the relevant lease agreement may not be valid or enforceable under PRC laws, rules and regulations, and may also be subject to challenge by third parties. In addition, under PRC laws, rules and regulations, the failure to register the lease agreement will not affect its effectiveness between the tenant and the landlord, however, such lease agreement may be subject to challenge by and unenforceable against a third party who leases the same property from the landlord and has duly registered the lease with the competent PRC government authority. Furthermore, the landlord and the tenant may be subject to administrative fines for such failure to register the lease.

We have taken steps to renew lease agreements and cause our landlords to procure valid evidence as to the title or right to lease, as well as to complete the lease registration procedures. However, we cannot assure you that such defects will be cured in a timely manner or at all. Our business may be interrupted and additional relocation costs may be incurred if we are required to relocate operations affected by such defects. Moreover, if our lease agreements are challenged by third parties, it could result in diversion of management attention and cause us to incur costs associated with defending such actions, even if such challenges are ultimately determined in our favor.

We have limited business insurance coverage in China.

The insurance industry in China is still at an early stage of development and PRC insurance companies offer only limited business insurance products. As a result, we do not have any business disruption insurance or litigation insurance coverage for our operations in China. Any business disruption, litigation or natural disaster may cause us to incur substantial costs and result in the diversion of our resources, as well as significantly disrupt our operations, and have a material adverse affect on our business, financial position and results of operations.

Risks related to our corporate structure

If the PRC government determines that the structure contracts that establish the structure for our business operations do not comply with applicable PRC laws, rules and regulations, we could be subject to severe penalties or be forced to restructure our ownership structure.

As we are a Cayman Islands company and our PRC subsidiaries and their branch companies in China are treated as foreign-invested enterprises under applicable PRC laws, we are subject to ownership limitations as well as special approval requirements on foreign investment. Specifically, foreign entities are not allowed to own more than a 50% equity interest in any PRC company operating an ICP business and are only allowed to directly own 100% of the equity interest of a PRC company operating an advertising business if such foreign entity has at least three years of direct experience operating an advertising business outside China, or less than 100% of the equity interest in the advertising business if the foreign investor has at least two years of direct experience operating an advertising business outside China. Currently, we do not directly operate an advertising business outside China and cannot qualify under PRC laws, rules and regulations to invest directly in a PRC entity that provides advertising services in China and our PRC foreign-invested subsidiaries may be prohibited from providing advertising services.

To comply with applicable PRC laws, rules and regulations, we conduct our operations in China primarily through three of our PRC subsidiaries, SouFun Media, SouFun Network and Beijing Hong An Tu Sheng, in which wholly foreign owned enterprises (WFOEs) we indirectly own 100% of the equity interests, and our consolidated controlled entities. The WFOEs, 11 of our consolidated controlled entities and their respective shareholders have entered into a series of contractual arrangements, which consist of exclusive technical consultancy and service agreements, equity pledge agreements, operating agreements, shareholders proxy agreements, loan agreements and exclusive call option agreements (collectively, the Structure Contracts). See Item 7.B. Major Shareholders and Related Party Transactions Related Party Transactions Structure Contracts of this Form 20-F. As a result of these contractual arrangements, we exercise the ability to control the consolidated controlled entities through our power to direct the activities of consolidated controlled entities that most significantly impact their economic performance, and the obligation to absorb losses of or the right to all the residual benefits of the consolidated controlled entities that could potentially be significant to these entities. Accordingly, we consolidate their results in our financial statements. Our consolidated controlled entities hold the licenses and approvals that are essential to the operation of our Internet content distribution and advertising businesses. As certain agreements with our customers for Internet content distribution and advertising services were entered into directly with our PRC subsidiaries and not our consolidated controlled entities, there can be no assurance that the PRC government will not deem our Internet content distribution and advertising business to be in violation of applicable PRC laws, rules and regulations.

On July 13, 2006, MIIT publicly released the Notice on Strengthening the Administration of Foreign Investment in Operating Value-Added Telecommunications Business (the MIIT Notice), which reiterates certain provisions under China's Administrative Rules on Foreign-Invested Telecommunications Enterprises prohibiting, among others, the renting, transferring or sale of a telecommunications license to foreign investors in any form. Under the MIIT Notice, holders of valued-added telecommunications business operating licenses, or their shareholders, must also directly own the domain names and trademarks used by such license holders in their daily operations. To comply with this requirement under the MIIT Notice, we terminated the trademark license agreements and domain name license agreements between Beijing Jia Tian Xia Advertising Co., Ltd. and us as well as those between Beijing SouFun Internet Information Service Co., Ltd. and us in August 2006, we have assigned all registered trademarks, trademark applications and domain names relating to SouFun and Jia TianXia to the relevant consolidated controlled entities in order to maintain their respective ICP licenses to operate as value-added telecommunication service providers. Due to a lack of interpretative materials from the authorities, we cannot assure you that MIIT will not consider our corporate structure and the contractual arrangements as a kind of foreign investment in telecommunication services, in which case we may be found in violation of the MIIT Notice. See Item 7.B. Major Shareholders and Related Party Transactions Related Party Transactions of this Form 20-F.

In 2011, various media sources reported that the China Securities Regulatory Commission (the CSRC) prepared a report proposing pre-approval by a competent central government authority of offshore listings by China-based companies with variable interest entity structures, such as ours, that operate in industry sectors subject to foreign investment restrictions. However, it is unclear whether the CSRC officially issued or submitted such a report to a higher level government authority or what any such report provides, or whether any new PRC laws or regulations relating to variable interest entity structures will be adopted or what they would provide.

If the past or current ownership structures, Structure Contracts and businesses of our Company, our PRC subsidiaries and our consolidated controlled entities are found to be in violation of any existing or future PRC laws, rules or regulations, MIIT and other relevant PRC regulatory authorities would have broad discretion in dealing with such violations, including:

revoking the business and operating licenses of our PRC subsidiaries or consolidated controlled entities, whose business and operating licenses are essential to the operation of our business;

levying fines and/or confiscating our income or the income of our PRC subsidiaries and/or consolidated controlled entities;

shutting down our servers or blocking our websites;

discontinuing or restricting our operations or the operations of our PRC subsidiaries and/or consolidated controlled entities;

imposing conditions or requirements with which we, our PRC subsidiaries and/or consolidated controlled entities may not be able to comply;

requiring us, our PRC subsidiaries and/or consolidated controlled entities to restructure the relevant ownership structure, operations or contractual arrangements; and

taking other regulatory or enforcement actions that could be harmful to our business.

We cannot assure you that the relevant PRC regulatory authorities will not require that we restructure our Structure Contracts to comply with the MIIT Notice or that we can restructure our ownership structure without material disruption to our business. In addition, new PRC laws, rules and regulations may be introduced to impose additional requirements that may be applicable to our corporate structure and contractual arrangements. The imposition of any of these penalties and the effect of any new PRC laws, rules and regulations applicable to our corporate structure and contractual arrangements could materially disrupt our ability to conduct our business and have a material adverse effect on our financial condition and results of operations.

We cannot assure you that we will be able to enforce the Structure Contracts. Although we believe we are in compliance with current PRC regulations, we cannot assure you that the PRC government would agree that these contractual arrangements comply with PRC licensing, registration or other regulatory requirements, with existing policies or with requirements or policies that may be adopted in the future. PRC laws and regulations governing the validity of these contractual arrangements are open to varying interpretations and the relevant government authorities have broad discretion in interpreting these laws and regulations.

We may lose the ability to utilize assets held by our consolidated controlled entities that are important to the operation of our business if any of these entities goes bankrupt or becomes subject to a dissolution or liquidation proceeding.

Our wholly owned subsidiaries, SouFun Media, SouFun Network and Beijing Hong An Tu Sheng, are considered foreign-invested enterprises in China and are, therefore, not permitted under PRC law to hold the ICP licenses and to operate the advertising businesses that are critical to our operations. As a result, our consolidated controlled entities are the holders of the ICP licenses required for operating our websites and our advertising business in China. We do not have any direct or indirect shareholding interests in these consolidated controlled entities. They are instead held directly or indirectly by Mr. Mo, our founder and executive chairman, and Richard Jiangong Dai (Mr. Dai), the president, chief executive officer and a director of our Company. Mr. Dai is a nephew of Mr. Mo. Both Mr. Mo and Mr. Dai are PRC citizens. Through the Structure Contracts, we exercise management, financial and voting control over these consolidated controlled entities through our rights to all the residual benefits of the consolidated controlled entities and our obligation to fund losses of the consolidated controlled entities and also have a contractual right, to the extent permitted by PRC laws, rules and regulations, to acquire the equity interests in these entities. Consequently, if any of these consolidated controlled entities goes bankrupt and all or part of its assets become subject to liens or rights of third-party creditors, we may be unable to continue some or all of our business activities, which could materially and adversely affect our business, financial condition and results of operations. If any of our consolidated controlled entities undergoes a voluntary or involuntary liquidation proceeding, the shareholders or unrelated third-party creditors may claim rights to some or all of these assets, thereby hindering our ability to operate our business, which could materially and adversely affect our business, financial condition and results of operations.

Contractual or other arrangements among our affiliates may be subject to scrutiny by PRC tax authorities, and a finding that we or our affiliates owe additional taxes could substantially reduce our profitability and the value of your investment.

As a result of the Structure Contracts, we are entitled to substantially all of the economic benefits of ownership of the consolidated controlled entities and also bear substantially all of the economic risks associated with consolidated controlled entities. If the PRC tax authorities determine that the economic terms, including pricing, of our arrangements with our consolidated controlled entities were not determined on an arm's length basis, we could be subject to significant additional tax liabilities. In particular, the PRC tax authorities may perform a transfer pricing adjustment, which could result in a reduction, for PRC tax purposes, of deductions recorded by our consolidated controlled entities. Such a reduction could increase the tax liabilities of our consolidated controlled entities without reducing the tax liabilities of our PRC subsidiaries. This increased tax liability could further result in late payment fees and other penalties to our consolidated controlled entities for underpaid taxes. Any of these events could materially

reduce our net income.

Contractual arrangements, including voting proxies, with our consolidated controlled entities for our Internet content distribution and marketing businesses may not be as effective in providing operational control as direct or indirect ownership.

Since the applicable PRC laws, rules and regulations restrict foreign ownership in the Internet content distribution and marketing businesses, we conduct our Internet content distribution and advertising businesses and derive related revenues through the Structure Contracts with our consolidated controlled entities. As we have no direct or indirect ownership interest in our consolidated controlled entities, these Structure Contracts, including the voting proxies granted to us, may not be as effective in providing us with control over these companies as direct or indirect ownership. If we were the controlling shareholders of these companies with direct or indirect ownership, we would be able to exercise our rights as shareholders to effect changes in the board of directors, which in turn could effect change, subject to any applicable fiduciary obligations, at the management level. However, pursuant to the Structure Contracts, if any of our consolidated controlled entities or their shareholders fail to perform their obligations under these contractual arrangements, we may be forced to (i) incur substantial costs and resources to enforce such arrangements, including the voting proxies, and (ii) rely on legal remedies available under PRC law, including exercising our call option right over the equity interests in our consolidated controlled entities, seeking specific performance or injunctive relief, and claiming monetary damages. In addition, pursuant to these Structure Contracts, if Mr. Mo or Mr. Dai were to terminate their employment with us, they would be obligated to transfer their respective share ownership in any of our consolidated controlled entities to us or our designee. If Mr. Mo or Mr. Dai were to refuse to effect such a transfer, or if they were otherwise to act in bad faith toward us, then we may have to take legal action to compel them to fulfill their contractual obligations.

Furthermore, pursuant to the equity interest pledge agreements between certain of our PRC subsidiaries and the individual shareholders of our consolidated controlled entities, each individual shareholder of our consolidated controlled entity agrees to pledge his equity interests in the consolidated controlled entities to our subsidiaries to secure the relevant consolidated controlled entities' performance of their obligations under the exclusive technical consultancy and service agreements the Structured Contracts. The equity interest pledges of shareholders of consolidated controlled entities under these equity pledge agreements have been registered with the relevant local branch of SAIC. The equity interest pledge agreements with the consolidated controlled entities' individual shareholders provide that the pledged equity interest shall constitute security for consulting and service fees under the exclusive technical consultancy and service agreements. The scope of pledge is not be limited by the amount of the registered capital of that consolidated controlled entity. However, it is possible that a PRC court may take the position that the amount listed on the equity pledge registration forms represents the full amount of the collateral that has been registered and perfected. If this is the case, the obligations that are supposed to be secured in the equity interest pledge agreements in excess of the amount listed on the equity pledge registration forms could be determined by the PRC court as unsecured debt, which takes last priority among creditors. Such a decision could materially and adversely affect our liquidity and our ability to fund and expand our business.

In the event that we are unable to enforce these contractual arrangements, or if we experience significant time delays or other obstacles in the process of enforcing these contractual arrangements, our business, financial condition and results of operations could be materially and adversely affected.

The shareholders of our consolidated controlled entities may have potential conflicts of interest with us, and if any such conflicts of interest are not resolved in our favor, our business may be materially and adversely affected.

We operate through a number of consolidated controlled entities in China. Messrs. Mo and Dai together hold 100% of the equity interest in these consolidated controlled entities. The interests of Messrs. Mo and Dai as the controlling shareholders of the consolidated controlled entities may differ from the interests of our Company as a whole, as what is in the best interests of our consolidated controlled entities may not be in the best interests of us and our other shareholders. We cannot assure you that when conflicts of interest arise, Messrs. Mo and Dai will act in the best interests of our Company or that conflicts of interest will be resolved in our favor. In addition, Messrs. Mo and Dai may breach or cause our consolidated controlled entities and their respective subsidiaries to breach or refuse to renew the existing contractual arrangements with us. We rely on Messrs. Mo and Dai to comply with the laws of China, which protect contracts and provide that directors and executive officers owe a duty of loyalty to our Company and require them to avoid conflicts of interest and not to take advantage of their positions for personal gains. We also rely on Messrs. Mo and Dai to abide by the laws of the Cayman Islands, which provide that directors have a duty of care and a duty of loyalty to act honestly in good faith with a view to our best interests. However, the legal frameworks of China and the Cayman Islands do not provide guidance on resolving conflicts in the event of a conflict between the laws of China and the Cayman Islands regarding which corporate governance regime controls. If we cannot resolve any conflicts of interest or disputes between us and Messrs. Mo and Dai, we would have to rely on legal proceedings, which could result in disruption of our business and subject us to substantial uncertainty as to the outcome of any such legal proceedings.

We are controlled by our significant shareholders and their affiliated entities, whose interests may differ from our other shareholders.

As of December 31, 2013, Media Partner Technology Limited (Media Partner) and Next Decade Investments Limited (Next Decade), whose shares are held in irrevocable discretionary trusts established by Mr. Mo, together held approximately 27.8% of our outstanding share capital and approximately 72.1% of our voting power under our dual-class ordinary share structure, and were our largest shareholders. As of December 31, 2013, Apax, an investment fund, held approximately 18.2% and 5.0% of our outstanding share capital and our voting power, respectively. Media Partner and Next Decade together, as our largest shareholders, could exert substantial influence over the outcome of any corporate transaction or other matters submitted to the shareholders for approval, including mergers, consolidations, the sale of all or substantially all of our assets, election of directors and other significant corporate actions. This concentration of ownership may also discourage, delay or prevent a change in control of our Company, which could deprive our shareholders of an opportunity to receive a premium for their shares as part of a sale of our Company and might reduce the price of our ADSs or notes. These actions may be taken even if they are opposed by our other shareholders, including the investors in the ADSs.

The continuing cooperation of our significant shareholders on an on-going basis, including Media Partner and Next Decade, is important to our businesses. Without their consent or cooperation, we could be prevented from entering into transactions or conducting business that could be beneficial to us. We cannot assure you, however, that the interests of our significant shareholders would not differ from the interests of our other shareholders, including investors in the ADSs.

Risks related to doing business in China

China's economic, political and social conditions, as well as government policies, could have a material adverse effect on our business, financial condition and results of operations.

Our business and operations are primarily conducted in China. Accordingly, our financial condition and results of operations have been, and are expected to continue to be, affected by the economic, political and social developments in relation to the Internet, online marketing and real estate industries in China. A slowdown of economic growth in China could reduce the sale of real estate and related products and services, which in turn could materially and adversely affect our business, financial condition and results of operations.

The PRC economy differs from the economies of most developed countries in many respects, including: a higher level of government involvement; the on-going development of a market-oriented economy; a rapid growth rate; a higher level of control over foreign exchange; and a less efficient allocation of resources.

While the PRC economy has experienced significant growth since the late 1970s, growth has been uneven, both geographically and among various sectors of the economy. The PRC government has implemented various measures to encourage economic growth and guide the allocation of resources. These measures are intended to benefit the overall PRC economy, but may also have a negative effect on us. For example, our business, financial condition and results of operations could be adversely affected by PRC government control over capital investments or changes in tax regulations that are applicable to us.

The PRC economy has been transitioning from a centrally-planned economy to a more market-oriented economy. Although the PRC government has implemented measures since the late 1970s which emphasize the utilization of market forces for economic reform, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies.

The discontinuation of any of the preferential tax treatments currently available to us in China could materially and adversely affect our financial condition and results of operations

In March 2007, the National People's Congress of China enacted the PRC Enterprise Income Tax Law (the "New EIT Law"), which became effective on January 1, 2008. In April 2008, the relevant PRC governmental authorities released qualification criteria and application and assessment procedures for "high and new technology enterprises," which would be entitled to a statutory tax rate of 15.0%. Currently, five of our PRC subsidiaries or consolidated controlled entities are qualified as "high and new technology enterprises." We cannot assure you that our PRC subsidiaries or consolidated controlled entities will continue to be entitled to preferential tax rates as qualified "high and new technology enterprises" under the New EIT Law. We also cannot assure you that the tax authorities will not, in the future, discontinue any of our preferential tax treatments, potentially with retroactive effect. In the event that preferential tax treatment for any of our subsidiaries or consolidated controlled entities is discontinued, the affected entity will become subject to a 25.0% standard enterprise income tax rate, which would increase our income tax expenses and could materially reduce our net income and profitability. See also Item 5.A. Operating and Financial Review and Prospects Operating Results Results of Operations Taxation PRC Income Tax of this Form 20-F.

We may be treated as a resident enterprise for PRC tax purposes under the New EIT Law and therefore be subject to PRC taxation on our worldwide income.

We are incorporated under the laws of the Cayman Islands. Under the New EIT Law and its implementation rules, an enterprise incorporated in a foreign country or region may be classified as either a non-resident enterprise or a resident enterprise. If any enterprise incorporated in a foreign country or region has its de facto management bodies located within the PRC territory, such enterprise will be considered a PRC tax resident enterprise and thus will normally be subject to enterprise income tax at the rate of 25.0% on its worldwide income. The relevant implementing rules provide that de facto management bodies means the bodies which exercise substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties and other factors of an enterprise. In April 2009, the State Administration for Taxation (SAT) issued a Notice Regarding the Determination of Chinese-Controlled Offshore-Incorporated Enterprises as PRC Tax Resident Enterprises on the Basis of De Facto Management Bodies (Circular 82), which sets forth certain specific criteria for determining whether the de facto management body of a Chinese-controlled offshore-incorporated enterprise is located in China. However, Circular 82 only applies to offshore enterprises controlled by PRC enterprises and not those controlled by PRC individuals or foreigners in China, such as our Company. See Item 10.D. Additional Information Exchange Controls Regulations relating to Foreign Exchange, Taxation and Dividend Distribution Taxation and Dividend Distribution of this Form 20-F. Substantially all of the members of our management are currently located in China and we expect them to continue to be located in China. Due to the lack of clear guidance on the criteria pursuant to which the PRC tax authorities will determine our tax residency under the New EIT Law, it remains unclear whether the PRC tax authorities will treat us as a PRC resident enterprise. As a result, Jingtian & Gongcheng, our PRC legal counsel, is unable to express an opinion as to the likelihood that we will be subject to the tax applicable to resident enterprises or non-resident enterprises under the New EIT Law. If we are deemed to be a PRC tax resident enterprise, we will be subject to an enterprise income tax rate of 25.0% on our worldwide income, which would have an impact on our effective tax rate and an adverse effect on our net income and results of operations. The New EIT Law provides that dividend income between qualified resident enterprises is exempt income, which the implementing rules have clarified to mean a dividend derived by a resident enterprise on an equity interest it directly owns in another resident enterprise. It is possible, therefore, that dividends we receive through our offshore subsidiaries from our PRC subsidiaries, would be exempt income under the New EIT Law and its implementing rules if our offshore subsidiaries are deemed to be a resident enterprise. If we are deemed to be a PRC tax resident enterprise, we would then be obliged to withhold PRC withholding income tax on the gross amount of dividends we pay to shareholders who are non-PRC tax residents. The withholding income tax rate is 10.0% for non-resident enterprises and 20.0% for non-resident individuals, unless otherwise provided under the applicable double tax treaties between China and the governments of other jurisdictions.

We rely primarily on dividends and other distributions on equity paid by our subsidiaries, and any limitation on the ability of our subsidiaries to make payments to us could have a material adverse effect on our ability to conduct our business as well as our liquidity.

As a holding company, we rely primarily on dividends and other distributions on equity paid by our subsidiaries for our cash and financing requirements, which include funds necessary to pay dividends and other cash distributions to our shareholders, service any debt we may incur and to pay our operating expenses. If our subsidiaries incur debt in the future, the instruments governing the debt may restrict their ability to pay dividends or make other distributions to us.

Our subsidiaries are primarily entities incorporated and established in China and therefore, are subject to certain limitations with respect to dividend payments. PRC regulations currently allow payment of dividends only out of accumulated profits determined in accordance with accounting standards and regulations in China. Each year, our subsidiaries in China and our consolidated controlled entities are required to allocate a portion of their after-tax profits to their respective reserve funds, until the reserves reach 50.0% of their respective registered capital. Allocations to these reserves and funds can only be used for specific purposes and are not transferable to us in the form of loans, advances or cash dividends. Such restrictions on the ability of our subsidiaries and consolidated controlled entities to transfer funds to us could adversely limit our ability to grow, pay dividends, make investments or acquisitions that could benefit our businesses or otherwise fund and conduct our businesses.

Under the relevant PRC tax law applicable to us prior to January 1, 2008, dividend payments to foreign investors made by foreign-invested enterprises were exempted from PRC withholding tax. However, under the New EIT Law and its implementing rules, non-resident enterprises without an establishment in China, or whose income has no connection with their institutions and establishment inside China, are subject to withholding tax at the rate of 10.0% with respect to their PRC-sourced dividend income, subject to applicable tax agreements or treaties between the PRC and other tax jurisdictions. Similarly, any gains realized on the transfer of shares by such investors are also subject to a 10.0% PRC income tax if such gains are regarded as income from sources within China.

According to the Mainland and Hong Kong Special Administrative Region Arrangement on the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income (the Avoidance of Double Taxation Arrangement), dividends derived by a Hong Kong resident enterprise from a PRC resident enterprise are subject to withholding tax at the rate of 5.0%, provided that such Hong Kong resident enterprise directly owns at least 25.0% of the equity interest in the PRC resident enterprise. However, under the New EIT Law and its implementation rules, as well as Circular No. 601 issued by SAT in October 2009 (Circular 601) dividends from our PRC subsidiaries paid to us through our Hong Kong subsidiaries may be subject to withholding tax at a rate of 10.0% if our Hong Kong subsidiaries cannot be considered as a beneficial owner. In June 2012, SAT further promulgated the Announcement on Determining the Beneficial Owners in Tax Agreement (Circular 30), which provides that the tax authorities shall make the decision based on a comprehensive consideration of all determining factors provided in Circular 601 rather than the status of a single determining factor.

We recently obtained approval for a reduced withholding rate of 5.0% on the payment of dividends by two of our WFOEs until 2015. In the event that we were unable to renew this approval, the cost of moving our profits from our PRC entities outside of the PRC would increase substantially.

We hold equity interests in several of our major PRC subsidiaries indirectly through subsidiaries incorporated in Hong Kong, including primarily Bravo Work, China Index Academy and China Home Holdings (HK) Limited. Neither we nor Jingtian & Gongcheng, our PRC legal counsel, is certain as to whether it is more likely than not that PRC tax authorities would require or permit Bravo Work, China Index Academy and China Home Holdings (HK) Limited to be treated as PRC resident enterprises. To the extent that Bravo Work, China Index Academy and China Home Holdings (HK) Limited are each considered a non-resident enterprise under the Avoidance of Double Taxation Arrangement, dividends derived by Bravo Work, China Index Academy and China Home Holdings (HK) Limited from our PRC subsidiaries may be subject to a maximum withholding tax rate of 10.0%. See Item 10.E. Additional Information Taxation Regulation of Foreign Exchange, Taxation and Dividend Distribution Taxation and Dividend Distribution of this Form 20-F.

The discontinuation of the previously available exemption from withholding tax as a result of the New EIT Law and its implementing rules have and will increase our income tax expenses and reduce our net income, and may materially reduce our profitability.

PRC regulations on loans to PRC entities by offshore holding companies may affect our ability to capitalize or otherwise fund our PRC operations.

On August 29, 2008, the State Administration of Foreign Exchange (SAFE) promulgated the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign Invested Enterprises (SAFE Circular 142), regulating the conversion by a foreign-invested enterprise of foreign currency registered capital into RMB by restricting how the converted RMB may be used. SAFE Circular 142 provides that the RMB capital converted from foreign currency registered capital of a foreign-invested enterprise may only be used for purposes within the business scope approved by the applicable governmental authority and may not be used for equity investments within the PRC. In addition, SAFE strengthened its oversight of the flow and use of the RMB capital converted from foreign currency registered capital of a foreign-invested company. The use of such RMB capital may not be altered without SAFE approval, and such RMB capital may not in any case be used to repay RMB loans if the proceeds of such loans have not been used. Violations of SAFE Circular 142 could result in severe monetary or other penalties. On November 16, 2011, SAFE promulgated the Circular of the State Administration of Foreign Exchange on Issues Relating to Further Clarification and Regulation of Certain Capital Account Items under Foreign Exchange Control (Circular 45) to further strengthen and clarify its existing regulations on foreign exchange control under SAFE Circular 142. Circular 45 expressly prohibits foreign invested entities, including WFOEs, from converting registered capital in foreign exchange into RMB for the purpose of equity investment, granting certain loans, repayment of inter-company loans, and repayment of bank loans which have been transferred to a third party. Further, Circular 45 generally prohibits a foreign invested entity, such as our wholly owned subsidiaries, SouFun Media and SouFun Network, from converting registered capital from foreign currencies into RMB for the payment of various types of cash deposits. If our variable interest entities require financial support from us or our PRC subsidiary in the future and we find it necessary to use foreign currency-denominated capital to provide such financial support, our ability to fund our variable interest entity's operations will be subject to statutory limits and restrictions, including those described above.

In light of the various requirements imposed by PRC regulations on loans to and direct investment in PRC entities by offshore holding companies, including SAFE Circular 142, we may not be able to obtain the necessary government approvals with respect to future loans by us to our wholly owned subsidiaries or any consolidated controlled entities or with respect to future capital contributions by us to our PRC subsidiaries. If we fail to complete such registrations or obtain such approvals, our ability to capitalize or otherwise fund our PRC operations may be negatively affected, which could adversely affect our liquidity and our ability to fund and expand our business.

SouFun Media, SouFun Network, Beijing Zhong Zhi Shi Zheng and the relevant consolidated controlled entities may be subject to fines and legal or administrative sanctions in connection with dividend distributions we made between December 2007 and June 2009.

On December 12, 2007, our then board of directors adopted resolutions to declare dividends in the aggregate of RMB350.0 million to our shareholders. Our then existing shareholders subsequently agreed to reduce the amount of the dividends to RMB300.0 million. On February 20, 2009, our then board of directors adopted resolutions to declare additional dividends in the aggregate of RMB300.0 million to our shareholders. Following these resolutions, between December 2007 and June 2009, we directed our wholly owned subsidiaries, SouFun Media and SouFun Network, and the entities controlled by SouFun Media and SouFun Network, including our indirect subsidiary Beijing Zhong Zhi Shi Zheng and consolidated controlled entities such as Beijing Internet, Beijing Technology, Beijing China Index, Beijing Advertising and Beijing JTX Technology, to pay an aggregate of RMB300.2 million in dividends payable by us to accounts in China designated by our then existing shareholders for the receipt of such dividend payments. These dividend payments are recorded on SouFun Media's and SouFun Network's accounts as other receivables due from us and are deemed as non-interest bearing loans from SouFun Media or SouFun Network to us, which are treated in China as loans to an overseas borrower. We repaid RMB40.0 million to SouFun Media in 2011 and the balance of these other receivables due from us was RMB260.2 million as of December 31, 2013. The dividend payments paid

through Beijing Zhong Zhi Shi Zheng or the relevant consolidated controlled entities were recorded on SouFun Media s and SouFun Network s accounts as other payables to Beijing Zhong Zhi Shi Zheng and such consolidated controlled entities, which are treated in China as loans from domestic lenders.

Pursuant to the General Lending Code implemented in August 1996 by the People's Bank of China (the PBOC), the central bank of China, commercial lending in China must be made by or through a PRC-qualified financial institution as defined under the General Lending Code. As none of the payors is or was at the relevant time a PRC-qualified financial institution as defined under the General Lending Code, the PBOC may impose a fine for non-compliance on each of the payors in an amount equal to one to five times the value of any income received from its non-compliance, and the payors may be required to terminate such loans. If the PBOC instructs these entities to terminate such overseas loans and domestic loans, we have to fully repay the overseas loans from SouFun Media and SouFun Network, and SouFun Media and SouFun Network have to fully repay the domestic loans to Beijing Zhong Zhi Shi Zheng and the relevant consolidated controlled entities.

Moreover, pursuant to the PRC Foreign Currency Administration Regulations promulgated by the State Council in January 1996, and amended in August 2008, a PRC entity is required to apply for SAFE approval prior to extending commercial loans to offshore entities such as our Company. As there is no specific definition of commercial loans under the Foreign Currency Administration Regulations and PRC governmental authorities have not issued any implementation rules with respect to the provision of commercial loans to offshore entities. Accordingly, it is not clear whether such provision will be applied to the non-interest bearing loans described above. Under the Foreign Currency Administration Regulations, an entity may be required to correct the violation and be subject to a warning and/or a fine for the violation of the foreign registration administrative regulations. If SAFE determines that the PRC Foreign Currency Administration Regulations do apply to us, it may require SouFun Media and SouFun Network to register the overseas loans to us and require us to rectify any prior non-compliance by properly obtaining SAFE approval. SAFE may also impose a warning and/or fine based on the PRC Foreign Currency Administration Regulations. We cannot assure you that SouFun Media and SouFun Network will be able to complete the necessary registration and filing procedures required by the PRC Foreign Currency Administration Regulations. In addition, it is not clear whether SAFE may consider the making of payments in Renminbi which should have been made in foreign currency to be foreign currency arbitrage, which may be deemed a violation and may subject a violator to warnings, penalties or other sanctions. Due to a general uncertainty over the interpretation and implementation of the PRC Foreign Currency Administration Regulations as well as the broad enforcement discretion granted to SAFE, we cannot assure you that we, SouFun Media or SouFun Network will not be subject to such warnings, penalties or other administrative penalties resulting from the overseas loans.

According to the New EIT Law, loan arrangements between related parties without interest are not considered arms-length transactions. Therefore, the PRC taxation authorities could impose enterprise income and business taxes on SouFun Media, SouFun Network, Beijing Zhong Zhi Shi Zheng and the relevant consolidated controlled entities for the deemed interest income with regard to the arrangements for the overseas and domestic loans. The deemed interest rate would be determined by reference to the lending rate over the relevant period published by the PBOC. We cannot assure you that we will not be subject to fines, or legal or administrative sanctions as a result of non-compliance with the General Lending Code and the Foreign Currency Administration Regulations. Further, we cannot assure you that the PRC taxation authorities will not impose enterprise income and business taxes on SouFun Media, SouFun Network, Beijing Zhong Zhi Shi Zheng and the relevant variable interest entities for any deemed interest income with respect to these loans. Because the applicable PRC laws, rules and regulations do not provide clear definitions for several key terms and because the relevant PRC regulatory authorities have significant discretion on the interpretation of such matters, we cannot predict the likelihood that the risks described here will materialize.

The PRC legal system embodies uncertainties, which could limit the legal protections available to you and us.

In 1979, the PRC government began to promulgate a comprehensive system of laws and regulations governing economic matters in general. The overall effect of legislation over the past 34 years has significantly enhanced the protections afforded to various forms of foreign investment in China. Our PRC operating subsidiaries include several WFOEs, including primarily SouFun Media, SouFun Network and Beijing Hong An Tu Sheng. These PRC subsidiaries are subject to laws and regulations applicable to foreign-invested enterprises in China. In particular, they are subject to PRC laws, rules and regulations governing foreign companies' ownership and operation of Internet content distribution and advertising businesses as well as of the real estate sector. Such laws and regulations are subject to change, and their interpretation and enforcement involve uncertainties, which could limit the legal protections available to us and our investors. In addition, we cannot predict the effect of future developments in the PRC legal system, including the promulgation of new laws, changes to existing laws or the interpretation or enforcement of such laws, or the preemption of local regulations by PRC laws, rules and regulations.

Moreover, China has a civil law system based on written statutes, which, unlike common law systems, is a system in which decided judicial cases have little precedential value. Furthermore, interpretation of statutes and regulations may be subject to government policies reflecting domestic political changes. The relative inexperience of China's judiciary in many cases creates additional uncertainty as to the outcome of litigation. In addition, enforcement of existing laws or contracts based on existing laws may be uncertain and sporadic, and it may be difficult to obtain swift and equitable enforcement within China. All such uncertainties could materially and adversely affect our business, financial condition and results of operations.

Government control of currency conversion may limit our ability to utilize our revenues effectively.

Substantially all of our revenues and operating expenses are denominated in Renminbi. Under applicable PRC law, the Renminbi is freely convertible to foreign currencies with respect to current account transactions, but not with respect to capital account transactions. Current account transactions include ordinary course import or export transactions, payments for services rendered and payments of license fees, royalties, interest on loans and dividends. Capital account transactions include cross-border investments and repayments of the principal of loans.

Accordingly, our PRC subsidiaries currently may purchase foreign currencies for settlement of current account transactions, including payment of dividends to us, without prior SAFE approval by complying with certain procedural requirements. However, we cannot assure you that the relevant PRC governmental authorities will not limit or eliminate the ability of our PRC subsidiaries to purchase and retain foreign currencies in the future.

Foreign exchange transactions under the capital account are still subject to limitations and require approvals from or registration with relevant government authorities. This could affect our PRC subsidiaries' ability to obtain debt or equity financing from outside China, including by means of loans or capital contributions from us.

Since substantially all of our revenues are denominated in Renminbi, including fees and payments from our PRC consolidated controlled entities pursuant to the Structure Contracts, existing and future restrictions on currency exchange may limit our ability to utilize revenues generated in Renminbi to fund expenditures denominated in foreign currencies, including any dividends that our PRC subsidiaries may pay to us in the future.

If SAFE determines that its foreign exchange regulations apply to us and our shareholding structure, a failure by our shareholders who are PRC citizens or residents to comply with these regulations may restrict our ability to distribute profits, restrict our overseas and cross-border investment activities or subject us to liability under PRC laws, which may materially and adversely affect our business, financial position and results of operations.

In October 2005, SAFE issued the Circular on Issues Relating to the Administration of Foreign Exchange in Fundraising and Return Investment Activities of Domestic Residents Conducted via Offshore Special Purpose Companies, which became effective as of November 1, 2005 and was supplemented by an implementing notice issued on November 24, 2005. We refer to them collectively as Circular 75. To further clarify and simplify the implementation of Circular 75, SAFE issued the Circular on Further Improving and Adjusting the Policies on Administration of Foreign Exchange under Direct Investment (Circular 59), effective on December 17, 2012. Under Circular 75 and Circular 59, PRC residents and citizens must register with the relevant local SAFE branch prior to their establishment or control of an offshore entity established for the purpose of an overseas equity financing involving onshore assets or equity interests held by them, and must also make filings with SAFE thereafter upon the occurrence of certain material capital changes. The registration and filing procedures under Circular 75 are prerequisites for other approval and registration procedures necessary for capital inflow from the offshore entity, such as inbound investments or shareholders' loans, or capital outflow to the offshore entity, such as the payment of profits or dividends, liquidating distributions, equity sale proceeds or the return of funds upon a capital reduction.

The interpretation and implementation of Circular 75 involve significant uncertainty. For example, the shares of Media Partner and Next Decade, two of our shareholders, are held in irrevocable discretionary family trusts established by Mr. Mo, of which Mr. Mo has represented that none of the trustees and beneficial owners is a PRC resident. However, since Mr. Mo, a PRC resident, was our indirect shareholder before the establishment of the family trusts, we have not been able to obtain confirmation from SAFE as to whether Circular 75 applies to us or Mr. Mo. We cannot predict how Circular 75 will affect our business operations or future strategies. If SAFE determines that Circular 75 does apply to us, our present and prospective PRC subsidiaries' ability to conduct foreign exchange activities, such as any remittance of dividends or foreign currency-denominated borrowings, may be subject to compliance with Circular 75 requirements of our PRC resident shareholders. We cannot assure you that our PRC resident shareholders will be able to complete the necessary registration and filing procedures required by Circular 75. If Circular 75 is determined to apply to us or any of our PRC resident shareholders, a failure by any of our shareholders or beneficiary owners to comply with Circular 75 may subject the relevant shareholders or beneficiaries to penalties under PRC foreign exchange administrative regulations, and may subject us to fines or legal sanctions, restrict our overseas or cross-border investment activities, limit our subsidiaries' ability to make distributions or pay dividends or affect our ownership structure, which would have a material adverse effect on our business, financial condition, results of operations and liquidity as well as our ability to pay dividends or make other distributions to our shareholders.

Regulations in the PRC may make it more difficult for us to pursue growth through acquisitions.

On August 8, 2006, six PRC regulatory agencies promulgated the Regulations on Mergers and Acquisitions of Domestic Companies by Foreign Investors (the M&A Rules), which became effective on September 8, 2006 and was amended on June 22, 2009. The M&A Rules and other regulations and rules concerning mergers and acquisitions established additional procedures and requirements that could make merger and acquisition activities by foreign investors more time-consuming and complex. For example, the M&A Rules require that the Ministry of Commerce (MOFCOM) be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise or a foreign company with substantial PRC operations, if certain thresholds under the Provisions on Thresholds for Prior Notification of Concentrations of Undertakings, issued by the State Council on August 3, 2008, are triggered. According to the Notice regarding the Establishment of the Security Review System for Mergers and Acquisitions of Domestic Enterprises by Foreign Investors issued by the General Office of the State Council in February 2011 and the Implementing Rules Concerning Security Review on the Mergers and Acquisitions by Foreign Investors of Domestic Enterprises issued by MOFCOM in August 2011, mergers and acquisitions by foreign investors involved in an industry related to national security are subject to strict review by MOFCOM. These rules also prohibit any transactions attempting to bypass such security review, including by controlling entities through contractual arrangements. We believe that our business is not in an industry related to national security. However, we cannot preclude the possibility that MOFCOM or other government agencies may publish interpretations contrary to our understanding or broaden the scope of such security review in the future. Although we have no current plans to make any acquisitions, we may elect to grow our business in the future in part by directly acquiring complementary businesses in China. Complying with the requirements of these regulations to complete such transactions could be time-consuming, and any required approval processes, including obtaining approval from MOFCOM, may delay or inhibit our ability to complete such transactions.

We may be subject to fines and legal or administrative sanctions if we or our PRC citizen employees fail to comply with PRC regulations with respect to the registration of such employees' share options and restricted share units.

In February 2012, SAFE promulgated the Notices on Issues concerning the Foreign Exchange Administration for Domestic Individuals Participating in Stock Incentive Plan of Overseas Publicly-Listed Company (the Stock Option Rule). Under the Stock Option Rule, a Chinese entity's directors, supervisors, senior management officers, other staff, or individuals which have an employment or labor relationship with such Chinese entity who are granted stock options by an overseas publicly listed company are required, through a PRC agent or PRC subsidiary of such overseas publicly listed company, to register with SAFE and complete certain other procedures. Our local employees who have been granted stock options are subject to these regulations. We have designated our relevant PRC subsidiaries to handle the registration and other procedures required by the Stock Option Rule. If we or our PRC option holders fail to comply with these rules, we and our PRC option holders may be subject to fines and other legal or administrative sanctions. See Item 4.B. Information on the Company Business Overview Regulation Regulations relating to Employee Share Options of this Form 20-F.

Our independent registered public accounting firm, Ernst & Young Hua Ming LLP, like other independent registered public accounting firms operating in China, is not permitted to be subject to inspection by Public Company Accounting Oversight Board, and as such, investors may be deprived of the benefits of such inspection.

Our independent registered public accounting firm, Ernst & Young Hua Ming LLP, which issues the audit reports included in certain of our reports filed with the SEC, as an auditor of companies that are traded publicly in the United States and a firm registered with the Public Company Accounting Oversight Board (United States), (PCAOB), is required by the laws of the United States to undergo regular inspections by PCAOB to assess its compliance with the laws of the United States and professional standards. Because our auditor is located in China, a jurisdiction where PCAOB is currently unable to conduct inspections without the approval of the PRC authorities, our auditor, like other independent registered public accounting firms operating in China, is currently not inspected by PCAOB.

Inspection of other firms that PCAOB has conducted outside of China have identified deficiencies in those firms' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. The inability of PCAOB to conduct inspections of independent registered public accounting firms operating in China makes it more difficult to evaluate the effectiveness of our auditor's audit procedures or quality control procedures. As a result, investors may be deprived of the benefits of PCAOB inspections.

Recent action being taken by the SEC against the PRC affiliates of the Big Four accounting firms, including our auditor, could create additional uncertainty about the status of audits of U.S.-listed PRC-based companies and may materially and adversely affect the liquidity and value of our ADSs.

In December 2012, the SEC instituted administrative proceedings against five PRC-based accounting firms, including our independent registered public accounting firm, alleging that these firms had violated U.S. securities laws and the SEC's rules and regulations thereunder by failing to provide to the SEC the firms' audit papers and other documents related to certain PRC-based companies that were publicly traded in the United States and which were the subject of certain ongoing SEC investigations. On January 22, 2014, an administrative law judge issued a decision, censuring these accounting firms and suspending four of the five firms from practicing before the SEC for a period of six months, including our independent registered public accounting firm. The administrative law judge's decision is neither final nor legally effective unless and until reviewed and approved by the SEC. On February 12, 2014, the accounting firms filed an appeal with the SEC regarding the administrative law judge's decision. The sanction will not become effective until after a full appeal process is concluded and a final decision is issued by the SEC. The accounting firms can also further appeal the final decision of the SEC through the federal appellate courts.

On May 24, 2013, PCAOB announced that it had entered into a Memorandum of Understanding on Enforcement Cooperation with the CSRC, and the Ministry of Finance which establishes a cooperative framework between the parties for the production and exchange of audit documents relevant to investigations in the United States and China. However, it is not clear how the CSRC and the Ministry of Finance will react to the January 22, 2014 decision and whether the Memorandum of Understanding could affect the SEC's final decision in the case against the five accounting firms or any subsequent appeal to courts that the accounting firms may initiate. Therefore, it is difficult to determine the final outcome of the administrative proceedings and the potential consequences thereof.

We were not and are not the subject of any SEC investigations regarding the independent accounting firms nor are we involved in the proceedings brought by the SEC against the accounting firms. If the SEC is successful in the proceedings, it could result in the accounting firms, including our independent registered public accounting firm losing, temporarily or permanently, the ability to practice before the SEC. While we cannot predict the outcome of the SEC's proceedings, if the accounting firms including our independent registered public accounting firm were denied, temporarily or permanently, the ability to practice before the SEC, and we are unable to find timely another registered public accounting firm which can audit and issue a report on our financial statements, our financial statements could be determined to not be in compliance with the requirements for financial statements of public companies registered under the Exchange Act of 1933. Such a determination could ultimately lead to the delisting of our common stock from the New York Stock Exchange or deregistration from the SEC, or both, which would substantially reduce or effectively terminate the trading of our common stock in the United States.

Fluctuations in the exchange rates of the Renminbi could materially and adversely affect the value of our shares, ADSs or notes and result in foreign currency exchange losses.

Substantially all of our revenues, cash and cash equivalent assets, costs and expenses, are denominated in Renminbi, and the functional currency of our principal operating subsidiaries and consolidated controlled entities is the Renminbi. On the other hand, a portion of our expenditures are denominated in foreign currencies, primarily the U.S. dollar, and we use the U.S. dollar as our functional and reporting currency. The ADSs and our notes are also traded in U.S. dollars. As a result, the value of your investment in our ADSs or notes will be affected by fluctuations in exchange rates, particularly appreciation or depreciation in the value of the Renminbi relative to the U.S. dollar and other foreign currencies, without giving effect to any underlying change in our business or results of operations.

The exchange rates between the Renminbi and the U.S. dollar and other foreign currencies are affected by, among other things, changes in China's political and economic conditions. In July 2005, the PRC government discontinued pegging the Renminbi to the U.S. dollar. However, the PBOC regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate. Nevertheless, under China's current exchange rate regime, the Renminbi may appreciate or depreciate significantly in value against the U.S. dollar in the medium to long term. Moreover, it is possible that in the future the PRC authorities may lift restrictions on fluctuations in the Renminbi exchange rate and lessen intervention in the foreign exchange market. Fluctuations in the exchange rate will also affect the relative value of any dividend we declare and distribute that will be exchanged into U.S. dollars and earnings from and the value of any U.S. dollar-denominated investments we make in the future. To the extent that we need to convert future financing proceeds into Renminbi for our operations, any appreciation of the Renminbi against the relevant foreign currencies would materially reduce the Renminbi amounts we would receive from the conversion. On the other hand, if we decide to convert our Renminbi into U.S. dollars for the purpose of making payments of dividends on our shares or for other business purposes when the U.S. dollar appreciates against the Renminbi, the amounts of U.S. dollars we would receive from such conversion would be reduced. In addition, any depreciation of our U.S. dollar-denominated monetary assets could result in a charge to our income statement and a reduction in the value of our assets.

In addition, very limited hedging transactions are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedging transactions may be limited and we may not be able to successfully hedge our exposure at all. In addition, our currency exchange losses may be magnified by PRC exchange control regulations that restrict our ability to convert Renminbi into foreign currency.

You may experience difficulties in effecting service of legal process, enforcing foreign judgments or bringing original actions in China based on United States or other foreign laws against us or our management.

We are a company incorporated under the laws of the Cayman Islands. We conduct our operations in China and substantially all of our assets are located in China. In addition, certain of our directors and executive officers reside within China, and most of the assets of these persons are located within China. As a result, it may not be possible to effect service of process within the United States or elsewhere outside China upon these directors, and executive officers, including with respect to matters arising under U.S. federal securities laws or applicable state securities laws. Jingtian & Gongcheng, our PRC legal counsel, has advised us that the recognition and enforcement of foreign judgments are provided for under the PRC Civil Procedure Law. PRC courts may recognize and enforce foreign judgments in accordance with the requirements of the PRC Civil Procedure Law based either on treaties between China and the country where the judgment is made or on reciprocity between jurisdictions. Currently, there are no treaties between the United States and China for the recognition or enforcement of U.S. court judgments in China. As a result, recognition and enforcement in China of judgments of a court in the United States or any other jurisdiction in relation to any matter not subject to a binding arbitration agreement may be difficult. Pursuant to the PRC Civil

Procedure Law, any matter, including matters arising under U.S. federal securities laws, in relation to assets or personal relationships may be brought as an original action in China, only if the institution of such action satisfies the conditions specified in the PRC Civil Procedure Law. As a result of the conditions set forth in the PRC Civil Procedure Law and the discretion of the PRC courts to determine whether the conditions are satisfied and whether to accept the action for adjudication, there remains uncertainty as to whether an investor will be able to bring an original action in a PRC court based on U.S. federal securities laws. In addition, in the event that foreign judgments contravene the basic principles of laws of China, endanger PRC state sovereignty or security, or are in conflict with the public interest of China, PRC courts will not recognize and enforce such foreign judgments.

Risks related to our notes, ADSs and ordinary shares

The market price movement of our ADSs and notes may be volatile.

The market prices of our ADSs and/or notes may be volatile and subject to wide fluctuations. Among the factors that could affect the prices of our ADSs and/or notes are risk factors described in this section and other factors, including:

announcements of competitive developments;

regulatory developments in our target markets in China which affect us, our users, our customers or our competitors;

actual or anticipated fluctuations in our quarterly results of operations;

failure of our quarterly financial and results of operations to meet market expectations or failure to meet our previously announced guidance;

changes in financial estimates by securities research analysts;

changes in the economic performance or market valuations of other Internet or online real estate and home-related services companies;

additions or departures of our executive officers and other key personnel;

announcements regarding intellectual property litigation (or potential litigation) involving us or any of our directors and officers;

negative publicity and short seller reports that make allegations against us or our affiliates, even if unfounded;

fluctuations in the exchange rates between the U.S. dollar and the Renminbi;

fluctuations in short or long-term interest rates; and/or

sales or perceived sales of additional ordinary shares, ADSs or notes, including under the registration statement we have on file with the SEC to enable certain of our affiliates to sell their shares.

In addition, the securities markets have from time to time experienced significant price and volume fluctuations that are not related to the operating performance of particular industries or companies. For example, the capital and credit markets have experienced significant volatility and disruption in recent years. In September 2008, such volatility and disruption reached extreme levels and developed into a global crisis. As a result, stock prices of a broad range of companies worldwide, whether or not they were related to financial services, declined significantly. Future market fluctuations may also have a material adverse effect on the market prices of our ADSs and/or notes.

We may need additional capital, and the sale of additional ADSs, convertible notes or other equity securities could result in additional dilution to our shareholders, while the incurrence of debt may impose restrictions on our operations.

We believe that our current cash and cash equivalents and anticipated cash flow from operations will be sufficient to meet our anticipated cash needs for the foreseeable future. We may, however, require additional cash resources due to changed business conditions or other future developments, including any investments or acquisitions we may decide to pursue. If these resources are insufficient to satisfy our cash requirements, we may seek to sell equity or debt securities or obtain a credit facility. The sale of equity securities would result in dilution to our shareholders. The incurrence of indebtedness would result in increased debt service obligations and could require us to agree to operating and financing covenants that would restrict our operations.

As a foreign private issuer, we are permitted to, and we rely on exemptions from certain corporate governance standards of The New York Stock Exchange applicable to U.S. issuers, including the requirement that a majority of an issuer's directors consist of independent directors. This may afford less protection to holders of our ordinary shares, ADSs and notes.

We are a foreign private issuer under the securities laws of the United States and the rules of The New York Stock Exchange. Under the securities laws of the United States, foreign private issuers are subject to different disclosure requirements than U.S. domiciled registrants, as well as different financial reporting requirements. Under the rules of The New York Stock Exchange, a foreign private issuer is subject to less stringent corporate governance requirements. Subject to certain exceptions, the rules of The New York Stock Exchange permit a foreign private issuer to follow its home country practice in lieu of the listing requirements of The New York Stock Exchange. The corporate governance practice in our home country, the Cayman Islands, does not require a majority of our board to consist of independent directors or that we have annual meetings to elect directors. We currently rely on the exemptions provided by The New York Stock Exchange to a foreign private issuer and have a board of directors with a majority of non-independent directors, an audit committee comprised of independent directors, a compensation committee with one non-independent director and a nominating and corporate governance committee with one non-independent director. As a result, you may not have the same protections afforded to stockholders of companies that are subject to all of the corporate governance requirements of The New York Stock Exchange.

As a foreign private issuer, we are exempt from certain disclosure requirements under the Exchange Act, which may afford less protection to our shareholders than they would enjoy if we were a U.S. company.

As a foreign private issuer, we are exempt from, among other things, the rules prescribing the furnishing and content of proxy statements under the Exchange Act. In addition, our executive officers, directors and principal shareholders are exempt from the reporting and short-swing profit and recovery provisions contained in Section 16 of the Exchange Act. We are also not required under the Exchange Act to file periodic reports and financial statements with the SEC as frequently or as promptly as U.S. companies whose securities are registered under the Exchange Act. As a result, our shareholders may be afforded less protection than they would under the Exchange Act rules applicable to U.S. companies.

Since shareholder rights under Cayman Islands law differ from those under U.S. law, you may have difficulty protecting your shareholder rights.

Our corporate affairs are governed by our amended and restated memorandum and articles of association, the Companies Law of the Cayman Islands (the Cayman Companies Law) and the common law of the Cayman Islands. The rights of shareholders to take action against our directors, actions by minority shareholders and the fiduciary responsibilities of our directors to us and to our shareholders under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, which has persuasive, but not binding, authority on a court in the Cayman Islands.

The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are not as clearly established as they are under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a less developed body of securities laws as compared to the United States, and some states, such as Delaware, have more fully developed and judicially interpreted bodies of corporate law. In addition, shareholders of Cayman Islands companies may not have standing to initiate a shareholder derivative action in a federal court of the United States.

As a result, public shareholders of Cayman Islands companies may have more difficulty in protecting their interests in connection with actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a U.S. company.

The voting rights of holders of ADSs are limited by the terms of the deposit agreement.

A holder of our ADSs may only exercise the voting rights with respect to the underlying ordinary shares in accordance with the provisions of the deposit agreement. Upon receipt of voting instructions of a holder of ADSs in the manner set forth in the deposit agreement and the restricted deposit agreement pursuant to which ADSs are issuable upon conversion of the notes, the depository will endeavor to vote the underlying ordinary shares in accordance with these instructions. Under our amended and restated articles of association and Cayman Islands law, the minimum notice period required for convening a general meeting is 10 days. When a general meeting is convened, you may not receive sufficient notice to permit you to withdraw your ordinary shares and allow you to cast your vote as a direct shareholder with respect to any specific matter. In addition, the depository and its agents may not be able to send voting instructions to you or carry out your voting instructions in a timely manner. We will make all reasonable efforts to cause the depository to extend voting rights to you in a timely manner, but we cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depository to vote your shares. Furthermore, the depository and its agents will not be responsible for any failure to carry out any instructions to vote, for the manner in which any vote is cast or for the effect of any such vote. As a result, you may not be able to exercise your right to vote and you may lack recourse if the ordinary shares underlying your ADSs are not voted as you requested.

You may not be able to participate in rights offerings and may experience dilution of your holdings.

We may, from time to time, distribute rights to our shareholders, including rights to acquire securities. We cannot offer or sell securities in the United States unless we register those securities under the Securities Act of 1933, as amended (the Securities Act) or unless an exemption from the registration requirements of the Securities Act is available. Under the deposit agreement, the depositary will not distribute rights to holders of ADSs unless the distribution and sale of rights and the securities to which these rights relate are either exempt from registration under the Securities Act with respect to all holders of ADSs, or are registered under the Securities Act. The depositary may, but is not required to, attempt to sell such undistributed rights to third parties in this situation. We can give no assurances that we will be able to establish an exemption from registration under the Securities Act, and we are under no obligation to file a registration statement with respect to these rights or underlying securities or to endeavor to have a registration statement declared effective. Accordingly, holders of ADSs may be unable to participate in any rights offerings and may experience dilution of their holdings as a result.

If the depositary is unable to sell rights that are not exercised or not distributed or if the sale is not lawful or reasonably practicable, it will allow the rights to lapse, in which case you will receive no value for these rights.

You may not receive distributions on ordinary shares or any value for them if it is illegal or impractical to make them available to you.

The depositary for our ADSs has agreed to pay to you the cash dividends or other distributions it or its custodian receives on ordinary shares or other deposited securities after deducting its fees and expenses. You will receive these distributions in proportion to the number of ordinary shares your ADSs represent. For example, as of the date of this Form 20-F, five ADSs represent one Class A ordinary share. However, the depositary is not required to make such distributions if it decides that it is unlawful or impractical to make a distribution available to any holder of ADSs. For example, it would be unlawful to make a distribution to holders of ADSs if it consisted of securities that required registration under the Securities Act, but were not properly registered or distributed pursuant to an applicable exemption from registration. It could also be impracticable to make a distribution if doing so would entail fees and expenses that would exceed the value of the distribution or the distribution consisted of property that could not be transported or transferred. We have not undertaken any obligation to register under U.S. securities laws any ADSs, ordinary shares, rights or other securities that may be distributed to our shareholders. We also have not undertaken any obligation to take any other action to permit the distribution of ADSs, ordinary shares, rights or anything else to holders of ADSs. This means that you may not receive any distribution we make on our ordinary shares or any value for it if it is illegal or impractical for us to make such distribution available to you, such as if an exemption from registration under the U.S. securities laws is not available. These restrictions may decrease the value of your ADSs.

We may be required to withhold PRC income tax on any dividend we pay you, and any gain you realize on the transfer of our ordinary shares and/or ADSs may also be subject to PRC withholding tax.

Pursuant to the New EIT Law, we and our offshore subsidiaries, such as Bravo Work, China Index Academy and China Home Holdings (HK) Limited, may be treated as a PRC resident enterprise for PRC tax purposes. See Risks related to doing business in China We may be treated as a resident enterprise for PRC tax purposes under the New EIT Law and therefore be subject to PRC taxation on our worldwide income. If we and our offshore subsidiaries are so treated by the PRC tax authorities, we would be obligated to withhold a 10.0% PRC withholding tax for non-resident enterprises or a 20.0% PRC withholding tax for non-resident individuals, or a withholding tax at a reduced rate as provided under the applicable double tax treaty between China and the governments of other jurisdictions on any dividend we pay to you, subject to completion of the record-filing procedures and approval from the relevant tax authorities, pursuant to a Circular No. 124 issued by SAT in August 2009 (Circular 124).

In addition, any gain realized by any investors who are non-resident enterprises or non-resident individuals of China from the transfer of our ordinary shares, ADSs and/or notes could be regarded as being derived from sources within China and be subject to a 10.0% or 20.0% PRC withholding tax, respectively. Such PRC withholding tax would reduce your investment return on our ordinary shares, ADSs and/or notes and may also materially and adversely affect the prices of our ADSs and/or notes.

Our dual-class ordinary share structure with different voting rights could discourage others from pursuing any change of control transactions that holders of our Class A ordinary shares and ADSs may view as beneficial.

Our ordinary shares are divided into Class A ordinary shares and Class B ordinary shares. Holders of Class A ordinary shares are entitled to one vote per share, while holders of Class B ordinary shares are entitled to 10 votes per share. Five ADSs represent one Class A ordinary share and the number of votes to which each ADS would be entitled to is the number of Class A ordinary shares it represents. A number of our shareholders, including primarily Media Partner and Next Decade, whose shares are held in irrevocable discretionary trusts established by Mr. Mo, hold Class B ordinary shares. We intend to maintain the dual-class ordinary share structure. Each Class B ordinary share is convertible into one Class A ordinary share at any time by its holder and Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon any transfer of Class B ordinary shares by a Class B ordinary shareholder to any person or entity which is not a majority-owned and majority-controlled subsidiary of certain of our shareholders as set forth in our amended and restated articles of association, such Class B ordinary shares will be automatically and immediately converted into the equal number of Class A ordinary shares.

Due to the disparate voting powers attached to these classes of shares, our shareholders holding Class B ordinary shares have significant voting power over matters requiring shareholder approval, including election of directors and significant corporate transactions, such as a merger or sale of our Company or our assets. This concentrated control could discourage others from pursuing any potential merger, takeover or other change-of-control transactions that holders of Class A ordinary shares and ADSs may view as beneficial.

Our articles of association contain anti-takeover provisions that could adversely affect the rights of holders of our ordinary shares and ADSs

We have included certain provisions in our current articles of association that would limit the ability of others to acquire control of our Company. These provisions could deprive our shareholders of the opportunity to sell their ordinary shares at a premium over the prevailing market price by discouraging third parties from seeking to obtain control of our Company in a tender offer or similar transactions. These provisions include the following:

A dual-class ordinary share structure; and

Our board of directors, without further action by our shareholders, may issue preferred shares with special voting rights compared to our ordinary shares.

Servicing our debt requires a significant amount of cash, and we may not have sufficient cash flow from our business to pay our substantial debt.

Our ability to make scheduled payments of the principal of, to pay interest on or to refinance our indebtedness, including the notes, depends on our future performance, which is subject to economic, financial, competitive and other factors beyond our control. Our business may not continue to generate cash flow from operations in the future sufficient to service our debt and make necessary capital expenditures. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as selling assets, restructuring debt or obtaining additional equity capital on terms that may be onerous or highly dilutive. Our ability to refinance our indebtedness will depend on the capital markets and our financial condition at such time. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on our debt obligations.

We may incur more debt or take other actions which would intensify the risks discussed above.

We and our subsidiaries and consolidated controlled entities may incur substantial additional debt in the future, some of which may be secured debt. We will not be restricted under the terms of the indenture governing the notes from incurring additional debt, securing existing or future debt, recapitalizing our debt or taking a number of other actions that are not limited by the terms of the indenture governing the notes that could have the effect of diminishing our ability to make payments on the notes when due.

We may not have the ability to raise the funds necessary to repurchase the notes upon a fundamental change (as defined in the indenture for the notes) or on December 15, 2016, and our future debt may contain limitations on our ability to repurchase the notes.

Holders of our outstanding notes will have the right to require us to repurchase their notes on December 15, 2016 and upon the occurrence of a fundamental change (as defined in the indenture for the notes) at a repurchase price equal to 100% of the principal amount of the notes to be repurchased, plus accrued and unpaid interest under certain circumstances. However, we may not have enough available cash or be able to obtain financing at the time we are required to make repurchases of notes surrendered therefor. In addition, our ability to repurchase the notes may be limited by law, by regulatory authority or by agreements governing our future indebtedness. Our failure to repurchase notes at a time when the repurchase is required by the indenture would constitute a default under the indenture. A default under the indenture or the fundamental change itself could also lead to a default under agreements governing any future indebtedness. If the repayment of any future indebtedness were to be accelerated after any applicable notice or grace periods, we may not have sufficient funds to repay the indebtedness and repurchase the notes.

The future sale of substantial amounts of the ADSs and/or convertible notes could lower the market price for the ADSs and/or our outstanding notes, as the case may be.

Sales of substantial amounts of the ADSs in the public market, or the perception that these sales could occur, could adversely affect the market price of our ADSs, could materially impair our ability to raise capital through equity offerings in the future and could adversely impact the trading price of the ADSs and/or the notes. The ADSs outstanding not held by our affiliates are freely tradable without restriction or further registration under the Securities Act, and shares held by our affiliates may also be sold in the public market in the future subject to the restrictions in Rule 144 under the Securities Act. We may also issue additional options in the future which may be exercised for additional ordinary shares and additional restricted shares and restricted share units. As of December 31, 2013, we had 81,777,545 ordinary shares outstanding, 7,918,231 ordinary shares reserved for issuance under our outstanding share-based awards and 2,579,616 ordinary shares reserved for issuance under our employee benefit plans for future share-based awards. We cannot predict what effect, if any, market sales of securities held by our significant shareholders or any other shareholder or the availability of these securities for future sale will have on the market price of the ADSs or the trading price of the notes.

We may become a passive foreign investment company (PFIC) which could result in adverse U.S. tax consequences to U.S. investors.

A non-U.S. corporation is deemed a PFIC for any taxable year if either (i) at least 75% of its gross income for such year is passive income or (ii) at least 50% of the value of its assets (based on an average of the quarterly values of the assets) during such year is attributable to assets that produce passive income or are held for the production of passive income. We operate an active real estate Internet portal in China. Based on the market price of our ADSs, the value of our assets, and the composition of our income and assets, we do not believe we were a PFIC for the taxable year ended December 31, 2013 and we do not believe that we are likely to become one in our current taxable year or any future tax years. The determination of whether a non-U.S. corporation is a PFIC is made on an annual basis after the close of each tax year. There can be no assurance that we will not be a PFIC for our current taxable year or any future tax year. The most consequential factor affecting the outcome of annual PFIC determination in current and future tax years will be our market capitalization. Because items of working capital are generally treated as passive assets for PFIC purposes, accumulating cash, cash equivalents and other assets that are readily convertible into cash increases the risk that we will be classified as a PFIC for U.S. federal income tax purposes. A determination that we are a PFIC could result in adverse U.S. tax consequences to you if you are a U.S. taxpayer and own our ADSs or ordinary shares, in the form of increased tax liabilities and burdensome reporting requirements. For example, if we were a PFIC, you would generally be taxed at the higher ordinary income rates, rather than the lower capital gain rates, if you dispose of ADSs or ordinary shares at a gain in a later year, even if we are not a PFIC in that year. In addition, a portion of the tax imposed on your gain would be increased by an interest charge. Certain elections may be available to certain of our holders, however, that would mitigate these adverse tax consequences to varying degrees. Also, if we were classified as a PFIC in any taxable year, you would not be able to benefit from any preferential tax rate (if any) with respect to any dividend distribution that you may receive from us in that year or in the following year. Since our business and assets may evolve over time in ways that are different from what we currently anticipate, we cannot assure you that we will not be a PFIC for our current taxable year or any future taxable year. For more information on the tax consequences to you if we were treated as a PFIC, see Item 10.E. Additional Information Taxation United States federal income taxation of this Form 20-F.

ITEM 4. INFORMATION ON THE COMPANY

A. History and Development of the Company

We were incorporated on June 18, 1999 as Fly High Holdings Limited, under the laws of the British Virgin Islands, and on July 14, 1999, we changed our name to SouFun.com Limited. On June 17, 2004, we changed our corporate domicile to the Cayman Islands, becoming a Cayman Islands exempted company with limited liability. On June 22, 2004, we changed our name to SouFun Holdings Limited. Since our inception, we have conducted our operations in China primarily through our PRC subsidiaries and consolidated controlled entities.

On September 17, 2010, we completed our initial public offering and listing of 2,933,238 ADSs, each representing four Class A ordinary shares, on the New York Stock Exchange, which are traded under the symbol of SFUN. Concurrently with our initial public offering, our majority shareholder, Telstra International Holdings Ltd. (Telstra International), an indirect, wholly owned subsidiary of Telstra Corporation Limited, a Fortune Global 500 company, sold to General Atlantic Mauritius Limited (General Atlantic), Apax, Next Decade and Digital Link Investments Limited, or Digital Link, all of its remaining shares in our Company in a private sale at the initial public offering price.

On February 18, 2011, we changed our ADS share ratio from one ADS representing four Class A ordinary shares to one ADS representing one Class A ordinary share.

On April 7, 2014, we changed our ADS share ratio from one ADS representing one Class A ordinary share to five ADSs representing one Class A ordinary shares.

Our principal executive offices are located at F9M, Building 5, Zone 4, Hanwei International Plaza, No. 186 South 4th Ring Road, Fengtai District, Beijing 100070, the People's Republic of China. Our telephone number at this address is +8610 5631 8000. Our website address is www.SouFun.com. We do not incorporate the information on our website into this Form 20-F. You can obtain the other reports we file with the SEC. See [Where you can find more information](#).

B. Business Overview

Overview

We operate the leading real estate Internet portal in China in terms of the number of page views and visitors to our websites in 2013, according to reports issued by Data Center of China Internet (DCCI), an independent market research institution commissioned by us. We also operate one of the leading home furnishing and improvement websites in terms of unique visitors according to research from DCCI. Through our websites and various mobile applications, we provide marketing, e-commerce, listing and other value-added services for China's fast-growing real estate and home-related sectors. Our user-friendly websites and mobile applications support active online communities and networks of users seeking information on, and other value-added services for, the real estate and home-related sectors in China. Our current service offerings include:

Marketing services: We offer marketing services on our websites and mobile applications, mainly through advertisements, to real estate developers in the marketing phase of new property developments, as well as to real estate agencies and suppliers of home furnishing and improvement and other home-related products and services who wish to promote their products and services. Marketing services are our largest source of revenues.

E-commerce services: We began to offer e-commerce services in 2011, including SouFun membership services and online transaction platform services. We provide both free and paid SouFun membership services to registered members of our SouFun cards. Our free services include primarily regular updates regarding local property developments, tours to visit property developments and other services relating to property purchases. Our paid services primarily include offers to purchase properties at a discount from our partner developers and dedicated information and related services to facilitate property purchases. Our members pay a specified fee for each property in order to be eligible for the discount. Prior to 2012, our SouFun membership services were categorized as other value-added services and products. In addition, through our www.jiatx.com website, we offer an online transaction platform and related e-commerce services to home furnishing and improvement vendors in China. Our SouFun membership services have grown rapidly, making e-commerce services the second largest source of our revenues in 2012 and 2013.

Listing services: We offer basic and special listing services on our websites and mobile applications. Our basic listing services are primarily offered to real estate agents, brokers, developers, property owners and managers and suppliers of home furnishing and improvement and other home-related products and services. Our basic listing services allow our customers to post information of their products and services on our websites. Our special listing services offer customized marketing programs involving both online listings and offline themed events. Listing services were the third largest source of revenues in 2013.

Other value-added services: We offer subscription-based access to our information database and research reports and total web solution services. In 2009 and 2010, we also sold other value-added products which consisted of prepaid cards issued by home furnishing and improvement vendors. We ceased the sale of prepaid cards in 2011. In December 2013, we launched our financial services platform SouFun Financial Services Channel to bring third party financial products and services to our home buying members, SouFun certified agents in major cities in China, and developers and home improvement products and services providers.

We have built a large and active community of users, who are attracted by the comprehensive real estate and home related content available on our portal that forms the foundation of our service offerings. We currently maintain approximately 100 offices across China to focus on local market needs. Our user base has also attracted numerous customers, which include real estate developers, real estate agents and brokers, property owners, property managers, mortgage brokers, lenders and suppliers of home furnishing and improvement and other home-related products and services. Our diverse offerings and broad geographic coverage have resulted in an active and dynamic online community that provides an effective and targeted channel for advertisers to market their products and services, and serves as a centralized source of information, products and services for consumers in the real estate and home furnishing and improvement and other home-related markets.

In 2011, 2012 and 2013, we had revenues of US\$343.8 million, US\$430.3 million and US\$637.4 million, respectively, representing a compound annual growth rate (CAGR) of 36.2%. During the same periods, our net income attributable to our shareholders was US\$101.6 million, US\$151.8 million and US\$298.6 million, respectively, representing a CAGR of 71.5%.

Our Services

We provide (i) marketing services, (ii) e-commerce services, (iii) listing services, and (iv) other value-added services, to participants in the PRC real estate and home-related sectors primarily through our websites and our mobile applications.

Marketing Services

We target our marketing services toward participants in China's real estate and home-related sectors. Marketing is our most important business. Revenues from marketing services were US\$246.6 million, US\$249.9 million and US\$278.3 million in 2011, 2012 and 2013, respectively, representing 71.7%, 58.1% and 43.7% of our revenues, respectively. Our marketing services are delivered through our website www.soufun.com and our mobile applications, which can be downloaded from both AppStore and Andriod operating system, and include traditional Internet advertisements such as banners, links, logos and floating signs, as well as featured promotions, which are specially-tailored packages of traditional online advertising tools, such as Internet advertisements, combined with our other services. Customers of our marketing services include a broad range of participants in the PRC real estate and home-related sectors, such as:

real estate developers;

real estate professionals, such as agents and brokers;

retailers and other suppliers of home furnishing and improvement products and services;

home design, decoration and re-modeling companies; and

banks offering residential mortgage loan products.

We also combine traditional online advertising tools with our other services to create featured promotion packages for our customers. Using the inherent flexibility of website advertising, we create customized marketing and promotional packages with additional features at the request of our customers to meet the different needs of various customers operating in diverse geographic markets in China. We believe that we have the opportunity to provide additional features to generate additional revenues without incurring significant additional costs. Marketing services have been and will continue to be a growth area for us, as we believe that participants in China's real estate and home-related sectors are increasingly looking to the Internet and mobile application as an additional vehicle through which to attract customers.

We generally enter into two main types of marketing contracts with our customers. The first type is a framework contract with payment due on a monthly basis. The second type is a general contract with payment due on either a quarterly or semi-annual basis or with 50% of the contract amount payable within seven days of the execution of the contract and the remainder payable within seven days of the expiration of the contract. Our marketing contracts generally have a one-year term.

E-commerce Services

We began to offer e-commerce services in 2011, which include SouFun membership services and online transaction platform services. Our revenues generated from e-commerce services were US\$24.2 million, US\$102.2 million and US\$188.1 million in 2011, 2012 and 2013, respectively, representing 7.0%, 23.8% and 29.5% of our revenues, respectively.

SouFun Membership Services. We provide both free and paid membership services to the registered members of our SouFun cards on our websites and mobile applications. Our free services include primarily regular updates regarding local property developments, tours to visit property developments and other services relating to properties purchases. Our paid services primarily include offers to home buyers to purchase properties with discounts from our partner developers and dedicated information and related services to facilitate property purchases, which we began to offer in 2011. Our membership fees for paid services generally range from RMB5,000 to RMB20,000. The discount is reflected as a fixed amount off, or a percentage discount to, the total purchase price paid by a home buyer for a specified property, or a combination of both, which is determined by us and our partner developers. The discounts are significantly higher than our membership fees, resulting in net savings for our members. Membership fees are refundable until our members use the discounts to purchase properties. Our members pay a specified fee each time in order to be eligible for the discount provided for a particular property. In 2013, we offered discounts on 1,534 property developments in 48 cities in China. Our revenues from SouFun membership services totaled US\$22.5 million, US\$102.0 million and US\$188.1 million in 2011, 2012 and 2013, respectively, or 6.5%, 23.7% and 29.5% of our total revenues for the same periods.

Online Transaction Platform Services. In early 2011, we launched online transaction platform and related e-commerce services for the home furnishing and improvement sector through www.jiatx.com to third-party merchants of home furnishing and improvement products and services. Products sold on www.jiatx.com include basic raw materials, furniture, home decoration items, hardware, bathroom accessories and kitchen utensils. We earn a commission, which ranges from 5% to 15% of the sales transaction amount, from the third-party merchants when a transaction is completed through our marketplace and online payment platforms.

Listing Services

Our listing services include basic listing services and special listing services on our websites and mobile applications. Our revenues from listing services were US\$67.1 million, US\$72.9 million and US\$161.5 million in 2011, 2012 and 2013, respectively, representing 19.6%, 16.9% and 25.3% of our total revenues in those years, respectively.

Basic Listing Services. Basic listing services contributed approximately 82.5%, 76.3% and 90.2% of our listing service revenues in 2011, 2012 and 2013, respectively. Real estate developers, owners, agents, brokers, managers and suppliers of home furnishing and improvement products and services subscribe to our basic listing services for a fee, which allow them to post listings for properties or home furnishing and improvement products and services over the subscription periods. All visitors to our websites have access to listing information free of charge.

Most of our basic listing subscription contracts are one to three months in duration. We typically collect payments for such subscriptions for our basic listing services upon the signing of a subscription contract. We also offer longer arrangements, such as to certain large real estate agencies. For subscription contracts with longer terms, the contract prices are generally payable in installments every one to three months until the end of the contract term.

We offer free trials of our basic listing services. These free trials allow users to experience our basic listing services and high user traffic. While there is no time restriction on our free trials, there are incentives for free trial users to upgrade their free trial accounts to paid subscriptions for our basic listing services because listings posted through free trial accounts are featured in less prominent positions and rankings than those of subscribers. As of December 31, 2013, we had 190,168 paying subscribers to our basic listing services, compared to 128,667 paying subscribers as of December 31, 2012.

In addition, we allow individual property owners to list their own properties for sale or rent on our property listing sections without charge. Such free listings do not enjoy prime positioning and are strictly limited to individual, non-real estate professional home owners. To help prevent real estate professionals from abusing the individual property owner basic listing service, we have created a customer hotline for our users to report any abuse.

Our basic listing services help us build our comprehensive database of information regarding new, secondary and rental properties as well as home furnishing and improvement products and services in major urban centers across China. The increasing amount of our basic listings results in increased user traffic on our websites, which we believe can be leveraged to yield more marketing and special listing customers and higher marketing and special listing fees from our institutional customers.

We update the listing data on our websites and mobile applications on a daily basis through our proprietary content management process and software. This proprietary content management process is monitored by our listing monitoring team and allows our customers to submit listing information in a specific format. Our listing monitoring team periodically checks all listing information uploaded to our websites to identify common anomalies in posted information in order to limit unreliable data. Once we discover false information in a listing, we liaise with the real estate agent or broker to rectify the listing immediately. If such listing information is not revised on a timely basis, we will move it into a database that cannot be accessed by our users.

Special Listing Services. Special listing services are tailor-made marketing campaigns provided primarily to developers marketing new property developments. Revenues from special listing services were US\$11.8 million, US\$17.2 million and US\$15.8 million in 2011, 2012 and 2013, respectively, representing 17.5%, 23.7% and 9.8% of our listing service revenues in those years, respectively.

Through collaboration among our research, product development and sales personnel, we identify property developments with similar attributes and create a plan for collectively promoting such property developments in a special listing, typically in the form of an online listing combined with an offline event. Once we determine a theme for a special listing program and identify suitable property developments for the program, our marketing and sales staff directly contact the targeted developers to solicit their participation in the special listing program. Each participating developer pays a specified fee to list its development in our special listing section for the duration of the program, which generally ranges from three months to one year. Some examples of our special listings include events and promotions for the top 100 PRC property developers and the China Villa Festival. We organized and hosted, both online and offline, ten consecutive China Villa Festivals from 2004 to 2013, each of which is an annual event that attracts media, real estate professionals, economists and industry academics. This special listing event was coupled with a marketing program which promoted and advertised various villa projects across 100 cities in China. We believe growth in new property developments will continue due to China's growing and increasingly affluent urban population, providing a steady market for our special listing services.

Other Value-added Services

In addition to marketing, e-commerce and listing services, we also provide other value-added services. Revenues from other value-added services were US\$5.9 million, US\$5.4 million and US\$9.4 million in 2011, 2012 and 2013, respectively, representing 1.7%, 1.2% and 1.5% of our revenues, respectively.

Online Content Subscription and Research Services. We utilize our extensive PRC real estate database and research capabilities to provide online content relating to the real estate sector through our websites, such as real estate database access, research services, real estate industry and company-specific research reports and home furnishing and improvement-related research. Our customers include PRC real estate enterprises as well as government entities. Our research group, China Index Academy, combines our research department resources with an advisory panel of leading real estate experts and industry professionals. The advisory panel provides strategic research guidance, identifies key issues facing the PRC real estate market and acts as an advisory board to China Index Academy and us. We provide online content subscription services on either a flat-fee subscription basis for database access or a per-project basis for our research services. We charge subscription fees based on the number of databases that the subscriber would like to access.

Total Web Solution Services. Total web solution services help our customers integrate their services and products into our websites as well as to design their own websites. Customers interested in targeting consumers in the real estate and home furnishing and improvement and other home-related sectors often request our assistance with website management, establishing website traffic tracking tools and electronic bulletin board services, a type of online information service that offers a shared environment where visitors to the website can leave messages, retrieve messages, engage in online discussions and exchange information with other visitors. We believe our total web solution services enable us to enhance our relationship with our customers by providing an additional avenue through which we can cross-sell other services, such as marketing, e-commerce and listing services. We believe our total web solution services also serve as an effective tool to educate and train our customers in marketing strategies. Such training is particularly important for customers located in smaller cities where local Internet penetration and sophistication may be lower than the larger and more developed cities in China.

Our Websites

Our principal website, www.soufun.com, is the leading real estate Internet portal and one of the leading home furnishing and improvement websites in China in terms of visitor traffic. According to DCCI, our website received a monthly average of approximately 61.4 million unique visitors in the fourth quarter of 2013. In addition, we had approximately 35.0 million registered members of our www.soufun.com website and had about 15.0 million registered members of our SouFun cards as of December 31, 2013.

As of December 31, 2013, our www.soufun.com website contained contents covering more than 330 cities across China, as well as Hong Kong, Taiwan, Singapore and Vancouver, Canada. This website also contains links to other specialized real estate and home furnishing and improvement websites, including our www.jiatx.com website, our e-commerce transaction and payment platform.

We believe user satisfaction ultimately rests on the appeal, attraction and functionality of our websites. Our Internet technology and sales and marketing teams spend considerable time and resources upgrading and enhancing our websites based on market trends and feedback from users and our marketing and listing customers. We distinguish ourselves from other websites focused on real estate and home-related products and services through the quality and breadth of our content. We also maintain a centralized customer service hotline and e-mail reporting system through which users can obtain assistance or otherwise contact us.

Our www.soufun.com website covers a wide spectrum of PRC real estate and home furnishing and improvement and other home-related information and constitutes the foundation and gateway for our primary business activities. We aim at providing a central forum of reliable information regarding China's real estate and home-related markets that is helpful to market participants in the transaction process. Our content, which is generally free to our website users, is designed to assist users with each step of the real estate and home furnishing and improvement and other home-related transaction process. Our extensive home-related content and information is organized into the following sections and categories on our website, which are intended to address the individual needs of our users.

Online Property Listings and Search Engines for New Home and Secondary and Rental Properties

Our www.soufun.com website contains databases for new home, secondary and rental properties, and provides search engines on such properties in our databases.

With our on-the-ground capabilities in approximately 100 offices in China, we devote significant resources to collect first-hand real estate market intelligence and listing information in such markets and to update such information on a regular basis. Our user-friendly search engines and website interfaces allow users to tailor their searches to specific types of properties by using search criteria. Users seeking information on properties in specific geographic locations can narrow their searches to a specific city and often to specific districts or areas in the vicinity of a particular subway line within that city by using pull-down menus. Users can further refine their searches using selection criteria, including price range, type of property, number of rooms and size. After selecting search parameters, users are directed to a page listing available properties as well as basic information about each individual property, including location, price, number of rooms and the source of the listing.

Information on Home Related Products and Services

Our www.soufun.com website contains information regarding design firms, contractors, do-it-yourself projects, building materials and a wide range of products and services relevant to home decoration and re-modeling, furniture and other home furnishing and services. We provide an efficient platform for companies in the home-related sector, which primarily include suppliers of furnishing and improvement products and services and are usually small in size, to promote their brands and establish their presence on the Internet. We also provide search tools enabling visitors to search for specific businesses by area of expertise, product or service category. For example, a visitor interested in searching for suppliers and installers of window products in Beijing can use our pull-down search tools to focus their search for businesses providing such products and services.

Other pull-down menus allow visitors to view numerous design concepts, model interior decoration plans or other home improvement ideas. After selecting search parameters, users are directed to a page listing applicable home furnishing and improvement products and services as well as basic information about each home furnishing and improvement product or service, including price, product and service information and the source of the information. Much of the content, pictures and graphics are provided by other users of the website, which allows people interested in home decoration and furnishing to share ideas and information online. Users can also use this section to find and compare the work and experience of architects and interior designers.

In early 2011, we launched our e-commerce services for the home furnishing and improvement sector through www.jiatx.com. We offer an online transaction platform and related e-commerce services to suppliers of home furnishing and improvement products and services. Products sold on www.jiatx.com include basic suppliers of home raw materials, furniture, home decoration items, hardware, bathroom accessories and kitchen utensils.

Real Estate Database and Information

Supported by our research group, China Index Academy, our website provides an extensive database for users to search real estate information, as well as general research reports regarding the PRC real estate industry at both the national and regional levels. The research section of our website provides research coverage of different topics within the PRC real estate industry. For example, our research database contains information on topics such as real estate projects, land information, real estate financing information, real estate-related laws and regulations and real estate public company information. We believe our research section serves to raise our profile as experts on the PRC real estate industry. Supported by a dedicated research team and an advisory board of leading real estate experts and industry professionals, our research section offers a collective body of knowledge that we believe is well-known in the PRC real estate industry.

Online Residential Communities

We offer online residential community services through our website, www.soufun.com. Such online residential community services provide a forum for visitors to share personal views, anecdotes and other information regarding different aspects of the PRC real estate market, specific property developments and residential communities and other subjects. They also provide a platform for conducting real estate and home furnishing and improvement and other home-related transactions online. We believe our electronic bulletin board forums, SouFun blogs and other online community-oriented services are valuable means for enhancing loyalty and brand awareness among our users by creating virtual communities sharing a common interest in PRC real estate and home-related topics. In addition to using such forums to increase website traffic, we are also exploring ways to generate new revenue streams from our online forums and community-oriented services.

Our Mobile Applications

We have developed a series of mobile applications to meet the diverse needs of home buyers, renters and real estate agents. The mobile applications are available for both iOS and Android operating systems and downloadable through our website or major app stores in China. At the end of 2013, approximately 30% of the daily active users were accessing our contents through our mobile platform (including WAP and mobile applications). Our major mobile applications include the following.

SouFun App

We believe our SouFun App is the leading consumer facing mobile application in China. Users can access a comprehensive listings of new home, secondary and rental properties and other community or property market information in over 300 large and medium-sized cities in China.

Listing Assistant

Listing Assistant is designed to serve as a mobile assistant to real estate agents. Through the application, agents can manage their listings, client databases and showing appointments. The application also provides additional features such as a home price evaluator and mortgage payment and tax calculator.

Rental Assistant

Rental Assistant is designed to serve as a mobile assistant to renters and landlords. Through the application, landlords can list rental properties and communicate with potential renters. Renters can browse rental property information through the listings or find roommates on the social platform incorporated into the app. They can also write reviews on property visits.

Our National Coverage

Currently we provide real estate-related content, search services, marketing and listing coverage of more than 330 cities across China and have on-the-ground personnel located in approximately 100 offices across China. In addition, we began to offer e-commerce services in 2011, and our SouFun membership services had already extended to 48 cities as of December 31, 2013. We believe this extensive nationwide coverage enhances our national brand image, and enables us to deliver consistent and quality marketing, e-commerce and listing services to customers. The real estate industry is inherently a local industry, and online marketing and online listing services targeted at the real estate industry are most effective when delivered by personnel familiar with and experienced in the relevant local markets. Our local personnel also provide our central office staff with valuable data regarding these local real estate markets, which contributes to our knowledge and expertise about real estate markets throughout China. In addition, our

network of branch offices helps us to tailor our marketing, e-commerce and listing services to local conditions and the needs of local real estate developers and real estate professionals, and to provide close after-sales support and services.

We have established a strong presence in 11 major cities, including Beijing and Shanghai, which are our level 1 cities, and Shenzhen, Chongqing, Tianjin, Chengdu, Guangzhou, Hangzhou, Wuhan, Suzhou and Nanjing, which are our level 2 cities. We entered these cities in the early stages of our development, and these cities have contributed and are expected to continue to contribute a majority of our revenues in the near future. In most of these cities, we offer our full line of services and target a full range of customers, including new home developers, agents, brokers, property managers and suppliers of home furnishing and improvement and other home-related products and services.

We also offer limited listing and other information relating to the real estate markets in Hong Kong, Taiwan, Singapore and Vancouver, Canada, but these markets do not constitute a material part of our business. The following map sets forth the cities we currently cover in mainland China:

As part of our growth strategy, we also intend to expand our coverage areas to include additional cities across China. The expansion will focus on cities with populations of over one million, strong potential for GDP growth and housing development, high attractiveness for real estate and home furnishing and improvement investment, as measured by the scale of property development, and stable Internet infrastructure. We believe this expansion could further solidify our reputation as one of China's leading real estate and home-related Internet companies, as well as provide us with new markets and sources of revenue.

Brand Awareness and Marketing

We believe our comprehensive listing database has made www.soufun.com a leading destination website for real estate participants in China. In addition, we seek to promote the SouFun brand through our directed selling efforts and other means, including our support for research, academic organizations and the publication of various research reports, event sponsorships, portal collaboration arrangements and marketing alliances. As a result, we believe the SouFun brand has become commonly associated with China's growing real estate and home-related sectors.

Real Estate Research and Reports

We believe our knowledge of China's real estate and home-related sectors provides a valuable competitive advantage and helps promote our brand name in the PRC real estate and furnishing and improvement market. The attractiveness of our marketing, e-commerce and listing services is rooted in our ability to commercialize various aspects of our databases and industry knowledge to create new and innovative services for our marketing, e-commerce and listing customers. To maintain and extend our leading position in this area, we seek to recruit and retain employees knowledgeable about China's real estate and home-related sectors through a variety of incentive measures, including share-based compensation plans. Members of our research department produce research reports and provide other information services that help promote our reputation as an informed participant in China's real estate and home-related sectors.

Event Sponsorships

We regularly sponsor real estate and home furnishing and improvement events attended by industry participants. For example, in March 2013, we hosted our tenth annual conference in Beijing to announce the Top 100 Property Developers in China together with the Enterprise Economic Research Institute of the Development Research Center of the PRC State Council and the Institute of Real Estate Studies of Tsinghua University, two of China's leading research institutions. Many PRC real estate developers and government agencies involved in the PRC real estate sector attended this conference. The event also attracted broad media attention and interest from the public in each of the past nine years that we held the event.

Portal Collaboration Arrangements

We work with well-known Internet portals to attract additional users to our websites. Our portal collaboration arrangements typically have terms ranging from one to three years, with fees paid to our portal collaboration partners in installments every three months.

We currently have portal collaboration arrangements with some of China's larger Chinese-language portals to generate user traffic to our website.

Advertising and Marketing

We conduct general marketing and advertising activities to promote awareness of the SouFun brand. We have also used outdoor advertisements in the Beijing Capital International Airport, bus bulletin boards and subway stations.

Our Sales Force

We have built a sales and marketing team that is experienced in the online advertising, Internet and real estate industries. As of December 31, 2013, our sales and marketing team consisted of approximately 4,243 persons located in approximately 100 offices across China. We also occasionally engage sales agents for collecting information on local markets or for specific business lines within local markets. Our sales and marketing team, together with these sales agents, work closely with our customers in local markets and help us gain insight into developments in these local markets, the competitive landscape and new market opportunities, which helps us to set our prices and strategies for each locality.

Our sales and marketing personnel are divided into the new homes, secondary and rental properties, home furnishing and improvements and research product groups. This structure allows our sales and marketing personnel to gain expertise with a specific subset of customers within the market sectors that we target, and to effectively design and market tailored services to customers within each subset.

To motivate our sales and marketing personnel, a majority of their compensation consists of performance incentives such as commissions and bonuses. Sales quotas are assigned to all sales personnel according to monthly, quarterly and annual sales plans. In addition, we apply a merit based promotion system to motivate our sales personnel.

Because sales of online marketing services are highly competitive, we strongly emphasize training programs designed to improve the sales and marketing skills of our staff. We provide three types of training to our sales and marketing personnel: (i) mandatory entrance training for each new sales and marketing employee during a three-month probationary period; (ii) rotation training that aims to rotate every sales and marketing employee in different posts for a certain period of time; and (iii) regular training in which weekly seminars and case studies are conducted for sales and marketing personnel. Our combination of training, performance-based compensation and a merit based promotion system has been effective in identifying, motivating and retaining strong performers.

We also have key account sales representatives in Beijing that serve our approximately 160 key account customers, which are identified based on their reputation, the scope of their operations as well as the amount of their contracts with us. We appoint one designated contact person to serve each key account customer. Key account customers in our new home business are generally entitled to more benefits than our other customers, such as preferential service fee discounts and preferential positioning within our nationwide real estate listings. We also prepare press release and reports for our key account customers.

Information Technology Systems and Infrastructure

We maintain most of our servers and backup servers in Beijing and Shanghai. We believe our server hosting partners provide significant operating advantages, including high-quality bandwidth, constant room temperature and an enhanced ability to protect our systems from power loss, break-ins and other external causes of service interruption. We have not experienced any material system failures over the past 10 years.

To better serve our website visitors, we have utilized our key proprietary technologies and developed a technology platform that is specifically used for our real estate and home related Internet portal services. The key components of our technology platform include:

Search platform. Our search platform is designed to support targeted searches of our listing databases. Besides the key word search function, our search platform provides additional search functions that improve search accuracy with various search criteria, including searches based on the location, price and type of the property. In addition, our search engine is able to refine the search by conditional filtering and aggregation of the search results.

Large-scale system infrastructure. With a combination of proprietary in-house and third-party solutions, we have designed our system to handle large amounts of data flow with a high degree of scalability and reliability. Our distributed architecture uses parallel computing technology and clusters of low-cost computers to handle high-volume visitor traffic and process large amounts of information.

Anti-fraud and anti-spam technology. We have also developed a proprietary anti-fraud and anti-spam system through which we are able to detect fraudulent activities and identify and filter spam messages. We attempt to continuously improve the accuracy and effectiveness of this technology through machine-learning capability and customizable rules.

Seasonality

The real estate sector in China is characterized by seasonal fluctuations, which may cause our revenues to fluctuate significantly from quarter to quarter. The first quarter of each year generally contributes the smallest portion of our annual revenues due to reduced advertising and marketing activity of our customers in the PRC real estate industry during and around the Chinese Lunar New Year holiday, which generally occurs in January or February of each year. In contrast, the third quarter of each year generally contributes the largest portion of our annual revenues due to increased advertising and marketing activity of our customers in the PRC real estate industry as most property purchases take place in September and October of each year in terms of monthly transaction volumes. See Item 3.D. Key Information Risk Factors Risks Related to Our Business You should not rely on our quarterly operating results as an indication of our future performance because our quarterly financial results are subject to fluctuations.

Competition

We face competition from other companies in each of our primary business activities. We compete with these companies principally on the basis of website traffic volume, the quality and quantity of real estate and home furnishing and improvement listings and other information content, geographic coverage, service offerings and marketing, e-commerce and listing customers. We also compete for qualified employees with sales, real estate, home furnishing and improvement and other home-related products and services and Internet industry experience. We monitor our market share in the online advertising industry in China through market information gathered internally as well as from independent market research institutions such as CR-Nielsen and DCCI. Due to the nature of online residential real estate listings and the fact that the PRC market for residential real estate is a developing industry, there is limited independent third-party information on the market share of websites that provide residential real estate listings. To help assess our competitiveness and market position, our listing services division gathers information on the number and prices of paid online listing subscription accounts and similar information on our competitors from public sources for our internal records. Based on these internal records, we believe we are currently one of the leading Internet portals for residential real estate listings in China.

Some of our competitors may have greater access to capital markets, more financial and other resources and a longer operating history than us. For instance, major general-purpose Internet portals, such as Sina.com and Sohu.com, which provide real estate and home furnishing and improvement information services, may have an advantage over us due to their more established brand name, larger user base and extensive Internet distribution channels.

Other existing and potential competitors include:

real estate and home furnishing and improvement websites offering listing and marketing services in China including real estate websites sponsored or supported by local governments in China, which may be able to use such government connections to develop relationships with locally-active real estate developers;

traditional advertising media such as general-purpose and real estate-focused newspapers, magazines, television and outdoor advertising that compete for overall advertising spending;

websites focused on real estate research services in China; and

online listing service providers, including general-purpose Internet portals and regional websites dedicated to online listing. We believe the key players in the markets for online real estate marketing and listing services in China include E-House (China) Holdings, Sohu.com Inc.'s focus.cn, Anjuke.com, Leju Holdings Limited, Tencent's fangqq.com, 58.com, Szhome.com and House365.com.

Although the barriers to entry for establishing many types of Internet-based businesses are low, we believe that certain key features of our marketing and listing businesses, together with the complexity of China's real estate and home-related markets, make it difficult for competitors to grow quickly and compete successfully against us. Specifically, we believe our brand name in China's real estate and home related Internet industry, the size and growth of our average daily user traffic, our customized marketing, e-commerce, listing and other value-added service offerings, our ownership of what we believe is one of the largest online real estate listing databases in China in terms of geographical coverage, including content coverage of more than 330 urban real estate markets in China as of December 31, 2013, and our relationships and in-depth knowledge of the real estate and home furnishing and improvement sectors provide us with an advantage over our competitors.

We believe that we and other domestic operators are likely to have a competitive advantage over international service providers who lack operational infrastructure and experience in China. We cannot assure you, however, that this competitive advantage will continue to exist, particularly if international operators establish joint ventures with, form alliances with or acquire domestic operators.

Intellectual Property

Our copyrights, trademarks, trade secrets, domain names and other intellectual property are important to our business. We rely on intellectual property laws and contractual arrangements with our key employees and certain of our customers, collaborators and others to protect our intellectual property rights. Despite these measures, we cannot assure you that we will be able to prevent unauthorized use of our intellectual property, which would adversely affect our business.

Our application for the SouFun trademark for certain industry categories in China conflicts with existing registrations of or applications for similar trademarks. In April 2014, the Higher People's Court of Beijing Municipality reversed a lower court's judgment in favor of us and ordered the PRC Trademark Review and Adjudication Board of State Administration of Industry and Commerce to reconsider another PRC company's trademark application for SOFANG that it had previously rejected. We are currently evaluating our legal options, including appealing to the Supreme People's Court of the PRC against the judgment of the Higher People's Court of Beijing Municipality, which could take months or even longer to resolve. See Item 3.D. Key Information Risk Factors Risks Related to Our Business Unauthorized use of our intellectual property by third parties, and the expenses incurred in protecting our intellectual property rights, may materially and adversely affect our business, financial condition, results of operations, reputation and competitive advantage and We may be subject to intellectual property infringement or misappropriation claims by third parties, which may force us to incur substantial legal expenses and, if determined adversely against us, could materially disrupt our business.

As of December 31, 2013, we held 144 registered copyrights and owned or licensed 133 registered trademarks in the PRC. As of the same date, we had 12 trademark applications in various industry categories, pending with the PRC Trademark Office.

We have also filed applications to register certain trademarks in a number of other jurisdictions, including Hong Kong, Australia, France, Japan, Singapore, Spain, the United Kingdom and the United States.

As of December 31, 2013, we owned or licensed 405 registered domain names, including our official website, www.soufun.com, and domain names registered in connection with www.jiatx.com and www.landlist.cn.

As of December 31, 2013, we had 6 patent applications relating to database maintenance and computer data backup under review by the State Intellectual Property Office of the People's Republic of China.

Facilities

Our principal executive offices are located at F9M, Building 5, Zone 4, Hanwei International Plaza, No. 186 South 4th Ring Road, Fengtai District, Beijing 100070, the People's Republic of China, with approximately 14,640 sq.m. of office space. We moved to this location in January 2013. As of December 31, 2013, we leased or owned properties with an aggregate gross floor area of approximately 118,134 sq.m. for our local offices across China. Our leased properties mainly consist of office premises, all of which are leased from independent third parties. We believe our existing leased premises are adequate for our current business operations and that additional space can be obtained on commercially reasonable terms to meet our future requirements. See Item 3.D. Key Information Risk Factors Risks Related to Our Business Certain of our leased property interests may be defective and we may be forced to relocate operations affected by such defects, which could cause significant disruption to our business.

We own an office building with a gross floor area of 325,000 square feet at 72 Wall Street, New York. The building was the former training center of American International Group, Inc. (AIG). We acquired the building from Sahn Eagle LLC, a third party, in two transactions. We primarily use the building as our global training center.

We own certain commercial properties of approximately 3,111 sq.m. in Sanya, Hainan Province, China. We acquired 2,913 sq.m. and 198 sq.m. of these properties for RMB82.5 million (approximately US\$13.1 million) and RMB5.6 million (approximately US\$0.9 million) in two transactions pursuant to certain purchase agreements which we entered into with the previous owner of these properties, Beijing Hengxinjiahua Investment Consultancy Limited, in March and June 2012, respectively. We primarily use these properties as our local office.

We own a portion of a building known as the BaoAn Building located at 800 Dongfang Road, Pudong, Shanghai. In December 2012, we entered into an agreement to acquire this property for our Shanghai headquarters through the acquisition of the entire equity interests in three companies that own and operate such property from China BaoAn Group Co., Ltd., a third party Chinese company, and its affiliated companies, for RMB800 million (approximately US\$127.3 million) in cash. The property has usable space of approximately 42,000 sq.m. and is currently used for offices, retail space and a hotel. We acquired the property to support our expansion in Shanghai and the East China region, which consists of 15 cities including Jiangsu provincial capital Nanjing and Zhejiang provincial capital Hangzhou.

In December 2013, we placed a deposit of US\$38.1 million with a developer for the purchase of 22,402 sq.m. of an office building in Chengdu, Sichuan province in the PRC. The construction of the office building is expected to be completed by December 31, 2014. Pursuant to this agreement, we are entitled to liquidated damages as a percentage of the deposit if the office building is completed after December 31, 2014 and before March 30, 2015, and we may obtain a refund of the deposit in addition to liquidated damages and terminate the purchase agreement if the office building is not completed by March 30, 2015. If the real estate developer completes the building by December 31, 2014, the deposit is an interest free non-refundable payment for the property.

Insurance

We maintain property insurance to cover potential damages to a portion of our property. In addition, we provide medical, unemployment and other insurance to our employees in compliance with applicable PRC laws, rules and regulations. We do not maintain insurance policies covering losses relating to our systems and do not have business interruption insurance.

Legal Proceedings

We are currently not involved in any material legal or arbitration proceedings. From time to time, we may be subject to claims and legal actions arising in the ordinary course of business, such as intellectual property infringement claims against us for use of others' articles or photographs and employment disputes. Such claims or legal actions, even if without merit, could result in the expenditure of significant financial and management resources and potentially result in civil liability for damages. In April 2014, the Higher People's Court of Beijing Municipality reversed a lower court's judgment in favor of us and ordered the PRC Trademark Review and Adjudication Board of SAIC to reconsider the other PRC company's trademark application for SOFANG that it had previously rejected. We are currently evaluating our legal options, including appealing to the Supreme People's Court of the PRC. See Item 3.D. Key Information Risk Factors Risks Related to Our Business We may be subject to intellectual property infringement or misappropriation claims by third parties, which may force us to incur substantial legal expenses and, if determined adversely against us, could materially disrupt our business.

Regulation

Our business is subject to substantial regulation by the PRC government. This section sets forth a summary of certain significant PRC regulations that affect our business and the industries within which we operate.

General

The telecommunications industry, including Internet information services and Internet access services, is highly regulated by the PRC government. Regulations issued or implemented by the State Council, MIIT and other relevant government authorities cover virtually every aspect of telecommunications network operations, including entry into the telecommunications industry, the scope of permissible business activities, interconnection and transmission line arrangements, tariff policy and foreign investment.

MIIT, under the leadership of the State Council, is responsible for, among other things:

formulating and enforcing telecommunications industry policy, standards and regulations;

granting licenses to provide telecommunications and Internet services;

formulating tariff and service charge policies for telecommunications and Internet services;

supervising the operations of telecommunications and Internet service providers; and

maintaining fair and orderly market competition among operators.

In addition to the regulations promulgated by the central PRC government, some local governments have also promulgated local rules applicable to Internet companies operating within their respective jurisdictions.

In 1994, the Standing Committee of the National People's Congress promulgated the PRC Advertising Law. In addition, SAIC and other ministries and agencies have issued regulations that further regulate our advertising business, as discussed below.

Restrictions on Foreign Ownership in the Online Advertising Industry

Internet Content Provision and Wireless Value-Added Services

In September 2000, the State Council promulgated the Telecommunications Regulations, which categorize all telecommunications businesses in China as either basic telecommunications businesses or value-added telecommunications businesses. In February 2003, MIIT amended the original classification of telecommunications business with Internet content provision services and wireless value-added services being classified as value-added telecommunications businesses. The Telecommunications Regulations also set forth extensive guidelines with respect to different aspects of telecommunications operations in China.

In order to comply with China's commitments with respect to its entry into the World Trade Organization, the State Council promulgated the Administrative Rules on Foreign-invested Telecommunications Enterprises in December 2001, as amended in September 2008. The Administrative Rules on Foreign-invested Telecommunications Enterprises set forth detailed requirements with respect to capitalization, investor qualifications and application procedures in connection with the establishment of a foreign-invested telecommunications enterprise. Pursuant to these administrative rules, the ultimate capital contribution ratio of the foreign investor or investors in a foreign-invested telecommunications enterprise that aims to provide value-added telecommunications services may not exceed 50.0%. In addition, pursuant to the Foreign Investment Industrial Guidance Catalog issued by the PRC government, the permitted foreign investment in value-added telecommunications service providers may not be more than 50.0%. However, for a foreign investor to acquire any equity interest in a value-added telecommunications business in China, it must satisfy a number of stringent performance and operational experience requirements, including demonstrating a track record and experience in operating a value-added telecommunications business overseas. Moreover, foreign investors that meet these requirements must obtain approvals from MIIT and MOFCOM or their authorized local counterparts, which retain considerable discretion in granting approvals.

In July 2006, MIIT publicly released the MIIT Notice, which reiterates certain provisions under the 2002 Administrative Rules on Foreign-invested Telecommunications Enterprises. According to the MIIT Notice, if any foreign investor intends to invest in a PRC telecommunications business, a foreign-invested telecommunications enterprise must be established and such enterprise must apply for the relevant telecommunications business licenses. Under the MIIT Notice, domestic telecommunications enterprises may not rent, transfer or sell a telecommunications license to foreign investors in any form, nor may they provide any resources, premises, facilities and other assistance in any form to foreign investors for their illegal operation of any telecommunications business in China.

Advertising Services

The principal regulations governing foreign ownership in advertising businesses in China include:

The Foreign Investment Industrial Guidance Catalog;

The Administrative Regulations on Foreign-invested Advertising Enterprises; and

The Circular Regarding Investment in the Advertising Industry by Foreign Investors through Equity Acquisition.

These regulations require foreign entities that directly invest in the PRC advertising industry to have at least a two-year track record with a principal business in the advertising industry outside China. Since December 2005, foreign investors have been permitted to directly own a 100% interest in advertising companies in China, but such foreign investors are also required to have at least a three-year track record with a principal business in the advertising industry outside China. PRC laws, rules and regulations do not permit the transfer of any approvals or licenses, including business licenses containing a scope of business that permits engagement in the advertising business. In the event we are able to qualify to acquire the equity interest in Beijing Advertising, Beijing Internet, Beijing Technology, Beijing JTX Technology, Shanghai Advertising, Shanghai JBT, Beijing China Index, Shanghai China Index, Tianjin JTX Advertising, Beijing Li Tian Rong Ze and Beijing Yi Ran Ju Ke under the rules allowing complete foreign ownership, these PRC operating companies would continue to exist as the operators of our advertising business consistent with the current regulatory requirements. However, as a holding company, we have not been involved in advertising outside China for the required number of years.

As a result of current PRC laws, rules and regulations that impose substantial restrictions on foreign investment in the Internet and advertising businesses in China, we conduct this portion of our operations through a series of contractual arrangements among our PRC subsidiaries and our consolidated controlled entities.

In the opinion of, Jingtian & Gongcheng, our PRC legal counsel:

each of the Structure Contracts is legal, valid and binding on the contracting parties under applicable PRC laws, rules and regulations;

the execution, delivery, effectiveness, enforceability and performance of each of the Structure Contracts do not violate any published PRC laws, rules and regulations currently in force and effect;

none of our Structure Contracts contravenes any published PRC laws, rules and regulations currently in force and effect; and

no filings, registrations, consents, approvals, permits, authorizations, certificates and licenses of any PRC government authorities are currently required in connection with the execution, delivery, effectiveness, performance and enforceability of each Structure Contract, provided that the pledges of equity interests under the Structure Contracts should be registered with competent PRC government authorities, and provided further that the exercise of the call option in the future must be approved and registered by competent PRC government authorities.

However, there are substantial uncertainties regarding the interpretation and application of current or future PRC laws, rules and regulations, including the laws and regulations governing the enforcement and performance of our Structure Contracts in the event of any imposition of statutory liens, bankruptcy and criminal proceedings. Accordingly, we cannot assure you that the PRC regulatory authorities will not ultimately take a contrary view from that of Jingtian & Gongcheng, our PRC legal counsel.

Regulation relating to Our Business

Internet Content Provision Services

The provision of real estate and home-related and other content on Internet websites is subject to applicable PRC laws, rules and regulations relating to the telecommunications industry and the Internet, and regulated by various government authorities, including MIIT and SAIC. The principal regulations governing the telecommunications industry and the Internet include:

The Telecommunications Regulations (2000);

The Catalog of Classes of Telecommunications Business;

The Administrative Measures for Telecommunications Business Operating Licenses; and

The Internet Information Services Administrative Measures.

Under these regulations, Internet content provision services are classified as value-added telecommunications businesses, and a commercial operator must obtain a telecommunications and information services operating license, or ICP license, from the appropriate telecommunications authority in order to carry out commercial Internet content provision operations in China. If an Internet content provider is not engaged in commercial Internet content operations, it is only required to file a record with the appropriate telecommunications authority. In addition, the regulations also provide that operators involved in Internet content provision in sensitive and strategic sectors, including news, publishing, education, health care, medicine and medical devices, must obtain additional approvals from the relevant authorities in relation to those sectors.

Four of our consolidated controlled entities, Beijing Internet, Beijing China Index, Beijing Technology and Beijing JTX Technology, each hold an ICP license issued by the Beijing Telecommunications Administration Bureau, a municipal branch of MIIT.

The MIIT Notice requires that a value-added telecommunications business operator (or its shareholders) must own domain names and trademarks used by it in the value-added telecommunications business, and have premises and facilities appropriate for such business. To comply with the MIIT Notice, all of our related trademarks and domain names are owned directly by Beijing Internet, Beijing China Index, Beijing Technology and Beijing JTX Technology.

Furthermore, according to the Tentative Measures of Internet Publication Administration, jointly issued by the General Administration of Press and Publication and MIIT in June 2002, all entities that are engaged in Internet publication in China must obtain an approval from the General Administration of Press and Publication. Internet publication is broadly defined in the Tentative Measures for Internet Publication Administration to include any act of online dissemination whereby any Internet content provision service provider selects, edits and processes information (including content from books, newspaper, periodicals, audio and video products and electronic publications that have already been formally published or information that has been made public in other media) created by themselves or others and subsequently posts such information on the Internet or transmits it to users via the Internet for browsing, reading, use or downloading by the public.

Advertising Services

SAIC is responsible for regulating advertising activities in China. The principal regulations governing advertising in China, including online advertising, include:

the Advertising Law;

the Administration of Advertising Regulations; and

the Implementation Rules for the Administration of Advertising Regulations.

These regulations stipulate that companies that engage in advertising activities in China must obtain from SAIC or its local branches a business license which specifically includes operating an advertising business within its business scope. Companies conducting advertising activities without such a license may be subject to penalties, including fines, confiscation of illegal revenues and orders to cease advertising operations. The business license of an advertising company is valid for the duration of its existence, unless the license is suspended or revoked due to a violation of any relevant law or regulation.

The business scope of each of Beijing Advertising, Beijing Technology, Beijing JTX Technology, Shanghai Advertising, Beijing China Index, Beijing Internet, Tianjin JTX Advertising and Beijing Yi Ran Ju Ke includes operating an advertising business, which allows them to engage in the advertising business.

Electronic Bulletin Board Services

In October 2000, MIIT adopted the Administrative Regulations on Internet Electronic Bulletin Board Services, requiring an Internet content service provider that provides online bulletin board services to register with, and obtain approval from, local telecommunications authorities. Currently, Beijing China Index is operating electronic bulletin board services on www.landlist.cn and Beijing Technology on www.soufun.com. On November 11, 2005 and November 6, 2006, respectively, the Beijing Telecommunications Administration Bureau issued to Beijing China Index and Beijing Technology, respectively, an approval for operating electronic bulletin board services on www.landlist.cn and www.soufun.com, respectively. Beijing JTX Technology and Beijing Advertising also obtained approval for operating electronic bulletin board services on www.jiatx.com on June 15, 2007. These approvals each have an original validity which is keyed to the corresponding ICP license and their continued validity is subject to the fulfillment of certain conditions and qualifications.

Regulations relating to Information Security and Confidentiality of User Identity and Information

Internet content in China is also regulated and restricted from a state security standpoint. Based on a law enacted by the Standing Committee of the National People's Congress, any effort to undertake the following actions may be subject to criminal punishment in China:

gain improper entry into a computer or system of national strategic importance;

disseminate politically disruptive information;

leak government secrets;

spread false commercial information; or

infringe intellectual property rights.

The Ministry of Public Security has also promulgated measures that prohibit the use of the Internet in ways that, among other things, result in the leakage of government secrets or the spread of socially destabilizing content. The Ministry of Public Security has supervision and inspection powers in this regard, and we may be subject to the jurisdiction of the local security bureaus. If an ICP license holder violates these measures, the PRC government may revoke its license and shut down its website.

The security and confidentiality of information on the identity of Internet users are also regulated in China. The Internet Information Service Administrative Measures promulgated by the PRC State Council in September 2000 require Internet content service providers to maintain an adequate system that protects the security of user information, and the Administrative Regulations on Internet Bulletin Board Services adopted by MIIT in October 2000 require Internet electronic bulletin board service providers to protect the security and confidentiality of the personal information of users who use bulletin board services. In December 2005, the Ministry of Public Security promulgated the Regulations on Technical Measures of Internet Security Protection, requiring Internet service providers to utilize standard technical measures for Internet security protection. We have been advised by Jingtian & Gongcheng, our PRC legal counsel, that both requirements are for the protection of information on the identity of Internet users.

Regulations relating to Trademarks

Both the PRC Trademark Law and the Implementation Regulation of the PRC Trademark Law, as currently in effect, provide protection to the holders of registered trademarks and trade names. The PRC Trademark Office handles trademark registrations and grants a renewable term of rights of 10 years to registered trademarks. In addition, trademark license agreements must be filed with the Trademark Office.

After receiving a trademark registration application, the PRC Trademark Office will make a public announcement with respect to the proposed trademark registration application if the relevant trademark passes the preliminary examination. Any person may, within three months after such public announcement, object to such trademark application. The PRC Trademark Office will then decide who is entitled to the trademark registration, and its decisions may be appealed to the PRC Trademark Review and Adjudication Board, whose decision may be further

appealed through judicial proceedings. If no objection is filed within three months after the public announcement period or if the objection has been overruled, the PRC Trademark Office will approve the registration and issue a registration certificate, upon which the trademark is registered and will be effective for a renewable 10-year period, unless otherwise revoked.

Regulations relating to Employee Share Options

Under the Stock Option Rule promulgated by SAFE in February 2012, a PRC entity's directors, supervisors, senior management officers, other staff or individuals who have an employment or labor relationship with a Chinese entity and are granted stock options by an overseas publicly listed company are required, through a PRC agent or PRC subsidiary of such overseas publicly listed company, to register with SAFE and complete certain other procedures. We and our PRC resident employees who have been granted stock options are subject to these regulations. We have designated our PRC relevant subsidiaries to handle the registration and other procedures required by the Stock Option Rule. If we or our PRC option holders fail to comply with these regulations in the future, we or our PRC option holders may be subject to fines and legal sanctions.

Regulations relating to Employees

Pursuant to the PRC Labor Law and the PRC Labor Contract Law, employers must execute written labor contracts with full-time employees. All employers must compensate their employees with wages equal to at least the local minimum wage standards. All employers are required to establish a system for labor safety and sanitation, strictly abide by state rules and standards and provide employees with workplace safety training. Violations of the PRC Labor Contract Law and the PRC Labor Law may result in the imposition of fines and other administrative liabilities. Criminal liability may arise for serious violations.

In addition, employers in China are obliged to provide employees with welfare schemes covering pension insurance, unemployment insurance, maternity insurance, work-related injury insurance, medical insurance and housing funds.

Regulations relating to Foreign Investment in Value-Added Telecommunications Industry

According to the Administrative Rules on Foreign-invested Telecommunications Enterprises issued by the State Council effective in January 2002, as amended in September 2008, a foreign investor may hold no more than a 50% equity interest in a value-added telecommunications services provider in China and such foreign investor must have experience operating in such industry.

C. Organizational Structure

We conduct substantially all of our operations in China through our PRC subsidiaries and consolidated controlled entities. For more information regarding the contractual arrangements among our PRC subsidiaries and consolidated controlled entities, see Item 7.B. Major Shareholders and Related Party Transactions Related Party Transactions Structure Contracts. The following diagram illustrates our corporate structure and the place of incorporation of each named entity as of the date of this report:

D. Property, Plant and Equipment

See Item 4.B. Information on the Company Business Overview Facilities.

ITEM 4A. UNRESOLVED STAFF COMMENTS

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion of our financial condition and results of operations is based upon and should be read in conjunction with our consolidated financial statements and their related notes included elsewhere in this annual report. This discussion contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. See Forward-Looking Statements. In evaluating our business, you should carefully consider the information provided under Item 3.D. Key Information Risk Factors. We caution you that our businesses and financial performance are subject to substantial risks and uncertainties.

A. OPERATING RESULTS

Overview

We operate the leading real estate Internet portal in China in terms of the number of page views and visitors to our websites in 2013, according to reports issued by DCCI, an independent market research institution commissioned by us. We also operate one of the leading home furnishing and improvement websites in terms of unique visitors in 2013, according to research from DCCI. Through our websites, we provide marketing, e-commerce, listing and other value-added services for China's fast-growing real estate and home-related sectors. Our user-friendly websites support active online communities and networks of users seeking information on, and other value-added services for, the real estate and home-related sectors in China. Our current service offerings include:

Marketing services: We offer marketing services on our websites, mainly through advertisements, to real estate developers in the marketing phase of new property developments, as well as to real estate agencies and suppliers of home furnishing and improvement and other home-related products and services who wish to promote their products and services. Marketing services were our largest source of revenues in 2013.

E-commerce services: We began to offer e-commerce services in 2011, including SouFun membership services and online transaction platform services. We provide both free and paid SouFun membership services to registered members of our SouFun cards. Our free services include primarily regular updates regarding local property developments, tours to visit property developments and other services relating to property purchases. Our paid services primarily include offers to purchase properties at a discount from our partner developers and dedicated information and related services to facilitate property purchases. Our members pay a specified fee each time in order to be eligible for the discount provided for a particular property. Prior to 2012, our SouFun membership services were categorized as other value-added services and products. In addition, through our www.jiatx.com website, we offer an online transaction platform and related e-commerce services to home furnishing and improvement vendors in China. Our SouFun membership services have grown rapidly, making e-commerce services the second largest source of our revenues in 2013.

Listing services: We offer basic and special listing services. Our basic listing services are mainly offered to real estate agents, brokers, developers, property owners and managers and suppliers of home furnishing and improvement and other home-related products and services. Our basic listing services allow our customers to post information of their products and services on our websites. Our special listing services offer customized marketing programs involving both online listings and offline themed events.

Other value-added services: We offer subscription-based access to our information database and research reports and total web solution services. In December 2013, we launched our financial services platform SouFun Financial Services Channel to bring third party financial products and services to our home buying members, SouFun certified agents in major cities in China, and developers and home improvement products and services providers.

We have built a large and active community of users who are attracted by the comprehensive real estate and home-related content available on our portal that forms the foundation of our service offerings. According to DCCI, in the fourth quarter of 2013, our website, www.soufun.com, received a monthly average of approximately 61.4 million unique visitors and generated a monthly average of approximately 1.8 billion website visits. We currently maintain approximately 100 offices to focus on local market needs.

Our revenue and net income attributable to our shareholders in 2013 was US\$637.4 million and US\$298.6 million, respectively. Marketing, e-commerce, listing and other value-added services accounted for 43.7%, 29.5%, 25.3% and 1.5%, respectively, of our revenues in 2013.

Key Operating and Financial Performance Metrics

We monitor the key operating and financial performance metrics set forth in the tables below to help us evaluate growth trends, establish budgets, measure the effectiveness of our sales and marketing efforts and assess our operational efficiencies.

Selected Metrics	Year Ended December 31,	
	2012	2013
Average monthly unique visitors (million)*	53.9	76.9
Average monthly mobile unique visitors (million)*	1.8	23.7
Transactions under SouFun membership services	59,477	137,731

* Source: Google Analytics

Certain of these measures, non-GAAP net income and adjusted earnings before interest, taxes, depreciation and amortization (adjusted EBITDA) are not measures calculated in accordance with GAAP and should not be considered as an alternative to any measure of financial performance calculated and presented in accordance with GAAP. In addition, these non-GAAP measures may not be comparable to similarly titled measures of other companies because other companies may not calculate them in the same manner that we do.

	Year Ended December 31,		
	2011	2012	2013
	(U.S. dollars in thousands)		
Non-GAAP net income	US\$ 123,879	US\$ 174,203	US\$ 318,298
Adjusted EBITDA	153,370	213,472	371,121

Non-GAAP net income measures GAAP net income, excluding the impact of stock-based compensation expense, realized (gain) loss on available-for-sale security, other-than-temporary impairment on available-for-sale security, gain on bargain purchase, withholding tax on dividends and one-off tax impact.

Adjusted EBITDA is defined as non-GAAP net income before income tax, excluding one-off tax impact and withholding tax related to dividend, interest expenses, interest income, and depreciation. Adjusted EBITDA, while generally a measure of profitability, excludes certain non-cash expenses, interest and other income, income taxes, and certain other items that management believes affect the comparability of operating results.

Non-GAAP net income and adjusted EBITDA are key measures used by our management and board of directors to understand and evaluate our core operating performance and trends. In particular, we believe that the exclusion of the expenses eliminated in calculating non-GAAP net income and adjusted EBITDA can provide a useful measure for period-to-period comparisons of our core business. Accordingly, we believe that non-GAAP net income and adjusted EBITDA provide useful information to investors and others in understanding and evaluating our operating results in the same manner as our management and board of directors.

These non-GAAP measures have limitations as analytical tools, and you should not consider them in isolation or as substitutes for analysis of our financial results as reported under GAAP. Some of these limitations are:

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditures;

non-GAAP net income does not reflect the potentially dilutive impact of equity-based compensation;

adjusted EBITDA does not reflect tax payments that historically have represented a reduction in cash available to us or tax benefits that may arise as a result of generating net losses; and

other companies, including companies in our industry, may calculate adjusted EBITDA or similarly titled measures differently, which reduces its usefulness as a comparative measure.

Because of these and other limitations, you should consider non-GAAP net income and adjusted EBITDA alongside other GAAP-based financial performance measures, including various cash flow metrics, net income and our other GAAP financial results.

The following tables present reconciliations of net income to non-GAAP net income and net income to adjusted EBITDA from continuing operations for each of the periods indicated:

Reconciliation of net income and non-GAAP net income	Year Ended December 31,		
	2011	2012	2013
	(U.S. dollars in thousands)		
GAAP net income	US\$ 101,597	US\$ 151,804	US\$ 298,662
Share-based compensation	7,170	7,149	7,028
Other-than-temporary impairment on available-for-sale security	3,622	14	
Realized (gain) loss on available-for-sale security	721		(821)
Gain on bargain purchase			(102)
One-off tax impact(1)	(7,645)	(1,631)	(15,101)
Withholding tax related to dividends(2)	18,414	16,867	28,632
Non-GAAP net income	123,879	174,203	318,298

(1)

One-off tax impact recognized in 2013 represents the adjustment on the applicable income tax rate used to measure the deferred tax liabilities in relation to the cumulative undistributed earnings of our two PRC subsidiaries which were not permanently reinvested. In September 2013, the subsidiaries obtained approvals from the tax authority for a reduced withholding tax rate of 5% on repatriation of dividends during the years 2013 to 2015 under the Arrangement between the Mainland of China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation.

One-off tax impact recognized in 2012 represents the adjustment on two of our PRC subsidiaries' prior year tax positions upon obtaining approvals from tax authority in April 2012 to claim the tax incentive of Software Enterprise effective January 1, 2011.

One-off tax impact recognized in 2011 represents an adjustment on certain of our PRC subsidiaries' tax position in relation to Guoshuihan [2010] No.157 (Circular 157) as the tax authority made a clarifying interpretation during 2011.

(2) Withholding tax related to dividends represents deferred tax liabilities recognized in relation to undistributed earnings of the PRC subsidiaries that are available for distribution to non-PRC parent companies during the period presented.

Reconciliation of non-GAAP net income and adjusted EBITDA	Year Ended December 31,		
	2011	2012	2013
	(U.S. dollars in thousands)		
Non-GAAP net income	US\$ 123,879	US\$ 174,203	US\$ 318,298
Add Back			
Interest expenses	4,026	11,630	14,675
Income tax expense excluding one-off tax impact and withholding tax related to dividends	31,848	40,669	56,250
Depreciation expenses	4,100	6,376	9,701
Subtract			
Interest income	(10,483)	(19,406)	(27,803)
Adjusted EBITDA	153,370	213,472	371,121

Recent Developments

Convertible Senior Notes

In December 2013 and January 2014, we sold US\$350 million and US\$50 million in aggregate principal amount of convertible senior notes due 2018 (the Notes). The Notes were offered to qualified institutional buyers pursuant to Rule 144A under the Securities Act and certain non-U.S. persons in compliance with Regulation S under the Securities Act. The Notes may be converted, under certain circumstances, based on an initial conversion rate of 9.6839 ADSs (48.4195 ADSs after the five-for-one ADS ratio change in April 2014) per US\$1,000 principal amount of Notes (equivalent to an initial conversion price of approximately US\$103.26 per ADS or US\$20.65 after the five-for-one ADS ratio change in April 2014). The net proceeds to us from the issuance of the Notes were US\$390.5 million. We are required to pay cash interest at an annual rate of 2.00% on the Notes. Interest is payable semiannually in arrears on June 15 and December 15 of each year, beginning on June 15, 2014. We incurred debt issuance costs of US\$9.5 million, which are being amortized to interest expense to the first put date of the Notes. The Notes are senior unsecured obligations and rank (1) senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the Notes, (2) equal in right of payment to any of our unsecured indebtedness that is not so subordinated, (3) effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness and will rank structurally junior to all indebtedness and other liabilities (including trade payables) of our subsidiaries and consolidated controlled entities.

BaoAn Acquisition

In December 2012, we entered into an agreement to acquire a portion of the BaoAn Building in Shanghai for our Shanghai headquarters through the acquisition of the entire equity interests in three companies that owned and operated the property from China BaoAn Group Co., Ltd., a Chinese company, and its affiliated companies, for RMB800 million (US\$127.3 million) in cash. The property, located at 800 Dongfang Road, Pudong, Shanghai, has usable space of approximately 42,000 square meters and is currently used for offices, retail space and a hotel. We primarily use it as our local office to support our business expansion in Shanghai and East China area. The relevant regulatory approvals were obtained and the acquisition was completed in the first quarter of 2013.

Dividend Distribution

In July 2013, we declared a cash dividend of US\$1.00 per share on our ordinary shares (US\$0.20 per ADS), or an aggregate of US\$81.0 million to holders of our ordinary shares and ADSs, payable to shareholders of record on July 29, 2013.

Chengdu Property Acquisition

In December 2013, we paid a deposit of US\$38.1 million for the purchase of 22,402 sq.m. of an office building in Chengdu, Sichuan province in the PRC. The construction of the office building is expected to be completed by December 31, 2014. Pursuant to our agreement with the developer, we are entitled to liquidated damages as a percentage of the deposit if the office building is completed after December 31, 2014 and before March 30, 2015, and we may obtain a refund of the deposit in addition to liquidated damages and terminate the purchase agreement if the office building is not completed by March 30, 2015. If the real estate developer is able to complete the building by December 31, 2014, the deposit is an interest free non-refundable payment for the property.

ADSs Share Ratio Change

On March 18, 2014, we announced the change of the ratio of our American Depositary Receipts representing Class A ordinary shares from one ADS for one Class A ordinary shares to five ADSs for one Class A ordinary share. The record date for the ratio change was March 28, 2014. For our ADS holders, this ratio change had the same effect as a five-for-one ADS split. There was no change to our Class A ordinary shares or Class B ordinary shares. The effect of the ratio change on the ADS trading price on the New York Stock Exchange occurred on April 7, 2014.

Factors Affecting Our Results of Operations

Economic growth in China and in the PRC real estate market

We conduct substantially all of our business and operations in China. Accordingly, our results of operations have been, and are expected to continue to be, affected by the general performance of China's economy. As a leading real estate Internet portal, our financial results have also been affected by the performance of the real estate and home furnishing and improvement sectors in China.

Growth in China's Internet and online marketing sectors

We are an Internet portal company and a majority of our revenues are generated from our marketing services. As such, our results of operations are heavily dependent on the successful and continued development of China's Internet and online marketing sectors. The Internet has emerged as an increasingly attractive and cost-effective advertising channel in China, especially as the number of Internet users, disposable income of urban households and network infrastructure in China have increased.

Competition in China's online real estate and home-related Internet services

We face competition from other companies in each of our primary business activities. In particular, the online real estate and home-related Internet service market in China has become increasingly competitive, and such competition may continue to intensify in future periods. As the barriers to entry for establishing Internet-based businesses are typically low, it is possible for new entrants to emerge and rapidly scale up their operations. We expect additional companies to enter the online real estate and home-related Internet service industry in China and a wider range of online services in this area to be introduced.

Performance of certain geographic areas and urban centers in China

A substantial portion of our revenues are concentrated in China's major urban centers including Beijing, Shanghai, Chengdu, Chongqing, Tianjin and Shenzhen. Although our percentage of revenues from these six urban centers has decreased as we expanded our operations elsewhere in China, we expect customers in these cities to continue to represent a significant portion of our revenues in the near term. We also plan to expand into new geographic areas and sectors. As of December 31, 2013, we had established real estate-related content, search services, marketing and listing coverage of more than 330 cities across China, and our SouFun membership services, which were launched in 2011, were offered in 48 cities. The financial performance of newly penetrated cities will have a substantial impact on our results of operations as we expand into new markets, as we may incur significant additional operating expenses, including hiring new sales and other personnel, in order to expand our operations.

PRC regulations affecting the Internet, online marketing and real estate industries

The Internet, online marketing and real estate industries in China are heavily regulated. PRC laws, rules and regulations cover virtually every aspect of these industries, including entry into the industry, the scope of permissible business activities and foreign investment. The PRC government also exercises considerable direct and indirect influence over these industries by imposing industry policies and other economic measures. Many of these regulations have recently been implemented and are expected to be refined and adjusted over time. Moreover, the PRC government regulates interest rates, real estate transaction taxes and the acquisition and ownership of real estate. It also regulates Internet access and the distribution of news, information or other content, as well as products and services, through the Internet. The PRC government also levies business taxes, value-added taxes, surcharges and cultural construction fees on advertising-related sales in China, such as sales of our marketing, e-commerce, listing and other value-added services. In addition, because certain of our PRC subsidiaries and consolidated controlled entities currently qualify as high and new technology enterprises, they enjoy tax holidays or lower rates from the relevant PRC tax authorities or under local governmental policies. If we were to lose such preferential tax treatment, we would be subject to a higher enterprise income tax rate, which would have a material and adverse effect on our financial condition, results of operations and profitability. See Item 4.B. Information on the Company Business Overview Regulation. Political, economic and social factors may also lead to further policy refinement and adjustments. The imposition of new laws and regulations, or changes to current laws and regulations, could have a material impact on our business, financial condition and results of operations.

Market acceptance of our SouFun membership services

We began offering SouFun membership services in 2011, and our revenues from SouFun membership services totaled US\$102.0 million and US\$188.1 million in 2012 and 2013, respectively, or 23.7% and 29.5% of our total revenues for the same periods. The business of providing SouFun membership services is still relatively new and evolving. Our ability to maintain or increase the number of partner developers or property developments for which discounts on purchase price is offered, grow our member base and increase transaction volume to a significant extent depends on increased market acceptance of our SouFun membership services.

Demand for home furnishing and improvement information and products

As China's real estate market has expanded and matured, the ancillary home furnishing and improvement industry has also been growing to meet rising consumer demand. Similarly, we have expanded our marketing and listing services to suppliers of home furnishing and improvement products and services. By adding this category of advertisers and clients, we have been able to expand our sources of marketing and listing service revenues and, accordingly, expect the rate of increase in our revenues to continue to benefit from the continued growth of China's home furnishing and improvement sectors.

Basis of Presentation

To comply with applicable PRC laws, rules and regulations restricting foreign ownership of companies that operate Internet content provision and online advertising services, we operate our websites and provide such services in China through contractual arrangements with our consolidated controlled entities. The equity interests of the consolidated controlled entities are held directly or indirectly by Mr. Mo, our founder and executive chairman, and Mr. Dai, our president and chief executive officer, but the effective control of the consolidated controlled entities has been transferred to us through a series of Structure Contracts. We have funded these consolidated controlled entities' paid-in capital by extending loans to Mr. Mo and Mr. Dai. Pursuant to the terms of the Structure Contracts, we are obligated to bear substantially all of the risk of losses from our consolidated controlled entities' activities and are entitled to receive substantially all of their profits, if any. See Item 7.B. Major Shareholders and Related Party Transactions, Related Party Transactions, Structure Contracts and our consolidated financial statements included elsewhere in this annual report.

Based on these Structure Contracts, we believe that, notwithstanding our lack of equity ownership, the arrangements provide us with effective control over our consolidated controlled entities. Accordingly, the financial results of these entities are included in our consolidated financial statements.

We refer to our consolidated controlled entities as PRC entities we control through contractual arrangements together with their subsidiaries, or the PRC Domestic Entities and the PRC Domestic Entities' subsidiaries in our consolidated financial statements and related notes included elsewhere in this annual report.

Components of our Results of Operations

Revenues

We derive our revenues from marketing, e-commerce, listing and other value-added services.

Marketing Services

Our marketing service revenues consist of revenues derived from the advertising services provided by our new home, secondary and rental properties and home furnishing and improvement businesses. Our marketing services include the design and deployment on our websites of banners, links, logos and floating signs.

E-commerce Services

We launched our e-commerce services in 2011, including SouFun membership services and online transaction platform services. Our SouFun membership services enable paid members to purchase specified properties from our partner real-estate developers at a discount significantly greater than the membership fees charged by us. In addition, through our website www.jiatx.com, we offer an online transaction platform and related e-commerce services to home furnishing and improvement vendors in China.

Listing Services

Our listing service revenues consist of revenues derived from both basic listing services and special listing services. Basic listing services are targeted at real estate agents, brokers, developers, property owners, property managers and others seeking to sell or rent new and secondary properties and allow visitors to our websites to search for product suppliers and service providers in China's home furnishing and improvement sector. Revenues from basic listing services are predominantly derived from our secondary and rental business. Special listing services are tailor-made marketing campaigns provided primarily to developers marketing new property developments. We identify property developments with similar attributes and create a plan for collectively promoting such property developments in a special listing, typically in the form of an online listing supported or supplemented by offline events, such as a physical discussion forums or banquets, with the special listing as the theme.

Other Value-added Services

We also derive revenues from other value-added services, including subscriptions to our information database, research reports and total web solution services.

Cost of Revenues

Our cost of revenues includes cost of services. Cost of services primarily consists of staff costs, business taxes, value-added taxes and surcharges, operating lease expenses, network costs, communication expenses, share-based compensation expenses and other costs directly related to the offering of our marketing, e-commerce, listing and other value-added services. Staff costs include salary and benefits paid to members of our editorial staff, customer service personnel and personnel dedicated to servicing and designing websites for our customers. Operating lease expenses consist primarily of rent for our various office facilities as allocated on the basis of the space occupied by our editorial staff and customer service personnel. Network costs consist of server hosting fees, bandwidth fees and related charges. Communication costs consist of telephone expenses relating to our operations. Cost of revenues also includes share-based compensation expenses in connection with share options and other share-based compensation granted to our editorial and production staff, and business taxes, value-added taxes and surcharges relating to technical and consulting service fees charged by our WFOEs for services provided under our exclusive technical consultancy and services agreements with our consolidated controlled entities. In 2011, 2012 and 2013, our cost of revenues represented 19.4%, 18.8% and 16.1% of our revenues, respectively. Starting from January 1, 2012, the PRC Ministry of Finance and SAT launched a Business Tax to Value Added Tax (VAT) Transformation Pilot Program (the Pilot Program) for certain modern service industries. Effective September 1, 2012, the Pilot Program was expanded to eight other cities and provinces in China, including Beijing, Wuhan, Guangzhou, Tianjin and Suqian, in which we have operations. Effective August 1, 2013, the Pilot Program was expanded across China. With the adoption of the Pilot Program, our revenues are subject to VAT of 6% instead of business tax of 5%.

Operating Expenses

Our operating expenses consist of selling expenses and general and administrative expenses.

Selling Expenses

Our selling expenses primarily consist of staff costs, such as salaries and benefits paid to personnel in our sales and distribution department, operating lease expenses, which include rental expenses related to our selling and distribution department, traveling and communication expenses, office expenses and advertising and promotion expenses, including fees we pay to other Internet portals for the purpose of promoting and increasing traffic to our websites. Selling expenses also include other expenses incurred in relation to our selling and distribution activities and share-based compensation costs in connection with stock options and other share-based compensation granted to our sales and marketing personnel. We expect our selling expenses to increase in the near future in line with an increase in revenues as we continue to promote our websites and our brand name.

General and Administrative Expenses

General and administrative expenses primarily consist of staff costs, such as salaries and benefits paid to our management and general administrative, product and development personnel, bad debt expense relating to uncollectible accounts receivable, office expenses, communication expenses, professional service fees and other expenses for general and administrative purposes, as well as website development expenses related to the maintenance of our Internet portal browser and real estate database. Our general and administrative expenses also include share-based compensation costs in connection with share options and other share-based compensation granted to our general administrative, technical and research personnel. We expect our general and administrative expenses to increase in absolute amounts as our business continues to grow and remain relatively stable as a percentage of our revenues.

Taxation

We are subject to income tax on an entity basis on profits arising in or derived from the jurisdictions where we, our subsidiaries or our consolidated controlled entities are domiciled or have operations.

Cayman Islands Income Tax

Under the current laws of the Cayman Islands, we, China Home Holdings Limited, China Property Holdings Limited and Sou You Tian Xia Holdings Limited are not subject to tax on income or capital gains. In addition, upon payments of dividends by us to our shareholders, no Cayman Islands withholding tax will be imposed.

British Virgin Islands Income Tax

Under the current laws of the British Virgin Islands, Pendiary Investments, Selovo Investments, China Home Holdings (BVI) Limited, China Property Holdings (BVI) Limited, Best Scholar Holdings Limited and Sou You Tian Xia Holdings (BVI) Limited are not subject to tax on income or capital gains. In addition, upon payments of dividends by these companies to their shareholders, no British Virgin Islands withholding tax will be imposed.

Hong Kong Income Tax

Bravo Work, China Index Academy, SouFun International, China Home Holdings (HK) Limited, China Institute of Real Estate Agents Limited, HK Property Network Limited and Sou You Tian Xia Holdings (HK) Limited are incorporated in Hong Kong. No provision for Hong Kong profits tax has been made in the financial statements as the subsidiaries in Hong Kong have no assessable profits for the three years ended December 31, 2013. In addition, upon payment of dividends by these companies to their shareholders, no Hong Kong withholding tax will be imposed.

United States Tax

Wall Street Index Research Center LLC, Best Scholar Holdings (Delaware) Limited and Best Work Holdings (New York) LLC are incorporated in the United States of America and do not conduct any substantive operations of their own. No provision for the United States of America income tax has been made in the financial statements as the subsidiaries in the United States of America have no assessable income for the three years ended December 31, 2013. In addition, we do not expect these subsidiaries to pay dividends to their parent companies. Thus, we expect that withholding tax, if any, will be minimal.

China

In March 2007, a new enterprise income tax law (the New EIT Law) in the PRC was enacted which became effective on January 1, 2008. The New EIT Law applies a unified 25% enterprise income tax (EIT) rate to both foreign invested enterprises and domestic enterprises, unless a preferential EIT rate is otherwise stipulated. A five-year transition period was allowed for those enterprises which enjoyed a reduced EIT rate prior to year 2008 with the transitional EIT rates of 18%, 20%, 22%, 24% and 25% for 2008, 2009, 2010, 2011 and 2012, respectively. Thus, the applicable EIT rate for SouFun Shenzhen and SouFun Shanghai was 22%, 24% and 25% for 2010, 2011 and 2012, respectively.

On April 14, 2008, relevant governmental regulatory authorities released further qualification criteria, application procedures and assessment processes for meeting the High and New Technology Enterprise (HNTE) status under the New EIT Law which would entitle qualified and approved entities to a favorable statutory tax rate of 15%.

In April 2009, the State Administration for Taxation (SAT) issued Circular Guoshuihan [2009] No. 203 (Circular 203) stipulating that entities which qualified for the HNTE status should apply with in-charge tax authorities to enjoy the reduced EIT rate of 15% provided under the New EIT Law starting from the year when the new HNTE certificate becomes effective. In addition, an entity which qualified for the HNTE status can continue to enjoy its remaining tax holiday from January 1, 2008 provided that it has obtained the HNTE certificate according to the new recognition criteria set by the New EIT Law and the relevant regulations.

The HNTE certificates for SouFun Network, SouFun Media, Beijing Zhong Zhi Shi Zheng, and Beijing JTX Technology expired on May 27, 2012. The HNTE certificates for Beijing Technology expired on June 12, 2012. We received renewed HNTE certificates for these subsidiaries, which allow them to continue qualifying for the preferential tax rates in 2012, 2013 and 2014. The approval for the renewal of the HNTE certificates for the five subsidiaries was published on the Beijing Municipal Science & Technology Commission's website between April and October 2012 and we received the renewed HNTE certificates between May and November 2012. Therefore, SouFun Media and Beijing Zhong Zhi Shi Zheng were entitled to the tax holiday of 15%, 15% and 15% for years 2011, 2012 and 2013, respectively; whereas SouFun Network, Beijing Technology and Beijing JTX Technology were entitled to the tax holiday of 7.5%, 15% and 15% for years 2011, 2012 and 2013, respectively.

SAT subsequently issued Circular Guoshuihan [2010] No.157 (Circular 157) in April 2010 to further clarify the applicable EIT rate for entities which qualified for the HNTE status. According to Circular 157, entities which qualified for the HNTE status should elect one of the following two EIT treatments and no changes could be made once the election is made:

The applicable EIT rate is 15% but the remaining tax holiday would no longer be enjoyed; or

The remaining tax holiday could be enjoyed based on the transitional EIT rates, that is, 18%, 20%, 22%, 24% and 25% for 2008 to 2012.

The effective date of Circular 157 was January 1, 2008. As a consequence of Circular 157, we elected to apply the second EIT treatment. The applicable EIT rate for SouFun Network and Beijing Technology was 10%, 11% and 12% for 2009, 2010 and 2011, respectively, while the applicable EIT rate for Beijing JTX Technology was 0%, 11% and 12% for 2009, 2010 and 2011, respectively.

During 2011, the Beijing Municipal State Tax Bureau clarified the tax policy with SAT in relation to the three-year exemption, three-year 50% reduction tax holiday that was implemented for entities which qualified for the HNTE status in the Zhongguancun Science Park (ZSP) and reached a verbal agreement with SAT that Circular 157 is not applicable to the entities registered in the ZSP. As a result, the applicable income tax rates for SouFun Network, Beijing Technology, and Beijing JTX Technology, the Company's subsidiaries registered in the ZSP which qualified for the HNTE status, should be 7.5%, 7.5%, 7.5% for 2010 and 2011 and 15%, 15%, 7.5% for 2012, respectively. Accordingly, income tax expenses of US\$7.5 million were reversed in 2011 for the cumulative effect of unnecessarily applying Circular 157 during 2009 and 2010. The reversed tax expenses consist of current income tax expenses of US\$4.8 million and deferred tax expenses of US\$2.7 million.

On March 26, 2012, Beijing Hong An and Beijing Tuo Shi, obtained the certificates of Software Enterprise with effect from January 1, 2011. Accordingly, the two subsidiaries are entitled to two-year enterprise income tax exemption for 2011 and 2012 and reduced enterprise income tax rate of 12.5% for 2013, 2014 and 2015. As a result of the change in tax status of the two subsidiaries, income tax expenses of US\$1.6 million were reversed in 2012 for the cumulative effect of applying the statutory tax rate of 25% during 2011. The reversed tax expenses consist of current income tax expense of US\$1.2 million and deferred tax expense of US\$0.4 million.

Dividends paid by the PRC subsidiaries of the Group out of the profits earned after December 31, 2007 to non-PRC tax resident investors are subject to PRC withholding tax. The withholding tax on dividends is 10%, unless a foreign investor's tax jurisdiction has a tax treaty with the PRC that provides for a lower withholding tax rate and the foreign investor is recognized as the beneficial owner of the income under the relevant tax rules. In September 2013, the PRC tax bureau granted SouFun Media and SouFun Network a reduced withholding tax rate of 5% on earnings to be distributed between 2013 and 2015. As a result of the change in tax status, deferred tax liabilities related to the undistributed earnings of SouFun Media and SouFun Network of US\$15.1 million was reversed during 2013.

Moreover, the New EIT Law treats enterprises established outside of China with effective management and control located in the PRC as PRC resident enterprises for tax purposes. The term effective management and control is generally defined as exercising overall management and control over the business, personnel, accounting, properties, etc. of an enterprise. Our Company, if considered a PRC resident enterprise for tax purposes, would be subject to the PRC enterprise income tax at the rate of 25% on our worldwide income after January 1, 2008. As of December 31, 2013, we have not accrued for PRC tax on such basis. We will continue to monitor our tax status.

Critical Accounting Policies

We prepare our financial statements in conformity with U.S. GAAP, which requires us to make judgments, estimates and assumptions that affect the reported amounts of our assets and liabilities, disclosure of contingent assets and liabilities on the date of each set of financial statements and the reported amounts of revenues and expenses during each financial reporting period. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experience and various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates and assumptions is an integral component of the financial

reporting process, actual results could differ from those estimates and assumptions.

An accounting policy is considered to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time such estimate is made, and if different accounting estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically could materially impact the consolidated financial statements. We believe the following critical accounting policies reflect the more significant estimates and assumptions used in the preparation of our consolidated financial statements. The following descriptions of critical accounting policies, judgments and estimates should be read in conjunction with our consolidated financial statements and other disclosures included elsewhere in this annual report.

Effective January 1, 2012, we have reclassified the revenues from SouFun membership services from other value-added services to e-commerce services in our consolidated statements of comprehensive income. The reclassification provides better operating information and is in line with the current development of our business. The change in presentation has been applied retrospectively to all periods presented.

Revenue Recognition

We recognize revenues only when there is (i) persuasive evidence of an arrangement; (ii) the sales price is fixed or determinable; (iii) delivery of services has occurred; and (iv) collectability is reasonably assured. We derive revenues from the provision of marketing, e-commerce, listing and other value-added services. To the extent that our revenues consist of multiple deliverables, we will recognize such revenues in accordance with applicable accounting policies.

Marketing Services

We offer marketing services on our websites, primarily in the form of banner advertisements, floating links, logos and other media insertions. We offer these services to real estate developers and suppliers of home furnishing and improvement and other home-related products and services, which allow such advertisers to place advertisements on specified areas of our websites, in various specified formats and over various periods of time. Written contracts, containing all significant terms, signed by us and our customers provide persuasive evidence of the arrangement. The contracts do not contain any specific performance, cancellation, termination or refund provisions.

We negotiate the service fee with the customer but once a price is agreed to and the written contract is signed by both parties, the price is fixed and not subject to change. Service fees are generally due and payable in installments over the service period. Historically, service fees have varied widely for marketing services and such variation in prices exists even when the same forms of services are provided in the same location of our websites and for the same duration. Marketing services typically last from several days to one year. Delivery of the services occur upon displaying the advertising, floating links, logos and other media insertions on our websites over the specified service period. We perform credit assessments on our customers prior to signing the written contract to ensure collectability is reasonably assured. We recognize revenues ratably over the contract period, when there is persuasive evidence of an arrangement, the fee is fixed or determinable and collection is reasonably assured, as prescribed by ASC 605 Revenue Recognition.

For certain arrangements, we provide marketing services that contain multiple deliverables, that is, different forms of services to be delivered over different periods of time.

We account for each deliverable in the arrangement as separate unit of accounting. Revenues are allocated to each unit of accounting on a relative fair value basis using a selling price hierarchy and are recognized ratably over the duration of the service period. The selling price for a given deliverable is based on vendor-specific objective evidence (VSOE) if available, third party evidence (TPE) if VSOE is not available, or best estimate of selling price (BEP) if neither VSOE nor TPE is available. The total arrangement consideration is allocated to each unit of accounting based on its relative selling price, which is determined based on our BEP for that deliverable because neither VSOE nor TPE exist. In determining the BEP for each deliverable, we consider our overall pricing model and objectives, as well as market or competitive conditions that may impact the price at which we would transact if the deliverable were sold regularly on a standalone basis. We monitor the conditions that affect its determination of selling price for each deliverable and reassess such estimates periodically.

We updated the BEP for each deliverable during 2013. In accordance with ASC 250, Accounting Changes and Error Corrections, changes in the determination of the BEP are considered a change in accounting estimate and are accounted for on a prospective basis. The effect of changes in the BEP on the allocation of arrangement consideration was insignificant.

E-commerce Services

We began to provide e-commerce services in 2011. Our e-commerce services consist of SouFun membership services and our online transaction services platform.

SouFun membership services

We enter into arrangements with real estate developers, pursuant to which we generally charge our prospective home buyer customers RMB5,000 to RMB20,000 to purchase specified properties from the real estate developers at a discount significantly greater than the fees charged by us. The discount is either a fixed amount off or a fixed percentage of the price of the specified property. The fees paid by prospective home buyers are refundable before a purchase of the specified properties is made by the prospective home buyer. We recognize revenues when we have received the fees and the prospective home buyer has applied the discount to pay for the purchase price of the specified properties. Cash received in advance of the purchase of specified properties is recorded as customers refundable fees.

Online transaction services platform

We operate (i) an online marketplace platform which enables third-party merchants to sell home furnishing products to customers online and (ii) an online payment platform which enable third-party merchants to transact with customers online. We earn a commission, which ranges from 5% to 15% of the sales transaction amount, from the third-party merchants when a transaction is completed. When a customer places his or her order for home furnishing products with a third-party merchant through our marketplace platform, the sales price and the shipping charge for the sale transaction are confirmed. Delivery of goods to a consumer is processed by the third-party merchant after payment is made through our online payment platform. When the sales transaction is completed, we recognize the commission earned as e-commerce services revenues upon confirmation of receipt of the home furnishing products by the consumer and remittance of the net payment to the third-party merchant through our marketplace and online payment platforms.

Listing Services

Listing services include basic listing and special listing services. We offer our basic and special listing services to real estate agents, brokers, developers, property owners, property managers and others seeking to sell or rent new or secondary residential and commercial properties.

Basic Listing Services. Basic listings entitle our customers to post and change information for properties, home furnishings and other related products and services in a specified area on our websites for a specified period of time, typically ranging from one to 36 months, in exchange for a fixed fee. Written contracts, containing all significant terms, signed by us and our customers provide persuasive evidence of the arrangement. The fee to be paid is not subject to change once the contract has been signed. The contracts do not contain any specific performance, cancellation, termination or refund provisions. Delivery of services occurs by making access to our websites available for posting by the customers over the specified listing period. In accordance with ASC 605-25, we recognize revenues ratably over the duration of the service period as the basic listing services are being delivered.

Special Listing Services. Special listing services are multiple element arrangements comprising website listing services and other coordination of promotional themed events, such as physical forums and banquets, each with the special listing as the theme, where our customers promote their products or services to a live audience. These offline services do not have standalone value and are always sold with special listing services. Written contracts, containing all significant terms, signed by us and our customers provide persuasive evidence of the arrangement. The amount of fee to be paid is not subject to change once the contract has been signed. The contracts do not contain any specific performance, cancellation, termination or refund provisions. Delivery of services occurs by making access to the websites available for posting by the customers over the specified listing period and upon completion of the offline services. As the offline services do not have standalone value, a combined unit of accounting is used pursuant to ASC 605-25 whereby we recognize revenues upon delivery of the final deliverable, which is recognized ratably over the duration of the special listing service period.

Other Value-added Services

We generate revenues from other value-added services, including subscription services for access to our information database and consulting services for customized and industry-related research reports and indices. Revenues derived from subscription services for access to our information database are recognized ratably over the subscription period. Revenues derived from consulting services for customized and industry-related research reports and indices are recognized when the relevant services are completed.

Our business is subject to business taxes, value-added taxes, surcharges or cultural construction fees levied on advertising-related sales in China. In accordance with ASC 605-45, Revenue Recognition Principal Agent Considerations, all such business taxes, value-added taxes, surcharges and cultural construction fees are presented as cost of revenues in the consolidated statements of comprehensive income. Business taxes, value-added taxes and related surcharges and cultural construction fees for 2011, 2012 and 2013 were US\$21.1 million, US\$28.9 million and US\$38.8 million, respectively.

All service fees received in advance of the provision of services are initially recorded as either deferred revenues or customers refundable fees which we subsequently recognize as revenues when we perform the related services.

Accounts Receivable and Allowance for Doubtful Accounts

We consider many factors in assessing the collectability of its receivables, such as, the age of the amounts due, the customer's payment history and credit-worthiness. An allowance for doubtful accounts is recorded in the period in which a loss is determined to be probable. Accounts receivable balances are written off after all collection efforts have been exhausted.

Funds Receivable

Funds receivable represents cash from SouFun membership services due from third-party payment service providers for clearing transactions. We carefully consider and monitor the credit worthiness of the third-party payment service providers used.

An allowance for doubtful accounts is recorded in the period in which a loss is determined to be probable. Receivable balances are written off after all collection efforts have been exhausted. No allowance for doubtful accounts was provided for the funds receivable as of December 31, 2012 and 2013, respectively.

Share-based Compensation Costs

We account for share-based awards granted to employees under ASC 718, Compensation Stock Compensation: Overall. In accordance with ASC 718, we determine whether a share option should be classified and accounted for as a liability award or an equity award. All grants of share-based awards to employees classified as equity awards are recognized in the financial statements based on their grant-date fair values, which are calculated using the appropriate option pricing model. All grants of share-based awards to employees and directors classified as liability awards are re-measured at the end of each reporting period with an adjustment for fair value recorded to the current period expense in order to properly reflect the cumulative expense based on the current fair value of the vested awards over the vesting periods. We have elected to recognize compensation expense using the straight-line method for all employee equity awards granted with graded vesting based on service conditions, which were not subject to performance vesting conditions.

We use the accelerated attribution method for the equity awards with performance conditions on a tranche-by-tranche basis, based on the probable outcome of the performance conditions. To the extent the required vesting conditions are not met resulting in the forfeiture of the share-based awards, previously recognized compensation expense relating to those awards is reversed. ASC 718-10 requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from initial estimates. Share-based compensation expense was recorded net of estimated forfeitures such that expense was recorded only for those share-based awards that are expected to vest.

Income Taxes

We follow the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized based on the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and attributable to operating loss and tax credit carryforwards, if any. We reduce carrying amounts of deferred tax assets by a valuation allowance, if, based on the available evidence, it is more-likely-than-not that such assets will not be realized. Accordingly, we assess the need to establish valuation allowances for deferred tax assets at each reporting period based on a more-likely-than-not realization threshold. We consider, among other matters, the nature, frequency and severity of current and cumulative losses, forecasts of future profitability, the duration of statutory carryforward periods, our experience with operating loss and tax credit carryforwards, if any, not expiring.

We apply ASC 740, *Income Taxes* to account for uncertainties in income taxes. In accordance with the provisions of ASC 740-10, we recognize in our financial statements the impact of a tax position if a tax return position or future tax position is *more-likely-than-not* to prevail based on the facts and technical merits of the position. Tax positions that meet the *more-likely-than-not* recognition threshold are measured at the largest amount of tax benefit that has a greater than fifty percent likelihood of being realized upon settlement.

Our estimated liability for unrecognized tax benefits, which is included in *accrued expenses and other liabilities*, is periodically assessed for adequacy and may be affected by changing interpretations of laws, rulings by tax authorities, changes and/or developments with respect to tax audits and expiration of the statutes of limitations. The outcome for a particular audit cannot be determined with certainty prior to the conclusion of the audit and, in some cases, the appeal or litigation process. The actual benefits ultimately realized may differ from our estimates. As each audit is concluded, adjustments, if any, are recorded in our financial statements. In addition, in future periods, changes in facts, circumstances and new information may require us to adjust the recognition and measurement estimates with regard to individual tax positions. Changes in recognition and measurement estimates are recognized in the period in which the changes occur.

Interest and penalties arising from underpayment of income taxes are computed in accordance with the related PRC tax law. The amount of interest expense is computed by applying the applicable statutory rate of interest to the difference between the tax position recognized and the amount previously taken or expected to be taken in a tax return. Interest and penalties recognized in accordance with ASC 740-10 are classified in our consolidated statements of comprehensive income as income tax expense.

Recent Accounting Pronouncements

In July 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Updates (ASU) 2013-11, *Income Taxes (Topic 740)*, to provide guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, similar tax loss, or tax credit carryforward exists. ASU 2013-11 requires an unrecognized tax benefit, or a portion of an unrecognized tax benefit, to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, with certain exceptions. The modifications to ASC 740 resulting from the issuance of ASU 2013-11 are effective for fiscal years beginning after December 15, 2013 and interim periods within those years. Early adoption is permitted. We early adopted ASU 2013-11 and the adoption of ASU 2013-11 did not have a material impact on our consolidated financial statements.

Results of Operations

The following table sets forth selected financial data from our consolidated statements of comprehensive income for the periods indicated:

	Year Ended December 31,					
	2011		2012		2013	
	Amount	Percentage of revenue	Amount	Percentage of revenue	Amount	Percentage of revenue
(US\$ in thousands, except percentage)						
Revenues

Revenues

Our revenues increased 48.1% and 25.1% year-over-year in 2013 and 2012, respectively. The year-over-year increase in revenues in 2013 was primarily driven by the growth in listing services and, to a lesser extent, SouFun membership services. The year-over-year increase in revenues in 2012 was primarily driven by the growth in SouFun membership services and, to a lesser extent, listing services.

Marketing Services. Our marketing service revenues consist of revenues derived from the advertising services provided by our new home, secondary and rental properties and home furnishing and improvement businesses. Our marketing services include the design and deployment on our websites of banners, links, logos and floating signs. Revenues from marketing services increased 11.4% and 1.3% year-over-year in 2013 and 2012, respectively. In 2011, 2012 and 2013, revenues generated from our marketing services represented 71.7%, 58.1% and 43.7% of our revenues, respectively. We expect revenues from marketing services to remain the most important source of our revenues for the foreseeable future.

The following table presents our marketing service revenues for each of our businesses by amount and percentage of total marketing service revenues for the periods indicated:

	Year Ended December 31,					
	2011		2012		2013	
	Amount	Percentage of marketing service revenues	Amount	Percentage of marketing service revenues	Amount	Percentage of marketing service revenues
	(US\$ in thousands, except percentage)					
New home	US\$ 210,719	85.4%	US\$ 222,963	89.2%	US\$ 258,479	92.9%
Home furnishing and improvement	33,635	13.7%	25,695	10.3%	18,924	6.8%
Secondary and rental	2,280	0.9%	1,203	0.5%	919	0.3%
Total marketing service revenues	246,634	100%	249,861	100%	278,322	100%

New home business accounted for 85.4%, 89.2% and 92.9% of our marketing service revenues in 2011, 2012 and 2013, respectively. New home business primarily consists of marketing services for newly developed properties for sale. Our new home customers are largely real estate developers and their sales agents who are in the process of promoting newly developed properties for sale.

E-commerce Services. Revenues from e-commerce services increased 84.1% and 322.7% year-over-year in 2013 and 2012, respectively. The increase in revenues in 2013 was primarily due to expansion of the SouFun membership services in existing and new cities. The increase in revenues in 2012 was primarily due to the increasing market acceptance of the SouFun membership services. We began offering SouFun membership services to property buyers to facilitate their transactions with property developers in the second quarter of 2011. Revenues from e-commerce services represented 7.0%, 23.8% and 29.5% of our revenues in 2011, 2012 and 2013, respectively.

The following table presents our e-commerce service revenues for each of our businesses by amount and percentage of total e-commerce service revenues for the periods indicated:

	2011		Year Ended December 31, 2012		2013	
	Amount	Percentage of e-commerce service revenues	Amount	Percentage of e-commerce service revenues	Amount	Percentage of e-commerce service revenues
	(US\$ in thousands, except percentage)					
New home	US\$ 22,513	93.1%	US\$ 102,109	99.9%	US\$ 188,102	100.0%
Other product group	1,657	6.9%	143	0.1%	5	0.0%
Total e-commerce service revenues	24,170	100%	102,162	100%	188,107	100%

New home business accounted for 93.1%, 99.9% and 100.0% of our e-commerce service revenues in 2011, 2012 and 2013, respectively.

Listing Services. Revenues from our listing services increased 121.7% and 8.6% year-over-year in 2013 and 2012, respectively. The year-over-year increase in revenues in 2013 was primarily due to a 162.0% increase in revenues from basic listing services from US\$55.6 million to US\$145.8 million over the same periods. This increase was primarily due to the increased paying agent subscribers and increased spending from existing and new subscribers. The year-over-year increase in revenues in 2012 was primarily due to a 46.6% increase in revenues from special listing services from US\$11.8 million to US\$17.2 million over the same periods. This increase was primarily due to the general recovery in the secondary real estate market during the second half of 2012 and increased advertising spending from new home developers in tier 1 and tier 2 cities. Revenues from our basic listing services increased 0.5% from US\$55.4 million in 2011 to US\$55.6 million in 2012. In 2011, 2012 and 2013, revenues from our listing services represented 19.6%, 16.9% and 25.3% of our revenues, respectively. We believe that listing service revenues will continue to remain a significant revenue source. We expect basic listing service revenues to grow as a percentage of our total revenues as the secondary home market continues to grow in China. However, recent regulatory efforts to require additional down payments and other actions to dampen the growing market for secondary homes may impact our revenues. The following table sets forth our listing service revenues by amount and percentage of our listing service revenues for the periods indicated:

	Year Ended December 31,		
	2011 Amount	2012 Amount	2013 Amount

		Percentage of listing service revenues		Percentage of listing service revenues		Percentage of listing service revenues
(US\$ in thousands, except percentage)						
Basic listing	US\$ 55,359	82.5%	US\$ 55,626	76.3%	US\$ 145,752	90.2%
Special listing	11,766	17.5%	17,248	23.7%	15,795	9.8%
Total listing service revenues	67,125	100%	72,874	100%	161,547	100%

The following table presents our listing service revenues for each of our businesses by amount and percentage of total listing service revenues for the periods indicated:

	Year Ended December 31,					
	2011		2012		2013	
	Amount	Percentage of listing service revenues	Amount	Percentage of listing service revenues	Amount	Percentage of listing service revenues
	(US\$ in thousands, except percentage)					
Secondary and rental properties	US\$ 54,732	81.5%	US\$ 55,114	75.6%	US\$ 144,963	89.7%
Research	9,785	14.6%	13,592	18.7%	14,178	8.8%
Other product group	2,608	3.9%	4,168	5.7%	2,406	1.5%
Total listing service revenues	67,125	100%	72,874	100%	161,547	100%

Secondary and rental properties business accounted for 81.5%, 75.6% and 89.7% of our listing service revenues in 2011, 2012 and 2013, respectively.

Other Value-added Services. Revenues from other value-added services increased 75.4% in 2013 primarily due to database services. Revenues from other value-added services and products decreased 9.1% in 2012 primarily due to our increased focus on our core marketing, e-commerce and listing services. In 2011, 2012 and 2013, revenues from other value-added services represented 1.7%, 1.2% and 1.5% of our revenues, respectively.

Cost of Revenues

Our cost of revenues as a percentage of our total revenues was 19.4%, 18.8% and 16.1% in 2011, 2012 and 2013, respectively. Our cost of revenues increased 26.7% and 21.5% year-over-year in 2013 and 2012, respectively.

The increase in cost of revenues in 2013 was primarily due to (1) an increase in staff costs from US\$32.1 million in 2012 to US\$37.6 million in 2013, due to our hiring of editorial staff and customer service personnel throughout 2013 to support our growth, and (2) an increase in business taxes, value-added taxes, surcharges from US\$28.9 million in 2012 to US\$38.8 million in 2013 and other expenses primarily due to our business growth.

The increase in cost of revenues in 2012 was primarily due to (1) an increase in staff costs from US\$25.4 million in 2011 to US\$32.1 million in 2012, due to our hiring of editorial staff and customer service personnel throughout 2012 to support our growth, and (2) an increase in business taxes, value-added taxes, surcharges and meeting expenses from US\$21.2 million in 2011 to US\$28.9 million in 2012 and other expenses primarily due to our business growth.

Gross Profit and Gross Margin

As a result of the foregoing, our gross profit increased 53.1% and 26.0% year-over-year in 2013 and 2012, respectively. Our gross margin was 80.6%, 81.2% and 83.9% in 2011, 2012 and 2013, respectively.

Operating Expenses

Our operating expenses increased 22.9% and 10.2% year-over-year in 2013 and 2012, respectively. The increase in our operating expenses was attributable to increases in both our selling expenses and general and administrative expenses. In 2011, 2012 and 2013, our operating expenses represented 39.8%, 35.1% and 29.1% of our revenues, respectively.

The following table sets forth our operating expenses by amount and percentage of our total operating expenses for the periods indicated:

	Year Ended December 31,					
	2011		2012		2013	
	Amount	Percentage of operating expenses	Amount	Percentage of operating expenses	Amount	Percentage of operating expenses
(US\$ in thousands, except percentage)						
Selling expenses	US\$ 67,207	49.1%	US\$ 80,056	53.1%	US\$ 101,935	55.0%
General and administrative expenses	69,611	50.9%	70,780	46.9%	83,384	45.0%
Total	136,818	100%	150,836	100%	185,319	100%

Selling Expenses. Our selling expenses increased 27.3% and 19.1% year-over-year in 2013 and 2012, respectively. The increase in selling expenses was primarily due to an increase in staff costs. Staff costs increased 38.7% (from US\$39.4 million to US\$54.6 million) and 29.2% (from US\$30.5 million to US\$39.4 million) year-over-year in 2013 and 2012, respectively. This increase was mainly due to the hiring of additional sales and marketing personnel to support our business growth.

General and Administrative Expenses. Our general and administrative expenses increased 17.8% in 2013 primarily due to an increase in staff cost. Staff costs increased 24.3% from US\$33.3 million in 2012 to US\$41.4 million in 2013, primarily due to our hiring of additional staff.

Our general and administrative expenses increased 1.7% in 2012 primarily due to an increase in staff cost, which was substantially offset by a decrease in bad debt expenses. Staff costs increased 22.4% from US\$27.2 million in 2011 to US\$33.3 million in 2012, primarily due to our hiring of additional staff. Bad debt expenses decreased by 24.6% from US\$16.4 million in 2011 to US\$12.3 million in 2012, primarily due to a recovery of the real estate industry and, we believe, a general improvement in our customers' financial condition in 2012.

Other income. Other income in 2013 consists of other revenue of US\$8.9 million and other expenses of US\$8.1 million of the three subsidiaries we acquired in the BaoAn acquisition since March 2013.

Operating Income and Operating Margin

As a result of the foregoing, our operating income increased 76.5% and 41.4% year-over-year in 2013 and 2012, respectively. Our operating margin was 40.8%, 46.1% and 55.0% in 2011, 2012 and 2013, respectively.

Interest Income

Our interest income increased 43.3% and 85.1% year-over-year in 2013 and 2012, respectively. The increase in interest income was mainly due to our increased bank deposits and to a lesser extent the higher interest rates for our bank deposits.

Interest Expenses

Our interest expenses increased 26.2% and 188.9% year-over-year in 2013 and 2012, respectively. The increase in interest expenses was primarily due to our increased bank borrowings in 2013 and 2012. In the future, we expect interest expense to increase due to the issuance of our \$400 million of notes.

Realized (loss) gain on available-for-sale security

We had a realized gain on available-for-sale security of US\$0.8 million in 2013 due to subsequent recovery in share price upon sales of available-for-sale securities. The realized loss in 2011 is reclassification out of accumulated comprehensive income due to a significant decline in the share price.

Government Grants

Our government grants, which consisted of refunds on business taxes and VAT, totaled US\$1.4 million, US\$1.3 million and US\$4.0 million in 2011, 2012 and 2013, respectively.

Other-than-temporary Impairment on Available-for-sale Securities

We had no and de minimis other-than-temporary impairments on available-for-sale securities in 2013 and 2012, respectively, as compared with US\$3.6 million in 2011.

Gain on bargain purchase

The US\$0.1 million gain on bargain purchase was attributable to the excess of the fair value of the identifiable net assets acquired over the cost of BaoAn acquisition as of the acquisition date.

Income Tax Expenses

Our income tax expenses increased 24.8% and 31.2% year-over-year in 2013 and 2012, respectively. Our effective tax rate was 29.6%, 26.9% and 18.9% in 2011, 2012 and 2013, respectively.

The increase in our tax expenses in 2013 was principally due to our increased income before income taxes, and the decrease in our effective tax rate was primarily due to reversal of US\$15.1 million of previously accrued income tax, resulting from certain of our WFOEs being now subject to lower dividend-related withholding tax rates and to a lesser extent, the effects of the implementation of our tax strategy.

The increase in our tax expenses in 2012 was principally due to our increased income before income taxes, and the decrease in our effective tax rate was due to greater profit contribution by two subsidiaries with tax exemption status in 2012 and the reversal of US\$1.6 million of previously accrued income tax, resulting from the change in the tax status of these two subsidiaries in 2012.

Net (Loss) Income Attributable to Our Noncontrolling Interests

Net income attributable to our noncontrolling interests was US\$0.05 million in 2013, as compared with de minimis net loss and net loss of US\$0.03 million in 2012 and in 2011, respectively.

B. Liquidity and Capital Resources

Historically, we financed our operations primarily through internally generated cash, bank borrowings and equity financings. As of December 31, 2013, we had approximately US\$581.0 million in cash and cash equivalents, which primarily consisted of cash and bank deposits. Of our cash and cash equivalents as of December 31, 2013, US\$322.7 million was held inside the PRC and US\$258.3 million was held outside of the PRC. Of the US\$322.7 million held inside the PRC, US\$135.8 million was held by our consolidated controlled entities and US\$186.9 million was held by our subsidiaries. See Item 3.D. Key Information Risk Factors Risks Related to Doing Business in China We rely primarily on dividends and other distributions on equity paid by our subsidiaries, and any limitation on the ability of our subsidiaries to make payments to us could have a material adverse effect on our ability to conduct our business as well as our liquidity and Government control of currency conversion may limit our ability to utilize our revenues effectively for additional discussion. All of our investments with original stated maturities of 90 days or less are classified as cash and cash equivalents. All of our investments with original stated maturities of greater than 90 days and less than 365 days are classified as short-term investments. As of December 31, 2011, 2012 and 2013, we had short-term investments of US\$8.6 million, US\$26.8 million and US\$10.1 million, respectively.

As of December 31, 2013, we had U.S. dollar-denominated short-term borrowings of US\$90.0 million, consisting of bank borrowings of US\$25.0 million and US\$65.0 million from financial institutions in Singapore and Hong Kong, respectively. These bank borrowings are repayable on demand and bear interest at interest rates ranging from LIBOR plus 2.5% to LIBOR plus 2.7%. These bank borrowings are secured by bank deposits of approximately US\$27.9 million and US\$71.7 million, respectively, placed with financial institutions in the PRC. The cash deposits pledged for these bank borrowings could be released after we repay the bank borrowings in full. These pledged deposits are classified as restricted cash on our consolidated balance sheets. Certain of these bank borrowings included cross default provisions.

As of December 31, 2013, we had U.S. dollar-denominated long-term borrowings of US\$180.8 million, obtained from financial institutions in the United States, which are due in the third quarters of 2015 and 2016. These borrowings bear an interest rate of LIBOR plus 1.7% to 2.6% and are secured by bank deposits of US\$208.2 million placed with financial institutions in the PRC. The cash deposits pledged for the bank borrowings could be released after we repay these bank borrowings in full. These pledged deposits are also classified as restricted cash on our consolidated balance sheets. Certain of these bank borrowings included cross default provisions.

These bank borrowings are incurred to satisfy the operating needs of the Company and its offshore subsidiaries outside of the PRC, including property acquisitions, dividend payments, and other operational expenses.

Use of Proceeds	Amount (US\$ in thousands)
Payment of dividends	US\$ 354,272
Acquisition of building	60,750
Other (interest expenses and taxes)	13,722
Total	428,744

In December 2013 and January 2014, we sold US\$350 million and US\$50 million in aggregate principal amount of convertible senior notes due 2018 (the Notes). The Notes were offered to qualified institutional buyers pursuant to Rule 144A under the Securities Act and certain non-U.S. persons in compliance with Regulation S under the Securities Act. The Notes may be converted, under certain circumstances, based on an initial conversion rate of 9.6839 ADSs (48.4195 ADSs after the five-for-one ADS ratio change in April 2014) per US\$1,000 principal amount of Notes (equivalent to an initial conversion price of approximately US\$103.26 per ADS or US\$20.65 after the five-for-one ADS ratio change in April 2014). The net proceeds to us from the issuance of the Notes were US\$390.5 million. We are required to pay cash interest at an annual rate of 2.00% on the Notes. Interest is payable semiannually in arrears on June 15 and December 15 of each year, beginning on June 15, 2014. We incurred debt issuance costs of US\$10.1 million, which are being amortized to interest expense to the first put date of the Notes. The Notes are senior unsecured obligations and rank (1) senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the Notes, (2) equal in right of payment to any of our unsecured indebtedness that is not so subordinated, (3) effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness and will rank structurally junior to all indebtedness and other liabilities (including trade payables) of our subsidiaries and consolidated controlled entities.

We believe that our working capital is sufficient for our present requirements. We may, however, seek additional cash resources due to changed business conditions or other future developments, including selling debt securities or additional equity securities or obtaining credit facilities to meet our cash needs. See Item 3.D. Key Information Risks Factors Risks Related to Our ADSs and Notes We may need additional capital, and the sale of additional ADSs, notes or other equity securities could result in additional dilution to our shareholders, while the incurrence of debt may impose restrictions on our operations.

Cash Flows

The following table sets forth information regarding our cash flows for the periods indicated:

	Year Ended December 31,		
	2011	2012	2013
	(US\$ in thousands)		
Consolidated statements of cash flows data			
Net cash generated from operating activities	US\$ 157,701	US\$ 218,893	US\$ 408,056
Net cash used in investing activities	(20,231)	(129,294)	(39,770)
	(163,662)	(122,600)	87,149

Edgar Filing: SouFun Holdings Ltd - Form 20-F

financing activities

Net (decrease) increase in cash and cash equivalents	(21,106)	(32,247)	462,843
Cash and cash equivalents at beginning of year	171,520	150,414	118,167
Cash and cash equivalents at end of year	150,414	118,167	581,010

-89-

Net Cash Generated from Operating Activities

We had a net cash generated by operating activities of US\$408.0 million in 2013, which was primarily attributable to our net income of US\$298.7 million during this period, an increase in accrued expenses and other liabilities of US\$41.4 million primarily attributable to an increase in the portion of proceeds to be remitted to marketing agents under SouFun Membership services, an increase of US\$46.4 million in deferred revenue due to increased advance from customers and US\$33.5 million in customers' refundable fees due to expansion of SouFun Membership services. This was partially offset by an increase of US\$25.5 million in our accounts receivable due to the expansion of our business operations, an increase of US\$29.3 million in funds receivable and an increase of US\$12.3 million in prepayment and other current assets primarily attributable to increase in interest receivable.

We had a net cash generated by operating activities of US\$218.9 million in 2012, which was primarily attributable to our net income of US\$151.8 million during this period, an increase in accrued expenses and other liabilities of US\$27.0 million primarily attributable to an increase in accrued unrecognized tax benefits, related interest and penalties, and the time lag in the settlement of VAT. This was partially offset by an increase of US\$14.6 million in our accounts receivable due to the expansion of our business operations and an increase of US\$1.3 million in prepayments and other current assets.

We had net cash generated by operating activities of US\$157.7 million in 2011, which was primarily attributable to our net income of US\$101.6 million during this period, and an increase in customers' refundable fees of US\$12.4 million primarily due to the launch and growth of our SouFun membership services. This was partially offset by an increase of US\$19.8 million in our accounts receivable due to the expansion of our business operations.

Net Cash Used in Investing Activities

Our net cash used in investing activities was US\$39.8 million in 2013. This was primarily attributable to a US\$37.7 million increase in deposit for non-current assets primarily attributable to a refundable deposit for the purchase of office building in Chengdu, a US\$12.8 million increase in payment for BaoAn acquisition, a US\$10.0 million increase in short-term investments in the form of fixed-rate time deposits in China and a US\$6.7 million increase in property and equipment. These amounts were partially offset by an increase in cash proceeds received from the maturity of short-term investments of US\$25.8 million relating to our fixed-rate time deposits in China and proceeds from sales of available-for-sale security of US\$1.5 million.

Our net cash used in investing activities was US\$129.3 million in 2012. This was primarily attributable to a US\$111.4 million increase in prepayment for the acquisition from China BaoAn Group Co., Ltd. of the entire equity interests in three companies that own and operate a property located in Shanghai, China, a US\$49.3 million increase in short-term investments in the form of fixed-rate time deposits in China, a US\$18.1 million increase in property and equipment, and a US\$8.8 million increase in deposits for purchase of non-current assets. These amounts were partially offset by an increase in cash proceeds received from the maturity of short-term investments of US\$31.8 million relating to our fixed-rate time deposits in China and proceeds from collection of loans to Beijing Pujin Finance Company and Dandong Yuanlong Villa Management Company, both independent third parties, of US\$26.1 million.

Our net cash used in investing activities was US\$20.2 million in 2011. This was primarily attributable to a US\$60.1 million increase in property and equipment mainly from the purchase of the former AIG training center in New York, a US\$204.2 million increase in short-term investments in the form of fixed-rate time deposits in China, and a US\$14.8 million loan to Dandong Yuanlong Villa Management Company for a term of six months with an interest rate of 10% per annum. These amounts were partially offset by an increase in cash proceeds received from the maturity of short-term investments of US\$258.4 million relating to our fixed-rate time deposits and trading securities in China.

Net Cash Used in Financing Activities

Our net cash generated from financing activities was US\$87.1 million in 2013, primarily due to net proceeds from the issuance of convertible senior notes of US\$341.6 in December 2013, proceeds from long-term bank borrowings of US\$100.0 million and proceeds from the exercise of share options of US\$26.0 million. These amounts were partially offset by repayment of short-term bank borrowings of US\$180.7 million, dividend payments to our shareholders of US\$81.0 million and an increase in restricted cash pledged security for bank borrowings of US\$108.2 million.

Our net cash used in financing activities was US\$122.6 million in 2012, primarily due to repayment of short-term loans of US\$30.9 million, dividend payments to our shareholders of US\$131.0 million and an increase in restricted cash pledged security for bank borrowings of US\$107.1 million. These amounts were partially offset by proceeds from short-term bank borrowings of US\$46.0 million, proceeds from long-term bank borrowings of US\$80.8 million and proceeds from the exercise of share options of US\$16.7 million.

Our net cash used in financing activities was US\$163.7 million in 2011, primarily due to repayment of short-term loans of US\$3.6 million, dividend payments to our shareholders of US\$142.2 million, and an increase in restricted cash pledged security for short-term bank borrowings of US\$277.3 million. These amounts were partially offset by proceeds from short-term bank borrowings of US\$255.6 million and proceeds from the exercise of share options of US\$6.0 million.

Capital Expenditures

Our capital expenditures were US\$60.1 million, US\$18.1 million and US\$6.7 million in 2011, 2012 and 2013, respectively. In 2011, our capital expenditures were primarily related to the purchase of the former AIG training center in New York. Our capital expenditures decreased by 69.9% from US\$60.1 million in 2011 to US\$18.1 million in 2012, which were primarily related to the purchase of the certain commercial properties in Sanya, Hainan Province, China. In addition, we expect our capital expenditures to increase in the future as our business continues to develop and expand as we make further improvements to our websites and our services.

Inflation

According to the National Bureau of Statistics of China, the change in the consumer price index in China was 5.4%, 2.6% and 2.6% in 2011, 2012 and 2013, respectively. Recent inflation has not had a material impact on our results of operations. However, we cannot assure you that we will not be adversely affected by inflation or deflation in China in the future.

C. Research and Development, Patents and Licenses, etc.

We have a team of experienced engineers who are primarily based at our headquarters in Beijing. We recruit most of our engineers locally and have established various recruiting and training programs with leading universities in China. We compete aggressively for engineering talent to help us address challenges such as Chinese language processing, information retrieval and high performance computing. In each of 2011, 2012 and 2013, our research and development expenditures, including share-based compensation expenses for research and development staff, were US\$10.4 million, US\$17.5 million and US\$32.3 million, representing 3.0%, 4.1% and 5.1% of our total revenues in 2011, 2012 and 2013, respectively.

D. Trend Information

See A. Operating Results of this Item 5 and Item 3.D. Key Information Risk Factors of this Form 20-F.

E. Off-Balance Sheet Arrangements

We do not currently have any outstanding off-balance sheet arrangements or commitments. We have no plans to enter into transactions involving, or otherwise form relationships with, unconsolidated entities or financial partnerships established for the purpose of facilitating off-balance sheet arrangements or commitments.

F. Tabular Disclosure of Contractual Obligations

The following table sets forth our contractual obligations as of December 31, 2013:

	Total	Payment due by period			More than five years
		Less than one year	One to three years	Three to five years	
		(US\$ in thousands)			
Convertible senior notes with principal and interest	US\$ 440,000	US\$ 8,000	US\$ 16,000	US\$ 416,000	US\$
Operating lease commitments	25,257	10,581	12,526	2,150	
Loan principal and interest expense obligation	281,177	80,941	200,236		

Our convertible senior notes will mature in December 2018, unless earlier repurchased or converted into our ADSs based on an initial conversion rate of 9.6839 ADSs (48.4195 ADSs after the five-for-one ADS ratio change in April 2014) per US\$1,000 principal amount of Notes (equivalent to an initial conversion price of approximately US\$103.26 per ADS or US\$20.65 after the five-for-one ADS ratio change in April 2014). The conversion rate is subject to certain corporate events. The interest will be payable semiannually in arrears on June 15 and December 15 of each year, beginning on June 15, 2014. On April 7, 2014, we changed our ADS share ratio from one ADS representing one Class A ordinary share to five ADSs representing one Class A ordinary shares.

Our loan principal and interest expense obligations relate to our US-dollar denominated bank borrowings of US\$25.0 million, US\$65.0 million and US\$180.8 million obtained from financial institutions in Singapore, Hong Kong and New York. These bank borrowings are secured by bank deposits of approximately US\$27.9 million, US\$71.7 million and US\$208.2 million, respectively, placed with financial institutions in the PRC. These pledged deposits are classified as restricted cash on our consolidated balance sheets. These bank borrowings are repayable on demand and bear interest at interest rates ranging from LIBOR plus 1.7% to LIBOR plus 2.7%. Of the loan principle and interest expense obligation less than one year and one to three years, US\$76.6 million and US\$15.0 million respectively was repaid in January 2014 prior to their maturity.

G. Ratio of Earnings to Fixed Charges

The following table sets forth our ratio of earnings to fixed charges for each of the periods indicated is as follows:

	Year Ended December 31,				
	2009	2010	2011	2012	2013
Ratio of earnings to fixed charges	34.1	34.7	19.3	13.9	20.4

- (1) For the purpose of calculating such ratios, earnings consist of income from continuing operations before income taxes and noncontrolling interests plus fixed charges and fixed charges consist of interest expense (net of capitalized portion), capitalized interest, amortization of debt discount and one-third of our rental expenses relating to operating leases, which we deem representative of an interest factor.

H. Safe Harbor

See Forward-Looking Statements.

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES**A. Directors and Executive Officers**

The following table sets forth certain information relating to our directors and executive officers as of March 31, 2014. The business address of each of our directors and executive officers is F9M, Building 5, Zone 4, Hanwei International Plaza, No. 186 South 4th Ring Road, Fengtai District, Beijing 100070, the People's Republic of China.

Name	Age	Position
Vincent Tianquan Mo	49	Executive chairman of the board of directors
Quan Zhou	56	Director
Shan Li	50	Independent director
Qian Zhao	45	Independent director
Sam Hanhui Sun	41	Independent director
Jeff XuesongLeng	44	Director
Thomas Nicholas Hall	46	Director
Richard Jiangong Dai	40	President, chief executive officer and director
Lanying Guan	46	Chief financial officer
Jian Liu	38	Chief operations officer

Vincent Tianquan Mo is our founder and has served as our executive chairman of our board of directors since 1999. Prior to founding our Company, Mr. Mo served as an executive vice president at Asia Development and Finance Corporation from 1996 to 1998 and a general manager for Asia at Teleres, a venture of Dow Jones & Co. and AEGON USA to provide online commercial real estate information services, from 1994 to 1996. He currently serves as a director on the board of directors of Shun Cheong Holdings Limited, a Hong Kong-listed company, and is the secretary general of the China Real Estate Index System, a real estate research publication operated by us. Mr. Mo is also a director of Taoshi PE Fund Management Co. Mr. Mo holds a bachelor's degree in engineering from South China University of Technology, a master of science degree in business administration from Tsinghua University and a master of arts degree in economics from Indiana University. Mr. Mo is the uncle of Mr. Dai, our president and chief executive officer who is a director of our Company.

Quan Zhou has served as a director of our Company since 1999. Mr. Zhou has been the president of IDG Technology Venture Investment, Inc., or IDG Technology, over 15 years. He is currently a managing member of the general partner of IDG Technology Venture Investments, L.P. and its successor funds. Mr. Zhou is also serving as a director of the general partner of each of IDG-Accel China Growth Fund I, IDG-Accel China Capital Fund I and their respective successor funds. He currently serves on the boards of a number of private companies, including Superdata Technology (Asia) Limited, OriGene Technologies Inc., CosmoChina International Inc., Xunlei Limited, Yesky.com Inc., CreditEase Holdings (Cayman) Limited and MEMSIC Inc. Mr. Zhou holds a bachelor's degree in chemistry from the China Science and Technology University, a master's degree in chemical physics from the Chinese Academy of Sciences, and a Ph.D degree in fiber optics from Rutgers University.

Shan Li has served as a director of our Company since 1999 and is an independent director of our Company and chair of our compensation committee. Mr. Li is a founding partner and director of San Shan (HK) Limited, a private equity firm focused on the China market. Previously, Mr. Li was the chief executive officer of BOC International Holdings Limited, a position he held from 2001 to 2005. Mr. Li served as a managing director at Lehman Brothers Asia (Hong Kong) from 1999 to 2001 and served as the deputy head of the Investment Banking Preparation Committee at China Development Bank from 1998 to 1999. Mr. Li is currently Chairman and CEO of Chianstone Capital Management Limited. Mr. Li was a senior advisor and vice chairman of UBS Investment Bank in Asia from 2010 to 2011. Mr. Li is currently the Chief International Business Adviser of Chian Development Bank. Mr. Li received a bachelor's degree in management information systems from Tsinghua University, a master's degree in economics from the University of California at Davis and a Ph.D degree in economics from the Massachusetts Institute of Technology.

Qian Zhao is an independent director of our Company and chair of our nominating and corporate governance committee. Mr. Zhao is a founding partner of CXC China Sustainable Growth Fund, a private equity fund that makes investments in China-based companies. Mr. Zhao was a lawyer by training and is admitted to practice law in both China and New York. Mr. Zhao co-founded Haiwen & Partners in 1992, a preeminent China corporate finance law firm in Beijing. He worked in Sullivan & Cromwell's New York office from 1998 to 2000 and Skadden, Arps, Slate, Meagher & Flom LLP and Affiliates' Beijing office from 2000 to 2003. Mr. Zhao is currently an independent director of Trina Solar Limited, a NYSE-listed company. Mr. Zhao was a managing director of CXC Capital, Inc., which was the management company of CXC China Sustainable Growth Fund from 2008 to 2011, and president of Camelot Information Systems Inc., a company listed on NASDAQ, from 2011 to 2013. Mr. Zhao received a J.D. degree from the New York University School of Law in 1998 and an LL.B degree from University of International Business & Economics, Beijing, in 1990.

Sam Hanhui Sun is an independent director of our Company and chairman of our audit committee. Mr. Sun has been chief financial officer of Qunar Cayman Islands Limited, a company listed on NASDAQ, since January 2010. He was chief financial officer of Beijing Ruifeng Co. Ltd. from May 2009 to September 2009 and KongZhong Corporation, a Nasdaq-listed company, from February 2007 to April 2009. Mr. Sun was also an independent director and audit committee member of KongZhong Corporation from July 2005 through January 2007. From 2004 to 2007, Mr. Sun took various financial controller roles at Microsoft China R&D Group, Maersk China Co. Ltd. and our Company. From 1995 to 2004, Mr. Sun worked in KPMG's auditing practice, including eight years at KPMG in Beijing where he was an audit senior manager, and two years at KPMG in Los Angeles, California. Mr. Sun earned a bachelor's degree in business administration from the Beijing Institute of Technology in 1993. He is a Certified Public Accountant in China.

Jeff Xuesong Leng has been a director of our Company since our initial public offering in September 2010, pursuant to the investor's rights agreement dated August 13, 2010. Mr. Leng is a managing director at General Atlantic LLC, a private equity investment firm. Mr. Leng is based on Hong Kong where he is a member of the firm's Executive Committee and heads the firm's Greater China and North-East Asia practice. Mr. Leng serves on the board of directors at WuXi PharmaTech (Cayman) Inc., a company listed on the New York Stock Exchange, and Zhongsheng Group Holdings Limited, a company listed on the Hong Kong Stock Exchange. Mr. Leng earned a master of business administration degree from the Wharton School of Business, University of Pennsylvania in 1999 and a bachelor of international industrial trade degree from Shanghai Jiao Tong University in 1992.

Thomas Nicholas Hall has been a director of our Company since our initial public offering in September 2010, pursuant to the investor's rights agreement dated August 13, 2010. Mr. Hall is an equity partner and co-Head of the Global Media Team at Apax Partners LLP, one of the world's largest private equity firms with funds advised and managed in excess of US\$35 billion. Mr. Hall worked at Deutsche Bank from 1995 to 1998 and S.G. Warburg from 1992 to 1995. While at Apax, Mr. Hall has been responsible for, and has served on the board of directors of, a number of private companies including Thomson Directories, The Stationery Office, Zeneus Pharma and 20 Minuten. Mr. Hall is currently Chairman of the board of directors and a member of the audit committee of Trader Media Group in the United Kingdom. He is also Chairman of Top Right Group (formerly known as EMAP), a UK-based trade show and information services company. Mr. Hall holds a master of arts degree from Cambridge University.

Richard Jiangong Dai joined us in 1999 and is our president and chief executive officer. Mr. Dai is a director of our Company. Mr. Dai is a nephew of Mr. Mo, our founder and executive chairman. Mr. Dai has over ten years of experience in the real estate media sector and is in charge of overseeing the operations of our website, www.soufun.com. Prior to joining us, Mr. Dai was a research analyst and assistant general manager at Beijing Yiding Information Technology Co., Ltd. and the China Real Estate Index System, a real estate research publication operated by us. Mr. Dai received a bachelor's degree in international trade from the College of Economics at Guangxi University.

Lanying Guan joined us in June 2004 as chief finance controller and has been our chief financial officer since March 2010. Ms. Guan has over 15 years of experience in financial management and accounting with multinational corporations. Prior to joining us, Ms. Guan served as the country finance manager of Cadence Inc, which develops electronic design automation software and hardware for clients worldwide and is a public company listed on NASDAQ. Ms. Guan holds a bachelor's degree in industry management engineering from China Agricultural University and a master's degree in accounting from the Central Finance and Economics University and is a certified public accountant in China.

Jian Liu joined us in April 2000 and is our chief operations officer. Mr. Liu is in charge of overseeing the operations and management of our business operations. Mr. Liu was also our first chief information officer. Prior to joining us, Mr. Liu worked at the information center of Ningbo Economic Committee in Zhejiang Province. Mr. Liu holds a bachelor's degree in computer science from Ningbo University.

B. Compensation

Compensation of Directors and Executive Officers

Our executive directors and executive officers receive compensation in the form of salaries, annual bonuses and share options. Our independent directors receive annual compensation in connection with the performance of their duties. All directors receive reimbursements from us for expenses necessarily and reasonably incurred by them for providing services to us or in the performance of their duties. We have entered into service contracts with our executive officers. None of these service contracts provide benefits to our directors and executive officers upon termination.

In 2013, we paid aggregate cash compensation of approximately US\$751,441 to our directors and executive officers as a group. We have no service contracts with any of our directors or executive officers that provide benefits to them upon termination. We do not pay or set aside any amounts for pension, retirement or other similar benefits for our officers and directors.

Share Options

Stock Related Award Incentive Plan

At a meeting held on September 1, 1999, our board of directors reserved a total of 12.0% of our fully diluted share capital for issuance upon the exercise of options to be granted to our executive directors, officers and employees or their affiliated entities from time to time. On September 1, 1999, our shareholders approved the stock-related award incentive plan, or the Plan. The number of options awarded to a person was based on the person's potential ability to contribute to our success, the person's position with us and other factors deemed relevant and necessary by our board of directors. Under the Plan, we awarded to several of our employees and directors options to purchase 9,874,672 ordinary shares of our Company. As of December 31, 2013, options to purchase 3,534,316 ordinary shares remained outstanding. Options generally do not vest unless the grantee remains under our employment or in service with us on the given vesting date. However, the Plan provides that in circumstances where there is a change in the control of our Company, if no substitution or assumption is provided by the successor corporation, the outstanding options will automatically vest and become exercisable for a period of 30 days, after which such options will terminate. The termination date for the options granted is 10 years after the date of grant.

a. Standard Stock Options

From September 1, 1999 to September 30, 2006, we awarded standard stock options exercisable to acquire Class A or Class B ordinary shares of our Company. All standard stock options were granted to employees and directors and vested over the requisite service periods of three to four years using a graded vesting. The maturity life of the standard stock options was 10 years originally. On April 20, 2010, our board of directors resolved to extend the maturity life of the standard stock option 10 years to 15 years.

From 2001 to 2003, we awarded 1,739,500 standard stock options, classified as liability awards, with exercise prices ranging from HK\$1.00 to HK\$5.00. In April 2010, we agreed with the grantees to modify the Hong Kong dollar exercise currency to U.S. dollars. The modified exercise prices of these options range from US\$0.13 to US\$0.64.

b. Special Stock Options

We have awarded 15,711,200 special stock options to our employees and directors, with exercise prices ranging from US\$2.50 to US\$5.31, since December 31, 2006. Terms for special stock options are the same as standard stock options, except that two special stock options are exercisable into one Class A ordinary share. These special stock options vest 10% after the first year of service, 20% after the second year of service, 40% after the third year of service and 30% after the fourth year of service, except for special stock options granted in September 2010, which vest 20.0% after the first year of service, 20.0% after the second year of service, 30.0% after the third year of service and 30.0% after the fourth year of service. The maturity life of the special stock options is 10 years.

Our board of directors may amend, alter, suspend or terminate the Plan at any time, provided, however, that our board of directors must first seek the approval of our shareholders and, if such amendment, alteration, suspension or termination would adversely affect the rights of an optionee under any option granted prior to that date, the approval of such optionee. Without further action by our board of directors, our Plan has no specified termination date.

2010 Stock Incentive Plan

We adopted our 2010 stock incentive plan, or the 2010 Stock Incentive Plan, on August 4, 2010. The purpose of our 2010 stock incentive plan is to recognize and acknowledge the contributions made to our Company by eligible participants and to promote the success of our business. By providing an opportunity to have a personal stake in our Company, our 2010 Stock Incentive Plan aims to:

attract and retain the best available personnel;

to provide an additional incentive to our employees, directors and consultants; and

to promote the success of the Company's business.

As of December 31, 2013, we had awarded options to purchase 5,598,319 of our ordinary shares under the 2010 Stock Incentive Plan, with an exercise price per share ranging from US\$10.63 to US\$23.94.

a. Eligible Participants

Under our 2010 stock incentive plan, our board of directors or its designated committee may, at its discretion, offer to grant an option to subscribe for such number of our ordinary shares at an exercise price as our directors may determine to the following parties:

any full-time or part-time employees, executives or officers of us, our parent or any of our subsidiaries;

any directors, including non-executive directors and independent non-executive directors, of us, our parent or any of our subsidiaries;

any advisers, consultants and agents to us or any of our subsidiaries; and

such other persons who, in the sole opinion of our board of directors or its designated committee, has made contributions to the business or other development of us.

b. Maximum Number of Ordinary Shares

The maximum number of ordinary shares in respect of which options may be granted (including ordinary shares in respect of which options, whether exercised or still outstanding, have already been granted) under the 2010 Stock Incentive Plan may not in the aggregate exceed 10% of the total number of ordinary shares in issue from time to time, including ordinary shares issuable upon conversion of any preferred shares in issue from time to time. The maximum number of ordinary shares in respect of which we may grant options (including ordinary shares in respect of which options, whether exercised or still outstanding, have already been granted) under our 2010 stock incentive plan as of December 31, 2013 was 8,177,755 ordinary shares. As of December 31, 2013, there were outstanding options to purchase 4,383,915 of our ordinary shares under the 2010 Stock Incentive Plan, of which options to purchase 1,838,851 ordinary shares were exercisable.

c. Price of Ordinary Shares

The determination by our board of directors, or its designated committee, of the subscription price will be by reference to the fair market value of the ordinary shares. If there exists a public market for our ordinary shares, including our ADSs, the fair market value of our ordinary shares will be (i) the closing price for the last market trading day prior to the time of the determination (or, if no closing price was reported on that date, on the last trading date on which a closing price was reported) on the stock exchange determined by our board of directors, or its designated committee, to be the primary market for our ordinary shares or ADSs or (ii) if the ordinary shares are not traded on any such exchange or national market system, the average of the closing bid and asked prices of an ordinary shares on the NYSE for the day prior to the time of the determination (or, if not such prices were reported on that date, on the last date on which such prices were reported), in each case, as reported in The Wall Street Journal or such other source as the board of directors or its appointed committee deems reliable. If there is no established market for our ordinary shares, our board of directors, or its designated committee, will determine the fair market value of our ordinary shares in good faith by reference to the placing price of the latest private placement of our ordinary shares and the development of our business operations since such latest private placement.

d. Performance Criteria

The 2010 Stock Incentive Plan allows our board of directors, or its designated committee, to establish the performance criteria when granting stock options on the basis of any one of, or combination of, increase in our share price, earnings per share, total shareholder return, return on equity, return on assets, return on investment, net operating income, cash flow, revenue, economic value added, personal management objectives, or other measures of performance selected by our board of directors, or its designated committee. Partial achievement of the specified criteria may result in a vesting corresponding to the degree of achievement as specified in the award agreement with the relevant optionee.

e. Time of Exercise of Options

The time and conditions under which an option may be exercised will be determined by the board of directors, or its designated committee, under the terms of the 2010 Stock Incentive Plan and as specified in the award agreement with a grantee, but in no case will options be exercisable at a rate of more than one fourth per year over the vesting period from the date the options are granted. Notwithstanding the foregoing, in the case of any options granted to an officer, director or consultant that may become exercisable, the award agreement governing such grant may provide that the options may become exercisable, subject to reasonable conditions such as the officer, director or consultant's continuous service at any time or during any period established in the award agreement governing such grant.

f. Administration

Our board of directors has established a stock option committee, comprised of a single member, Mr. Mo, to administer the 2010 Stock Incentive Plan with respect to option grants to non-officer/director employees as well as consultants. Our compensation committee has the authority under the 2010 Stock Incentive Plan to determine stock option grants to our officers and directors.

g. Termination

Unless terminated earlier, the 2010 Stock Incentive Plan will continue for a term of 10 years. Our board of directors has the authority to amend or terminate the 2010 Stock Incentive Plan subject to shareholder approval with respect to certain amendments. However, no such action may impair the rights of any grantee of any options unless agreed by the grantee.

The following table summarizes, as of December 31, 2013, the outstanding options that we granted to our current directors and executive officers.

	Number of Class A ordinary shares to be issued upon exercise of options	Number of Class B ordinary shares to be issued upon exercise of options	Exercise price per ordinary share (US\$)	Date of grant	Date of expiration
Mr. Mo(1)	225,000		5.00	December 31, 2006	December 30, 2016
	225,000		5.00	December 31, 2007	December 30, 2017

	*		12.80	August 15, 2012	August 14, 2022

* Upon exercise of all options granted, would beneficially own less than 1.0% of our outstanding ordinary shares.

(1) Represents options granted to Mr. Mo in his capacity as our executive chairman. Pursuant to resolutions passed by our board of directors on August 4, 2010, our board of directors resolved that such options be assigned and allocated to Media Partner and Next Decade.

C. Board Practices

Board of Directors

Our board of directors consists of eight members. A director is not required to hold any shares in our Company by way of qualification. A director may vote with respect to any contract or transaction in which he or she is materially interested provided the nature of the interest is disclosed prior to its consideration and any vote on such contract or transaction. Our board of directors may exercise all the powers of the Company to borrow money, mortgage its business, property and uncalled capital, and issue debentures or other securities whenever money is borrowed or as security for any obligation of the company or of any third party. None of our non-executive directors has a service contract with us that provides for benefits upon termination of employment.

Duties of Directors

Under Cayman Islands law, our directors have a duty of loyalty to act honestly in good faith with a view to our best interests. Our directors also have a duty to exercise the care, diligence and skills that a reasonably prudent person would exercise in comparable circumstances. In fulfilling their duty of care to us, our directors must ensure compliance with our amended and restated memorandum and articles of association. We have, in certain circumstances, the right to seek damages against our directors if a duty owed by our directors is breached.

Our board of directors has overall responsibility for managing our operations. The functions and powers of our board of directors include, among others:

convening shareholders meetings and reporting its work to shareholders at such meetings;

implementing shareholders resolutions;

determining our business plans and investment proposals;

formulating our profit distribution plans and loss recovery plans;

determining our debt and finance policies and proposals for the increase or decrease in our registered capital and the issuance of debentures;

formulating our major acquisition and disposition plans, and plans for merger, division or dissolution;

proposing amendments to our amended and restated memorandum and articles of association; and

exercising any other powers conferred by the shareholders meetings or under our amended and restated memorandum and articles of association.

Board Committees

Audit Committee. Our audit committee consists of Sam Hanhui Sun, who chairs our audit committee, Qian Zhao and Shan Li. Our board of directors has determined that all of our audit committee members are independent directors within the meaning of Section 303A of the NYSE Corporate Governance Rules and meet the criteria for independence set forth in Section 10A of the Exchange Act. In addition, our board of directors has determined that Sam Hanhui Sun is qualified as an audit committee financial expert within the meaning of the SEC rules and regulations.

Our audit committee is responsible for, among other things:

Appointing, retaining, terminating, overseeing and determining compensation of the independent auditor. The independent auditor shall report directly to the Committee. The Committee has have the sole authority to approve the hiring and discharging of the independent auditors, all engagement fees and terms thereof and, to the extent permissible under applicable regulatory guidelines, all non-audit engagements of the independent auditors.

Reviewing the scope and results of the annual audit with the independent auditor.

Reviewing and discussing, with the internal auditors or the person(s) in the financial department acting as internal auditor(s), the overall scope and plans for their audits and determine whether the internal audit function has the appropriate resources and expertise.

Reviewing and discussing with management and the independent auditors, the adequacy and effectiveness of our disclosure controls, internal accounting and financial controls, the quality of the financial and accounting personnel, and any relevant recommendations.

Discussing our guidelines and policies with respect to risk assessment and risk management, reviewing contingent liabilities and risks that may be material to us, and reviewing major legislative, regulatory and accounting developments which could materially impact our contingent liabilities and risks.

Reviewing and discussing with management and the independent auditors the annual audited financial statements and unaudited quarterly financial statements and proposed filings with the SEC, including reviewing our specific disclosures under Management's Discussion and Analysis of Financial Condition and Results of Operations and among others, discussing the following matter with the independent accountants: (a) the quality as well as acceptability of the accounting principles applied in the financial statements; (b) new or changed regulatory or accounting policies (including an analysis of the effect of alternative GAAP methods); off-balance sheet structures; significant estimates, judgments, uncertainties or unusual transactions; and accounting policies relating to significant financial statement items; and (c) financial statement presentations.

Reviewing the reports prepared by management and by our independent auditors, assessing the adequacy and effectiveness of our internal controls and procedures, prior to the inclusion of such reports in our periodic filings as required under SEC rules. The Committee reviews disclosures regarding our internal controls that are required to be included in SEC reports.

Reviewing on a regular basis management's assessment (and the basis therefore) of the adequacy and effectiveness of our system of disclosure controls and procedures, including by meeting periodically with our management, independent auditors and legal counsel to review their assessment of such disclosure controls and procedures and to review, before its release, the disclosure regarding such system of disclosure controls and procedures required under SEC rules to be contained in our periodic filings.

Recommending to the Board whether the audited financial statements are satisfactory to be included in our annual or other reports to the SEC.

At least annually, reviewing any management letters or internal control reports prepared by the independent auditors or our internal auditors and responses to prior management letters, and reviewing with the independent auditors our internal quality control and financial controls, including the budget,

staffing and responsibilities of our financial and accounting staff.

Reviewing and discussing our earnings press releases, as well as financial information and earnings guidance provided to analysts and rating agencies, including the type and presentation of information to be included in earnings press releases.

Periodically meeting in separate sessions with management, with internal auditors (or other personnel responsible for the internal audit function) and with independent auditors.

Reviewing with the independent auditor any audit problems or difficulties the independent auditor encountered in the course of audit work (e.g., restrictions on the scope of the independent auditor's activities or access to requested information and any significant disagreements with management) and the management's response. The Committee shall also be responsible for the resolution of disagreements between management and the independent auditors regarding financial reporting.

Setting clear hiring policies for employees or former employees of the independent auditors.

Reviewing and approving or prohibiting all proposed related-party transactions of \$500,000 or more, as defined in Item 404 of Regulation S-K.

Monitoring compliance with and reviewing, and approving or prohibiting, actual and potential conflicts with our code of business conduct and ethics, including reviewing the adequacy and effectiveness of our procedures to ensure proper compliance.

Establishing procedures for (a) the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls, or auditing matters; and (b) the confidential, anonymous submission by employees of concerns regarding questionable accounting or auditing matters. Review periodically with management and our internal accounting department these procedures and any significant complaints received.

Pre-approving all audit services and permissible non-audit services by the independent auditors, as set forth in Section 10A of the Exchange Act and the rules and regulations promulgated thereunder by the SEC. The Committee may establish pre-approval policies and procedures, as permitted by Section 10A of the Exchange Act and the rules and regulations promulgated thereunder by the SEC, for the engagement of independent auditors to render services to us, including but not limited to policies that would allow the delegation of pre-approval authority to one or more members of the Committee, provided that any pre-approvals delegated to one or more members of the Committee are reported to the Committee at its next scheduled meeting.

Evaluating at least annually, the independent auditors' qualifications, performance and independence, which evaluation shall include a review and evaluation of the lead partner of the independent auditor and consideration whether there should be a rotation of the lead partner or independent auditing firm, and take appropriate action to oversee the independence of the independent auditors.

At least annually, obtaining and reviewing a report by the independent auditors describing: (A) the audit firm's internal quality-control procedures; (B) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more

independent audits carried out by the audit firm, and any steps taken to deal with any such issues; (C) all relationships between the independent auditors and us to enable the Committee to assess the auditors' independence; and (D) any other matters required to be included in a letter from the independent auditors pursuant to applicable requirements of the Public Company Accounting Oversight Board regarding independent auditor's communications with the Committee concerning independence.

Reviewing and reassessing, at least annually, the Committee's performance and the adequacy of this charter and report its conclusion and any recommendations to the Board.

Reporting regularly to the full board of directors.

Nominating and Corporate Governance Committee. We have established a nominating and corporate governance committee, which is responsible for identifying individuals qualified to become directors and recommends director nominees to be approved by our board of directors. The members of our nominating and corporate governance committee include Qian Zhao, who chairs our nominating and corporate governance committee, Shan Li and Mr. Mo, our executive chairman.

Compensation Committee. Our compensation committee consists of Shan Li, who chairs our compensation committee, Qian Zhao and Mr. Mo, our executive chairman.

Our compensation committee is responsible for:

Establishing our general compensation philosophy, and, in consultation with senior management, overseeing the development and implementation of compensation programs.

At least annually, reviewing and evaluating and, if necessary, revising our compensation plans, policies and programs adopted by the management.

At least annually, reviewing and approving corporate goals and objectives relevant to compensation of the CEO and evaluate the CEO's performance in light of those goals and objectives.

At least annually, either as a committee or together with the other independent directors (as directed by the Board), determining and approving, based on the evaluation described above, all compensation arrangements with the CEO including, without limitation: (i) the annual base salary level; (ii) the annual incentive opportunity level; (iii) the long-term incentive opportunity level; (iv) employment agreements, severance arrangements and change-in-control agreements/provisions, in each case as, when and if appropriate; and (v) any special or supplemental benefits. In determining the long-term incentive component of the CEO's compensation, the Committee shall consider our performance and relative stockholder return, the value of similar incentive awards to chief executive officers at comparable companies, and the awards given to the CEO in past years.

Reviewing and approving, or making recommendations to the Board with respect to our non-CEO executive officer compensation, incentive-compensation plans and equity-based plans. The Committee shall attempt to ensure that our compensation scheme is effective in retaining and attracting key employees, implements business strategies and objectives for enhanced shareholder value, and is administered in a fair and equitable manner consistent with our compensation philosophy. The Committee shall also seek the input of the Chief Executive Officer with respect to the performance evaluation and compensation of executives other than the Chief Executive Officer.

Periodically reviewing the compensation of our directors and approving changes or making recommendations to the Board with respect thereto.

Evaluating periodically the internal equity and external competitiveness of compensation of the CEO, the other executive officers, and key management personnel and initiating actions or recommending changes to the Board, as appropriate.

Advising on the setting of compensation for officers whose compensation is not subject to Committee approval.

Managing and reviewing annually and approving any long-term incentive compensation or equity or stock option plans, programs or similar arrangements, annual bonuses, employee pension and welfare benefit plans. With respect to each plan the Committee shall have responsibility for:

setting performance targets under all annual bonus and long-term incentive compensation plans as appropriate;

certifying that any and all performance targets used for any performance-based equity compensation plans have been met before payment of any executive bonus or compensation;

approving all amendments to, and terminations of, all compensation plans and any awards under such plans or any inducement grant of options made to a person not previously an employee or director;

granting any awards under any performance-based annual bonus, long-term incentive compensation and equity compensation plans to executive officers or current employees with the potential to become the CEO or an executive officer, including stock options and other equity rights (e.g., restricted stock or stock purchase rights);

approving which executive officers are entitled to awards under our stock option plan(s);

repurchasing securities from terminated employees; and

conducting an annual review of all compensation plans, including reviewing each plan's administrative costs, reviewing current plan features relative to any proposed new features, and assessing the performance of each plan's internal and external administrators if any duties have been delegated.

Reviewing and approving officer and director indemnification and insurance matters.

Reviewing and approving any employee loan in an amount equal to or greater than US\$250,000 unless such transaction is subject to the approval of the Audit Committee as a related-party transaction.

Reviewing and considering on an annual basis whether the compensation policies and practices for all employees are reasonably likely to have a material adverse effect on us in accordance with SEC rules.

Edgar Filing: SouFun Holdings Ltd - Form 20-F

Providing the compensation committee reports on executive compensation to the Board.

Receiving, reviewing and conferring with the Audit Committee with respect to any concerns raised by any parties directly or indirectly to the Committee and take action in response to such concerns as may be deemed appropriate by the Committee.

Reviewing and approving the annual report on executive compensation for inclusion in our annual report on Form 20-F filed with the SEC.

Administering, interpreting and taking all other actions necessary or appropriate as granted to the Committee under our executive compensation and other plans.

Directing any officer or employee or request any employee of our advisors, consultants or counsel or such other individual as it may deem appropriate to attend a Committee meeting or meet with any Committee members.

Reviewing the Committee's charter on an annual basis and recommend changes, as appropriate, to the Board.

Evaluating the performance of the Committee on an annual basis.

Our board of directors has established a stock option committee, comprised of a single member, Mr. Mo, to administer the 2010 Stock Incentive Plan with respect to option grants to our non-officer/director employees as well as consultants. Our compensation committee is responsible for administering the 2010 Stock Incentive Plan with respect to option grants to our executive officers and directors.

No director or officer may be directly involved in decisions regarding his or her own compensation.

Pursuant to the investor's rights agreement by and among General Atlantic, Apax, Next Decade, Media Partner and Digital Link dated August 13, 2010 in connection with the private placement by Telstra International, or the Investor's Rights Agreement, each of General Atlantic and Apax is entitled to nominate one director to our board so long as each of them, together with its affiliates, owns at least 10.0% of our outstanding Class A ordinary shares. Pursuant to the Investor's Rights Agreement, the directors nominated by General Atlantic and Apax may also serve on our audit committee, compensation committee and nominating and corporate governance committee, or if this arrangement is not permitted under any laws, rules and regulations, be permitted to participate as non-voting observers in such committees. Immediately after the closing of our initial public offering, we appointed a director nominated by General Atlantic and a director nominated by Apax to our board. The General Atlantic and Apax nominees are not and do not serve as members of any of our committees; however, they may attend meetings of such committees and our practice is to permit all directors to attend any meetings of our committees. See Item 7.B. Major Shareholders and Related Party Transaction Related Party Transactions Telstra Private Placement Investor's Rights Agreement.

Terms of Directors and Executive Officers

Each of our directors holds office until a successor has been duly elected and qualified unless the director was appointed by our board of directors, in which case such director holds office until the following annual meeting of shareholders, at which time such director is eligible for reelection. All current directors have been appointed pursuant to shareholder resolutions. Accordingly, none of the existing directors require reelection at an annual meeting of shareholders.

D. Employees

We had 7,600, 7,743 and 9,175 employees as of December 31, 2011, 2012 and 2013, respectively. The following table sets forth the number of our employees categorized by function as of December 31, 2013:

Editorial and production	3,606
Sales and marketing	4,243

Edgar Filing: SouFun Holdings Ltd - Form 20-F

Management and general administrative	789
Technical and research	537
Total	9,175

-105-

Our employees receive a base salary and are eligible for performance-based bonuses. We have granted share options to certain of our employees. For more information, see Item 6.B. Directors, Senior Management and Employees Compensation Share Options.

As required by PRC regulations, we participate in various employee benefit plans that are organized by municipal and provincial governments, including housing, pension, medical and unemployment benefit plans. We make monthly payments to these plans for each of our employees based on the employee's compensation.

We believe we maintain a good working relationship with our employees and we have not experienced any significant labor disputes. We believe this is primarily attributable to our well-established reputation and brand name within the PRC real estate industry, our strong corporate culture, as well as the positive career development opportunities we provide to our employees. Our employees have not entered into any collective bargaining agreements, and no labor union has been established by our employees.

E. Share Ownership

As of March 31, 2014, we had 81,905,074 ordinary shares, consisting of 57,568,424 Class A ordinary shares and 24,336,650 Class B ordinary shares, issued and outstanding. The following table sets forth information with respect to the beneficial ownership, within the meaning of Rule 13d-3 of the Exchange Act. Except as specifically noted, the beneficial ownership was as of March 31, 2014:

	Ordinary shares beneficially owned(1)			
	Class A No.	Percent	Class B No.	Percent
Principal Shareholders:				
Media Partner Technology Limited(2)	1,025,168	1.76%	11,355,645	46.66%

Jian Liu	*	*		
All directors and executive officers as a group	21,607,369	36.39%	26,161,150	100.00%

* Less than 1.0% of total outstanding shares.

(1) Beneficial ownership is determined in accordance with the rules and regulations of the SEC and includes voting or investment power with respect to our ordinary shares. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, we have included shares that the person has the right to

acquire within 60 days, including through the exercise of any option, warrant or other right or the conversion of any other security. These shares, however, are not included in the computation of the percentage ownership of any other person.

- (2) Includes 210,168 ADSs and options to purchase 616,250 Class A ordinary shares within 60 days of March 31, 2014. All of the shares of Media Partner, a British Virgin Islands company, are held in irrevocable discretionary family trusts established by Mr. Mo, our founder and executive chairman. The address of Media Partner is P.O. Box 957, Offshore Incorporations Centre, Road Town, Tortola, British Virgin Islands.
- (3) Includes options to purchase 616,250 Class A ordinary shares and 1,754,500 Class B ordinary shares within 60 days of March 31, 2014. All of the shares of Next Decade, a British Virgin Islands company, are held in irrevocable discretionary family trusts established by Mr. Mo. The address of Next Decade is P.O. Box 957, Offshore Incorporations Centre, Road Town, Tortola, British Virgin Islands.
- (4) The address of Digital Link Investments Limited, a British Virgin Islands company, is Apt 3B, Taggart Tower, 109 Repulse Bay Road, Hong Kong. Shan Li is the sole shareholder of Digital Link Investments Limited.
- (5) Each of IDG-Accel China Capital L.P. and IDG-Accel China Capital Investors L.P. is a Cayman Islands exempted limited partnership with its registered office located at Walkers SPV Limited, Walker House, 87 Mary Street, George Town, Grand Cayman, KY1-9002 Cayman Islands. They have the same ultimate general partner, IDG-Accel China Capital GP Associates Ltd., of which Quan Zhou and Chi Sing Ho are directors.
- (6) Hunt 7-A Guernsey L.P. Inc is beneficially owned by Apax Europe VII A, L.P. and Hunt 7-A GP Limited by virtue of its limited partnership agreement. Hunt 6-A Guernsey L.P. Inc is beneficially owned by Apax Europe VI A, L.P. and Hunt 6-A GP Limited by virtue of its limited partnership agreement. Hunt 7-B Guernsey L.P. Inc is beneficially owned by Apax Europe VI 1, L.P., Apax Europe VII B, L.P., Apax Europe VII 1, L.P. and Hunt 7-A GP Limited by virtue of its limited partnership agreement. Apax Europe VI A, L.P. and Apax Europe VI 1, L.P. (collectively, Apax Europe VI) disclaim beneficial ownership of the shares held by Apax Europe VII A, L.P., Apax Europe VII B, L.P. and Apax Europe VII 1, L.P. (collectively, Apax Europe VII) and Apax Europe VII disclaims beneficial ownership of the shares held by Apax Europe VI. The mailing address of each of Hunt 7-A Guernsey L.P. Inc, Hunt 7-B Guernsey L.P. Inc and Hunt 6-A Guernsey L.P. Inc is Third Floor, Royal Bank Place, 1 Glatigny Esplanade, St Peter Port, Guernsey GY1 2HJ.
- (7) The number of ordinary shares beneficially owned is as of February 21, 2014 as reported in a Schedule 13G filed by Lone Pine Capital LLC and Stephen F. Mandel, Jr. on March 3, 2013. The address of the business office of each of Lone Pine Capital LLC and Stephen F. Mandel, Jr. is Two Greenwich Plaza, Greenwich, Connecticut 06830.
- (8) The address of our current directors and executive officers is c/o F9M, Building 5, Zone 4, Hanwei International Plaza, No. 186 South 4th Ring Road, Fengtai District, Beijing 100070, the People's Republic of China.
- (9) Represents ordinary shares beneficially owned by Media Partner and Next Decade, including 210,168 ordinary shares represented by 1,050,840 ADSs and options to purchase 1,232,500 Class A ordinary shares and 1,754,500 Class B ordinary shares within 60 days of March 31, 2014. All of the shares of Media Partner and Next Decade are held in two irrevocable discretionary family trusts established by Mr. Mo for the benefit of his designated family members. Mr. Mo acts as the protector of these family trusts, and Deutsche Bank International Trust Co. (Cayman) Limited and Credit Suisse Trust Limited act as the trustee of these trusts, respectively.
- (10) Includes 368,811 Class A ordinary shares and 2,750,360 Class B ordinary shares held by Digital Link, a company wholly owned by Mr. Shan Li, a director of our Company.
- (11) Includes 2,360,459 Class A ordinary shares held by IDG-Accel China Capital L.P. and 246,582 Class A ordinary shares held by IDG-Accel China Capital Investors L.P., both of which have the same ultimate general partner, IDG-Accel China Capital GP Associates Ltd., of which Quan Zhou is a director.
- (12) Represents ordinary shares beneficially owned by Hunt 6-A Guernsey L.P. Inc., Hunt 7-A Guernsey L.P. Inc. and Hunt 7-A Guernsey L.P. Inc. Thomas Nicholas Hall disclaims beneficial ownership of our ordinary shares held by these entities, except to the extent of his pecuniary interest therein.

As of March 31, 2014, approximately 40.1% of our outstanding Class A ordinary shares were held by one record holder with an address in the United States and none of our outstanding Class B ordinary shares were held by any record holder with an address in the United States.

Our ordinary shares are divided into Class A ordinary shares and Class B ordinary shares. Holders of Class A ordinary shares are entitled to one vote per share, while holders of Class B ordinary shares are entitled to 10 votes per share. We intend to maintain the dual-class ordinary share structure. Each Class B ordinary share is convertible into one Class A ordinary share at any time by its holder and Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon transfer of any Class B ordinary share by its holder to any person or entity that is not a majority-owned and majority-controlled subsidiary of certain of our shareholders as set forth in our amended and restated articles of association, such Class B ordinary share will be automatically and immediately converted into a Class A ordinary share.

On March 18, 2014, we announced the change of the ratio of our American Depositary Receipts representing Class A ordinary shares from one ADS for one Class A ordinary shares to five ADSs for one Class A ordinary share. The record date for the ratio change was March 28, 2014. For our ADS holders, this ratio change had the same effect as a five-for-one ADS split. There was no change to our Class A ordinary shares or Class B ordinary shares. The effect of the ratio change on the ADS trading price on New York Stock Exchange occurred on April 7, 2014.

Subject to any contractual restrictions and applicable law, we and our subsidiaries, affiliates or significant shareholders may from time to time, in their sole discretion, purchase, repay, redeem or retire any of our outstanding debt or equity securities (including any publicly issued debt or equity securities), in privately negotiated or open market transactions, by tender offer or otherwise.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

A. Major Shareholders

Please refer to Item 6.E. Directors, Senior Management and Employees Share Ownership.

B. Related Party Transactions

Structure Contracts

To comply with applicable PRC laws, rules and regulations, we conduct our operations in China through Structure Contracts entered into among three of our wholly owned PRC subsidiaries, SouFun Media, SouFun Network and Beijing Hong An Tu Sheng, and 11 of our consolidated controlled entities: Beijing Internet, Beijing Advertising, Beijing China Index, Beijing Technology, Beijing JTX Technology, Tianjin JTX Advertising, Shanghai Advertising, Shanghai China Index, Shanghai JBT, Beijing Li Tian Rong Ze, and Beijing Yi Ran Ju Ke. Certain of our consolidated controlled entities, namely, Beijing Li Tian Rong Ze Wan Jia, Shanghai BaoAn Property and Wuhan SouFun Yi Ran Ju Ke, have not entered into Structure Contracts with our wholly owned PRC subsidiaries, because they are subsidiaries of Beijing Li Tian Rong Ze, Shanghai China Index and Beijing Yi Ran Ju Ke, as the case may be, which are parties to the Structure Contracts. The Structure Contracts include:

Exclusive Technical Consultancy and Services Agreements

Each of the abovementioned 11 consolidated controlled entities has entered into an exclusive technical consultancy and services agreement with SouFun Media, SouFun Network and/or Beijing Hong An Tu Sheng. Under these agreements, SouFun Media, SouFun Network or Beijing Hong An Tu Sheng, as the case may be, has the exclusive right to provide such consolidated controlled entities with relevant technical services relating to such consolidated controlled entities' business, such as IT system operations and maintenance services, or technology supporting services for such consolidated controlled entities' advertising products. In exchange for these services, each of such consolidated controlled entities has agreed to make monthly payments to the service provider for such services. The original term of each agreement is 10 years and SouFun Media, SouFun Network or Beijing Hong An Tu Sheng can unilaterally extend the term of the exclusive technical consultancy and services agreements and such request will be unconditionally agreed to by such consolidated controlled entities.

Equity Pledge Agreements

In order to secure the payment obligations of each abovementioned 11 consolidated controlled entity under the exclusive technical consultancy and services agreements described above, except as disclosed below, the direct shareholders of each of such consolidated controlled entities, Mr. Mo, Mr. Dai, Beijing Internet and Beijing Advertising, as the case may be, have pledged to SouFun Media, SouFun Network or Beijing Hong An Tu Sheng their entire respective ownership interests in such consolidated controlled entity. Under these agreements, the shareholders may not transfer the pledged equity interest without the prior written consent of SouFun Media, SouFun Network or Beijing Hong An Tu Sheng, as the case may be. Each of such SouFun Media, SouFun Network or Beijing Hong An Tu Sheng, as the case may be, also has the right to collect dividends of the relevant consolidated controlled entities from the shareholders of such consolidated controlled entities. The agreements will remain valid for 10 years and can be extended at the sole discretion of the WFOEs.

Operating Agreements

Each of the abovementioned 11 consolidated controlled entities and such consolidated controlled entities' shareholders have entered into an operating agreement with SouFun Media, SouFun Network or Beijing Hong An Tu Sheng. Under each of these agreements, SouFun Media, SouFun Network and Beijing Hong An Tu Sheng have undertaken to enter into guarantee contracts with third parties, as required by third parties, to guarantee the performance of the relevant consolidated controlled entity under such consolidated controlled entity's business contracts with third parties. In turn, each such consolidated controlled entity is required to pledge its accounts receivable and mortgage all of its assets as counter-security to SouFun Media, SouFun Network or Beijing Hong An Tu Sheng. Each of such consolidated controlled entities and their direct shareholders, Mr. Mo, Mr. Dai, Beijing Internet and Beijing Advertising, as the case may be, have each agreed not to enter into any transaction that would substantially affect the assets, rights, obligations or operations of such consolidated controlled entity without the prior written consent of SouFun Media, SouFun Network or Beijing Hong An Tu Sheng. The original term of each agreement is 10 years. The agreements can be extended prior to expiration with written confirmation from SouFun Media, SouFun Network or Beijing Hong An Tu Sheng, or can be terminated by SouFun Media, SouFun Network or Beijing Hong An Tu Sheng, upon 30 days advance notice.

Shareholders' Proxy Agreements

Each of the abovementioned 11 consolidated controlled entities has entered into a shareholders' proxy agreement with SouFun Media, SouFun Network or Beijing Hong An Tu Sheng, irrevocably entrusting SouFun Media, SouFun Network or Beijing Hong An Tu Sheng to exercise their respective rights as shareholders of such consolidated controlled entity to attend shareholders' meetings and cast votes. SouFun Media, SouFun Network and Beijing Hong An Tu Sheng may assign part or all of these proxy rights to its designated employees, and will be indemnified for any

loss under this agreement. These agreements will also be binding upon successors of the parties or transferees of the parties' equity interests. Each agreement will remain in effect until terminated upon written consent by all the parties to the agreement or by their successors.

Loan Agreements

In accordance with loan agreements entered into between SouFun Media and SouFun Network and Mr. Mo and Mr. Dai, as shareholders of nine of our consolidated controlled entities, including Beijing Advertising, Beijing Technology, Shanghai Advertising, Shanghai China Index, Beijing Li Tian Rong Ze, Tianjin JTX Advertising, Beijing JTX Technology, Beijing Yi Ran Ju Ke, SouFun Media and SouFun Network, as the case may be, advanced loans to Mr. Mo and Mr. Dai to make contributions to the registered capital of these consolidated controlled entities pursuant to a series of loan agreements entered into between 2004 and 2011. Mr. Mo and Mr. Dai agreed that, upon request, they will repay the loans by transferring their entire respective equity interests in the consolidated controlled entities to SouFun Media or SouFun Network, or another entity designated by SouFun Media or SouFun Network, as the case may be, when permitted by applicable PRC laws, rules and regulations.

Exclusive Call Option Agreements

Through exclusive call option agreements entered into between us and SouFun Media, SouFun Network or Beijing Hong An Tu Sheng, as the case may be, on the one hand, and each of the abovementioned 11 consolidated controlled entities and their respective direct shareholders, Mr. Mo, Mr. Dai, Beijing Internet and/or Beijing Advertising, on the other hand, we or any third party designated by us have the right to acquire from the direct shareholders of such consolidated controlled entities that are parties to the agreement, their entire respective equity interests in such consolidated controlled entities when permitted by applicable PRC laws, rules and regulations. The proceeds from the exercise of the call option will be applied to repay the loans under the loan agreements described above, or, in the case of Beijing China Index and Shanghai JBT, which did not borrow any loan from us, the proceeds from the exercise of the call option will be transferred to us as designated by the respective PRC subsidiaries. These agreements each has an original term of 10 years and may be extended for another 10 years at our sole discretion.

Telstra Private Placement

Investor's Rights Agreement

In connection with the private placement by Telstra International in September 2010, we entered into an investor's rights agreement with General Atlantic, Apax, Next Decade, Media Partner and Digital Link, dated August 13, 2010, or the Investor's Rights Agreement.

Pursuant to the Investor's Rights Agreement, each of General Atlantic and Apax is entitled to nominate one director to our board so long as each of them, together with its affiliates, owns at least 10.0% of our outstanding Class A ordinary shares. Pursuant to the Investor's Rights Agreement, the directors nominated by General Atlantic and Apax may also serve on our audit committee, compensation committee and nominating and corporate governance committee, or if this arrangement is not permitted under any laws, rules and regulations, be permitted to participate as non-voting observers in such committees. Immediately after the closing of our initial public offering, we appointed a director nominated by General Atlantic and a director nominated by Apax to our board. The General Atlantic and Apax nominees are not and do not serve as members of any of our committees; however, they may attend meetings of such committees and our practice is to permit all directors to attend any meetings of our committees.

Under the Investor's Rights Agreement, subject to certain limited exceptions, each of General Atlantic and Apax has agreed that it will not transfer more than 5.0% of our share capital to a competitor of ours without the prior written consent of our board of directors. Each of General Atlantic, Apax, Next Decade, Media Partner and Digital Link will have a right of first refusal if one of the other parties proposes to sell more than 10.0% of our share capital in a single private transaction or a series of related private transactions.

Moreover, in the event that we propose to issue any additional securities in the form of capital stock or convertible debt for the primary purpose of raising equity capital, we will offer each of General Atlantic and Apax the right to purchase its pro rata share of such additional securities on the same terms as the additional securities are to be issued, at least 15 business days prior to the consummation of such transaction. In the event we receive a formal acquisition proposal, we must notify General Atlantic and Apax of such proposal and General Atlantic and Apax will have 15 business days to submit an alternative proposal.

We have made certain representations and warranties to each of General Atlantic and Apax regarding our business and the accuracy of the disclosure included in the registration statement on Form F-1 filed in connection with our initial public offering, and the private placement memorandum related to the Telstra Private Placement. We have also agreed to indemnify General Atlantic and Apax for any losses up to US\$20.0 million each (or, in the event of fraud or willful or intentional misconduct, up to the aggregate purchase price paid under the Share Purchase Agreement by General Atlantic or Apax, as applicable) arising out of any breach by us of any representations, warranties or covenants contained in the Investor's Rights Agreement.

Registration Rights Agreement

We entered into a registration rights agreement with General Atlantic and Apax dated August 13, 2010, or the Registration Rights Agreement. Under the Registration Rights Agreement, General Atlantic and Apax have demand registration rights pursuant to which we will be required to effect the registration of all or a portion of General Atlantic's and/or Apax's Class A ordinary shares, provided that the aggregate price of registrable securities to be sold to the public is expected to equal or exceed US\$20.0 million. Each of General Atlantic and Apax will be entitled to a total of two demand registrations (registrations to be effected under a registration statement on Form F-3 are not counted as demand registrations). We will not be required to effect a demand registration within any six-month period following the effective date of any registration statement pertaining to Class A ordinary shares or ADSs (other than certain registration statements on Form F-4 or with respect to any employee benefit plan).

We will have the right to preempt any demand registration with a primary registration, in which case General Atlantic and Apax will have incidental registration rights as described below. Once we are eligible to use Form F-3, General Atlantic and Apax will have the right to require us to register its Class A ordinary shares on a Form F-3. We will not be required to comply with any demand to file a Form F-3 in certain circumstances, including if the aggregate proceeds expected to be received from the sale of securities requested to be included in the Form F-3 is less than US\$5.0 million or if we have effected two registrations on Form F-3 within the last 12 months pursuant to a request by General Atlantic or Apax under the Registration Rights Agreement. We have agreed to pay certain expenses in connection with any demand or Form F-3 registration.

General Atlantic and Apax also have the right to request that their Class A ordinary shares be included in any registration of our Class A ordinary shares, other than registrations on Form F-4 or S-8 or in compensation or acquisition-related registrations. In addition, the underwriters may, for marketing reasons, cut back all or a part of the shares General Atlantic or Apax have requested to be registered in any incidental registration and we will have the right to terminate any registration we initiated prior to its effectiveness regardless of any request for inclusion by the holders.

April 2014 Registration Rights Agreement

We entered into a registration rights agreement with Vincent Tianquan Mo, Next Decade, Media Partner, Digital Link, Shan Li, IDG-Accel China Capital L.P. (IDG-Accel) and IDG-Accel China Capital Investors L.P. (IDG-Accel Investors), dated April 11, 2014 (the 2014 Registration Rights Agreement). Under the 2014 Registration Rights Agreement, Next Decade, Media Partner, Digital Link, IDG-Accel and IDG-Accel Investors have demand registration rights pursuant to which we will be required to effect the registration of all or a portion of Next Decade s, Media Partner s, Digital Link s, IDG-Accel s and/or IDG-Accel Investors Class A ordinary shares, provided that the aggregate price of registrable securities to be sold to the public is expected to equal or exceed US\$20.0 million; provided, however, if a limitation is imposed on the number of shares saleable by any person in an offering, Next Decade s, Media Partner s, Digital Link s, IDG-Accel s and IDG-Accel Investors right to include shares in such offering is subject to General Atlantic and Apax being able to include all shares that they wish to register in such offering.

Each of Next Decade, Media Partner, Digital Link, IDG-Accel and IDG-Accel Investors will be entitled to a total of two demand registrations (registrations to be effected under a registration statement on Form F-3 are not counted as demand registrations). We will not be required to effect a demand registration within any six-month period following the effective date of any registration statement pertaining to Class A ordinary shares or ADSs (other than certain registration statements on Form F-4 or with respect to any employee benefit plan).

We will have the right to preempt any demand registration with a primary registration, in which case Next Decade, Media Partner, Digital Link, IDG-Accel and IDG-Accel Investors will have incidental registration rights as described below. Once we are eligible to use Form F-3, Next Decade, Media Partner, Digital Link, IDG-Accel and IDG-Accel Investors will have the right to require us to register their Class A ordinary shares on a Form F-3. We will not be required to comply with any demand to file a Form F-3 in certain circumstances, including if the aggregate proceeds expected to be received from the sale of securities requested to be included in the Form F-3 is less than US\$5.0 million or if we have effected two registrations on Form F-3 within the last 12 months pursuant to a request by (i) General Atlantic or Apax under the Registration Rights Agreement or (ii) Next Decade, Media Partner, Digital Link, IDG-Accel or IDG-Accel Investors under the 2014 Registration Rights. We have agreed to pay certain expenses in connection with any demand or Form F-3 registration.

Next Decade, Media Partner, Digital Link, IDG-Accel and IDG-Accel Investors also have the right to request that their Class A ordinary shares be included in any registration of our Class A ordinary shares, other than registrations on Form F-4 or S-8 or in compensation or acquisition-related registrations. In addition, the underwriters may, for marketing reasons, cut back all or a part of the shares Next Decade, Media Partner, Digital Link, IDG-Accel or IDG-Accel Investors have requested to be registered in any incidental registration and we will have the right to terminate any registration we initiated prior to its effectiveness regardless of any request for inclusion by Next Decade, Media Partner, Digital Link, IDG-Accel or IDG-Accel Investors.

Related Party Loans

We did not have any related party loans outstanding and did not extend any loan to any related parties from January 1, 2013 to the date of this Form 20-F.

Other Related Party Transactions

We had relationships with the following related parties in 2013:

Name of Related Party	Relationship with SouFun
Vincent Tianquan Mo	Executive chairman of the board of directors
Richard Jiangong Dai	Chief executive officer of our Company
Wall Street Global Training Center, Inc.	A company under the control of Vincent Tianquan Mo and two other independent directors
Beihai Silver Beach 1 Hotel and Property Management Company, Ltd.(Beihai Silver Beach)	A company under the control of Tianquan Vincent Mo
CheTian Xia Company Ltd.	A company under the control of Vincent Tianquan Mo and Richard Jiangong Dai
Guangxi Wharton International Hotel (Guangxi Wharton)	A company under the control of Vincent Tianquan Mo
Research Center on Natural Conservation (Research Center)	A company under the control of Vincent Tianquan Mo
Crowne Plaza San Francisco-Int 1 Airport (Crowne Plaza)	A company under the control of Vincent Tianquan Mo

We had the following expenses from related party transactions during 2013:

	2013 (US\$ in thousands)
Training service fees incurred:	
- Wall Street Global Training Center, Inc.	US\$ 250
Office building leased from:	
- Vincent Tianquan Mo	175
Management fees incurred:	
- Beihai Silver Beach	537
Hotel service fees incurred:	
- Guangxi Wharton	16
- Crowne Plaza	21
- Beihai Silver Beach	110

Wall Street Global Training Center, Inc., a New York not-for-profit corporation, provided training services to us in 2013, which primarily consisted of training programs to employees and customers in management skills and leadership, finance and accounting, product development, marketing and customer base analysis, and business strategies. We paid US\$0.3 million to Wall Street Global Training Center, Inc. for such services in 2013. Mr. Mo, Shan Li and Quan Zhou are directors of Wall Street Global Training Center, Inc. Neither of Shan Li and Quan Zhou is an officer or employee of Wall Street Global Training Center, Inc.

We have allowed Wall Street Global Training Center, Inc. to use an office room of approximately 220 square feet in the former AIG training center in New York free of charge as the training classes were primarily provided in the same building. The estimated value of the free office space was insignificant in 2013.

In February 2012, we entered into an agreement with Mr. Mo, our executive chairman, to lease a building owned by him for a 10-year period without consideration starting from March 1, 2012. Deemed rental expense of US\$0.2 million and the corresponding shareholder contribution were included in our consolidated financial statements for 2013.

On April 1, 2013, we and Beihai Silver Beach entered into a contract, pursuant to which Beihai Silver Beach was engaged to manage the hotel and office leasing operations owned by the BaoAn Entities for ten years. The management fees incurred for 2013 were US\$0.5 million. No fees were incurred for prior periods.

In 2013, Guangxi Wharton, Crowne Plaza and Beihai Silver Beach provided hotel accommodations to our employees that amounted to US\$0.02 million, US\$0.02 million and US\$0.1 million, respectively.

In April 2013, we entered into a contract with Che Tian Xia Company Ltd. to use the latter's domain name for five years free of charge.

In 2013, Research Center provided meeting facilities and accommodations at the Arden House, a property located in New York, to the Company for company events and personnel free of charge.

Stock Incentive Plan

C. Interests of Experts and Counsels

Not applicable.

ITEM 8. FINANCIAL INFORMATION

A. Consolidated Statements and Other Financial Information

We have appended consolidated financial statements filed as part of this Form 20-F.

Legal Proceedings

See Item 4.B. Information on the Company Business Overview Legal Proceedings.

Dividend Policy

Our board of directors has the discretion over whether to pay dividends on our ordinary shares. If our board of directors decides to pay dividends on our ordinary shares, the form, frequency and amount will be based upon our future operations and earnings, capital requirements and surplus, general financial condition, shareholders' interests, contractual restrictions and such other factors as our board of directors may deem relevant. For a description of our corporate structure and its potential impact upon our ability to pay dividends, see Item 3.D. Key Information Risk Factors Risks Related to Doing Business in China We rely primarily on dividends and other distributions on equity paid by our subsidiaries, and any limitation on the ability of our subsidiaries to make payments to us could have a material adverse effect on our ability to conduct our business as well as our liquidity.

Holders of ADSs are entitled to receiving dividends, subject to the terms of the deposit agreement, to the same extent as the holders of our ordinary shares. Cash dividends, if any, will be paid to the depositary in U.S. dollars and paid to holders of ADSs according to the terms of the deposit agreement. Other distributions, if any, will be paid by the depositary to holders of ADSs in any means it deems legal, fair and practical. Under the deposit agreement, the depositary is required to distribute dividends to holders of ADSs unless such distribution is prohibited by law. The amounts distributed to holders will be net of fees, expenses, taxes and other governmental charges payable by holders under the deposit agreement.

In July 2013, we declared a cash dividend of US\$1.00 per share on our ordinary shares (US\$0.20 per ADS), or an aggregate of US\$81.0 million to holders of our ordinary shares and ADSs, payable to shareholders of record on July 29, 2013. As of December 31, 2013, all the declared dividends had been paid.

B. Significant Changes

Except as disclosed elsewhere in this Form 20-F, we have not experienced any significant changes since the date of our audited consolidated financial statements included in this Form 20-F.

ITEM 9. THE OFFER AND LISTING

A. Offer and Listing Details

Our ADSs have been listed for trading on the New York Stock Exchange under the symbol `SFUN` since September 17, 2010. The following table sets forth the high and low trading prices of our ADSs on the New York Stock Exchange for the periods indicated:

	Price Per ADS (1)	
	High (US\$)	Low (US\$)
2011	5.51	1.79
2012		
First Quarter	4.08	2.86
Second Quarter	3.87	2.72
Third Quarter	3.22	2.32
Fourth Quarter	5.12	3.41
2013		
First Quarter	5.83	4.51
Second Quarter	5.56	4.12
Third Quarter	10.75	4.80
Fourth Quarter	16.89	8.82
October	11.90	8.82
November	14.32	9.13
December	16.89	13.10
2014		
January	19.08	15.31
February	16.78	14.18
March	19.94	12.74
April (through April 28, 2014)	15.67	11.77

- (1) Trading prices for all periods represented through April 25, 2014 have been retroactively adjusted to reflect the change of our ADS to Class A ordinary share ratio from one ADS for one Class A ordinary shares to five ADSs for one Class A ordinary share effective April 7, 2014.

B. Plan of Distribution

Not applicable.

C. Markets

Our ADSs have been listed for trading on the New York Stock Exchange under the symbol SFUN since September 17, 2010.

D. Selling Shareholders

Not applicable.

E. Dilution

Not applicable.

F. Expenses of the Issue

Not applicable.

ITEM 10. ADDITIONAL INFORMATION

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

We incorporated by reference into this Form 20-F the description of our fifth amended and restated memorandum and articles of association contained in our current report on Form 6-K originally filed with the SEC on August 3, 2012. Our shareholders adopted our fifth amended and restated memorandum and articles of association by a special resolution on August 1, 2012.

C. Material Contracts

Material contracts other than in the ordinary course of business are described in Item 4. Information on the Company and in Item 7. Major Shareholders and Related Party Transactions and elsewhere in this Form 20-F.

D. Exchange Controls

Regulations relating to Foreign Exchange, Taxation and Dividend Distribution

Foreign Exchange

The principal regulation governing foreign exchange in China is the Foreign Currency Administration Regulations and the Regulations of Settlement, Sale and Payment of Foreign Exchange. The Renminbi is freely convertible for current account transactions, such as trade and service-related foreign exchange transactions, but not for capital account transactions, such as direct investments, loans or investments in securities outside China, without the prior approval of the relevant government authorities. Pursuant to the Foreign Currency Administration Regulations, foreign-invested enterprises in China may purchase foreign exchange at authorized commercial banks without the approval of SAFE for trade and service-related foreign exchange transactions by providing commercial documents evidencing these transactions. They may also retain foreign exchange, subject to a cap approved by SAFE, to satisfy foreign exchange liabilities or to pay dividends. However, the relevant PRC government authorities may limit or eliminate the ability of foreign-invested enterprises to purchase and retain foreign currencies in the future. In addition, foreign exchange transactions for capital accounts are still subject to limitations and require approval from or registration with relevant government authorities.

Taxation and Dividend Distribution

We are incorporated in the Cayman Islands. Under the current laws of the Cayman Islands, we are not subject to income or capital gains tax. In addition, dividend payments are not subject to withholding tax in the Cayman Islands.

In March 2007, the National People's Congress of China enacted the New EIT Law, which took effect on January 1, 2008. Under the New EIT Law, since January 1, 2008, foreign-invested enterprises, such as our subsidiaries and consolidated controlled entities, are subject to enterprise income tax at a uniform rate of 25.0% if no tax preferential policy is applicable. In addition, under the New EIT Law, enterprises organized under the laws of jurisdictions outside China may be classified as either non-resident enterprises or resident enterprises. Non-resident enterprises without an establishment or place of business in China are subject to withholding tax at the rate of 10.0% with respect to their PRC-sourced dividend income, which rate can be reduced under applicable double tax treaties or arrangements. As we are incorporated in the Caymans Islands, we may be regarded as a non-resident enterprise. We hold equity interests in several of our major PRC subsidiaries indirectly through subsidiaries incorporated in Hong Kong, including primarily Bravo Work, China Index Academy and China Home Holdings (HK) Limited. According to the Avoidance of Double Taxation Arrangement between Mainland China and Hong Kong, dividends declared by a resident enterprise in mainland China to a Hong Kong resident enterprise should be subject to withholding tax at a rate of 5.0%, provided, however, that such Hong Kong resident enterprise directly owns at least 25.0% of the equity interest in the PRC resident enterprise. In September 2013, SouFun Media and SouFun Network were granted a reduced withholding tax rate of 5% on earnings to be distributed to their Hong Kong parent entities between 2013 and 2015.

In August 2009, SAT issued Circular 124. Pursuant to Circular 124, non-tax residents of China who wish to enjoy a treaty benefit on their China-sourced income under a Sino-foreign double tax agreement have to go through either an approval application procedure (for passive income dividends, interest, royalties and capital gains) or record filing procedure (for active income business profits of a permanent establishment, service fees and personal employment income) in which specific forms attached to Circular 124 have to be submitted to the relevant Chinese tax authorities together with the relevant supporting documentation. Circular 124 provides details of the procedures and documentation requirements. Pursuant to Circular 124, we must submit application to and obtain approval from authorized Chinese tax bureaus to enjoy the reduced withholding tax rate for our Hong Kong-incorporated holding companies with respect to the dividend income derived from the PRC subsidiaries.

In addition, SAT released Circular 601 in October 2009. Circular 601 provides guidance for the determination of beneficial ownership for the purpose of claiming benefits under double taxation arrangements by treaty residents in respect of articles of dividends, royalties and interest under double taxation arrangements. Under Circular 601, a beneficial owner shall generally engage in substantive business activities which is further referred to as manufacturing, trading and management activities under Article 1 of Circular 601. Circular 601 also sets forth several factors, the existence of which generally does not provide support that the treaty resident is a beneficial owner. The following are two of the unfavorable factors listed in Circular 601: the treaty resident does not have or almost does not have any other business activities besides ownership of the assets or rights that generate the income; where the treaty resident is a corporation, the amount of its assets, scale of operations and number of employees is limited and is not commensurate with the amount of its income. According to Circular 601, non-resident enterprises which could not provide valid supporting documents as beneficiary owners could not be approved to enjoy treaty benefits. Therefore, dividends from our PRC subsidiaries paid to us through our Hong Kong subsidiaries may be subject to a withholding tax rate of 10.0% if our Hong Kong subsidiaries cannot be considered as a beneficial owner under Circular 601.

Despite the above, the New EIT Law also provides that an enterprise incorporated outside China with its de facto management bodies located within mainland China should be considered a PRC resident enterprise and therefore be subject to enterprise income tax on its worldwide income at the rate of 25.0%.

The implementing rules for the New EIT Law defines de facto management organization as the body that exercises substantial and comprehensive control over the production, operation, personnel, accounting, property and other factors of an enterprise. SAT issued Circular 82 in April 2009. Circular 82 provides certain specific criteria for determining whether the de facto management bodies of a Chinese-controlled offshore-incorporated enterprise is located in China. Although Circular 82 only applies to offshore enterprises controlled by PRC enterprises, not those controlled by PRC individuals or foreigners in China, like us, the determining criteria set forth in Circular 82 may reflect SAT's general position on how the de facto management bodies test should be applied in determining the tax resident status of offshore enterprises, regardless of whether they are controlled by PRC enterprises, individuals or foreigners.

Substantially all members of our management are currently located in China and we expect them to continue to be located in China for the foreseeable future. Therefore, if we are deemed to be a PRC tax resident enterprise, we will be subject to an enterprise income tax rate of 25.0% on our worldwide income if no preferential tax treatment is applicable. According to the New EIT Law and its implementing rules, dividends are exempted from income tax if such dividends are received by a resident enterprise on an equity interest it directly owns in another resident enterprise. Therefore, it is possible that dividends we derive through our Hong Kong subsidiaries from our PRC subsidiaries would be tax exempt income under the New EIT Law if our Hong Kong subsidiaries are also deemed to be resident enterprises.

If we are deemed to be a PRC tax resident enterprise, we would then be obliged to withhold PRC withholding income tax on the gross amount of dividends declared to shareholders who are non-PRC tax residents. The withholding income tax rate is 10.0% for non-resident enterprises and 20.0% for non-resident individuals, unless otherwise provided under the applicable double tax treaties between China and governments of other jurisdictions.

Although the New EIT Law has been effective for more than four years, significant uncertainties still exist with respect to the interpretation of the New EIT Law and its implementing rules. Any increase in the enterprise income tax rate applicable to us, the imposition of PRC income tax on our global income or the imposition of withholding tax on dividends declared by our subsidiaries to us could have a material adverse effect on our business, financial condition and results of operations.

Regulations relating to Foreign Exchange in Certain Onshore and Offshore Transactions

In October 2005, SAFE issued Circular 75 To further clarify and simplify the implementation of Circular 75, SAFE issued the Implementing Rules Relating to the Administration of Foreign Exchange in Fund-Raising and Round-trip Investment Activities of the Domestic Residents Conducted via Offshore Special Purpose Companies, or Circular 19, effective on July 1, 2011, and the Circular on Further Improving and Adjusting the Policies on Administration of Foreign Exchange under Direct Investment or Circular 59, effective on December 17, 2012. Under Circular 75, Circular 19 and Circular 59, PRC residents, whether natural or legal persons, must register with the relevant local SAFE branches prior to their establishment, or prior to their taking control of, an offshore entity established for the purpose of overseas equity financing involving onshore assets or equity interests held by them, and must also make filings with SAFE afterwards upon the occurrence of certain material capital changes. Moreover, Circular 75 applies retroactively. As a result, PRC residents who have established or acquired control of offshore entities that have made onshore investments in China in the past are required to complete the relevant registration procedures with local SAFE branches. The registration and filing procedures under Circular 75 are prerequisites for other approval and registration procedures necessary for capital inflow from offshore entities, such as inbound investments or shareholders loans, or capital outflow to offshore entities, such as the payment of profits or dividends, liquidating distributions, equity sale proceeds, or the return of funds upon a capital reduction. SAFE has further clarified that the term "PRC residents" as used under Circular 75 refers to those who (i) have permanent residence in mainland China or will return to mainland China for permanent residence after temporary leave due to traveling, education, medical treatment, working, request for residence, and other reasons; (ii) hold "domestic-funding interests" in domestic entities; or (iii) are the ultimate holders of "foreign-fund interests" that have been converted from "domestic-funding interests".

Because of uncertainty over how Circular 75 will be interpreted and implemented, we cannot predict how it will affect our business operations or future strategies. If SAFE determines that Circular 75 applies to us, our present and prospective PRC subsidiaries' ability to conduct foreign exchange activities, such as any remittance of dividends or foreign currency-denominated borrowings, may be subject to compliance with Circular 75 requirements by our PRC resident shareholders. We cannot assure you that our PRC resident shareholders will be able to complete the necessary registration and filing procedures required by Circular 75. If Circular 75 is determined to apply to us or any of our PRC resident shareholders, a failure by our PRC resident shareholders or beneficiary owners to comply with Circular 75 could subject the relevant PRC residents or beneficiaries to penalties under PRC foreign exchange regulations, and could subject us to fines or legal sanctions, restrict our overseas or cross-border investment activities, limit our subsidiaries' ability to make distributions or pay dividends or affect our ownership structure, which could materially and adversely affect our business and prospects.

E. Taxation

Cayman Islands taxation

The Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty and there are no other taxes likely to be material to us levied by the Government of the Cayman Islands except for stamp duties which may be applicable on instruments executed in, or after execution brought within the jurisdiction of, the Cayman Islands. Although it is unlikely that we will be subject to material taxes, there is no assurance that the Cayman Islands government will not impose taxes in the future, which could be material to us. In addition, there may be tax consequences if we are, for example, involved in any transfer or conveyance of immovable property in the Cayman Islands. The Cayman Islands is not party to any double tax treaties that are applicable to any payments made to or by us and there are no exchange control regulations or currency restrictions in the Cayman Islands.

Under existing Cayman Islands laws, payments of interest and principal on the notes and dividends and capital in respect of our shares will not be subject to taxation in the Cayman Islands and no withholding will be required on the payment of interest and principal or a dividend or capital to any holder of the notes or our shares, as the case may be, nor will gains derived from the disposal of the notes or our shares be subject to Cayman Islands income or corporation tax.

No stamp duty is payable in respect of the issue or conversion of the notes. The notes themselves will be stampable if they are executed in or brought into the Cayman Islands.

People's Republic of China taxation

The PRC enterprise income tax is calculated based on the taxable income determined under the PRC laws and accounting standards. Under the New EIT Law, all domestic and foreign-invested companies in China are subject to a uniform enterprise income tax at the rate of 25% and dividends from a PRC subsidiary to its foreign parent company are subject to a withholding tax at the rate of 10%, unless such foreign parent company's jurisdiction of incorporation has a tax treaty with China that provides for a reduced rate of withholding tax, or the tax is otherwise exempted or reduced pursuant to the PRC tax laws. Our subsidiaries in China are considered foreign investment entities (FIEs), and certain of these subsidiaries are directly held by our subsidiaries in Hong Kong. According to the currently effective tax treaty between China and Hong Kong, dividends payable by an FIE in China to a company in Hong Kong which directly holds at least 25% of the equity interests in the FIE will be subject to a withholding tax of 5%. In February 2009, SAT issued Circular No. 81. According to Circular No. 81, in order to enjoy the preferential treatment on dividend withholding tax rates, an enterprise must be the beneficial owner of the relevant dividend income, and no enterprise is entitled to enjoy preferential treatment pursuant to any tax treaties if such enterprise qualifies for such preferential tax rates through any transaction or arrangement, the major purpose of which is to obtain such preferential tax treatment. The tax authority in charge has the right to make adjustments to the applicable tax rates, if it determines that any taxpayer has enjoyed preferential treatment under tax treaties as a result of such transaction or arrangement. In October 2009, SAT issued Circular No. 601 to provide guidance on the criteria to determine whether an enterprise qualifies as the beneficial owner of the PRC sourced income for the purpose of obtaining preferential treatment under tax treaties. Pursuant to Circular No. 601, the PRC tax authorities will review and grant tax preferential treatment on a case-by-case basis and adopt the substance over form principle in the review. Circular 601 specifies that a beneficial owner should generally carry out substantial business activities and own and have control over the income, the assets or other rights generating the income. Therefore, an agent or a conduit company will not be regarded as a beneficial owner of such income. In June 2012, SAT further promulgated the Announcement on Determining the Beneficial Owners in Tax Agreement (Circular 30), which provides that the tax authorities shall make the decision based on a comprehensive consideration of all determining factors provided in Circular 601 rather than the status of a single determining factor. Since the three circulars were issued, it has remained unclear how the PRC tax authorities will

implement them in practice and to what extent they will affect the dividend withholding tax rates for dividends distributed by our subsidiaries in China to our Hong Kong subsidiary. If the relevant tax authority determines that any of our Hong Kong subsidiaries is a conduit company and does not qualify as the beneficial owner of the dividend income it receives from our PRC subsidiaries, the higher 10% withholding tax rate may apply to such dividends.

Under the New EIT Law, an enterprise established outside of China with its de facto management body within China is considered a resident enterprise and will be subject to enterprise income tax at the rate of 25% on its worldwide income. The de facto management body is defined as the organizational body that effectively exercises overall management and control over production and business operations, personnel, finance and accounting, and properties of the enterprise. It remains unclear how the PRC tax authorities will interpret such a broad definition. If the PRC tax authorities determine that we should be classified as a resident enterprise, our global income will be subject to income tax at a uniform rate of 25%, which may have a material adverse effect on our financial condition and results of operations. Notwithstanding the foregoing provision, the New EIT Law also provides that, if a resident enterprise directly invests in another resident enterprise, the dividends received by the investing resident enterprise from the invested enterprise are exempted from income tax, subject to certain conditions. However, it remains unclear how the PRC tax authorities will interpret the PRC tax resident treatment of an offshore company, like us, having indirect ownership interests in PRC enterprises through intermediary holding vehicles.

If we were treated as a PRC resident enterprise, any interest payable to non-resident enterprise holders of the notes and dividends payable to non-resident enterprise holders of our ordinary shares or ADSs may be treated as income derived from sources within PRC and therefore subject to a 10% withholding tax (or 20% in the case of non-resident individual holders) unless an applicable income tax treaty provides otherwise. In addition, capital gains realized by non-resident enterprise holders upon the disposition of the notes, our ordinary shares or ADSs may be treated as income derived from sources within the PRC and therefore subject to 10% income tax (or 20% in the case of non-resident individual holders) unless an applicable income tax treaty provides otherwise.

United States federal income taxation

The following discussion describes the material U.S. federal income tax consequences of the ownership and disposition of our ADSs or ordinary shares under currently applicable law. This discussion does not address any U.S. federal consequences other than U.S. federal income tax consequences (such as the gift or estate tax). This discussion also does not address any state, local or non-U.S. tax consequences of an investment in our ordinary shares or ADSs. This discussion applies to you only if you are a U.S. holder (as defined below) and beneficially own our ordinary shares or ADSs as capital assets for U.S. federal income tax purposes. This discussion does not apply to you if you are a member of a class of holders subject to special rules, such as:

dealers in securities or currencies;

traders in securities that elect to use a mark-to-market method of accounting for securities holdings;

banks or other financial institutions;

insurance companies;

tax-exempt organizations;

partnerships and other entities treated as partnerships for U.S. federal income tax purposes or persons holding ordinary shares or ADSs through any such entities;

real estate investment trusts;

-121-

regulated investment companies;

persons that hold ordinary shares or ADSs as part of a hedge, straddle, constructive sale, conversion transaction or other integrated investment;

U.S. holders (as defined below) whose functional currency for tax purposes is not the U.S. dollar;

certain former citizens or long-term residents of the United States;

persons liable for alternative minimum tax; or

persons who actually or constructively own 10.0% or more of the total combined voting power of all classes of our shares (including ADSs) entitled to vote.

This discussion is based on the U.S. Internal Revenue Code of 1986, as amended, or the Code, its legislative history, existing and proposed regulations promulgated thereunder, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis. In addition, this discussion relies in part on our assumptions regarding the projected value of our shares and the nature of our business. Finally, this discussion is based in part upon the representations of the depositary and the assumption that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms.

You should consult your own tax advisor concerning the particular U.S. federal income tax consequences to you of the purchase, ownership and disposition of our ordinary shares or ADSs, as well as the consequences to you arising under the laws of any other taxing jurisdiction.

For purposes of the U.S. federal income tax discussion below, you are a U.S. holder if you beneficially own our ordinary shares or ADSs and are:

a citizen or resident of the United States for U.S. federal income tax purposes;

a corporation, or other entity taxable as a corporation, that was created or organized in or under the laws of the United States or any political subdivision of the United States;

an estate the income of which is subject to U.S. federal income tax regardless of its source; or

a trust, if (a) a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) the trust has a valid election in effect to be treated as a U.S. person. If a partnership or other flow-through entity holds ordinary shares or ADSs, the tax treatment of a partner or other owner will generally depend on the status of the partner or other owner and the activities of the partnership or other flow-through entity. A holder of ordinary shares or ADSs that is a partnership or a partner in

such partnership should consult its own tax advisor regarding the U.S. federal income tax consequences of the purchase, ownership and disposition of the ordinary shares or ADSs.

ADSs. If you hold ADSs, for U.S. federal income tax purposes, you generally will be treated as the owner of the underlying ordinary shares that are represented by such ADSs. Accordingly, deposits or withdrawals of ordinary shares for ADSs will not be subject to U.S. federal income tax.

Dividends on Ordinary Shares or ADSs. Subject to the passive foreign investment company, or PFIC, discussion below, if we do make distributions and you are a U.S. holder, the gross amount of any distributions (including amounts withheld to reflect PRC withholding taxes, if any) you receive on your ordinary shares or ADSs are generally treated as dividend income if the distributions are made from our current or accumulated earnings and profits, calculated according to U.S. federal income tax principles. Such income (including any withheld taxes) will be includable in your gross income on the day actually or constructively received by you, in the case of ordinary shares, or by the depository in the case of ADSs. Distributions in excess of current and accumulated earnings and profits will be treated first as a non-taxable return of capital to the extent of your basis in the ordinary shares or ADSs and thereafter as a capital gain. If you are a non-corporate U.S. holder, including an individual, and have held your ADSs for a sufficient period of time, dividend distributions paid on our ADSs (but not our ordinary shares) will generally constitute qualified dividend income taxed at a preferential rate as long as our ADSs continue to be readily tradable on the New York Stock Exchange. Based on existing guidance, it is not clear whether a dividend on an ordinary share will be treated as a qualified dividend, because the ordinary shares are not themselves listed on a U.S. exchange. If, however, we are treated as a PRC resident enterprise under PRC law, we may be eligible for the benefits of the income tax treaty between the United States and the PRC, in which case dividends paid on our ordinary shares and ADSs would both be treated as qualified dividends (subject to the relevant holding period requirements). You should consult your own tax advisor as to the rate of tax that will apply to you with respect to dividend distributions, if any, you receive from us.

We do not intend to calculate our earnings and profits according to U.S. tax accounting principles. Accordingly, notwithstanding the discussion in the preceding paragraph, distributions on our ordinary shares or ADSs, if any, will generally be taxed to you as dividend distributions for U.S. tax purposes. If you are a corporation, you will not be entitled to claim a dividends-received deduction with respect to distributions you receive from us. In the event we are treated as a PRC resident enterprise under PRC law, we may be required to withhold PRC income tax on dividends paid to you under the New EIT Law. See Item 3.D. Key Information Risk Factors Risks Related to Our ADSs We may be required to withhold PRC income tax on any dividend we pay you, and any gain you realize on the transfer of our ordinary shares and/or ADSs may also be subject to PRC withholding tax. Subject to generally applicable limitations, you may be eligible to claim a deduction or a foreign tax credit for PRC tax withheld at the appropriate rate. Dividends generally will be categorized as passive category income or, in the case of some U.S. holders, as general category income for foreign tax credit limitation purposes. The rules governing the use of foreign tax credits are very complex, and you are urged to consult your own tax advisor as to your ability, and the various limitations on your ability, to claim foreign tax credits in connection with the receipt of dividends.

Sales and Other Dispositions of Ordinary Shares or ADSs. Subject to the PFIC discussion below, when you sell or otherwise dispose of ordinary shares or ADSs in a taxable transaction, you will generally recognize capital gain or loss in an amount equal to the difference between the amount realized on the sale or other taxable disposition and your adjusted tax basis in the ordinary shares or ADSs, both as determined in U.S. dollars. Any gain or loss you recognize will be long-term capital gain or loss if you have held the ordinary shares or ADSs for more than one year at the time of disposition. If you are an individual, long-term capital gain will be taxed at preferential rates. Your ability to deduct capital losses will be subject to various limitations.

The gain or loss you recognize on a sale or disposition of our ordinary shares or ADSs generally will be treated as arising from sources within the United States for foreign tax credit limitation purposes. However, if gains from the disposition of ordinary shares or ADSs are taxed under the New EIT Law, see Item 3.D. Key Information Risk Factors Risks Related to Our ADSs We may be required to withhold PRC income tax on any dividend we pay you, and any gain you realize on the transfer of our ordinary shares and/or ADSs may also be subject to PRC withholding tax, the income tax treaty between the United States and the PRC may apply, in which case you may elect to treat such gains as arising from sources within the PRC for foreign tax credit limitation purposes. You are urged to consult your own tax advisors regarding the tax consequences to you under your particular circumstances if any PRC withholding tax is imposed on the disposition of ordinary shares or ADSs, including the availability of the foreign tax credit.

Status as a PFIC. If we are a PFIC in any taxable year in which you hold ordinary shares or ADSs, you will generally be subject to additional taxes and interest charges on certain excess distributions we make and on any gain realized on the disposition or deemed disposition of your ordinary shares or ADSs, regardless of whether we continue to be a PFIC in the year in which you receive an excess distribution or dispose of or are deemed to dispose of your ordinary shares or ADSs. Distributions in respect of your ordinary shares or ADSs during a taxable year will generally constitute excess distributions if, in the aggregate, they exceed 125% of the average amount of distributions in respect of your ordinary shares or ADSs over the three preceding taxable years or, if shorter, the portion of your holding period before such taxable year.

To compute the tax on excess distributions or any gain, (1) the excess distribution or the gain will be allocated ratably to each day in your holding period, (2) the amount allocated to the current year and any tax year before we first became a PFIC will be taxed as ordinary income in the current year, (3) the amount allocated to other taxable years will be taxable at the highest applicable marginal rate in effect for that year, and (4) an interest charge at the rate for underpayment of taxes for any period described under (3) above will be imposed with respect to any portion of the excess distribution or gain that is allocated to such period. In addition, if we are a PFIC or were in the year prior to a distribution, no distribution that you receive from us will qualify for taxation at the preferential rate discussed in the U.S. Federal Income Taxation Dividends on Ordinary Shares or ADSs section above.

We will be classified as a PFIC in any taxable year if, after the application of certain look-through rules, either: (1) 75.0% or more of our gross income for the taxable year is passive income (such as certain dividends, interest, rents or royalties), or (2) the average percentage value (determined on a quarterly basis) of our gross assets during the taxable year that produce passive income or are held for the production of passive income is at least 50.0% of the value of our total assets. For purposes of the asset test, any cash, cash equivalents, cash invested in short-term, interest bearing, debt instruments, or bank deposits, and any other current asset that is readily convertible into cash, will generally count as a passive asset.

We operate an active online real estate Internet portal in China and do not believe we were a PFIC for our 2013 taxable year or that we are likely to become one in any future taxable years. We have no current intention to change the general manner in which we organize or conduct our business in later taxable years. Our expectations are based on assumptions as to our projections of the value of our outstanding shares and of the other cash that we will hold and generate in the ordinary course of our business. We have not conducted a separate appraisal of the values of our assets for this purpose. Although the law in this regard is not entirely clear we treat our consolidated controlled entities as being owned by us for U.S. federal income tax purposes. Despite our expectations, there can be no assurance that we will not be a PFIC in any future taxable years, as PFIC status is re-tested each year and depends on the actual facts in such year. We could be a PFIC, for example, if our market capitalization (i.e., our share price multiplied by the total number of our outstanding ordinary shares) at any time in the future is lower than projected, if it is determined that we are not the owner of our consolidated controlled entities for U.S. federal income tax purposes, or if our business and assets evolve in ways that are different from what we currently anticipate. In addition, though we believe that our assets and the income derived from our assets do not generally constitute passive assets and income under the PFIC rules, there is no assurance that the IRS will agree with us.

If we are a PFIC in any year, as a U.S. holder, you will generally be required to file a return on IRS Form 8621 regarding your ordinary shares or ADSs. In addition, recently enacted legislation will require you, as a U.S. holder, to file an annual information return containing such information as the Secretary of the Treasury may require. You should consult your own tax adviser regarding reporting requirements with regard to your ordinary shares or ADSs.

The ADSs will be marketable as long as they remain regularly traded on a national securities exchange, such as The New York Stock Exchange. As a result, if we are a PFIC in any year, so long as the ADSs are and remain marketable, a U.S. holder will be able to avoid the excess distribution rules described above by making a timely so-called mark-to-market election with respect to such U.S. holder's ADSs. If a U.S. holder makes this election in a timely fashion, such U.S. holder will generally recognize as ordinary income or ordinary loss (limited to the amount of prior ordinary gain) the difference between the adjusted tax basis of such U.S. holder's ADSs on the first day of any taxable year and their value on the last day of that taxable year. The U.S. holder's basis in the ADSs will be adjusted to reflect any such income or loss. A mark-to-market election will be effective for the taxable year for which the election is made and for all subsequent taxable years, unless the ADSs are no longer regularly traded on a qualified exchange or the IRS consents to the revocation of the election. However, because a mark-to-market election cannot be made for any lower-tier PFICs that we may own, a U.S. holder may continue to be subject to the PFIC rules with respect to any indirect interest in any investments held by us that are treated as an equity interest in a PFIC for U.S. federal income tax purposes. U.S. Holders should consult their own tax advisors with respect to making a mark-to-market election.

In addition, if we are a PFIC in any year, you might be able to avoid the excess distribution rules described above by making a timely so-called qualified electing fund, or QEF, election to be taxed currently on your pro rata portion of our income and gain. However, we do not intend to provide the information that would be necessary for you to make a QEF election. Accordingly, you will not be able to make or maintain a QEF election with respect to your ADSs or ordinary shares.

You should consult with your tax advisors regarding the U.S. federal income tax consequences of holding ADSs or ordinary shares if we are considered to be a PFIC in any taxable year as well as your eligibility for a mark-to-market election and whether making such an election would be advisable to you in your particular circumstances.

Additional Tax on Investment Income

For taxable years beginning after December 31, 2012, if you are an individual, estate or trust whose income exceeds certain thresholds, you will be subject to a 3.8% Medicare contribution tax on unearned income, including, among other things, dividends on, and capital gains from, the sale or other taxable disposition of, your ordinary shares or ADSs, subject to certain limitations and exceptions.

U.S. Information Reporting and Backup Withholding Rules

In general, dividend payments with respect to the ordinary shares or ADSs and the proceeds received on the sale or other disposition of those ordinary shares or ADSs may be subject to information reporting to the IRS, and to backup withholding (currently imposed at a rate of 28.0%). Backup withholding will not apply, however, if you (1) are a corporation or come within certain other exempt categories and, when required, can demonstrate that fact or (2) provide a taxpayer identification number, certify as to no loss of exemption from backup withholding and otherwise comply with the applicable backup withholding rules. To establish your status as an exempt person, you will generally be required to provide certification on IRS Form W-9. Any amounts withheld from payments to you under the backup withholding rules will generally be allowed as a refund or a credit against your U.S. federal income tax liability, provided that you timely furnish the required information to the IRS.

You may be required to report information with respect to your ordinary shares or ADSs not held through a custodial account with a U.S. financial institution to the IRS. In general, if you hold specified foreign financial assets (which generally would include ordinary shares or ADSs) with an aggregate value exceeding \$50,000, you will be required to report information about those assets on IRS Form 8938, which must be attached to your annual income tax return. Higher asset thresholds apply if you file a joint tax return or reside abroad. If you fail to report required information, you could become subject to substantial penalties. You should consult your own tax advisor regarding your obligation to file IRS Form 8938.

You should consult your own tax advisor regarding the application of the U.S. federal income tax laws to their particular situations as well as any additional tax consequences resulting from purchasing, holding or disposing of ordinary shares or ADSs, including the applicability and effect of the tax laws of any state, local or foreign jurisdiction and any estate, gift, and inheritance laws.

H. Documents on display

We have previously filed with the SEC our registration statement on Form F-1 (File Number 333-169170), as amended, and a prospectus under the Securities Act with respect to our ordinary shares represented by our ADSs, and a related registration statement on Form F-6 (File Number 333-169176) with respect to our ADSs, as amended. We have also filed with the SEC a Form S-8 (File Number 333-173157) with respect to our ADSs, as amended. In addition, we have filed with the SEC our registration statement on Form F-3 (File Number 333-181407), as amended, and a prospectus under the Securities Act with respect to our ordinary shares represented by our ADSs.

We are subject to the periodic reporting and other informational requirements of the Exchange Act. Under the Exchange Act, we are required to file reports and other information with the SEC. Specifically, we are required to file annually a Form 20-F within four months after the end of each fiscal year for fiscal years ending on or after December 15, 2011. Copies of reports and other information, when so filed, may be inspected without charge and may be obtained at prescribed rates at the public reference facilities maintained by the SEC at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. The public may obtain information regarding the Washington, D.C. Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains a web site at <http://www.sec.gov> that contains reports, proxy and information statements, and other information regarding registrants that make electronic filings with the SEC using its EDGAR system.

As a foreign private issuer, we are exempt from the rules of the Exchange Act prescribing the furnishing and content of quarterly reports and proxy statements, and our executive officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act. In addition, we are not required under the Exchange Act to file periodic reports and financial statements with the SEC as frequently or as promptly as U.S. companies whose securities are registered under the Exchange Act.

I. Subsidiary Information

Not applicable.

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary market risk exposure is interest rate risk associated with short and long-term borrowings bearing variable interest rates and lease payments under leases tied to floating interest rates. To manage this interest rate exposure, we enter into interest rate swap and cap agreements. We are also exposed to foreign currency risk, which can adversely affect our operating profits.

The following discussion should be read in conjunction with the notes to our audited consolidated financial statements contained in this Form 20-F, which provide further information on our debt and derivative instruments contained in this Form 20-F.

Liquidity Risk

The principal method we use to manage liquidity risk arising from liabilities is maintaining an adequate level of cash and cash equivalents with different banks. In 2011, 2012 and 2013, we monitored our liquidity risks by considering the maturity of our financial assets and projected cash flows from operations. Our objective is to maintain a balance between a continuity of funding and flexibility through settlement from customers and subsequent payment to vendors to meet our working capital requirements.

Interest Rate Risk

Our earnings are affected by changes in interest rates due to the impact of such changes on interest income and expense from interest-bearing financial assets and liabilities. Our interest-bearing financial assets and liabilities are predominately denominated in Renminbi and U.S. dollars. Our financial assets consist primarily of cash deposits with fixed interest rates and receivables. Therefore, our exposure to interest rate risks has been insignificant.

Foreign Currency Risk

Substantially all of our revenues, cash and cash equivalent assets, costs and expenses, are denominated in Renminbi, and the functional currency of our principal operating subsidiaries and consolidated controlled entities is the Renminbi. On the other hand, a portion of our expenditures are denominated in foreign currencies, primarily the U.S. dollar, and we use the U.S. dollar as our functional and reporting currency. The ADSs are also traded in U.S. dollars. As a result, the value of your investment in our ADSs will be affected by fluctuations in exchange rates, particularly appreciation or depreciation in the value of the Renminbi relative to the U.S. dollar and other foreign currencies, without giving effect to any underlying change in our business or results of operations. For example, if the Renminbi had weakened 5.0% against the U.S. dollar with all other variables held constant, our profit for the relevant periods would have been US\$6.6 million, US\$9.1 million and US\$15.9 million lower for 2011, 2012 and 2013, respectively. See Item 3.D. Key Information Risk Factors Risks Related to Doing Business in China Fluctuations in the exchange rates of the Renminbi could materially and adversely affect the value of our shares or ADSs and result in foreign currency exchange losses.

From time to time we manage to convert Renminbi into foreign currencies for purchases of equipment from overseas suppliers and for certain expenses. The Renminbi is not freely convertible into foreign currencies. In July 2005, the PRC government discontinued pegging the Renminbi to the U.S. dollar. However, the PBOC, regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate. Nevertheless, under China's current exchange rate regime, the Renminbi may appreciate or depreciate significantly in value against the

U.S. dollar in the medium to long term.

Very limited hedging transactions are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedging transactions may be limited and we may not be able to successfully hedge our exposure at all. In addition, our currency exchange losses may be magnified by PRC exchange control regulations that restrict our ability to convert Renminbi into other currencies.

Credit Risk

Substantially all of our cash and cash equivalents are held in banks in mainland China and Hong Kong that our management believes are of high credit quality. We have policies that limit the amount of credit exposure to any bank. With respect to credit risk arising from other financial assets, comprising accounts receivable, commitment deposits to real estate developers in order to secure future marketing and listing business, amounts due from related parties and amounts due from subsidiaries, our exposure to credit risk arises from default of the counterparties, with a maximum exposure equal to the carrying amounts of these instruments. We perform on-going credit evaluations of our customers' financial condition. Concentration of credit risk with respect to accounts receivable is limited due to the large number of entities comprising our customer base. No customer individually accounted for 10.0% or more of our revenues in any of 2011, 2012 and 2013. We generally do not require collateral for accounts receivable.

Fair Value Risk

Our financial assets mainly include cash and cash equivalents, account receivables, amounts due from related parties and investments in subsidiaries. Our financial liabilities mainly include other payables and advances from customers. The carrying amounts of our financial instruments approximate to their fair values as of the balance sheet date. Fair value estimates are made at a specific point in time and are based on relevant market information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

A. Debt Securities

Not applicable.

B. Warrants and Rights

Not applicable.

C. Other Securities

Not applicable.

D. American Depositary Shares

On March 18, 2014, we announced the change of the ratio of our American Depositary Receipts representing Class A ordinary shares from one ADS for one Class A ordinary shares to five ADSs for one Class A ordinary share. The record date for the ratio change was March 28, 2014. For our ADS holders, this ratio change had the same effect as a five-for-one ADS split. There was no change to our Class A ordinary shares or Class B ordinary shares. The effect of the ratio change on the ADS trading price on New York Stock Exchange occurred on April 7, 2014.

JPMorgan Chase Bank, N.A., our depositary, may charge each person to whom ADSs are issued, including, without limitation, issuances against deposits of shares, issuances in respect of share distributions, rights and other distributions, issuances pursuant to a stock dividend or stock split declared by us or issuances pursuant to a merger, exchange of securities or any other transaction or event affecting the ADSs or deposited securities, and each person surrendering ADSs for withdrawal of deposited securities in any manner permitted by the deposit agreement or whose ADRs are cancelled or reduced for any other reason, \$5.00 for each 100 ADSs (or any portion thereof) issued, delivered, reduced, cancelled or surrendered, the case may be. The depositary may sell (by public or private sale) sufficient securities and property received in respect of a share distribution, rights and/or other distribution prior to such deposit to pay such charge.

The following additional charges shall be incurred by the ADR holders, by any party depositing or withdrawing ordinary shares or by any party surrendering ADSs or to whom ADSs are issued (including, without limitation, issuance pursuant to a stock dividend or stock split declared by us or an exchange of stock regarding the ADRs or the deposited securities or a distribution of ADSs), whichever is applicable:

a fee of \$1.50 per ADR or ADRs for transfers of certificated or direct registration ADRs;

a fee of up to \$0.05 per ADS for any cash distribution made pursuant to the deposit agreement;

a fee of up to \$0.05 per ADS per calendar year (or portion thereof) for services performed by the depositary in administering the ADRs (which fee may be charged on a periodic basis during each calendar year and shall be assessed against holders of ADRs as of the record date or record dates set by the depositary during each calendar year and shall be payable in the manner described in the next succeeding provision);

reimbursement of such fees, charges and expenses as are incurred by the depositary and/or any of the depositary's agents (including, without limitation, the custodian and expenses incurred on behalf of holders in connection with compliance with foreign exchange control regulations or any law or regulation relating to foreign investment) in connection with the servicing of the ordinary shares or other deposited securities, the delivery of deposited securities or otherwise in connection with the depositary's or its custodian's compliance with applicable law, rule or regulation (which charge shall be assessed on a proportionate basis against holders as of the record date or dates set by the depositary and shall be payable at the sole discretion of the depositary by billing such holders or by deducting such charge from one or more cash dividends or other cash distributions);

a fee for the distribution of securities (or the sale of securities in connection with a distribution), such fee being in an amount equal to the fee for the execution and delivery of ADSs which would have been charged as a result of the deposit of such securities (treating all such securities as if they were ordinary shares) but which securities or the net cash proceeds from the sale thereof are instead distributed by the depositary to those holders entitled thereto;

stock transfer or other taxes and other governmental charges;

cable, telex and facsimile transmission and delivery charges incurred at your request in connection with the deposit or delivery of ordinary shares;

transfer or registration fees for the registration of transfer of deposited securities on any applicable register in connection with the deposit or withdrawal of deposited securities; and

expenses of the depositary in connection with the conversion of foreign currency into U.S. dollars.

We will pay all other charges and expenses of the depositary and any agent of the depositary (except the custodian) pursuant to agreements from time to time between us and the depositary. The charges described above may be amended from time to time by agreement between us and the depositary.

Our depositary has agreed to reimburse us for certain expenses we incur that are related to establishment and maintenance of the ADR program, including investor relations expenses and exchange application and listing fees. Neither the depositary nor we can determine the exact amount to be made available to us because (i) the number of ADSs that will be issued and outstanding, (ii) the level of fees to be charged to holders of ADSs and (iii) our reimbursable expenses related to the ADR program are not known at this time. The depositary collects its fees for issuance and cancellation of ADSs directly from investors depositing ordinary shares or surrendering ADSs for the purpose of withdrawal or from intermediaries acting for them. The depositary collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of distributable property to pay the fees. The depositary may collect its annual fee for depositary services by deduction from cash distributions, or by directly billing investors, or by charging the book-entry system accounts of participants acting for them. The depositary may generally refuse to provide services to any holder until the fees and expenses owing by such holder for those services or otherwise are paid. In June 2013, we received US\$0.6 million (after tax) reimbursement from our depositary for our expenses incurred in connection with investor relationship programs related to ADS facility and the travel expenses of our key personnel in connection with such programs.

PART II

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

Not applicable.

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

A. Material Modifications to the Rights of Security Holders

None.

B. Use of Proceeds

Not applicable.

ITEM 15. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, has performed an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report, as required by Rule 13a-15(b) under the Exchange Act.

Based upon that evaluation, our management has concluded that, as of December 31, 2013, our disclosure controls and procedures were effective in ensuring that the information required to be disclosed by us in the reports that we file and furnish under the Exchange Act was recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) under the Exchange Act. Our management evaluated the effectiveness of our internal control over financial reporting, as required by Rule 13a-15(c) of the Exchange Act, based on criteria established in the 1992 framework in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our management has concluded that our internal control over financial reporting was effective as of December 31, 2013.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness of our internal control over financial reporting to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Our independent registered public accounting firm, Ernst & Young Hua Ming LLP, has audited the effectiveness of our internal control over financial reporting as of December 31, 2013, as stated in its report, which appears on page F-3 of this Form 20-F.

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

Our board of directors has determined that Sam Hanhui Sun is an audit committee financial expert as defined by SEC rules, and that he satisfies the independence requirements of Section 303A and Rule 10A-3 promulgated under the Exchange Act.

ITEM 16B. CODE OF ETHICS

Our board of directors has adopted our code of conduct and ethics, a code that applies to members of the board of directors including its chairman and other senior officers, including the chief executive officer, the chief financial officer and the chief operations officer. This code is publicly available on our website at ir.soufun.com.

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

In January 2003, the SEC adopted rules requiring disclosure of fees billed by a public company's independent auditors in each of the company's two most recent fiscal years. Our auditors charged the following fees for professional services rendered for 2012 and 2013:

	2012	2013
	(U.S. dollars in thousands)	
Audit fees(1)	977	1,018
Audit-related fees(2)	151	267
Tax Fees(3)	43	40
Total	1,171	1,325

- (1) Audit Fees are defined as the standard audit work that needs to be performed each year in order to issue opinions on our consolidated financial statements and agreed-upon procedures performed in relation to interim financial information.
- (2) Audit-related fees include professional services rendered by the independent auditor associated with SEC filings.
- (3) Tax Fees include those tax services provided by the independent auditor for tax compliance, tax advice and tax planning.

Policy on Pre-Approval of Audit and Non-Audit Services of Independent Auditors

Our audit committee is responsible for pre-approving all audit and non-audit services provided by our auditor. These services may include audit services, audit related services, tax services and other services, as described above. Pre-approval is detailed as to the particular service or categories of services, and is subject to a specific budget. Our management and our auditor report to the audit committee regarding the extent of services provided in accordance with this pre-approval and the fees for the services performed to date on an annual basis. The audit committee may also pre-approve additional services on a case-by-case basis.

ITEM 16D. EXEMPTIONS FROM THE LISTING STANDARDS FOR AUDIT COMMITTEES

None.

ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

None.

ITEM 16F. CHANGE IN REGISTRANT'S CERTIFYING ACCOUNTANT

Not applicable.

ITEM 16G. CORPORATE GOVERNANCE

As a foreign private issuer with shares listed on the NYSE, we are subject to corporate governance requirements imposed by the NYSE. Under Section 303A, NYSE listed non-US companies may, in general, follow their home country corporate governance practices in lieu of some of the NYSE corporate governance requirements. A NYSE listed non-U.S. company is simply required to provide a general summary of the significant differences to its U.S. investors either on the company website or in its annual report distributed to its U.S. investors.

We are committed to a high standard of corporate governance. As such, we endeavor to comply with most of the NYSE corporate governance practices. However, the following are ways in which our current corporate governance practices differ from NYSE corporate governance requirements since the laws of Cayman Islands do not require such compliance:

The majority of our board of directors is not comprised of independent directors.

We are not required to schedule an executive session at least once a year to be attended by only independent directors and all directors are currently entitled to attend all of our board meetings.

We have not yet adopted or disclosed a method for interested parties to communicate directly with the presiding director or with non-management directors as a group.

We are not required to obtain shareholder approval for the adoption of, or material revisions to, our equity compensation plans and our directors may amend, materially revise, or terminate our equity compensation plans, but no such action will affect any outstanding award in any manner materially adverse to a participant without the consent of the participant.

Our compensation committee and our nominating and corporate governance committee are comprised with a majority of independent directors and not only independent directors. Our executive chairman, Mr. Mo, who serves on both our compensation committee and nominating and corporate governance committee, is not independent under the relevant NYSE rules.

None of the above practices conflicts with the laws of the Cayman Islands or our amended and restated memorandum and articles of association.

We may in the future determine to voluntarily comply with one or more of the foregoing provisions.

ITEM 16H. MINE SAFETY DISCLOSURE

Not applicable.

PART III

ITEM 17. FINANCIAL STATEMENTS

We have elected to provide financial statements pursuant to Item 18.

ITEM 18. FINANCIAL STATEMENTS

Our consolidated financial statements are included at the end of this Form 20-F.

ITEM 19. EXHIBITS

We have filed the following documents as exhibits to this Form 20-F:

Exhibit No.	Description of Exhibit
1.1	Fifth Amended and Restated Memorandum and Articles of Association (incorporated by reference to Exhibit 99.2 of our Current Report on Form 6-K (file no. 001-34862) filed with the SEC on August 3, 2012).
2.1	Specimen ordinary share certificate (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).
2.2	Specimen American depositary receipt (incorporated by reference to our Registration Statement on Form F-6 (file no. 333-194651) filed with the SEC on March 18, 2014).
2.3	Form of Deposit Agreement (incorporated by reference to our Registration Statement on Form F-6 (file no. 333-169176) filed with the SEC on September 2, 2010).
2.4	Form of Amendment No. 1 to Deposit Agreement (incorporated by reference to Exhibit (a)(2) of our Registration Statement on Form F-6 (file no. 333-169176) filed with the SEC on January 31, 2011).
2.5	Form of Amendment No. 2 to Deposit Agreement (incorporated by reference to Exhibit (a)(3) of our Registration Statement on Form F-6 (file no. 333-181415) filed with the SEC on May 15, 2012).
2.6	Form of Amendment No. 3 to Deposit Agreement (incorporated by reference to Exhibit (a) of our Registration Statement on Form F-6 (file no. 333-194651) filed with the SEC on March 18, 2014).
2.7	Form of Restricted Deposit Agreement by and among SouFun Holdings Limited, JPMorgan Chase Bank, N.A. and the holders of American depositary receipts issued thereunder (incorporated by reference to Exhibit 99.3 of our Registration Statement on Form 6-K (file no. 001-34862) filed with the SEC on December 4, 2013).
2.8	Form of Indenture by and among SouFun Holdings Limited, JPMorgan Chase Bank, N.A. and the holders of American depositary receipts issued thereunder (incorporated by reference to Exhibit 99.2 of our Current Report on Form 6-K (file no. 001-34862) filed with the SEC on December 18, 2013).

Edgar Filing: SouFun Holdings Ltd - Form 20-F

Certain instruments which define rights of holders of long-term debt of SouFun and its subsidiaries are not being filed because the total amount of securities authorized under each such instrument does not exceed 10% of the total consolidated assets of SouFun and its subsidiaries. We will furnish a copy of each such instrument to the SEC upon request.

- 4.1* Registration Rights Agreement among SouFun Holdings Limited, General Atlantic and Apax, dated August 13, 2010.
- 4.2* Registration Rights Agreement among SouFun Holdings Limited, Vincent Tianquan Mo, Next Decade, Media Partner, Digital Link, Shan Li, IDG-Accel China Capital L.P., and IDG-Accel China Capital Investors L.P., dated April 11, 2014.
- 4.3 Stock Related Award Incentive Plan of 1999 (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).

Exhibit No.	Description of Exhibit
4.4	2010 Stock Incentive Plan (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).
4.5	Investor s Rights Agreement among SouFun Holdings Limited, General Atlantic, Apax, Next Decade, Media Partner and Digital Link, dated August 13, 2010 (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).
4.6	Form of Employment Agreement (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).
4.7	Form of Indemnification Agreement (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).
4.8	Form of Loan Agreement between and among SouFun Network or SouFun Media and Mr. Mo and Mr. Dai as shareholders of a consolidated controlled entity (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).
4.8.1	Schedule of Loan Agreements between and among certain PRC subsidiary of SouFun Holdings Limited and shareholders of a consolidated controlled entity (incorporation by reference to Exhibit 4.8.1 of our Annual Report on Form 20-F (file no. 001-34862) filed with the SEC on April 3, 2013).
4.9*	Form of Equity Pledge Agreement among SouFun Network or SouFun Media, Mr. Mo and/or Mr. Dai and/or other shareholders of a consolidated controlled entity pledging the shares of the consolidated controlled entity.
4.9.1	Schedule of Equity Pledge Agreements among certain PRC subsidiary of SouFun Holdings Limited and shareholders of a consolidated controlled entity (incorporation by reference to Exhibit 4.9.1 of our Annual Report on Form 20-F (file no. 001-34862) filed with the SEC on April 3, 2013).
4.10	Form of Shareholders Proxy Agreement among SouFun Network or SouFun Media, a consolidated controlled entity, Mr. Mo and/or Mr. Dai and/or other shareholders of the consolidated controlled entity (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).
4.10.1	Schedule of Shareholders Proxy Agreements among certain PRC subsidiary of SouFun Holdings Limited, a consolidated controlled entity and shareholders of the consolidated controlled entity (incorporation by reference to Exhibit 4.10.1 of our Annual Report on Form 20-F (file no. 001-34862) filed with the SEC on April 3, 2013).
4.11	Form of Operating Agreement among SouFun Network or SouFun Media, a consolidated controlled entity, Mr. Mo and/or Mr. Dai and/or other shareholders of the consolidated controlled entity (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).
4.11.1	Schedule of Operating Agreements among certain PRC subsidiary of SouFun Holdings Limited, a consolidated controlled entity and shareholders of the consolidated controlled entity (incorporation by reference to Exhibit 4.11.1 of our Annual Report on Form 20-F (file no. 001-34862) filed with the SEC on April 3, 2013).
4.12	Form of Exclusive Technical Consultancy and Services Agreement between SouFun Network or SouFun Media and a consolidated controlled entity (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).

Edgar Filing: SouFun Holdings Ltd - Form 20-F

- 4.12.1 Schedule of Exclusive Technical Consultancy and Services Agreements between certain PRC subsidiary of SouFun Holdings Limited and a consolidated controlled entity (incorporation by reference to Exhibit 4.12.1 of our Annual Report on Form 20-F (file no. 001-34862) filed with the SEC on April 3, 2013).
- 4.13 Form of Exclusive Call Option Agreement among SouFun Holdings Limited, Mr. Mo and/or Mr. Dai and/or other shareholders of a consolidated controlled entity, the consolidated controlled entity and SouFun Network and/or SouFun Media (incorporated by reference to our Registration Statement on Form F-1 (file no. 333-169170) filed with the SEC on September 2, 2010).

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of SouFun Holdings Limited

We have audited the accompanying consolidated balance sheets of SouFun Holdings Limited (the Company) as of December 31, 2013 and 2012, and the related consolidated statements of comprehensive income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2013. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of SouFun Holdings Limited at December 31, 2013 and 2012, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2013, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), SouFun Holdings Limited's internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 framework) and our report dated April 30, 2014 expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of SouFun Holdings Limited

We have audited SouFun Holdings Limited's internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 framework) (the COSO criteria). SouFun Holdings Limited's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, SouFun Holdings Limited maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of SouFun Holdings Limited as of December 31, 2013 and 2012, and the related consolidated statements of comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2013 of SouFun Holdings Limited and our report dated April 30, 2014 expressed an unqualified opinion thereon.

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

1. ORGANIZATION AND BASIS OF PRESENTATION

The Company was incorporated on June 18, 1999 as Fly High Holdings Limited under the laws of the British Virgin Islands (BVI). In June 2004, the Company changed its name to SouFun Holdings Limited and its corporate domicile to the Cayman Islands and became a Cayman Islands company with limited liability under the Companies Law. The accompanying consolidated financial statements include the financial statements of SouFun Holdings Limited (the Company), its subsidiaries located, outside of the People's Republic of China (the PRC) (the non-PRC subsidiaries), wholly foreign owned entities in the PRC (the WOFEs), entities controlled through contractual arrangements (the PRC Domestic Entities) and the PRC Domestic Entities' subsidiaries. The Company, its non-PRC subsidiaries, WOFEs, PRC Domestic Entities and the PRC Domestic Entities' subsidiaries are collectively referred to as the Group .

The Group is principally engaged in the provision of marketing services, e-commerce services, listing services and other value-added services to the real estate and home furnishing industries in the PRC. Details of the Company's subsidiaries, PRC Domestic Entities and the PRC Domestic Entities' subsidiaries as of December 31, 2013 were as follows:

Company	Date of Establishment	Place of Establishment	Percentage of Ownership by the Company	Principal Activities
Selovo Investments Limited (Selovo)	August 10, 2007	BVI	100%	Investment holding
Pendiary Investments Limited (Pendiary)	August 16, 2007	BVI	100%	Investment holding

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

1. ORGANIZATION AND BASIS OF PRESENTATION (continued)

To comply with PRC laws and regulations which restrict foreign control of companies involved in internet content provision (ICP) and advertising businesses, the Company operates its websites and provides online marketing advertising services in the PRC through its PRC Domestic Entities and the PRC Domestic Entities subsidiaries. The equity interests of the PRC Domestic Entities are legally held directly by Vincent Tianquan Mo, executive chairman of the board of directors, and Richard Jiangong Dai, chief executive officer. The effective control of the PRC Domestic Entities is held by the Company through three of its WOFEs, SouFun Network, SouFun Media and Beijing Hong An, as a result of a series of contractual arrangements and their supplementary agreements signed with each of the PRC Domestic Entities which arrangements and agreements contain similar provisions regarding obligations and rights of the Company and the PRC Domestic Entities (hereinafter, together the Contractual Agreements). As a result of the Contractual Agreements, the Company maintains the ability to approve decisions made by the PRC Domestic Entities, is entitled to substantially all of the economic benefits from the PRC Domestic Entities and is obligated to absorb all of the PRC Domestic Entities expected losses.

Therefore, the Company consolidates the PRC Domestic Entities and the PRC Domestic Entities subsidiaries in accordance with SEC Regulation S-X Rule 3A-02 and Accounting Standards Codification (ASC) 810, Consolidation .

The following is a summary of the standardized Contractual Agreements:

Exclusive Technical Consultancy and Service Agreements

The WOFEs provide the following exclusive technical services to the PRC Domestic Entities: (i) access to information assembled by the WOFEs concerning the real estate industry and companies in this sector to enable the PRC Domestic Entities to target potential customers and provide research services; and (ii) technical information technology system support to enable the PRC Domestic Entities to service the advertising and listing needs of its customers. The agreements are effective for 10 years and can be extended indefinitely at the sole discretion of the WOFEs.

Operating Agreements

Pursuant to the operating agreements, each PRC Domestic Entity and its legal shareholders have agreed not to enter into any transaction that would substantially affect the assets, rights, obligations or operations of the PRC Domestic Entity without prior written consent from the WOFEs. In addition, the PRC Domestic Entities will appoint or remove their directors and executive officers based on instruction from the WOFEs. The agreements are effective for 10 years and can be extended indefinitely at the sole discretion of the WOFEs.

Equity Pledge Agreements, Shareholders Proxy Agreements and Exclusive Call Option Agreements

In order to secure the payment obligations of each PRC Domestic Entity under the exclusive technical consultancy and service agreements, the legal shareholders have pledged their entire respective ownership interests in each

Domestic PRC Entity to the WOFEs. The legal shareholders shall not transfer the pledged ownership interests without the prior written consent from the WOFEs. The WOFEs are entitled to dividends and funds obtained through conversion, auction or sale of the ownership interests that the legal shareholders pledged to the WOFEs. The agreements are effective for 10 years and can be extended at the sole discretion of the WOFEs.

The legal shareholders irrevocably appoint the WOFEs to act as proxy for the legal shareholders to exercise their respective rights as shareholders of the PRC Domestic Entities to attend shareholders meetings and cast votes. The agreements will remain valid until terminated upon written consent by the WOFEs, the PRC Domestic Entities and their legal shareholders or by their successors.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

1. ORGANIZATION AND BASIS OF PRESENTATION (continued)

Equity Pledge Agreements, Shareholders Proxy Agreements and Exclusive Call Option Agreements (continued)

The Company or any third party designated by the Company has the exclusive right to acquire from the legal shareholders the whole or part of the respective equity interests in each PRC Domestic Entity at a price equivalent to the historical cost when permitted by applicable PRC laws and regulations. The legal shareholders shall not sell, transfer or dispose of the equity interests in the PRC Domestic Entities without the prior written consent of the Company or any third party designated by the Company. The proceeds from the exercise of the call option will be applied to repay the loans under the loan agreements. The Company does not have to make any additional payment to the legal shareholders. The PRC Domestic Entities will not distribute any dividend without the prior written consent from the WOFEs. The agreements have a term of 10 years and can be extended indefinitely at the sole discretion of the Company.

Loan Agreements

The WOFEs provided loans to the legal shareholders to enable them to contribute the registered capital of the PRC Domestic Entities. Under the terms of the loan agreements, the legal shareholders will repay the loans by transferring their legal ownership in the PRC Domestic Entities to the WOFEs when permitted by applicable PRC laws and regulations. Any gains from the transfer shall be paid back to the WOFEs or any third party designated by the WOFEs. The repayment term of the loans was not stated in the agreements. The legal shareholders shall be liable to repay their respective portions of the loans by transferring their entire respective equity interests in the PRC Domestic Entities upon the written request of the WOFEs when they terminate their employment with the WOFEs.

Supplementary Agreements

In addition to the above contractual agreements, the Company, the WOFEs, the PRC Domestic Entities and their legal shareholders entered into supplementary agreements in March 2010 to memorialize certain terms previously agreed amongst the Company, the WOFEs, the PRC Domestic Entities and their shareholders. While this supplementary agreement was signed in 2010, the terms, intent and substance of all the agreements above remained unchanged. All provisions in the supplementary agreement have been incorporated into the standardized contractual agreements signed subsequent to March 2010. Pursuant to the supplementary agreement:

the WOFEs have unilateral discretion in setting the technical service fees charged to the PRC Domestic Entities;

the WOFEs are obligated to provide financial support to the PRC Domestic Entities in the event the PRC Domestic Entities incur losses;

the annual budget of the PRC Domestic Entities should be assessed and approved by the WOFEs;

the legal shareholders agree to remit any profits distributed from the PRC Domestic Entities to the Company upon request by the Company; and

the PRC Domestic Entities are obligated to transfer their entire retained earnings, after deduction of PRC income tax, to the WOFEs in the form of a donation upon the WOFEs' request.

Furthermore, the WOFEs and the PRC Domestic Entities entered into supplementary agreements in March 2013 to memorialize the following term previously agreed between the WOFEs and the PRC Domestic Entities when the Exclusive Call Option Agreements were entered into:

the legal shareholders agree to remit the purchase consideration received from the exercise of the exclusive right to acquire the equity interests in the PRC Domestic Entities to the WOFEs or any entity designated by the WOFEs.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

1. ORGANIZATION AND BASIS OF PRESENTATION (continued)

Supplementary Agreements (continued)

Through the design of the aforementioned agreements, the shareholders of the PRC Domestic Entities effectively assigned their full voting rights to the WOFEs, which give the WOFEs the power to direct the activities that most significantly impact the PRC Domestic Entities' economic performance. The WOFEs obtained the ability to approve decisions made by the PRC Domestic Entities and the ability to acquire the equity interests in the PRC Domestic Entities when permitted by PRC law. The WOFEs are obligated to absorb a majority of the expected losses from the PRC Domestic Entities' activities through providing unlimited financial support to the PRC Domestic Entities and are entitled to receive a majority of profits from the PRC Domestic Entities through the exclusive technical consultancy and service fees. As a result, the Company has determined that the three WOFEs are the primary beneficiaries of the PRC Domestic Entities. Accordingly, in accordance with SEC Regulation S-X Rule 3A-02 and ASC 810, the Company, through the WOFEs, has consolidated the operating results of the PRC Domestic Entities in the Company's financial statements. Business taxes (BT) and value added taxes (VAT) relating to service fees charged by the WOFEs are recorded as cost of services.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

1. ORGANIZATION AND BASIS OF PRESENTATION (continued)

	For the Years Ended December 31,		
	2011	2012	2013
	US\$	US\$	US\$
Total revenues	121,349	157,859	93,715
Net income	35,457	58,898	10,131

	For the Years Ended December 31,		
	2011	2012	2013
	US\$	US\$	US\$
Net cash generated from operating activities	222,265	109,216	211,049
Net cash generated from (used in) investing activities	24,415	(32,406)	14,427
Net cash used in financing activities	(277,895)	(71,151)	(117,616)

The PRC Domestic Entities had no intercompany payable to the WOFEs for accrued service fees as of December 31, 2012 and 2013, whereas the technology consultancy service fees charged by the WOFEs to the PRC Domestic Entities were US\$774, nil and nil during the years ended December 31, 2011, 2012 and 2013, respectively.

As of December 31, 2013, except for the current and non-current restricted cash of US\$479,956 pledged to secure bank borrowings of the Group (Note 11), there was no other pledge or collateralization of the assets of the PRC Domestic Entities and the PRC Domestic Entities' subsidiaries.

Creditors of the PRC Domestic Entities and the PRC Domestic Entities' subsidiaries have no recourse to the general credit of their respective primary beneficiary. The amounts of liabilities of the PRC Domestic Entities and the PRC Domestic Entities' subsidiaries have been parenthetically presented on the consolidated balance sheets. The PRC Domestic Entities held certain registered copyrights, trademarks and registered domain names, including the official website www.soufun.com, which are used for the Group's business operations. All of these revenue-producing assets were internally developed, for which the Group did not incur significant development costs. There were no assets of the PRC Domestic Entities and the PRC Domestic Entities' subsidiaries that can only be used to settle their own obligations. The WOFEs have not provided any financial support that they were not previously contractually required to provide to the PRC Domestic Entities and the PRC Domestic Entities' subsidiaries during the years presented.

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (U.S. GAAP).

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the balance sheet dates and the reported amounts of revenues and expenses during the reporting periods. Significant estimates and assumptions reflected in the Group's financial statements include, but are not limited to, revenue recognition, allowance for doubtful accounts, useful lives of property and equipment, realization of deferred tax assets, impairment of long-lived assets, share-based compensation expense, fair value of the available-for-sale security, uncertain income tax positions and purchase price allocation. Changes in facts and circumstances may result in revised estimates. Actual results could materially differ from those estimates.

Principles of Consolidation

The consolidated financial statements include the financial statements of the Company, its non-PRC subsidiaries, WOFEs, the PRC Domestic Entities in which the Company, through its WOFEs, has a controlling financial interest, and the PRC Domestic Entities' subsidiaries. The Company has determined that it has a controlling financial interest, even though it does not hold a majority of the voting equity interest in an entity, because the Company has the ability to control the PRC Domestic Entities through the WOFEs' rights to all the residual benefits of the PRC Domestic Entities and the WOFEs' obligation to fund losses of the PRC Domestic Entities. As a result, the PRC Domestic Entities are included in the consolidated financial statements. All significant intercompany balances and transactions between the Company, its subsidiaries, the PRC Domestic Entities and the PRC Domestic Entities' subsidiaries have been eliminated in consolidation.

On February 8, 2012, the Company disposed its 90% equity interest in Beijing SouFun Information Consultancy Co., Ltd (Beijing Information) to an unrelated party for nil consideration. Beijing Information was dormant at the time of disposal. Prior to the disposal, the Company transferred all of Beijing Information's assets and liabilities to another subsidiary. As a result, Beijing Information did not meet the definition of a discontinued operation under ASC 205,

Presentation of Financial Statements Discontinued Operation , as Beijing Information's operations and cash flows have not been eliminated from the ongoing operations of the Group. Immediately upon the completion of the disposal, Beijing Information was deconsolidated from the Group. As there was no difference between the fair value of consideration received for the disposal and the carrying amounts of the assets and liabilities, no gain or loss was recognized in the Group's consolidated statements of comprehensive income for the year ended December 31, 2012.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Principles of Consolidation (continued)

On December 23, 2013, the Group disposed its 60% equity interest in Guangxi Overseas Talent Industrial Park Investment Co., Ltd. (Guangxi Overseas Talent) to the 40% noncontrolling interest holder. Guangxi Overseas Talent was dormant and had no operations at the time of disposal. Thus, Guangxi Overseas Talent did not meet the definition of a discontinued operation under ASC 205. Immediately upon the completion of the disposal, Guangxi Overseas Talent was deconsolidated from the Group. On the date of disposal, the carrying amount of Guangxi Overseas net assets, which mainly consisted of the cash injected as share capital by the Group and the noncontrolling interest holder at inception, amounted to US\$1,707, of which US\$1,204 was retained by the Group and US\$683 was returned to the noncontrolling interest holder. As a result, no gain or loss was recognized in the Group's consolidated statements of comprehensive income for the year ended December 31, 2013.

Business Combinations

The Group accounts for its business combinations in accordance with ASC 805, Business Combinations, which requires the acquiring entity in a business combination to recognize all assets acquired and liabilities assumed in the transaction, establishes the acquisition date fair value as the measurement objective for all assets acquired and liabilities assumed, and requires the acquirer to disclose to investors and other users all of the information they need to evaluate and understand the nature and financial effect of the business combination. The excess of (i) the total of cost of acquisition, fair value of the noncontrolling interests and acquisition date fair value of any previously held equity interest in the acquiree over (ii) the fair value of the identifiable net assets of the acquiree, is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in earnings. The costs directly attributable to the acquisition are expensed as incurred. During the measurement period, the acquiring entity recognizes adjustments to the provisional amounts of acquisition-date fair value and the resulting goodwill for new information obtained as if the accounting for the business combination had been completed at the acquisition date.

The determination and allocation of fair values to the identifiable assets acquired, liabilities assumed and noncontrolling interests is based on various assumptions and valuation methodologies requiring considerable judgment from management. The most significant variables in these valuations are discount rates, terminal values, the number of years on which to base the cash flow projections, as well as the assumptions and estimates used to determine the cash inflows and outflows. The Group determines discount rates to be used based on the risk inherent in the related activity's current business model and industry comparisons. Terminal values are based on the expected life of assets, forecasted life cycle and forecasted cash flows over that period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign Currency Translation and Transactions

The functional currency of the Company and its non-PRC subsidiaries is the United States dollar (US\$). The WOFEs, PRC Domestic Entities and PRC Domestic Entities subsidiaries determine their functional currency to be the Chinese Renminbi (RMB) based on the criteria of ASC 830, Foreign Currency Matters . The Group uses US\$ as its reporting currency. The Group uses the monthly average exchange rate for the year and the exchange rate at the balance sheet date to translate the operating results and financial position, respectively. Translation differences are recorded in accumulated other comprehensive income, a component of shareholders equity.

Transactions denominated in foreign currencies are remeasured into the functional currency at the exchange rates prevailing on the transaction dates. Foreign currency denominated financial assets and liabilities are remeasured at the exchange rates prevailing at the balance sheet date. Exchange gains and losses are included in the consolidated statements of comprehensive income.

The assets and liabilities of the Company s PRC subsidiaries, PRC Domestic Entities and PRC Domestic Entities subsidiaries are translated into US\$ at the exchange rates prevailing at the balance sheet date. The consolidated statements of comprehensive income of these entities are translated into US\$ at the weighted average exchange rates for the year. The resulting translation gains (losses) are recorded in accumulated other comprehensive income as a component of shareholders equity.

For the purpose of the consolidated statements of cash flows, cash flows of the Company s PRC subsidiaries, PRC Domestic Entities and PRC Domestic Entities subsidiaries are translated into US\$ at the exchange rates prevailing on the dates of the cash flows. Frequently recurring cash flows of these entities which arise throughout the year are translated into US\$ at the weighted average exchange rates for the year.

Cash and Cash Equivalents

Cash and cash equivalents represent cash on hand and demand deposits placed with banks or other financial institutions with original maturity of 90 days or less at the date of purchase which are unrestricted as to withdrawal and use. In addition, all highly liquid investments with original stated maturity of 90 days or less are classified as cash equivalents.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Restricted Cash

Restricted cash represents cash pledged to financial institutions as collateral for the Group's bank loans (Note 11). The restricted cash is not available for withdrawal or the Group's general use until after the corresponding bank loans are repaid.

Short-term Investments

All highly liquid investments with original maturities of greater than 90 days but less than 365 days are classified as short-term investments which are stated at their approximate fair value. The Group accounts for its investments in accordance with ASC 320, Investments-Debt and Equity Securities. The Group classifies the short-term investments in debt and equity securities as held-to-maturity, trading or available-for-sale, whose classification determines the respective accounting methods stipulated by ASC 320. Dividend and interest income, including amortization of the premium and discount arising at acquisition, for all categories of investments in securities are included in earnings. Any realized gains or losses on the sale of the short-term investments are determined on a specific identification method, and such gains and losses are reflected in the consolidated statements of comprehensive income.

The securities that the Group has positive intent and ability to hold to maturity are classified as held-to-maturity securities and stated at amortized cost. For individual securities classified as held-to-maturity securities, the Group evaluates whether a decline in fair value below the amortized cost basis is other-than-temporary in accordance with the Group's policy and ASC 320. If the Group concludes that it does not intend or is not required to sell an impaired debt security before the recovery of its amortized cost basis, the impairment is considered temporary and the held-to-maturity securities continue to be recognized at the amortized costs. When the Group intends to sell an impaired debt security or it is more likely than not that it will be required to sell prior to recovery of its amortized cost basis, an other-than-temporary impairment is deemed to have occurred. In these instances, the other-than-temporary impairment loss is recognized in the consolidated statements of comprehensive income equal to the entire excess of the debt security's amortized cost basis over its fair value at the balance sheet date of the reporting period for which the assessment is made.

The securities that are bought and held principally for the purpose of selling them in the near term are classified as trading securities. Unrealized holding gains and losses for trading securities are included in earnings.

Investments not classified as trading or as held-to-maturity are classified as available-for-sale securities. Available-for-sale investment is reported at fair value, with unrealized gains and losses recorded in accumulated other comprehensive income in shareholders' equity. Realized gains or losses are charged to earnings during the period in which the gain or loss is realized. An impairment loss on the available-for-sale debt securities is recognized in the consolidated statements of comprehensive income when the decline in value is determined to be other-than-temporary. An impairment loss of US\$4,343, US\$14 and nil was recognized for the years ended December 31, 2011, 2012 and 2013, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)
Accounts Receivable and Allowance for Doubtful Accounts

The Group considers many factors in assessing the collectability of its receivables, such as the age of the amounts due, the customer's payment history and credit-worthiness. An allowance for doubtful accounts is recorded in the period in which a loss is determined to be probable. Accounts receivable balances are written off after all collection efforts have been exhausted.

Funds Receivable

Funds receivable represents cash from SouFun membership services due from third-party payment service providers for clearing transactions. The Group carefully considers and monitors the credit worthiness of the third-party payment service providers used.

An allowance for doubtful accounts is recorded in the period in which a loss is determined to be probable. Receivable balances are written off after all collection efforts have been exhausted. No allowance for doubtful accounts was provided for the funds receivable, as of December 31, 2012 and 2013 respectively.

Property and Equipment, Net

Property and equipment are stated at cost and are depreciated using the straight-line method over the estimated useful lives of the assets, as follows:

Category	Estimated Useful Life	Estimated Residual Value
Office equipment	5 years	5-10%
Motor vehicles	5 years	5%
Leasehold improvement	shorter of lease term or economic lives	
Buildings	12 -38 years	

Land is stated at cost and is not depreciated.

Repair and maintenance costs are charged to expense as incurred, whereas the cost of renewals and betterments that extend the useful lives of property and equipment are capitalized as additions to the related assets. Retirements, sales and disposals of assets are recorded by removing the cost and accumulated depreciation from the asset and accumulated depreciation accounts with any resulting gain or loss reflected in the consolidated statements of comprehensive income.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of Long-Lived Assets

The Group evaluates its long-lived assets or asset group with finite lives for impairment whenever events or changes in circumstances, such as a significant adverse change to market conditions that will impact the future use of the assets, indicate that the carrying amount of a group of long-lived assets may not be fully recoverable. When these events occur, the Group evaluates the impairment by comparing the carrying amount of the assets to future undiscounted cash flows expected to result from the use of the assets and their eventual disposition. If the sum of the expected undiscounted cash flows is less than the carrying amount of the assets, the Group recognizes an impairment loss based on the excess of the carrying amount of the asset group over its fair value. No impairment charge was recognized for any of the years presented.

Fair Value of Financial Instruments

Financial instruments of the Group primarily include cash and cash equivalents, restricted cash, accounts receivable, funds receivable, short-term investments including fixed-rate time deposits and available-for-sale security, short-term loans, long-term loans, amounts due to a related party, and convertible senior notes (Note 14) and related derivative liabilities. As of December 31, 2012 and 2013, the carrying values of these financial instruments, other than the available-for-sale security, long-term loans, and convertible senior notes and related derivative liabilities, approximated their fair values due to the short-term maturity of these instruments. The available-for-sale security was recorded at fair value at each reporting date. The carrying values of the long-term loans approximate their fair values, as the loans bear interest at rates determined based on the prevailing interest rates in the market. The convertible senior notes were recognized based on residual proceeds after allocation to the derivative liabilities at fair market value. The estimated fair value of the convertible senior notes based on a market approach was approximately US\$357,875 as of December 31, 2013, and represents a Level 3 valuation in accordance with ASC 820, Fair Value Measurements and Disclosures . When determining the estimated fair value of the convertible senior notes, the Group used a commonly accepted valuation methodology and market-based risk measurements that are indirectly observable, such as credit risk. The fair value of the bifurcated derivative liabilities was insignificant for the year ended December 31, 2013.

The Group applies ASC 820 in measuring fair value. ASC 820 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements.

ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 Include other inputs that are directly or indirectly observable in the marketplace.

Level 3 Unobservable inputs which are supported by little or no market activity.

F-27

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)*Fair Value of Financial Instruments (continued)*

ASC 820 describes three main approaches to measuring the fair value of assets and liabilities: (1) market approach; (2) income approach and (3) cost approach. The market approach uses prices and other relevant information generated from market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset.

The Group measures its available-for-sale security at fair value using quoted prices from the active market.

Assets measured at fair value on a recurring basis as of December 31, 2012 are summarized below. There were no such assets as of December 31, 2013.

	Fair Value Measurement at December 31, 2012			
	Quoted Prices in			
	Active Markets for Identical Assets (Level 1) US\$	Significant Other Observable Inputs (Level 2) US\$	Unobservable Inputs (Level 3) US\$	Fair Value at December 31, 2012 US\$
Available-for-sale security	1,386			1,386

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue Recognition

Revenues are derived from online marketing services, e-commerce services, listing services and other value-added services. Revenues for each type of service sales are recognized only when the following criteria are met:

(a) persuasive evidence of an arrangement exists; (b) price is fixed or determinable; (c) delivery of services has occurred; and (d) collectability is reasonably assured.

Marketing Services

The Group offers marketing services on the Group's websites, primarily presented as banner advertisements, floating links, logos and other media insertions (forms of services). These services are offered to real estate developers and providers of products and services for home decoration and improvement. Marketing services allow advertisers to place advertisements on particular areas of the Group's websites, in particular formats and over particular periods of time. Written contracts, containing all significant terms, signed by the Group and its customers provide persuasive evidence of the arrangement. The contracts do not contain any specific performance, cancellation, termination or refund provisions.

The service fee is negotiated between the customer and the Group but once a price is agreed to and the written contract is signed by both parties, the price is fixed and not subject to change. The service fee is due and payable in installments over the service period. Historically, the service fee has varied widely for marketing services and such variation in prices exists even when the same forms of services is provided in the same location of the Group's websites and for the same service duration. The marketing services typically last from several days to one year. Delivery of the service occurs upon displaying the agreed forms of services on the Group's websites over the specified service period. The Group performs credit assessments on its customers prior to signing the written contract to ensure collectability is reasonably assured. Revenues are recognized ratably over the contract period, as there is persuasive evidence of an arrangement, the fee is fixed or determinable and collection is reasonably assured, as prescribed by ASC 605, Revenue Recognition .

For certain arrangements, the Group provides marketing services that contain multiple deliverables, that is, different forms of services to be delivered over different periods of time.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Marketing Services (continued)

The Group accounts for each deliverable in the arrangement as separate unit of accounting. Revenues are allocated to each unit of accounting on a relative fair value basis based on a selling price hierarchy and is recognized ratably over the duration of the service period. The selling price for a deliverable is based in its vendor-specific objective evidence (VSOE) if available, third party evidence (TPE) if VSOE is not available, or best estimate of selling price (BESP) if neither VSOE nor TPE is available. The total arrangement consideration is allocated to each unit of accounting based on its relative selling price which is determined based on the Group's BESP for that deliverable because neither VSOE nor TPE exist. In determining its BESP for each deliverable, the Group considered its overall pricing model and objectives, as well as market or competitive conditions that may impact the price at which the Group would transact if the deliverable were sold regularly on a standalone basis. The Group monitors the conditions that affect its determination of selling price for each deliverable and reassesses such estimates periodically.

The Group updated the BESP for each deliverable during the year ended December 31, 2013. In accordance with ASC 250, Accounting Changes and Error Corrections, changes in the determination of the BESP are considered a change in accounting estimate and are accounted for on a prospective basis. The effect of changes in the BESP on the allocation of arrangement consideration was insignificant.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E-Commerce Services

E-commerce service revenues consist of revenues derived from:

(1) SouFun membership services

The Group enters into arrangements with real estate developers, pursuant to which the Group charges its customers RMB5,000.00 to RMB20,000.00 in order for them to purchase specified properties from the real estate developers at a discount significantly greater than the face value of the fees charged by the Group. The discount is either a fixed amount off or a fixed percentage to the price of the specified property. The fees paid by the customers to the Group are refundable before a purchase of the specified properties at a discount is made by the customers. Revenues are recognized by the Group when cash consideration of the fees is received and the discount has been applied by the customers to pay for the purchase price of the specified properties. Cash received in advance of the purchase of specified properties is recorded as customers refundable fees (Note 13).

Commencing in 2013, the Group, real-estate developers and advertising agencies entered into tri-party cooperation arrangements for certain SouFun membership services. When customers use their SouFun membership cards to purchase specified properties in selected advertisements published by the marketing agents, a portion of the proceeds from the SouFun membership services is remitted to the marketing agents. The Group recognized revenues from this type of SouFun membership services on a net basis, representing the portion of proceeds received from customers that is ultimately retained by the Group. The portion to be remitted to marketing agents is recorded as amounts payable to marketing agents in accrued expenses and other liabilities on the consolidated balance sheets (Note 12).

(2) Online marketplace platform

The Group operates (i) an online marketplace platform which enables third-party merchants to sell home furnishing products to customers online and (ii) an online payment platform which enable third-party merchants to transact with customers online. The Group earns a commission, which ranges from 5% to 15% of the sales transaction amount, from the third-party merchants when a transaction is completed.

When a customer places his or her order for home furnishing products with a third-party merchant through the Group's marketplace platform, the sales price and the shipping charge for the sale transaction are confirmed. Delivery of goods to a consumer will be processed by the third-party merchant after payment is made through the Group's online payment platform. The sales transaction is completed and the Group recognizes the commission earned as e-commerce service revenues upon confirmation of receipt of the home furnishing products by the consumer and remittance of the net payment to the third-party merchant through the Group's marketplace and online payment platforms.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Listing Services

Listing service revenues consist of revenues derived from both basic listing services and special listing services.

The Group's basic and special listing services are provided to agents, brokers, property developers, property owners, property managers and others seeking to sell or rent new or secondary residential and commercial properties.

(1) Basic listing services

Basic listing services entitle customers to post and make changes to information for properties, home furnishings and other related products and services in a particular area on the website for a specified period of time, which typically range from one to 36 months, in exchange for a fixed fee. Written contracts, containing all significant terms, signed by the Group and its customers provide persuasive evidence of the arrangement. The amount of fee to be paid is not subject to change once the contract has been signed. The contracts do not contain any specific performance, cancellation, termination or refund provisions. Delivery of services occurs by making access to the websites available for posting by the customers over the specified listing period. The Group performs credit assessments of its customers prior to signing the written contract to ensure collectability is reasonably assured. In accordance with ASC 605-25, Revenue Recognition - Multiple-Element Arrangements, revenues are recognized ratably over the duration of the service period as the basic listing services are being delivered.

(2) Special listing services

Special listing services are multiple element arrangements comprising website listing services and other coordination of promotional themed events (Offline Services), such as physical forum discussion or a banquet gathering, each with the special listing as the theme, where the Group's customers promote their products or services to a live audience. The Offline Services do not have standalone value and are always sold with special listing services. Written contracts, containing all significant terms, signed by the Group and its customers provide persuasive evidence of the arrangement. The amount of fee to be paid is not subject to change once the contract has been signed. The contracts do not contain any specific performance, cancellation, termination or refund provisions. Delivery of services occurs by making access to the websites available for posting by the customers over the specified listing period and upon completion of the Offline Services. The Group performs credit assessments of its customers prior to signing the written contract to ensure collectability is reasonably assured.

As the Offline Services do not have standalone value, a combined unit of accounting is used pursuant to ASC 605-25, whereby revenues are recognized upon delivery of the final deliverable, which is recognized ratably over the duration of the special listing service period.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Other Value-added Services

The Group generates revenues from other value-added services including subscription services for access to the Group's information database and consulting services for customized and industry-related research reports and indices. Revenues derived from subscription services for access to the Group's information database are recognized ratably over the subscription period. Revenues derived from consulting services for customized and industry-related research reports and indices are recognized when the relevant services are completed.

The Group's business is subject to BT, VAT, surcharges or cultural construction fees levied on advertising-related sales in the PRC. In accordance with ASC 605-45, Revenue Recognition Principal Agent Considerations, all such BT, VAT, surcharges and cultural construction fees are presented as cost of revenues in the consolidated statements of comprehensive income. BT, VAT and related surcharges and cultural construction fees for the years ended December 31, 2011, 2012 and 2013 were US\$21,118, US\$28,901 and US\$38,783, respectively.

All service fees received in advance of the provision of services are initially recorded as deferred revenues and subsequently recognized as revenues when the related services are performed by the Group.

Cost of Revenues

Cost of revenues consists of employee costs, BT, VAT and surcharges, server and bandwidth leasing fees and other direct costs incurred in providing the related services. These costs are expensed when incurred.

In addition, cost of revenues includes the 5% BT or 6% of VAT for the technology consultancy service fees charged by the WOFEs to the PRC Domestic Entities.

Advertising Expenditure

Advertising costs are expensed when incurred and are included in selling expenses in the consolidated statements of comprehensive income. For the years ended December 31, 2011, 2012 and 2013, the advertising expenses were US\$5,130, US\$6,525 and US\$8,627, respectively.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Leases

Leases are classified at the inception date as either a capital lease or an operating lease. A lease is a capital lease if any of the following conditions exists: (a) ownership is transferred to the lessee by the end of the lease term, (b) there is a bargain purchase option, (c) the lease term is at least 75% of the property's estimated remaining economic life or (d) the present value of the minimum lease payments at the beginning of the lease term is 90% or more of the fair value of the leased property to the lessor at the inception date. A capital lease is accounted for as if there was an acquisition of an asset and an incurrence of an obligation at the inception of the lease. All other leases are accounted for as operating leases wherein rental payments are expensed as incurred. The Group had no capital leases for any of the years presented.

Income Taxes

The Group follows the liability method of accounting for income taxes, whereby deferred tax assets and liabilities are recognized based on the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and attributable to operating loss and tax credit carryforwards, if any. The Group reduces the carrying amounts of deferred tax assets by a valuation allowance, if based on the available evidence, it is more-likely-than-not that such assets will not be realized. Accordingly, the need to establish valuation allowances for deferred tax assets is assessed at each reporting period based on a more-likely-than-not realization threshold. This assessment considers, among other matters, the nature, frequency and severity of current and cumulative losses, forecasts of future profitability, the duration of statutory carryforward periods, the Group's experience with operating loss and tax credit carryforwards, if any, not expiring.

The Group applies ASC 740, *Income taxes*, to account for uncertainties in income taxes. In accordance with the provisions of ASC 740, the Group recognizes in its financial statements the impact of a tax position if a tax return position or future tax position is more-likely-than-not to prevail based on the facts and technical merits of the position. Tax positions that meet the more-likely-than-not recognition threshold are measured at the largest amount of tax benefit that has a greater than fifty percent likelihood of being realized upon settlement.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes (continued)

The Group's estimated liability for unrecognized tax benefits, which is included in accrued expenses and other liabilities, is periodically assessed for adequacy and may be affected by changing interpretations of laws, rulings by tax authorities, changes and/or developments with respect to tax audits, and expiration of the statutes of limitation. The outcome for a particular audit cannot be determined with certainty prior to the conclusion of the audit and, in some cases, appeal or litigation process. The actual benefits ultimately realized may differ from the Group's estimates. As each audit is concluded, adjustments, if any, are recorded in the Group's financial statements. Additionally, in future periods, changes in facts, circumstances, and new information may require the Group to adjust the recognition and measurement estimates with regard to individual tax positions. Changes in recognition and measurement estimates are recognized in the period in which the changes occur.

Interest and penalties arising from underpayment of income taxes are computed in accordance with the related PRC tax law. The amount of interest expense is computed by applying the applicable statutory rate of interest to the difference between the tax position recognized and the amount previously taken or expected to be taken in a tax return. Interest and penalties recognized in accordance with ASC 740 are classified in the consolidated statements of comprehensive income as income tax expense.

Share-based Compensation

The Group's employees and directors participate in the Group's share-based award incentive plan which is more fully discussed in Note 17. The Group applies ASC 718, Compensation-Stock Compensation, to account for its employee share-based payments. There were no share-based payments made to non-employees for any of the years presented.

In accordance with ASC 718, the Group determines whether a share option should be classified and accounted for as a liability award or an equity award. All grants of share-based awards to employees classified as equity awards are recognized in the financial statements based on their grant date fair values which are calculated using an option pricing model. All grants of share-based awards to employees and directors classified as liabilities are remeasured at the end of each reporting period with an adjustment for fair value recorded to the current period expense in order to properly reflect the cumulative expense based on the current fair value of the vested rewards over the vesting periods. The Group has elected to recognize compensation expense using the straight-line method for all employee equity awards granted with graded vesting based on service conditions, which were not subject to performance vesting conditions.

Meanwhile, the Group uses the accelerated attribution method for equity awards with performance conditions on a tranche-by-tranche basis based on the probable outcome of the performance conditions. To the extent the required vesting conditions are not met resulting in the forfeiture of the share-based awards, previously recognized

compensation expense relating to those awards is reversed. ASC 718 requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from initial estimates. Share-based compensation expense was recorded net of estimated forfeitures such that expense was recorded only for those share-based awards that are expected to vest.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Earnings per Share

The Group computes earnings per Class A and Class B ordinary shares in accordance with ASC 260, Earnings Per Share, using the two class method. Under the provisions of ASC 260, basic net income per share is computed using the weighted average number of ordinary shares outstanding during the period except that it does not include unvested ordinary shares subject to repurchase or cancellation. Diluted net income per share is computed using the weighted average number of ordinary shares and, if dilutive, potential ordinary shares outstanding during the period. Potentially dilutive securities have been excluded from the computation of diluted net income per share if their inclusion is anti-dilutive. Potential ordinary shares consist of the incremental ordinary shares issuable upon the exercise of stock options, contracts that may be settled in the Company's stock or cash and the conversion of the convertible senior notes. The dilutive effect of outstanding stock options and convertible senior notes is reflected in diluted earnings per share by application of the treasury stock method and the if-converted method, respectively. The computation of the diluted net income per share of Class A ordinary shares assumes the conversion of Class B ordinary shares, while the diluted net income per share of Class B ordinary shares does not assume the conversion of those shares.

The liquidation and dividend rights of the holders of the Group's Class A and Class B ordinary shares are identical, except with respect to voting. As a result, and in accordance with ASC 260, the undistributed earnings for each year are allocated based on the contractual participation rights of the Class A and Class B ordinary shares as if the earnings for the year had been distributed. As the liquidation and dividend rights are identical, the undistributed earnings are allocated on a proportionate basis. Further, as the conversion of Class B ordinary shares is assumed in the computation of the diluted net income per share of Class A ordinary shares, the undistributed earnings are equal to net income for that computation. For the purposes of calculating the Group's basic and diluted earnings per Class A and Class B ordinary shares, the ordinary shares relating to the options that were exercised are assumed to have been outstanding from the date of exercise of such options.

Derivative Instruments

ASC 815, Derivatives and Hedging, requires all contracts which meet the definition of a derivative to be recognized on the balance sheet as either assets or liabilities and recorded at fair value. Changes in the fair value of derivative financial instruments are either recognized periodically in earnings or in other comprehensive income depending on the use of the derivative and whether it qualifies for hedge accounting. Changes in fair values of derivatives not qualified as hedges are reported in earnings. The estimated fair values of derivative instruments are determined at discrete points in time based on the relevant market information. These estimates are calculated with reference to the market rates using industry standard valuation techniques. The fair value of the derivative instruments held by the Group was insignificant for all of the years presented.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Comprehensive Income

Comprehensive income is defined as the change in equity of the Group during a period from transactions and other events and circumstances excluding transactions resulting from investments from owners and distributions to owners. Accumulated other comprehensive income, as presented on the consolidated balance sheets, includes the cumulative foreign currency translation adjustments and unrealized gain (loss) on available-for-sale security.

Contingencies

The Group records accruals for certain of its outstanding legal proceedings or claims when it is probable that a liability will be incurred and the amount of loss can be reasonably estimated. The Group evaluates, on a quarterly basis, developments in legal proceedings or claims that could affect the amount of any accrual, as well as any developments that would make a loss contingency both probable and reasonably estimable. The Group discloses the amount of the accrual if it is material.

When a loss contingency is not both probable and estimable, the Group does not record an accrued liability but discloses the nature and the amount of the claim, if material. However, if the loss (or an additional loss in excess of the accrual) is at least reasonably possible, then the Group discloses an estimate of the loss or range of loss, if such estimate can be made and material, or states that such estimate is immaterial if it can be estimated but immaterial, or discloses that an estimate cannot be made. The assessments of whether a loss is probable or reasonably possible, and whether the loss or a range of loss is estimable, often involve complex judgments about future events. Management is often unable to estimate the loss or a range of loss, particularly where (i) the damages sought are indeterminate, (ii) the proceedings are in the early stages, or (iii) there is a lack of clear or consistent interpretation of laws specific to the industry-specific complaints among different jurisdictions. In such cases, there is considerable uncertainty regarding the timing or ultimate resolution of such matters, including eventual loss, fine, penalty or business impact, if any.

Recent accounting pronouncements

In July 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Updates (ASU) 2013-11, Income Taxes (Topic 740) , to provide guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, similar tax loss, or tax credit carryforward exists. ASU 2013-11 requires an unrecognized tax benefit, or a portion of an unrecognized tax benefit, to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, with certain exceptions. The modifications to ASC 740 resulting from the issuance of ASU 2013-11 are effective for fiscal years beginning after December 15, 2013 and interim periods within those years. Early adoption is permitted. The Group early adopted ASU 2013-11 and the adoption of ASU 2013-11 did not have a material impact on the consolidated financial statements.

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

3. CONCENTRATION OF RISKS

Concentration of Credit Risk

Assets that potentially subject the Group to significant concentration of credit risk primarily consist of cash and cash equivalents, restricted cash, fixed-rate time deposits classified as short-term investments, accounts receivable and funds receivable. As of December 31, 2013, the Group has US\$1,104,564 in cash and cash equivalents, restricted cash (current and non-current) and short-term investments, 76.6% and 23.4% of which are held by financial institutions in the PRC and international financial institutions outside of the PRC, respectively. Under PRC law, it is generally required that a commercial bank in the PRC that holds third-party cash deposits protect the depositors' rights over and interests in their deposited money; PRC banks are subject to a series of risk control regulatory standards; and PRC bank regulatory authorities are empowered to take over the operation and management of any PRC bank that faces a material credit crisis. In the event of bankruptcy of one of the financial institutions in which the Group has deposits or investments, it may be unlikely to claim its deposits or investments back in full. The Group selected reputable financial institutions with high credit ratings to deposit its assets. The Group regularly monitors the ratings of the financial institutions in case of any defaults. There has been no recent history of default in relation to these financial institutions.

Accounts receivable are typically unsecured and are derived from revenue earned from customers in the PRC. The risk with respect to accounts receivable is mitigated by credit evaluations the Group performs on its customers and its ongoing monitoring of outstanding balances.

Funds receivable represent amounts due from third-party payment service providers. The Group carefully considers and monitors the credit worthiness of the third-party payment service providers to mitigate any risks associated with funds receivable.

Concentration of Customers

There were no revenues from customers which individually represented greater than 10% of the total revenue for the years ended December 31, 2011, 2012 and 2013.

Concentration of Revenues

Revenues from marketing services represented 72%, 58% and 44% of the total gross revenues for the years ended December 31, 2011, 2012 and 2013, respectively. Any disruption in the provision of marketing services to customers may adversely affect the Group's business, financial condition and results of operations.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

3. CONCENTRATION OF RISKS (continued)

Current Vulnerability Due to Certain Other Concentrations

The Group's operations may be adversely affected by significant political, economic and social uncertainties in the PRC. Although the PRC government has been pursuing economic reform policies for more than 30 years, no assurance can be given that the PRC government will continue to pursue such policies or that such policies may not be significantly altered, especially in the event of a change in leadership, social or political disruption or unforeseen circumstances affecting the PRC's political, economic and social conditions. There is also no guarantee that the PRC government's pursuit of economic reforms will be consistent or effective.

The Group transacts all of its business in RMB, which is not freely convertible into foreign currencies. On January 1, 1994, the PRC government abolished the dual rate system and introduced a single rate of exchange as quoted daily by the People's Bank of China (the PBOC). However, the unification of the exchange rates does not imply that the RMB may be readily convertible into United States dollars or other foreign currencies. All foreign exchange transactions continue to take place either through the PBOC or other banks authorized to buy and sell foreign currencies at the exchange rates quoted by the PBOC.

Approval of foreign currency payments by the PBOC or other institutions requires submitting a payment application form together with suppliers' invoices, shipping documents and signed contracts. Additionally, the value of the RMB is subject to changes in central government policies and international economic and political developments affecting supply and demand in the PRC foreign exchange trading system market.

Internet and advertising related businesses are subject to significant restrictions under current PRC laws and regulations. Specifically, foreign investors are not allowed to own more than a 50% equity interest in any ICP business. In addition, PRC regulations require any foreign entities that invest in the advertising services industry to have at least a two-year track record with a principal business in the advertising industry outside of the PRC. Currently, the Group conducts its operations in the PRC through contractual arrangements entered into between the WOFEs and the PRC Domestic Entities. The relevant regulatory authorities may find the current contractual arrangements and businesses to be in violation of any existing or future PRC laws or regulations. If so, the relevant regulatory authorities would have broad discretion in dealing with such violations. In the opinion of management, the likelihood of penalties in respect of the Group's current operations through contractual arrangements entered into between the WOFEs and the PRC Domestic Entities is remote based on current facts and circumstances.

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

4. BaoAn Acquisition

In December 2012, the Group entered into an agreement with China BaoAn Group Co., Ltd. (BaoAn) to acquire a property through the acquisition of the entire equity interests in three subsidiaries of BaoAn that own and operate the property (the BaoAn Acquisition) for US\$127,277 cash consideration. As of December 31, 2012, an interest-free and non-refundable deposit of US\$111,367 was paid to BaoAn. The remaining balance of US\$15,910 was paid on January 10, 2013. The property, which consists of offices, retail space and a hotel, is considered a business as defined in ASC 805 (BaoAn Entities). The Group took effective control of the business and obtained all necessary government regulatory approvals as of March 31, 2013. Accordingly, the BaoAn Acquisition was accounted for as a business acquisition upon closing of the transaction as of March 31, 2013. The operating results of the BaoAn Entities have been included in the consolidated operating results since March 31, 2013. The Group intends to use the property as an office and a training center to support the Group's business expansion in the eastern region of the PRC.

The Group has completed the valuation necessary to assess the fair values of the tangible assets acquired and liabilities assumed, resulting from which the amount of gain on bargain purchase was determined and recognized as of the acquisition date. The following table summarizes the estimated aggregate fair values of the assets acquired and liabilities assumed as of the date of acquisition:

	US\$
Cash and cash equivalents	3,169
Prepayments and other current assets	1,800
Property and equipment, net	140,231
Deferred tax assets, non-current	1,093
Total identifiable assets acquired	146,293
Accrued expenses and other liabilities	(1,290)
Other non-current liabilities	(919)
Deferred tax liabilities, non-current	(16,368)
Total liabilities assumed	(18,577)
Net identifiable assets acquired	127,716
Gain on bargain purchase	(102)
Total consideration	127,614

The excess of the fair value of the identifiable net assets acquired over the cost of acquisition as of the acquisition date of US\$102 was recognized as a gain on bargain purchase in the consolidated statements of comprehensive income for

the year ended December 31, 2013. The Group has performed a comprehensive reassessment of the bargain purchase gain by verifying that all assets acquired and liabilities assumed were properly identified. The US\$102 gain on bargain purchase was primarily attributable to the purchase price being fixed prior to the closing date of the transaction and the fair value of the property acquired increased during the intervening period. The acquisition related costs were insignificant. Deferred tax liabilities amounting to US\$16,368 were recognized on the fair value step-up of the property acquired in the BaoAn Acquisition.

4. BaoAn Acquisition (continued)

The following unaudited pro forma information summarizes the results of operations of the Group for the years ended December 31 2012 and 2013, as if the BaoAn Acquisition had been completed on January 1, 2012. These pro forma results have been prepared for comparative purposes only and do not purport to be indicative of what operating results would have been had the acquisition actually taken place on the date indicated and may not be indicative of future operating results. The pro forma adjustments are based upon available information and certain assumptions that management believes are reasonable.

	For the Years Ended	
	December 31,	
	2012	2013
	US\$	US\$
Pro forma total revenues	430,258	637,379
Pro forma net income	149,495	298,376
Pro forma net income per ordinary share-basic	1.93	3.82
Pro forma net income per ordinary share-diluted	1.82	3.53

5. SHORT-TERM INVESTMENTS

Short-term investments consisted of the following:

	As of	
	December 31,	
	2012	2013
	US\$	US\$
Fixed-rate time deposits	25,455	10,138
Available-for-sale security		
Equity security	1,386	
	26,841	10,138

As of December 31, 2012 and 2013, the Group held fixed-rate time deposits in commercial banks and financial institutions with an original maturity of less than one year.

Interest income on the fixed-rate time deposits of US\$1,849, US\$827 and US\$758 was recognized for the years ended December 31, 2011, 2012 and 2013, respectively.

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

5. SHORT-TERM INVESTMENTS (continued)

On November 4, 2010, the Group acquired 714,285 American depositary shares (ADS) of SYSWIN Inc., a US listed company, at a consideration of US\$5,000. The investment constituted a 1.01% ownership in SYSWIN Inc. and was classified as an available-for-sale security. During the year ended December 31, 2011, the market price of SYSWIN Inc. declined significantly. As a result, an other-than-temporary impairment loss of US\$4,343 was recorded and the new cost base of the available-for-sale security was US\$657 as of December 31, 2011. An other-than-temporary impairment loss of US\$14 was recognized for the year ended December 31, 2012 and the new cost base of the available-for-sale security was US\$643 as of December 31, 2012. The impairment charge for the year ended December 31, 2012 was due to a decline in the fair value of the investment below the cost basis that was judged to be other-than-temporary and was recorded as a reduction to the amortized cost of the investment.

On April 9, 2013, SYSWIN Inc. announced the completion of the merger with Brilliant Acquisition Limited, a wholly owned subsidiary of Brilliant Strategy Limited (the Merger). As a result of the Merger, SYSWIN Inc. became a wholly owned subsidiary of Brilliant Strategy Limited. As part of the Merger, each ordinary share of SYSWIN Inc. (a Share) issued and outstanding immediately prior to the effective time of the Merger was cancelled in exchange for the right to receive US\$0.5125 cash. Each ADS, consisting of four Shares, represents the right to receive US\$2.05 cash without interest and is subject to \$0.05 per ADS cancellation fees and applicable withholding taxes. A realized gain of US\$821 from the disposal of the investment in SYSWIN Inc. was recognized for the year ended December 31, 2013.

The following is a summary of the available-for-sale security as of December 31, 2012. There was no available-for-sale security as of December 31, 2013.

	Amortized Cost US\$	Gross Unrealized Gains US\$	Gross Unrealized Losses US\$	Fair Value (Net Carrying Amount) US\$
December 31, 2012				
- Equity security in SYSWIN Inc.	643	743		1,386

6. ACCOUNTS RECEIVABLE

Accounts receivable and the related allowance for doubtful accounts were summarized as follows:

	As of December 31,	
	2012	2013
	US\$	US\$
Accounts receivable	42,151	59,560
Allowance for doubtful accounts	(12,122)	(15,019)
Accounts receivable, net	30,029	44,541

	For the Years Ended		
	December 31,		
	2011	2012	2013
	US\$	US\$	US\$
Movement in allowance for doubtful accounts:			
Balance at beginning of year	7,277	9,217	12,122
Additional provision charged to expenses	16,368	12,339	13,437
Write-offs	(14,795)	(9,460)	(10,953)
Foreign currency translation adjustments	367	26	413
Balance at end of year	9,217	12,122	15,019

7. PREPAYMENTS AND OTHER CURRENT ASSETS

Prepayments and other current assets consisted of the following:

	As of December 31,	
	2012	2013
	US\$	US\$
Prepaid expenses	4,548	4,498
Advance to employees	615	696
Rental and other deposits	291	653

Edgar Filing: SouFun Holdings Ltd - Form 20-F

Interest receivable	530	14,411
Receivable from a broker for exercise of employee stock options	2,718	807
Deposit for non-current assets (Note 9)		8,037
Others	524	2,656
	9,226	31,758

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

8. PROPERTY AND EQUIPMENT, NET

Property and equipment consisted of the following:

	As of December 31,	
	2012	2013
	US\$	US\$
Buildings	37,657	182,320
Office equipment	12,789	16,329
Motor vehicles	1,935	2,747
Leasehold improvement	4,463	6,454
Land	37,421	37,421
Total	94,265	245,271
Less: Accumulated depreciation	(14,701)	(23,829)
	 79,564	 221,442

Depreciation expense amounted to US\$4,100, US\$6,376 and US\$9,701 for the years ended December 31, 2011, 2012 and 2013, respectively.

The Group is still in the process of obtaining the property ownership certificates for certain buildings with a net carrying amount of US\$13,383. As the transfer of ownership of the buildings has been legally registered with the applicable government authority and the purchase consideration has been fully paid by the Group, the Group has the ability to obtain and control the future economic benefits of the buildings. As a result, these buildings were recognized as assets on the consolidated balance sheets as of December 31, 2012 and 2013.

9. DEPOSIT FOR NON-CURRENT ASSETS

Deposit for non-current assets as of December 31, 2012 represented a refundable deposit of US\$8,750 for the purchase of 10,000 square meters of an office building in Hengshui, Hebei province in the PRC. The Group withdrew the purchase plan due to changes in government planning regulations which resulted in the office building no longer being suitable for the Group's requirements. In July 2013, the Group signed a repayment agreement with the counterparty, pursuant to which the counterparty is obligated to repay the prepayment in installments based on an agreed payment schedule at no interest. As of December 31, 2013, US\$713 was repaid and the remaining balance of US\$8,037 was reclassified to prepayments and other current assets on the consolidated balance sheets. The remaining balance of US\$8,037 was fully repaid by February 2014.

Deposit for non-current assets as of December 31, 2013 represented a deposit of US\$38,140 for the purchase of 22,402 square meters of an office building in Chengdu, Sichuan province in the PRC. Pursuant to the purchase agreement, the Group is eligible to request a refund if the office building is not completed by March 30, 2015. The development of the office building is expected to be completed by December 31, 2014. If the real estate developer were able to complete the office building by December 31, 2014, the deposit is considered as an interest-free non-refundable payment.

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

10. OTHER NON-CURRENT ASSETS

Other non-current assets consisted of the following:

	As of December 31,	
	2012	2013
	US\$	US\$
Rental and other deposits	2,924	2,312
Interest receivable	10,483	11,401
Issuance costs for convertible senior notes (Note 14)		8,256
Others	337	658
	13,744	22,627

11. SHORT-TERM AND LONG-TERM LOANS

Short-term and long-term loans consisted of the following:

	As of December 31,	
	2012	2013
	US\$	US\$
Short-term loans	270,670	90,000
Long-term loans	80,750	180,750

Short-term loans outstanding as of December 31, 2012 and 2013 represent US\$ denominated bank borrowings of US\$270,670 and US\$90,000, respectively, obtained from financial institutions in Singapore and Hong Kong. These bank borrowings are secured by RMB denominated bank deposits placed with financial institutions in the PRC of US\$296,023 and US\$99,601 as of December 31, 2012 and 2013, respectively. Pledged deposits amounting to US\$83,797 (2012: nil) and US\$15,804 (2012: US\$296,023) were classified as restricted cash, current and restricted cash, non-current on the consolidated balance sheets as of December 31, 2013. The short-term bank borrowings are repayable on demand and bear interest rates ranging from London InterBank Offered Rate (LIBOR) plus 2.5% to LIBOR plus 2.7%.

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

11. SHORT-TERM AND LONG-TERM LOANS (continued)

Long-term loans outstanding as of December 31, 2012 and 2013 represent four and six US\$ denominated bank borrowings with an aggregate amount of US\$80,750 and US\$180,750, respectively, obtained from financial institutions in the United States, which will be due in the third quarter of 2015 and 2016. These bank borrowings are secured by RMB denominated bank deposits placed with financial institutions in the PRC of US\$95,393 and US\$208,235 as of December 31, 2012 and 2013, respectively. These pledged deposits are classified as restricted cash, non-current on the consolidated balance sheets. The long-term bank borrowings are repayable on demand if the Group is not in compliance with certain covenants and provisions stipulated in the loan agreements and bear interest rates ranging from LIBOR plus 1.7% to LIBOR plus 2.6%.

The Group repaid short-term borrowings of US\$180,670 during the year ended December 31, 2013. However, due to administrative delays in releasing the RMB denominated pledged deposits by the respective financial institutions in the PRC, bank deposits of US\$172,120 and US\$33,460 remained classified as restricted cash, current and restricted cash, non-current, respectively, on the consolidated balance sheets as of December 31, 2013. The Group has undrawn lines of credit with various financial institutions of nil and US\$187,670 as of December 31, 2012 and 2013, respectively.

12. ACCRUED EXPENSES AND OTHER LIABILITIES

Accrued expenses and other liabilities consisted of the following:

	As of December 31,	
	2012	2013
	US\$	US\$
Payroll and welfare benefit	20,739	25,692
Other taxes and surcharges payable	31,553	37,375
Accrued unrecognized tax benefits and related interest and penalties (Note 16)	24,379	34,045
Amounts payable to employees	649	6,524
Amounts due to noncontrolling interests	5,728	
Amounts payable to marketing agents		26,714
Refundable rental deposits		1,212
Accrued rental expenses	755	775
Others	5,503	10,955
	89,306	143,292

Other taxes and surcharges payable consist of BT, VAT, cultural construction fee (CCF), city construction tax (CCT) and withholding individual income tax (IIT).

Amounts payable to employees represent cash collections from the designated broker upon the sale of exercised employee options on behalf of the employees.

F-46

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

12. ACCRUED EXPENSES AND OTHER LIABILITIES (continued)

Amounts due to noncontrolling interests represent a loan from the noncontrolling interests of Guangxi Overseas Talent to operate and develop a real estate project in Guangxi, the PRC. The loan was unsecured, interest-free and repayable on demand. In June and July 2013, the loan was fully repaid to the noncontrolling interests.

Refundable rental deposits were liabilities assumed from the BaoAn Acquisition (Note 4) representing rental deposits received from the lessees of the BaoAn properties at the time of entering into the lease arrangements for offices and retail space. The rental deposits are refundable at the end of lease terms.

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

13. CUSTOMERS REFUNDABLE FEES

A roll-forward of customers refundable fees was as follows:

	As of December 31,	
	2012	2013
	US\$	US\$
Balance at beginning of year	12,412	18,449
Cash received from customers during the year	138,719	375,363
Revenue recognized in earnings during the year	(102,019)	(188,102)
Remitted and payable to marketing agents during the year		(42,460)
Refunds paid during the year	(30,701)	(111,272)
Foreign currency translation adjustments	38	1,088
Balance at end of year	18,449	53,066

14. CONVERTIBLE SENIOR NOTES

On December 4, 2013, the Company issued convertible senior notes (the "Notes") to Citigroup Global Markets Inc., J.P. Morgan Securities LLC and Credit Suisse Securities (USA) LLC (collectively, the "Initial Purchasers"), for an aggregate principal amount of US\$350,000. The Company granted the Initial Purchasers an overallotment option to purchase, exercisable within a 30-day period, up to an additional US\$50,000 principal amount of Notes (the "Overallotment Option"). The Overallotment Option was exercised and closed on January 3, 2014. The Notes (i) mature on December 15, 2018, unless earlier repurchased, redeemed or converted; and (ii) bear cash interest from December 10, 2013 at an annual rate of 2.00% payable on June 15 and December 15 of each year, beginning on June 15, 2014. The Company will pay additional interest, at its election, as the sole remedy relating to the failure to comply with certain reporting obligations or the occurrence of certain events of default as defined in the indenture of the Notes. In addition, the Notes provide its holders (the "Holders") with additional interest equal to the fair value of any cash dividends received by the holders of the Company's ordinary shares. These features that potentially trigger additional interest payments are collectively referred to as the "contingent interest features" hereinafter.

The Holders may convert their Notes at any time prior to the close of business on the second business day immediately preceding the maturity date. The conversion rate for the Notes was initially 48.4195 ADSs per US\$1,000.00 principal amount of Notes, which is equivalent to an initial conversion price of US\$20.65 per ADS. The conversion rate is subject to adjustment if certain events, such as distribution of stock dividends and grants of rights, options or warrants to shareholders, as described in the indenture of the Notes occur. In addition, following certain corporate events as defined in the indenture of the Notes that occur prior to the maturity date, the Company will increase the conversion rate for a holder who elects to convert its Notes in connection with such a corporate event (the "make-whole fundamental change provision").

F-48

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

14. CONVERTIBLE SENIOR NOTES (continued)

The Company may not redeem the Notes prior to the maturity date, except in the event of certain changes to tax laws as defined in the indenture of the Notes in which case the Company will have the option to redeem, in whole but not in part, the Notes for a purchase price equal to 100% of the principal amount of the Notes to be purchased plus any accrued and unpaid interest to the redemption date. The Holders have the right to require the Company to repurchase for cash all or part of their Notes on December 15, 2016 and following a fundamental change as defined in the indenture of the Notes, in each case, at a repurchase price equal to 100% of the principal amount of the Notes to be repurchased plus accrued and unpaid interest to the repurchase date.

The Notes are senior unsecured obligations and rank (i) senior in right of payment to any of the Group's indebtedness that is expressly subordinated in right of payment to the Notes; (ii) equal in right of payment to any of the Group's unsecured indebtedness that is not so subordinated; (iii) effectively junior in right of payment to any of the Group's secured indebtedness to the extent of the value of the assets securing such indebtedness; and (iv) structurally junior to all indebtedness and other liabilities of the Group.

The net proceeds of the Notes, after deducting offering expenses, were US\$341,580. The Company intends to use the net proceeds of the Notes for general corporate purposes, including new products and services, working capital, capital expenditures, business expansion and potential acquisitions of businesses, technologies or products. Total issuance costs of US\$8,420, which were capitalized in other non-current assets on the consolidated balance sheets, are amortized as interest expense using the effective interest rate method through the maturity date of the Notes at an effective interest rate of 2.86%. For the year ended December 31, 2013, the Group recognized interest expense related to the Notes of US\$566, which comprised contractual interest obligations of US\$402 and issuance costs amortization of US\$164.

The Notes were recorded as long-term debt. The Company evaluated the embedded conversion features contained in the Notes in accordance with ASC 815-40-15 and ASC 815-40-25-7 to ASC 815-40-25-35 to determine if the conversion options require bifurcation. The conversion option was not required to be bifurcated because the conversion option is indexed to the Company's ADSs and meets all additional conditions for equity classification. Since the conversion option was not required to be bifurcated, the Company then determined if there were any beneficial conversion features (BCF) in accordance with ASC 470-20. The Company assessed the embedded conversion option feature of the Notes and concluded that there is no BCF because the effective conversion price of the Notes exceeded the fair value of the Company's ADSs at the commitment date. In connection with the make-whole fundamental change provision, the number of ADSs issuable upon conversion will be increased if Holders decide to convert. As the fair value of the ADSs into which the Notes are convertible plus the make-whole ADSs does not approximate the fair value at the settlement date, the make-whole feature is not indexed to the Company's ADSs and is required to be bifurcated. The fair value of the make-whole feature was insignificant for the year ended December 31, 2013.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

14. CONVERTIBLE SENIOR NOTES (continued)

The Company evaluated the embedded contingent redemption features and contingent interest features contained in the Notes in accordance with ASC 815 to determine if these features require bifurcation. The contingent redemption features were not required to be bifurcated because they are considered to be clearly and closely related to the debt host, as the Notes were not issued at a substantial discount and are puttable at par. Certain embedded contingent interest features are not considered to be clearly and closely related to the debt host and met the definition of a derivative. Accordingly, these embedded contingent interest features were bifurcated from the Notes on the issuance date but their values were insignificant for the year ended December 31, 2013. For the embedded contingent interest features not bifurcated from the Notes, the Company determined whether the additional interest payments need to be accrued as a liability in accordance with ASC 450. Since the likelihood of occurrence of such default events is remote, the Company determined that a liability was not probable and no accrual was made as of December 31, 2013. The Company will continue to assess the accrual for these additional interest payment liabilities at each reporting date.

15. SHAREHOLDERS EQUITY

Ordinary Shares

Upon completion of the Company's initial public offering (IPO) in September 2010, the Company's ordinary shares were converted into 50,767,426 Class A ordinary shares and 25,298,329 Class B ordinary shares. The Memorandum and Articles of Association were amended and restated such that the authorized share capital consisted of 600,000,000 ordinary shares at a par value of HK\$1 per share. The rights of the holders of Class A and Class B ordinary shares are identical, except with respect to voting rights. Each Class A ordinary share is entitled to one vote per share whereas each Class B ordinary share is entitled to 10 votes per share. Each Class B ordinary share is convertible into one Class A ordinary share at any time by its holder, but Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon any transfer of Class B ordinary shares by a Class B ordinary shareholder to any person or entity which is not an affiliate of such holder, such Class B ordinary shares will be automatically and immediately converted into the equal number of Class A ordinary shares.

Restricted net assets

The Company's ability to pay dividends is primarily dependent on the Company receiving distributions of funds from its subsidiaries. Relevant PRC statutory laws and regulations permit payments of dividends by the Company's PRC subsidiaries only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. The results of operations reflected in the financial statements prepared in accordance with U.S. GAAP differ from those reflected in the statutory financial statements of the Company's PRC subsidiaries. On September 6, 2012 and July 29, 2013, the Company's board of directors declared the distribution of dividends to the Company's ordinary shareholders in the amount of US\$79,043 and US\$81,046, respectively. As of December 31, 2012 and 2013, all dividends declared had been paid.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

15. SHAREHOLDERS EQUITY (continued)

Restricted net assets (continued)

In accordance with the PRC Regulations on Enterprises with Foreign Investment and its articles of association, a foreign invested enterprise established in the PRC is required to provide certain statutory reserves, namely general reserve fund, the enterprise expansion fund and staff welfare and bonus fund which are appropriated from net profit as reported in the enterprise's PRC statutory accounts. A foreign invested enterprise is required to allocate at least 10% of its annual after-tax profit to the general reserve until such reserve has reached 50% of its respective registered capital based on the enterprise's PRC statutory accounts. Appropriations to the enterprise expansion fund and staff welfare and bonus fund are at the discretion of the board of directors for all foreign invested enterprises. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends. The WOFEs were established as foreign invested enterprises and therefore are subject to the above mandated restrictions on distributable profits.

Additionally, in accordance with the Company Law of the PRC, a domestic enterprise is required to provide a statutory common reserve of at least 10% of its annual after-tax profit until such reserve has reached 50% of its respective registered capital based on the enterprise's PRC statutory accounts. A domestic enterprise is also required to provide a discretionary surplus reserve, at the discretion of the board of directors, from the profits determined in accordance with the enterprise's PRC statutory accounts. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends. The PRC Domestic Entities and the PRC Domestic Entities subsidiaries were established as domestic invested enterprises and therefore are subject to the above mentioned restrictions on distributable profits.

As a result of these PRC laws and regulations that require annual appropriations of 10% of after-tax income to be set aside prior to payment of dividends as general reserve fund, the Company's PRC subsidiaries are restricted in their ability to transfer a portion of their net assets to the Company. Amounts restricted include paid-in capital, statutory reserve funds and net assets of the Company's PRC subsidiaries, as determined pursuant to PRC generally accepted accounting principles, totaling US\$540,840 and US\$627,367 as of December 31, 2012 and 2013, respectively. Therefore, in accordance with Rules 504 and 4.08(e)(3) of Regulation S-X, the condensed parent company only financial statements as of December 31, 2012 and 2013 and for each of the three years in the period ended December 31, 2013 are disclosed in Note 24.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

16. TAXATION

Cayman Islands

Under the current laws of the Cayman Islands, the Company, China Home, China Property and Sou You Tian Xia are not subject to tax on income or capital gains. In addition, upon payments of dividends by the Company to its shareholders, no Cayman Islands withholding tax will be imposed.

British Virgin Islands

Under the current laws of the British Virgin Islands, Pendiary, Selovo, China Home (BVI), China Property (BVI), Best Scholar and Sou You Tian Xia (BVI) are not subject to tax on income or capital gains. In addition, upon payments of dividends by these companies to their shareholders, no British Virgin Islands withholding tax will be imposed.

Hong Kong

Bravo Work, China Index Academy, SouFun International, China Home (HK), China Institute of Real Estate Agents, HK Property and Sou You Tian Xia (HK) are incorporated in Hong Kong. No provision for Hong Kong profits tax has been made in the financial statements as the subsidiaries in Hong Kong have no assessable profits for the three years ended December 31, 2013. In addition, upon payment of dividends by these companies to their shareholders, no Hong Kong withholding tax will be imposed.

United States of America

Wall Street, Best Scholar (Delaware) and Best Work are incorporated in the United States and do not conduct any substantive operations of their own. No provision for United States income tax has been made in the financial statements as Wall Street and Best Scholar had no assessable income for the three years ended December 31, 2013. In addition, as these entities were in a loss position, no withholding tax on the undistributed earnings was recognized as of December 31, 2013. In 2011, Best Work acquired a property in New York, the United States, which served as the Group's global training facility and claimed certain business expense deductions on its United States tax return. As Best Work currently has no operating activities, the respective business expense deductions may be denied by the United States tax authority. As of December 31, 2013, US\$2,537 of unrecognized tax benefits had been recognized, which was fully offset by the deferred tax assets arising from net operating losses.

China

In March 2007, a new enterprise income tax law (the New EIT Law) in the PRC was enacted which became effective on January 1, 2008. The New EIT Law applies a unified 25% enterprise income tax (EIT) rate to both foreign invested enterprises and domestic enterprises, unless a preferential EIT rate is otherwise stipulated. A five-year transition period is allowed for those enterprises which enjoyed a reduced EIT rate prior to year 2008 with the transitional EIT rates of 18%, 20%, 22% and 24% for years 2008, 2009, 2010 and 2011, respectively, and 25% thereafter. Thus, the applicable EIT rate for SouFun Shenzhen and SouFun Shanghai was 24%, 25% and 25% for years 2011, 2012 and

2013, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

16. TAXATION (continued)

China (continued)

On April 14, 2008, relevant governmental regulatory authorities released further qualification criteria, application procedures and assessment processes for meeting the High and New Technology Enterprise (HNTE) status under the New EIT Law which would entitle qualified and approved entities to a favorable statutory tax rate of 15%. In April 2009, the State Administration for Taxation (SAT) issued Circular Guoshuihan [2009] No. 203 (Circular 203) stipulating that entities which qualified for the HNTE status should apply with in-charge tax authorities to enjoy the reduced EIT rate of 15% provided under the New EIT Law starting from the year when the new HNTE certificate becomes effective. In addition, an entity which qualified for the HNTE status can continue to enjoy its remaining tax holiday from January 1, 2008 provided that it has obtained the HNTE certificate according to the new recognition criteria set by the New EIT Law and the relevant regulations.

The HNTE certificates for SouFun Network, SouFun Media, Beijing Zhongzhi, and Beijing JTX Technology expired on May 27, 2012. The HNTE certificates for Beijing Technology expired on June 12, 2012. The Group applied for renewal of the HNTE certificates for these subsidiaries, which will enable them to continue qualifying for the preferential tax rates in years 2012, 2013 and 2014. The approval for the renewal of the HNTE certificates for the five subsidiaries was published on the Beijing Municipal Science & Technology Commission's website between April and October 2012 and the Group received the renewed HNTE certificates between May and November 2012. Therefore, SouFun Media and Beijing Zhongzhi were entitled to the tax holiday of 15%, 15% and 15% for years 2011, 2012 and 2013, respectively; whereas SouFun Network, Beijing Technology and Beijing JTX Technology were entitled to the tax holiday of 7.5%, 15% and 15% for years 2011, 2012 and 2013, respectively.

On March 26, 2012, Beijing Hong An and Beijing Tuo Shi obtained the certificates of Software Enterprise with effect from January 1, 2011. Accordingly, the two subsidiaries are entitled to two-year enterprise income tax exemption for years 2011 and 2012 and reduced enterprise income tax rate of 12.5% for years 2013, 2014 and 2015. As a result of the change in tax status of the two subsidiaries, income tax expenses of US\$1,631 were reversed in the year ended December 31, 2012 for the cumulative effect of applying the statutory tax rate of 25% during the year ended December 31, 2011. The reversed tax expenses consisted of current income tax expense of US\$1,205 and deferred tax expense of US\$426.

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

16. TAXATION (continued)

Dividends paid by the Company's PRC subsidiaries out of the profits earned after December 31, 2007 to non-PRC tax resident investors are subject to PRC withholding tax. The withholding tax on dividends is 10%, unless a foreign investor's tax jurisdiction has a tax treaty with the PRC that provides for a lower withholding tax rate and the foreign investor is recognized as the beneficial owner of the income under the relevant tax rules.

Moreover, the current EIT Law treats enterprises established outside of China with effective management and control located in the PRC as PRC resident enterprises for tax purposes. The term effective management and control is generally defined as exercising overall management and control over the business, personnel, accounting, properties, etc. of an enterprise. The Company, if considered a PRC resident enterprise for tax purposes, would be subject to the PRC Enterprise Income Tax at the rate of 25% on its worldwide income for the period after January 1, 2008. As of December 31, 2013, the Company had not accrued for PRC tax on such basis. The Company will continue to monitor its tax status.

Income before income taxes consisted of:

	For the Years Ended December 31,		
	2011	2012	2013
	US\$	US\$	US\$
PRC	162,421	228,919	390,488
Non-PRC	(18,207)	(21,210)	(22,045)
	144,214	207,709	368,443

Income tax expenses comprised:

	For the Years Ended December 31,		
	2011	2012	2013
	US\$	US\$	US\$
Current tax expense	14,937	31,038	54,299
Deferred tax expense	27,680	24,867	15,482
	42,617	55,905	69,781

16. TAXATION (continued)

A reconciliation between the amount of income tax expenses and the amount computed by applying the statutory tax rate to income before income taxes was as follows:

	For the Years Ended		
	December 31,		
	2011	2012	2013
	US\$	US\$	US\$
Income before income taxes	144,214	207,709	368,443
Income tax at applicable tax rate of 25%	36,054	51,927	92,111
Effect of international tax rate differences	1,522	453	1,384
Non-deductible expenses	7,997	8,593	3,492
Effect of tax holidays or preferential tax rates	(27,582)	(33,077)	(45,902)
Effect of tax rate changes	(899)	(1,974)	(15,101)
Investment basis difference in the PRC Domestic Entities	5,207	10,046	1,537
Withholding tax	18,414	16,867	28,632
Changes in valuation allowance	879	1,085	4,283
Unrecognized tax benefits	(499)	(419)	(3,120)
Changes in interest and penalties on unrecognized tax benefits	1,524	2,404	2,465
	42,617	55,905	69,781

A roll-forward of unrecognized tax benefits, exclusive of related interest and penalties, was as follows:

	As of December 31,		
	2011	2012	2013
	US\$	US\$	US\$
Balance at beginning of year	5,853	7,439	15,336
Increase relating to current year tax positions	1,789	10,074	12,358
Decrease relating to expiration of applicable statute of limitations	(489)	(2,205)	(3,510)
Foreign currency translation adjustments	286	28	572

Balance at end of year	7,439	15,336	24,756
------------------------	-------	--------	--------

F-55

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

16. TAXATION (continued)

As of December 31, 2012 and 2013, the Group had recorded US\$24,379 and US\$34,045 as an accrual for unrecognized tax benefits and related interest and penalties, respectively, which is included in the account of accrued expenses and other liabilities. As of December 31, 2012 and 2013, unrecognized tax benefits of US\$14,400 and US\$19,454, respectively, would impact the effective tax rate if recognized. The final outcome of the tax uncertainty is dependent upon various matters including tax examinations, interpretation of tax laws or expiration of statute of limitations. However, due to the uncertainties associated with the status of examinations, including the protocols of finalizing audits by the relevant tax authorities, there is a high degree of uncertainty regarding the future cash outflows associated with these tax uncertainties. The amount of unrecognized tax benefits may change in the next twelve months, pending clarification of current tax law or audit by the tax authorities. However, a reliable estimate of the range of the possible change cannot be made at this time.

For the years ended December 31, 2011, 2012, and 2013, the Company recognized US\$1,524, US\$2,404 and US\$2,465 in income tax expenses for interest and penalties related to uncertain tax positions. Accrued interest and penalties related to unrecognized tax benefits were US\$9,043 and US\$11,826 as of December 31, 2012, and 2013, respectively.

The Company's PRC entities have been subject to the New EIT Law since January 1, 2008. The PRC tax authorities, US tax authorities and Hong Kong tax authorities have up to five years, three years and six years, respectively, to conduct examinations of the Company's tax filings. Accordingly, the PRC subsidiaries' tax years 2009 through 2013, the US subsidiaries' tax years 2011 through 2013 and the Hong Kong subsidiaries' tax years 2008 through 2013 remain open to examination by the respective taxing jurisdictions.

The aggregate amount and per share effect of tax holidays and preferential tax rates were as follows:

	For the Years Ended		
	December 31,		
	2011	2012	2013
	US\$	US\$	US\$
The aggregate amount	(27,582)	(33,077)	(45,902)
The aggregate effect on basic and diluted earnings per share for Class A and Class B ordinary shares:			
Basic	0.36	0.43	0.59
Diluted	0.34	0.40	0.54

F-56

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

16. TAXATION (continued)

The components of deferred taxes were as follows:

	As of December 31,	
	2012	2013
	US\$	US\$
Deferred tax assets, current		
Accrued expenses	2,734	3,165
Total deferred tax assets, current	2,734	3,165
Deferred tax assets, non-current		
Net operating losses	3,061	7,349
Less: valuation allowance	(1,338)	(5,621)
Total deferred tax assets, non-current, net	1,723	1,728
Deferred tax liabilities, non-current		
Investment basis in the PRC entities	(64,947)	(68,342)
BaoAn Acquisition Property		(16,425)
Deferred tax liabilities, non-current	(64,947)	(84,767)

As of December 31, 2013, the Company had net operating losses from several of its PRC entities of US\$3,977, which can be carried forward to offset future taxable profit. The net operating loss carryforwards as of December 31, 2013 will expire in years 2014 to 2018 if not utilized.

Deferred tax liabilities arising from undistributed earnings

As of December 31, 2012 and 2013, a portion of the aggregate undistributed earnings of the PRC subsidiaries that were available for distribution to non-PRC parent companies was not considered to be indefinitely reinvested under ASC 740-30, Income Taxes: Other Consideration or Special Areas. In accordance with the New EIT Law, a withholding income tax will be imposed on the PRC subsidiaries when dividends are distributed to their non-PRC parent companies. The withholding tax rate is 10% unless a foreign investor's tax jurisdiction has a tax treaty with the PRC that provides for a lower withholding tax rate and the foreign investor is recognized as the beneficial owner of

the income under the relevant tax rules. Deferred tax liabilities amounting to US\$35,281 and US\$36,198 were provided for the outside basis of the PRC entities as of December 31, 2012 and 2013, respectively.

16. TAXATION (continued)

Deferred tax liabilities arising from undistributed earnings (continued)

In September 2013, the PRC tax bureau granted SouFun Media and SouFun Network a reduced withholding tax rate of 5% on earnings to be distributed between years 2013 and 2015. Therefore, deferred tax liabilities related to the undistributed earnings of SouFun Media and SouFun Network amounting to US\$15,101 were reversed during the year ended December 31, 2013.

The deferred tax liabilities arising from the aggregate undistributed earnings of the PRC Domestic Entities and the PRC Domestic Entities subsidiaries that are available for distribution to the PRC tax resident parent companies, that is, the WOFEs, amounted to US\$29,666 and US\$32,144 as of December 31, 2012 and 2013, respectively.

As of December 31, 2012 and 2013, the Company did not provide for deferred tax liabilities and foreign withholding taxes on certain undistributed earnings of its PRC subsidiaries, PRC Domestic Entities and PRC Domestic Entities subsidiaries that are available for distribution to non-PRC parent companies on the basis of its intent to permanently reinvest foreign subsidiaries earnings. The cumulative amount of such temporary difference was US\$158,317 and US\$68,449 as of December 31, 2012 and 2013, respectively. The amount of the unrecognized deferred tax liability for temporary differences related to investments in PRC subsidiaries, PRC Domestic Entities and PRC Domestic Entities subsidiaries that are essentially permanent in duration was US\$15,832 and US\$6,310 as of December 31, 2012 and 2013, respectively.

17. SHARE-BASED PAYMENTS

Stock related award incentive plan of 1999

On September 1, 1999, the Company's shareholders approved the 1999 Stock Related Award Incentive Plan (the 1999 Plan). Under the 1999 Plan, the Company may issue up to 12% of the fully diluted ordinary shares of the Company to its directors and employees. The purpose of the 1999 Plan is to provide additional incentive and motivation to its directors and employees, through an equity interest in the Company, to work towards increasing the value of the Company. The 1999 Plan provides for accelerated vesting, subject to certain conditions, if there is a change in control. The 1999 Plan has no stated expiry date.

The exercise price, vesting and other conditions of individual awards are determined by the executive chairman of the board of directors. The awards are typically subject to a 3-year to a 4-year service vesting condition and expire 10 or 15 years after the grant date. In addition, the grantee must return all awards and any proceeds from the sale of the awards if he/she violates certain provisions including a non-compete condition for a period of 2 years after cessation of employment with the Group. The non-compete condition does not give rise to an in-substance service condition.

Starting from December 31, 2006, the Company awarded Special Stock Options to its employees and directors. Terms for Special Stock Options are the same as other option grants except the underlying ordinary shares to be received upon exercise of the vested options do not have any entitlement to vote. Every two Special Stock Options is exercisable into one Class A ordinary share. The Special Stock Options have been accounted for as equity awards and measured at the date on which the terms of the grant was communicated to the grantee (the grant date). These Special Stock Options vest 10% after the first year of service, 20% after the second year of service, 40% after the third year of service and 30% after the fourth year of service. The contractual life of the Special Stock Option is ten years from the date of grant.

17. SHARE-BASED PAYMENTS (continued)

Stock related award incentive plan of 2010

On August 4, 2010, the Group's board of directors and shareholders approved the 2010 Stock Related Award Incentive Plan (the 2010 Plan). Under the 2010 Plan, the Group may issue up to 10% of the total number of ordinary shares, including ordinary shares issuable upon conversion of any preferred shares to its directors and employees. The purpose of the 2010 Plan was to recognize and acknowledge the contributions made to the Group by eligible employees and to promote the success of the Group's business. The 2010 Plan allows the board of directors, or its designated committee, to establish the performance criteria when granting stock options on the basis of any one of, or combination of, increase in share price, earnings per share, total shareholder return, return on equity, return on assets, return on investment, net operating income, cash flow, revenue, economic value added, personal management objectives, or other measures of performance selected by the Company's board of directors, or its designated committee. Partial achievement of the specified criteria may result in a vesting corresponding to the degree of achievement as specified in the detail rules.

The exercise price, vesting and other conditions of individual awards are determined by the executive chairman of the board of directors. The awards are typically subject to a 4-year service vesting condition and multiple performance conditions with a contractual life of 10 years. In addition, the grantee must return all awards and any proceeds from the sale of the awards if he/she violates certain provisions.

Exercisable at December 31, 2013	5,373,167	7.08	3.08	6.29	US\$ 404,777	

* Included both Class A and Class B ordinary shares.

The aggregate intrinsic value in the table above represents the difference between the fair value of the Company's ordinary share at December 31, 2013 and the exercise price.

The weighted average grant-date fair value per share of options granted for the three years ended December 31, 2011, 2012 and 2013 was nil, US\$4.29 and nil, respectively. Total intrinsic value of options exercised for the three years ended December 31, 2011, 2012 and 2013 was US\$29,373, US\$42,458 and US\$44,401, respectively.

As of December 31, 2013, there was US\$8,569 of unrecognized share-based compensation cost related to equity awards that are expected to be recognized over a weighted-average vesting period of 1.95 years. To the extent the actual forfeiture rate is different from the original estimate, actual share-based compensation costs related to these awards may be different from the expectation.

The fair value for stock options granted during the year ended December 31, 2012 under the 2010 Plan was estimated using the binomial option pricing model. The volatility assumption was estimated based on the price volatility of the shares of comparable companies in the internet media business because the Company did not have sufficient trading history and therefore did not have data to calculate expected volatility of the price of the underlying ordinary shares over the expected term of the option. The expected term was estimated based on the resulting output of the binomial option pricing model. The risk-free rate was based on the market yield of US Treasury Bonds & Notes with maturity terms equal to the expected term of the option awards. Forfeitures were estimated based on historical experience. The suboptimal exercise factors of 1.5 and 2.5 for the employees and directors, respectively, are based on the Company's research on the early exercise behavior of employees and directors with stock options. The dividend yield of 8.35% and 11.15% are based on the Company's estimated dividend distribution for the stock options granted during the year ended December 31, 2012.

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

17. SHARE-BASED PAYMENTS (continued)

The assumptions used to estimate the fair values of the share options granted were as follows:

	For the Years Ended December 31,		
	2011	2012	2013
Risk-free interest rate		1.5%-1.8%	
Dividend yield		8.35% and 11.15%	
Expected volatility range		59.88%-61.64%	
Weighted average expected life		8.15 years	
Estimated forfeiture rate		0%	
Fair value of ordinary share		\$4.10-\$9.00	
Suboptimal exercise factor		1.5-2.5	

Total share-based compensation expense of share-based awards granted to employees and directors was as follows:

	For the Years Ended December 31,		
	2011	2012	2013
	US\$	US\$	US\$
Cost of revenues	1,103	1,162	1,143
Selling expenses	1,506	1,626	1,621
General and administrative expenses	4,561	4,361	4,264
	7,170	7,149	7,028

Ordinary share payment

On May 11, 2011, the Group issued 704 ordinary shares to Digital Link Investment Limited which is owned by Mr. Shan Li, an independent director of the Group, in exchange for his services provided to the Group. Share-based compensation expense of US\$6 has been determined by reference to the market value of the Group's shares at the issuance date, and has been fully recognized as an expense upon the issuance of the ordinary shares.

- Beihai Silver Beach			110

Training service from Wall Street Global Training Center, Inc.

Wall Street Global Training Center, Inc., a New York not-for-profit corporation, has been providing training services to the Group since 2011. The training fees incurred for the years ended December 31, 2011, 2012 and 2013 were US\$455, US\$1,595 and US\$250, respectively.

Free rental space to Wall Street Global Training Center, Inc.

Starting from 2011, the Group provided Wall Street Global Training Center, Inc. with an office room of approximately 220 square feet in the Group's building located in New York, the United States of America, free of charge. The estimated fair value of the free office space was insignificant for the years ended December 31, 2011, 2012 and 2013.

Office building leased from Vincent Tianquan Mo

The Group entered into an agreement with Vincent Tianquan Mo, the executive chairman of the board of directors, to lease a building owned by him for a 10-year period for nil consideration starting from March 1, 2012. The deemed rental expense of US\$142 and US\$175 and the corresponding shareholder contribution were included in the consolidated financial statements for the years ended December 31, 2012 and 2013, respectively.

Management service provided by Beihai Silver Beach

On April 1, 2013, the Group and Beihai Silver Beach entered into a contract, pursuant to which Beihai Silver Beach is engaged to manage the hotel and office leasing operations owned by the BaoAn Entities for ten years. The management fees incurred for the year ended December 31, 2013 were US\$537.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

18. RELATED PARTY TRANSACTIONS (continued)

b) The Group had the following related party transactions for the years ended December 31, 2011, 2012 and 2013 (continued):

Hotel service fee

For the year ended December 31, 2013, Guangxi Wharton, Crowne Plaza and Beihai Silver Beach provided hotel accommodation to the Group amounting to US\$16, US\$21 and US\$110, respectively.

Use of domain name of Che Tian Xia Company Ltd.

In April 2013, the Group entered into a contract with Che Tian Xia Company Ltd. to use the latter's domain name for five years at nil consideration.

Use of Arden House

For the year ended December 31, 2013, Research Center provided meeting facility and accommodation at the Arden House, a property located in New York, the United States, to the Group at nil consideration.

c) The Group had the following related party balances as of December 31, 2012 and 2013:

	As of December 31,	
	2012	2013
	US\$	US\$
Amounts due to a related party:		
- Beihai Silver Beach		537

The balance as of December 31, 2013 represented outstanding management fees which are unsecured and interest-free.

19. EMPLOYEE DEFINED CONTRIBUTION PLAN

Full time employees of the Group in the PRC participate in a government mandated defined contribution plan, pursuant to which certain pension benefits, medical care, employee housing fund and other welfare benefits are

provided to employees. Chinese labor regulations require that the PRC subsidiaries of the Group make contributions to the government for these benefits based on certain percentages of the employees' salaries. The Group has no legal obligation for the benefits beyond the contributions made. The total amounts for such employee benefits, which were expensed as incurred, were US\$9,377, US\$12,040 and US\$14,795, for the years ended December 31, 2011, 2012 and 2013, respectively.

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

20. COMMITMENTS AND CONTINGENCIES*Operating lease commitments*

As of December 31, 2013, the Group had future minimum lease payments under non-cancellable operating leases with initial terms in excess of one year as follows:

	US\$
2014	10,581
2015	7,322
2016	5,204
2017	2,150
2018 and thereafter	
	25,257

Payments under operating leases are expensed on a straight-line basis over the periods of the respective leases. The Group's lease arrangements have no renewal options, rent escalation clauses, restrictions or contingent rents and are all conducted with third parties, except for the building leased from a related party as disclosed in Note 18(b). For the years ended December 31, 2011, 2012 and 2013, total rental expenses for all operating leases were US\$9,312, US\$12,540 and US\$12,915, respectively.

Variable interest entity structure

In the opinion of management, (i) the ownership structure of the Company and the PRC Domestic Entities is in compliance with existing PRC laws and regulations; (ii) the contractual arrangements with the PRC Domestic Entities and their shareholders are valid, binding and enforceable, and will not result in any violation of PRC laws or regulations currently in effect; and (iii) the Group's business operations are in compliance with existing PRC laws and regulations in all material respects.

However, there are substantial uncertainties regarding the interpretation and application of current and future PRC laws and regulations. Accordingly, the Company cannot be assured that PRC regulatory authorities will not ultimately take a contrary view to its opinion. If the current ownership structure of the Group and its contractual arrangements with the PRC Domestic Entities are found to be in violation of any existing or future PRC laws and regulations, the Group may be required to restructure its ownership structure and operations in the PRC to comply with the changing and new PRC laws and regulations. In the opinion of management, the likelihood of loss in respect of the Group's current ownership structure or the contractual arrangements with the PRC Domestic Entities is remote based on current facts and circumstances.

SOUFUN HOLDINGS LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

20. COMMITMENTS AND CONTINGENCIES (continued)*Income taxes*

As of December 31, 2013, the Group had recognized US\$24,756 accrual for unrecognized tax benefits (Note 16). The final outcome of the tax uncertainty is dependent upon various matters including tax examinations, interpretation of tax laws or expiration of statute of limitations. However, due to the uncertainties associated with the status of examinations, including the protocols of finalizing audits by the relevant tax authorities, there is a high degree of uncertainty regarding the future cash outflows associated with these tax uncertainties. As of December 31, 2013, the Group classified the accrual for unrecognized tax benefits as a current liability.

21. SEGMENT REPORTING

In accordance with ASC 280 Segment Reporting, the Group's chief operating decision maker has been identified as the executive chairman of the board of directors, who makes resource allocation decisions and assesses performance based on the Group's consolidated results. As a result, the Group has only one reportable segment.

Entity-wide disclosures

The Group's revenues by its four product groups, including the new home product group, secondary and rental properties product group, home furnishing and improvement product group, and research product group were summarized as follows:

	For the Years Ended		
	December 31,		
	2011	2012	2013
	US\$	US\$	US\$
Marketing services:			
New home	210,719	222,963	258,479

Denominator used for diluted earnings per share	82,215,832	26,729,016	81,924,565	26,249,150	84,602,678	26,249,150
Earnings per share diluted	1.24	1.24	1.85	1.85	3.54	3.54

Options to purchase nil, 50,000 (exercise price of US\$23.94 per share) and nil ordinary shares were outstanding during the years ended 2011, 2012 and 2013, respectively, but were not included in the computation of diluted earnings per share because the options exercise price was greater than the average fair value of the ordinary shares and, therefore, the effect would be anti-dilutive.

SOUFUN HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands of United States Dollars (US\$), except for number of shares and per share data)

22. EARNINGS PER SHARE (continued)

The Overallotment Option (Note 14) was not assumed to be exercised and was not included in the computation of diluted earnings per share for the year ended December 31, 2013 because the average prices of the convertible senior notes and the ADS obtainable upon conversion are at or below the exercise price of the Overallotment Option.

23. SUBSEQUENT EVENTS

On January 3, 2014, the Group issued an additional US\$50,000 of convertible senior notes (the Additional Notes) at an annual interest rate of 2.00% due December 15, 2018 upon exercise of the Overallotment Option by the Initial Purchasers. All terms and conditions of the Additional Notes are identical to the Notes as described in Note 14. The Group received net proceeds of US\$48,939 from the issuance of the Additional Notes.

On March 18, 2014, the Company announced a five-for-one ADS stock split, representing a stock ratio change for Class A ordinary shares from one ADS for one Class A ordinary share to five ADS for one Class A ordinary share. The effect of the stock split on the ADS trading price on the New York Stock Exchange took place on April 7, 2014. Accordingly, all ADS and per ADS information have been adjusted retroactively for this five-for-one ADS stock split for all years presented.

The Company has applied to register in China the Chinese and English dual-language SouFun trademark as well as SouFun in English and (SouFun in Chinese) individually. The Company has successfully registered such trademarks in some industry categories, but its applications for certain other industry categories conflicts with existing registrations or applications for similar trademarks by another PRC company in such industry categories. In April 2014, the Higher People's Court of Beijing Municipality reversed a lower court's judgment in favor of the Company and ordered the PRC Trademark Review and Adjudication Board of State Administration of Industry and Commerce to reconsider the other PRC company's trademark application for SOFANG that it had previously rejected. The Company is currently evaluating its legal options, including appealing to the Supreme People's Court of the PRC against the judgment of the Higher People's Court of Beijing Municipality, which could take months or even longer to resolve. The Company does not currently expect its business would be materially and adversely affected even if it eventually does lose the right to use the trademark in these limited industry categories. However, due to the limited time the Company has had, its assessment of the impact of this judgment and the potential loss of its right to use the trademark is subject to change and the actual impact may be more significant than it currently expects.

Basis of Presentation

For the presentation of the parent company only condensed financial information, the Company records its investment in subsidiaries, PRC Domestic Entities and PRC Domestic Entities subsidiaries which it effectively controls through contractual agreements, under the equity method of accounting as prescribed in ASC 323, Investments-Equity Method and Joint Ventures. Such investments are presented on the condensed balance sheets as Investment in subsidiaries, PRC Domestic Entities, and PRC Domestic Entities subsidiaries and the subsidiaries, PRC Domestic Entities and PRC Domestic Entities subsidiaries profit or loss as Equity in profits of subsidiaries, PRC Domestic Entities and PRC Domestic Entities subsidiaries on the condensed statements of comprehensive income. The parent company only condensed financial information should be read in conjunction with the Company's consolidated financial statements.
