**Table of Contents**

**HURON CONSULTING GROUP INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Tabular amounts in thousands, except per share amounts)**

**(Unaudited)**

**1. Description of Business**

Huron Consulting Group is a leading provider of operational and financial consulting services. We help clients in diverse industries improve performance, transform the enterprise, reduce costs, leverage technology, process and review large amounts of complex data, address regulatory changes, recover from distress, and stimulate growth. Our professionals employ their expertise in finance, operations, strategy, and technology to provide our clients with specialized analyses and customized advice and solutions that are tailored to address each client's particular challenges and opportunities to deliver sustainable and measurable results. We provide consulting services to a wide variety of both financially sound and distressed organizations, including healthcare organizations, leading academic institutions, Fortune 500 companies, governmental entities, and law firms.

**2. Basis of Presentation**

The accompanying unaudited Consolidated Financial Statements reflect the financial position, results of operations and cash flows as of and for the three months ended March 31, 2014 and 2013. These financial statements have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission ( SEC ) for Quarterly Reports on Form 10-Q. Accordingly, these financial statements do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America ( GAAP ) for annual financial statements. In the opinion of management, these financial statements reflect all adjustments of a normal, recurring nature necessary for the fair statement of our financial position, results of operations and cash flows for the interim periods presented in conformity with GAAP. These financial statements should be read in conjunction with the Consolidated Financial Statements and notes thereto for the year ended December 31, 2013 included in our Annual Report on Form 10-K.

Certain amounts reported in the previous year have been reclassified to conform to the 2014 presentation. Our results for any interim period are not necessarily indicative of results for a full year or any other interim period.

During the fourth quarter of 2013, we identified that accrued capital expenditures were incorrectly classified as Purchases of property and equipment, net within the investing activities section of the Consolidated Statements of Cash Flows. The Consolidated Statements of Cash Flows for the three months ended March 31, 2013 presented herein have been revised to reflect the correction of this error. The result of this correction was an increase in net cash used in investing activities of \$1.8 million in the first quarter of 2013 with an offsetting decrease in net cash used in operating activities. This classification error was not considered material for the quarters ended March 31, 2013, June 30, 2013, and September 30, 2013.

**3. New Accounting Pronouncements**

In April 2014, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360), Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This guidance includes amendments that change the requirements for reporting discontinued operations and require additional disclosures about discontinued operations. Under the new guidance, only disposals representing a strategic shift in operations that has (or will have) a major effect on the entity's operations and financial results should be presented as discontinued operations. Examples include a disposal of a major geographic area, a major line of business, a major equity method investment, or other major parts of an entity. Additionally, the revised guidance requires expanded disclosures in the financial statements for discontinued operations as well as for disposals of significant components of an entity that do not qualify for discontinued operations presentation. This guidance is effective for the Company beginning in the first quarter of 2015. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

In July 2013, the FASB issued ASU No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. This guidance requires that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, be presented in the financial statements as either a reduction to a deferred tax asset or separately as a liability depending on the existence, availability and/or use of an operating loss carryforward, a similar tax loss, or a tax credit carryforward. The Company adopted ASU 2013-11 effective January 1, 2014. The adoption of this guidance did not have any effect on the Company's consolidated financial statements.

In March 2013, the FASB issued ASU No. 2013-05, Parent's Accounting for the Cumulative Translation Adjustment Upon Derecognition of Certain Subsidiaries or Groups of Assets Within a Foreign Entity or of an Investment in a Foreign Entity, which amends current accounting guidance on foreign currency matters. This guidance requires that the entire amount of a cumulative

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

translation adjustment related to an entity's investment in a foreign entity should be released when there has been a: (i) sale of a subsidiary or group of net assets within a foreign entity and the sale represents the substantially complete liquidation of the investment in the foreign entity, (ii) loss of a controlling financial interest in an investment in a foreign entity, and (iii) step acquisition for a foreign entity. The Company adopted ASU 2013-05 effective January 1, 2014. The adoption of this guidance did not have any effect on the Company's consolidated financial statements.

**4. Goodwill and Intangible Assets**

The table below sets forth the changes in the carrying amount of goodwill by reportable segment for the three months ended March 31, 2014.

	<b>Huron Healthcare</b>	<b>Huron Legal</b>	<b>Huron Education and Life Sciences</b>	<b>Huron Business Advisory</b>	<b>Total</b>
Balance as of December 31, 2013:					
Goodwill	\$ 355,880	\$ 53,159	\$ 111,504	\$ 159,077	\$ 679,620
Accumulated impairment				(142,983)	(142,983)
Goodwill, net as of December 31, 2013	355,880	53,159	111,504	16,094	536,637
Goodwill recorded in connection with business combinations			8,308		8,308
Goodwill reallocation			(16,744)	16,744	
Foreign currency translation		91	(162)		(71)
Goodwill, net as of March 31, 2014	\$ 355,880	\$ 53,250	\$ 102,906	\$ 32,838	\$ 544,874

During the first quarter of 2014, we reorganized our internal operating structure to better align our service offerings and moved our Enterprise Performance Management ( EPM ) practice (formerly referred to as Blue Stone International, a business which we acquired during the fourth quarter of 2013) from the Huron Education and Life Sciences segment to the Huron Business Advisory segment. As a result of this change, we reassigned the goodwill balance of the EPM practice, which totaled \$16.7 million as of March 31, 2014, from the Huron Education and Life Sciences reporting unit to the EPM reporting unit, which is part of the Huron Business Advisory segment.

In conjunction with the goodwill reassignment, we performed an interim impairment test for the goodwill balances within our Huron Education and Life Sciences and EPM reporting units as of March 31, 2014. Our goodwill impairment test was performed using the quantitative two-step process. Based on the results of the first step of the goodwill impairment test, we determined that the fair values of our Huron Education and Life Sciences and EPM reporting units exceeded their carrying values, including goodwill. As the fair value of each reporting unit exceeded its carrying value, including goodwill, the second step of the goodwill impairment test was not necessary.

During the first quarter of 2014, the Company completed the acquisition of The Frankel Group Associates LLC, a New York-based life sciences consulting firm, within the Huron Education and Life Sciences segment. The aggregate fair value of the consideration transferred totaled \$18.0 million, which includes the fair value of contingent consideration of \$0.6 million. As part of the purchase price allocation, we recorded \$5.7 million of intangible assets and \$8.3 million of goodwill.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

Intangible assets as of March 31, 2014 and December 31, 2013 consisted of the following:

	Useful Life in Years	March 31, 2014		December 31, 2013	
		Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Customer contracts	1	\$ 686	\$ 451	\$ 689	\$ 226
Customer relationships	3 to 13	35,747	15,990	31,946	14,814
Non-competition agreements	1 to 6	6,540	4,014	5,480	3,655
Trade names	1 to 8	230	58	120	24
Technology and software	3 to 5	4,321	2,786	4,041	2,559
Document reviewer database	3	450	315	450	270
License	2	50	13	50	6
Total		\$ 48,024	\$ 23,627	\$ 42,776	\$ 21,554

Identifiable intangible assets with finite lives are amortized over their estimated useful lives. The majority of customer relationships are amortized on an accelerated basis to correspond to the cash flows expected to be derived from the relationships. All other intangible assets are amortized on a straight-line basis.

Intangible assets amortization expense was \$2.5 million and \$1.5 million for the three months ended March 31, 2014 and March 31, 2013, respectively. Estimated annual intangible assets amortization expense is \$9.0 million for 2014, \$6.4 million for 2015, \$4.5 million for 2016, \$3.1 million for 2017, \$2.1 million for 2018, and \$1.1 million for 2019. Actual future amortization expense could differ from these estimated amounts as a result of future acquisitions and other factors.

**5. Earnings Per Share**

Basic earnings per share excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period, excluding unvested restricted common stock. Diluted earnings per share reflects the potential reduction in earnings per share that could occur if securities or other contracts to issue common stock were exercised or converted into common stock under the treasury stock method. Earnings per share under the basic and diluted computations are as follows:

	<b>Three Months Ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
Net income from continuing operations	\$ 34,126	\$ 11,369
Loss from discontinued operations, net of tax		(32)
<b>Net income</b>	<b>\$ 34,126</b>	<b>\$ 11,337</b>
Weighted average common shares outstanding basic	22,588	22,139
Weighted average common stock equivalents	498	348
Weighted average common shares outstanding diluted	23,086	22,487
<b>Net earnings per basic share:</b>		
Net income from continuing operations	\$ 1.51	\$ 0.51
Loss from discontinued operations, net of tax		
<b>Net income</b>	<b>\$ 1.51</b>	<b>\$ 0.51</b>
<b>Net earnings per diluted share:</b>		
Net income from continuing operations	\$ 1.48	\$ 0.51
Loss from discontinued operations, net of tax		(0.01)
<b>Net income</b>	<b>\$ 1.48</b>	<b>\$ 0.50</b>

**Table of Contents**

**HURON CONSULTING GROUP INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Tabular amounts in thousands, except per share amounts)**

**(Unaudited)**

The computation of diluted earnings per share excludes unvested restricted common stock, outstanding options and other common stock equivalents in periods where inclusion of such potential common stock instruments would be anti-dilutive. There were no anti-dilutive common stock equivalents for the three months ended March 31, 2014. The weighted average common stock equivalents presented above do not include the effect of approximately 78,900 common stock equivalents for the three months ended March 31, 2013, because their inclusion would be anti-dilutive.

**6. Borrowings**

During 2011, the Company and certain of the Company's subsidiaries as guarantors entered into an Amended and Restated Credit Agreement with various financial institutions, as amended by the first, second, and third amendments to the credit agreement dated as of August 31, 2012, September 25, 2013, and February 14, 2014, respectively (as amended and modified, the 2011 Credit Agreement). The second amendment to the credit agreement extended the term of the 2011 Credit Agreement from August 31, 2017 to September 25, 2018, and provided for less restrictive covenants, among other things.

The 2011 Credit Agreement consists of a senior secured credit facility in an aggregate principal amount of \$450.0 million comprised of a five-year revolving credit facility ( Revolver ) under which the Company may borrow from time to time up to \$247.5 million and a \$202.5 million five-year term loan facility ( Term Loan ) that was funded in a single advance on the closing date of the first amendment. The 2011 Credit Agreement provides for the option to increase the revolving credit facility in an aggregate amount of up to \$50 million subject to certain requirements as defined in the 2011 Credit Agreement. The proceeds of the senior secured credit facility were used to refinance existing indebtedness and will continue to be used for working capital, capital expenditures, and other corporate purposes.

The obligations under the 2011 Credit Agreement are secured pursuant to a Security Agreement with Bank of America, N.A. as Collateral Agent. The Security Agreement grants Bank of America, N.A., for the ratable benefit of the lenders under the 2011 Credit Agreement, a first-priority lien, subject to permitted liens, on substantially all of the personal property assets of the Company and the subsidiary guarantors. The Revolver and Term Loan are also secured by a pledge of 100% of the voting stock or other equity interests in our domestic subsidiaries and 65% of the voting stock or other equity interests in our foreign subsidiaries.

Fees and interest on borrowings vary based on our total debt to earnings before interest, taxes, depreciation and amortization ( EBITDA ) ratio as set forth in the 2011 Credit Agreement. Interest is based on a spread over the London Interbank Offered Rate ( LIBOR ) or a spread over the base rate, as selected by the Company. The base rate is the greater of (a) the Federal Funds Rate plus 0.5%, (b) the Prime Rate and (c) except during a Eurodollar Unavailability Period, the Eurodollar Rate plus 1.0%.

As of the date of the second amendment to the credit agreement, the Term Loan had a principal amount outstanding of \$181.3 million. This principal balance is subject to scheduled quarterly amortization payments that began in 2013. The aggregate annual quarterly amortization payments, expressed as a percentage of the original principal balance, are as follows: 6.9% in 2013, 13.8% in 2014, 15.8% in 2015, 16.6% in 2016, 16.6% in 2017, and 30.3% in 2018, as set forth in the 2011 Credit Agreement. The maturity date for the Term Loan is September 25, 2018, at which time the outstanding principal balance and all accrued interest will be due and payable in full. All outstanding borrowings under the Revolver, as amended, will be due upon expiration of the 2011 Credit Agreement on September 25, 2018. As of March 31, 2014, the Company has made all scheduled quarterly amortization payments as they have come due in accordance with the Term Loan.

Under the 2011 Credit Agreement, dividends are restricted to an amount up to \$50 million plus 50% of cumulative consolidated net income from the closing date of the 2011 Credit Agreement plus 50% of the net cash proceeds from equity issuances. In addition, certain acquisitions and similar transactions need to be approved by the lenders.

The 2011 Credit Agreement contains quarterly financial covenants that require us to maintain a minimum fixed charge coverage ratio of 2.25 to 1.00 and a maximum leverage ratio that varies throughout the term and was 3.25 to 1.00 as of March 31, 2014, as those ratios are defined therein, as well as a minimum net worth greater than \$150 million. At March 31, 2014, we were in compliance with these financial covenants with a fixed charge coverage ratio of 4.75 to 1.00, a leverage ratio of 0.91 to 1.00, and net worth greater than \$150 million. At December 31, 2013, we were also in compliance with these financial debt covenants.

The borrowing capacity under the 2011 Credit Agreement is reduced by any outstanding letters of credit and payments under the Term Loan. At March 31, 2014, outstanding letters of credit totaled \$5.5 million and are primarily used as security deposits for our office facilities. As of March 31, 2014, the unused borrowing capacity under the 2011 Credit Agreement was \$242.0 million. Borrowings outstanding under this credit facility at March 31, 2014 totaled \$162.5 million, all of which was under the Term Loan. These borrowings carried a weighted average interest rate of 2.3%, including the effect of the interest rate swaps described below in Note 8 Derivative Instruments and Hedging Activity. Borrowings outstanding at December 31, 2013 were \$168.8 million and carried a weighted average interest rate of 2.0%.

Table of Contents

**HURON CONSULTING GROUP INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Tabular amounts in thousands, except per share amounts)**

**(Unaudited)**

**7. Restructuring Charges**

During the first quarter of 2014, we incurred a \$0.1 million pretax restructuring charge related to workforce reductions in our London office to better align our resources with market demand in our Huron Legal segment. We did not incur a restructuring charge during the first quarter of 2013.

As of March 31, 2014, our restructuring charge liability is \$0.4 million, and primarily consists of \$0.3 million related to the present value of remaining lease payments, net of estimated sublease income, for our vacated office spaces in San Francisco and Washington, D.C. and \$0.1 million related to severance costs. The restructuring charge liability is included as a component of Accrued expenses and Deferred compensation and other liabilities.

**8. Derivative Instruments and Hedging Activity**

On December 8, 2011, we entered into a forward amortizing interest rate swap agreement effective on February 29, 2012 and ending on April 14, 2016. We entered into this derivative instrument to hedge against the interest rate risks of our variable-rate borrowings described in Note 6 Borrowings. The swap had an initial notional amount of \$56.6 million and amortizes throughout the term. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.9875%.

On May 30, 2012, we entered into a forward amortizing interest rate swap agreement effective on May 31, 2012 and ending on April 14, 2016. We entered into this derivative instrument to further hedge against the interest rate risks of our variable-rate borrowings. The swap had an initial notional amount of \$37.0 million and amortizes throughout the term. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.70%.

On April 4, 2013, we entered into a forward amortizing interest rate swap agreement effective on March 31, 2014 and ending on August 31, 2017. We entered into this derivative instrument to further hedge against the interest rate risks of our variable-rate borrowings. The swap has an initial notional amount of \$60.0 million and amortizes such that, collectively with our other two interest rate swaps, we are effectively fixing the interest rate on 80% of our Term Loan borrowings throughout the term of the swap agreement. Under the terms of the interest rate swap agreement, we will receive from the counterparty interest on the notional amount based on one-month LIBOR and we will pay to the counterparty a fixed rate of 0.985%.

ASC Topic 815, Derivatives and Hedging, requires companies to recognize all derivative instruments as either assets or liabilities at fair value on the balance sheet. In accordance with ASC Topic 815, we have designated these derivative instruments as cash flow hedges. As such, changes in the fair value of the derivative instruments are recorded as a component of other comprehensive income ( OCI ) to the extent of effectiveness and reclassified into

interest expense upon settlement. The ineffective portion of the change in fair value of the derivative instruments is recognized in interest expense. As of March 31, 2014, it was anticipated that \$0.5 million of the losses, net of tax, currently recorded in accumulated other comprehensive loss will be reclassified into earnings within the next 12 months. Our interest rate swap agreements were effective during the three months ended March 31, 2014.

The table below sets forth additional information relating to these interest rate swaps designated as cash flow hedging instruments as of March 31, 2014 and December 31, 2013.

<b>Balance Sheet Location</b>	<b>Fair Value (Derivative Asset and Liability)</b>	
	<b>March 31, 2014</b>	<b>December 31, 2013</b>
Other non-current assets	\$ 797	\$ 752
Accrued expenses	\$ 927	\$ 765
Deferred compensation and other liabilities	\$ 64	\$ 140

**Table of Contents**

**HURON CONSULTING GROUP INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Tabular amounts in thousands, except per share amounts)**

**(Unaudited)**

All of the Company's derivative instruments are transacted under the International Swaps and Derivatives Association (ISDA) master agreements. These agreements permit the net settlement of amounts owed in the event of default and certain other termination events. Although netting is permitted, it is the Company's policy to record all derivative assets and liabilities on a gross basis on the Consolidated Balance Sheets. If we had elected to net derivative instruments subject to master netting agreements as of March 31, 2014 and December 31, 2013, the impact would have reduced our derivative assets and liabilities by \$0.8 million for both periods.

We do not use derivative instruments for trading or other speculative purposes, and we did not have any other derivative instruments or hedging activities as of March 31, 2014. Refer to Note 10 Other Comprehensive Income (Loss) for additional information on our derivative instruments.

**9. Fair Value of Financial Instruments**

Certain of our assets and liabilities are measured at fair value. ASC Topic 820, Fair Value Measurements and Disclosures, defines fair value as the price that would be received to sell an asset or the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a fair value hierarchy for inputs used in measuring fair value and requires companies to maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy consists of three levels based on the objectivity of the inputs as follows:

Level 1 Inputs Quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs Quoted prices in active markets for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs Unobservable inputs for the asset or liability, and include situations in which there is little, if any, market activity for the asset or liability.

Cash and cash equivalents are stated at cost, which approximates fair market value. The carrying values for receivables from clients, unbilled services, accounts payable, deferred revenues and other accrued liabilities reasonably approximate fair market value due to the nature of the financial instrument and the short-term maturity of these items. The carrying values of our bank borrowings reported in the Consolidated Balance Sheets approximate fair value, using level 2 inputs, since they bear interest at variable rates based on market rates as set forth in the 2011 Credit Agreement. Refer to Note 6 Borrowings.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

The table below sets forth our fair value hierarchy for our financial assets and liabilities measured at fair value on a recurring basis as of March 31, 2014 and December 31, 2013.

	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Total</b>
<b>March 31, 2014</b>				
<b>Assets:</b>				
Promissory note	\$	\$	\$ 2,542	\$ 2,542
Interest rate swaps		330		330
<b>Total assets</b>	<b>\$</b>	<b>\$ 330</b>	<b>\$ 2,542</b>	<b>\$ 2,872</b>
<b>Liabilities:</b>				
Interest rate swaps	\$	\$ 524	\$	\$ 524
Deferred acquisition payment			5,253	5,253
Contingent acquisition liability			590	590
<b>Total liabilities</b>	<b>\$</b>	<b>\$ 524</b>	<b>\$ 5,843</b>	<b>\$ 6,367</b>
<b>December 31, 2013</b>				
<b>Asset:</b>				
Promissory note	\$	\$	\$ 2,726	\$ 2,726
Interest rate swaps		430		430
<b>Total assets</b>	<b>\$</b>	<b>\$ 430</b>	<b>\$ 2,726</b>	<b>\$ 3,156</b>
<b>Liabilities:</b>				
Interest rate swaps	\$	\$ 583	\$	\$ 583
Deferred acquisition payment			5,177	5,177
<b>Total liabilities</b>	<b>\$</b>	<b>\$ 583</b>	<b>\$ 5,177</b>	<b>\$ 5,760</b>

As part of the consideration received for the sale of our Accounting Advisory practice on December 30, 2011, the Company received a \$3.5 million promissory note payable over four years. During the first quarter of 2014, we refinanced the note to temporarily decrease the quarterly payment amounts and extend the term of the note to mature on October 31, 2017. The note will continue to be paid to the Company in quarterly installments, in amounts which increase over time. The fair value of the note is based on the net present value of the projected cash flows using a discount rate of 14%, which accounts for the risks associated with the note. The decrease in the fair value of the note during the first three months of 2014 reflects the principal payments received, less the accretion of interest income in excess of interest payments received. The portion of the note expected to be received in the next twelve months is recorded as a receivable in Prepaid expenses and other current assets. The remaining portion of the note is recorded in Other non-current assets.

The fair value of the interest rate swaps was derived using estimates to settle the interest rate swap agreements, which are based on the net present value of expected future cash flows on each leg of the swaps utilizing market-based inputs and discount rates reflecting the risks involved.

Deferred acquisition payments are included in the total purchase consideration for certain business acquisitions the Company has completed and represent fixed future payments owed to the sellers of those businesses. The fair value of the deferred acquisition payment is based on the two-year payment term and the net present value of expected cash flows using a discount rate of 6%. The increase in the fair value of the deferred acquisition payment during the first three months of 2014 reflects the accretion of interest expense in excess of interest payments made.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

The fair value of the contingent acquisition liability was calculated at the acquisition date using a probability weighted estimated payout based on assumptions used in our latest projections and discounted to fair value using a discount rate of 1.9%. On a quarterly basis, the contingent acquisition liability will be remeasured at current fair value with any changes to the fair value recorded in earnings. The fair value of the contingent acquisition liability is recorded in Accrued expenses.

**10. Other Comprehensive Income (Loss)**

The table below sets forth the components of other comprehensive income (loss), net of tax, for the three months ended March 31, 2014 and 2013.

	Three Months Ended March 31, 2014			Three Months Ended March 31, 2013		
	Before Taxes	Tax (Expense) Benefit	Net of Taxes	Before Taxes	Tax (Expense) Benefit	Net of Taxes
Other comprehensive income:						
Foreign currency translation adjustment	\$ (106)	\$	\$ (106)	\$ (1,048)	\$ 51	\$ (997)
Unrealized gain (loss) on cash flow hedges:						
Change in fair value	\$ (171)	\$ 69	\$ (102)	\$ (25)	\$ 11	\$ (14)
Reclassification adjustments into earnings	130	(52)	78	137	(55)	82
Net unrealized gain (loss)	\$ (41)	\$ 17	\$ (24)	\$ 112	\$ (44)	\$ 68
Other comprehensive income (loss)	\$ (147)	\$ 17	\$ (130)	\$ (936)	\$ 7	\$ (929)

The before tax amounts reclassified from accumulated other comprehensive loss related to our cash flow hedges are recorded to Interest expense, net of interest income.

Accumulated other comprehensive loss, net of tax, includes the following components:

Foreign Currency Translation	Net Unrealized Losses on	Accumulated Other Comprehensive Loss
---------------------------------	-----------------------------	---

	<b>Adjustments</b>	<b>Derivatives</b>	
Balance, December 31, 2013	\$ (716)	\$ (81)	\$ (797)
Current period change	(106)	(24)	(130)
Balance, March 31, 2014	\$ (822)	\$ (105)	\$ (927)

## 11. Income Taxes

The Company's effective tax rates for the three months ended March 31, 2014 and 2013 were 16.0% and 41.7%, respectively. The effective tax rate for the three months ended March 31, 2014 was lower than the statutory rate, inclusive of state income taxes, due primarily to the impact of a tax election made in the first quarter of 2014 to classify one of our wholly-owned foreign subsidiaries as a disregarded entity for U.S. federal income tax purposes (commonly referred to as a check-the-box election). As a result of this election, we expect to realize an income tax benefit of \$13.8 million, of which \$2.4 million is unrecognized, resulting in a net recognized tax benefit of \$11.4 million during the quarter. This recognized benefit was partially offset by \$1.2 million in expenses related to the establishment of a valuation allowance for certain foreign tax credits and increased deferred tax liabilities as a result of the aforementioned election. The effective tax rate for the three months ended March 31, 2013 was higher than the statutory rate, inclusive of state income taxes, due primarily to the impact of foreign losses with no tax benefit and certain non-deductible business expenses, partially offset by the impact of the retroactive reinstatement of the federal research and development tax credit, which was enacted during the quarter.

**12. Commitments, Contingencies and Guarantees**

**Litigation**

*Qui Tam Action*

On December 9, 2009, plaintiff, Associates Against Outlier Fraud, filed a first amended *qui tam* complaint against Huron Consulting Group Inc. and others under the federal and New York state False Claims Act ( FCA ) in the United States District Court for the Southern District of New York. The federal and state FCA authorize private individuals (known as relators ) to sue on behalf of the government (known as *qui tam* actions) alleging that false or fraudulent claims were knowingly submitted to the government. Once a *qui tam* action is filed, the government may elect to intervene in the action. If the government declines to intervene, the relator may proceed with the action. Under the federal and state FCA, the government may recover treble damages and civil penalties (civil penalties of up to \$11,000 per violation under the federal FCA and \$12,000 per violation under the state FCA). On January 6, 2010, the United States declined to intervene in the lawsuit. After the Court granted Huron's motion to dismiss without prejudice, on September 29, 2010, the relator filed a second amended complaint alleging that Huron and others caused St. Vincent Catholic Medical Center to receive more than \$30 million in inflated outlier payments under the Medicare and Medicaid programs in violation of the federal and state FCA and seeking to recover an unspecified amount of civil penalties. On March 8, 2013, the Court granted Huron's motion for summary judgment and dismissed the relator's second amended complaint in its entirety with prejudice. As a result, we reversed the charge of \$1.2 million relating to settlement discussions which we originally recorded in the second quarter of 2012, in accordance with ASC Topic 450, Contingencies. The relator filed an appeal on April 2, 2013. On April 8, 2013, Huron filed an appeal of an earlier denial of a motion to dismiss filed by Huron which argued that the relator's action was barred because, under the FCA jurisdictional bar, the action was based on publicly disclosed information and the relator cannot qualify as an original source. We continue to believe that the claims are without merit and intend to vigorously defend ourselves in this matter.

*Tamalluk Business Development LLC v. Huron Consulting Services LLC (Abu Dhabi Court of First Instance)*

On August 22, 2013, we learned that Tamalluk Business Development LLC, who was Huron's agent in Abu Dhabi, and its principal, Mubarak Ahmad Bin Hamouda Al Dhaheri, filed a claim against Huron Consulting Services LLC in the Abu Dhabi Court of First Instance. The lawsuit alleges that under the agency agreement, Tamalluk was entitled to a commission on certain amounts that Huron collected from Abu Dhabi clients, and that Huron breached the agreement with Tamalluk and caused damages by declining to enter into a client engagement in Abu Dhabi and subsequently terminating the agency agreement with Tamalluk. Claimants allege they are entitled to \$50 million for damage to reputation and defamation and another \$50 million for breach of contract. Huron submitted its written response on September 25, 2013. The response states that Huron had the right to terminate the agency agreement with Tamalluk, and Huron had the sole discretion whether to accept or reject an engagement. Huron also filed a counterclaim on October 10, 2013 seeking a judicial order to permit the cancellation of Huron's commercial license to

allow Huron to cease doing business in Abu Dhabi. On December 17, 2013, the Abu Dhabi court ruled in Huron's favor on all claims and held that Huron permissibly terminated the contract with Tamalluk and Huron does not owe Tamalluk any compensation related to Tamalluk's claims. In addition, the court terminated the Local Sponsorship Agreement as requested by Huron in its counterclaim. Tamalluk appealed the decision, and on March 18, 2014, the appellate court upheld the decision in Huron's favor. Tamalluk has until May 18, 2014 to appeal to the highest court in Abu Dhabi.

From time to time, we are involved in legal proceedings and litigation arising in the ordinary course of business. As of the date of this Quarterly Report on Form 10-Q, we are not a party to or threatened with any other litigation or legal proceeding that, in the current opinion of management, could have a material adverse effect on our financial position or results of operations. However, due to the risks and uncertainties inherent in legal proceedings, actual results could differ from current expected results.

### **Guarantees and Indemnification**

Guarantees in the form of letters of credit totaling \$5.5 million and \$4.9 million were outstanding at March 31, 2014 and December 31, 2013, respectively, to support certain office lease obligations as well as Middle East performance and bid bonds.

To the extent permitted by law, our bylaws and articles of incorporation require that we indemnify our officers and directors against judgments, fines and amounts paid in settlement, including attorneys' fees, incurred in connection with civil or criminal action or proceedings, as it relates to their services to us if such person acted in good faith. Although there is no limit on the amount of indemnification, we may have recourse against our insurance carrier for certain payments made.

**Table of Contents**

**HURON CONSULTING GROUP INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Tabular amounts in thousands, except per share amounts)**

**(Unaudited)**

**13. Segment Information**

Segments are defined by ASC Topic 280, Segment Reporting, as components of a company that engage in business activities from which they may earn revenues and incur expenses, and for which separate financial information is available and is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. Our chief operating decision maker manages the business under five operating segments, which are our reportable segments: Huron Healthcare, Huron Legal, Huron Education and Life Sciences, Huron Business Advisory, and All Other.

**Huron Healthcare**

Our Huron Healthcare segment provides consulting services to national and regional hospitals and integrated health systems, academic medical centers, community hospitals, and physician practices. This segment provides consulting services related to hospital or healthcare organization performance improvement, revenue cycle improvement, clinical quality and care variation, labor productivity, non-labor cost management, information technology, patient flow improvement, and physician practice management.

**Huron Legal**

Our Huron Legal segment provides advisory and business services to assist law departments of major global corporations and law firms with their cost and risk effectiveness, organizational design and development, and operational efficiency. These services add value to organizations by helping them enhance client service and reduce the amounts spent on legal services. Our expertise focuses on strategic and management consulting, cost management, and technology and information management, including matter management, records management, document review, and discovery services. Included in this segment's offerings is our Integrated Analytics solution, which is designed to deliver an innovative, comprehensive process resulting in more affordable and predictable discovery costs.

**Huron Education and Life Sciences**

Our Huron Education and Life Sciences segment provides management consulting services and software solutions to the higher education, academic medical center, pharmaceutical and medical device, and research industries. We work with our clients to develop and implement performance improvement, technology, and research enterprise solutions to help them address challenges relating to financial management, strategy, operational and organizational effectiveness, research administration, and regulatory compliance.

### **Huron Business Advisory**

Our Huron Business Advisory segment (formerly referred to as Huron Financial) provides financial advisory; interim management; operational improvement; capital advisory; valuation; enterprise systems planning, design, and implementation; and enterprise performance management services. We assist clients in a broad range of industries and across the spectrum from healthy, well-capitalized companies to organizations in transition, creditors, owners, investors, and other key constituents in connection with out-of-court restructurings and bankruptcy proceedings. Our professionals consist of certified public accountants, certified insolvency and restructuring advisors, certified turnaround professionals, MBAs, JDs, and chartered financial analysts as well as former chief restructuring officers, chief executive officers, chief financial officers, and professionals with significant board governance experience.

### **All Other**

Our All Other segment consists of any line of business not managed by our other four operating segments. These businesses include our public sector consulting practice and our foreign healthcare and strategic consulting operations based in the Middle East.

During the first quarter of 2014, we reorganized our internal operating structure to better align our service offerings and moved our EPM practice (formerly referred to as Blue Stone International, a business which we acquired during the fourth quarter of 2013) from the Huron Education and Life Sciences segment to the Huron Business Advisory segment.

Table of Contents**HURON CONSULTING GROUP INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

Segment operating income consists of the revenues generated by a segment, less the direct costs of revenue and selling, general and administrative costs that are incurred directly by the segment. Unallocated corporate costs include costs related to administrative functions that are performed in a centralized manner that are not attributable to a particular segment. These administrative function costs include costs for corporate office support, certain office facility costs, costs relating to accounting and finance, human resources, legal, marketing, information technology, and Company-wide business development functions, as well as costs related to overall corporate management.

The table below sets forth information about our operating segments for the three months ended March 31, 2014 and 2013, along with the items necessary to reconcile the segment information to the totals reported in the accompanying Consolidated Financial Statements.

	<b>Three Months Ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
<b>Huron Healthcare:</b>		
Revenues	\$ 107,548	\$ 78,745

All Other	421	257
Unallocated assets <sup>(2)</sup>	677,906	706,661
 Total assets	 \$ 867,840	 \$ 885,600

- (1) The December 31, 2013 segment asset balances have been reclassified to reflect the move of our EPM practice from the Huron Education and Life Sciences segment to the Huron Business Advisory segment.
- (2) Goodwill and intangible assets are included in unallocated assets, as management does not evaluate these items at the segment level when assessing segment performance or allocating resources.

At March 31, 2014, no single client accounted for greater than 10% of our combined receivables and unbilled services balances. At December 31, 2013, one Huron Healthcare client's total receivables and unbilled services balance represented 14% of our total receivables and unbilled services balance. No other client's total receivables and unbilled services represented greater than 10% of our total receivables and unbilled services balance at December 31, 2013. No single client generated greater than 10% of our consolidated revenues during the three months ended March 31, 2014 and 2013.

**14. Subsequent Events**

On April 23, 2014, we entered into an agreement to acquire the assets of Vonlay, LLC, a healthcare technology consulting firm, specializing in clinical information systems and electronic health records implementations and optimizations. The transaction, which is subject to certain customary closing conditions, is expected to close in May 2014. Vonlay will be included within the Huron Healthcare segment.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

In this Quarterly Report on Form 10-Q, unless the context otherwise requires, the terms "Huron," "Company," "we," "us" and "our" refer to Huron Consulting Group Inc. and its subsidiaries.

Statements in this Quarterly Report on Form 10-Q that are not historical in nature, including those concerning the Company's current expectations about its future requirements and needs, are forward-looking statements as defined in Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and the Private Securities Litigation Reform Act of 1995. Forward-looking statements are identified by words such as "may," "should," "expects," "provides," "anticipates," "assumes," "can," "will," "meets," "could," "likely," "intends," "might," "predicts," "seeks," "estimates," "plans" or "continues." These forward-looking statements reflect our current expectations about our future requirements and needs, results, levels of activity, performance, or achievements, including, without limitation, current expectations with respect to, among other factors, utilization rates, billing rates, and the number of revenue-generating professionals; that we are able to expand our service offerings; that we successfully integrate the businesses we acquire; and that existing market conditions continue to trend upward. These statements involve known and unknown risks, uncertainties and other factors, including, among others, those described under "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013 that may cause actual results, levels of activity, performance or achievements to be materially different from any anticipated results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. We disclaim any obligation to update or revise any forward-looking statements as a result of new information or future events, or for any other reason.

**OVERVIEW**

**Our Business**

Huron Consulting Group is a leading provider of operational and financial consulting services. We help clients in diverse industries improve performance, transform the enterprise, reduce costs, leverage technology, process and review large amounts of complex data, address regulatory changes, recover from distress, and stimulate growth. Our professionals employ their expertise in finance, operations, strategy, and technology to provide our clients with specialized analyses and customized advice and solutions that are tailored to address each client's particular challenges and opportunities to deliver sustainable and measurable results. We provide consulting services to a wide variety of both financially sound and distressed organizations, including healthcare organizations, leading academic institutions, Fortune 500 companies, governmental entities and law firms. Huron has worked with more than 425 health systems, hospitals, and academic medical centers; more than 400 corporate general counsel; and more than 350 universities and research institutions.

We provide our services through five operating segments: Huron Healthcare, Huron Legal, Huron Education and Life Sciences, Huron Business Advisory, and All Other.

**Huron Healthcare**

Our Huron Healthcare segment provides consulting services to national and regional hospitals and integrated health systems, academic medical centers, community hospitals, and physician practices. We deliver solutions to empower our clients to address challenges in the rapidly-evolving healthcare environment and improve quality, increase revenue, reduce expenses, and enhance patient, physician, and employee satisfaction across the healthcare enterprise. Our people provide a depth of expertise across the healthcare industry, and our culture of collaboration extends to our

client engagements, enabling teams to effectively implement successful client projects.

**Huron Legal**

Our Huron Legal segment provides advisory and business services to assist law departments of major global corporations and their associated law firms with cost and risk reduction, organizational design and development, and operational efficiency. These services add value to organizations by helping them enhance client service and reduce the amount spent on legal services. Our expertise focuses on strategic and management consulting, cost management, and technology and information management, including matter management, records management, document review, and discovery services. Included in this segment's offerings is our Integrated Analytics solution, which is designed to deliver an innovative, comprehensive process resulting in more affordable and predictable discovery costs.

## **Table of Contents**

### **Huron Education and Life Sciences**

Our Huron Education and Life Sciences segment provides management consulting services and software solutions to the higher education, academic medical center, pharmaceutical and medical device, and research industries. We work with our clients to develop and implement performance improvement, technology, and research enterprise solutions to help them address challenges relating to financial management, strategy, operational and organizational effectiveness, research administration, and regulatory compliance.

### **Huron Business Advisory**

Our Huron Business Advisory segment (formerly referred to as Huron Financial) provides financial advisory; interim management; operational improvement; capital advisory; valuation; enterprise systems planning, design, and implementation; and enterprise performance management services. We assist clients in a broad range of industries and across the spectrum from healthy, well-capitalized companies to organizations in transition, creditors, owners, investors, and other key constituents in connection with out-of-court restructurings and bankruptcy proceedings. Our professionals consist of certified public accountants, certified insolvency and restructuring advisors, certified turnaround professionals, MBAs, JDs, and chartered financial analysts as well as former chief restructuring officers, chief executive officers, chief financial officers, and professionals with significant board governance experience.

### **All Other**

Our All Other segment consists of any line of business not managed by our other four operating segments. These businesses include our public sector consulting practice and our foreign healthcare and strategic consulting operations based in the Middle East.

## **How We Generate Revenues**

A large portion of our revenues is generated by our full-time consultants who provide consulting services to our clients and are billable to our clients based on the number of hours worked. A smaller portion of our revenues is generated by our other professionals, also referred to as full-time equivalents, all of whom work variable schedules as needed by our clients. Other professionals include specialized finance and operational consultants and our document review and electronic data discovery groups, as well as full-time employees who provide software support and maintenance services to our clients. Our document review and electronic data discovery groups generate revenues primarily based on number of hours worked and units produced, such as pages reviewed or amount of data processed. We translate the hours that these other professionals work on client engagements into a full-time equivalent measure that we use to manage our business. We refer to our full-time consultants and other professionals collectively as revenue-generating professionals.

Revenues generated by our full-time consultants are primarily driven by the number of consultants we employ and their utilization rates, as well as the billing rates we charge our clients. Revenues generated by our other professionals, or full-time equivalents, are largely dependent on the number of consultants we employ, their hours worked, and billing rates charged, as well as the number of pages reviewed and amount of data processed in the case of our document review and electronic data discovery groups, respectively.

We generate the majority of our revenues from providing professional services under four types of billing arrangements: time-and-expense, fixed-fee (including software license revenue), performance-based, and support and maintenance for the software we deploy.

Time-and-expense billing arrangements require the client to pay based on either the number of hours worked, the number of pages reviewed, or the amount of data processed by our revenue-generating professionals at agreed upon rates. We recognize revenues under time-and-expense billing arrangements as the related services are rendered. Time-and-expense engagements represented 43.4% and 44.9% of our revenues in the three months ended March 31, 2014 and 2013, respectively.

In fixed-fee billing arrangements, we agree to a pre-established fee in exchange for a pre-determined set of professional services, which may include the deployment of our proprietary software. We set the fees based on our estimates of the costs and timing for completing the engagements. It is the client's expectation in these engagements that the pre-established fee will not be exceeded except in mutually agreed upon circumstances. We generally recognize revenues under fixed-fee billing arrangements using a proportionate performance approach, which is based on work completed to-date versus our estimates of the total services to be provided under the engagement.

## **Table of Contents**

We generate revenues from licensing two types of proprietary software to clients: revenue cycle management software and research administration and compliance software. Licenses for our revenue cycle management software are sold only as a component of our consulting projects, and the services we provide are essential to the functionality of the software. Therefore, revenues from these software licenses are recognized over the term of the related consulting services contract. License revenue from our research administration and compliance software is generally recognized in the month in which the software is delivered.

Fixed-fee engagements (including software license revenue) represented approximately 38.2% and 40.3% of our revenues for the three months ended March 31, 2014 and 2013, respectively.

In performance-based fee billing arrangements, fees are tied to the attainment of contractually defined objectives. We enter into performance-based engagements in essentially two forms. First, we generally earn fees that are directly related to the savings formally acknowledged by the client as a result of adopting our recommendations for improving operational and cost effectiveness in the areas we review. Second, we have performance-based engagements in which we earn a success fee when and if certain predefined outcomes occur. Often, performance-based fees supplement our time-and-expense or fixed-fee engagements. We do not recognize revenues under performance-based billing arrangements until all related performance criteria are met. Performance-based fee revenues represented 15.4% and 11.5% of our revenues in the three months ended March 31, 2014 and 2013, respectively. Performance-based fee engagements may cause significant variations in quarterly revenues and operating results depending on the timing of achieving the performance-based criteria.

Clients that have purchased one of our software licenses can pay an annual fee for software support and maintenance. Annual support and maintenance fee revenue is recognized ratably over the support period, which is generally one year. These fees are billed in advance and included in deferred revenues until recognized. Support and maintenance revenues represented 3.0% and 3.3% of our revenues in the three months ended March 31, 2014 and 2013, respectively.

Our quarterly results are impacted principally by our full-time consultants' utilization rate, the billing rate we charge our clients, the number of our revenue-generating professionals who are available to work, and the amount of performance-based fees recognized, which often vary significantly between quarters. Our utilization rate can be negatively affected by increased hiring because there is generally a transition period for new professionals that results in a temporary drop in our utilization rate. Our utilization rate can also be affected by seasonal variations in the demand for our services from our clients. For example, during the third and fourth quarters of the year, vacations taken by our clients can result in the deferral of activity on existing and new engagements, which would negatively affect our utilization rate. The number of business work days is also affected by the number of vacation days taken by our consultants and holidays in each quarter. We typically have fewer business work days available in the fourth quarter of the year, which can impact revenues during that period.

Time-and-expense engagements do not provide us with a high degree of predictability as to performance in future periods. Unexpected changes in the demand for our services can result in significant variations in utilization and revenues and present a challenge to optimal hiring and staffing. Moreover, our clients typically retain us on an engagement-by-engagement basis, rather than under long-term recurring contracts. The volume of work performed for any particular client can vary widely from period to period.

## **Business Strategy, Opportunities and Challenges**

Our primary strategy is to meet the needs of our clients by providing a balanced portfolio of service offerings and capabilities, so that we can adapt quickly and effectively to emerging opportunities in the marketplace. To achieve

this, we continue to hire highly qualified professionals and have entered into select acquisitions of complementary businesses.

To expand our business, we will remain focused on growing our existing relationships and developing new relationships, execute our managing director compensation plan to attract and retain senior practitioners, continue to promote and provide an integrated approach to service delivery, broaden the scope of our existing services, and acquire complementary businesses. We will regularly evaluate the performance of our practices to ensure our investments meet these objectives. Furthermore, we intend to enhance our visibility in the marketplace by refining our overarching messaging and value propositions for the organization as well as each practice. We will continue to focus on reaching our client base through clear, concise, endorsed messages.

---

**Table of Contents****CRITICAL ACCOUNTING POLICIES**

Management's discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with GAAP. We review our financial reporting and disclosure practices and accounting policies to ensure that our financial reporting and disclosures provide accurate information relative to the current economic and business environment. The preparation of financial statements in conformity with GAAP requires management to make assessments, estimates, and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Critical accounting policies are those policies that we believe present the most complex or subjective measurements and have the most potential to impact our financial position and operating results. While all decisions regarding accounting policies are important, we believe that there are four accounting policies that could be considered critical. These critical accounting policies relate to revenue recognition, allowances for doubtful accounts and unbilled services, carrying values of goodwill and other intangible assets, and valuation of net deferred tax assets. For a detailed discussion of these critical accounting policies, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies in our Annual Report on Form 10-K for the year ended December 31, 2013. Below is an update to our critical accounting policy relating to the carrying values of goodwill and other intangible assets. There have been no material changes to our other critical accounting policies during the first three months of 2014.

**Carrying Values of Goodwill and Other Intangible Assets**

During the first quarter of 2014, we reorganized our internal operating structure to better align our service offerings and moved our Enterprise Performance Management ( EPM ) practice (formerly referred to as Blue Stone International, a business which we acquired during the fourth quarter of 2013) from the Huron Education and Life Sciences segment to the Huron Business Advisory segment. As a result of this change, we reassigned the goodwill balance of the EPM practice, which totaled \$16.7 million as of March 31, 2014, from the Huron Education and Life Sciences reporting unit to the EPM reporting unit, which is part of the Huron Business Advisory segment.

In conjunction with the goodwill reassignment, we performed an interim impairment test for the goodwill balances within our Huron Education and Life Sciences and EPM reporting units as of March 31, 2014. Our goodwill impairment test was performed using the quantitative two-step process. Based on the results of the first step of the goodwill impairment test, we determined that the fair values of our Huron Education and Life Sciences and EPM reporting units exceeded their carrying values by 46% and 12%, respectively. Since the fair value of each reporting unit exceeded its carrying value, the second step of the goodwill impairment test was not necessary.

In estimating the fair value of these two reporting units, we relied on a combination of the income approach and the market approach, utilizing the guideline company method, with a fifty-fifty weighting. For companies providing services similar to those provided by us, the income and market approaches will generally provide the most reliable indications of value because the value of such companies is dependent on their ability to generate earnings.

In the income approach, we utilized a discounted cash flow analysis, which involved estimating the expected after-tax cash flows that will be generated by the reporting units and then discounting those cash flows to present value reflecting the relevant risks associated with the reporting units and the time value of money. This approach requires the use of significant estimates and assumptions, including long-term projections of future cash flows, market conditions, discount rates reflecting the risk inherent in future cash flows, revenue growth, perpetual growth rates, and profitability, among others. In estimating future cash flows, we relied on an internally generated seven-year forecast. For periods after the seven-year forecast, we assumed a long-term annual revenue growth rate of 3.5% for the Huron

Education and Life Sciences reporting unit and 3.0% for the EPM reporting unit. Our forecast is based on historical experience, current backlog, expected market demand, and other industry information. Our discounted cash flow analysis assumed a weighted average cost of capital ( WACC ) discount rate of 13.0% for the Huron Education and Life Sciences reporting unit and 17.0% for the EPM reporting unit.

In the market approach, we utilized the guideline company method, which involved calculating valuation multiples based on operating data from guideline publicly traded companies. Multiples derived from guideline companies provide an indication of how much a knowledgeable investor in the marketplace would be willing to pay for a company. These multiples were then adjusted for factors similar to those used in a discounted cash flow analysis and applied to the operating data for our reporting units to arrive at an indication of value.

**Table of Contents**

Determining the fair value of a reporting unit requires us to make significant judgments, estimates and assumptions. While we believe that the estimates and assumptions underlying our valuation methodology are reasonable, these estimates and assumptions could have a significant impact on whether or not an impairment charge is recognized and also the magnitude of any such charge. The results of an impairment analysis are as of a point in time. There is no assurance that the actual future earnings or cash flows of our reporting units will not differ significantly from our projections. We will monitor any changes to our assumptions and will evaluate goodwill as deemed warranted during future periods. Any significant decline in our operations could result in goodwill impairment charges.

The table below presents the decrease in the fair value of our Huron Education and Life Sciences and EPM reporting units given a one percent increase in the discount rate or a one percent decrease in the long-term assumed annual revenue growth rate.

		<b>Huron Education and Life Sciences</b>		<b>Enterprise Performance Management</b>	
		<b>Decrease in Fair Value of the Reporting Unit (in thousands)</b>	<b>Percentage by which Fair Value Exceeds Carrying Amount</b>	<b>Decrease in Fair Value of the Reporting Unit (in thousands)</b>	<b>Percentage by which Fair Value Exceeds Carrying Amount</b>
Discount rate	increase by 1%	\$ 9,600	39%	\$ 700	9%
Long-term growth rate	decrease by 1%	\$ 7,900	40%	\$ 250	11%

**Table of Contents****RESULTS OF OPERATIONS**

The following table sets forth, for the periods indicated, selected segment and consolidated operating results and other operating data. Segment operating income consists of the revenues generated by a segment, less the direct costs of revenue and selling, general and administrative costs that are incurred directly by the segment. Unallocated costs include corporate costs related to administrative functions that are performed in a centralized manner that are not attributable to a particular segment.

- (1) Consists of our full-time professionals who provide consulting services and generate revenues based on the number of hours worked.
- (2) Utilization rate for our full-time billable consultants is calculated by dividing the number of hours all of our full-time billable consultants worked on client assignments during a period by the total available working hours for all of these consultants during the same period, assuming a forty-hour work week, less paid holidays and vacation days.
- (3) Average billing rate per hour for our full-time billable consultants is calculated by dividing revenues for a period by the number of hours worked on client assignments during the same period.
- (4) Consists of consultants who work variable schedules as needed by our clients, as well as other professionals who generate revenues primarily based on number of hours worked and units produced, such as pages reviewed and data processed. Also includes full-time employees who provide software support and maintenance services to our clients.

**Table of Contents****Non-GAAP Measures**

We also assess our results of operations using certain non-GAAP financial measures. These non-GAAP financial measures differ from GAAP because the non-GAAP financial measures we calculate to measure Adjusted earnings before interest, taxes, depreciation and amortization ( Adjusted EBITDA ), Adjusted net income from continuing operations, and Adjusted diluted earnings per share from continuing operations exclude a number of items required by GAAP, each discussed below. These non-GAAP financial measures should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flows, or liquidity prepared in accordance with GAAP. Our non-GAAP financial measures may be defined differently from time to time and may be defined differently than similar terms used by other companies, and accordingly, care should be exercised in understanding how we define our non-GAAP financial measures.

Our management uses the non-GAAP financial measures to gain an understanding of our comparative operating performance, for example when comparing such results with previous periods or forecasts. These non-GAAP financial measures are used by management in their financial and operating decision making because management believes they reflect our ongoing business in a manner that allows for meaningful period-to-period comparisons. Management also uses these non-GAAP financial measures when publicly providing our business outlook, for internal management purposes, and as a basis for evaluating potential acquisitions and dispositions. We believe that these non-GAAP financial measures provide useful information to investors and others in understanding and evaluating Huron's current operating performance and future prospects in the same manner as management does and in comparing in a consistent manner Huron's current financial results with Huron's past financial results.

The reconciliations of these financial measures from GAAP to non-GAAP are as follows (in thousands):

	<b>Three Months Ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
<b>Revenues</b>	\$ 210,731	\$ 164,036
Net income from continuing operations	\$ 34,126	\$ 11,369
Add back:		
Income tax expense	6,498	8,124
Interest and other expenses	1,195	1,850
Depreciation and amortization	7,157	5,437
<b>Earnings before interest, taxes, depreciation and amortization (EBITDA)</b>	48,976	26,780
Add back:		
Restructuring charges	129	
Litigation settlement gain		(1,150)
<b>Adjusted EBITDA</b>	\$ 49,105	\$ 25,630
<b>Adjusted EBITDA as a percentage of revenues</b>	23.3%	15.6%

	<b>Three Months Ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
<b>Net income from continuing operations</b>	\$ 34,126	\$ 11,369
<b>Weighted average shares diluted</b>	23,086	22,487
<b>Diluted earnings per share from continuing operations</b>	\$ 1.48	\$ 0.51
Add back:		
Amortization of intangible assets	2,518	1,456
Restructuring charges	129	
Litigation settlement gain		(1,150)
Tax effect	(1,059)	(122)
Net tax benefit related to check-the-box election	(10,244)	
Total adjustments, net of tax	(8,656)	184
<b>Adjusted net income from continuing operations</b>	\$ 25,470	\$ 11,553
<b>Adjusted diluted earnings per share from continuing operations</b>	\$ 1.10	\$ 0.51

## **Table of Contents**

These non-GAAP financial measures include adjustments for the following items:

*Restructuring charges:* We have incurred charges due to the restructuring of various parts of our business. These restructuring charges have primarily consisted of severance charges, costs associated with office space reductions including the accelerated depreciation of certain leasehold improvements, and the write-off of certain impaired intangible assets. We have excluded the effect of the restructuring charges from our non-GAAP measures as a means to provide comparability with periods that were not impacted by a restructuring charge. Additionally, the amount of each restructuring charge is significantly affected by the timing and size of the restructured business or component of a business.

*Litigation settlement gain:* We have excluded the effect of the litigation settlement gain in 2013 because its exclusion permits comparability with periods that were not impacted by this item.

*Amortization of intangible assets:* We have excluded the effect of amortization of intangible assets from the calculation of Adjusted net income from continuing operations presented above. Amortization of intangibles is inconsistent in its amount and frequency and is significantly affected by the timing and size of our acquisitions.

*Tax effect:* The non-GAAP income tax adjustment reflects the incremental tax rate applicable to the non-GAAP adjustments.

*Net tax benefit related to check-the-box election:* We have excluded the effect of the net tax benefit from our check-the-box election to treat one of our wholly-owned foreign subsidiaries as a disregarded entity for U.S. federal income tax purposes during the first quarter of 2014 because its exclusion permits comparability with periods that were not impacted by this item.

*Income tax expense, Interest and other expenses, Depreciation and amortization:* We have excluded the effects of income tax expense, interest and other expenses, and depreciation and amortization in the calculation of EBITDA as these are customary exclusions as defined by the calculation of EBITDA to arrive at meaningful earnings from core operations excluding the effect of such items.

## **Three Months Ended March 31, 2014 Compared to Three Months Ended March 31, 2013**

### **Revenues**

Revenues increased \$46.7 million, or 28.5%, to \$210.7 million for the first quarter of 2014 from \$164.0 million for the first quarter of 2013.

Of the overall \$46.7 million increase in revenues, \$34.1 million was attributable to our full-time billable consultants, while \$12.6 million was attributable to our full-time equivalents. The increase in full-time billable consultant revenues was driven by an increase in the average number of billable consultants and average billing rate, partially offset by a decrease in the consultant utilization rate. The increase in revenue from full-time billable consultants primarily reflected strengthened demand for our services in the Huron Healthcare segment and our Huron Legal segment's legal advisory services, partially offset by decreased demand for our services in the Huron Education and Life Sciences segment. The increase in full-time equivalent revenue was primarily attributable to an increase in the average number of full-time equivalents and revenue per full-time equivalent. Revenue attributable to full-time equivalents primarily reflected increased demand for our discovery services in the Huron Legal segment, as well as increased use of contractors in the Huron Healthcare segment.

## **Total Direct Costs**

Our total direct costs increased \$17.9 million, or 16.8%, to \$124.7 million in the three months ended March 31, 2014, from \$106.8 million in the three months ended March 31, 2013. The increase primarily related to a \$12.7 million increase in salaries, bonuses, and related expenses for our revenue-generating professionals and a \$5.1 million increase in contractor expense. As a percentage of revenues, our total direct costs decreased to 59.2% during the first quarter of 2014 compared to 65.1% during the first quarter of 2013. This decrease primarily reflected revenue growth that outpaced the increase in salaries, bonuses, and related expenses for our revenue-generating professionals during the first quarter of 2014, as well as a decrease in technology expense, partially offset by the increase in contractor expense as a percentage of revenues.

Total direct costs for the three months ended March 31, 2014 included \$4.0 million of share-based compensation expense and \$1.1 million of amortization expense for intangible assets and software development costs, primarily representing customer-related assets and software acquired in business combinations. Total direct costs for the three months ended March 31, 2013 included \$3.6 million of share-based compensation expense and \$0.7 million of amortization expense for intangible assets and software development costs. The increase in share-based compensation expense was primarily attributable to an increase in the number of performance-based awards that are expected to be earned in 2014 based on 2014 performance, compared to those that were expected, as of March 31, 2013, to be earned based on 2013 performance. The increase in amortization expense was primarily related to the amortization of intangible assets from businesses acquired during the fourth quarter of 2013 and the first quarter of 2014.

---

**Table of Contents****Operating Expenses and Other Operating Gains**

Selling, general and administrative expenses increased \$5.4 million, or 16.8%, to \$37.7 million in the first quarter of 2014 from \$32.3 million in the first quarter of 2013. This increase was primarily related to a \$2.7 million increase in salaries, bonuses, and related expenses for our support personnel, a \$0.9 million increase in promotion and sponsorship expenses, a \$0.7 million increase in practice administration and meetings expense, a \$0.5 million increase in accounting, tax, and audit fees, and a \$0.4 million increase in outside professional services. As a percentage of revenues, selling, general and administrative expenses decreased to 17.9% during the first quarter of 2014 compared to 19.7% during the first quarter of 2013. This decrease primarily reflected revenue growth that outpaced the increases in salaries, bonuses, and related expenses for our support personnel and facilities and other office related expenses.

We did not incur any litigation or other settlement gains or losses during the first quarter of 2014. During the first quarter of 2013, we recorded a \$1.2 million settlement gain. As discussed under Part II Item 1. Legal Proceedings, and in Note 12 Commitments, Contingencies and Guarantees, during the second quarter of 2012, we conducted preliminary settlement discussions with the relator in the *qui tam* action, and as a result, we recorded a charge of \$1.2 million. On March 8, 2013, the Court granted Huron's motion for summary judgment and dismissed the relator's second amended complaint in its entirety with prejudice. As a result, during the first quarter of 2013, we reversed the charge of \$1.2 million taken during 2012.

Depreciation and amortization expense increased by \$1.3 million to \$6.1 million in the three months ended March 31, 2014, from \$4.8 million in the three months ended March 31, 2013. The increase primarily related to the amortization of intangible assets from businesses acquired during the fourth quarter of 2013 and first quarter of 2014, as well as the depreciation of leasehold improvements that were placed into service during the second half of 2013. Intangible asset amortization included within operating expenses relates to certain customer relationships, non-competition agreements, trade names, and licenses acquired in connection with our acquisitions.

**Operating Income**

Operating income increased \$20.5 million, or 95.9%, to \$41.8 million in the first quarter of 2014 from \$21.3 million in the first quarter of 2013. Operating margin, which is defined as operating income expressed as a percentage of revenues, increased to 19.8% in the three months ended March 31, 2014, compared to 13.0% in the three months ended March 31, 2013. The increase in operating margin was primarily attributable to the revenue growth that outpaced the increase in salaries, bonuses, and related expenses for both our revenue-generating professionals and support personnel during the period, as well as a decrease in technology expense and a decrease in facilities and other office related expenses as a percentage of revenues. The operating margin for the first three months of 2013 was positively impacted by the litigation settlement gain recognized during that period.

**Other Expense, Net**

Other expense, net decreased by \$0.7 million, or 35.4%, to \$1.2 million in the first quarter of 2014 from \$1.9 million in the first quarter of 2013. The decrease was primarily attributable to a \$0.5 million, or 26.4%, decrease in interest expense, net of interest income in the first quarter of 2014, which was the result of a decrease in our borrowing levels combined with lower interest rates.

**Income Tax Expense**

For the first quarter of 2014, we recognized income tax expense from continuing operations of \$6.5 million on income from continuing operations of \$40.6 million. For the first quarter of 2013, we recognized income tax expense from

continuing operations of \$8.1 million on income from continuing operations of \$19.5 million. Our effective tax rate for the first quarter of 2014 was 16.0% compared with 41.7% for the same period last year. The effective tax rate for the three months ended March 31, 2014 was lower than the statutory rate, inclusive of state income taxes, due primarily to the impact of a tax election made in the first quarter of 2014 to classify one of our wholly-owned foreign subsidiaries as a disregarded entity for U.S. federal income tax purposes (commonly referred to as a check-the-box election). As a result of this election, we expect to realize an income tax benefit of \$13.8 million, of which \$2.4 million is unrecognized, resulting in a net recognized tax benefit of \$11.4 million during the quarter. This recognized benefit was partially offset by \$1.2 million in

---

**Table of Contents**

expenses related to the establishment of a valuation allowance for certain foreign tax credits and increased deferred tax liabilities as a result of the aforementioned election. The effective tax rate for the three months ended March 31, 2013 was higher than the statutory rate, inclusive of state income taxes, due primarily to the impact of foreign losses with no tax benefit and certain non-deductible business expenses, partially offset by the impact of the retroactive reinstatement of the federal research and development tax credit, which was enacted during the quarter.

**Net Income from Continuing Operations**

Net income from continuing operations was \$34.1 million for the three months ended March 31, 2014, compared to net income from continuing operations of \$11.4 million for the same period last year. The \$22.7 million increase in net income from continuing operations was primarily due to the increase in operating income, as well as the decrease in income tax expense, as discussed above. As a result of the increase in net income from continuing operations, diluted earnings per share from continuing operations for the first quarter of 2014 was \$1.48 compared to \$0.51 for the first quarter of 2013.

**EBITDA and Adjusted EBITDA**

EBITDA increased \$22.2 million to \$49.0 million for the three months ended March 31, 2014, from \$26.8 million for the three months ended March 31, 2013. Adjusted EBITDA increased \$23.5 million to \$49.1 million in the first quarter of 2014 from \$25.6 million in the first quarter of 2013. The increase in EBITDA was primarily due to the increase in segment operating income, as discussed below in Segment Results, partially offset by the decrease in litigation settlement gain. Adjusted EBITDA was higher in the first quarter of 2014 due to the increase in segment operating income.

**Adjusted Net Income from Continuing Operations**

Adjusted net income from continuing operations increased \$13.9 million to \$25.5 million in the first quarter of 2014 compared to \$11.6 million in the first quarter of 2013. The increase was primarily attributable to the increase in operating income, partially offset by a higher tax expense when excluding the tax benefit related to our check-the-box election.

**Segment Results****Huron Healthcare****Revenues**

Huron Healthcare segment revenues increased \$28.8 million, or 36.6%, to \$107.5 million for the first quarter of 2014 from \$78.7 million for the first quarter of 2013. During the three months ended March 31, 2014, revenues from time-and-expense engagements, fixed-fee engagements, performance-based arrangements, and software support and maintenance arrangements represented 1.7%, 64.8%, 29.2%, and 4.3% of this segment's revenues, respectively, compared to 1.2%, 70.5%, 23.4%, and 4.9%, respectively, for the comparable period in 2013.

Of the overall \$28.8 million increase in revenues, \$28.0 million was attributable to our full-time billable consultants and \$0.8 million was attributable to our full-time equivalents. The increase in demand for our services reflected the continued pressures our clients face as the result of evolving business models, rising costs, and declining reimbursements from government and commercial payers. The increase in full-time billable consultant revenues reflected increases in the average billing rate and average number of full-time billable consultants, partially offset by a

decrease in the consultant utilization rate. Performance-based fee revenues were \$31.4 million during the first quarter of 2014 compared to \$18.4 million during the first quarter of 2013. We expect performance-based fees to be greater in the first half of 2014 than in the second half of 2014. The level of performance-based fees earned may vary based on our clients' preferences and the mix of services we provide. Performance-based fee arrangements may cause significant variations in revenues, operating results, and average billing rates due to our level of execution and the timing of achievement of the performance-based criteria. With regard to our full-time equivalents, during the first three months of 2014, the Huron Healthcare segment experienced an increase in revenue per full-time equivalent, partially offset by a decrease in the average number of full-time equivalents compared to the first three months of 2013.

---

**Table of Contents****Operating Income**

Huron Healthcare segment operating income increased \$20.0 million, or 64.4%, to \$51.2 million in the three months ended March 31, 2014, from \$31.2 million in the three months ended March 31, 2013. The Huron Healthcare segment operating margin, defined as segment operating income expressed as a percentage of segment revenues, increased to 47.6% for the first quarter of 2014 from 39.6% in the same period last year. The increase in this segment's operating margin was primarily attributable to revenue growth that outpaced the increase in salaries, bonuses, and related expenses for our revenue-generating professionals, as well as decreases in contractor expense and salaries and related expenses for our support personnel and a decrease in promotion and sponsorship expenses as a percentage of revenues, partially offset by an increase in technology expense.

**Huron Legal****Revenues**

Huron Legal segment revenues increased \$14.0 million, or 34.3%, to \$54.9 million for the first quarter of 2014 from \$40.9 million for the first quarter of 2013. Revenues from time-and-expense engagements, fixed-fee engagements, and support and maintenance arrangements represented 97.7%, 2.1%, and 0.2% of this segment's revenues, respectively, during the three months ended March 31, 2014, compared to 94.4%, 5.4%, and 0.2% of this segment's revenues, respectively, for the comparable period in 2013.

Of the overall \$14.0 million increase in revenues, \$11.3 million was attributable to an increase in revenue generated by our full-time equivalents and \$2.7 million was related to our full-time billable consultants. The increase in revenue attributable to our full-time equivalents was the result of an increase in both the average number of full-time equivalents and revenue per full-time equivalent. The increase in full-time billable consultant revenue reflected an increase in the consultant utilization rate and average billing rate, partially offset by a decrease in the average number of full-time billable consultants.

**Operating Income**

Huron Legal segment operating income increased by \$9.6 million to \$12.5 million in the three months ended March 31, 2014, from \$2.9 million in the three months ended March 31, 2013. Segment operating margin increased to 22.7% for the first quarter of 2014 from 7.2% in the same period last year. The increase in this segment's operating margin was primarily attributable to revenue growth that outpaced the increase in salaries, bonuses, and related expenses for our revenue-generating professionals. Decreases in technology expense, rent expense, and severance expense, and a decrease in promotion and sponsorship expense as a percentage of revenues also contributed to the increase in operating margin, partially offset by an increase in contractor expense as a percentage of revenues.

**Huron Education and Life Sciences****Revenues**

Huron Education and Life Sciences segment revenues decreased \$2.1 million, or 6.0%, to \$33.6 million for the first quarter of 2014 from \$35.7 million for the first quarter of 2013. Revenues from time-and-expense engagements, fixed-fee engagements, and software support and maintenance arrangements represented 71.9%, 23.6%, and 4.5% of this segment's revenues, respectively, during the three months ended March 31, 2014, compared to 76.7%, 19.4%, and 3.9%, respectively, for the comparable period in 2013.

Of the overall \$2.1 million decrease in revenues, \$1.8 million was attributable to our full-time billable consultants and \$0.3 million was related to our full-time equivalents. The decrease in revenue from our full-time billable consultants reflected a decrease in the average billing rate and consultant utilization rate, partially offset by an increase in the average number of full-time billable consultants. The decrease in revenue attributable to our full-time equivalents reflected a decrease in revenue per full-time equivalent, partially offset by an increase in the average number of full-time equivalents.

### **Operating Income**

Huron Education and Life Sciences segment operating income decreased \$3.0 million, or 31.1%, to \$6.4 million in the three months ended March 31, 2014, from \$9.4 million in the three months ended March 31, 2013. The Huron Education and Life Sciences segment operating margin decreased to 19.2% for the first quarter of 2014 from 26.2% in the same period last year. The decrease in this segment's operating margin was primarily attributable to an increase in salaries and related expenses for both our revenue-generating professionals and support personnel, as well as increases in contractor expense, promotion and sponsorship expense, and research expense, partially offset by a decrease in bonus expense for our revenue-generating professionals as a percentage of revenues.

## **Table of Contents**

### **Huron Business Advisory**

#### **Revenues**

Huron Business Advisory segment revenues increased \$4.8 million, or 55.9%, to \$13.4 million for the first quarter of 2014 from \$8.6 million for the first quarter of 2013. Revenues for the first quarter of 2014 included \$6.6 million from Blue Stone, which we acquired in the fourth quarter of 2013. Revenues from time-and-expense engagements, fixed-fee engagements, and performance-based arrangements represented 84.4%, 11.9%, and 3.7% of this segment's revenues, respectively, during the first quarter of 2014 compared to 77.4%, 16.8%, and 5.8%, respectively, for the comparable period in 2013.

Of the overall \$4.8 million increase in revenues, \$4.4 million was attributable to our full-time billable consultants and \$0.4 million was related to our full-time equivalents. The increase in revenue from our full-time billable consultants was driven by an increase in the average number of full-time billable consultants, partially offset by decreases in the average billing rate and consultant utilization rate. The increase in revenue attributable to our full-time equivalents reflected an increase in the average number of full-time equivalents, partially offset by a decrease in revenue per full-time equivalent.

#### **Operating Income**

Huron Business Advisory segment operating income decreased by \$0.8 million, or 24.4%, to \$2.6 million in the three months ended March 31, 2014, compared to \$3.4 million in the three months ended March 31, 2013. Segment operating margin decreased to 19.1% for the first quarter of 2014 from 39.4% in the same period last year. The decrease in this segment's operating margin was primarily attributable to an increase in salaries, bonuses, and related expenses for both our revenue-generating professionals and support personnel as a percentage of revenues. Increases in contractor expense, intangible asset amortization expense, promotion and sponsorship expense, and practice administration and meetings expense, all as percentages of revenues, also contributed to the decrease in the segment's operating margin.

**Table of Contents****LIQUIDITY AND CAPITAL RESOURCES**

Cash and cash equivalents decreased \$36.5 million, from \$58.1 million at December 31, 2013 to \$21.6 million at March 31, 2014. Our primary sources of liquidity are cash flows from our U.S. operations and debt capacity available under our credit facility.

<b>Cash Flows (in thousands):</b>	<b>Three Months Ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
Net cash used in operating activities	\$ (9,165)	\$ (22,990)
Net cash used in investing activities	\$ (22,218)	\$ (6,611)
Net cash (used in) provided by financing activities	\$ (5,121)	\$ 10,265

Net cash used in operating activities totaled \$9.2 million for the three months ended March 31, 2014, and \$23.0 million for the same period last year. Our operating assets and liabilities consist primarily of receivables from billed and unbilled services, accounts payable and accrued expenses, and accrued payroll and related benefits, and deferred revenues. The volume of services rendered and the related billings and timing of collections on those billings, as well as payments of our accounts payable and salaries, bonuses, and benefits to employees affect these account balances. The decrease in cash used in operations was primarily attributable to higher net income and increased collections of receivables from clients during the first three months of 2014 when compared with the first three months of 2013, partially offset by an increase in the amount paid for annual performance bonuses during the first quarter of 2014 and an increase in unbilled services from clients during the first three months of 2014 when compared with the first three months of 2013.

Net cash used in investing activities was \$22.2 million and \$6.6 million for the three months ended March 31, 2014 and 2013, respectively. The use of cash in the first three months of 2014 primarily consisted of \$17.4 million for the purchase of a business and \$4.8 million for purchases of property and equipment. The use of cash in the first three months of 2013 primarily consisted of purchases of property and equipment totaling \$5.4 million. We estimate that the cash utilized for capital expenditures in 2014 will be approximately \$30.0 million, primarily consisting of information technology related equipment and leasehold improvements to support the continued growth of our document review and processing services, as well as information technology related equipment to support our corporate infrastructure.

Net cash used in financing activities was \$5.1 million for the three months ended March 31, 2014, compared to net cash provided by financing activities of \$10.3 million for the same period last year. There were no borrowings made under our credit facility during the first three months of 2014, compared to borrowings of \$22.0 million during the first three months of 2013 to fund our operations. Repayments under our term loan totaled \$6.3 million during the first quarter of 2014, compared to repayments of \$12.0 million under our term loan and revolving credit facility during the first quarter of 2013.

During 2011, the Company and certain of the Company's subsidiaries as guarantors entered into an Amended and Restated Credit Agreement with various financial institutions, as amended by the first, second, and third amendments to the credit agreement dated as of August 31, 2012, September 25, 2013, and February 14, 2014, respectively (as amended and modified, the 2011 Credit Agreement). The second amendment to the credit agreement extended the terms of the 2011 Credit Agreement from August 31, 2017 to September 25, 2018, and provided for less restrictive covenants, among other things.

The 2011 Credit Agreement consists of a senior secured credit facility in an aggregate principal amount of \$450.0 million comprised of a five-year revolving credit facility ( Revolver ) under which the Company may borrow from time to time up to \$247.5 million and a \$202.5 million five-year term loan facility ( Term Loan ) that was funded in a single advance on the closing date of the first amendment. The 2011 Credit Agreement provides for the option to increase the revolving credit facility in an aggregate amount of up to \$50 million subject to certain requirements as defined in the 2011 Credit Agreement. The proceeds of the senior secured credit facility were used to refinance existing indebtedness and will continue to be used for working capital, capital expenditures, and other corporate purposes.

The obligations under the 2011 Credit Agreement are secured pursuant to a Security Agreement with Bank of America, N.A. as Collateral Agent. The Security Agreement grants Bank of America, N.A., for the ratable benefit of the lenders under the 2011 Credit Agreement, a first-priority lien, subject to permitted liens, on substantially all of the personal property assets of the Company and the subsidiary guarantors. The Revolver and Term Loan are also secured by a pledge of 100% of the voting stock or other equity interests in our domestic subsidiaries and 65% of the voting stock or other equity interests in our foreign subsidiaries.

---

**Table of Contents**

Fees and interest on borrowings vary based on our total debt to earnings before interest, taxes, depreciation and amortization ( EBITDA ) ratio as set forth in the 2011 Credit Agreement. Interest is based on a spread over the London Interbank Offered Rate ( LIBOR ) or a spread over the base rate, as selected by the Company. The base rate is the greater of (a) the Federal Funds Rate plus 0.5%, (b) the Prime Rate and (c) except during a Eurodollar Unavailability Period, the Eurodollar Rate plus 1.0%.

As of the date of the second amendment to the credit agreement, the Term Loan had a principal amount outstanding of \$181.3 million. This principal balance is subject to scheduled quarterly amortization payments that began in 2013. The aggregate annual quarterly amortization payments, expressed as a percentage of the original principal balance, are as follows: 6.9% in 2013, 13.8% in 2014, 15.8% in 2015, 16.6% in 2016, 16.6% in 2017, and 30.3% in 2018, as set forth in the 2011 Credit Agreement. The maturity date for the Term Loan is September 25, 2018, at which time the outstanding principal balance and all accrued interest will be due and payable in full. All outstanding borrowings under the Revolver, as amended, will be due upon expiration of the 2011 Credit Agreement on September 25, 2018. As of March 31, 2014, the Company has made all scheduled quarterly amortization payments as they have come due in accordance with the Term Loan.

Under the 2011 Credit Agreement, dividends are restricted to an amount up to \$50 million plus 50% of cumulative consolidated net income from the closing date of the 2011 Credit Agreement plus 50% of the net cash proceeds from equity issuances. In addition, certain acquisitions and similar transactions need to be approved by the lenders.

The 2011 Credit Agreement contains quarterly financial covenants that require us to maintain a minimum fixed charge coverage ratio of 2.25 to 1.00 and a maximum leverage ratio that varies throughout the term and was 3.25 to 1.00 as of March 31, 2014, as those ratios are defined therein, as well as a minimum net worth greater than \$150 million. At March 31, 2014, we were in compliance with these financial covenants with a fixed charge coverage ratio of 4.75 to 1.00, a leverage ratio of 0.91 to 1.00, and net worth greater than \$150 million. At December 31, 2013, we were also in compliance with these financial covenants.

The borrowing capacity under the 2011 Credit Agreement is reduced by any outstanding letters of credit and payments under the Term Loan. At March 31, 2014, outstanding letters of credit totaled \$5.5 million and are primarily used as security deposits for our office facilities. As of March 31, 2014, the unused borrowing capacity under the 2011 Credit Agreement was \$242.0 million. Borrowings outstanding under this credit facility at March 31, 2014 totaled \$162.5 million, all of which was under the Term Loan. These borrowings carried a weighted average interest rate of 2.3%, including the effect of the interest rate swaps described in Note 8 Derivative Instruments and Hedging Activity. During the first three months of 2014, the average daily outstanding balance under our credit facility was \$168.7 million. Borrowings outstanding at December 31, 2013 were \$168.8 million and carried a weighted average interest rate of 2.0%.

On February 20, 2014, the Company's board of directors authorized a share repurchase program pursuant to which the Company may, from time to time, repurchase up to \$50 million of its common stock through February 28, 2015 (the February 2014 Share Repurchase Program ). The amount and timing of the repurchases will be determined by management and will depend on a variety of factors, including the trading price of the Company's common stock, general market and business conditions, and applicable legal requirements. During the first quarter of 2014, the Company initiated approximately \$0.3 million of common stock repurchases that settled in the second quarter of 2014. The Company continued to actively repurchase shares during the second quarter of 2014.

See Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2013 for a discussion of certain risks and uncertainties related to the 2011 Credit Agreement.

**Future Needs**

Our primary financing need has been to fund our growth. Our growth strategy is to expand our service offerings, which may require investments in new hires, acquisitions of complementary businesses, possible expansion into other geographic areas, and related capital expenditures. We also have cash needs to service our credit facility and repay our Term Loan. We believe our internally generated liquidity, together with the borrowing capacity available under our revolving credit facility and access to external capital resources will be adequate to fund our long-term growth and capital needs arising from cash commitments and debt service obligations. Our ability to secure short-term and long-term financing in the future will depend on several factors, including our future profitability, the quality of our accounts receivable and unbilled services, our relative levels of debt and equity, and the overall condition of the credit markets.

## **Table of Contents**

### **CONTRACTUAL OBLIGATIONS**

For a summary of our commitments to make future payments under contractual obligations, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Contractual Obligations in our Annual Report on Form 10-K for the year ended December 31, 2013. There have been no material changes in our contractual obligations since December 31, 2013.

### **OFF-BALANCE SHEET ARRANGEMENTS**

We have not entered into any off-balance sheet arrangements.

### **NEW ACCOUNTING PRONOUNCEMENTS**

In April 2014, the FASB issued ASU 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360), Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This guidance includes amendments that change the requirements for reporting discontinued operations and require additional disclosures about discontinued operations. Under the new guidance, only disposals representing a strategic shift in operations that has (or will have) a major effect on the entity's operations and financial results should be presented as discontinued operations. Examples include a disposal of a major geographic area, a major line of business, a major equity method investment, or other major parts of an entity. Additionally, the revised guidance requires expanded disclosures in the financial statements for discontinued operations as well as for disposals of significant components of an entity that do not qualify for discontinued operations presentation. This guidance is effective for the Company beginning in the first quarter of 2015. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

In July 2013, the FASB issued ASU No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. This guidance requires that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, be presented in the financial statements as either a reduction to a deferred tax asset or separately as a liability depending on the existence, availability and/or use of an operating loss carryforward, a similar tax loss, or a tax credit carryforward. The Company adopted ASU 2013-11 effective January 1, 2014. The adoption of this guidance did not have any effect on the Company's consolidated financial statements.

In March 2013, the FASB issued ASU No. 2013-05, Parent's Accounting for the Cumulative Translation Adjustment Upon Derecognition of Certain Subsidiaries or Groups of Assets Within a Foreign Entity or of an Investment in a Foreign Entity, which amends current accounting guidance on foreign currency matters. This guidance requires that the entire amount of a cumulative translation adjustment related to an entity's investment in a foreign entity should be released when there has been a: (i) sale of a subsidiary or group of net assets within a foreign entity and the sale represents the substantially complete liquidation of the investment in the foreign entity, (ii) loss of a controlling financial interest in an investment in a foreign entity, and (iii) step acquisition for a foreign entity. The Company adopted ASU 2013-05 effective January 1, 2014. The adoption of this guidance did not have any effect on the Company's consolidated financial statements.

### **SUBSEQUENT EVENTS**

On April 23, 2014, we entered into an agreement to acquire the assets of Vonlay, LLC, a healthcare technology consulting firm, specializing in clinical information systems and electronic health records implementations and optimizations. The transaction, which is subject to certain customary closing conditions, is expected to close in May

2014. Vonlay will be included within the Huron Healthcare segment.

## **Table of Contents**

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to market risks primarily from changes in interest rates and changes in the market value of our investments.

Our exposure to changes in interest rates is limited to borrowings under our bank credit facility, which has variable interest rates tied to the LIBOR, Federal Funds Rate, Prime Rate, or Eurodollar Rate. At March 31, 2014, we had borrowings outstanding totaling \$162.5 million that carried a weighted average interest rate of 2.3% including the effect of the interest rate swaps described below. A hypothetical 100 basis point change in this interest rate would have a \$0.3 million effect on our pretax income including the effect of the interest rate swaps described below.

On December 8, 2011, we entered into a forward amortizing interest rate swap agreement effective on February 29, 2012 and ending on April 14, 2016. We entered into this derivative instrument to hedge against the interest rate risks of our variable-rate borrowings described above. The swap had an initial notional amount of \$56.6 million and amortizes throughout the term. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.9875%.

On May 30, 2012, we entered into an amortizing interest rate swap agreement effective on May 31, 2012 and ending on April 14, 2016. We entered into this derivative instrument to further hedge against the interest rate risks of our variable-rate borrowings described above. The swap had an initial notional amount of \$37.0 million and amortizes throughout the term. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.70%.

On April 4, 2013, we entered into a forward amortizing interest rate swap agreement effective on March 31, 2014 and ending on August 31, 2017. We entered into this derivative instrument to further hedge against the interest rate risks of our variable-rate borrowings described above. The swap has an initial notional amount of \$60.0 million and amortizes such that, collectively with our other two interest rate swaps, we are effectively fixing the interest rate on 80% of our Term Loan borrowings throughout the term of the swap agreement. Under the terms of the interest rate swap agreement, we will receive from the counterparty interest on the notional amount based on one-month LIBOR and we will pay to the counterparty a fixed rate of 0.985%.

Including the impact of the above swap agreements, the effective interest rate on \$130.0 million of our debt, which equals the notional amount of the swap agreements in effect at March 31, 2014, was 2.4%.

We have not entered into any other interest rate swaps, caps or collars or other hedging instruments as of March 31, 2014.

From time to time, we invest excess cash in marketable securities. These investments principally consist of overnight sweep accounts. Due to the short maturity of our investments, we have concluded that we do not have material market risk exposure.

### **ITEM 4. CONTROLS AND PROCEDURES**

#### *Evaluation of Disclosure Controls and Procedures*

Our management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of March 31, 2014. Based

on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of March 31, 2014, our disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports we file or submit under the Exchange Act and such information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

*Changes in Internal Control over Financial Reporting*

There has been no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the three months ended March 31, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****PART II OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS***Qui Tam Action*

On December 9, 2009, plaintiff, Associates Against Outlier Fraud, filed a first amended *qui tam* complaint against Huron Consulting Group Inc. and others under the federal and New York state False Claims Act ( FCA ) in the United States District Court for the Southern District of New York. The federal and state FCA authorize private individuals (known as relators ) to sue on behalf of the government (known as *qui tam* actions) alleging that false or fraudulent claims were knowingly submitted to the government. Once a *qui tam* action is filed, the government may elect to intervene in the action. If the government declines to intervene, the relator may proceed with the action. Under the federal and state FCA, the government may recover treble damages and civil penalties (civil penalties of up to \$11,000 per violation under the federal FCA and \$12,000 per violation under the state FCA). On January 6, 2010, the United States declined to intervene in the lawsuit. After the Court granted Huron's motion to dismiss without prejudice, on September 29, 2010, the relator filed a second amended complaint alleging that Huron and others caused St. Vincent Catholic Medical Center to receive more than \$30 million in inflated outlier payments under the Medicare and Medicaid programs in violation of the federal and state FCA and seeking to recover an unspecified amount of civil penalties. On March 8, 2013, the Court granted Huron's motion for summary judgment and dismissed the relator's second amended complaint in its entirety with prejudice. As a result, we reversed the charge of \$1.2 million relating to settlement discussions which we originally recorded in the second quarter of 2012, in accordance with ASC Topic 450, Contingencies. The relator filed an appeal on April 2, 2013. On April 8, 2013, Huron filed an appeal of an earlier denial of a motion to dismiss filed by Huron which argued that the relator's action was barred because, under the FCA jurisdictional bar, the action was based on publicly disclosed information and the relator cannot qualify as an original source. We continue to believe that the claims are without merit and intend to vigorously defend ourselves in this matter.

*Tamalluk Business Development LLC v. Huron Consulting Services LLC (Abu Dhabi Court of First Instance)*

On August 22, 2013, we learned that Tamalluk Business Development LLC, who was Huron's agent in Abu Dhabi, and its principal, Mubarak Ahmad Bin Hamouda Al Dhaheri, filed a claim against Huron Consulting Services LLC in the Abu Dhabi Court of First Instance. The lawsuit alleges that under the agency agreement, Tamalluk was entitled to a commission on certain amounts that Huron collected from Abu Dhabi clients, and that Huron breached the agreement with Tamalluk and caused damages by declining to enter into a client engagement in Abu Dhabi and subsequently terminating the agency agreement with Tamalluk. Claimants allege they are entitled to \$50 million for damage to reputation and defamation and another \$50 million for breach of contract. Huron submitted its written response on September 25, 2013. The response states that Huron had the right to terminate the agency agreement with Tamalluk, and Huron had the sole discretion whether to accept or reject an engagement. Huron also filed a counterclaim on October 10, 2013 seeking a judicial order to permit the cancellation of Huron's commercial license to allow Huron to cease doing business in Abu Dhabi. On December 17, 2013, the Abu Dhabi court ruled in Huron's favor on all claims and held that Huron permissibly terminated the contract with Tamalluk and Huron does not owe Tamalluk any compensation related to Tamalluk's claims. In addition, the court terminated the Local Sponsorship Agreement as requested by Huron in its counterclaim. Tamalluk appealed the decision, and on March 18, 2014, the appellate court upheld the decision in Huron's favor. Tamalluk has until May 18, 2014 to appeal to the highest court in Abu Dhabi.

From time to time, we are involved in legal proceedings and litigation arising in the ordinary course of business. As of the date of this Quarterly Report on Form 10-Q, we are not a party to or threatened with any other litigation or legal proceeding that, in the current opinion of management, could have a material adverse effect on our financial position or results of operations. However, due to the risks and uncertainties inherent in legal proceedings, actual results could differ from current expected results.

**ITEM 1A. RISK FACTORS**

See Risk Factors in our 2013 Annual Report on Form 10-K for a complete description of the material risks we face.

**Table of Contents****ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

Our 2012 Omnibus Incentive Plan and our 2004 Omnibus Stock Plan, which was replaced by the 2012 Omnibus Incentive Plan, permit the netting of common stock upon vesting of restricted stock awards to satisfy individual tax withholding requirements. During the quarter ended March 31, 2014, we reacquired 46,704 shares of common stock with a weighted average fair market value of \$65.67 as a result of such tax withholdings as presented in the table below.

On February 20, 2014, the Company's board of directors authorized a share repurchase program pursuant to which the Company may, from time to time, repurchase up to \$50 million of its common stock through February 28, 2015 (the February 2014 Share Repurchase Program). The amount and timing of the repurchases will be determined by management and will depend on a variety of factors, including the trading price of the Company's common stock, general market and business conditions, and applicable legal requirements.

<b>Period</b>	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid per Share<sup>1</sup></b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs<sup>2</sup></b>	<b>Dollar Value of Shares that may yet be Purchased under the Plans or Programs<sup>2</sup></b>
January 1, 2014 – January 31, 2014	5,147	\$ 61.99		\$ 50,000,000
February 1, 2014 – February 28, 2014	5,636	\$ 65.58		\$ 50,000,000
March 1, 2014 – March 31, 2014	35,921	\$ 66.22		\$ 50,000,000
<b>Total</b>	<b>46,704</b>	<b>\$ 65.67</b>		

<sup>1</sup> The number of shares repurchased includes 5,147 shares in January 2014, 5,636 shares in February 2014, and 35,921 shares in March 2014 to satisfy employee tax withholding requirements. These shares do not reduce the repurchase authority under the February 2014 Share Repurchase Program.

<sup>2</sup> Dollar value of shares that may yet be purchased under the February 2014 Share Repurchase Program is as of the end of the period.
