NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

HCA Holdings, Inc. is a holding company whose affiliates own and operate hospitals and related health care entities. The term *affiliates* includes direct and indirect subsidiaries of HCA Holdings, Inc. and partnerships and joint ventures in which such subsidiaries are partners. At March 31, 2015, these affiliates owned and operated 168 hospitals, 113 freestanding surgery centers and provided extensive outpatient and ancillary services. HCA Holdings, Inc.'s facilities are located in 20 states and England. The terms *Company*, *HCA*, *we*, *our* or *us*, as used herein and otherwise stated or indicated by context, refer to HCA Holdings, Inc. and its affiliates. The terms *facilities* or *hospitals* refer to entities owned and operated by affiliates of HCA and the term *employees* refers to employees of affiliates of HCA.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal and recurring nature.

The majority of our expenses are *costs of revenues* items. Costs that could be classified as general and administrative would include our corporate office costs, which were \$74 million and \$68 million for the quarters ended March 31, 2015 and 2014, respectively. Operating results for the quarter ended March 31, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. For further information, refer to the consolidated financial statements and footnotes thereto included in our annual report on Form 10-K for the year ended December 31, 2014.

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)***Revenues*

Revenues are recorded during the period the health care services are provided, based upon the estimated amounts due from the patients and third-party payers. Third-party payers include federal and state agencies (under Medicare, Medicaid and other programs), managed care health plans (includes the health insurance exchanges), commercial insurance companies and employers. Estimates of contractual allowances under managed care health plans are based upon the payment terms specified in the related contractual agreements. Revenues related to uninsured patients and copayment and deductible amounts for patients who have health care coverage may have discounts applied (uninsured discounts and contractual discounts). We also record a provision for doubtful accounts related to uninsured accounts to record the net self pay revenues at the estimated amounts we expect to collect. Our revenues from third-party payers, the uninsured and other for the quarters ended March 31, 2015 and 2014 are summarized in the following table (dollars in millions):

	2015	Ratio	2014	Ratio
Medicare	\$ 2,234	23.1%	\$ 2,125	24.1%
Managed Medicare	1,052	10.9	899	10.2
Medicaid	452	4.7	444	5.0
Managed Medicaid	549	5.7	421	4.8
Managed care and other insurers	5,216	53.9	4,710	53.3
International (managed care and other insurers)	321	3.3	326	3.7
	9,824	101.6	8,925	101.1
Uninsured	68	0.7	388	4.4

Revenues before provision for doubtful accounts	10,322	106.7	9,683	109.7
Provision for doubtful accounts	(646)	(6.7)	(851)	(9.7)
Revenues	\$ 9,676	100.0%	\$ 8,832	100.0%

Recent Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) and the International Accounting Standards Board issued a final, converged, principles-based standard on revenue recognition. Companies across all industries will use a five-step model to recognize revenue from customer contracts. The new standard, which replaces nearly all existing United States Generally Accepted Accounting Principles (US GAAP) and International Financial Reporting Standards revenue recognition guidance, will require significant management judgment in addition to changing the way many companies recognize revenue in their financial statements. The standard was originally scheduled to become effective for public entities for annual and interim periods beginning after December 15, 2016. Early adoption was originally not to be permitted under US GAAP. During April 2015, the FASB proposed a deferral of the effective date of the new revenue standard by one year, but would permit entities to adopt one year earlier if they choose (i.e., the original effective date). The FASB decided, based on its outreach to various stakeholders and forthcoming exposure drafts, which amend the new revenue standard, that a deferral may be necessary to provide adequate time to effectively implement the new standard. We are continuing to evaluate the effects the adoption of this standard will have on our financial statements and financial disclosures.

Edgar Filing: HCA Holdings, Inc. - Form 10-Q

In April 2015, the FASB issued Accounting Standards Update 2015-03, *Simplifying the Presentation of Debt Issuance Costs* (ASU 2015-03), which requires that debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. The guidance in the new standard is limited

Table of Contents

HCA HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Recent Pronouncements (continued)

to the presentation of debt issuance costs. The recognition and measurement guidance for debt issuance costs are not affected by ASU 2015-03. We have elected to adopt the new presentation for our March 31, 2015 condensed consolidated financial statements, and the applicable prior year amounts have been reclassified in accordance with ASU 2015-03.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

NOTE 2 ACQUISITIONS AND DISPOSITIONS

During the quarter ended March 31, 2015, we paid \$28 million to acquire other nonhospital health care entities. During the quarter ended March 31, 2014, we paid \$13 million to acquire a hospital and \$6 million to acquire other nonhospital health care entities.

During the quarter ended March 31, 2015, we received proceeds of \$15 million and recognized net pretax gains of \$9 million related to sales of real estate and other investments. During the quarter ended March 31, 2014, we received proceeds of \$23 million and recognized net pretax gains of \$21 million related to sales of real estate and other investments.

NOTE 3 INCOME TAXES

During 2014, the IRS Examination Division began an audit of HCA Holdings Inc.'s 2011 and 2012 federal income tax returns. We are also subject to examination by state and foreign taxing authorities.

Our liability for unrecognized tax benefits was \$544 million, including accrued interest of \$62 million, as of March 31, 2015 (\$548 million and \$58 million, respectively, as of December 31, 2014). Unrecognized tax benefits of \$215 million (\$205 million as of December 31, 2014) would affect the effective rate, if recognized. The provision for income taxes reflects \$4 million (\$3 million, net of tax) of interest expense related to taxing authority examinations for the quarter ended March 31, 2014.

Depending on the resolution of any IRS, state and foreign tax disputes, the completion of examinations by federal, state or foreign taxing authorities, or the expiration of statutes of limitation for specific taxing jurisdictions, we believe it is reasonably possible that our liability for unrecognized tax benefits may significantly increase or decrease within the next 12 months. However, we are currently unable to estimate the range of any possible change.

NOTE 4 EARNINGS PER SHARE

We compute basic earnings per share using the weighted average number of common shares outstanding. We compute diluted earnings per share using the weighted average number of common shares outstanding, plus the dilutive effect of outstanding stock options, stock appreciation rights and restricted share units, computed using the treasury stock method.

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 4 EARNINGS PER SHARE (continued)**

The following table sets forth the computation of basic and diluted earnings per share for the quarters ended March 31, 2015 and 2014 (dollars and shares in millions, except per share amounts):

	2015	2014
Net income attributable to HCA Holdings, Inc.	\$ 591	\$ 347
Weighted average common shares outstanding	420.148	442.150
Effect of dilutive incremental shares	15.161	15.299
Shares used for diluted earnings per share	435.309	457.449
Earnings per share:

Diluted earnings per share	\$ 1.36	\$ 0.76

NOTE 5 INVESTMENTS OF INSURANCE SUBSIDIARIES

A summary of our insurance subsidiaries' investments at March 31, 2015 and December 31, 2014 follows (dollars in millions):

	Amortized Cost	March 31, 2015 Unrealized Amounts		Fair Value
		Gains	Losses	
Debt securities:				
States and municipalities	\$ 471	\$ 18	\$ (1)	\$ 488
Money market funds	38			38
	509	18	(1)	526
Equity securities	1	3		4
	\$ 510	\$ 21	\$ (1)	530
Amounts classified as current assets				(95)
Investment carrying value				\$ 435

	Amortized Cost	December 31, 2014 Unrealized Amounts		Fair Value
		Gains	Losses	
Debt securities:				
States and municipalities	\$ 477	\$ 18	\$ (1)	\$ 494

Edgar Filing: HCA Holdings, Inc. - Form 10-Q

Money market funds	61			61
	538	18	(1)	555
Equity securities	1	2		3
	\$ 539	\$ 20	\$ (1)	558
Amounts classified as current assets				(64)
Investment carrying value				\$ 494

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 5 INVESTMENTS OF INSURANCE SUBSIDIARIES (continued)**

At March 31, 2015 and December 31, 2014, the investments of our insurance subsidiaries were classified as available-for-sale. Changes in temporary unrealized gains and losses are recorded as adjustments to other comprehensive income (loss). Amounts classified as current assets at March 31, 2015 include \$43 million to be distributed to the Company from an insurance subsidiary.

Scheduled maturities of investments in debt securities at March 31, 2015 were as follows (dollars in millions):

	Amortized Cost	Fair Value
Due in one year or less	\$ 71	\$ 71
Due after one year through five years	204	208
Due after five years through ten years	124	132
Due after ten years	110	115
	\$ 509	\$ 526

The average expected maturity of the investments in debt securities at March 31, 2015 was 4.0 years, compared to the average scheduled maturity of 5.7 years. Expected and scheduled maturities may differ because the issuers of certain securities have the right to call, prepay or otherwise redeem such obligations prior to their scheduled maturity date.

NOTE 6 FINANCIAL INSTRUMENTS*Interest Rate Swap Agreements*

We have entered into interest rate swap agreements to manage our exposure to fluctuations in interest rates. These swap agreements involve the exchange of fixed and variable rate interest payments between two parties based on common notional principal amounts and maturity dates. Pay-fixed interest rate swaps effectively convert LIBOR indexed variable rate obligations to fixed interest rate obligations. The interest payments under these agreements are settled on a net basis. The net interest payments, based on the notional amounts in these agreements, generally match the timing of the related liabilities for the interest rate swap agreements which have been designated as cash flow hedges. The notional amounts of the swap agreements represent amounts used to calculate the exchange of cash flows and are not our assets or liabilities. Our credit risk related to these agreements is considered low because the swap agreements are with creditworthy financial institutions.

The following table sets forth our interest rate swap agreements, which have been designated as cash flow hedges, at March 31, 2015 (dollars in millions):

	Notional Amount	Maturity Date	Fair Value
Pay-fixed interest rate swaps	\$ 3,000	December 2016	\$ (154)
Pay-fixed interest rate swaps	1,000	December 2017	(37)

During the next 12 months, we estimate \$116 million will be reclassified from other comprehensive income (OCI) to interest expense.

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 6 FINANCIAL INSTRUMENTS (continued)***Derivatives Results of Operations*

The following table presents the effect of our interest rate swaps on our results of operations for the quarter ended March 31, 2015 (dollars in millions):

Derivatives in Cash Flow Hedging Relationships	Amount of Loss Recognized in OCI on Derivatives, Net of Tax	Location of Loss Reclassified from Accumulated OCI into Operations	Amount of Loss Reclassified from Accumulated OCI into Operations
Interest rate swaps	\$ 15	Interest expense	\$ 31

Credit-risk-related Contingent Features

We have agreements with each of our derivative counterparties that contain a provision where we could be declared in default on our derivative obligations if repayment of the underlying indebtedness is accelerated by the lender due to our default on the indebtedness. As of March 31, 2015, we have not been required to post any collateral related to these agreements. If we had breached these provisions at March 31, 2015, we would have been required to settle our obligations under the agreements at their aggregate, estimated termination value of \$197 million.

NOTE 7 ASSETS AND LIABILITIES MEASURED AT FAIR VALUE

Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (ASC 820) emphasizes fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC 820 establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates and yield curves observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input significant to the fair value measurement in its entirety. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Cash Traded Investments

Our cash traded investments are generally classified within Level 1 or Level 2 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Certain types of cash traded instruments are classified within

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 7 ASSETS AND LIABILITIES MEASURED AT FAIR VALUE (continued)***Cash Traded Investments (continued)*

Level 3 of the fair value hierarchy because they trade infrequently and therefore have little or no price transparency. The valuation of these securities involves management's judgment, after consideration of market factors and the absence of market transparency, market liquidity and observable inputs. Our valuation models derived fair market values compared to tax-equivalent yields of other securities of similar credit worthiness and similar effective maturities.

Derivative Financial Instruments

We have entered into interest rate swap agreements to manage our exposure to fluctuations in interest rates. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. We incorporate credit valuation adjustments to reflect both our own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements.

Although we determined the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties. We assessed the significance of the impact of the credit valuation adjustments on the overall valuation of our derivative positions, and at March 31, 2015 and December 31, 2014, we determined the credit valuation adjustments were not significant to the overall valuation of our derivatives.

The following tables summarize our assets and liabilities measured at fair value on a recurring basis as of March 31, 2015 and December 31, 2014, aggregated by the level in the fair value hierarchy within which those measurements fall (dollars in millions):

	Fair Value	March 31, 2015 Fair Value Measurements Using

NOTE 8 LONG-TERM DEBT (continued)

2015 Activity

During January 2015, we issued \$1.000 billion aggregate principal amount of 5.375% senior notes due 2025. We used a portion of the net proceeds to repay at maturity our \$750 million aggregate principal amount of 6.375% senior unsecured notes due 2015.

2014 Activity

During October 2014, we issued \$600 million aggregate principal amount of 4.25% senior secured notes due 2019 and \$1.400 billion aggregate principal amount of 5.25% senior secured notes due 2025. During November 2014, we used a portion of the proceeds from the October 2014 debt issuances to redeem all \$1.400 billion aggregate principal amount of our outstanding 7¹/₄% senior secured notes due 2020. The pretax loss on retirement of debt related to this redemption was \$109 million.

During March 2014, we issued \$1.500 billion aggregate principal amount of 3.75% senior secured notes due 2019 and \$2.000 billion aggregate principal amount of 5.00% senior secured notes due 2024, and repaid at maturity all \$500 million aggregate principal amount of our outstanding 5.75% senior unsecured notes. During April 2014, we used proceeds from the March 2014 debt issuance to redeem all \$1.500 billion aggregate principal amount of our outstanding 8¹/₂% senior secured notes due 2019 and all \$1.250 billion aggregate principal amount of our outstanding 7¹/₈% senior secured notes due 2020. The pretax loss on retirement of debt related to these redemptions was \$226 million.

NOTE 9 CONTINGENCIES AND LEGAL CLAIM COSTS

We operate in a highly regulated and litigious industry. As a result, various lawsuits, claims and legal and regulatory proceedings have been and can be expected to be instituted or asserted against us. We are also subject to claims and suits arising in the ordinary course of business, including claims for personal injuries or wrongful restriction of, or interference with, physicians' staff privileges. In certain of these actions the claimants may seek punitive damages against us which may not be covered by insurance. We are subject to claims for additional taxes and related interest and penalties. The resolution of any such lawsuits, claims or legal and regulatory proceedings could have a material, adverse effect on our results of operations or financial position.

Government Investigations, Claims and Litigation

Health care companies are subject to numerous investigations by various governmental agencies. Further, under the federal False Claims Act (FCA), private parties have the right to bring *qui tam*, or whistleblower, suits against companies that submit false claims for payments to, or improperly retain overpayments from, the government. Some states have adopted similar state whistleblower and false claims provisions. Certain of our individual facilities have received, and from time to time, other facilities may receive, government inquiries from, and may be subject to investigation by, federal and state agencies. Depending on whether the underlying conduct in these or future inquiries or investigations could be considered systemic, their resolution could have a material, adverse effect on our financial position, results of operations and liquidity.

As initially disclosed in 2010, the Civil Division of the Department of Justice (DOJ) has contacted the Company in connection with its nationwide review of whether, in certain cases, hospital charges to the federal government relating to implantable cardio-defibrillators (ICDs) met the Centers for Medicare & Medicaid Services criteria. In connection with this nationwide review, the DOJ has indicated that it will be reviewing certain ICD billing and medical records at 95 HCA hospitals; the review covers the period from October 2003 to

Table of Contents

HCA HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 9 CONTINGENCIES AND LEGAL CLAIM COSTS (continued)

Government Investigations, Claims and Litigation (continued)

the present. In August 2012, HCA, along with non-HCA hospitals across the country subject to the DOJ's review, received from the DOJ a proposed framework for resolving the DOJ's review of ICDs. The Company is cooperating in the review. The review could potentially give rise to claims against the Company under the federal FCA or other statutes, regulations or laws. At this time, we cannot predict what effect, if any, this review or any resulting claims could have on the Company.

In July 2012, the Civil Division of the U.S. Attorney's Office in Miami requested information on reviews assessing the medical necessity of interventional cardiology services provided at any Company facility (other than peer reviews). The Company cooperated with the government's request and produced medical records associated with particular reviews at eight hospitals, located primarily in Florida. On February 24, 2015, the United States District Court for the Southern District of Florida unsealed a *qui tam* action which had been filed under seal on February 16, 2012 and alleges particular FCA violations relating to two specific facilities that were among the subjects of the Miami U.S. Attorney's Office investigation. On January 30, 2015, the U.S. Attorney's Office filed with the District Court a formal notice that the Department of Justice had declined to intervene in that action. An additional *qui tam* action relating to these topics was unsealed and voluntarily dismissed by the relator. The U.S. Attorney's Office in Miami is continuing its evaluation of the medical necessity of certain interventional cardiology services at the other hospitals for which the Company produced records. At this time, we cannot predict what effect, if any, the *qui tam* action, or any claims that might result from the U.S. Attorney's continued review, including any potential claims under the federal FCA, other statutes, regulations or laws, could have on the Company.

On April 2, 2014, the UK Competition and Markets Authority (Authority) issued a final report on its investigation of the private health care market in London. It concluded, among other things, that many private hospitals face little competition in central London, and that there are high barriers to entry. As part of its remedies package, the Authority ordered HCA to sell either: (a) its London Bridge and Princess Grace hospitals; or (b) its Wellington Hospital, including the Hospital Platinum Medical Centre. It also imposed other remedial conditions on HCA and other private health care providers, including: regulation of incentives to referring physicians; increased access to information about fees and performance; and restrictions on future arrangements between private providers and National Health Service private patient units. HCA disagrees with the Authority's assessment of the competitive conditions for hospitals in London, as well as its proposed divestiture remedy, and appealed the decision to the Competition Appeal Tribunal. The Competition Appeal Tribunal overturned certain of the Authority's findings and sent the matter back to the Authority for further proceedings.

Securities Class Action Litigation

On October 28, 2011, a shareholder action, Schuh v. HCA Holdings, Inc. et al., was filed in the United States District Court for the Middle District of Tennessee seeking monetary relief. The case sought to include as a class all persons who acquired the Company's stock pursuant or traceable to the Company's Registration Statement issued in connection with the March 9, 2011 initial public offering. The lawsuit asserted a claim under Section 11 of the Securities Act of 1933 against the Company, certain members of the board of directors, and certain underwriters in the offering. It further asserted a claim under Section 15 of the Securities Act of 1933 against the same members of the board of directors. The action alleged various deficiencies in the Company's disclosures in the Registration Statement. Subsequently, two additional class action complaints, Kishtah v. HCA Holdings, Inc. et al. and Daniels v. HCA Holdings, Inc. et al., setting forth substantially similar claims against substantially the same defendants were filed in the same federal court on November 16, 2011 and December 12, 2011, respectively. All three of the cases were consolidated. On May 3, 2012, the court appointed New England Teamsters & Trucking Industry Pension Fund as Lead Plaintiff for the consolidated action. On July 13, 2012, the

Table of Contents

HCA HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 9 CONTINGENCIES AND LEGAL CLAIM COSTS (continued)

Securities Class Action Litigation (continued)

lead plaintiff filed an amended complaint asserting claims under Sections 11 and 12(a)(2) of the Securities Act of 1933 against the Company, certain members of the board of directors, and certain underwriters in the offering. It further asserts a claim under Section 15 of the Securities Act of 1933 against the same members of the board of directors and Hercules Holding II, LLC, a majority shareholder of the Company at the time of the initial public offering. The consolidated complaint alleges deficiencies in the Company's disclosures in the Registration Statement and Prospectus relating to: (1) the accounting for the Company's 2006 recapitalization and 2010 reorganization; (2) the Company's failure to maintain effective internal controls relating to its accounting for such transactions; and (3) the Company's Medicare and Medicaid revenue growth rates. The Company and other defendants moved to dismiss the amended complaint on September 11, 2012. The court granted the motion in part on May 28, 2013. The action proceeded to discovery on the remaining claims. The plaintiffs' motion for class certification was granted on September 22, 2014. The court certified a class consisting of all persons that acquired HCA stock on or before October 28, 2011 (the date of the lawsuit) pursuant to the Registration Statement issued in connection with the March 9, 2011 initial public offering. A request to the court of appeals to hear an immediate appeal of this ruling was denied. Trial has been set for January 2016.

In addition to the above described shareholder class actions, on December 8, 2011, a federal shareholder derivative action, Sutton v. Bracken, et al., putatively initiated in the name of the Company, was filed in the United States District Court for the Middle District of Tennessee against certain officers and present and former directors of the Company seeking monetary relief. The action alleges breaches of fiduciary duties by the named officers and directors in connection with the accounting and earnings claims set forth in the shareholder class actions described above. Setting forth substantially similar claims against substantially the same defendants, an additional federal derivative action, Schroeder v. Bracken, et al., was filed in the United States District Court for the Middle District of Tennessee on December 16, 2011, and a state derivative action, Bagot v. Bracken, et al., was filed in Tennessee state court in the Davidson County Circuit Court on December 20, 2011. The federal derivative actions were consolidated in the Middle District of Tennessee and stayed pending developments in the shareholder class actions. The state derivative action had also been stayed pending developments in the shareholder class actions, but that stay has expired. The plaintiff in the state derivative action subsequently filed an amended complaint on September 9, 2013 that added additional allegations made in the shareholder class actions. On September 24, 2013, an additional state derivative action, Steinberg v. Bracken, et al., was filed in Tennessee state court in the Davidson County Circuit Court. This action against our board of directors has been consolidated with the earlier filed state derivative action. The plaintiffs in the consolidated action filed a consolidated complaint on December 4, 2013. The Company filed a motion to again stay the state derivative action pending developments in the class action, but the court has not yet acted on that motion.

Health Midwest Litigation

In October 2009, the Health Care Foundation of Greater Kansas City, a nonprofit health foundation, filed suit against HCA Inc. in the Circuit Court of Jackson County, Missouri and alleged that HCA did not fund the level of capital expenditures and uncompensated care agreed to in connection with HCA's purchase of hospitals from Health Midwest in 2003. The central issue in the case was whether HCA's construction of new hospitals counted towards its \$450 million five-year capital commitments. In addition, the plaintiff alleged that HCA did not make its required capital expenditures in a timely fashion. On January 24, 2013, the court ruled in favor of the plaintiff and awarded at least \$162 million. The court also ordered a court-supervised accounting of HCA's capital expenditures, as well as of expenditures on charity and uncompensated care during the ten years following the purchase. The court also indicated it would award plaintiff attorneys fees, which the parties have stipulated are approximately \$12 million for the trial phase. HCA recorded \$175 million of legal claim costs in the fourth

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 9 CONTINGENCIES AND LEGAL CLAIM COSTS (continued)***Health Midwest Litigation (continued)*

quarter of 2012 related to this ruling, and consistent with the judge's order, has been accruing interest on that sum at 9% per annum. On April 25, 2014, the parties stipulated to an additional \$78 million shortfall relating to the capital expenditures issue. HCA recorded \$78 million of legal claims costs in the first quarter of 2014 as a result of the stipulation, and is accruing interest on that amount at 9% per annum. Pursuant to the terms of the stipulation, the parties have preserved their respective rights to contest the judge's underlying ruling, whether through motions in the trial court or on appeal. On February 9, 2015, the parties reached an agreement to settle the part of their dispute relating to charity and uncompensated care for \$15 million. The foundation is required to use that amount, net of attorneys fees, for charitable activities in the Kansas City area. The parties also agreed on an additional amount for attorneys fees for the plaintiff for the accounting phase of the case. Final judgment in the case currently is anticipated for sometime in 2015. At this time, we cannot predict what effect, if any, the final judgment could have on the Company. HCA plans to appeal the trial court's ruling on the capital expenditures issues once the trial court enters judgment.

NOTE 10 CAPITAL STRUCTURE

The changes in stockholders' deficit, including changes in stockholders' deficit attributable to HCA Holdings, Inc. and changes in equity attributable to noncontrolling interests, are as follows (dollars and shares in millions):

	Equity (Deficit) Attributable to HCA Holdings, Inc.					Equity Attributable to Noncontrolling Interests	
	Common Stock Shares	Par Value	Capital in Excess of Par Value	Accumulated Other Comprehensive Loss	Retained Deficit	Noncontrolling Interests	Total
Balances at December 31, 2014	420.478	\$ 4	\$	\$ (323)	\$ (7,575)	\$ 1,396	\$ (6,498)

NOTE 11 SEGMENT AND GEOGRAPHIC INFORMATION

We operate in one line of business, which is operating hospitals and related health care entities. We operate in two geographically organized groups: the National and American Groups. The National Group includes 82 hospitals located in Alaska, California, Florida, southern Georgia, Idaho, Indiana, northern Kentucky, Nevada, New Hampshire, South Carolina, Utah and Virginia, and the American Group includes 79 hospitals located in Colorado, northern Georgia, Kansas, southern Kentucky, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee and Texas. We also operate seven hospitals in England, and these facilities are included in the Corporate and other group.

Table of Contents**HCA HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 11 SEGMENT AND GEOGRAPHIC INFORMATION (continued)**

Adjusted segment EBITDA is defined as income before depreciation and amortization, interest expense, gains on sales of facilities, legal claim costs, income taxes and net income attributable to noncontrolling interests. We use adjusted segment EBITDA as an analytical indicator for purposes of allocating resources to geographic areas and assessing their performance. Adjusted segment EBITDA is commonly used as an analytical indicator within the health care industry, and also serves as a measure of leverage capacity and debt service ability. Adjusted segment EBITDA should not be considered as a measure of financial performance under generally accepted accounting principles, and the items excluded from adjusted segment EBITDA are significant components in understanding and assessing financial performance. Because adjusted segment EBITDA is not a measurement determined in accordance with generally accepted accounting principles and is thus susceptible to varying calculations, adjusted segment EBITDA, as presented, may not be comparable to other similarly titled measures of other companies. The geographic distributions of our revenues, equity in earnings of affiliates, adjusted segment EBITDA and depreciation and amortization for the quarters ended March 31, 2015 and 2014 are summarized in the following table (dollars in millions):

	2015	2014
Revenues:		
National Group	\$ 4,650	\$ 4,162

Forward-Looking Statements

This quarterly report on Form 10-Q includes certain disclosures which contain forward-looking statements. Forward-looking statements include statements regarding estimated Electronic Health Record (EHR) incentive income and related EHR operating expenses, expected share-based compensation expense, expected capital expenditures and expected net claim payments and all other statements that do not relate solely to historical or current facts, and can be identified by the use of words like may, believe, will, expect, project, estimate, anticipate, plan, continue. These forward-looking statements are based on our current plans and expectations and are subject to a number of known and unknown uncertainties and risks, many of which are beyond our control, which could significantly affect current plans and expectations and our future financial position and results of operations. These factors include, but are not limited to, (1) the impact of our substantial indebtedness and the ability to refinance such indebtedness on acceptable terms, (2) the effects related to the implementation of the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act (collectively, the Health Reform Law), possible delays in or complications related to implementation of the Health Reform Law, court challenges, the possible enactment of additional federal or state health care reforms and possible changes to the Health Reform Law and other federal, state or local laws or regulations affecting the health care industry, (3) the effects related to the continued implementation of the sequestration spending reductions required under the Budget Control Act of 2011, and related legislation extending these reductions, and the potential for future deficit reduction legislation that may alter these spending reductions, which include cuts to Medicare payments, or create additional spending reductions, (4) increases in the amount and risk of collectability of uninsured accounts and deductibles and copayment amounts for insured accounts, (5) the ability to achieve operating and financial targets, and attain expected levels of patient volumes and control the costs of providing services, (6) possible changes in Medicare, Medicaid and other state programs, including Medicaid upper payment limit programs or Waiver Programs, that may impact reimbursements to health care providers and insurers, (7) the highly competitive nature of the health care business, (8) changes in service mix, revenue mix and surgical volumes, including potential declines in the population covered under managed care agreements, the ability to enter into and renew managed care provider agreements on acceptable terms and the impact of consumer-driven health plans and physician utilization trends and practices, (9) the efforts of insurers, health care providers and others to contain health care costs, (10) the outcome of our continuing efforts to monitor, maintain and comply with appropriate laws, regulations, policies and procedures, (11) increases in wages and the ability to attract and retain qualified management and personnel, including affiliated physicians, nurses and medical and technical support personnel, (12) the availability and terms of capital to fund the expansion of our business and improvements to our existing facilities, (13) changes in accounting practices, (14) changes in general economic conditions nationally and regionally in our markets, (15) the emergence and effects related to infectious diseases, including Ebola, (16) future divestitures which may result in charges and possible impairments of long-lived assets, (17) changes in business strategy or development plans, (18) delays in receiving payments for services provided, (19) the outcome of pending and any future tax audits, disputes and litigation associated with our tax positions, (20) potential adverse impact of known and unknown government investigations, litigation and other claims that may be made against us, (21) our ongoing ability to demonstrate meaningful use of certified EHR technology and recognize income for the related Medicare or Medicaid incentive payments, and (22) other risk factors described in our annual report on Form 10-K for the year ended December 31, 2014 and our other filings with the Securities and Exchange Commission. As a consequence, current plans, anticipated actions and future financial position and results of operations may differ from those expressed in any forward-looking statements made by or on behalf of HCA. You are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in this report, which forward-looking statements reflect management's views only as of the date of this report. We undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Health Care Reform

The Health Reform Law changes how health care services are covered, delivered and reimbursed through expanded coverage of uninsured individuals, reduced growth in Medicare program spending, reductions in Medicare and Medicaid Disproportionate Share Hospital payments, and the establishment of programs in which reimbursement is tied to quality and integration. In addition, the Health Reform Law reforms certain aspects of health insurance, expands existing efforts to tie Medicare and Medicaid payments to performance and quality, and contains provisions intended to strengthen fraud and abuse enforcement. Based on the Congressional Budget Office's March 2015 projection, by 2025, the Health Reform Law will expand coverage to 27 million additional individuals. This increased coverage will occur through a combination of public program expansion and private sector health insurance and other reforms. Most of the provisions of the Health Reform Law that seek to decrease the number of uninsured became effective January 1, 2014. However, the employer mandate, which requires firms with 50 or more full-time employees to offer health insurance or pay fines, has been delayed and will not be fully implemented until January 1, 2016. In addition, a number of states have opted out of the Medicaid expansion, but these states could choose to implement the expansion at a later date. It is unclear how many states will ultimately implement the Medicaid expansion provisions of the law.

First Quarter 2015 Operations Summary

Revenues increased to \$9.676 billion in the first quarter of 2015 from \$8.832 billion in the first quarter of 2014. Net income attributable to HCA Holdings, Inc. totaled \$591 million, or \$1.36 per diluted share, for the quarter ended March 31, 2015, compared to \$347 million, or \$0.76 per diluted share, for the quarter ended March 31, 2014. First quarter 2015 results include net gains on sales of facilities of \$9 million, or \$0.01 per diluted share. First quarter 2014 results include net gains on sales of facilities of \$21 million, or \$0.03 per diluted share, and legal claim costs of \$78 million, or \$0.11 per diluted share. All per diluted share disclosures are based upon amounts net of the applicable income taxes. Shares used for diluted earnings per share were 435.309 million shares for the quarter ended March 31, 2015 and 457.449 million shares for the quarter ended March 31, 2014. During 2014 and the first quarter of 2015, we repurchased 28.583 million and 5.205 million shares of our common stock, respectively.

Revenues increased 9.5% on a consolidated basis and increased 8.5% on a same facility basis for the quarter ended March 31, 2015, compared to the quarter ended March 31, 2014. The increase in consolidated revenues can be attributed primarily to the combined impact of a 1.5% increase in revenue per equivalent admission and a 7.9% increase in equivalent admissions. The same facility revenues increase resulted primarily from the combined impact of a 1.6% increase in same facility revenue per equivalent admission and a 6.8% increase in same facility equivalent admissions.

During the quarter ended March 31, 2015, consolidated admissions and same facility admissions increased 5.8% and 5.1%, respectively, compared to the quarter ended March 31, 2014. Inpatient surgeries increased 3.0% on both a consolidated basis and a same facility basis during the quarter ended March 31, 2015, compared to the quarter ended March 31, 2014. Outpatient surgeries increased 1.9% on a consolidated basis and 1.4% on a same facility basis during the quarter ended March 31, 2015, compared to the quarter ended March 31, 2014. Emergency department visits increased 12.3% on a consolidated basis and 11.5% on a same facility basis during the quarter ended March 31, 2015, compared to the quarter ended March 31, 2014.

For the quarter ended March 31, 2015, the provision for doubtful accounts declined \$205 million, compared to the quarter ended March 31, 2014. The self-pay revenue deductions for charity care and uninsured discounts declined \$33 million and increased \$225 million, respectively, during the first quarter of 2015, compared to the first quarter of 2014. The sum of the provision for doubtful accounts, uninsured discounts and charity care, as a

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

First Quarter 2015 Operations Summary (continued)

percentage of the sum of revenues, provision for doubtful accounts, uninsured discounts and charity care, was 29.6% for the first quarter of 2015, compared to 31.6% for the first quarter of 2014. Same facility uninsured admissions declined 12.5% for the quarter ended March 31, 2015, compared to the quarter ended March 31, 2014. We believe these favorable trends are primarily due to previously uninsured patients obtaining medical coverage through the health insurance exchanges and Medicaid expansion programs.

Electronic health record incentive income declined \$11 million, from \$30 million in the first quarter of 2014 to \$19 million in the first quarter of 2015. Share-based compensation expense increased \$11 million, from \$37 million in the first quarter of 2014 to \$48 million in the first quarter of 2015.

Cash flows from operating activities increased \$575 million from \$443 million for the first quarter of 2014 to \$1.018 billion for the first quarter of 2015. The increase is related primarily to the combined impact of a \$266 million increase in net income and a \$294 million benefit from changes in income taxes.

Results of Operations

Revenue/Volume Trends

Our revenues depend upon inpatient occupancy levels, the ancillary services and therapy programs ordered by physicians and provided to patients, the volume of outpatient procedures and the charge and negotiated payment rates for such services. Gross charges typically do not reflect what our facilities are actually paid. Our facilities have entered into agreements with third-party payers, including government programs and managed care health plans, under which the facilities are paid based upon the cost of providing services, predetermined rates per diagnosis, fixed per diem rates or discounts from gross charges. We do not pursue collection of amounts related to patients who meet our guidelines to qualify for charity care; therefore, they are not reported in revenues. We provide discounts to uninsured patients who do not qualify for Medicaid or charity care. After the discounts are applied, we are still unable to collect a significant portion of uninsured patients' accounts, and we record significant provisions for doubtful accounts (based upon our historical collection experience) related to uninsured patients in the period the services are provided.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)*Revenue/Volume Trends (continued)*

Revenues increased 9.5% from \$8.832 billion in the first quarter of 2014 to \$9.676 billion in the first quarter of 2015. Revenues are recorded during the period the health care services are provided, based upon the estimated amounts due from the patients and third-party payers. Third-party payers include federal and state agencies (under Medicare, Medicaid and other programs), managed care health plans (includes the health insurance exchanges), commercial insurance companies and employers. Estimates of contractual allowances under managed care health plans are based upon the payment terms specified in the related contractual agreements. Revenues related to uninsured patients and copayment and deductible amounts for patients who have health care coverage may have discounts applied (uninsured discounts and contractual discounts). We also record a provision for doubtful accounts related to uninsured accounts to record the net self pay revenues at the estimated amounts we expect to collect. Our revenues from our third-party payers, the uninsured and other for the quarters ended March 31, 2015 and 2014 are summarized in the following table (dollars in millions):

	2015	Ratio	2014	Ratio
Medicare	\$ 2,234	23.1%	\$ 2,125	24.1%
Managed Medicare	1,052	10.9	899	10.2
Medicaid	452	4.7	444	5.0
Managed Medicaid	549	5.7	421	4.8
Managed care and other insurers	5,216	53.9	4,710	53.3
International (managed care and other insurers)	321	3.3	326	3.7
	9,824	101.6	8,925	101.1
Uninsured	68	0.7	388	4.4
Other	430	4.4	370	4.2
Revenues before provision for doubtful accounts	10,322	106.7	9,683	109.7
Provision for doubtful accounts	(646)	(6.7)	(851)	(9.7)
Revenues	\$ 9,676	100.0%	\$ 8,832	100.0%

Consolidated and same facility revenue per equivalent admission increased 1.5% and 1.6%, respectively, in the first quarter of 2015, compared to the first quarter of 2014. Consolidated and same facility equivalent admissions increased 7.9% and 6.8%, respectively, in the first quarter of 2015, compared to the first quarter of 2014. Consolidated and same facility admissions increased 5.8% and 5.1%, respectively, in the first quarter of 2015, compared to the first quarter of 2014. Consolidated and same facility outpatient surgeries increased 1.9% and 1.4%, respectively, in the first quarter of 2015, compared to the first quarter of 2014. Consolidated and same facility inpatient surgeries each increased 3.0% in the first quarter of 2015, compared to the first quarter of 2014. Consolidated and same facility emergency department visits increased 12.3% and 11.5%, respectively, in the first quarter of 2015, compared to the first quarter of 2014.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)*Revenue/Volume Trends (continued)*

To quantify the total impact of and trends related to uninsured accounts, we believe it is beneficial to view the direct uninsured revenue deductions (charity care and uninsured discounts) and provision for doubtful accounts in combination, rather than each separately. At March 31, 2015, our allowance for doubtful accounts represented approximately 92% of the \$5.111 billion total patient due accounts receivable balance. The patient due accounts receivable balance represents the estimated uninsured portion of our accounts receivable. A summary of these adjustments to revenues amounts, related to uninsured accounts, for the quarters ended March 31, 2015 and 2014 follows (dollars in millions):

	2015	Ratio	2014	Ratio
Charity care	\$ 892	22%	\$ 925	23%
Uninsured discounts	2,526	62	2,301	56
Provision for doubtful accounts	646	16	851	21
Totals	\$ 4,064	100%	\$ 4,077	100%

Same facility uninsured admissions declined by 4,198 admissions, or 12.5%, in the first quarter of 2015, compared to the first quarter of 2014. Same facility uninsured admissions in 2014, compared to 2013, declined 8.8% in the fourth quarter of 2014, declined 14.8% in the third quarter of 2014, declined 14.7% in the second quarter of 2014 and increased 2.1% in the first quarter of 2014. We believe these declines were primarily due to previously uninsured patients obtaining medical coverage through the health insurance exchanges and Medicaid expansion programs.

The approximate percentages of our admissions related to Medicare, managed Medicare, Medicaid, managed Medicaid, managed care and other insurers and the uninsured for the quarters ended March 31, 2015 and 2014 are set forth in the following table.

	2015	2014
Medicare	32%	33%
Managed Medicare	15	14
Medicaid	6	8
Managed Medicaid	12	9
Managed care and other insurers	29	28
Uninsured	6	8
	100%	100%

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)*Revenue/Volume Trends (continued)*

The approximate percentages of our inpatient revenues, before provision for doubtful accounts, related to Medicare, managed Medicare, Medicaid, managed Medicaid, managed care and other insurers and the uninsured for the quarters ended March 31, 2015 and 2014 are set forth in the following table.

	2015	2014
Medicare	29%	30%
Managed Medicare	13	11
Medicaid	6	6
Managed Medicaid	6	5
Managed care and other insurers	46	46
Uninsured		2
	100%	100%

At March 31, 2015, we had 80 hospitals in the states of Texas and Florida. During the first quarter of 2015, 56% of our admissions and 47% of our revenues were generated by these hospitals. Uninsured admissions in Texas and Florida represented 67% of our uninsured admissions during the first quarter of 2015.

We receive a significant portion of our revenues from government health programs, principally Medicare and Medicaid, which are highly regulated and subject to frequent and substantial changes. In 2011, the Centers for Medicare & Medicaid Services (CMS) approved a Medicaid waiver that allows Texas to continue receiving supplemental Medicaid reimbursement while expanding its Medicaid managed care program. Thus, Texas is operating pursuant to a Waiver Program. The Texas Medicaid Waiver Program includes two primary components: the continuation of an indigent care component and the establishment of a Delivery System Reform Incentive Payment (DSRIP) component. Initiatives under the DSRIP program are designed to provide incentive payments to hospitals and other providers for their investments in delivery system reforms that increase access to health care, improve the quality of care and enhance the health of patients and families they serve. We provide indigent care services in several communities in the state of Texas, in affiliation with other hospitals. The state of Texas has been involved in efforts to increase the indigent care provided by private hospitals. As a result of additional indigent care being provided by private hospitals, public hospital districts or counties in Texas have available funds that were previously devoted to indigent care. The public hospital districts or counties are under no contractual or legal obligation to provide such indigent care. The public hospital districts or counties have elected to transfer some portion of these available funds to the state's Medicaid program. Such action is at the sole discretion of the public hospital districts or counties. It is anticipated that these contributions to the state will be matched with federal Medicaid funds. The state then may make supplemental payments to hospitals in the state for Medicaid services rendered. Hospitals receiving Medicaid supplemental payments may include those that are providing additional indigent care services. Our Texas Medicaid revenues included \$77 million (\$26 million DSRIP related and \$51 million indigent care related) and \$113 million (\$21 million DSRIP related and \$92 million indigent care related) during the first quarters of 2015 and 2014, respectively, of Medicaid supplemental payments.

On October 1, 2014, the Texas Health and Human Services Commission issued a notice to hospitals participating in the Texas Medicaid Waiver Program indicating that a review conducted by CMS identified certain local government/hospital affiliations it believes may be inconsistent with the waiver. During the third quarter of 2014, we ceased recognizing the estimated Medicaid revenues related to certain components of the Texas Medicaid Waiver Program.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)

Revenue/Volume Trends (continued)

In addition, we receive supplemental payments in several other states. We are aware these supplemental payment programs are currently being reviewed by certain state agencies and some states have made waiver requests to CMS to replace their existing supplemental payment programs. It is possible these reviews and waiver requests will result in the restructuring of such supplemental payment programs and could result in the payment programs being reduced or eliminated. Because deliberations about these programs are ongoing, we are unable to estimate the financial impact the program structure modifications, if any, may have on our results of operations.

Electronic Health Record Incentive Payments

The American Recovery and Reinvestment Act of 2009 provides for Medicare and Medicaid incentive payments, beginning in 2011, for eligible hospitals and professionals that adopt and meaningfully use certified EHR technology. We recognized \$19 million and \$30 million of electronic health record incentive income, primarily related to Medicare, during the first quarters of 2015 and 2014, respectively. At March 31, 2015, we had \$28 million of deferred EHR incentive income, which represents payments received for which EHR incentive income has not been recognized.

For 2015, we estimate EHR incentive income will be recognized in the range of \$40 million to \$50 million. Actual incentive payments could vary from these estimates due to certain factors such as availability of federal funding for both Medicare and Medicaid incentive payments and our ability to continue to demonstrate meaningful use of certified EHR technology. The failure of our ability to continue to demonstrate meaningful use of EHR technology could have a material, adverse effect on our results of operations.

Results of Operations (continued)*Operating Results Summary*

The following is a comparative summary of results from operations for the quarters ended March 31, 2015 and 2014 (dollars in millions):

	2015		2014	
	Amount	Ratio	Amount	Ratio
Revenues before provision for doubtful accounts	\$ 10,322		\$ 9,683	
Provision for doubtful accounts	646		851	
Revenues	9,676	100.0	8,832	100.0
Salaries and benefits	4,398	45.5	4,050	45.9
Supplies	1,638	16.9	1,532	17.3
Other operating expenses	1,717	17.7	1,645	18.6
Electronic health record incentive income	(19)	(0.2)	(30)	(0.3)
Equity in earnings of affiliates	(19)	(0.2)	(9)	(0.1)
Depreciation and amortization	473	5.0	447	5.0
Interest expense	419	4.3	460	5.2
Gains on sales of facilities	(9)	(0.1)	(21)	(0.2)
Legal claim costs			78	0.9
	8,598	88.9	8,152	92.3
Income before income taxes	1,078	11.1	680	7.7
Provision for income taxes	358	3.7	226	2.6
Net income	720	7.4	454	5.1
Net income attributable to noncontrolling interests	129	1.3	107	1.2
Net income attributable to HCA Holdings, Inc.	\$ 591	6.1	\$ 347	3.9
% changes from prior year:				
Revenues	9.5%		4.6%	
Income before income taxes	58.6		6.3	
Net income attributable to HCA Holdings, Inc.	70.5		0.8	
Admissions(a)	5.8		0.2	
Equivalent admissions(b)	7.9		0.7	
Revenue per equivalent admission	1.5		3.9	
Same facility % changes from prior year(c):				
Revenues	8.5		3.4	
Admissions(a)	5.1		(0.6)	
Equivalent admissions(b)	6.8		(0.3)	
Revenue per equivalent admission	1.6		3.7	

Edgar Filing: HCA Holdings, Inc. - Form 10-Q

- (a) Represents the total number of patients admitted to our hospitals and is used by management and certain investors as a general measure of inpatient volume.
- (b) Equivalent admissions are used by management and certain investors as a general measure of combined inpatient and outpatient volume. Equivalent admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient revenues and gross outpatient revenues and then dividing the resulting amount by gross inpatient revenues. The equivalent admissions computation equates outpatient revenues to the volume measure (admissions) used to measure inpatient volume, resulting in a general measure of combined inpatient and outpatient volume.
- (c) Same facility information excludes the operations of hospitals and their related facilities which were either acquired or divested during the current and prior period.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)

Quarters Ended March 31, 2015 and 2014

Net income attributable to HCA Holdings, Inc. totaled \$591 million, or \$1.36 per diluted share, for the first quarter of 2015 compared to \$347 million, or \$0.76 per diluted share, for the first quarter of 2014. First quarter 2015 results include net gains on sales of facilities of \$9 million, or \$0.01 per diluted share. First quarter 2014 results include net gains on sales of facilities of \$21 million, or \$0.03 per diluted share, and legal claim costs of \$78 million, or \$0.11 per diluted share. All per diluted share disclosures are based upon amounts net of the applicable income taxes. Shares used for diluted earnings per share were 435.309 million shares for the quarter ended March 31, 2015 and 457.449 million shares for the quarter ended March 31, 2014. During 2014 and the first quarter of 2015, we repurchased 28.583 million and 5.205 million shares of our common stock, respectively.

For the first quarter of 2015, consolidated and same facility admissions increased 5.8% and 5.1%, respectively, compared to the first quarter of 2014. Consolidated and same facility outpatient surgical volumes increased 1.9% and 1.4%, respectively, during the first quarter of 2015, compared to the first quarter of 2014. Consolidated and same facility inpatient surgeries each increased 3.0% in the first quarter of 2015, compared to the first quarter of 2014. Consolidated and same facility emergency department visits increased 12.3% and 11.5%, respectively, during the quarter ended March 31, 2015, compared to the quarter ended March 31, 2014.

Revenues before provision for doubtful accounts increased 6.6% for the first quarter of 2015 compared to the first quarter of 2014. The provision for doubtful accounts declined \$205 million from \$851 million in the first quarter of 2014 to \$646 million in the first quarter of 2015. The provision for doubtful accounts relates primarily to uninsured amounts due directly from patients, including copayment and deductible amounts for patients who have health care coverage. The self-pay revenue deductions for charity care and uninsured discounts declined \$33 million and increased \$225 million, respectively, during the first quarter of 2015, compared to the first quarter of 2014. The sum of the provision for doubtful accounts, uninsured discounts and charity care, as a percentage of the sum of revenues, the provision for doubtful accounts, uninsured discounts and charity care, was 29.6% for the first quarter of 2015, compared to 31.6% for the first quarter of 2014. We believe this decline is primarily due to previously uninsured patients obtaining medical coverage through the health insurance exchanges and Medicaid expansion programs. At March 31, 2015, our allowance for doubtful accounts represented approximately 92% of the \$5.111 billion total patient due accounts receivable balance, including accounts, net of estimated contractual discounts, related to patients for which eligibility for Medicaid coverage or uninsured discounts was being evaluated.

Revenues increased 9.5% due to the combined impact of revenue per equivalent admission growth of 1.5% and a 7.9% increase in equivalent admissions for the first quarter of 2015 compared to the first quarter of 2014. Same facility revenues increased 8.5% due to the combined impact of a 1.6% increase in same facility revenue per equivalent admission and a 6.8% increase in same facility equivalent admissions for the first quarter of 2015 compared to the first quarter of 2014.

Salaries and benefits, as a percentage of revenues, were 45.5% in the first quarter of 2015 and 45.9% in the first quarter of 2014. Salaries and benefits per equivalent admission increased 0.6% in the first quarter of 2015 compared to the first quarter of 2014. Same facility labor rate increases averaged 2.5% for the first quarter of 2015 compared to the first quarter of 2014.

Supplies, as a percentage of revenues, were 16.9% in the first quarter of 2015 and 17.3% in the first quarter of 2014. Supply costs per equivalent admission declined 0.9% in the first quarter of 2015 compared to the first quarter of 2014. Supply costs per equivalent admission increased 0.5% for pharmacy supplies and declined 0.3% for medical devices and 1.2% for general medical and surgical items in the first quarter of 2015 compared to the first quarter of 2014.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Results of Operations (continued)

Quarters Ended March 31, 2015 and 2014 (continued)

Other operating expenses, as a percentage of revenues, were 17.7% in the first quarter of 2015 and 18.6% in the first quarter of 2014. Other operating expenses is primarily comprised of contract services, professional fees, repairs and maintenance, rents and leases, utilities, insurance (including professional liability insurance) and nonincome taxes. Provisions for losses related to professional liability risks were \$92 million and \$96 million for the first quarters of 2015 and 2014, respectively.

We recognized \$19 million and \$30 million of electronic health record incentive income primarily related to Medicare incentives during the first quarters of 2015 and 2014, respectively.

Equity in earnings of affiliates was \$19 million and \$9 million in the first quarters of 2015 and 2014, respectively.

Depreciation and amortization increased \$26 million, from \$447 million in the first quarter of 2014 to \$473 million in the first quarter of 2015.

Interest expense declined from \$460 million in the first quarter of 2014 to \$419 million in the first quarter of 2015. The decline in interest expense was due to a decline in the average interest rate. Our average debt balance was \$29.412 billion for the first quarter of 2015 compared to \$28.302 billion for the first quarter of 2014. The average effective interest rate for our long term-debt declined from 6.6% for the quarter ended March 31, 2014 to 5.8% for the quarter ended March 31, 2015.

During the first quarters of 2015 and 2014, we recorded net gains on sales of facilities of \$9 million and \$21 million, respectively.

We recorded \$78 million of legal claim costs during the first quarter of 2014 to increase the estimate of our legal liability in the previously disclosed lawsuit alleging we did not make the full level of capital expenditures and uncompensated care agreed to in the connection with the purchase of the hospitals from Health Midwest in 2003.

The effective tax rates were 37.7% and 39.4% for the first quarters of 2015 and 2014, respectively. The effective tax rate computations exclude net income attributable to noncontrolling interests as it relates to consolidated partnerships.

Net income attributable to noncontrolling interests increased from \$107 million for the first quarter of 2014 to \$129 million for the first quarter of 2015. The increase in net income attributable to noncontrolling interests related primarily to increases in operating results of hospital joint ventures in a Texas market and an Oklahoma market.

Liquidity and Capital Resources

Cash provided by operating activities totaled \$1.018 billion in the first quarter of 2015 compared to \$443 million in the first quarter of 2014. The \$575 million increase in cash provided by operating activities in the first quarter of 2015 compared to the first quarter of 2014 related primarily to a \$266 million increase in net income and a \$294 million benefit from changes in income taxes. The combined interest payments and net tax payments in the first quarter of 2015 and 2014 were \$369 million and \$555 million, respectively. Working capital totaled \$1.958 billion at March 31, 2015 and \$3.450 billion at December 31, 2014. The \$1.492 billion decline in working capital related primarily to a \$1.699 billion increase in long-term debt due within one year.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Liquidity and Capital Resources (continued)

Cash used in investing activities was \$432 million in the first quarter of 2015 compared to \$409 million in the first quarter of 2014. Excluding acquisitions, capital expenditures were \$446 million in the first quarter of 2015 and \$400 million in the first quarter of 2014. We expended \$28 million to acquire nonhospital health care facilities during the first quarter of 2015. We expended \$13 million for the acquisition of a hospital facility and \$6 million to acquire nonhospital health care entities during the first quarter of 2014. Capital expenditures, excluding acquisitions, are expected to approximate \$2.5 billion in 2015. At March 31, 2015, there were projects under construction which had estimated additional costs to complete and equip over the next five years of approximately \$2.1 billion. We expect to finance capital expenditures with internally generated and borrowed funds. We received \$15 million and \$23 million from sales of real estate and other investments during the first quarters of 2015 and 2014, respectively. We received \$22 million of net cash flows from our investments in the first quarter of 2015 and paid \$13 million to increase investments during the first quarter of 2014.

Cash used in financing activities totaled \$566 million in the first quarter of 2015 compared to \$402 million of cash provided by financing activities in the first quarter of 2014. During the first quarter of 2015, net cash flows used in financing activities included a net decline of \$51 million in our indebtedness, repurchases of common stock of \$366 million, distributions to noncontrolling interests of \$132 million, payments of debt issuance costs of \$11 million, distributions to stockholders of \$6 million and receipts of \$38 million of income tax benefits for certain items (primarily related to employee exercises of stock options). During the first quarter of 2014, net cash flows provided by financing activities included a net increase of \$520 million in our indebtedness, distributions to noncontrolling interests of \$87 million, payments of debt issuance costs of \$48 million, distributions to stockholders of \$7 million and receipts of \$50 million of income tax benefits for certain items (primarily related to employee exercises of stock options).

We are a highly leveraged company with significant debt service requirements. Our debt totaled \$29.443 billion at March 31, 2015. Our interest expense was \$419 million for the first quarter of 2015 and \$460 million for the first quarter of 2014. The decline in interest expense was due to the decline in the average interest rate.

In addition to cash flows from operations, available sources of capital include amounts available under our senior secured credit facilities (\$2.587 billion and \$2.337 billion available as of March 31, 2015 and April 30, 2015, respectively) and anticipated access to public and private debt markets.

During January 2015, we issued \$1.000 billion aggregate principal amount of 5.375% senior notes due 2025. We used a portion of the net proceeds to repay at maturity our \$750 million aggregate principal amount of 6.375% senior unsecured notes due 2015.

During October 2014, we issued \$600 million aggregate principal amount of 4.25% senior secured notes due 2019 and \$1.400 billion aggregate principal amount of 5.25% senior secured notes due 2025. During November 2014, we used a portion of the proceeds from the October 2014 debt issuances to redeem all \$1.400 billion aggregate principal amount of our outstanding 7 ¹/₄% senior secured notes due 2020. The pretax loss on retirement of debt related to this redemption was \$109 million.

During March 2014, we issued \$1.500 billion aggregate principal amount of 3.75% senior secured notes due 2019 and \$2.000 billion aggregate principal amount of 5.00% senior secured notes due 2024, and repaid at maturity all \$500 million aggregate principal amount of our outstanding 5.75% senior unsecured notes. During April 2014, we used proceeds from the March 2014 debt issuance to redeem all \$1.500 billion aggregate principal amount of our outstanding 8 ¹/₂% senior secured notes due 2019 and all \$1.250 billion aggregate principal amount of our outstanding 7 ⁷/₈% senior secured notes due 2020. The pretax loss on retirement of debt related to these redemptions was \$226 million.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Liquidity and Capital Resources (continued)

Investments of our professional liability insurance subsidiaries, to maintain statutory equity and pay claims, totaled \$530 million and \$558 million at March 31, 2015 and December 31, 2014, respectively. An insurance subsidiary maintained net reserves for professional liability risks of \$277 million and \$347 million at March 31, 2015 and December 31, 2014, respectively. Our facilities are insured by a 100% owned insurance subsidiary for losses up to \$50 million per occurrence; however, this coverage is subject to a \$15 million per occurrence self-insured retention. Net reserves for the self-insured professional liability risks retained were \$1.120 billion and \$1.035 billion at March 31, 2015 and December 31, 2014, respectively. Claims payments, net of reinsurance recoveries, during the next 12 months are expected to approximate \$325 million. We estimate that approximately \$273 million of the expected net claim payments during the next 12 months will relate to claims subject to the self-insured retention.

Management believes that cash flows from operations, amounts available under our senior secured credit facilities and our anticipated access to public and private debt markets will be sufficient to meet expected liquidity needs during the next 12 months.

Market Risk

We are exposed to market risk related to changes in market values of securities. The investments in debt and equity securities of our 100% owned insurance subsidiaries were \$526 million and \$4 million, respectively, at March 31, 2015. These investments are carried at fair value, with changes in unrealized gains and losses being recorded as adjustments to other comprehensive income. At March 31, 2015, we had a net unrealized gain of \$20 million on the insurance subsidiaries' investment securities.

We are exposed to market risk related to market illiquidity. Investments in debt and equity securities of our 100% owned insurance subsidiaries could be impaired by the inability to access the capital markets. Should the 100% owned insurance subsidiaries require significant amounts of cash in excess of normal cash requirements to pay claims and other expenses on short notice, we may have difficulty selling these investments in a timely manner or be forced to sell them at a price less than what we might otherwise have been able to in a normal market environment. We may be required to recognize other-than-temporary impairments on our investment securities in future periods should issuers default on interest payments or should the fair market valuations of the securities deteriorate due to ratings downgrades or other issue-specific factors.

We are also exposed to market risk related to changes in interest rates, and we periodically enter into interest rate swap agreements to manage our exposure to these fluctuations. Our interest rate swap agreements involve the exchange of fixed and variable rate interest payments between two parties, based on common notional principal amounts and maturity dates. The notional amounts of the swap agreements represent balances used to calculate the exchange of cash flows and are not our assets or liabilities. Our credit risk related to these agreements is considered low because the swap agreements are with creditworthy financial institutions. The interest payments under these agreements are settled on a net basis. These derivatives have been recognized in the financial statements at their respective fair values. Changes in the fair value of these derivatives, which are designated as cash flow hedges, are included in other comprehensive income, and changes in the fair value of derivatives which have not been designated as hedges are recorded in operations.

With respect to our interest-bearing liabilities, approximately \$4.119 billion of long-term debt at March 31, 2015 was subject to variable rates of interest, while the remaining balance in long-term debt of \$25.324 billion at March 31, 2015 was subject to fixed rates of interest. Both the general level of interest rates and, for the senior secured credit facilities, our leverage affect our variable interest rates. Our variable debt is comprised primarily

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Liquidity and Capital Resources (continued)

Market Risk (continued)

of amounts outstanding under the senior secured credit facilities. Borrowings under the senior secured credit facilities bear interest at a rate equal to an applicable margin plus, at our option, either (a) a base rate determined by reference to the higher of (1) the federal funds rate plus 0.50% and (2) the prime rate of Bank of America or (b) a LIBOR rate for the currency of such borrowing for the relevant interest period. The applicable margin for borrowings under the senior secured credit facilities may fluctuate according to a leverage ratio. The average effective interest rate for our long-term debt declined from 6.6% for the quarter ended March 31, 2014 to 5.8% for the quarter ended March 31, 2015.

The estimated fair value of our total long-term debt was \$31.384 billion at March 31, 2015. The estimates of fair value are based upon the quoted market prices for the same or similar issues of long-term debt with the same maturities. Based on a hypothetical 1% increase in interest rates, the potential annualized reduction to future pretax earnings would be approximately \$41 million. To mitigate the impact of fluctuations in interest rates, we generally target a portion of our debt portfolio to be maintained at fixed rates.

Our international operations and the related market risks associated with foreign currencies are currently insignificant to our results of operations and financial position.

Tax Examinations

The IRS Examination Division began an audit of HCA Holdings, Inc.'s 2011 and 2012 federal income tax returns during 2014. We are also subject to examination by state and foreign taxing authorities.

Management believes HCA Holdings, Inc. and its affiliates properly reported taxable income and paid taxes in accordance with applicable laws and agreements established with taxing authorities and final resolution of any disputes will not have a material, adverse effect on our results of operations or financial position. However, if payments due upon final resolution of any issues exceed our recorded estimates, such resolutions could have a material, adverse effect on our results of operations or financial position.

Total	52%	13%	35%

- (a) Licensed beds are those beds for which a facility has been granted approval to operate from the applicable state licensing agency.
- (b) Represents the average number of licensed beds, weighted based on periods owned.
- (c) Represents the average number of patients in our hospital beds each day.
- (d) Represents the total number of patients admitted to our hospitals and is used by management and certain investors as a general measure of inpatient volume.
- (e) Equivalent admissions are used by management and certain investors as a general measure of combined inpatient and outpatient volume. Equivalent admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient revenues and gross outpatient revenues and then dividing the resulting amount by gross inpatient revenues. The equivalent admissions computation equates outpatient revenues to the volume measure (admissions) used to measure inpatient volume resulting in a general measure of combined inpatient and outpatient volume.
- (f) Represents the average number of days admitted patients stay in our hospitals.
- (g) Represents the number of patients treated in our emergency rooms.
- (h) Represents the number of surgeries performed on patients who were not admitted to our hospitals. Pain management and endoscopy procedures are not included in outpatient surgeries.
- (i) Represents the number of surgeries performed on patients who have been admitted to our hospitals. Pain management and endoscopy procedures are not included in inpatient surgeries.
- (j) Revenues per day is calculated by dividing the revenues for the quarter by the days in the quarter. Days revenues in accounts receivable is then calculated as accounts receivable, net of allowance for doubtful accounts, at the end of the quarter divided by the revenues per day. Revenues used in this computation are net of the provision for doubtful accounts.
- (k) Represents the percentage of patient revenues related to patients who are not admitted to our hospitals.
- (l) Accounts receivable aging data is based upon consolidated gross accounts receivable of \$10.620 billion (each 1% is equivalent to approximately \$106 million of gross accounts receivable).

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information called for by this item is provided under the caption "Market Risk" under Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

HCA's chief executive officer and chief financial officer have reviewed and evaluated the effectiveness of HCA's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934) as of the end of the period covered by this quarterly report. Based on that evaluation, the chief executive officer and chief financial officer have concluded HCA's disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

During the period covered by this report, there have been no changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We operate in a highly regulated and litigious industry. As a result, various lawsuits, claims and legal and regulatory proceedings have been and can be expected to be instituted or asserted against us. We are also subject to claims and suits arising in the ordinary course of business, including claims for personal injuries or wrongful restriction of, or interference with, physicians' staff privileges. In certain of these actions the claimants may seek punitive damages against us which may not be covered by insurance. We are subject to claims for additional taxes and related interest and penalties. The resolution of any such lawsuits, claims or legal and regulatory proceedings could have a material, adverse effect on our results of operations or financial position.

Government Investigations, Claims and Litigation

Health care companies are subject to numerous investigations by various governmental agencies. Further, under the federal False Claims Act ("FCA"), private parties have the right to bring *qui tam*, or "whistleblower," suits against companies that submit false claims for payments to, or improperly retain overpayments from, the government. Some states have adopted similar state whistleblower and false claims provisions. Certain of our individual facilities have received, and from time to time, other facilities may receive, government inquiries from, and may be subject to investigation by, federal and state agencies. Depending on whether the underlying conduct in these or future inquiries or investigations could be considered systemic, their resolution could have a material, adverse effect on our financial position, results of operations and liquidity.

As initially disclosed in 2010, the Civil Division of the Department of Justice ("DOJ") has contacted the Company in connection with its nationwide review of whether, in certain cases, hospital charges to the federal government relating to implantable cardio-defibrillators ("ICDs") met the CMS criteria. In connection with this nationwide review, the DOJ has indicated that it will be reviewing certain ICD billing and medical records at 95 HCA hospitals; the review covers the period from October 2003 to the present. In August 2012, HCA, along with non-HCA hospitals across the country subject to the DOJ's review, received from the DOJ a proposed framework for resolving the DOJ's review of ICDs. The Company is cooperating in the review. The review could potentially give rise to claims against the Company under the federal FCA or other statutes, regulations or laws. At this time, we cannot predict what effect, if any, this review or any resulting claims could have on the Company.

In July 2012, the Civil Division of the U.S. Attorney's Office in Miami requested information on reviews assessing the medical necessity of interventional cardiology services provided at any Company facility (other

Table of Contents

than peer reviews). The Company cooperated with the government's request and produced medical records associated with particular reviews at eight hospitals, located primarily in Florida. On February 24, 2015, the United States District Court for the Southern District of Florida unsealed a *qui tam* action which had been filed under seal on February 16, 2012 and alleges particular FCA violations relating to two specific facilities that were among the subjects of the Miami U.S. Attorney's Office investigation. On January 30, 2015, the U.S. Attorney's Office filed with the District Court a formal notice that the Department of Justice had declined to intervene in that action. An additional *qui tam* action relating to these topics was unsealed and voluntarily dismissed by the relator. The U.S. Attorney's Office in Miami is continuing its evaluation of the medical necessity of certain interventional cardiology services at the other hospitals for which the Company produced records. At this time, we cannot predict what effect, if any, the *qui tam* action, or any claims that might result from the U.S. Attorney's continued review, including any potential claims under the federal FCA, other statutes, regulations or laws, could have on the Company.

On April 2, 2014, the UK Competition and Markets Authority (Authority) issued a final report on its investigation of the private health care market in London. It concluded, among other things, that many private hospitals face little competition in central London, and that there are high barriers to entry. As part of its remedies package, the Authority ordered HCA to sell either: (a) its London Bridge and Princess Grace hospitals; or (b) its Wellington Hospital, including the Hospital Platinum Medical Centre. It also imposed other remedial conditions on HCA and other private health care providers, including: regulation of incentives to referring physicians; increased access to information about fees and performance; and restrictions on future arrangements between private providers and National Health Service private patient units. HCA disagrees with the Authority's assessment of the competitive conditions for hospitals in London, as well as its proposed divestiture remedy, and appealed the decision to the Competition Appeal Tribunal. The Competition Appeal Tribunal overturned certain of the Authority's findings and sent the matter back to the Authority for further proceedings.

Securities Class Action Litigation

On October 28, 2011, a shareholder action, *Schuh v. HCA Holdings, Inc. et al.*, was filed in the United States District Court for the Middle District of Tennessee seeking monetary relief. The case sought to include as a class all persons who acquired the Company's stock pursuant or traceable to the Company's Registration Statement issued in connection with the March 9, 2011 initial public offering. The lawsuit asserted a claim under Section 11 of the Securities Act of 1933 against the Company, certain members of the board of directors, and certain underwriters in the offering. It further asserted a claim under Section 15 of the Securities Act of 1933 against the same members of the board of directors. The action alleged various deficiencies in the Company's disclosures in the Registration Statement. Subsequently, two additional class action complaints, *Kishtah v. HCA Holdings, Inc. et al.* and *Daniels v. HCA Holdings, Inc. et al.*, setting forth substantially similar claims against substantially the same defendants were filed in the same federal court on November 16, 2011 and December 12, 2011, respectively. All three of the cases were consolidated. On May 3, 2012, the court appointed New England Teamsters & Trucking Industry Pension Fund as Lead Plaintiff for the consolidated action. On July 13, 2012, the lead plaintiff filed an amended complaint asserting claims under Sections 11 and 12(a)(2) of the Securities Act of 1933 against the Company, certain members of the board of directors, and certain underwriters in the offering. It further asserts a claim under Section 15 of the Securities Act of 1933 against the same members of the board of directors and Hercules Holding II, LLC, a majority shareholder of the Company at the time of the initial public offering. The consolidated complaint alleges deficiencies in the Company's disclosures in the Registration Statement and Prospectus relating to: (1) the accounting for the Company's 2006 recapitalization and 2010 reorganization; (2) the Company's failure to maintain effective internal controls relating to its accounting for such transactions; and (3) the Company's Medicare and Medicaid revenue growth rates. The Company and other defendants moved to dismiss the amended complaint on September 11, 2012. The court granted the motion in part on May 28, 2013. The action proceeded to discovery on the remaining claims. The plaintiffs' motion for class certification was granted on September 22, 2014. The court certified a class consisting of all persons that acquired HCA stock on or before October 28, 2011 (the date of the lawsuit) pursuant to the Registration Statement issued in connection with the March 9, 2011 initial public offering. A request to the court of appeals to hear an immediate appeal of this ruling was denied. Trial has been set for January 2016.

Table of Contents

In addition to the above described shareholder class actions, on December 8, 2011, a federal shareholder derivative action, *Sutton v. Bracken*, et al., putatively initiated in the name of the Company, was filed in the United States District Court for the Middle District of Tennessee against certain officers and present and former directors of the Company seeking monetary relief. The action alleges breaches of fiduciary duties by the named officers and directors in connection with the accounting and earnings claims set forth in the shareholder class actions described above. Setting forth substantially similar claims against substantially the same defendants, an additional federal derivative action, *Schroeder v. Bracken*, et al., was filed in the United States District Court for the Middle District of Tennessee on December 16, 2011, and a state derivative action, *Bagot v. Bracken*, et al., was filed in Tennessee state court in the Davidson County Circuit Court on December 20, 2011. The federal derivative actions were consolidated in the Middle District of Tennessee and stayed pending developments in the shareholder class actions. The state derivative action had also been stayed pending developments in the shareholder class actions, but that stay has expired. The plaintiff in the state derivative action subsequently filed an amended complaint on September 9, 2013 that added additional allegations made in the shareholder class actions. On September 24, 2013, an additional state derivative action, *Steinberg v. Bracken*, et al., was filed in Tennessee state court in the Davidson County Circuit Court. This action against our board of directors has been consolidated with the earlier filed state derivative action. The plaintiffs in the consolidated action filed a consolidated complaint on December 4, 2013. The Company filed a motion to again stay the state derivative action pending developments in the class action, but the court has not yet acted on that motion.

Health Midwest Litigation

In October 2009, the Health Care Foundation of Greater Kansas City, a nonprofit health foundation, filed suit against HCA Inc. in the Circuit Court of Jackson County, Missouri and alleged that HCA did not fund the level of capital expenditures and uncompensated care agreed to in connection with HCA's purchase of hospitals from Health Midwest in 2003. The central issue in the case was whether HCA's construction of new hospitals counted towards its \$450 million five-year capital commitments. In addition, the plaintiff alleged that HCA did not make its required capital expenditures in a timely fashion. On January 24, 2013, the court ruled in favor of the plaintiff and awarded at least \$162 million. The court also ordered a court-supervised accounting of HCA's capital expenditures, as well as of expenditures on charity and uncompensated care during the ten years following the purchase. The court also indicated it would award plaintiff attorneys fees, which the parties have stipulated are approximately \$12 million for the trial phase. HCA recorded \$175 million of legal claim costs in the fourth quarter of 2012 related to this ruling, and consistent with the judge's order, has been accruing interest on that sum at 9% per annum. On April 25, 2014, the parties stipulated to an additional \$78 million shortfall relating to the capital expenditures issue. HCA recorded \$78 million of legal claims costs in the first quarter of 2014 as a result of the stipulation, and is accruing interest on that amount at 9% per annum. Pursuant to the terms of the stipulation, the parties have preserved their respective rights to contest the judge's underlying ruling, whether through motions in the trial court or on appeal. On February 9, 2015, the parties reached an agreement to settle the part of their dispute relating to charity and uncompensated care for \$15 million. The foundation is required to use that amount, net of attorneys fees, for charitable activities in the Kansas City area. The parties also agreed on an additional amount for attorneys fees for the plaintiff for the accounting phase of the case. Final judgment in the case currently is anticipated for sometime in 2015. At this time, we cannot predict what effect, if any, the final judgment could have on the Company. HCA plans to appeal the trial court's ruling on the capital expenditures issues once the trial court enters judgment.

ITEM 1A. RISK FACTORS

Reference is made to the factors set forth under the caption "Forward-Looking Statements" in Part I, Item 2 of this Form 10-Q and other risk factors described in our annual report on Form 10-K for the year ended December 31, 2014, which are incorporated herein by reference. There have not been any material changes to the risk factors previously disclosed in our annual report on Form 10-K for the year ended December 31, 2014.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

On February 2, 2015, our Board of Directors authorized a share repurchase program for up to \$1 billion of our outstanding common stock. Repurchases made during the first quarter of 2015, as detailed below, were made pursuant to this authorization. The repurchases were made in the open market.

The following table provides certain information with respect to our repurchases of common stock from January 1, 2015 through March 31, 2015 (dollars in millions, except per share amounts).

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under Publicly Announced Plans or Programs
January 1, 2015 through January 31, 2015		\$		\$
February 1, 2015 through February 28, 2015	4,064,352	\$ 69.22	4,064,352	\$ 719
March 1, 2015 through March 31, 2015	1,141,042	\$ 73.87	1,141,042	\$ 634
Total for First Quarter 2015	5,205,394	\$ 70.24	5,205,394	\$ 634

ITEM 5. OTHER INFORMATION**Voting Results from 2015 Annual Meeting of Stockholders**

At our Annual Meeting of Stockholders (the Annual Meeting) held on April 30, 2015 at our corporate headquarters in Nashville, Tennessee, a total of 378,257,449 shares of our common stock, out of a total of 419,503,619 shares of common stock outstanding and entitled to vote, were present in person or represented by proxies. The following proposals were voted on and approved by our stockholders at the Annual Meeting:

1. Election to the Company's Board of Directors of the following 11 director nominees for a one-year term:

	For	Withheld	Broker Non-Votes
R. Milton Johnson	343,518,448	13,663,356	21,075,645
Robert J. Dennis	347,706,957	9,474,847	21,075,645
Nancy-Ann DeParle	353,397,085	3,784,719	21,075,645
Thomas F. Frist III	341,115,948	16,065,856	21,075,645
William R. Frist	341,425,345	15,756,459	21,075,645
Ann H. Lamont	346,214,318	10,967,486	21,075,645
Jay O. Light	347,800,213	9,381,591	21,075,645
Geoffrey G. Meyers	348,592,317	8,589,487	21,075,645
Michael W. Michelson	341,116,547	16,065,257	21,075,645
Wayne J. Riley, M.D.	351,600,997	5,580,807	21,075,645
John W. Rowe, M.D.	353,443,884	3,737,920	21,075,645

2. Ratification of the selection of Ernst & Young LLP as the Company's independent registered public accounting firm for the year ending December 31, 2015:

For	Against	Abstentions	Broker Non-Votes
-----	---------	-------------	------------------

368,841,829	7,242,429	2,173,191	0
-------------	-----------	-----------	---

Table of Contents

3. Adoption of a non-binding advisory resolution on the Company's executive compensation as described in the Company's 2015 proxy statement:

For	Against	Abstentions	Broker Non-Votes
292,887,103	60,000,937	4,293,764	21,075,645

Board of Directors Compensation Program

On April 30, 2015, our Board of Directors approved a revised Board of Directors Compensation program, effective immediately, pursuant to which each independent director will receive quarterly payment of the following cash compensation, as applicable (prorated for partial years):

\$100,000 annual retainer for service as a Board member;

\$30,000 annual retainer for service as the non-management and independent presiding director;

\$15,000 annual retainer for service as a member of the Audit and Compliance Committee;

\$10,000 annual retainer for service as a member on each of the Compensation Committee, Nominating and Corporate Governance Committee or Patient Safety and Quality of Care Committee;

\$30,000 annual retainer for service as Chair of the Audit and Compliance Committee;

\$20,000 annual retainer for service as Chair of the Compensation Committee; and

\$17,500 annual retainer for service as Chair of each of the Nominating and Corporate Governance Committee or Patient Safety and Quality of Care Committee.

In addition to the director compensation described above, each independent director will receive an annual board equity award with a value of \$175,000, awarded upon joining the Board of Directors (prorated at the time of hire for months of service) and at each annual meeting of the stockholders thereafter. These equity grants consist of restricted share units ultimately payable in shares of our common stock. These restricted share units vest as to 100% of the award on the first anniversary of the grant date, subject to the director's continued service on our Board of Directors. The restricted share units will also immediately vest upon the occurrence of a Change in Control (as defined in the applicable grant agreement). The directors may elect to defer receipt of shares under the restricted share units. Directors will also be reimbursed for their reasonable expenses incurred in connection with their service.
