PROXY STATEMENT

FOR ANNUAL MEETING OF STOCKHOLDERS

JANUARY 21, 2016

INFORMATION CONCERNING SOLICITATION AND VOTING

General

We are using the Securities and Exchange Commission (SEC) Notice and Access model, which allows us to make the proxy materials available on the Internet, as the primary means of furnishing proxy materials to stockholders. On or about December 9, 2015, we mailed to all stockholders a Notice, which contains instructions for accessing our proxy materials on the Internet and voting by telephone or on the Internet. The Notice also contains instructions for requesting a full printed set of the proxy materials.

The enclosed proxy is solicited on behalf of Jabil Circuit, Inc., a Delaware corporation (except where the context otherwise requires, references herein to Jabil Company we our or us mean Jabil Circuit, Inc. together with its subsidiaries), for use at the Annual Meeting of Stockholders to be held on Thursday, January 21, 2016, at 10:00 a.m. (ET), and at any adjournment thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Stockholders. The Annual Meeting will be held in the Sunset Ballroom at the Renaissance Vinoy Golf Club located at 600 Snell Isle Boulevard, St. Petersburg, Florida 33704. Jabil's principal executive office is located at 10560 Dr. Martin Luther King, Jr. Street North, St. Petersburg, Florida 33716, and its telephone number at that location is (727) 577-9749.

Record Date and Measurement Date

Stockholders of record at the close of business on November 25, 2015 (the Record Date) are entitled to notice of, and to vote at, the Annual Meeting. As of October 29, 2015 (the Measurement Date), 190,537,866 shares of Jabil's common stock were issued and outstanding. For information regarding security ownership by management and by the beneficial owners of more than 5% of Jabil's common stock, see Share Ownership by Principal Stockholders and Management in the Beneficial Ownership section. The closing sales price of Jabil's common stock on the New York Stock Exchange (NYSE) on the Measurement Date was \$22.82 per share.

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by delivering to Jabil's Corporate Secretary a written notice of revocation or a duly executed proxy bearing a later date (or voting via the Internet or telephone at a later date) or by attending the Annual Meeting and voting in person.

Table of Contents

Voting and Solicitation

Each stockholder is entitled to one vote for each share of common stock on all matters presented at the Annual Meeting. Stockholders do not have the right to cumulate their votes in the election of directors.

The cost of soliciting proxies will be borne by Jabil. In addition, Jabil may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners. Proxies may also be solicited by certain of Jabil's directors, officers and regular employees, without additional compensation, personally or by telephone, telegram, letter or facsimile. While we have not chosen at this time to engage the services of a proxy solicitor to aid in the solicitation of proxies and to verify records relating to the solicitation, should we do so, we will bear all costs of such solicitation of proxies. We anticipate that if we retain the services of a proxy solicitor, we would pay that firm customary fees for those services, which we believe would not be significant.

Quorum; Abstentions; Broker Non-Votes

A majority of the shares of Jabil common stock outstanding on the Record Date must be present or represented at the Annual Meeting in order to have a quorum for the transaction of business. Shares on which an abstention, a withheld vote or a broker non-vote has occurred will be counted as present for purposes of determining the presence of a quorum.

Our Bylaws provide that the election of our directors in uncontested elections is based on a majority voting standard. In contested director elections, the plurality standard will apply. In Proposal 1, we have nominated nine directors for election at the Annual Meeting, and because we did not receive advance notice under our Bylaws of any stockholder nominees for directors, the election of directors is an uncontested election. To be elected in an uncontested election, the votes for a director must exceed 50% of the votes actually cast with respect to the director's election. Votes actually cast include votes where the authority to cast a vote for the director's election is explicitly withheld and exclude abstentions with respect to that director's election, so abstentions and any broker non-votes will have no effect on the election of directors. If an incumbent director is not elected and no successor has been elected at the meeting, the incumbent director shall promptly tender his or her conditional resignation following certification of the vote. The Nominating and Corporate Governance Committee shall consider the resignation offer and recommend to the Board of Directors whether to accept such offer. The Board will endeavor to act on the recommendation within 90 days following the recommendation. For additional information regarding the majority voting standard, see Majority Voting for Directors.

The approval of Proposals 2, 3, 4 and 5 requires the affirmative vote of a majority of the shares present or represented at the Annual Meeting and actually cast on each such specific Proposal. Abstentions and broker non-votes will have no effect on the approval of Proposals 2, 3, 4 and 5. Proposal 3 is considered a non-binding advisory vote.

A broker non-vote occurs when a broker or other nominee entity does not vote on a particular proposal because it does not have authority under the NYSE rules to vote on that particular proposal without receiving voting instructions from the beneficial owner. If you own shares through a broker, therefore, you must instruct your broker how to vote in order for your vote to be counted.

Table of Contents

Voting Results

Votes will be tabulated by the inspector of election appointed for the Annual Meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes.

Voting via the Internet or Telephone

For Shares Directly Registered in the Name of the Stockholder. Stockholders with shares registered directly with Computershare Investor Services (Computershare), Jabil's transfer agent, may vote as set forth on the Notice, or, if they received paper copies in the mail of the proxy materials, by mailing in the proxy or via the Internet or telephone at the World Wide Web address or telephone number set forth on the proxy card.

Specific instructions to be followed by any registered stockholder interested in voting via the Internet or telephone are set forth on the Notice or the proxy card, if the registered stockholder received paper copies in the mail of the proxy materials. Votes submitted via the Internet or telephone by a registered stockholder must be received by 11:59 p.m. (ET) on January 20, 2016.

For Shares Registered in the Name of a Brokerage or Bank. A number of brokerage firms and banks are participating in a program for shares held in street name that offers Internet voting options. This program is different from the program provided by Computershare for shares registered in the name of the stockholder. If your shares are held in an account at a brokerage firm or bank participating in the street name program you will receive instructions from the holder of record that you must follow in order for your shares to be voted. Votes submitted via the Internet through the street name program must be received by 11:59 p.m. (ET) on January 20, 2016.

Notice and Access. This year we are delivering proxy materials to many stockholders via the Internet under the SEC's Notice and Access rules, which will save costs and paper. Using this method of distribution, on or about December 9, 2015, we mailed the Notice that contains basic information about our 2015 Annual Meeting and instructions on how to view all proxy materials, and vote electronically, on the Internet. If you receive the Notice and prefer to receive a paper or e-mail copy of the proxy materials, follow the instructions in the Notice for making this request and the materials will be sent promptly to you via the preferred method. If you prefer to vote by phone rather than Internet, the website listed on the Notice (www.envisionreports.com/JBL) has instructions for voting by phone.

General Information. These Internet and telephone voting procedures, which comply with Delaware law, are designed to authenticate stockholders' identities, to allow stockholders to vote their shares and to confirm that stockholders' votes have been recorded properly. Stockholders voting via the Internet or telephone through either of these voting procedures should understand that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies, which must be borne by the stockholders. Also, please be aware that Jabil is not involved in the operation of either of these Internet and telephone voting procedures and cannot take responsibility for any access or Internet service interruptions that may occur or any inaccuracies, erroneous or incomplete information that may appear.

You may elect to receive future notices of meetings, proxy materials and annual reports electronically via the Internet, if then made available by Jabil. If you have previously consented to electronic delivery, your consent will remain in effect until withdrawn. If you have not yet enrolled in Jabil's Internet delivery program, we strongly encourage you to do so as it is a cost-effective way for Jabil to send you the Proxy Statement and annual report materials. Participation instructions are set forth on the enclosed proxy card. When next year's Proxy Statement and annual report materials are available, you may be sent an e-mail telling you how to access them electronically. Please note that, while we are using the rules enacted by the SEC regarding the electronic distribution of proxy materials on websites, as opposed to

being mailed, we may decide to change our procedures for the distribution of our proxy materials next year.

Table of Contents

If you elect to access these materials via the Internet, you may still request paper copies by contacting your brokerage firm, bank or Jabil. Your participation in the new Internet program will remain in effect until you cancel your enrollment. You are free to cancel your enrollment at any time.

Deadline for Receipt of Stockholder Proposals

Proposals of stockholders of Jabil that are intended to be presented by such stockholders at Jabil's 2016 Annual Meeting of Stockholders must be submitted and comply with all applicable requirements of Rule 14a-8 promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and must be received by Jabil no later than August 11, 2016 in order to be considered for possible inclusion in the Proxy Statement and form of proxy relating to that meeting. Our Bylaws provide that, for any stockholder proposal or director nomination to be properly presented at the 2016 Annual Meeting of Stockholders, whether or not also submitted for inclusion in our Proxy Statement, our Corporate Secretary must receive notice of the matter not less than 120 days prior to December 9, 2016, which will be August 11, 2016. The proxy solicited by the Board of Directors for the 2016 Annual Meeting of Stockholders will confer discretionary authority to vote on any stockholder proposal or director nomination presented at that meeting, unless Jabil is provided with written notice of such proposal by August 11, 2016. Any proposals or director nominations must be mailed to our principal executive offices located at 10560 Dr. Martin Luther King, Jr. Street North, St. Petersburg, Florida 33716, Attention: Corporate Secretary. Each notice of director nomination must be accompanied by the information required for director nominations as set forth under the "Selection of Nominees for the Board of Directors" section. A nomination or proposal that does not supply adequate information about the nominee or proposal, and the stockholder making the nomination or proposal, or that does not comply with our Bylaws, will be disregarded.

Fiscal Year End

Jabil's fiscal year ends on August 31.

Table of Contents**BENEFICIAL OWNERSHIP****Share Ownership by Principal Stockholders and Management**

The following table sets forth the beneficial ownership of common stock of Jabil as of the Measurement Date by: (i) each of Jabil's directors and nominees for director; (ii) each of the named executive officers (NEOs) listed in the Summary Compensation Table; (iii) all current directors and executive officers of Jabil as a group; and (iv) each person known by Jabil to own beneficially more than five percent of the outstanding shares of its common stock. Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires Jabil's executive officers and directors, and persons who own more than ten percent of a registered class of Jabil's equity securities, to file initial reports of ownership on Form 3 and changes in ownership on Form 4 or Form 5 with the SEC. Such executive officers, directors and ten percent stockholders are also required by SEC rules to furnish Jabil with copies of all such forms that they file.

Based solely on its review of the copies of such forms received by Jabil from certain reporting persons, Jabil believes that, during the fiscal year ended August 31, 2015, Courtney Ryan, due to an administrative error, did not timely file one Form 4 relating to the forfeiture of certain shares from a previously granted performance-based restricted stock unit award.

Role of the Board of Directors Committees

Audit Committee. The functions of the Audit Committee are described below under the heading **Audit Committee Report**. The current charter of the Committee was adopted on October 20, 2011 and is available in the Investors /Corporate Governance section of Jabil's website (www.jabil.com). All of the members of the Committee are independent within the meaning of SEC regulations, the listing standards of the NYSE and Jabil's Corporate Governance Guidelines. The Board of Directors has determined that each member of the Committee is an audit committee financial expert within the meaning of the SEC regulations and that each member has accounting and related financial management expertise within the meaning of the listing standards of the NYSE. The Committee met twelve times and did not take action by written consent during fiscal 2015.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee is responsible for developing and implementing policies and practices relating to corporate governance, including reviewing and monitoring implementation of Jabil's Corporate Governance Guidelines. In addition, the Committee develops and reviews background information on candidates for the Board of Directors and makes recommendations

to the Board regarding such candidates. The Committee also evaluates and makes recommendations to the Board in connection with its annual review of director independence and the Board's performance self-evaluation. The current charter of the Committee was adopted on September 19, 2014, and is available in the Investors/Corporate Governance section of Jabil's website (www.jabil.com). All of the members of the Committee are independent within the meaning of the listing standards of the NYSE and Jabil's Corporate Governance Guidelines. The Committee met four times and took action once via written consent during fiscal 2015.

Compensation Committee. The Compensation Committee assists the Board of Directors in discharging its responsibilities relating to the compensation of Jabil's executive officers. The Committee reviews and approves corporate goals and objectives relevant to the compensation of Jabil's Chief Executive Officer, and sets the

compensation level of the Chief Executive Officer based on this evaluation. The Committee is also generally empowered to administer awards outstanding under Jabil's terminated 2002 Stock Incentive Plan as well as Jabil's 2011 Stock Award and Incentive Plan, each with respect to all individuals. The current charter of the Committee was adopted on July 18, 2013, and is available in the Investors/Corporate Governance section of Jabil's website (www.jabil.com). All of the members of the Committee are independent within the meaning of the listing standards of the NYSE and Jabil's Corporate Governance Guidelines. The Committee met six times and took action twice by written consent during fiscal 2015.

Risk Oversight

The Board's Role in Risk Oversight. Jabil faces a variety of different risks, including various operational, financial and other risks. The nature and effect of these risks vary in many ways, including our ability to anticipate and understand the risk, the types of negative impacts that could result if the risk manifests itself, the likelihood that an undesired event or a particular adverse impact would occur, and our ability to control the risk and reduce potential adverse impacts. Particular behaviors can avoid or mitigate some risks, and some risks are unavoidable as a practical matter. The potential adverse impact of some risks may be minor, and accordingly, as a matter of business judgment, allocating significant resources to avoid minor potential adverse impacts may not be appropriate. In other cases, a potential adverse impact may be significant, and spending resources to avoid or mitigate such a significant potential adverse impact is prudent. In some cases, a higher degree of risk may be acceptable because of a greater perceived potential for reward. We engage in numerous activities seeking to align our voluntary risk-taking with Company strategy, and understand that projects and processes may enhance our business interests by encouraging innovation and appropriate levels of risk-taking.

The Board oversees risk management directly and through its committees associated with their respective subject matter areas. Generally, the Board oversees risks that may affect the business of Jabil as a whole, including operational matters. The Audit Committee is responsible for oversight of Jabil's accounting and financial reporting processes and also discusses with management Jabil's financial statements, internal controls and other accounting and related matters. The Compensation Committee oversees certain risks related to compensation programs, and the Nominating and Corporate Governance Committee oversees certain corporate governance risks. As part of their roles in overseeing risk management, these Committees periodically report to the Board regarding briefings provided by management and advisors as well as the Committees' own analysis and conclusions regarding certain risks faced by Jabil. Management is responsible for implementing the risk management strategy and developing policies, controls, processes and procedures to identify and manage risks.

Business and operational risks are considered by the Board in many ways. The heads of each business group typically report to the Board quarterly, identifying and discussing various risks that they are facing. Our Chief Executive Officer communicates regularly with the Board on such matters. In addition, the internal audit department periodically reports to the Audit Committee on its evaluation of management's effectiveness in addressing risks, by providing a comprehensive review of certain business and related risks, an assessment and ranking of various identified risk items based on their likelihood and the severity of the consequences, including both financial and non-financial impacts, and plans to manage and mitigate such risks. The internal audit department also consults with third party sources and advisors regarding certain potential risks facing Jabil, which is incorporated into its summary.

Certain financial risks are identified and discussed during our quarterly and year-end processes to follow Section 302 of the Sarbanes-Oxley Act of 2002. As part of this process, Jabil receives input from a broad range of people, including local and regional facility controllers, regarding financial results, compliance matters, and other matters. Similarly, we are required under Section 404 of the Sarbanes-Oxley Act of 2002 to produce an annual report on internal control over financial reporting in our Annual Reports on Form 10-K that contains management's assessment

of the effectiveness of Jabil's internal control over financial reporting, and we also include certifications by our Chief Executive Officer and our Chief Financial Officer as to internal control matters. As part of management's rigorous review of Jabil's internal control over financial reporting in order to assure compliance with the Section 404 requirements, certain risks are identified and discussed.

Table of Contents

Risks in Compensation Practices. Jabil conducted a risk assessment of its compensation policies and practices for its employees, including those relating to its executive compensation programs. Our programs contain various mitigating factors to ensure our employees, including the NEOs, are not encouraged to take unreasonable risks in managing the business. These factors include:

Annual cash incentives and vesting for performance-based long-term awards use financial measures with sliding scales, which provide lower payments for lower performance and higher pay for higher performance, but set maximum payouts at 100% to 200% of the target levels for cash incentives and 150% of the target levels for performance-based equity awards.

For most cash incentive participants, performance metrics focused primarily on the use of reportable and broad-based financial metrics, including a mixture of consolidated and business-specific goals, with no single factor receiving an excessive weighting.

A mix of time-based and performance-based equity awards for senior management to avoid having a relatively high percentage of compensation tied to one element. We believe that time-based equity awards should reduce risky behavior because these awards are designed to retain employees and are earned over time.

A balance of short-term and long-term compensation creating diverse time horizons.

A relatively high degree of difficulty of performance targets.

Relatively long performance measurement periods to encourage long-term, rather than short-term, performance.

Minimum stock ownership requirements for our executive officers and directors to, among other things, encourage them to act in a manner consistent with the long-term interests of our stockholders.

Oversight of compensation programs by the Compensation Committee. We believe this mitigates risk by empowering a group of independent directors with substantial experience and expertise who owe fiduciary duties to act in the best interests of Jabil's stockholders.

Oversight of programs by a broad-based group of functions within Jabil and at multiple levels within the organization to encourage different viewpoints and avoid situations where a small number of people are involved in compensation decisions.

Advice from outside advisors who are knowledgeable regarding various compensation policies and their associated risks.

Adoption of a clawback policy that allows us to recover performance-based compensation paid to executive officers on the basis of certain inaccurate financial results.

Based upon the assessment, we believe that our compensation policies and practices do not encourage excessive or unreasonable risk taking and are not reasonably likely to have a material adverse effect on Jabil.

Leadership Structure of the Board

The Board of Directors does not currently have a policy on whether the same person should serve as both the Chief Executive Officer and Chairman of the Board or, if the roles are separate, whether the Chairman should be selected from the non-employee directors or should be an employee. The Board believes that it should have the flexibility to make these determinations at any given point in time in the way that it believes best to provide appropriate leadership for Jabil. Our current Chairman, Mr. Main, is not an officer. Mr. Main has served as our Chairman since January 2013 and he was our Chief Executive Officer from 2000 until March 2013.

Executive Sessions

Our independent directors (as determined under the listing standards of the NYSE) meet at least once annually in executive session without any of our management present. Mr. Sansone, Vice Chairman, presides at such meetings. See Communication with the Board of Directors for the method for interested parties to make their concerns known to an independent director, or to the independent directors as a group.

Corporate Governance Guidelines

The full text of the Corporate Governance Guidelines can be found in the Investors/Corporate Governance section of Jabil's website (www.jabil.com). The Corporate Governance Guidelines reflect the principles by which Jabil and its Board of Directors operate and are not intended to create legal rights in any third party in the event of any failure to comply with any of the Corporate Governance Guidelines. The Nominating and Corporate Governance Committee interprets the Corporate Governance Guidelines and determines whether actions taken are in compliance with these Guidelines.

Board Diversity

The Board of Directors and the Nominating and Corporate Governance Committee consider diversity in the selection of nominees, utilizing a broad meaning to include a nominee's background, experience, skills, accomplishments, financial expertise, professional interests, personal qualities and other traits desirable in achieving an appropriate group of qualified individuals. Diversity is noted to be a factor for consideration of nominees for director in our Corporate Governance Guidelines. The Nominating and Corporate Governance Committee will consider and assess the effectiveness of its Corporate Governance Guidelines in connection with the annual director nomination process to assure it includes an effective mix of people to further our long-term business interests.

Director Stock Ownership Requirements

The Corporate Governance Guidelines were recently revised to require directors to accumulate, within five years of joining the Board, at least the number of shares of company stock equal to such director's most recent annual board membership cash fee (which does not include any additional fees for Committee or Chair service), multiplied by five. The following forms of ownership are counted towards a director's compliance with this requirement:

- shares deemed to be beneficially owned under federal securities laws;
- unvested time-based restricted stock shares;
- shares subject to unvested time-based restricted stock unit awards; and
- other forms of ownership approved by the board or a committee thereof.

If a director does not achieve the applicable stock ownership minimum by the applicable deadline or any time thereafter, the director will be required to retain half of the after-tax shares until the requirement is met.

Selection of Nominees for the Board of Directors

One of the tasks of the Nominating and Corporate Governance Committee is to identify and recruit candidates to serve on the Board of Directors. The Nominating and Corporate Governance Committee is responsible for providing a list of nominees to the Board for nomination at each annual meeting of stockholders. This Committee will consider nominees for board membership suggested by its members and other Board members, as well as management and stockholders. The Committee may at its discretion retain a third-party executive search firm to identify potential nominees. Jabil's Chief Executive Officer is included, on a non-voting basis, in the process of identifying candidates. A prospective nominee will be evaluated against the standards and qualifications set out in Jabil's Corporate Governance Guidelines. The Committee will take into account many factors in evaluating a prospective nominee, including, among other things, having integrity and being accountable, being able to exercise informed judgment, being financially literate, having high performance standards, and adding to the Board's diversity of backgrounds, experiences, skills, accomplishments, financial expertise, professional interests, personal qualities and other traits.

Following a planned process to identify and select qualified candidates to our Board, Ms. Ansari and Mr. Plant's nominations were recommended by the Nominating and Corporate Governance Committee and approved by the Board on November 25, 2015, to fill the positions being vacated by Mr. Lavitt and Mr. Murphy. Potential

Table of Contents

candidates were solicited from members of the Board, the Company's executives and a third-party search firm. The Board interviewed several candidates who were evaluated based on the standards and qualifications set out in Jabil's Corporate Governance Guidelines for persons to be nominated, as discussed above. The Board believes Ms. Ansari and Mr. Plant meet these standards and qualifications and are qualified for election to the Board. The Nominating and Corporate Governance Committee will consider nominees recommended by stockholders. The Committee will give consideration to these recommendations for positions on the Board where the Committee has not determined to re-nominate a qualified incumbent director. For each annual meeting of stockholders, the Committee will accept for consideration only one recommendation from any stockholder or affiliated group of stockholders. An affiliated group of stockholders means stockholders constituting a group under SEC Regulation 13D. While the Committee has not established a minimum number of shares that a stockholder must own in order to present a nominating recommendation for consideration, or a minimum length of time during which the stockholder must own its shares, the Committee will take into account the size and duration of a recommending stockholder's ownership interest in Jabil. The Committee will only consider recommendations of nominees who satisfy the minimum qualifications prescribed from time to time by the Committee or the full Board of Directors for board candidates, including that a director must represent the interests of all stockholders and not serve for the purpose of favoring or advancing the interests of any particular stockholder group or other constituency.

All stockholder nominating recommendations must be in writing, addressed to the Nominating and Corporate Governance Committee in care of Jabil's Corporate Secretary at Jabil's principal headquarters, at 10560 Dr. Martin Luther King, Jr. Street North, St. Petersburg, FL 33716. Submissions must be made by mail, courier or personal delivery. E-mailed submissions will not be considered. If a recommendation is submitted by a group of two or more stockholders, the information regarding recommending stockholders must be submitted with respect to each stockholder in the group. Acceptance of a recommendation for consideration does not imply that the Nominating and Corporate Governance Committee will nominate the recommended candidate. In addition to proposing nominees for consideration to the Nominating and Corporate Governance Committee, stockholders may also directly propose nominees for consideration at an annual meeting of stockholders. The requirements and procedures to be followed by stockholders for directly nominating directors are discussed under **Deadline for Receipt of Stockholder Proposals**.

A nominating recommendation must be accompanied by the following information concerning each recommending stockholder:

- the name and address, including telephone number, of the recommending stockholder;
- the number of Jabil's shares owned by the recommending stockholder and the time period for which such shares have been held;
- if the recommending stockholder is not a stockholder of record, a statement from the record holder of the shares (usually a broker or bank) verifying the holdings of the stockholder and a statement from the recommending stockholder of the length of time that the shares have been held (alternatively, the stockholder may furnish a current Schedule 13D, Schedule 13G, Form 3, Form 4 or Form 5 filed with the SEC reflecting the holdings of the stockholder, together with a statement of the length of time that the shares have been held);
- and
- a statement from the recommending stockholder as to whether the recommending stockholder has a good faith intention to continue to hold the reported shares through the date of Jabil's next annual meeting of stockholders.

A nominating recommendation must be accompanied by the following information concerning the proposed nominee:

the information required by Item 401 of SEC Regulation S-K (generally providing for disclosure of the name, address, any arrangements or understanding regarding nomination and five-year business experience of the proposed nominee, as well as information regarding certain types of legal proceedings within the past ten years involving the nominee);

Table of Contents

the information required by Item 403 of SEC Regulation S-K (generally providing for disclosure regarding the proposed nominee's ownership of securities of Jabil);

the information required by Item 404 of SEC Regulation S-K (generally providing for disclosure of transactions between Jabil and the proposed nominee valued in excess of \$120,000 and certain other types of business relationships with Jabil);

a description of the relationships between the proposed nominee and the recommending stockholder and any agreements or understandings between the recommending stockholder and the nominee regarding the nomination;

a description of all relationships between the proposed nominee and any of Jabil's competitors, customers, suppliers, labor unions or other persons with special interests regarding Jabil known to the recommending stockholder or director in Jabil's filings with the SEC;

a statement supporting the recommending stockholder's view that the proposed nominee possesses the minimum qualifications prescribed by the Nominating and Corporate Governance Committee for nominees or directors from time to time, including those that may be set forth in Jabil's Corporate Governance Guidelines, and briefly describing the contributions that the nominee would be expected to make to the Board of Directors and to the governance of Jabil;

a statement as to whether, in the view of the recommending stockholder, the nominee, if elected, would represent all stockholders and not serve for the purpose of advancing or favoring any particular stockholder or other constituency of Jabil; and

the consent of the proposed nominee to be interviewed by the Nominating and Corporate Governance Committee, if the Nominating and Corporate Governance Committee chooses to do so in its discretion (and the recommending stockholder must furnish the proposed nominee's contact information for this purpose), and, if nominated and elected, to serve as a director of Jabil.

Majority Voting for Directors

Our directors are elected in uncontested elections by a majority vote. In contested director elections, the plurality standard will apply, which means the nominees receiving the greatest number of votes will be elected to serve as directors.

To be elected in an uncontested election, the votes for a director must exceed 50% of the votes actually cast with respect to the director's election. Votes actually cast include votes where the authority to cast a vote for the director's election is explicitly withheld and exclude abstentions with respect to that director's election, so abstentions and any broker non-votes will have no effect on the election of directors. If an incumbent director is not elected and no successor has been elected at the meeting, he or she shall promptly tender his or her conditional resignation following certification of the vote. The Nominating and Corporate Governance Committee shall consider the resignation offer and recommend to the Board of Directors whether to accept such offer. The Board will endeavor to act on the recommendation within 90 days following the recommendation. Thereafter, the Board will promptly disclose its decision whether to accept the director's resignation offer (and the reasons for rejecting the offer, if applicable) in a Current Report on Form 8-K or by a press release. If the Board does not accept the resignation, the director will continue to serve until the next annual meeting and until a successor has been elected and qualified or until his or her earlier death, resignation or removal. If the Board accepts the resignation, then the Board, in its sole discretion, may fill any resulting vacancy or may decrease the size of the Board.

The election of directors at this year's Annual Meeting is an uncontested election and thus the majority voting standard applies.

Determinations of Director Independence

The Board of Directors periodically undertakes a review of director independence. For a director to be considered independent, the Board must determine that the director does not have a material relationship with Jabil and is otherwise independent under the listing standards of the NYSE. As required by the NYSE listing standards, the Board considers all material relevant facts and circumstances known to it in making an independence

Table of Contents

determination, both from the standpoint of the director and from that of persons or organizations with which the director has an affiliation. As a result of this review, the Board determined that the following directors are independent: Martha F. Brooks, Mel S. Lavitt, Lawrence J. Murphy, Frank A. Newman, Steven A. Raymund, Thomas A. Sansone, and David M. Stout. In addition, the Board has determined that Ms. Ansari and Mr. Plant, the director nominees, are independent.

Board of Directors Meetings during Fiscal 2015

The Board of Directors held a total of six meetings and took action by unanimous consent nine times during fiscal 2015. All directors attended 75% or more of the aggregate number of Board and committee meetings. The Chairman of the Board presides over all meetings of the Board.

Policy Regarding Attendance at Annual Meeting of Stockholders

Jabil's Corporate Governance Guidelines require all directors to endeavor to attend all annual meetings of stockholders, absent unanticipated personal or professional obligations which preclude them from doing so. To facilitate such attendance, Jabil schedules a regular meeting of the Board of Directors on the same date as the annual meeting. All of Jabil's directors attended the previous Annual Meeting of Stockholders.

Communication with the Board of Directors

Communications directed to any director, or any group of directors, must be in writing and sent via certified mail to 10560 Dr. Martin Luther King, Jr. Street North, St. Petersburg, Florida 33716, Attention: Corporate Secretary. All communications must be accompanied by the following information:

- if the person submitting the communication is a stockholder, a statement of the type and amount of shares of Jabil that the person holds;
- if the person submitting the communication is not a stockholder and is submitting the communication as an interested party to an independent director, or the independent directors as a group, the nature of the person's interest in Jabil;
- any special interest, meaning an interest not in the capacity of a stockholder of Jabil, of the person in the subject matter of the communication; and
- the name, address, telephone number and e-mail address, if any, of the person submitting the communication.

Jabil's Corporate Secretary reviews all such correspondence and regularly forwards to the Board of Directors copies of all correspondence that, in the opinion of the Corporate Secretary, deals with the functions of the Board or Committees thereof or that the Corporate Secretary otherwise determines requires their attention. Concerns relating to accounting, internal controls or auditing matters are immediately brought to the attention of the Chairman of the Audit Committee and are handled in accordance with procedures established by the Audit Committee with respect to such matters.

Code of Business Conduct and Ethics and Senior Code

Jabil has adopted a Code of Business Conduct and Ethics, which applies to all directors, officers and employees. In addition, Jabil has adopted a senior code of ethics titled "Code of Ethics for the Principal Executive Officer and Senior Financial Officers of Jabil Circuit, Inc." that applies to the principal executive officer, president, principal financial officer, principal accounting officer and controller. The text of both documents can be found in the

Investors/Corporate Governance section of Jabil's website (www.jabil.com). Jabil anticipates that in the event any waivers from its Code of Ethics for the principal executive officer and senior financial officers are granted, notice of any such waiver will be posted on its website.

Compensation Committee Interlocks and Insider Participation

Jabil's Compensation Committee was formed in November 1992 and is currently composed of Mr. Lavitt, Mr. Murphy and Mr. Stout. No member of the Committee who served during fiscal 2015 is currently or was formerly an officer or an employee of Jabil or its subsidiaries. There are no compensation committee interlocks and no insider participation in compensation decisions that are required to be reported under the rules and regulations of the Exchange Act. Mr. Lavitt and Mr. Murphy are not standing for re-election to the Board. Accordingly, the Board of Directors anticipates appointing other qualified directors to the Compensation Committee, as appropriate.

Related Party Transactions

Related Party Transactions Policy. Our Board of Directors has adopted a written policy governing the approval of related party transactions. Related Party Transactions are transactions in which Jabil is a participant, the amount involved exceeds \$120,000 and a related party had, has or will have a direct or indirect material interest. Related parties are Jabil's directors (including any nominees for election as directors), its executive officers, any stockholder who beneficially owns more than 5% of Jabil's outstanding common stock, and any firm, corporation, charitable organization or other entity in which any of the persons listed above is an officer, general partner or principal or in a similar position or in which the person has a beneficial ownership interest of 10% or more. Under the Related Party Transactions Policy, Jabil's General Counsel (or its Chief Executive Officer if the related party is the General Counsel or an immediate family member of the General Counsel) will review potential Related Party Transactions to determine if they are subject to the Policy. If so, the transaction will be referred to the Audit Committee for approval or ratification. If, however, the General Counsel determines that it is not practical to wait until the next Committee meeting, the Committee's chair shall have the authority to act on behalf of the Committee in approving or ratifying a Related Party Transaction (unless the Audit Committee chair is a Related Party in the Related Party Transaction). In determining whether to approve a Related Party Transaction, the Committee (or, as applicable, the Committee chair) will consider, among other things, the benefits of the transaction to Jabil, the potential effect of entering into the transaction on a director's independence, the availability of other sources for the products or services, the terms of the transaction and the terms available to unrelated third parties generally. The Audit Committee has authority to administer the Related Party Transactions Policy and to amend it as appropriate.

Certain Related Party Transactions. Charles A. Main III, a brother of Timothy L. Main, a director of Jabil and the former Chief Executive Officer and President, is employed by Jabil's Consumer Lifestyles group as Vice President, Global Business Unit. His compensation for fiscal 2015 consisted of the following items: regular base salary earnings of \$336,000, a bonus of \$322,560, equity awards representing 18,540 shares of Jabil common stock (consisting of performance-based restricted stock units (RSUs) at target level and time-based RSUs) whose aggregate grant date fair value was \$342,805, a \$10,923 contribution by Jabil on his behalf to his 401(k) plan account, a cost of living adjustment totaling \$60,816, tax preparation fees totaling \$56,350, a tax equalization settlement payment of \$10,928 and tax gross ups totaling \$157,913 for a total compensation of \$1,298,295.

Table of Contents**Director Compensation**

It is the general practice of the Board that compensation for non-management directors be a mix of cash and equity. For fiscal 2015, the non-management directors received the following annual retainers, payable in cash quarterly:

Position	Annual Retainer (\$)
Board membership fee (non-management directors only)	58,000
Chairman of the Board	100,000
Audit Committee - Chair	30,000
Audit Committee - other members	15,000
Compensation Committee - Chair	20,000
Compensation Committee - other members	10,000
Nominating and Corporate Governance Committee - Chair	10,000
Nominating and Corporate Governance Committee other members	5,000

No director currently receives any additional cash compensation for attendance at Board or committee meetings. Directors are entitled to reimbursement for expenses incurred in connection with their attendance at Board and committee meetings. In addition, non-employee directors are eligible to receive awards under the 2011 Stock Award and Incentive Plan. For fiscal 2015, each non-employee director received 10,800 time-based RSUs, which vested on August 31, 2015.

- (1) As of the end of fiscal 2015, Mr. Main had outstanding options to purchase 177,000 shares of Jabil common stock.
- (2) Amounts shown under the Stock Awards column reflect the aggregate grant date fair value of the award pursuant to ASC 718. For all of the directors who received a stock award in fiscal 2015, this amount was determined by multiplying the total number of RSUs awarded, 10,800, by the closing stock price on the date of grant (October 16, 2014) of \$18.49, and is the aggregate amount of expense that will be

recognized by us for financial statement reporting purposes in accordance with ASC 718 over the requisite service period of the award granted. The assumptions used for the valuations are set forth in Note 11 to our audited consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended August 31, 2015. These awards vested on August 31, 2015.

- (3) Since Mr. Lavitt and Mr. Murphy are not standing for re-election, the Board has determined to allow their respective outstanding stock awards to accelerate at the expiration of their terms.

PROPOSAL NO. 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED

CERTIFIED PUBLIC ACCOUNTING FIRM

In October 2014, the Audit Committee approved the selection of Ernst & Young LLP (E&Y) to serve as Jabil's independent registered certified public accounting firm for the fiscal year ending August 31, 2016.

The audit reports of E&Y on the consolidated financial statements of Jabil and its subsidiaries as of and for the year ended August 31, 2015 and the effectiveness of internal control over financial reporting as of August 31, 2015 did not contain any adverse opinion or disclaimer of opinion nor were they qualified or modified as to uncertainty, audit scope or accounting principles.

During the fiscal year ended August 31, 2015, and the subsequent interim period through the filing of Jabil's Form 10-K for the fiscal year ended August 31, 2015 on October 14, 2015, there were (i) no disagreements between Jabil and E&Y on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which, if not resolved to the satisfaction of E&Y would have caused E&Y to make reference thereto in their reports on the consolidated financial statements for such years, and (ii) no reportable events as that term is defined in Item 304(a)(1)(v) of Regulation S-K.

Representatives of E&Y are expected to be present at the Annual Meeting, will have the opportunity to make a statement and will be available to respond to questions.

PROPOSAL NO. 3

ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 and rules issued by the SEC require that we provide our stockholders with the opportunity to vote to approve, on an advisory, non-binding basis, the compensation of our NEOs, as disclosed in this Proxy Statement. At the Annual Meeting of Stockholders held in January 2015, more than 98% of the votes cast on the say-on-pay proposal were cast For the approval of the compensation of our NEOs.

Stockholders are urged to read the Compensation Discussion and Analysis section, the compensation tables and the accompanying narrative disclosure set forth in this Proxy Statement. As described in detail in the Compensation Discussion and Analysis section, we believe our compensation programs are predominantly performance-based, and are designed to attract, retain and motivate our NEOs, who are critical to our success, and to align their interests with those of our stockholders. The compensation program for our NEOs is composed of the following features, among others:

Our Compensation Committee is composed solely of independent directors. The Committee has established a process for determining compensation for our NEOs, which includes advice from an independent compensation consultant and a review of compensation practices at peer group companies.

Our Compensation Committee engages in a robust and comprehensive annual review of the Company's performance metrics and goals in an attempt to ensure that they properly motivate and incent our NEOs to implement our long-term strategy and position Jabil for increased profitability and greater financial strength.

Our Compensation Committee receives advice from its independent compensation consultant, Steven Hall & Partners, which performs no other services for Jabil.

A majority of the compensation payable to our NEOs is performance-based, including our annual cash incentive program, our performance-based restricted stock unit awards, which vest over multi-year performance periods, if at all, and our stock appreciation rights. Over 75% of our NEOs' target compensation is linked to Jabil's business and stock price performance.

Our compensation philosophy is to pay for performance. While our financial results for fiscal 2015 for revenues, net income and core operating income resulted in above target achievement with respect to our annual cash incentive program, our long-term multi-year performance goals measuring cumulative core EPS were below the threshold, resulting in no vesting of the long-term performance-based equity and cash awards with performance measurement periods ending in fiscal 2015.

We believe the payout levels in relation to our performance demonstrate that our goals are set at challenging levels.

We have stock ownership requirements for our NEOs.

We have adopted a clawback policy which allows us to recoup certain performance-based incentive compensation paid to our executive officers in the event we report certain inaccurate financial results.

We employ our NEOs at will without guaranteed employment, severance or change in control agreements.

Our NEOs participate in the same benefit plans as our salaried employees, with little or no special executive perquisites.

Table of Contents

We are asking our stockholders to indicate their support for our NEO compensation as described in this Proxy Statement. This proposal, commonly known as a say-on-pay proposal, provides our stockholders with the opportunity to express their views on our NEOs' compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our NEOs and the philosophy, policies and practices described in this Proxy Statement. Accordingly, we ask our stockholders to vote **FOR** the following resolution at the Annual Meeting:

RESOLVED, that the compensation paid to Jabil's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion is hereby APPROVED.

This vote is advisory, and therefore not binding on Jabil, the Compensation Committee or the Board of Directors. However, the Compensation Committee will consider the outcome of the vote when considering future executive compensation arrangements.

We currently hold our say-on-pay vote every year. Stockholders will have an opportunity to cast an advisory vote on the frequency of say-on-pay votes at least every six years. The next advisory vote on the frequency of the say-on-pay vote will occur no later than the January 2018 Annual Meeting of Stockholders.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE **FOR THE APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THIS PROXY STATEMENT.**

PROPOSAL NO. 4
RE-APPROVAL OF THE MATERIAL TERMS
OF THE PERFORMANCE GOALS UNDER
THE JABIL CIRCUIT, INC.
2011 STOCK AWARD AND INCENTIVE PLAN,
AS AMENDED AND RESTATED

Jabil is seeking re-approval of the material terms of the performance goals under the Jabil Circuit, Inc. 2011 Stock Award and Incentive Plan, as amended and restated (the "2011 Stock Incentive Plan"), for the purpose of preserving its ability to deduct compensation paid to certain executives pursuant to any performance-based award that may be made in the future under the 2011 Stock Incentive Plan.

The 2011 Stock Incentive Plan was originally adopted by the Board of Directors in October 2010 and approved by the stockholders in January 2011. The 2011 Stock Incentive Plan replaced the 2002 Stock Incentive Plan, which was terminated in January 2011 immediately upon the effectiveness of the 2011 Stock Incentive Plan. Jabil's stockholders approved an amendment to the 2011 Stock Incentive Plan in January 2013 to increase the size of the 2011 Stock Incentive Plan by 9,500,000 shares to 18,350,000 shares.

Since January 2013, the 2011 Stock Incentive Plan has been amended by the Compensation Committee to make certain immaterial changes which did not require stockholder approval.

Jabil believes that grants of stock-based awards help to motivate high levels of performance and provide an effective means of recognizing employee contributions to the success of Jabil. Moreover, stock-based award grants align the interests of the employees with the interests of the stockholders. When Jabil performs well, employees are rewarded along with other stockholders. Jabil believes that stock-based award grants are of great value in recruiting and retaining highly qualified technical and other key personnel who are in great demand. The Board of Directors believes that the ability to grant stock-based awards will be important to Jabil's future success by allowing it to remain competitive in attracting and retaining such key personnel.

The 2011 Stock Incentive Plan is designed so that incentive awards that constitute "qualified performance-based compensation" will not be subject to the tax deduction limits of Section 162(m) of the Code. Section 162(m) of the Code prevents a publicly held corporation from claiming tax deductions for annual compensation in excess of \$1,000,000 paid to certain of its senior executives unless the compensation is "qualified performance-based compensation." Compensation qualifies as "qualified performance-based compensation" only if it is payable on account of performance and satisfies certain other requirements, one of which is that the material terms of the performance goals under the plan be approved by the stockholders at least once every five years. The key senior executives who are subject to the compensation deduction limitation include any individual who, as of the last day of Jabil's taxable year, is Jabil's chief executive officer or among the three highest compensated officers other than the chief executive officer and the chief financial officer.

To continue to qualify for the exception to the deduction limits of Section 162(m) of the Code, the material terms of the performance goals under the 2011 Stock Incentive Plan must be re-approved by Jabil's stockholders once every five years because the Compensation Committee has retained discretion to vary the targets under the performance

goals from year to year. Accordingly, Jabil is seeking re-approval of the material terms of the performance goals included in the 2011 Stock Incentive Plan in order to preserve Jabil's ability to deduct compensation paid to certain executives pursuant to any performance-based award that may be made in the future under the 2011 Stock Incentive Plan. The material terms of the performance goals under the 2011 Stock Incentive Plan that must be re-approved for purposes of Section 162(m) of the Code include (1) the employees eligible to receive the performance-based compensation, (2) the performance criteria under which the performance-based compensation will be determined, and (3) the maximum amount of performance-based compensation that could be paid to any employee in a fiscal year.

Table of Contents

This proposal is not requesting any additional shares of common stock under the 2011 Stock Incentive Plan.

Description of the 2011 Stock Incentive Plan

The following summary, including the material terms of the performance goals, is qualified in its entirety by the terms of the 2011 Stock Incentive Plan, a copy of which is attached to this proxy as Appendix A.

Purpose. The purposes of the 2011 Stock Incentive Plan are to help Jabil attract and retain personnel for positions of substantial responsibility, to provide for incentive awards that appropriately reward achievement of Jabil's goals, and to promote the success of Jabil's business.

Awards. The 2011 Stock Incentive Plan provides for awards of incentive stock options, nonqualified stock options, stock awards (including restricted stock and RSUs), stock appreciation rights, other stock-based awards, and cash-based awards. The Administrator may adopt sub-plans applicable to particular foreign subsidiaries. With limited exceptions, the rules of such sub-plans may take precedence over other provisions of the 2011 Stock Incentive Plan. The ability to adopt such sub-plans will facilitate Jabil's global compensation program.

Stock Subject to the 2011 Stock Incentive Plan. The aggregate number of shares of common stock that may be subject to awards under the 2011 Stock Incentive Plan, subject to adjustment upon a change in capitalization, is 18,350,000 shares plus certain additional shares recaptured from awards under the 2002 Stock Incentive Plan (compared to the 41,808,726 shares that were authorized for issuance pursuant to the 2002 Stock Incentive Plan), which was terminated in January 2011 immediately upon the effectiveness of the 2011 Stock Incentive Plan. Such shares of common stock may be authorized, but unissued, or reacquired shares of common stock. To the extent that an award under the 2011 Stock Incentive Plan or under the 2002 Stock Incentive Plan expires or is canceled, forfeited, settled in cash, or otherwise terminated without delivery of shares to the grantee, the shares retained by or returned to Jabil will not be deemed to have been delivered and will be deemed to remain or become available under the 2011 Stock Incentive Plan, except that shares that are withheld from an award in payment of the exercise price or taxes and shares subject to a stock appreciation right not delivered upon exercise shall be deemed to be delivered for purposes of the 2011 Stock Incentive Plan and therefore will not be deemed to remain or to become available under the 2011 Stock Incentive Plan.

Administration. The 2011 Stock Incentive Plan may be administered by the Board of Directors or one or more committees designated by the Board (the "Administrator"). The Administrator may require that awards be structured to satisfy an exemption under Rule 16b-3 of the Exchange Act or to qualify for an exemption from the compensation deduction limit under Section 162(m) of the Code, or both. Subject to the other provisions of the 2011 Stock Incentive Plan, the Administrator has the power to determine the terms of each award granted, including the type of award, the exercise price of options, the number of shares subject to the award and the exercisability, vesting or settlement thereof. In accordance with and to the extent permitted by applicable law, the Board may, by resolution, authorize one or more officers of Jabil to designate employees of Jabil (other than officers) to be recipients of awards and determine the number of shares to be subject to such awards.

Eligibility. The 2011 Stock Incentive Plan provides that the Administrator may grant awards to employees, consultants, and non-employee directors. The Administrator may grant incentive stock options only to employees. There are approximately 161,000 eligible employees, eight eligible non-employee directors, and an unknown number of eligible consultants in the 2011 Stock Incentive Plan. A grantee who has received a grant of an award may, if he is otherwise eligible, receive additional award grants. The Administrator selects the grantees and determines the number of shares of common stock to be subject to each award. The Administrator may not grant to any grantee, in any fiscal year of Jabil, awards relating to more than 3,000,000 shares of common stock; in the case of awards subject to a

performance goal, this limitation is applied in the fiscal year in which the performance goal is met. In addition, the maximum amount that a grantee may earn by satisfaction of performance goals under cash-denominated awards during any fiscal year of Jabil is \$45,000,000.

Table of Contents

Maximum Term and General Terms and Conditions of Awards. With respect to any grantee who owns stock possessing 10% or more of the voting power of all classes of stock of Jabil (a 10% Stockholder), the maximum term of any incentive stock option granted to such grantee must not exceed five years. The term of all other awards granted under the 2011 Stock Incentive Plan may not exceed ten years, except that permissible deferrals of awards may extend beyond ten years. Each award granted under the 2011 Stock Incentive Plan is evidenced by a written or electronic agreement between the grantee and Jabil.

An award agreement may set forth the manner in which the grantee's death, disability, or termination of continuous status as an employee or consultant or non-employee director and related events will affect the award. However, in the absence of an explicit provision in the applicable award agreement, the 2011 Stock Incentive Plan provides the default manner in which the grantee's termination due to death or disability will affect the grantee's awards.

With respect to a grantee's termination due to death, the default provision in the 2011 Stock Incentive Plan provides that all of the grantee's outstanding unvested awards will become fully vested and exercisable (as applicable) at the date of the grantee's death; provided, however, if any of the outstanding awards are subject to performance-based forfeiture conditions immediately prior to the grantee's death, a pro rata portion of such outstanding awards for each applicable performance measurement period (that commences before the grantee's death and ends after the grantee's death) will become fully vested and exercisable (as applicable), as determined by the Administrator. Any outstanding performance-based award that exceeds the pro rata portion of the grantee's award at the grantee's date of death will be forfeited at the grantee's date of death.

With respect to a grantee's termination due to disability, the default provision in the 2011 Stock Incentive Plan provides that all of the grantee's outstanding unvested awards will become fully vested and exercisable (as applicable) at the date of the grantee's termination; provided, however, if any of the outstanding awards are subject to performance-based forfeiture conditions immediately prior to the grantee's termination, a pro rata portion of the grantee's outstanding awards for each applicable performance measurement period (that commences before the grantee's termination and ends after the grantee's termination) will remain outstanding and be eligible to become fully vested and exercisable (as applicable) based on the actual achievement of the performance goal(s) during the applicable performance measurement period in accordance with the terms of the applicable award agreement. Any outstanding performance-based award that exceeds the pro rata portion of the grantee's award at the grantee's termination due to disability will be forfeited at the grantee's termination. Except as described below, an award granted under the 2011 Stock Incentive Plan is not transferable by the grantee, other than by will or the laws of descent and distribution, and is exercisable during the grantee's lifetime only by the grantee. In the event of the grantee's death, an option or stock appreciation right may be exercised by a person who acquires the right to exercise the award by bequest or inheritance. To the extent and in the manner permitted by applicable law and the Administrator, a grantee may transfer an award to certain family members and other individuals and entities, but a transfer to a third party for value is not permitted.

Options. Each option granted under the 2011 Stock Incentive Plan is subject to the following terms and conditions:

- (a) **Exercise Price.** The Administrator determines the exercise price of options to purchase shares of common stock at the time the options are granted. As a general rule, the exercise price of an option must be no less than 100% (110% for an incentive stock option granted to a 10% Stockholder) of the fair market value of the common stock on the date the option is granted. The 2011 Stock Incentive Plan provides exceptions for certain options granted in connection with an acquisition by Jabil of another corporation. For so long as Jabil's common stock is traded on any established exchange and readily tradable on such market, the fair

market value of a share of common stock shall be the closing sales price for such stock as quoted on such system on the date of determination of such fair market value as reported in The Wall Street Journal or such other source as the Administrator deems reliable or, if no closing sales price for such day is reported, on the latest previous trading day. This definition of fair market value also applies for other purposes under the 2011 Stock Incentive Plan.

Table of Contents

- (b) **Exercise of the Option.** Each award agreement specifies the term of the option and the date when the option is to become exercisable. The terms of such vesting are determined by the Administrator. An option is exercised by giving written or electronic notice of exercise to Jabil, specifying the number of full shares of common stock to be purchased and by tendering full payment of the purchase price to Jabil.
- (c) **Form of Consideration.** The consideration to be paid for the shares of common stock issued upon exercise of an option is determined by the Administrator and set forth in the award agreement. Except as otherwise determined by the Administrator, the acceptable form of consideration when exercising an option may consist of any combination of cash, personal check, wire transfer, other shares of Jabil's common stock, net exercise, any combination thereof, or any other legally permissible form of consideration as may be provided in the 2011 Stock Incentive Plan and the award agreement. Promissory notes can be a permitted form of consideration, except as limited by law; however, legal restrictions generally will not allow executive officers to pay consideration in the form of promissory notes.
- (d) **Value Limitation.** If the aggregate fair market value of all shares of common stock subject to a grantee's incentive stock option which are exercisable for the first time during any calendar year exceeds \$100,000, the excess options shall be treated as nonqualified options. For this purpose, fair market value is determined as of the grant date.
- (e) **Other Provisions.** The award agreement may contain such other terms, provisions and conditions not inconsistent with the 2011 Stock Incentive Plan as may be determined by the Administrator. Shares of common stock covered by options which have terminated and which were not exercised prior to termination will be returned to the 2011 Stock Incentive Plan.

Stock Appreciation Rights. The exercise of a stock appreciation right will entitle the grantee to receive the excess of the fair market value of a share of common stock on the date of exercise over the base price for each share of common stock with respect to which the stock appreciation right is exercised. The base price of a stock appreciation right must be no less than 100% of the fair market value of the common stock on the date the stock appreciation right is granted. Payment upon exercise of a stock appreciation right may be in cash, shares of common stock or a combination of cash and shares of common stock. Stock appreciation rights may be exercised by the delivery to Jabil of a written or electronic notice of exercise.

Stock Awards. A stock award may be made in shares or in units representing rights to receive shares. The award agreement will set forth the conditions, if any, which will need to be timely satisfied before the stock award will be vested and settled and the conditions, if any, under which the grantee's interest in the related shares or units will be forfeited. Any such conditions for effectiveness or vesting may be based upon the passage of time and continued service by the grantee, or the achievement of specified performance objectives, or both time-based and performance-based conditions. A stock award made in shares that are subject to forfeiture conditions and/or other restrictions may be designated as an award of restricted stock, and a stock award denominated in units that are subject to forfeiture conditions and/or other restrictions may be designated as an award of RSUs. An award of restricted stock generally entitles the grantee to dividend, voting and other ownership rights during the period in which the award is subject to forfeiture conditions. However, in the case of restricted stock that is conditioned on the attainment of performance goals, the grantee will not receive payment of any dividends unless and until the restricted stock becomes vested. A grantee generally will not have any rights as a stockholder with respect to shares underlying an award of RSUs until such time, if any, as the underlying shares are actually issued to the grantee. The Administrator may provide in a restricted stock unit award agreement for the payment of dividend equivalents to the grantee at such times

as paid to stockholders generally or at the time of vesting or other payout of the RSUs. However, in the case of such an award that is conditioned on the attainment of performance goals, the grantee will not receive payment of any dividend equivalents unless and not earlier than such time as the RSUs have become vested.

Other Stock-Based Awards and Cash-Based Awards. The Administrator may grant other stock-based awards in such amounts, on such terms and conditions, and for such consideration, including no consideration or such

Table of Contents

minimum consideration as may be required by applicable law, as the Administrator determines in its discretion. Other stock-based awards may be denominated in cash, in Jabil common stock or other securities, in units, in securities or debentures convertible into common stock, or in any combination of the foregoing, and may be paid in cash, in Jabil common stock or other securities, or in any combination of the foregoing, all as determined in the discretion of the Administrator. The Administrator may also grant cash-based awards in such amounts and upon such terms, which may include performance conditions, and at any time and from time to time, as shall be determined by the Administrator and set forth in an award agreement.

Code Section 162(m) Provisions. For awards that are intended to qualify for an exemption from the limit on tax deductibility under Code Section 162(m), the Compensation Committee must act as the Administrator. If the Committee designates an award as subject to the Code Section 162(m) provisions of the 2011 Stock Incentive Plan, then the lapsing of restrictions on the award and the distribution of shares or payment, as applicable, shall be subject to satisfaction of one, or more than one, objective performance goal(s). The Committee shall determine the performance goal(s) that will be applied with respect to each such award at the time of grant, but in no event later than 90 days after the commencement of the period of service to which the performance goal(s) relate (or 25% of the specified performance measurement period if such period is less than one year). The performance criteria applicable to such awards will be one or more of the following criteria: stock price; market share; sales, including to specified market segments or targeted customers; earnings per share, core earnings per share or variations thereof; return on equity; costs; revenue; cash to cash cycle; days payables outstanding; days of supply; days sales outstanding; cash flow; operating income; profit after tax; profit before tax; return on assets; return on net assets; return on sales; inventory turns; invested capital, including completion of a specified capital-raising transaction; net operating profit after tax; return on invested capital; total stockholder return; earnings; return on equity or average shareowners' equity; return on capital; return on investment; income or net income; operating income or net operating income; operating profit or net operating profit; operating margin; return on operating revenue; contract awards or backlog; overhead or other expense reduction; growth in shareowner value relative to the moving average of the S&P 500 Index or a peer group index; credit rating; strategic plan development and implementation; net cash provided by operating activities; gross margin; economic value added; customer satisfaction; financial return ratios; market performance; completion of a specified acquisition or disposition; bookings; business divestitures and acquisitions; cash position; contribution margin; customer renewals; customer retention rates; earnings before interest and taxes; EBITDA; employee satisfaction; expenses; gross profit dollars; growth in bookings; growth in revenues; net profit; net sales; new product development; number of customers; productivity; operating cash flow; operating expenses; product defect measures; product release timelines; productivity; research and development milestones; revenue growth; time to market; working capital; or such similarly objectively determinable financial or other measures as may be adopted by the Compensation Committee.

The targeted level or levels of performance with respect to such business criteria may be established at such levels and in such terms as the Compensation Committee may determine, in its discretion, including in absolute terms, as a goal relative to performance in prior periods, or as a goal compared to the performance of one or more comparable companies or an index covering multiple companies. The targeted level or levels of performance may be established in terms of company-wide objectives or objectives that are related to the performance of the individual grantee or the subsidiary, division, department or function within Jabil or the subsidiary in which the grantee is employed. The specified performance measurement period(s) may be annual, multi-year, quarterly, or of any other duration determined by the Compensation Committee. The Committee may specify that performance will be determined before payment of bonuses, capital charges, non-recurring income or expense, items of an unusual nature or of a type that indicates infrequency of occurrence, or other financial and general and administrative expenses for the performance period. Performance goals need not be based on audited financial results.

The Compensation Committee may not increase the compensation payable, including the number of shares of common stock granted pursuant to any award, that would otherwise be due upon achievement of a performance goal under any award intended to qualify for an exemption from the limit on tax deductibility under Code

Table of Contents

Section 162(m). Notwithstanding the achievement of any performance goal and any contrary provision of the 2011 Stock Incentive Plan, the Compensation Committee may, in its discretion, reduce the amount of compensation otherwise to be paid or earned in connection with an award granted on or after September 1, 2013 intended to qualify for an exemption from the limit on tax deductibility under Code Section 162(m), provided that the Compensation Committee may not make such reduction after a change in control of Jabil.

Prior to the payment of any award intended to be exempt under Code Section 162(m), the Compensation Committee will certify in writing that the performance goal(s) applicable to such award were met. Prior to the payment of an award to a grantee who is not an officer of Jabil for purposes of Section 16 of the Exchange Act, the written certification that the performance goal(s) applicable to such award was met may be made by such grantee's divisional Executive Vice President or Chief Executive Officer, by the Chief Operating Officer of Jabil or by the President of Jabil, and such officer may, in his or her discretion, reduce the amount of compensation otherwise to be paid or earned in connection with such award granted on or after September 1, 2013, notwithstanding the achievement of any performance goal and notwithstanding any other contrary provision of the 2011 Stock Incentive Plan; provided, no such reduction may be made after a change in control.

Adjustment upon Changes in Capitalization. In the event of changes in the outstanding stock of Jabil by reason of any stock splits, reverse stock splits, stock dividends, or other change in the capital structure of Jabil or extraordinary dividend, spinoff, or similar event affecting the value of Jabil's common stock, an appropriate adjustment will be made by the Board of Directors in: (i) the number of shares of common stock subject to the 2011 Stock Incentive Plan, (ii) the number of shares of common stock subject to any award outstanding under the 2011 Stock Incentive Plan, (iii) the exercise price of any such outstanding award, (iv) any share-based performance condition, and (v) the annual per-person limitation on equity awards. The determination of the Board of Directors as to which adjustments shall be made shall be conclusive.

Change in Control.

Unless otherwise provided in an award agreement, the following provisions shall apply to outstanding awards in the event of a change in control of Jabil.

- (a) Continuation, Assumption, or Replacement of Outstanding Awards. The surviving or successor entity may continue, assume, or replace all or some awards outstanding as of the date of the change in control, and such awards or replacements therefore shall remain outstanding and be governed by their respective terms. If the grantee's continuous status as an employee or consultant or non-employee director does not terminate prior to the first anniversary of the date of the change in control (the Change in Control Anniversary), then on the Change in Control Anniversary:
 - (i) all of the grantee's continued, assumed, or replaced outstanding options and stock appreciation rights that are not yet fully exercisable shall immediately become exercisable in full and shall remain exercisable in accordance with their terms,
 - (ii) all of the grantee's continued, assumed, or replaced unvested stock awards and other stock-based awards will become immediately fully vested and non-forfeitable; and
 - (iii) any performance objectives applicable to the grantee's continued, assumed, or replaced unvested awards for performance measurement periods not yet ended at the date of the Change in Control Anniversary will be deemed to have been satisfied at the greater of the designated target level or the level actually achieved by performance through the Change in Control Anniversary (with similar

performance assumed to be achieved through the remainder of the performance period) in connection with the award.

If the grantee's continuous status as an employee or consultant or non-employee director terminates prior to the Change in Control Anniversary as a result of termination by Jabil without cause or resignation by the grantee for good reason, then on the date of termination:

- (i) all of the grantee's outstanding continued, assumed, or replaced options and stock appreciation rights that are not yet fully exercisable shall immediately become exercisable in full and shall remain exercisable in accordance with their terms,

Table of Contents

- (ii) all of the grantee's continued, assumed, or replaced unvested stock awards and other stock-based awards will become immediately fully vested and non-forfeitable; and
 - (iii) any performance objectives applicable to the grantee's unvested continued, assumed, or replaced awards for performance measurement periods not yet ended at the date of termination will be deemed to have been satisfied at the greater of the designated target level or the level actually achieved by performance through the date of termination (with similar performance assumed to be achieved through the remainder of the performance period) in connection with the award.
- (b) Acceleration of Awards. If and to the extent that outstanding awards are not continued, assumed or replaced in connection with a change in control, then:
- (i) outstanding options and stock appreciation rights issued to the grantee that are not yet fully exercisable shall immediately become exercisable in full and shall remain exercisable in accordance with their terms,
 - (ii) all unvested stock awards and other stock-based awards will become immediately fully vested and non-forfeitable; and
 - (iii) any performance objectives for performance measurement periods not yet ended at the date of the change in control will be deemed to have been satisfied at the greater of the designated target level or the level actually achieved by performance through the change in control (with similar performance assumed to be achieved through the remainder of the performance period) in connection with the award.

The Administrator in its discretion may terminate some or all of such outstanding awards, in whole or in part, as of the effective time of the change in control in exchange for payments to the holders. The payment for any award or portion thereof terminated shall be in an amount equal to the excess, if any, of (x) the fair market value of the consideration that would otherwise be received in the change in control for the number of shares subject to the award or portion thereof being terminated, or, if no consideration is to be received by Jabil's stockholders in the change in control, the fair market value of such number of shares immediately prior to the effective date of the change in control, over (y) the aggregate option price or base price (if any) for the shares subject to the award or portion thereof being terminated. If there is no excess, the award may be terminated without payment. Any payment shall be made in such form, on such terms and subject to such conditions as the Administrator determines in its discretion, which may or may not be the same as the form, terms and conditions applicable to payments to Jabil's stockholders in connection with the change in control, and may include subjecting such payments to vesting conditions comparable to those of the award surrendered.

Restriction on Repricing.

The 2011 Stock Incentive Plan includes a restriction providing that, without stockholder approval, Jabil will not amend or replace options or stock appreciation rights previously granted under the 2011 Stock Incentive Plan in a transaction that constitutes a repricing. For this purpose, a repricing is defined as amending the terms of an option or stock appreciation right after it is granted to lower its exercise or base price, any other action that is treated as a repricing under generally accepted accounting principles, or canceling an option or stock appreciation right at a time when its exercise price or base price is equal to or greater than the fair market value of the underlying stock in exchange for another option, stock appreciation right, restricted stock, other equity, cash or other property, unless the cancellation and exchange occurs in connection with a merger, acquisition, spin-off or other similar corporate transaction. Adjustments to the exercise price or number of shares subject to an option or stock appreciation right to reflect the effects of a stock split or other extraordinary corporate transaction will not constitute a repricing.

Amendment and Termination of the 2011 Stock Incentive Plan. The Board may at any time amend, alter, suspend or terminate the 2011 Stock Incentive Plan. The Compensation Committee may amend, alter, suspend or terminate the 2011 Stock Incentive Plan so long as such action complies with applicable law, except that any amendment to be presented to the stockholders for approval must first be approved by the Board. The Administrator may at any time amend, alter, suspend or terminate an outstanding award. Jabil will obtain stockholder approval of any amendment to the 2011 Stock Incentive Plan in such a manner and to such a degree

Table of Contents

as is necessary and desirable to comply with any applicable law or regulation, including the requirements of any exchange on which the common stock is listed or quoted. Under these laws and regulations, however, stockholder approval will not necessarily be required for all amendments which might increase the cost of the 2011 Stock Incentive Plan or broaden eligibility. No amendment, alteration, suspension or termination of the 2011 Stock Incentive Plan or an outstanding award will materially impair the rights of any grantee, unless mutually agreed otherwise between the grantee and Jabil, or impose any additional obligation on Jabil or right on the grantee, unless agreed by Jabil. In any event, the 2011 Stock Incentive Plan will terminate on October 21, 2020. Any awards outstanding under the 2011 Stock Incentive Plan at the time of its termination will remain outstanding until they expire by their terms.

Federal Tax Information

Pursuant to the 2011 Stock Incentive Plan, Jabil may grant incentive stock options, as defined in Section 422 of the Code, nonqualified options, stock appreciation rights, stock awards, other stock-based awards, and cash-based awards.

A grantee who receives an incentive stock option grant will not recognize any taxable income either at the time of grant or exercise of the option, although the exercise may subject the grantee to the alternative minimum tax. Upon the sale or other disposition of the shares more than two years after the grant of the option and one year after the exercise of the option, any gain or loss will be treated as a long-term or short-term capital gain or loss, depending upon the holding period. If these holding periods are not satisfied, the grantee will recognize ordinary income at the time of sale or disposition equal to the lower of (a) the fair market of the shares at the date of the option exercise minus the exercise price or (b) the sale price of the shares minus the exercise price. Any gain or loss recognized on such a premature disposition of the shares in excess of the amount treated as ordinary income will be characterized as long-term or short-term capital gain or loss, depending on the holding period. Jabil will be entitled to a deduction in the same amount as the ordinary income recognized by the grantee.

All options that do not qualify as incentive stock options are referred to as nonqualified options. A grantee will not recognize any taxable income at the time he or she receives a nonqualified option grant. However, upon exercise of the nonqualified option, the grantee will recognize ordinary taxable income generally measured as the excess of the fair market value of the shares purchased on the date of exercise over the purchase price. Any taxable income recognized in connection with an option exercise by a grantee who is also an employee of Jabil will be subject to tax withholding by Jabil. Upon the sale of such shares by the grantee, any difference between the sale price and the fair market value of the shares on the date of exercise of the option will be treated as long-term or short-term capital gain or loss, depending on the holding period. Jabil will be entitled to a tax deduction in the same amount as the ordinary income recognized by the grantee with respect to shares acquired upon exercise of a nonqualified option, but no tax deduction in respect of any capital gain realized by the grantee.

With respect to stock awards, stock appreciation rights, cash-based awards, and other stock-based awards, the grantee generally will realize ordinary taxable income, subject to tax withholding, equal to the amount of the cash or the fair market value of the shares of common stock received. Except as discussed below, Jabil will be entitled to a deduction in the same amount and at the same time as the compensation income is received by the participant.

Any award that is deemed to be a deferral arrangement (that is, not excluded or exempted under the tax regulations) will be subject to Code Section 409A. Elections by the grantee to defer compensation under such awards and the timing of distributions relating to such awards must meet requirements under Code Section 409A in order for income taxation to be deferred upon vesting of the award and tax penalties avoided by the grantee.

As discussed above, we intend that options and stock appreciation rights and awards to certain employees conditioned upon achievement of performance goals will qualify as qualified performance-based compensation that will be fully

tax deductible by Jabil under Code Section 162(m). However, a number of requirements must be met in order for particular compensation to qualify under Code Section 162(m), so there can be no assurance that such compensation under the 2011 Stock Incentive Plan will be fully deductible under all circumstances. In

Table of Contents

addition, other awards under the 2011 Stock Incentive Plan, such as non-performance-based restricted stock and RSUs, generally will not qualify, so that compensation paid to certain executives in connection with such awards, to the extent it and other compensation subject to Section 162(m)'s deductibility limit exceed \$1,000,000 in a given year, may not be deductible by Jabil as a result of Section 162(m). Compensation to certain employees resulting from vesting of awards in connection with a change in control or termination following a change in control also may be non-deductible under Code Section 280G.

The foregoing is only a summary of the effect of federal income taxation upon the grantee and Jabil with respect to the grant, vesting and exercise of awards under the 2011 Stock Incentive Plan, does not purport to be complete, and does not discuss the other tax consequences, including estate and gift taxation, Social Security and Medicare taxes, excise taxes and consequences under the tax laws of any municipality, state or foreign country in which a grantee may reside.

New Plan Benefits

All awards under the 2011 Stock Incentive Plan are made at the discretion of the Administrator. Therefore, the benefits and amounts that will be received or allocated under the 2011 Stock Incentive Plan in the future are not determinable at this time.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THIS PROPOSAL.

PROPOSAL NO. 5

RE-APPROVAL OF THE MATERIAL TERMS

OF THE PERFORMANCE GOALS UNDER

THE JABIL CIRCUIT, INC. SHORT-TERM INCENTIVE PLAN,

AS AMENDED AND RESTATED

Jabil is seeking re-approval of the material terms of the performance goals under the Jabil Circuit, Inc. Short-Term Incentive Plan, as amended and restated (the "Short-Term Incentive Plan"), for the purpose of preserving its ability to deduct compensation earned by certain executives pursuant to any performance-based award that may be made in the future under the Short-Term Incentive Plan. The Short-Term Incentive Plan was originally approved by Jabil's stockholders in January 2006 and the performance goals under the Short-Term Incentive Plan were re-approved in January 2011.

Since Jabil's stockholders re-approved the performance goals under the Short-Term Incentive Plan in January 2011, the Short-Term Incentive Plan has been amended by the Compensation Committee to:

add a clawback provision, which provides that the incentive awards, and a participant's right to receive or retain payments in connection with an award, are also subject to recoupment or clawback to the extent necessary to comply with any recoupment or clawback policy of Jabil, or as required under applicable law, regardless of whether such recoupment or clawback is applied with prospective or retroactive effect; eliminated a restriction on the Compensation Committee's authority to establish adjustments in measuring achievement of performance goals; and

make certain other immaterial changes to the Short-Term Incentive Plan, as provided in Appendix B.

The Short-Term Incentive Plan is designed so that incentive awards granted pursuant to its terms generally will constitute qualified performance-based compensation and therefore will not be subject to the tax deduction limits of Section 162(m) of the Code. Section 162(m) of the Code prevents a publicly held corporation from claiming tax deductions for annual compensation in excess of \$1,000,000 to certain of its senior executives unless the compensation is qualified performance-based compensation. Compensation qualifies as qualified performance-based compensation only if it is payable on account of performance and satisfies certain other requirements, one of which is that the material terms of the performance goals under the plan be approved by the stockholders at least once every five years. The key senior executives who are subject to the compensation deduction limitation include any individual who, as of the last day of Jabil's taxable year, is Jabil's chief executive officer or among the three highest compensated officers other than the chief executive officer and the chief financial officer.

To continue to qualify for the exception to the deduction limits of Section 162(m) of the Code, the material terms of the performance goals under the Short-Term Incentive Plan must be re-approved by Jabil's stockholders once every five years because the Compensation Committee has retained discretion to vary the targets under the performance goals from year to year. Accordingly, Jabil is seeking re-approval of the material terms of the performance goals included in the Short-Term Incentive Plan in order to preserve Jabil's ability to deduct compensation earned by certain executives pursuant to any performance-based award that may be made in the future under the Short-Term Incentive Plan. The material terms of the performance goals under the Short-Term Incentive Plan that must be re-approved for purposes of Section 162(m) of the Code include (1) the employees eligible to receive the performance-based

compensation, (2) the performance criteria under which the performance-based compensation will be determined, and (3) the maximum amount of performance-based compensation that could be paid to any executive in a fiscal year.

Table of Contents

Description of the Short-Term Incentive Plan

The following summary, including the material terms of the performance goals, is qualified in its entirety by the terms of the Short-Term Incentive Plan, a copy of which is attached to this proxy statement as [Appendix B](#).

Purpose. The purpose of the Short-Term Incentive Plan is to motivate and reward short-term performance by providing cash bonus payments based upon the achievement of pre-established and objective performance goals.

Administration. The Short-Term Incentive Plan is administered by the Compensation Committee. Among other things, the Compensation Committee has the authority to select participants in the Short-Term Incentive Plan from among Jabil's executive officers, and to determine the performance goals, the bonus amounts to be paid upon achievement of the performance goals, and any other terms and conditions of awards under the Short-Term Incentive Plan. The Compensation Committee also has the authority to establish and amend rules and regulations relating to the Short-Term Incentive Plan and to make all other determinations necessary and advisable for the administration of the Short-Term Incentive Plan. All decisions made by the Compensation Committee pursuant to the Short-Term Incentive Plan are made in the Compensation Committee's sole discretion and are final and binding.

Eligibility. Executive officers designated by the Compensation Committee are eligible to be granted incentive awards and discretionary awards under the Short-Term Incentive Plan. Although Section 162(m) of the Code limits deductibility only for compensation paid to key senior executive officers, the performance goals with respect to incentive awards are applied to all executive officers in the event that one or more should become subject to the limits of Section 162(m) of the Code.

Terms of Incentive Awards. Incentive awards under the Short-Term Incentive Plan consist of cash amounts payable upon the achievement during a specified performance period of specified objective performance goals. The performance period may be the fiscal year or any portion of the fiscal year. Within the first 90 days of the fiscal year, and in no event after 25 percent of the performance period has elapsed, the Compensation Committee will establish the performance goal(s) and the amount to be paid if the performance goal(s) are achieved. The incentive award opportunity, including any designated target, threshold or maximum opportunity, for each participant will be determined as a percentage of the participant's base salary or as the sum of a percentage of the funds available for the payment of such award or as a stated dollar amount or dollar amount calculated under a formula based on the relevant performance goal. After the end of the performance period, the Compensation Committee will certify in writing the extent to which the performance goals are achieved and determine the amount of the incentive award that is payable. All incentive award amounts payable under the Short-Term Incentive Plan will be paid as soon as practicable after the Compensation Committee's certification, but not later than two and one-half months following the end of the fiscal year. The Compensation Committee may denominate an incentive award in shares of Jabil's common stock and/or settle an award in shares of common stock if and to the extent that shares of common stock are authorized for use in incentive awards and available under an equity compensation plan approved by stockholders of Jabil.

Performance Goals. Performance goals applicable to incentive awards under the Short-Term Incentive Plan will be based on one or more of the following performance objectives: stock price; market share; sales, including to specified market segments or targeted customers; earnings per share, core earnings per share or variations thereof; return on equity; costs; revenue; cash to cash cycle; days payables outstanding; days of supply; days sales outstanding; cash flow; operating income; profit after tax; profit before tax; return on assets; return on net assets; return on sales; inventory turns; invested capital, including completion of a specified capital-raising transaction; net operating profit after tax; return on invested capital; total shareholder return; earnings; return on equity or average shareowners' equity; return on capital; return on investment; income or net income; operating income or net operating income; operating profit or net operating profit; operating margin; return on operating revenue; contract awards or backlog; overhead or

other expense reduction; growth in shareowner value relative to the moving average of the S&P 500 Index or a peer group index; credit rating; strategic plan development and implementation; net cash provided by operating activities; gross margin; economic value added; customer

satisfaction; financial return ratios; market performance; completion of a specified acquisition or disposition; bookings; business divestitures and acquisitions; cash position; contribution margin; customer renewals; customer retention rates; earnings before interest and taxes; EBITDA; employee satisfaction; expenses; gross profit dollars; growth in bookings; growth in revenues; net profit; net sales; new product development; number of customers; productivity; operating cash flow; operating expenses; product defect measures; product release timelines; productivity; research and development milestones; revenue growth; time to market; working capital; or such similarly objectively determinable financial or other measures as may be adopted by the Compensation Committee. The targeted level or levels of performance with respect to such measurement criteria may be established at such levels and in such terms as the Compensation Committee may determine, in its discretion, including in absolute terms, as a goal relative to performance in prior periods, or as a goal compared to the performance of one or more comparable companies or an index covering multiple companies. The targeted level or levels of performance may be established in terms of company-wide objectives or objectives that are related to the performance of the individual participant or the subsidiary, division, department or function within Jabil or the subsidiary in which the participant is employed. The Compensation Committee may specify that performance will be determined before payment of bonuses, capital charges, non-recurring income or expense, items of an unusual nature or of a type that indicates infrequency of occurrence, or other financial and general and administrative expenses for the performance period. Performance goals need not be based on audited financial results.

Maximum Incentive Award Payable. For purposes of Section 162(m) of the Code, Jabil is required to establish a maximum amount of performance-based compensation that may be paid to any participant pursuant to an incentive award under the Short-Term Incentive Plan in any one fiscal year. The maximum aggregate incentive award amount that may be awarded to a participant for a fiscal year under the Short-Term Incentive Plan is 300% of the participant's base salary for such fiscal year. In addition, the maximum aggregate incentive award payable to any participant during any fiscal year is \$45,000,000. These limitations may not be increased without stockholder approval.

Conditions for Payment. Each incentive award will be earned only if at least one performance goal established in accordance with the Short-Term Incentive Plan has been achieved. Under current practice, a participant whose employment terminates during the fiscal year is not legally entitled to any payment of an annual incentive for the year of termination. However, the Short-Term Incentive Plan would permit the Compensation Committee to specify that the award may become payable without regard to performance in the event of death, disability or a change in control to the extent permissible under Code Section 162(m) as of the end of the performance period and the Committee also could specify that the award may become payable to a terminated employee if and to the extent that the designated performance goals are actually achieved. The Compensation Committee shall have no discretion to increase the amount of the incentive award, but shall retain discretion to decrease the amount of the incentive award at any time through the last day of the fiscal year in which the performance period ended, generally referred to as negative discretion. The Compensation Committee may impose as a condition of incentive awards, and as a condition of a participant's right to receive or retain payments in connection with an award, requirements that the participant comply with specified conditions relating to non-competition, confidentiality, non-solicitation of customers, suppliers, and employees of Jabil, and other restrictions. The incentive awards, and a participant's right to receive or retain payments in connection with an award, are also subject to recoupment or clawback to the extent necessary to comply with any recoupment or clawback policy of Jabil, or as required under applicable law, regardless of whether such recoupment or clawback is applied with prospective or retroactive effect.

Amendment and Discontinuance. The Board may at any time amend, suspend or terminate the Short-Term Incentive Plan. The Compensation Committee may amend, suspend or terminate the Short-Term Incentive Plan so long as such action complies with applicable law, except that any amendment to be presented to the stockholders for approval must first be approved by the Board. Under these laws and regulations, however, stockholder approval will not necessarily be required for all amendments which might increase the cost of the Short-Term Incentive Plan or broaden eligibility.

No such amendment, modification or termination will affect the payment of any award for a fiscal year that has already ended or increase the amount of any award.

Relationship to Other Compensation. The Short-Term Incentive Plan is not exclusive, so that compensation, including bonuses, can be paid to executive officers apart from the Short-Term Incentive Plan, subject to applicable limitations of law and the listing rules of the New York Stock Exchange.

Federal Tax Information

Payments made under the Short-Term Incentive Plan will be taxable to the participants as ordinary income when paid. As described above, Jabil generally intends payments under the Short-Term Incentive Plan to qualify as qualified performance-based compensation under Code Section 162(m). As a result, we generally will be entitled to a deduction corresponding to the amount of income recognized by the participant. However, a number of requirements must be met in order for particular compensation to qualify under Code Section 162(m), so there can be no assurance that such compensation under the Short-Term Incentive Plan will be fully deductible under all circumstances.

The foregoing is only a summary of the effect of federal income taxation upon the grantee and Jabil with respect to the Short-Term Incentive Plan, does not purport to be complete, and does not discuss other tax consequences, including estate and gift taxation, Social Security and Medicare taxes, excise taxes and consequences under the tax laws of any municipality, state or foreign country in which a participant may reside.

New Plan Benefits

All awards under the Short-Term Incentive Plan are made at the discretion of the Compensation Committee. Therefore, the benefits and amounts that will be received or allocated under the Short-Term Incentive Plan are not determinable at this time.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THIS PROPOSAL.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS****EXECUTIVE SUMMARY**

Following a challenging year in 2014, Jabil rebounded with a strong fiscal 2015 and continued to make progress in diversifying its business. The Company's revenue, at \$17.9 billion, was an increase of 14 percent from fiscal 2014, and core operating income, at \$670 million, almost doubled compared to fiscal 2014. Revenue in our diversified manufacturing services segment increased by 39 percent year over year, and our electronics manufacturing services segment delivered slight increases in revenue. This drove core diluted earnings per share to \$2.07, from \$0.53 in fiscal 2014. The Company returned approximately \$150 million to our stockholders through dividends and share repurchases. We exceeded our expectations for cash flow from operations, generating \$1.24 billion. *Please refer to Management's Discussion & Analysis Non-U.S. GAAP Core Financial Measures on pages 46 and 47 of our Annual Report on Form 10-K, filed on October 16, 2015, for reconciliations of core operating income and core earnings per share to the most directly comparable U.S. GAAP financial measures.*

Jabil's compensation program is intended to be competitive with the market practice of its peer group and other companies we compete with for talent and reflect our pay for performance philosophy by placing a significant majority of our NEO compensation at risk in the form of variable pay elements tied to financial and operational performance goals and to Jabil's stock price. Each fiscal year, the Compensation Committee views all of the compensation elements together, including historical achievement levels, to balance both long-term and short-term objectives, and to incentivize each NEO to attain those objectives. We typically rely heavily on equity-based awards to accomplish such balance, as we believe such awards create a strong alignment with the achievement of stockholder value over the long term. In fiscal 2015, we required our executives to achieve threshold levels of net core operating income (NCOI) and return on invested capital (ROIC) to earn their annual cash incentives and earnings per share growth during a three-year performance period in order for performance-based equity awards to vest. The Committee believes these performance measures correlate highly to stock price performance. ROIC was re-introduced as a performance measure for fiscal 2015 to provide additional focus on optimal deployment of investment and working capital.

The Compensation Committee set performance goals that we believe were challenging, yet attainable, to achieve target performance, and difficult to achieve maximum performance, under both our short-term and long-term incentive programs. Jabil delivered financial results in fiscal 2015 for revenues, net income, and core operating income at the high end of or above the range of publicly issued guidance issued by us throughout fiscal 2015, with performance exceeding the pre-established goals for the NCOI and ROIC metrics. This resulted in payouts above target for our short-term incentives to our NEOs. However, for our long-term performance awards with performance goals of cumulative core EPS, actual performance for the performance measurement periods ending on August 31, 2015 was below the threshold, resulting in no vesting of those performance-based equity awards and long-term cash incentive awards for those performance measurement periods. Our NEOs were awarded a grant of SARs in fiscal 2015 to create additional alignment with stockholder interests and to directly incentivize our executives to drive stock price growth.

Table of Contents**Executive Compensation Practices**

We regularly monitor the evolution of compensation best practices. Some of the most important practices incorporated into our program include the following:

What We Do	What We Don't Do
Pay for Performance. Reflecting the Committee's philosophy of pay-for-performance, a majority of our executives' compensation is performance-based and at risk.	Hedging. Jabil discourages its directors and NEOs from entering into certain types of hedges with respect to Jabil securities. In addition, federal securities laws prohibit the executive officers from selling short our stock.
Rigorous Performance Metrics. The Committee annually sets performance targets that it believes are challenging but fair for our annual and long-term incentive plans.	No Repricing. The exercise prices of our SARs are set to equal the grant date market price and may not be reduced or replaced with SARs with a lower exercise price.
Median Compensation Targets. Total direct compensation for our executives is generally targeted at the median of our peer group and other companies we compete with for talent.	No Employment or Severance Benefit Agreements. We do not have employment, severance, or change in control agreements with our executives.
Mitigation of Risk. Jabil's compensation program is balanced between time-based and performance-based compensation, as well as cash and equity incentives. The compensation program is focused on the long-term so that the Company's executives are focused on long-term, sustained performance.	Minimal Perquisites. Our NEOs participate in the same benefit plans as our salaried employees, with little or no special executive perquisites.
Clawback of Compensation. We have a clawback policy which allows us to recoup certain performance-based incentive compensation (including equity awards) paid to our executive officers in the event we report certain inaccurate financial results.	No Change in Control Excise Tax
Meaningful Share Ownership Guidelines. We believe that our share ownership requirements are rigorous and are designed to align executives' interests with those of our stockholders: we require our CEO to hold at least five times his base salary in Jabil shares, our President, COO and CFO to hold at least three times their base salary in Jabil shares, and all other executive officers to hold at least their base salary in Jabil shares.	Gross-Ups. Parachute excise tax reimbursements and gross-ups are not provided in the event of a change-in-control.
Independent Compensation Consultant. The compensation consultant to the Committee provides no other services for Jabil.	
Review of Compensation Peer Group. Our compensation peer group is reviewed annually by the Committee and adjusted, when necessary, to ensure that its composition remains a relevant and appropriate	

comparison for our executive compensation program.

How We Make Compensation Decisions

OUR EXECUTIVE COMPENSATION PHILOSOPHY

The Compensation Committee believes that executive compensation opportunities should align with and enhance long-term stockholder value. This core philosophy is embedded in all aspects of our executive compensation program and is reflected in an important set of guiding principles. The Committee reviews the compensation philosophy annually. We believe that the application of these principles enables us to create a meaningful link between compensation outcomes and long-term, sustainable growth for our stockholders.

Table of Contents

GUIDING PRINCIPLES

Guiding Principles	Elements of Compensation	Rationale
Pay for Performance	A substantial majority of pay is variable, contingent and directly linked to Company financial and stock price performance.	An effective way to reach our short- and long-term financial and strategic objectives is to make a majority of an executive's overall target compensation dependent on the achievement of such objectives and on the performance of our stock. We believe the portion of an executive's total compensation that varies with performance and the particular financial and operational incentive metrics should be a function of the executive's responsibilities and ability to drive and influence results. As an executive's responsibility and influence increase, so should the level of performance-based, at-risk compensation relative to the executive's base salary.
Alignment with Stockholders Interests	The financial interests of executives are aligned with the long-term interests of our stockholders through stock-based compensation and performance metrics that we believe correlate with long-term stockholder value.	We seek to provide an appropriate link between compensation and the creation of long-term stockholder value. We believe executives' interests are more directly aligned with the interests of our stockholders when the compensation program: emphasizes long-term financial performance, business objectives and the strategic focus of our businesses; is significantly impacted by the value of our stock; and results in a continuing significant ownership of our stock.
Long-term focus	We use metrics in both our short-term and long-term incentive program that are viewed as those that will drive toward our long-term strategic goals.	For our most senior executives, long-term stock-based compensation opportunities will significantly outweigh short-term cash-based opportunities. Annual objectives should complement sustainable long-term performance.
Competitiveness	Total compensation should be sufficient to incent the leadership team to maximize Jabil's performance. Each element should be benchmarked relative to peers and the broader marketplace for executive talent.	To attract highly qualified executives, motivate executives to perform at their highest levels and retain executives with the leadership abilities and skills necessary to drive and build long-term stockholder value, compensation must be competitive and reflect the value of each executive's position in the market and within Jabil. While target total compensation should be competitive, performance that exceeds target should be appropriately rewarded.
Balance	The elements of compensation are balanced to motivate each NEO to	Our compensation program is designed to be challenging but fair. Executives should have the

achieve both long-term and short-term objectives. We rely more heavily on equity-based awards, as we believe this element has the strongest alignment to the achievement of stockholder value over the long term.

opportunity to earn market competitive pay for delivering expected results. As results exceed expectations (both internal and external), pay levels may increase above market median levels. If performance falls below expected levels, actual pay may fall below market median.

Summary of Short and Long-Term Incentives Awarded in Fiscal 2015

The Compensation Committee believes that the creation of stockholder value over the short and long-term is a function of earnings growth and return on invested capital. Annual cash incentives for the NEOs in fiscal 2015 were based upon the performance metrics of corporate NCOI and ROIC. The NEOs' performance-based equity awards granted in fiscal 2015 will vest, if at all, based on cumulative core earnings per share (EPS) over a multi-year period. The Committee also awarded time-based RSUs with a three-year vesting period to retain these key executives, provide compensation at levels that are competitive with the market, and create an additional immediate alignment with stockholder interests. NEOs were also granted SARs to create additional alignment with stockholder interests, as the executives will only realize value if our stock price increases during the term of the SARs, and to directly incentivize our executives to drive stock price growth. A significant portion of each NEO's compensation package for fiscal 2015 contains long-term equity based incentives, which give the NEOs a considerable stake in delivering stockholder value.

Table of Contents**Pay for Performance Philosophy**

We believe that the following charts and tables are helpful in illustrating that the actual compensation paid to our executives reflects our pay for performance philosophy. These tables supplement the information in the Summary Compensation Table, the Grants of Plan-Based Awards in Fiscal 2015 Table, and the Outstanding Equity Awards at 2015 Fiscal Year End Table.

The following table illustrates the actual payout percentage against the target of the performance-based annual cash incentives to the NEOs since 2008 resulting from performance as measured by financial/operational metrics.

Table of Contents**ELEMENTS OF THE EXECUTIVE COMPENSATION PROGRAM**

The Compensation Committee believes that the elements of the executive compensation program further our guiding principles. The following table summarizes the major elements of Jabil's executive compensation program and the purposes and values in using these elements:

Element	Purposes and Values
Salaries	Provide a minimum fixed amount of compensation. Reflect an officer's experience, business judgment, scope of responsibility, impact upon the organization and role in developing and implementing overall business strategy. Recognize individual performance. Are reviewed annually and compared with salaries of comparable executives in the peer group and in compensation surveys.
Short-term	Communicate strategic priorities and identify key financial and business objectives.
Incentives	Motivates achievement of short-term objectives, as well as long-term objectives by using consistent metrics year after year. Are 100% at-risk, all of which have a minimum financial or operational threshold that must be achieved to receive any payout. Target bonus opportunity payouts (as a percentage of salary) are compared with target bonus opportunity payouts (as a percentage of salary) of comparable executives in the peer group and/or compensation surveys. Result in achievement that is variable, measured against a mix of multiple defined targets, with payouts ranging from 0% (below threshold performance) to a maximum of 200% of target payout.
Long-term	Align chosen financial and other measures to an individual's scope of influence. Motivate attainment of long-term financial goals and incentivize managerial action intended to increase long-term stock price appreciation.
Incentives	Align executive's interests with those of our stockholders, particularly when combined with our executive stock ownership requirements. Provide that a substantial percentage of compensation is at-risk with metrics tied to financial performance. Reward long-term service and promote retention with vesting schedules that span several years. The grant-date value of long-term incentives is influenced by market data of comparable executives in the peer group and in compensation surveys.

Balance of Elements. The Compensation Committee views all of the compensation elements together to set each NEO's total compensation each fiscal year. In addition, the Committee balances the compensation elements to motivate each NEO to achieve both long-term and short-term objectives. For our executives, this balance is typically attained by relying more heavily on equity and equity-based awards, as we believe this element has the strongest alignment to the achievement of stockholder value over the long term.

NEO Total Direct Compensation Mix. The following chart illustrates the fiscal 2015 target compensation for the NEOs by element of compensation as a percentage of the NEOs' target total direct compensation (that is, salary plus the target value of the short-term cash and long-term incentives). This chart assists in demonstrating our compensation philosophy that the significant majority of each NEO's compensation be at-risk, tied to performance (both short-term and long-term) and mostly composed of equity. It reflects the mix of salary, cash and equity-based incentives at the target levels established at the beginning of fiscal 2015. Salary is the annual salary for the NEOs for fiscal 2015;

Target Cash Annual Incentive is at the target award opportunity under the annual incentive program for fiscal 2015; and Performance-Based Equity, Time-Based Equity, and SARs are the grant date fair values at target for fiscal 2015. The Target Cash Annual Incentive amount differs from that shown in the Summary Compensation Table, which reflects actual short-term cash incentives earned in fiscal 2015.

FISCAL 2015 MIX OF TARGET TOTAL DIRECT COMPENSATION ELEMENTS

THE EXECUTIVE COMPENSATION PROCESS

Jabil's executive compensation program is administered and overseen by the Compensation Committee with assistance from management and a compensation consultant selected and retained by the Committee. Generally, compensation amounts, metrics and vesting criteria are determined by analyzing, among other things, compensation data and pay practices from Jabil's peer group and broader compensation survey information, financial and strategic goals, and/or historical compensation data. Typically, annual salaries, cash short-term incentive payout targets, metrics, goals and weightings, and long-term incentive awards and performance goals for each fiscal year are set and awarded following the end of the previous fiscal year when data regarding the previous fiscal year's performance is available. If a NEO's role changes or an officer is promoted to a NEO position, compensation elements may be adjusted later in the fiscal year. In addition, the Committee solicits the opinions of the other Board members, considers outside counsel's legal advice, reviews ratings information from proxy advisory services, and makes inquiries regarding the accounting and tax treatment for the compensation program.

Role of Compensation Consultant. The Compensation Committee has the sole authority to hire, and to dismiss, its compensation consultant. Reports and advice from the consultant may be requested by the Committee and are shared with the Board and management at the Committee's discretion. The Committee has engaged Steven Hall & Partners (SH&P) as its independent compensation consultant since March 2010. The types of services performed by SH&P during fiscal 2015 included attending all Committee meetings, either in person or telephonically, reviewing and advising on the peer group selection, advising on design and implementation of incentive and equity plans, advising on prevailing equity grant practices, providing data regarding prevalent compensation practices and levels of pay, commenting on compensation-related disclosure, reviewing and commenting on the compensation philosophy, providing updates on regulatory and legislative changes impacting executive compensation, and facilitating the CEO evaluation and performance review process. SH&P has access to management, and interacts with management to gather compensation and performance information regarding Jabil, to discuss potential compensation program designs, to ensure that compensation programs are administered in accordance with the decisions of the Committee and disclosed with high levels of transparency, and to ensure

Table of Contents

that accurate and timely information is presented to the Committee by SH&P and management. The Committee considers SH&P to be independent because SH&P performed no services for Jabil's management unrelated to services performed for the Compensation Committee. In fiscal 2015, the Compensation Committee reviewed and analyzed a number of factors, including those specified by SEC rule, and concluded that SH&P was independent and there was no conflict of interest raised as a result of any work performed by SH&P, directly or indirectly, for the Committee during fiscal 2015.

Role of Management. Our Chief Executive Officer makes recommendations to the Compensation Committee regarding base salary levels, target annual incentive award levels and long-term incentives for the other executive officers. These recommendations are based upon his assessment of individual performance, contribution, time in position and the market competitiveness of each individual's total compensation. The Chief Executive Officer, in conjunction with other members of senior management (the Company's President, Chief Operating Officer, Chief Financial Officer, and Chief Human Resources Officer), makes recommendations regarding the design of the Company's compensation programs including performance measures, weightings, and long-term incentive structure. This collective recommendation is based upon: (i) an annual performance review process, including assessment of the achievement of established financial and strategic business objectives and other accomplishments; (ii) Jabil's annual operating and strategic plans, targeted earnings, and overall and group financial performance; (iii) market data for relevant companies, which includes peer group data and broader compensation survey data; and/or (iv) guidelines established by institutional investors and proxy advisory firms.

Role of Compensation Committee. The Compensation Committee sets policies and gives direction to management on all material aspects of the executive compensation program. The Committee Charter, posted on our website at www.jabil.com, sets forth the Committee's responsibilities. The key goals of the compensation program are balanced with market data and Jabil's financial planning and expectations to determine each executive's compensation. The Committee makes compensation decisions for the NEOs for each of the compensation elements, establishes the short- and long-term financial metrics, weighting and targets, and grants long-term incentive awards. In making these decisions, the Committee reviews: (i) the Chief Executive Officer's recommended amounts for each element of pay, and recommended performance metrics and targets for our incentive compensation programs; (ii) data and advice provided by the compensation consultant, including peer group and compensation survey data; (iii) the compensation history of each executive; (iv) the financial performance of Jabil's various operating segments; and/or (v) guidelines established by institutional investors and proxy advisory firms.

Competitive Benchmarking. The Compensation Committee annually reviews compensation data and pay practices from both Jabil's peer group and broader compensation survey data as part of its decision-making process. While the Committee reviews compensation data with a view to confirming that a given executive's compensation is competitive, it retains discretion in setting an executive's compensation. As a result, compensation for an executive may differ materially from the peer group or survey data and is influenced by factors including past performance, experience, position, tenure, individual and organizational factors, retention needs and other factors. The Committee has adopted a target total cash compensation philosophy of setting opportunities such that NEO target total cash compensation (including annual salary and targeted short-term cash incentive payout) approximates the market median of the companies in the peer group and survey data if target performance is achieved. The Committee does not consider actual performance of the peer group companies when setting NEO compensation. Rather, it compares NEO total cash compensation payout opportunities at the target performance level to the target payout opportunities of comparable NEO positions at peer group companies when it establishes target total cash compensation at the beginning of the fiscal year. However, actual total cash compensation may range from below-the-market 25th percentile at the low end, to at or above-the-market 75th percentile at the high end depending on the actual level of financial performance achieved relative to pre-established goals. Long-term incentive awards granted to executives consider market data, financial performance, individual performance and potential, and aggregate share usage. The Committee also

considers benchmarking information regarding competitive levels of total direct compensation (the sum of target total cash and long-term incentives) to provide context for its decisions on long-term incentive awards.

Table of Contents

The Compensation Committee periodically evaluates and selects companies to include in the peer group it uses to assess the competitiveness of the NEO compensation program. With guidance from the compensation consultant and input and discussion with management, the Committee considers whether the mix of companies in the peer group produces valid information for assessing the market value of our executive positions. We intend that the peer group cumulatively has the following attributes, although a given company may not have all of the attributes: business operations in the industries and businesses in which we participate, global operations, similar annual revenue and/or market capitalization, and businesses that are complex and broad and/or compete with Jabil for executive talent. In April 2014, the Committee reviewed the current peer group for use when setting compensation, and determined that the peer group was satisfactory for fiscal 2015. The peer group consists of the following companies:

Applied Materials, Inc.

Arrow Electronics, Inc.

Avnet, Inc.

Celestica, Inc.

Danaher Corporation

EMC Corporation

Emerson Electric Company

Flextronics International

Qualcomm, Inc.

Sanmina Corporation

Seagate Technology

SYNNEX Corporation

Texas Instruments, Inc.

Tech Data Corporation

TE Connectivity Ltd.

Western Digital Corporation

The 16 companies in the peer group were used to set fiscal 2015 NEO target compensation with no change from the previous year's peer group. When fiscal 2015 NEO target compensation was set, Jabil's revenue for the most recently completed fiscal year available was at the 48th percentile of its peer group. The Committee's compensation consultant compared Jabil's NEO target pay using the peer group as part of the Committee's process to establish NEO salaries, annual incentive targets and long-term incentive awards granted for fiscal 2015. The peer group NEO compensation data was supplemented by data from multiple executive compensation surveys. Some adjustments to NEO salaries and annual incentive targets were made based upon a competitive analysis using these sources of pay data. The Committee

considered comparison data regarding long-term incentives for the NEOs as one factor, but did not strictly award grants with respect to peer group and survey data.

Setting of Salaries and Annual Cash Incentive Compensation. The Compensation Committee typically makes its decisions related to salaries and annual cash incentive targets at the start of each fiscal year. This timing allows the Committee to take into account Jabil's financial results in the prior fiscal year and the plans and expectations regarding the current fiscal year when establishing such salaries and targets. If a NEO's role changes or an officer is promoted to a NEO position, compensation elements may be adjusted later in the fiscal year. The Committee selected the performance metrics for the fiscal 2015 annual cash incentives pursuant to the Short-Term Incentive Plan.

Long-Term Incentive Compensation Award Practices. The annual grant cycle for grants of long-term incentive awards to our executives typically occurs at the start of each fiscal year following the completion and release of financial results for the preceding fiscal year, so that relevant information is available to the Compensation Committee and the market price of our common stock reflects this information. The dates for the meetings at which such grants are made are set well in advance of such meetings. The Committee may also make grants of long-term incentive awards at other times during the year due to special circumstances, which include a change in an officer role, the hiring or promotion of an executive officer, an acquisition or to implement design changes to align compensation with strategic goals. We do not seek to time long-term incentive awards to take advantage of information, either positive or negative, about Jabil which has not been publicly disclosed.

In deciding the type and value of equity compensation to grant, the Compensation Committee typically takes into account a variety of considerations, such as Jabil's financial performance, the need to retain experienced and talented employees to execute the strategies of the business, the accounting and tax impacts of the grant, the dilutive effect to the stockholders, the incentive opportunity Jabil desires to provide to the NEOs, the executive's

Table of Contents

role and responsibilities, individual performance, internal equity, and the historical level of actual compensation realized as compared to the value targeted. Additionally, the Committee utilizes peer group and compensation survey data to provide context for its determinations of these grants.

A majority of equity incentive awards granted to our NEOs are performance-based. Over the past several years, the Compensation Committee granted performance-based RSU awards conditioned on the compound annual growth rate in Jabil's core EPS over a minimum of three years and up to five years. In fiscal 2015, the performance period for performance-based RSU awards was fixed at three years. SARs were also granted to our NEOs in fiscal 2015. The Committee believes the SARs create additional alignment with stockholder interests and directly incentivize our executives to drive stock price growth.

Time-based stock awards are also granted to the NEOs in order to achieve specific elements of the compensation program. We believe that time-based stock awards with vesting over three years provides the recipient with the potential for long-term value directly aligned with the stock price and requires long-term service. This aligns with our guiding principle of creating a compensation package that is competitive, promotes retention, focuses on financial performance and balances the at-risk elements.

In October 2007, the Board of Directors adopted a stock incentive and compensation award policy. The components of the award policy are:

Grant timing guidelines, including requirements to pre-set dates on which awards may be granted and disclose those dates;

Exercise price guidelines, including a requirement that the exercise prices of stock options and SARs generally will be no less than the closing price of a share of Jabil's common stock on the date of grant;

Grant authorization guidelines, including specific deadlines for award requests by management in advance of award grant dates and prohibitions on delegation of grant authority and approval of grants by written consent; and

Grant implementation and miscellaneous procedural guidelines, including attendance by legal counsel at all meetings at which awards and other final compensation decisions are made.

In accordance with this policy, the Compensation Committee designates the dates on which stock incentive awards may be granted to officers, directors and employees (including new hires and promoted employees) during each fiscal year. The stock and stock-based awards granted during fiscal 2015 to the NEOs were made in accordance with this policy. The dates designated by the Committee for fiscal 2016 are the dates on or about the dates on which the Committee held or will hold meetings in connection with the quarterly in-person meetings of the Board during fiscal 2016: October 14, 2015 and, as currently scheduled, January 21, 2016, April 21, 2016 and July 21, 2016. In the event of special circumstances (the determination of which is in the Committee's discretion), the Committee may grant stock and stock-based incentive awards on dates other than these designated dates.

OTHER COMPENSATION POLICIES AND CONSIDERATIONS

The Company offers limited additional compensation components to our NEOs, reflecting our cost-sensitive philosophy. For fiscal 2015, the value of the other benefits comprising All Other Compensation to the NEOs was minimal, as disclosed in detail in the Summary Compensation Table and the related notes.

The Compensation Committee may, in its discretion, award a bonus for the year of retirement and also may, in its discretion, pro rate this bonus for service through the date of retirement. Unvested time-based RSUs fully vest upon termination due to death or disability. In the event of death, a pro rata portion of unvested performance-based RSUs and unvested long-term cash awards may vest and in the event of a termination due to disability, a pro rata portion of unvested performance-based RSUs and unvested long-term cash awards may remain outstanding and eligible for future vesting based on the actual level of achievement of the performance goals.

Severance and Termination. Upon a termination for any reason whatsoever, the NEO will receive the pro rata portion of salary earned to the date of termination and the Compensation Committee has discretion to consider pro-rata payments of the annual cash incentive compensation on a case-by-case basis if the NEO is not employed for the full fiscal year. Vested stock options and SARs may be exercised in accordance with the applicable award agreement. Unvested RSUs and unvested long-term cash awards are forfeited upon termination of employment unless there is a change in control or, for certain awards, the NEO is retirement-eligible, dies or becomes disabled. On a case-by-case basis, we have at the time of termination entered into severance pay agreements with certain officers for various reasons, including but not limited to obtaining agreements from departing employees not to compete with Jabil for specified periods of time.

Change in Control Arrangements. Awards granted under the 2002 Stock Incentive Plan and the 2011 Stock Incentive Plan may vest under certain circumstances in connection with a change in control. In addition, any shares of Jabil stock that may be deferred and that continue to be reserved under the non-qualified deferred compensation program are distributed upon a change in control.

In the event of a change in control, any award outstanding under the 2002 Stock Incentive Plan and the 2011 Stock Incentive Plan will become fully vested on the earlier of (i) the applicable vesting date under the original vesting schedule, (ii) the first anniversary of the date of the change in control if the grantee has remained as an employee, consultant or non-employee director, and/or (iii) the date the grantee is terminated without cause or resigns for good reason. However, an award will not fully vest due to a change in control if the grantee is terminated for cause or resigns without good reason prior to the first anniversary of the date of such change in control.

With respect to the 2011 Stock Incentive Plan, the above discussion assumes that the outstanding awards are continued, assumed or replaced in connection with the change in control by the surviving or successor entity or its parent. If the awards are not continued, assumed or replaced, then the awards will be immediately fully vested on the change in control or, at the discretion of the Compensation Committee, such awards may be terminated and cashed out. In addition, under the 2011 Stock Incentive Plan, for purposes of these accelerated vesting provisions, any performance objectives for any performance measurement period that is in process at the time of the change in control are deemed to have been achieved at the greater of target or the level actually achieved through the change in control (with similar performance assumed achieved through the remainder of the performance period).

Under the 2002 Stock Incentive Plan, in the event of a proposed dissolution or liquidation of Jabil, all outstanding awards will terminate immediately before the consummation of such proposed action. The Board of Directors has sole discretion to declare that any option or SAR will terminate as of a date fixed by the Board of Directors and give grantees the right to exercise their options or SARs as to all or any part of the stock covered, including shares not

otherwise exercisable.

Table of Contents

In the event of a merger or the sale of substantially all of the assets of Jabil, each outstanding option and SAR under the 2002 Stock Incentive Plan will be assumed or an equivalent option and SAR will be substituted by the successor corporation, unless otherwise determined by the Board of Directors in its discretion. If such successor refuses to assume or provide a substitute for the outstanding options or SARs, the exercisability and termination of all or some outstanding and unexercisable options and SARs will be accelerated, unless otherwise determined by the Board of Directors in its discretion.

In the event of the acquisition by any person other than Jabil of 50% or more of Jabil's then outstanding securities, unless otherwise determined by the Board of Directors in its discretion, all outstanding options and SARs under the 2002 Stock Incentive Plan which are vested and exercisable will be terminated in exchange for a cash payment.

A summary of potential payments upon termination or a change in control for NEOs is set forth in Potential Payments upon Termination or a Change in Control.

Non-Qualified Deferred Compensation. U.S. officers may participate in a non-qualified deferred compensation program to voluntarily elect to defer up to 75% of salary and up to 100% of annual cash bonus. Participant deferrals are credited by book entry to the participant's deferral contribution account. Jabil does not make, and is not required to make, any matching contributions to this program. Jabil may, however, decide to make discretionary contributions to the program to restore any 401(k) match a participant lost due to participation in this program. Officers meeting certain criteria may also voluntarily defer receipt of compensation upon vesting of RSUs.

Deferral accounts under the plan are paid out upon the participant's termination of employment, death, or disability, or upon a determination by Jabil that a participant has suffered a financial hardship, or, if timely elected by the participant, during April of any year designated by the participant beginning with the fourth calendar year after a participant's initial deferral election with respect to a particular deferral account. No NEOs participated in Jabil's non-qualified deferred compensation program during fiscal 2015. Jabil made no discretionary contributions to the accounts of NEOs for fiscal 2015. More information is shown in the Non-Qualified Deferred Compensation in Fiscal 2015 Table.

Recovery of Executive Compensation. Certain of our equity award agreements contain provisions that permit Jabil to recoup the awards if the recipient breaches certain covenants or obligations under the agreement. Jabil has also established a policy to recover certain performance-based compensation paid to our executive officers in the event we report certain inaccurate financial results. The clawback policy provides that an executive officer's performance-based incentive compensation (including equity awards) may be recovered if there is a restatement of the Company's materially inaccurate financial results and the executive officer engaged in fraud or illegal conduct which materially contributed to the inaccurate financial results.

Insider Trading Policy. Our insider trading policy prohibits directors, employees and certain family members from purchasing or selling any type of security, whether issued by us or another company, while aware of material non-public information relating to the issuer or from providing such material non-public information to any person who may trade while aware of such information. Trading by our officers and directors, as well as other employees who may be expected in the ordinary course of performing their duties to have access to material non-public information, is restricted to certain quarterly trading windows. While we do not have a policy that specifically prohibits executive officers from hedging the economic risk of stock ownership in Jabil stock, we discourage our executive officers from entering into certain types of hedges with respect to Jabil securities. In addition, federal securities laws prohibit the executive officers from selling short our stock.

Table of Contents

Executive Share Ownership Requirements. Jabil has minimum share ownership requirements for Jabil's executive officers. The executive officers are expected to own a minimum dollar value of shares equal to a multiple of their respective base salaries, as follows:

Categories	Multiple of Salary
CEO	5x
President, COO and CFO	3x
Other executive officers	1x

Shares to be counted toward these requirements include shares deemed to be beneficially owned under federal securities laws (which includes shares under vested SARs with an exercise price less than the market price on the date of determination) and unvested time-based restricted stock/RSUs. The share ownership requirements are expected to be met within five years of becoming an executive officer. During the five-year period, executive officers generally are required to retain 50% of after-tax shares until ownership requirements have been met. If requirements have not been met during the period, or if an executive officer falls below the ownership requirements after the five-year period, then 100% of after-tax shares generally are to be retained until requirements are met. Stock ownership is reviewed by the Compensation Committee at each January annual meeting of stockholders, and the calculation for ownership value is the number of shares owned by the executive on the first trading day of January multiplied by Jabil's average stock price for the preceding two months. All those who were executive officers as of the January 2015 Annual Meeting of Stockholders were in compliance with the share ownership requirements.

Tax Deductibility of NEO Compensation. Section 162(m) of the Internal Revenue Code generally prohibits a public company from deducting compensation paid in any year to NEOs serving at fiscal year-end (excluding our principal financial officer) in excess of \$1 million unless it qualifies as performance-based. In evaluating whether to structure executive compensation components as qualified performance-based compensation and thus, tax deductible under Section 162(m) of the Internal Revenue Code, the Compensation Committee balances the net cost to Jabil, the market for executive talent and the need to retain and motivate its NEOs. Performance-based awards granted to executive officers that may be covered under Section 162(m) are generally structured to be fully deductible. The Committee believes, however, that it is important to preserve flexibility in administering compensation programs so as to promote corporate goals. Accordingly, the Committee from time to time has approved elements of compensation that were consistent with the objectives of the executive compensation program, but that may not be fully deductible. Time-based RSU awards do not qualify as performance-based compensation under Section 162(m) and therefore, in some cases, have resulted in compensation to certain executives that is not fully tax deductible by Jabil.

Accounting for Share-Based Compensation. Before we grant share-based compensation awards, or modify previously granted awards, we consider the accounting impact of the proposed award or modification.

Say-On-Pay Advisory Vote on Executive Compensation. We provided stockholders with a say-on-pay advisory vote on executive compensation during the Annual Meeting of Stockholders, held in January 2015. More than 96% of

the votes cast on the say-on-pay proposal were cast For the approval of the compensation of our NEOs as disclosed in the proxy statement distributed in connection with that annual meeting. The Compensation Committee evaluated the results of the say-on-pay vote and in light of the substantial support for our executive compensation program, it did not make any significant changes to the executive compensation program and policies for fiscal 2015 compensation based on the stockholder voting results. The Committee will continue to consider the outcome of future say-on-pay votes when making future compensation decisions for the NEOs.

Table of Contents**NEO Fiscal 2015 Compensation****ANNUAL COMPENSATION**

In fiscal 2015, NEO salaries were increased by an average of 4.7%. The salary adjustments were made based upon a comprehensive review of Jabil's NEO compensation competitiveness relative to the peer group and compensation survey data. The target annual cash incentive percentages vary depending on the executive's responsibilities and market data considerations, and we believe they demonstrate Jabil's emphasis on at-risk compensation. Because target annual cash incentives are set as a percentage of salary, the increases in salary have the effect of increasing the dollar value of target annual incentives. The table below compares the fiscal 2014 and 2015 salary and annual cash incentive compensation structures.

NEO	Fiscal 2014 Salary	Fiscal 2015 Salary	% Salary Increase	Fiscal 2014	Fiscal 2015
				Target Annual Incentive (as a % of salary)	Target Annual Incentive (as a % of salary)
Mondello	\$1,000,000	\$1,050,000	5.0%	150%	150%
Alexander	\$635,000	\$670,000	5.5%	100%	120%

NEO ANNUAL CASH INCENTIVES

Definition for Annual Cash Incentive Metrics. The Compensation Committee defined the metrics for the annual cash incentives at the time compensation was set at the beginning of fiscal 2015. The following definitions were used for the corporate metrics:

Corporate Net Core Operating Income: Operating income as calculated under U.S. generally accepted accounting principles (U.S. GAAP) before amortization of intangibles, stock-based compensation expense and

related charges, restructuring and related charges under Board approved plans and goodwill impairment charges, excluding the impact of (i) any income or expense associated with acquisition activity in fiscal 2015; (ii) certain pre-production expenses associated with certain new product releases that were incurred in fiscal 2015, for which no pre-production arrangement exists and income from the associated product sales will not be received by the Company during fiscal 2015; and (iii) certain expenses associated with increasing capacity at our facility in Chengdu, China.

Corporate Net Core ROIC: The summation of the quarterly net core return on invested capital divided by four. Net core return on invested capital is defined as core operating income (as defined above), net of tax plus the tax effect of interest expense divided by the average total debt and stock holder's equity balances less the average cash and cash equivalent balance. This definition excludes the impact of any income or expense associated with acquisition activity in fiscal 2015.

Mr. Peters also has metrics associated with our Green Point division, with the following definitions used when the Compensation Committee established his annual cash incentive performance metrics associated with this division:

Division Net Core Operating Income: Operating income as calculated under U.S. GAAP before amortization of intangibles, stock-based compensation expense and related charges, restructuring and related charges under Board approved plans and goodwill impairment charges. There is a corporate allocation applied and this metric excludes the impact of (i) any income or expense associated with acquisition activity in fiscal 2015; (ii) certain pre-production expenses associated with certain new product releases that were incurred in fiscal 2015, for which no pre-production arrangement exists and income from the associated product sales will not be received by the Company during fiscal 2015; and (iii) certain expenses associated with increasing capacity at our facility in Chengdu, China.

Table of Contents

Division Net Core ROIC: [Division NCOI (as defined above) x (1-tax rate)] / ROIC Total Net Assets; this metric covers the entire fiscal year (the sum of the quarterly metric divided by four); ROIC Total Net Assets = Working Capital + Fixed Assets + Goodwill & Intangibles. This definition excludes the impact of any income or expense associated with acquisition activity in fiscal 2015.

Selection and Weighting of Performance Measures. Each year, the Compensation Committee selects the metrics to be used to measure NEO performance. For fiscal 2015 the Committee evaluated the performance of each of the NEOs using NCOI and ROIC. All of our NEOs have corporate metrics, and Mr. Peters also has divisional metrics as the leader of our Green Point division. The short-term incentive goals were allocated as follows:

	CORPORATE		DIVISION	
	METRICS		METRICS	
	NCOI	ROIC	NCOI	ROIC
Mondello	70%	30%	-	-
Alexander	70%	30%	-	-
Muir	70%	30%	-	-
Peters	20%	-	60%	20%
Paver	70%	30%	-	-

Determination of Incentive Goals and Objectives. The Compensation Committee set the NCOI and ROIC goals and related performance levels for fiscal 2015 early in the fiscal year. The financial performance metrics were selected from those authorized in the Short-Term Incentive Plan. The Compensation Committee then determined how the actual achievement of the financial performance metrics would translate into the calculation of each NEO's fiscal 2015 cash incentives. The Committee chose performance goals that it believed were challenging.

The annual targets for performance reflect the Company's confidential financial operating plan. The financial operating plan is reviewed and approved by the Board of Directors. When establishing the financial operating plan, management and the Board consider the historical performance of the Company, external elements such as economic conditions and competitive factors, Company capabilities, performance objectives, as well as the Company's strategic plan.

The following table shows the percentages established by the Compensation Committee and used to calculate each NEO's fiscal 2015 annual cash incentive payout based on the potential achievement for the corporate financial performance metric applicable to all of the NEOs. Performance below the threshold for the metric results in no payout and maximum payout is capped at 200%. To simplify the presentation, certain intermediate performance levels are not shown; however, payouts were determined by linear interpolation when financial performance occurred between data points in the performance/payout schedules.

METRIC	THRESHOLD	TARGET	MAXIMUM
Corporate Net Core Operating Income (\$ millions)	\$465	\$570.4 - \$599.6	\$700
Percentage of Target Payout	20%	100%	200%
Corporate Net Core ROIC	12%	16%	20%
Percentage of Target Payout	25%	100%	200%

As noted above, a portion of Mr. Peters' annual cash incentive is tied to the financial performance of Jabil's Green Point division. We do not treat our Green Point division as a separate segment for financial reporting purposes and we believe that to disclose such details here could competitively harm us and several of our key customers. Three levels of performance were established for 2015, with the levels structured to be moderately challenging (threshold level, or 77% of the operating plan amounts), challenging (target level, or 100% of the operating plan amounts) and significantly challenging (maximum level, or 120% of the operating plan amounts) to achieve.

Table of Contents

Actual Cash Incentive Achievement. The following tables set forth the actual achievement attained for the short-term incentives with corporate metrics for each of our NEOs:

PERFORMANCE LEVEL ATTAINED	CORPORATE METRICS			
	Net Core Operating Income		Net Core ROIC	
	Exceeded maximum performance		Exceeded maximum performance	
	of \$700 million		of 20%	
	Weighting as		Weighting as

Mondello	200%	70%	200%	30%

Muir	200%	70%	200%	30%
Peters	200%	20%	-	-
Paver	200%	70%	200%	30%

Mr. Peters earned 200% for the portion of his annual incentive award associated with Green Point performance. Green Point exceeded the maximum performance levels of Division Net Core Operating Income and Division Net Core ROIC.

NEO LONG-TERM INCENTIVES

Actual Performance Results for Prior Long-Term Incentive Awards

In prior fiscal years, Jabil made several long-term, performance-based incentive awards that had performance measurement periods ending on August 31, 2015. The long-term equity awards granted in fiscal 2012 and fiscal 2013 with performance goals of cumulative core EPS had their second and first measurement periods, respectively, ending on August 31, 2015. In addition, in fiscal 2013, the NEOs were awarded a three-year, long-term cash incentive award that measured cumulative core EPS performance over the performance period ending on August 31, 2015. The specific quantitative performance goals for each of these long-term awards were previously disclosed by Jabil in its proxy statement covering the fiscal year the grant was made for the respective award. For all of these awards, actual performance was below the threshold goal, resulting in no vesting for the performance measurement periods ending on August 31, 2015. The following summarizes the quantitative performance goals for each of these long-term awards:

Grant Date	Award Type	Performance Goal	Performance Period	Cumulative Core EPS		
				Threshold	Target	Maximum
	Performance-Based	Cumulative Core				
11/20/2011	RSU	EPS	FY12 - FY15	\$9.60	\$11.66	\$11.66
10/16/2012			FY13 - FY15	\$7.41	\$8.65	\$8.65

 11/19/2012 Cash EPS FY13 - FY15 \$8.81 \$9.49 \$9.49

Definitions for Long-Term Incentive Metrics Granted in Fiscal 2015

The following definitions were used for determining long-term, performance-based incentive compensation for awards made during fiscal 2015:

Cumulative core EPS is the sum of the adjusted core EPS during the three-year performance period beginning September 1, 2014 and ending on August 31, 2017.

Table of Contents

Adjusted core EPS is GAAP net income before amortization of intangibles, stock-based compensation expense and related charges and goodwill impairment charges, net of tax and deferred tax valuation allowance charges that result from the write-off of goodwill and impairment charges, divided by the weighted average number of outstanding shares determined in accordance with GAAP.

Long-Term Compensation

For fiscal 2015, the Compensation Committee granted the NEOs performance-based RSU awards and time-based RSU awards, with the potential to achieve the most value placed on the performance-based grant. The Committee granted RSUs with accumulated dividend equivalents, which allow for a cash payment upon vesting of the same amount that would have been paid in dividends during the vesting period (without interest). NEOs were also granted SARs.

Performance-Based Equity Awards. These awards are at-risk and variable and vesting is based on the achievement of cumulative core EPS during the performance period starting in fiscal 2015 and ending in fiscal 2017. The Compensation Committee believes that measuring performance against a multi-year measurement of cumulative core EPS aligns the NEOs' compensation with stockholders' interests over a longer term horizon.

The awards contain a threshold performance level that must be achieved in order for any performance-based RSUs to vest. The cumulative core EPS at the end of the three-year period determines the corresponding number of RSUs that will vest (50% at threshold performance, 100% at target performance and 150% at maximum performance).

Performance results between a threshold level and target level or between a target level and maximum level are determined by means of interpolation. Performance-based RSUs were granted at the start of fiscal 2015 and determination of vesting will occur following the close of fiscal 2017. Three-year goals are established by the Compensation Committee based upon the Company's long-term financial plan, reviews of analyst expectations and historical financial performance. Target levels are intended to be stretch goals, requiring significant growth in the Company's cumulative core EPS over the three-year performance period in order to pay out at or above target.

For additional information relating to the terms and conditions of our performance-based awards, see the notes to the Grants of Plan-Based Awards in Fiscal 2015 Table.

Time-Based Awards. The time-based awards made to the NEOs for fiscal 2015 vest at the rate of 30% on the first anniversary of the date of grant, 30% on the second anniversary of the date of grant, and the remaining 40% on the third anniversary of the date of grant. The Compensation Committee believes that providing time-based awards supports our guiding principle of competitiveness and promotes retention. The Committee chose the graduated vesting schedule to further the goal of retention, as the greatest percentage of shares vests in the third year after the grant. Additionally, time-based awards comprise a minority of the NEOs' fiscal 2015 long-term incentive award opportunity.

Stock Appreciation Awards. The stock appreciation awards made to the NEOs for fiscal 2015 have a 7-year term and immediately vested. The fair value, which was calculated using a Monte Carlo simulation model, was \$6.33, or 34.2% of the stock price on date of grant. The exercise price was \$18.49, which was the closing price on the date of grant. The Compensation Committee believes that these awards reinforce alignment between management and stockholders. In fiscal 2015, the following SAR grants were made (the amounts below represent the number of shares underlying the SARs):

Mondello 100,000

Alexander	65,000
Muir	75,000
Peters	75,000
Paver	45,000

CEO COMPENSATION FOR FISCAL 2015

At the time of Mark Mondello's appointment as Chief Executive Officer in 2013, the Compensation Committee, with the input of SH&P, designed a compensation program for Mr. Mondello that was intended to raise target compensation up to median levels over a multi-year timeframe. CEO compensation increased in fiscal 2015 as part of this planned process. Additionally, the Compensation Committee reviewed current market data as part of its regular annual review of CEO compensation, which includes both peer group and compensation survey data. This analysis showed that Mr. Mondello's fiscal 2015 salary and target total cash compensation (salary plus target annual cash incentive) each were at approximately 9% below the market median and target total direct compensation (target total cash compensation plus the target value of long-term incentives granted) was at approximately 5% below the market median. Mr. Mondello does not receive any pension benefits, severance commitments, change in control excise tax gross-up commitments, or perquisites. Additional items of CEO compensation are generally those available to all salaried U.S. employees (such as 401(k) matching contributions).

(1) The Salary column reflects the salaries for the fiscal year on an accrual basis, including any amount deferred under Jabil's Executive Deferred Compensation Plan. See Non-Qualified Deferred Compensation in Fiscal 2015.

(2) The Stock Awards column contains both performance-based and time-based RSU awards and assumes a target level of achievement for the performance-based awards. Amounts reflect the aggregate grant date fair value of the awards pursuant to ASC 718, excluding the effect of estimated forfeitures related to service-based vesting conditions. The assumptions used for the valuations are set forth in Note 11 to our audited consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended August 31, 2015.

For the performance-based RSUs in this column, assuming that the highest level of performance conditions will be achieved (150% maximum) the grant date fair value for each NEO would be as follows:

Name	Maximum Achievement Value (\$)
Mondello	5,642,686
Alexander	1,779,200
Muir	1,956,982
Peters	1,956,982
Paver	1,026,750

See the Grants of Plan-Based Awards in Fiscal 2015 Table and the Compensation Discussion and Analysis for information with respect to RSU awards made in fiscal 2015 and the Outstanding Equity Awards at 2015 Fiscal Year End Table with respect to RSU awards made prior to fiscal 2015. Amounts reflect our accounting for these grants and do not correspond to the actual values that may be realized by the NEOs.

- (3) Amounts shown under the Option Awards column reflect the grant date fair value of the SARs pursuant to ASC 718, excluding the effect of estimated forfeitures related to service-based vesting conditions. The SARs vested at 100% on the grant date so there will be no forfeitures related to service-based vesting conditions. The grant date fair value of the awards was calculated using a Monte Carlo simulation model.
- (4) Amounts shown under the Non-Equity Incentive Plan Compensation column represent annual incentive award amounts under our Short-Term Incentive Plan for services performed in each fiscal year including any amount deferred under Jabil's Executive Deferred Compensation Plan. For additional information about our Short-Term Incentive Plan and these payouts see the Compensation Discussion and Analysis, Non-Qualified Deferred Compensation in Fiscal 2015 and the Grants of Plan-Based Awards in Fiscal 2015 Table.

- (1) The **Estimated Possible Payouts Under Non-Equity Incentive Plan Awards** column shows the range of possible cash payouts for the awards granted on October 16, 2014 under our Short-Term Incentive Plan for achievement of pre-specified levels of performance in fiscal 2015. If performance is below threshold, then no amounts are paid. For additional information related to the annual cash incentive awards and long-term cash incentive awards, including performance goals, measures and weighting for the annual cash incentive awards, see **Compensation Discussion and Analysis**. For actual annual cash incentive award payout amounts for fiscal 2015, see the **Non-Equity Incentive Plan Compensation** column of the Summary Compensation Table.
- (2) The **Estimated Future Payouts Under Equity Incentive Plan Awards** column shows the range of shares that may be earned in respect of performance-based RSUs granted under our 2011 Stock Incentive Plan in fiscal 2015. For additional information related to the performance period, performance measures and targets, see **Compensation Discussion and Analysis**. During the performance period, the NEO will accrue dividend equivalents on RSUs equal to the cash dividend or distribution that would have been paid on the RSU had the RSU been an issued and outstanding share of common stock on the record date for the dividend or distribution. Such accrued dividend equivalents will vest and become payable upon the same terms and at the same time of settlement as the RSUs to which they relate. See the **Long-Term Compensation** portion of the **Compensation Discussion and Analysis** section for treatment of dividends under RSU awards. See the **Potential Payments Upon Termination or a Change in Control** section and the **Other Compensation Policies and Considerations** portion of the **Compensation Discussion and Analysis** section for treatment of RSU awards upon a change in control and upon termination of employment due to retirement, death or disability.
- (3) The type of award refers to awards' vesting criteria and related terms. **EPS** refers to performance-based RSU awards based on cumulative core EPS targets. **TBRs** refers to time-based RSU awards. **SAR** refers to stock appreciation right awards.
- (4) The **Exercise or Base Price of Option Awards** column shows the base price for the SARs granted, which was the closing price of Jabil's common stock on the grant date, October 16, 2014.
- (5) The **Grant Date Fair Value of Stock and Option Awards** column shows the full grant date fair value of the performance- and time-based RSUs and SARs granted to the NEOs in fiscal 2015. The grant date fair value of the awards is determined under ASC 718 and represents the amount we would expense in our financial statements over the vesting schedule for the awards. In accordance with SEC rules, the amounts in this column reflect the actual ASC 718 accounting cost without reduction for estimates of forfeitures related to service-based vesting conditions. The fair value of each share underlying a performance-based award for this purpose is equal to the closing price per share of a share of our common stock on the grant date. The amounts reflect our accounting for these grants and do not correspond to the actual values that may be realized by the NEOs.

Table of Contents

- (1) The options include incentive stock options, non-qualified stock options and SARs. The exercise or base price for all grants is the closing price of a share of our common stock on the last trading day before the date of grant, in accordance with the terms of our equity incentive plans as in effect prior to October 25, 2007, except for SAR awards for fiscal 2015. The base price for the SAR awards for fiscal 2015 is the closing price of a share of our common stock on the date of grant, in accordance with the terms of our 2011 Stock Incentive Plan. The exercise price of stock options may be paid in cash and/or shares of our common stock, or an option holder may use broker assisted cashless exercise or net settlement procedures. All SARs are settled in shares of our common stock. In the event of termination of employment for any reason other than retirement, stock options and SARs may be exercised only to the extent they were vested on the date of termination. Stock options and SARs expire 10 years from the date of grant, subject to earlier termination if the grantee's employment terminates in certain circumstances. In the event of termination for any reason other than retirement, death or disability, stock options and SARs may be exercised during the 30-day period following termination. In the event of death or disability, stock options and SARs remain exercisable for a period of 12 months but in no event after the stated expiration date of the award. In the event of retirement, stock options and SARs remain exercisable for a specified period of time based upon the NEO's age and/or years of service with Jabil. The following table details the vesting schedule for stock option and SAR grants based upon the grant date:

Grant Date	Vesting
10/11/2005,	
10/25/2005,	SARs vested at a rate of one-twelfth fifteen months after the grant date (on January 11, 2007, January 25, 2007 and January 26, 2008, respectively) with an additional one-twelfth vesting at the end of each three-month period thereafter, becoming fully vested after a 48-month period (on
10/26/2006	October 11, 2009, October 25, 2009 and October 26, 2010, respectively).
4/24/2007	SARs vested at a rate of one-twelfth fifteen months after the grant date (on July 24, 2008) with an additional one-twelfth vesting at the end of each three-month period thereafter, becoming fully vested after a 48-month period (on April 24, 2011).
10/24/2007	SARs vested at a rate of one-twelfth fifteen months after the grant date (on January 24, 2009) with an additional one-twelfth vesting at the end of each three-month period thereafter, becoming fully vested after a 48-month period (on October 24, 2011).
10/16/2014	SARs vested at 100% on the grant date.

- (2) These are grants of time-based RSUs and will cease being restricted at the rate of 30% on the first anniversary of the grant date, 30% on the second anniversary of the grant date, and 40% on the third anniversary of the grant date. The NEO will accrue dividend equivalents on RSUs equal to the cash dividend or distribution that would have been paid on the RSU had the RSU been an issued and outstanding share of common stock on the record date for the dividend or distribution. Such accrued dividend equivalents will vest and become payable upon the same terms and at the same time of settlement as the RSUs to which they relate. See the Long-Term Compensation portion of the Compensation Discussion and Analysis section for treatment of dividends under RSU awards. See the Potential Payments Upon Termination or a Change in Control section and the Other Compensation Policies and Considerations portion of the Compensation Discussion and Analysis section for treatment of RSU awards upon a change in control and upon termination of employment due to retirement, death or disability.
- (3) The market value shown was determined by multiplying the number of shares of stock that have not vested by \$19.35, the closing market price of Jabil common stock on August 31, 2015.
- (4) These amounts represent the number of shares of performance-based RSUs granted in fiscal 2012, 2013, 2014 and 2015. The performance period for each is described in the Compensation Discussion and Analysis. For the performance-based RSUs granted in fiscal 2012, 2013, 2014 and 2015, the number of

shares and related values as of August 31, 2015 represent the award at threshold level given that performance through the end of the previous fiscal year has not exceeded the thresholds. Actual results may cause our NEOs to earn more or fewer shares. During the performance period, the NEO will accrue dividend equivalents on RSUs equal to the cash dividend or distribution that would have been paid on the RSU had the RSU been an issued and outstanding share of common stock on the record date for the dividend or distribution. Such accrued dividend equivalents will vest and become payable upon the same terms and at the same time of settlement as the RSUs to which they relate. See the Long-Term Compensation portion of the Compensation Discussion and Analysis section for treatment of dividends under RSU awards. See the Potential Payments Upon Termination or a Change in Control section and the Other Compensation Policies and Considerations portion of the Compensation Discussion and Analysis section for treatment of RSU awards upon a change in control and upon termination of employment due to retirement, death or disability.

- (5) The market value shown was determined by multiplying the number of shares of unearned performance-based RSUs at the applicable level of performance set forth in footnote (4) by \$19.35, the closing market price of Jabil common stock on August 31, 2015.

Table of Contents**OPTION EXERCISES AND STOCK VESTED IN FISCAL 2015**

Our NEOs acquired the following shares upon the exercise of options (including SARs) and vesting of stock awards during fiscal 2015.

Peters	0	0	33,270	615,269
Paver	45,000	216,750	17,339	320,648

- (1) The value realized upon the exercise of stock options and SARs is the difference between the exercise or base price and the market price of our common stock upon exercise for each option or SAR. The value realized was determined without considering any taxes that were owed upon exercise.
- (2) The value realized upon vesting is determined by multiplying the number of shares that vested by Jabil's closing stock price per share on the day prior to the vesting date. The value realized was determined without considering any taxes that were owed upon vesting.

NON-QUALIFIED DEFERRED COMPENSATION IN FISCAL 2015

In fiscal 2015, we permitted NEOs to elect to defer a portion of salary and annual incentive awards under the Jabil Circuit, Inc. Executive Deferred Compensation Plan. The following table shows cash compensation that was deemed deferred by our NEOs, the aggregate earnings and aggregate withdrawals or distributions during fiscal 2015, and the aggregate balance deemed as of August 31, 2015. For additional information on this plan, see the Other Compensation Policies and Considerations portion of the Compensation Discussion and Analysis section.

Table of Contents

**POTENTIAL PAYMENTS UPON TERMINATION
OR A CHANGE IN CONTROL**

Jabil's NEOs do not have employment or severance agreements. Accordingly, upon a termination with or without cause, or following a change in control or for any other reason, the only cash amounts the applicable NEO(s) receive are salary and bonus earned to the date of termination, unless Jabil decides at that time to voluntarily make some type of cash severance payment. The Compensation Committee may, in its discretion, award a bonus for the year of retirement, pro-rated for service through the date of retirement. The only other scenarios in which our NEOs may receive additional amounts are in connection with accelerated or continued vesting of outstanding equity awards and long-term cash incentive awards following a change in control, retirement, death or disability.

In the event of a change in control, awards outstanding under the 2002 Stock Incentive Plan and the 2011 Stock Incentive Plan will accelerate on the first anniversary of the change in control if the NEO has remained an employee, consultant or non-employee director or, if earlier, on the date the grantee is terminated without cause or resigns for good reason. With respect to the 2011 Stock Incentive Plan, the preceding discussion assumes that the outstanding awards are continued, assumed or replaced in connection with the change in control by the surviving or successor entity or its parent. If the awards are not continued, assumed or replaced, then the awards will be immediately fully vested on the change in control or, at the discretion of the Compensation Committee, such awards may be terminated and cashed out. These provisions are more fully discussed in the "Change in Control Arrangements" section above.

In general, upon termination of employment, all unvested RSUs are forfeited unless (i) there is a change in control, or (ii) in the case of RSUs, the NEO is retirement-eligible, dies or becomes disabled. In fiscal 2013, the Compensation Committee approved long-term performance-based cash incentive awards that are forfeited upon termination of employment unless (i) there is a change in control before August 31, 2015, or (ii) the NEO is retirement-eligible, dies or becomes disabled. Awards that contain retirement, death or disability provisions may vest in whole or in part as discussed in the "Other Compensation Policies and Considerations" portion of the "Compensation Discussion and Analysis."

Table of Contents

The following table sets forth the additional amounts that could have been payable by Jabil and realized by each NEO if termination of his employment were to have occurred as of August 31, 2015 for these scenarios. Amounts payable or realizable upon termination due to a change in control would be payable in a lump sum payment. The value upon continued vesting of equity awards (which would occur upon termination due to retirement, termination due to death and termination due to disability) would be realizable upon the respective vesting dates.

- vi) to determine the terms and conditions, not inconsistent with the terms of the Plan, of any Award granted under the Plan. Such terms and conditions, which need not be the same for each grant or for each Grantee, include, but are not limited to, the Option Price, the time or times when Options and SARs may be exercised (which may be based on performance criteria), the extent to which vesting is suspended during a leave of absence, any vesting acceleration or waiver of forfeiture restrictions, and any restriction or limitation regarding any Award or Covered Shares relating thereto, based in each case on such factors as the Administrator shall determine;
- vii) to construe and interpret the terms of the Plan and Awards;
- viii) to prescribe, amend and rescind rules and regulations relating to the Plan, including, without limiting the generality of the foregoing, rules and regulations relating to the operation and administration of the Plan to accommodate the specific requirements of local and foreign laws and procedures;

5. Eligibility and General Conditions of Awards.

- a) Eligibility. Awards other than Incentive Stock Options may be granted to Employees, Non-Employee Directors, and Consultants. Incentive Stock Options may be granted only to Employees. If otherwise eligible, an Employee, Non-Employee Director, or Consultant who has been granted an Award may be granted additional Awards. Modifications to outstanding Awards may be made without regard to whether the Grantee is then currently eligible for a new Award.

- b) Maximum Term. Subject to the following provision, the term during which an Award may be outstanding shall not extend more than ten years after the Date of Grant, and shall be subject to earlier termination as specified elsewhere in the Plan or Award Agreement; provided, however, that any deferral of a cash payment or of the delivery of Shares that is permitted or required by the Administrator pursuant to Section 12 of the Plan may, if so permitted or required by the Administrator, extend more than ten years after the Date of Grant of the Award to which the deferral relates.

- c) Award Agreement. To the extent not set forth in the Plan, the terms and conditions of each Award, which need not be the same for each grant or for each Grantee, shall be set forth in an Award Agreement. The Administrator, in its discretion, may require as a condition to any Award Agreement's effectiveness that the Award Agreement be executed by the Grantee, including by electronic signature or other electronic indication of acceptance, and that the Grantee agree to such further terms and conditions as specified in the Award Agreement.

- d) Death, Disability, Termination of Continuous Status as an Employee or Consultant or Non-Employee Director, and Related Events.
 - i) Death. Except as otherwise provided in an Award Agreement, in the event that the Grantee's Continuous Status as an Employee or Consultant or Non-Employee Director terminates due to death, then (a) all of the Grantee's outstanding Options and Stock Appreciation Rights that are not yet fully exercisable shall immediately become exercisable in full at the date of death and shall remain exercisable in accordance with their terms, and (b) all of the Grantee's outstanding unvested Stock Awards, Cash-Based Awards, and Other Stock-Based Awards shall become immediately fully vested and non-forfeitable at the date of death. Notwithstanding the preceding sentence, and except as otherwise provided in an Award Agreement, if the Grantee's outstanding Award remains subject to performance-based forfeiture conditions immediately prior to the Grantee's date of death, (a) a pro rata portion of the Grantee's outstanding Award for each applicable performance measurement period that is an Option or a Stock Appreciation Right shall immediately become non-forfeitable and exercisable at the date of death and shall remain exercisable in accordance with its terms, and the remaining portion, if any, shall be forfeited at the date of death; (b) a pro rata portion of the Grantee's outstanding Award for each applicable performance measurement period that is a Stock Award, Cash-Based Award or Other Stock-Based Award shall become immediately vested and non-forfeitable at the date of death, and the remaining portion, if any, shall be forfeited at the date of death; and (c) any other such outstanding Award for a performance measurement period that is not an applicable performance measurement period shall be forfeited at the date of death. The pro rata portion of the Grantee's outstanding performance-based Award for each applicable performance measurement period that shall become non-forfeitable at the Grantee's date of death shall be determined as follows:

(A) The Company's fiscal quarter-end coincident with or next preceding the Grantee's death (or, if the Grantee's death occurs in the first fiscal quarter of the applicable performance measurement period, then the Company's fiscal quarter-end coincident with or next following the Grantee's death) shall be treated as the end of the applicable performance measurement period, with the Administrator determining the actual level of the performance goal(s) achieved (such determination may be by means of a good faith estimate) and calculating, on a preliminary basis, the resulting portion of the Award that would have become non-forfeitable (or, with respect to Options and Stock Appreciation Rights, that would have become exercisable) for the applicable performance measurement period.

(B) The portion of the Award determined under clause (A) above shall be pro-rated by multiplying that portion by a fraction, the numerator of which is the number of months from the beginning of the applicable performance measurement period through the date of death (rounding any partial month to the next whole month) and the denominator of which is the aggregate number of months in the applicable performance measurement period.

For purposes of this Section 5.d)i), applicable performance measurement period means a performance measurement period that commences before the date of the Grantee's death and that ends after the date of the Grantee's death. Any portion of an outstanding Award that remains subject to performance-based forfeiture conditions immediately prior to the Grantee's date of death and that exceeds the pro rata portion of the Award determined under clause (A) and (B) above, including but not limited to any portion of the Award that was subject to performance-based forfeiture conditions for a performance measurement period that had not commenced at the Grantee's date of death, shall be forfeited at the Grantee's date of death.

(ii) Disability. Except as otherwise provided in an Award Agreement, in the event that the Grantee's Continuous Status as an Employee or Consultant or Non-Employee Director terminates due to Disability, then (a) all of the Grantee's outstanding Options and Stock Appreciation Rights that are not yet fully exercisable shall immediately become exercisable in full at the date of termination and shall remain exercisable in accordance with their terms, and (b) all of the Grantee's outstanding unvested Stock Awards, Cash-Based Awards, and Other Stock-Based Awards shall become immediately fully vested and non-forfeitable at the date of termination. Notwithstanding the preceding sentence, and except as otherwise provided in an Award Agreement, if the Grantee's outstanding Award remains subject to performance-based forfeiture conditions immediately prior to the Grantee's date of termination, (a) a pro rata portion of the Grantee's outstanding Award for each applicable performance measurement period that is an Option or a Stock Appreciation Right shall remain outstanding at the Grantee's date of termination and shall be eligible to become exercisable and non-forfeitable based on the actual achievement of the performance goal(s) in the applicable performance measurement period in accordance with the terms of the Award Agreement, and the remaining portion, if any, shall be forfeited at the date of termination; (b) a pro rata portion of the Grantee's outstanding Award for each applicable performance measurement period that is a Stock Award, Cash-Based Award or Other Stock-Based Award shall remain outstanding at the Grantee's date of termination and shall be eligible to become non-forfeitable based on the actual achievement of the performance goal(s) in the applicable performance measurement period in accordance with the terms of the Award Agreement, and the remaining portion, if any, shall be forfeited at the date of termination; and (c) any other such outstanding Award for a performance measurement period that is not an applicable

Table of Contents

performance measurement period shall be forfeited at the date of the Grantee's termination due to Disability. The pro rata portion of the Grantee's outstanding performance-based Award for each applicable performance measurement period that shall remain outstanding at the Grantee's date of termination and that shall be eligible to become non-forfeitable shall be determined by multiplying the Award subject to the performance-based forfeiture conditions for the applicable performance measurement period as originally granted (i.e., the target Award for the applicable performance measurement period) by a fraction, the numerator of which is the number of months from the beginning of the applicable performance measurement period through the date of termination (rounding any partial month to the next whole month) and the denominator of which is the aggregate number of months in the applicable performance measurement period. For purposes of this Section 5.d)ii), applicable performance measurement period means a performance measurement period that commences before the Grantee's date of termination and that ends after the date of the Grantee's termination due to Disability. Non-forfeitability of such pro rata portion of the Grantee's Award will remain subject to the achievement of the performance goal(s) for the applicable performance measurement period in accordance with the terms of the Award Agreement. The death of the Grantee following a termination governed by this Section 5.d)ii), or a Change in Control following such termination, shall not increase or decrease the portion of the Award forfeited or not forfeited under this Section 5.d)ii) except as otherwise provided in an Award Agreement. Any portion of an outstanding Award that remains subject to performance-based forfeiture conditions immediately prior to the Grantee's date of termination due to Disability and that exceeds the pro rata portion of the Award that remains outstanding at the date of termination under this Section 5.d)ii), including but not limited to any portion of the Award that was subject to performance-based forfeiture conditions for a performance measurement period that has not commenced at the date of the Grantee's termination due to Disability, shall be forfeited at the Grantee's date of termination. Unless otherwise determined by the Administrator, as a condition to the non-forfeiture of an Award or any portion of an Award under this Section 5.d)ii), the Grantee shall be required to execute a separation agreement and release, in a form prescribed by the Administrator, setting forth covenants relating to noncompetition, nonsolicitation, nondisparagement, confidentiality and similar covenants for the protection of the Company's business and releasing the Company from liability in connection with the Grantee's termination.

(iii) Non-Employee Directors; Other Termination Events Notwithstanding anything to the contrary in Sections 5.d)i) and 5.d)ii) above, such sections shall not apply to Awards granted to Non-Employee Directors. Except as otherwise provided in Sections 5.d)i) and 5.d)ii) above, the Administrator shall establish and set forth in each Award Agreement the manner in which the Grantee's termination of Continuous Status as an Employee or Consultant or Non-Employee Director and related events will affect an Award.

e) Buyout Provisions. Except as otherwise provided in this Section 5.e), the Administrator may at any time offer to buy out, for a payment in cash or Shares, an Award previously granted, based on such terms and conditions as the Administrator shall establish and communicate to the Grantee at the time that such offer is made. No such buy out shall occur without the prior approval or consent of the Company's stockholders if such a transaction would constitute a repricing defined in Section 15 of the Plan. This provision is intended only to clarify the powers of the Administrator and shall not in any way be deemed to create any rights on the part of Grantees to buyout offers or payments.

f) Nontransferability of Awards.

i) Except as provided in Section 5.f)iii) below, each Award, and each right under any Award, shall be exercisable only by the Grantee during the Grantee's lifetime, or, if permissible under Applicable Law, by

the Grantee's guardian or legal representative.

- ii) Except as provided in Section 5.f)iii) below, no Award (prior to the time, if applicable, Shares are issued in respect of such Award), and no right under any Award, may be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by a Grantee otherwise than by will or by the laws of descent and distribution (or to the Company) and any such purported assignment, alienation, pledge, attachment, sale, transfer or encumbrance shall be void and unenforceable against the Company or any Subsidiary; provided, that the designation of a beneficiary shall not constitute an assignment, alienation, pledge, attachment, sale, transfer or encumbrance.
- iii) To the extent and in the manner permitted by Applicable Law (including restrictions applicable to Incentive Stock Options), and to the extent and in the manner permitted by the Administrator, and subject to such terms and conditions as may be prescribed by the Administrator, a Grantee may transfer an Award to:
 - (a) a child, stepchild, grandchild, parent, stepparent, grandparent, spouse, former spouse, sibling, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the Grantee (including adoptive relationships);
 - (b) any person sharing the employee's household (other than a tenant or employee);
 - (c) a trust in which persons described in (a) and (b) have more than 50 percent of the beneficial interest;
 - (d) a foundation in which persons described in (a) or (b) or the Grantee control the management of assets;
or
 - (e) any other entity in which the persons described in (a) or (b) or the Grantee own more than 50 percent of the voting interests;
 - (f) provided, however, that such transfer is not for value. The following shall not be considered transfers for value: a transfer under a domestic relations order in settlement of marital property rights, and a transfer to an entity in which more than 50 percent of the voting interests are owned by persons described in (a) above or the Grantee, in exchange for an interest in such entity.

6. Options. The Administrator may grant Options to Employees or Consultants or Non-Employee Directors from time to time upon such terms and conditions as the Administrator may determine in accordance with the following provisions:

- a) Limitations on Incentive Stock Options. Options granted under this Plan may be Incentive Stock Options, Nonqualified Stock Options or a combination of the foregoing. Each grant shall specify whether (or the extent

to which) the Option is an Incentive Stock Option or a Nonqualified Stock Option. Notwithstanding any such designation, to the extent that the aggregate Fair Market Value of the Shares as of the Date of Grant with

A-6

respect to which Options designated as Incentive Stock Options are exercisable for the first time by a Grantee during any calendar year (under all plans of the Company) exceeds \$100,000, such Options shall be treated as Nonqualified Stock Options. In the case of an Incentive Stock Option granted to a Grantee who, at the time the Incentive Stock Option is granted, owns stock representing more than 10 percent of the voting power of all classes of stock of the Company or any Parent or Subsidiary, the term of the Incentive Stock Option shall be five years from the Date of Grant, or such shorter term as may be provided in the Award Agreement.

b) Option Price and Consideration.

i) Option Price. The per share Option Price for the Shares to be issued pursuant to exercise of an Option shall be determined by the Administrator and, except as otherwise provided in this Section 6.b)i), shall be no less than 100 percent of the Fair Market Value per Share on the Date of Grant.

(a) In the case of an Incentive Stock Option granted to an Employee who on the Date of Grant owns stock representing more than 10 percent of the voting power of all classes of stock of the Company or any Parent or Subsidiary, the per Share Option Price shall be no less than 110 percent of the Fair Market Value per Share on the Date of Grant.

(b) Any Option that is (1) granted to a Grantee in connection with the acquisition (Acquisition), however effected, by the Company of another corporation or entity (Acquired Entity) or the assets thereof, (2) associated with an option to purchase shares of stock or other equity interest of the Acquired Entity or an affiliate thereof (Acquired Entity Option) held by such Grantee immediately prior to such Acquisition, and intended to preserve for the Grantee the economic value of all or a portion of such Acquired Entity Option, may be granted with such Option Price as the Administrator determines to be necessary to achieve such preservation of economic value.

c) Waiting Period and Exercise Dates. At the time an Option is granted, the Administrator shall fix the period within which the Option may be exercised (subject to Section 5.b)) and shall determine any conditions that must be satisfied before the Option may be exercised. An Option shall be exercisable only to the extent that it is vested and exercisable according to the terms of the Award Agreement.

d) Form of Consideration. Except as otherwise determined by the Administrator, the acceptable form of consideration for exercising an Option may consist of any combination of cash, personal check, wire transfer or:

i) pursuant to rules and procedures approved by the Administrator, promissory note, provided however that, a promissory note shall not be an acceptable form of consideration to the extent that such a promissory note is prohibited by Applicable Law as a result of the Company's acceptance of such a promissory note constituting (within the meaning of Section 13(k) of the Exchange Act) a direct or indirect (including through any Subsidiary) extension or maintenance of credit, arrangement for the extension of credit, or renewal of an extension of credit, in the form of a personal loan to or for any Director or executive

Officer by the Company;

- ii) nonforfeitable, unrestricted Shares owned by the Grantee at the time of exercise and which have a value at the time of exercise that is equal to the Option Price;
 - iii) net exercise, in which case the Company will not require a payment of the Option Price from the Grantee but will reduce the number of Shares issued upon the exercise by the number of whole Shares that has an aggregate Fair Market Value that equal to the aggregate Option Price for the portion of the Option exercised;
 - iv) pursuant to procedures approved by the Administrator, through the sale of the Shares acquired on exercise of the Option through a broker-dealer to whom the Grantee has submitted an irrevocable notice of exercise and irrevocable instructions to deliver promptly to the Company the cash amount sufficient to pay the Option Price, together with, if requested by the Company, the amount of federal, state, local or foreign withholding taxes payable by the Grantee by reason of such exercise; or
 - v) such other consideration and method of payment for the issuance of Shares to the extent permitted by Applicable Law.
- e) Exercise of Option.
- i) Procedure for Exercise; Rights as a Stockholder.
 - (a) Any Option granted hereunder shall be exercisable according to the terms of the Plan and at such times and under such conditions as determined by the Administrator and set forth in the Award Agreement.
 - (b) An Option may not be exercised for a fraction of a Share.
 - (c) An Option shall be deemed exercised when the Company receives:
 - (1) written or electronic notice of exercise (in accordance with the Award Agreement and any action taken by the Administrator pursuant to Section 4.b) of the Plan or otherwise) from the person entitled to exercise the Option, and
 - (2) full payment for the Shares with respect to which the Option is exercised.
 - (d) Shares issued upon exercise of an Option shall be issued in the name of the Grantee or, if requested by the Grantee, in the name of the Grantee and his or her spouse (or other permitted transferee). Until

the stock certificate evidencing such Shares is issued or delivery is otherwise effected by the Company (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company), no right to vote or receive dividends or any other rights as a stockholder shall exist with respect to the Optioned Stock, notwithstanding the exercise of the Option. The Company shall issue (or cause to be issued) such stock certificate, or provide a

commercially reasonable alternative means of delivery, promptly after the Option is exercised. No Dividend Equivalents will be credited on any outstanding Option and no adjustment will be made for a dividend or other right for which the record date is prior to the date the Shares are delivered upon exercise, except as provided in Section 13 of the Plan.

(e) Exercising an Option in any manner shall decrease the number of Shares thereafter available under the Option, by the number of Shares as to which the Option is exercised.

7. **Stock Appreciation Rights.** The Administrator may grant Stock Appreciation Rights to Employees or Consultants or Non-Employee Directors from time to time upon such terms and conditions as the Administrator may determine in accordance with the following provisions. A Stock Appreciation Right is the right of the Grantee to receive from the Company an amount in cash or Shares equal to the Spread at the time of the exercise of such right.

a) **Base Price.** The Base Price shall be equal to or greater than the Fair Market Value on the Date of Grant.

b) **Exercise of SARs.** SARs shall be exercised by the delivery of a written or electronic notice of exercise to the Company (in accordance with the Award Agreement and any action taken by the Administrator pursuant to Section 4.b) of the Plan or otherwise), setting forth the number of Covered Shares with respect to which the SAR is to be exercised.

c) **Payment of SAR Benefit.** Upon exercise of a SAR, the Grantee shall be entitled to receive payment from the Company in an amount determined by multiplying:

i) the Spread; by

ii) the number of Shares with respect to which the SAR is exercised; provided, that the Administrator may provide in the Award Agreement that the benefit payable on exercise of an SAR shall not exceed such limit (which may be expressed as a percentage of the Fair Market Value of a Share on the Date of Grant or as a fixed value limit or otherwise) as the Administrator shall specify (this limit cannot operate to exceed the Spread). As determined by the Administrator, the payment upon exercise of an SAR may be in cash, in Shares that have an aggregate Fair Market Value (as of the date of exercise of the SAR) equal to the amount of the payment, or in some combination thereof, as set forth in the Award Agreement.

(a) No Dividend Equivalents will be credited on any outstanding SAR and no adjustment will be made for a dividend or other right for which the record date is prior to the date the Shares (if any) are delivered upon exercise of a SAR, except as provided in Section 13 of the Plan.

8. **Stock Awards.**

a) Authorization to Grant Stock Awards. The Administrator may grant Stock Awards to Employees or Consultants or Non-Employee Directors from time to time. A Stock Award may be made in Shares or denominated in units representing rights to receive Shares. Each Stock Award shall be evidenced by an Award Agreement that shall set forth the conditions, if any, which will need to be timely satisfied before the Stock Award will be vested and settled and the conditions, if any, under which the Grantee's interest in the related Shares or units will be forfeited. Any such conditions for effectiveness or non-forfeitability may be based upon the passage of time and continued service by the Grantee, or the achievement of specified performance objectives, or both time-based and performance-based conditions. A Stock Award made in Shares that are subject to forfeiture conditions and/or other restrictions may be designated as an Award of Restricted Stock. A Stock Award denominated in units that are subject to forfeiture conditions and/or other restrictions may be designated as an Award of Restricted Stock Units. For the avoidance of doubt, the Administrator is authorized to grant Shares as a bonus, or to grant Shares or other Awards in lieu of obligations of the Company or a Subsidiary or affiliate to pay cash or deliver other property under the Plan or under other plans or compensatory arrangements, subject to such terms as shall be determined by the Administrator.

b) Dividends, Voting and Other Ownership Rights.

i) Restricted Stock Awards. Unless otherwise determined by the Administrator, an Award of Restricted Stock shall entitle the Grantee to dividend, voting and other ownership rights during the period for which such substantial risk of forfeiture is to continue; provided, however, that, in the case of an Award of Restricted Stock that is conditioned on the attainment of performance goals, the Grantee shall not receive payment of any dividends unless and not earlier than such time as the Restricted Stock becomes earned. An Award Agreement may require that any or all dividends or other distributions paid on the Restricted Stock during the period for which the substantial risk of forfeiture is to continue be automatically sequestered and reinvested in additional Shares, which may be subject to the same restrictions as the underlying Award or such other restrictions as the Administrator may determine.

ii) Restricted Stock Unit Awards. Unless otherwise determined by the Administrator, a Grantee shall not have any rights as a stockholder with respect to Shares underlying an Award of Restricted Stock Units until such time, if any, as the underlying Shares are actually issued to the Grantee. The Administrator may provide in a Restricted Stock Unit Award Agreement for the payment of Dividend Equivalents to the Grantee at such times as paid to stockholders generally or at the time of vesting or other payout of the Restricted Stock Units, provided, however, that in the case of such an Award that is conditioned on the attainment of performance goals, the Grantee shall not receive payment of any Dividend Equivalents unless and not earlier than such time as the Restricted Stock Units have become earned, and provided further, that if the payment or crediting of Dividend Equivalents is in respect of an Award that is subject to Code Section 409A, then the payment or crediting of such dividends or Dividend Equivalents shall conform to the requirements of Code Section 409A.

9. Cash-Based Awards. The Administrator may grant Cash-Based Awards to Employees or Consultants or Non-Employee Directors from time to time. Cash-Based Awards may be granted in such amounts and on such terms and conditions as the Administrator determines in its discretion. Cash-Based

Table of Contents

Awards may be denominated in cash, in Common Stock or other securities, in units, in securities or debentures convertible into Common Stock, or in any combination of the foregoing, and may be paid in Common Stock or other securities, in cash, or in a combination of Common Stock or other securities and cash, all as determined in the discretion of the Administrator.

10. Other Stock-Based Awards. The Administrator may grant Other Stock-Based Awards to Employees or Consultants or Non-Employee Directors from time to time. Other Stock-Based Awards may be granted in such amounts, on such terms and conditions, and for such consideration, including no consideration or such minimum consideration as may be required by Applicable Law, as the Administrator determines in its discretion. Other Stock-Based Awards may be denominated in cash, in Common Stock or other securities, in units, in securities or debentures convertible into Common Stock, or in any combination of the foregoing, and may be paid in Common Stock or other securities, in cash, or in a combination of Common Stock or other securities and cash, all as determined in the discretion of the Administrator.

11. Code Section 162(m) Provisions.

- a) Notwithstanding any other provision of the Plan, if the Compensation Committee of the Board (the Compensation Committee) determines at the time an Award is granted to a Grantee that such Grantee is, or may be as of the end of the tax year for which the Company would claim a tax deduction in connection with such Award, a covered employee within the meaning of Code Section 162(m)(3), and to the extent the Compensation Committee considers it desirable for compensation delivered pursuant to such Award to be eligible to qualify for an exemption from the limit on tax deductibility of compensation under Code Section 162(m), then the Compensation Committee may provide that this Section 11 is applicable to such Award under such terms as the Compensation Committee shall determine.
- b) If an Award is subject to this Section 11, then the lapsing of restrictions thereon and the distribution of Shares pursuant thereto or payment, as applicable, shall be subject to satisfaction of one, or more than one, objective performance goals. The Compensation Committee shall determine the performance goals that will be applied with respect to each Award subject to this Section 11 at the time of grant, but in no event later than 90 days after the commencement of the period of service to which the performance goal(s) relate (or 25% of the specified performance measurement period if such period is less than one year). The performance criteria applicable to Awards subject to this Section 11 will be one or more of the following criteria: stock price; market share; sales, including to specified market segments or targeted customers; earnings per share, core earnings per share or variations thereof; return on equity; costs; revenue; cash to cash cycle; days payables outstanding; days of supply; days sales outstanding; cash flow; operating income; profit after tax; profit before tax; return on assets; return on net assets; return on sales; inventory turns; invested capital, including completion of a specified capital-raising transaction; net operating profit after tax; return on invested capital; total stockholder return; earnings; return on equity or average shareowners equity; return on capital; return on investment; income or net income; operating income or net operating income; operating profit or net operating profit; operating margin; return on operating revenue; contract awards or backlog; overhead or other expense reduction; growth in shareowner value relative to the moving average of the S&P 500 Index or a peer group index; credit rating; strategic plan development and implementation; net cash provided by operating activities; gross margin; economic value added; customer satisfaction; financial return ratios; market performance; completion of a specified acquisition or disposition; bookings; business divestitures and

acquisitions; cash position; contribution margin; customer renewals; customer retention rates; earnings before interest and taxes; EBITDA; employee satisfaction; expenses; gross profit dollars; growth in bookings; growth in revenues; net profit; net sales; new product development; number of customers; productivity; operating cash flow; operating expenses; product defect measures; product release timelines; productivity; research and development milestones; revenue growth; time to market; working capital; or such similarly objectively determinable financial or other measures as may be adopted by the Compensation Committee.

- c) The targeted level or levels of performance with respect to such business criteria may be established at such levels and in such terms as the Compensation Committee may determine, in its discretion, including in absolute terms, as a goal relative to performance in prior periods, or as a goal compared to the performance of one or more comparable companies or an index covering multiple companies. The targeted level or levels of performance may be established in terms of Company-wide objectives or objectives that are related to the performance of the individual Grantee or the Subsidiary, division, department or function within the Company or Subsidiary in which the Grantee is employed. The specified performance measurement period(s) may be annual, multi-year, quarterly, or of any other duration determined by the Compensation Committee. The Compensation Committee may specify that performance will be determined before payment of bonuses, capital charges, non-recurring income or expense, items of an unusual nature or of a type that indicates infrequency of occurrence, or other financial and general and administrative expenses for the performance period. Performance goals need not be based on audited financial results.
- d) Notwithstanding any contrary provision of the Plan, the Compensation Committee may not increase the number of Shares granted pursuant to any Stock Award subject to this Section 11 nor otherwise increase the compensation payable that would otherwise be due under any Award subject to this Section 11 upon achievement of a performance goal, nor may it waive the achievement of any performance goal established pursuant to this Section 11 after the performance goal has been determined under Section 11.b). The Compensation Committee may, in its discretion, reduce the amount of compensation otherwise to be paid or earned in connection with an Award granted on or after September 1, 2013, notwithstanding the achievement of any performance goal and notwithstanding Section 15.c) or any other contrary provision of the Plan; provided, no such reduction may be made after a Change in Control.
- e) Prior to the payment of any Award subject to this Section 11, the Compensation Committee shall certify in writing that the performance goal(s) applicable to such Award was met. Prior to the payment of an Award to a Grantee who is not an officer of the Company for purposes of Section 16 of the Exchange Act, the written certification that the performance goal(s) applicable to such Award was met may be made by such Grantee's divisional Executive Vice President or Chief Executive Officer, by the Chief Operating Officer of the Company or by the President of the Company, and such officer may, in his or her discretion, reduce the amount of compensation otherwise to be paid or earned in connection with such Award granted on or after September 1, 2013, notwithstanding the achievement of any performance goal and notwithstanding Section 15.c) or any other contrary provision of the Plan; provided, no such reduction may be made after a Change in Control.

- f) The Compensation Committee shall have the power to impose such other restrictions on Awards subject to this Section 11 as it may deem necessary or appropriate to ensure that such Awards satisfy all requirements for performance-based compensation within the meaning of Code section 162(m).

12. Deferral of Receipt of Payment. The Administrator may permit or require a Grantee to defer receipt of the payment of cash or the delivery of Shares that would otherwise be due by virtue of the grant of or the lapse or waiver of restrictions with respect to Awards other than Options and SARs. If any such deferral is required or permitted, the Administrator shall establish such rules and procedures for such deferral, including rules and procedures implemented pursuant to Section 21 for compliance with Code Section 409A.

13. Adjustments Upon Changes in Capitalization or Change of Control.

- a) Changes in Capitalization. Subject to any required action by the stockholders of the Company, the number of Covered Shares, and the number of Shares which have been authorized for issuance under the Plan (including Section 3.a) and 3.b)) but as to which no Awards have yet been granted or which have been returned to the Plan upon cancellation or expiration of an Award, and the annual per-person limitation on equity Awards, as well as the price per share of Covered Shares and share-based performance conditions of Awards, shall be proportionately adjusted for any increase or decrease in the number of issued shares of Common Stock resulting from a stock split, reverse stock split, stock dividend, combination or reclassification of the Common Stock, or any other increase or decrease in the number of issued shares of Common Stock effected without receipt of consideration by the Company, and in the event of an extraordinary dividend, spinoff or similar event affecting the value of Common Stock; provided, however, that conversion of any convertible securities of the Company shall not be deemed to have been effected without receipt of consideration. Such adjustment shall be made by the Board, whose determination in that respect shall be final, binding and conclusive. In furtherance of the foregoing, a Grantee shall have a legal right to an adjustment to an Award which constitutes share-based equity in the event of an equity restructuring, as such terms are defined under Financial Accounting Standards Board Accounting Standards Codification Topic 718, which adjustment shall preserve without enlarging the value of the Award to the Grantee. Except as expressly provided herein, no issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of shares of Covered Shares. No adjustment shall be made pursuant to this Section 13 in a manner that would cause Incentive Stock Options to violate Code Section 422(b) or cause an Award to be subject to adverse tax consequences under Code Section 409A.

- b) Change in Control. Unless otherwise provided in an Award Agreement, the following provisions shall apply to outstanding Awards in the event of a Change in Control.

- i) Continuation, Assumption, or Replacement of Awards.

- (a) In General. In the event of a Change in Control, the surviving or successor entity (or its parent corporation) may continue, assume, or replace Awards outstanding as of the date of the Change in Control (with such adjustments as may be required or permitted by the Plan), and such Awards or

replacements therefore shall remain outstanding and be governed by their respective terms. A surviving or successor entity may elect to continue, assume, or replace all Awards or only some Awards or portions of Awards. For purposes of this subsection 13.b)i)(a), an Award shall be considered assumed or replaced if, in connection with the Change in Control and in a manner consistent with Code Sections 409A and 424, either (i) the contractual obligations represented by the Award are expressly assumed by the surviving or successor entity (or its parent corporation) with appropriate adjustments to the number and type of securities subject to the Award and the Option Price thereof that preserves the intrinsic value of the Award existing at the time of the Change in Control, or (ii) the Grantee has received a comparable equity-based award that preserves the intrinsic value of the Award existing at the time of the Change in Control without increasing the aggregate Option Price or Base Price of such Award and provides for a vesting or exercisability schedule that is the same as or more favorable to the Grantee.

(b) Vesting following Continuation, Assumption, or Replacement.

- (1) If the Grantee's Continuous Status as an Employee or Consultant or Non-Employee Director does not terminate prior to the first anniversary of the date of the Change in Control (the Change in Control Anniversary), then on the Change in Control Anniversary (i) all of the Grantee's continued, assumed, or replaced outstanding Options and Stock Appreciation Rights that are not yet fully exercisable shall immediately become exercisable in full and shall remain exercisable in accordance with their terms, (ii) all of the Grantee's continued, assumed, or replaced unvested Stock Awards and Other Stock-Based Awards will become immediately fully vested and non-forfeitable; and (iii) any performance objectives applicable to the Grantee's continued, assumed, or replaced unvested Awards for performance measurement periods not yet ended at the date of the Change in Control Anniversary will be deemed to have been satisfied at the greater of the designated target level or the level actually achieved by performance through the Change in Control Anniversary (with similar performance assumed to be achieved through the remainder of the performance period) in connection with the Award. This subsection 13.b)i)(b)(1) shall supersede the standard vesting provision contained in an Award Agreement only to the extent that it results in accelerated vesting of the Award, and it shall not result in a delay of any vesting of an Award that otherwise would occur under the terms of the standard vesting provision contained in the Award Agreement.
- (2) If the Grantee's Continuous Status as an Employee or Consultant or Non-Employee Director terminates prior to the Change in Control Anniversary as a result of termination by the Company without Cause or resignation by the Grantee for Good Reason, then on the Date of Termination (i) all of the Grantee's outstanding continued, assumed, or replaced Options and Stock Appreciation Rights that are not yet fully exercisable shall immediately become exercisable in full and shall remain exercisable in accordance with their terms, (ii) all of the Grantee's continued, assumed, or replaced unvested Stock Awards and Other Stock-Based Awards

Table of Contents

will become immediately fully vested and non-forfeitable; and (iii) any performance objectives applicable to the Grantee's unvested continued, assumed, or replaced Awards for performance measurement periods not yet ended at the date of termination will be deemed to have been satisfied at the greater of the designated target level or the level actually achieved by performance through the date of termination (with similar performance assumed to be achieved through the remainder of the performance period) in connection with the Award. This subsection 13.b)i)(b)(2) shall supersede the standard vesting provision contained in an Award Agreement only to the extent that it results in accelerated vesting of the Award, and it shall not result in a delay of any vesting of an Award that otherwise would occur under the terms of the standard vesting provision contained in the Award Agreement.

- ii) Acceleration of Awards. Except as otherwise provided in subsection 13.b)iii) of the Plan, if and to the extent that outstanding Awards are not continued, assumed or replaced in connection with a Change in Control, then (a) outstanding Options and Stock Appreciation Rights issued to the Grantee that are not yet fully exercisable shall immediately become exercisable in full and shall remain exercisable in accordance with their terms, (b) all unvested Stock Awards and Other Stock-Based Awards will become immediately fully vested and non-forfeitable; and (c) any performance objectives for performance measurement periods not yet ended at the date of the Change in Control will be deemed to have been satisfied at the greater of the designated target level or the level actually achieved by performance through the Change in Control (with similar performance assumed to be achieved through the remainder of the performance period) in connection with the Award. The foregoing notwithstanding, an Award that constitutes a deferral of compensation under Code Section 409A will be settled on an accelerated basis only if and to the extent that such settlement does not result in tax penalties to Grantees under Section 409A.
- iii) Payment for Awards. If and to the extent that outstanding Awards are not continued, assumed or replaced in connection with a Change in Control, then the Administrator in its discretion may terminate some or all of such outstanding Awards, in whole or in part, as of the effective time of the Change in Control in exchange for payments to the holders as provided in this subsection 13.b)iii). The Administrator will not be required to treat all Awards similarly for purposes of this subsection 13.b)iii). The payment for any Award or portion thereof terminated shall be in an amount equal to the excess, if any, of (a) the fair market value (as determined in good faith by the Administrator) of the consideration that would otherwise be received in the Change in Control for the number of Shares subject to the Award or portion thereof being terminated, or, if no consideration is to be received by the Company's stockholders in the Change in Control, the Fair Market Value of such number of shares immediately prior to the effective date of the Change in Control, over (b) the aggregate Option Price or Base Price (if any) for the Shares subject to the Award or portion thereof being terminated. If there is no excess, the Award may be terminated without payment. Any payment shall be made in such form, on such terms and subject to such conditions as the Administrator determines in its discretion, which may or may not be the same as the form, terms and conditions applicable to payments to the Company's stockholders in connection with the Change in Control, and may include subjecting such payments to vesting conditions comparable to those of the Award surrendered.

- 14. Term of Plan. The Plan shall become effective upon its approval by the stockholders of the Company within 12 months after the date the Plan is adopted by the Board. Such stockholder approval shall be obtained in the manner

and to the degree required under Applicable Law. The Plan shall continue in effect until October 21, 2020, unless terminated earlier under Section 15 of the Plan.

15. Amendment and Termination of the Plan and Awards.

- a) Amendment and Termination. Subject to the requirements of this Section 15, the Board may at any time amend, alter, suspend or terminate the Plan. The Compensation Committee may amend, alter, suspend or terminate the Plan so long as such action complies with Applicable Law, except that any Plan amendment to be presented to the stockholders for approval shall first be approved by the Board. The Administrator may at any time amend, alter, suspend or terminate an outstanding Award.
- b) Stockholder Approval. The Company shall obtain stockholder approval of any Plan amendment to the extent necessary and desirable to comply with Applicable Law. Such stockholder approval, if required, shall be obtained in such a manner and to such a degree as is required by the Applicable Law. Without the approval of stockholders, no amendment or alteration of the Plan or any outstanding Option or SAR will have the effect of amending or replacing such an Option or SAR in a transaction that constitutes a repricing. For this purpose, a repricing means: (1) amending the terms of an Option or SAR after it is granted to lower its Option Price or Base Price; (2) any other action that is treated as a repricing under generally accepted accounting principles; and (3) canceling an Option or SAR at a time when its strike price is equal to or greater than the fair market value of the underlying Stock, in exchange or substitution for another Option, SAR, Stock Award, other equity, or cash or other property. A cancellation and exchange or substitution described in clause (3) of the preceding sentence will be considered a repricing regardless of whether the Option, SAR, Stock Award, or other equity is delivered simultaneously with the cancellation, regardless of whether it is treated as a repricing under generally accepted accounting principles, and regardless of whether it is voluntary on the part of the Grantee. Adjustments to Awards under Section 13 will not be deemed repricings, however. The Administrator shall have no authority to amend, alter, or modify any Award term after the Award has been granted to the extent that the effect is to waive a term that otherwise at that time would be mandatory for a new Award of the same type under the Plan.
- c) Effect of Amendment or Termination. No amendment, alteration, suspension or termination of the Plan or an Award (i) shall materially impair the rights of any Grantee, unless mutually agreed otherwise between the Grantee and the Company, or (ii) impose any additional obligation on the Company or right on the Grantee, unless signed by the Company (electronically or otherwise).

16. Conditions Upon Issuance of Shares.

- a) Legal Compliance. The Company shall not be obligated to issue Shares pursuant to an Award unless the exercise, if applicable, of such Award and the issuance and delivery of such Shares shall comply with all relevant provisions of law, including, without limitation, the Securities Act of

Table of Contents

1933, as amended, the Exchange Act, the rules and regulations promulgated thereunder, other Applicable Law, and the requirements of any stock exchange or quotation system upon which the Shares may then be listed or quoted, and may be further subject to the approval of counsel for the Company with respect to such compliance.

- b) Investment Representations. As a condition to the exercise of an Award or issuance of Shares in connection with an Award, the Company may require the Grantee or permitted transferee to represent and warrant at the time of any such exercise or issuance that the Shares are being purchased only for investment and without any present intention to sell or distribute such Shares if, in the opinion of counsel for the Company, such a representation is required or advisable.

17. Liability of Company.

- a) Inability to Obtain Authority. The inability of the Company to obtain authorization from any regulatory body having jurisdiction, which authorization is deemed by the Company's counsel to be necessary to the lawful issuance and sale of any Shares hereunder, shall relieve the Company of any liability in respect of the failure to issue or sell such Shares as to which such requisite authority shall not have been obtained. The Company shall use its best efforts to obtain such authorization.
- b) Grants Exceeding Allotted Shares. If the Covered Shares covered by an Award exceeds, as of the date of grant, the number of Shares that may be issued under the Plan without additional stockholder approval, such Award shall be void with respect to such excess Covered Shares, unless stockholder approval of an amendment sufficiently increasing the number of Shares subject to the Plan is timely obtained in accordance with Section 15 of the Plan.

18. Reservation of Shares. The Company, during the term of this Plan, will at all times reserve and keep available such number of Shares as shall be sufficient to satisfy the requirements of the Plan.

19. Rights of Grantees. Neither the Plan nor any Award shall confer upon a Grantee any right with respect to continuing the Grantee's employment, service as a Director or consulting relationship with the Company or a Subsidiary, nor shall they interfere in any way with the Grantee's right or the Company's right to terminate such employment, service or consulting relationship at any time, with or without cause.

20. Sub-plans for Foreign Subsidiaries. The Administrator may adopt sub-plans applicable to particular foreign Subsidiaries. All Awards granted under such sub-plans shall be treated as grants under the Plan. The rules of such sub-plans may take precedence over other provisions of the Plan, with the exception of Section 3, but unless otherwise superseded by the terms of such sub-plan, the provisions of the Plan shall govern the operation of such sub-plan.

21.

Code Section 409A. It is intended that the Plan and all Awards hereunder be administered in a manner that will comply with Code Section 409A. The Administrator is authorized to adopt rules or regulations deemed necessary or appropriate to qualify for an exception from or to comply with the requirements of Code Section 409A.

Notwithstanding anything in this Section to the contrary, no amendment to or payment under any Award will be made unless such transaction will result in no tax penalty to the Grantee. Without limiting the generality of the foregoing, if any amount shall be payable with respect to any Award hereunder as a result of a Grantee's separation from service at such time as the Grantee is a specified employee (as those terms are defined for purposes of Code Section 409A) and such amount constitutes a deferral of compensation subject to Code Section 409A, then no payment shall be made, except as permitted under Code Section 409A, prior to the date six months after the Grantee's separation from service (or the date of his or her earlier death). The Company may adopt a specified employee policy that will apply to identify the specified employees for all deferred compensation plans subject to Code Section 409A; otherwise, specified employees will be identified using the default standards contained in the regulations under Code Section 409A.

22. Withholding. The Company and any Subsidiary or affiliate is authorized to withhold from any Award granted, any payment relating to an Award under the Plan, including from a distribution of Shares, or any payroll or other payment to a Grantee, amounts of withholding and other taxes due or potentially payable in connection with any transaction involving an Award, and to take such other action as the Administrator may deem advisable to enable the Company and Grantees to satisfy obligations for the payment of withholding taxes and other tax obligations relating to any Award. This authority shall include authority to withhold or receive Stock or other property and to make cash payments in respect thereof in satisfaction of a Grantee's withholding obligations, either on a mandatory or elective basis in the discretion of the Administrator. Other provisions of the Plan notwithstanding, only the minimum amount of Stock deliverable in connection with an Award necessary to satisfy statutory withholding requirements will be withheld, except a greater amount of Stock may be withheld provided that any such withholding transaction that potentially will result in additional accounting expense to the Company must be expressly authorized by the Administrator.

23. Governing Law. The Plan and any Award Agreements and any and all determinations made and actions taken in connection with the Plan and Award Agreements, shall be governed by and construed in accordance with the Delaware General Corporation Law and applicable federal law, and in other respects with the substantive laws of the State of Florida.

JABIL CIRCUIT, INC.

SHORT-TERM INCENTIVE PLAN, AS AMENDED AND RESTATED

- 1. Purpose.** The purpose of the Jabil Circuit, Inc. Short-Term Incentive Plan, as amended and restated, is to motivate and reward short-term performance by providing cash bonus payments based upon the achievement of pre-established and objective performance goals for each fiscal year or portion of a fiscal year. The Plan is a continuation, in amended and restated form, of the plan previously known as the Jabil Circuit, Inc. Annual Incentive Plan.
- 2. Definitions.** The following definitions are applicable to the Plan:
- (a) **Annual Incentive Award** or **Award** means an annual incentive award made pursuant to Section 5 of the Plan.
 - (b) **Base Salary** means the base rate of cash compensation paid by the Company to or for the benefit of a Participant for services rendered or labor performed while a Participant in this Plan, including base pay a Participant could have received in cash in lieu of deferrals under the Jabil 401(k) Retirement Plan or to any cafeteria plan under Section 125 of the Code maintained by the Company.

 - (d) **Code** means the Internal Revenue Code of 1986, as amended, including Treasury Regulations.
 - (e) **Committee** means the Compensation Committee of the Board, which shall be appointed by, and serve at the pleasure of, the Board, and shall consist of members of the Board who are not employees of the Company or any affiliate thereof and who qualify as outside directors under Section 162(m) of the Code, as amended from time to time, and the regulations promulgated thereunder.
 - (f) **Company** means Jabil Circuit, Inc., a Delaware corporation.
 - (g) **Executive Officer** means an employee of the Company whom the Board has designated as an executive officer of the Company for purposes of reporting under the Securities Exchange Act of 1934, as amended from time to time, or any successor thereto.

- (m) **Target Determination Cutoff Date** means the latest possible date that will not jeopardize an Annual Incentive Award's qualification as Qualified Performance-Based Compensation.

3. Administration of Plan. The Plan shall be administered by the Committee. The Committee shall have the authority to select Executive Officers to participate in the Plan, to determine performance goals and the Annual Incentive Award amounts to be paid upon achievement of the performance goals, to determine other terms and conditions of Awards under the Plan, to establish and amend rules and regulations relating to the Plan, and to make all other determinations necessary and advisable for the administration of the Plan. The Committee may correct any defect, supply any omission or reconcile any inconsistency in the Plan or any Award in the manner and to the extent it shall deem desirable to carry it into effect. All decisions made by the Committee pursuant to the Plan shall be made in the Committee's discretion and shall be final and binding on Executive Officers, Participants, and the Company.

4. Designation of Participants. Participants in the Plan shall be selected by the Committee on an annual basis from among the Executive Officers.

5. Annual Incentive Awards.

- (a) Each Participant shall be eligible to receive such Annual Incentive Award, if any, for a Performance Period as may be established by the Committee and payable pursuant to the performance criteria described below. Annual Incentive Awards consist of cash amounts payable upon the achievement during a Performance Period of specified objective performance goals. No later than the Target Determination Cutoff Date, the Committee will establish the performance goal(s) and the amount to be paid if the performance goal(s) are achieved. The Annual Incentive Award opportunity, including any designated target, threshold or maximum opportunity, for each Participant will be specified as a percentage of the Participant's Base Salary, or as the sum of a percentage of the funds available for the payment of such Annual Incentive Award or as a stated dollar amount or dollar amount calculated under a formula based on the relevant performance goal. The maximum aggregate Annual Incentive Award that may be awarded to a Participant for a Fiscal Year shall be 300% of the Participant's Base Salary for such Fiscal Year. In addition, the maximum aggregate Annual Incentive

Award payable to any Participant during any Fiscal Year shall be \$45,000,000.

- (b) Participants shall have their Annual Incentive Awards, if any, determined on the basis of the degree of achievement of performance goals which shall be established by the Committee in writing. One or more of the following business criteria for the Company, on a consolidated basis, and/or for specified subsidiaries or affiliates or other business units of the Company, shall be used by the Committee in establishing performance goals

- (c) The targeted level or levels of performance with respect to such measurement criteria may be established at such levels and in such terms as the Committee may determine, in its discretion, including in absolute terms, as a goal relative to performance in prior periods, or as a goal compared to the performance of one or more comparable companies or an index covering multiple companies. The Committee may, in establishing performance goals on or prior to the Target Determination Cutoff Date, specify that performance will be determined before payment of bonuses, capital charges, non-recurring income or expense, items of an unusual nature or of a type that indicates infrequency of occurrence, or other financial and general and administrative expenses for the performance period, and may provide that the attainment of the performance goal will be measured by appropriately adjusting the evaluation of performance goal performance to exclude the effect of any changes in accounting principles affecting the Company's or a business unit's reported results. The targeted level or levels of performance may be established in terms of Company-wide objectives or objectives that are related to the performance of the individual Participant or the subsidiary, division, department or function within the Company or subsidiary in which the Participant is employed. Performance goals need not be based on audited financial results.
- (d) The Compensation Committee shall have the power to impose such other restrictions on Annual Incentive Awards as it may deem necessary or appropriate to ensure that such Awards satisfy all requirements for Qualified Performance-Based Compensation.
- (e) The Committee shall, for each Performance Period, establish the performance goal or goals from among the foregoing to apply to each Participant and a formula or matrix prescribing the extent to which such Participant's Annual Incentive Award shall be earned based upon the achievement of such performance goal or goals. The performance goals may differ from Participant to Participant and from Award to Award.

- (f) Each Annual Incentive Award shall be earned only if at least one performance goal established in accordance with Section 5(a) and (b) has been achieved, except that the Committee may specify that the Award may become payable in the event of death, disability or a change in control to the extent permissible under Code Section 162(m) as of the end of the Performance Period. The Committee shall have no discretion to increase the amount of the Annual Incentive Award, but shall retain discretion to decrease the amount of the Annual Incentive Award at any time through the last day of the Fiscal Year in which the Performance Period ended, generally referred to as negative discretion. No Annual Incentive Award shall be payable except upon written certification by the Committee that the performance goals have been satisfied to a particular extent and that any other material terms and conditions precedent to payment of an Annual Incentive Award have been satisfied.
- (g) Payment of any Annual Incentive Award amount to be paid to a Participant based upon the degree of attainment of the applicable performance goals shall be made following the end of the Performance Period for which such Annual Incentive Award was earned, and in no event later than the date that is two and one-half months following the last day of the Fiscal Year for which such Annual Incentive Award was earned.
- (h) Annual Incentive Awards will be denominated in cash and will be payable in cash, except that the Committee may denominate an Annual Incentive Award in shares of the Company's Common Stock and/or settle an Award in shares of Common Stock if and to the extent that shares of the Company's Common Stock are authorized for use in incentive awards and available under a Company equity compensation plan approved by stockholders of the Company.
- (i) The Committee may defer payment of any Annual Incentive Award, or any portion thereof, to a Participant as the Committee, in its discretion, determines to be necessary or desirable to preserve the deductibility of such amounts under Section 162(m) of the Code, provided that payment of the Annual Incentive Award is made as soon as reasonably practicable following the first date on which the Committee anticipates or reasonably should anticipate that, if the payment were made on such date, the Company's deduction with respect to such payment would no longer be restricted due to the application of Section 162(m) of the Code. In addition, the Committee, in its sole discretion, may permit a Participant to defer receipt of the payment of cash that would otherwise be delivered to a Participant under the Plan. Any such deferral election shall be subject to such rules and procedures as shall be determined by the Committee in its sole discretion and shall be made in accordance with Section 409A of the Code.

6. Additional Forfeiture Provisions. The Committee may impose as a condition of Annual Incentive Awards, and as a condition of a Participant's right to receive or retain cash, Common Stock or other property in connection with an Award, requirements that the Participant comply with specified conditions relating to non-competition, confidentiality of information relating to or possessed by the Company, non-solicitation of customers, suppliers, and employees of the Company, cooperation in litigation, non-disparagement of the Company and its subsidiaries and affiliates, and other restrictions upon or covenants of the Participant, including during specified periods following termination of employment or service to the Company. Incentive Awards, and the Participant's right to receive or retain cash, Common Stock or other property in connection with an Award, will be subject to recoupment or clawback to the extent necessary to comply with any recoupment or clawback policy of the Company, or as required under Applicable Law (as defined below), regardless of whether such recoupment or clawback is applied with prospective or retroactive effect.

- 7. Participant's Interests.** A Participant's interest in any Awards shall at all times be reflected on the Company's books as a general unsecured and unfunded obligation of the Company subject to the terms and conditions of the Plan. The Plan shall not give any person any right or security interest in any asset of the Company or any fund in which any deferred payment is deemed invested. None of the Company, the Board, or the Committee shall be responsible for the adequacy of the general assets of the Company to discharge, or required to reserve or set aside funds for, the payment of its obligations hereunder.
- 8. Non-Alienation of Benefits; Beneficiary Designation.** All rights and benefits under the Plan are personal to the Participant and neither the Plan nor any right or interest of a Participant or any other person arising under the Plan is subject to voluntary or involuntary alienation, sale, transfer, or assignment. Subject to the foregoing, the Company may establish such procedures as it deems necessary for a Participant to designate one or more beneficiaries to whom any payment the Committee determines to make would be payable in the event of the Participant's death.
- 9. Withholding for Taxes.** Notwithstanding any other provisions of this Plan, the Company shall withhold from any payment made by it under the Plan such amount or amounts as required for purposes of complying with any federal, state, local or foreign tax or withholding requirements, unless otherwise determined by the Committee (in which case withholding may be from other payments from the Company to the Participant, if so determined by the Committee).
- 10. No Employment Rights.** Nothing in the Plan shall interfere with or limit in any way the right of the Company to terminate a Participant's employment at any time, or confer upon any Participant any right to continued employment with the Company or any of its subsidiaries or affiliates. A Participant shall not be entitled to any claim or recourse if any action or inaction by the Company, or any other circumstance or event, including any circumstance or event outside the control of the Participant, adversely affects the ability of the Participant to satisfy a performance goal or in any way prevents the satisfaction of a performance goal.
- 11. Determinations Final.** Each determination provided for in the Plan shall be made by the Committee under such procedures as may from time to time be prescribed by the Committee and shall be made in the discretion of the Committee. Any such determination shall be conclusive.
- 12. Adjustment of Awards.** The Committee shall make adjustments in the method of calculating attainment of performance goals in recognition of unusual or nonrecurring events affecting the Company or its financial statements or changes in applicable laws, regulations or accounting principles; provided, however, that any such adjustments with respect to Annual Incentive Awards shall be made in a manner consistent with Section 162(m) of the Code.

- 13. Nonexclusivity of the Plan.** The adoption of this Plan and the grant of Annual Incentive Awards hereunder shall not be construed as creating any limitations on the power of the Board or Committee to adopt such other compensation arrangement or award such other compensation as it may deem advisable with respect to any Participant.
- 14. Amendment or Termination.** The Board may amend, suspend or terminate the Plan from time to time. The Committee may amend, alter, suspend or terminate the Plan so long as such action complies with Applicable Law, except that any Plan amendment to be presented to the stockholders for approval shall first be approved by the Board. No such termination or amendment shall alter a Participant's right to receive a distribution as previously earned, as to which this Plan shall remain in effect following its termination until all such amounts have been paid, except as the Company may otherwise determine. Applicable Law means the legal requirements relating to the administration of the Plan under applicable federal, state, local and foreign corporate, tax, securities, contract and other laws, and the rules and requirements of any stock exchange or quotation system on which the Company's common stock is listed or quoted, all as amended through the applicable date. The term Applicable Law includes laws and regulations that are not mandatory but compliance with which confers benefits on the Company or Participants (e.g., Code Sections 162(m) and 409A), where such compliance is intended under the Plan.
- 15. Code Section 409A.** The Plan and the Awards granted hereunder are intended to meet the short-term deferral exception to the provisions of Section 409A of the Code and Treasury regulations issued thereunder or to otherwise comply with Section 409A of the Code and the Treasury regulations and guidance issued thereunder. Notwithstanding any provision of the Plan to the contrary, the Plan shall be interpreted and construed consistent with this intent. Notwithstanding the foregoing, the Company shall not be required to assume any increased economic burden in connection therewith. Although the Committee intends to administer the Plan so that it will comply with the requirements of Section 409A of the Code, neither the Committee nor the Company represents or warrants that the Plan will comply with Section 409A of the Code or any other provision of federal, state, local, or non-United States law. Neither the Company, its subsidiaries, nor their respective directors, officers, employees or advisers shall be liable to a Participant (or any other individual claiming a benefit through a Participant) for any tax, interest, or penalties a Participant may owe as a result of compensation paid under the Plan, and the Company shall have no obligation to indemnify or otherwise protect a Participant from the obligation to pay any taxes pursuant to Section 409A of the Code.
