REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Ultrapar Participações S.A.

São Paulo SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Ultrapar Participações S.A. (the Company), identified as Parent and Consolidated, respectively, included in the Interim Financial Information Form (ITR), for the three-month period ended March 31, 2016, which comprises the balance sheet as of March 31, 2016 and the related statements of income, comprehensive income, changes in equity and cash flows for the three-month period then ended, including the explanatory notes.

The Company's Management is responsible for the preparation of the individual and consolidated interim financial information in accordance with technical pronouncement CPC 21 (R1) Interim Financial Information and international standard IAS 34 Interim Financial Reporting, issued by the International Accounting Standards Board IASB, as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the ITR referred to above was not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards issued by the CVM.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statements of value added (DVA) for the three-month period ended March 31, 2016, prepared under the responsibility of the Company's Management, the presentation of which is

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

required by the standards issued by the CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards IFRSs, which do not require the presentation of DVA. These statements were subject to the same review procedures described above, and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the individual and consolidated interim financial information taken as a whole.

The accompanying individual and consolidated interim financial information has been translated into English for the convenience of readers outside Brazil.

The accompanying notes are an integral part of the interim financial information.

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

1. Operations

Ultrapar Participações S.A. (Ultrapar or Company), is a publicly-traded company headquartered at the Brigadeiro Luis Antônio Avenue, 1343 in the city of São Paulo SP, Brazil.

The Company engages in the investment of its own capital in services, commercial, and industrial activities, through the subscription or acquisition of shares of other companies. Through its subsidiaries, it operates in the segments of liquefied petroleum gas LPG distribution (Ultragaz), fuel distribution and related businesses (Ipiranga), production and marketing of chemicals (Oxiteno), and storage services for liquid bulk (Ultracargo) and retail distribution of pharmaceutical, hygiene, beauty, and skincare products, through Imifarma Produtos Farmacêuticos e Cosméticos S.A. (Extrafarma). For further information about segments see Note 30.

2. Presentation of Interim Financial Information and Summary of Significant Accounting Policies

The Company s individual and consolidated interim financial information were prepared in accordance with the International Accounting Standards (IAS) 34 as issued by the International Accounting Standards Board (IASB), and in accordance with CPC 21 (R1) Interim Financial Reporting issued by the Accounting Pronouncements Committee (CPC) and presented in accordance with standards established by the Brazilian Securities and Exchange Commission (CVM).

The presentation currency of the Company s individual and consolidated interim financial information is the Brazilian Real (R\$), which is the Company s functional currency.

The accounting policies described below were applied by the Company and its subsidiaries in a consistent manner for all years presented in the individual and consolidated interim financial information.

a. Recognition of Income

Revenue is measured at the fair value of the consideration received or receivable, net of sales returns, discounts, and other deductions, if applicable.

Revenue from sales of fuels and lubricants is recognized when the products are delivered to gas stations and to large consumers. Revenue from sales of LPG is recognized when the products are delivered to customers at home, to independent dealers and to industrial and commercial customers. Revenue from sales of pharmaceuticals is recognized when the products are delivered to end user customers in own drugstores and when the products are delivered to independent resellers. Revenue from sales of chemical products is recognized when the products are delivered to industrial customers, depending of the freight mode of delivery. The revenue provided from storage services is

recognized as services are performed.

Costs of products sold and services provided include goods (mainly fuels, lubricants, LPG, and pharmaceutical products), raw materials (chemicals and petrochemicals) and production, distribution, storage, and filling costs.

b. Cash and Cash Equivalents

Includes cash, banks deposits, and short-term, highly-liquid investments that are readily convertible into a known amount of cash and are subject to an insignificant risk of change in value. See Note 4 for further details on cash and cash equivalents of the Company and its subsidiaries.

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

c. Financial Assets

In accordance with IAS 32, IAS 39, and International Financial Reporting Standards (IFRS) 7 (CPC 38, 39 and 40 (R1)), the financial assets of the Company and its subsidiaries are classified in accordance with the following categories:

Measured at fair value through profit or loss: financial assets held for trading, that is, acquired or incurred principally for the purpose of selling or repurchasing in the near term, and derivatives. The balances are stated at fair value. The interest earned, the exchange variation, and changes in fair value are recognized in profit or loss.

Held to maturity: non-derivative financial assets with fixed or determinable payments, and fixed maturities for which the entity has the positive intention and ability to hold to maturity. The interest earned and the foreign currency exchange variation are recognized in profit or loss, and balances are stated at acquisition cost plus the interest earned, using the effective interest rate method.

Available for sale: non-derivative financial assets that are designated as available for sale or that are not classified into other categories at initial recognition. The balances are stated at fair value, and the interest earned and the foreign currency exchange variation are recognized in profit or loss. Differences between fair value and acquisition cost plus the interest earned are recognized in other comprehensive income in the Valuation adjustments . Accumulated gains and losses recognized in shareholders equity are reclassified to profit or loss in case of prepayment.

Loans and receivables: non-derivative financial assets with fixed or determinable payments or receipts, not quoted in an active market, except: (i) those which the entity intends to sell immediately or in the near term and which the entity classified as measured at fair value through profit or loss; (ii) those classified as available for sale; or (iii) those for which the Company may not recover substantially all of its initial investment for reasons other than credit deterioration. The interest earned and the foreign currency exchange variation are recognized in profit or loss. The balances are stated at acquisition cost plus interest, using the effective interest rate method. Loans and receivables include cash and banks, trade receivables, dividends receivable, and other trade receivables.

The Company and its subsidiaries use derivative financial instruments for hedging purposes, applying the concepts described below:

Hedge accounting fair value hedge: derivative financial instruments used to hedge exposure to changes in the fair value of an item, attributable to a particular risk, which can affect the entity's profit or loss. In the initial designation of the fair value hedge, the relationship between the hedging instrument and the hedged item is documented, including the objectives of risk management, the strategy in conducting the transaction, and the methods to be used to evaluate its effectiveness. Once the fair value hedge has been qualified as effective, the hedge item is also measured at fair value. Gains and losses from hedge instruments and hedge items are recognized in profit or loss. The hedge accounting must be discontinued when the hedge becomes ineffective.

Hedge accounting cash flow hedge: derivative financial instruments used to hedge the exposure to variability in cash flows that is attributable to a risk associated with an asset or liability or highly probable transaction that may affect the income statements. The portion of the gain or loss on the hedging instrument that is determined to be effective relating to the effects of exchange rate effect, is recognized directly in equity in accumulated other comprehensive income as Valuation adjustments while the ineffective portion is recognized in profit or loss. Gains or losses on the hedging instrument relating to the effective portion of this hedge that had been recognized directly in accumulated other comprehensive income shall be recognized in profit or loss in the period in which the hedged item is recognized in profit or loss or as initial cost of non-financial assets, in the same line of the statement that the hedged item is recognized. The hedge accounting shall be discontinued when (i) the Company cancels the hedging relationship; (ii) the hedging instrument expires; and (iii) the hedging instrument no longer qualifies for hedge accounting. When hedge accounting is discontinued, gains and losses recognized in other comprehensive income in equity are reclassified to profit or loss in the period which the hedged item is recognized in profit or loss. If the transaction hedged is canceled or is not expected to occur, the cumulative gains and losses in other comprehensive income in equity shall be recognized immediately in profit or loss.

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

Hedge accounting hedge of net investments in foreign operation: derivative financial instruments used to hedge exposure on net investments in foreign subsidiaries due to the fact that the local functional currency is different from the functional currency of the Company. The portion of the gain or loss on the hedging instrument that is determined to be effective, referring to the exchange rate effect, is recognized directly in equity in accumulated other comprehensive income as cumulative translation adjustments, while the ineffective portion and the operating costs are recognized in profit or loss. The gain or loss on the hedging instrument that has been recognized directly in accumulated other comprehensive income shall be recognized in income upon disposal of the foreign operation.

For further detail on financial instruments of the Company and its subsidiaries, see Notes 4, 14, and 31.

d. Trade Receivables

Trade receivables are recognized at the amount invoiced, adjusted to present value if applicable, and includes all direct taxes attributable to the Company and its subsidiaries. An allowance for doubtful accounts is recorded based on estimated losses and is set at an amount deemed by management to be sufficient to cover any probable loss on realization of trade receivables (see Notes 5 and 31 - Customer Credit Risk).

e. Inventories

Inventories are stated at the lower of acquisition cost or net realizable value (see Note 6). The cost value of inventory is measured using the weighted average cost and includes the costs of acquisition and processing directly related to the units produced based on the normal capacity of production. Estimates of net realizable value are based on the average selling prices at the end of the reporting period, net of applicable direct selling expenses. Subsequent events related to the fluctuation of prices and costs are also considered, if relevant. If net realizable values are below inventory costs, a provision corresponding to this difference is recognized. Provisions are also made for obsolescence of products, materials, or supplies that (i) do not meet the Company and its subsidiaries specifications, (ii) have exceeded their expiration date, or (iii) are considered slow-moving inventory. This classification is made by management with the support of its industrial and operations teams.

f. Investments

Investments in subsidiaries are accounted for under the equity method of accounting in the individual interim financial information of the parent company.

A subsidiary is an investee in which the investor is entitled to variable returns on investment and has the ability to interfere in its financial and operational activities. Usually the equity interest in a subsidiary is more than 50%.

Investments in associates and joint ventures are accounted for under the equity method of accounting in the individual and consolidated interim financial information (see Note 11).

An associate is an investment, in which an investor has significant influence, that is, has the power to participate in the financial and operating decisions of the investee but does not exercise control.

A joint venture is an investment in which the shareholders have the right to net assets on behalf of a joint control. Joint control is the agreement which establish that decisions about the relevant activities of the investee require the consent from the parties that share control.

Other investments are stated at acquisition cost less provision for losses, unless the loss is considered temporary.

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

g. Property, Plant, and Equipment

Property, plant, and equipment is recognized at acquisition or construction cost, including financial charges incurred on property, plant, and equipment under construction, as well as maintenance costs resulting from scheduled plant outages and estimated costs to remove, to decommission, or to restore assets (see Notes 2.m and 19).

Depreciation is calculated using the straight-line method, over the periods mentioned in Note 12, taking into account the estimated useful lives of the assets, which are reviewed annually.

Leasehold improvements are depreciated over the shorter of the lease contract term and useful life of the property.

h. Leases

Finance Leases

Certain lease contracts transfer substantially all the risks and benefits associated with the ownership of an asset to the Company and its subsidiaries. These contracts are characterized as finance leases, and assets thereunder are capitalized at lease commencement at their fair value or, if lower, present value of the minimum lease payments under the contracts. The items recognized as assets are depreciated and amortized using the lower of the straight-line method over the lower of the useful lives applicable to each group of assets or the contract terms, as mentioned in Notes 12 and 13. Financial charges under the finance lease contracts are allocated to profit or loss over the lease contract term, based on the amortized cost and the effective interest rate method of the related lease obligation (see Note 14.h).

Operating Leases

There are lease transactions where the risks and benefits associated with the ownership of the asset are not transferred and where there is no purchase option, or the purchase option at the end of the contract is equivalent to the market value of the leased asset. Payments made under an operating lease contract are recognized as cost or expense in the income statement on a straight-line basis over the term of the lease contract (see Note 32.c).

i. Intangible Assets

Intangible assets include assets acquired by the Company and its subsidiaries from third parties, according to the criteria below (see Note 13):

Goodwill is carried net of accumulated amortization as of December 31, 2008, when it ceased to be amortized. Goodwill generated since January 1, 2009 is shown as intangible assets corresponding to the positive difference between the amount paid or payable to the seller and the fair value of the identified assets and liabilities assumed of the acquired entity, and is tested annually for impairment. Goodwill is allocated to the business segments, which represent the lowest level that goodwill is monitored by the Company for impairment testing purposes.

Bonus disbursements as provided in Ipiranga's agreements with reseller service stations and major consumers are recognized as distribution rights when paid and amortized using the straight-line method according to the term of the agreement.

Other intangible assets acquired from third parties, such as software, technology, and commercial property rights, are measured at the total acquisition cost and amortized using straight-line method, over the periods mentioned in Note 13, taking into account their useful life, which is reviewed annually.

The Company and its subsidiaries have not recognized intangible assets that were generated internally. The Company and its subsidiaries have goodwill and brands acquired in business combinations, which are evaluated as intangible assets with indefinite useful life (see Note 13 items i and vi).

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

j. Other Assets

Other assets are stated at the lower of cost and realizable value, including, if applicable, interest earned, monetary changes and changes in exchange rates incurred or less a provision for loss and, if applicable, adjustment to present value (see Note 2.u).

k. Financial Liabilities

The Company and its subsidiaries' financial liabilities include trade payables and other payables, loans, debentures, finance leases and derivative financial instruments. Financial liabilities are classified as financial liabilities at fair value through profit or loss or financial liabilities at amortized cost. The financial liabilities at fair value through profit or loss refer to derivative financial instruments, subscription warrants, and financial liabilities designated as hedged items in a fair value hedge relationship upon initial recognition (see Note 2.c Fair Value Hedge). The financial liabilities at amortized cost are stated at the initial transaction amount plus related charges and net of amortization and transaction costs. The charges are recognized in profit or loss using the effective interest rate method.

Transaction costs incurred and directly attributable to the activities necessary for contracting loans or for issuing bonds, as well as premiums and discounts upon issuance of debentures and other debt, are allocated to the instrument and amortized to profit or loss over its term, using the effective interest rate method (see Note 14.i). Transaction costs incurred and directly attributable to the issue of shares or other equity instruments are recognized in equity and are not amortized.

l. Income and Social Contribution Taxes on Income

Current and deferred income tax (IRPJ) and social contribution on net income tax (CSLL) are calculated based on their current rates, considering the value of tax incentives. Taxes are recognized based on the rates of IRPJ and CSLL provided for by the laws enacted on the last day of the reporting period. The current rates in Brazil are 25% for income tax and 9% for social contribution on net income tax. For further details about recognition and realization of IRPJ and CSLL, see Note 9.

m. Provision for Asset Retirement Obligation Fuel Tanks

The Company and its subsidiaries have the legal obligation to remove Ipiranga's underground fuel tanks located at Ipiranga-branded service stations after a certain period. The estimated cost of the obligation to remove these fuel tanks is recognized as a liability when the tanks are installed. The estimated cost is recognized in property, plant, and equipment and depreciated over the respective useful lives of the tanks. The amounts recognized as a liability are

monetarily restated using the National Consumer Price Index (IPC) until the respective tank is removed (see Note 19). An increase in the estimated cost of the obligation to remove the tanks could result in negative impact in future results. The estimated removal cost is reviewed and updated annually or when there is significant change in its amount and change in the estimated costs are recognized in income when they become known.

n. Provisions for Tax, Civil, and Labor Risks

A provision for tax, civil and labor risks is recognized for quantifiable risks, when the chance of loss is more-likely-than-not in the opinion of management and internal and external legal counsel, and the amounts are recognized based on the evaluation of the outcomes of the legal proceedings (see Note 20).

o. Post-Employment Benefits

Post-employment benefits granted and to be granted to employees, retirees, and pensioners are based on an actuarial calculation prepared by an independent actuary, using the projected unit credit method (see Note 18.b). The actuarial gains and losses are recognized in cumulative other comprehensive income in the Valuation adjustments and presented in the statement of shareholders' equity. Past service cost is recognized in the income statement.

p. Other Liabilities

Other liabilities are stated at known or measurable amounts plus, if applicable, related charges, monetary restatement, and changes in exchange rates incurred. When applicable, other liabilities are recognized at present value, based on interest rates that reflect the term, currency, and risk of each transaction.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***q. Foreign Currency Transactions**

Foreign currency transactions carried out by the Company or its subsidiaries are remeasured into their functional currency at the exchange rate prevailing at the date of each transaction. Outstanding monetary assets and liabilities of the Company and its subsidiaries are translated using the exchange rate at the end of the reporting period. The effect of the difference between those exchange rates is recognized in profit or loss until the conclusion of each transaction.

r. Basis for Translation of Interim Financial Information of Foreign Subsidiaries

Assets and liabilities of the foreign subsidiaries, denominated in currencies other than that of the Company (functional currency: Brazilian Real), which have administrative autonomy, are translated using the exchange rate at the end of the reporting period. Revenues and expenses are translated using the average exchange rate of each year and shareholders' equity is translated at the historic exchange rate of each transaction affecting shareholders' equity. Gains and losses resulting from changes in these foreign investments are directly recognized in shareholders' equity in cumulative other comprehensive income in the cumulative translation adjustments and will be recognized in profit or loss if these investments are disposed of. The balance in cumulative other comprehensive income and presented in the shareholders' equity as cumulative translation adjustments as of March 31, 2016 was a gain of R\$ 29,937 (gain of R\$ 66,925 as of December 31, 2015).

The foreign subsidiaries with functional currency different from the Company and which have administrative autonomy are listed below:

Subsidiary	Functional currency	Location
Oxiten México S.A. de C.V.	Mexican Peso	Mexico
Oxiten Servicios Corporativos S.A. de C.V.	Mexican Peso	Mexico
Oxiten Servicios Industriales de C.V.	Mexican Peso	Mexico
Oxiten USA LLC	U.S. Dollar	United States
Oxiten Andina, C.A.	Bolivar	Venezuela
Oxiten Uruguay S.A.	U.S. Dollar	Uruguay

The subsidiary Oxiten Uruguay S.A. (Oxiten Uruguay) determined its functional currency as the U.S. dollar (US\$), as its sales, purchases of goods, and financing activities are performed substantially in this currency.

According to IAS 29, Venezuela is classified as a hyperinflationary economy. As a result, the financial information of Oxiteno Andina, C.A. (Oxiteno Andina) was adjusted by the Venezuelan Consumer Price Index.

On March 9, 2016, the Venezuelan Central Bank issued Foreign Exchange Regulation No. 35, effective from March 10, 2016, altering the Venezuelan foreign exchange markets and regulating the legally recognized types of exchange rates:

a) DIPRO *Tipo de Cambio Protegido* (Exchange Protected): Bolivar (VEF) is traded at an exchange rate of 9.975 VEF/US\$ to buy and 10.00 VEF/US\$ for purchase. This rate is applied to importation of essential goods (medicines and food) and raw materials and inputs related to the production of these sectors. This rate is channeled through CENCOEX *Centro Nacional de Comercio Exterior en Venezuela*;

b) DICOM *Tipo de Cambio Complementario Flotante de Mercado Supplemental* (Floating Market Exchange): Bolivar is traded at variable exchange rate of 206,7813 VEF/US\$ for selling and reduced by 0.25% for purchase. This rate is applied to settlement currency of all unforeseen transactions in Foreign Exchange Regulation. This rate is channeled through alternative currency markets.

The types of exchange rates previously regulated by the Foreign Exchange Regulation No. 33 were extinct.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information**

(In thousands of Brazilian Reais, unless otherwise stated)

Due to the political and economic situation in Venezuela, the Company's management reassessed the exchange rate used in the translation of financial statements and changed, on December 31, 2015, the rate from SICAD *Sistema Complementario de Administración de Divisas* to SIMADI *Sistema Marginal de Divisas*, due to the fact that currently this exchange rate is the one that most closely matches the best expression of the Venezuelan economy. Thus, from December 31, 2015, the amounts in Bolivar have been translated to the U.S. dollar at the exchange rate of SIMAD and subsequently translated into Brazilian Reais using the official exchange rate published by the Central Bank of Brazil. Due to the Foreign Exchange Regulation No. 35, from March 10, 2016, the Company began to use the DICOM exchange rate in the translation.

Assets and liabilities of the other foreign subsidiaries, which do not have administrative autonomy, are considered an extension of the activities of their parent company and are translated using the exchange rate at the end of the reporting period. Gains and losses resulting from changes in these foreign investments are directly recognized as financial income or loss. The gain recognized in income for the three-month period ended March 31, 2016 amounted to R\$ 7,383 (R\$ 2,627 gain for the three-month period ended March 31, 2015).

s. Use of Estimates, Assumptions and Judgments

The preparation of the interim financial information requires the use of estimates, assumptions, and judgments for the accounting of certain assets, liabilities, and income. Therefore, the Company's and subsidiaries' management use the best information available at the time of preparation of the interim financial information, as well as the experience of past and current events, also considering assumptions regarding future events. The interim financial information therefore include estimates, assumptions, and judgments related mainly to determining the fair value of financial instruments (Notes 2.c, 2.k, 4, 14 and 31), the determination of the allowance for doubtful accounts (Notes 2.d, 5 and 31), the determination of provisions for losses of inventories (Notes 2.e and 6), the determination of deferred income taxes amounts (Notes 2.l and 9), the determination of control in subsidiaries (Notes 2.f, 2.r, 3 and 11.a), the determination of joint control in joint venture (Notes 2.f, 11.a and 11.b), the determination of significant influence in associates (Notes 2.f and 11.c), the determination of exchange rate used to translation of Oxiteno Andina information (Note 2.r), the useful lives of property, plant, and equipment (Notes 2.g and 12), the useful lives of intangible assets, and the determination of the recoverable amount of goodwill (Notes 2.i and 13), provisions for assets retirement obligations (Notes 2.m and 19), provisions for tax, civil, and labor risks (Notes 2.n and 20), estimates for the preparation of actuarial reports (Notes 2.o and 18.b) and the determination of fair value of subscription warrants indemnification (Notes 22 and 31). The actual result of the transactions and information may differ from their estimates.

t. Impairment of Assets

The Company and its subsidiaries review, at least annually, the existence of any indication that an asset may be impaired. If there is an indication, the Company and its subsidiaries estimate the recoverable amount of the asset. Assets that cannot be evaluated individually are grouped in the smallest group of assets that generate cash flow from continuous use and that are largely independent of cash flows of other assets (cash generating units - CGU). The recoverable amount of assets or CGUs corresponds to the greater of their fair value net of applicable direct selling costs and their value in use.

The fair value less costs of disposal is determined by the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date, net of costs of removing the asset, and direct incremental costs to bring an asset into condition for its sale, legal costs, and taxes.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information**

(In thousands of Brazilian Reais, unless otherwise stated)

To assess the value in use, the Company and its subsidiaries consider the projections of future cash flows, trends, and outlooks, as well as the effects of obsolescence, demand, competition, and other economic factors. Such cash flows are discounted to their present values using the discount rate before tax that reflects market conditions for the period of impairment testing and the specific risks of the asset or CGU being evaluated. In cases where the expected discounted future cash flows are less than their carrying amount, an impairment loss is recognized for the amount by which the carrying value exceeds the fair value of these assets. Losses for impairment of assets are recognized in profit or loss. In case goodwill has been allocated to a CGU, the recognized losses are first allocated to reduce the corresponding goodwill. If the goodwill is not enough to absorb such losses, the surplus is allocated to the assets on a pro-rata basis. An impairment of goodwill cannot be reversed. For other assets, impairment losses may be reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if the impairment had not been recognized.

No impairment was recognized in the years presented (see Note 13.i).

u. Adjustment to Present Value

Some of the Company's subsidiaries recognized a present value adjustment to Tax on Goods and Services (ICMS , the Brazilian VAT) credit balances related to property, plant, and equipment (CIAP). Because recovery of these credits occurs over a 48 month period, the present value adjustment reflects, in the interim financial information, the time value of the ICMS credits to be recovered. The balance of these adjustment to present value totaled R\$ 858 in as of March 31, 2016 (R\$ 109 as of December 31, 2015).

The Company and its subsidiaries reviewed all items classified as non-current and, when relevant, current assets and liabilities, and did not identify the need to recognize other present value adjustments.

v. Business Combination

A business combination is accounted applying the acquisition method. The cost of the acquisition is measured based on the consideration transferred and to be transferred, measured at fair value at the acquisition date. In a business combination, the assets acquired and liabilities assumed are measured in order to classify and allocate them accordingly to the contractual terms, economic circumstances and relevant conditions on the acquisition date. The non-controlling interest in the acquired is measured at fair value or based on its interest in identifiable net assets acquired. Goodwill is measured as the excess of the consideration transferred and to be transferred over the fair value of net assets acquired (identifiable assets and liabilities assumed, net). After the initial recognition, goodwill is measured at cost less any accumulated impairment losses. For impairment testing purposes, goodwill is allocated to the Company's operating segments. When the cost of the acquisition is lower than the fair value of net assets acquired,

a gain is recognized directly in the income statement. Costs related to the acquisition are recorded in the income statement when incurred.

w. *Statements of Value Added*

As required by Brazilian Corporate Law, the Company and its subsidiaries prepare the individual and consolidated statements of value added (DVA) according to CPC 09 Statement of Value Added, as an integral part of the interim financial information as applicable to publicly-traded companies, and as supplemental information for IFRS, which does not require the presentation of DVA.

x. *Statements of Cash Flows*

The Company and its subsidiaries prepared its individual and consolidated statements of cash flows in accordance with IAS 7 (CPC 03) Cash Flow Statement. The Company and its subsidiaries present the interest paid on loans and debentures in financing activities.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***y. Adoption of the Pronouncements Issued by CPC and IFRS**

The following standards, amendments, and interpretations to IFRS were issued by the IASB but are not yet effective and were not adopted as of March 31, 2016:

	Effective date
IFRS 9: Financial instrument classification and measurement: includes new requirements for the classification and measurement of financial assets and liabilities, derecognition requirements, new impairment methodology for financial instruments, and new hedge accounting guidance.	2018
IFRS 15 Revenue from contracts with customers: establish the principles of nature, amount, timing and uncertainty of revenue and cash flow arising from a contract with a customer.	2018
IFRS 16 Lease: requires lessees record, in the financial statements, a liability reflecting future payments of a lease and the right to use an asset for the lease contracts, except for certain short-term leases and low asset value contracts. The criteria for recognition and measurement of leases in the financial statements of lessors are substantially maintained.	2019

CPC has not yet issued pronouncements equivalent to these IFRS, but is expected to do so before the date they become effective. The adoption of IFRS pronouncements is subject to prior approval by the CVM. The Company is assessing the potential effects of these standards.

z. Authorization for Issuance of the Interim Financial Information

These interim financial information were authorized for issue by the Board of Directors on May 11, 2016.

3. Principles of Consolidation and Investments in Subsidiaries

The consolidated interim financial information were prepared following the basic principles of consolidation established by IFRS 10 (CPC 36 (R3)). Investments of one company in another, balances of asset and liability accounts, and revenues and expenses were eliminated, as well as the effects of transactions conducted between the companies. Non-controlling interests in subsidiaries are presented within consolidated shareholders' equity and net income.

Consolidation of a subsidiary begins when the parent company obtains direct or indirect control over a company and ceases when the parent company loses control of a company. Income and expenses of a subsidiary acquired are included in the consolidated income statement and other comprehensive income from the date the parent company

gains the control. Income and expenses of a subsidiary, in which the parent company loses control, are included in the consolidated income statement and other comprehensive income until the date the parent company loses control.

When necessary, adjustments are made to the interim financial information of subsidiaries to bring their accounting policies into line with the Company's accounting policies.

4. Cash and Cash Equivalents and Financial Investments

Cash equivalents and financial investments, excluding cash and bank deposits, are substantially represented by investments: (i) in Brazil, in certificates of deposit of first-rate financial institutions linked to the Interbank Certificate of Deposit (CDI), in repurchase agreement and in short term investments funds, whose portfolio comprised exclusively of Brazilian Federal Government bonds; (ii) outside Brazil, in certificates of deposit of first-rate financial institutions; and (iii) in currency and interest rate hedging instruments.

The financial assets were classified in Note 31, according to their characteristics and intention of the Company and its subsidiaries.

The balance of cash, cash equivalents and financial investments (consolidated) amounted to R\$ 2,927,304 as of March 31, 2016 (R\$ 3,973,162 as of December 31, 2015) and are distributed as follows:

Cash and Cash Equivalents

Cash and cash equivalents are considered: (i) cash and bank deposits, and (ii) highly-liquid short-term investments that are readily convertible into a known amount of cash and are subject to an insignificant risk of change in value.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)*

Purchase and sale transactions relate substantially to the purchase of raw materials, feedstock, transportation, and storage services based on similar market prices and terms with customers and suppliers with comparable operational performance. The above operations related to ConectCar Soluções de Mobilidade Eletrônica S.A. (ConectCar) refer to the adherence to Ipiranga's marketing plan and services provided. Borrowing agreements are for an indeterminate period and do not contain interest clauses. In the opinion of the Company and its subsidiaries' management, transactions with related parties are not subject to credit risk, which is why no allowance for doubtful accounts or collateral is provided. Collateral provided by the Company in loans of subsidiaries and affiliates are mentioned in Note 14.j). Intercompany loans are contracted in light of temporary cash surpluses or deficits of the Company, its subsidiaries, and its associates.

b. Key executives (Consolidated)

The Company's compensation strategy combines short and long-term elements, following the principles of alignment of interests and of maintaining a competitive compensation, and is aimed at retaining key officers and remunerating them adequately according to their attributed responsibilities and the value created to the Company and its shareholders.

Short-term compensation is comprised of: (a) fixed monthly compensation paid with the objective of rewarding the executive's experience, responsibility, and his/her position's complexity, and includes salary and benefits such as medical coverage, check-up, life insurance, and others; (b) variable compensation paid annually with the objective of aligning the executive's and the Company's objectives, which is linked to: (i) the business performance measured through its economic value creation and (ii) the fulfillment of individual annual goals that are based on the strategic plan and are focused on expansion and operational excellence projects, people development and market positioning, among others. In addition, the chief executive officer is entitled to additional long term variable compensation relating to the Company's shares' performance between 2013 and 2018, reflecting the target of more than doubling the share value of the Company in 5 years. Further details about the Deferred Stock Plan are contained in Note 8.c) and about post-employment benefits in Note 18.b).

The Company and its subsidiaries recognized expenses for compensation of its key executives (Company's directors and executive officers) as shown below:

	03/31/2016	03/31/2015
Short-term compensation	10,420	7,575
Stock compensation	1,379	1,568
Post-employment benefits	842	656

Long-term compensation	541	498
Total	13,182	10,297

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***c. Deferred Stock Plan**

On April 27, 2001, the General Shareholders Meeting approved a benefit plan to members of management and employees in executive positions in the Company and its subsidiaries. On November 26, 2003, the Extraordinary General Shareholders Meeting approved certain amendments to the original plan of 2001 (the Deferred Stock Plan). In the Deferred Stock Plan, certain members of management of the Company and its subsidiaries have the voting and economic rights of shares and the ownership of these shares is retained by the subsidiaries of the Company. The Deferred Stock Plan provides for the transfer of the ownership of the shares to those eligible members of management after five to ten years from the initial concession of the rights subject to uninterrupted employment of the participant during the period. The total number of shares to be used for the Deferred Stock Plan is subject to the availability in treasury of such shares. It is incumbent on Ultrapar's executive officers to select the members of management eligible for the plan and propose the number of shares in each case for approval by the Board of Directors. The fair value of the awards were determined on the grant date based on the market value of the shares on the BM&FBOVESPA S.A. Bolsa de Valores, Mercadorias e Futuros (BM&FBOVESPA), the Brazilian Securities, Commodities and Futures Exchange and the amounts are amortized between five and ten years from the grant date.

The table below summarizes shares granted to the Company and its subsidiaries management:

Grant date	Balance of number of shares granted	Vesting period	Market price of shares on the grant date (in R\$ per share)			
			Total grant costs, including taxes	Accumulated recognized grant costs	Accumulated unrecognized grant costs	
March 4, 2016	190,000	2021 to 2023	65.43	17,147	(243)	16,904
December 9, 2014	590,000	2019 to 2021	50.64	41,210	(9,332)	31,878
March 5, 2014	83,400	2019 to 2021	52.15	5,999	(2,123)	3,876
February 3, 2014	150,000	2018 to 2020	55.36	11,454	(5,101)	6,353
November 7, 2012	320,000	2017 to 2019	42.90	19,098	(11,151)	7,947
December 14, 2011	120,000	2016 to 2018	31.85	5,272	(3,880)	1,392
November 10, 2010	173,336	2015 to 2017	26.78	9,602	(8,567)	1,035
December 16, 2009	83,328	2014 to 2016	20.75	7,155	(6,928)	227
November 9, 2006	207,200	2016	11.62	3,322	(3,128)	194
	1,917,264			120,259	(50,453)	69,806

For the three-month period ended March 31, 2016, the amortization in the amount of R\$ 4,279 (R\$ 4,494 for the three-month period ended March 31, 2015) was recognized as a general and administrative expense.

The table below summarizes the changes of number of shares granted:

Balance as of December 31, 2015	1,727,264
Shares granted on March 4, 2016	190,000
Balance as of March 31, 2016	1,917,264

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***9. Income and Social Contribution Taxes****a. Deferred Income and Social Contribution Taxes**

The Company and its subsidiaries recognize deferred tax assets and liabilities which are not subject to the statute of limitations, resulting from tax loss carryforwards, temporary differences, negative tax bases and revaluation of property, plant, and equipment, among others. Deferred tax assets are sustained by the continued profitability of their operations. Deferred IRPJ and CSLL are recognized under the following main categories:

	Parent		Consolidated	
	03/31/2016	12/31/2015	03/31/2016	12/31/2015
Assets Deferred income and social contribution taxes on:

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)*

Changes in the net balance of deferred IRPJ and CSLL are as follows:

	03/31/2016	03/31/2015
Initial balance	292,989	309,726
Deferred IRPJ and CSLL recognized in income of the period	22,092	(37,582)
Others	(1,713)	2,696
Final balance	313,368	274,840

The estimated recovery of deferred tax assets relating to IRPJ and CSLL is stated as follows:

	Parent	Consolidated
Up to 1 year	3	156,992
From 1 to 2 years	3,474	79,724
From 2 to 3 years	3,497	38,749
From 3 to 5 years	6,947	57,951
From 5 to 7 years	3,722	113,806
From 7 to 10 years	373	57,995
	18,016	505,217

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***b. Reconciliation of Income and Social Contribution Taxes**

IRPJ and CSLL are reconciled to the statutory tax rates as follows:

	Parent		Consolidated	
	03/31/2016	03/31/2015	03/31/2016	03/31/2015
Income before taxes and share of profit (loss) of subsidiaries, joint ventures, and associates	(17,530)	(22,648)	574,266	572,372
Statutory tax rates %	34	34	34	34
Income and social contribution taxes at the statutory tax rates	5,960	7,700	(195,250)	(194,606)
Adjustments to the statutory income and social contribution taxes:				
Nondeductible expenses ⁽ⁱ⁾	(56)	(1)	(15,296)	(8,920)
Nontaxable revenues ⁽ⁱⁱ⁾			644	1,369
Adjustment to estimated income ⁽ⁱⁱⁱ⁾			3,428	2,851
Other adjustments	6		1,196	800
Income and social contribution taxes before tax incentives	5,910	7,699	(205,278)	(198,506)
Tax incentives SUDENE			22,132	15,662
Income and social contribution taxes in the income statement	5,910	7,699	(183,146)	(182,844)
Current	(3,425)	(4,581)	(227,370)	(160,924)
Deferred	9,335	12,280	22,092	(37,582)
Tax incentives SUDENE			22,132	15,662
Effective IRPJ and CSLL rates %	33.7	34.0	31.9	31.9

- (i) Nondeductible expenses consist of certain expenses that cannot be deducted for tax purposes under applicable tax legislation, such as expenses with fines, donations, gifts, losses of assets, negative effects of foreign subsidiaries and certain provisions;
- (ii) Nontaxable revenues consist of certain gains and income that are not taxable under applicable tax legislation, such as the reimbursement of taxes and the reversal of certain provisions;
- (iii) Brazilian tax law allows for an alternative method of taxation for companies that generated gross revenues of up to R\$ 78 million in their previous fiscal year. Certain subsidiaries of the Company adopted this alternative form of

taxation, whereby income and social contribution taxes are calculated on a basis equal to 32% of operating revenues, as opposed to being calculated based on the effective taxable income of these subsidiaries. The adjustment to estimated income represents the difference between the taxation under this alternative method and the income and social contribution taxes that would have been paid based on the effective statutory rate applied to the taxable income of these subsidiaries.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information**

(In thousands of Brazilian Reais, unless otherwise stated)

c. Tax Incentives SUDENE

The following subsidiaries are entitled to federal tax benefits providing for IRPJ reduction under the program for development of northeastern Brazil operated by the Superintendency for the Development of the Northeast (SUDENE):

Subsidiary	Units	Incentive %	Expiration
Oxiteno Nordeste S.A. Indústria e Comércio	Camaçari plant	75	2016
Bahiana Distribuidora de Gás Ltda.	Caucaia base ⁽¹⁾	75	2012
	Aracaju base	75	2017
	Suape base	75	2018
	Mataripe base ⁽²⁾	75	2024
Terminal Químico de Aratu S.A. Tequimar	Suape terminal	75	2020
	Aratu terminal	75	2022
Oleoquímica Indústria e Comércio de Produtos Químicos Ltda.	Camaçari plant	75	2021

(1) On December 22, 2015, the subsidiary requested SUDENE the extension of the recognition of tax incentives for another 10 years, due to the expansion of the Caucaia base.

(2) Due to modernization realized in the Mataripe base, SUDENE approved the 75% income tax reduction until 2024 through an appraisal report issued on December 30, 2015. On January 19, 2016, the constitutive benefit appraisal report was forwarded to the Brazilian Federal Revenue Service for approval within a term of 120 days.

On December 30, 2014, the subsidiary Terminal Químico de Aratu S.A. Tequimar (Tequimar) filed a request at SUDENE requiring the income tax reduction incentive, due to the implementation of the Itaqui Terminal in São Luis Maranhão. The subsidiary is awaiting for SUDENE s pronouncement, which has no deadline to take place.

d. Income and Social Contribution Taxes Carryforwards

As of March 31, 2016, certain subsidiaries of the Company had tax loss carryforwards related to income tax (IRPJ) of R\$ 215,539 (R\$ 190,359 as of December 31, 2015) and negative basis of CSLL of R\$ 159,951 (R\$ 129,368 as of December 31, 2015), whose compensations are limited to 30% of taxable income in a given tax year, which do not expire. Based on these values, the Company and its subsidiaries recognized deferred income and social contribution tax assets in the amount of R\$ 68,281 as of March 31, 2016 (R\$ 59,233 as of December 31, 2015).

c. Associates (Consolidated)

Subsidiary IPP holds an interest in Transportadora Sulbrasileira de Gás S.A., which is primarily engaged in natural gas transportation services.

Subsidiary Oxiteno S.A. Indústria e Comércio (Oxiteno S.A) holds an interest in Oxicap Indústria de Gases Ltda. (Oxicap), which is primarily engaged in the supply of nitrogen and oxygen for its shareholders in the Mauá petrochemical complex.

Subsidiary Oxiteno Nordeste S.A. Indústria e Comércio (Oxiteno Nordeste) holds an interest in Química da Bahia Indústria e Comércio S.A., which is primarily engaged in manufacturing, marketing, and processing of chemicals. The operations of this associate are currently suspended.

Subsidiary Companhia Ultragaz S.A. (Cia. Ultragaz) holds an interest in Metalúrgica Plus S.A., which is primarily engaged in the manufacture and trading of LPG containers. The operations of this associate are currently suspended.

Subsidiary IPP holds an interest in Plenogás Distribuidora de Gás S.A., which is primarily engaged in the marketing of LPG. The operations of this associate are currently suspended.

The investment of subsidiary Oxiteno S.A. in the associate Oxicap is accounted for under the equity method of accounting based on its financial information as of February 29, 2016, while the other associates are valued based on the interim financial information as of March 31, 2016.

Balances and changes in associates are as follows:

	Movements in investments				Total
	Transportadora Sulbrasileira de Gás S.A.	Oxicap Indústria de Gases Ltda.	Química da Bahia Indústria e Comércio S.A.	Metalúrgica Plus S.A.	
Balance as of December 31, 2015	5,743	12,000	3,684	110	21,537
Dividends received	(352)				(352)
Share of profit (loss) of associates	275	401	4	12	692
Balance as of March 31, 2016	5,666	12,401	3,688	122	21,877

	Movements in investments					
	Transportadora Oxicap Sulbrasileira de Gás S.A.	Indústria de Gases Ltda.	Química da Bahia Indústria e Comércio S.A.	Metalúrgica Plus S.A.	Total	
Balance as of December 31, 2014	6,212	3,090	3,676	165	13,143	
Capital increase		10,368 ⁽¹⁾			10,368	
Share of profit (loss) of associates	234	(966)	(2)	(14)	(748)	
Balance as of March 31, 2015	6,446	12,492	3,674	151	22,763	

⁽¹⁾ As mentioned in Note 8.a) Consolidated, in the 1st quarter 2015, Oxiteno realized a capital increase in Oxicap. Thus the interest in the associate has been changed from 25% to 15% approximately.

Construction in progress relates substantially to expansions and renovations of industrial facilities and terminals and construction and upgrade of service stations and fuel distribution bases.

Advances to suppliers of property, plant, and equipment relate basically to manufacturing of equipment for expansion of plants, terminals and bases, modernization of service stations, and acquisition of real estate.

(In thousands of Brazilian Reais, unless otherwise stated)

i) Goodwill from acquisition of companies was amortized until December 31, 2008, when its amortization ceased. The net remaining balance is tested annually for impairment.

The Company has the following balances of goodwill:

	Segment	03/31/2016	12/31/2015
Goodwill on the acquisition of:			
Extrafarma	Extrafarma	661,553	661,553
Ipiranga	Ipiranga	276,724	276,724
União Terminais	Ultracargo	211,089	211,089
Texaco	Ipiranga	177,759	177,759
Oxiteno Uruguay	Oxiteno	44,856	44,856
Temmar	Ultracargo	43,781	43,781
DNP	Ipiranga	24,736	24,736
Repsol	Ultragaz	13,403	13,403
Others		2,278	2,278
		1,456,179	1,456,179

On December 31, 2015, the Company tested the balances of goodwill shown in the table above for impairment. The determination of value in use involves assumptions, judgments, and estimates of cash flows, such as growth rates of revenues, costs and expenses, estimates of investments and working capital, and discount rates. The assumptions about growth projections and future cash flows are based on the Company's business plan of its operating segments, as well as comparable market data, and represent management's best estimate of the economic conditions that will exist over the economic life of the various CGUs, to which goodwill is related.

The evaluation of the value in use is calculated for a period of five years (except the Extrafarma segment), after which we calculate the perpetuity, considering the possibility of carrying the business on indefinitely. For the Extrafarma segment, a period of 10 years was used due to its expansion plan and considering a three-years period to maturity of new stores.

On December 31, 2015, the discount and real growth rates used to extrapolate the projections ranged from 10.3% to 17.1% (except discount rate of Oxiteno Andina of 43.5%) and 0% to 1% p.a., respectively, depending on the CGU analyzed.

The goodwill impairment tests and net assets of the Company and its subsidiaries did not result in the recognition of losses for the year ended December 31, 2015. The Company assessed a sensitivity analysis of discount and growth rate of perpetuity, due to their significant impact on cash flows and value in use. An increase of 0.5 percentage points in the discount rate or a decrease of 0.5 percentage points in the growth rate of the perpetuity of the cash flow of each business segment would not result in the recognition of impairment.

ii) Software includes user licenses and costs for the implementation of the various systems used by the Company and its subsidiaries, such as: integrated management and control, financial management, foreign trade, industrial automation, operational and storage management, accounting information, and other systems.

iii) The subsidiaries Oxiteno S.A., Oxiteno Nordeste and Oleoquímica Indústria e Comércio de Produtos Químicos Ltda. (Oleoquímica) recognize as technology certain rights of use held by them. Such licenses include the production of ethylene oxide, ethylene glycols, ethanolamines, glycol ethers, ethoxylates, solvents, fatty acids from vegetable oils, fatty alcohols, and specialty chemicals, which are products that are supplied to various industries.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)*

iv) Commercial property rights include those described below:

Subsidiary Tequimar has an agreement with CODEBA – Companhia das Docas do Estado da Bahia, which allows it to explore the area in which the Aratu Terminal is located for 20 years, renewable for a similar period. The price paid by Tequimar was R\$ 12,000, which is being amortized from August 2002 to July 2042.

Subsidiary Tequimar has a lease contract for an area adjacent to the Port of Santos for 20 years from December 2002, renewable for a similar period, which allows the construction, operation, and use of a terminal for liquid bulk unloading, tank storage, handling, and distribution. The price paid by Tequimar was R\$ 4,334, which is being amortized from August 2005 to December 2022.

Subsidiary Extrafarma pays key money to obtain certain commercial establishments to open drugstores which is stated at the cost of acquisition, amortized using the straight line method, considering the lease contract terms. In the case of the closedown of stores, the residual amount is written off.

v) Distribution rights refer mainly to bonus disbursements as provided in Ipiranga's agreements with resellers and large customers. Bonus disbursements are recognized when paid and recognized as an expense in the income statement over the term of the agreement (typically 5 years), which is reviewed as per the changes occurred in the agreements.

vi) Brands are represented by the acquisition cost of the am/pm brand in Brazil and of the Extrafarma brand.

vii) Other intangibles refer mainly to the loyalty program Clube Extrafarma.

The amortization expenses were recognized in the interim financial information as shown below:

	03/31/2016	03/31/2015
Inventories and cost of products and services sold	3,720	2,571
Selling and marketing	120,439	102,183
General and administrative	11,722	10,446
	135,881	115,200

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information**

(In thousands of Brazilian Reais, unless otherwise stated)

- (i) LIBOR = London Interbank Offered Rate.
- (ii) MX\$ = Mexican Peso; TIIE = the Mexican interbank balance interest rate.
- (iii) TJLP (Long-term Interest Rate) = set by the National Monetary Council, TJLP is the basic financing cost of Banco Nacional de Desenvolvimento Econômico e Social (BNDES), the Brazilian Development Bank. On March 31, 2016, TJLP was fixed at 7.5% p.a.
- (iv) Contract linked to the rate of FNE (Northeast Constitutional Financing Fund) fund whose purpose is to foster the development of the industrial sector, administered by Banco do Nordeste do Brasil. On March, 31, 2016, the FNE interest rate was 10% p.a. FNE grants a discount of 15% over the interest rate for timely payments.
- (v) IGP-M = General Market Price Index is a measure of Brazilian inflation, calculated by the Getúlio Vargas Foundation.
- (vi) SELIC = basic interest rate set by the Brazilian Central Bank.

The long-term consolidated debt had the following principal maturity schedule:

	03/31/2016	12/31/2015
From 1 to 2 years	2,620,495	3,393,586
From 2 to 3 years	2,313,586	3,165,603
From 3 to 4 years	1,252,048	1,155,809
From 4 to 5 years	102,296	38,585
More than 5 years	45,152	50,170
	6,333,577	7,803,753

As provided in IAS 39 (CPC 8 (R1)), the transaction costs and issuance premiums associated with debt issuance by the Company and its subsidiaries were added to their financial liabilities, as shown in Note 14.i).

The Company's management entered into hedging instruments against foreign exchange and interest rate variations for a portion of its debt obligations (see Note 31).

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***b. Foreign Loans**

1) The subsidiary IPP has foreign loans in the amount of US\$ 440 million. IPP also contracted hedging instruments with floating interest rate in U.S. dollar and exchange rate variation, changing the foreign loans charges, on average, to 102.1% of CDI (see Note 31). IPP designated these hedging instruments as a fair value hedge; therefore, loans and hedging instruments are both measured at fair value from inception, with changes in fair value recognized through profit or loss. The foreign loans are secured by the Company.

The foreign loans have the maturity distributed as follows:

Maturity	US\$ (million)	Cost in % of CDI
Mar/17	70.0	99.5
Sep/17	150.0	103.7
Jul/18	60.0	103.0
Sep/18	80.0	101.5
Nov/18	80.0	101.4
Total / average cost	440.0	102.1

2) The subsidiary Oxiteno Overseas Corp. (Oxiteno Overseas) has a foreign loan in the amount of US\$ 60 million with maturity in January 2017 and interest of LIBOR + 1.0% p.a., paid semiannually. The Company, through its subsidiary Cia. Ultragaz, contracted hedging instruments with floating interest rates in dollar and exchange rate variation, changing the foreign loan charge to 94.0% of CDI (see Note 31). The foreign loan is guaranteed by the Company and its subsidiary Oxiteno S.A.

3) The subsidiary LPG International Inc. (LPG) has a foreign loan in the amount of US\$ 30 million with maturity in December 2018 and interest rate of LIBOR + 1.85% p.a, paid quarterly. The foreign loan is guaranteed by the Company and its subsidiary IPP.

4) The subsidiary Global Petroleum Products Trading Corporation has a foreign loan in the amount of US\$ 12 million with maturity in December 2018 and interest rate of LIBOR + 1.85% p.a, paid quarterly. The foreign loan is guaranteed by the Company and its subsidiary IPP.

During these contracts, the Company shall maintain the following financial ratios, calculated based on its audited consolidated interim financial information:

Maintenance of a financial ratio, determined by the ratio between consolidated net debt and consolidated Earnings before Interest, Taxes, Depreciation, and Amortization (EBITDA), at less than or equal to 3.5.

Maintenance of a financial ratio, determined by the ratio between consolidated EBITDA and consolidated net financial expenses, higher than or equal to 1.5.

The Company is in compliance with the levels of covenants required by these loans. The restrictions imposed on the Company and its subsidiaries are usual for this type of transaction and have not limited their ability to conduct their business to date.

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

c. BNDES

The Company and its subsidiaries have financing from BNDES for some of their investments and for working capital.

During the term of these agreements, the Company must maintain the following capitalization and current liquidity levels, as determined in the annual consolidated audited balance sheet:

Capitalization level: shareholders equity / total assets equal to or above 0.3; and

Current liquidity level: current assets / current liabilities equal to or above 1.3.

The Company is in compliance with the levels of covenants required by these loans. The restrictions imposed on the Company and its subsidiaries are usual for this type of transaction and have not limited their ability to conduct their business to date.

d. Financial Institutions

The subsidiaries Oxiteno Mexico S.A. de C.V., Oxiteno USA LLC (Oxiteno USA) and Oxiteno Uruguay have loans to finance investments and working capital.

In February 2016, subsidiary Oxiteno USA entered into a loan agreement in the amount of US\$40 million, due in February 2021 and bearing interest of LIBOR + 3% p.a., paid quarterly. The loan is guaranteed by Ultrapar and the subsidiary Oxiteno Nordeste and the proceeds of this loan will be used to fund the construction of a new alcoxylation plant in the state of Texas.

e. Banco do Brasil

The subsidiary IPP has floating interest rate loans with Banco do Brasil to finance the marketing, processing, or manufacturing of agricultural goods (ethanol).

The subsidiary IPP renegotiated loans with Banco do Brasil, which would mature in February 2016, in the notional amount of R\$ 167 million, changing the maturity to February 2019, with floating interest rate of 114% of CDI.

These loans mature, as follows (including interest until March 31, 2016):

Maturity	
May/16	137,956
Jan/17	1,186,082
Jul/17	171,079
Nov/17	105,134
Jan/18	171,079
Apr/18	105,134
Feb/19	168,890
May/19	1,088,149
Total	3,133,503

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***f. Debentures**

- 1) In December 2012, the subsidiary IPP made its first issuance of public debentures in single series of 60,000 simple, nonconvertible into shares, unsecured, nominative and registered debentures, and its main characteristics are as follows:

Face value unit:	R\$ 10,000.00
Final maturity:	November 16, 2017
Payment of the face value:	Lump sum at final maturity
Interest:	107.9% of CDI
Payment of interest:	Semiannually
Reprice:	Not applicable

- 2) In January 2014, the subsidiary IPP made its second issuance of public debentures in single series of 80,000 simple nonconvertible into shares, unsecured, nominative and registered debentures, which main characteristics are as follows:

Face value unit:	R\$ 10,000.00
Final maturity:	December 20, 2018
Payment of the face value:	Lump sum at final maturity
Interest:	107.9% of CDI
Payment of interest:	Semiannually
Reprice:	Not applicable

- 3) In March 2015, the Company made its fifth issuance of debentures, in a single series of 80,000 simple, nonconvertible into shares, unsecured debentures, and its main characteristics are as follows:

Face value unit:	R\$ 10,000.00
Final maturity:	March 16, 2018
Payment of the face value:	Lump sum at final maturity
Interest:	108.25% of CDI
Payment of interest:	Semiannually

Reprice:

Not applicable

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information**

(In thousands of Brazilian Reais, unless otherwise stated)

g. Export Credit Note

The subsidiary Oxiteno Nordeste has export credit note contracts in the amounts of R\$ 156.8 million and R\$ 10.0 million, with maturities in May 2018 and August 2016, respectively, and fixed interest rate of floating rate of 101.5% of CDI and 8% p.a., paid quarterly.

For the fixed interest rate contracts, the subsidiary Oxiteno Nordeste contracted interest hedging instruments, thus converting the fixed rates for these loans into 79.9% of CDI (see Note 31). Oxiteno Nordeste designated these hedging instruments as a fair value hedge; therefore, loans and hedging instruments are both measured at fair value from inception. Changes in fair value are recognized in profit or loss.

In March 2016, the subsidiary Oxiteno Nordeste settled export credit note in the amount of R\$ 17.5 million, with interest rate of 8% p.a. on the maturity date.

h. Finance Leases

The subsidiary Cia. Ultragaz has a finance lease contract related to LPG bottling facilities, maturing in April 2031.

Subsidiary Extrafarma has finance lease contracts related to IT equipment, software and vehicles, with terms between 24 to 60 months.

The amounts of equipment and intangible assets, net of depreciation and amortization, and the amounts of the corresponding liabilities are shown below:

	03/31/2016			
	LPG bottling facilities	IT equipment and software	Vehicles	Total

	LPG bottling facilities	IT equipment and software	Vehicles	
Up to 1 year	4,371	287	18	4,676
From 1 to 2 years	4,371	155		4,526
From 2 to 3 years	4,371			4,371
From 3 to 4 years	4,371			4,371
From 4 to 5 years	4,371			4,371
More than 5 years	45,165			45,165
Total	67,020	442	18	67,480

The above amounts include Services Tax (ISS) payable on the monthly installments, except for disbursements for the LPG bottling facilities.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***i. Transaction Costs**

Transaction costs incurred in issuing debt were deducted from the value of the related financial instruments and are recognized as an expense according to the effective interest rate method, as follows:

	Effective rate of transaction costs (% p.a.)	Balance in 12/31/2015	Incurred cost	Amortization	Balance in 03/31/2016
Banco do Brasil (e)	0.3	11,883	500	(679)	11,704
Foreign Loans (b)	0.3	4,649		(670)	3,979
Debentures (f)	0.0	1,801		(155)	1,646
Other	0.3	545	794	(175)	1,164
Total		18,878	1,294	(1,679)	18,493

The amount to be appropriated to profit or loss in the future is as follows:

	Up to 1 year	1 to 2 years	2 to 3 years	3 to 4 years	4 to 5 years	More than 5 years	Total
Banco do Brasil (e)	3,182	3,752	4,180	590			11,704
Foreign Loans (b)	2,212	1,244	523				3,979
Debentures (f)	663	720	263				1,646

Total	6,303	6,047	5,195	798	150		18,493

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***j. Guarantees**

The financings are guaranteed by collateral in the amount of R\$ 53,104 as of March 31, 2016 (R\$ 52,312 as of December 31, 2015) and by guarantees and promissory notes in the amount of R\$ 4,282,383 as of March 31, 2016 (R\$ 4,369,977 as of December 31, 2015).

In addition, the Company and its subsidiaries offer collateral in the form of letters of credit for commercial and legal proceedings in the amount of R\$ 194,697 as of March 31, 2016 (R\$ 187,551 as of December 31, 2015) and guarantees related to raw materials imported by the subsidiary Ipiranga in the amount of R\$ 59,875 as of March 31, 2016 (R\$ 133,154 as of December 31, 2015).

Some subsidiaries of Oxiteno issue collateral to financial institutions in connection with the amounts owed by some of their customers to such institutions (vendor financing). If a subsidiary is required to make any payment under these collaterals, this subsidiary may recover the amount paid directly from its customers through commercial collection. The maximum amount of future payments related to these collaterals is R\$ 22,255 as of March 31, 2016 (R\$ 27,106 as of December 31, 2015), with maturities of up to 210 days. As of March 31, 2016, the subsidiaries did not have losses in connection with these collaterals. The fair value of collaterals recognized in current liabilities as other payables is R\$ 540 as of March 31, 2016 (R\$ 656 as of December 31, 2015), which is recognized as profit or loss as customers settle their obligations with the financial institutions.

15. Trade Payables (Consolidated)

	03/31/2016	12/31/2015
Domestic suppliers	1,018,595	1,390,204
Foreign suppliers	70,288	70,328
	1,088,883	1,460,532

Some Company's subsidiaries acquire oil based fuels and LPG from Petróleo Brasileiro S.A. Petrobras and its subsidiaries and ethylene from Braskem S.A. These suppliers control almost all of the markets for these products in Brazil. The Company's subsidiaries depend on the ability of those suppliers to deliver products in a timely manner and at acceptable prices and terms. The loss of any major supplier or a significant reduction in product availability from these suppliers could have a significant adverse effect on the Company and its subsidiaries. The Company and its subsidiaries believe that their relationship with suppliers is satisfactory.

18. Employee Benefits and Private Pension Plan (Consolidated)**a. ULTRAPREV- Associação de Previdência Complementar**

In February 2001, the Company's Board of Directors approved the adoption of a defined contribution pension plan to be sponsored by the Company and each of its subsidiaries. Participating employees have been contributing to this plan, managed by Ultraprev Associação de Previdência Complementar (Ultraprev), since August 2001. Under the terms of the plan, every year each participating employee chooses his or her basic contribution to the plan. Each sponsoring company provides a matching contribution in an amount equivalent to each basic contribution, up to a limit of 11% of the employee's reference salary, according to the rules of the plan. As participating employees retire, they may choose to receive either (i) a monthly sum ranging between 0.5% and 1.0% of their respective accumulated fund in Ultraprev or (ii) a fixed monthly amount which will exhaust their respective accumulated fund over a period of 5 to 25 years. The sponsoring company does not guarantee the amounts or the duration of the benefits received by each employee that retires. For the three-month period ended March 31, 2016, the Company and its subsidiaries contributed R\$ 5,778 (R\$ 5,439 for the three-month period ended March 31, 2015) to Ultraprev, which is recognized as expense in the income statement. The total number of participating employees as of March 31, 2016 was 8,953 active participants and 187 retired participants. In addition, Ultraprev had 28 former employees receiving benefits under the rules of a previous plan whose reserves are fully constituted.

b. Post-employment Benefits

The Company and its subsidiaries recognized a provision for post-employment benefits mainly related to seniority bonus, payment of Government Severance Indemnity Fund (FGTS), and health, dental care, and life insurance plan for eligible retirees.

The amounts related to such benefits were determined based on a valuation conducted by an independent actuary as of December 31, 2015 and are recognized in the interim financial information in accordance with IAS 19 R2011 (CPC 33 R2).

	03/31/2016	12/31/2015
Health and dental care plan	25,635	24,869
FGTS Penalty	59,727	59,517
Bonus	28,751	28,835
Life insurance	13,771	13,374
Total	127,884	126,595
Current	13,734	13,747
Non-current	114,150	112,848

19. Provision for Asset Retirement Obligation Fuel Tanks (Consolidated)

The provision corresponds to the legal obligation to remove Ipiranga s underground fuel tanks located at Ipiranga-branded service stations after a certain use period (see Note 2.m).

Changes in the provision for asset retirement obligation are as follows:

	03/31/2016	03/31/2015
Initial balance	74,716	70,802
Additions (new tanks)	150	190
Expense with tanks removed	(706)	(1,020)
Accretion expense	2,349	2,300
Final balance	76,509	72,272

Current	4,446	4,999
Non-current	72,063	67,273

20. Provisions, Contingencies and Commitments (Consolidated)**a. Provisions for tax, civil, and labor risks**

The Company and its subsidiaries are parties in tax, civil, environmental, regulatory, and labor disputes at the administrative and judiciary levels, which, when applicable, are backed by escrow deposits. Provisions for losses are estimated and updated by Management based on the opinion of the Company's legal department and its external legal advisors.

The table below demonstrates the breakdown of provisions by nature and its movement:

Provisions	Balance on 12/31/2015	Additions	Write-offs	Monetary restatement	Balance on 03/31/2016
IRPJ and CSLL (a.1.1)	439,923			8,575	448,498
PIS and COFINS (a.1.2)	135,818			2,478	138,296
ICMS	16,600	9	(872)	66	15,803
Social security	11,455	135		201	11,791
Civil, environmental and regulatory claims (a.2.1)	60,293	869	(4,708)	35	56,489
Labor litigation (a.3.1)	65,388	4,525	(3,691)	15	66,237
Other	505			11	516
Total	729,982	5,538	(9,271)	11,381	737,630
Current	45,322				51,127
Non-current	684,660				686,503

Some of the tax provisions above involve, in whole or in part, escrow deposits in the amount of R\$ 557,364 as of March 31, 2016 (R\$ 548,150 as of December 31, 2015).

a.1 Provisions for Tax Matters and Social Security

a.1.1) On October 7, 2005, the subsidiaries Cia. Ultragaz and Bahiana Distribuidora de Gás Ltda. (Bahiana) filed for and obtained a preliminary injunction to recognize and offset PIS and COFINS credits on LPG purchases, against other taxes levied by the Brazilian Federal Revenue Service, notably IRPJ and CSLL. The decision was confirmed by a trial court on May 16, 2008. Under the preliminary injunction, the subsidiaries made escrow deposits for these debits which amounted to R\$ 431,334 as of March 31, 2016 (R\$ 422,678 as of December 31, 2015). On July 18, 2014, a

second instance unfavorable decision was published and the subsidiaries suspended the escrow deposits, and started to pay income taxes from that date. To revert the court decision, the subsidiaries presented a writ of prevention which was dismissed on December 30, 2014, and the Company appealed this decision on February 3, 2015. Appeals were also presented to the respective higher courts (STJ and STF) whose trials are pending.

a.1.2) The subsidiaries Oxiteno S.A., Oxiteno Nordeste, Cia. Ultragaz, Tequimar, Tropical Transportes Ipiranga Ltda., Empresa Carioca de Produtos Químicos S.A. (EMCA), IPP and Extrafarma filed for a preliminary injunction seeking the deduction of ICMS from their PIS and COFINS tax bases. Oxiteno Nordeste and IPP paid the amounts into escrow deposits, and recognized a corresponding provision in the amount of R\$ 101,798 as of March 31, 2016 (R\$ 99,874 as of December 31, 2015).

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

a.2) Provisions for Civil, Environmental and Regulatory Claims

a.2.1) The Company and its subsidiaries maintained provisions for lawsuits and administrative proceedings, mainly derived from contracts entered into with customers and former services providers, as well as proceedings related to environmental and regulatory issues in the amount of R\$ 56,489 as of March 31, 2016 (R\$ 60,293 as of December 31, 2015).

a.3) Provisions for Labor Matters

a.3.1) The Company and its subsidiaries maintained provisions of R\$ 66,237 as of March 31, 2016 (R\$ 65,388 as of December 31, 2015) for labor litigation filed by former employees and by employees of our service providers mainly contesting the non-payment of labor rights.

b. Contingent Liabilities (Possible)

The Company and its subsidiaries have other pending administrative and legal proceedings of tax, civil, environmental, regulatory, and labor nature, which are individually less relevant, and were estimated by their legal counsel as having possible and/or remote risks (proceedings whose chance of loss is 50% or less). As such, the related potential losses were not provided for by the Company and its subsidiaries based on these opinions. The Company and its subsidiaries are also litigating for recovery of taxes and contributions, which were not recognized in the interim financial information due to their contingent nature. The estimated amount of this contingency is R\$ 2,082,965 as of March 31, 2016.

b.1) Contingent Liabilities for Tax Matters and Social Security

The Company and its subsidiaries have contingent liabilities for tax matters and social security in the amount of R\$ 1,442,979 as of March 31, 2016, mainly represented by:

b.1.1) The subsidiary IPP and its subsidiaries have assessments invalidating the offset of excise tax (IPI) credits in connection with the purchase of raw materials used in the manufacturing of products which sales are not subject to IPI under the protection of tax immunity. The amount of this contingency is R\$ 114,393 as of March 31, 2016.

b.1.2) The subsidiary IPP and its subsidiaries have legal proceedings related to ICMS. The total amount involved as of March 31, 2016 in these proceedings, was R\$ 589,146. Such proceedings arise mostly of the disregard of ICMS credits amounting to R\$ 277,156, of which R\$ 106,565 refer to proportional reversal requirement of ICMS credits related to the acquisition of hydrated alcohol; of alleged non-payment in the amount of R\$ 108,173; inventory

differences in the amount of R\$ 118,442 related to the leftovers or faults due to temperature changes or product handling, and noncompliance of ancillary obligations in the amount of R\$ 15,866.

b.1.3) The Company and its subsidiaries are parties to administrative and judicial suits involving Income Tax, Social Security Contribution, PIS and COFINS, substantially about denials of offset claims and credits disallowance which total amount is R\$ 384,144 as of March 31, 2016.

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

b.2) Contingent Liabilities for Civil, Environmental and Regulatory Claims

The Company and its subsidiaries have contingent liabilities for civil, environmental and regulatory claims in the amount of R\$ 413,331 as of March 31, 2016, mainly represented by:

b.2.1) The subsidiary Cia. Ultragaz is party to an administrative proceeding before CADE (Brazilian antitrust authority) based on alleged anti-competitive practices in the State of Minas Gerais in 2001. The CADE entered a decision against Cia. Ultragaz and imposed a penalty of R\$ 23,104. The imposition of such administrative decision was suspended by a court order and its merit is being judicially reviewed.

b.2.2) As a result of the fire on April 2nd, 2015 at the Santos Terminal of the subsidiary Tequimar, Environmental Company of the State of São Paulo (CETESB) charged a fine of R\$ 22,500, due to the environmental and urban impacts allegedly caused by the incident. Tequimar filed before such Environmental Agency its refutation under the first administrative jurisdiction, in which, among other things, it claimed the inapplicability of federal legislation due to the existence of state legislation that not only regulate the issue but also may cause the fine reduction. It also denied the unlawful conduct by Tequimar. In March 2016, a decision in the administrative level denied the Company's appeal against the fine applied by CETESB. The decision set forth a 30% discount in the case of an immediate payment. In this scenario, the subsidiary's Management, supported by its legal counsel, decided to pay the fine in the amount of R\$ 16,032 on March 16, 2016. For more information see Note 33.

b.3) Contingent Liabilities for Labor Matters

The Company and its subsidiaries have contingent liabilities for labor matters in the amount of R\$ 226,655 as of March 31, 2016, mainly represented by:

b.3.1) In 1990, the Petrochemical Industry Labor Union (Sindiquímica), of which the employees of Oxiteno Nordeste and EMCA, companies located in the Camaçari Petrochemical Complex, are members, filed separate lawsuits against the subsidiaries demanding the compliance with the fourth section of the collective labor agreement, which provided for a salary adjustment in lieu of the salary policies practiced. In the same year, a collective labor dispute was also filed by the Union of Employers (SINPEQ) against Sindiquímica, requiring the recognition of the loss of effectiveness of such fourth section. The decisions rendered on the individual claims which were favorable to the subsidiaries Oxiteno Nordeste and EMCA are final and unappealable. The collective labor dispute remains pending trial by STF. In 2010, some companies in the Camaçari Petrochemical Complex signed an agreement with Sindiquímica and reported the fact in the collective labor dispute. In October 2015, Sindiquímica filed enforcement lawsuits against all Camaçari Petrochemical Complex companies that have not yet made settlements, including Oxiteno Nordeste and EMCA.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***21. Deferred Revenue (Consolidated)**

The Company's subsidiaries have recognized the following deferred revenue:

	03/31/2016	12/31/2015
am/pm and Jet Oil franchising upfront fee	16,902	16,988
Loyalty program Km de Vantagens	10,102	10,569
Loyalty program Clube Extrafarma	4,652	7,899
	31,656	35,456
Current	20,553	24,420
Non-current	11,103	11,036

Loyalty Programs

Subsidiary Ipiranga has a loyalty program called Km de Vantagens (www.kmdevantagens.com.br) under which registered customers are rewarded with points when they buy products at Ipiranga service stations or at its partners. The customers may exchange these points, during the period of one year, for discounts on products and services offered by Ipiranga and its partners. Points received by Ipiranga's customers that may be used with the partner Multiplus Fidelidade and for discounts of fuel in Ipiranga's website (www.postoipiranganaweb.com.br) and discounted of sales revenue.

Subsidiary Extrafarma has a loyalty program called Clube Extrafarma (www.clubeextrafarma.com.br) under which registered customers are rewarded with points when they buy products at its drugstore chain. The customers may exchange these points, during the period of six months, for discounts in products at its drugstore chain, recharge credit on a mobile phone, and prizes offered by partners Multiplus Fidelidade and Ipiranga, through Km de Vantagens. Points received by Extrafarma's customers are discounted of sales revenue.

Deferred revenue is estimated based on the fair value of the points granted, considering the value of the prizes and the expected redemption of points. Deferred revenue is recognized in profit or loss when the points are redeemed, on which occasion the costs incurred are also recognized. Deferred revenue of unredeemed points is also recognized in profit or loss when the points expire.

Franchising Upfront Fee

am/pm is the convenience stores chain of the Ipiranga service stations. Ipiranga ended March 31, 2016 with 1,918 stores (1,909 stores as of December 31, 2015). Jet Oil is Ipiranga's lubricant-changing and automotive service

specialized network. Ipiranga ended March 31, 2016 with 1,473 stores (1,466 stores as of December 31, 2015). The franchising upfront fee received by Ipiranga is deferred and recognized in profit or loss on the straight-line accrual basis throughout the terms of the agreements with the franchisees.

(In thousands of Brazilian Reais, unless otherwise stated)

22. Subscription warrants indemnification

Because of the association between the Company and Extrafarma on January 31, 2014, 7 subscription warrants indemnification were issued, corresponding to up to 3,205,622 shares of the Company. The shares of the subscription warrants indemnification may be exercised from 2020 onwards by the former shareholders of Extrafarma and are adjusted according to the changes in the amounts of provisions for tax, civil, and labor risks and contingent liabilities related to the period prior to January 31, 2014. The subscription warrants indemnification's fair value is measured based on the share price of Ultrapar (UGPA3) and is reduced by the dividend yield until 2020, since the exercise is possible only from 2020, and they are not entitled to dividends until that date. As of March 31, 2016, the subscription warrants indemnification were represented by 2,150,493 shares and amounted R\$ 139,377 (as of December 31, 2015 were represented by 2,011,766 and totaled R\$ 112,233). Due to the final adverse decision of some of these lawsuits, on March 31, 2016, the maximum number of shares that could be issued related to the subscription warrants indemnification was up to 3,068,472 (3,070,106 shares as of December 31, 2015). For further information of the Extrafarma acquisition, see Note 3.a to the financial statements of the Company filed with the CVM on February 17, 2016.

23. Shareholders Equity***a. Share Capital***

The Company is a publicly traded company listed on BM&FBOVESPA in the Novo Mercado listing segment under the ticker UGPA3 and on the New York Stock Exchange (NYSE) in the form of level III American Depositary Receipts (ADRs) under the ticker UGP . As of March 31, 2016, the subscribed and paid-in capital stock consists of 556,405,096 common shares with no par value and the issuance of preferred shares and participation certificates is prohibited. Each common share entitles its holder to one vote at Shareholders Meetings.

The price of the shares issued by the Company as of March 31, 2016, on BM&FBOVESPA was R\$ 69.79.

As of March 31, 2016, the Company is authorized to increase capital up to the limit of 800,000,000 common shares, without amendment to the Bylaws, by resolution of the Board of Directors.

As of March 31, 2016, there were 30,234,097 common shares outstanding abroad in the form of ADRs (29,385,497 shares as of December 31, 2015).

b. Treasury Shares

The Company acquired its own shares at market prices, without capital reduction, to be held in treasury and to be subsequently disposed of or cancelled, in accordance with CVM Instructions 10, of February 14, 1980 and 268, of November 13, 1997.

As of March 31, 2016, 13,131,356 common shares (13,321,356 as of December 31, 2015) were held in the Company's treasury, acquired at an average cost of R\$ 36.85 per share (R\$ 36.85 as of December 31, 2015).

c. Capital Reserve

The capital reserve reflects the gain on the transfer of shares at market price to be held in treasury by the Company's subsidiaries, at an average price of R\$ 26.09 per share. Such shares were used in the Deferred Stock Plan granted to executives of these subsidiaries, as mentioned in Note 8.c).

Because of the Extrafarma's association in 2014, the Company recognized an increase in the capital reserves in the amount of R\$ 498,812, due to the difference between the value attributable to share capital and the market value of the Ultrapar shares on the date of issue. In addition, the Company incurred costs directly attributable to issuing new shares in the amount of R\$ 2,260, reducing the capital reserve amount.

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

d. Revaluation Reserve

The revaluation reserve reflects the revaluation of assets of subsidiaries and is based on depreciation, write-off, or disposal of the revalued assets of the subsidiaries, as well as the tax effects recognized by these subsidiaries.

e. Profit Reserves

Legal Reserve

Under Brazilian Corporate Law, the Company is required to appropriate 5% of net annual earnings to a legal reserve, until the balance reaches 20% of capital stock. This reserve may be used to increase capital or absorb losses, but may not be distributed as dividends.

Retention of Profits

Reserve recognized in previous fiscal years and used for investments contemplated in a capital budget, mainly for expansion, productivity, and quality, acquisitions and new investments, in accordance with Article 196 of Brazilian Corporate Law.

Investments Reserve

In compliance with Article 194 of the Brazilian Corporate Law and Article 55.c) of the Bylaws this reserve is aimed to protect the integrity of the Company's assets and to supplement its capital stock, in order to allow new investments to be made. As provided in its Bylaws, the Company may allocate up to 45% of net income to the investments reserve, up to the limit of 100% of the share capital.

The amounts of retention of profits and investments reserve are free of distribution restrictions and totaled R\$ 3,329,649 as of March 31, 2016 and December 31, 2015.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)****f. Other Comprehensive Income*****Valuation Adjustments**

The differences between the fair value and amortized cost of financial investments classified as available for sale are recognized directly in equity as valuation adjustments. The gains and losses recognized in the shareholders' equity are reclassified to profit or loss in case the financial instruments are prepaid.

Actuarial gains and losses relating to post-employment benefits, calculated based on a valuation conducted by an independent actuary, are recognized in shareholders' equity under the title valuation adjustments. Actuarial gains and losses recorded in equity are not reclassified to profit or loss in subsequent periods.

Gains and losses on the hedging instruments of firm commitment of exchange rate designated as cash flows hedges are recorded in shareholders' equity as valuation adjustments. Gains and losses are reclassified to initial cost of non-financial assets.

Cumulative Translation Adjustments

The change in exchange rates on assets, liabilities, and income of foreign subsidiaries that have (i) functional currency other than the presentation currency of the Company and (ii) an independent administration, is directly recognized in the shareholders' equity. This accumulated effect is reflected in profit or loss as a gain or loss only in case of disposal or write-off of the investment.

Balance and changes in other comprehensive income of the Company are as follows:

	Valuation adjustments				
	Fair value of financial				
	Fair value of cash	instruments classified	Actuarial gains of	Total	Cumulative
	hedging	as available	post-employment		translation
	instruments	for sale	benefits		adjustment
Balance as of December 31, 2015	6,261	1,523	11,169	18,953	66,925
Translation of foreign subsidiaries, including the exchange rate effect of hedge of investments					(36,988)
Changes in fair value	(67,323)	(10,005)		(77,328)

g. Dividends

The shareholders are entitled, under the Bylaws, to a minimum annual dividend of 50% of adjusted net income calculated in accordance with Brazilian Corporate Law. The dividends and interest on equity in excess of the obligation established in the Bylaws are recognized in shareholders' equity until they are approved by the Shareholders. The proposed dividends payable as of December 31, 2015 in the amount of R\$ 434,467 (R\$ 0.80 eighty cents of Brazilian Real per share), were approved by the Board of Directors on February 17, 2016, and paid as of March 4, 2016, having been ratified in the Annual General Shareholders' Meeting on April 13, 2016.

24. Revenue from Sale and Services (Consolidated)

	03/31/2016	03/31/2015
Gross revenue from sale	19,994,921	17,799,847
Gross revenue from services	144,658	148,822
Sales taxes	(503,440)	(460,137)
Discounts and sales returns	(115,708)	(85,978)
Deferred revenue (see Note 21)	3,892	1,086
Net revenue from sales and services	19,524,323	17,403,640

25. Expenses by Nature (Consolidated)

The Company presents its expenses by function in the consolidated income statement and presents below its expenses by nature:

	03/31/2016	03/31/2015
Raw materials and materials for use and consumption	17,520,841	15,567,150
Personnel expenses	485,243	438,564
Freight and storage	258,069	241,792
Depreciation and amortization	270,120	235,875
Advertising and marketing	51,648	52,188
Services provided by third parties	61,347	42,408
Lease of real estate and equipment	39,252	33,572

Other expenses	82,582	82,194
Total	18,769,102	16,693,743
Classified as:		
Cost of products and services sold	17,806,080	15,821,547
Selling and marketing	641,202	584,204
General and administrative	321,820	287,992
Total	18,769,102	16,693,743

Research and development expenses are recognized in the income statements and amounted to R\$ 10,996 for the three-month period ended March 31, 2016 (R\$ 9,251 for the three-month period ended March 31, 2015).

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***26. Gain on Disposal of Property, Plant and Equipment and Intangibles (Consolidated)**

The gain is determined as the difference between the selling price and residual book value of the investment, property, plant, and equipment, or intangible asset disposed of. For the three-month period ended March 31, 2016, the gain was R\$ 75 (gain of R\$ 22,260 for the three-month period ended March 31, 2015), represented primarily from disposal of property, plant, and equipment.

27. Other Operating Income, Net (Consolidated)

	03/31/2016	03/31/2015
Commercial partnerships ⁽¹⁾	9,722	9,007
Merchandising ⁽²⁾	14,273	8,192

Weighted average shares outstanding for diluted per share calculation:	545,214	550,226

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***30. Segment Information**

The Company operates five main business segments: gas distribution, fuel distribution, chemicals, storage and drugstores. The gas distribution segment (Ultragaz) distributes LPG to residential, commercial, and industrial consumers, especially in the South, Southeast, and Northeast regions of Brazil. The fuel distribution segment (Ipiranga) operates the distribution and marketing of gasoline, ethanol, diesel, fuel oil, kerosene, natural gas for vehicles, and lubricants and related activities throughout all the Brazilian territory. The chemicals segment (Oxiten) produces ethylene oxide and its main derivatives and fatty alcohols, which are raw materials used in the home and personal care, agrochemical, paints, varnishes, and other industries. The storage segment (Ultracargo) operates liquid bulk terminals, especially in the Southeast and Northeast regions of Brazil. The drugstores segment (Extrafarma) trades pharmaceutical, hygiene, and beauty products through its own drugstore chain in the states of Amapá, Ceará, Maranhão, Pará, Paraíba, Pernambuco, Piauí, Rio Grande do Norte, and São Paulo. The segments shown in the interim financial information are strategic business units supplying different products and services. Intersegment sales are at prices similar to those that would be charged to third parties.

The main financial information of each of the Company's segments are stated as follows:

	03/31/2016	03/31/2015
Net revenue from sales and services:

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

31. Risks and Financial Instruments (Consolidated)

Risk Management and Financial Instruments Governance

The main risks to which the Company and its subsidiaries are exposed reflect strategic/operational and economic/financial aspects. Operational/strategic risks (including, but not limited to, demand behavior, competition, technological innovation, and material changes in the industry structure) are addressed by the Company's management model. Economic/financial risks primarily reflect default of customers, behavior of macroeconomic variables, such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company and its subsidiaries and their counterparties. These risks are managed through control policies, specific strategies, and the establishment of limits.

The Company has a conservative policy for the management of resources, financial instruments, and risks approved by its Board of Directors (Policy). In accordance with the Policy, the main objectives of financial management are to preserve the value and liquidity of financial assets and ensure financial resources for the development of the business, including expansions. The main financial risks considered in the Policy are risks associated with currencies, interest rates, credit, and selection of financial instruments. Governance of the management of financial risks and financial instruments follows the segregation of duties below:

Implementation of the management of financial assets, instruments, and risks is the responsibility of the financial area, through its treasury department, with the assistance of the tax and accounting departments.

Supervision and monitoring of compliance with the principles, guidelines, and standards of the Policy is the responsibility of the Risk and Investment Committee, which is composed of members of the Company's Executive Board (Committee). The Committee holds regular meetings and is in charge, among other responsibilities, of discussing and monitoring the financial strategies, existing exposures, and significant transactions involving investment, fundraising, or risk mitigation. The Committee monitors the risk standards established by the Policy through a monitoring map on a monthly basis.

Changes in the Policy or revisions of its standards are subject to the approval of the Board of Directors of Ultrapar.

Continuous improvement of the Policy is the joint responsibility of the Board of Directors, the Committee, and the financial area.

The internal audit department audits the compliance with the requirements of the Policy.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Currency Risk**

Most transactions of the Company and its subsidiaries are located in Brazil and, therefore, the reference currency for risk management is the Brazilian Real. Currency risk management is guided by neutrality of currency exposures and considers the transactional, accounting, and operational risks of the Company and its subsidiaries and their exposure to changes in exchange rates. The Company considers as its main currency exposures the assets and liabilities in foreign currency and the short-term flow of net sales in foreign currency of Oxiteno.

The Company and its subsidiaries use exchange rate hedging instruments (especially between the Brazilian Real and the U.S. dollar) available in the financial market to protect their assets, liabilities, receipts, and disbursements in foreign currency and net investments in foreign operations. Hedge is used in order to reduce the effects of changes in exchange rates on the Company's income and cash flows in Brazilian Reais within the exposure limits under its Policy. Such foreign exchange hedging instruments have amounts, periods, and rates substantially equivalent to those of assets, liabilities, receipts, and disbursements in foreign currencies to which they are related. Assets and liabilities in foreign currencies are stated below, translated into Brazilian Reais as of March 31, 2016 and December 31, 2015:

Assets and Liabilities in Foreign Currencies

In millions of Brazilian Reais	03/31/2016	12/31/2015
Assets in foreign currency		
Cash, cash equivalents and financial investments in foreign currency (except hedging instruments)	235.4	147.8
Foreign trade receivables, net of allowance for doubtful accounts and advances to foreign customers	212.1	188.8
Net investments in foreign subsidiaries (except cash, cash equivalents, financial investments, trade receivables, financing, and payables)	564.0	611.4
	1,011.5	948.0
Liabilities in foreign currency		
Financing in foreign currency	(2,479.4)	(2,630.3)
Payables arising from imports, net of advances to foreign suppliers	(67.9)	(64.4)
	(2,547.3)	(2,694.7)
Foreign currency hedging instruments	2,474.5	2,667.2

Net asset position	Total	938.7	920.5
--------------------	-------	-------	-------

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Sensitivity Analysis of Assets and Liabilities in Foreign Currency**

The table below shows the effect of exchange rate changes in different scenarios, based on the net asset position of R\$ 938.7 million in foreign currency:

In millions of Brazilian Reais	Risk	Scenario I 10%	Scenario II 25%	Scenario III 50%
(1) Income statement effect	Real devaluation	3.1	7.6	15.3
(2) Shareholders' equity effect		90.8	227.0	454.1
(1) + (2)	Net effect	93.9	234.6	469.4
(3) Income statement effect	Real appreciation	(3.1)	(7.6)	(15.3)
(4) Shareholders' equity effect		(90.8)	(227.0)	(454.1)
(3) + (4)	Net effect	(93.9)	(234.6)	(469.4)

Gains (losses) directly recognized in equity in cumulative translation adjustments are due to changes in the exchange rate on equity of foreign subsidiaries (see Notes 2.r and 23.f Cumulative Translation Adjustments).

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Interest Rate Risk**

The Company and its subsidiaries adopt conservative policies for borrowing and investing financial resources and for capital cost minimization. The financial investments of the Company and its subsidiaries are primarily held in transactions linked to the CDI, as set forth in Note 4. Borrowings primarily relate to financing from Banco do Brasil, BNDES, and other development agencies, as well as debentures and borrowings in foreign currency, as shown in Note 14.

The Company does not actively manage risks associated with changes in the level of interest rates and attempts to maintain its financial interest assets and liabilities at floating rates. As of March 31, 2016, the Company and its subsidiaries had interest rate derivative financial instruments linked to domestic loans, in which the Company swapped the fixed interest rate of certain debts to floating interest rates (CDI).

The table below shows the financial assets and liabilities exposed to floating interest rates as of March 31, 2016 and December 31, 2015:

In millions of Brazilian Reais

	Note	03/31/2016	12/31/2015

Interest effect on debt in TJLP	Increase in TJLP	(0.7)	(1.8)	(3.6)
Incremental expenses		(0.7)	(1.8)	(3.6)
Foreign exchange hedging instruments (assets in LIBOR) effect	Increase in LIBOR	0.3	0.6	1.3
Interest effect on debt in LIBOR	Increase in LIBOR	(0.2)	(0.6)	(1.2)
Incremental expenses		0.1	0.0	0.1
Interest effect on debt in TIIE	Increase in TIIE	(0.0)	(0.1)	(0.1)
Incremental expenses		(0.0)	(0.1)	(0.1)
Interest effect on debt in SELIC	Increase in SELIC	(0.1)	(0.2)	(0.4)
Incremental expenses		(0.1)	(0.2)	(0.4)

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Credit Risks**

The financial instruments that would expose the Company and its subsidiaries to credit risks of the counterparty are basically represented by cash and bank deposits, financial investments, hedging instruments, and trade receivables.

Credit risk of financial institutions - Such risk results from the inability of financial institutions to comply with their financial obligations to the Company and its subsidiaries due to insolvency. The Company and its subsidiaries regularly conduct a credit review of the institutions with which they hold cash and cash equivalents, financial investments, and hedging instruments through various methodologies that assess liquidity, solvency, leverage, portfolio quality, etc. Cash and cash equivalents, financial investments, and hedging instruments are held only with institutions with a solid credit history, chosen for safety and soundness. The volume of cash and cash equivalents, financial investments, and hedging instruments are subject to maximum limits by each institution and, therefore, require diversification of counterparties.

Government credit risk The Company's policy allows investments in government securities from countries classified as investment grade AAA or Aaa by specialized credit rating agencies and in Brazilian government bonds. The volume of such financial investments is subject to maximum limits by each country and, therefore, requires diversification of counterparties.

Customer credit risk - Such risks are managed by each business unit through specific criteria for acceptance of customers and their credit rating and are additionally mitigated by the diversification of sales. No single customer or group accounts for more than 10% of total revenue.

The Company maintained the following allowances for doubtful accounts on trade receivables:

	03/31/2016	12/31/2015
Ipiranga	159,831	151,921
Ultragaz	29,275	28,136
Oxitenó	13,197	12,412
Extrafarma	5,668	5,376
Ultracargo	2,971	2,971
Total	210,942	200,816

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Liquidity Risk**

The Company and its subsidiaries' main sources of liquidity derive from (i) cash, cash equivalents, and financial investments, (ii) cash generated from operations and (iii) financing. The Company and its subsidiaries believe that these sources are sufficient to satisfy their current funding requirements, which include, but are not limited to, working capital, capital expenditures, amortization of debt, and payment of dividends.

The Company and its subsidiaries periodically examine opportunities for acquisitions and investments. They consider different types of investments, either directly, through joint ventures, or through associated companies, and finance such investments using cash generated from operations, debt financing, through capital increases, or through a combination of these methods.

The Company and its subsidiaries believe to have enough working capital and sources of financing to satisfy their current needs. The gross indebtedness due over the next twelve months totals R\$ 2,988.4 million, including estimated interests on loans. Furthermore, the investment plan for 2016 totals R\$ 1,809 million, and until March 31, 2016 the amount of R\$ 292 million had been realized. As of March 31, 2016, the Company and its subsidiaries had R\$ 2,672.6 million in cash, cash equivalents, and short-term financial investments (for quantitative information, see Notes 4 and 14).

The table below presents a summary of financial liabilities as of March 31, 2016 to be settled by the Company and its subsidiaries, listed by maturity. The amounts disclosed in this table are the contractual undiscounted cash outflows, and, therefore, these amounts may be different from the amounts disclosed on the balance sheet as of March 31, 2016.

	Total	In millions of Brazilian Reais			
		Less than 1 year	Between 1 and 3 years	Between 3 and 5 years	More than 5 years
Financial liabilities					
Loans including future contractual interest ^{(1) (2)}	10,684.7	2,988.4	5,685.9	1,957.2	53.2
Currency and interest rate hedging instruments ⁽³⁾	317.2	198.1	119.1		
Trade payables	1,088.9	1,088.9			

⁽¹⁾ To calculate the estimated interest on loans some macroeconomic assumptions were used, including averaging for the period the following: (i) CDI of 13.9% p.a., (ii) exchange rate of the Real against the U.S. dollar of R\$ 3.73 in 2016, R\$ 4.06 in 2017, R\$ 4.47 in 2018, R\$ 4.93 in 2019 and R\$ 5.39 in 2020, (iii) TJLP of 7.5% p.a. and (iv) IGP-M of 7.4% in 2016, 6.6% in 2017, 6.4% in 2018, 6.4% in 2019 and 6.4% in 2020 (source:

BM&FBOVESPA, Bulletin Focus and financial institutions).

- (2) Includes estimated interest payments on short-term and long-term loans until the payment date.
- (3) The currency and interest rate hedging instruments were estimated based on projected U.S dollar futures contracts and the futures curve of DI x Pre contract quoted on BM&FBOVESPA on March 31, 2016 and on the futures curve of LIBOR (ICE IntercontinentalExchange) on March 31, 2016. In the table above, only the hedging instruments with negative results at the time of settlement were considered.

Capital Management

The Company manages its capital structure based on indicators and benchmarks. The key performance indicators related to the capital structure management are the weighted average cost of capital, net debt / EBITDA, interest coverage, and indebtedness / equity ratios. Net debt is composed of cash, cash equivalents, and financial investments (see Note 4) and loans, including debentures (see Note 14). The Company can change its capital structure depending on the economic and financial conditions, in order to optimize its financial leverage and capital management. The Company seeks to improve its return on invested capital by implementing efficient working capital management and a selective investment program.

Selection and Use of Financial Instruments

In selecting financial investments and hedging instruments, an analysis is conducted to estimate rates of return, risks involved, liquidity, calculation methodology for the carrying value and fair value, and a review is conducted of any documentation applicable to the financial instruments. The financial instruments used to manage the financial resources of the Company and its subsidiaries are intended to preserve value and liquidity.

The Policy contemplates the use of derivative financial instruments only to cover identified risks and in amounts consistent with the risk (limited to 100% of the identified risk). The risks identified in the Policy are described in the above sections, and are subject to risk management. In accordance with the Policy, the Company and its subsidiaries can use forward contracts, swaps, options, and futures contracts to manage identified risks. Leveraged derivative instruments are not permitted. Because the use of derivative financial instruments is limited to the coverage of identified risks, the Company and its subsidiaries use the term *hedging instruments* to refer to derivative financial instruments.

As mentioned in the section *Risk Management and Financial Instruments Governance*, the Committee monitors compliance with the risk standards established by the Policy through a risk map, including the use of hedging instruments, on a monthly basis. In addition, the internal audit department verifies the compliance with the requirements of the Policy.

All transactions mentioned above were properly registered with CETIP S.A.

Hedging instruments existing as of March 31, 2016 are described below, according to their category, risk, and hedging strategy:

a Hedging against foreign exchange exposure of liabilities in foreign currency The purpose of these contracts is (i) to offset the effect of the change in exchange rates of debts or firm commitments in U.S. dollars by converting them into debts or firm commitments in Brazilian Reais linked to CDI, (ii) firm commitments in U.S. dollars, changing them into debts or firm commitments in Reais indexed to the CDI and (iii) change a financial investment linked to the CDI and given as a guarantee to a loan in the U.S. dollar into a financial investment linked to the U.S. dollar. As of March 31, 2016, the Company and its subsidiaries had outstanding swap contracts totaling US\$ 710.7 million in notional amount with a liability position, on average of 94.5% of CDI, of which US\$ 360.7 million, on average, had an asset position at US\$ + 1.31% p.a. and US\$ 350.0 million had an asset position at US\$ + LIBOR + 0.87% p.a. This amount includes US\$ 440.0 million related to the fair value of hedging instruments of Ipiranga debt (see Notes 14.b and hedge accounting below) and US\$ 169.7 million related to hedging instruments of cash flow of firm commitment (see hedge accounting below).

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

b. Hedging against foreign exchange exposure of operations The purpose of these contracts is to make the exchange rate of the revenues of subsidiaries Oleoquímica, Oxiteno S.A. and Oxiteno Nordeste equal to the exchange rate of the cost of their main raw materials during their operating cycles. As of March 31, 2016, these swap contracts totaled US\$ 8.4 million and, on average, had an asset position at 69.9% of CDI and a liability position at US\$ + 0.0% p.a.

c Hedging against the interest rate fixed in local financing The purpose of these contracts is to convert the interest rate on financing contracted in Brazilian Reais from fixed into floating. As of March 31, 2016 these swap contracts totaled R\$ 10.0 million of notional amount corresponding to principal amount of related debt, and on average had an asset position at 8.0% p.a. and a liability position at 79.9% of CDI.

Hedge Accounting

The Company and its subsidiaries test, throughout the duration of the hedge, the effectiveness of their derivatives, as well as the changes in their fair value. The Company and its subsidiaries designate as fair value hedges certain derivative financial instruments used to offset the variations in interest and exchange rates, which are based on the market value of financing contracted in Brazilian Reais and U.S. dollars.

On March 31, 2016, the notional amount of foreign exchange hedging instruments designated as fair value hedge totaled US\$ 440.0 million. In 2016, a loss of R\$ 212.4 million related to the result of hedging instruments, a gain of R\$ 23.3 million related to the fair value adjustment of debt, and a gain of R\$ 145.1 million related to the financial expense of the debt were recognized in the income statements, transforming the average effective cost of the operation into 101.9% of CDI (see Note 14.b.1).

On March 31, 2016, the notional amount of exchange rate hedging instruments of firm commitments designated as cash flow hedges totaled US\$ 169.7 million, and a loss of R\$ 5.9 million was recognized through the income statement. On March 31, 2016, the unrealized loss of Other comprehensive income is R\$ 61.1 million.

On March 31, 2016, the notional amount of interest rate hedging instruments totaled R\$ 10.0 million, referring to the principal of the pre-fixed loans in Brazilian Reais. In 2016, a gain of R\$ 0.1 million related to the result of hedging instruments, a loss of R\$ 0.3 million related to the fair value adjustment of debt, and a loss of R\$ 0.5 million related to the accrued interest rate of the debt were recognized in the income statement, transforming the average effective cost of the operations into 79.9% of CDI.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Gains (losses) on Hedging Instruments**

The following tables summarize the value of gains (losses) recognized, which affected the shareholders' equity as of March 31, 2016 and 2015 of the Company and its subsidiaries:

	R\$ million	
	03/31/2016	
	Profit or loss	Equity
a Exchange rate swaps receivable in U.S. dollars (i) (ii)	(78.1)	(61.1)
b Exchange rate swaps payable in U.S. dollars (ii)	5.1	
c Interest rate swaps in R\$ (iii)	(0.3)	
Total	(73.3)	(61.1)

	R\$ million	
	03/31/2015	
	Profit or loss	Equity
a Exchange rate swaps receivable in U.S. dollars (i) (ii)	(29.7)	10.8
b Exchange rate swaps payable in U.S. dollars (ii)	(0.4)	(14.0)
c Interest rate swaps in R\$ (iii)	1.4	
Total	(28.7)	(3.2)

The table above: (i) does not consider the effect of exchange rate variation of exchange swaps receivable in U.S. dollars when this effect is offset in the gain or loss of the hedged item (debt/ firm commitments), (ii) considers the designation effect of foreign exchange hedging and (iii) considers the designation effect of interest rate hedging in Brazilian Reais.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Fair Value of Financial Instruments**

The fair values and the carrying values of the financial instruments, including currency and interest rate hedging instruments, as of March 31, 2016 and December 31, 2015, are stated below:

Table of Contents

Ultrapar Participações S.A. and Subsidiaries

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

The fair value of financial instruments, including currency and interest hedging instruments, was determined as follows:

The fair value of cash and bank deposit balances are identical to their carrying values.

Financial investments in investment funds are valued at the value of the fund unit as of the date of the reporting period, which corresponds to their fair value.

Financial investments in CDBs (Bank Certificates of Deposit) and similar investments offer daily liquidity through repurchase at the yield curve and, therefore, the Company believes their fair value corresponds to their carrying value.

The subscription warrants indemnification were measured based on the share price of Ultrapar (UGPA3) at the reporting date and are adjusted to the Company's dividend yield, since the exercise is only possible starting in 2020 onwards and they are not entitled to dividends until then. The number of shares of subscription warrants indemnification is also adjusted according to the changes in the amounts of provision for tax, civil, and labor risks and contingent liabilities related to the period prior to January 31, 2014.

The fair value of other financial investments and financing was determined using calculation methodologies commonly used for mark-to-market reporting, which consist of calculating future cash flows associated with each instrument adopted and adjusting them to present value at the market rates as of March 31, 2016 and December 31, 2015. For some cases where there is no active market for the financial instrument, the Company and its subsidiaries can use quotes provided by the transaction counterparties.

The interpretation of market information on the choice of calculation methodologies for the fair value requires considerable judgment and estimates to obtain a value deemed appropriate to each situation. Consequently, the estimates presented do not necessarily indicate the amounts that may be realizable in the current market.

Financial instruments were classified as loans and receivables or financial liabilities measured at amortized cost, except (i) all exchange rate and interest rate hedging instruments, which are measured at fair value through profit or loss, (ii) financial investments classified as measured at fair value through profit or loss, (iii) financial investments that are classified as available for sale, which are measured at fair value through other comprehensive income (see Note 4), (iv) loans and financing measured at fair value through profit or loss (see Note 14), (v) guarantees to customers that have vendor arrangements (see Note 14.j), which are measured at fair value through profit or loss, and

(vi) subscription warrants indemnification, which are measured at fair value through profit or loss (see Note 22). The financial investments classified as held-to-maturity are measured at amortized cost. Cash, banks, and trade receivables are classified as loans and receivables. Trade payables and other payables are classified as financial liabilities measured at amortized cost.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Fair Value Hierarchy of Financial Instruments**

The financial instruments are classified in the following categories:

- (a) Level 1 prices negotiated (without adjustment) in active markets for identical assets or liabilities;
- (b) Level 2 inputs other than prices negotiated in active markets included in Level 1 and observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- (c) Level 3 inputs for the asset or liability which are not based on observable market variables (unobservable inputs).

The table below shows a summary of the financial assets and financial liabilities measured at fair value in the Company's and its subsidiaries as of March 31, 2016 and December 31, 2015:

	Category	Note	03/31/2016	Level 1	Level 2	Level 3

Sensitivity Analysis

The Company and its subsidiaries use derivative financial instruments only to hedge against identified risks and in amounts consistent with the risk (limited to 100% of the identified risk). Thus, for purposes of sensitivity analysis of market risks associated with financial instruments, as required by CVM Instruction 475/08, the Company analyzes the hedging instrument and the hedged item together, as shown on the charts below.

For the sensitivity analysis of foreign exchange hedging instruments, management adopted as a likely scenario the Real/U.S. dollar exchange rates at maturity of each swap, projected by U.S dollar futures contracts quoted on BM&FBOVESPA as of March 31, 2016. As a reference, the exchange rate for the last maturity of foreign exchange hedging instruments is R\$ 4.65 in the likely scenario. Scenarios II and III were estimated with a 25% and 50% additional appreciation or depreciation of the Brazilian Real against the likely scenario, according to the risk to which the hedged item is exposed.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)*

Based on the balances of the hedging instruments and hedged items as of March 31, 2016, the exchange rates were replaced, and the changes between the new balance in Brazilian Reais and the original balance in Brazilian Reais as of March 31, 2016 were calculated in each of the three scenarios. The table below shows the change in the values of the main derivative instruments and their hedged items, considering the changes in the exchange rate in the different scenarios:

	Risk	Scenario I (likely)	Scenario II	Scenario III
Currency swaps receivable in U.S. dollars				
(1) U.S. Dollar / Real swaps	Dollar	388,713	1,119,262	1,849,810
(2) Debts/firm commitments in dollars	appreciation	(388,716)	(1,119,299)	(1,849,881)
(1)+(2)	Net effect	(3)	(37)	(71)
Currency swaps payable in U.S. dollars				
(3) Real / U.S. Dollar swaps	Dollar	(500)	7,077	14,653
(4) Gross margin of Oxiteno	devaluation	500	(7,077)	(14,653)
(3)+(4)	Net effect			

For sensitivity analysis of hedging instruments for interest rates in Brazilian Reais, the Company used the futures curve of the DI x Pre contract on BM&FBOVESPA as of March 31, 2016 for each of the swap and debt (hedged item) maturities, to determine the likely scenarios. Scenarios II and III were estimated based on a 25% and 50% deterioration, respectively, of the likely scenario pre-fixed interest rate.

Based on the three scenarios of interest rates in Brazilian Reais, the Company estimated the values of its debt and hedging instruments according to the risk which is being hedged (variations in the pre-fixed interest rates in Brazilian Reais), by projecting them to future value at the contracted rates and bringing them to present value at the interest rates of the estimated scenarios. The results are shown in the table below:

	Risk	Scenario I (likely)	Scenario II	Scenario III
Interest rate swap (in R\$)				
(1) Fixed rate swap CDI	Decrease in		101	209

(2) Fixed rate financing	Pre-fixed rate	(101)	(209)
(1)+(2)	Net effect		

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***32. Commitments (Consolidated)****a. Contracts**

Subsidiary Tequimar has agreements with CODEBA and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with its port facilities in Aratu and Suape, respectively. Such agreements establish a minimum cargo movement of products, as shown below:

Port	Minimum movement in tons per year	Maturity
Aratu	100,000	2016
Aratu	900,000	2022
Suape	250,000	2027
Suape	400,000	2029

If the annual movement is less than the minimum contractual movement, the subsidiary is liable to pay the difference between the effective movement and the minimum contractual movement, based on the port tariff rates in effect on the date established for payment. As of December 31, 2015, these rates were R\$ 6.99 per ton for Aratu and R\$ 2.90 per ton for Suape. The subsidiary has met the minimum cargo movement required since the beginning of the contractual agreements.

Subsidiary Oxiteno Nordeste has a supply agreement with Braskem S.A. which establishes a minimum annually consumption level of ethylene, calculated quarterly, and conditions for the supply of ethylene until 2021. The minimum purchase commitment clause provided for a minimum annual consumption of 190 thousand tons in 2016. The minimum purchase commitment and the actual demand accumulated to March 31, 2016 and 2015, expressed in tons of ethylene, are shown below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 40% of the current ethylene price for the quantity not purchased. The subsidiary met the minimum purchase required in the agreement, according to contractual conditions and tolerance.

In tons of ethylene	Minimum purchase commitment^(*)		Accumulated demand (actual)	
	03/31/2016	03/31/2015	03/31/2016	03/31/2015

Subsidiary Oxiteno S.A. has a supply agreement with Braskem S.A., valid until 2023, which establishes and regulates the conditions for supply of ethylene to Oxiteno based on the international market for this product. The minimum purchase is 22,050 tons of ethylene semiannually. The minimum purchase commitment and the actual demand accumulated to March 31, 2016 and 2015, expressed in tons of ethylene, are shown below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 30% of the current ethylene price for the quantity not purchased. The subsidiary met the minimum purchase required in the agreement, according to contractual conditions and tolerance.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)****b. Insurance Coverage in Subsidiaries***

The Company maintains appropriate insurance policies with the objective of covering several risks to which it is exposed, including loss of profits, losses and damage from fire, lightning, explosion of any kind, gale, aircraft crash, electric damage, and other risks, covering the industrial plants and distribution bases and branches of all subsidiaries. The maximum compensation values based on the risk analysis of maximum possible losses of certain locations are shown below:

	Maximum compensation value^(*)
Oxiteno	US\$ 1,062
Ipiranga	R\$ 769
Ultracargo	R\$ 550
Ultragaz	R\$ 300
Extrafarma	R\$ 125

(*) In millions. In accordance with policy conditions.

The General Liability Insurance program covers the Company and its subsidiaries with a maximum aggregate coverage of US\$ 400 million against losses caused to third parties as a result of accidents related to commercial and industrial operations and/or distribution and sale of products and services.

The Company maintains liability insurance policies for directors and executive officers (D&O) to indemnify the members of the Board of Directors, fiscal council and executive officers of Ultrapar and its subsidiaries (Insured) in the total amount of US\$ 50 million, which cover any of the Insured liabilities resulting from wrongful acts, including any act or omission committed or attempted, except if the act, omission or the claim is consequence of gross negligence or willful misconduct.

In addition, group life and personal accident, health and national and international transportation and other insurance policies are also maintained.

The coverage and limit of the insurance policies are based on a careful study of risks and losses conducted by independent insurance advisors. The type of insurance is considered by management to be sufficient to cover potential losses based on the nature of the business conducted by the companies.

(In thousands of Brazilian Reais, unless otherwise stated)

c. Operating Lease Contracts

Subsidiaries Cia. Ultragas, Bahiana, Tequimar, Serma, and Oxiteno S.A. have operating lease contracts for the use of IT equipment. These contracts have terms of 36 and 45 months. The subsidiaries have the option to purchase the assets at a price equal to the fair market price on the date of option, and management does not intend to exercise such option. Subsidiaries Cia. Ultragas and Bahiana have operating lease contracts related to vehicles in their fleet. These contracts have terms of 24 to 60 months and there is no purchase option. The future disbursements (installments), assumed under these contracts, amount approximately to:

	Up to 1 year	Between 1 and 5 years	More than 5 years	Total
03/31/2016	20,722	25,098		45,820

The subsidiaries IPP, Extrafarma, and Cia. Ultragas have operating lease contracts related to land and building of service stations, drugstores, and stores, respectively. The future disbursements and receipts (installments), arising from these contracts, amount approximately to:

		Up to 1 year	Between 1 and 5 years	More than 5 years	Total
03/31/2016	payable	95,939	266,777	128,252	490,968
	receivable	(48,512)	(147,423)	(70,379)	(266,314)

The expense recognized for the three-month period ended March 31, 2016 for operating leases was R\$ 23,514 (R\$ 28,888 for the three-month period ended March 31, 2015), net of sublease income.

33. Ultracargo Fire accident in Santos

On April 2, 2015, part of the storage facilities operated by Ultracargo in Santos, in the State of São Paulo, endured a nine-day fire accident surrounding six ethanol and gasoline tanks. The six tanks represented 4% of Ultracargo's overall capacity in Brazil as of December 31, 2014. There were no casualties and the cause of such accident and its impacts are still being investigated, including the extent of operational losses, damage to assets, potential environmental damages (see Note 20.b.2.2) and other liabilities and reputational harm. The Company maintains insurance policies to cover certain risks to which the subsidiaries are exposed (see Note 32.b).

On April 9, 2015, the Santos municipal government suspended Ultracargo's activities in that city. Ultracargo's operations in Santos comprise two separate areas. On April 27, 2015, the municipal government granted Ultracargo the authorization to resume its operations in the area not affected by the accident as published in the Santos Official Gazette (Diário Oficial de Santos). The operations corresponding to 185 thousand cubic meters capacity, or 22.5% of Ultracargo's overall capacity in Brazil, are still suspended.

Ultracargo started the implementation of the decommissioning plan, which comprises the removal of equipment and structures of the terminal affected by the fire. This process will allow the experts of the Criminalistics Institute to conclude their work and the investigation to determine the causes of the incident.

According to its services contracts with clients, Ultracargo has the obligation to hire insurance coverage and any indemnification will be paid by the insurer, according to the respective insurer's analysis and processing terms for the insurance loss adjustment. In the three-month period ended March 31, 2016, Ultracargo signed an agreement with certain customers to advance the insurance indemnities and accrued the amount of R\$ 142,925 in liabilities and recognized a receivables from the insurer in the same amount as an indemnification asset. In March 2016, Ultracargo paid advances to a customer in the amount of R\$ 30,000, remaining a balance of R\$ 112,925 in liabilities.

The balance of R\$ 167,008 of indemnification asset, includes R\$ 24,083 of loss in inventories of Ipiranga. Such amounts are covered by insurance and were communicated to the insurer for inclusion in the loss adjustment process, whose conclusion and corresponding indemnification to the clients depends on completion of the Criminalistics Institute assessment, and are not expected to materially affect the results of the Company.

In addition, the Company has lawsuits and extrajudicial claims for third-party indemnification, related to damages and losses, presented until the date of these interim financial statements. Such lawsuits and claims are entitled to insurance coverage and are being analyzed by the insurers. The amounts of contingent liabilities relating to lawsuits and extrajudicial claims is R\$ 93,691 and R\$ 32,582, respectively.

Finally, Ultracargo pleaded advances related to expenses with rescue and containment and loss of profit, which were included in the loss adjustment by the insurers, in the amounts of R\$ 50,818 and R\$ 40,453, respectively. In the three-month period ended March 31, 2016, Ultracargo received R\$ 29,751 from the insurer related to reimbursement

of rescue and containment expenses, which were recognized in the income statement. The balance of contingent assets will be recognized when received or approved by the insurer.

Table of Contents

Considerations on the financial and operational information

Standards and criteria adopted in preparing the information

The financial information presented in this document has been prepared according to International Financial Reporting Standards (IFRS). The financial information of Ultrapar corresponds to the company's consolidated information. The information of Ipiranga, Oxiteno, Ultragas, Ultracargo and Extrafarma is reported without elimination of intercompany transactions. Therefore, the sum of such information may not correspond to the consolidated information of Ultrapar. In addition, the financial and operational information presented in this document is subject to rounding off and, consequently, the total amounts presented in the tables and charts may differ from the direct sum of the amounts that precede them.

Table of Contents**(2) Performance Analysis:****Ultrapar**

Net revenue from sales and services: Ultrapar's consolidated net sales and services in 1Q16 increased by 12% compared to 1Q15, reaching R\$ 19,524 million, due to the revenues growth in Ipiranga, Oxiteno, Ultragaz and Extrafarma. Compared to 4Q15, Ultrapar's net sales and services decreased by 5%, mainly due to the seasonality between periods.

Cost of products and services sold: In 1Q16, Ultrapar's cost of products and services sold increased by 13% compared to 1Q15, totaling R\$ 17,806 million, due to the increased cost of products and services sold in all business units. Compared with 4Q15, Ultrapar's cost of products and services sold decreased by 4%, due to lower cost of products and services sold in Ipiranga, Oxiteno and Ultragaz.

Gross profit: Ultrapar's gross profit amounted to R\$ 1,718 million in 1Q16, up 9% over 1Q15, as a consequence of the growth in the gross profit in Ipiranga, Oxiteno, Ultragaz and Extrafarma. Compared with 4Q15, Ultrapar's gross profit decreased by 12% in all businesses, except Ultracargo.

Selling, marketing, general and administrative expenses: Ultrapar's selling, marketing, general and administrative expenses totaled R\$ 963 million in 1Q16, up 10% over 1Q15, due to the expansion of Ipiranga's service stations network, the effects of the weaker Real on expenses with logistics and international units, given the increased sales volume, in Oxiteno and the 15% increase in the average number of drugstores and the effects of inflation in Extrafarma. Compared with 4Q15, Ultrapar's selling, marketing, general and administrative expenses decreased by 10%.

Other operating results: In 1Q16, other operating results reported a net revenue of R\$ 35 million, over a net revenue of R\$ 21 million in 1Q15 and a net revenue of R\$ 35 million in 4Q15. In 1Q16, the amount is explained by (i) a revenue of R\$ 6 million due to the effects of the fire in part of the Santos terminal in April 2015, composed mainly of a R\$ 30 million gain from insurance advances, net of expenses with fine paid to *Companhia Ambiental do Estado de São Paulo* (CETESB) and decommissioning, and (ii) a revenue of R\$ 27 million resulting from the strategy of constant innovation in services and convenience in Ipiranga.

Depreciation and amortization: Total depreciation and amortization costs and expenses in 1Q16 amounted to R\$ 270 million, a 15% increase over 1Q15, as a result of investments made during the last 12 months, specially in the expansion of Ipiranga's service station network and in the strategy of constant innovation and differentiation initiatives in its service stations. Compared to 4Q15, total depreciation and amortization costs and expenses remained stable.

Operating income: Ultrapar's operating income amounted to R\$ 791 million in 1Q16, up 5% over 1Q15, as a result of the increase in the operating income of Ultragaz and Oxiteno. Compared with 4Q15, Ultrapar's operating income decreased by 13%, as a result of the decrease in the operating income of Ipiranga, Ultragaz and Extrafarma.

Financial result: Ultrapar's net debt at the end of March 2016 was R\$ 5.9 billion (1.5 times LTM EBITDA), compared to R\$ 5.0 billion in March 2015 (1.4 times LTM EBITDA). Ultrapar reported net financial expenses of R\$ 216 million in 1Q16, a R\$ 35 million increase compared to 1Q15, mainly due to (i) annual CDI increase by 2.0 p.p., (ii) the higher net debt, due to the growth of the company, (iii) the effects of the exchange rate fluctuations in the period and (iv) PIS/COFINS taxes levied on financial revenues as from July 2015. Compared to 4Q15, net financial expenses increased R\$ 55 million, as a result of the higher net debt and the effects of the appreciation of Ultrapar's shares on subscription warrants issued in the Extrafarma's transaction.

Income and social contribution taxes / Tax incentives: Ultrapar reported income tax and social contribution expenses, net of tax incentives of R\$ 183 million in 1Q16, stable compared with 1Q15, due the increased non-deductible expenses, mainly explained by the fine paid to CETESB as mentioned above, offset by increased tax incentives that Ultrapar has in its Northeastern operations. Compared to 4Q15, income tax and social contribution expenses, net of tax incentives decreased by 26%.

Table of Contents

Net income: Net income in 1Q16 amounted to R\$ 388 million, remaining stable compared to 1Q15, due to the EBITDA growth, offset by higher net financial expenses and depreciation and amortization. Compared to 4Q15, net earnings decreased by 22% as a result of a lower EBITDA, mainly due to the seasonality between periods.

EBITDA: Ultrapar's consolidated EBITDA totaled R\$ 1,058 million in 1Q16, up 7% over 1Q15, in spite of the worsening of the economic scenario. Compared to 4Q15, Ultrapar's EBITDA decreased by 10%, mainly due to the seasonality between periods.

R\$ million	1Q16	1Q15	4Q15	Variation	Variation
				1Q16 X 1Q15	1Q16 X 4Q15
Ultrapar	1,057.6	986.6	1,176.9	7%	-10%
Ipiranga	712.3	714.5	868.2	0%	-18%
Oxiteno	198.3	144.6	180.1	37%	10%
Ultragaz	108.5	72.3	108.6	50%	0%
Ultracargo	32.6	47.7	12.9	-32%	152%
Extrafarma	5.2	5.1	8.7	2%	-40%

(1) The EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) presented in this document represents the net income before (i) income and social contribution taxes, (ii) net financial expense (income) and (iii) depreciation and amortization, in accordance with ICVM 527/12. The purpose of including EBITDA information is to provide a measure used by the management for internal assessment of our operating results, and because a portion of our employee profit sharing plan is linked directly or indirectly to EBITDA performance. It is also a financial indicator widely used by investors and analysts to measure our ability to generate cash from operations and our operating performance. We also calculate EBITDA in connection with covenants related to some of our financing, as described in Note 14 to our consolidated financial statements. We believe EBITDA allows a better understanding not only of our financial performance but also of our capacity of meeting the payment of interest and principal from our debt and of obtaining resources for our investments and working capital. Our definition of EBITDA may differ from, and, therefore, may not be comparable with similarly titled measures used by other companies, thereby limiting its usefulness as a comparative measure. Because EBITDA excludes net financial expense (income), income and social contribution taxes and depreciation and amortization, it provides an indicator of general economic performance that is not affected by debt restructurings, fluctuations in interest rates or changes in income and social contribution taxes, depreciation and amortization. EBITDA is not a measure of financial performance under accounting practices adopted in Brazil or IFRS, and it should not be considered in isolation, or as a substitute for net income, as a measure of operating performance, as a substitute for cash flows from operations or as a measure of liquidity. EBITDA has material limitations that impair its value as a measure of a company's overall profitability since it does not address certain ongoing costs of our business that could significantly affect profitability such as financial expense (income), income and social contribution taxes and depreciation and amortization.

The reconciliation of the EBITDA to the net income of the period is presented below:

R\$ million	1Q16	1Q15	4Q15
-------------	------	------	------

Net income	387.9	386.6	496.8
(+) Income tax and social contribution	183.1	182.8	247.1
(+) Net financial expenses	216.5	181.2	161.8
(+) Depreciation and amortization	270.1	235.9	271.2
EBITDA	1,057.6	986.6	1,176.9

Table of Contents

The performance analysis for each segment is presented below:

Ipiranga

Operational performance: Ipiranga's sales volume totaled 5,934 thousand cubic meters in 1Q16, 3% below 1Q15 volume. Fuel sales volume for light vehicles (Otto cycle) decreased by 5% compared to 1Q15, despite the estimated growth of 2% in the vehicle fleet, reflecting the growth in unemployment levels from mid-2015 and the increase in the cost of fuels' share of income, in addition to lower competitiveness of ethanol prices. The volume of diesel decreased by 1% year-on-year due to the weak performance of the economy. Compared with 4Q15, sales volume decreased by 10%, mainly due to the seasonality between periods.

Net revenue from sales and services: Ipiranga's net revenue from sales and services reached R\$ 16,869 million in 1Q16, up 12% over 1Q15, mainly as a result of (i) the rise in diesel and gasoline costs in February 2015 (increase of CIDE tax) and September 2015 (increase by Petrobras) and, consequently, higher ethanol costs and (ii) the strategy of constant innovation in services and convenience in the service station, generating greater customer satisfaction and loyalty, partially offset by lower sales volume. Compared with 4Q15, net revenue from sales and services decreased by 5%, mainly derived from the seasonality between periods, partially offset by higher ethanol costs in 1Q16.

Cost of products sold: Ipiranga's cost of goods sold totaled R\$ 15,812 million in 1Q16, up 12% compared to 1Q15, mainly due to the rise in diesel and gasoline costs in February and September 2015 and, consequently, higher ethanol costs, partially offset by lower sales volume. Compared to 4Q15, cost of goods sold decreased by 5%, mainly due to the lower seasonal volume, partially offset by higher ethanol costs in 1Q16.

Selling, marketing, general and administrative expenses: Ipiranga's selling, marketing, general and administrative expenses amounted to R\$ 539 million in 1Q16, a 9% increase over 1Q15, mainly resulting from (i) the expansion of the distribution network and (ii) the effects of inflation on expenses, partially offset by lower freight expenses, due to lower sales volume, and marketing expenses. Compared to 4Q15, selling, marketing, general and administrative expenses decreased by 4% mainly due to lower sales volume in 1Q16 and lower expenses with studies and projects compared to 4Q15.

EBITDA: Ipiranga's EBITDA reached R\$ 712 million in 1Q16, practically stable compared to 1Q15. The main positive factor is the strategy of constant innovation in services and convenience in the service station, generating greater customer satisfaction and loyalty, offsetting the lower sales volume and the combined effect of the temporary benefit of inventory gains and a concentration of revenues from the sale of assets in 1Q15 in the amount of R\$ 89 million. Excluding extraordinary gains of R\$ 89 million in 1Q15, EBITDA would have increased by 14%. Compared to 4Q15, Ipiranga's EBITDA decreased by 18%, mainly due to lower seasonal volume and the temporary inventory gain seen in the previous quarter.

Oxiteno

Operational performance: Oxiteno's sales volume totaled 182 thousand tons in 1Q16, a 4% increase (6 thousand tons) compared to 1Q15, mainly due to increased sales of commodities, which reflected more attractive raw materials prices, and increased sales of specialties in the foreign market. This growth was partially offset by the effects of the strong slowdown of the Brazilian economy on the sales volume of specialty chemicals in Brazil, which decreased by 9% compared to 1Q15. Compared with 4Q15, sales volume grew by 9% (15 thousand tons), due to increased sales of commodities.

Net revenue from sales and services: Oxiteno's net revenue from sales and services totaled R\$ 1,004 million in 1Q16, up 18% over 1Q15, due to a 37% weaker Real against the US Dollar and higher sales volume, partially offset by the lower average price of the products, as a result of a larger share of commodities in sales mix and the decrease in raw materials costs in US Dollars during the last 12 months. Compared to 4Q15, net revenue from sales and services decreased by 8%, despite the volume growth, mainly due to the lower average price of the products, as a result of a larger share of commodities in the sales mix and the decrease in raw materials costs in US Dollars.

Table of Contents

Cost of products sold: Oxiteno's cost of goods sold in 1Q16 amounted to R\$ 696 million, a 16% increase compared to 1Q15, due to a 37% weaker Real against the US Dollar, higher sales volume and higher costs of utilities, partially offset by a 16% reduction in unitary variable costs in US Dollars as a result of lower raw materials costs in US Dollars during the last 12 months. Compared to 4Q15, the cost of goods sold decreased by 7% mainly due to an 11% reduction in unitary variable cost in US Dollars, as a result of lower raw materials costs in US Dollars, and the costs resulting from the unscheduled stoppage in Mauá in 4Q15.

Selling, marketing, general and administrative expenses: Oxiteno's selling, marketing, general and administrative expenses amounted to R\$ 148 million in 1Q16, a 6% increase over 1Q15, due to the effects of the weaker Real on expenses with logistics and international units, given the increased sales volume, partially offset by the default of an international client in judicial recovery in 1Q15. Compared to 4Q15, selling, marketing, general and administrative expenses decreased by 28% mainly due to lower expenses with variable compensation and studies and projects.

EBITDA: EBITDA totaled R\$ 198 million in 1Q16, up 37% over 1Q15, mainly due to (i) the 37% devaluation of the Real and (ii) the increased sales volume, partially offset by a larger share of commodities in sales mix. Compared to 4Q15, EBITDA increased by 10% due to the higher sales volume in 1Q16 and higher costs resulting from the unscheduled stoppage in Mauá in 4Q15, partially offset by a larger share of commodities in the sales mix.

Ultragaz

Operational performance: In 1Q16, Ultragaz reached sales volume of 407 thousand tons, up 1% over 1Q15. The bottled segment showed a 1% growth compared to 1Q15, due to commercial initiatives to add new resellers. In the bulk segment, sales volume was similar to that observed in 1Q15, as a result of investments made to capture new customers, mainly in the residential and small- and medium-sized companies segments and new large industrial customers, offsetting the negative effect of the deceleration of the economy. Compared with 4Q15, sales volume decreased by 1%, mainly derived from the seasonality between periods

Net revenue from sales and services: Ultragaz's net revenue from sales and services was R\$ 1,233 million in 1Q16, a 19% increase compared to 1Q15, due to (i) the increase in the cost of LPG by Petrobras in September and December 2015, (ii) the differentiation strategy based on innovation, customer convenience and satisfaction as well as (iii) higher sales volume. As compared to 4Q15, net revenue from sales and services decreased by 1%, mainly due to the lower volume, partially offset by the increase in the cost of LPG for use in the bulk segment in December 2015.

Cost of products sold: Ultragaz's cost of goods sold amounted to R\$ 1,024 million in 1Q16, a 16% increase compared to 1Q15, as a result of (i) the increase in the cost of LPG, (ii) higher freight costs and (iii) sales volume growth, partially offset by below-inflation increase in fixed costs, mainly related with personnel and requalification of LPG bottles in 1Q16. As compared to 4Q15, cost of products sold decreased by 1%, mainly due to the lower volume, partially offset by the increase in the cost of LPG for use in the bulk segment in December 2015.

Selling, marketing, general and administrative expenses: Ultragaz's selling, marketing, general and administrative expenses totaled R\$ 141 million in 1Q16, up 22% over 1Q15, mainly as a result of (i) the effects of inflation on expenses, (ii) higher IT expenses to support commercial initiatives and (iii) higher expenses with studies and projects, including expenses related to industrial customers' service. Compared to 4Q15, selling, marketing, general and administrative expenses decreased by 4%, mainly due to the seasonally lower volume and higher expenses with initiatives to qualify resellers and marketing in 4Q15, partially offset by higher expenses with studies and projects in 1Q16.

EBITDA: Ultragas's EBITDA reached R\$ 109 million in 1Q16, up 50% over 1Q15, mainly resulting from (i) commercial initiatives implemented to increase the offer of convenience and satisfaction to its customers, (ii) the below-inflation increase of fixed costs and (iii) the capture of new customers, mainly in the residential and small- and medium-sized companies segments and new large industrial customers. Compared to 4Q15, EBITDA remained stable, with lower sales volume offset by lower costs and expenses in 1Q16.

Table of Contents**Ultracargo**

Operational performance: In 1Q16, Ultracargo's average storage, excluding Santos operations, increased by 6% compared to 1Q15 and 4Q15, as a result of increased fuel handling, including ethanol, mainly as a result of more competitive international prices. Total storage, on its turn, decreased by 13% compared to 1Q15, mainly as a result of the partial stoppage of the Santos terminal and the lower handling of chemicals, which reflected the slowdown of the economic activity.

Net revenue from sales and services: Ultracargo's net revenue from sales and services totaled R\$ 81 million in 1Q16, a 12% decrease compared to 1Q15, mainly due to the lower handling in Santos, as a result of the partial stoppage of the terminal, offset by the higher fuel handling in Aratu and Suape terminals. Compared to 4Q15, net revenue from sales and services increased by 11%, mainly due to the higher handling of fuels. Excluding Santos operations, other Ultracargo's terminals increased net revenue from sales and services in 1Q16 by 8% and 11% compared to 1Q15 and 4Q15 respectively, explained by variations in the operational performance.

Cost of services provided: Ultracargo's cost of services provided in 1Q16 amounted to R\$ 47 million, a 37% increase compared to 1Q15, mainly due to the effects of inflation on personnel expenses and higher maintenance costs. Compared with 4Q15, Ultracargo's cost of services provided increased by 11%. As from January 2016, some expenses were classified as costs, according to their management allocation. The total amount of expenses classified as costs was R\$ 6 million, resulting in increases in the comparisons with 1Q15 and 4Q15.

Selling, marketing, general and administrative expenses: Ultracargo's selling, marketing, general and administrative expenses totaled R\$ 20 million in 1Q16, a 10% decrease compared to 1Q15, mainly due to the changes in allocation mentioned in the cost explanation, partially offset by the effects of inflation on expenses. Compared to 4Q15, selling, marketing, general and administrative expenses decreased by 38% due to the changes in allocation mentioned in cost explanation and higher expenses with indemnification and studies and projects in 4Q15.

Other operating results: In 1Q16, Other operating results reported net revenue of R\$ 8 million compared to net revenue of R\$ 1 million in 1Q15 and net revenue of R\$ 4 million in 4Q15. In 1Q16, the amount includes basically a R\$ 30 million gain resulting from insurance advances of fire-related expenses incurred in 2015, and expenses of R\$ 16 million due to a fine paid to *Companhia Ambiental do Estado de São Paulo* (CETESB).

EBITDA: Ultracargo's EBITDA totaled R\$ 33 million in 1Q16, a 32% decrease compared to 1Q15, mainly due to the partial stoppage of the Santos terminal and its fire-related expenses, partially offset by insurance advances in the amount of R\$ 30 million. Compared to 4Q15, Ultracargo reported an increase of R\$ 20 million in EBITDA, explained by the insurance advances. Excluding Santos operations, Ultracargo's EBITDA in 1Q16 remained stable when compared to 1Q15, reversing the downward trend since 3Q15 in this comparison basis, and reported a 76% increase compared to 4Q15.

Extrafarma

Operational performance: Extrafarma ended 1Q16 with 261 drugstores, an increase of 35 drugstores (15%) compared to the end of 1Q15. By the end of 1Q16, 38% of the drugstores were under 3 years of operation, compared to 32% in 1Q15. Seven drugstores (3%) were added as compared to 4Q.

Gross revenues: Extrafarma's gross revenues totaled R\$ 372 million in 1Q16, a 10% increase compared to 1Q15, due to 16% higher the retail sales, excluding mobile phone sales, as a result of the increased average number of stores and the 12% growth in same store sales, even with the worsening of the economic scenario and household income,

resulting in a 28% decrease in mobile phone sales. Compared to 4Q15, Extrafarma's gross revenues increased by 4% mainly due to higher discounts levels in 4Q15.

Cost of products sold and gross profit: Extrafarma's cost of goods sold totaled R\$ 238 million in 1Q16, up 8% over 1Q15, mainly as a result of higher sales and the annual adjustment in the prices of medicines, set by the Chamber for the Regulation of the Medical Pharmaceuticals Market (CMED). Extrafarma's gross profit reached R\$ 112 million, up 15% over 1Q15, mainly due to the growth in retail revenues excluding mobile phone sales. Compared to 4Q15, the cost of goods sold increased by 12% in 1Q16 and gross profit reduced by 11%, mainly due to the seasonality between periods, with concentration of industry funds in fourth quarters, and an extraordinary inventory gain reported in 4Q15.

Table of Contents

Selling, marketing, general and administrative expenses: Extrafarma's selling, marketing, general and administrative expenses totaled R\$ 116 million in 1Q16, a 20% increase compared to 1Q15, or 16% excluding depreciation and amortization expenses. This growth results from a 15% increase in the average number of drugstores and the effects of inflation on expenses, partially offset by the initiatives to raise the management standards in the retail pharmacy network. Compared to 4Q15, selling, marketing, general and administrative expenses decreased by 3%, mainly due to initiatives to raise the management standards in the retail pharmacy network, which resulted in additional expenses in 4Q15 and contributed to reduce the expenses in 1Q16.

EBITDA: In 1Q16, Extrafarma's EBITDA totaled R\$ 5 million, up 2% over 1Q15, mainly due to the increase in gross revenues, and the initiatives to raise the management standards in the retail pharmacy network, despite the worsening of the economic situation and the higher number of new stores, still in their maturing process. Compared to 4Q15, Extrafarma's EBITDA decreased by 40%, mainly due to inventory extraordinary gains reported in 4Q15.

We hereby inform that in accordance with the requirements of CVM Resolution 381/03, our independent auditors Deloitte Touche Tohmatsu Auditores Independentes have not performed during these three months of 2016 any service other than the external audit of the financial statements for the year ended on December 31, 2015 and the review of interim financial information of Ultrapar and subsidiaries.

Despite the continuity of the challenging macroeconomic scenario, our focus in resilient businesses, our multi-business strategy and our teams planning and execution capability were key for one more quarter of superior results. As such, we have been able to maintain a consistent growth trajectory in Brazil's current situation. It requires clear objectives, sense of opportunity and accountability in our decisions. However, the challenges in the economic and political horizon do not curb our confidence to continue investing and strengthening our businesses in 2016.

Table of Contents**Considerations on the financial and operational information**

The financial information presented in this document has been prepared according to International Financial Reporting Standards (IFRS). The financial information of Ultrapar corresponds to the company's consolidated information. The information of Ipiranga, Oxiteno, Ultragaz, Ultracargo and Extrafarma is reported without elimination of intercompany transactions. Therefore, the sum of such information may not correspond to the consolidated information of Ultrapar. In addition, the financial and operational information presented in this document is subject to rounding off and, consequently, the total amounts presented in the tables and charts may differ from the direct sum of the amounts that precede them.

EBITDA Earnings Before Interest, Taxes, Depreciation and Amortization, and EBIT Earnings Before Interest and Taxes, are presented in accordance with CVM Instruction No. 527, issued by CVM on October 4, 2012. The calculation of EBITDA starting from net earnings is presented below:

R\$ million	1Q16	1Q15	4Q15	D (%)	
				1Q16v1Q15	1Q16v4Q15
Net earnings	387.9	386.6	496.8	0%	(22%)
(+) Income and social contribution taxes	183.1	182.8	247.1		
(+) Financial expenses (income), net	216.5	181.2	161.8		
(+) Depreciation and amortization	270.1	235.9	271.2		
EBITDA	1,057.6	986.6	1,176.9	7%	(10%)

Highlights

- ü **Extrafarma opens drugstore in Ultragaz's reseller in Fortaleza** Continuing the process of capturing synergies among Ultra's businesses, Extrafarma opened in April 2016 its first drugstore in an Ultragaz's reseller shop, in Fortaleza, state of Ceará. The store was installed in a 124 square meter area, following the new Extrafarma store standards, with a new architecture and more attractive visual communication. Another novelty is that the store is located in a *Revenda Sustentável* (Sustainable Reseller), a pioneering concept at Ultragaz, which offers sustainable technology and lower operating costs to resellers through rainwater collection system, low-power lighting and selective waste collection. Extrafarma currently operates four drugstores in Ipiranga's service stations.
- ü **Ipiranga and ConectCar launches application *Abastece Ai*** Focusing on innovation and differentiation, Ipiranga launched in January 2016 a mobile app named *Abastece Ai*, an initiative based in the integration of platforms to offer customers greater convenience and benefits. Through *Abastece ai*, the customer can program or decide at the pump its refueling option which is automatically recognized by the service station attendant. The customer can also choose the benefit he/she prefers to be granted with and completes the transaction using its *Km de Vantagens* (Ipiranga's loyalty program) password, in a fully safe payment. *Abastece ai* was initially available only in São Paulo and launched countrywide in April.
- ü **Update about the fire in a terminal operated by Ultracargo in Santos** In February, Ultracargo started the second stage of the decommissioning plan, which consists in removing the equipment and structures from the part of the terminal affected by the fire in April 2015 in Santos, state of São Paulo. The terminal is expected to be ready for operational licensing by the end of this year. The part of the terminal with suspended operations has a

capacity of 185 thousand m³, 55% of Ultracargo's capacity in Santos and 23% of company's total capacity. With regard to the items that affected results in 1Q16, the company received insurances advances related to certain containment and recovery expenses incurred in 2015 amounting R\$ 30 million and paid a fine in the amount of US\$ 16 million to *Companhia Ambiental do Estado de São Paulo (CETESB)*. For information about the effects on balance sheet, see Notes 20.b.2.2 and 33 of quarterly financial statements (ITRs) for March 31, 2016.

Table of Contents**Executive summary of the results**

In the first quarter of 2016, the macroeconomic scenario continued its downward trend observed during 2015, with worsening labor market and income levels, inflation rate constantly higher than the expectations, deceleration of the economy and deepening political crisis. The base interest rate was 12.75% in 1Q15 and was raised to 14.25% by the Central Bank in July 2015 in order to curb inflation, remaining at this level until the end of 1Q16. At the beginning of the year, the Real/US Dollar exchange rate was R\$ 4.04/US\$, peaking on January 21 at R\$ 4.16/US\$, but ending the quarter at R\$ 3.56/US\$. On its turn, the average Real/US Dollar exchange rate was R\$ 3.91/US\$ in 1Q16, a 37% increase compared to the average of R\$ 2.86/US\$ in 1Q15. The average oil price (Brent) in 1Q16 was US\$ 34/barrel, a 36% decrease compared to 1Q15, when the price was US\$ 54/barrel, influenced mainly by the excessive supply, combined with China's economic slowdown. GDP fell by 3.8% in 2015 and the market expectation for 2016, measured by the Focus Bulletin of the Central Bank of Brazil, points to the same reduction level. Such performance is the worst two-year period in terms of growth in Brazil since the beginning of the 20th century, when these data became available. All these factors contributed to new downgrades in the Brazilian sovereign credit ratings by the top rating agencies in February. In the retail pharmacy sector in North and Northeast regions, according to data from members of Abrafarma, sales increased 9%, maintaining the same growth levels since mid-2015.

At Ipiranga, sales volume decreased by 3% compared to 1Q15. Fuel sales volume for light vehicles (Otto cycle) decreased by 5% year on year, despite the estimated expansion in the light vehicle fleet, even though at a slower pace, as a result of the growth in unemployment levels from mid-2015 and the increase in the cost of fuels share of income. The volume of diesel decreased by 1% as compared to 1Q15 due to the weak performance of the economy. EBITDA reached R\$ 712 million in 1Q16, practically stable compared to 1Q15. The main positive factor in this comparison is the strategy of constant innovation in services and convenience in the service stations, generating greater customer satisfaction and loyalty, which was partially offset by lower sales volume and extraordinary effects that benefited EBITDA in 1Q15.

Oxiteno's sales volume reached 182 thousand tons, a 4% increase compared to 1Q15, due to increased sales of commodities, which reflected more attractive raw materials prices, and increased sales of specialties in the foreign market, partially offset by the effect of the strong slowdown of the Brazilian economy on the sales of specialty chemicals in Brazil. EBITDA totaled R\$ 198 million in 1Q16, up 37% over 1Q15, due to a 37% weaker Real against the US Dollar and higher sales volume, partially offset by the larger share of commodities in sales mix.

In 1Q16, Ultragaz reported a 1% increase in sales volume compared to 1Q15. The bottled segment showed a 1% growth compared to 1Q15, due to commercial initiatives to add new resellers. In the bulk segment, sales volume was similar to that observed in 1Q15, as a result of investments made to capture new customers, mainly in the residential and small- and medium-sized companies segments and new industrial customers, offsetting the negative effect of the deceleration of the economy. As a result of (i) the initiatives to increase the offer of convenience and satisfaction to its customers, (ii) the below-inflation increase in fixed costs and (iii) the capture of new customers, Ultragaz's EBITDA reached R\$ 109 million, 50% growth over 1Q15.

At Ultracargo, the average storage in terminals excluding Santos operations increased 6% compared to 1Q15, due to increased fuel handling, including ethanol, mainly as a result of more competitive international prices. In the same comparison, ex-Santos EBITDA remained stable, reversing the downward trend reported since 3Q15. Ultracargo's total average storage is still affected by the partial stoppage of the Santos terminal, reporting a 13% decrease

compared to 1Q15. Ultracargo's total EBITDA reached R\$ 33 million in 1Q16, a 32% decrease compared to 1Q15, due to the partial stoppage of the Santos terminal and fire-related expenses, partially offset by insurance advances.

Extrafarma ended 1Q16 with 261 drugstores, up 15% over 1Q15. Extrafarma's EBITDA totaled R\$ 5 million in 1Q16, a 2% growth compared to 1Q15, due to the 16% higher retail sales, excluding mobile phones sales, and the initiatives to raise the management standards in the retail pharmacy network, partially offset by the worsening of the economic situation, which led to a 28% decrease in mobile phone sales, and the higher number of new stores still in its maturing process.

The performance of Ultrapar's businesses resulted in a consolidated EBITDA of R\$ 1,058 million in 1Q16, up 7% over 1Q15. The growth in EBITDA was offset by higher net financial expenses and depreciation and amortization, resulting from investments made in expansions. Thus, Ultrapar's net earnings was R\$ 388 million in 1Q16, remaining stable compared to 1Q15.

Table of Contents**Ipiranga**

Operational performance Ipiranga's sales volume totaled 5,934 thousand cubic meters in 1Q16, 3% below 1Q15 volume. Fuel sales volume for light vehicles (Otto cycle) decreased by 5% compared to 1Q15, despite the estimated growth of 2% in the vehicle fleet, reflecting the growth in unemployment levels from mid-2015 and the increase in the cost of fuels' share of income, in addition to lower competitiveness of ethanol prices. The volume of diesel decreased by 1% year-on-year due to the weak performance of the economy. Compared with 4Q15, sales volume decreased by 10%, mainly due to the seasonality between periods.

Ipiranga Sales volume (000 m³)

Net sales and services Ipiranga's net sales and services reached R\$ 16,869 million in 1Q16, up 12% over 1Q15, mainly as a result of (i) the rise in diesel and gasoline costs in February 2015 (increase of CIDE tax) and September 2015 (increase by Petrobras) and, consequently, higher ethanol costs and (ii) the strategy of constant innovation in services and convenience in the service station, generating greater customer satisfaction and loyalty, partially offset by lower sales volume. Compared with 4Q15, net sales and services decreased by 5%, mainly derived from the seasonality between periods, partially offset by higher ethanol costs in 1Q16.

Cost of goods sold Ipiranga's cost of goods sold totaled R\$ 15,812 million in 1Q16, up 12% compared to 1Q15, mainly due to the rise in diesel and gasoline costs in February and September 2015 and, consequently, higher ethanol costs, partially offset by lower sales volume. Compared to 4Q15, cost of goods sold decreased by 5%, mainly due to the lower seasonal volume, partially offset by higher ethanol costs in 1Q16.

Sales, general and administrative expenses Ipiranga's sales, general and administrative expenses amounted to R\$ 539 million in 1Q16, a 9% increase over 1Q15, mainly resulting from (i) the expansion of the distribution network and (ii) the effects of inflation on expenses, partially offset by lower freight expenses, due to lower sales volume, and marketing expenses. Compared to 4Q15, sales, general and administrative expenses decreased by 4% mainly due to lower sales volume in 1Q16 and lower expenses with studies and projects compared to 4Q15.

EBITDA Ipiranga's EBITDA reached R\$ 712 million in 1Q16, practically stable compared to 1Q15. The main positive factor is the strategy of constant innovation in services and convenience in the service station, generating greater customer satisfaction and loyalty, offsetting the lower sales volume and the combined effect of the temporary benefit of inventory gains and a concentration of revenues from the sale of assets in 1Q15 in the amount of R\$ 89 million. Excluding extraordinary gains of R\$ 89 million in 1Q15, EBITDA would have increased by 14%. Compared to 4Q15, Ipiranga's EBITDA decreased by 18%, mainly due to lower seasonal volume and the temporary inventory gain seen in the previous quarter.

Table of Contents**Oxitenó**

Operational performance Oxitenó's sales volume totaled 182 thousand tons in 1Q16, a 4% increase (6 thousand tons) compared to 1Q15, mainly due to increased sales of commodities, which reflected more attractive raw materials prices, and increased sales of specialties in the foreign market. This growth was partially offset by the effects of the strong slowdown of the Brazilian economy on the sales volume of specialty chemicals in Brazil, which decreased by 9% compared to 1Q15. Compared with 4Q15, sales volume grew by 9% (15 thousand tons), due to increased sales of commodities.

Oxitenó Sales volume (000 tons)

Net sales and services Oxitenó's net sales and services totaled R\$ 1,004 million in 1Q16, up 18% over 1Q15, due to a 37% weaker Real against the US Dollar and higher sales volume, partially offset by the lower average price of the products, as a result of a larger share of commodities in sales mix and the decrease in raw materials costs in US Dollars during the last 12 months. Compared to 4Q15, net sales and services decreased by 8%, despite the volume growth, mainly due to the lower average price of the products, as a result of a larger share of commodities in the sales mix and the decrease in raw materials costs in US Dollars.

Cost of goods sold Oxitenó's cost of goods sold in 1Q16 amounted to R\$ 696 million, a 16% increase compared to 1Q15, due to a 37% weaker Real against the US Dollar, higher sales volume and higher costs of utilities, partially offset by a 16% reduction in unitary variable costs in US Dollars as a result of lower raw materials costs in US Dollars during the last 12 months. Compared to 4Q15, the cost of goods sold decreased by 7% mainly due to an 11% reduction in unitary variable cost in US Dollars, as a result of lower raw materials costs in US Dollars, and the costs resulting from the unscheduled stoppage in Mauá in 4Q15.

Sales, general and administrative expenses Oxitenó's sales, general and administrative expenses amounted to R\$ 148 million in 1Q16, a 6% increase over 1Q15, due to the effects of the weaker Real on expenses with logistics and international units, given the increased sales volume, partially offset by the default of an international client in judicial recovery in 1Q15. Compared to 4Q15, sales, general and administrative expenses decreased by 28% mainly due to lower expenses with variable compensation and studies and projects.

EBITDA EBITDA totaled R\$ 198 million in 1Q16, up 37% over 1Q15, mainly due to (i) the 37% devaluation of the Real and (ii) the increased sales volume, partially offset by a larger share of commodities in sales mix. Compared to 4Q15, EBITDA increased by 10% due to the higher sales volume in 1Q16 and higher costs resulting from the unscheduled stoppage in Mauá in 4Q15, partially offset by a larger share of commodities in the sales mix.

Table of Contents**Ultragaz**

Operational performance In 1Q16, Ultragaz reached sales volume of 407 thousand tons, up 1% over 1Q15. The bottled segment showed a 1% growth compared to 1Q15, due to commercial initiatives to add new resellers. In the bulk segment, sales volume was similar to that observed in 1Q15, as a result of investments made to capture new customers, mainly in the residential and small- and medium-sized companies segments and new large industrial customers, offsetting the negative effect of the deceleration of the economy. Compared with 4Q15, sales volume decreased by 1%, mainly derived from the seasonality between periods.

Ultragaz Sales volume (000 tons)

Net sales and services Ultragaz's net sales and services was R\$ 1,233 million in 1Q16, a 19% increase compared to 1Q15, due to (i) the increase in the cost of LPG by Petrobras in September and December 2015, (ii) the differentiation strategy based on innovation, customer convenience and satisfaction as well as (iii) higher sales volume. As compared to 4Q15, net sales and services decreased by 1%, mainly due to the lower volume, partially offset by the increase in the cost of LPG for use in the bulk segment in December 2015.

Cost of goods sold Ultragaz's cost of goods sold amounted to R\$ 1,024 million in 1Q16, a 16% increase compared to 1Q15, as a result of (i) the increase in the cost of LPG, (ii) higher freight costs and (iii) sales volume growth, partially offset by below-inflation increase in fixed costs, mainly related with personnel and requalification of LPG bottles in 1Q16. As compared to 4Q15, cost of products sold decreased by 1%, mainly due to the lower volume, partially offset by the increase in the cost of LPG for use in the bulk segment in December 2015.

Sales, general and administrative expenses Ultragaz's sales, general and administrative expenses totaled R\$ 141 million in 1Q16, up 22% over 1Q15, mainly as a result of (i) the effects of inflation on expenses, (ii) higher IT expenses to support commercial initiatives and (iii) higher expenses with studies and projects, including expenses related to industrial customers' service. Compared to 4Q15, sales, general and administrative expenses decreased by 4%, mainly due to the seasonally lower volume and higher expenses with initiatives to qualify resellers and marketing in 4Q15, partially offset by higher expenses with studies and projects in 1Q16.

EBITDA Ultragaz's EBITDA reached R\$ 109 million in 1Q16, up 50% over 1Q15, mainly resulting from (i) commercial initiatives implemented to increase the offer of convenience and satisfaction to its customers, (ii) the below-inflation increase of fixed costs and (iii) the capture of new customers, mainly in the residential and small- and medium-sized companies segments and new large industrial customers. Compared to 4Q15, EBITDA remained stable, with lower sales volume offset by lower costs and expenses in 1Q16.

Table of Contents**Ultracargo**

Operational performance In 1Q16, Ultracargo's average storage, excluding Santos operations, increased by 6% compared to 1Q15 and 4Q15, as a result of increased fuel handling, including ethanol, mainly as a result of more competitive international prices. Total storage, on its turn, decreased by 13% compared to 1Q15, mainly as a result of the partial stoppage of the Santos terminal and the lower handling of chemicals, which reflected the slowdown of the economic activity.

Ultracargo Average storage (000 m³)

Net sales and services Ultracargo's net sales and services totaled R\$ 81 million in 1Q16, a 12% decrease compared to 1Q15, mainly due to the lower handling in Santos, as a result of the partial stoppage of the terminal, offset by the higher fuel handling in Aratu and Suape terminals. Compared to 4Q15, net sales and services increased by 11%, mainly due to the higher handling of fuels. Excluding Santos operations, other Ultracargo's terminals increased net sales and services in 1Q16 by 8% and 11% compared to 1Q15 and 4Q15 respectively, explained by variations in the operational performance.

Cost of services provided Ultracargo's cost of services provided in 1Q16 amounted to R\$ 47 million, a 37% increase compared to 1Q15, mainly due to the effects of inflation on personnel expenses and higher maintenance costs. Compared with 4Q15, Ultracargo's cost of services provided increased by 11%. As from January 2016, some expenses were classified as costs, according to their management allocation. The total amount of expenses classified as costs was R\$ 6 million, resulting in increases in the comparisons with 1Q15 and 4Q15.

Sales, general and administrative expenses Ultracargo's sales, general and administrative expenses totaled R\$ 20 million in 1Q16, a 10% decrease compared to 1Q15, mainly due to the changes in allocation mentioned in the cost explanation, partially offset by the effects of inflation on expenses. Compared to 4Q15, sales, general and administrative expenses decreased by 38% due to the changes in allocation mentioned in cost explanation and higher expenses with indemnification and studies and projects in 4Q15.

Other operating results In 1Q16, Other operating results reported net revenue of R\$ 8 million compared to net revenue of R\$ 1 million in 1Q15 and net revenue of R\$ 4 million in 4Q15. In 1Q16, the amount includes basically a R\$ 30 million gain resulting from insurance advances of fire-related expenses incurred in 2015, and expenses of R\$ 16 million due to a fine paid to Companhia Ambiental do Estado de São Paulo (CETESB).

EBITDA Ultracargo's EBITDA totaled R\$ 33 million in 1Q16, a 32% decrease compared to 1Q15, mainly due to the partial stoppage of the Santos terminal and its fire-related expenses, partially offset by insurance advances in the amount of R\$ 30 million. Compared to 4Q15, Ultracargo reported an increase of R\$ 20 million in EBITDA, explained

by the insurance advances. Excluding Santos operations, Ultracargo's EBITDA in 1Q16 remained stable when compared to 1Q15, reversing the downward trend since 3Q15 in this comparison basis, and reported a 76% increase compared to 4Q15.

Table of Contents**Extrafarma**

Operational performance Extrafarma ended 1Q16 with 261 drugstores, an increase of 35 drugstores (15%) compared to the end of 1Q15. By the end of 1Q16, 38% of the drugstores were under 3 years of operation, compared to 32% in 1Q15. Seven drugstores (3%) were added as compared to 4Q.

Extrafarma Number and maturation profile of drugstores

Gross revenues Extrafarma's gross revenues totaled R\$ 372 million in 1Q16, a 10% increase compared to 1Q15, due to 16% higher the retail sales, excluding mobile phone sales, as a result of the increased average number of stores and the 12% growth in same store sales, even with the worsening of the economic scenario and household income, resulting in a 28% decrease in mobile phone sales. Compared to 4Q15, Extrafarma's gross revenues increased by 4% mainly due to higher discounts levels in 4Q15.

Cost of goods sold and gross profit Extrafarma's cost of goods sold totaled R\$ 238 million in 1Q16, up 8% over 1Q15, mainly as a result of higher sales and the annual adjustment in the prices of medicines, set by the Chamber for the Regulation of the Medical Pharmaceuticals Market (CMED). Extrafarma's gross profit reached R\$ 112 million, up 15% over 1Q15, mainly due to the growth in retail revenues excluding mobile phone sales. Compared to 4Q15, the cost of goods sold increased by 12% in 1Q16 and gross profit reduced by 11%, mainly due to the seasonality between periods, with concentration of industry funds in fourth quarters, and an extraordinary inventory gain reported in 4Q15.

Sales, general and administrative expenses Extrafarma's sales, general and administrative expenses totaled R\$ 116 million in 1Q16, a 20% increase compared to 1Q15, or 16% excluding depreciation and amortization expenses. This growth results from a 15% increase in the average number of drugstores and the effects of inflation on expenses, partially offset by the initiatives to raise the management standards in the retail pharmacy network. Compared to 4Q15, sales, general and administrative expenses decreased by 3%, mainly due to initiatives to raise the management standards in the retail pharmacy network, which resulted in additional expenses in 4Q15 and contributed to reduce the expenses in 1Q16.

EBITDA In 1Q16, Extrafarma's EBITDA totaled R\$ 5 million, up 2% over 1Q15, mainly due to the increase in gross revenues, and the initiatives to raise the management standards in the retail pharmacy network, despite the worsening of the economic situation and the higher number of new stores, still in their maturing process. Compared to 4Q15, Extrafarma's EBITDA decreased by 40%, mainly due to inventory extraordinary gains reported in 4Q15.

Table of Contents**Ultrapar**

Net sales and services Ultrapar's consolidated net sales and services in 1Q16 increased by 12% compared to 1Q15, reaching R\$ 19,524 million, due to the revenues growth in Ipiranga, Oxitenó, Ultragaz and Extrafarma. Compared to 4Q15, Ultrapar's net sales and services decreased by 5%, mainly due to the seasonality between periods.

EBITDA Ultrapar's consolidated EBITDA totaled R\$ 1,058 million in 1Q16, up 7% over 1Q15, in spite of the worsening of the economic scenario. Compared to 4Q15, Ultrapar's EBITDA decreased by 10%, mainly due to the seasonality between periods.

EBITDA (R\$ million)

Depreciation and amortization Total depreciation and amortization costs and expenses in 1Q16 amounted to R\$ 270 million, a 15% increase over 1Q15, as a result of investments made during the last 12 months, specially in the expansion of Ipiranga's service station network and in the strategy of constant innovation and differentiation initiatives in its service stations. Compared to 4Q15, total depreciation and amortization costs and expenses remained stable.

Financial results Ultrapar's net debt at the end of March 2016 was R\$ 5.9 billion (1.5 times LTM EBITDA), compared to R\$ 5.0 billion in March 2015 (1.4 times LTM EBITDA). Ultrapar reported net financial expenses of R\$ 216 million in 1Q16, a R\$ 35 million increase compared to 1Q15, mainly due to (i) annual CDI increase by 2.0 p.p., (ii) the higher net debt, due to the growth of the company, (iii) the effects of the exchange rate fluctuations in the period and (iv) PIS/COFINS taxes levied on financial revenues as from July 2015. Compared to 4Q15, net financial expenses increased R\$ 55 million, as a result of the higher net debt and the effects of the appreciation of Ultrapar's shares on subscription warrants issued in the Extrafarma's transaction.

Net earnings Net earnings in 1Q16 amounted to R\$ 388 million, remaining stable compared to 1Q15, due to the EBITDA growth, offset by higher net financial expenses and depreciation and amortization. Compared to 4Q15, net earnings decreased by 22% as a result of a lower EBITDA, mainly due to the seasonality between periods.

Table of Contents

Investments Total investments, net of disposals and repayments, amounted to R\$ 292 million in 1Q16, allocated as follows:

At Ipiranga, R\$ 146 million were invested mainly in the expansion and maintenance of the service stations network and franchises.

At Oxiteno, R\$ 47 million were invested mainly in the maintenance of its production units and investments in the ethoxylation plant in the United States.

At Ultragaz, R\$ 81 million were invested mainly in new clients in the bulk segment and acquisition of LPG bottles.

Ultracargo invested R\$ 6 million mainly towards maintenance of terminals.

At Extrafarma, R\$ 18 million were invested mainly in the opening of new drugstores and renovation of existing drugstores.

R\$ million	1Q16	Total investments, net of disposals and repayments (R\$ million)

Outlook

Even in an adverse macroeconomic scenario, Ultrapar and its businesses took advantage of their differentiation strategy, focused on resilience and large operational scale to bring positive results in the beginning of 2016. We will continue to invest heavily in our businesses in order to create value to the company and align the expectations with shareholders. At Ipiranga, consistent investments to expand its service stations network and its related logistics infrastructure, focused on North, Northeast and Midwest regions of Brazil, will continue to leverage the benefits from the growth of the vehicle fleet in Brazil and the reduction of gray market. Additionally, the company will continue with its differentiation initiatives, based on increasing the offer of products, services and convenience, to further increase customer loyalty and expand the number of clients, who are offered higher value-added products and services, while the reseller is provided with an additional source of revenue and differentiated positioning, thus maximizing the profitability of the whole value chain, including Ipiranga. Oxiteno will continue investing on innovation, with the development of new products, and will act to maximize the benefits from the maturation of investments in production capacity expansion in Brazil in a more favorable foreign exchange scenario, also accelerating the international expansion with investments in the ethoxylation plant in the United States. Ultragas will continue to reap the benefits from the investments in capturing new customers and on managing costs and expenses constantly, which will contribute to the earnings progression. Ultracargo, on its turn, will continue focused on the clarification and management of the impacts derived from the accident in Santos, without ceasing to assess new business opportunities from the growing demand for liquid bulk storage in Brazil. At Extrafarma, we will continue to pursue a more accelerated expansion of the company and to increase the retail management standards, also continuing with the cross-fertilization through the opening of stores in Ultragas resellers and Ipiranga service stations.

MINUTES OF THE MEETING OF THE BOARD OF DIRECTORS (03/2016)

Date, Time and Location:

May 11, 2016, at 2:30 p.m., at the Company's headquarters, located at Av. Brigadeiro Luís Antônio, nº1343, 9th floor, in the City and State of São Paulo.

Attendance:

(i) Members of the Board of Directors, duly signed; and (ii) member of the Fiscal Council, duly signed, pursuant to the terms of paragraph 3 of article 163, of the Brazilian Corporate Law .

Decisions:

1. After having analyzed and discussed the performance of the Company in the first quarter of the current fiscal year, the respective financial statements were approved.
2. The members of the Board of Directors approved, in line with Ultrapar's Investment Approval Policy, the proposal for investments in information technology project with investments for the next five years, including detailed design and implementation of new integrated systems to replace the current ones.

Table of Contents

(Minutes of the Meeting of the Board of Directors of Ultrapar Participações S.A.,
held on May 11, 2016)

3. The members of the Board of Directors were updated on strategic and expansion projects of the Company.
4. The members of the Board of Directors were updated on the creation of a portal for providing information and documents to the Board of Directors.
5. Pursuant to article 28, item p of the Company's Bylaws, the Board of Directors approved the renewal of financing from Banco do Brasil S.A., on behalf of its wholly owned subsidiary Ipiranga Produtos de Petróleo S.A. (Ipiranga) for a period of six (6) years, with annual installments from the ~~4~~ fourth year, with principal amount of R\$ 1,009,500,000.00 (one billion, nine million, five hundred thousand Reais) and interest rates equivalent to the accumulated variation of 110.90% (one hundred and ten and nine tenths percent) of the average rates of DI Interbank deposit, calculated and published daily by CETIP S.A. Organized Markets (CETIP).
6. The members of the Board of Directors approved the provision of guarantee, by the Company, in relation to the principal and ancillary obligations to be assumed by Ipiranga under the 4th (fourth) issuance of simple debentures, not convertible into shares, in a single series, unsecured, with personal guarantee, for public placement with restricted efforts, pursuant to CVM Instruction nr. 476, of January 16, 2009, as amended (Issuance and Debentures , respectively), as well as they approved the Issuance by Ipiranga.
 - 6.1. The total Issuance amount is R\$ 500,000,000.00 (five hundred million Reais) as of the offering date. 500 (five hundred) Debentures will be issued, with unit par value of R\$ 1,000,000.00 (one million Reais), in a single tranche. The Debentures will have semi-annual interest payments, amortization in three (3) equal annual installments starting on the 36th (thirty-sixth) month and will bear interest corresponding to 105% (one hundred and five percent) of the accumulated variation of the average daily DI rates (Inter-bank deposits of one day), calculated and published daily by CETIP (DI Rate).

Table of Contents

(Minutes of the Meeting of the Board of Directors of Ultrapar Participações S.A.,
held on May 11, 2016)

- 6.2. If verified any alteration, modification or supplementation resulting in the creation of new tax or increase of tax levied on the issuance and/or on agribusiness securities issued secured by receivables arising from the Debentures, pursuant to Law nr. 11,076, of December 30, 2004, and/or if verified any inability of credit rights from the Debentures to secure agribusiness securities, Ipiranga shall, within 30 (thirty) days from the date of the event, in its sole discretion, (i) restate the interest rates of the Debentures, which will be 111% (one hundred and eleven percent) of the DI Rate, with an amendment to the indenture; or (ii) redeem the Debentures, without redemption premium, provided that the early redemption comprehends the totality (and not less than totality) of the Debentures, at its Par Value (or the balance of the Par Value).
- 6.3. The Debentures will have a 5-year term, starting from the offering date, except in case of early redemption and early maturity of the Debentures.
- 6.4. The guarantee will be provided without exception or reserve, and the Company will be the guarantor and principal payer, on a joint and several liability basis, of the main and ancillary obligations of Ipiranga in connection with the Debentures.
- 6.5. The members of the Board of Directors authorized the Executive Board to take any measures necessary to implement the deliberations herein, including the signing of the indenture and definition of other terms and conditions of the guarantee.

Table of Contents
