**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

To Our Shareholders:

We would like to share with you our report for the year ended December 31, 2017. The total returns for the Fund and its comparative benchmarks were:

	Six Months Ended December 31, 2017	Year Ended December 31, 2017
Cohen & Steers Global Income Builder at Net Asset Value <sup>a</sup>	8.43%	19.70%
Cohen & Steers Global Income Builder at Market Value <sup>a</sup>	8.23%	26.26%
MSCI World Index net	10.61%	22.40%
Blended Benchmark 55% CBOE S&P 500 BuyWrite Index/15% S&P 500 Index/15% ICE BofAML Fixed-Rate Preferred Securities Index/15% MSCI EAFE Index <sup>b</sup>	6.41%	15.77%
S&P 500 Index <sup>b</sup>	11.42%	21.83%

*The performance data quoted represent past performance. Past performance is no guarantee of future results. The investment return and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance results reflect the effects of leverage, resulting from borrowings under a credit agreement. Current total returns of the Fund can be obtained by visiting our website at [cohenandsteers.com](http://cohenandsteers.com). The Fund's returns assume the reinvestment of all dividends and distributions at prices obtained under the Fund's dividend reinvestment plan. Index performance does not reflect the deduction of any fees, taxes or expenses. An investor cannot invest directly in an index. Performance figures for periods shorter than one year are not annualized.*

The Fund makes regular monthly distributions at a level rate (the Policy). Distributions paid by the Fund are subject to recharacterization for tax purposes and are taxable up to the amount of the Fund's investment company taxable income and net realized gains. As a result of the Policy, the Fund may pay distributions in excess of the Fund's investment company taxable income and net realized gains. This excess would be a return of capital distributed from the Fund's assets. Distributions of capital decrease

<sup>a</sup> As a closed-end investment company, the price of the Fund's exchange-traded shares will be set by market forces and can deviate from the net asset value (NAV) per share of the Fund.

<sup>b</sup> The MSCI World Index net is a free-float-adjusted index that measures performance of large- and mid-capitalization companies representing developed market countries and is net of dividend withholding taxes. The CBOE S&P 500 BuyWrite Index tracks the performance of a hypothetical buy-write strategy on the S&P 500 Index. The ICE BofAML Fixed-Rate Preferred Securities Index tracks the performance of fixed-rate U.S. dollar-denominated preferred securities issued in the U.S. domestic market. The MSCI EAFE Index is an equity index which captures large- and mid-capitalization companies in developed market countries excluding the U.S. and Canada. The S&P 500 Index is an unmanaged index of 500 large-capitalization stocks that is frequently used as a general measure of U.S. stock market performance.

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

the Fund's total assets and, therefore, could have the effect of increasing the Fund's expense ratio. In addition, in order to make these distributions, the Fund may have to sell portfolio securities at a less than opportune time.

The Fund's assets are allocated among five proprietary strategies: global large-cap stocks, global real estate securities, global infrastructure stocks, global preferred securities and closed-end funds. As of December 31, 2017, 73% of the Fund's assets were invested in the global large-cap strategy.

**Market Review**

The 12-month period ended December 31, 2017 was broadly favorable for equities amid a broad-based acceleration in global growth the most expansive since the International Monetary Fund began collecting data in 1980. The U.S. economy accelerated toward 3% annualized growth, and consumer confidence neared a 20-year high. Europe grew at its fastest pace in a decade following years of subdued growth. Within Asia Pacific, China's GDP growth continued to moderate, although it held up better than expected and the country's industrial sector showed steady expansion. Growth in Japan picked up from lackluster levels, with improvements in both manufacturing and services. Despite better global growth, benign inflation kept interest rates low even as central banks moved to reduce monetary stimulus.

*Fund Performance*

The Fund had a positive total return in the period and outperformed its blended benchmark on both a NAV and market price basis. At 73% of the Fund's assets, the global large-cap allocation was the main driver of relative performance. Within the strategy, stock selection in the health care, industrial and consumer staples sectors contributed positively to relative returns. Stock selection in the energy, financial services, and consumer discretionary sectors detracted from relative performance.

Stock selection in the Fund's allocation to global infrastructure aided performance compared with the blended benchmark, as did stock selection in the global real estate strategy, due in part to our overweight in strong-performing data center companies and underweight in struggling U.S. retail landlords. However, our overweight in real estate as a group offset the benefit of favorable stock selection in that strategy, as the asset class had a positive return in the period but underperformed large-cap value stocks and the broader stock market.

*Impact of Leverage on Fund Performance*

The Fund employs leverage as part of a yield-enhancement strategy. Leverage, which can increase total return in rising markets (just as it can have the opposite effect in declining markets), significantly contributed to the Fund's performance for the 12-month period ended December 31, 2017.

*Impact of Derivatives on Fund Performance*

The Fund sold covered call options on an index with the intention of earning option premiums to generate income to pay dividends and to reduce the volatility of the Fund's investments. In the 12-month period ended December 31, 2017, the use of these instruments significantly detracted from the Fund's performance.

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

*Impact of Foreign Currency on Fund Performance*

The currency impact of the Fund's investments in foreign securities contributed positively to absolute performance during the period. Although the Fund reports its NAV and pays dividends in U.S. dollars, the Fund's investments denominated in foreign currencies are subject to foreign currency risk. Most currencies appreciated against the U.S. dollar, including the euro, U.K. pound and Japanese yen. Consequently, changes in the exchange rates between foreign currencies and the U.S. dollar were a net tailwind for absolute returns.

Sincerely,

WILLIAM F. SCAPELL

Our Leverage Strategy

(Unaudited)

Our leverage strategy utilizes borrowings up to the maximum permitted by the Investment Company Act of 1940 to provide additional capital for the Fund, with an objective of increasing the net income available for shareholders. As of December 31, 2017, leverage represented 22% of the Fund's managed assets.

Leverage Facts<sup>a,b</sup>

Leverage (as a % of managed assets)	22%
Current Rate on Debt	2.2%

The Fund intends to enhance its dividend yield through leverage. The use of leverage is a speculative technique and there are special risks and costs associated with leverage. The NAV of the Fund's shares may be reduced by the issuance and ongoing costs of leverage. So long as the Fund is able to invest in securities that produce an investment yield that is greater than the total cost of leverage, the leverage strategy will produce higher current net investment income for shareholders. On the other hand, to the extent that the total cost of leverage exceeds the incremental income gained from employing such leverage, shareholders would realize lower net investment income. In addition to the impact on net income, the use of leverage will have an effect of magnifying capital appreciation or depreciation for shareholders. Specifically, in an up market, leverage will typically generate greater capital appreciation than if the Fund were not employing leverage. Conversely, in down markets, the use of leverage will generally result in greater capital depreciation than if the Fund had been unlevered. To the extent that the Fund is required or elects to reduce its leverage, the Fund may need to liquidate investments at times of adverse economic conditions which may result in capital losses potentially reducing returns to shareholders. There can be no assurance that a leveraging strategy will be successful during any period in which it is employed.

<sup>a</sup>Data as of December 31, 2017. Information is subject to change.

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

## STATEMENT OF CASH FLOWS

For the Year Ended December 31, 2017

Increase (Decrease) in Cash:	
Cash Flows from Operating Activities:	
Net increase (decrease) in net assets resulting from operations	\$ 41,358,458
Adjustments to reconcile net increase (decrease) in net assets resulting from operations to net cash provided by operating activities:	
Purchases of long-term investments	(212,753,727)
Proceeds from sales and maturities of long-term investments	238,679,969
Net purchases, sales and maturities of short-term investments	708,454
Net amortization of premium on investments in securities	57,089
Net increase in dividends and interest receivable and other assets	(65,398)
Net increase in interest expense payable, accrued expenses and other liabilities	18,274
Increase in premiums received from written option contracts	97,691
Net change in unrealized depreciation on written option contracts	472,209
Net change in unrealized appreciation on investments in securities	(10,596,589)
Net realized gain on investments in securities	(40,891,812)
Cash provided by operating activities	17,084,618
Cash Flows from Financing Activities:	
Dividends and distributions paid	(19,174,688)
Increase (decrease) in cash	(2,090,070)
Cash at beginning of year	2,148,450
Cash at end of year (including foreign currency)	\$ 58,380

## Supplemental Disclosure of Cash Flow Information and Non-Cash Activities:

During the year ended December 31, 2017, interest paid was \$1,228,171.

During the year ended December 31, 2017, the Fund received shares of new securities valued at \$129,132 due to bonus rights and dividend reinvestments in portfolio securities.

See accompanying notes to financial statements.

See accompanying notes to financial statements.

## COHEN &amp; STEERS GLOBAL INCOME BUILDER, INC.

## FINANCIAL HIGHLIGHTS (Continued)

Ratios/Supplemental Data:	For the Year Ended December 31,				
	2017	2016	2015	2014	2013
Net assets, end of year (in millions)	\$ 248.8	\$ 226.6	\$ 238.8	\$ 269.6	\$ 283.5
Ratio of expenses to average daily net assets <sup>e</sup>	2.09%	1.98%	1.79%	1.72%	1.81%
Ratio of expenses to average daily net assets (excluding interest expense) <sup>e</sup>	1.56%	1.60%	1.54%	1.50%	1.57%
Ratio of net investment income (loss) to average daily net assets <sup>e</sup>	1.19%	1.82%	1.48%	1.75%	1.78%
Ratio of expenses to average daily managed assets <sup>e,f</sup>	1.62%	1.51%	1.42%	1.38%	1.44%
Portfolio turnover rate	69%	78%	77%	77%	81%
<b>Revolving Credit Agreement</b>					
Asset coverage ratio for revolving credit agreement	464%	432%	442%	486%	506%
Asset coverage per \$1,000 for revolving credit agreement	\$ 4,642	\$ 4,318	\$ 4,421	\$ 4,862	\$ 5,062

<sup>a</sup> Calculation based on average shares outstanding.

<sup>b</sup> Includes gains resulting from class action litigation payments on securities owned in prior years. Without these gains, the net realized and unrealized gains (losses) on investments per share would have been \$1.88 and the total return on a net asset value basis would have been 20.05%.

<sup>c</sup> Amount is less than \$0.005.

<sup>d</sup> Total net asset value return measures the change in net asset value per share over the period indicated. Total market value return is computed based upon the Fund's market price per share and excludes the effects of brokerage commissions. Dividends and distributions are assumed, for purposes of these calculations, to be reinvested at prices obtained under the Fund's dividend reinvestment plan.

<sup>e</sup> Does not include expenses incurred by the closed-end funds in which the Fund invests.

<sup>f</sup> Average daily managed assets represent net assets plus the outstanding balance of the revolving credit agreement.

See accompanying notes to financial statements.

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

**NOTES TO FINANCIAL STATEMENTS**

Note 1. Organization and Significant Accounting Policies

Cohen & Steers Global Income Builder, Inc. (the Fund) was incorporated under the laws of the State of Maryland on April 10, 2007 and is registered under the Investment Company Act of 1940 (the 1940 Act) as a diversified closed-end management investment company. The Fund's investment objective is total return with an emphasis on high current income.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The Fund is an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 946 Investment Companies. The accounting policies of the Fund are in conformity with accounting principles generally accepted in the United States of America (GAAP). The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

*Portfolio Valuation:* Investments in securities that are listed on the New York Stock Exchange (NYSE) are valued, except as indicated below, at the last sale price reflected at the close of the NYSE on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and ask prices on such day or, if no ask price is available, at the bid price. Exchange traded options are valued at their last sale price as of the close of options trading on applicable exchanges on the valuation date. In the absence of a last sale price on such day, options are valued at the average of the quoted bid and ask prices as of the close of business. Over-the-counter (OTC) options are valued based upon prices provided by a third-party pricing service or counterparty.

Securities not listed on the NYSE but listed on other domestic or foreign securities exchanges (including NASDAQ) are valued in a similar manner. Securities traded on more than one securities exchange are valued at the last sale price reflected at the close of the exchange representing the principal market for such securities on the business day as of which such value is being determined. If after the close of a foreign market, but prior to the close of business on the day the securities are being valued, market conditions change significantly, certain non-U.S. equity holdings may be fair valued pursuant to procedures established by the Board of Directors.

Readily marketable securities traded in the OTC market, including listed securities whose primary market is believed by Cohen & Steers Capital Management, Inc. (the investment manager) to be OTC, are valued on the basis of prices provided by a third-party pricing service or third-party broker-dealers when such prices are believed by the investment manager, pursuant to delegation by the Board of Directors, to reflect the fair value of such securities.

Fixed-income securities are valued on the basis of prices provided by a third-party pricing service or third-party broker-dealers when such prices are believed by the investment manager, pursuant to delegation by the Board of Directors, to reflect the fair value of such securities. The pricing services or broker-dealers use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services or broker-dealers may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

NOTES TO FINANCIAL STATEMENTS (Continued)

market activity may not exist or is limited, the pricing services or broker-dealers also utilize proprietary valuation models which may consider market transactions in comparable securities and the various relationships between securities in determining fair value and/or characteristics such as benchmark yield curves, option-adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features which are then used to calculate the fair values.

Short-term debt securities with a maturity date of 60 days or less are valued at amortized cost, which approximates fair value. Investments in open-end mutual funds are valued at their closing net asset value (NAV).

The policies and procedures approved by the Fund's Board of Directors delegate authority to make fair value determinations to the investment manager, subject to the oversight of the Board of Directors. The investment manager has established a valuation committee (Valuation Committee) to administer, implement and oversee the fair valuation process according to the policies and procedures approved annually by the Board of Directors. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers and other market sources to determine fair value.

Securities for which market prices are unavailable, or securities for which the investment manager determines that the bid and/or ask price or a counterparty valuation does not reflect market value, will be valued at fair value, as determined in good faith by the Valuation Committee, pursuant to procedures approved by the Fund's Board of Directors. Circumstances in which market prices may be unavailable include, but are not limited to, when trading in a security is suspended, the exchange on which the security is traded is subject to an unscheduled close or disruption or material events occur after the close of the exchange on which the security is principally traded. In these circumstances, the Fund determines fair value in a manner that fairly reflects the market value of the security on the valuation date based on consideration of any information or factors it deems appropriate. These may include, but are not limited to, recent transactions in comparable securities, information relating to the specific security and developments in the markets.

Foreign equity fair value pricing procedures utilized by the Fund may cause certain non-U.S. equity holdings to be fair valued on the basis of fair value factors provided by a pricing service to reflect any significant market movements between the time the Fund values such securities and the earlier closing of foreign markets.

The Fund's use of fair value pricing may cause the NAV of Fund shares to differ from the NAV that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security.

Fair value is defined as the price that the Fund would expect to receive upon the sale of an investment or expect to pay to transfer a liability in an orderly transaction with an independent buyer in the principal market or, in the absence of a principal market, the most advantageous market for the

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

## NOTES TO FINANCIAL STATEMENTS (Continued)

investment or liability. The hierarchy of inputs that are used in determining the fair value of the Fund's investments is summarized below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing investments may or may not be an indication of the risk associated with those investments.

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing the transfer at the end of the period in which the underlying event causing the movement occurred. Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. There were no transfers between Level 1 and Level 2 investments as of December 31, 2017.

The following is a summary of the inputs used as of December 31, 2017 in valuing the Fund's investments carried at value:

	Total	Quoted Prices in Active Markets for Identical Investments (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Common Stock	\$ 292,960,409	\$ 292,960,409	\$	\$
Closed End Funds	3,133,630	3,133,630		
Preferred Securities				
\$25 Par Value:

Other Countries	711,572	711,572		
Preferred Securities				
Capital Securities	15,056,069		15,056,069	
Short-Term Investments	1,621,213		1,621,213	
Total Investments in Securities <sup>a</sup>	\$ 318,128,117	\$ 300,481,563	\$ 17,646,554	\$
Written Option Contracts	\$ (1,293,500)	\$ (1,293,500)	\$	

Total Written Option Contracts <sup>a</sup>	\$ (1,293,500)	\$ (1,293,500)	\$	\$
---	----------------	----------------	----	----

<sup>a</sup> Portfolio holdings are disclosed individually on the Schedule of Investments.

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

## NOTES TO FINANCIAL STATEMENTS (Continued)

The following is a reconciliation of investments for which significant unobservable inputs (Level 3) were used in determining fair value:

	Common Stock United States
Balance as of December 31, 2016	\$ 2,070,055
Sales	(1,703,139)
Realized gain (loss)	(396,834)
Change in unrealized appreciation (depreciation)	29,918
Balance as of December 31, 2017	\$

*Security Transactions and Investment Income:* Security transactions are recorded on trade date. Realized gains and losses on investments sold are recorded on the basis of identified cost. Interest income, which includes the amortization of premiums and accretion of discounts, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date, except for certain dividends on foreign securities, which are recorded as soon as the Fund is informed after the ex-dividend date. Distributions from U.S. REITs and Closed-End Funds (CEFs) are recorded as ordinary income, net realized capital gain or return of capital based on information reported by the REITs, CEFs and management's estimates of such amounts based on historical information. These estimates are adjusted when the actual source of distributions is disclosed by the REITs and CEFs and actual amounts may differ from the estimated amounts. Distributions from Master Limited Partnerships (MLPs) are recorded as income and return of capital based on information reported by the MLPs and management's estimates of such amounts based on historical information. These estimates are adjusted when the actual source of distributions is disclosed by the MLPs and actual amounts may differ from the estimated amounts.

*Foreign Currency Translation:* The books and records of the Fund are maintained in U.S. dollars. Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based upon prevailing exchange rates on the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollars based upon prevailing exchange rates on the respective dates of such transactions. The Fund does not isolate that portion of the results of operations resulting from fluctuations in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, including gains and losses on forward foreign currency exchange contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the values of assets and liabilities, other than investments in securities, on the date of valuation, resulting from changes in exchange rates. Pursuant to U.S. federal

income tax regulations, certain foreign currency gains/losses included in realized and unrealized gains/losses are included in or are a reduction of ordinary income for federal income tax purposes.

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

NOTES TO FINANCIAL STATEMENTS (Continued)

*Options:* The Fund may purchase and write exchange-listed and OTC put or call options on securities, stock indices and other financial instruments to enhance portfolio returns and reduce overall volatility.

When the Fund writes (sells) an option, an amount equal to the premium received by the Fund is recorded on the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When an option expires, the Fund realizes a gain on the option to the extent of the premium received. Premiums received from writing options which are exercised or closed are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. If a put option on a security is exercised, the premium reduces the cost basis of the security purchased by the Fund. If a call option is exercised, the premium is added to the proceeds of the security sold to determine the realized gain or loss. The Fund, as writer of an option, bears the market risk of an unfavorable change in the price of the underlying investment. Other risks include the possibility of an illiquid options market or the inability of the counterparties to fulfill their obligations under the contracts.

Put and call options purchased are accounted for in the same manner as portfolio securities. Premiums paid for purchasing options which expire are treated as realized losses. Premiums paid for purchasing options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realized gain or loss when the underlying transaction is executed. The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and change in market value should the counterparty not perform under the contract.

*Forward Foreign Currency Exchange Contracts:* The Fund may enter into forward foreign currency exchange contracts to hedge the currency exposure associated with certain of its non-U.S. dollar denominated securities. A forward foreign currency exchange contract is a commitment between two parties to purchase or sell foreign currency at a set price on a future date. The market value of a forward foreign currency exchange contract fluctuates with changes in foreign currency exchange rates. These contracts are marked-to-market daily and the change in value is recorded by the Fund as unrealized appreciation and/or depreciation on forward foreign currency exchange contracts. Realized gains or losses equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed are included in net realized gain or loss on forward foreign currency exchange contracts. For federal income tax purposes, the Fund has made an election to treat gains and losses from forward foreign currency exchange contracts as capital gains and losses.

Forward foreign currency exchange contracts involve elements of market risk in excess of the amounts reflected on the Statement of Assets and Liabilities. The Fund bears the risk of an unfavorable change in the foreign exchange rate underlying the contract. Risks may also arise upon entering these contracts from the potential inability of the counterparties to meet the terms of their contracts. In connection with these contracts, securities may be identified as collateral in accordance with the terms of the respective contracts. At December 31, 2017, the Fund did not have any forward foreign currency exchange contracts outstanding.

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

NOTES TO FINANCIAL STATEMENTS (Continued)

*Dividends and Distributions to Shareholders:* The Fund makes regular distributions pursuant to the Policy. Dividends from net investment income and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from GAAP. Dividends from net investment income, if any, are declared quarterly and paid monthly. Net realized capital gains, unless offset by any available capital loss carryforward, are typically distributed to shareholders at least annually. Dividends and distributions to shareholders are recorded on the ex-dividend date and are automatically reinvested in full and fractional shares of the Fund in accordance with the Fund's Reinvestment Plan, unless the shareholder has elected to have them paid in cash. Dividends from net investment income are subject to recharacterization for tax purposes.

*Income Taxes:* It is the policy of the Fund to continue to qualify as a regulated investment company (RIC), if such qualification is in the best interest of the shareholders, by complying with the requirements of Subchapter M of the Internal Revenue Code applicable to RICs, and by distributing substantially all of its taxable earnings to its shareholders. Also, in order to avoid the payment of any federal excise taxes, the Fund will distribute substantially all of its net investment income and net realized gains on a calendar year basis. Accordingly, no provision for federal income or excise tax is necessary. Dividend and interest income from holdings in non-U.S. securities is recorded net of non-U.S. taxes paid. Management has analyzed the Fund's tax positions taken on federal and applicable state income tax returns as well as its tax positions in non-U.S. jurisdictions in which it trades for all open tax years and has concluded that as of December 31, 2017, no additional provisions for income tax are required in the Fund's financial statements. The Fund's tax positions for the tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service, state departments of revenue and by foreign tax authorities.

Note 2. Investment Management Fees, Administration Fees and Other Transactions with Affiliates

*Investment Management Fees:* Cohen & Steers Capital Management, Inc. serves as the Fund's investment manager pursuant to an investment management agreement (the investment management agreement). Under the terms of the investment management agreement, the investment manager provides the Fund with day-to-day investment decisions and generally manages the Fund's investments in accordance with the stated policies of the Fund, subject to the supervision of the Board of Directors.

For the services provided to the Fund, the investment manager receives a fee, accrued daily and paid monthly, at the annual rate of 1.00% of the average daily managed assets of the Fund. Managed assets are equal to the net assets plus the amount of any borrowings, used for leverage, outstanding.

Under subadvisory agreements between the investment manager and each of Cohen & Steers Asia Limited and Cohen & Steers UK Limited (collectively, the subadvisors), affiliates of the investment manager, the subadvisors are responsible for managing the Fund's investments in certain non-U.S. real estate securities. For their services provided under the subadvisory agreements, the investment manager (not the Fund) pays the subadvisors. The investment manager allocates 50% of the investment management fee received from the Fund among itself and each subadvisor based on the portion of the Fund's average daily managed assets managed by the investment manager and each subadvisor.

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

## NOTES TO FINANCIAL STATEMENTS (Continued)

*Administration Fees:* The Fund has entered into an administration agreement with the investment manager under which the investment manager performs certain administrative functions for the Fund and receives a fee, accrued daily and paid monthly, at the annual rate of 0.08% of the average daily managed assets of the Fund. For the year ended December 31, 2017, the Fund incurred \$246,124 in fees under this administration agreement. Additionally, the Fund pays State Street Bank and Trust Company as co-administrator under a fund accounting and administration agreement.

*Directors and Officers Fees:* Certain directors and officers of the Fund are also directors, officers and/or employees of the investment manager. The Fund does not pay compensation to directors and officers affiliated with the investment manager except for the Chief Compliance Officer, who received compensation from the investment manager, which was reimbursed by the Fund, in the amount of \$3,509 for the year ended December 31, 2017.

## Note 3. Purchases and Sales of Securities

Purchases and sales of securities, excluding short-term investments, for the year ended December 31, 2017, totaled \$212,582,591 and \$238,382,227, respectively.

## Note 4. Derivative Investments

The following tables present the value of derivatives held at December 31, 2017 and the effect of derivatives held during the year ended December 31, 2017, along with the respective location in the financial statements.

## Statement of Assets and Liabilities

Derivatives	Assets		Liabilities	
	Location	Fair Value	Location	Fair Value
<b>Equity Risk:</b>				
Written Option Contracts				
Exchange-Traded <sup>a</sup>		\$	Written Option Contracts	\$ 1,293,500

<sup>a</sup> Not subject to a master netting agreement or other similar arrangement.

Exchange-Traded

Net Realized and Unrealized Gain (Loss)	\$ (12,670,866)	\$ (472,209)
---	-----------------	--------------

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

## NOTES TO FINANCIAL STATEMENTS (Continued)

The following summarizes the volume of the Fund's written option contracts activity for the year ended December 31, 2017:

	Written Option Contracts
Average Notional Amount	\$ 180,973,269
Ending Notional Amount	173,784,650

## Note 5. Income Tax Information

The tax character of dividends and distributions paid was as follows:

	For the Year Ended December 31,	
	2017	2016
Ordinary income	\$ 19,161,632	\$ 4,761,229
Return of capital		16,552,616
Total dividends and distributions	\$ 19,161,632	\$ 21,313,845

As of December 31, 2017, the tax-basis components of accumulated earnings, the federal tax cost and net unrealized appreciation (depreciation) in value of investments held were as follows:

Cost of investments in securities for federal income tax purposes	\$ 271,726,834
Gross unrealized appreciation on investments	\$ 51,879,999
Gross unrealized depreciation on investments	(5,475,620)
Net unrealized appreciation (depreciation) on investments	\$ 46,404,379

As of December 31, 2017, the Fund had a net capital loss carryforward of \$6,560,637, which may be used to offset future capital gains. These losses are comprised of short-term capital loss carryovers which will expire on December 31, 2018.

During the year ended December 31, 2017, the Fund utilized net capital loss carryforwards of \$27,164,446. During the year ended December 31, 2017, the Fund had net capital loss carryforwards of \$31,113,613 which expired unused.

As of December 31, 2017, the Fund had temporary book/tax differences primarily attributable to wash sales on portfolio securities, unrealized gains of passive foreign investment companies and mark to market on options contracts and permanent book/tax differences primarily attributable to fund distributions, expiration of capital loss carryforward, foreign currency transactions, sales of passive foreign investment companies, certain fixed income securities and prior year income redesignations. To reflect reclassifications arising from the permanent differences, paid-in capital was charged \$46,455,409, accumulated net realized loss was credited \$30,757,160 and dividends in excess of net investment income was credited \$15,698,249. Net assets were not affected by this reclassification.

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

NOTES TO FINANCIAL STATEMENTS (Continued)

Note 6. Capital Stock

The Fund is authorized to issue 250 million shares of common stock at a par value of \$0.001 per share.

During the years ended December 31, 2017 and December 31, 2016, the Fund did not issue shares of common stock for the reinvestment of dividends.

On December 5, 2017, the Board of Directors approved the continuation of the delegation of its authority to management to effect repurchases, pursuant to management's discretion and subject to market conditions and investment considerations, of up to 10% of the Fund's common shares outstanding from January 1, 2018, through the fiscal year ended December 31, 2018.

During the years ended December 31, 2017 and December 31, 2016, the Fund did not effect any repurchases.

Note 7. Borrowings

The Fund entered into a \$70,000,000 secured, committed revolving credit agreement (credit agreement) with State Street Bank and Trust Company (State Street). The credit agreement has a 360 day rolling term that resets daily. The Fund pays a monthly financing charge which is calculated based on a LIBOR based or Federal Funds based rate. The Fund also pays a 0.15% per annum fee based on the unused portion of the credit agreement. The Fund is required to segregate portfolio securities as collateral in an amount up to two times the loan balance outstanding (or more depending on the terms of the credit agreement) and has granted a security interest in the securities segregated to, and in favor of, State Street as security for the loan balance outstanding. If the Fund fails to meet certain requirements, or maintain other financial covenants required under the credit agreement, the Fund may be required to repay immediately, in part or in full, the loan balance outstanding under the credit agreement, necessitating the sale of portfolio securities at potentially inopportune times.

As of December 31, 2017, the Fund had outstanding borrowings of \$68,300,000 at a current rate of 2.2%. During the year ended December 31, 2017, the Fund borrowed an average daily balance of \$68,300,000 at a weighted average borrowing cost of 1.8%.

Note 8. Other Risks

*Common Stock Risk:* While common stock has historically generated higher average returns than fixed income securities over the long-term, common stock has also experienced significantly more volatility in those returns, although under certain market conditions, fixed-income investments may have comparable or greater price volatility. The value of common stocks and other equity securities will fluctuate in response to developments concerning the company, political and regulatory circumstances, the stock market, and the economy. In the short term, stock prices can fluctuate dramatically in response to these developments. Different parts of the market and different types of equity securities can react differently to these developments. For example, stocks of large companies can react differently than stocks of smaller companies, and value stocks, that is stocks of companies that are undervalued by various measures and have potential for long-term capital appreciation, can react

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

NOTES TO FINANCIAL STATEMENTS (Continued)

differently from growth stocks. These developments can affect a single company, all companies within the same industry, economic sector or geographic region, or the stock market as a whole.

*Foreign (Non-U.S.) Securities Risk:* The Fund directly purchases securities of foreign issuers. Risks of investing in foreign securities, which can be expected to be greater for investments in emerging markets, include currency risks, future political and economic developments and possible imposition of foreign withholding taxes on income or proceeds payable on the securities. In addition, there may be less publicly available information about a foreign issuer than about a domestic issuer, and foreign issuers may not be subject to the same accounting, auditing and financial recordkeeping standards and requirements as domestic issuers. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than securities of comparable U.S. issuers.

*Foreign Currency and Currency Hedging Risk:* Although the Fund will report its NAV and pay dividends in U.S. dollars, foreign securities often are purchased with and make any dividend and interest payments in foreign currencies. Therefore, the Fund's investments in foreign securities will be subject to foreign currency risk, which means that the Fund's NAV could decline as a result of changes in the exchange rates between foreign currencies and the U.S. dollar. Certain foreign countries may impose restrictions on the ability of issuers of foreign securities to make payment of principal, dividends and interest to investors located outside the country, due to blockage of foreign currency exchanges or otherwise. The Fund may, but is not required to, engage in various instruments that are designed to hedge the Fund's foreign currency risks.

If the Fund were to utilize derivatives for the purpose of hedging foreign currency risks, it would be subject to risks different from, and possibly greater than, the risks associated with investing directly in traditional securities. Among the risks presented are counterparty risk, financial leverage risk, liquidity risk, OTC trading risk and tracking risk. The use of derivatives can lead to losses because of adverse movements in the price or value of the underlying asset, index or rate, which may be magnified by certain features of the derivatives.

*Preferred Securities Risk:* Preferred securities are subject to credit risk, which is the risk that a security will decline in price, or the issuer of the security will fail to make dividend, interest or principal payments when due, because the issuer experiences a decline in its financial status. Preferred securities are also subject to interest rate risk and may decline in value because of changes in market interest rates. The Fund may be subject to a greater risk of rising interest rates than would normally be the case in an environment of low interest rates and the effect of potential government fiscal policy initiatives and resulting market reaction to those initiatives. In addition, an issuer may be permitted to defer or omit distributions. Preferred securities are also generally subordinated to bonds and other debt instruments in a company's capital structure. During periods of declining interest rates, an issuer may be able to exercise an option to redeem (call) its issue at par earlier than scheduled, and the Fund may be forced to reinvest in lower yielding securities. Certain preferred securities may be substantially less liquid than many other securities, such as common stocks. Generally, preferred security holders have no voting rights with respect to the issuing company unless certain events occur. Certain preferred securities may give the issuers special redemption rights allowing the securities to be redeemed prior to a specified date if certain events occur, such as changes to tax or securities laws.

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

NOTES TO FINANCIAL STATEMENTS (Continued)

*Real Estate Market Risk:* The Fund may invest significantly in companies engaged in the real estate industry and may be susceptible to adverse economic or regulatory occurrences affecting that sector. Risks of investing in real estate securities include falling property values due to increasing vacancies, declining rents resulting from economic, legal, tax, political or technological developments, lack of liquidity, limited diversification, and sensitivity to certain economic factors such as interest-rate changes and market recessions. Real estate company prices also may drop because of the failure of borrowers to pay their loans and poor management, and residential developers, in particular, could be negatively impacted by falling home prices, slower mortgage origination and rising construction costs. The risks of investing in REITs are similar to those associated with direct investments in real estate securities.

*Infrastructure Companies Risk:* Securities and instruments of infrastructure companies are more susceptible to adverse economic or regulatory occurrences affecting their industries. Infrastructure companies may be subject to a variety of factors that may adversely affect their business or operations, including high interest costs in connection with capital construction and improvement programs, high leverage, costs associated with environmental and other regulations, the effects of economic slowdown, surplus capacity, increased competition from other providers of services, uncertainties concerning the availability of fuel at reasonable prices, the effects of energy conservation policies and other factors. Infrastructure companies may also be affected by or subject to high interest costs in connection with capital construction and improvement programs; difficulty in raising capital in adequate amounts on reasonable terms in periods of high inflation and unsettled capital markets; inexperience with and potential losses resulting from a developing deregulatory environment; costs associated with compliance with and changes in environmental and other regulations; regulation by various government authorities; government regulation of rates charged to customers; service interruption due to environmental, operational or other mishaps; the imposition of special tariffs and changes in tax laws, regulatory policies and accounting standards; technological innovations that may render existing plants, equipment or products obsolete; and general changes in market sentiment towards infrastructure and utilities assets.

*Options Risk:* Gains on options transactions depend on the investment manager's ability to predict correctly the direction of stock prices, indexes, interest rates, and other economic factors, and unanticipated changes may cause poorer overall performance for the Fund than if it had not engaged in such transactions. A rise in the value of the security or index underlying a call option written by the Fund exposes the Fund to possible loss or loss of opportunity to realize appreciation in the value of any portfolio securities underlying or otherwise related to the call option. By writing a put option, the Fund assumes the risk of a decline in the underlying security or index. There can be no assurance that a liquid market will exist when the Fund seeks to close out an option position, and for certain options not traded on an exchange no market usually exists. Trading could be interrupted, for example, because of supply and demand imbalances arising from a lack of either buyers or sellers, or an options exchange could suspend trading after the price has risen or fallen more than the maximum specified by the exchange.

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

NOTES TO FINANCIAL STATEMENTS (Continued)

Although the Fund may be able to offset to some extent any adverse effects of being unable to liquidate an option position, that Fund may experience losses in some cases as a result of such inability, may not be able to close its position and, in such an event would be unable to control its losses.

*Leverage Risk:* The use of leverage is a speculative technique and there are special risks and costs associated with leverage. The net asset value of the Fund's shares may be reduced by the issuance and ongoing costs of leverage. So long as the Fund is able to invest in securities that produce an investment yield that is greater than the total cost of leverage, the leverage strategy will produce higher current net investment income for the shareholders. On the other hand, to the extent that the total cost of leverage exceeds the incremental income gained from employing such leverage, shareholders would realize lower net investment income. In addition to the impact on net income, the use of leverage will have an effect of magnifying capital appreciation or depreciation for shareholders. Specifically, in an up market, leverage will typically generate greater capital appreciation than if the Fund were not employing leverage. Conversely, in down markets, the use of leverage will generally result in greater capital depreciation than if the Fund had been unlevered. To the extent that the Fund is required or elects to reduce its leverage, the Fund may need to liquidate investments, including under adverse economic conditions which may result in capital losses potentially reducing returns to shareholders. The use of leverage also results in the investment management fees payable to the investment manager being higher than if the Fund did not use leverage and can increase operating costs, which may reduce total return. There can be no assurance that a leveraging strategy will be successful during any period in which it is employed.

*Geopolitical Risk:* Occurrence of global events similar to those in recent years, such as war, terrorist attacks, natural disasters, country instability, infectious disease epidemics, market instability, debt crises and downgrades, embargoes, tariffs, sanctions and other trade barriers and other governmental trade or market control programs, the potential exit of a country from its respective union and related geopolitical events, may result in market volatility and may have long-lasting impacts on both the U.S. and global financial markets. Additionally, those events, as well as other changes in foreign and domestic political and economic conditions, could adversely affect individual issuers or related groups of issuers, securities markets, interest rates, secondary trading, credit ratings, inflation, investor sentiment and other factors affecting the value of the Fund's investments. The decision of the United Kingdom (UK) to exit from the European Union following the June 2016 vote on the matter (referred to as Brexit) may cause uncertainty and thus adversely impact financial results of the Fund and the global financial markets. Growing tensions between the United States and other foreign powers, or among foreign powers, and possible diplomatic, trade or other sanctions could adversely impact the markets and the Fund. The strengthening of the U.S. dollar relative to other currencies may, among other things, adversely affect the Fund's investments denominated in non-U.S. dollar currencies. It is difficult to predict when similar events affecting the U.S. or global financial markets may occur, the effects that such events may have, and the duration of those effects.

*Regulatory Risk:* The U.S. government has proposed and adopted multiple regulations that could have a long-lasting impact on the Fund and on the mutual fund industry in general. The Department of Labor's (DOL) final rule on conflicts of interest on fiduciary investment advice, as well as the Securities and Exchange Commission's (SEC) final rules and amendments to modernize reporting and disclosure

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

NOTES TO FINANCIAL STATEMENTS (Continued)

could, among other things, restrict and/or increase the cost of the Fund's ability to engage in transactions and/or increase overall expenses of the Fund. In addition, Congress, various exchanges and regulatory and self-regulatory authorities, both domestic and foreign, have undertaken reviews of options and futures trading in light of market volatility. Among the actions that have been taken or proposed to be taken are new limits and reporting requirements for speculative positions, new or more stringent daily price fluctuation limits for futures and options transactions, and increased margin requirements for various types of futures transactions. While the full extent of all of these regulations is still unclear, these regulations and actions may adversely affect the instruments in which the Fund invests and its ability to execute its investment strategy.

*U.S. Tax Reform Risk:* On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (Tax Reform) was enacted, making significant changes to the United States income tax rules applicable to both individuals and entities, including the Fund and its shareholders. The Tax Reform generally limits a corporation's deduction for net business interest expense to 30 percent of a corporation's adjusted taxable income. The application of these interest limitations to the Fund are unclear and could result in higher investment company taxable income to the Fund.

*LIBOR Risk:* Many financial instruments use or may use a floating rate based on the LIBOR, which is the offered rate for short-term Eurodollar deposits between major international banks. On July 27, 2017, the head of the UK's Financial Conduct Authority announced a desire to phase out the use of LIBOR by the end of 2021. Due to the recency of this announcement, there remains uncertainty regarding the future utilization of LIBOR and the nature of any replacement rate. As such, the potential effect of a transition away from LIBOR on the Fund or the financial instruments in which the Fund invests cannot yet be determined.

Note 9. Other

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on claims that may be made against the Fund in the future and, therefore, cannot be estimated; however, based on experience, the risk of material loss from such claims is considered remote.

Note 10. New Accounting Guidance

In August 2016, the Financial Accounting Standards Board (FASB) issued a new Accounting Standards Update (ASU) No. 2016-15, *Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments* a consensus of the FASB's Emerging Issues Task Force (ASU 2016-15). ASU 2016-15 is intended to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. The issues addressed in ASU 2016-15 are: debt prepayment or debt extinguishment costs, settlement of zero-coupon debt instruments, contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims, proceeds from the settlement of corporate-owned life insurance policies, including bank-owned life insurance policies, distributions received from equity method investments, beneficial interests in securitization transactions; and, separately identifiable cash flows and application of the predominance

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

NOTES TO FINANCIAL STATEMENTS (Continued)

principle. ASU 2016-15 is effective for interim and annual reporting periods beginning after December 15, 2017. The Fund does not expect the adoption of the new standard to have a material effect on its financial statements and related disclosures.

In October 2016, the SEC adopted new rules and amended existing rules (together, the final rules) intended to modernize the reporting and disclosure of information by registered investment companies. In part, the final rules amend Regulation S-X and require standardized, enhanced disclosure about derivatives in investment company financial statements, as well as other amendments. The compliance date for the amendments to Regulation S-X was for periods ending after August 1, 2017. The adoption of these amendments, effective with these financial statements for the year ended December 31, 2017, required amended and additional disclosures reflected herein, but had no effect on the Fund's net assets or results of operations.

In November 2016, the FASB issued a new ASU No. 2016-18, *Statement of Cash Flows (Topic 230), Restricted Cash*, a consensus of the FASB's Emerging Issues Task Force (ASU 2016-18). ASU 2016-18 requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The amendments in ASU 2016-18 do not provide a definition of restricted cash or restricted cash equivalents. ASU 2016-18 is effective for interim and annual reporting periods beginning after December 15, 2017. The Fund does not expect the adoption of the new standard to have a material effect on its financial statements and related disclosures.

In March 2017, the FASB issued ASU No. 2017-08, *Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities*. The amendments in the ASU shorten the amortization period for certain callable debt securities, held at a premium, to be amortized to the earliest call date. The ASU is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2018. The adoption will have no effect on the Fund's net assets or results of operations.

Note 11. Subsequent Events

Management has evaluated events and transactions occurring after December 31, 2017 through the date that the financial statements were issued, and has determined that no additional disclosure in the financial statements is required.

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Shareholders of

Cohen & Steers Global Income Builder, Inc.

*Opinion on the Financial Statements*

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Cohen & Steers Global Income Builder, Inc. (the Fund ) as of December 31, 2017, the related statements of operations and cash flows for the year ended December 31, 2017, the statement of changes in net assets for each of the two years in the period ended December 31, 2017, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2017 (collectively referred to as the financial statements ). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2017, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2017 and the financial highlights for each of the five years in the period ended December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

*Basis for Opinion*

These financial statements are the responsibility of the Fund s management. Our responsibility is to express an opinion on the Fund s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ( PCAOB ) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2017 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP

New York, New York

February 27, 2018

We have served as the auditor of one or more investment companies in the Cohen & Steers family of mutual funds since 1991.

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**
**AVERAGE ANNUAL TOTAL RETURNS**

(Periods ended December 31, 2017) (Unaudited)

Based on Net Asset Value				Based on Market Value			
One Year	Five Years	Ten Years	Since Inception (7/27/07)	One Year	Five Years	Ten Years	Since Inception (7/27/07)
19.70%	9.08%	5.07%	5.48%	26.26%	9.27%	5.44%	4.17%

*The performance data quoted represent past performance. Past performance is no guarantee of future results. The investment return will vary and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Performance results reflect the effect of leverage from utilization of borrowings under a credit agreement and/or from the issuance of preferred shares. Current total returns of the Fund can be obtained by visiting our website at [cohenandsteers.com](http://cohenandsteers.com). The Fund's returns assume the reinvestment of all dividends and distributions at prices obtained under the Fund's dividend reinvestment plan.*

**TAX INFORMATION 2017 (Unaudited)**

Pursuant to the Jobs and Growth Relief Reconciliation Act of 2003, the Fund designates qualified dividend income of \$6,895,621. Additionally, 15.64% of the ordinary dividends qualified for the dividends received deduction available to corporations.

**REINVESTMENT PLAN**

The Fund has a dividend reinvestment plan commonly referred to as an "opt-out" plan (the Plan). Each common shareholder who participates in the Plan will have all distributions of dividends and capital gains (Dividends) automatically reinvested in additional common shares by Computershare as agent (the Plan Agent). Shareholders who elect not to participate in the Plan will receive all Dividends in cash paid by check mailed directly to the shareholder of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent. Shareholders whose common shares are held in the name of a broker or nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

The Plan Agent serves as agent for the shareholders in administering the Plan. After the Fund declares a Dividend, the Plan Agent will, as agent for the shareholders, either: (i) receive the cash payment and use it to buy common shares in the open market, on the NYSE or elsewhere, for the participants' accounts or (ii) distribute newly issued common shares of the Fund on behalf of the participants.

The Plan Agent will receive cash from the Fund with which to buy common shares in the open market if, on the Dividend payment date, NAV per share exceeds the market price per share plus estimated brokerage commissions on that date. The Plan Agent will receive the Dividend in newly issued common shares of the Fund if, on the Dividend payment date, the market price per share plus estimated brokerage commissions equals or exceeds the NAV per share of the Fund on that date. The number of shares to be issued will be computed at a per share rate equal to the greater of (i) the NAV or (ii) 95% of the closing market price per share on the payment date.

If the market price per share is less than the NAV on a Dividend payment date, the Plan Agent will have until the last business day before the next ex-dividend date for the common stock, but in no event

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

more than 30 days after the Dividend payment date (as the case may be, the Purchase Period), to invest the Dividend amount in shares acquired in open market purchases. If at the close of business on any day during the Purchase Period on which NAV is calculated the NAV equals or is less than the market price per share plus estimated brokerage commissions, the Plan Agent will cease making open market purchases and the uninvested portion of such Dividends shall be filled through the issuance of new shares of common stock from the Fund at the price set forth in the immediately preceding paragraph.

Participants in the Plan may withdraw from the Plan upon notice to the Plan Agent. Such withdrawal will be effective immediately if received not less than ten days prior to a Dividend record date; otherwise, it will be effective for all subsequent Dividends. If any participant elects to have the Plan Agent sell all or part of his or her shares and remit the proceeds, the Plan Agent is authorized to deduct a \$15.00 fee plus \$0.10 per share brokerage commissions.

The Plan Agent's fees for the handling of reinvestment of Dividends will be paid by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of Dividends. The automatic reinvestment of Dividends will not relieve participants of any income tax that may be payable or required to be withheld on such Dividends.

The Fund reserves the right to amend or terminate the Plan. All correspondence concerning the Plan should be directed to the Plan Agent at 800-432-8224.

**OTHER INFORMATION**

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling 800-330-7348, (ii) on our website at [cohenandsteers.com](http://cohenandsteers.com) or (iii) on the SEC's website at <http://www.sec.gov>. In addition, the Fund's proxy voting record for the most recent 12-month period ended June 30 is available by August 31 of each year (i) without charge, upon request, by calling 800-330-7348 or (ii) on the SEC's website at <http://www.sec.gov>.

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q are available (i) without charge, upon request, by calling 800-330-7348 or (ii) on the SEC's website at <http://www.sec.gov>. In addition, the Form N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330.

Please note that distributions paid by the Fund to shareholders are subject to recharacterization for tax purposes and are taxable up to the amount of the Fund's investment company taxable income and net realized gains. Distributions in excess of the Fund's net investment company taxable income and realized gains are a return of capital distributed from the Fund's assets. To the extent this occurs, the Fund's shareholders of record will be notified of the estimated amount of capital returned to shareholders for each such distribution and this information will also be available at [cohenandsteers.com](http://cohenandsteers.com). The final tax treatment of all distributions is reported to shareholders on their 1099-DIV forms, which are mailed after the close of each calendar year. Distributions of capital decrease the Fund's total assets and, therefore, could have the effect of increasing the Fund's expense ratio. In addition, in order to make these distributions, the Fund may have to sell portfolio securities at a less than opportune time.

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**

Notice is hereby given in accordance with Rule 23c-1 under the 1940 Act that the Fund may purchase, from time to time, shares of its common stock in the open market.

*Election of Additional Director*

Effective September 12, 2017, the Board of Directors voted to increase the number of directors on the Fund's Board of Directors from twelve to thirteen and elected Daphne L. Richards as a Director of the Fund.

In addition to her tenure as a Director of various Cohen & Steers Funds, Ms. Richards has served as an Independent Director of Cartica Management, LLC since 2015. She has also been a Member of the Investment Committee of the Berkshire Taconic Community Foundation since 2015, a Member of the Advisory Board of Northeast Dutchess Fund since 2016, a Member of the 100 Women in Finance Global Association Board and Chair of its Advisory Council since 2012, and has been the President and CIO of Ledge Harbor Management since 2016. Previously, Ms. Richards worked at Bessemer Trust Company from 1999 to 2014. Prior thereto, Ms. Richards held investment positions at Frank Russell Company from 1996 to 1999, Union Bank of Switzerland from 1993 to 1996, Credit Suisse from 1990 to 1993, and Hambros International Venture Capital Fund from 1988 to 1989.

*Changes to the Board of Directors*

On December 5, 2017, the Board of Directors voted to decrease the number of directors on the Fund's Board of Directors from thirteen to ten, effective January 1, 2018. Directors Bonnie Cohen and Richard E. Kroon retired from the Board of Directors on December 31, 2017 pursuant to the Fund's mandatory retirement policy. Director Richard J. Norman resigned from the Board of Directors effective December 31, 2017.

*Implementation of Asset Allocation Strategy Group*

The Fund's team of portfolio managers is responsible for the day-to-day management of the Fund. The Asset Allocation Strategy Group (ASG) aggregates economic outlook, risk and relative value to develop views across asset classes and assists the portfolio managers by providing suggestions on allocations among the asset classes. Yigal Jhirad, lead portfolio manager and member of the ASG, determines the Fund's asset allocation ranges by conducting quantitative and qualitative analysis and evaluating the views of the ASG, and oversees the implementation of allocation decisions across the Fund's asset classes. Each portfolio manager on the team then directs and supervises allocation decisions for their respective asset class, and leads and guides the other members of their investment team.

Richard E. Helm retired from Cohen & Steers Capital Management, Inc. on December 31, 2017. Effective September 30, 2017, Richard E. Helm no longer served as a portfolio manager to the Cohen & Steers Global Income Builder Fund, Inc. (the Fund) and Christopher Rhine assumed Richard Helm's portfolio manager responsibilities.

Christopher Rhine Mr. Rhine is a portfolio manager of the Fund and Senior Vice President of the Advisor. He joined the Advisor in 2012 as an analyst specializing in natural resource equities and large cap value stocks. He has 12 years of investment experience. From 2002 to 2012, Mr. Rhine was an equity analyst with Blackrock, where he primarily covered the global industrials and materials sectors. He also has research experience in the global energy and information technology sectors. Mr. Rhine has an MBA from New York University and a BS from Drexel University.

---

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**
**MANAGEMENT OF THE FUND**

The business and affairs of the Fund are managed under the direction of the Board of Directors. The Board of Directors approves all significant agreements between the Fund and persons or companies furnishing services to it, including the Fund's agreements with its investment manager, administrator, co-administrator, custodian and transfer agent. The management of the Fund's day-to-day operations is delegated to its officers, the investment manager, administrator and co-administrator, subject always to the investment objective and policies of the Fund and to the general supervision of the Board of Directors.

The Board of Directors and officers of the Fund and their principal occupations during at least the past five years are set forth below. The statement of additional information (SAI) includes additional information about fund directors and is available, without charge, upon request by calling 800-330-7348.

INBAR

**Item 2. Code of Ethics.**

The Registrant has adopted an Amended and Restated Code of Ethics that applies to its Principal Executive Officer and Principal Financial Officer. The Code of Ethics was in effect during the reporting period. The Registrant has not amended the Code of Ethics as described in Form N-CSR during the reporting period. The Registrant has not granted any waiver, including an implicit waiver, from a provision of the Code of Ethics as described in Form N-CSR during the reporting period. A current copy of the Code of Ethics is available on the Registrant's website at [https://www.cohenandsteers.com/assets/content/uploads/Code\\_of\\_Ethics\\_for\\_Principal\\_Executive\\_and\\_Principal\\_Financial\\_C](https://www.cohenandsteers.com/assets/content/uploads/Code_of_Ethics_for_Principal_Executive_and_Principal_Financial_C). Upon request, a copy of the Code of Ethics can be obtained free of charge by calling 800-330-7348 or writing to the Secretary of the Registrant, 280 Park Avenue, 10th floor, New York, NY 10017.

**Item 3. Audit Committee Financial Expert.**

The registrant's board has determined that Gerald J. Maginnis and Frank K. Ross qualify as audit committee financial experts based on their years of experience in the public accounting profession. The registrant's board has determined that Michael G. Clark qualifies as an audit committee financial expert based on his years of experience in the public accounting profession and the investment management and financial services industry. Each of Messrs. Clark, Maginnis and Ross is a member of the board's audit committee, and each is independent as such term is defined in Form N-CSR.

**Item 4. Principal Accountant Fees and Services.**

(a) (d) Aggregate fees billed to the registrant for the last two fiscal years ended December 31, 2017 and December 31, 2016 for professional services rendered by the registrant's principal accountant were as follows:

	2017	2016
Audit Fees	\$ 46,660	\$ 55,700
Audit-Related Fees	\$0	\$0
Tax Fees	\$ 11,380	\$ 13,080
All Other Fees	\$0	\$0

Tax fees were billed in connection with tax compliance services, including the preparation and review of federal and state tax returns and the computation of corporate and franchise tax amounts.

(e)(1) The registrant's audit committee is required to pre-approve audit and non-audit services performed for the registrant by the principal accountant. The audit committee also is required to pre-approve non-audit services performed by the registrant's principal accountant for the registrant's investment advisor and any sub-advisor (not including any sub-advisor whose role is primarily portfolio management and is subcontracted with or overseen by another investment advisor) and/or to any entity controlling, controlled by or under common control with the

registrant's investment advisor that provides ongoing services to the registrant, if the engagement for services relates directly to the operations and financial reporting of the registrant.

The audit committee may delegate pre-approval authority to one or more of its members who are independent members of the board of directors of the registrant. The member or members to whom such authority is delegated shall report any pre-approval decisions to the audit committee at its next scheduled meeting. The audit committee may not delegate its responsibility to pre-approve services to be performed by the registrant's principal accountant to the investment advisor.

(e)(2) No services included in (b) (d) above were approved by the audit committee pursuant to paragraphs (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) Not applicable.

(g) For the fiscal years ended December 31, 2017 and December 31, 2016, the aggregate fees billed by the registrant's principal accountant for non-audit services rendered to the registrant and for non-audit services rendered to the registrant's investment advisor (not including any sub-advisor whose role is primarily portfolio management and is subcontracted with or overseen by another investment advisor) and/or to any entity controlling, controlled by or under common control with the registrant's investment advisor that provides ongoing services to the registrant were:

	2017	2016
Registrant	\$ 11,380	\$ 13,080
Investment Advisor	\$0	\$0

(h) The registrant's audit committee considered whether the provision of non-audit services that were rendered to the registrant's investment advisor (not including any sub-advisor whose role is primarily portfolio management and is subcontracted with or overseen by another investment advisor) and/or to any entity controlling, controlled by or under common control with the registrant's investment advisor that provides ongoing services to the registrant that were not required to be pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X was compatible with maintaining the principal accountant's independence.

#### **Item 5. Audit Committee of Listed Registrants.**

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the committee are Frank K. Ross (chairman), Bonnie Cohen, Michael G. Clark, George Grossman and Gerald J. Maginnis. Director Bonnie Cohen retired from the Board of Directors on December 31, 2017 pursuant to the Fund's mandatory retirement policy.

#### **Item 6. Schedule of Investments.**

Included in Item 1 above.

## **Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.**

The registrant has delegated voting of proxies in respect of portfolio holdings to Cohen & Steers Capital Management, Inc., in accordance with the policies and procedures set forth below.

### **COHEN & STEERS CAPITAL MANAGEMENT, INC.**

#### **STATEMENT OF POLICIES AND PROCEDURES REGARDING THE VOTING OF SECURITIES**

This statement sets forth the policies and procedures that Cohen & Steers, Inc. and its affiliated advisors (Cohen & Steers, we or us) follow in exercising voting rights with respect to securities held in its client portfolios. All proxy-voting rights that are exercised by Cohen & Steers shall be subject to this Statement of Policy and Procedures.

#### **A. General Proxy Voting Guidelines**

##### **Objectives**

Voting rights are an important component of corporate governance. Cohen & Steers has three overall objectives in exercising voting rights:

Responsibility. Cohen & Steers shall seek to ensure that there is an effective means in place to hold companies accountable for their actions. While management must be accountable to its board, the board must be accountable to a company's shareholders. Although accountability can be promoted in a variety of ways, protecting shareholder voting rights may be among our most important tools.

Rationalizing Management and Shareholder Concerns. Cohen & Steers seeks to ensure that the interests of a company's management and board are aligned with those of the company's shareholders. In this respect, compensation must be structured to reward the creation of shareholder value.

Shareholder Communication. Since companies are owned by their shareholders, Cohen & Steers seeks to ensure that management effectively communicates with its owners about the company's business operations and financial performance. It is only with effective communication that shareholders will be able to assess the performance of management and to make informed decisions on when to buy, sell or hold a company's securities.

##### **General Principles**

In exercising voting rights, Cohen & Steers shall conduct itself in accordance with the general principles set forth below.

The ability to exercise a voting right with respect to a security is a valuable right and, therefore, must be viewed as part of the asset itself.

In exercising voting rights, Cohen & Steers shall engage in a careful evaluation of issues that may materially affect the rights of shareholders and the value of the security.

Consistent with general fiduciary principles, the exercise of voting rights shall always be conducted with reasonable care, prudence and diligence.

In exercising voting rights on behalf of clients, Cohen & Steers shall conduct itself in the same manner as if Cohen & Steers were the constructive owner of the securities.

To the extent reasonably possible, Cohen & Steers shall participate in each shareholder voting opportunity.

Voting rights shall not automatically be exercised in favor of management-supported proposals.

Cohen & Steers, and its officers and employees, shall never accept any item of value in consideration of a favorable proxy voting decision.

#### **General Guidelines**

Set forth below are general guidelines that Cohen & Steers shall follow in exercising proxy voting rights:

Prudence. In making a proxy voting decision, Cohen & Steers shall give appropriate consideration to all relevant facts and circumstances, including the value of the securities to be voted and the likely effect any vote may have on that value. Since voting rights must be exercised on the basis of an informed judgment, investigation shall be a critical initial step.

Third Party Views. While Cohen & Steers may consider the views of third parties, Cohen & Steers shall never base a proxy voting decision solely on the opinion of a third party. Rather, decisions shall be based on a reasonable and good faith determination as to how best to maximize shareholder value.

Shareholder Value. Just as the decision whether to purchase or sell a security is a matter of judgment, determining whether a specific proxy resolution will increase the market value of a security is a matter of judgment as to which informed parties may differ. In determining how a proxy vote may affect the economic value of a security, Cohen & Steers shall consider both short-term and long-term views about a company's business and prospects, especially in light of our projected holding period on the stock (e.g., Cohen & Steers may discount long-term views on a short-term holding).

#### **Specific Guidelines**

##### *Uncontested Director Elections*

Votes on director nominees should be made on a case-by-case basis using a mosaic approach, where all factors are considered in director elections and where no single issue is deemed to be determinative. For example, a nominee's experience and business judgment may be critical to the long-term success of the portfolio company, notwithstanding the fact that he or she may serve on the board of more than four public companies. In evaluating nominees, we consider the following factors:

Whether the nominee attended less than 75 percent of the board and committee meetings without a valid excuse for the absences;

Whether the nominee is an inside or affiliated outside director and sits on the audit, compensation, or nominating committees;

Whether the board ignored a significant shareholder proposal that was approved by a majority of the votes cast in the previous year;

Whether the board, without shareholder approval, to our knowledge instituted a new poison pill plan, extended an existing plan, or adopted a new plan upon the expiration of an existing plan during the past year;

Whether the nominee is an insider or affiliated outside director and the full board serves as the audit, compensation, or nominating committee or the company does not have one of these committees;

Whether the nominee is an insider or affiliated outsider on boards that are not at least majority independent;

Whether the nominee is the CEO of a publicly-traded company who serves on more than two public boards;

Whether the nominee is the chairperson of a publicly-traded company who serves on more than two public boards;

Whether the nominee serves on more than four public company boards;

Whether the nominee serves on the audit committee where there is evidence (such as audit reports or reports mandated under the Sarbanes Oxley Act) that there exists material weaknesses in the company's internal controls;

Whether the nominee serves on the compensation committee if that director was present at the time of the grant of backdated options or options the pricing or the timing of which we believe may have been manipulated to provide additional benefits to executives;

Whether the nominee has a material related party transaction or is believed by us to have a material conflict of interest with the portfolio company;

Whether the nominee (or the overall board) in our view has a record of making poor corporate or strategic decisions or has demonstrated an overall lack of good business judgment, including, among other things, whether the company's total shareholder return is in the bottom 25% of its peer group over the prior five years;

Material failures of governance, stewardship, risk oversight<sup>1</sup>, or fiduciary responsibilities at the company;

Failure to replace management as appropriate; and

Egregious actions related to a director's service on other boards that raise substantial doubt about his or her ability to effectively oversee management and serve the best interests of shareholders at any company.

#### ***Proxy Access***

We recognize the importance of shareholder access to the ballot process as a means to ensure that boards do not become self-perpetuating and self-serving. However, we are also aware that some proposals may promote certain interest groups and could be disruptive to the nomination process. We vote on a case-by-case basis considering the proxy access terms in light of a company's specific circumstances and we may support proxy access proposals when management and boards have displayed a lack of shareholder accountability. Director candidates nominated pursuant to proxy access will be considered in accordance with the contested election guidelines below.

#### ***Proxy Contests***

##### **Director Nominees in a Contested Election**

By definition, this type of board candidate or slate runs for the purpose of seeking a significant change in corporate policy or control. Therefore, the economic impact of the vote in favor of or in opposition to that director or slate must be analyzed using a higher standard such as is normally applied to changes in control. Criteria for evaluating director nominees as a group or individually should also include: the underlying reason why the new slate (or individual director) is being proposed; performance; compensation; corporate governance provisions and takeover activity; criminal activity; attendance at meetings; investment in the company; interlocking directorships; inside, outside and independent directors; number of other board seats; and other experience. It is impossible to have a general policy regarding director nominees in a contested election.

##### **Reimbursement of Proxy Solicitation Expenses**

Decisions to provide full reimbursement for dissidents waging a proxy contest should be made on a case-by-case basis. In the absence of compelling reasons, Cohen & Steers will generally not support such proposals.

#### ***Ratification of Auditors***

We vote for proposals to ratify auditors, auditor remuneration and/or proposals authorizing the board to fix audit fees, unless:

an auditor has a financial interest in or association with the company, and is therefore not independent;

<sup>1</sup> Examples of failure of risk oversight include, but are not limited to: bribery; large or serial fines from regulatory bodies; significant adverse legal judgments or settlements; hedging of company stock by the employees or directors of a company; or significant pledging of company stock in the aggregate by the officers and directors of a company.

there is reason to believe that the independent auditor has rendered an opinion that is neither accurate nor indicative of the company's financial position;

the name of the proposed auditor and/or fees paid to the audit firm are not disclosed by the company in a timely manner prior to the meeting;

the auditors are being changed without explanation; or

fees paid for non-audit related services are excessive and/or exceed limits set in local best practice recommendations or law.

In circumstances where fees for non-audit services include fees related to significant one-time capital structure events; initial public offerings; bankruptcy emergence, and spinoffs; and the company makes public disclosure of the amount and nature of those fees, then such fees may be excluded from the non-audit fees considered in determining whether non-audit related fees are excessive.

We vote on a case-by-case basis on auditor rotation proposals. Criteria for evaluating the rotation proposal include, but are not limited to: tenure of the audit firm; establishment and disclosure of a renewal process whereby the auditor is regularly evaluated for both audit quality and competitive price; length of the rotation period advocated in the proposal; and any significant audit related issues.

Generally, we vote against auditor indemnification and limitation of liability; however we recognize there may be situations where indemnification and limitations on liability may be appropriate.

### ***Takeover Defenses***

While we recognize that a takeover attempt can be a significant distraction for the board and management to deal with, the simple fact is that the possibility of a corporate takeover keeps management focused on maximizing shareholder value. As a result, Cohen & Steers opposes measures that are designed to prevent or obstruct corporate takeovers because they can entrench current management. The following are our guidelines on change of control issues:

#### **Shareholder Rights Plans**

We acknowledge that there are arguments for and against shareholder rights plans, also known as poison pills. Companies should put their case for rights plans to shareholders.

We review on a case-by-case basis management proposals to ratify a poison pill. We generally look for shareholder friendly features including a two- to three-year sunset provision, a permitted bid provision and a 20 percent or higher flip-in provision.

#### **Greenmail**

We vote for proposals to adopt anti-greenmail charter or bylaw amendments or otherwise restrict a company's ability to make greenmail payments.

#### **Unequal Voting Rights**

Generally, we vote against dual-class recapitalizations as they offer an effective way for a firm to thwart hostile takeovers by concentrating voting power in the hands of management or other insiders. We support the one-share, one-vote principle for voting.

## Classified Boards

We generally vote in favor of shareholder proposals to declassify a board of directors, although we acknowledge that a classified board may be in the long-term best interests of the shareholders of a company in certain situations, such as continuity of a strong board and management team or for certain types of companies. In voting on shareholder proposals to declassify a board of directors, we evaluate all facts and circumstances surrounding such proposal, including whether: (i) the current management and board have a track record of making good corporate or strategic decisions, (ii) the shareholder proposing the de-classification has an agenda in making such proposal that may be at odds with the long-term best interests of the shareholders of the company, or (iii) it would be in the best interests of the company to thwart a shareholder's attempt to control the board of directors.

## Cumulative Voting

Having the ability to cumulate our votes for the election of directors—that is, cast more than one vote for a director about whom they feel strongly—generally increases shareholders' rights to effect change in the management of a corporation. However, we acknowledge that cumulative voting promotes special candidates who may not represent the interests of all, or even a majority, of shareholders. In voting on proposals to institute cumulative voting, we therefore evaluate all facts and circumstances surrounding such proposal and we generally vote against cumulative voting where the company has good corporate governance practices in place, including majority voting for board elections and de-classified boards.

## Shareholder Ability to Call Special Meeting

Cohen & Steers votes on a case-by-case basis for shareholder proposals requesting companies to amend their governance documents (bylaws and/or charter) in order to allow shareholders to call special meetings.

## Shareholder Ability to Act by Written Consent

We generally vote against proposals to allow or facilitate shareholder action by written consent. The requirement that all shareholders be given notice of a shareholders' meeting and matters to be discussed therein seems to provide a reasonable protection of minority shareholder rights.

## Shareholder Ability to Alter the Size of the Board

We generally vote for proposals that seek to fix the size of the board and vote against proposals that give management the ability to alter the size of the board without shareholder approval. While we recognize the importance of such proposals, we are however also aware that these proposals are sometimes put forth in order to promote the agenda(s) of certain special interest groups and could be disruptive to the management of the company.

## *Miscellaneous Board Provisions*

### Board Committees

Boards should delegate key oversight functions, such as responsibility for audit, nominating and compensation issues, to independent committees. The chairman and members of any committee should be clearly identified in the annual report. Any committee should have the authority to engage independent advisors where appropriate at the company's expense.

Audit, nominating and compensation committees should consist solely of non-employee directors, who are independent of management.

#### Independent Chairman

We review on a case-by-case basis proposals requiring that the chairman's position be filled by an independent director, taking into consideration the company's current board leadership and governance structure; company performance, and any other factors that may be applicable.

#### Separate Chairman and CEO Role

We will generally vote for proposals looking to separate the CEO and Chairman roles. We do acknowledge, however, that under certain circumstances, it may be reasonable for the CEO and Chairman roles to be held by a single person.

#### Lead Directors and Executive Sessions

In cases where the CEO and Chairman roles are combined or the Chairman is not independent, we will vote for the appointment of a lead independent director and for regular executive sessions (board meetings taking place without the CEO/Chairman present).

#### Majority of Independent Directors

We vote for proposals that call for the board to be composed of a majority of independent directors. We believe that a majority of independent directors can be an important factor in facilitating objective decision making and enhancing accountability to shareholders.

#### Independent Committees

We vote for shareholder proposals requesting that the board's audit, compensation, and nominating committees consist exclusively of independent directors.

#### Stock Ownership Requirements

We support measures requiring senior executives to hold a minimum amount of stock in a company (often expressed as a percentage of annual compensation), which may include restricted stock or restricted stock units.

#### Director and Officer Indemnification and Liability Protection

We generally support indemnification provisions that are consistent with the local jurisdiction in which the company has been formed. We vote in favor of proposals providing indemnification for directors and officers with respect to acts conducted in the normal course of business. We also vote in favor of proposals that expand coverage for directors and officers where, despite an unsuccessful legal defense, the director or officer acted in good faith and in the best interests of the company and the director or officers' legal expenses are covered. We vote against proposals that would expand indemnification beyond coverage of legal expenses to coverage of acts, such as gross negligence, that are more serious violations of fiduciary obligations.

#### Board Size

We generally vote for proposals to limit the size of the board to 15 members or less.

### Majority Vote Standard

We generally vote for proposals asking for the board to initiate the appropriate process to amend the company's governance documents (charter or bylaws) to provide that director nominees shall be elected by the affirmative vote of the majority of votes cast at an annual meeting of shareholders.

### Supermajority Vote Requirements

We generally support proposals that seek to lower super-majority voting requirements.

### Disclosure of Board Nominees

We generally vote against the election of directors at companies if the names of the director nominees are not disclosed in a timely manner prior to the meeting. However, we recognize that companies in certain emerging markets may have a legitimate reason for not disclosing nominee names. In such a rare case, if a company discloses a legitimate reason why such nominee names should not be disclosed, we may vote for the nominees even if nominee names are not disclosed in a timely manner.

### Disclosure of Board Compensation

We generally vote against the election of directors at companies if the compensation paid to such directors is not disclosed in a timely manner prior to the meeting. However, we recognize that companies in certain emerging markets may have a legitimate reason for not disclosing such compensation information. In such a rare case, if a company discloses a legitimate reason why such compensation should not be disclosed, we may vote for the nominees even if compensation is not disclosed in a timely manner.

### *Miscellaneous Governance Provisions*

#### Confidential Voting

We vote for shareholder proposals requesting that companies adopt confidential voting, use independent tabulators, and use independent inspectors of election as long as the proposals include clauses for proxy contests as follows: in the case of a contested election, management should be permitted to request that the dissident group honor its confidential voting policy. If the dissidents agree, the policy remains in place. If the dissidents do not agree, the confidential voting policy is waived.

We also vote for management proposals to adopt confidential voting.

#### Bundled Proposals

We review on a case-by-case basis bundled or conditioned proxy proposals. In the case of items that are conditioned upon each other, we examine the benefits and costs of the packaged items. In instances where the joint effect of the conditioned items is not in shareholders' best interests, we vote against the proposals. If the combined effect is positive, we support such proposals. In the case of bundled director proposals, we will vote for the entire slate only if we would have otherwise voted for each director on an individual basis.

#### Date/Location of Meeting

We vote against shareholder proposals to change the date or location of the shareholders' meeting. No one site will meet the needs of all shareholders.

Adjourn Meeting if Votes are Insufficient.

Open-end requests for adjournment of a shareholder meeting generally will not be supported. However, where management specifically states the reason for requesting an adjournment and the requested adjournment is necessary to permit a proposal that would otherwise be supported under this policy to be carried out, the adjournment request will be supported.

Disclosure of Shareholder Proponents

We vote for shareholder proposals requesting that companies disclose the names of shareholder proponents. Shareholders may wish to contact the proponents of a shareholder proposal for additional information.

Other Business

Cohen & Steers will generally vote against proposals to approve other business where we cannot determine the exact nature of the proposal to be voted on.

### ***Capital Structure***

Increase Additional Common Stock

We generally vote for increases in authorized shares, provided that the increase is not greater than three times the number of shares outstanding and reserved for issuance (including shares reserved for stock-related plans and securities convertible into common stock, but not shares reserved for any poison pill plan).

Votes generally are cast in favor of proposals to authorize additional shares of stock except where the proposal:

- creates a blank check preferred stock; or
- establishes classes of stock with superior voting rights.

Blank Check Preferred Stock

Votes generally are cast in opposition to management proposals authorizing the creation of new classes of preferred stock with unspecified voting, conversion, distribution and other rights, and management proposals to increase the number of authorized blank check preferred shares. We may vote in favor of this type of proposal when we receive assurances to our reasonable satisfaction that (i) the preferred stock was authorized by the board for the use of legitimate capital formation purposes and not for anti-takeover purposes, and (ii) no preferred stock will be issued with voting power that is disproportionate to the economic interests of the preferred stock. These representations should be made either in the proxy statement or in a separate letter from the company to Cohen & Steers.

Pre-emptive Rights

We believe that the governance and regulation of public equity markets allow for adequate shareholder protection against dilution. Further, we believe that companies should have more flexibility to issue shares without costly and time constraining rights offerings. As such, we do not believe that pre-emptive rights are necessary and as such, we generally vote for the issuance of equity shares without pre-emptive rights. On a limited basis, we will vote for shareholder pre-emptive rights where such pre-emptive rights are necessary, taking into account the best interests of the company's shareholders.

We acknowledge that international local practices typically call for shareholder pre-emptive rights when a company seeks authority to issue shares (e.g., UK authority for the issuance of only up to 5% of outstanding shares without pre-emptive rights). While we would prefer that companies be permitted to issue shares without pre-emptive rights, in deference to international local practices, we will approve issuance requests with pre-emptive rights.

#### Dual Class Capitalizations

Because classes of common stock with unequal voting rights limit the rights of certain shareholders, we vote against adoption of a dual or multiple class capitalization structure.

#### Restructurings/Recapitalizations

We review proposals to increase common and/or preferred shares and to issue shares as part of a debt restructuring plan on a case-by-case basis. In voting, we consider the following issues:

dilution how much will ownership interest of existing shareholders be reduced, and how extreme will dilution to any future earnings be?

change in control will the transaction result in a change in control of the company?

bankruptcy generally, approve proposals that facilitate debt restructurings unless there are clear signs of self-dealing or other abuses.

#### Share Repurchase Programs

Boards may institute share repurchase or stock buy-back programs for a number of reasons. Cohen & Steers will generally vote in favor of such programs where the repurchase would be in the long-term best interests of shareholders, and where the company is not thought to be able to use the cash in a more useful way.

#### Targeted Share Placements

These shareholder proposals ask companies to seek stockholder approval before placing 10% or more of their voting stock with a single investor. The proposals are typically in reaction to the placement by various companies of a large block of their voting stock in an ESOP, parent capital fund or with a single friendly investor, with the aim of protecting themselves against a hostile tender offer. These proposals are voted on a case-by-case basis after reviewing the individual situation of the company receiving the proposal.

### ***Executive and Director Compensation***

#### Executive Compensation ( Say on Pay )

Votes regarding shareholder say on pay are determined on a case-by-case basis. Generally, we believe that executive compensation should be tied to the long-term performance of the executive and the company both in absolute and relative to the peer group. We therefore monitor the compensation practices of portfolio companies to determine whether compensation to these executives is commensurate to the company's total shareholder return (TSR) (*i.e.*, we generally expect companies that pay their executives at the higher end of the pay range to also be performing commensurately well). Further, pay elements that are not directly based on performance are generally evaluated on a case-by-case basis considering the context of a company's overall pay program and demonstrated pay-for-performance

philosophy. The following list highlights certain negative pay practices that carry significant weight in this overall consideration and may result in adverse vote recommendations:

Repricing or replacing of underwater stock options/SARS without prior shareholder approval (including cash buyouts and voluntary surrender of underwater options);

Excessive perquisites or tax gross-ups;

New or extended agreements that provide for:

- Change in Control ( CIC ) payments exceeding 3 times base salary and bonus;
- CIC severance payments without involuntary job loss or substantial diminution of duties ( single or modified single triggers);
- CIC payments with excise tax gross-ups (including modified gross-ups).

Also, we generally vote for shareholder proposals that seek additional disclosure of executive and director pay information.

Frequency of Advisory Vote on Executive Compensation ( Say When on Pay )

We generally vote for annual advisory votes on compensation as we note that executive compensation is also evaluated on an annual basis by the company's compensation committee.

Stock-based Incentive Plans

Votes with respect to compensation plans should be determined on a case-by-case basis depending on a combination of certain plan features and equity grant practices, where positive factors may counterbalance negative factors, and vice versa, as evaluated in three pillars:

**Plan Cost:** The total estimated cost of the company's equity plans relative to industry/market cap peers, measured by the company's estimated Shareholder Value Transfer (SVT) in relation to peers and considering both:

- SVT based on new shares requested plus shares remaining for future grants, plus outstanding unvested/unexercised grants; and
- SVT based only on new shares requested plus shares remaining for future grants.

**Plan Features:**

- Automatic single-triggered award vesting upon CIC;
- Discretionary vesting authority;
- Liberal share recycling on various award types;
- Minimum vesting period for grants made under the plan.

**Grant Practices:**

- The company's three year burn rate relative to its industry/market cap peers;
- Vesting requirements in most recent CEO equity grants (3-year look-back);
- The estimated duration of the plan based on the sum of shares remaining available and the new shares requested, divided by the average annual shares granted in the prior three years;
- The proportion of the CEO's most recent equity grants/awards subject to performance conditions;
- Whether the company maintains a claw-back policy;

○ Whether the company has established post exercise/vesting share-holding requirements.

We will generally vote against the plan proposal if the combination of factors indicates that the plan is not, overall, in the shareholders' interest, or if any of the following apply:

Awards may vest in connection with a liberal CIC;

The plan would permit repricing or cash buyout of underwater options without shareholder approval;

The plan is a vehicle for problematic pay practices or a pay-for-performance disconnect; or

Any other plan features that are determined to have a significant negative impact on shareholder interests.

#### Approval of Cash or Cash-and-Stock Bonus Plans

We vote for cash or cash-and-stock bonus plans to exempt the compensation from limits on deductibility under the provisions of Section 162(m) of the Internal Revenue Code.

#### Reload/Evergreen Features

We will generally vote against plans that enable the issuance of reload options and that provide an automatic share replenishment ( evergreen ) feature.

#### Golden Parachutes

In general, the guidelines call for voting against golden parachute plans because they impede potential takeovers that shareholders should be free to consider. In particular, we oppose the use of employment contracts that result in cash grants of greater than three times annual compensation (salary and bonus) and generally withhold our votes at the next shareholder meeting for directors who to our knowledge approved golden parachutes.

#### Voting on Golden Parachutes in an Acquisition, Merger, Consolidation, or Proposed Sale

We vote on a case-by-case basis on proposals to approve the company's golden parachute compensation. Features that may lead to a vote against include:

Potentially excessive severance payments (cash grants of greater than three times annual compensation (salary and bonus));

Agreements that include excessive excise tax gross-up provisions;

Single trigger payments that will happen immediately upon a change in control, including cash payment and such items as the acceleration of performance-based equity despite the failure to achieve performance measures;

Single-trigger vesting of equity based on a definition of change in control that requires only shareholder approval of the transaction (rather than consummation);

Recent amendments or other changes that may make packages so attractive as to influence merger agreements that may not be in the best interests of shareholders;

In the case of a substantial gross-up from pre-existing/grandfathered contract: the element that triggered the gross-up (*i.e.*, option mega-grants at low point in stock price, unusual or outsized payments in cash or equity made or negotiated prior to the merger); or

The company's assertion that a proposed transaction is conditioned on shareholder approval of the golden parachute advisory vote.

#### 401(k) Employee Benefit Plans

We vote for proposals to implement a 401(k) savings plan for employees.

#### Employee Stock Purchase Plans

We support employee stock purchase plans, although we generally believe the discounted purchase price should be at least 85% of the current market price.

#### Option Expensing

We vote for shareholder proposals to expense fixed-price options.

#### Vesting

We believe that restricted stock awards normally should vest over at least a two-year period.

#### Option Repricing

Stock options generally should not be re-priced, and never should be re-priced without shareholder approval. In addition, companies should not issue new options, with a lower strike price, to make up for previously issued options that are substantially underwater. Cohen & Steers will vote against the election of any slate of directors that, to its knowledge, has authorized a company to re-price or replace underwater options during the most recent year without shareholder approval.

#### Stock Holding Periods

Generally vote against all proposals requiring executives to hold the stock received upon option exercise for a specific period of time.

#### Transferable Stock Options

Review on a case-by-case basis proposals to grant transferable stock options or otherwise permit the transfer of outstanding stock options, including cost of proposal and alignment with shareholder interests.

#### Recoup Bonuses

We generally vote for shareholder proposals to recoup incentive bonuses or other incentive payments made to senior executives if it is later determined that fraud, misconduct, or negligence significantly contributed to a restatement of financial results that led to the awarding of incentive compensation.

### ***Incorporation***

#### Reincorporation Outside of the United States

Generally, we will vote against companies looking to reincorporate outside of the U.S.

#### Voting on State Takeover Statutes

We review on a case-by-case basis proposals to opt in or out of state takeover statutes (including control share acquisition statutes, control share cash-out statutes, freezeout provisions, fair price provisions,

stakeholder laws, poison pill endorsements, severance pay and labor contract provisions, anti-greenmail provisions, and disbursement provisions). In voting on these shareholder proposals, we evaluate all facts and circumstances surrounding such proposal, including whether the shareholder proposing such measure has an agenda in making such proposal that may be at odds with the long-term best interests of the company or whether it would be in the best interests of the company to thwart a shareholder's attempt to control the board of directors.

#### Voting on Reincorporation Proposals

Proposals to change a company's state of incorporation are examined on a case-by-case basis. In making our decision, we review management's rationale for the proposal, changes to the charter/bylaws, and differences in the state laws governing the companies.

#### *Mergers and Corporate Restructurings*

##### Mergers and Acquisitions

Votes on mergers and acquisitions should be considered on a case-by-case basis, taking into account factors including the following: anticipated financial and operating benefits; offer price (cost vs. premium); prospects of the combined companies; how the deal was negotiated; and changes in corporate governance and their impact on shareholder rights.

We vote against proposals that require a super-majority of shareholders to approve a merger or other significant business combination.

##### Nonfinancial Effects of a Merger or Acquisition

Some companies have proposed a charter provision which specifies that the board of directors may examine the nonfinancial effect of a merger or acquisition on the company. This provision would allow the board to evaluate the impact a proposed change in control would have on employees, host communities, suppliers and/or others. We generally vote against proposals to adopt such charter provisions. We feel it is the directors' fiduciary duty to base decisions solely on the financial interests of the shareholders.

##### Corporate Restructuring

Votes on corporate restructuring proposals, including minority squeeze outs, leveraged buyouts, going private proposals, spin-offs, liquidations, and asset sales, should be considered on a case-by-case basis. In evaluating these proposals and determining our votes, we are singularly focused on meeting our goal of maximizing long-term shareholder value.

##### Spin-offs

Votes on spin-offs should be considered on a case-by-case basis depending on the tax and regulatory advantages, planned use of sale proceeds, market focus, and managerial incentives.

##### Asset Sales

Votes on asset sales should be made on a case-by-case basis after considering the impact on the balance sheet/working capital, value received for the asset, and potential elimination of diseconomies.

## Liquidations

Votes on liquidations should be made on a case-by-case basis after reviewing management's efforts to pursue other alternatives, appraisal value of assets, and the compensation plan for executives managing the liquidation.

## Appraisal Rights

We vote for proposals to restore, or provide shareholders with, rights of appraisal. Rights of appraisal provide shareholders who are not satisfied with the terms of certain corporate transactions the right to demand a judicial review in order to determine a fair value for their shares.

## Changing Corporate Name

We vote for changing the corporate name.

## ***Shareholder Rights***

Our position on the rights of shareholders is as follows:

Shareholders should be given the opportunity to exercise their rights. Notification of opportunities for the exercise of voting rights should be given in good time.

Shareholders are entitled to submit questions to company management.

Minority shareholders should be protected as far as possible from the exercise of voting rights by majority shareholders.

Shareholders are entitled to hold company management as well as the legal person or legal entity accountable for any action caused by the company or company management for which the company, company management or legal entity should bear responsibility.

## ***Environmental and Social Issues***

We recognize that the companies in which we invest can enhance shareholder value and long-term profitability by adopting policies and procedures that promote corporate social and environmental responsibility. Because of the diverse nature of environmental and social shareholder proposals and the myriad ways companies deal with them, these proposals should be considered on a case-by-case basis.

All such proposals are scrutinized based on whether they contribute to the creation of shareholder value, are reasonable and relevant, and provide adequate disclosure of key issues to shareholders. When evaluating social and environmental shareholder proposals, we consider the following factors (in the order of importance as set forth below):

The financial implications of the proposal, including whether adoption of the proposal is likely to have significant economic benefit for the company, such that shareholder value is enhanced or protected by the adoption of the proposal;

Whether the issues presented are more appropriately/effectively dealt with through governmental or company-specific action, as many social and environmental issues are more properly the province of government and broad regulatory action;

Whether the subject of the proposal is best left to the discretion of the board;

Whether the company has already responded in some appropriate manner to the request embodied in the proposal;

Whether the information requested concerns business issues that relate to a meaningful percentage of the company's business as measured by sales, assets, and earnings;

The degree to which the company's stated position on the issues raised in the proposal could affect its reputation or sales, or leave it vulnerable to a boycott or selective purchasing;

Whether implementation of the proposal's request would achieve the proposal's objectives;

Whether the requested information is available to shareholders either from the company or from a publicly available source; and

Whether providing this information would reveal proprietary or confidential information that would place the company at a competitive disadvantage.

**Item 8. Portfolio Managers of Closed-End Investment Companies.**

Information pertaining to the portfolio managers of the registrant, as of March 9, 2018, is set forth below.

Jon Cheigh

Executive Vice President of C&S since 2012. Prior to that, Senior Vice President of C&S.

Vice President

Portfolio manager since 2012

Douglas Bond

Executive Vice President of C&S since 2004.

Vice President

Portfolio manager since inception

William F. Scapell

Executive Vice President of C&S since 2014. Prior to that, Senior Vice President of C&S since 2003.

Vice President

Portfolio manager since inception

Yigal D. Jhirad

Senior Vice President of C&S since 2007.

Vice President

Portfolio manager since inception

Ben Morton

Senior Vice President of C&S since 2003.

Vice President

Portfolio manager since 2007

Elaine Zaharis-Nikas

Senior Vice President of C&S since 2014. Prior to that, Vice President of C&S since 2003.

Vice President

Portfolio manager since 2012

Jason A. Yablon

Senior Vice President of C&S since 2014. Prior to that, Vice President of C&S since 2008.

Vice President

Portfolio manager since 2012

Christopher Rhine

Senior Vice President of C&S since 2014. Prior to that, Vice President of C&S since 2008.

Vice President

Portfolio manager since 2017

C&S utilizes a team-based approach in managing the registrant. Mr. Cheigh, Mr. Morton, Mr. Bond, Mr. Jhirad, Mr. Yablon and Mr. Rhine direct and supervise the execution of the registrant's investment strategy, and lead and guide the other members of the team. Mr. Scapell and Ms. Zaharis-Nikas manage the registrant's preferred securities investments.

Each portfolio manager listed above manages other investment companies and/or investment vehicles and accounts in addition to the registrant. The following tables show, as of December 31, 2017, the number of other accounts each portfolio manager managed in each of the listed categories and the total assets in the other accounts managed within each category. One (1) of the 14 other accounts managed by Mr. Morton with total assets of \$141,250,669 million is subject to performance-based fees. One (1) of the four (4) other accounts managed by Mr. Rhine with total assets of \$89,480,088 million is subject to performance-based fees.

Douglas Bond	<u>Number of accounts</u>	<u>Total assets</u>
Registered investment companies	1	\$381,379,804
Other pooled investment vehicles	0	\$0

Edgar Filing: Cohen & Steers Global Income Builder, Inc - Form N-CSR

Other accounts	3	\$197,240,181
Jon Cheigh	<u>Number of accounts</u>	<u>Total assets</u>
Registered investment companies	7	\$9,903,021,887
Other pooled investment vehicles	23	\$4,295,733,019
Other accounts	15	\$4,274,607,842
William F. Scapell	<u>Number of accounts</u>	<u>Total assets</u>
Registered investment companies	8	\$17,029,785,450

Other pooled investment vehicles	6	\$9,622,652,966
Other accounts	17	\$2,858,808,397
Yigal D. Jhirad	<u>Number of accounts</u>	<u>Total assets</u>
Registered investment companies	0	\$0
Other pooled investment vehicles	0	\$0
Other accounts	0	\$0
Elaine Zaharis-Nikas	<u>Number of accounts</u>	<u>Total assets</u>

Christopher Rhine	<u>Number of accounts</u>	<u>Total assets</u>
Registered investment companies	1	\$194,898,180
Other pooled investment vehicles	0	\$0
Other accounts	4	\$1,213,411,824

Share Ownership. The following table indicates the dollar range of securities of the registrant owned by the registrant's portfolio managers as of December 31, 2017:

	Dollar Range of Securities Owned
Douglas Bond	None
Jon Cheigh	None
William F. Scapell	None
Yigal Jhirad	None
Elaine Zaharis-Nikas	None
Ben Morton	None
Jason Yablon	None
Christopher Rhine	None

Conflicts of Interest. It is possible that conflicts of interest may arise in connection with the portfolio manager's management of the registrant's investments on the one hand and the investments of other accounts or vehicles for which the portfolio managers are responsible on the other. For example, a portfolio manager may have conflicts of interest in allocating management time, resources and investment opportunities among the registrant and the other accounts or vehicles he advises. In addition, due to differences in the investment strategies or restrictions among the registrant and the other accounts, a portfolio manager may take action with respect to another account that differs from the action taken with respect to the registrant.

In some cases, another account managed by a portfolio manager may provide more revenue to the Advisor. While this may appear to create additional conflicts of interest for the portfolio manager in the allocation of management time, resources and investment opportunities, the Advisor strives to ensure that portfolio managers endeavor to exercise their discretion in a manner that is equitable to all interested persons. In this regard, in the absence of specific account-related impediments (such as client-imposed restrictions or lack of available cash), it is the policy of the Advisor to allocate investment ideas pro rata to all accounts with the same primary investment objective.

In addition, certain of the portfolio managers may from time to time manage one or more accounts on behalf of the Advisor and its affiliated companies (the CNS Accounts). Certain securities held and traded in the CNS Accounts also may be held and traded in one or more client accounts. It is the policy of the Advisor however not to put the interests of the CNS Accounts ahead of the interests of client accounts. The Advisor may aggregate orders of client accounts with those of the CNS Accounts; however, under no circumstances will preferential treatment be given to the CNS Accounts. For all orders involving the CNS Accounts, purchases or sales will be allocated prior to trade placement, and orders that are only partially filled will be allocated across all accounts in proportion to the shares each account, including the CNS Accounts, was designated to receive prior to trading. As a result, it is expected that the CNS Accounts will receive the same average price as other accounts included in the aggregated order. Shares will not be allocated or re-allocated to the CNS Accounts after trade execution or after the average price is known. In the event so few shares of an order are executed that a pro-rata allocation is not practical, a rotational system of allocation may be used; however, the CNS Accounts will never be part of that rotation or receive shares of a partially filled order other than on a pro-rata basis.

Because certain CNS Accounts are managed with a cash management objective, it is possible that a security will be sold out of the CNS Accounts but continue to be held for one or more

client accounts. In situations when this occurs, such security will remain in a client account only if the portfolio manager, acting in its reasonable judgment and consistent with its fiduciary duties, believes this is appropriate for, and consistent with the objectives and profile of, the client account.

Advisor Compensation Structure. Compensation of the Advisor's portfolio managers and other investment professionals has three primary components: (1) a base salary, (2) an annual cash bonus and (3) annual stock-based compensation consisting generally of restricted stock units of the Advisor's parent, CNS. The Advisor's investment professionals, including the portfolio managers, also receive certain retirement, insurance and other benefits that are broadly available to all of its employees. Compensation of the Advisor's investment professionals is reviewed primarily on an annual basis.

Method to Determine Compensation. The Advisor compensates its portfolio managers based primarily on the total return performance of funds and accounts managed by the portfolio manager versus appropriate peer groups or benchmarks. C&S uses a variety of benchmarks to evaluate each portfolio manager's performance for compensation purposes, including the MSCI World Index, the S&P 500 Index and other broad based indexes based on the asset classes managed by each portfolio manager. In evaluating the performance of a portfolio manager, primary emphasis is normally placed on one- and three-year performance, with secondary consideration of performance over longer periods of time. Performance is evaluated on a pre-tax and pre-expense basis. In addition to rankings within peer groups of funds on the basis of absolute performance, consideration may also be given to risk-adjusted performance. For funds and accounts with a primary investment objective of high current income, consideration will also be given to the fund's and account's success in achieving this objective. For portfolio managers responsible for multiple funds and accounts, investment performance is evaluated on an aggregate basis. The Advisor has two funds or accounts with performance-based advisory fees. Portfolio managers are also evaluated on the basis of their success in managing their dedicated team of analysts. Base compensation for portfolio managers of the Advisor varies in line with the portfolio manager's seniority and position with the firm.

Salaries, bonuses and stock-based compensation are also influenced by the operating performance of the Advisor and CNS. While the annual salaries of the Advisor's portfolio managers are fixed, cash bonuses and stock based compensation may fluctuate significantly from year to year, based on changes in manager performance and other factors.

**Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.**

None.

**Item 10. Submission of Matters to a Vote of Security Holders.**

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

**Item 11. Controls and Procedures.**

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the registrant in this Form N-CSR was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, based upon such officers' evaluation of these controls and procedures as of a date within 90 days of the filing date of this report.

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

**Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies.**

(a) The Fund did not engage in any securities lending activity during the fiscal year ended December 31, 2017.

(b) The Fund did not engage in any securities lending activity and did not engage a securities lending agent during the fiscal year ended December 31, 2017.

**Item 13. Exhibits.**

(a)(1) Not applicable.

(a) (2) Certifications of principal executive officer and principal financial officer as required by Rule 30a-2(a) under the Investment Company Act of 1940.

(a)(3) Not applicable.

(b) Certifications of principal executive officer and principal financial officer as required by Rule 30a-2(b) under the Investment Company Act of 1940.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

**COHEN & STEERS GLOBAL INCOME BUILDER, INC.**
