## 1. Overview of Consolidated Results of Operations and Financial Conditions

### (1) Overview of Results of Operations

Reviewing the economic environment over the fiscal year ended March 31, 2018, the global economy has continued on a path of gradual recovery backed by factors such as the rally of the Chinese economy, improvements related to the IT cycle and improvements in business confidence, predominately in major industrialized countries.

In the United States, continued recovery has been underpinned by (i) continued strong consumer spending resulting from improvements in the employment and income environment and wealth effects due to a surge in stock prices and (ii) capital investment that began to increase as a result of expectations over the Trump administration's tax reduction measures. Under such circumstances, the Federal Reserve Board (FRB) pursued an exit strategy from monetary easing whereby, among other measures, the FRB raised interest rates in June 2017, September 2017 and March 2018 and began shrinking its balance sheet in October 2017.

In Europe, despite downward pressure from the further appreciation of Euro, the economy has continued to recover, backed by the continued expansion of consumer spending due to an increase in employment, in addition to the actualization of demand for capital investments that had been put off due to political uncertainty surrounding the presidential election in France. Given these conditions, the European Central Bank (ECB), while leaving key interest rates unchanged, determined in October 2017 to decrease monthly asset purchases by half and steered itself in the direction of pursuing an exit strategy from monetary easing.

In Asia, the Chinese economy remained strong, despite continued sluggishness in capital investment due to tighter financial regulations and policies to control real-estate speculation, supported by such factors as strong consumer spending and an expansion of exports, which were backed by income growth and governmental policies to support the economy adopted in preparation for the National Congress of the Communist Party of China in Fall 2017. The economies of emerging countries continued on a recovery trend, due to such factors as the steadiness of China's economy and expansion of exports.

In Japan, the economy continued on a recovery trend, benefiting from overseas economic expansion and strong domestic demand. Regarding domestic demand, the improvement of the inventory cycle, the rise of capital investment related to the 2020 Tokyo Olympic Games and productivity improvements, as well as the implementation of public investment in connection with Japan's economic stimulus measures, served to bolster growth. Consumer spending has maintained its recovery due to the replacement of durable goods and the effect of wage increases especially in small and medium-sized enterprises. Under such circumstances, stock prices trended upward and the exchange rate continued to trend sideways; however, since February 2018, stock prices have entered a correction phase with a stronger yen due to the rise in the long-term interest rates in the United States and concerns regarding the protectionist policies of the Trump administration. On the other hand, long-term interest rates continued to remain low, at around zero percent, under the Bank of Japan's Quantitative and Qualitative Monetary Easing with Yield Curve Control.

As for the future direction of the global economy, recovery is expected to continue to be centered on the United States, but it remains necessary to further monitor downward risks such as the United States' governmental policies, political concerns in Europe, the economic outlook for China and heightening geopolitical risks. As for the future direction of the Japanese economy, it is expected to continue on its gradual recovery path, supported by the effects of government economic measures and growth in consumer spending and capital investment. However, the potential impact of increasing uncertainty in overseas economies on Japan requires monitoring.

Under the foregoing business environment, we recorded Consolidated Gross Profits of ¥1,915.3 billion for fiscal 2017, decreasing by ¥177.3 billion from the previous fiscal year.

Gross Profits of aggregate figures for Mizuho Bank, Ltd. and Mizuho Trust & Banking Co., Ltd. on a non-consolidated basis (on a non-consolidated aggregated basis of the banks) decreased by ¥148.1 billion on a year-on-year basis to ¥1,293.3 billion due to a decrease in Trading and Others mainly affected by the domestic and overseas environment and other factors. General and Administrative Expenses on a non-consolidated aggregated basis of the banks increased by ¥17.6 billion on a year-on-year basis to ¥964.7 billion.

Net Operating Revenues on a consolidated basis of Mizuho Securities Co., Ltd. decreased by ¥59.9 billion on a year-on-year basis to ¥306.0 billion due to a decrease in Net Gain on Trading, the impact of a decrease in the number of consolidated subsidiaries as a result of corporate restructuring in the group companies occurred in the previous fiscal year, and other factors.

Selling, General and Administrative Expenses on a consolidated basis of Mizuho Securities Co., Ltd. decreased by ¥27.5 billion on a year-on-year basis to ¥263.4 billion.

As a result, Consolidated Net Business Profits decreased by ¥205.5 billion on a year-on-year basis to ¥457.8 billion.

Consolidated Credit-related Costs was a reversal of ¥156.3 billion.

Consolidated Net Gains (Losses) related to Stocks increased by ¥29.8 billion on a year-on-year basis to net gains of ¥272.0 billion due to the progress in cross-shareholding disposal and other factors.

As a result, Ordinary Income increased by ¥44.9 billion on a year-on-year basis to ¥782.4 billion.

Extraordinary Gains (Losses) decreased by ¥29.1 billion on a year-on-year basis to net gains of ¥17.5 billion due to a falloff of extraordinary gains as a result of corporate restructuring in the group companies, while gains on cancellation of employee retirement benefit trust was recorded.

Tax-related Expenses increased by ¥53.8 billion on a year-on-year basis to ¥191.6 billion.

As a result, Profit Attributable to Owners of Parent for fiscal 2017 decreased by ¥26.9 billion on a year-on-year basis to ¥576.5 billion. This result shows a 104% achievement against the earnings plan for fiscal 2017 of ¥550.0 billion.

## **(3) Basic Policy on Profit Distribution, Dividend Payment for Fiscal 2017 and Dividend Estimates for Fiscal 2018**

We continue to perform disciplined capital management policy which maintains the optimum balance between strengthening of stable capital base and steady returns to shareholders.

As for a policy to return profits to shareholders, we have implemented a steady dividend payout policy setting a dividend payout ratio on a consolidated basis of approximately 30% as a guide for our consideration.

## Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

Based on this policy, we have decided to make cash dividend payments on common stock of ¥3.75 as year-end dividends for the fiscal year ended March 31, 2018 (annual cash dividends of ¥7.50 including interim dividends of ¥3.75) as predicted in Dividend Estimates for Fiscal 2017.

The board of directors has considered thoroughly and decided the above cash dividend payments taking into account our business environment comprehensively such as the financial result for fiscal 2017 in which Profit Attributable to Owners of Parent amounted to ¥576.5 billion and achieved earnings estimates, future earnings forecasts, profit base, capital, and domestic and international regulation trends such as the Basel framework.

Common Stock	¥ 3.75 per share	(as predicted in Dividend Estimates for Fiscal 2017)
Annual cash dividends including interim dividends	¥ 7.50 per share	(as predicted in Dividend Estimates for Fiscal 2017)

Furthermore, in accordance with the Articles of Incorporation, we decide distribution of dividends from surplus not by the resolution at the general meeting of shareholders but by the resolution at the board of directors unless otherwise stipulated by laws and regulations. We have decided the year-end cash dividend payments on common stock for the fiscal year ended March 31, 2018 at the board of directors held today.

For fiscal 2018, we continuously aim to make steady dividend payouts setting a dividend payout ratio on a consolidated basis of approximately 30% as a guide for our consideration and realize steady returns to shareholders. We will comprehensively consider the business environment such as the Group's business results, profit base, capital, and domestic and international regulation trends such as the Basel framework in determining cash dividend payments.

## 1. Summary of reportable segment

Specifically, the company system is classified into the following five in-house companies, each based on a customer segment: the Retail & Business Banking Company, the Corporate & Institutional Company, the Global Corporate Company, the Global Markets Company, and the Asset Management Company.

The services that each in-house company is in charge of are as follows:

## Retail &amp; Business Banking Company:

## Corporate &amp; Institutional Company:

Services for large corporations, financial institutions and public corporations in Japan

## Global Corporate Company:

\* In addition to Securities on the consolidated balance sheets, NCDs in Cash and Due from Banks, certain items in Other Debt Purchased and certain items in Other Assets are also included.

\* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date.

Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.

\* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the consolidated balance sheets and the acquisition costs.

\* Unrealized Gains/Losses include ¥28,273 million and ¥34,372 million, which were recognized in the statement of income for March 31, 2018 and March 31, 2017, respectively, by applying the fair-value hedge method. As a result, the base amounts to be recorded directly to Net Assets after tax and consolidation adjustments as of March 31, 2018 and March 31, 2017 are ¥1,925,952 million and ¥1,784,852 million, respectively.

\* Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax and consolidation adjustments, excluding the amount recognized in the statement of income by applying the fair-value hedge method, including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of March 31, 2018 and March 31, 2017 are ¥1,392,392 million and ¥1,289,985 million, respectively.

- \* In addition to Securities on the balance sheets, NCDs in Cash and Due from Banks and certain items in Other Debt Purchased are also included.
- \* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the balance sheet date.  
Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the balance sheet date.
- \* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the balance sheets and the acquisition costs.
- \* Unrealized Gains/Losses include ¥28,273 million and ¥34,372 million, which were recognized in the statement of income (aggregate figures for the 2 banks) for March 31, 2018 and March 31, 2017, respectively, by applying the fair-value hedge method. As a result, the base amounts to be recorded directly to Net Assets after tax adjustment (aggregate figures for the 2 banks) as of March 31, 2018 and March 31, 2017 are ¥1,714,286 million and ¥1,617,737 million, respectively.
- \* Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax adjustment, excluding the amount recognized in the statement of income by applying the fair-value hedge method including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of March 30, 2018 and March 31, 2017 are as follows:
