#### NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

#### (1) Organization and Business Background

Orient Paper, Inc. was incorporated in the State of Nevada on December 9, 2005, under the name "Carlateral, Inc." Through the steps described immediately below, we became the holding company for Hebei Baoding Orient Paper Milling Company Limited ("Orient Paper HB"), a producer and distributor of paper products in China, on October 29, 2007, and effective December 21, 2007, we changed our name to "Orient Paper, Inc." to more accurately describe our business.

On October 29, 2007, pursuant to an agreement and plan of merger (the "Merger Agreement"), the Company acquired Dongfang Zhiye Holding Limited ("Dongfang Holding"), a corporation formed on November 13, 2006 under the laws of the British Virgin Islands, and issued the shareholders of Dongfang Holding an aggregate of 7,450,497 (as adjusted for a four-for-one reverse stock split effected in November 2009) shares of our common stock, which shares were distributed pro-rata to the shareholders of Dongfang Holding in accordance with their respective ownership interests in Dongfang Holding. At the time of the Merger Agreement, Dongfang Holding owned all of the issued and outstanding stock and ownership of Orient Paper HB and such shares of Orient Paper HB were held in trust with Zhenyong Liu, Xiaodong Liu and Shuangxi Zhao, for Mr. Liu, Mr. Liu and Mr. Zhao (the original shareholders of Orient Paper HB) to exercise control over the disposition of Dongfang Holding's shares in Orient Paper HB on Dongfang Holding's behalf until Dongfang Holding successfully completed the change in registration of Orient Paper HB's shares. As a result of the merger transaction, Dongfang Holding became a wholly owned subsidiary of the Company, and Dongfang Holding's wholly owned subsidiary, Orient Paper HB, became an indirectly owned subsidiary of the Company.

Dongfang Holding, as the 100% owner of Orient Paper HB, was unable to complete the registration of Orient Paper HB's capital under its name within the proper time limits set forth under PRC law. In connection with the consummation of the restructuring transactions described below, Dongfang Holding directed the trustees to return the shares of Orient Paper HB to their original shareholders, and the original Orient Paper HB shareholders entered into certain agreements with Baoding Shengde Paper Co., Ltd. ("Orient Paper Shengde") to transfer the control of Orient Paper HB over to Orient Paper Shengde.

On June 24, 2009, the Company consummated a number of restructuring transactions pursuant to which it acquired all of the issued and outstanding shares of Shengde Holdings Inc, a Nevada corporation. Shengde Holdings Inc was

incorporated in the State of Nevada on February 25, 2009. On June 1, 2009, Shengde Holdings Inc incorporated Orient Paper Shengde, a limited liability company organized under the laws of the PRC. Because Orient Paper Shengde is a wholly-owned subsidiary of Shengde Holdings Inc, it is regarded as a wholly foreign-owned entity under PRC law.

#### NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

To ensure proper compliance of the Company's control over the ownership and operations of Orient Paper HB with certain PRC regulations, on June 24, 2009, the Company entered into a series of contractual agreements (the "Contractual Agreements") with Orient Paper HB and Orient Paper HB Equity Owners via the Company's wholly owned subsidiary Shengde Holdings Inc ("Shengde Holdings") a Nevada corporation and Baoding Shengde Paper Co., Ltd. ("Orient Paper Shengde"), a wholly foreign-owned enterprise in the PRC with an original registered capital of \$10,000,000 (subsequently increased to \$60,000,000 in June 2010). Orient Paper Shengde is mainly engaged in production and distribution of digital photo paper and is 100% owned by Shengde Holdings. Prior to February 10, 2010, the Contractual Agreements included (i) Exclusive Technical Service and Business Consulting Agreement, which generally provides that Orient Paper Shengde shall provide exclusive technical, business and management consulting services to Orient Paper HB, in exchange for service fees including a fee equivalent to 80% of Orient Paper HB's total annual net profits; (ii) Loan Agreement, which provides that Orient Paper Shengde will make a loan in the aggregate principal amount of \$10,000,000 to Orient Paper HB Equity Owners in exchange for each such shareholder agreeing to contribute all of its proceeds from the loan to the registered capital of Orient Paper HB; (iii) Call Option Agreement, which generally provides, among other things, that Orient Paper HB Equity Owners irrevocably grant to Orient Paper Shengde an option to purchase all or part of each owner's equity interest in Orient Paper HB. The exercise price for the options shall be RMB1 which Orient Paper Shengde should pay to each of Orient Paper HB Equity Owner for all their equity interests in Orient Paper HB; (iv) Share Pledge Agreement, which provides that Orient Paper HB Equity Owners will pledge all of their equity interests in Orient Paper HB to Orient Paper Shengde as security for their obligations under the other agreements described in this section. Specifically, Orient Paper Shengde is entitled to dispose of the pledged equity interests in the event that Orient Paper HB Equity Owners breach their obligations under the Loan Agreement or Orient Paper HB fails to pay the service fees to Orient Paper Shengde pursuant to the Exclusive Technical Service and Business Consulting Agreement; and (v) Proxy Agreement, which provides that Orient Paper HB Equity Owners shall irrevocably entrust a designee of Orient Paper Shengde with such shareholder's voting rights and the right to represent such shareholder to exercise such owner's rights at any equity owners' meeting of Orient Paper HB or with respect to any equity owner action to be taken in accordance with the laws and Orient Paper HB's Articles of Association. The terms of the agreement are binding on the parties for as long as Orient Paper HB Equity Owners continue to hold any equity interest in Orient Paper HB. An Orient Paper HB Equity Owner will cease to be a party to the agreement once it transfers its equity interests with the prior approval of Orient Paper Shengde. As the Company had controlled Orient Paper HB since July 16, 2007 through Dongfang Holding and the trust until June 24, 2009, and continues to control Orient Paper HB through Orient Paper Shengde and the Contractual Agreements, the execution of the Contractual Agreements is considered as a business combination under common control.

On February 10, 2010, Orient Paper Shengde and the Orient Paper HB Equity Owners entered into a Termination of Loan Agreement to terminate the above \$10,000,000 Loan Agreement. Because of the Company's decision to fund future business expansions through Orient Paper Shengde instead of Orient Paper HB, the \$10,000,000 loan contemplated was never made prior to the point of termination. The parties believe the termination of the Loan Agreement does not in itself compromise the effective control of the Company over Orient Paper HB and its

businesses in the PRC.

An agreement was also entered into among Orient Paper Shengde, Orient Paper HB and the Orient Paper HB Equity Owners on December 31, 2010, reiterating that Orient Paper Shengde is entitled to 100% of the distributable profit of Orient Paper HB, pursuant to the above mentioned Contractual Agreements. In addition, Orient Paper HB and the Orient Paper HB Equity Owners shall not declare any of Orient Paper HB's unappropriated earnings as dividend, including the unappropriated earnings of Orient Paper HB from its establishment to 2010 and thereafter.

Orient Paper has no direct equity interest in Orient Paper HB. However, through the Contractual Agreements described above Orient Paper is found to be the primary beneficiary of Orient Paper HB and is deemed to have the effective control over Orient Paper HB's activities that most significantly affect its economic performance, resulting in Orient Paper HB being treated as a controlled variable interest entity of Orient Paper in accordance with Topic 810 - Consolidation of the Accounting Standards Codification (the "ASC") issued by the Financial Accounting Standard Board (the "FASB"). The revenue of the Company generated from Orient Paper HB for the three months ended June 30, 2015 and 2014 were 99.94% and 97.15%, respectively. The revenue of the Company generated from Orient Paper HB for the six months ended June 30, 2015 and 2014 were 99.96% and 96.27%, respectively. Orient Paper HB also accounted for 83.52% and 83.73% of the total assets of the Company as of June 30, 2015 and December 31, 2014, respectively.

## (2) Basis of Presentation and Significant Accounting Policies

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC") for reporting on Form 10-Q. Accordingly, certain information and notes required by the United States of America generally accepted accounting principles ("GAAP") for annual financial statements are not included herein. These interim statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Annual Report on Form 10-K for the year ended December 31, 2014 of Orient Paper, Inc. a Nevada corporation, and its subsidiaries and variable interest entity (which we sometimes refer to collectively as "Orient Paper", "we", "us" or "our").

#### Principles of Consolidation

Our unaudited condensed consolidated financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation of our financial position and results of operations. Such adjustments are

of a normal recurring nature, unless otherwise noted. The balance sheet as of June 30, 2015 and the results of operations for the three and six months ended June 30, 2015 are not necessarily indicative of the results to be expected for any future period.

Our unaudited condensed consolidated financial statements are prepared in accordance with GAAP. These accounting principles require us to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We believe that the estimates, judgments and assumptions are reasonable, based on information available at the time they are made. Actual results could differ materially from those estimates.

#### Liquidity and Going Concern

As of June 30, 2015, the Company had current assets of \$18,773,956 and current liabilities of \$35,817,807 (including amounts due to related parties of \$3,826,985), resulting in a working capital deficit of approximately \$17,043,851; while as of December 31, 2014, the Company had current assets of \$26,554,862 and current liabilities of \$44,470,148 (including amounts due to related parties of \$3,376,120), resulting in a working capital deficit of approximately \$17,915,286. We are currently seeking to restructure the term of our liabilities by raising funds through long-term loans to pay off liabilities with shorter terms. Our ability to continue as a going concern is dependent upon obtaining the necessary financing or negotiating the terms of the existing short-term liabilities to meet our current and future liquidity needs.

On January 20, 2014, our Chairman and Chief Executive Officer ("CEO") Mr. Zhenyong Liu agreed in writing to permit the Company to continue to postpone the repayment of the accrued interest on his loan to Orient Paper HB until the Company is able to pay its other creditors in its normal course of business. The accrued interest owned to Mr. Liu was approximately \$1,128,013, which was recorded in other payables and accrued liabilities as part of the current liabilities in the condensed consolidated financial statement as of June 30, 2015 (see Note (11) below).

#### NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

On March 9, 2015, Mr. Zhenyong Liu agreed in writing to permit the Company to postpone the repayment of the related party loan of \$2,389,086 which will expire at December 31, 2015. (see Note (9) below).

On January 21, 2015, Hebei Fangsheng agreed in writing to permit the Company to continue to postpone the repayment of the accrued rental charged to Orient Paper HB until the earliest date on which the Company's quarterly or annual financial statements filed with the SEC show a satisfactory working capital level. The accrued rental owned to Hebei Fangsheng was approximately \$309,886 and \$227,900, which was recorded in as part of the current liabilities as of June 30, 2015 and December 31, 2014, respectively.

On March 1, 2015, the Company entered an agreement with the CEO which allows Orient Paper HB to borrow from the CEO with an amount up to \$19,579,370 (RMB120,000,000) for working capital purposes. The advances or funding under the agreement are due in three years from the date each amount is funded. The loan will be unsecured and carry an annual interest rate set on the basis of the primary lending rate of the People's Bank of China at the time of the borrowing. Nil amount has been drawn from the credit line as of June 30, 2015.

On July 1, 2015, Orient Paper HB, Shijiazhuang Office of China Orient Asset Management Corporation ("China Orient"), the parent and assignee of the rights of China National Foreign Trade Financial & Leasing Co., Ltd ("CNFTFL"), and other guarantors of Lease Financing Agreement, entered into an agreement (the "2015 Agreement"), to amend and restate the Lease Financing Agreement entered into in 2013. The 2015 Agreement sets forth a modified and extended payment schedule with respect to the remaining payment obligation of RMB75,000,000 (US\$12 million), with principal payable on the 21th of December 2015, June 2016, December 2016 and final payment on June 21, 2017. Please refer to Note (23) below.

Although management believes it can secure financial resources to satisfy the Company's current liabilities and the capital expenditure needs in the next 12 months, there are no guarantees that these financial resources will be secured. Therefore, there is a substantial doubt about the ability of the Company to continue as a going concern that it may be unable to realize its assets and discharge its liabilities in the normal course of business. Our consolidated financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

Audit periods remain open for review until the statute of limitations has passed, which in the PRC is usually 5 years. The completion of review or the expiration of the statute of limitations for a given audit period could result in an adjustment to the Company's liability for income taxes. Any such adjustment could be material to the Company's results of operations for any given quarterly or annual period based, in part, upon the results of operations for the given period. As of June 30, 2015 and December 31, 2014, management considered that the Company had no uncertain tax positions affecting its consolidated financial position and results of operations or cash flows, and will continue to evaluate for any uncertain position in future. Since March 10, 2010, Orient Paper Shengde started its operations and thereafter the Company manages its operations through two business operating segments: Orient Paper HB, which produces offset printing paper and corrugating medium paper, and Orient Paper Shengde, which produces digital photo paper. Financial instruments for which the Company is potentially subject to concentration of credit risk consist principally of cash. The Company places its cash in reputable financial institutions in the PRC and the United States. Although it is generally understood that the PRC central government stands behind all of the banks in China in the event of bank failure, there is no deposit insurance system in China that is similar to the protection provided by the Federal Deposit Insurance Corporation ("FDIC") of the United States as of June 30, 2015 and December 31, 2014. On May 1, 2015, the new "Deposit Insurance Regulations" was effective in the PRC that the maximum protection would be up to RMB500,000 (US\$81,581) per depositor per insured financial intuition, including both principal and interest. For the cash placed in financial institutions in the United States, the Company's U.S. bank accounts are all fully covered by the FDIC insurance as of June 30, 2015 and December 31, 2014, respectively, while for the cash placed in financial institutions in the PRC, the balances exceeding the maximum coverage of RMB500,000 amounted to RMB30,866,018

#### (21) Risks and Uncertainties

Orient Paper is subject to substantial risks from, among other things, intense competition associated with the industry in general, other risks associated with financing, liquidity requirements, rapidly changing customer requirements, foreign currency exchange rates, and operating in the PRC under its various laws and restrictions.

#### (22) Recent Accounting Pronouncements

In June 2015, the FASB issued ASU 2015-10, Technical Corrections and Improvements, which clarify the Codification, correct unintended application of guidance, or make minor improvements to the Codification that are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. In addition, some of the amendments are intended to make the Codification easier to understand and easier to apply by eliminating inconsistencies, providing needed clarifications, and improving the presentation of guidance in the Codification. The amendments in this Update are effective for public business entities for annual periods beginning after December 15, 2015, and interim periods within annual periods beginning after December 15, 2016. Early adoption is permitted. Its adoption of ASU 2015-10 is not expected to have any material impact on the Company's consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. The ASU require an entity to measure in scope inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using LIFO or the retail inventory method. The amendments do not apply to inventory that is measured using last-in, first-out (LIFO) or the retail inventory method. The amendments apply to all other inventory, which includes inventory that is measured using first-in, first-out (FIFO) or average cost. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. A reporting entity should apply the amendments prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. Its adoption of ASU 2015-11 is not expected to have any material impact on the Company's consolidated financial statements.

#### Comparison of the Three Months Ended June 30, 2015 and 2014

Revenue for the three months ended June 30, 2015 was \$41,283,142, an increase of \$3,446,877 or 9.11% from \$37,836,265 for the same period in the previous year.

Revenue of Offset Printing Paper and Corrugating Medium Paper

The increase was primarily attributable to sales of our 40 gram-square-meter (g/s/m) to 80 g/s/m special specification CMP (the "Light-Weight CMP") produced by the renovated PM1 production line, which commenced production in May 2014, and an increase in sales of our 110 g/s/m CMP (the "Regular CMP").

Total offset printing paper and CMP sold during the three months ended June 30, 2015 amounted to 96,418 tonnes, an increase of 8,417 tonnes, or 9.56%, compared to 88,001 tonnes sold in the comparable period in the previous year. This was mainly attributable to the sales of Light-Weight CMP. The quantity of Light-Weight CMP produced and sold in the second quarter of 2015 was 12,984 tonnes, compared to 4,215 tonnes produced and sold from May 2014 through the end of the second quarter of 2014. The quantities of our Regular CMP produced and sold increased by 679 tonnes as compared to the second quarter of 2014. Offset printing paper produced and sold dropped by 1,031 tonnes, as compared to the second quarter of 2014, and this was mainly due to the interruption in production resulting from maintenance performed on our PM3 production line (one of the offset printing paper production lines) in April 2015. The changes in revenue dollar amount and in tonnage for the three months ended June 30, 2015 and 2014 are summarized as follows:

We sold 81,436 tonnes of CMP in the three months ended June 30, 2015, as compared to 71,988 tonnes for the same period in 2014, representing a 13.12% increase in quantity sold. As explained above, the increase was mainly due to sales of Light-Weight CMP. ASP for Regular CMP rose from \$358/tonne for the three months ended June 30, 2014 to \$377/tonne for the three months ended June 30, 2015, representing a 5.31% increase over the comparable period. The quantity of Regular CMP produced and sold increased by 679 tonnes from 67,773 tonnes in the second quarter of 2014 to 68,452 tonnes in the second quarter of 2015.

Our quarter-over-quarter ASP for Regular CMP rose by \$19/tonne (or 5.31%) from \$358/tonne for the quarter ended June 30, 2014 to \$377/tonne for the quarter ended June 30, 2015. We believe that the 5.31% increase was mainly related to the appreciation of RMB in relation to USD, the recovery of China's economy that began at the start of 2015, and inflation.

For the second quarter of 2015, the ASP for Light-Weight CMP was \$384/tonne, \$22 higher than the ASP of \$362/tonne for comparable period in 2014. This increase was mainly led by the market trend and improved quality of Light-Weight CMP as the production line PM1 ran more smoothly since its launch in May 2014.

The government has been requiring outdated paper facilities to close since 2010 and is expected to continue to strictly enforce the mandatory closure of outdated capacity in the next few years. As a result, we estimate that the ASPs for CMP and other packaging paper will remain relatively stable for the rest of 2015 as a result of elimination of outdated paper facilities, and the paper industry will witness increased competition and higher standards for environmental protection measures.

We launched our PM6 production line in December 2011 and have been improving its output capacity in the past few years. The PM6 production line has a designated capacity of 360,000 tonnes/year. The utilization rates for the second quarter of 2015 and 2014 were 76.19% and 75.30%, respectively, showing an increase of 1.18%.

Quantities sold for Regular CMP that was produced by the PM6 production line from July 2013 to June 2015 are as follows:

#### Offset Printing Paper

Revenue from offset printing paper amounted to \$10,461,353 (25.36% of total offset printing paper and CMP revenue) for the three months ended June 30, 2015, which represents a decrease of \$536,156, or 4.88%, from \$10,997,509 for the comparable period in 2014. We sold 14,982 tonnes of offset printing paper in the three months ended June 30, 2015 compared to 16,013 tonnes in the comparable period in 2014, a decrease of 1,031 tonnes, or 6.44%. This was mainly due to the interruption in production resulting from maintenance performed on our PM3 production line (one of the offset printing paper production lines) in April 2015. A higher offset printing paper ASP in 2015 is expected to increase the offset printing paper revenue in the rest of 2015. We sold offset printing paper at an ASP of \$698/tonne in the second quarter of 2015, which is 1.60% higher than the ASP of \$687/tonne in the second quarter of 2014.

## Revenue of Digital Photo Paper

Revenue generated from selling digital photo paper was \$1,076,970, or 279 tonnes at an ASP of \$3,866/tonnes for the three months ended June 30, 2014. In October 2014, we shut down and disassembled our digital photo paper production facilities (our PM4 and PM5 production lines) for relocation mandated by the local County government to a new workshop that we built across the street from our main production base, Xushui Paper Mill. The small amount of digital photo paper sold in the second quarter of 2015 was sales from inventory. No digital photo paper was produced in the second quarter of 2015. We completed the relocation and resumed commercial production of our digital photo paper in August 2015. We expect to increase our digital photo paper production in the late second half of 2015.

Changes in revenue and quantities sold of our digital photo paper for the three months ended June 30, 2015 and 2014 are summarized as follows:

#### Cost of Sales

Total cost of sales for CMP and offset printing paper for the quarter ended June 30, 2015 was \$30,777,981, a decrease of \$60,038, or 0.19%, from \$30,838,019 for the comparable period in 2014. Cost of sales for CMP was \$22,688,495 for the quarter ended June 30, 2015, as compared to \$21,959,913 for the same period in 2014. The increased cost of sales of \$728,582 was mainly a result of the addition of the cost of sales of Light-Weight CMP of \$2,098,704 for the second quarter of 2015, which was offset by deduction of cost of sales of Regular CMP of \$1,370,122. Average cost of sales per tonne of Regular CMP decreased from \$307 in the second quarter of 2014 to \$284 in the second quarter of 2015, representing a decrease of 7.49%, which was mainly attributable to a decline in raw material prices in the second quarter of 2015 (see details below) and the average cost of sales per tonne of offset printing paper decreasing from \$554 in the second quarter of 2014 to \$540 during the quarter ended June 30, 2015, representing a decrease of 2.53%. Changes in cost of sales and cost per tonne by product for the quarters ended June 30, 2015 and 2014 are summarized below:

Our average unit purchase costs (net of applicable value added tax) of recycled paper board (or Old Corrugated Cardboard or "OCC") and recycled white scrap paper in the second quarter of 2015 were RMB 968/tonne (approximately \$157/tonne) and RMB 2,318/tonne (approximately \$377/tonne), respectively, compared to RMB 1,060/tonne (approximately \$173/tonne) and RMB 2,393/tonne (approximately \$390/tonne) for the same period of 2014. These changes (in US dollars) represent a year-over-year decrease of 8.68% for the OCC and 3.13% for the recycled white scrap paper, respectively. Our production process uses exclusively domestic recycled paper (sourced mainly from the Beijing-Tianjin metropolitan area). Though we do not rely on imported recycled paper, whose pricing tends to be volatile than domestic recycled paper, our experience suggests that the pricing of domestic recycled paper bears some correlation to the pricing of imported recycled paper. The "Operation Green Fence" policy, a strict inspection policy implemented by Chinese Customs for ten months from February to the end of 2013, that we had previously expected to be continued, was repealed by the Chinese government in January 2015. As a result, some paper mills went back to using imported recycled paper, which caused the drop in domestic recycled paper price in the second of 2015 as compared to the previous comparable period.

The pricing trends of our major raw materials for the 24-month period from July 2013 to June 2015 are shown below:

Electricity and coal are two main energy sources of our paper manufacturing activities. The price of coal has been subject to seasonal fluctuations in China, with the peaks often occurring in the winter months. Historically, electricity and coal accounted for approximately 12% and 16% of total sales, respectively. Because the average cost per tonne of coal went down from approximately \$84.89 in second quarter of 2014 to approximately \$67.38 in the second quarter of 2015, coal only accounted for approximately 3.94% of total sales in the second quarter of 2015. The monthly energy cost for electricity and coal as a percentage of total monthly sales of our main paper products for the 24 months ended June 30, 2015 are summarized as follows:

**Gross Profit** 

Gross profit for the three months ended June 30, 2015 was \$10,483,514 (25.39% of the total revenue), representing an increase of \$4,362,507, or 71.27%, from the gross profit of \$6,121,007 (16.18% of total revenue) for the three months ended June 30, 2014. This was mainly driven by general increase in ASP as well as the general decrease in cost per tonne for CMP and offset printing paper for the second quarter ended June 30, 2015 as discussed earlier.

Corrugating Medium Paper and Offset Printing Paper

Gross profit for CMP and offset printing paper for the second quarter ended June 30, 2015 was \$10,479,380, an increase of \$4,558,104, or 76.98%, from \$5,921,276 for the same period in 2014. The increase in gross profit of CMP and offset printing paper for the second quarter of 2015 was a direct result of (1) the 12.24% increase in gross sales revenue attributed by the general increase in ASP, accompanied by a small decrease of 0.19% in costs of sales as a result of the general decrease in cost per tonne in the current period as discussed earlier, and (2) the sale of Light-Weight CMP, which contributed \$1,709,507 gross profit in the current period. The overall gross profit margin for CMP and offset printing paper increased by 57.68%, or 9.29 percentage points, from 16.11% for the second quarter in 2014 to 25.40% for the second quarter of 2015.

Gross profit margin for Regular CMP for the quarter ended June 30, 2015 was 24.79% (10.53 percentage points higher) compared to gross profit margin of 14.25% for the quarter ended June 30, 2014. Such increase was primarily the result of a decline in the unit price of the recycled paper board, which is the raw material for the Regular CMP.

The gross profit margin for Light-Weight CMP for the quarter ended June 30, 2015 and 2014 was 34.29% and 22.75%, respectively.

Offset printing paper had seen a moderate 4.88% decrease in revenue for the quarter ended June 30, 2015 as compared to the quarter ended June 30, 2014. Gross profit margin for offset printing paper was 22.67% for the quarter ended June 30, 2015, an increase of 3.40 percentage points, as compared to 19.27% for the quarter ended June 30, 2014, as the result of a decline in the unit price of the white scrap paper, which is the raw material for the offset printing paper.

Monthly gross profit margins on the sales of our CMP and offset printing paper for the 24-month period ended June 30, 2015 are as follows:
Digital Photo Paper
Gross profit from the sales of digital photo paper for the quarter ended June 30, 2014 amounted to \$199,731, or 18.55% as a percentage of total digital photo paper sales. As discussed above, we started the relocation of our PM4 and PM5 production lines in October 2014, so no digital photo paper was produced in the second quarter of 2015 and only a small amount of sales of finished goods from inventory was made in the second quarter of 2015. We completed the relocation and resumed commercial production of our digital photo paper in August 2015. We expect to increase our digital photo paper production in the late second half of 2015.
Selling, General and Administrative Expenses
Selling, general and administrative expenses for the quarter ended June 30, 2015 were \$1,833,970, an increase of \$844,671, or 85.38%, from \$989,299 for the second quarter of 2014. The increase was mainly due to the increase in the depreciation expenses for digital photo paper production lines (which were dissembled in October 2014) that was previously charged to the cost of sales and the increase in the depreciation expenses for the property, plant and equipment in our Wei County Industrial Park.
Income from Operations
Operating income for the quarter ended June 30, 2015 was \$8,649,544, an increase of \$3,517,836, or 68.55%, from \$5,131,708 for the same period in 2014. The increase was primarily attributable to the factors discussed above.
Other Income and Expenses

Interest expense in the quarter ended June 30, 2015 increased by \$867,348 from \$268,545 in the second quarter of 2014 to \$1,135,893 in the second quarter of 2015. The Company had total short-term and long-term interest-bearing loans, related party loan and leasing obligations that aggregated \$37,316,805 as of June 30, 2015, as compared to \$32,706,734 as of June 30, 2014. The interests incurred during the second quarter of 2015 and 2014, \$79,461 and \$247,795 (a portion of interest related to the sale-leaseback obligation with China National Foreign Trade Financial & Leasing Co., Ltd ("CNFTFL")), respectively, were capitalized as construction-in-progress.

Net income was \$5,590,530 for the three months ended June 30, 2015, an increase of \$2,018,422, or 56.51%, from \$3,572,108 for the comparable period in 2014. The increase was primarily attributable to the increase in sales and gross profit of Regular CMP and Light-Weight CMP, as discussed above.

## Comparison of the Six Months Ended June 30, 2015 and 2014

Revenue for the six months ended June 30, 2015 was \$67,787,486, an increase of \$4,197,357, or 6.60%, from \$63,590,129 for the same period in the previous year.

Revenue of Offset Printing Paper and Corrugating Medium Paper

Revenue of offset printing paper and corrugating medium paper for the six months ended June 30, 2015 was \$67,761,705, an increase of \$6,542,702, or 10.69%, from \$61,219,003 for the comparable period in 2014. The increase in revenue in 2015 was attributable to our Light-Weight CMP produced by the renovated PM1 production line, which commenced production in May 2014.

Total offset printing paper and CMP sold during the six months ended June 30, 2015 amounted to 159,563 tonnes, an increase of 15,367 tonnes, or 10.66%, compared to 144,196 tonnes sold in the comparable period in the previous year. This was mainly attributable to the addition of sales of Light-Weight CMP. The quantity of Light-Weight CMP produced and sold in the six months ended June 30, 2015 was 21,485 tonnes, an increase of 17,270 tonnes compared to 4,215 tonnes for the comparable period in the previous year. The quantities of our Regular CMP produced and sold increased by 114 tonnes as compared to the six months ended June 30, 2014. Offset printing paper produced and sold decreased by 2,017 tonnes, as compared to the six months ended June 30, 2014. This was mainly due to the interruption in production resulting from maintenance performed on our PM3 production line (one of the offset printing paper production lines) in March and April 2015.

A summary of the above changes and further analyses of the changes in our sales revenue are as follows:

### Revenue of Digital Photo Paper

Revenue generated from digital photo paper was \$2,371,126, representing 604 tonnes at an ASP of \$3,926/tonnes for the six months ended June 30, 2014. In October 2014, we shut down and disassembled our digital photo paper production facilities (our PM4 and PM5 production lines) for relocation mandated by the local County government, and began to move them to a new workshop that we built across the street from our main production base, Xushui Paper Mill. The small amount of digital photo paper sold in the six months ended June 30, 2015 was an export sale of the inventory. No digital photo paper was produced in the six months ended June 30, 2015. We completed the relocation and resumed commercial production of our digital photo paper in August 2015. We expect to increase our digital photo paper production in the late second half of 2015.

Changes in revenue and quantities sold of our digital photo paper for the six months ended June 30, 2015 and 2014 are summarized as follows:

Total cost of sales of CMP and offset printing paper for the six months ended June 30, 2015 was \$52,295,592, an increase of \$1,312,736, or 2.57%, from \$50,982,856 for the comparable period in 2014. Cost of sales for CMP amounted to \$38,637,969 for the six months ended June 30, 2015, as compared to \$36,322,659 for the same period in 2014. The increased cost of sales of \$2,315,310 was mainly a result of the addition of the cost of sales of Light-Weight CMP of \$4,408,369 for the six months ended June 30, 2015, which was offset by deduction of cost of sales of Regular CMP of \$2,093,059. Average cost of sales per tonne of Regular CMP decreased from \$311 in the six months ended June 30, 2014 to \$292 in the comparable period of 2015, representing a decrease of 6.11%, mainly attributable to a decline in raw material prices in the first half of year 2015 and average cost of sales per tonne of offset printing paper increasing from \$546 in the six months ended June 30, 2014, to \$549 during the comparable period in 2015, representing a slight increase of 0.55%. The small amount of cost of sales for digital photo paper in the six months ended June 30, 2015 was the cost of export sales of our inventory. No digital photo paper was produced in the six months ended June 30, 2015. We completed the relocation and resumed commercial production of our digital photo paper in August 2015. We expect to increase our digital photo paper production in the late second half of 2015.

#### **Gross Profit**

Gross profit for the six months ended June 30, 2015 was \$15,470,247 (22.82% of the total revenue), representing an increase of \$4,678,404, or 43.35%, from the gross profit of \$10,791,843 (16.97% of the total revenue) for the same period in year 2014.

Gross profit for corrugating medium paper and offset printing paper for the six months ended June 30, 2015 was \$15,466,113, an increase of \$5,229,966, or 51.09%, from \$10,236,147 for the comparable period in 2014. This was mainly attributable to the factors discussed above.

The overall gross profit margin for total corrugating medium paper and offset printing paper for the six months ended June 30, 2015 increased by 6.10 percentage points from 16.72% for the first half in 2014 to 22.82% in the first half in year 2015. Gross profit margin for the Regular CMP for the six months ended June 30, 2015 was 21.90%, 6.92% higher compared to 14.98% for the comparable period in 2014, primarily a result of a 2.47% increase in the Regular CMP ASP over the period.

The gross profit margin for our Light-Weight CMP for the first half of 2015 and 2014 was 31.71% and 22.75%, respectively. The 8.96% increase was mainly attributable to the 5.25% increase in the Light-Weight CMP ASP over the period.

The gross profit margin for our offset printing paper for the first half of 2015 and 2014 was 20.88% and 20.13%, respectively. The 0.75% increase was mainly attributable to the 1.76% increase in the offset printing paper ASP over the period.

Gross profit from the sales of digital photo paper for the six months ended June 30, 2014 amounted to \$555,696, 23.44% of sales revenue. As discussed above, we started the relocation of our PM4 and PM5 production lines in October 2014, so no digital photo paper was produced in the first half of 2015 and only a small amount of export sales of finished goods from inventory was made during the period. We completed the relocation and resumed commercial production of our digital photo paper in August 2015. We expect to increase our digital photo paper production in the late second half of 2015.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the six months ended June 30, 2015 were \$3,540,362, an increase of \$1,642,147, or 86.51%, from \$1,898,215 for the comparable period in 2014. The increase was mainly due to the increase in the depreciation expenses for our digital photo paper production lines (which were dissembled in October 2014) that was previously charged to the cost of sales and the increase in the depreciation expenses for the property, plant and equipment in our Wei County Industrial Park.

Income from Operations
Operating income for the six months ended June 30, 2015 was \$11,929,885, an increase of \$3,036,257, or 34.14%, from \$8,893,628 for the comparable period in 2014. The increase was primarily attributable to the increase in gross profit contributed by Regular CMP and Light-Weight CMP as discussed above.
Other Income and Expenses
Interest expense for the six months ended June 30, 2015 increased by \$1,240,274 from \$543,837 in the first half of 2014 to \$1,784,111 in the first half of 2015. The Company had total short-term and long-term interest-bearing loans, related party loan and leasing obligations that aggregated \$37,316,805 as of June 30, 2015, as compared to \$32,706,734 as of June 30, 2014. The interests incurred during the six months ended June 30, 2015 and 2014, \$97,200 and \$509,228 (a portion of interest related to the sale-leaseback arrangement with CNFTFL), respectively, were capitalized as soft-cost of construction-in-progress

Net income was \$7,696,019 for the six months ended June 30, 2015, an increase of \$1,590,617, or 26.05%, from \$6,105,402 for the comparable period in 2014. The increase was primarily attributable to the increased sales revenue and gross profit during the six months ended June 30, 2015.
Accounts Receivable
Net accounts receivable increased by \$439,236, or 11.78%, to \$4,169,359 as of June 30, 2015, compared with \$3,730,123 as of December 31, 2014 due to the increased sales volume in the second quarter of 2015. We usually collect accounts receivable within 30 days of delivery and completion of sales.
Inventories

Inventories consist of raw materials (accounting for 87.21% of total value of ending inventory as of June 30, 2015) and finished goods. As of June 30, 2015, the recorded value of inventory increased by 17.34% to \$8,377,944 from \$7,139,599 as of December 31, 2014. Inventory of recycled paper board, which is the main raw material for the production of CMP, was \$5,741,975 as of June 30, 2015. The ending inventory balance of recycled paper board as of June 30, 2015 was approximately \$1,403,906, 32.36% higher than the balance as of December 31, 2014, primarily due to the ramp up of production at our CMP production lines PM1 and PM6.

A summary of changes in major inventory items is as follows:

We completed the installation of the tissue paper packaging equipment and commenced trial production of tissue paper in mid-April 2015. We began commercial production of tissue paper products at our production facility in the Wei County Industrial Park in China's Hebei Province in June 2015. We produce a line of tissue paper products, including toilet paper, boxed and soft-packed tissues, handkerchief tissues, and paper napkins, as well as bathroom and kitchen paper towels that will be marketed and sold under the Orient Paper brand. As of June 30, 2015, we had \$276,375 of tissue paper finished goods on hand. No sales of tissue paper were made in this period. We believe that these products will begin to sell in the coming months and justify the capital expenditures made for this product line.

#### Accounts Payable and Notes Payable

Accounts payable and notes payable was \$7,421,813 as of June 30, 2015, a decrease of \$8,691,931, or 53.94%, from \$16,113,744 as of December 31, 2014. Accounts payable was \$nil as of December 31, 2014 and \$879,023 as of June 30, 2015. We have been relying on the bank acceptance notes issued under our credit facilities with Bank of Hebei, Commercial Bank of the City of Zhangjiakou (the "CBCZ Bank") and Shanghai Pudong Development Bank ("SPD Bank") to make the majority of our raw materials payments to our vendors. Our notes payable to Bank of Hebei, CBCZ Bank and SPD Bank were \$6,542,790 and \$16,113,744 as of June 30, 2015 and December 31, 2014, respectively.

#### **Liquidity and Capital Resources**

#### **Overview**

As of June 30, 2015, we had a net working capital deficit of \$17,034,851, a decrease of \$871,435 from the net working capital deficit of \$17,915,286 at December 31, 2014. Total current assets as of June 30, 2015 amounted to \$18,773,956. Substantially all cash and cash equivalents are cash deposits in bank accounts. Restricted cash of \$3,271,395 was included in our current assets as of June 30, 2015 and was deposited at the CBCZ Bank for purpose of securing the bank acceptance notes issued by these banks that were due on July 22, 2015.

We have been reporting lower balances in current liabilities on our balance sheet since we had paid off the bank acceptance notes issued by the CBCZ Bank, SPD Bank and Bank of Hebei, which became due during the first half of 2015. We entered into a three-year sale-leaseback financing on June 16, 2013, which features a three-year full amortization schedule with periodic principal payments every six months. Essentially all proceeds of the sale-leaseback were used to finance the construction cost of the Wei County tissue paper expansion project (see details below). Current liabilities as of June 30, 2015 totaled \$35,817,807, a decrease of \$8,652,341 over the December 31, 2014 balance of \$44,470,148 and included the current portion of the capital lease payable in the amount of \$12,657,697. We have also been using bank acceptance notes, which are typical 6-to-12 month notes, to guarantee the payments to our vendors. Notes payable was \$6,542,790 as of June 30, 2015, representing a decrease of \$9,570,954, or 59.40%, from \$16,113,744 as of December 31, 2014. Most of our current short-term bank loans are either revolving or term loans. We expect to renew the loans with the banks on similar terms at or before maturity. All of our short-term loans (with the exception of the notes payables, which carry no interest but require a certain portion of the credit facilities to be deposited at the issuing banks) feature interest-only monthly payments with a balloon payment for the entire principal upon the maturity of the loan. In addition to the quarterly interest payments, the long term loans from credit union require semi-annual principal repayment with one large balloon payment upon maturity. The 2015 CNFTFL lease financing arrangement (see details below), which modified and replaced the 2013 CNFTFL lease financing arrangement, requires quarterly payments of interest and every-six-month payments of principal, ranging from approximately \$0.1 million to approximately \$3.4 million till June 21, 2017.

#### Efforts to Mitigate the Net Working Capital Deficit

Amounts due to related parties included in current liabilities were \$3,826,985 as of June 30, 2015, including rent payable due to a related party of \$309,886 (see "Relocation of Facilities and Sale of Headquarters Compound Real Properties" below), loan from our Chairman and Chief Executive Officer Mr. Zhenyong Liu of \$2,389,086 and accrued interest payable included in other payables and accrued liabilities of \$1,128,013 to Mr. Liu (see "Moratorium on interest for Related Party Loan Collection" below). Excluding the related party payables, the net working capital deficit as of June 30, 2015 was \$13,216,866.

#### Moratorium of interest for Related Party Loan Collection

On March 25, 2014, our Chairman and Chief Executive Officer, Mr. Zhenyong Liu, agreed in writing to allow the Company to continue to postpone the repayment of the accrued interest on his loan to Orient Paper HB until the Company's financial statements show a satisfactory working capital level. The accrued interest owned to Mr. Liu was approximately \$1,128,013, which was recorded in other payables and accrued liabilities as part of the current liabilities in the condensed financial statement as of June 30, 2015.

Our loan-to-equity ratio was 28.35% as of June 30, 2015. Our debt-asset ratio was 22.09% as of June 30, 2015. The industry average of debt-asset ratios for 2014 was over 50% according to <a href="www.wenku.baidu.com">www.wenku.baidu.com</a>, and according to a search on <a href="www.finance.ifeng.com">www.finance.ifeng.com</a>, two largest paper mills publicly listed on the Chinese stock exchanges each had a debt-asset ratio exceeding 60% at the end of the second quarter of 2015. As long as we are able to manage our short-term liquidity through various efforts described above, we believe that our overall financial condition, compared to our Chinese peers, is reasonably healthy and should allow us to reasonably further leverage our assets to provide capital for future growth.

From time to time, we investigate financing opportunities with banks and other financial institutions and investors both inside and outside of China, and we may seek long-term financings to pay off liabilities with shorter terms. We cannot guarantee that our efforts will be successful. As of the date of this report, we have not entered into any material binding agreement for additional long-term financing. There can be no assurance that we will be able to secure such financing either from banks or through debt or equity investments from investors. If we are unable to obtain sufficient outside financing, whether short-term or long-term, or generate sufficient operating cash flow internally, the progress of our construction or renovation projects may be slowed down or otherwise negatively affected. We may also have to curtail the scope of our capital expenditure projects or shelve some components of such projects (for example, delaying the installation of the PM9 production line) until additional capital resources are available.

## Financing with Sale-Leaseback

The Company entered into a sale-leaseback arrangement (the "Lease Financing Agreement") with China National Foreign Trade Financial & Leasing Co., Ltd ("CNFTFL") on June 16, 2013, for a total financing proceeds of RMB 150 million (approximately US\$25 million). Under the sale-leaseback arrangement, Orient Paper HB sold the Leased Equipment to CNFTFL. Concurrent with the sale of the leased equipment, Orient Paper HB leased back all of the equipment sold to CNFTFL for a lease term of three years. At the end of the lease term, Orient Paper HB may pay a nominal purchase price of RMB 15,000 (approximately \$2,500) to CNFTFL and buy back all of the Leased Equipment. The sale-leaseback is treated by the Company as a mere financing and capital lease transaction, rather than a sale of assets (under which gain or loss is immediately recognized) under ASC 840-40-25-4. All of the Leased Equipment are included as part of the property, plant and equipment of the Company for the periods presented; while the net present value of the minimum lease payment (including a lease service charge equal to 5.55% of the amount financed, i.e. approximately US\$1.36 million) was recorded as obligations under capital lease and was calculated with CNFTFL's implicit interest rate of 6.15% per annum and stated at \$25,750,170 at the inception of the lease on June 16, 2013.

Orient Paper HB made all payments due according to the schedule prior to December 15, 2014. On December 15, 2014, Orient Paper HB stopped making principal payments and entered into negotiations with CNFTFL regarding a modified payment schedule for the remaining obligations. During the course of negotiations, Orient Paper HB continued to make interest payments due (as well as a payment of a liquidated damage of approximately \$9,200 on December 26, 2014). No remedial measures were taken by the lessor or its parent company. On May 19, 2015 and June 15, 2015, the Company made payments to the lessor of RMB 5,000,000 (approximately \$0.8 million) and RMB

20,000,000 (approximately \$3 million), respectively, and decreased the balance from RMB 100,000,000 (approximately \$16 million) as of December 31, 2014 to RMB 75,000,000 (approximately \$12 million) as of June 15, 2015. On July 1, 2015, Orient Paper HB, Shijiazhuang Office of China Orient Asset Management Corporation ("China Orient"), the parent and assignee of the rights of CNFTFL, and other guarantors of Lease Financing Agreement, entered into an agreement (the "2015 Agreement") to amend and restate the Lease Financing Agreement entered into in 2013. The 2015 Agreement sets forth a modified and extended payment schedule with respect to the remaining payment obligation of RMB75,000,000, with the final repayment date extended to June 21, 2017. Under the 2015 Agreement, the interest accrues at a rate of 15% per annum starting on June 16, 2015, and is payable on the 20th of every March, June, September and December until the principal is paid off, except for the first payment, which is due on July 31, 2015.

The balance of the long-term obligations under capital lease were \$nil and \$4,090,413 as of June 30, 2015 and December 31, 2014, which is net of its current portion in the amount of \$12,657,697 and \$12,258,488, respectively.

Total interest expenses for the sale-leaseback arrangement for the three months ended June 30, 2015 and 2014 were \$699,070 and \$247,795, respectively. Total interest expenses for the sale-leaseback arrangement for the six months ended June 30, 2015 and 2014 were \$855,124 and \$509,228, respectively.

As a result of the sale and leaseback of equipment on June 16, 2013, a deferred gain in the amount of \$1,379,282 was recorded. The deferred gain is being amortized over the lease term of three years and as an offset to depreciation of the Leased Equipment.

As part of the sale-leaseback transaction, Orient Paper HB entered into a Collateral Agreement with CNFTFL and pledged the land use right in the amount of approximately \$7,268,284 on some 58,566 square meters of land as collateral for the lease. In addition to Orient Paper HB's collateral, Orient Paper Shengde also entered into a Guarantee Contract with CNFTFL on June 16, 2013. Under the Guarantee Contract, Orient Paper Shengde agrees to guarantee Orient Paper HB's performance under the lease and to pledge all of its production equipment as additional collateral. The net book value of Orient Paper Shengde's asset guarantee was \$31,924,496 and \$33,287,324 as of June 30, 2015 and December 31, 2014, respectively.

## Relocation of Facilities and Sale of Headquarters Compound Real Properties

A Xushui County urban redevelopment plan mandates that the current site of our Headquarters Compound and its neighboring area be reserved for residential use only and that, like other manufacturers in the covered area, we were required to eventually cease all operations currently conducted on our Headquarters Compound site. As discussed under the "Properties" in our 2014 Annual Report on Form 10-K, on August 7, 2013, the Company's Audit Committee and the Board of Directors approved the sale of the LUR, the Industrial Buildings, and the Dormitories to Hebei Fangsheng, a real estate development company owned by Mr. Zhenyong Liu, our Chairman and Chief Executive Officer and his family, for cash of approximately \$2.77 million, \$1.15 million, and \$4.31 million, respectively. In connection with the sale of the Industrial Buildings, Hebei Fangsheng agreed to lease the Industrial Buildings back to the Company for its original use for a term of up to three years, with an annual rental payment of approximately \$163,161 (RMB1,000,000). On January 21, 2015, Hebei Fangsheng agreed in writing to allow the Company to continue to postpone the repayment of the accrued rental charged to Orient Paper HB until the Company's financial statements show a satisfactory working capital level. The accrued rental owned to Hebei Fangsheng was approximately \$309.886 and \$227,900, which was recorded as part of the current liabilities as of June 30, 2015 and December 31, 2014, respectively. As a condition for the sale of the Dormitories, Hebei Fangsheng agreed that it would act as an agent for the Company, which is not qualified to sell residential housing units in China, and that it is obligated to sell all of the 132 apartment units in the Dormitories to qualified employees of the Company at its acquisition price. Hebei Fangsheng further agreed that it would not seek to profit from the resale of the Dormitories units and would allow the Company to inspect the books and records of the sale upon completion of the resale of the Dormitories units to ensure the objectives are achieved.

The sale was conducted on an arms-length basis, and was reviewed by the Company's Audit Committee and approved by the Board of Directors. The \$2.77 million sale price of the industrial land use right was based on a government designated appraisal, which was 3.35% higher than a second independent appraisal commissioned by the Company. The \$1.15 million sale price of the Industrial Buildings was determined by negotiation between the Company and Hebei Fangsheng and is equal to the appraised value based on the assumption that the use of the buildings would be continued until they are retired. Based on the assumption that such buildings would have to be torn down to comply with the re-zoning, a second independent appraisal obtained by the Company put the value at \$0.4 million. Although the Company and Hebei Fangsheng agreed to set the sale price of the Dormitories at the Company's original construction cost of \$4.31 million, an independent appraisal shows that the value for the three buildings as employee dormitories was \$4.61 million.

Sales of the LUR and the Industrial Buildings were completed in 2013, with a gain on disposal of approximately \$84,972. We sold the dormitories on August 15, 2014, with a gain on disposal of approximately \$203,620 that was recognized for the year ended December 31, 2014.

# Capital Expenditure Commitment as of June 30, 2015

We finance our daily operations mainly by cash flows generated from our business operations and loans from banking institutions (including leasing companies) and our major shareholders. Major capital expenditures in the six months ended June 30, 2015 were primarily financed by cash flows generated from operating activities. As of June 30, 2015, we had approximately \$19.6 million in capital expenditure commitments that were mainly related to the construction costs of manufacturing equipment and other facilities in a new industrial park in Wei County of Hebei, China, where we expect to build two tissue paper production lines (PM8 and PM9), and install other paper production machinery.

## Capital Expenditures

Our committed capital expenditures for the next 18 months are approximately \$19.6 million, which mainly includes budgeted costs for the projects below:

#### New Production Lines at the Wei County Industrial Park

In November 2012, we entered into a 15-year land lease with a land investment company in Wei County for the purpose of developing the 49.4 acres of land into the base of our next capacity expansion. In December 2012, we signed a contract with an equipment contractor in Shanghai to build the first of our two tissue paper production lines in Wei County. The two production lines, each having production capacity of 15,000 tonnes/year, will be designated as PM8 and PM9 upon completion. Total estimated cost of the Wei County tissue paper project may be up to approximately \$130 million (of which \$99.68 million has been incurred thus far), including the estimated costs of general infrastructure and administrative facilities such as warehouses, offices, dorms and landscaping, of up to \$79 million (of which \$77.01 million has been incurred thus far) and the estimated costs for the two paper machines and related packaging equipment of up to \$51 million (of which \$22.67 million has been incurred thus far). We had previously estimated that the installation and test operations of the PM8 production line could be completed in the second half of 2014. Our current estimated completion time of the PM8 production line is late 2015, as we have experienced construction and budget funding delays. The delay of completion of the PM8 production line did not cause any major financial impact on our current period earnings, as we did not previously budget significant revenue or net earnings from the PM8 production line tissue paper for the first half in 2015.

By the end of 2014, the capital expenditure projects finished in the Wei County Industrial Park included: an office building, employee cafeteria, and two employee dormitory buildings. The projects finished in the first quarter of 2015 include: three workshops, four warehouses, as well as infrastructure and landscaping projects in the Wei County

Industrial Park at a cost of \$36.18 million. We plan to build the second 15,000 tonnes/year tissue paper production line (designated as PM9) at an estimated cost of \$7.8 million after the PM8 production line is put into production.

# Relocation of Digital Photo Paper PM4 and PM5 Production Lines

In August 2015, we completed the relocation of our digital photo paper production lines (PM4 and PM5), as well as related chemical and packaging equipment, from the workshops currently located in our Headquarters Compound to a new location that is across the street from our Xushui Paper Mill, Xushui Mill Annex. We purchased the land use rights of the 58,566 square meters at Xushui Mill Annex for approximately \$7.7 million in April 2012 and are in the process of constructing three industrial buildings for the digital photo paper operations, a dormitory for factory workers, and offices to consolidate our Xushui County operations. As of June 30, 2015, the disassembled PM4 and PM5 production lines were being moved to the Xushui Mill Annex for installation and tested for running.

Total cost of the relocation of the PM4 and PM5 production lines and building construction costs incurred was approximately \$4.2 million Further building construction costs at the Xushui Mill Annex is estimated to be an additional \$1.7 million for 2015 and 2016. As of June 30, 2015, we have already entered into contracts related to the PM4 and PM5 production line relocation project for approximately \$5.9 million.

## Cash and Cash Equivalents

Our cash and cash equivalents as of June 30, 2015 was \$2,163,357, a decrease of \$1,728,116 from \$3,891,473 as of December 31, 2014. The decrease of cash and cash equivalents for the six months ended June 30, 2015 was caused by a number of factors including:

## i. Net cash provided by operating activities

Net cash provided by operating activities was \$6,423,629 for the six months ended June 30, 2015. The amount represented a decrease of \$14,521,452, or 69.33%, from \$20,945,081 provided by operating activities for the same period of 2014. The net income of the six months ended June 30, 2015 was \$7,696,019, representing an increase of \$1,590,617, or 26.05%, from \$6,105,402 for the first half of 2014. Changes in various asset and liability account balances throughout the first quarter of 2015 also contributed to the net change in cash generated from operating activities in the first half of 2015. Chief among such changes is the settlement of notes payable in the amount of \$9,561,259 during the six months ended June 30, 2015. There was also an increase of \$1,228,963 in the ending inventory balance as of June 30, 2015 (or a decrease to net cash for the first half 2015 cash flow purposes). In addition, the Company had non-cash expenses in depreciation and amortization in the amount of \$5,092,217 in the first half of 2015. The Company also had a net decrease of \$2,138,350 in prepayment and other current assets (as an increase to net cash) and a net increase of \$1,012,879 in other payables and accrued liabilities (as an increase to net cash), as well as an increase in income tax payable of \$1,262,528 (as an increase to net cash) during the six months ended June 30, 2015.

#### ii. Net cash used in investing activities

We incurred \$5,935,842 in net cash expenditures for investing activities during the six months ended June 30, 2015, compared to \$13,470,140 for the same period of 2014. Essentially, all expenditures in the six months ended June 30, 2015 were the progress payments for the construction of our first tissue paper production line PM8 and related facilities, including three paper mill workshops and maintenance workshops, and four warehouses at the Wei County industrial park in Wei County, Hebei province.

# iii. Net cash used in financing activities

Net cash used in financing activities was \$2,218,309 for the six months ended June 30, 2015, as compared to net cash used in financing activities in the amount of \$6,432,771 for the same period of 2014. The decrease was mainly due to

cash of \$5,596,436 from the release of restricted deposit upon the payoff of notes payables in Bank of Hebei, CBCZ Bank and SPD Bank in the six months ended June 30, 2015.

## **Critical Accounting Policies and Estimates**

The Company's financial statements are prepared in accordance with accounting principles generally accepted in the United States, which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Management makes these estimates using the best information available at the time the estimates are made. However, actual results could differ materially from those estimates. The most critical accounting policies are listed below:

## Revenue Recognition Policy

The Company recognizes revenue when goods are delivered and a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations of the Company exist, and collectability is reasonably assured. Goods are considered delivered when the customer's truck picks up goods at our finished goods inventory warehouse.

## **Long-Lived Assets**

The Company evaluates the recoverability of long-lived assets and the related estimated remaining useful lives when events or circumstances lead management to believe that the carrying value of an asset may not be recoverable and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. In such circumstances, those assets are written down to estimated fair value. Our judgments regarding the existence of impairment indicators are based on market conditions, assumptions for operational performance of our businesses, and possible government policy toward operating efficiency of the Chinese paper manufacturing industry. For the quarter ended June 30, 2015, no events or circumstances occurred for which an evaluation of the recoverability of long-lived assets was required. We are currently not aware of any events or circumstances that may indicate any need to record such impairment in the future.

The functional currency of Orient Paper HB and Orient Paper Shengde is the Chinese Yuan Renminbi ("RMB"). ### **Recent Accounting Pronouncements**

In June 2015, the FASB issued ASU 2015-10, Technical Corrections and Improvements, which clarify the Codification, correct unintended application of guidance, or make minor improvements to the Codification that are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. In addition, some of the amendments are intended to make the Codification easier to understand and easier to apply by eliminating inconsistencies, providing needed clarifications, and improving the presentation of guidance in the Codification. The amendments in this Update are effective for public business entities for annual periods beginning after December 15, 2015, and interim periods within annual periods beginning after December 15, 2016. Early adoption is permitted. Its adoption of ASU 2015-10 is not expected to have any material impact on the Company's consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. The ASU require an entity to measure in scope inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using LIFO or the retail inventory method. The amendments do not apply to inventory that is measured using last-in, first-out (LIFO) or the retail inventory method. The amendments apply to all other inventory, which includes inventory that is measured using first-in, first-out (FIFO) or average cost. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. A reporting entity should apply the amendments prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. Its adoption of ASU 2015-11 is not expected to have any material impact on the Company's consolidated financial statements.

### Item 3. Quantitative and Qualitative Disclosures about Market Risk.

# Foreign Exchange Risk

While our reporting currency is the US dollar, almost all of our consolidated revenues and consolidated costs and expenses are denominated in RMB. All of our assets are denominated in RMB except for some cash and cash equivalents. As a result, we are exposed to foreign exchange risk as our revenues and results of operations may be affected by fluctuations in the exchange rate between US dollar and RMB. If the RMB depreciates against the US dollar, the value of our RMB revenues, earnings and assets as expressed in our US dollar financial statements will decline. We have not entered into any hedging transactions in an effort to reduce our exposure to foreign exchange risk.

## **Inflation**

Although we are generally able to pass along minor incremental cost inflation to our customers, inflationary factors such as increases in the costs of our products and overhead costs may adversely affect our operating results. We do not believe that inflation in China has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling and distribution, general and administrative expenses as a percentage of net revenues if the selling prices of our products do not increase to cope with these increased costs.

#### Item 4. Controls and Procedures.

As required by Rule 13a-15 of the Securities Exchange Act, as amended (the "Securities Act"), we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures, which were designed to provide reasonable assurance of achieving their objectives. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of June 30, 2015, our disclosure controls and procedures were effective at the reasonable assurance level to ensure (1) that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and (2) information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.
