ORIENT PAPER, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) Organization and Business Background

Orient Paper, Inc. was incorporated in the State of Nevada on December 9, 2005, under the name “Carlatelateral, Inc.” Through the steps described immediately below, we became the holding company for Hebei Baoding Orient Paper Milling Company Limited (“Orient Paper HB”), a producer and distributor of paper products in China, on October 29, 2007, and effective December 21, 2007, we changed our name to “Orient Paper, Inc.” to more accurately describe our business.

On October 29, 2007, pursuant to an agreement and plan of merger (the “Merger Agreement”), the Company acquired Dongfang Zhiye Holding Limited (“Dongfang Holding”), a corporation formed on November 13, 2006 under the laws of the British Virgin Islands, and issued the shareholders of Dongfang Holding an aggregate of 7,450,497 (as adjusted for a four-for-one reverse stock split effected in November 2009) shares of our common stock, which shares were distributed pro-rata to the shareholders of Dongfang Holding in accordance with their respective ownership interests in Dongfang Holding. At the time of the Merger Agreement, Dongfang Holding owned all of the issued and outstanding stock and ownership of Orient Paper HB and such shares of Orient Paper HB were held in trust with Zhenyong Liu, Xiaodong Liu and Shuangxi Zhao, for Mr. Liu, Mr. Liu and Mr. Zhao (the original shareholders of Orient Paper HB) to exercise control over the disposition of Dongfang Holding’s shares in Orient Paper HB on Dongfang Holding’s behalf until Dongfang Holding successfully completed the change in registration of Orient Paper HB’s capital with the relevant PRC Administration of Industry and Commerce as the 100% owner of Orient Paper HB’s shares. As a result of the merger transaction, Dongfang Holding became a wholly owned subsidiary of the Company, and Dongfang Holding’s wholly owned subsidiary, Orient Paper HB, became an indirectly owned subsidiary of the Company.

Dongfang Holding, as the 100% owner of Orient Paper HB, was unable to complete the registration of Orient Paper HB’s capital under its name within the proper time limits set forth under PRC law. In connection with the consummation of the restructuring transactions described below, Dongfang Holding directed the trustees to return the shares of Orient Paper HB to their original shareholders, and the original Orient Paper HB shareholders entered into certain agreements with Baoding Shengde Paper Co., Ltd. (“Orient Paper Shengde”) to transfer the control of Orient Paper HB over to Orient Paper Shengde.

On June 24, 2009, the Company consummated a number of restructuring transactions pursuant to which it acquired all of the issued and outstanding shares of Shengde Holdings Inc, a Nevada corporation. Shengde Holdings Inc was incorporated in the State of Nevada on February 25, 2009. On June 1, 2009, Shengde Holdings Inc incorporated Orient Paper Shengde, a limited liability company organized under the laws of the PRC. Because Orient Paper Shengde is a wholly-owned subsidiary of Shengde Holdings Inc, it is regarded as a wholly foreign-owned entity under PRC law.

ORIENT PAPER, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

To ensure proper compliance of the Company's control over the ownership and operations of Orient Paper HB with certain PRC regulations, on June 24, 2009, the Company entered into a series of contractual agreements (the "Contractual Agreements") with Orient Paper HB and Orient Paper HB Equity Owners via the Company's wholly owned subsidiary Shengde Holdings Inc ("Shengde Holdings") a Nevada corporation and Baoding Shengde Paper Co., Ltd. ("Orient Paper Shengde"), a wholly foreign-owned enterprise in the PRC with an original registered capital of \$10,000,000 (subsequently increased to \$60,000,000 in June 2010). Orient Paper Shengde is mainly engaged in production and distribution of digital photo paper and is 100% owned by Shengde Holdings. Prior to February 10, 2010, the Contractual Agreements included (i) Exclusive Technical Service and Business Consulting Agreement, which generally provides that Orient Paper Shengde shall provide exclusive technical, business and management consulting services to Orient Paper HB, in exchange for service fees including a fee equivalent to 80% of Orient Paper HB's total annual net profits; (ii) Loan Agreement, which provides that Orient Paper Shengde will make a loan in the aggregate principal amount of \$10,000,000 to Orient Paper HB Equity Owners in exchange for each such shareholder agreeing to contribute all of its proceeds from the loan to the registered capital of Orient Paper HB; (iii) Call Option Agreement, which generally provides, among other things, that Orient Paper HB Equity Owners irrevocably grant to Orient Paper Shengde an option to purchase all or part of each owner's equity interest in Orient Paper HB. The exercise price for the options shall be RMB1 which Orient Paper Shengde should pay to each of Orient Paper HB Equity Owner for all their equity interests in Orient Paper HB; (iv) Share Pledge Agreement, which provides that Orient Paper HB Equity Owners will pledge all of their equity interests in Orient Paper HB to Orient Paper Shengde as security for their obligations under the other agreements described in this section. Specifically, Orient Paper Shengde is entitled to dispose of the pledged equity interests in the event that Orient Paper HB Equity Owners breach their obligations under the Loan Agreement or Orient Paper HB fails to pay the service fees to Orient Paper Shengde pursuant to the Exclusive Technical Service and Business Consulting Agreement; and (v) Proxy Agreement, which provides that Orient Paper HB Equity Owners shall irrevocably entrust a designee of Orient Paper Shengde with such shareholder's voting rights and the right to represent such shareholder to exercise such owner's rights at any equity owners' meeting of Orient Paper HB or with respect to any equity owner action to be taken in accordance with the laws and Orient Paper HB's Articles of Association. The terms of the agreement are binding on the parties for as long as Orient Paper HB Equity Owners continue to hold any equity interest in Orient Paper HB. An Orient Paper HB Equity Owner will cease to be a party to the agreement once it transfers its equity interests with the prior approval of Orient Paper Shengde. As the Company had controlled Orient Paper HB since July 16, 2007 through Dongfang Holding and the trust until June 24, 2009, and continues to control Orient Paper HB through Orient Paper Shengde and the Contractual Agreements, the execution of the Contractual Agreements is considered as a business combination under common control.

On February 10, 2010, Orient Paper Shengde and the Orient Paper HB Equity Owners entered into a Termination of Loan Agreement to terminate the above \$10,000,000 Loan Agreement. Because of the Company's decision to fund future business expansions through Orient Paper Shengde instead of Orient Paper HB, the \$10,000,000 loan contemplated was never made prior to the point of termination. The parties believe the termination of the Loan

Agreement does not in itself compromise the effective control of the Company over Orient Paper HB and its businesses in the PRC.

An agreement was also entered into among Orient Paper Shengde, Orient Paper HB and the Orient Paper HB Equity Owners on December 31, 2010, reiterating that Orient Paper Shengde is entitled to 100% of the distributable profit of Orient Paper HB, pursuant to the above mentioned Contractual Agreements. In addition, Orient Paper HB and the Orient Paper HB Equity Owners shall not declare any of Orient Paper HB's unappropriated earnings as dividend, including the unappropriated earnings of Orient Paper HB from its establishment to 2010 and thereafter.

Orient Paper has no direct equity interest in Orient Paper HB. However, through the Contractual Agreements described above Orient Paper is found to be the primary beneficiary of Orient Paper HB and is deemed to have the effective control over Orient Paper HB's activities that most significantly affect its economic performance, resulting in Orient Paper HB being treated as a controlled variable interest entity of Orient Paper in accordance with Topic 810 - Consolidation of the Accounting Standards Codification (the "ASC") issued by the Financial Accounting Standard Board (the "FASB"). The revenue of the Company generated from Orient Paper HB for the three months ended September 30, 2015 and 2014 were 99.53% and 98.60%, respectively. The revenue of the Company generated from Orient Paper HB for the nine months ended September 30, 2015 and 2014 were 99.82% and 97.18%, respectively. Orient Paper HB also accounted for 84.94% and 83.73% of the total assets of the Company as of September 30, 2015 and December 31, 2014, respectively.

(2) Basis of Presentation and Significant Accounting Policies

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC") for reporting on Form 10-Q. Accordingly, certain information and notes required by the United States of America generally accepted accounting principles ("GAAP") for annual financial statements are not included herein. These interim statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Annual Report on Form 10-K for the year ended December 31, 2014 of Orient Paper, Inc. a Nevada corporation, and its subsidiaries and variable interest entity (which we sometimes refer to collectively as "Orient Paper", "we", "us" or "our").

Principles of Consolidation

Our unaudited condensed consolidated financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation of our financial position and results of operations. Such adjustments are of a normal recurring nature, unless otherwise noted. The balance sheet as of September 30, 2015 and the results of operations for the three and nine months ended September 30, 2015 are not necessarily indicative of the results to be expected for any future period.

Our unaudited condensed consolidated financial statements are prepared in accordance with GAAP. These accounting principles require us to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We believe that the estimates, judgments and assumptions are reasonable, based on information available at the time they are made. Actual results could differ materially from those estimates.

Valuation of long-lived asset

The Company reviews the carrying value of long-lived assets to be held and used when events and circumstances warrants such a review. The carrying value of a long-lived asset is considered impaired when the anticipated undiscounted cash flow from such asset is separately identifiable and is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset and intangible assets. Fair market value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. Losses on long-lived assets and intangible assets to be disposed are determined in a similar manner, except that fair market values are reduced for the cost to dispose.

Fair Value of Financial Instruments

The Company estimates the fair value of financial instruments using the available market information and valuation methods. Considerable judgment is required in estimating fair value. Accordingly, the estimates of fair value may not be indicative of the amounts that the Company could realize in a current market exchange. As of September 30, 2015 and December 31, 2014, the carrying value of the Company's short term financial instruments, such as cash and cash equivalents, accounts receivable, accounts and notes payable, short-term bank loans and balance due to a related party, approximate at their fair values because of the short maturity of these instruments; while long-term bank loans, loans from a related party and obligations under capital lease approximate at their fair value as the interest rates thereon are close to the market rates of interest published by the People's Bank of China.

Liquidity and Going Concern

As of September 30, 2015, the Company had current assets of \$21,101,202 and current liabilities of \$27,815,091 (including amounts due to related parties of \$3,944,771), resulting in a working capital deficit of approximately \$6,713,889; while as of December 31, 2014, the Company had current assets of \$26,554,862 and current liabilities of \$44,470,148 (including amounts due to related parties of \$3,376,120), resulting in a working capital deficit of approximately \$17,915,286. We are currently seeking to restructure the term of our liabilities by raising funds through long-term loans to pay off liabilities with shorter terms. Our ability to continue as a going concern is dependent upon obtaining the necessary financing or negotiating the terms of the existing short-term liabilities to meet our current and future liquidity needs.

ORIENT PAPER, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

On January 20, 2014, our Chairman and Chief Executive Officer (“CEO”) Mr. Zhenyong Liu agreed in writing to permit the Company to continue to postpone the repayment of the accrued interest on his loan to Orient Paper HB until the Company is able to pay its other creditors in its normal course of business. The accrued interest owned to Mr. Liu was approximately \$1,311,592, which was recorded in other payables and accrued liabilities as part of the current liabilities in the condensed consolidated financial statement as of September 30, 2015 (see Note (11) below).

On January 21, 2015, Hebei Fangsheng, a real estate development company owned by Mr. Zhenyong Liu, our Chairman and Chief Executive Officer and his family, agreed in writing to permit the Company to continue to postpone the repayment of the accrued rental charged to Orient Paper HB until the earliest date on which the Company's quarterly or annual financial statements filed with the SEC show a satisfactory working capital level. The accrued rental owned to Hebei Fangsheng was approximately \$337,120 and \$227,900, which was recorded in as part of the current liabilities as of September 30, 2015 and December 31, 2014, respectively.

On March 1, 2015, the Company entered an agreement with the CEO which allows Orient Paper HB to borrow from the CEO with an amount up to \$18,864,069 (RMB120,000,000) for working capital purposes. The advances or funding under the agreement are due in three years from the date each amount is funded. The loan will be unsecured and carry an annual interest rate set on the basis of the primary lending rate of the People's Bank of China at the time of the borrowing. On July 13, 2015, an unsecured loan of \$4,716,017 was drawn from the facility, which carried an interest rate of 5.25%. The loan will be matured on July 12, 2018.

On March 9, 2015, Mr. Zhenyong Liu agreed in writing to permit the Company to postpone the repayment of the related party loan of \$2,296,059 which will expire at December 31, 2015. (see Note (9) below).

On July 1, 2015, Orient Paper HB, Shijiazhuang Office of China Orient Asset Management Corporation (“China Orient”), the parent and assignee of the rights of China National Foreign Trade Financial & Leasing Co., Ltd (“CNFTFL”), and other guarantors of Lease Financing Agreement, entered into an agreement (the “2015 Agreement”), to amend and restate the Lease Financing Agreement entered into in 2013. The 2015 Agreement sets forth a modified and extended payment schedule with respect to the remaining payment obligation, with principal payable on the 21th of December 2015, June 2016, December 2016 and final payment on June 21, 2017.

Although management believes it can secure financial resources to satisfy the Company's current liabilities and the capital expenditure needs in the next 12 months, there are no guarantees that these financial resources will be secured. Therefore, there is a substantial doubt about the ability of the Company to continue as a going concern that it may be unable to realize its assets and discharge its liabilities in the normal course of business. Our consolidated financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

On August 7, 2013, the Company's Audit Committee and the Board of Directors approved the sale of the land use right of the Headquarters Compound (the "LUR"), the office building and essentially all industrial-use buildings in the Headquarters Compound (the "Industrial Buildings"), and three employee dormitory buildings located within the Headquarters Compound (the "Dormitories") to Hebei Fangsheng for cash prices of approximately \$2.77 million, \$1.15 million, and \$4.31 million respectively. In connection with the sale of the Industrial Buildings, Hebei Fangsheng agreed to lease the Industrial Buildings back to the Company for its original use for a term of up to three years, with an annual rental payment of approximately \$157,201 (RMB1,000,000). On January 21, 2015, Hebei Fangsheng agreed in writing to permit the Company to continue to postpone the repayment of the accrued rental charged to Orient Paper HB until the earliest date on which the Company's quarterly or annual financial statements filed with the SEC show a satisfactory working capital level. The accrued rental owed to Hebei Fangsheng was approximately \$337,120 and \$227,900, which was recorded as part of the current liabilities as of September 30, 2015 and December 31, 2014, respectively.

The sale was conducted on an arms-length basis, and was reviewed by the Company's Audit Committee and approved by the Board of Directors. The \$2.77 million sale price of the industrial land use right was determined by the valuation from a government designated appraisal, which was 3.35% higher than a second independent appraisal commissioned by the Company. The \$1.15 million sale price of the Industrial Buildings was determined by negotiation between the Company and Hebei Fangsheng and is equal to the appraised value based on the assumption that the use of the buildings would be continued until they are retired. Based on the assumption that such buildings would have to be torn down to comply with the re-zoning, a second independent appraisal obtained by the Company put the value at \$0.4 million. Although the Company and Hebei Fangsheng agree to set the sale price of the Dormitories at the Company's original construction cost of the three dormitory buildings for \$4.31 million, an independent appraisal shows that the value for the three buildings as employee dormitories was \$4.64 million.

As a condition for the sale of the Dormitories, Hebei Fangsheng agrees that it will act as an agent for the Company, which does not have the qualification to sell residential housing units in China, and that it is obligated to sell all of the 132 apartment units in the Dormitories to qualified employees of the Company at its acquisition price. Hebei Fangsheng further represents that it will not seek to profit from the resale of the Dormitories units and will allow the Company to inspect the books and records of the sale upon completion of the resale of the Dormitories units to ensure the objectives are achieved.

On May 1, 2015, the new "Deposit Insurance Regulations" was effective in the PRC that the maximum protection would be up to RMB500,000 (US\$78,600) per depositor per insured financial institution, including both principal and interest. For the cash placed in financial institutions in the United States, the Company's U.S. bank accounts are all fully covered by the FDIC insurance as of September 30, 2015 and December 31, 2014, respectively, while for the cash placed in financial

In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which defers the effective date of ASU 2014-09 for all entities by one year. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. Currently, the Company is evaluating the impact of our pending adoption of ASU 2014-09 and ASU 2015-14 on its consolidated financial statements and has not yet determined the method by which it will adopt the standard in year 2018.

Results of Operations

Comparison of the Three Months Ended September 30, 2015 and 2014

Revenue for the three months ended September 30, 2015 was \$32,406,877, a decrease of \$8,347,328 or 20.48% from \$40,754,205 for the same period in the previous year.

Revenue of Offset Printing Paper, Corrugating Medium Paper and Tissue Paper

Revenue from sales of offset printing paper, corrugating medium paper (“CMP”) and tissue paper products for the three months ended September 30, 2015 was \$32,255,518, a decrease of \$7,928,061, or 19.73%, from \$40,183,579 for the third quarter of 2014. The decrease was primarily attributable to temporary suspension of the production of our regular CMP (the “Regular CMP”), light-weight CMP (the “Light-Weight CMP”) and offset printing paper from August 20 to September 4, 2015, mandated by the Baoding city government during the IAAF World Championship Games and the Military Parade Commemorating the 70th Anniversary of the End of World War II in Beijing.

Total offset printing paper, CMP and tissue paper products sold during the three months ended September 30, 2015 was 76,772 tonnes, a decrease of 21,236 tonnes, or 21.67%, compared to 98,008 tonnes sold in the comparable period in the previous year. The decrease was mainly caused by the production suspension discussed above. The quantity of Light-Weight CMP produced and sold in the third quarter of 2015 was 10,138 tonnes, compared to 13,341 tonnes produced and sold in the third quarter of 2014. The quantities of our Regular CMP produced and sold decreased by 16,139 tonnes, as compared to the third quarter of 2014. Offset printing paper produced and sold dropped by 2,102 tonnes, as compared to the third quarter of 2014. We began the commercial production of tissue paper products in Wei County Industry Park in June 2015, and sold 208 tonnes of tissue paper products for \$275,419 in the third quarter of 2015. The changes in revenue and in quantity sold for the three months ended September 30, 2015 and 2014 are summarized as follows:

The ASPs (Average Selling Price) for our products excluding digital photo paper in the three months ended September 30, 2014 and 2015, are summarized as follows:

The following chart shows the month-by-month ASPs (excluding the ASPs of the digital photo paper and tissue paper) for the 24 month period ended September 30, 2015:

Corrugating Medium Paper

Revenue from CMP was \$22,667,432 (70.27% of total offset printing paper, CMP and tissue paper revenue) for the three months ended September 30, 2015, representing a decrease of \$6,669,860, or 22.74%, from \$29,337,292 for the comparable period in 2014. We sold 62,875 tonnes of CMP in the three months ended September 30, 2015, as compared to 82,217 tonnes for the same period in 2014, representing a 23.53% decrease in quantity sold. As explained above, the decrease was mainly due to the mandated production suspension from August 20 to September 4, 2015. ASP for Regular CMP rose from \$355/tonne for the three months ended September 30, 2014 to \$359/tonne for the three months ended September 30, 2015, representing a 1.13% increase over the comparable period. The quantity of Regular CMP produced and sold decreased by 16,139 tonnes, from 68,876 tonnes in the third quarter of 2014, to 52,737 tonnes in the third quarter of 2015.

For the third quarter of 2015, the ASP for Light-Weight CMP was \$366/tonne, \$3 lower than the ASP of \$369/tonne for comparable period in 2014.

The government has been requiring outdated paper facilities to close since 2010 and is expected to continue to strictly enforce the mandatory closure of outdated capacity in the next few years. As a result, we estimate that the ASPs for CMP and other packaging paper will remain relatively stable for the rest of 2015 and also 2016 as outdated paper facilities being eliminated, and the paper industry will witness increased competition and higher standards for environmental protection measures.

We launched our PM6 production line in December 2011 and have been improving its output capacity in the past few years. The PM6 production line has a designated capacity of 360,000 tonnes/year. The utilization rates for the third quarter of 2015 and 2014 were 59.21% and 76.60%, respectively, showing a decrease of 17.38 percentage points.

Quantities sold for Regular CMP that was produced by the PM6 production line from October 2013 to September 2015 are as follows:

Offset Printing Paper

Revenue from offset printing paper was \$9,312,667 (28.87% of total offset printing paper, CMP and tissue paper revenue) for the three months ended September 30, 2015, which represents a decrease of \$1,533,620, or 14.14%, from \$10,846,287 for the comparable period in 2014. We sold 13,689 tonnes of offset printing paper in the three months ended September 30, 2015, as compared to 15,791 tonnes in the comparable period in 2014, a decrease of 2,102 tonnes, or 13.31%. The decrease was mainly due to the mandated production suspension discussed above. We sold offset printing paper at an ASP of \$680/tonne in the third quarter of 2015, which is 1.02% lower than the ASP of \$687/tonne in the third quarter of 2014.

Tissue Paper Products

We began the commercial production of tissue paper products in Wei County Industry Park in June 2015. We process base tissue paper purchased from long-term cooperative third party and produce finished tissue paper products, including toilet paper, boxed and soft-packed tissues, handkerchief tissues, and paper napkins, as well as bathroom and kitchen paper towels that will be marketed and sold under the Orient Paper brand. We sold 208 tonnes of tissue paper products for \$275,419 in the third quarter of 2015. We expect to see increase in production of our tissue paper products in the near future.

Revenue of Digital Photo Paper

Revenue generated from selling digital photo paper was \$151,359, or 38 tonnes at an ASP of \$3,983/tonnes, for the three months ended September 30, 2015, as compared to \$570,626, or 146 tonnes at an ASP of \$3,908/tonnes, for the three months ended September 30, 2014. In October 2014, we shut down and disassembled our digital photo paper production facilities (our PM4 and PM5 production lines) for relocation mandated by the local County government to a new workshop that we built across the street from our main production base, Xushui Paper Mill. We completed the relocation and resumed commercial production of our digital photo paper in August 2015. We expect to increase our digital photo paper production in the fourth quarter of 2015.

Changes in revenue and quantities sold of our digital photo paper for the three months ended September 30, 2015 and 2014 are summarized as follows:

	Three Months Ended September 30, 2015		Three Months Ended September 30, 2014		Change in		Percentage Change

Cost of Sales

Total cost of sales for CMP, offset printing paper and tissue paper products for the quarter ended September 30, 2015 was \$25,697,894, a decrease of \$8,084,102, or 23.93%, from \$33,781,996 for the comparable period in 2014. Cost of sales for CMP was \$17,655,425 for the quarter ended September 30, 2015, as compared to \$24,860,805 for the same period in 2014. The decrease of \$7,205,380 was mainly a result of the mandated production suspension discussed above. Average cost of sales per tonne for Regular CMP decreased from \$311 in the third quarter of 2014 to \$286 in the third quarter of 2015, representing a decrease of 8.04%, which was mainly attributable to a decline in raw material prices in the third quarter of 2015 (see details below) and the average cost of sales per tonne for offset printing paper increasing from \$565 in the third quarter of 2014 to \$568 during the quarter ended September 30, 2015, representing a slight increase of 0.53%. Changes in cost of sales and cost per tonne by product for the quarters ended September 30, 2015 and 2014 are summarized below:

	Three Months ended September 30, 2015		Three Months ended September 30, 2014		Change in		Change in percentage

Our average unit purchase costs (net of applicable value added tax) of recycled paper board (or Old Corrugated Cardboard, or “OCC”) and recycled white scrap paper in the third quarter of 2015 were RMB 974/tonne (approximately \$157/tonne) and RMB 2,564/tonne (approximately \$414/tonne), respectively, compared to RMB 1,026/tonne (approximately \$167/tonne) and RMB 2,222/tonne (approximately \$361/tonne), respectively, for the same period of 2014. These changes (in US dollars) represent a year-over-year decrease of 5.51% for the OCC and increase of 14.68% for the recycled white scrap paper, respectively. Our production process uses exclusively domestic recycled paper (sourced mainly from the Beijing-Tianjin metropolitan area). Though we do not rely on imported recycled paper, whose pricing tends to be volatile than domestic recycled paper, our experience suggests that the pricing of domestic recycled paper bears some correlation to the pricing of imported recycled paper. The “Operation Green Fence” policy, a strict inspection policy implemented by Chinese Customs for ten months from February to the end of 2013, that we had previously expected to be continued, was repealed by the Chinese government in January 2015. As a

result, some paper mills went back to using imported recycled paper, which caused the drop in domestic recycled paper price in the third of 2015 as compared to the previous comparable period. But as the substitute raw material for tissue paper, the price of the recycled white scrap paper increase in the third quarter of 2015.

The pricing trends of our major raw materials for the 24 month period from October 2013 to September 2015 are shown below:

Electricity and coal are two main energy sources of our paper manufacturing activities. The price of coal has been subject to seasonal fluctuations in China, with the peaks often occurring in the winter months. Historically, electricity and coal accounted for approximately 12% and 16% of total sales, respectively. Because the average cost per tonne of coal went down from approximately \$76.41 in third quarter of 2014 to approximately \$62.67 in the third quarter of 2015, coal only accounted for approximately 3.61% of total sales in the third quarter of 2015. The monthly energy cost for electricity and coal as a percentage of total monthly sales of our main paper products for the 24 months ended September 30, 2015 are summarized as follows:

Gross Profit

Gross profit for the three months ended September 30, 2015 was \$6,416,561 (19.80% of the total revenue), representing an increase of \$5,713 or 0.09%, from the gross profit of \$6,410,848 (15.73% of total revenue) for the three months ended September 30, 2014. This was a combined effect (i) lost of sales due to mandate suspension in production and (ii) decrease in cost per tonne for CMP for the third quarter ended September 30, 2015 as discussed earlier.

Corrugating Medium Paper, Offset Printing Paper and Tissue Paper

Gross profit for CMP, offset printing paper and tissue paper for the third quarter ended September 30, 2015 was \$6,557,624, an increase of \$156,041, or 2.44%, from \$6,401,583 for the same period in 2014. The increase in gross profit of CMP, offset printing paper and tissue paper for the third quarter of 2015 was because drop in cost of sales is greater than drop in sales.

Gross profit margin for Regular CMP for the quarter ended September 30, 2015 was 20.43% (8.21 percentage points higher) compared to gross profit margin of 12.22% for the quarter ended September 30, 2014. Such increase was primarily the result of (i) a decline in the unit price of OCC, which is the raw material for the Regular CMP as discussed above. Our average unit purchase costs (net of applicable value added tax) of recycled paper board (or Old Corrugated Cardboard or “OCC”) in the third quarter of 2015 were RMB 974/tonne (approximately \$157/tonne), compared to RMB 1,026/tonne (approximately \$167/tonne) for the same period of 2014. These changes (in US dollars) represent a year-over-year decrease of 5.51% for the OCC; (ii) an increase in ASP of Regular CMP which was \$359 for the third quarter of 2015 as compared to \$355 for the third quarter of 2014; and (iii) a decrease in energy cost to sales as mentioned above.

The gross profit margin for Light-Weight CMP for the quarter ended September 30, 2015 and 2014 was 30.67% and 30.32%, respectively.

Gross profit margin for offset printing paper was 16.55% for the quarter ended September 30, 2015, a decrease of 1.2 percentage points, as compared to 17.75% for the quarter ended September 30, 2014, as the result of an increase in the unit price of the recycled white scrap paper, which is the raw material for the offset printing paper.

Gross profit and gross profit margin for tissue paper products for the quarter ended September 30, 2015 was \$4,827 and 1.75%, respectively.

Monthly gross profit margins on the sales of our CMP and offset printing paper for the 24 month period ended September 30, 2015 are as follows:

Digital Photo Paper

Gross profit from the sales of digital photo paper for the quarter ended September 30, 2015 amounted to \$-141,063, or -93.20% as a percentage of total digital photo paper sales, as compared to the gross profit of \$9,265, or 1.62%, as a percentage of total digital photo paper sales for the three months ended September 30, 2014 representing a decrease of \$150,328 in gross profit. As discussed above, we started the relocation of our PM4 and PM5 production lines in October 2014, and completed the relocation and resumed commercial production of our digital photo paper in August 2015. The sales during August to September 2015 were not sufficient to cover the depreciation cost charged to this period. We expect to increase our digital photo paper production in the fourth quarter of 2015.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the quarter ended September 30, 2015 were \$3,814,782, an increase of \$2,819,169, or 283%, from \$995,613 for the third quarter of 2014. The increase was mainly due to the increase in the depreciation expenses for the temporarily idle property, plant and equipment of our new tissue paper plant in our Wei County Industrial Park. We expected that our new tissue paper plant will reach its normal capacity in the second half of year 2016.

Income from Operations

Operating income for the quarter ended September 30, 2015 was \$2,601,779, a decrease of \$2,327,522, or 47.22%, from \$4,929,301 for the same period in 2014. The decrease was primarily attributable to the factors discussed above.

Other Income and Expenses

Interest expense in the quarter ended September 30, 2015 increased by \$221,931 from \$344,191 in the third quarter of 2014 to \$566,122 in the third quarter of 2015. The Company had total short-term and long-term interest-bearing loans, related party loan and leasing obligations that aggregated \$40,905,866 as of September 30, 2015, as compared to \$32,698,230 as of September 30, 2014. The increase was primarily related to the cost for certain purchase of raw materials and other working capital purposes. The interests incurred during the third quarter of 2015 and 2014, \$19,294 and \$207,830, respectively, were capitalized as construction-in-progress. All of the interest incurred in both periods was related to the sale-leaseback obligation with CNFTFL.

Net Income

Net income was \$1,685,897 for the three months ended September 30, 2015, a decrease of \$1,687,047, or 50.02%, from \$3,372,944 for the comparable period in 2014.

Comparison of the Nine Months Ended September 30, 2015 and 2014

Revenue for the nine months ended September 30, 2015 was \$100,194,363, a decrease of \$4,149,971, or 3.98%, from \$104,344,334 for the same period in the previous year.

Revenue of Offset Printing Paper, Corrugating Medium Paper and Tissue Paper

Revenue of offset printing paper, CMP and tissue paper products for the nine months ended September 30, 2015 was \$100,017,223, a decrease of \$1,385,359, or 1.37%, from \$101,402,582 for the comparable period in 2014. The decrease was primarily a result of the temporary production suspension from August 20 to September 4, 2015, mandated by the Baoding city government during the IAAF World Championship Games and the Military Parade Commemorating the 70th Anniversary of the End of World War II in Beijing.

Total offset printing paper, CMP and tissue paper products sold during the nine months ended September 30, 2015 was 236,335 tonnes, a decrease of 5,869 tonnes, or 2.42%, compared to 242,204 tonnes sold in the comparable period in the previous year. This was mainly caused by the temporary production suspension discussed above. The quantity of Light-Weight CMP produced and sold in the nine months ended September 30, 2015 was 31,623 tonnes, an increase of 14,067 tonnes, compared to 17,556 tonnes for the comparable period in the previous year. The increase was primarily attributable to the completion of the renovation of the PM1 production line, which commenced production in May 2014. The quantities of our Regular CMP produced and sold decreased by 16,025 tonnes as compared to the nine months ended September 30, 2014. Offset printing paper produced and sold decreased by 4,119 tonnes, as compared to the nine months ended September 30, 2014. This was mainly due to the interruption in production resulting from maintenance performed on our PM3 production line (one of the offset printing paper production lines) in March and April 2015 and also the temporary production suspension discussed above. We began commercial production of tissue paper products in Wei County Industry Park in June 2015, and we sold 208 tonnes of tissue paper products for \$275,419 in the third quarter of 2015. We expect to see an increase in production in the near future.

The changes in revenue and in quantity sold for the nine months ended September 30, 2015 and 2014 are summarized as follows:

Our quarter-over-quarter ASP for Regular CMP rose by \$8/tonne, or 2.22%, from \$361/tonne for the quarter ended September 30, 2014 to \$369/tonne for the quarter ended September 30, 2015. We believe that the 2.22% increase was mainly related to the appreciation of RMB in relation to USD, the recovery of China's economy that began at the start of 2015, and inflation.

Average ASPs for our products excluding digital photo paper in the nine-month period ended September 30, 2015 and 2014 are summarized as follows:

Revenue of Digital Photo Paper

Edgar Filing: Orient Paper Inc. - Form 10-Q

Revenue generated from selling digital photo paper was \$177,140 for the nine months ended September 30, 2015, as compared to \$2,941,752 for the nine months ended September 30, 2014. In October 2014, we shut down and disassembled our digital photo paper production facilities (our PM4 and PM5 production lines) for relocation mandated by the local County government, and completed the relocation and resumed commercial production of our digital photo paper in August 2015. We expect to increase our digital photo paper production in the fourth quarter of 2015.

Changes in revenue and quantities sold of our digital photo paper for the nine months ended September 30, 2015 and 2014 are summarized as follows:

	Nine Months Ended September 30, 2015		Nine Months Ended September 30, 2014		Change in	Percentage Change

Cost of Sales

Total cost of sales for CMP, offset printing paper and tissue paper products for the nine months ended September 30, 2015 was \$77,993,486, a decrease of \$6,771,366, or 7.99%, from \$84,764,852 for the comparable period in 2014. Cost of sales for CMP was \$56,293,394 for the nine months ended September 30, 2015, as compared to \$61,183,464 for the same period in 2014. The decrease in the cost of sales of \$4,890,070 was in line with the temporary production suspension discussed above. Average cost of sales per tonne for Regular CMP decreased from \$311 in the nine months ended September 30, 2014 to \$290 in the comparable period of 2015, representing a decrease of 6.75%, which is mainly attributable to a decline in raw material prices in year 2015 and average cost of sales per tonne of offset printing paper increasing from \$553 in the nine months ended September 30, 2014, to \$556 during the comparable period in 2015, representing a slight increase of 0.54%. Changes in cost of sales and cost per tonne by product for the nine months ended September 30, 2015 and 2014 are summarized below:

	Nine Months ended September 30, 2015		Nine Months ended September 30, 2014		Change in		Change in percentage

For the nine months ended September 30, 2015, cost of sales for digital photo paper was \$314,069, as compared to \$2,376,791 for the same period in year 2014. This is related to the mandatory relocation of our digital photo paper production facilities discussed above. We resumed commercial production in August 2015 and expect to increase our digital photo paper production in the fourth quarter of 2015.

Gross Profit

Gross profit for CMP, offset printing paper and tissue paper products for the nine months ended September 30, 2015 was \$22,023,737, an increase of \$5,386,007, or 32.37%, from \$16,637,730 for the comparable period in 2014. This was mainly attributable to the factors discussed above.

The overall gross profit margin for total CMP, offset printing paper and tissue paper products for the nine months ended September 30, 2015 increased by 5.61 percentage points from 16.41% for the first nine months in 2014 to 22.02% in the first nine months in 2015. Gross profit margin for the Regular CMP for the nine months ended September 30, 2015 was 21.45%, 7.49 percentage points higher compared to 13.96% for the comparable period in 2014. This increase is primarily related to a 2.22% increase in the ASP for Regular CMP over the period and a decline in raw materials price in year 2015.

The gross profit margin for our Light-Weight CMP for the nine months ended September 30, 2015 and 2014 was 31.38% and 28.53%, respectively. The 2.85 percentage points increase was mainly attributable to the 2.45% increase in the ASP for Light-Weight CMP over the period.

The gross profit margin for our offset printing paper for the nine months ended September 30, 2015 and 2014 was 19.36% and 19.25%, respectively.

Gross profit from the sales of digital photo paper for the nine months ended September 30, 2015 and 2014 was \$-136,929 and \$564,961, respectively. And the gross profit margin for digital photo paper for the nine months ended September 30, 2015 and 2014 was -77.30% and 19.20%, respectively. As discussed above, we started the relocation of our PM4 and PM5 production lines in October 2014, and completed the relocation and resumed commercial production of our digital photo paper in August 2015. The sales during the period from August to September 2015 were not sufficient to cover the depreciation cost charged to this period. We expect to increase our digital photo paper production in the fourth quarter of 2015.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the nine months ended September 30, 2015 were \$7,355,144, an increase of \$4,461,316, or 154.17%, from \$2,893,828 for the comparable period in 2014. The increase was mainly due to the increase in the depreciation expenses for our temporarily idle property, plant and equipment of our new tissue paper plant in our Wei County Industrial Park. We expected that our new tissue paper plant will reach its normal capacity in the second half of year 2016.

Income from Operations

Operating income for the nine months ended September 30, 2015 was \$14,531,664, an increase of \$708,735, or 5.13%, from \$13,822,929 for the comparable period in 2014. The increase was primarily attributable to the increase in gross profit contributed by Regular CMP and Light-Weight CMP as discussed above.

Other Income and Expenses

Interest expense for the nine months ended September 30, 2015 increased by \$1,462,205 from \$888,028 in the first nine months of 2014 to \$2,350,233 in the comparable period of 2015. The Company had short-term and long-term interest-bearing loans, related party loan and leasing obligations that aggregated \$40,905,866 as of September 30, 2015, as compared to \$32,698,230 as of September 30, 2014. The increase was primarily related to the cost for certain purchase of raw materials and other working capital purposes. The interests incurred during the nine months ended September 30, 2015 and 2014, \$116,494 and \$717,058, respectively, were capitalized as soft-cost of construction-in-progress. All of the interest incurred in both periods was related to the sale-leaseback obligation with CNFTFL.

Net Income

Net income was \$9,381,916 for the nine months ended September 30, 2015, a decrease of \$96,430, or 1.02%, from \$9,478,346 for the comparable period in 2014. The slight decrease was primarily a result of (i) increased gross profit, (ii) greater depreciation charged for the property, plant and equipment in our Wei County Industrial Park, and (iii) higher interest expense incurred during the period.

Accounts Receivable

Net accounts receivable increased by \$118,883, or 3.19%, to \$3,849,006 as of September 30, 2015, compared with \$3,730,123 as of December 31, 2014. We usually collect accounts receivable within 30 days of delivery and completion of sales.

Inventories

Inventories consist of raw materials (accounting for 80.58% of total value of ending inventory as of September 30, 2015) and finished goods. As of September 30, 2015, the recorded value of inventory increased by 29.65% to \$9,256,819 from \$7,139,599 as of December 31, 2014. The ending balance of recycled paper board, which is the main raw material for CMP, was \$5,422,262 as of September 30, 2015, approximately \$1,084,193, or 24.99%, higher than the balance as of December 31, 2014, primarily due to the temporary production suspension discussed above.

Accounts Payable and Notes Payable

Accounts payable and notes payable was \$7,388,720 as of September 30, 2015, a decrease of \$8,725,024, or 54.15%, from \$16,113,744 as of December 31, 2014. Accounts payable was \$nil as of December 31, 2014 and \$1,100,697 as of September 30, 2015. We have been relying on the bank acceptance notes issued under our credit facilities with Bank of Hebei, Commercial Bank of the City of Zhangjiakou (the “CBCZ Bank”) and Shanghai Pudong Development Bank (“SPD Bank”) to make the majority of our raw materials payments to our vendors. Our notes payable to Bank of Hebei, CBCZ Bank and SPD Bank were \$6,288,023 and \$16,113,744 as of September 30, 2015 and December 31, 2014, respectively.

Liquidity and Capital Resources

Overview

As of September 30, 2015, we had a net working capital deficit of \$6,713,889, a decrease of \$11,201,397 from the net working capital deficit of \$17,915,286 at December 31, 2014. Total current assets as of September 30, 2015 amounted to \$21,101,202. Substantially all cash and cash equivalents are cash deposits in bank accounts. Restricted cash of \$3,144,011 was included in our current assets as of September 30, 2015 and was deposited at the Bank of Hebei for purpose of securing the bank acceptance notes issued by these banks that will be due on various dates from on starting from January 7 to January 20, 2016.

Our current liabilities have decreased after we paid off the bank acceptance notes issued by the CBCZ Bank, SPD Bank and Bank of Hebei, which were due during the first nine months of 2015. Current liabilities as of September 30, 2015 totaled \$27,815,091, a decrease of \$16,655,057 from the December 31, 2014 balance of \$44,470,148. Our current liabilities included the current portion of the capital lease payable in the amount of \$6,323,396. We use bank acceptance notes, which are typically 6-to-12 month notes, to guarantee the payments to our vendors. Notes payable was \$6,288,023 as of September 30, 2015, representing a decrease of \$9,825,721, or 60.98%, from \$16,113,744 as of December 31, 2014. Most of our current short-term bank loans are either revolving or term loans. We expect to renew these loans with the banks on similar terms at or before maturity. All of our short-term loans (with the exception of the notes payable, which carry no interest but require a deposit, equal to a portion of the credit facilities at the issuing banks) have interest-only monthly payments with a balloon payment for the entire principal upon maturity of the loan. The long term loans from the credit union require quarterly interest payments with one large balloon payment upon maturity. We entered into a three-year sale-leaseback financing agreement with CNFTFL on June 16, 2013, which provides for a three-year full amortization schedule with periodic principal payments every six months. Essentially all proceeds of the sale-leaseback were used to finance the construction of the Wei County tissue paper expansion project. In July 2015, we entered into a new agreement with CNFTFL, which amended and restated the 2013 CNFTFL lease financing agreement. Pursuant to the 2015 CNFTFL lease financing agreement, we are required to make interest payments every quarter and principal payments every six months until June 21, 2017. These payments range from approximately \$0.1 million to approximately \$3.5 million (see “Financing with Sale-Leaseback” below for more details.)

Efforts to Mitigate the Net Working Capital Deficit

Amounts due to related parties included in current liabilities were \$3,944,771 as of September 30, 2015, including rent payable due to a related party of \$337,120 (see “Relocation of Facilities and Sale of Headquarters Compound Real Properties” below), loan from our Chairman and Chief Executive Officer Mr. Zhenyong Liu of \$2,296,059 and accrued interest payable of \$1,311,592 to Mr. Liu included in other payables and accrued liabilities (see “Moratorium on

interest for Related Party Loan Collection” below). Excluding the related party payables, the net working capital deficit as of September 30, 2015 was \$2,769,118.

On January 20, 2014, our Chairman and Chief Executive Officer, Mr. Zhenyong Liu, agreed in writing to allow the Company to continue to postpone the repayment of the accrued interest on his loan to Orient Paper HB until the Company’s financial statements show a satisfactory working capital level. The accrued interest owed to Mr. Liu was approximately \$1,311,592, which was recorded in other payables and accrued liabilities as part of the current liabilities in the condensed financial statement as of September 30, 2015.

On March 1, 2015, the Company entered an agreement with the CEO which allows Orient Paper HB to borrow from the CEO with an amount up to \$18,864,069 (RMB120,000,000) for working capital purposes. The advances or funding under the agreement are due in three years from the date each amount is funded. The loan will be unsecured and carry an annual interest rate set on the basis of the primary lending rate of the People’s Bank of China at the time of the borrowing. On July 13, 2015, an unsecured loan of \$4,716,017 was drawn from the facility, which carried an interest rate of 5.25%. The loan will be matured on July 12, 2018.

Our loan-to-equity ratio was 30.54% as of September 30, 2015. Our debt-asset ratio was 23.39% as of September 30, 2015. The industry average of debt-asset ratios for 2014 was over 50% according to www.wenku.baidu.com, and according to a search on www.finance.ifeng.com, two largest paper mills publicly listed on the Chinese stock exchanges each had a debt-asset ratio exceeding 60% at the end of the third quarter of 2015. As long as we are able to manage our short-term liquidity through various efforts described above, we believe that our overall financial condition, compared to our Chinese peers, is reasonably healthy and should allow us to reasonably further leverage our assets to provide capital for future growth.

From time to time, we investigate financing opportunities with banks and other financial institutions and investors both inside and outside of China, and we may seek long-term financings to pay off liabilities with shorter terms. We cannot guarantee that our efforts will be successful. As of the date of this report, we have not entered into any material binding agreement for additional long-term financing. There can be no assurance that we will be able to secure such financing either from banks or through debt or equity investments from investors. If we are unable to obtain sufficient additional financing, whether short-term or long-term, or generate sufficient operating cash flow internally, the progress of our construction or renovation projects may be slowed down or otherwise negatively affected. We may also have to curtail the scope of our capital expenditure projects or shelve some components of such projects (for example, delaying the installation of the PM9 production line) until additional capital resources are available.

Financing with Sale-Leaseback

The Company entered into a sale-leaseback arrangement (the “Lease Financing Agreement”) with CNFTFL on June 16, 2013, for total proceeds of RMB 150 million (approximately US\$24 million). Under the sale-leaseback arrangement, Orient Paper HB sold certain equipment to CNFTFL. Concurrent with the sale of the equipment, Orient Paper HB leased back all of the equipment sold to CNFTFL for a lease term of three years. At the end of the lease term, Orient Paper HB may pay a nominal purchase price of RMB 15,000 (approximately \$2,400) to CNFTFL and buy back all of the leased equipment. The sale-leaseback is treated by the Company as a mere financing and capital lease transaction, rather than a sale of assets (under which gain or loss is immediately recognized) under ASC 840-40-25-4. All of the leased equipment are included as part of the property, plant and equipment of the Company for the periods presented; while the net present value of the minimum lease payment (including a lease service charge equal to 5.55% of the amount financed, i.e. approximately US\$1.36 million) was recorded as obligations under capital lease and was calculated with CNFTFL’s implicit interest rate of 6.15% per annum and stated at \$25,750,170 at the inception of the lease on June 16, 2013.

Orient Paper HB made all payments due according to the schedule prior to December 15, 2014. On December 15, 2014, Orient Paper HB stopped making principal payments and entered into negotiations with CNFTFL regarding a modified payment schedule for the remaining obligations. During the course of negotiations, Orient Paper HB continued to make interest payments due (as well as a payment of a liquidated damage of approximately \$9,200 on December 26, 2014). No remedial measures were taken by the lessor or its parent company. On May 19, 2015 and June 15, 2015, the Company made payments to the lessor of RMB 5,000,000 (approximately \$0.8 million) and RMB

20,000,000 (approximately \$3 million), respectively. On July 1, 2015, Orient Paper HB, Shijiazhuang Office of China Orient Asset Management Corporation (“China Orient”), the parent and assignee of the rights of CNFTFL, and other guarantors of Lease Financing Agreement, entered into an agreement (the “2015 Agreement”) to amend and restate the Lease Financing Agreement entered into in 2013. The 2015 Agreement sets forth a modified and extended payment schedule with respect to the remaining payment obligation, with the final repayment date extended to June 21, 2017. Under the 2015 Agreement, the interest accrues at a rate of 15% per annum starting on June 16, 2015, and is payable on the 20th of every March, June, September and December until the principal is paid off, except for the first payment, which is due on July 31, 2015.

The balance of the long-term obligations under capital lease were \$6,568,399 and \$4,090,413 as of September 30, 2015 and December 31, 2014, which is net of its current portion in the amount of \$6,323,396 and \$12,258,488, respectively.

Total interest expenses for the sale-leaseback arrangement for the three months ended September 30, 2015 and 2014 were \$169,742 and \$207,830, respectively. Total interest expenses for the sale-leaseback arrangement for the nine months ended September 30, 2015 and 2014 were \$1,024,866 and \$717,058, respectively.

As a result of the sale and leaseback of equipment on June 16, 2013, a deferred gain in the amount of \$1,379,282 was recorded. The deferred gain is being amortized over the lease term and as an offset to depreciation of the leased equipment.

As part of the sale-leaseback transaction, Orient Paper HB entered into a Collateral Agreement with CNFTFL and pledged the land use right for 58,566 square meters of land worth approximately \$6,947,979 as collateral for the lease. In addition to Orient Paper HB's collateral, Orient Paper Shengde also entered into a Guarantee Contract with CNFTFL on June 16, 2013. Under the Guarantee Contract, Orient Paper Shengde agrees to guarantee Orient Paper HB's performance under the lease and to pledge all of its production equipment as additional collateral. The net book value of Orient Paper Shengde's asset guarantee was \$30,012,436 and \$33,287,324 as of September 30, 2015 and December 31, 2014, respectively.

Relocation of Facilities and Sale of Headquarters Compound Real Properties

A Xushui County urban redevelopment plan mandates that the current site of our Headquarters Compound and its neighboring area be reserved for residential use only and that, like other manufacturers in the covered area, we were required to eventually cease all operations currently conducted on our Headquarters Compound site. As discussed under the "Properties" in our 2014 Annual Report on Form 10-K, on August 7, 2013, the Company's Audit Committee and the Board of Directors approved the sale of the LUR, the Industrial Buildings, and the Dormitories to Hebei Fangsheng, a real estate development company owned by Mr. Zhenyong Liu, our Chairman and Chief Executive Officer and his family, for cash of approximately \$2.77 million, \$1.15 million, and \$4.31 million, respectively. In connection with the sale of the Industrial Buildings, Hebei Fangsheng agreed to lease the Industrial Buildings back to the Company for its original use for a term of up to three years, with an annual rental payment of approximately \$157,201 (RMB1,000,000). On January 21, 2015, Hebei Fangsheng agreed in writing to allow the Company to continue to postpone the repayment of the accrued rental charged to Orient Paper HB until the Company's financial statements show a satisfactory working capital level. The accrued rental owned to Hebei Fangsheng was approximately \$337,120 and \$227,900, which was recorded as part of the current liabilities as of September 30, 2015 and December 31, 2014, respectively. As a condition for the sale of the Dormitories, Hebei Fangsheng agreed that it would act as an agent for the Company, which is not qualified to sell residential housing units in China, and that it is obligated to sell all of the 132 apartment units in the Dormitories to qualified employees of the Company at its acquisition price. Hebei Fangsheng further agreed that it would not seek to profit from the resale of the Dormitories units and would allow the Company to inspect the books and records of the sale upon completion of the resale of the Dormitories units to ensure the objectives are achieved.

The sale was conducted on an arms-length basis, and was reviewed by the Company's Audit Committee and approved by the Board of Directors. The \$2.77 million sale price of the industrial land use right was based on a government designated appraisal, which was 3.35% higher than a second independent appraisal commissioned by the Company. The \$1.15 million sale price of the Industrial Buildings was determined by negotiation between the Company and Hebei Fangsheng and is equal to the appraised value based on the assumption that the use of the buildings would be continued until they are retired. Based on the assumption that such buildings would have to be torn down to comply with the re-zoning, a second independent appraisal obtained by the Company put the value at \$0.4 million. Although the Company and Hebei Fangsheng agreed to set the sale price of the Dormitories at the Company's original construction cost of \$4.31 million, an independent appraisal shows that the value for the three buildings as employee dormitories was \$4.64 million.

Sales of the LUR and the Industrial Buildings were completed in 2013, with a gain on disposal of approximately \$84,972. The dormitories were sold on August 15, 2014, with a gain on disposal of approximately \$203,488 that was recognized during the three and nine months ended September 30, 2014.

Capital Expenditure Commitment as of September 30, 2015

We finance our daily operations mainly by cash flows generated from our business operations and loans from banking institutions (including leasing companies) and our major shareholders. Major capital expenditures in the nine months ended September 30, 2015 were primarily financed by cash flows generated from operating activities. As of September 30, 2015, we had approximately \$13.52 million in capital expenditure commitments that were mainly related to the construction costs of manufacturing equipment and other facilities in a new industrial park in Wei County of Hebei, China, where we expect to build two tissue paper production lines (PM8 and PM9), and install other paper production machinery.

Capital Expenditures

Our committed capital expenditures for the next 18 months are approximately \$13.52 million, which mainly includes budgeted costs for the projects below:

New Production Lines at the Wei County Industrial Park

In November 2012, we entered into a 15-year land lease with a land investment company in Wei County for the purpose of developing the 49.4 acres of land into the base of our next capacity expansion. In December 2012, we signed a contract with an equipment contractor in Shanghai to build the first of our two tissue paper production lines in Wei County. The two production lines, each having production capacity of 15,000 tonnes/year, will be designated as PM8 and PM9 upon completion. Total estimated cost of the Wei County tissue paper project may be up to approximately \$130 million (of which \$99.68 million has been incurred thus far), including the estimated costs of general infrastructure and administrative facilities such as warehouses, offices, dorms and landscaping, of up to \$79 million (of which \$77.01 million has been incurred thus far) and the estimated costs for the two paper machines and related packaging equipment of up to \$51 million (of which \$22.67 million has been incurred thus far). We had previously estimated that the installation and test operations of the PM8 production line could be completed in the second half of 2014. Our current estimated completion time of the PM8 production line is early 2016, as we have experienced construction and budget funding delays. The delay of completion of the PM8 production line did not cause any major financial impact on our current period earnings, as we did not previously budget significant revenue or net earnings from the PM8 production line tissue paper for 2015.

By the end of 2014, the capital expenditure projects finished in the Wei County Industrial Park included: an office building, employee cafeteria, and two employee dormitory buildings. The projects finished in 2015 include: three workshops, four warehouses, packaging machineries, dividing and cutting machineries as well as infrastructure and

landscaping projects in the Wei County Industrial Park at a cost of \$43.79 million. We plan to build the second 15,000 tonnes/year tissue paper production line (designated as PM9) at an estimated cost of \$7.8 million after the PM8 production line is put into production.

Relocation of Digital Photo Paper PM4 and PM5 Production Lines

In August 2015, we completed the relocation of our digital photo paper production lines (PM4 and PM5), as well as related chemical and packaging equipment, from the workshops previously located in our Headquarters Compound to a new location that is across the street from our Xushui Paper Mill, Xushui Mill Annex. We purchased the land use rights of the 58,566 square meters at Xushui Mill Annex for approximately \$7.7 million in April 2012 and constructed three industrial buildings for the digital photo paper operations, a dormitory for factory workers, and offices to consolidate our Xushui County operations. We completed the relocation and resumed commercial production of our digital photo paper in August 2015.

Total cost of the relocation of the PM4 and PM5 production lines and building construction costs incurred was approximately \$4.2 million. Further building construction costs at the Xushui Mill Annex was approximately \$1.7 million. As of September 30, 2015, we have already entered into contracts related to the PM4 and PM5 production line relocation project for approximately \$5.9 million.

i. Net cash provided by operating activities

Net cash provided by operating activities was \$10,668,560 for the nine months ended September 30, 2015. The amount represented a decrease of \$25,116,605, or 70.19%, from \$35,785,165 provided by operating activities for the same period of 2014. The net income of the nine months ended September 30, 2015 was \$9,381,916, representing a decrease of \$96,430, or 1.02%, from \$9,478,346 for the first nine months of 2014. Changes in various asset and liability account balances throughout the first nine months of 2015 also contributed to the net change in cash generated from operating activities in the same period of 2015. Chief among such changes is the net settlement of notes payable in the amount of \$9,478,519 during the nine months ended September 30, 2015. There was also an increase of \$2,458,300 in the ending inventory balance as of September 30, 2015 (or a decrease to net cash for the first nine months 2015 cash flow purposes). In addition, the Company had non-cash expenses in depreciation and amortization in the amount of \$10,061,558 in the first nine months of 2015. The Company also had a net decrease of \$2,326,204 in prepayment and other current assets (as an increase to net cash) and a net increase of \$1,184,473 in other payables and accrued liabilities (as an increase to net cash), as well as an increase in income tax payable of \$101,216 (as a decrease to net cash) during the nine months ended September 30, 2015.

We incurred \$11,312,300 in net cash expenditures for investing activities during the nine months ended September 30, 2015, compared to \$22,845,662 for the same period of 2014. Essentially, all expenditures in the nine months ended September 30, 2015 were the progress payments for the construction of our first tissue paper production line PM8 and related facilities, including three paper mill workshops and maintenance workshops, and four warehouses at the Wei County industrial park in Wei County, Hebei province.

iii. Net cash provided by financing activities

Net cash provided by financing activities was \$1,374,459 for the nine months ended September 30, 2015, as compared to net cash used in financing activities in the amount of \$9,101,920 for the same period of 2014. The increase was mainly due to (i) cash of \$5,548,008 from the release of restricted deposit upon the payoff of notes payables in Bank of Hebei, CBCZ Bank and SPD Bank in the nine months ended September 30, 2015, (ii) proceeds from the loan from our Chairman and Chief Executive Officer, Mr. Zhenyong Liu of \$4,852,483, (iii) payment of capital lease obligations of \$5,378,582 and (iv) net repayment of loans of \$3,647,450.

Critical Accounting Policies and Estimates

The Company's financial statements are prepared in accordance with accounting principles generally accepted in the United States, which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Management makes these estimates using the best information available at the time the estimates are made. However, actual results could differ materially from those estimates. The most critical accounting policies are listed below:

Revenue Recognition Policy

The Company recognizes revenue when goods are delivered and a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations of the Company exist, and collectability is reasonably assured. Goods are considered delivered when the customer's truck picks up goods at our finished goods inventory warehouse.

Long-Lived Assets

The Company evaluates the recoverability of long-lived assets and the related estimated remaining useful lives when events or circumstances lead management to believe that the carrying value of an asset may not be recoverable and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. In such circumstances, those assets are written down to estimated fair value. Our judgments regarding the existence of impairment indicators are based on market conditions, assumptions for operational performance of our businesses, and possible government policy toward operating efficiency of the Chinese paper manufacturing industry. For the quarter ended September 30, 2015, no events or circumstances occurred for which an evaluation of the recoverability of

long-lived assets was required. We are currently not aware of any events or circumstances that may indicate any need to record such impairment in the future.

Foreign Currency Translation

The functional currency of Orient Paper HB and Orient Paper Shengde is the Chinese Yuan Renminbi (“RMB”). Under ASC Topic 830-30, all assets and liabilities are translated into United States dollars using the current exchange rate at the end of each fiscal period. The current exchange rates used by the Company as of September 30, 2015 and December 31, 2014 to translate the Chinese RMB to the U.S. Dollars are 6.3613:1 and 6.1190:1, respectively. Revenues and expenses are translated using the prevailing average exchange rates at 6.1824:1, and 6.1493:1 for the nine months ended September 30, 2015 and 2014, respectively. Translation adjustments are included in other comprehensive income (loss).

Recent Accounting Pronouncements

In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which defers the effective date of ASU 2014-09 for all entities by one year. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. Currently, the Company is evaluating the impact of our pending adoption of ASU 2014-09 and ASU 2015-14 on its consolidated financial statements and has not yet determined the method by which it will adopt the standard in year 2018.

Off-Balance Sheet Arrangements

None.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Foreign Exchange Risk

While our reporting currency is the US dollar, almost all of our consolidated revenues and consolidated costs and expenses are denominated in RMB. All of our assets are denominated in RMB except for some cash and cash equivalents. As a result, we are exposed to foreign exchange risk as our revenues and results of operations may be affected by fluctuations in the exchange rate between US dollar and RMB. If the RMB depreciates against the US dollar, the value of our RMB revenues, earnings and assets as expressed in our US dollar financial statements will decline. We have not entered into any hedging transactions in an effort to reduce our exposure to foreign exchange risk.

Inflation

Although we are generally able to pass along minor incremental cost inflation to our customers, inflationary factors such as increases in the costs of our products and overhead costs may adversely affect our operating results. We do not believe that inflation in China has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling and distribution, general and administrative expenses as a percentage of net revenues if the selling prices of our products do not increase to cope with these increased costs.

Item 4. Controls and Procedures.

As required by Rule 13a-15 of the Securities Exchange Act, as amended (the “Securities Act”), we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures, which were designed to provide reasonable assurance of achieving their objectives. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of September 30, 2015, our disclosure controls and procedures were effective at the reasonable assurance level to ensure (1) that

information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and (2) information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes with respect to our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting in the quarterly period ended September 30, 2015.
