**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**(1) Organization and Business Background**

Orient Paper, Inc. was incorporated in the State of Nevada on December 9, 2005, under the name “Carlatelateral, Inc.” Through the steps described immediately below, we became the holding company for Hebei Baoding Orient Paper Milling Company Limited (“Orient Paper HB”), a producer and distributor of paper products in China, on October 29, 2007, and effective December 21, 2007, we changed our name to “Orient Paper, Inc.” to more accurately describe our business.

On October 29, 2007, pursuant to an agreement and plan of merger (the “Merger Agreement”), the Company acquired DongfangZhiye Holding Limited (“Dongfang Holding”), a corporation formed on November 13, 2006 under the laws of the British Virgin Islands, and issued the shareholders of Dongfang Holding an aggregate of 7,450,497 (as adjusted for a four-for-one reverse stock split effected in November 2009) shares of our common stock, which shares were distributed pro-rata to the shareholders of Dongfang Holding in accordance with their respective ownership interests in Dongfang Holding. At the time of the Merger Agreement, Dongfang Holding owned all of the issued and outstanding stock and ownership of Orient Paper HB and such shares of Orient Paper HB were held in trust with Zhenyong Liu, Xiaodong Liu and Shuangxi Zhao, for Mr. Liu, Mr. Liu and Mr. Zhao (the original shareholders of Orient Paper HB) to exercise control over the disposition of Dongfang Holding’s shares in Orient Paper HB on Dongfang Holding’s behalf until Dongfang Holding successfully completed the change in registration of Orient Paper HB’s capital with the relevant PRC Administration of Industry and Commerce as the 100% owner of Orient Paper HB’s shares. As a result of the merger transaction, Dongfang Holding became a wholly owned subsidiary of the Company, and Dongfang Holding’s wholly owned subsidiary, Orient Paper HB, became an indirectly owned subsidiary of the Company.

Dongfang Holding, as the 100% owner of Orient Paper HB, was unable to complete the registration of Orient Paper HB’s capital under its name within the proper time limits set forth under PRC law. In connection with the consummation of the restructuring transactions described below, Dongfang Holding directed the trustees to return the shares of Orient Paper HB to their original shareholders, and the original Orient Paper HB shareholders entered into certain agreements with Baoding Shengde Paper Co., Ltd. (“Orient Paper Shengde”) to transfer the control of Orient Paper HB over to Orient Paper Shengde.

On June 24, 2009, the Company consummated a number of restructuring transactions pursuant to which it acquired all of the issued and outstanding shares of Shengde Holdings Inc, a Nevada corporation. Shengde Holdings Inc was incorporated in the State of Nevada on February 25, 2009. On June 1, 2009, Shengde Holdings Inc incorporated Orient Paper Shengde, a limited liability company organized under the laws of the PRC. Because Orient Paper Shengde is a wholly-owned subsidiary of Shengde Holdings Inc, it is regarded as a wholly foreign-owned entity under PRC law.

**ORIENT PAPER, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

To ensure proper compliance of the Company's control over the ownership and operations of Orient Paper HB with certain PRC regulations, on June 24, 2009, the Company entered into a series of contractual agreements (the "Contractual Agreements") with Orient Paper HB and Orient Paper HB Equity Owners via the Company's wholly owned subsidiary Shengde Holdings Inc ("Shengde Holdings") a Nevada corporation and Baoding Shengde Paper Co., Ltd. ("Orient Paper Shengde"), a wholly foreign-owned enterprise in the PRC with an original registered capital of \$10,000,000 (subsequently increased to \$60,000,000 in June 2010). Orient Paper Shengde is mainly engaged in production and distribution of digital photo paper and is 100% owned by Shengde Holdings. Prior to February 10, 2010, the Contractual Agreements included (i) Exclusive Technical Service and Business Consulting Agreement, which generally provides that Orient Paper Shengde shall provide exclusive technical, business and management consulting services to Orient Paper HB, in exchange for service fees including a fee equivalent to 80% of Orient Paper HB's total annual net profits; (ii) Loan Agreement, which provides that Orient Paper Shengde will make a loan in the aggregate principal amount of \$10,000,000 to Orient Paper HB Equity Owners in exchange for each such shareholder agreeing to contribute all of its proceeds from the loan to the registered capital of Orient Paper HB; (iii) Call Option Agreement, which generally provides, among other things, that Orient Paper HB Equity Owners irrevocably grant to Orient Paper Shengde an option to purchase all or part of each owner's equity interest in Orient Paper HB. The exercise price for the options shall be RMB1 which Orient Paper Shengde should pay to each of Orient Paper HB Equity Owner for all their equity interests in Orient Paper HB; (iv) Share Pledge Agreement, which provides that Orient Paper HB Equity Owners will pledge all of their equity interests in Orient Paper HB to Orient Paper Shengde as security for their obligations under the other agreements described in this section. Specifically, Orient Paper Shengde is entitled to dispose of the pledged equity interests in the event that Orient Paper HB Equity Owners breach their obligations under the Loan Agreement or Orient Paper HB fails to pay the service fees to Orient Paper Shengde pursuant to the Exclusive Technical Service and Business Consulting Agreement; and (v) Proxy Agreement, which provides that Orient Paper HB Equity Owners shall irrevocably entrust a designee of Orient Paper Shengde with such shareholder's voting rights and the right to represent such shareholder to exercise such owner's rights at any equity owners' meeting of Orient Paper HB or with respect to any equity owner action to be taken in accordance with the laws and Orient Paper HB's Articles of Association. The terms of the agreement are binding on the parties for as long as Orient Paper HB Equity Owners continue to hold any equity interest in Orient Paper HB. An Orient Paper HB Equity Owner will cease to be a party to the agreement once it transfers its equity interests with the prior approval of Orient Paper Shengde. As the Company had controlled Orient Paper HB since July 16, 2007 through Dongfang Holding and the trust until June 24, 2009, and continues to control Orient Paper HB through Orient Paper Shengde and the Contractual Agreements, the execution of the Contractual Agreements is considered as a business combination under common control.

On February 10, 2010, Orient Paper Shengde and the Orient Paper HB Equity Owners entered into a Termination of Loan Agreement to terminate the above \$10,000,000 Loan Agreement. Because of the Company's decision to fund future business expansions through Orient Paper Shengde instead of Orient Paper HB, the \$10,000,000 loan contemplated was never made prior to the point of termination. The parties believe the termination of the Loan

Agreement does not in itself compromise the effective control of the Company over Orient Paper HB and its businesses in the PRC.

An agreement was also entered into among Orient Paper Shengde, Orient Paper HB and the Orient Paper HB Equity Owners on December 31, 2010, reiterating that Orient Paper Shengde is entitled to 100% of the distributable profit of Orient Paper HB, pursuant to the above mentioned Contractual Agreements. In addition, Orient Paper HB and the Orient Paper HB Equity Owners shall not declare any of Orient Paper HB's unappropriated earnings as dividend, including the unappropriated earnings of Orient Paper HB from its establishment to 2010 and thereafter.

Orient Paper has no direct equity interest in Orient Paper HB. However, through the Contractual Agreements described above Orient Paper is found to be the primary beneficiary of Orient Paper HB and is deemed to have the effective control over Orient Paper HB's activities that most significantly affect its economic performance, resulting in Orient Paper HB being treated as a controlled variable interest entity of Orient Paper in accordance with Topic 810 - Consolidation of the Accounting Standards Codification (the "ASC") issued by the Financial Accounting Standard Board (the "FASB"). The revenue of the Company generated from Orient Paper HB for the three months ended March 31, 2016 and 2015 were 98.88% and 100.00%, respectively. Orient Paper HB also accounted for 86.03% and 85.96% of the total assets of the Company as of March 31, 2016 and December 31, 2015, respectively.

**ORIENT PAPER, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)**

As of March 31, 2016 and December 31, 2015, details of the Company's subsidiaries and variable interest entities are as follows:

<b>Name</b>	<b>Date of Incorporation or Establishment</b>	<b>Place of Incorporation or Establishment</b>	<b>Percentage of Ownership</b>	<b>Principal Activity</b>
<i>Subsidiary:</i>				
Dongfang Holding	November 13, 2006	BVI	100%	Inactive investment holding
Shengde Holdings	February 25, 2009	State of Nevada	100%	Investment holding
Orient Paper Shengde	June 1, 2009	PRC	100%	Paper Production and distribution
<i>Variable interest entity:</i>				
Orient Paper HB	March 10, 1996	PRC	Control*	Paper Production and distribution

\* Orient Paper HB is treated as a 100% controlled variable interest entity of the Company

However, uncertainties in the PRC legal system could cause the Company's current ownership structure to be found in violation of any existing and/or future PRC laws or regulations and could limit the Company's ability, through the Primary Beneficiaries, to enforce its rights under these contractual arrangements. Furthermore, shareholders of the VIE may have interests that are different with those of the Company, which could potentially increase the risk that they would seek to act in contrary to the terms of the aforementioned agreements.

In addition, if the current structure or any of the contractual arrangements were found to be in violation of any existing or future PRC law, the Company may be subject to penalties, which may include but not be limited to, the cancellation or revocation of the Company's business and operating licenses, being required to restructure the Company's operations or discontinue the Company's operating activities. The imposition of any of these or other penalties may result in a material and adverse effect on the Company's ability to conduct its operations. In such case, the Company may not be able to operate or control the VIE, which may result in deconsolidation of the VIE.

**ORIENT PAPER, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)**

The Company has aggregated the financial information of Orient Paper HB in the table below. **(Unaudited)**

**(2) Basis of Presentation and Significant Accounting Policies**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”) for reporting on Form 10-Q. Accordingly, certain information and notes required by the United States of America generally accepted accounting principles (“GAAP”) for annual financial statements are not included herein. These interim statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Annual Report on Form 10-K for the year ended December 31, 2015 of Orient Paper, Inc. a Nevada corporation, and its subsidiaries and variable interest entity (which we sometimes refer to collectively as “Orient Paper”, “we”, “us” or “our”).

*Principles of Consolidation*

Our unaudited condensed consolidated financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation of our financial position and results of operations. Such adjustments are of a normal recurring nature, unless otherwise noted. The balance sheet as of March 31, 2016 and the results of operations for the three months ended March 31, 2016 are not necessarily indicative of the results to be expected for any future period.

Our unaudited condensed consolidated financial statements are prepared in accordance with GAAP. These accounting principles require us to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We believe that the estimates, judgments and assumptions are reasonable, based on information available at the time they are made. Actual results could differ materially from those estimates.

*Valuation of long-lived asset*

The Company reviews the carrying value of long-lived assets to be held and used when events and circumstances warrants such a review. The carrying value of a long-lived asset is considered impaired when the anticipated undiscounted cash flow from such asset is separately identifiable and is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset and intangible assets. Fair market value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. Losses on long-lived assets and intangible assets to be disposed are determined in a similar manner, except that fair market values are reduced for the cost to dispose.

**ORIENT PAPER, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

*Fair Value Measurements*

The Company has adopted ASC Topic 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. It does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. It establishes a three-level valuation hierarchy of valuation techniques based on observable and unobservable inputs, which may be used to measure fair value and include the following:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Classification within the hierarchy is determined based on the lowest level of input that is significant to the fair value measurement.

The Company estimates the fair value of financial instruments using the available market information and valuation methods. Considerable judgment is required in estimating fair value. Accordingly, the estimates of fair value may not be indicative of the amounts that the Company could realize in a current market exchange. As of March 31, 2016 and December 31, 2015, the carrying value of the Company's short term financial instruments, such as cash and cash equivalents, accounts receivable, accounts and notes payable, short-term bank loans and balance due to a related party, approximate at their fair values because of the short maturity of these instruments, were classified as Level 1 of the

fair value hierarchy; while loans from Credit union, loans from a related party and obligation under capital lease approximate at their fair value as the interest rates thereon are close to the market rates of interest published by the People's Bank of China.

The carrying amount of the stock warrants is recorded at fair value and is determined using the Binominal pricing model based on the Company's stock price at the measurement date, exercise price of the warrant, risk-free rate and historical volatility. The Company classified these instruments as a Level 3 of the fair value hierarchy. See Note (13) below.

#### *Non-Recurring Fair Value Measurements*

The Company reviews long-lived assets for impairment annually or more frequently if events or changes in circumstances indicate the possibility of impairment. For the continuing operations, long-lived assets are measured at fair value on a nonrecurring basis when there is an indicator of impairment, and they are recorded at fair value only when impairment is recognized. For discontinued operations, long-lived assets are measured at the lower of carrying amount or fair value less cost to sell. The fair value of these assets were determined using models with significant unobservable inputs which were classified as Level 3 inputs, primarily the discounted future cash flow.

#### *Share-Based Compensation*

**(13) Stock warrants**

On August 27, 2014, the Company issued 1,562,500 shares of our common stock and warrants to purchase up to 781,250 shares of our common stock. The warrants have an exercise price of \$1.70 per share. The fair value of these shares amounted to \$780,000, is classified as equity at the date of issuance.

Expected dividend yield	0.81 %

In connection with the Offering, the Company issued warrants to its placement agent of this Offering, which can purchase an aggregate of up to 2.50% of the aggregate number of shares of common stock sold in the Offering, i.e. 39,062 shares. These warrants have substantially the same terms as the warrants issued to purchaser in the Offering, except that the exercise price is \$2.00 per share and the expiration date is from September 3, 2014 to June 26, 2019. The fair value of these shares amounted to \$35,191, is classified in the equity at the date of issuance to net off the proceeds from the issuance of the shares and warrants.

The Company performed self-assessment and the Company's liability for income taxes includes the liability for unrecognized tax benefits, interest and penalties which relate to tax years still subject to review by taxing authorities. Audit periods remain open for review until the statute of limitations has passed, which in the PRC is usually 5 years. The completion of review or the expiration of the statute of limitations for a given audit period could result in an adjustment to the Company's liability for income taxes. Any such adjustment could be material to the Company's results of operations for any given quarterly or annual period based, in part, upon the results of operations for the given period. As of March 31, 2016 and December 31, 2015, management considered that the Company had no uncertain tax positions affecting its condensed consolidated financial position and results of operations or cash flows, and will continue to evaluate for any uncertain position in future. There are no estimated interest costs and penalties provided in the Company's condensed consolidated financial statements for the three months ended March 31, 2016 and 2015, respectively. **(18) Segment Reporting**

Since March 10, 2010, Orient Paper Shengde started its operations and thereafter the Company manages its operations through two business operating segments: Orient Paper HB, which produces offset printing paper and corrugating medium paper, and Orient Paper Shengde, which produces digital photo paper. They are managed separately because each business requires different technology and marketing strategies.

The Company evaluates performance of its operating segments based on net income. Administrative functions such as finance, treasury, and information systems are centralized. However, where applicable, portions of the administrative function expenses are allocated between the operating segments based on gross revenue generated. The operating segments do share facilities in Xushui County, Baoding City, Hebei Province, China. All sales were sold to customers located in the PRC.

Summarized financial information for the two reportable segments is as follows:

**(20) Concentration of Credit Risk**

Financial instruments for which the Company is potentially subject to concentration of credit risk consist principally of cash. The Company places its cash in reputable financial institutions in the PRC and the United States. Although it is generally understood that the PRC central government stands behind all of the banks in China in the event of bank failure, there is no deposit insurance system in China that is similar to the protection provided by the Federal Deposit Insurance Corporation (“FDIC”) of the United States as of March 31, 2016 and December 31, 2015. On May 1, 2015, the new “Deposit Insurance Regulations” was effective in the PRC that the maximum protection would be up to RMB500,000 (US\$78,600) per depositor per insured financial institution, including both principal and interest. For the cash placed in financial institutions in the United States, the Company’s U.S. bank accounts are all fully covered by the FDIC insurance as of March 31, 2016 and December 31, 2015, respectively, while for the cash placed in financial institutions in the PRC, the balances exceeding the maximum coverage of RMB500,000 amounted to RMB22,010,451 (US\$3,406,558) as of March 31, 2016.

## **(21) Risks and Uncertainties**

Orient Paper is subject to substantial risks from, among other things, intense competition associated with the industry in general, other risks associated with financing, liquidity requirements, rapidly changing customer requirements, foreign currency exchange rates, and operating in the PRC under its various laws and restrictions.

## **(22) Recent Accounting Pronouncements**

In March 2016, the FASB issued ASU 2016-09, Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The Board is issuing this Update as part of its Simplification Initiative. The objective of the Simplification Initiative is to identify, evaluate, and improve areas of generally accepted accounting principles (GAAP) for which cost and complexity can be reduced while maintaining or improving the usefulness of the information provided to users of financial statements. The areas for simplification in this Update were identified through outreach for the Simplification Initiative, pre-agenda research for the Private Company Council, and the August 2014 Post-Implementation Review Report on FASB Statement No. 123(R), Share-Based Payment. The areas for simplification in this Update involve several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Some of the areas for simplification apply only to nonpublic entities. For public business entities, the amendments in this Update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. For all other entities, the amendments are effective for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for any entity in any interim or annual period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity that elects early adoption must adopt all of the amendments in the same period. The adoption of this guidance is not expected to have a material impact on our condensed consolidated financial statements.

Revenue for the three months ended March 31, 2016 was \$27,914,333, an increase of \$1,409,989, or 5.32%, from \$26,504,344 for the three months ended March 31, 2015.

Revenue of Offset Printing Paper, Corrugating Medium Paper and Tissue Paper Products

Revenue from sales of offset printing paper, corrugating medium paper (“CMP”) and tissue paper products for the three months ended March 31, 2016 was \$27,601,565, an increase of \$1,097,221, or 4.14%, from \$26,504,344 for the three months ended March 31, 2015. This was mainly driven by the launch of the commercial production of tissue paper products in Wei County Industry Park in June 2015. Tissue paper products contributed \$1,594,341 of sales in the first quarter of 2016.

Total quantities of offset printing paper, corrugating medium paper and tissue paper products sold during the three months ended March 31, 2016 amounted to 70,152 tonnes, an increase of 7,007 tonnes, or 11.10%, compared to 63,145 tonnes sold during the three months ended March 31, 2015. We sold 1,267 tonnes of tissue paper products in the first quarter of 2016 as opposed to none in the same period of 2015. Total quantities of CMP and offset printing paper sold increased by 5,740 tonnes in the first quarter of 2016 as compared to the first quarter of 2015. The changes in revenue and in quantities sold for the three months ended March 31, 2016 are summarized as follows:

The following is a chart showing the month-by-month ASPs (excluding the ASPs of digital photo paper and tissue paper products) for the 24 month period ended March 31, 2016:

*Corrugating Medium Paper*

Revenue from CMP amounted to \$18,872,209 (68.37% of the total offset printing paper, CMP and tissue paper products revenue) for the three months ended March 31, 2016, representing a decrease of \$830,924, or 4.22%, from revenue of \$19,703,133 for the comparable period in 2015. We sold 58,000 tonnes of CMP in the three months ended March 31, 2016, as compared to 53,271 tonnes for the same period in 2015, representing an 8.88% increase in quantities sold.

ASP for Regular CMP dropped from \$369/tonne for the three months ended March 31, 2015 to \$324/tonne for the three months ended March 31, 2016, representing a 12.20% decrease. ASP in RMB for Regular CMP for the first quarter of 2015 and 2016 were RMB2,265 and RMB2,108, respectively, representing a 6.92% decrease. The quantity of Regular CMP produced and sold increased by 4,232 tonnes, from 44,770 tonnes in the first quarter of 2015, to 49,002 tonnes in the first quarter of 2016.

ASP for Light-Weight CMP dropped from \$376/tonne for the three months ended March 31, 2015 to \$331/tonne for the three months ended March 31, 2016, representing an 11.97% decrease. ASP in RMB for Regular CMP for the first quarter of 2015 and 2016 were RMB2,308 and RMB2,151, respectively, representing a 6.79% decrease. The quantity of Light-Weight CMP produced and sold increased by 497 tonnes, from 8,501 tonnes in the first quarter of 2015, to 8,998 tonnes in the first quarter of 2016.

We believe that the decreases in ASPs in USD for CMP were a result of the slowdown of China's economic growth, an over-supply in the Chinese paper industry and the depreciation of RMB against USD in 2016. We consider these decreases a sign for the downward pressure on the pricing in the Chinese packaging paper industry. We believe that the government continuing to require that outdated paper facilities close will partially offset the downward pricing pressure.

Our PM6 production line, which produces CMP, has a designated capacity of 360,000 tonnes /year. The utilization rates for the first quarter of 2016 and 2015 were 54.45% and 49.46%, respectively, representing an increase of 4.99%.

Quantities sold for Regular CMP, which was produced by the PM6 production line, from April 2014 to March 2016 are as follows:

#### *Offset Printing Paper*

Revenue from offset printing paper was \$7,135,015 (25.85% of the total offset printing paper, CMP and tissue paper products revenue) for the three ended March 31, 2016, representing an increase of \$333,804, or 4.91%, from \$6,801,211 for the three ended March 31, 2015. We sold 10,885 tonnes of offset printing paper in the first quarter of 2016, as compared to 9,874 tonnes in the first quarter of 2015, an increase of 1,011 tonnes, or 10.24%. The increase in quantities produced and sold in 2016 was mainly a result of the two week maintenance-based production suspension of our PM3 production line (one of the offset printing paper production lines) in March 2015. ASPs for offset printing paper for the first quarter of 2015 and 2016 were \$689 and \$655, respectively, representing a 4.93% decrease. ASP in RMB for offset printing paper for the first quarter of 2015 and 2016 were RMB4,231 and RMB4,274, respectively, representing a 1.02% increase. The decrease in ASP in USD was a result of the depreciation of RMB against USD in 2016. We estimate that the regional market of offset printing paper will continue to be relatively stable and the ASP for offset printing paper will not experience a significant change in 2016.

#### *Tissue Paper Products*

We began the commercial production of tissue paper products in Wei County Industry Park in June 2015. We process base tissue paper purchased from a third party and produce finished tissue paper products, including toilet paper, boxed and soft-packed tissues, handkerchief tissues, and paper napkins, as well as bathroom and kitchen paper towels, and market and sell the finished tissue paper products under the Orient Paper brand. We sold 1,267 tonnes of tissue paper products for \$1,594,341 in the three months ended March 31, 2016. We expect to see an increase in production of the tissue paper products in the near future.

#### Revenue of Digital Photo Paper

Revenue generated from selling digital photo paper was \$312,768 for the three months ended March 31, 2016. No digital photo paper was produced and sold in the first quarter of 2015. In October 2014, we shut down and disassembled our digital photo paper production facilities (the PM4 and PM5 production lines) for relocation mandated by the local County government, and in August 2015 we completed the relocation and resumed commercial

production of our digital photo paper. We expect that our digital photo paper production will increase during the rest of 2016.

Changes in revenue and quantities sold of our digital photo paper for the three months ended 2016 and 2015 are summarized as follows:

	Three Months Ended March 31, 2016		Three Months Ended March 31, 2015		Change in		Percentage Change

Digital photo paper's monthly ASPs, monthly sales quantity (in tonnes) and monthly sales revenue for the 24 months from April 2014 to March 31, 2016 are summarized as follows:

Cost of Sales

Total cost of sales for CMP, offset printing paper and tissue paper products for the quarter ended March 31, 2016 was \$23,591,618, an increase of \$2,074,007, or 9.64%, from \$21,517,611 for the comparable period in 2015. This was mainly caused by an increase in cost of sales of \$1,404,116 for tissue paper products, the commercial production of which was launched in June 2015. Cost of sales for CMP was \$16,259,998 for the quarter ended March 31, 2016, as compared to \$15,949,474 for the comparable period in 2015. The increase in the cost of sales of \$310,524 for CMP was in line with the increase in quantities of CMP produced and sold in the first quarter of 2016. Average cost of sales per tonne for CMP decreased by 6.35%, from \$299 in the first quarter of 2015, to \$280 in the first quarter of 2016. The decrease was mainly attributable to lower energy cost to sales, discussed in more detail below. Average cost of sales per tonne of offset printing paper decreased by 3.37%, from \$564 in the three months ended March 31, 2015, to \$545 during the comparable period in 2016. Changes in cost of sales and cost per tonne by product for the quarters ended March 31, 2016 and 2015 are summarized below:

	Three months ended March 31, 2016		Three months ended March 31, 2015		Change in		Change in percentage			
	Cost of Sales	Cost per Tonne	Cost of Sales	Cost per Tonne	Cost of Sales	Cost per Tonne	Cost of Sales	Cost per Tonne

Our average unit purchase costs (net of applicable value added tax) of recycled paper board and recycled white scrap paper in the three months ended March 31, 2016 were RMB 1,077/tonne (approximately \$165/tonne) and RMB 2,450/tonne (approximately \$376/tonne), respectively, as compared to RMB 969/tonne (approximately \$158/tonne) and RMB 2,222/tonne (approximately \$362/tonne) for the three months ended March 31, 2015, respectively. These changes (in US dollars) represent a year-over-year increase of 4.43% for the recycled paper board and a year-over-year increase of 3.60% for the recycled white scrap paper. Our production exclusively uses domestic recycled paper (sourced mainly from the Beijing-Tianjin metropolitan area). Though we do not rely on imported recycled paper, the pricing of which tends to be more volatile than domestic recycled paper, our experience suggests that the pricing of domestic recycled paper bears some correlation to the pricing of imported recycled paper. In January of 2016, much of China endured historically bad weather, which affected the collection and delivery of recycled paper board. This caused the increase in the price of domestic recycled paper in the first quarter of 2016. The price of recycled white scrap paper, a substitute raw material for tissue paper, also increased in the first quarter of 2016.

The pricing trends of our major raw materials for the 24-month period from April 2014 to March 2016 are shown below:

Electricity and coal are our two main energy sources. The price of coal has been subject to seasonal fluctuations in China, with the peaks often occurring in the winter months. In 2015, electricity and coal accounted for approximately 8% and 4% of total sales, respectively. As the average cost per tonne of coal went down from \$81.73 (RMB501) in the first quarter of 2015 to \$62.89 (RMB410) in first quarter of 2016, coal only accounted for approximately 4% of total sales in the first quarter of 2016. The monthly energy cost (electricity and coal) as a percentage of total monthly sales of our main paper products for the 24 months ended March 31, 2016 are summarized as follows:

#### Gross Profit

Gross profit for the three months ended March 31, 2016 was \$3,765,884 (13.49% of the total revenue), representing a decrease of \$1,220,849, or 24.48%, from the gross profit of \$4,986,733 (18.81% of the total revenue) for the three months ended March 31, 2015. The decrease was mainly due to (i) the drop in ASPs for CMP and offset printing paper and (ii) reduced sales of digital photo paper as a result of digital photo production line relocation, partially offset by additional gross profit contributed by the tissue paper production line which was launched in June 2015.

#### *Offset Printing Paper, CMP and Tissue Paper Products*

Gross profit for offset printing paper, CMP and tissue paper products for the three months ended March 31, 2016 was \$4,009,947, a decrease of \$976,786, or 19.59%, from the gross profit of \$4,986,733 for the three months ended March 31, 2015. The increase was mainly the result of the factors discussed above.

The overall gross profit margin for offset printing paper, CMP and tissue paper products decreased by 4.28%, from 18.81% for the three months ended March 31, 2015, to 14.53% for the three months ended March 31, 2016.

Gross profit margin for Regular CMP for the three months ended March 31, 2016 was 12.35%, or 5.03 percentage point lower, as compared to gross profit margin of 17.38% for the three months ended March 31, 2015. Such decrease was primarily the result of the decline in Regular CMP ASP and the increase in raw material prices in the first quarter of 2016.

Gross profit margin for Light-Weight CMP for the three months ended March 31, 2016 was 21.80%, or 5.89 percentage points lower, as compared to gross profit margin of 27.69% for the three months ended March 31, 2015.

Our offset printing paper saw a moderate 4.91% increase in revenue for the three months ended March 31, 2016, as compared to the three months ended March 31, 2015, coupled with a 6.45% year-over-year increase in cost of sales from 2015 to 2016. Gross profit margin for offset printing paper was 16.92% for the three months ended March 31, 2016, a decrease of 1.21 percentage points, as compared to 18.13% for the three months ended March 31, 2015.

Gross profit margin for tissue paper products for the three months ended March 31, 2016 was 11.93%.

Monthly gross profit margins for our CMP and offset printing paper for the 24-month period ended March 31, 2016 are as follows:

#### *Digital Photo Paper*

Loss for digital photo paper for the three months ended March 31, 2016 was \$244,063, representing a gross margin of -78.03%. As discussed above, we started the relocation of our PM4 and PM5 production lines in October 2014, and completed the relocation and resumed commercial production of our digital photo paper in August 2015. The sales in the first quarter of 2016 were not sufficient to cover the depreciation cost charged to this period. We expect that our digital photo paper production will increase during the rest of 2016.

#### Selling, General and Administrative Expenses

Selling, general and administrative expenses for the three months ended March 31, 2016 were \$4,346,251, an increase of \$2,639,859, or 154.70%, from \$1,706,392 for the three months ended March 31, 2015. The increase was mainly due to (i) the increase in the depreciation expenses for our temporarily idle property, plant and equipment at the new tissue paper plant in our Wei County Industrial Park and (ii) 1,133,916 shares of common stock granted under compensatory incentive plans, valued at \$1,417,395.

We believe that our new tissue paper plant will reach its normal production capacity by the second half of year 2016.

Income(Loss) from Operations

Operating loss for the quarter ended March 31, 2016 was \$580,367, a decrease of \$3,860,708, or 117.69%, from operating income of \$3,280,341 for the quarter ended March 31, 2015. The increase in operating loss was primarily due to the decrease in gross profit and the increase in selling and general administrative expenses as discussed above.

### Other Income and Expenses

Interest expense for the three months ended March 31, 2016 increased by \$72,671, from \$648,218 in the three months ended March 31, 2015, to \$720,889. The Company had short-term and long-term interest-bearing loans, related party loans and leasing obligations that aggregated \$42,986,889 as of March 31, 2016, as compared to \$43,772,193 as of March 31, 2015. The interest incurred during the quarters ended March 31, 2016 and 2015, were \$17,054 and \$17,739, respectively, and were capitalized as soft-cost of construction-in-progress. The interest expense incurred in both periods was solely related to the sale-leaseback obligation with China National Foreign Trade Financial & Leasing Co., Ltd (“CNFTFL”).

### Net Income (Loss)

As a result of the above, net loss was \$1,373,896 for the quarter ended March 31, 2016, representing a decrease of \$3,479,385, or 165.25%, from net income of \$2,105,489 for the quarter ended March 31, 2015.

### Accounts Receivable

Net accounts receivable increased by \$1,711,954, or 89.90%, to \$3,616,350 as of March 31, 2016, as compared with \$1,904,396 as of December 31, 2015. We usually collect accounts receivable within 30 days of delivery and completion of sales.

### Inventories

Inventories consist of raw materials (accounting for 84.63% of total value of ending inventory as of March 31, 2016) and finished goods. As of March 31, 2016, the recorded value of inventory increased by 7.34% to \$9,881,477 from \$9,205,420 as of December 31, 2015. As of March 31, 2016, the ending inventory of recycled paper board, which is the main raw material for the production of CMP, was \$5,538,985, approximately \$1,122,733, or 25.42%, higher than the balance as of December 31, 2015. This increase was primarily due to the increase in our CMP production.

A summary of changes in major inventory items is as follows:

### Accounts Payable and Notes Payable

Accounts payable and notes payable was \$9,578,610 as of March 31, 2016, a decrease of \$4,534,615, or 32.13%, from \$14,113,225 as of December 31, 2015. Accounts payable was \$849,581 and \$253,425, as of March 31, 2016 and December 31, 2015, respectively. We have been relying on the bank acceptance notes issued under our credit facilities with Bank of Hebei and Commercial Bank of the City of Zhangjiakou (the “CBCZ Bank”) to make the majority of our raw materials payments to our vendors. Our notes payable to Bank of Hebei and CBCZ Bank were \$8,729,029 and \$13,859,800 as of March 31, 2016 and December 31, 2015, respectively. We have paid off bank acceptance notes of \$6,190,800 in January 2016 and acquired additional bank acceptance notes of \$990,528 from Bank of Hebei in February 2016, which will become due and payable on August 3, 2016.

### **Liquidity and Capital Resources**

#### Overview

As of March 31, 2016, we had a net working capital deficit of \$10,543,558, a decrease of \$3,350,396, from the net working capital deficit of \$13,893,954 at December 31, 2015. Total current assets as of March 31, 2016 amounted to \$26,377,784. Substantially all cash and cash equivalents are cash deposits in bank accounts. Restricted cash of \$8,729,029 was included in our current assets as of March 31, 2016. Restricted cash is deposited at the Bank of Hebei and the Commercial Bank of the City of Zhangjiakou for purpose of securing the bank acceptance notes from these banks. These notes have due dates ranging from April 23, 2016 through August 3, 2016, and the Company anticipates renewing such notes upon the maturity on substantially similar terms.

Our current liabilities decreased after we paid off the bank acceptance notes issued by the Bank of Hebei, which were due and payable in January 2016. Current liabilities as of March 31, 2016 totaled \$36,921,342, a decrease of \$3,316,605, from the December 31, 2015 balance of \$40,237,947. Our current liabilities included the current portion of the capital lease payable in the amount of \$6,761,558. We use bank acceptance notes, which are typically 6-to-12 month notes, to guarantee the payments to our vendors. Notes payable was \$8,729,029 as of March 31, 2016, representing a decrease of \$5,130,771, or 37.02%, from \$13,859,800 as of December 31, 2015. Most of our current short-term bank loans are either revolving or term loans. We expect to renew these loans with the banks on similar terms at or before maturity. All of our short-term loans (with the exception of the notes payable, which carry no interest but require a deposit equal to a portion of the credit facilities at the issuing banks) have interest-only monthly payments, with a balloon payment for the entire principal amount upon maturity of the loan. The long term loans from the credit union require quarterly interest payments, with one large balloon payment upon maturity. We entered into a three-year sale-leaseback financing agreement with CNFTFL on June 16, 2013, which provides for a three-year full amortization schedule with periodic principal payments every six months. Essentially all proceeds of the sale-leaseback were used to finance the construction of the Wei County tissue paper expansion project. In July 2015, we entered into a new agreement with CNFTFL, which amended and restated the 2013 CNFTFL lease financing agreement. Pursuant to the 2015 CNFTFL lease financing agreement, we are required to make interest payments every quarter and principal payments every six months until June 21, 2017. These payments range from approximately \$0.1 million to approximately \$3.5 million (see “Financing with Sale-Leaseback” below for more details.)

#### Efforts to Mitigate the Net Working Capital Deficit

Amounts due to related parties included in current liabilities were \$1,146,998 as of March 31, 2016, including rent payable due to a related party of \$409,292 (see “Relocation of Facilities and Sale of Headquarters Compound Real Properties” below), and accrued interest payable of \$737,706, which was included in other payables and accrued liabilities. Excluding the related party payables, the net working capital deficit as of March 31, 2016 was \$9,396,560.

On May 4, 2016, Mr. Zhenyong Liu, the Company’s Chairman and Chief Executive Officer, agreed to permit the Company to continue to postpone the repayment of the accrued interest on his loan to Orient Paper HB until the Company is able to pay its other creditors in its normal course of business. The accrued interest owed to Mr. Zhenyong Liu was approximately \$737,706 as of March 31, 2016, which was recorded in other payables and accrued liabilities as part of the current liabilities in the consolidated balance sheet as of March 31, 2016.

On March 1, 2015, the Company entered an agreement with Mr. Zhenyong Liu, which allows Orient Paper HB to borrow from Mr. Liu with an amount up to \$18,572,401 (RMB120,000,000) for working capital purposes. The advances or funding under the agreement are due in three years from the date each amount is funded. The loan will be unsecured and carry an annual interest rate set on the basis of the primary lending rate of the People’s Bank of China at the time of the borrowing. As of March 31, 2016, \$4,643,100 was drawn from the facility.

Our loan-to-equity ratio was 33.66% as of March 31, 2016. Our debt-asset ratio was 25.18% as of March 31, 2016. The industry average of debt-asset ratios in China for 2015 was 42%, according to the latest industry report in 2016 provided by China Industry Intelligence Center at [www.wenku.baidu.com](http://www.wenku.baidu.com). As long as we are able to manage our short-term liquidity through various efforts described above, we believe that our overall financial condition, compared to our Chinese peers, is reasonably healthy and should allow us to further leverage our assets to obtain capital for future growth.

From time to time, we investigate financing opportunities with banks and other financial institutions and investors both inside and outside of China, and we may seek long-term financings to pay off liabilities with shorter terms. We cannot guarantee that our efforts will be successful. As of the date of this report, we have not entered into any material binding agreement for additional long-term financing. There can be no assurance that we will be able to secure such financing either from banks or through debt or equity investments from investors. If we are unable to obtain sufficient outside financing, whether short-term or long-term, or generate sufficient operating cash flow internally, the progress of our construction or renovation projects may slow down or may otherwise be negatively affected. We may also have to curtail the scope of our capital expenditure projects or shelve some components of such projects, such as, delaying the installation of PM9 until additional capital resources are available.

#### Financing with Sale-Leaseback

The Company entered into a sale-leaseback arrangement (the “Lease Financing Agreement”) with CNFTFL on June 16, 2013, for a total financing proceeds in the amount of RMB 150 million (approximately US\$24 million). Pursuant to the Lease Financing Agreement, Orient Paper HB sold some equipment to CNFTFL for RMB 150 million (approximately US\$24 million). Concurrent with the sale of equipment, Orient Paper HB leases back all of the equipment sold to CNFTFL for a lease term of three years. At the end of the lease term, Orient Paper HB may pay a nominal purchase price of RMB 15,000 (approximately \$2,400) to CNFTFL to buy back all of the Leased Equipment. The sale-leaseback is treated by the Company as a mere financing and capital lease transaction, rather than a sale of assets (under which gain or loss is immediately recognized) under ASC 840-40-25-4. All of the leased equipment is included as part of the property, plant and equipment of the Company for the periods presented; the net present value of the minimum lease payments (including a lease service charge equal to 5.55% of the amount financed, i.e. approximately US\$1.36 million) was recorded as obligations under capital lease and these payments incur interest at CNFTFL’s implicit interest rate of 6.15% per annum. At the inception of the lease on June 16, 2013, the net present value of the minimum lease payments were stated at \$25,750,170.

Orient Paper HB made all payments due according to the schedule prior to December 15, 2014. On December 15, 2014, Orient Paper HB stopped making principal payments and entered into negotiations with CNFTFL regarding a modified payment schedule for the remaining obligations. During the course of negotiations, Orient Paper HB continued to make interest payments due (as well as a payment of a liquidated damage of approximately \$9,200 on December 26, 2014). No remedial measures were taken by CNFTFL or its parent company. On May 19, 2015 and June 15, 2015, the Company made payments to CNFTF of RMB 5,000,000 (approximately \$0.8 million) and RMB 20,000,000 (approximately \$3 million), respectively. On July 1, 2015, Orient Paper HB, Shijiazhuang Office of China Orient Asset Management Corporation (“China Orient”), the parent and assignee of the rights of CNFTFL, and some guarantors of Lease Financing Agreement, entered into an agreement (the “2015 Agreement”) to amend and restate the Lease Financing Agreement entered into in 2013. The 2015 Agreement sets forth a modified and extended payment schedule with respect to the remaining payment obligation, with the final repayment date extended to June 21, 2017. Under the 2015 Agreement, the interest accrues at a rate of 15% per annum starting on June 16, 2015, and is payable on the 20th of every March, June, September and December until the principal is paid off, except for the first payment, which was due on July 31, 2015.

The balance of the long-term obligations under capital lease was \$3,166,457 as of March 31, 2016 and \$3,217,785 as of December 31, 2015, net of its current portion in the amount of \$6,761,558 and \$6,860,412, respectively.

Total interest expenses for the sale-leaseback arrangement for the three months ended March 31, 2016 and 2015 were \$150,033 and \$156,054, respectively.

As a result of the sale and leaseback of equipment on June 16, 2013, a deferred gain in the amount of \$1,379,282 was recorded. The deferred gain is being amortized over the lease term and as an offset to depreciation of the leased equipment. With respect to the new payment schedule, the deferred gain is being amortized over the remaining lease term up to June 21, 2017.

As part of the sale-leaseback transaction, Orient Paper HB entered into a Collateral Agreement with CNFTFL and pledged the land use right, valued at approximately \$6,767,130, on some 58,566 square meters of land as collateral for the lease. In addition to Orient Paper HB’s collateral, Orient Paper Shengde also entered into a Guarantee Contract with CNFTFL on June 16, 2013. Under the Guarantee Contract, Orient Paper Shengde agrees to guarantee Orient Paper HB’s performance under the lease and pledged all of its production equipment as additional collateral. The net book value of Orient Paper Shengde’s asset guarantee was \$28,231,003 and \$28,745,628 as of March 31, 2016 and December 31, 2015, respectively.

#### Relocation of Facilities and Sale of Headquarters Compound Real Properties

A Xushui County urban redevelopment plan mandates that the current site of our Headquarters Compound and its neighboring area be reserved for residential use only and that, like other manufacturers in the covered area, we were required to eventually cease all operations currently conducted on our Headquarters Compound site. On August 7, 2013, the Company's Audit Committee and the Board of Directors approved the sale of the LUR, the Industrial Buildings, and the Dormitories to Hebei Fangsheng, a real estate development company owned by Mr. Zhenyong Liu, our Chairman and Chief Executive Officer and his family, for cash of approximately \$2.77 million, \$1.15 million, and \$4.31 million, respectively. In connection with the sale of the Industrial Buildings, Hebei Fangsheng agreed to lease the Industrial Buildings back to the Company for its original use for a term of up to three years, with an annual rental payment of approximately \$154,770 (RMB1,000,000). On May 4, 2016, Hebei Fangsheng agreed to allow the Company to continue to postpone the repayment of the accrued rental charged to Orient Paper HB until the Company's financial statements show a satisfactory working capital level. The accrued rental owned to Hebei Fangsheng was approximately \$409,292 and \$368,751, which was recorded as part of the current liabilities as of March 31, 2016 and December 31, 2015, respectively. As a condition for the sale of the Dormitories, Hebei Fangsheng agreed that it would act as an agent for the Company, which is not qualified to sell residential housing units in China, and that it is obligated to sell all of the 132 apartment units in the Dormitories to qualified employees of the Company at its acquisition price. Hebei Fangsheng further agreed that it would not seek to profit from the resale of the Dormitories units and would allow the Company to inspect the books and records of the sale upon completion of the resale of the Dormitories units to ensure the objectives are achieved. Sales of the LUR and the Industrial Buildings were completed in year 2013.

#### Capital Expenditure Commitment as of March 31, 2016

We finance our daily operations mainly by cash flows generated from our business operations and loans from banking institutions (including leasing companies) and our major shareholders. Major capital expenditures in the three months ended March 31, 2016 were primarily financed by cash flows generated from financing activities. As of March 31, 2016, we had approximately \$17.23 million in capital expenditure commitments that were mainly related to the construction costs of manufacturing equipment and other facilities in a new industrial park in Wei County of Hebei, China, where we expect to build two tissue paper production lines (PM8 and PM9), and install other paper production machinery.

### Capital Expenditures

Our committed capital expenditures for the next 18 months are approximately \$17.23 million, which mainly includes budgeted costs for the projects below:

#### *New Production Lines at the Wei County Industrial Park*

In November 2012, we entered into a 15-year land lease with a land investment company in Wei County for the purpose of developing the 49.4 acres of land into the base of our next capacity expansion. In December 2012, we signed a contract with an equipment contractor in Shanghai to build the first of our two tissue paper production lines in Wei County. The two production lines, each having production capacity of 15,000 tonnes/year, will be designated as PM8 and PM9 upon completion. Total estimated cost of the Wei County tissue paper project is up to approximately \$130 million (of which \$108 million has been incurred thus far), including the estimated costs of general infrastructure and administrative facilities such as warehouses, offices, dorms and landscaping, of up to \$102 million (of which \$91million has been incurred thus far) and the estimated costs for the two paper machines and related packaging equipment of up to \$28 million (of which \$18 million has been incurred thus far). We had previously estimated that the installation and test operations of the PM8 production line would be completed in the second half of 2014. Our current estimated completion time of the PM8 production line is the fourth quarter of 2016, as we have experienced construction and funding delays. The delay of completion of the PM8 production line did not have any major financial impact on our current period earnings, as we did not previously budget significant revenue or net earnings from the PM8 production line tissue paper for the first quarter of 2016.

The projects finished in 2015 include: three workshops, four warehouses, and packaging machinery, dividing and cutting machinery, as well as infrastructure and landscaping projects in the Wei County Industrial Park, for a total cost of \$76.87 million. We plan to build a second 15,000 tonnes/year tissue paper production line (designated as PM9) at an estimated cost of \$7.8 million after the PM8 production line is put into production.

#### *Relocation of Digital Photo Paper PM4 and PM5 Production Lines*

In August 2015, we completed the relocation of our digital photo paper production lines (PM4 and PM5), as well as related chemical and packaging equipment, from the workshops located in our Headquarters Compound to a new location that is across the street from our Xushui Paper Mill, the Xushui Mill Annex. We purchased the land use rights of the 58,566 square meters at Xushui Mill Annex for approximately \$7.7 million in April 2012 and constructed three industrial buildings for the digital photo paper operations, a dormitory for factory workers and offices to hold our consolidated Xushui County operations. We completed the relocation and resumed commercial production of digital photo paper in August 2015.

Total cost of the relocation of the PM4 and PM5 production lines and building construction costs incurred was approximately \$4.5 million. Additional building construction costs at the Xushui Mill Annex are estimated to be approximately \$0.5 million. As of March 31, 2016, we have entered into contracts related to the additional building construction for approximately \$0.5 million.

### Cash and Cash Equivalents

Our cash and cash equivalents as of March 31, 2016 was \$3,651,469, an increase of \$1,009,552, from \$2,641,917 as of December 31, 2015. The increase of cash and cash equivalents for the three months ended March 31, 2016 was attributable to a number of factors:

#### i. Net cash used in operating activities

Net cash used in operating activities was \$485,979 for the quarter ended March 31, 2016. The balance represented a decrease of cash used of \$1,489,563, or 75.40%, from \$1,975,542 used for the same period of 2015. The net loss of the quarter ended March 31, 2016 was \$1,373,896, representing a decrease of \$3,479,385, or 165.25%, from a net income of \$2,105,489 for the first quarter of 2015. Changes in various asset and liability account balances throughout the first quarter of 2016 also contributed to the net change in cash generated from operating activities in the first quarter of 2016. Chief among such changes is the increase of accounts receivable in the amount of \$1,721,557 during the quarter ended March 31, 2016. There was also an increase of \$624,282 in the ending inventory balance as of March 31, 2016 (a decrease to net cash for the first quarter 2016 cash flow purposes). In addition, the Company had non-cash expenses (i) in depreciation and amortization in the amount of \$4,167,672 and (ii) in issuances of shares to officers and directors in the first quarter of 2016. The Company also had a net decrease of \$1,481,966 in prepayment and other current assets (an increase to net cash) and a net increase of \$833,835 in other payables and accrued liabilities (an increase to net cash), as well as an increase in income tax payable of \$695,387 (an increase to net cash) during the quarter ended March 31, 2016.

#### ii. Net cash used in investing activities

We incurred \$428,842 in net cash expenditures for investing activities during the quarter ended March 31, 2016, as compared to \$2,671,647 for the same period of 2015. Essentially, all expenditures in the quarter ended March 31, 2016 were for the progress payments for the construction of our first tissue paper production line PM8 and related facilities, including three paper mill workshops and maintenance workshops, and four warehouses at the Wei County industrial park in Wei County, Hebei province.

iii. Net cash provided by financing activities

Net cash provided by financing activities was \$1,887,182 for the quarter ended March 31, 2016, as compared to net cash used in financing activities in the amount of \$3,321,970 for the same period of 2015. During the quarter ended March 31, 2016, we obtained a cash inflow of \$2,086,113 from the release of restricted deposit upon the payoff of notes payables to Bank of Hebei.

## **Critical Accounting Policies and Estimates**

The Company's financial statements are prepared in accordance with accounting principles generally accepted in the United States, which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Management makes these estimates using the best information available at the time the estimates are made. However, actual results could differ materially from those estimates. The most critical accounting policies are listed below:

### Revenue Recognition Policy

The Company recognizes revenue when goods are delivered and a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations of the Company exist, and collectability is reasonably assured. Goods are considered delivered when the customer's truck picks up goods at our finished goods inventory warehouse.

### Long-Lived Assets

The Company evaluates the recoverability of long-lived assets and the related estimated remaining useful lives when events or circumstances lead management to believe that the carrying value of an asset may not be recoverable and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. In such circumstances, those assets are written down to estimated fair value. Our judgments regarding the existence of impairment indicators are based on market conditions, assumptions for operational performance of our businesses, and possible government policy toward operating efficiency of the Chinese paper manufacturing industry. For the three months ended March 31, 2016 and 2015, no events or circumstances occurred for which an evaluation of the recoverability of long-lived assets was required. We are currently not aware of any events or circumstances that may indicate any need to record such impairment in the future.

### Foreign Currency Translation

The functional currency of Orient Paper HB and Orient Paper Shengde is the Chinese Yuan Renminbi (“RMB”). Under ASC Topic 830-30, all assets and liabilities are translated into United States dollars using the current exchange rate at the end of each fiscal period. The current exchange rates used by the Company as of March 31, 2016 and 2015 to translate the Chinese RMB to the U.S. Dollars are 6.4612:1 and 6.1422:1, respectively. Revenues and expenses are translated using the prevailing average exchange rates at 6.5193:1, and 6.1422:1 for the three ended March 31, 2016 and 2015, respectively. Translation adjustments are included in other comprehensive income (loss).

### **Off-Balance Sheet Arrangements**

We were the guarantor for a third party for its long-term bank loans in an amount of \$8,667,121 (RMB56,000,000), which matures at various times in 2018. The third party is one of our major suppliers. The guaranty strengthens our relationship with the supplier and enables us to negotiate for better terms for payments for our raw materials. Except as aforesaid, we have no material off-balance sheet arrangements.

### **Recent Accounting Pronouncements**

In March 2016, the FASB issued ASU 2016-09, Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The Board is issuing this Update as part of its Simplification Initiative. The objective of the Simplification Initiative is to identify, evaluate, and improve areas of generally accepted accounting principles (GAAP) for which cost and complexity can be reduced while maintaining or improving the usefulness of the information provided to users of financial statements. The areas for simplification in this Update were identified through outreach for the Simplification Initiative, pre-agenda research for the Private Company Council, and the August 2014 Post-Implementation Review Report on FASB Statement No. 123(R), Share-Based Payment. The areas for simplification in this Update involve several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Some of the areas for simplification apply only to nonpublic entities. For public business entities, the amendments in this Update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. For all other entities, the amendments are effective for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for any entity in any interim or annual period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity that elects early adoption must adopt all of the amendments in the same period. The adoption of this guidance is not expected to have a material impact on our condensed consolidated financial statements.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

#### ***Foreign Exchange Risk***

While our reporting currency is the US dollar, almost all of our consolidated revenues and consolidated costs and expenses are denominated in RMB. All of our assets are denominated in RMB except for some cash and cash equivalents. As a result, we are exposed to foreign exchange risk as our revenues and results of operations may be affected by fluctuations in the exchange rate between US dollar and RMB. If the RMB depreciates against the US dollar, the value of our RMB revenues, earnings and assets as expressed in our US dollar financial statements will decline. We have not entered into any hedging transactions in an effort to reduce our exposure to foreign exchange risk.

#### ***Inflation***

Although we are generally able to pass along minor incremental cost inflation to our customers, inflationary factors such as increases in the costs of our products and overhead costs may adversely affect our operating results. We do not believe that inflation in China has had a material impact on our financial position or results of operations to date, however, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling and distribution, general and administrative expenses as a percentage of net revenues if the selling prices of our products do not increase along with these increased costs.

### **Item 4. Controls and Procedures.**

As required by Rule 13a-15 of the Securities Exchange Act, as amended (the “Securities Act”), we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures, which were designed to provide reasonable assurance of achieving their objectives. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of March 31, 2016, our disclosure controls and procedures were effective at the reasonable assurance level to ensure (1) that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms, and (2) information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

#### ***Changes in Internal Control over Financial Reporting***

There were no changes with respect to our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting in the quarterly period ended March 31, 2016.
