Item 2.02 Results of Operations and Financial Condition.

On January 26, 2006, Simpson Manufacturing Co., Inc. announced its fourth quarter 2005 earnings in a press release reproduced below:

SIMPSON MANUFACTURING CO., INC. ANNOUNCES FOURTH QUARTER EARNINGS

Dublin, CA -- Simpson Manufacturing Co., Inc. (the Company) announced today that its 2005 fourth quarter net sales increased 21.6% to \$203.9 million as compared to net sales of \$167.7 million for the fourth quarter of 2004. Net income increased 22.8% to \$21.6 million for the fourth quarter of 2005 as compared to net income of \$17.6 million for the fourth quarter of 2004. Diluted net income per common share was \$0.44 for the fourth quarter of 2005 as compared to \$0.36 for the fourth quarter of 2004. In 2005, net sales increased 21.2% to \$846.3 million as compared to net sales of \$698.1 million in 2004. Net income increased 20.7% to \$98.4 million in 2005 as compared to net income of \$81.5 million in 2004. Diluted net income per common share was \$2.02 in 2005 as compared to \$1.67 in 2004. Included in the 2005 results is a gain of \$2.0 million resulting from the sale, for \$4.0 million, of the Company s engineering laboratory in San Leandro, California. The laboratory is being relocated to the property in Pleasanton, California, that the Company purchased in May 2005.

In the fourth quarter of 2005, sales growth occurred throughout North America and continental Europe. Sales were down in the UK. The growth rates in the United States were highest in the southern, midwestern and western regions, including California. Simpson Strong-Tie s fourth quarter sales increased 19.5% over the same quarter last year, while Simpson Dura-Vent s sales increased 32.9%. Contractor distributors were the fastest growing Simpson Strong-Tie sales channel. The sales increase was broad based across most of Simpson Strong-Tie s major product lines. Seismic and engineered wood products had the highest percentage growth rates in sales. Anchor systems sales showed solid growth during the fourth quarter of 2005 compared to the fourth quarter in 2004. Sales of Simpson Strong-Tie s Strong-Wall product line was flat as compared to the fourth quarter of 2004. Sales of Simpson Dura-Vent s pellet vent and chimney product lines increased significantly in the fourth quarter of 2005 and sales of its gas vent products also increased. The Company believes that the sales increases in pellet vent and chimney products may be the result of the increased use of alternative fuel appliances due to higher natural gas prices. Direct-vent products, designed for use with natural gas burning appliances, decreased slightly compared to the fourth quarter of 2004.

Income from operations increased 17.9% from \$27.7 million in the fourth quarter of 2004 to \$32.7 million in the fourth quarter of 2005, while gross margins decreased from 38.2% in the fourth quarter of 2004 to 35.9% in the fourth quarter of 2005. This decrease in gross margins was primarily due to increased material costs, mainly steel, which increased at a faster rate than the sales price increases that the Company put in place during 2004 and early 2005. The Company s raw material inventory decreased by 29.1% from balances as of December 31, 2004, while its in-process and finished goods inventory increased by 15.2% over the same period, but raw material inventories have increased during the fourth quarter. As a result of high raw material and energy prices and increased demand in the aftermath of hurricane Katrina, the Company believes that steel prices are likely to increase in the near term and increased its purchasing effort early in the fourth quarter to build inventory in anticipation of higher steel prices. If steel prices continue to increase and the Company is not able to increase its prices sufficiently, the Company s margins could deteriorate further.

Selling expenses increased 6.1% from \$16.3 million in the fourth quarter of 2004 to \$17.3 million in the fourth quarter of 2005. The increase was driven primarily by a \$0.7 million increase in promotional activities and a \$0.5 million increase in commissions paid to sales agents, the majority of which was related to the increase in Simpson Dura-Vent s fourth quarter sales. General and administrative expenses increased 14.3% from \$20.4 million in the fourth quarter of 2004 to \$23.3 million in the fourth quarter of 2005. The increase was primarily due to an increase in cash profit sharing of \$2.3 million, as a result of increased operating profit, and an increase in stock compensation costs of \$0.2 million. Interest income, net of interest expense, increased \$0.8 million in the fourth quarter of 2005 as compared to the fourth quarter of 2004 primarily as a result of higher cash balances and interest rates. The tax rate was 36.0% in the fourth quarter of 2005, down from 36.9% in the fourth quarter of 2004. The decrease was primarily due to lower taxable income as a result of the manufacturing deduction for qualified production activity income under the American Jobs Creation Act of 2004. In October 2005, the Company also received a refund, with interest, totaling \$0.7 million for state taxes paid related to the 1998 and 1999 tax years.

In 2005, sales growth occurred throughout North America and continental Europe. Sales in the UK decreased slightly. The growth in the United States was strongest in the southern and western regions, other than California. Sales in California were strong after a slow start early in the year when heavy rains, particularly in southern California, slowed construction activity. Simpson Strong-Tie s 2005 sales increased 22.4% over its 2004 sales, while Simpson Dura-Vent s sales increased 12.7%. Lumber dealers were the fastest growing Simpson Strong-Tie sales channel. The sales increase was broad based across most of Simpson Strong-Tie s major product lines. Sales of Quik Drive products contributed significantly to the increase. Seismic and high wind products, engineered wood and anchor systems products had the highest percentage growth rates in sales. Sales of Simpson Strong-Tie s Strong-Wall product line, with a substantial share of its sales in California, decreased from 2004 primarily due to the slow sales in the first quarter of 2005. Sales of Simpson Dura-Vent s pellet vent and chimney products increased in 2005, primarily due to their performance in the second half of the year. Direct-vent products decreased compared to 2004 while sales of its gas vent products were flat.

Income from operations increased 17.2% from \$131.2 million in 2004 to \$153.7 million in 2005 while gross margins decreased from 40.2% in 2004 to 37.4% in 2005. This decrease was primarily due to increased material costs, mainly steel, which increased at a faster rate than the sales price increases that the Company put in place during 2004 and early 2005. The material cost increase was offset slightly by improved absorption of the Company s fixed overhead costs, primarily due to the increased sales volume.

Selling expenses increased 9.3% from \$58.9 million in 2004 to \$64.3 million in 2005, primarily due to increased costs associated with the addition of sales and marketing personnel of \$2.7 million, including those associated with the acquisition of the assets of Quik Drive, U.S.A., Inc. and Quik Drive Canada, Inc. and 100% of the equity of Quik Drive Australia Pty. Limited (collectively—Quik Drive—). In addition, there was an increase of \$0.8 million in promotional activities and an increase of \$0.8 million in commissions paid to sales agents, the majority of which was related to the increase in Simpson Dura-Vent—s sales. General and administrative expenses increased 10.2% from \$91.0 million in 2004 to \$100.3 million in 2005, primarily due to an increase in cash profit sharing of \$3.7 million, as a result of increased operating profit, and an increase in stock compensation costs of \$0.9 million. In addition, there was an increase in costs associated with the addition of administrative personnel of \$1.9 million and an increase in amortization of intangible assets of \$1.4 million, both of which were associated primarily with the Quik Drive acquisition. Interest income, net of interest expense, increased \$1.2 million in 2005 primarily as a result of higher cash balances and interest rates. The tax rate was 36.8% in 2005, down from 38.1% in 2004. The decrease was primarily due to lower taxable income as a result of the manufacturing deduction for qualified production activity income under the American Jobs Creation Act of 2004.

Investors, analysts and other interested parties are invited to join the Company s conference call on Friday, January 27, 2006, at 6:00 am, Pacific Time. To participate, callers may dial 800-362-0571. The call will be webcast simultaneously as well as being available for one month through a link on the Company s website at www.simpsonmfg.com.

This document contains forward-looking statements, based on numerous assumptions and subject to risks and uncertainties. Although the Company believes that the forward-looking statements are reasonable, it does not and cannot give any assurance that its beliefs and expectations will prove to be correct. Many factors could significantly affect the Company's operations and cause the Company's actual results to be substantially different from the Company's expectations. Those factors include, but are not limited to: (i) general economic and construction business conditions; (ii) customer acceptance of the Company's products; (iii) materials and manufacturing costs; (iv) the financial condition of customers, competitors and suppliers; (v) technological developments; (vi) increased competition; (vii) changes in capital market conditions; (viii) governmental and business conditions in countries where the Company's products are manufactured and sold; (ix) changes in trade regulations; (x) the effect of acquisition activity; (xi) changes in the Company's plans, strategies, objectives, expectations or intentions; and (xii) other risks and uncertainties indicated from time to time in the Company's filings with the Securities and Exchange Commission. Actual results might differ materially from results suggested by any forward-looking statements in this report. The Company does not have an obligation to publicly update any forward-looking statements, whether as a result of the receipt of new information, the occurrence of future events or otherwise.
