The Replacement Ratio was freely negotiated and agreed upon by the independent parties and reflects, in an adequate manner, the best evaluation of Nova CPFL and CPFL Renováveis. Said values took into account the economic value of each one of the companies, ascertained by the respective administrations, considering the nature of their activities, as well as the economic, operational and financial premises applicable to the companies.

The Replacement Ratio was subject to revision and analysis performed by Deutsche Bank S.A. – Banco Alemão, substantiated by opinion issued on May 23, 2011. Said opinion concluded that the Replacement Ratio was considered, by Deutsche Bank, fair to CPFL from a financial point of view.

The shareholders of Nova CPFL will be attributed with, in substitution of one hundred percent (100%) of the shares issued by Nova CPFL of its ownership, to become extinct as of the Merger, a total of seven hundred and thirty three million, one hundred and forty one thousand and seventy seven (733,141,077) new common issued shares of CPFL Renováveis, which will grant equal rights to those granted by the other common shares issued by CPFL Renováveis existent today, including the right of obtaining, in their integral value, dividends and/or interest on capital to be announced by CPFL Renováveis from the issuance date of said shares.

CPFL's contribution for the Merger occurred through the transfer of its control of the CPFL's Assets, listed below, to Nova CPFL that, by means of the Merger, became controlled by CPFL Renováveis.

Furthermore, as provided in the Association Agreement, considering that the acquisition of the SIIF 's Assets was not concluded up to the moment of implementation of the Association, CPFL Brasil and CPFL Geração shall carry out a capital increase in the amount of three hundred and eighty four million, one hundred and ninety six thousand, six hundred and fifty reais (BRL 384,196,650.00) to CPFL Renováveis, by means of the issuance of one hundred and eighty million, three hundred and thirty four thousand, two hundred and twenty two (180.334.222) new common shares of CPFL Renováveis (“**Additional Capital Increase**”). Through the Merger and the Additional Capital Increase, CPFL Geração and CPFL Brasil will hold 54.5% of the equity interest of ERSA.

Moreover, if SIIF's Assets are acquired, CPFL Brasil must transfer the necessary funds for the referred acquisition to CPFL Renováveis, and then CPFL Geração and CPFL Brasil will hold 63.58% of the voting and total equity interest of the Company.

5. *Business Purpose*

Considering that Smita and ERSA are companies in the same line of business, the association between them will consolidate their position as leaders in the renewable energy sector, as well as provide synergic gains resulting from the unification of the activities of the companies, which will provide a more efficient structure for developing their businesses, with potential savings of technical costs, supply costs, and other general and administrative costs, as well as enable greater growth and profitability in the businesses developed by the Companies.

The unification of the ownership and management, as well as the integration of the skills of each one of the Companies with the Merger will result in a strengthening of ERSA's and Smita's position in the Brazilian renewable energies sector, consolidating their operations in the main geographical regions of the country.

6. *Administrative Plan*

The implementation of this Merger will result in the creation of a company with 1.417 MW of power in operation and under construction (if taking into account the SIIF's Assets), with striking presence in the three main renewable energy technology sectors currently under development in the country – wind farms, small hydro power plants (PCHs) biomass thermoelectric power plants.

7. *Management Statement*

In view of the aforementioned, CPFL's management recommends the approval of the Merger, understanding that the merger of the two companies will consolidate its position as leaders in the renewable energies sector in Brazil, as well as promote synergic gains resulting from the unification of the companies' activities, which will gain a more efficient structure for developing their businesses with potential savings of technical costs, supply costs, and other general and administrative costs, as well as enable greater growth and profitability in the businesses developed by the Companies.

8. Valuation of Investment and Right To Withdraw

The Company hired **Apsis Consultoria Empresarial Ltda.**, with head office at Rua da Assembleia, No. 35, 12º floor, in the city of Rio de Janeiro, State of Rio de Janeiro, Brazil, enrolled with CNPJ/MF under nº 27.281.922/0001-70 ("**Valuator**") to carry out an valuation of ERSA, in accordance with its pre-Merger status, taking into account the valuation methodology set forth in Article 256 of Law No. 6.404/76. The valuation report was prepared by the Valuator based on ERSA's balance sheet of June 31, 2011 ("**Appraisal Report**") and is attached to this proposal as Schedule III.

A few conclusions were drawn based on the aforementioned Appraisal Report:

8.1. Acquisition Price

For purposes of verifying the calculation criteria established in Article 256 of Law No. 6.404/76, the value attributed to ERSA was of BRL 1.6389 billion, taking into account that the assets involved in the operation were evaluated in BRL 4.5 billions, as presented in the material fact published by the Company on April 19, 2011.

8.2. Average Price

CPFL Renováveis does not trade shares in the stock market. Accordingly, the criteria set forth in Article 256, II, a, of Law No. 6.404/76 for establishing the average price of shares in the stock market, during the ninety (90) days prior to the operation date, does not apply to the operation submitted for ratification of the shareholders of the Company.

8.3. Net Equity at Market Price

As the Appraisal Report stated, the net equity value of each share of CPFL Renováveis, valued at market price in June 31, 2011, is of BRL 1.94

8.4. Net Profit

CPFL Renováveis is a company in the pre-operational stage and, as such, has no profit ascertained in the last two fiscal years. Accordingly, the criteria prescribed in Article 256, II, c, of Law No. 6.404/76 does not apply to the operation submitted for ratification of the shareholders of the Company.

8.5. Conclusion

In view of the features listed and calculated above, when applicable, the criteria to calculate the relationship between the average price of the share and share of CPFL Renováveis calculated at market value is the only remaining criteria, based on the Appraisal Report, as follows:

Average Share Price: R\$2.24

Share Price at the Market Value: R\$1.94

Ratio Between Values: 1.155x

Accordingly, considering that the average share price has not exceeded one and a half times the share valued at the market value, the approval of the presented operation does not grant the to dissident shareholders the right of withdrawal from the Company, as set forth in article 256, paragraph 2 of Law No. 6,404/76.

MATERIAL FACT

CPFL Energia S.A. (**CPFL Energia**) and ERSA Energias Renováveis S.A. (**ERSA**), pursuant to the provisions of Law No. 6,404/76 (as subsequently amended) and the Instructions of the Brazilian Securities Exchange Commission ("**CVM**") No. 358/02 and 319/99, jointly are disclosing the following:

1. Operation: To implement the merger of renewable energy assets and projects owned on one hand, by Smita Empreendimentos e Participações S.A. ("**Nova CPFL**" and together with ERSA, the "**Companies**") and, on the other hand, by ERSA, pursuant to the Material Fact released on April 19, 2011, the proposed merger of Nova CPFL by ERSA (the "**Merger**") shall be submitted for discussion by the shareholders of ERSA and Nova CPFL under the terms of Articles 224 to 227 of Law 6,404 of December 15, 1976, as amended (the "**Corporation Law**") pursuant to the terms and conditions set forth in the "*Protocol and Justification of Merger of Smita Empreendimentos e Participações S.A. by ERSA - Energias Renováveis S.A.*" signed by the Board of Executive Officers of both companies on the current date (the "**Protocol and Justification of the Merger**").

1.1. Description of Operation

The Merger operation shall be implemented within the context and on the terms and conditions set forth in the Joint Venture Agreement concluded between CPFL Energia and its subsidiaries CPFL Geração de Energia S.A. ("**CPFL Geração**") and CPFL Comercialização Brasil S.A. ("**CPFL Brasil**") (jointly, "**CPFL**") and the current shareholders of ERSA on April 19, 2011 (the "**Joint Venture Agreement**"), through which the terms and conditions were established under which CPFL and ERSA will implement the merger of their renewable energy assets and projects in Brazil (the "**Joint Venture**"), encompassing Wind Farms, Small Hydroelectric Power Plants ("**PCHs**") and Biomass Thermoelectric Power Plants (the "**Assets**").

As described in item 2 below, due to certain corporate restructuring actions implemented by CPFL, the Assets currently owned by CPFL are the property of Nova CPFL, whereas the Assets that are ERSA's property are owned and operated by this same company.

Thus, the Joint Venture shall be concluded between CPFL and the current shareholders of ERSA through the following actions:

(i) the approval and implementation of the Merger, subject to the terms of the Protocol and Justification of the Merger. Because of this Merger, (a) CPFL's Assets and those of ERSA shall be operated by ERSA, (b) the current shareholders of Nova CPFL, that is, CPFL Geração and CPFL Brasil, shall become ERSA shareholders through the issuance of 733,141,077 (seven hundred thirty-three million, one hundred forty-one thousand and seventy-seven) new ERSA's common stock, at the exchange ratio described in item 3 below; and (c) ERSA's name shall be changed to CPFL Energias Renováveis S.A.

("CPFL Renováveis" or "Company"); and

(ii) moreover, as provided for in the Joint Venture Agreement, assuming that the acquisition of renewable energy assets to be acquired by CPFL Brasil pursuant to the terms of the Contract for the Purchase and Sale of Shares of Jantus SL ("**SIIF Assets**") was not concluded up to the present moment, CPFL Brasil and CPFL Geração must conduct a capital increase in the amount of R\$ 384,196,650.00 (three hundred eighty-four million, one hundred ninety-six thousand, six hundred and fifty reais) in ERSA/CPFL Renováveis, through the issuance of 180,334,222 (one hundred and eighty million, three hundred thirty-four thousand, two hundred twenty-two) new common shares issued by ERSA/CPFL Renováveis and whose payment shall be in cash (the "**Additional Capital Increase**").

Upon the completion of the Merger and the Additional Capital Increase, CPFL Geração and CPFL Brasil will reach total shareholding in the capital stock of ERSA equivalent to 54.5% (fifty-four point five percent) of total and voting capital stock in that stock in that company.

CPFL Energia and ERSA furthermore are reporting that the assets of Jantus SL SIIF Énergias Brasil (four wind farms operating in the State of Ceará, totaling 210 MW and a portfolio of 412 MW in certified projects and 320 MW in non-certified projects), upon acquisition under the terms of the Material Fact released on April 7, 2011 shall become part of the portfolio of renewable energy generation assets of CPFL Renováveis. Thus, CPFL Brasil will contribute the funds necessary for conclusion of the acquisition of such assets by CPFL Renováveis, through which CPFL Geração and CPFL Brasil will become holders of common shares representing 63.00% of the Company's voting and total capital stock. Moreover, if the Quintanilha Machado wind project, also the subject of the aforementioned Material Fact, is acquired, CPFL Brasil will still contribute the funds necessary for such acquisition by CPFL Renováveis, so that CPFL Geração and CPFL Brasil become owners of common shares representing 63.58% of the Company's voting and total capital stock.

1.2.

Objectives and Benefits

Whereas Nova CPFL and ERSA are companies in the same line of business, the management of Nova CPFL and ERSA approved the proposed Merger because they believe that the association between the Companies will consolidate their position as leaders in the renewable energy sector in Brazil, and will provide synergy gains resulting from the unification of the activities of the Companies, which will gain more efficient structures for the development of their businesses, with potential technical, procurement and other general and administrative cost savings, and

enable greater growth and profitability of the businesses developed by the Companies.

The unification of the ownership and management as well as the integration of competencies of each of the Companies through the Merger will result in strengthening the position of CPFL Renováveis in the Brazilian renewable energy market, consolidating its operations in key geographic regions of the country.

The implementation of this Joint Venture will result in creating a company with ,417 MW of power in operation and under construction (already including the SIIF Assets), with strong presence in the three main renewable energy technologies currently being developed in the country - Wind Farms, Small Hydroelectric Power Plants and Biomass Thermoelectric Power Plants.

1.3. Goodwill

There shall be no goodwill resulting from the Merger that could be amortized as a tax benefit under Brazilian tax law.

1.4. Costs

The estimated costs for the Joint Venture operation, including, without limit, for the realization of the Merger are approximately R\$ 18,000,000.00 (eighteen million reais), including publication, audit, assessment, consultant and attorney expenses.

1.5. Corporate Approvals

The terms and conditions of the Merger, as described in the Protocol and Justification of the Merger, shall be subject to the approval of the Extraordinary General Shareholders Meetings of Nova CPFL and ERSA to be held on August 24, 2011, under the terms of the decision taken at a meeting of the CVM Collegiate Board held on August 16, 2011, which waived the full application of Article 2 of CVM Instruction 319/99, particularly regarding the period of fifteen (15) days for the prior publication of the conditions of the Merger.

2. Corporate and Business Acts Preceding the Operation: On April 19, 2011, CPFL Energia and its subsidiaries CPFL Geração and CPFL Brasil (together, "**CPFL**") entered into a Joint Venture Agreement with ERSA's shareholders. Under the terms of the aforementioned Agreement, the following acts were carried out, aiming at the completion of the Merger:

- (i) On July 18, 2011, CPFL Geração carried out the segregation of the PCHs they directly owned, contributing these assets to the capital of Mohini Empreendimentos e Participações Ltda., Chimay Empreendimentos e Participações Ltda. and Jayaditya Empreendimentos e Participações Ltda., companies under its direct control (the "**PCH Companies**");
 - (ii) Moreover, on the same day, July 18, 2011, CPFL Geração and CPFL Brasil, as the sole shareholders of Nova CPFL, made a capital contribution to the aforementioned company in order to transfer all of its Assets to Nova CPFL, including the PCH Companies; and
-

(iii) On this date, an Extraordinary General Shareholders Meeting of ERSA was held, which approved, synthetically, the cancellation of all signature bonuses issued by ERSA on March 2, 2007, and the conversion, into ERSA's common shares, of all debentures issued by ERSA pursuant to the terms of the Private Deed of Private Issue of First Issue Debentures, dated August 15, 2007 and Private Deed of Private Issue of Second Issue Debentures, dated December 23, 2008, with the consequent increase of ERSA's capital stock resulting from this conversion.

Notwithstanding the foregoing, the proposed Merger was approved (a) by the Board of Directors of CPFL Energia, in its role as the controlling shareholder of CPFL Brasil and CPFL Geração at a meeting held on August 23, 2011; (b) by the Board of Directors of CPFL Geração at a meeting held on August 23, 2011; (c) by the General Shareholders Meeting of CPFL Brasil, held on August 23, 2011; and (d) by the Board of Directors of ERSA at a meeting held on August 23, 2011 in accordance with the proposals received from their respective Boards of Executive Officers.

3. Exchange Ratio: CPFL Geração and CPFL Brasil, as the sole shareholders of Nova CPFL, shall be assigned for each common share issued by Nova CPFL, 0.7515 (seventy five tenths and fourteen thousandths) new common shares issued by ERSA (the "**Exchange Ratio**"), which shall confer equal rights to those conferred by the remaining ERSA's common shares existing today, including full payment of dividends and/or interest on shareholders' equity that may be declared by ERSA from the date of issue of such shares. The Exchange Ratio was freely negotiated, agreed and decided between the administrations of Nova CPFL and ERSA, in an independent and isonomic manner and adequately reflects the best assessment of Nova CPFL and ERSA.

The Exchange Ratio was subject to review and analysis conducted by Deutsche Bank S.A. Banco Alemão with head offices in the City of São Paulo, State of São Paulo, at Avenida Brigadeiro Faria Lima, 3900, 13th, 14th and 15th floors, CEP 04538-132, federal taxpayer registration CNPJ/MF 62.331.228/0001-11 ("**Deutsche Bank**"), embodied in the opinion issued on May 23, 2011. That opinion concluded that the Exchange Ratio was accepted by Deutsche Bank to be fair to CPFL from the financial point of view.

Thus, pursuant to the discussions held between the Companies, it is considered to be a fair operation for the Merger herein proposed.

4. Comparison of political and economic advantages between Nova CPFL's and ERSA's shares: The following chart reflects the differences between the political and economic advantages between Nova CPFL's and ERSA's shares that shareholders shall receive in return for effecting the transactions described herein.
