COMMENTS ON THE INDIVIDUAL PERFORMANCE

The comments on performance are expressed in thousands of Reais, unless otherwise stated.

Profit or loss analysis

CPFL Energia (Parent company)

This quarter, the decrease in profit was R\$ 100,248 when compared with the same period of the prior year (R\$ 331,813 in 2017 and R\$ 231,565 in 2016) mainly due to the decrease in equity interests in subsidiaries, associates and joint ventures.

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Gross operating revenue

Gross operating revenue for the 3rd quarter of 2017 was R\$ 11,073,189, an increase of 50.1% (R\$ 3,696,197) compared with the same period of the prior year.

The main factors of this variation were:

- Increase of 11.6% (R\$ 635,849) in the electricity sales to final consumer, justified by the beginning of consolidation of RGE Sul (R\$ 864,251) and increase of 4.9% in the volume of energy sold (R\$ 266,425), offset by the decrease in average tariffs of 8.6% (R\$ 494,826), mainly from the decrease in revenue due to the consolidated negative effects of the Annual Tariff Adjustment (RTA);
- Increase of 109% (R\$ 1,104,081) in the electricity sales to wholesalers, mainly due to:
 - Increase of R\$ 849,091 in the sales of energy in the spot market in CCEE (Electric Energy Trading Chamber), basically due to an increase in the average price (R\$ 762,177) resulting from an increase in the price of differences settlement (“PLD”) in the quarter, and the beginning of consolidation of RGE Sul (R\$ 147,583), partially offset by a decrease in the volume sold of 31.5% (R\$ 60,609);
 - Increase of 36.9% (R\$ 254,989) in other concessionaires and licensees, basically due to the increase in the average price of 64.7% (R\$ 365,972), partially offset by a decrease in the amount sold of 17.2% (R\$ 117,298);
- Decrease of 323.1% (R\$ 1,802,977) in sector financial liability (an expense of R\$ 558,007 in 2016 for an income of R\$ 1,244,970 in 2017), due to: (i) realization of the recorded liability (R\$ 338,572), mainly related to costs of electric energy and CDE, and the realization of assets in the third quarter of 2016 (R\$ 339,476), and (ii) recording of asset (R\$ 906,397), mainly related to costs of electric energy, associated to the recognition of liabilities in the third quarter of 2016 (R\$ 218,532).
- Increase of 11% (R\$ 123,947) in other operating revenues, basically due to the decrease in (i) CDE contribution – injunctions and others (R\$ 156,992), (ii) TUSD of free consumers (R\$ 62,882) and (iii) adjustment of the concession financial asset (R\$ 38,244) due to the lower IPCA in the third quarter of 2017, partially offset by the beginning of consolidation of RGE Sul (R\$ 129,955).

Ø Volume of energy sold by distributors

In the 3rd quarter of 2017, the amount of energy billed to captive consumers in the period, including other licensees and excluding the acquisition of RGE Sul, presented a decrease of 3.0% when compared with the same quarter of the prior year.

The comments below regarding the performance by consumption class do not consider the acquisition of RGE Sul:

- The consumption of the residential class represents 42.3% of the total market supplied by distributors. Despite the positive performance of income mass, which, in the accumulated of 12 months (until July 2017) recorded an increase of 2.7%.
- The commercial class, which represents 18.8% of the total market supplied by distributors, presented a drop of 9.6% in the 3rd quarter of 2017 in relation to the same period of the prior year. The result reflects the client's migration to the free market.
- The industrial class, which represents 15.1% of the total market supplied by distributors, reported a fall of 19.6% in the 3rd quarter of 2017 in relation to the same period of the prior year. Such performance is a direct consequence of the client's migration to the free market.
- The other consumption classes (rural, public administration, public utilities and licensees) participate with 23.8% of the total market supplied by distributors. Such classes presented a growth of 3.3% in the 3rd quarter of 2017 in relation to the same period of the prior year. This performance reflects the growth in consumption of classes: (i) Rural, due to a rainfall period below the average level and lower than the 3rd quarter of 2016; and (ii) Public Services.
- Regarding the amount of energy sold and transported in the concession area, which impacts both the billed supply (captive market) and the TUSD collection (free market), there was an increase of 3.2% when compared with the same period of the prior year. The variation by class presented an increase in all consumption classes: 4.4% in the residential class, 1.0% in the commercial class, 2.8% in the industrial class and 4.4% in other classes.

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Ø Tariffs

In the 3rd quarter of 2017, energy supply tariffs decreased on average 8.6%. This occurred mainly due to the effects of the annual tariff adjustments and periodic tariff review, as follows:

Distributor	Month	RTA	2017	2016	
			Average effect perceived by consumers (a)	RTA / RTP	Average effect perceived by consumers (a)
CPFL Paulista	April	-0.80%	-10.50%	9.89%	7.55%
CPFL Piratininga	October (b)	7.69%	17.28%	-12.54%	-24.21%
RGE	June	3.57%	5.00%	-1.48%	-7.51%
RGE Sul	April	-0.20%	-6.43%	3.94%	-0.34%
CPFL Santa Cruz	March	-2.44%	-8.42%	22.51%	7.15%
CPFL Leste Paulista	March	-1.20%	-4.15%	21.04%	13.32%
CPFL Jaguari	March	-0.74%	-2.56%	29.46%	13.25%
CPFL Sul Paulista	March	-3.12%	-10.73%	24.35%	12.82%
CPFL Mococa	March	-0.95%	-3.28%	16.57%	9.02%

(a) represents the average effect perceived by the consumer, as a result of the elimination from the tariff base of financial components that had been added in the prior tariff adjustment (information not reviewed by the independent auditors).

(b) as described in the note 34.1 to the interim financial statements, there was a RTA for the subsidiary CPFL Piratininga in October 2017.

Deductions from operating revenue

Deductions from operating revenue in the 3rd quarter of 2017 were R\$ 3,289,243, an increase of 26.8% (R\$ 695,065) in relation to the same quarter of 2016, which mainly occurred due to:

- Beginning of consolidation of RGE Sul (R\$ 487,505);
- Increase of 30.7% (R\$ 191,955) on PIS and COFINS, mainly due to the increase in the basis of calculation of these taxes (energy supply).
- Increase of 9.5% (R\$ 81,526) in sector charges, basically due to an increase in the recognition of effects of tariff flags and others (R\$ 176,066), partially offset by a decrease in Energy Development Account – CDE (R\$ 114,493); and
- Decrease of 6.1% (R\$ 67,217) on ICMS, mainly due to the decrease in billed supply.

Cost of electric energy

The cost of electric energy this quarter amounted to R\$ 5,246,084, an increase of 89.4% (R\$ 2,275,571) in relation to the same period of the prior year, mainly justified by:

- Increase of 93.6% (R\$ 2,307,051) in electric energy purchased for resale, due to:
 - the beginning of consolidation of RGE Sul (R\$ 607,366)
 - increase of 6.4% (R\$ 157,587) in the amount of energy purchased;
 - increase of 58.8% (R\$ 1,542,098) in average price due to the increase in the PLD.
- Increase of 55.3% (R\$ 168,520) in transmission and distribution system usage charges, basically due to (i) the beginning of consolidation of RGE Sul (R\$ 86,305), and (ii) an increase in the Itaipu basic network (R\$ 205,034) and transmission charges (R\$ 41,932), partially offset by a decrease in the system service charge – ESS and the reserve energy charge – EER (R\$ 153,108).

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Operating costs and expenses

Disregarding the cost of construction of the concession infrastructure, Operating Costs and Expenses this quarter amounted to R\$ 1,139,392, an increase of 19.5% (R\$ 186,063) compared with the same period of the prior year. This variation is mainly due to:

- **Personnel:** increase of 26% (R\$ 67,991), mainly due to (i) beginning of consolidation of RGE Sul (R\$ 35,978) and (ii) effects of the collective labor agreement and increase in the number of employees;
- **Private pension plan:** increase of 20.4% (R\$ 4,825) due to the recognition of the impact of the actuarial report for 2017;
- **Materials:** increase of 7.2% (R\$ 4,686), basically due to the beginning of consolidation of RGE Sul (R\$ 7,637).
- **Third-party services:** increase of 11% (R\$ 17,290), mainly due to the beginning of consolidation of RGE Sul (R\$ 30,921), partially offset by a decrease in (i) machinery and equipment maintenance (R\$ 6,618) and (ii) services related to transmission (R\$ 5,801);
- **Depreciation and amortization:** increase of 23.3% (R\$ 59,126), basically due to (i) beginning of consolidation of RGE Sul (R\$ 26,929), (ii) increase of R\$ 18,636 in the subsidiary CPFL Renováveis mainly due to the beginning of operations of renewable generation facilities in the period and (iii) increase in other distribution subsidiaries basically due to an increase in intangible assets of the distribution infrastructure (R\$ 12,622);
- **Amortization of the concession intangible asset:** increase of 14.3% (R\$ 8,929) mainly due to the beginning of consolidation of RGE Sul (R\$ 8,149);
- **Other expenses:** increase of 17.8% (R\$ 23,215), mainly due to (i) beginning of consolidation of RGE Sul (R\$ 3,842), (ii) judicial and legal expenses and indemnities (R\$ 14,382) and losses on disposal, retirement and other non-current assets (R\$ 14,882), partially offset by a decrease in the allowance for doubtful accounts (R\$ 8,901).

Finance income (expenses)

Net finance result this quarter presented an expense of R\$ 343,400, compared with R\$ 416,893 in the same period of 2016, a decrease of 17.6% (R\$ 73,493). Such variation is basically due to:

- Decrease in finance income of 28.2% (R\$ 80,758), basically due to the decrease in income from financial investments (R\$ 95,747), partially offset by the beginning of consolidation of RGE Sul (R\$ 15,831);
- Decrease in finance expenses of 21.9% (R\$ 154,250), mainly due to interest on debts and adjustment for inflation and exchange rate changes (R\$ 222,943), partially offset by the beginning of consolidation of RGE Sul (R\$ 52,945).

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Share of profit (loss) of investees

The variation in share of profit (loss) of investees refers to the effect of the share of profit (loss) of joint ventures, as follows:

	3rd Quarter	
	2017	2016
Epasa	20,924	10,942
Baesa	8,638	172
Enercan	26,328	31,025
Chapecoense	34,286	26,833
Amortization of value-added of assets	(145)	(145)
Total	90,031	68,826

- **EPASA:** increase of R\$ 9,982 mainly due to the increase in the volume of energy generated (456GWh in the 3rd quarter of 2017 and 120 GWh in the 3rd quarter of 2016).
- **Chapecoense:** increase of R\$ 7,453 mainly due to the reduction of finance expenses of R\$ 7,373, related to an adjustment in the Use of Public Asset, caused by a decrease in the adjustment indexes.

Social Contribution and Income Tax

Expenses on taxes on profit in the 3rd quarter of 2017 were R\$ 156,207, an increase of 33% (R\$ 38,727) in relation to the one recorded in the same quarter of 2016, which reflects mainly the effects of variation in profit before taxes.

Profit for the Period and EBITDA

Due to the factors described above, the profit for this quarter was R\$ 390,197, 44.9% (R\$ 120,924) higher than the one of the same period of 2016.

EBITDA (Earnings before depreciation, amortization, finance income and expenses, and income tax and social contribution) for the 3rd quarter of 2017 was R\$ 1,274,571, 13.8% (R\$ 154,214) higher than the one determined in the same period of 2016.

(*) Information not reviewed by the independent auditors

Gross Operating Revenue

The gross operating revenue of the 3rd quarter of 2017 was R\$1,109,355, an increase of R\$474,855 (74.8%) in relation to the same quarter of 2016, mainly explained by the (i) increase in the amount of energy sold to free consumers and concessionaires (1,849 GWh – R\$ 329,611); (ii) gain in operations of CCEE due to an increase in the amount of energy traded (280.1 GWh – R\$ 117,946) and increase in average price of PLD (R\$ 45,101); partially offset by (iii) contractual indemnities by postponement of energy (R\$ 22,503).

Cost of Electric Energy

Cost of electric energy of the 3rd quarter of 2017 was R\$ 932,845, an increase of R\$ 438,371 (88.7%) in relation to the same quarter of 2016, basically explained by bilateral contracts: increase in volume purchased (2,108 GWh - R\$ 352,359) and in average price of 21.5% (R\$99,417).

Finance Income (expenses)

The finance result determined in the 3rd quarter of 2017 was a finance cost of R\$ 4,179, an increase of R\$ 8,786 in relation to the same quarter of 2016, mainly explained by the 3rd issue of debentures in the 4th quarter of 2016 (R\$ 11,313), partially offset by the gain on the fair value adjustment of derivatives and debts (R\$ 4,402).

The share of profit of investees for the 3rd quarter was negative by R\$ 6,534, due to the equity interest in the subsidiary CPFL Jaguariúna.

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Profit for the Period and EBITDA

The result determined in the 3rd quarter of 2017 was a profit of R\$ 18,142, a decrease of R\$ 20,297 (52.8%) when compared with the same quarter of 2016.

EBITDA (Earnings before finance result, income tax and social contribution and depreciation and amortization) for the 3rd quarter of 2017 was R\$ 34,496, a decrease of R\$ 20,164 (36.9%) when compared with the same quarter of 2016, which was R\$ 54,660 (information not reviewed by the Independent Auditors).

a) CPFL Geração has 51.54% of the assured energy and power of the Serra da Mesa hydropower plant, which concession is owned by Furnas. The plants Carioba and Cariobinha are inactive while they await the position of the Ministry of Mines and Energy on the early termination of their concession and are not included in the table.

b) Paulista Lajeado holds a 7% interest in the installed power of Investco S.A. (5.94% interest in total capital).

c) CPFL Renováveis has operations in the states of São Paulo, Minas Gerais, Mato Grosso, Santa Catarina, Ceará, Rio Grande do Norte, Paraná and Rio Grande do Sul and its main activities are: (i) holding investments in companies of the renewable energy segment; (ii) identification, development, and exploration of generation potentials; and (iii) sale of electric energy. At September 30, 2017, CPFL Renováveis had a portfolio of 113 projects of 2,509.5 MW of installed capacity (2,102.6 MW in operation).

- Hydropower generation: 47 SHP's (555.3 MW) with 39SHPs in operation (423 MW) and 8 SHPs under development (132.3 MW);
- Wind power generation: 57 projects (1,583.1 MW) with 45 projects in operation (1,308.5 MW) and 12 projects under construction/development (274.6 MW);
- Biomass power generation: 8 plants in operation (370 MW);
- Solar power generation: 1 solar plant in operation (1.1 MW).

d) The joint venture Chapecoense has as its direct subsidiary Foz do Chapecó and fully consolidates its financial statements.

(2) PRESENTATION OF THE INTERIM FINANCIAL STATEMENTS

2.1 Basis of preparation

This interim individual (Parent Company) and consolidated financial statement has been prepared and is being presented in accordance with the International Accounting Standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standard Board – IASB, and also based on standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Quarterly Financial Information (ITR), in accordance with Technical Pronouncement CPC 21 (R1) - Interim Financial Reporting.

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

The Company and its subsidiaries (“Group”) also follows the guidelines of the Accounting Manual of the Brazilian Electricity Sector and the standards laid down by the Brazilian Electricity Regulatory Agency (Agência Nacional de Energia Elétrica – ANEEL), when these do not conflict with the accounting practices adopted in Brazil and/or with international Financial Reporting.

The accounting practices and criteria adopted in preparing this individual and consolidated interim financial statements are consistent with those adopted in preparing the financial statements at December 31, 2016, and therefore should be read together.

Management states that all significant information specific to interim financial statements is disclosed and corresponds to the information used in managing the Group.

The interim financial statements was approved by Management and authorized for issue on November 6, 2017.

2.2 Basis of measurement

The interim financial statements has been prepared on the historical cost basis except for the following items recorded in the statements of financial position: i) derivative financial instruments measured at fair value, ii) financial instruments measured at fair value through profit or loss, and iii) available-for-sale financial assets measured at fair value. The classification of the fair value measurement in the level 1, 2 or 3 categories (depending on the degree of observance of the variables used) is presented in note 32 – Financial Instruments.

2.3 Use of estimates and judgments

The preparation of the interim financial statements requires the Group’s management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

By definition, the accounting estimates are rarely the same as the actual results. Accordingly, the Group’s management review the estimates and assumptions on an ongoing basis, based on previous experience and other relevant factors. Adjustments resulting from revisions to accounting estimates are recognized in the period in which the estimates are revised and applied on a prospective basis.

The main accounts that require the adoption of estimates and assumptions, which are subject to a greater degree of uncertainty and may result in a material adjustment if these estimates and assumptions suffer significant changes in subsequent periods, are:

- Note 6 – Consumers, concessionaires and licensees (Allowance for doubtful accounts);
- Note 8 – Sector financial asset and liability (certain financial components that can start without prior methodology);
- Note 9 – Deferred tax assets and liabilities (recognition of assets: availability of future taxable profit against which the tax losses can be utilized);
- Note 10 – Concession financial asset (assumptions for fair value measurement);
- Note 11 – Other receivables (allowance for doubtful accounts);
- Note 13 – Property, plant and equipment (application of definite useful lives and key assumptions regarding recoverable amounts);
- Note 14 – Intangible assets (key assumptions regarding recoverable amounts);
- Note 18 – Private pension plan (key actuarial assumptions used in the measurement of defined benefit obligations);

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

- Note 21 – Provision for tax, civil and labor risks and escrow deposits (recognition and measurement: key assumptions on the probability and magnitude of outflow of resources);
- Note 25 – Net operating revenue (assumptions for measurement of unbilled supply and Distribution System Usage Tariff - TUSD); and
- Note 32 – Financial instruments (assumptions for fair value measurement).

2.4 Functional currency and presentation currency

The Group's functional currency is the Brazilian Real, and the individual and consolidated interim financial statements is being presented in thousands of reais. Figures are rounded only after sum-up of the amounts. Consequently, when summed up, the amounts stated in thousands of reais may not tally with the rounded totals.

2.5 Segment information

An operating segment is a component of the Company (i) that engages in operating activities from which it earns revenues and incurs expenses, (ii) whose operating results are regularly reviewed by Management to make decisions about resources to be allocated and assess the segment's performance, and (iii) for which individual financial information is available.

The Group's officers use reports to make strategic decisions, segmenting the business into: (i) electric energy distribution activities ("Distribution"); (ii) electric energy generation from conventional sources activities ("Generation"); (iii) electric energy generation activities from renewable sources ("Renewables"); (iv) energy commercialization activities ("Commercialization"); (v) service activities ("Services"); and (vi) other activities not listed in the previous items.

The presentation of the operating segments includes items directly attributable to them, as well as any allocations required, including intangible assets, see note 29 for further details.

2.6 Information on equity interests

The Company's equity interests in direct and indirect subsidiaries and joint ventures are described in note 1. Except for (i) the companies ENERCAN, BAESA, Chapecoense and EPASA, which use the equity method of accounting, and (ii) the investment measured at cost by the subsidiary Paulista Lajeado in Investco S.A., all other entities are fully consolidated.

At September 30, 2017 and December 31, 2016, and for the quarters and nine months periods ended September 30, 2017 and 2016, the noncontrolling interests in the consolidated balances refer to interests held by third parties in subsidiaries CERAN, Paulista Lajeado and CPFL Renováveis.

2.7 Statement of value added

The Company has prepared the individual and consolidated statements of value added (“DVA”) in conformity with technical pronouncement CPC 09 - Statement of Value Added, which are presented as an integral part of the interim financial statements in accordance with accounting practices adopted in Brazil and as supplementary information to the interim financial statements in accordance with IFRS, as this statement is neither provided for nor required by IFRS.

2.8 Restatements in the quarter and nine months period ended September 30, 2016 interim financial statements

As mentioned in note 2.8 to the financial statements at December 31, 2016, the Company and its electricity distribution subsidiaries, for a better presentation of their operating and financial performance, concluded that the adjustment of the expected cash flow of the indemnifiable financial asset of the concession of each distribution company, previously presented in the line item of finance income, within finance income (expenses), should be more properly classified in the group of operating income, together with the other income related to their core activity. This allocation reflects more accurately the electricity distribution business model and allows a better presentation regarding its performance.

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

According to the guidance in CPC 23 – Accounting Policies, Changes in Accounting Estimates and Errors, the Company and its subsidiaries changed their accounting policy previously adopted to an accounting policy that better reflects the business performance of the Company and its subsidiaries (for the reasons mentioned above) and, therefore, made the retrospective reclassifications in their corresponding information submitted for comparative purposes corresponding to the statements of profit or loss and value added, in relation to those originally issued on November 7, 2016.

The reclassifications made do not change the total assets, equity and profit for the period, or the statement of cash flows.

The statements of profit or loss and value added, for comparability purposes, are presented below:

Statement of profit or loss for the period

	3rd quarter 2016	Consolidated Reclassifications	3rd quarter 2016 (R\$ million)

(3) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim financial statements of the Group has been prepared based on the same accounting policies described in notes 3.1 to 3.18, disclosed in the financial statements for the year ended December 31, 2016.

(4) FAIR VALUE MEASUREMENT

A number of the Group's accounting policies and disclosures require the fair value measurement, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes based on the following methods. When applicable, additional information on the assumptions made in the fair value measurement is disclosed in the notes specific to that asset or liability.

Accordingly, the Group measures fair value in accordance with IFRS 13 / CPC 46, which defines the fair value as the price estimate for which an unforced transaction for the sale of the asset or transfer of the liability would occur between market participants under current market conditions at the measurement date.

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

- Property, plant and equipment and intangible assets

The fair value of property, plant and equipment and intangible assets recognized as a result of a business combination is based on market values. The fair value of these assets is the estimated value for which an asset could be exchanged on the valuation date between knowledgeable interested parties in an unforced transaction between market participants at the measurement date. The fair value of items of property, plant and equipment is based on the market approach and cost approaches using quoted market prices for similar items when available and replacement cost when appropriate.

- Financial instruments

Financial instruments measured at fair value are valued based on quoted prices in an active market, or, if such prices are not available, they are assessed using pricing models, applied individually to each transaction, taking into consideration future payment flows, based on the contractual conditions, discounted to present value at rates obtained from market interest curves, having as a basis, whenever available, information obtained from the websites of B3 S.A. - Brasil, Bolsa, Balcão (“B3”) and “Associação Brasileira das Entidades dos Mercados Financeiro e de Capitais – ANBIMA” (note 32) and also includes the debtor's credit risk rate.

Financial assets classified as available-for-sale refer to the right to compensation, to be paid by the Federal Government when the distribution concessionaires' assets are handed over at the end of the concession period. The methodology adopted for fair value measurement of these assets is based on the tariff review process for distributors. This process, conducted every four or five years according to each concessionaire, involves assessing the replacement price of the distribution infrastructure, in accordance with criteria established by the granting authority (“ANEEL”). This valuation basis is used for pricing the tariff, which is adjusted annually up to the next tariff review, based on the parameter of the main inflation indices.

Accordingly, at the time of the tariff review, each distribution concessionaire adjusts the position of the financial asset base for compensation at the amounts ratified by the granting authority and uses the Extended Consumer Price Index (“IPCA”) as the best estimate to adjust the original base to the adjusted value at subsequent dates, in accordance with the tariff review process.

(5) CASH AND CASH EQUIVALENTS

	Parent company		Consolidated	
	September 30, 2017	December 31, 2016	September 30, 2017	December 31, 2016
Bank balances	3,460	426	158,243	170,884
Short-term financial investments	125,156	64,548	3,673,913	5,994,112

Total tax debit	-	-	(1,267,570)	(1,324,134)

The expected recovery of the deferred tax assets recorded in noncurrent assets, arising from nondeductible temporary differences, tax benefit of merged intangible and income tax and social contribution losses, the breakdown of which is described in the financial statements at December 31, 2016, is based on the projections of future profits, approved by the Board of Directors and reviewed by the Fiscal Council. To reflect adequately the effective rate of the taxes on profit, deferred tax assets are recognized monthly on any losses for companies that have positive projections, in accordance with such studies.

9.2 Tax benefit of merged intangible asset

Refers to the tax credit calculated on the intangible assets derived from the acquisition of subsidiaries, as shown in the following table, which were merged and are recognized in accordance with the concepts of

CVM Instructions No. 319/1999 and No. 349/2001 and ICPC 09 (R2) - Individual Financial Statements, Separate Financial Statements, Consolidated Financial Statements and Application of the Equity Method. The benefit is being realized in proportion to the tax amortization of the merged intangible assets that originated them as per CPC 27 and CPC 04 (R1) - Clarification of acceptable methods of depreciation and amortization, over the remaining concession period, as shown in note 14.

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

(10) CONCESSION FINANCIAL ASSET

	Distribution	Transmission	Consolidated
At December 31, 2016	5,193,511	180,333	5,373,844
Current	-	10,700	10,700
Noncurrent	5,193,511	169,633	5,363,144
Additions	809,944	45,983	855,926
Adjustment of expected cash flow	97,155	-	97,155
Adjustment - financial asset measured at amortized cost	-	20,287	20,287
Cash inputs - RAP	-	(9,936)	(9,936)
Disposals	(25,850)	-	(25,850)
Business combination	(12,338)	-	(12,338)
At September 30, 2017	6,062,420	236,667	6,299,088
Current	-	11,437	11,437
Noncurrent	6,062,420	225,230	6,287,650

The balance refers to the financial asset corresponding to the right established in the concession agreements of the energy distribution (measured at fair value) and transmission (measured at amortized cost) companies to receive cash (i) through compensation at the time assets are handed over to the granting authority at the end of the concession, and (ii) the transmission companies' right to receive cash over the concession period through allowed annual revenue ("RAP").

For energy distribution companies, according to the current tariff model, the remuneration for this asset is recognized in profit or loss upon billing to consumers and the realization occurs upon receipt of the electric energy bills. Moreover, the difference to adjust the balance to the expected cash flow receipts at fair value (new replacement value - "VNR" - note 4) is recognized as a balancing item to the operating income account (note 25) in the statement of profit or loss for the period.

For energy transmission companies, the remuneration for this asset is recognized according to the internal rate of return, which takes into account the investment made, the allowed annual revenue ("RAP") to be received over the concession period, and the compensation to be received at the time assets are handed over to the granting authority. The adjustment of R\$ 20,287 is recognized against other operating revenues and income (R\$ 11,171 in the nine months period ended September 30, 2016).

The balances disclosed in the "Business Combinations" line refer to the complementary amounts related to the acquisition of RGE Sul, which final recognition occurred on September 30, 2017, according to note 12.5.

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Orders in progress: encompass costs and revenues related to ongoing decommissioning or disposal of intangible assets and the service costs related to expenditure on projects in progress under the Energy Efficiency and Research and Development programs. Upon the closing of the respective projects, the balances are amortized against the respective liability recognized in Other Payables (note 22).

Receivables – Eletrobras: refer to: (i) low-income subsidies amounting to R\$ 15,757 (R\$ 17,239 at December 31, 2016), (ii) other tariff discounts granted to consumers amounting to R\$ 211,186 (R\$ 164,396 at December 31, 2016), and (iii) tariff discounts – court injunctions amounting to R\$ 3,677 (R\$ 31,917 at December 31, 2016) - note 25.3.1.

In the nine months period ended September 30, 2017, the subsidiaries offset the receivables relating to the Eletrobrás account with the payables relating to the Energy Development Account (CDE) (note 19) amounting to R\$ 220,946, of which (i) R\$ 88,352 based on an injunction obtained in May 2015, and (ii) R\$ 132,595 authorized by Order No. 1,576/2016.

Equity Interests and voting capital	48.72%	25.01%	51.00%	53.34%	

Even holding more than 50% in Epasa and Chapecoense, the subsidiary CPFL Geração controls these investments jointly with other shareholders. The analysis of the classification of the type of investment is based on the Shareholders' Agreement of each joint venture.

The borrowings from the BNDES obtained by the joint ventures BAESA and Chapecoense establish restrictions on the payment of dividend to subsidiary CPFL Geração above the minimum mandatory dividend of 25% without the prior consent of the BNDES.

12.4.4 Joint operation

Through its wholly-owned subsidiary CPFL Geração, the Company holds part of the assets of the Serra da Mesa hydropower plant, located on the Tocantins River, in Goiás State. The concession and the right to operate the hydropower plant are held by Furnas Centrais Elétricas S.A. In order to maintain these assets operating jointly with Furnas (jointly operation), CPFL Geração was assured 51.54% of the installed power of 1,275 MW (657 MW) and the assured energy of mean 671 MW (mean 345.4 MW) until 2028 (information on energy capacity measurements not reviewed by the independent auditors).

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

12.5 Business combination - Acquisition of AES Sul Distribuidora Gaúcha de Energia S.A. (“AES Sul”)

On June 16, 2016, the Company disclosed in a Material Fact that it had entered into an agreement for the acquisition of 100% of the shares of AES Sul Distribuidora Gaúcha de Energia S.A. (“AES Sul”), currently RGE Sul, through its wholly-owned subsidiary CPFL Jaguariúna Participações Ltda., shares until then held by AES Guaíba II Empreendimentos Ltda. (“seller”), indirect wholly-owned subsidiary of The AES Corporation.

On August 5, 2016, the transaction was approved by CADE (Brazilian antitrust agency) and, on September 9, 2016, authorized by ANEEL (Brazilian Electricity Regulatory Agency).

The acquisition was completed on October 31, 2016 (“acquisition date”), after all the conditions precedent of the transaction were met, date in which the control of RGE Sul was taken over by CPFL Jaguariúna, the ownership of the shares was transferred and the payment was made. This acquisition resulted in a business combination in accordance with CPC 15 (R1) – “Combinação de Negócios” and IFRS 3 (R) – Business Combination since CPFL Jaguariúna started holding the control of RGE Sul.

The consideration initially transferred was R\$ 1,698,455, paid in cash, in a lump sum, at the acquisition date. This consideration was subsequently adjusted for changes in working capital and net debt of RGE Sul, occurred in the period between December 31, 2015 and the acquisition date, as per the amendment to the agreement. The final value of the consideration, considering the price adjustment, was R\$1,591,839.

RGE Sul is a publicly traded company engaged in providing public electricity distribution services in any forms, and these activities are regulated by ANEEL, linked to the Ministry of Mines and Energy. Additionally, RGE Sul is authorized to participate in programs that aim at other forms of energy, technologies and services, including operation of activities derived directly or indirectly from the use of assets, rights and technologies owned by it.

Its administrative headquarters are located at Avenida São Borja, 2801, Bairro Fazenda São Borja, São Leopoldo, State of Rio Grande do Sul.

RGE Sul holds the concession for operation of its activities for a thirty-year period, up to November 5, 2027, its concession area comprises 118 municipalities of the State of Rio Grande do Sul, located between the metropolitan region of Porto Alegre and the borders with Uruguay and Argentina, serving approximately 1.3 million consumers (information not reviewed by the independent auditors).

The acquisition of RGE Sul is in line with the Company’s growth strategy, especially in the distribution segment, with potential gains of scale for its operations. The Company also expects to obtain important synergies relating to the concession area of RGE Sul since another important distributor of the Group (RGE) holds concession in the state of Rio Grande do Sul.

Additional information to the acquisition of RGE Sul

a) Consideration

	RGE Sul October 31, 2016
Consideration paid, net	
Consideration directly transferred to prior shareholders	1,698,455
Reimbursements due to adjustments related to agreement clauses	(106,616)
	1,591,839

b) Assets acquired and liabilities assumed at the acquisition date

The total amount paid on the transaction was allocated at the acquisition date to the assets acquired and liabilities assumed at fair values, including intangible assets relating to the concession right. Accordingly, as the total amount paid was allocated to assets identified and liabilities assumed, no residual value was allocated as goodwill on this transaction.

51 of 92

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

The allocation of the amount paid for assets and liabilities acquired was made with amounts provisionally calculated for the financial statements as at December 31, 2016, based on analyses conducted by Management itself at the time these financial statements were prepared. The final fair values presented were pending confirmation until the completion of the economic and financial appraisal report prepared by independent appraiser, completed on October 30, 2017.

As a consequence, certain reclassifications were made to the amounts as at December 31, 2016, relating to the (i) decrease in the fair value of the concession infrastructure's intangible asset; (ii) completion of the fair value allocation and alignment of the criteria on the provision for tax, civil and labor risks; (iii) increase in the amount of trade receivables; (iv) decrease in the concession's financial asset; (v) decrease in the intangible asset relating to the operation right, as a consequence of the revision of the assumptions used to determine the value of tangible and intangible assets; and (vi) recording of deferred income tax and social contribution balances on certain adjustments. These reclassifications are within the measurement period, pursuant to CPC 15 / IFRS 3, and were considered immaterial for purposes of restatement of the 2016 financial statements.

The allocation of the purchase price paid to the fair values of the assets and liabilities acquired is as follows:

	October 31, 2016 Consolidated (preliminary)	October 31, 2016 Consolidated (final)
Current assets		
Cash and cash equivalents	95,164	95,164
Consumers, concessionaries and licensees	580,945	580,945
Other current assets	89,548	89,548
Noncurrent assets		
Consumers, concessionaries and licensees	54,111	79,501
Deferred tax assets	204,176	310,741
Concession financial asset	876,281	863,943
Intangible assets - Distribution infrastructure	1,456,472	1,444,401
Intangible acquired in this business combination	413,796	398,739
Other noncurrent assets	147,784	155,508
Current liabilities		
Trade payables	(479,031)	(479,031)
Debentures and borrowings	(24,672)	(24,672)
Taxes, fees and contributions	(65,198)	(65,198)
Sector financial liability	(29,246)	(29,246)
Regulatory charges	(60,787)	(60,787)
Other current liabilities	(114,552)	(114,552)

Noncurrent liabilities		
Debentures and borrowings	(1,131,949)	(1,131,949)
Sector financial liability	(64,939)	(64,939)
Provision for tax, civil and labor risks	(223,383)	(323,595)
Other noncurrent liabilities	(132,682)	(132,682)
Net assets acquired	1,591,839	1,591,839

Goodwill arising on acquisition

Consideration paid, net		1,591,839
(+) Non controlling shareholders interest		-
(-) Fair value of identifiable net assets acquired		1,591,839
Goodwill		-

The fair values presented above were finalized are in accordance with the economic and financial appraisal report prepared by the independent expert.

The fair values of the concession's financial asset and the distribution infrastructure's intangible asset were calculated based on the independent appraiser's report, considering the same assumptions adopted at the time of preparation of the report for Periodic Tariff Review purposes (Regulatory Remuneration Basis - "BRR").

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

c) Contingent consideration

The share purchase agreement does not contain any clauses relating to the contingent consideration to be paid to the seller.

d) Indemnification assets

The agreement for purchase of 100% of the shares of RGE Sul establishes that CPFL Jaguariúna may be indemnified, up to the limit of 15% of the total amount paid, if any losses are incurred in the future, contingent upon the compliance with specific clauses, derived from matters originated in the seller or in any of its subsidiaries established in the share purchase agreement. There are also specific clauses for two lawsuits (regulatory and environmental) in which the seller undertakes to indemnify fully CPFL Jaguariúna in the event of cash outflows relating to these lawsuits, and CPFL Jaguariúna undertakes to pass on to the seller any cash flows relating to these lawsuits that may be received in the future, in order to neutralize any effect on these two matters in particular.

The recognized final fair value of the indemnification asset is R\$ 41,974, relating to the environmental lawsuit (see item “e” below). This indemnification asset was recognized in the same amount of the fair value attributed to this contingent liability.

No indemnification asset was recognized for the regulatory lawsuit for which there is a specific indemnification clause since no contingent liability relating to this lawsuit was recognized at the acquisition date.

e) Contingent liabilities recognized

We present below the final contingent liabilities recognized in the amount of R\$150,065:

	RGE Sul October 31, 2016
Labor lawsuits (i)	11,429
Civil lawsuits (i)	83,575
Regulatory lawsuits (i)	5,850
Environmental lawsuits (ii)	41,974
Tax lawsuits (i)	7,236
	150,065
Provisions recognized in the subsidiary	173,530
Provisions for tax, civil and labor risks	323,595

i. These amounts represent the fair values of the labor, civil, regulatory and tax lawsuits for which the likelihood of loss attributed at the acquisition date is “possible” or “remote”. Considering that the settlement of these lawsuits depends on third parties, either at the judicial or administrative level, it is not possible to estimate a schedule for the occurrence of any cash outflows associated with these contingent liabilities. No indemnification asset was recognized for these contingent liabilities.

ii. Refers to the fair value attributed to a class action lawsuit for which the likelihood of loss attributed by Management, together with its legal counsel, is “possible” at the acquisition date. This class action lawsuit seeks compensation for environmental damages occurred in a woodworking and pole manufacture unit that was operated, between 1997 and 2005, by RGE Sul together with its associate at that time AES Florestal. Until 1997, this unit was operated by the former concessionaire, Companhia Estadual de Energia Elétrica (CEEE). An indemnification asset in the same amount was recognized at the acquisition date.

f) Receivables acquired

The fair value of the receivables acquired is R\$ 660,446. The gross contractual amount of the receivables is R\$ 703,672 and based on the independent expert best estimates R\$ 43,226 are not expected to be received and represent therefore the portion that is expected to represent an impairment loss.

g) Net cash outflow on the acquisition

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Consideration paid, net	1,591,839
(-) Cash and cash equivalent balances acquired	(95,164)
Cash and cash equivalents transferred, net	1,496,675

h) Financial information on the acquiree**i. On the net operating revenue and profit of the subsidiary acquired included in the consolidated financial statements in 2017:**

Considering that the acquisition date was October 31, 2016, the consolidated interim financial information as at September 30, 2017 comprises fully the revenue and the result of RGE Sul for the period. In 2016, there is no amount recognized in the consolidated interim financial information relating to the activities of RGE Sul.

ii. Consolidated financial information on the net operating revenue and profit for 2016 had the acquisition occurred on January 1, 2016:

	Operational revenue, net Jan. to Sep. 2016	Profit or loss, net Jan. to Sep. 2016
CPFL Energia consolidated	13,600,307	741,854
Pro-forma adjustments (*)	2,110,992	(51,036)
Total	15,711,299	690,818

(*) The pro forma adjustments in the net operating revenue consider the addition of the subsidiary's net operating revenue for the period in which it was not a subsidiary and, consequently, was not consolidated by the Company. The pro forma adjustments to profit for the period consider: (i) addition of the subsidiary's result for the period in which it was not consolidated by the Company; (ii) inclusion of the amortization of the intangible asset acquired on the business combination and the amortization of the fair value of the distribution infrastructure's intangible asset, had the acquisition occurred on January 1, 2016.

Average depreciation rate	3.86%	3.85%	3.81%		4.46%

The balance of construction in progress, in the consolidated balances, refers mainly to works in progress of operating and/or under development subsidiaries, especially for the projects of CPFL Renováveis, which has construction in progress of R\$ 152,027 at September 30, 2017 (R\$ 182,181 at December 31, 2016).

In conformity with CPC 20 (R1) and IAS 23, the interest on borrowings taken by subsidiaries to finance the works is capitalized during the construction phase. In the consolidated balances, in the nine months period ended September 30, 2017, R\$ 27,755 were capitalized at the rate of 9.99% p.a. (R\$ 43,568, at the rate of 11.53% p.a., in the nine months period ended September 30, 2016) (note 28).

In the consolidated balances, the depreciation amounts are recognized in the statement of profit or loss in line item "Depreciation and amortization" (note 26).

The balances disclosed in the "Business Combinations" line refer to the complementary amounts related to the acquisition of RGE Sul, which final recognition occurred on September 30, 2017, according to note 12.5.

(*) In accordance with CPC 38/IAS 39, this refers to borrowing costs directly attributable to the issuance of the respective debts.

(**) Syndicated transaction – borrowings in foreign currency, having as counterpart a group of financial institutions.

As segregated in the tables above, in conformity with CPCs 38 and 39 and IASs 32 and 39, the Group classified their debts as (i) other financial liabilities (or measured at amortized cost), and (ii) financial liabilities measured at fair value through profit or loss.

The objective of the classification as financial liabilities of borrowings measured at fair value is to compare the effects of the recognition of income and expenses derived from marking to market of derivatives, debt-related derivatives, in order to obtain more relevant and consistent accounting information. At September 30, 2017, the balance of the borrowings measured at fair value was R\$ 4,830,412 (R\$ 5,502,211 at December 31, 2016).

Changes in the fair values of these borrowings are recognized in finance income/cost of the Group. At September 30, 2017, the accumulated losses obtained on the marking to market of the borrowings were R\$ 23,963 (accumulated gains of R\$ 37,415 at December 31, 2016), which offset by the gains obtained on the marking to market of derivative financial instruments of R\$ 34,334 (R\$ 24,504 at December 31, 2016) contracted to hedge against changes in foreign exchange rates (note 32), resulted in a total net gain of R\$ 10,371 (R\$ 61,919 at December 31, 2016).

The maturities of the principal of borrowings recorded in noncurrent liabilities are scheduled as follows:

Maturity	Consolidated
From October 1st, 2018	513,541
2019	2,771,537
2020	1,620,724
2021	712,155

2022	510,261
2023 to 2027	1,320,764
2028 to 2032	515,886
2033 to 2037	21,664
Subtotal	7,986,531

(a) There is no restrictive financial covenant.

Prepayment

CPFL Paulista - In the nine-month period ended September 30, 2017, the subsidiary settled borrowings of R\$ 250,738 from J.P. Morgan bank, which original maturities would be in December 2017 and February 2018.

RGE - In the nine-month period ended September 30, 2017, the subsidiary settled borrowings of R\$ 200,672 from J.P. Morgan bank, which original maturities would be in February 2018.

CPFL Piratininga - In the nine-month period ended September 30, 2017, the subsidiary settled borrowings of R\$ 68,952 from Banco do Brasil bank, which original maturities would be in July 2017 and July 2018.

Restrictive covenants

The borrowing agreements are subject to certain restrictive covenants, including covenants that require the Company and/or its subsidiaries to maintain certain financial ratios within pre-established parameters. Moreover, these agreements contain restrictive non-financial covenants, which are complied with as per the last measurement period.

CPFL Brasil – Law 4,131 - compliance with the following financial ratios, calculated semiannually: (i) Net debt divided by EBITDA – maximum of 3.75 and (ii) EBITDA divided by Finance Income (expenses) – minimum of 2.25.

For purposes of determining covenants, the definition of EBITDA at the Company takes into consideration mainly the consolidation of subsidiaries, associates and joint ventures based on the Company's direct or indirect interests in those entities (for both EBITDA and assets and liabilities).

Borrowings for other disbursement of amounts occurred in 2017, as well as other debts, have restrictive covenants related to financial indicators, which details of the restrictive covenants are presented in the financial statements at December 31, 2016.

Specifically for borrowings from BNDES related to (i) FINEM of the subsidiaries CPFL Paulista, CPFL Piratininga and RGE and (ii) Finem III, VI, IX, XII, XIII, XV, XVI, XIX, XX, XXI, XXII, XXIV, XXV, XXVI and XXVII of the subsidiary CPFL Renováveis and its subsidiaries, the respective contracts were added in 2017 with the inclusion of new financial covenants, additional to those previously existing, which must be verified annually in the financial statements of its parent companies:

CPFL Paulista, CPFL Piratininga and RGE:

(i) Compliance, by the subsidiaries, with the financial ratios already disclosed in the notes to the consolidated financial statements for the year ended December 31, 2016;

63 of 92

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

(ii) Compliance, by CPFL Energia, with the following financial ratios:

- Net debt divided by EBITDA – maximum of 3.75;
- Equity / (Equity + Net banking debts) – minimum of 0.28.

(iii) Compliance, by State Grid Brazil Power (SGBP), with the following financial ratios:

- Equity / Total Assets – minimum of 0.30 (excluding IFRIC 12 / OCPC 01 (R1) effects).

CPFL Renováveis and subsidiaries:

(i) Compliance, by CPFL Renováveis and its subsidiaries, with the financial ratios already disclosed in the notes to the consolidated financial statements for the year ended December 31, 2016;

(ii) Compliance, by CPFL Energia, with the following financial ratios:

- Net debt divided by EBITDA – maximum of 3.75;
- Equity / (Equity + Net banking debts) – minimum of 0.28.

(iii) Compliance, by State Grid Brazil Power (SGBP), with the following financial ratios:

- Equity / Total Assets – minimum of 0.30.

The Management of the Group monitors these ratios systematically and constantly to ensure that the covenants are complied with. In the opinion of the Group's Management, all restrictive covenants and covenants whose indicators are measured semiannually and annually have been properly complied with, as per the last measurement period, that is, June 30, 2017 and December 31, 2016, respectively.

(a) the agreement has no restrictive covenants

Pre-payment

6th issue - CPFL Paulista, CPFL Piratininga and RGE – In the nine months period ended September 30, 2017, two quotas of principal were paid of the 6th issue of debentures of the subsidiaries CPFL Paulista (R\$ 405,660), CPFL Piratininga (R\$ 67,610) and RGE (R\$ 311,649), whose due date were July 2017 and 2018.

5th issue of debentures - CPFL Energia – In the nine months period ended September 30, 2017, R\$ 460,194 of the Company's 5th issue of debentures, with original maturities in October 2019 and 2020, were settled.

RESTRICTIVE COVENANTS

The debenture agreements are subject to certain restrictive covenants, including covenants that require the Company and its subsidiaries to maintain certain financial ratios within pre-established parameters. Moreover, these agreements contain restrictive non-financial covenants, which are complied with as per the last measurement period.

Debentures issued in 2017 are subject to restrictive covenants, which require from Company or its subsidiaries to maintain financial ratios, as follows:

CPFL Piratininga and RGE

Maintenance, by the Company, of the following ratios:

- Net indebtedness divided by EBITDA – maximum of 3.75;
- EBITDA divided by finance income (expenses) - minimum of 2.25;

The details of the restrictive conditions for other debts are presented in the Financial Statements of December 31, 2016.

The Management of the Group monitors these ratios systematically and constantly to ensure that the conditions are complied with. In the opinion of the Group's Management, all restrictive covenants and covenants whose indicators are measured semiannually and annually have been properly complied with, as per the last measurement period, that is, June 30, 2017 and December 31, 2016, respectively.

(18) PRIVATE PENSION PLAN

The subsidiaries have supplementary retirement and pension plans for their employees, the characteristics of which are described in note 19 to the financial statements for the year ended December 31, 2016.

18.1 Movements in the defined benefit plans

The movements in net liability occurred in the period are as follows:

Total	833,276	165,194	(58,710)	(160,843)	69,318	100,212	948,448

The provision for tax, civil, labor and other risks was based on the assessment of the risks of losses on lawsuits to which the Company and its subsidiaries are parties, where the likelihood of loss is probable in the opinion of the outside legal counselors and the Group's management.

The details of the nature of the provision for tax, civil, labor and other risks and escrow deposits are presented in the Note 22 of the financial statements at December 31, 2016.

Possible losses:

The Company and its subsidiaries are involved in other lawsuits and risks for which Management, supported by the opinion of its outside legal counselors, believes that the likelihood of a favorable outcome is possible as there is a solid defense position for these cases and, therefore, no provision was recognized. It is not yet possible to predict the outcome of the courts' decisions or any other decisions in similar proceedings considered as probable or remote.

The claims relating to possible losses at September 30, 2017 and December 31, 2016 were as follows:

	Consolidated		
	September 30, 2017	December 31, 2016	
Labor	723,054	668,005	Work accidents, risk premium for dangerousness at workplace and overtime
Civil	1,161,063	1,004,279	Personal injury, environmental impacts and overfed tariffs
Tax	4,740,916	4,611,077	ICMS, FINSOCIAL, PIS, COFINS, Income Tax and Social Contribution
Regulatory	84,616	93,827	Technical, commercial and economic-financial supervisions
Total	6,709,648	6,377,188	

Tax – there is a discussion about the deductibility for income tax of the expense recognized in 1997 relating to the commitment assumed in regard to the pension plan of employees of the subsidiary CPFL Paulista with Fundação CESP in the estimated amount of R\$ 1,167,393. In January 2016, the subsidiary obtained court decisions that authorized the replacement of the escrow deposits related to these lawsuits with financial guarantees (letter of guarantee and performance bond), for which the withdrawals on behalf of the subsidiary occurred in 2016. There is an appeal by the Office of Attorney-General of the National Treasury in both cases, without suspensive effect, which is pending a decision of the Federal Regional Court. Concurrently, in February 2017, there was a decision for the refund of the amount related to interest incurred on one of the deposits withdrawn. Therefore, the subsidiary made an escrow deposit of R\$ 206,874.

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Regarding the labor risks, as described in note 22 to the financial statements for the year ended December 31, 2016, there is a discussion about the possibility of changing the inflation adjustment index used by the Labor Court, the status of such discussion has been unchanged since then and the risk remains as possible.

Based on the opinion of their outside legal counselors, the Group's management believes that the amounts provided for reflect the current best estimate.

On January 23, 2017, the Company received a correspondence from State Grid Brazil Power Participações S.A.. (“State Grid Brazil”) informing that on that date the Share Purchase Agreement dated September 2, 2016 between State Grid Brazil, Camargo Corrêa S.A., Caixa de Previdência dos Funcionários do Banco do Brasil – PREVI, Fundação CESP, Fundação Sistel de Seguridade Social, Fundação Petrobras de Seguridade Social – PETROS, Fundação SABESP de Seguridade Social — SABESPREV, and certain other parties, had been signed.

Possible losses:

184

After finalizing the transaction, State Grid Brazil became the parent company of CPFL Energia with 54.64% (556,164,817 shares, direct or indirect) of the Company's voting and total capital.

With the transaction, State Grid Brazil became the only controlling shareholder of the Company, and the Shareholders' Agreement dated March 22, 2002 signed among the former shareholders was terminated.

On August 14, 2017, the Company disclosed to the Market that Bradespar S.A., due to the merger of its subsidiaries Antares Holdings Ltda. and Brumado Holdings Ltda., became the holder of 53,464,240 common shares issued by the Company, representing 5.25% of the total capital of the Company. This transaction does not entail any change in the Company's shareholding control or administrative structure.

The details of the items included in equity are described in the financial statements for the year ended December 31, 2016.

(24) EARNINGS PER SHARE

Earnings per share – basic and diluted

The calculation of the basic and diluted earnings per share for the quarters and nine months periods ended September 30, 2017 and 2016 was based on the profit attributable to the controlling shareholders and the weighted average number of common shares outstanding during the reporting periods.

	2017		
	3rd Quarter	Nine months	3rd Quarter
Numerator			
Profit attributable to controlling shareholders	331,813	721,173	231,5
Denominator			
Weighted average number of shares held by shareholders	1,017,914,746	1,017,914,746	1,017,914,7
Earnings per share - basic	0.33	0.71	0
Numerator			
Profit attributable to controlling shareholders	331,813	721,173	231,5
Dilutive effect of convertible debentures of subsidiary CPFL Renováveis	(2,718)	(2,718)	(7,1
Profit attributable to controlling shareholders	329,094	718,454	224,3
Denominator			
Weighted average number of shares held by shareholders	1,017,914,746	1,017,914,746	1,017,914,7
Earnings per share - diluted	0.32	0.71	0

Possible losses:

185

25.1 Adjustment of revenues from excess demand and excess reactive power

The information related to the recognition and historical data are described in note 27.1 to the financial statements for the year ended December 31, 2016.

Possible losses:

189

25.2 Periodic tariff review (“RTP”) and Annual tariff adjustment (“RTA”)

Subsidiary	Month	RTA	2017	RTA / RTP	2016
			Effect perceived by consumers (a)		Effect perceived by consumers (a)
CPFL Paulista	April	-0.80%	-10.50%	9.89%	7.55%
CPFL Piratininga	October (b)	7.69%	17.28%	-12.54%	-24.21%
RGE	June	3.57%	5.00%	-1.48%	-7.51%
RGE Sul	April	-0.20%	-6.43%	3.94%	-0.34%
CPFL Santa Cruz	March	-2.44%	-8.42%	22.51%	7.15%
CPFL Leste Paulista	March	-1.20%	-4.15%	21.04%	13.32%
CPFL Jaguari	March	-0.74%	-2.56%	29.46%	13.25%
CPFL Sul Paulista	March	-3.12%	-10.73%	24.35%	12.82%
CPFL Mococa	March	-0.95%	-3.28%	16.57%	9.02%

(a) Represents the average effect perceived by the consumer, as a result of the elimination from the tariff base of financial components that had been added in the prior tariff adjustment (information not reviewed by the independent auditors).

(b) As described in note 34.1, the RTA for CPFL Piratininga occurred in October, 2017.

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

25.3 Energy Development Account (CDE) – Low income, other tariff subsidies and tariff discounts - injunctions

All the details about CDE are described in note 27.4 of the financial statements for the year ended December 31, 2016.

In the nine months period ended September 30, 2017, revenue of R\$ 1,071,948 was recognized (R\$ 739,110 in the nine months period ended September 30, 2016), of which (i) R\$ 75,509 related to low-income subsidy (R\$ 70,912 in the nine months period ended September 30, 2016), (ii) R\$ 908,434 related to other tariff discounts (R\$ 668,198 in the nine months period ended September 30, 2016) and (iii) R\$ 88,005 related to tariff discounts - injunctions. These items were recognized against other receivables, in line item Trade receivables - Eletrobrás (note 11) and other payables in line item Tariff discounts - CDE (note 22).

25.4 Tariff flags

The system for applying the Tariff Flags is described in note 27.5 to the financial statements for the year ended December 31, 2016.

In the nine months period ended September 30, 2017, ANEEL approved the tariff flags billed from December 2016 to July 2017 of the distribution subsidiaries. The amount billed in this period was R\$ 344,278, of this amount R\$ 160,995 were used to offset part of the sector financial asset and liability (note 8) and R\$ 183,283 were passed on to the Centralizing Account for Tariff Flag Resources (CCRB). R\$ 170,241, related to tariff flag billed in August and September 2017 and not yet approved, are recorded in regulatory charges (nota 19).

25.5 Energy development account (“CDE”)

ANEEL, by means of Ratifying Resolution (“REH”) No. 2,202 of February 7, 2017, amended by REH No. 2,204 of March 7, 2017, established the definitive annual quotas of CDE for the year 2017. These quotas comprise: (i) annual quota of the CDE – USAGE account; and (ii) quota of the CDE – Energy account, related to part of the CDE contributions received by the electric energy distribution concessionaires in the period from January 2013 to January 2014, which should be charged from consumers and passed on to the CDE Account in up to five years from the RTE of 2015. Furthermore, by means of REH No. 2.004 of December 15, 2015, ANEEL established another quota intended for the amortization of the ACR Account, whose amount were updated by REH No. 2.231, of April 25, 2017, with payment and transfer to the CDE Account for the tariff period of each subsidiary.

25.6 Adjustment for refunding the Reserve Energy Charge (“EER”) of Angra III

Possible losses:

ANEEL approved through REH No. 2,214 of March 28, 2017 the republication of the energy tariff – TE and Distribution System Usage Tariff - TUSD for the distribution subsidiaries, with the purpose of refunding the amount forecast for the Reserve Energy Charge (EER) of the energy generation company UTN Almirante Alvaro Alberto - Unit III (Angra III).

The tariffs resulting from this decision were effective in April 2017, however, as the reading period of each consuming unit does not coincide with the calendar month, this reduction occurred in the revenue amounts of April and May 2017, with its impact diluted between the two periods.

The average effect perceived by consumers was: -15.28% for CPFL Paulista, -6.8% for CPFL Piratininga, -10.89% for RGE, -13.76% for RGE Sul, -13.41% for CPFL Santa Cruz, -16.49% for CPFL Jaguari, -14.81% for CPFL Leste Paulista, -14.71% for CPFL Mococa, and -14.29% for CPFL Sul Paulista.

The estimated impact of this adjustment is an average reduction of -12.85% in revenues of distribution subsidiaries in April 2017.

Interest was capitalized at an average rate of 9.40% p.a. during the nine months period ended September 30, 2017 (10.87% p.a. in the nine months period ended September 30, 2016) on qualifying assets, in accordance with CPC 20 (R1) and IAS 23.

The line item Adjustment for inflation and exchange rate changes includes the effects of losses on derivative instruments amounting to R\$ 299,160 in the nine months period ended September 30, 2017 (R\$ 1,345,605 in the nine months period ended September 30, 2016) (note 32).

(29) SEGMENT INFORMATION

The segregation of the Group's operating segments is based on the internal financial information and management structure and is made by type of business: electric energy distribution, electric energy generation (conventional and renewable sources), electric energy commercialization and services rendered activities.

Profit or loss, assets and liabilities per segment include items directly attributable to the segment, as well as those that can be allocated on a reasonable basis, if applicable. Prices charged between segments are determined based on similar market transactions. Note 1 presents the subsidiaries according to their areas of operation and provides further information on each subsidiary and its business line and segment.

The information segregated by segment is presented below, according to the criteria established by the Group's officers:

	Distribution	Generation (conventional source)	Generation (renewable source)	Commercialization
Nine months 2017				
Net operating revenue	15,320,657	506,494	996,327	2,362,0
(-) Intersegment revenues	22,710	323,729	419,460	7,8
Cost of electric energy	(10,089,747)	(91,464)	(218,864)	(1,805,18
Operating costs and expenses	(3,096,790)	(75,629)	(271,917)	(27,24

(*) Others – refer basically to assets and transactions that are not related to any of the segments identified.

(**) The intangible assets, net of amortization, were allocated to the respective segments.

(***) For total assets, the balances refer to December 31, 2016.

(30) RELATED PARTY TRANSACTIONS

The Company's controlling shareholders are as follows:

- State Grid Brazil Power Participações S.A.

Indirect subsidiary of State Grid Corporation of China, a Chinese state-owned company primarily engaged in developing and operating businesses in the electric energy sector.

- ESC Energia S.A.

Possible losses:

Subsidiary of State Grid Brazil Power Participações S.A.

The direct and indirect interests in operating subsidiaries are described in note 1.

Controlling shareholders, subsidiaries, associates, joint ventures and entities under common control and that in some way exercise significant influence over the Company and its subsidiaries and associates were considered as related parties.

The main natures and transactions are described in note 32 to the financial statements for the year ended December 31, 2016.

To ensure that the trading transactions with related parties are conducted under usual market conditions, the Group set up a "Related Parties Committee", comprising representatives of the controlling shareholders, of the Company and an independent member, which analyzes the main transactions with related parties.

The total compensation of key management personnel in the nine months period ended September 30, 2017, as required by CVM Resolution 560/2008, was R\$ 50,675 (R\$ 41,764 in the nine months period ended September 30, 2016). This amount is comprised by R\$ 49,625 related to short-term benefits (R\$ 40,805 in the nine months period ended September 30, 2016), R\$ 925 to post-employment benefits (R\$ 836 in the nine months period ended September 30, 2016) and R\$ 126 to others long-term benefits (R\$ 123 in the nine months period ended September 30, 2016), and refers to the amount recognized on the accrual basis.

Transactions with entities under common control basically refers to transmission system charge paid by the Company's subsidiaries to the direct or indirect subsidiaries of State Grid Corporation of China.

Transactions between related parties involving controlling shareholders, entities under common control or significant influence and joint ventures are as follows:

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

(31) RISK MANAGEMENT

The risk management structure and the main risk factors that affect the Group's business are disclosed in note 34 to the financial statements for the year ended December 31, 2016.

(32) FINANCIAL INSTRUMENTS

The main financial instruments, classified in accordance with the Group's accounting practices, are:

	Note	Category	Measurement	Level (*)	Consolidated September 30 Carrying amount
Assets					
Cash and cash equivalent	5	(a)	(2)	Level 1	2,945,009
Cash and cash equivalent	5	(a)	(2)	Level 2	887,147
Derivatives	32	(a)	(2)	Level 2	588,572
Derivatives - Zero-cost collar	32	(a)	(2)	Level 3	63,102
Concession financial asset - distribution	10	(b)	(2)	Level 3	6,062,420
					10,546,250
Liabilities					
Borrowings - principal and interest	16	(c)	(1)	Level 2 (**)	6,952,926
Borrowings - principal and interest	16	(a)	(2)	Level 2	4,820,626
Debentures - Principal and interest	17	(c)	(1)	Level 2 (***)	8,047,395
Derivatives	32	(a)	(2)	Level 2	121,594
					19,942,541

(*) Refers to the hierarchy for fair value measurement

(**) As a result of the initial designation of this financial liability, the consolidated balances reported a loss of R\$ 61, nine months period ended September 30, 2017 (loss of R\$ 228,814 in the nine months period ended September 30

(***) Only for disclosure purposes, in accordance with CPC 40

(R1) / IFRS 7

Key**Category:**

(a) - Measured at fair value through profit or loss

(b) - Available for sale

Measurement:(1) - Measured at
amortized cost(2) - Measured at fair
value

Possible losses:

208

(c) - Other financial liabilities

The financial instruments for which the carrying amounts approximate the fair values, due to their nature, at the end of the reporting period are:

- Financial assets: (i) consumers, concessionaires and licensees, (ii) leases, (iii) intercompany loans between associates, subsidiaries and parent company, (iv) receivables – Eletrobras, (v) concession financial asset – transmission companies, (vi) pledges, funds and restricted deposits, (vii) services rendered to third parties, (viii) collection agreements and (ix) sector financial asset;
- Financial liabilities: (i) trade payables, (ii) regulatory charges, (iii) use of public asset, (iv) consumers and concessionaires, (v) FNDCT/EPE/PROCEL, (vi) collection agreement, (vii) reversal fund, (viii) payables for business combination, (ix) tariff discounts – CDE and (x) sector financial liability.

In addition, in the nine months period ended September 30, 2017 there were no transfers between the fair value hierarchy levels.

a) Measurement of financial instruments

As mentioned in note 4, the fair value of a security corresponds to its maturity value (redemption value) adjusted to present value by the discount factor (relating to the maturity date of the security) obtained from the market interest curve, in Brazilian reais.

CPC 40 (R1) and IFRS 7 require the classification into a three-level hierarchy for fair value measurement of financial instruments, based on observable and unobservable inputs related to the measurement of a financial instrument at the measurement date.

CPC 40 (R1) and IFRS 7 also define observable inputs as market data obtained from independent sources and unobservable inputs as those that reflect market assumptions.

The three levels of the fair value hierarchy are:

Level 1: Quoted prices in an active market for identical instruments;

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Level 2: Observable inputs other than quoted prices in an active market that are observable for the asset or liability, directly (i.e. as prices) or indirectly (i.e. derived from prices);

Level 3: Instruments whose relevant factors are not observable market inputs.

As the distribution concessionaries classified the respective concession financial assets as available-for-sale, the relevant factors for fair value measurement are not publicly observable. Therefore, the fair value hierarchy classification is level 3. The movements and respective gains (losses) in profit for or loss for the nine months period ended September 30, 2017 are R\$ 97,155 (R\$ 209,683 in the nine months period ended September 30, 2016) and the main assumptions are described in note 10.

Additionally, the main assumptions used in the fair value measurement of the zero-cost collar derivative, the fair value hierarchy of which is Level 3, are disclosed in note 32 b.1.

The Company recognizes in the consolidated, in “Investments at cost”, the 5.94% interest held by the indirect subsidiary Paulista Lajeado Energia S.A. in the total capital of Investco S.A., comprising 28,154,140 common shares and 18,593,070 preferred shares. As this company does not have shares listed on the stock exchange and considering that the main objective of its operations is to generate electric energy that will be traded by the shareholders holding the concession, the Company elected to recognize the investment at cost.

b) Derivatives

The Group has the policy of using derivatives to hedge against the risks of fluctuations in exchange and interest rates, without any speculative purposes. The Group has currency hedges in a volume compatible with the net exchange exposure, including all assets and liabilities tied to exchange rate changes.

The hedging instruments entered into by the Group are currency or interest rate swaps with no leverage component, margin call requirements or daily or periodic adjustments. Furthermore, in 2015 the subsidiary CPFL Geração contracted a zero-cost collar derivative (see item b.1 below).

As a large part of the derivatives entered into by the subsidiaries have their terms fully aligned with the hedged debts, and in order to obtain more relevant and consistent accounting information through the recognition of income and expenses, these debts were designated for the accounting recognition at fair value (note 16). Other debts that have terms different from the derivatives contracted as a hedge continue to be recognized at amortized cost. Furthermore, the Group did not adopt hedge accounting for transactions with derivative instruments.

At September 30, 2017, the Group had the following swap transactions, all traded on the over-the-counter market:

(Free Translation of the original in Portuguese)

For further details on terms and information on debts and debentures, see notes 16 and 17

(1) The interest rate hedge swaps have half-yearly validity, so the notional value reduces according to the amortization of the debt.

(2) Due to the characteristics of this derivative (zero-cost collar), the notional amount is presented in U.S. dollar.

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

As mentioned above, certain subsidiaries elected to mark to market debts for which they have fully debt-related derivatives instruments (note 16).

The Group has recognized gains and losses on their derivatives. However, as these derivatives are used as a hedging instrument, these gains and losses minimized the impacts of fluctuations in exchange and interest rates on the hedged debts. For the quarters and nine months periods ended September 30, 2017 and 2016, the derivatives generated the following impacts on the consolidated profit or loss, recognized in the line item of Finance expenses on adjustment for inflation and exchange rate changes:

Company	Hedged risk / transaction	Account	3rd Quarter 2017	2016
CPFL Energia	Exchange variation	Finance expense - swap transaction	-	-
CPFL Energia	Mark to Market	Finance expense - fair value adjustment	-	-

b.1) Zero-cost collar derivative transactions entered into by CPFL Geração

In 2015, the subsidiary CPFL Geração entered into a transaction involving put options and call options in US\$, both having the same institution as counterpart, and that combined are featured as a transaction usually known as zero-cost collar. Entering into this transaction does not have any speculative purpose, inasmuch as it is aimed at minimizing any negative impacts on future revenue of the joint venture ENERCAN, which has electric energy sale agreements with annual adjustment of part of the tariff based on the dollar variation. In addition, according to Management's view, the scenario in 2015 was favorable to enter into this type of financial instrument, considering the high volatility implicit in dollar options and the fact that there is no initial cost for this type of transaction.

The total amount contracted was US\$ 111,817, with due dates between October 1, 2015 and September 30, 2020. At September 30, 2017, the total amount contracted was US\$ 70,191, considering the options already settled until this date. The strike prices of the dollar options vary from R\$ 4.20 to R\$ 4.40 for put options and from R\$ 5.40 to R\$7.50 for call options.

These options were measured at fair value in a recurring manner, as required by IAS 39/CPC 38. The fair value of the options that are part of this transaction was calculated based on the following assumptions:

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Valuation technique(s) and key information	We used the Black Scholes Option Pricing Model, which aims to obtain the fair price of the options involving the following variables: value of the asset, strike price of the option, interest rate, term and volatility.
Significant unobservable inputs	Volatility determined based on the average market pricing calculations, future dollar and other variables applicable to this specific transaction, with average variation of 17.6%.
Relationship between unobservable inputs and fair value (sensitivity)	A slight rise in long-term volatility, analyzed separately, would result in an insignificant increase in fair value. If the volatility were 10% higher and all the other variables remained constant, the net carrying amount (asset) would increase by R\$ 591, resulting in a net asset of R\$ 63,693.

The following table reconciles the opening and closing balances of the call and put options for the nine months period ended September 30, 2017, as required by IFRS 13/CPC 46:

	Asset	Consolidated Liability	Net
At December 31, 2016	57,715	-	57,715
Measurement at fair value	22,126	-	22,126
Net cash, received from settlement of flows	(16,739)	-	(16,739)
At September 30, 2017	63,102	-	63,102

The fair value measurement of these financial instruments was recognized as finance income in the statement of profit or loss for the period, and no effects were recognized in other comprehensive income.

c) Sensitivity analysis

In compliance with CVM Instruction No. 475/2008, the Group performed sensitivity analyses of the main risks to which their financial instruments (including derivatives) are exposed, mainly comprising changes in exchange and interest rates.

When the risk exposure is considered asset, the risk to be taken into account is a reduction in the pegged indexes, due to a consequent negative impact on the Group's profit or loss. Similarly, if the risk exposure is considered liability, the risk is of an increase in the pegged indexes and the consequent negative effect on the profit or loss. The Group therefore quantify the risks in terms of the net exposure of the variables (dollar, euro, CDI, IGP-M, IPCA, TJLP and SELIC), as shown below:

Possible losses:

c.1) Changes in exchange rates

Considering that the net exchange rate exposure at September 30, 2017 is maintained, the simulation of the effects by type of financial instrument for three different scenarios would be:

Instruments	Exposure R\$ thousand (a)	Risk	Consolidated	
			Exchange depreciation (b)	Decrease (increase) Currency appreciation of 25% (c)
Financial liability instruments	(4,590,320)		(202,710)	995,547
Derivatives - Plain Vanilla Swap	4,641,218		204,958	(1,006,586)
	50,898	drop in the dollar	2,248	(11,039)
Financial liability instruments	(282,542)		(18,871)	56,482
Derivatives - Plain Vanilla Swap	283,708		18,949	(56,715)
	1,165	drop in the euro	78	(233)
Total	52,063		2,326	(11,272)

Instruments	Exposure US\$ thousand (a)	Risk	Consolidated	
			Currency depreciation (b)	Decrease (increase) Currency appreciation of 25% (c)
Derivatives zero-cost collar	70,191	raise in the dollar	(67,171)	(90,702)

(a) The exchange rate considered at 9/30/2017 was R\$ 3.17 per US\$ 1.00 and R\$ 3.74 per € 1.00.

(b) As per the exchange rate curves obtained from information made available by B3 S.A., with the exchange rate being considered at R\$ 3.31 and R\$ 3.99, and the currency depreciation at 4.42% and 6.68%, for US\$ and €, respectively.

(Free Translation of the original in Portuguese)

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

(c) As required by CVM Instruction No. 475/2008, the percentage increases in the ratios applied refer to the information made available by the B3 S.A..

(d) Owing to the characteristics of this derivative (zero-cost collar), the notional amount is presented in US\$.

Except for the zero-cost collar, as the net exchange exposure of the dollar and euro for the other derivative instruments is an asset, the risk is a drop in the dollar and euro, therefore, the exchange rate is appreciated by 25% and 50% in relation to the probable exchange rate.

c.2) Changes in interest rates

Assuming that: (i) the scenario of net exposure of the financial instruments indexed to floating interest rates at September 30, 2017 is maintained, and (ii) the respective annual indexes accumulated in the last 12 months, for this base date, remain stable (CDI 8.14% p.a.; IGP-M -1.45% p.a.; TJLP 7.00% p.a.; IPCA 2.47% p.a. and SELIC 11.40% p.a.), the effects that would be recognized in the consolidated financial statements for the next 12 months would be a net finance cost of R\$ 920,804 (expenses of CDI R\$ 721,153, TJLP R\$ 305,251 and SELIC R\$ 32,711, and finance income of IGP-M R\$ 857 and IPCA R\$ 137,454). In the event of fluctuations in the indexes according to the three scenarios defined, the amount of the net finance cost would be impacted by:

Instruments	Exposure (a) R\$ thousand	Risk	Consolidated	
			Scenario I (a)	Raising/Drop index by 25% (b)
Financial asset instruments	4,529,045		(48,461)	31,5
Financial liability instruments	(8,837,495)		94,561	(61,6
Derivatives - Plain Vanilla Swap	(4,550,920)		48,695	(31,7
	(8,859,370)	CDI apprec	94,795	(61,7
Financial liability instruments	(59,096)	IGP-M apprec	(2,612)	(3,0
Financial liability instruments	(4,360,731)	TJLP apprec	-	(76,3
Financial liability instruments	(590,442)		(7,262)	(1,8
Derivatives - Plain Vanilla Swap	92,972		1,144	2
Concession financial asset	6,062,420		74,568	18,4
	5,564,950	drop in the IPCA	68,449	16,9
Financial liability instruments	(107,412)		4,554	2,6
Sectorial financial assets and liabilities	(179,526)		7,612	4,3

Possible losses:

220

	(286,938)	SELIC apprec.	12,166	7,0
Total	(8,001,185)		172,798	(117,1

(a) The CDI, IGP-M, TJLP, IPCA and SELIC indexes considered of: 7.07%, 2.97%, 7.00%, 3.70% and 7.16%, respectively, were obtained from information available in the market.

(b) As required by CVM Instruction 475/2008, the percentages of increase or decrease were applied to the indexes in scenario I.

(33) NON-CASH TRANSACTIONS

	Parent Company		Consolidated	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

(34) SIGNIFICANT FACT AND EVENTS AFTER THE REPORTING PERIOD

34.1 Annual tariff adjustment (“RTA”) – CPFL Piratininga

On October 17, 2017, the ANEEL’s Collegiate Body approved the 2017 annual tariff adjustment (“RTA”) of subsidiary CPFL Piratininga. The tariffs were adjusted on average 7.69%, of which 6.33% is related to the economic adjustment and 1.37% related to financial components, in relation to the last tariff event (RTA/2016). The average effect to be perceived by the consumers is 17.28% (as disclosed in the Ratification Resolution), when compared with the RTA occurred in October 2016. The new tariffs are effective from October 23, 2017 to October 22, 2018.

34.2 Mandatory Tender Offer

As presented in the note 38.5 of financial statements at December 31, 2016, State Grid Brazil Power Participações will conduct a mandatory tender offer resulting from transfer of control for acquisition of all the common shares held by the remaining shareholders of CPFL (“Mandatory Tender Offer”).

At March 27, 2017, the Company’s extraordinary general meeting decided on the (i) selection of Credit Suisse (Brasil) S.A. for determining the Company’s economic value; (ii) cancelation of the Company’s listing with CVM as issuer of securities registered under the category “A”, and their conversion into category “B”; and (iii) Company’s withdrawal from the Novo Mercado.

On June 12, 2017, CVM requested State Grid to file the appraisal reports relating to the Mandatory Tender Offers, or alternatively, file the adjusted offering documentation foreseeing only the Mandatory Tender Offers, through direct sale of the Company’s control or indirect sale of the CPFL Renováveis’ control. In a material fact disclosed on July 7, 2017, State Grid informed that it had decided to proceed only with the Mandatory Tender Offers for the sale of control of the Companies required, in relation to each of the Companies.

On October 30 and 31, 2017, State Grid Brazil disclosed a Material Fact reporting that:

(i) on October 26, 2017, the CVM formally approved all relevant documents and the continuity of the Mandatory Tender Offer, pursuant to article 254-A of Law 6,404, article 29 of CVM Instruction 361, the Novo Mercado Listing Rules of B3 S.A. – Brasil, Bolsa, Balcão and the CPFL Energia’s bylaws;

(ii) as a result of such approval, in accordance with article 11 of the CVM Instruction 361/02, State Grid Brazil published on October 31, 2017, the Form of Notice of the Offer, with its applicable detailed terms and conditions.

The Offer is valid for a period of 30 (thirty) days, beginning on October 31, 2017, the date of publication of the Notice, and ending on November 30, 2017, the date set forth in the Invitation to Bid.

34.3 Issue of debentures – CPFL Paulista

At the Board of Directors' Meeting held on August 21, 2017, the 8th issue of simple debentures of the subsidiary CPFL Paulista, not convertible into shares, unsecured typed, with a personal guarantee, in up to 3 (three) series, was approved. On October 24, 2017 the amount of R\$ 700,000 was fully paid in.

34.4 Issue of debentures – RGE Sul

At the Board of Directors' Meeting held on August 21, 2017, the 5th issue of simple debentures of the subsidiary CPFL Paulista, not convertible into shares, unsecured typed, with a personal guarantee, in up to 3 (three) series, was approved, in the total amount of R\$ 300,000. On October 24, 2017 the subsidiary disclosed a Market Notice related to the suspension of the analysis of the application for registration of the public offering of the 5th issue of debentures, for a period of 30 business days from the date of the Market Notice release.

Independent Auditors' Report on Review of Interim Financial Information (Draft)

(A free translation of the original report in Portuguese, as filed with the Brazilian Securities and Exchange Commission (CVM), prepared in accordance with the accounting practices adopted in Brazil, rules of the CVM and of the International Financial Reporting Standards - IFRS)

To the Shareholders and Board Directors of

CPFL Energia S.A.

Campinas - SP

Introduction

We have reviewed the individual and consolidated, interim financial information, of CPFL Energia S.A. (“the Company”), included in the Quarterly Information Form (ITR), for the quarter ended September 30, 2017, which comprises the statement of financial position as of September 30, 2017 and the respective statements of profit or loss and other comprehensive income for the three and nine month periods then ended, and the changes in equity and cash flows for the nine month period then ended, comprising the explanatory notes.

Management is responsible for the preparation of the interim financial information in accordance with CPC 21(R1) Technical Pronouncement - Interim Financial Information and International Standard IAS 34 - Interim Financial Reporting, issued by International Accounting Standards Board - IASB, and for presentation of this interim financial information in accordance with the rules issued by Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the quarterly information - ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with the Brazilian and international standard on interim review (NBC TR 2410 - *Revisão de Informações Intermediárias Executada pelo Auditor da Entidade* and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. The scope of a review is substantially less than an audit conducted in accordance with auditing standards and, consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Standard Interim Financial Statements – ITR Date: September 30, 2017 - CPFL Energia S.A.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information referred above is not prepared, in all material respects, in accordance with CPC 21(R1) and the IAS 34, issued by IASB, applicable to the preparation of the Quarterly Information and presented in accordance with the rules issued by Brazilian Securities and Exchange Commission (CVM).

Other matters - Statements of Value Added

The individual and consolidated interim financial information, related to statements of value added (DVA) for the nine month period ended September 30, 2017, prepared under the responsibility of the Company's management, and presented as supplementary information for the purposes of IAS 34, were submitted to the same review procedures followed together with the review of the Company's interim financial information. In order to form our conclusion, we evaluated whether these statements are reconciled to the interim financial information and to the accounting records, as applicable, and whether their form and content are in accordance with the criteria set on Technical Pronouncement CPC 09 - Statement of Value Added. Based on our review, nothing has come to our attention that causes us to believe that the accompanying statements of value added are not prepared, in all material respects, in accordance with the individual and consolidated interim financial information taken as a whole.

Other matter relating to corresponding information

The corresponding amounts related to individual and consolidated statement of financial position for the year ended December 31, 2016, were audited by another auditor who issued an unmodified opinion dated March 13, 2017. The corresponding amounts related to the individual and consolidated statement of profit or loss, other comprehensive income, changes in equity, cash flows and value added (supplementary information), for the three and nine months periods ended September 30, 2016, disclosed for comparative purpose and restated due to the matters described on Note 2.8, were also reviewed by another auditor who expressed an unmodified conclusion dated November 6, 2017.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
