***Reportable Segments***

The Financial Accounting Standards Board ( FASB ) issued Financial Accounting Standards ( SFAS ) No. 131, *Disclosures about Segments of an Enterprise and Related Information*, which establishes standards for reporting financial and descriptive information about an enterprise's reportable segments. The Company's operating segments consist of commercial properties, which include activities related to investing in real estate including retail, office, and distribution properties, and mortgage notes receivable. Although the Company's commercial properties and mortgage notes receivable are geographically diversified throughout the United States, the chief operating decision maker evaluates operating performance on an overall portfolio level, therefore the Company's properties and mortgage notes receivable have been aggregated into one reportable segment.

***Investment in Real Estate Assets***

The Company continually monitors events and changes in circumstances that could indicate that the carrying amounts of its real estate and related intangible assets may not be recoverable. Impairment losses are recorded on long-lived assets used in operations, which includes the operating property, when indicators of impairment are present and the assets' carrying amount is greater than the sum of the future undiscounted cash flows, excluding interest, estimated to be generated by those assets. The Company has certain properties under operating leases with impairment indicators. The undiscounted future operating cash flow scenarios expected from the use of the properties and related intangible assets and their eventual disposition continue to exceed the carrying value of the assets as of June 30, 2008. Except as discussed in the note relating to real estate assets held for sale, no impairment losses were recorded for the three and six months ended June 30, 2008. The Company recorded an impairment loss of approximately \$5.4 million during the three and six months ended June 30, 2007.

***Real Estate Assets Held for Sale***

The Company continually monitors the performance of its properties, including their demographics, potential current capital appreciation, and tenants and may identify properties for potential disposition based on such performance characteristics. During the three months ended September 30, 2007, the Company identified one property based on such performance characteristics that it elected to market for sale. Therefore, as of September 30, 2007, the Company reclassified its consolidated statements of operations to reflect income and expenses for the property held for sale as discontinued operations and reclassified its consolidated balance sheets to reflect assets related to such property as held for sale.

On February 1, 2008, the tenant of the property held for sale filed for Chapter 11 bankruptcy protection and, as a result, the Company elected to no longer market the property for sale. Accordingly, the Company no longer classified the property as a discontinued operation within its consolidated statements of operations or its consolidated balance sheet at December 31, 2007. The Company reclassified the property as held for investment during the six months ended June 30, 2008. The Company reduced the carrying value of the real estate and related intangible assets to their estimated fair value and recorded an impairment loss of approximately \$3.6 million during the six months ended June 30, 2008. No

## Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

additional impairment losses were recorded for the three months ended June 30, 2008. No assets were identified as held for sale during the three and six months ended June 30, 2007.

### ***Investment in Direct Financing Leases***

The Company evaluates the leases associated with its properties in accordance with SFAS No. 13, *Accounting for Leases* ( SFAS No. 13 ). For the Company's real estate property leases classified as direct financing leases, the building portion of the property leases are accounted for as direct financing leases while the land portion of these leases are accounted for as operating leases. For the direct financing leases, the Company records an asset (net investment) representing the aggregate future minimum lease payments, estimated residual value of the leased property and deferred incremental direct costs less unearned income. Income is recognized over the life of the lease to approximate a level rate of return on the net investment. Residual values, which are reviewed quarterly, represent the estimated amount the Company expects to receive at lease termination from the disposition of leased property. Actual residual values realized could differ from these estimates. Write-downs of estimated residual value are recognized as permanent impairments in the current period. There were no write-downs recognized during the three and six months ended June 30, 2008 and 2007.

***Investment in Mortgage Notes Receivable***

Mortgage notes receivable consist of loans acquired by the Company, which are secured by real estate. Mortgage notes receivable are recorded at stated principal amounts net of any discount or premium and deferred loan origination costs and fees. The related discounts or premiums on mortgage notes receivable purchased are amortized or accreted over the life of the related mortgage receivable. The Company defers certain loan origination and commitment fees, and amortizes them as an adjustment of the mortgage notes receivable's yield over the term of the related mortgage receivable. The Company evaluates the collectibility of both interest and principal on each mortgage note receivable to determine whether it is collectible. A mortgage note receivable is considered to be impaired, when based upon current information and events, it is probable that the Company will be unable to collect all amounts due according to the existing contractual terms. When a mortgage note receivable is considered to be impaired, the amount of loss is calculated as the amount that the recorded investment exceeds the greater of the value determined by discounting the expected future cash flows at the mortgage note receivable's effective interest rate or the value of the underlying collateral if the mortgage note receivable is collateralized. Interest income on performing mortgage note receivable is accrued as earned. Interest income on impaired mortgage notes receivable is recognized on a cash basis. No impairment losses were recorded related to mortgage notes receivable for the three and six months ended June 30, 2008 and 2007.

***Fair Value Measurements***

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 emphasizes that fair value is a market-based measurement, as opposed to a transaction-specific measurement. In February 2008, the FASB issued Staff Position No. SFAS 157-1, *Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13* (FSP 157-1). FSP 157-1, which is effective upon the initial adoption of SFAS 157, excludes SFAS Statement No. 13, as well as other accounting pronouncements that address fair value measurements on lease classification or measurement under SFAS 13, from the scope of SFAS 157. In February 2008, the FASB issued Staff Position No. SFAS 157-2, *Effective Date of FASB Statement No. 157* (FSP 157-2), which delays the effective date of SFAS 157 for all nonrecurring nonfinancial assets and liabilities until fiscal years beginning after November 15, 2008. Accordingly, FSP 157-2 will be effective for the Company beginning January 1, 2009, and all other aspects of SFAS 157 were effective for the Company on January 1, 2008. The adoption of this guidance has not had a material impact on the Company's condensed consolidated unaudited financial statements.

Fair value is defined by SFAS No. 157 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Depending on the nature of the asset or liability, various techniques and assumptions can be used to estimate the fair value. Financial assets and liabilities are measured using inputs from three levels of the fair value hierarchy, as defined in SFAS No. 157. The three levels are as follows:

**Level 1** Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date. An active market is defined as a market in which transactions for the assets or liabilities occur with sufficient frequency and

volume to provide pricing information on an ongoing basis.

Level 2 Inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active (markets with few transactions), inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that derived principally from or corroborated by observable market data correlation or other means (market corroborated inputs).

Level 3 Unobservable inputs, only used to the extent that observable inputs are not available, reflect the Company's assumptions about the pricing of an asset or liability.

**COLE CREDIT PROPERTY TRUST II, INC.****NOTES TO CONDENSED CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS (Continued)****June 30, 2008**

In accordance with the fair value hierarchy described above, the following table shows the fair value of the Company's financial assets and liabilities that are required to be measured at fair value as of June 30, 2008.

**Note 4 Real Estate Acquisitions**

During the six months ended June 30, 2008, the Company acquired a 100% interest in 61 commercial properties for an aggregate purchase price of approximately \$425.5 million. In addition to cash from net proceeds of the Offerings, the Company financed the acquisitions with approximately \$120.2 million of mortgage loans and the assumption of approximately \$24.7 million of mortgage loans. The mortgage loans generally are secured by the individual property on which the loan was made. The Company allocated the purchase price of these properties, including aggregate acquisition costs of approximately \$11.3 million, to the fair market value of the assets acquired and liabilities assumed. The Company allocated approximately \$145.3 million to land, approximately \$278.7 million to building and improvements, approximately \$48.7 million to acquired in-place leases, approximately \$38.2 million to acquired below-market leases, and approximately \$2.2 million to acquired above-market leases during the six months ended June 30, 2008. Additionally, during the six months ended June 30, 2008, the Company capitalized approximately \$108,000 of expenditures relating to building and improvements, which will be depreciated over the estimated useful life of each asset.

## Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

The Company has acquired a property subject to the obligation to pay the seller additional monies depending on the future leasing and occupancy of the property. These earnout payments are based on a predetermined formula. Each earnout agreement has a time limit regarding the obligation to pay any additional monies. If at the end of the time period, certain space has not been leased and occupied, the Company will not have any further obligation. Assuming all the conditions are satisfied, the Company would be obligated to pay approximately \$2.2 million in accordance with the purchase agreement. The Company is in the process of determining the fair value for this contingent consideration and may record an adjustment to the fair value of the property assets acquired once this determination is made.

### **Note 5 Investment in Mortgage Notes Receivable**

As of June 30, 2008, the Company owned 69 mortgage notes receivable, which are secured by 43 restaurant properties and 26 retail properties (collectively, the Mortgage Notes ). The mortgage notes receivable balance of approximately \$86.1 million as of June 30, 2008 consists of the face value of the Mortgage Notes of approximately \$77.6 million, an approximately \$6.9 million premium, and approximately \$2.0 million of acquisition costs, net of accumulated amortization of approximately \$393,000. The premium and acquisition costs will be amortized over the terms of each respective Mortgage Note using the effective interest rate method. The Mortgage Notes mature on various dates from August 1, 2020 to January 1, 2021. Interest and principal is due each month at interest rates ranging from 8.60% to 10.47% per annum.

The variable rates are generally equal to the one-month, two-month, three-month, or six-month LIBOR plus 180 to 210 basis points, determined by the aggregate amount borrowed in accordance with the agreement, or 0.25% plus the greater of (i) the federal funds rate plus 0.50% or (ii) Bank of America's prime rate. The Credit Facility matures in May 2011, with the option to extend to May 2012. As of June 30, 2008, the Company had no amounts outstanding under the Credit Facility; \$135.0 million was available. **Note 8 Related-Party Transactions and Arrangements**

Certain affiliates of the Company receive, and will continue to receive fees and compensation in connection with the Offerings, and the acquisition, management and sale of the assets of the Company. Cole Capital Corporation ( Cole Capital ), the affiliated dealer manager, receives, and will continue to receive, a selling commission of up to 7.0% of gross offering proceeds, before reallocation of commissions earned by participating broker-dealers, in connection with the Follow-on Offering. In addition, Cole Capital receives, and will continue to receive, 2.0% of gross offering proceeds, before reallocation to participating broker-dealers, as a dealer manager fee, in connection with the Follow-on Offering. Cole Capital, in its sole discretion, may reallocate all or a portion of its dealer-manager fee to such participating broker-dealers as a marketing and due diligence expense reimbursement, based on factors such as the volume of shares sold by such participating broker-dealers and the amount of marketing support provided by such participating broker-dealers. No selling commissions or dealer-manager fees are paid to Cole Capital in respect to shares sold under the DRIP. During the three and six months ended June 30, 2008, the Company paid approximately \$24.7 million and approximately \$43.9 million, respectively, to Cole Capital for commissions and dealer manager fees, of which approximately \$20.6 million and approximately \$36.4 million, respectively, was reallocated to participating broker-dealers. The Company will not reimburse Cole Advisors II for personnel costs in connection with services for which Cole Advisors II receives acquisition fees or real estate commissions.

Financing coordination fees payable from loan proceeds from permanent financing will be paid to Cole Advisors II or its affiliates as the Company acquires such permanent financing. However, no finance coordination fees will be paid on loan proceeds from any line of credit until such time as all net offering proceeds have been invested by the Company. ( Cole Realty Advisors ), its affiliated property manager, fees for the management and leasing of the Company's properties. Such fees equaled 2.0% of gross revenues plus leasing commissions at prevailing market rates during the three and six months ended June 30, 2008. In accordance with the property management agreement, the Company may pay Cole Realty Advisors up to (i) 2.0% of gross revenues from the Company's single tenant properties and (ii) 4.0% of gross revenues from the Company's multi-tenant properties, plus leasing commissions at prevailing market rates; provided however, that the aggregate of all property management and leasing fees paid to affiliates plus all payments to third parties will not exceed the amount that other nonaffiliated management and leasing companies generally charge for similar services in the same geographic location. Cole Realty Advisors may subcontract its duties for a fee that may be less than the fee provided for in the property management agreement. During the three and six months ended June 30, 2008, the Company paid to Cole Realty Advisors approximately \$724,000 and approximately \$1.4 million, respectively, for property management fees. In no event will the combined real estate commission paid to Cole Advisors II, its affiliates and unaffiliated third parties exceed 6% of the contract sales price. In addition, after investors have received a return of their net capital contributions and an 8% annual cumulative, non-compounded return, then Cole Advisors II is entitled to receive 10% of the remaining net sale proceeds. During the three and six months ended June 30, 2008 and 2007, the Company did not pay any fees or amounts to Cole Advisors II relating to the sale of properties.

Upon listing of the Company's common stock on a national securities exchange, a fee equal to 10% of the amount by which the market value of the Company's outstanding stock plus all distributions paid by the Company prior to listing, exceeds the sum of the total amount of capital raised from investors and the amount of cash flow necessary to generate an 8% annual cumulative, non-compounded return to investors will be paid to Cole Advisors II (the Subordinated Incentive Listing Fee ).

Upon termination of the advisory agreement with Cole Advisors II, other than termination by the Company because of a material breach of the advisory agreement by Cole Advisors II, a performance fee of 10% of the amount, if any, by which (i) the appraised asset value at the time of such termination plus total distributions paid to stockholders through the termination date exceeds (ii) the aggregate capital contribution contributed by investors less distributions from sale proceeds plus payment to investors of an 8% annual, cumulative, non-compounded return on capital. No subordinated performance fee will be paid to the extent that the Company has already paid or become obligated to pay Cole Advisors II a subordinated participation in net sale proceeds or the Subordinated Incentive Listing Fee.

The loan proceeds were used to acquire properties with a purchase price of approximately \$63.6 million, exclusive of closing costs. The loan bears interest at variable rates equal to the one-month LIBOR rate plus 200 basis points with monthly interest-only payments, and the outstanding principal and accrued and unpaid interest due in full on March 31, 2009. In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States (GAAP). SFAS No. 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles*. The Company does not expect the application of SFAS No. 162 to result in a change to the Company's current practices.

**Note 11 Independent Directors Stock Option Plan**

The Company has a stock option plan, the Independent Director's Stock Option Plan (the IDSOP), which authorizes the grant of non-qualified stock options to the Company's independent directors, subject to the absolute discretion of the board of directors and the applicable limitations of the plan. The Company intends to grant options under the IDSOP to each qualifying director annually. Such options generally vest within one year from the date of grant. The exercise price for the options granted under the IDSOP was \$9.15 per share for 2005 and 2006 and \$9.10 per share for 2007 and 2008. It is intended that the exercise price for future options granted under the IDSOP will be at least 100% of the fair market value of the Company's common stock as of the date the option is granted. As of June 30, 2008 and December 31, 2007, the Company had granted options to purchase 40,000 and 30,000 shares, respectively. As of June 30, 2008, 30,000 shares were vested. A total of 1,000,000 shares have been authorized and reserved for issuance under the IDSOP. On January 1, 2006, we adopted SFAS No. 123 (revised 2004), *Share-Based Payment* (SFAS 123R), which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors, including stock options related to the IDSOP, based on estimated fair values. The Company adopted SFAS 123R using the modified prospective application. Accordingly, prior period amounts were not restated.

During the three and six months ended June 30, 2008, the Company recorded stock-based compensation charges of approximately \$2,000 and approximately \$4,000, respectively. During the three and six months ended June 30, 2007, the Company recorded stock-based compensation charges of approximately \$8,000 and approximately \$22,000, respectively. Stock-based compensation expense is based on awards ultimately expected to vest and reduced for estimated forfeitures. SFAS 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The Company's calculations do not assume any forfeitures.

During the three and six months ended June 30, 2008, options to purchase 10,000 shares at \$9.10 were granted, options for 10,000 shares became vested, and no options were forfeited or exercised. During the three and six months ended June 30, 2007, no options to purchase shares were granted, options for 10,000 shares became vested, and no options were forfeited or exercised. As of June 30, 2008, options to purchase 40,000 shares at a weighted average exercise price of \$9.13 per share remained outstanding with a weighted average contractual remaining life of approximately eight years. As of June 30, 2008, there was approximately \$7,000 of total unrecognized compensation cost related to unvested share-based compensation awards granted under the IDSOP. That cost is expected to be recognized through June 30, 2009.

**Note 12 Subsequent Events**

*Sale of Shares of Common Stock*

As of August 11, 2008, the Company had received approximately \$1.6 billion in gross offering proceeds through the issuance of 159,062,863 shares of its common stock in the Offerings (including shares sold pursuant to the DRIP). As of August 11, 2008, approximately 25.1 million shares remained available for sale to the public for an aggregate offering price of approximately \$250.6 million in the Follow-on Offering, exclusive of shares available under the DRIP. As of August 11, 2008, 104.2 million shares had been sold in the Follow-on Offering (including shares sold pursuant to the DRIP).

***Real Estate Acquisitions***

Subsequent to June 30, 2008, the Company acquired a 100% interest in 11 commercial properties for an aggregate purchase price of approximately \$177.7 million. The Company allocated the purchase price of these properties, including aggregate acquisitions costs, to the fair market value of the assets acquired and liabilities assumed.

***Mortgage Notes Payable***

Subsequent to June 30, 2008, the Company issued two mortgage notes payable, totaling \$55.0 million, of which \$19.0 million was fixed rate debt which bears interest at 6.80% and matures August 2018, and \$36.0 million was variable rate debt which bears interest at the 30 day LIBOR rate plus 200 basis points, not to exceed 7.0% pursuant to a rate cap agreement, and matures September 2010. The Company repaid an aggregate of approximately \$13.3 million, of which approximately \$3.8 was variable rate debt and approximately \$9.5 million was fixed rate debt, related to three mortgage notes payable. The Company also borrowed \$140 million and subsequently repaid \$120 million on the Credit Facility subsequent to June 30, 2008. As of August 11, 2008, \$115 million was available under the Credit Facility.

***Extended Rate Lock Agreement***

Subsequent to June 30, 2008, the Company entered into a Rate Lock Agreement to lock an interest rate of 5.87% for up to \$33.0 million in borrowings. As of August 11, 2008, the Company had no borrowings under the Rate Lock Agreement and no rate lock deposits outstanding.

### Overview

We commenced our principal operations on September 23, 2005, when we issued the initial 486,000 shares of common stock in the Initial Offering. Prior to such date, we were considered a development stage company.

Our operating results and cash flows are primarily influenced by rental income from our commercial properties and interest expense on our property acquisition indebtedness. Rental income accounted for approximately 90% of total revenue during the three and six months ended June 30, 2008. As approximately 99% of the rentable square feet at our properties is under lease, with an average remaining lease term of approximately 12.8 years, we believe our exposure to short-term

**COLE CREDIT PROPERTY TRUST II, INC.**

**NOTES TO CONDENSED CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS (Continued)**

**June 30, 2008**

changes in commercial rental rates on our portfolio is substantially mitigated. Our advisor regularly monitors the creditworthiness of our tenants by reviewing the tenant's financial results, credit rating agency reports (if any) on the tenant or guarantor, the operating history of the property with such tenant, the tenant's market share and track record within its industry segment, the general health and outlook of the tenant's industry segment, and other information for changes and possible trends. If our advisor identifies significant changes or trends that may adversely affect the creditworthiness of a tenant, it will gather a more in-depth knowledge of the tenant's financial condition and, if necessary, attempt to mitigate the tenant credit risk by evaluating the possible sale of the property, or identifying a possible replacement tenant should the current tenant fail to perform on the lease. As of June 30, 2008, the debt leverage ratio of our portfolio, which is the ratio of mortgage notes payable to total gross assets, was approximately 42%, with approximately 7% of the debt, or \$77.3 million, subject to variable interest rates. We intend to manage our interest rate risk on our existing real estate portfolio by repaying approximately \$77.3 million, or 100% of our Variable Rate Debt, at or prior to its various maturity dates, which range from February 1, 2009 through August 30, 2009. Approximately \$3.8 million was repaid as of August 11, 2008. We expect to fund the repayments with net proceeds from the sale of our common stock in the Follow-on Offering or debt refinancings. Additionally, as we continue to raise capital from the sale of our common stock in the Follow-on Offering and invest the proceeds in commercial real estate, we will be subject to changes in real estate prices and changes in interest rates on new indebtedness used to acquire the properties. We may manage our risk of changes in real estate prices on future property acquisitions by entering into purchase agreements and loan commitments simultaneously so that our operating yield is generally determinable at the time we purchase the property, by contracting with developers for future delivery of properties, or by entering into sale-leaseback transactions.

The current mortgage lending and interest rate environment for real estate in general continues to be uncertain. We have experienced and may continue to experience more stringent lending criteria, which may affect our ability to finance certain property acquisitions. Additionally, for properties in which we are able to obtain acquisition financing, the interest rates on such loans may be unacceptable. We expect to manage the current mortgage lending environment by utilizing fixed rate loans if the terms are acceptable, borrowings on our existing \$135.0 million Credit Facility, short-term variable rate loans, assuming existing mortgage loans in connection with property acquisitions, or we may enter into interest rate lock agreements. We may also acquire a much larger percentage of our properties for cash without financing. If we are unable to obtain suitable financing for future acquisitions or we acquire a larger percentage of our properties for cash without financing, our results of operations may be adversely affected. Additionally, if we are unable to identify suitable properties at appropriate prices in the current credit environment, we may have a larger amount of uninvested cash, which may adversely affect our results of operations. We will continue to evaluate alternatives in the current market, including purchasing or originating debt backed by real estate, which could produce attractive yields in the current market environment.

As of June 30, 2008, we owned 298 single-tenant, freestanding retail properties, 78 single-tenant freestanding commercial properties, and 18 multi-tenant retail properties, of which approximately 99% of the rentable space was leased. During the three months ended June 30, 2008, we acquired 11 single-tenant, freestanding retail properties, four single-tenant, freestanding commercial properties and two multi-tenant retail properties. During the six months ended June 30, 2008, we acquired 48 single-tenant, freestanding retail properties, nine single-tenant, freestanding commercial properties and four multi-tenant retail properties (See Note 4 to the condensed consolidated unaudited financial statements accompanying this Quarterly Report on Form 10-Q). Our results of operations are not indicative of those expected in future periods as we expect that rental income, operating expenses, asset management fees, depreciation expense, interest expense, and net income will each increase in the future as we acquire additional properties and as our current properties are owned for an entire period.

**Results of Operations**

*Revenue.* Revenue increased approximately \$25.3 million, or approximately 134%, to approximately \$44.1 million for the three months ended June 30, 2008, compared to approximately \$18.8 million for the three months ended June 30, 2007. Our revenue primarily consists of rental income from net leased commercial properties, which accounted for approximately 90% and approximately 94% of total revenues during the three months ended June 30, 2008 and 2007, respectively.

Rental income increased approximately \$22.0 million, or approximately 124%, to approximately \$39.7 million for the three months ended June 30, 2008, compared to approximately \$17.7 million for the three months ended June 30, 2007. The increases in rental income and tenant reimbursement income were primarily due to the acquisition of 212 new properties subsequent to June 30, 2007.

Earned income from direct financing leases increased approximately \$607,000, to approximately \$611,000 for the three months ended June 30, 2008, compared to approximately \$4,000 for the three months ended June 30, 2007. Interest income on mortgage notes receivable was approximately \$1.8 million for the three months ended June 30, 2008, with no mortgage notes receivable interest income recorded for the three months ended June 30, 2007. The primary general and administrative expense items are legal and accounting fees, state franchise and income taxes, escrow and trustee fees, and other licenses and fees.

The decrease was primarily due to lower average uninvested cash during the three months ended June 30, 2008 as compared to the three months ended June 30, 2007, in addition to lower interest rates. The average cash balance was approximately \$46.1 million and approximately \$53.6 million during the three months ended June 30, 2008 and 2007, respectively.

*Interest Expense.* Interest expense increased approximately \$8.6 million, or approximately 107%, to approximately \$16.6 million for the three months ended June 30, 2008, compared to approximately \$8.0 million during the three months ended June 30, 2007. The increase in average mortgage notes payable was due to our issuance or assumption of 45 new mortgage notes subsequent to June 30, 2007 and an increase of weighted average interest rate to approximately 5.85% at June 30, 2008 from approximately 5.70%.

Our property acquisitions during the three months ended June 30, 2008 were purchased with proceeds from the Follow-on Offering and available cash. Our interest expense in future periods will vary based on our level of future borrowings, which will depend on the level of proceeds raised in the Follow-on Offering, the cost of borrowings, and the opportunity to acquire real estate assets which meet our investment objectives.

Asset management fees increased approximately \$1.7 million, or approximately 202%, to approximately \$2.5 million for the six months ended June 30, 2008 from approximately

## Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

\$840,000 for the six months ended June 30, 2007. The increase in asset management fees was primarily due to an increase in the average gross book value of properties owned of approximately \$1.3 billion, or approximately 167%, to approximately \$2.1 billion at June 30, 2008 from approximately \$776.2 million at June 30, 2007.

*Depreciation and Amortization Expenses.* Depreciation and amortization expenses increased approximately \$16.6 million, or approximately 153%, to approximately \$27.5 million for the six months ended June 30, 2008, compared to approximately \$10.9 million for the six months ended June 30, 2007. The increase was primarily due to an increase in the average gross book value of properties owned of approximately \$1.3 billion, or approximately 167%, to approximately \$2.1 billion at June 30, 2008 from approximately \$776.2 million at June 30, 2007. The increase in average gross book value is due to the acquisition of 212 new properties subsequent to June 30, 2007.

*Impairment of Real Estate Assets.* Impairment on real estate assets decreased approximately \$1.9 million, or approximately 34%, to approximately \$3.6 million for the six months ended June 30, 2008, compared to approximately \$5.4 million for the six months ended June 30, 2007. Impairment losses were recorded on one property during the six months ended June 30, 2008 and one property during the six months ended June 30, 2007, as discussed in Note 2 to our condensed consolidated unaudited financial statements in this Quarterly Report on Form 10-Q.

*Interest Income.* Interest income decreased approximately \$310,000, or approximately 33%, to approximately \$628,000 during the six months ended June 30, 2008, compared to approximately \$938,000 for the six months ended June 30, 2007. The decrease was primarily due to lower average uninvested cash during the six months ended June 30, 2008 as compared to the six months ended June 30, 2007, in addition to lower interest rates. The average cash balance was approximately \$79.6 million and approximately \$83.5 million during the six months ended June 30, 2008 and 2007, respectively.

*Interest Expense.* Interest expense increased approximately \$21.5 million, or approximately 163%, to approximately \$34.6 million for the six months ended June 30, 2008, compared to approximately \$13.1 million during the six months ended June 30, 2007. The increase was primarily due to an increase in the average mortgage notes payable outstanding during the six months ended June 30, 2008 to approximately \$1.0 billion from approximately \$429.5 million during the six months ended June 30, 2007. The increase in average mortgage notes payable was due to our issuance or assumption of 45 new mortgage notes subsequent to June 30, 2007 and an increase of weighted average interest rate to approximately 5.85% at June 30, 2008 from approximately 5.70%.

Our property acquisitions during the six months ended June 30, 2008 were financed in part with short-term and long-term notes payable as discussed in Note 6 to our condensed consolidated unaudited financial statements in this Quarterly Report on Form 10-Q. Our interest expense in future periods will vary based on our level of future borrowings, which will depend on the level of proceeds raised in the Follow-on Offering, the cost of borrowings, and the opportunity to acquire real estate assets which meet our investment objectives.

## **Funds From Operations**

We believe that funds from operations ( FFO ) is a beneficial indicator of the performance of a REIT. Because FFO calculations exclude such factors as depreciation and amortization of real estate assets and gains or losses from sales or impairment of operating real estate assets (which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful-life estimates), they facilitate comparisons of operating performance between periods and between other REITs. Our management believes that accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictability over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. As a result, we believe that the use of FFO, together with the required GAAP presentations, provide a more complete understanding of our performance relative to our competitors and a more informed and appropriate basis on which to make decisions involving operating, financing, and investing activities. Other REITs may not define FFO in accordance with the current National Association of Real Estate Investment Trust s ( NAREIT ) definition or may interpret the current NAREIT definition differently than we do.

## Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

FFO is a non-GAAP financial measure and does not represent net income as defined by GAAP. Net income as defined by GAAP is the most relevant measure in determining our operating performance because FFO includes adjustments that investors may deem subjective, such as adding back expenses such as depreciation and amortization. Accordingly, FFO should not be considered as an alternative to net income as an indicator of our operating performance.

## Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

Our calculation of FFO is presented in the following table for the periods ended as indicated:

	<b>Three Months Ended</b>			<b>Six Months Ended</b>	
	<b>June 30, 2008</b>	<b>June 30, 2007</b>		<b>June 30, 2008</b>	<b>June 30, 2007</b>
Net income (loss)	\$ 7,047,454	\$ (3,366,779)	)	\$ 7,634,107	\$ (1,682,052)
Add:					
Depreciation of real estate assets	9,259,374	4,488,351		17,992,484	7,459,585
Amortization of lease related costs	4,860,576	2,121,238		9,495,169	3,421,269
Impairment on real estate assets		5,400,000		3,550,000	5,400,000
FFO	\$ 21,167,404	\$ 8,642,810		\$ 38,671,760	\$ 14,598,802

Set forth below is additional information (often considered in conjunction with FFO) that may be helpful in assessing our operating results:

In order to recognize revenues on a straight-line basis over the terms of the respective leases, we recognized additional revenue by straight-lining rental revenue of approximately \$2.1 million and approximately \$4.2 million during the three and six months ended June 30, 2008, respectively, and approximately \$926,000 and approximately \$1.5 million during the three and six months ended June 30, 2007, respectively.

Amortization of deferred financing costs totaled approximately \$1.0 million and approximately \$2.8 million during the three and six months ended June 30, 2008, respectively and approximately \$316,000 and approximately \$608,000 during the three and six months ended June 30, 2007, respectively.

### Liquidity and Capital Resources

We expect to continue to raise capital through the sale of our common stock and to utilize the net proceeds from the sale of our common stock and proceeds from secured or unsecured financings to complete future property acquisitions. As of June 30, 2008, we had received and accepted subscriptions for an aggregate of 145,234,544 shares (includes shares issued through DRIP) of common stock in our Offerings for gross proceeds of approximately \$1.5 billion.

#### *Short-term Liquidity and Capital Resources*

We expect to meet our short-term liquidity requirements through net cash provided by property operations and proceeds from the sale of our common stock. We expect our operating cash flows to increase as additional properties are added to our portfolio. We expect that approximately 88.6% of the gross proceeds from the sale of our common stock will be invested in real estate, approximately 9.1% will be used to pay sales commissions, dealer manager fees and offering and organizational costs, with the remaining 2.3% used to pay acquisition and advisory fees and acquisition expenses. The offering and organizational costs associated with the sale of our common stock are initially paid by our advisor and reimbursed by us up to 1.5% of the capital raised by us in connection with our offering of shares of common stock. As of June 30, 2008, Cole Advisors II had paid approximately \$10.9 million of offering and organization costs since the inception of the Initial Offering and we had reimbursed our advisor for approximately \$10.9 million of such costs, of which approximately \$59,000 was expensed as organizational costs.

Subsequent to June 30, 2008, we completed the acquisition of nine single-tenant properties and two multi-tenant properties for an aggregate purchase price of approximately \$177.7 million, exclusive of closing costs. The acquisitions were funded with proceeds from the Follow-on Offering, borrowings from our Credit Facility, and available cash.

On June 30, 2008, our board of directors declared a daily distribution of \$ 0.00191257 per share for stockholders of record as of the close of business on each day of the period commencing on July 1, 2008 and ending on September 30, 2008. The payment date for each record date in July 2008 will be in August 2008, the payment date for each record date in August 2008 will be in September 2008, and the payment date for each record date in September 2008 will be in October 2008.

**Long-term Liquidity and Capital Resources**

We expect to meet our long-term liquidity requirements through proceeds from the sale of our common stock, proceeds from secured or unsecured financings from banks and other lenders, the selective and strategic sale of properties and net cash flows from operations. We expect that our primary uses of capital will be for property acquisitions, for the payment of tenant improvements, for the payment of offering-related costs, for the payment of operating expenses, including interest expense on any outstanding indebtedness, and for the payment of distributions to our stockholders.

We expect that substantially all net cash generated from operations will be used to pay distributions to our stockholders after certain capital expenditures, including tenant improvements and leasing commissions, are paid with respect to the properties; however, we may use other sources to fund distributions as necessary. To the extent that cash flows from operations are lower due to fewer properties being acquired or lower returns on the properties, distributions paid to our stockholders may be lower. We expect that substantially all net cash resulting from equity or debt financing will be used to fund acquisitions, certain capital expenditures identified at acquisition, repayments of outstanding debt, or distributions to our stockholders.

As of June 30, 2008, we had cash and cash equivalents of approximately \$43.8 million, which we expect to be used primarily to invest in additional real estate, pay operating expenses and pay stockholder distributions.

As of June 30, 2008, we had approximately \$1.0 billion of debt outstanding, consisting of approximately \$961.3 million in fixed rate mortgage loans and approximately \$77.3 million in variable rate mortgage loans. The weighted average interest rate at June 30, 2008, under the fixed rate mortgage loans was approximately 5.85% and the variable rate mortgage interest rates range from LIBOR plus 150 to 195 basis points. Additionally, the ratio of total debt to total gross assets was approximately 42% and the weighted average years to maturity was approximately 7.4 years.

On May 23, 2008, the Company entered into a revolving credit facility providing for up to \$135.0 million of secured borrowings. The amount of the revolving line of credit may be increased up to a maximum of \$235.0 million, with each increase being no less than \$25.0 million. Loans under the revolving line of credit bear interest at variable rates depending on the type of loan used. The variable rates are generally equal to the one-month, two-month, three-month, or six-month LIBOR plus 180 to 210 basis points, determined by aggregate amount borrowed in accordance with the agreement, or 0.25% plus the greater of (i) the federal funds rate plus 0.50% or (ii) Bank of America's prime rate. The revolving line of credit matures in May 2011, with the option to extend to May 2012. As of June 30, 2008, \$135.0 million was available under the revolving line of credit.

Our contractual obligations as of June 30, 2008, are as follows:

		<b>Payments due by period (2)</b>				
			<b>Less Than 1</b>			<b>More Than 5</b>
		<b>Total</b>	<b>Year</b>	<b>1-3 Years</b>	<b>4-5 Years</b>	<b>Years</b>

## Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

- (1) Rates ranging from 3.96% to 4.13% were used to calculate the variable debt payment obligations in future periods. These were the rates effective as of June 30, 2008.
- (2) Principal paydown amounts are included in payments due by period.

## Cash Flow Analysis

### *Six Months Ended June 30, 2008 Compared to the Six Months Ended June 30, 2007*

*Operating Activities.* Net cash provided by operating activities increased approximately \$22.7 million, or approximately 140%, to approximately \$38.8 million for the six months ended June 30, 2008, compared to approximately \$16.1 million for the six months ended June 30, 2007. The increase was primarily due to increases in net income of approximately \$9.3 million and depreciation and amortization expenses totaling approximately \$16.7 million, offset primarily by a decrease in impairment of real estate assets of approximately \$1.9 million, an increase in rents and tenant receivables of approximately \$3.0 million and a decrease in accounts payable and accrued expenses of approximately \$1.4 million for the three months ended June 30, 2008. See Results of Operations for a more complete discussion of the factors impacting our operating performance.

*Investing Activities.* Net cash used in investing activities decreased approximately \$234.4 million, or approximately 37%, to approximately \$405.7 million for the six months ended June 30, 2008, compared to approximately \$640.1 million for the six months ended June 30, 2007. The decrease is primarily due to our acquisition of 61 properties, with an average purchase price of \$7.0 million during the six months ended June 30, 2008, compared to the acquisition of 91 properties, with an average purchase price of \$6.8 million during the six months ended June 30, 2007.

*Financing Activities.* Net cash provided by financing activities decreased approximately \$297.2 million, or approximately 45%, to approximately \$367.2 million for the six months ended June 30, 2008, compared to approximately \$664.4 million for the six months ended June 30, 2007. The decrease was primarily due to a decrease in proceeds from mortgage and affiliate notes payable of approximately \$337.1 million and an increase in repayment of mortgage and affiliate notes payable of approximately \$127.2 million, offset primarily by an increase in net proceeds from the issuance of common stock of approximately \$208.3 million. The decrease in proceeds from issuance of mortgage and affiliate notes payable was due to the issuance of five new mortgage notes during the six months ended June 30, 2008, compared to the issuance of 70 new mortgage notes during the six months ended June 30, 2007.

## Election as a REIT

We are taxed as a REIT under the Internal Revenue Code of 1986, as amended. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to distribute at least 90% of our ordinary taxable income to stockholders. As a REIT, we generally will not be subject to federal income tax on taxable income that we distribute to our stockholders. If we fail to qualify as a REIT in any taxable year, we will then be subject to federal income taxes on our taxable income for four years following the year during which qualification is lost, unless the Internal Revenue Service grants us relief under certain statutory provisions. Such an event could materially adversely affect our net income and net cash available for distribution to stockholders. However, we believe that we are organized and operate in such a manner as to qualify for treatment as a REIT for federal income tax purposes. No provision for federal income taxes has been made in our accompanying condensed consolidated unaudited financial statements. We are subject to certain state and local taxes related to the operations of properties in certain locations, which have been provided for in our accompanying financial statements.

## Inflation

We are exposed to inflation risk as income from long-term leases is the primary source of our cash flows from operations. There are provisions in the majority of our tenant leases that protect us from, and mitigate the risk of, the impact of inflation. These provisions include rent steps and

## Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

clauses enabling us to receive payment of additional rent calculated as a percentage of the tenants' gross sales above pre-determined thresholds. In addition, most of our leases require the tenant to pay all or a majority of the operating expenses, including real estate taxes, special assessments and sales and use taxes, utilities, insurance and building repairs related to the property. However, due to the long-term nature of the leases, the leases may not reset frequently enough to fully cover inflation.

### **Critical Accounting Policies and Estimates**

Our accounting policies have been established to conform to GAAP. The preparation of financial statements in conformity with GAAP requires us to use judgment in the application of accounting policies, including making estimates and assumptions. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to the various transactions had been different, it is possible that different accounting policies would have been applied, thus resulting in a different presentation of the financial statements. Additionally, other companies may utilize different estimates that may impact comparability of our results of operations to those of companies in similar businesses. We consider our critical accounting policies to be the following:

Investment in Real Estate Assets;  
Allocation of Purchase Price of Acquired Assets;  
Investment in Direct Financing Leases;  
Investment in Mortgage Notes Receivable;  
Revenue Recognition; and  
Income Taxes.

A complete description of such policies and our considerations is contained in our Annual Report on Form 10-K for the year ended December 31, 2007. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with our audited consolidated financial statements as of and for the year ended December 31, 2007, and related notes thereto.

### **Commitments and Contingencies**

We are subject to certain contingencies and commitments with regard to certain transactions. Refer to Note 7 to our condensed consolidated unaudited financial statements accompanying this Quarterly Report on Form 10-Q for further explanations.

### **Related-Party Transactions and Agreements**

We have entered into agreements with Cole Advisors II and its affiliates, whereby we pay certain fees or reimbursements to our advisor or its affiliates for acquisition fees and expenses, organization and offering costs, sales commissions, dealer manager fees, asset and property management fees and reimbursement of operating costs. Additionally, we have entered into certain transactions with affiliates of Cole Advisors II. See Note 8 to our condensed consolidated unaudited financial statements included in this Quarterly Report on Form 10-Q for a discussion of the various related-party transactions, agreements and fees.

### **Subsequent Events**

Certain events occurred subsequent to June 30, 2008 through the date of this Quarterly Report on Form 10-Q. Refer to Note 12 to our condensed consolidated unaudited financial statements included in this Quarterly Report on Form 10-Q for further explanation. Such events include:

## Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

Sale of shares of common stock;  
Acquisition of various properties;  
Mortgage notes payable issued and repaid;  
Credit Facility borrowings and repayments; and  
Execution of an extended rate lock agreement.

### **New Accounting Pronouncements**

Refer to Note 10 to our condensed consolidated unaudited financial statements included in this Quarterly Report on Form 10-Q for further explanation of applicable new accounting pronouncements.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

In connection with property acquisitions, we have obtained variable rate debt financing (see Note 6 to our condensed consolidated unaudited financial statements included in this Quarterly Report on Form 10-Q) to fund certain property acquisitions, and therefore we are exposed to interest rate changes in the LIBOR rate. Our objectives in managing interest rate risk will be to limit the impact of interest rate changes on operations and cash flows, and to lower overall borrowing costs. To achieve these objectives, we will borrow primarily at interest rates with the lowest margins available and, in some cases, with the ability to convert variable interest rates to fixed rates. We may enter into derivative financial instruments such as interest rate swaps and caps in order to mitigate our interest rate risk on a given financial instrument. We will not enter into derivative or interest rate transactions for speculative purposes. We also enter into rate lock arrangements to lock interest rates on future borrowings. During the six months ended June 30, 2008, we did not enter into any rate lock agreements.

As of June 30, 2008, approximately \$77.3 million of the approximately \$1.0 billion outstanding on mortgage notes payable was subject to variable interest rates, which bear interest at the one-month LIBOR rate plus 150 to 195 basis points. As of June 30, 2008, a 1% change in interest rates would result in a change in interest expense of approximately \$773,000 per year.

We do not have any foreign operations and thus we are not exposed to foreign currency fluctuations.

### Item 4. Controls and Procedures

In accordance with Rules 13a-15(b) and 15d-15(b) of the Securities Exchange Act of 1934, as amended (the Exchange Act), we, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures, as of June 30, 2008, were effective for the purpose of ensuring that information required to be disclosed by us in this Quarterly Report on Form 10-Q is recorded, processed, summarized and reported within the time periods specified by the rules and forms promulgated under the Exchange Act, and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures.

No change occurred in our internal controls over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the three months ended June 30, 2008 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

## **PART II**

### **OTHER INFORMATION**

#### **Item 1. Legal Proceedings**

We are not a party to, and none of our properties are subject to, any material pending legal proceedings.

#### **Item 1A. Risk Factors**

There have been no material changes from the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2007.

#### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

On June 27, 2005, we commenced our Initial Offering (SEC Registration No. 333-121094). On November 13, 2006, we increased the aggregate amount of shares available for the Initial Offering pursuant to a related Registration Statement on Form S-11 (SEC Registration No. 333-138663). On May 23, 2007, we commenced the Follow-on Offering of up to 150,000,000 shares of common stock pursuant to a Registration Statement on Form S-11 (SEC Registration No. 333-138444) which was declared effective by the Securities and Exchange Commission on May 11, 2007. The Follow-on Offering includes up to 125,000,000 shares to be offered for sale at \$10.00 per share in the primary offering and up to 25,000,000 shares to be offered for sale pursuant to the DRIP.

As of June 30, 2008, we had accepted subscriptions for 145,234,544 shares (including shares sold pursuant to the DRIP and excludes redemptions) of common stock in the Offerings, resulting in gross proceeds of approximately \$1.5 billion, out of which we paid costs of approximately \$122.7 million in selling commissions and dealer manager fees, approximately \$42.8 million in acquisition fees, approximately \$11.1 million in finance coordination fees, and approximately \$10.9 million in organization and offering costs to Cole Advisors II or its affiliates. Total net offering proceeds from the Initial Offering and Follow-on Offering are thus approximately \$1.3 billion as of June 30, 2008. With the net offering proceeds and indebtedness, we acquired approximately \$2.4 billion in real estate and related assets. As of August 11, 2008 we had sold an aggregate of approximately 159.1 million shares in our Offerings for gross offering proceeds of \$1.6 billion (including shares sold pursuant to the DRIP). We did not sell any unregistered equity securities during the six months ended June 30, 2008.

Our board of directors has adopted a share redemption program that enables our stockholders who hold their shares for more than one year to sell their shares to us in limited circumstances. The purchase price we will pay for redeemed shares is set forth in the prospectus for our Follow-on Offering of common stock, as supplemented from time to time. Our board of directors reserves the right in its sole discretion at any time, and from time to time, to (1) waive the one-year holding period in the event of death, bankruptcy or other exigent circumstances, (2) reject any request for redemption, (3) change the purchase price for redemptions, or (4) terminate, suspend or amend the share redemption program. Under the terms of the share redemption program, during any calendar year, we will not redeem in excess of 3% of the weighted average number of shares outstanding during the prior calendar year, however shares subject to redemption requests upon death of a stockholder will not be subject to this cap. In addition, cash available for redemption is limited to the proceeds from the sale of our shares under our DRIP.

## Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

The provisions of the share redemption program in no way limit our ability to repurchase shares from stockholders by any other legally available means for any reason that our board of directors, in its discretion, deems to be in our best interest. During the three months ended June 30, 2008, we redeemed shares as follows:

	<b>Total Number of Shares Redeemed</b>	<b>Average Price Paid per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</b>	<b>Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs</b>
April 2008	209,460	\$ 9.69	209,460	(1)
May 2008	6,626	9.25	6,626	(1)
June 2008				(1)
Total	216,086	\$ 9.67	216,086	(1)

(1) A description of the maximum number of shares that may be purchased under our share redemption program is included in the narrative preceding this table.
