Item 2.02. Results of Operations and Financial Condition.

On June 5, 2014, Rite Aid Corporation (the “Company”) announced sales results for the month of May. In connection therewith, the Company provided certain preliminary estimates of its financial results for the first quarter Fiscal 2015 and provided a revised outlook for Fiscal 2015 in the press release attached hereto as Exhibit 99.1. The Company’s actual financial results for the first quarter Fiscal 2015 have not yet been finalized. As a result, the Company’s actual results may differ from the estimates. The preliminary financial information has been prepared by, and is the sole responsibility of, the Company’s management. Deloitte & Touche LLP has not audited, reviewed, compiled or performed any procedures with respect to this preliminary financial information.

The information set forth in the press release attached hereto as Exhibit 99.1 is incorporated into this Item 2.02 by reference. The press release includes a non-GAAP financial measure, “Adjusted EBITDA.” The Company uses this non-GAAP measure in assessing its performance in addition to net income determined in accordance with GAAP. The Company believes adjusted EBITDA serves as an appropriate measure to be used in evaluating the performance of its business and helps its investors better compare the Company’s operating performance with the operating performance of its competitors. The Company defines Adjusted EBITDA as net income (loss) excluding the impact of income taxes (and any corresponding adjustment to tax indemnification asset), interest expense, depreciation and amortization, LIFO adjustments, charges or credits for facility closing and impairment, inventory write-downs related to store closings, stock-based compensation expense, debt retirements, sale of assets and investments, revenue deferrals related to the Company’s customer loyalty program and other items. The Company references this non-GAAP financial measure frequently in its decision-making because it provides supplemental information that facilitates internal comparisons to the historical operating performance of prior periods and external comparisons to competitors’ historical operating performance. In addition, incentive compensation is based in part on Adjusted EBITDA and the Company bases certain of its forward-looking estimates and budgets on Adjusted EBITDA. Adjusted EBITDA should not be considered in isolation from, and is not intended to represent an alternative measure of, operating results or of cash flows from operating activities, as determined in accordance with GAAP. The Company’s definition of Adjusted EBITDA may not be comparable to similarly titled measurements reported by other companies or similar terms in the Company’s debt facilities. The press release attached hereto as Exhibit 99.1 includes a reconciliation of Adjusted EBITDA to net income (loss), the most directly comparable GAAP financial measure.

The information furnished pursuant to this Item 2.02 shall not be deemed to be “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of such section, nor will such information be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as may be expressly set forth by specific reference in such filing.

Item 9.01. Financial Statements and Exhibits.
